Assembly Concurrent Resolution No. 44—Commending Richard F. "Chick" Perkins for his work with the Lost City Museum.

WHEREAS, Since 1933 Richard F. "Chick" Perkins has spent his time and energy helping to preserve the artifacts and cultural heritage of the Pueblo Grande Nevada Indians; and

WHEREAS, Because of the untiring efforts of "Chick" Perkins and his father, Fay Perkins, the Lost City Museum located in Overton, Nevada, has gained international recognition for its unique and extensive historical exhibits; and

WHEREAS, Richard "Chick" Perkins has spent 47 years making his dream of preserving a part of Nevada's heritage a reality; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That members of the 64th session of the Nevada Legislature hereby commend Richard F. "Chick" Perkins for his many years of devoted service, enthusiasm and hard work which has helped make the Lost City Museum one of Nevada's most fascinating as well as educational attractions; and be it further

Assemblyman Thompson moved the adoption of the resolution.

Remarks by Assemblymen Thompson and Jeffrey.

Assemblyman Thompson requested that the following remarks be entered in the Journal.

ASSEMBLYMAN THOMPSON:

Thank you, Mr. Speaker. For those of you who aren't from southern Nevada, or who are from southern Nevada but never have had the opportunity to visit the Lost City Museum in Overton, Nevada, basically it has artifacts of the Indian tribes in and around the city of St. Thomas that was covered by Lake Mead. When Hoover Dam was built, the lake was formed and over the years that the lake was formed, Chick Perkins and his father went out in these areas and they dug up all these artifacts and that is currently what the Lost City Museum is, in my district.

If you haven't had the opportunity to visit it and see all the things that they have, it is really a nice museum. It's a nice drive from Las Vegas; it is a pretty little valley in the south that you wouldn't really expect to find out in the desert.

Mr. Perkins has dedicated his entire life to finding these things and working on this museum. He and his father have made the museum what it is today. It is really very impressive and is a nice place to go right out in the middle of nowhere. If you are driving down the interstate, there is just desert.

It is very nice and if it weren't for his and his father's hard work and dedication, there wouldn't be a museum. I feel it is appropriate that we honor him for all his work.

ASSEMBLYMAN JEFFREY:

Mr. Speaker, I have had the privilege of knowing the Perkins family for many years. I knew them a long time before I represented the area that is now in Mr. Thompson's district.

Chick Perkins is the one who is probably solely responsible for the founding of the Lost City Museum. They have been a big part of that valley for over 100 years, and this resolution is certainly fitting.

Resolution adopted unanimously.

Assembly Resolution No. 7.

(a) Financial and legal consultants in regard to the financing of the water project; and

(b) A person whose business is in Nevada or elsewhere to act as a trustee for the project.

3. The bonds are fully negotiable under the terms of the Uniform Commercial Code—Investment Securities.

Sec. 17. *1. The director may, to pay the cost of any water project, borrow money or otherwise become obligated, and may provide evidence of those obligations by issuing, except as otherwise provided in this subsection, state securities or revenue bonds. If the obligor is not a governmental entity, the director shall issue only revenue bonds to fulfill the obligation.*

2. State obligations may be outstanding pursuant to this section in an aggregate principal amount of not more than $200,000,000.

3. State securities must be payable from taxes and may be additionally secured by all or any designated revenues from one or more water projects. Any governmental entity statutorily authorized to levy taxes for the payment of bonded indebtedness may use the proceeds of those taxes to pay the principal of, interest on and redemption premiums due in connection with state securities and revenue bonds issued pursuant to this section. Any such state securities may be issued without an election or other preliminaries. No state securities may be issued to refund any municipal securities issued to finance a water project before July 1, 1987.

5. The legislature finds and declares that the issuance of bonds pursuant to sections 2 to 28, inclusive, of this act, is necessary for the protection and preservation of the natural resources of this state and for the purpose of

obtaining the benefits thereof, and constitutes an exercise of the authority conferred by the second paragraph of section 3 of article 9 of the constitution of the State of Nevada.

Sec. 18. *1. The director may charge the obligor a fee not to exceed 2 percent of the principal amount of the financing, payable either in advance or at the time the bonds are issued.*

2. Whether or not bonds are issued, the director shall use any fee so collected to reimburse his office for the expenses and costs incurred in financing the project. Any portion of the fee which exceeds the director's expenses and costs must be refunded to the obligor.

Sec. 19. *1. Except as otherwise provided in subsection 3, all revenues from water projects must be deposited in the fund for the financing of water projects in the state treasury, which is hereby created.*

2. Any revenue from water projects financed with state securities which is in the fund must be applied in the following order of priority:

(a) Deposited into the consolidated bond interest and redemption fund in amounts necessary to pay the principal of, interest on and redemption premiums due in connection with state securities issued for water projects.

(b) Deposited into any reserve account created for the payment of the principal of, interest on and redemption premiums due in connection with state securities issued for water projects, in amounts and at times determined to be necessary.

(c) Paid out for expenses of operation and maintenance.

(d) Used to reimburse a municipality pursuant to the provisions of section 28 of this act.

3. Any revenue from water projects financed with revenue bonds may:

(a) Be deposited in the fund for the financing of water projects and subject to the provisions of subsection 2; or

(b) Subject to any agreement with the holders of the bonds, be invested, deposited or held by the director in such funds or accounts as he deems necessary or desirable. If the director is acting pursuant to this subsection, he need not deposit the money in the state treasury and the provisions of chapters 355 and 356 of NRS do not apply to any investments or deposits made pursuant to this subsection.

Sec. 20. *1. Any bonds issued under the provisions of sections 2 to 28, inclusive, of this act, may be refunded by the director by the issuance of refunding bonds in an amount which he deems necessary to refund the principal of the bonds to be so refunded, any unpaid interest thereon and any premiums and incidental expenses necessary to be paid in connection with refunding.*

2. Refunding may be carried out whether the bonds to be refunded have matured or thereafter mature, either by sale of the refunding bonds and the application of the proceeds to the payment of the bonds to be refunded, or by exchange of the refunding bonds for the bonds to be refunded. The holders of the bonds to be refunded must not be compelled, without their consent, to surrender their bonds for payment or exchange before the date on which they

are payable by maturity, option to redeem or otherwise, or if they are called for redemption before the date on which they are by their terms subject to redemption by option or otherwise.

3. All refunding bonds issued pursuant to this section must be payable solely from revenues and other money out of which the bonds to be refunded thereby are payable or from revenues out of which bonds of the same character may be made payable under this or any other law then in effect at the time of the refunding.

Sec. 21. *No action may be brought questioning the legality of any contract, lease, agreement, indenture, mortgage, order or bonds executed, adopted or taken in connection with any project or improvements authorized by sections 2 to 28, inclusive, of this act, after 30 days after the effective date of the order of the director authorizing the issuance of those bonds.*

Sec. 22. *The faith of the state is hereby pledged that sections 2 to 28, inclusive, of this act, will not be repealed, amended or modified to impair any outstanding bonds or any revenues pledged to their payment, or to impair, limit or alter the rights or powers vested in a city or county to acquire, finance, improve and equip a project in any way that would jeopardize the interest of any lessee, purchaser or other obligor, or to limit or alter the rights or powers vested in the director to perform any agreement made with any lessee, purchaser or other obligor, until all bonds have been discharged in full or provisions for their payment and redemption have been fully made.*

Sec. 23. *A project is not subject to any requirements relating to public buildings, structures, ground works or improvements imposed by the statutes of this state or any other similar requirements which may be lawfully waived by this section, and any requirement of competitive bidding or other restriction imposed on the procedure for award of contracts for such purpose or the lease, sale or other disposition of property is not applicable to any action taken pursuant to sections 2 to 28, inclusive, of this act.*

Sec. 24. *1. The board for financing water projects is hereby created. The board consists of five members appointed by the governor.*

2. The governor shall appoint:

(a) Four persons who are:

(1) Residents of this state; and

(2) Knowledgeable and experienced in the fields of planning and the development and reclamation of water resources.

(b) One person who is a resident of this state and knowledgeable in the field of municipal finance.

3. Not more than three members of the board may be members of the same political party and not more than two may be residents of the same county.

Sec. 25. *Each member of the board is entitled to receive a salary of $60 per day.*

Sec. 26. *The board shall:*

1. At its first meeting and annually thereafter elect a chairman from among its members.

2. Meet regularly at least once in each calendar quarter and at other times upon the call of the chairman.

Sec. 27. *1. The state engineer shall advise the board, upon its request, of the existence and status of any water rights which affect a water project under consideration by the board.*

2. Upon the board's request and within the limits of available resources and staff, the state engineer and the director may on a case by case basis assist persons in the preparation of a preliminary plan for a water project.

Sec. 28. *1. When any municipality or other obligor desires to undertake a water project it may present its preliminary plan to the board for approval. The board shall analyze the potential yield of the water project, and may tentatively approve it if it will preserve or increase the water available for beneficial use in this state.*

2. If the board, after a public hearing on the issue, tentatively approves the water project, the municipality or other obligor may proceed to prepare a final plan and submit it for final approval. If the board finally approves the water project, the cost of the final plan may be included in the cost of the water project. If the board does not finally approve the water project, the director may, within the limits of money available for this purpose in the fund for the financing of water projects, reimburse a municipality for the costs incurred after the tentative approval.

Sec. 29. NRS 354.59805 is hereby amended to read as follows:

354.59805 Except as otherwise provided in NRS 354.59816, the maximum amount of money which a local government, except a school district, a district to provide a telephone number for emergencies, or a redevelopment agency, is permitted to receive from taxes ad valorem, other than those levied for the payment of bonded indebtedness and interest thereon incurred as a general or short-term obligation of the issuer, *or for the payment of obligations issued to pay the cost of a water project pursuant to section 17 of this act,* or for the payment of obligations under a capital lease executed before April 30, 1981, must be calculated by:

1. First multiplying the tax rate certified for that local government for the fiscal year ending on June 30, 1981, by its assessed valuation as equalized for the collection of taxes during the fiscal year beginning on July 1, 1981. For the purposes of this subsection:

(a) A county whose actual tax rate, for purposes other than debt service, for the fiscal year ending on June 30, 1981, was less than 50 cents per $100 of assessed valuation is entitled to the use of a rate not greater than 80 cents per $100 of assessed valuation.

(b) A fire district in such a county whose tax rate was more than 50 cents per $100 of assessed valuation is entitled to the use of a rate not greater than $1.10 per $100 of assessed valuation.

2. Then subtracting the estimated amount to be received by that local government from the supplemental city-county relief tax for the fiscal year for which the tax ad valorem is to be levied. For the fiscal years beginning on and after July 1, 1982, the executive director of the department of taxation shall provide this estimate to the local government on or before

February 15 preceding the fiscal year to which it applies. A local government may, on or before March 1 preceding the fiscal year to which the estimate applies, appeal in writing to the Nevada tax commission, which may increase or decrease the estimate as it finds the facts warrant.

3. Then reducing the amount resulting from subsections 1 and 2 if necessary to bring it within any applicable limit provided in NRS 354.59811 or 354.59816.".

CARSON CITY (Monday), April 27, 1987

Assembly called to order at 11:20 a.m.

Mr. Speaker presiding.

Roll called.

All present.

Prayer by the Chaplain, Rabbi Myra Soiffer.

This day begins a week of remembrance across our nation and the world of the horrors of the Nazi Holocaust. We join, O God, with all those who mourn today the slaughter of millions. The tortured cries of their deaths echo loudly in our hearts and our minds as we recall a world that witnessed in silence. How many stood aside, mute and unconcerned, forgetting Your divine command, "You shall not stand idle while your neighbor bleeds." For the sin of silence, for the sin of indifference, for the secret complicity of the neutral, for the closing of borders, for the washing of hands, for the crime of indifference, for the sin of silence. Let there never again, O God, be such forgetfulness. May the memory of these millions startle us on sunny afternoons, when we laugh with friends, when we lie down and when we rise up. Never again, O Lord, shall we be silent. To the memory of those millions we pledge: "Never again!" And to that pledge let us together say,

AMEN.

Pledge of allegiance to the Flag.

Assemblyman Jeffrey moved that further reading of the Journal be dispensed with, and the Speaker and Chief Clerk be authorized to make the necessary corrections and additions.

Assembly Concurrent Resolution No. 45—Commending volunteers in Nevada.

WHEREAS, Volunteering is an American tradition; and

WHEREAS, Many public and private agencies depend upon the efforts of volunteers for the accomplishment of their missions and actively seek to increase these efforts; and

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans, Wisdom, Kerns, Getto and Jeffrey.

Assemblyman Nevin requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Assembly Concurrent Resolution No. 45 is altogether fitting and proper given the large number of men and women in our state who give untold hours freely and generously of themselves in volunteer activities. This being the commemoration year of our Constitution, we have talked about many things that are uniquely American and I would tell you that volunteers' activities and the spirit of volunteerism is unique to the United States of America.

It has been calculated that if we, through our public funds, had to pay for the many things that the men and women of our state and nation give freely of themselves in a volunteer way, it would cost in the many billions of dollars. I do urge your passage of ACR 45.

ASSEMBLYMAN WISDOM:

Thank you, Mr. Speaker. Through you and to you, I rise in support of ACR 45 on volunteerism. May I offer as an example the value of volunteers that not one of us would be here today without the forces and help of the many volunteers we had working in our campaigns; and, all the help we receive from the interns while we are here in session. As an added note, I would like to remind all of my colleagues that as of March 23rd all of us legislators became volunteers to the State of Nevada. I urge your support of this resolution.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. I also rise in support of ACR 45 on behalf of all the volunteer firefighters in Nevada and the rest of the United States.

I served for many years as a paid firefighter and a tremendous amount of times I was helped tremendously by these volunteers. These volunteers give up many, many hours every week to their training. Many of their weekends, after working a full week, are spent at the firehouse training; there have been few lives lost but there have been many of them seriously injured.

As was said before, it saves the taxpayer many thousands of dollars and these volunteers are really dedicated to their job. I just had to get a little word in for them. Thank you, Mr. Speaker.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker. I, too, am a very strong supporter and strongly realize the importance of volunteerism. I have been involved in helping the volunteer firemen and volunteer ambulance drivers who personally attended to me twice when I was injured very seriously.

I would like to talk a little bit about another volunteer today. There is a close friend and young man whom I watched over the years; this young man is seated before me. I have been personally involved with the struggles this young man has had through life. I would like to first state that this young man, Ralph Baker, has received a Presidential Citation for his volunteerism.

Let me tell you a little bit about Ralph. He was a young man working with his hands. He was a mechanic and he was good at it. When he was a little over 20 years old and started in a vocation of working with his hands, he was in a wreck that was not his fault. He was a passenger in a car. From this accident he found himself paralyzed from the neck down—he couldn't even hold a pencil. This young man went through tremendous emotional problems. But, he had that spirit, and especially that spirit of volunteerism, and instead of giving up on life and becoming a basket case, Ralph went on to the University of Nevada. He earned his Bachelors Degree, he earned his Masters and within a year he will have his Doctorate.

Can you imagine the change in this person's life who had started to be a mechanic and found himself unable to follow that vocation and had to do something with his life. I really want to commend Ralph on the tremendous deeds that he has done for others. Not only did he do for himself and go on to the University, but can you imagine the handicap this person has overcome? He has learned to drive a car—he has a van that can accommodate his wheelchair—and he has made himself self-sufficient and travels.

But, on top of that, Ralph has worked in organizing the Nevada Center for Independent Living. I'm sure that those of you who were here last session remember the work that Ralph did here to get $500,000 appropriated for the handicapped people for living accommodations. It is a tremendous program and Ralph had a big hand in that.

Ralph is always working—volunteering his time and his services for the betterment of other people. I certainly want to commend Ralph.

ASSEMBLYMAN JEFFREY:

Mr. Speaker, I rise in support of ACR 45. One of the programs that was nominated for a Presidential Award this year was the Desert Bighorn Sheep Relocation Program. Maxine Shane is with us today. Maxine is the Public Relations Director for BLM. She is the one that nominated the Fraternity for Bighorn Sheep for a Presidential Volunteer Action Award for their relocation program. The Award will be received at the White House on June 30. Maxine will you stand, please.

REMARKS FROM THE FLOOR

Assemblyman Nevin requested that Assemblyman Porter's remarks be entered in the Journal.

Thank you, Mr. Speaker. It is my pleasure to introduce to you and to this body today a woman who has had basically two careers in her life. The first began as that of a mother and homemaker—which seems to be a real dying art these days—and she was saddled with the task of raising three very fiercely independent and sometimes problem children. At the age of 43, like a lot of other women in today's time, she found herself facing a bitter separation. Faced with nothing but a high school diploma she tried to enter the marketplace to find adequate employment for herself. Finding none at that age she went back to school and put herself through nursing school where she now serves in the capacity of being in charge of the neonatal intensive care unit at Erlanger Hospital in Chattanooga, Tennessee.

I thought there was some point in time when she deserved some sort of award, so, with the help of my distinguished colleague from Reno, Mr. Nevin, I was able to make a little plaque which has a license plate in it and a little inscription at the bottom that says, "To my mother, with love and appreciation for thirty long years. Gene Porter, Nevada State Assembly, April 1987."

Mr. Speaker, my mother Connie Porter.

Thank you, Mr. Speaker. I've known Governor Russell for some years, but I wasn't serving in this body at the time he was Governor.

It isn't often we have an opportunity to be able to honor a person such as Governor Russell, who has left his mark on the historical part of the State of Nevada. He has dedicated his life to Nevada and the citizens of Nevada, and it is certainly an honor and a privilege to have Governor Russell and his lovely wife, Marjorie, at my desk. I feel very honored, Governor.

ASSEMBLYMAN BERGEVIN:

Thank you, Mr. Speaker. I have known Governor Russell and his wife, Marjorie, for a good number of years and have been closely associated with them inasmuch as my daughter is married to Charles' youngest son.

I think the resolution said all there is to say about Governor Russell.

I would like to introduce the members of his family who are here today: his oldest son, Clark, and his wife, Jean; a twin brother, David; and Todd Russell, his youngest son, and his wife, Jeanne.

If I might beg your indulgence, I would like to read it at this point and ask that it be placed in the Journal for this legislative day.

WHEREAS, the people of the State of Nevada should always remember the atrocities committed by the Nazis so that such horrors never be repeated; and

WHEREAS, the people of the State of Nevada should continually rededicate themselves to the principle of equal justice for all people; and

WHEREAS, the people of the State of Nevada should remain eternally vigilant against all tyranny, and recognize that bigotry provides a breeding ground for tyranny to flourish; and

CARSON CITY (Friday), May 1, 1987

Assembly called to order at 10:55 a.m.

Mr. Speaker presiding.

Roll called.

All present.

Prayer by the Chaplain, The Reverend Robert H. Schwartz.

The first of May; May Day, Lord! For some, May Day means a signal of distress and we all know what that means. For some distress stems from too many irons in too many fires, spread too thin with too much to do. Lord, we pray for a sense of serenity deeper than any stress that may come. The first of May for others means social unrest and struggle, a clash of values and even classes of people. This body knows well what struggle means and how difficult it is to please everyone. Lord, bless this body with wisdom and the people with patience. The first of May also means the fullness of the coming of spring, a celebration of joy and flowers. May it be that we are never too overwhelmed with stress, too distracted by struggle that we miss the simple joys so bountifully provided by Your creation. Let us delight in this day and always. AMEN.

Pledge of allegiance to the Flag.

TEXT OF REPEALED SECTIONS

119.183 Sales: Disclosure to purchaser concerning public services and utilities. Each seller of more than one lot created by a map of division into large parcels must, before the intending purchaser signs any binding agreement, disclose to him in writing by a separate document signed by the intending purchaser that the city, county, school district and special districts are not obligated to furnish any service, specifically mentioning fire protection and roads, to the land so divided, and that any public utility may be similarly free of obligation.

278.471 Divisions of land subject to NRS 278.471 to 278.4725, inclusive; exemption.

1. Except as provided in subsections 2 and 3, a proposed division of land is subject to the provisions of NRS 278.471 to 278.4725, inclusive, if each proposed lot is at least:

(a) One-sixteenth of a section as described by a government land office survey; or

(b) Forty acres in area, including roads and easements.

2. The governing body of a city, the board of county commissioners with respect to the unincorporated area, may by ordinance elect to make NRS 278.471 to 278.4725, inclusive, apply to each proposed division of land where each proposed lot is at least:

(a) One-sixty-fourth of a section as described by a government land office survey; or

(b) Ten acres in area, including roads and easements.

3. A proposed division of land into lots or parcels, each of which contains not less than one section or 640 acres, is not subject to NRS 278.471 to 278.4725, inclusive.

278.4713 Preparation, contents and filing of tentative map; accessibility of lot.

1. Unless the filing of a tentative map is waived, any person who proposes to make such a division of land shall first file a tentative map with the planning commission for the area in which the land is located, or with the clerk of the governing body if there is no planning commission, and a filing fee of no more than $250 set by the governing body.

2. This map must be:

(a) Entitled "Tentative Map of Division into Large Parcels"; and

(b) Prepared and certified by a registered land surveyor.

3. This map must show:

(a) The approximate, calculated or actual acreage of each lot and the total acreage of the land to be divided.

(b) All roads or easements of access which exist, are proposed in the applicable master plan or are proposed by the person who intends to divide the land.

(c) Any easements for public utilities which exist or which are proposed.

(d) Any existing easements for irrigation or drainage, and any normally continuously flowing watercourses.

(e) An indication of any existing road or easement which the owner does not intend to dedicate.

(f) The name and address of the owner of the land.

4. Each lot must be accessible by road or easement traversable by vehicles suited to the area, unless this requirement is waived by the governing body.

278.4715 Waiver of requirement to file tentative map; designation of easements.

1. The planning commission or, if there is no planning commission, the governing body may waive the requirement of filing the tentative map.

2. If the tentative map is filed with the planning commission or governing body, the planning commission or governing body may within 60 days designate the location and width of any easements for roads and public utilities as shown on the master plan if there is one applicable to the area to be divided, or designate the location and width of any easements for roads and public utilities which may be reasonably necessary to serve the area to be divided if there is no master plan.

3. The planning commission or governing body has no right to designate any easements after the expiration of 60 days from the filing of the tentative map.

278.472 Final map: Requirements and contents; filing.

1. After the planning commission or governing body has approved the tentative map or waived the requirement of its filing, or after the expiration of 60 days from the date of its filing, whichever is sooner, the person who proposes to divide the land may file a final map of the division with the governing body.

2. This map must be:

(a) Entitled "Map of Division into Large Parcels".

(b) Filed with the governing body within 1 year from the date that the tentative map was first filed with the planning commission or governing body or that the requirement of its filing was waived.

(c) Prepared by a registered land surveyor.

(d) Based upon an actual survey by the preparer and show the date of such survey or based upon the most recent government survey and show the date of approval of such government survey and contain a certificate by the preparer that the parcels contain the number of acres shown for each parcel.

(e) Clearly and legibly drawn in black waterproof india ink upon good tracing cloth or produced by the use of other materials of a permanent nature generally used for such purpose in the engineering profession, but affidavits, certificates and acknowledgments must be legibly stamped or printed upon the map with opaque ink.

(f) Twenty-four by 32 inches in size with a marginal line drawn completely around each sheet, leaving an entirely blank margin of 1 inch at the top, bottom, and right edges, and of 2 inches at the left edge along the 24-inch dimension.

(g) Of scale large enough to show clearly all details.

3. The particular number of the sheet and the total number of sheets comprising the map must be stated on each of the sheets, and its relation to each adjoining sheet must be clearly shown.

4. This map must show and define:

(a) All subdivision lots by number and actual acreage of each lot.

(b) All roads or easements of access which exist and which the owner intends to offer for dedication, all roads or easements of access which are shown on the applicable master plan and all roads or easements of access which are specially required by the planning commission or governing body.

(c) Any easements for public utilities which exist or are proposed.

(d) Any existing easements for irrigation or drainage, and any normally continuously flowing watercourses.

278.4725 Action on final map by governing body; recordation of map; certificates; fee for recording.

1. The governing body must approve, conditionally approve or disapprove the map filed, basing its action upon the requirements of NRS 278.472, within 45 days after its filing. If the map is disapproved, the governing body shall return the map to the person who proposes to divide the land, with the reason for its action and a statement of what changes would be necessary to render the map acceptable. If the governing body neither approves nor disapproves the map within 45 days, the map shall be deemed approved unconditionally.

2. Upon approval, the map must be filed with the county recorder. Filing with the county recorder operates as a continuing:

(a) Offer to dedicate for public roads the areas shown as proposed roads or easements of access, which the governing body may accept in whole or in part at any time or from time to time.

(b) Offer to grant the easements shown for public utilities, which any public utility may similarly accept without excluding any other public utility whose presence is physically compatible.

3. The map filed with the county recorder must include:

(a) A certificate signed and acknowledged by the owner of land consenting to the dedication of the roads and granting of the easements.

(b) A certificate signed by the clerk of the governing body that the map was approved, or the affidavit of the person presenting the map for filing that the time limited by subsection 1 for action by the governing body has expired.

4. After a map has been filed with the county recorder, any lot shown thereon may be conveyed by reference to the map, without further description.

5. The county recorder shall charge and collect for recording the map a fee of no more than $25 per page set by the board of county commissioners.".

RESOLVED, That a copy of this resolution be prepared and transmitted forthwith by the Chief Clerk of the Assembly to Anna Dressler's husband, Fred.

Assemblyman Getto moved the adoption of the resolution.

Remarks by Assemblymen Getto and Marvel.

Assemblyman Getto requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker. I thought it would be fitting that I read some excerpts out of a story that was written by Mrs. Dressler's daughter, Mrs. Bergevin. This story was written 13 years preceding her death. I just picked out certain excerpts because it is too long to read it all.

I will read it as she wrote it: "As mother sat at the typewriter surrounded by ledgers and certificates of Hereford cattle registry, the tired eyes twinkled in response to my queries concerning her childhood. She related how her father, Friedrich (Fritz) Neddenriep, born in Hanover, Germany, August 31, 1860, had come to America in 1872 with his sister, Dora, and his parents, Clause Friedrich and Anna Muller Neddenriep. They had travelled by train to Carson City. Interestingly enough, they found a ride to the valley with August Frederick Dressler who had made the trip in a wagon from his home at Sheridan to sell hay and a calf and purchase supplies.

As a young lady, Anna did much of the cooking for family members, hay crews and thrashers. Her cooking became unsurpassed, whether it was beef hash, beef stew or roast. Often a neighbor or friend in distress was comforted with the presentation of a cake or a hot dish prepared by her willing hands. Her success and dexterity in the field of food preparation was to bring much enjoyment to her family and friends.

As a young girl, mother assisted with the haying by driving derrick each summer. She also assisted with sewing for the family, made her own clothes, and also made lovely crocheted and tatted items and learned embroidering. Yardage, notions, scissors, shoes and patent medicines were available from the Rogers' horse and buggy during weekly visits to the ranches.

Following her graduation from the eighth grade at Fredericksburg, mother attended the Douglas County High School at Gardnerville. Here she became acquainted with the youth whose grandfather, by mere happenstance, had driven her grandparents, father and aunt to Carson Valley from the train in Carson City 42 years earlier. The acquaintance flourished into a friendship that culminated in marriage the day after Thanksgiving, November 26, 1920, at the Luthern Church.

Working with her husband in the development of the purebred cattle herd that he had started the year before their marriage, mother has done all of the record-keeping up until this day. The original 20 head of heifers were purebred, horned Herefords obtained from W. N. Collier of Fulton, Missouri. The first herd sire was Master Key Eleventh, a beautiful bull of desirable composition and quality. With the addition of a polled sire in

1921, purchased from A. C. Bayers of Mussel Shell, Montana, the herd was increased in the intervening 33 years (and that was in 1974) to 400 cows." That is an awfully large herd of purebred registered Herefords.

Again, "Mother cherished her association with other ranch women. She was elected American National CowBelle President in 1956 at the Convention in New Orleans. The women had chosen to be their leader a person who was genuinely dedicated to the cattle industry and who had organizational ability and the charm of sincerity.

It was after she was elected to the presidency of the National that the women of Nevada realized the need for a group of CowBelles, and the first chapter was organized in Minden.

Anna's husband, Fred H. Dressler, is a past President of the American National Cattlemen and also of the Nevada Cattlemen; her son, Frederick, is presently a Director of the Nevada Cattlemen and attended the University of Nevada; and her daughter, Luetta Bergevin, is a past president of the Nevada CowBelles and is a graduate of the University of Utah and Saint Mark's Hospital School of Nursing.

This daughter, (speaking of Anna) of German immigrants has given unselfishly of herself to her family and to her community and has been a lifetime partner of genuine dedication to a cattleman and his industry."

As a personal remark, I would like to say that Anna was not a woman behind a great man; she was a great woman alongside a great man.

I would like to introduce the family members who are here today, along with a group of close friends: Frederick Dressler, Sr., Frederick, Jr., Luetta Bergevin, and a great-son-in-law, Todd Russell. Would you please stand.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I think it is most appropriate that we honor Anna Dressler today. I have known the Dressler family practically all my life and I can sincerely and honestly say not only was Anna a loving mother and wife, but she was a great citizen and certainly a stalwart to the cattle industry. I want you people to know we are all going to miss her. Thank you.

Resolution adopted unanimously.

THE ONE HUNDRED AND NINTH DAY

CARSON CITY (Thursday), May 7, 1987

Assembly called to order at 10:43 a.m.

Mr. Speaker presiding.

Roll called.

All present.

Prayer by the Chaplain, The Reverend Robert H. Schwartz.

We are living in accelerated times, O Lord. It is hard. At any level of world society, so much is happening so fast that it is hard to digest it before something new breaks. How much harder it is when in our own way we are involved in the making of news and the creating of new times ahead. So many want and expect so much of us that it is hard to reserve time for ourselves and for our families. Thus, we turn to You, O God, and ask that You lead us in the sorting out process, that You guide in the decision process and You protect us in our needs of preservation and re-creation. In Your name and spirit.

AMEN.

Pledge of allegiance to the Flag.

Assemblyman Jeffrey moved that further reading of the Journal be dispensed with, and the Speaker and Chief Clerk be authorized to make the necessary corrections and additions.

MOTIONS, RESOLUTIONS AND NOTICES

Assembly Concurrent Resolution No. 50.

Assemblyman Myrna Williams moved the adoption of the resolution.

Remarks by Assemblyman Myrna Williams.

Assemblyman Spinello requested that Assemblyman Myrna Williams' remarks be entered in the Journal.

Thank you, Mr. Speaker. On my desk I happen to have a photograph of my grandson who will be six in July. This resolution, I think, is important to all of us who have children or grandchildren.

About three years ago, an army of women—a literal army of women—the Nevada Federation of Women's Clubs, got together and concluded it was about time that somebody started doing something about what was happening with child abuse and neglect

rather than just talking about it. These women got together and, as a result, we passed the child protection act in the last session. Clearly they are to be commended. I thank them on behalf of my grandson. I know the rest of the members in this chamber will thank them on behalf of the children in their families and for the continuing work that they are doing—the continuing legislation that you will see in this session—that will strengthen families and protect our children. I would urge unanimous adoption of A.C.R. 50.

Resolution adopted unanimously.

This discretion must be exercised after considering all the circumstances surrounding the offense, and the family and employment of the offender, but any sentence of 30 days or less must be served within 6 months after the date of conviction or within 6 months after the date of sentencing if the offender underwent treatment pursuant to NRS 484.3794. Any time for which the offender is confined must consist of not less than 24 consecutive hours.

5. Jail sentences simultaneously imposed under this section and NRS 483.560 or 485.330 must run consecutively.

6. *If the person who violated the provisions of NRS 484.379 possesses a driver's license issued by a state other than Nevada and does not reside in Nevada, in carrying out the provisions of subparagraph (1) of paragraph (a) of subsection 1, the court shall:*

(a) Order the person to pay tuition for and submit evidence of completion of an educational course on the abuse of alcohol and controlled substances approved by a governmental agency of the state of his residence within the time specified in the order; or

(b) Order him to complete an educational course by correspondence on the abuse of alcohol and controlled substances approved by the department within the time specified in the order,

and the court shall notify the department if the person fails to complete the assigned course within the specified time.

7. As used in this section, unless the context otherwise requires, "offense" means a violation of NRS 484.379 or 484.3795 or homicide resulting from the driving of a vehicle while under the influence of intoxicating liquor or a controlled substance, or the violation of a law of any other jurisdiction which prohibits the same conduct.".

The acceptance of such an advance must be in the form of a written agreement to repay all or a portion of the money advanced or to reimburse the source for the value or cost of the work, whichever is less, as

determined by the entity. The failure to complete an activity within the time set forth in the agreement nullifies any agreement to repay or reimburse the source.

The notice must contain a statement of the amount of the money or work advanced and the rate of interest, if any, agreed upon. MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 7, 1987

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 30.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 30.

Assemblyman Triggs moved the adoption of the resolution.

Remarks by Assemblyman Triggs.

Assemblyman Jeffrey requested that Assemblyman Triggs' remarks be entered in the Journal.

Thank you Mr. Speaker pro Tem. To you and through you to my honorable colleagues. Throughout this session, we have been honored with the presence of men and women who have served their country and, in so doing, have become permanently disabled. They have served our nation with dignity and honor and now, as disabled citizens, they serve us still through the reminder that a mere disability does not limit a person's ability to become a meaningful, productive member of our society. We urge the adoption of this resolution in honor of our disabled Nevada veterans. Thank you.

Resolution adopted unanimously.

GENERAL FILE AND THIRD READING

Assembly Bill No. 42.

Bill read third time.

Remarks by Assemblyman Dini.

Mr. Speaker pro Tempore requested that Assemblyman Dini's remarks be entered in the Journal.

Thank you, Mr. Speaker pro Tem. I am very proud to be here today to speak on Assembly Bill No. 42 and before I get into the actual content of the bill, I would like to give credit where credit is due. Assemblyman Jim Banner, about four years ago, chaired an interim study which produced most of the data we needed to complete this bill this year. We had a lot of help from Mr. Spinello and Mr. Price in our subcommittee. The entire Ways and Means Committee worked hard on this, and our staff, Mark Stevens, and my secretary, Betty Day, spent days calling Washington and Boulder City, and all around Carson City for figures to support our figures that we put into this. Also, Les Fry, a noted veteran in western Nevada, who is on one of these committees back in Washington, helped. Mr. Bilbray's staff, Mr. Fierro, helped us considerably in finally coming to an agreement.

Assembly Bill 42, as amended, would provide for the establishment of two state veterans' cemeteries in Nevada located at Boulder City and Fernley.

A total of 80 acres has been allocated in Boulder City for a state veterans' cemetery and $137,000 in state funds would be provided to develop the cemetery site. It is anticipated that the state appropriation would be matched by $150,000 in federal funds.

A total of 40 acres has been allocated for a state veterans' cemetery in Fernley and $149,500 in state funding would be provided to develop the cemetery site. It is anticipated that $175,000 in federal matching funds would also be available.

Our budget is also based on a desert motif for both cemeteries. Funding provided in A.B. 42 would provide at each cemetery a 2,000 square foot administrative-chapel building, a 750-square-foot maintenance building, fencing, a mobile home to allow an employee to live on site, architect and engineering fees, as well as funding required to provide necessary roads and utility connections. The only difference in the amounts allocated to the northern and southern Nevada veterans' cemeteries involves funding for necessary roads and utilities due to the distance from existing services at each cemetery site. Funding would also provide for $62,000 at each cemetery to provide necessary equipment which includes a backhoe, pickup truck and necessary tools and office equipment.

The estimated annual operating costs of the cemetery, which is a 100 percent state responsibility, is estimated to be between $70,000 and $86,000 per year at each cemetery site. These costs will be partially offset by a $150 interment fee provided by the Veterans' Administration for the burial of any veteran at a state veterans' cemetery.

The Assembly Ways and Means Committee amended A.B. 42 to provide $137,000 in general fund appropriation to the southern Nevada veterans' cemetery at Boulder City and $149,500 to the northern Nevada veterans' cemetery located at Fernley. In addition, the bill was amended to allow the commissioner of Veteran Affairs to review, approve and coordinate all volunteers' activities in the construction and maintenance of each state veterans' cemetery.

We have received good words from veterans' groups throughout the State of Nevada in support of both cemeteries as well as support to see that we do a nice job in both cemeteries. I think it is a fitting tribute from the State of Nevada to these veterans who put their lives on the line for all of us, to make it possible to have the Legislature and Congress and a President who want to give them the tribute of a cemetery in the State of Nevada. I certainly urge your approval.

Bill read third time.

Remarks by Assemblymen Schofield, Spriggs and Nicholas.

Assemblyman Schofield requested that the following remarks be entered in the Journal.

ASSEMBLYMAN SCHOFIELD:

Thank you, Mr. Speaker. I appreciate the courtesy in doing this. We heard this bill in Natural Resources, Agriculture and Mining. It came about by some students from the Pleasant Valley School, academically talented students, and I asked for this to be heard early because of the students we have visiting, and the two students who came and testified before the committee. Once we got the bill out, they asked for it to be recommended to the committee, the committee chose to ask for a bill to be drafted regarding the Bristlecone Pine and many of the students came and testified before the committee asking us to do this—to make this introduction. I think it is very appropriate to consider this bill today. There were a couple of technical amendments the day before yesterday that we put on it.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I have two of the authors—and two of the testifiers— with us here today on the Bristlecone Pine bill. They are Nicole Sheltra and Kenny Beane.

Assembly Bill No. 668 designates the Bristlecone Pine as one of the two official state trees of the State of Nevada. This tree shares that designation with Nevada's existing state tree, the Single Leaf Piñon.

The Bristlecone Pine is found in high mountainous areas throughout much of the state and its older specimens, some exceeding four thousand years of age, are the oldest living things on earth.

Nevada is the first state to designate the Bristlecone Pine as the official state tree. Stands of this tree, such as those in Great Basin National Park, will serve as an attraction for visitors from throughout the world.

ASSEMBLYMAN NICHOLAS:

Thank you. To you and through you, this is probably the best example I have ever seen of participation in representative democracy by all citizens regardless of age or sex. It's a good bill. Thank you.

The following amendment was proposed by the Committee on Commerce:

Amendment No. 562.

Amend the bill as a whole by renumbering section 1 as sec. 1.5 and adding a new section designated section 1, following the enacting clause, to read as follows:

"Section 1. NRS 118.165 is hereby amended to read as follows:

118.165 1. Unless exempted by subsection 3, every landlord of real property leased or otherwise rented to a tenant , *including every landlord of a mobile home park,* shall deliver to the tenant in July of each year, and whenever the periodic rent changes, a statement which shows separately for each periodic payment of rent:

(a) The amount which represents property taxes paid by the landlord; and

(b) The remainder of that payment.

2. If the property rented is one of several upon which the landlord pays taxes together, the amount which represents property taxes must be calculated by:

(a) Apportioning the total property tax paid for the year upon the entire property among the individual properties rented according to their respective areas.

(b) Reducing the amount so apportioned to each particular property for the year by the appropriate fraction to correspond to the period for which rent on it is paid.

3. This section does not apply to:

(a) Any property covered by a written agreement which requires the tenant to pay the property tax or otherwise provides for calculation and notice to the tenant of its amount.

(b) Any lodging unless it contains its own cooking and toilet facilities, separate from other living quarters.

(c) Any room in a hotel or motel.

(d) Any concession within a larger commercial enterprise, or any other property not customarily used separately from adjacent units.

(e) Any property for which the rent is a share of sales or profit.

4. The statements required in July 1981 by subsection 1 must show, in addition to the information required as of the date the statement is prepared, the comparable information as of July 1980. Each landlord of property which is subject to this section shall reduce the periodic rent otherwise payable by an amount equal to 90 percent of any reduction from 1980 to 1981 of the amount which represents property taxes as shown in the statements required by that subsection.

5. This section does not purport to regulate the total amount of rent payable.

6. A landlord who fails to reduce the periodic rent in accordance with subsection 4 is liable to each tenant whose rent was not properly reduced for an amount equal to three times the amount which was overpaid by the tenant, unless the landlord shows good cause for the failure. If the tenant

made written demand upon his landlord at least 20 days before bringing his action under this subsection, a judgment for the tenant must include costs and a reasonable attorney's fee.

7. The department of taxation is responsible for enforcing the provisions of this section.".

2. The manager shall contract with a third party to provide emergency repairs for the tenants on the occasions when the manager and assistant manager are not physically present in the park. The manager shall notify each tenant of the telephone number of the third party who will make the repairs, and direct the tenants to call him when an emergency repair is needed and the manager and assistant manager are not physically present in the park. The telephone number so provided must be that of the third party directly. The provision of the telephone number of an answering service does not fulfill this requirement. If the manager or assistant manager are present in the park, any request for repairs must be made to him and not the third party.".

Assemblyman Callister moved the adoption of the resolution.

Remarks by Assemblymen Callister, Fay, Price, McGaughey, Sader, Nevin, DuBois and Schofield.

Assemblyman Haller requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Last week the subcommittee of the Commerce Committee dealing with Arco had subpoenaed certain documents through the subcommittee which I chair. They sent a representative without the documents. When we asked them why the documents were not provided, they initially responded that they felt that they would be too sensitive to allow this legislative body or the Commerce Committee to examine. I would just briefly read from the transcript of the minutes of that hearing where they indicated that they felt the best place to dispute this type of issue was in a Federal District Court.

I think there is a terribly important precedent involved here. One that will involve the legislature for some time to come. That is a question of whether or not the legislature in this state has the right to the same kind of data and information to assist us in the decision-making process that the judiciary branch has. That is essentially what the issue was and that was essentially the excuse that was provided by Arco.

It is my sentiment that their failure to provide this documentation is contemptuous behavior and for us to fail to at least initiate contempt proceedings at this point would somehow suggest that we have acquiesced to their belief that we are less entitled to essential information in our decision-making process. I'm fearful that that is a terrible precedent to establish so I urge the adoption of this resolution.

ASSEMBLYMAN FAY:

Thank you, Mr. Speaker. I rise in support of this resolution. I feel that the integrity of the entire legislative body is at stake and I feel that we should pursue this to the maximum. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support of, and I commend my colleagues in the subcommittee for their aggressiveness on this matter. Similar issues around the states have arisen and this is not the first time that large, multi-national companies and other types have tried to thumb their nose at the various legislatures around the country. I think it is time that people, regardless of how large they are, or how rich, or how much money they have, have to understand that there comes a time that they have to answer to the citizenry. I think that this may be an excellent opportunity and I urge your support.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. As a member of the subcommittee, I rise in support of the resolution. Assembly Bill No. 420 is a very important piece of legislation, it affects a lot of businesses in this state and if this body is going to process legislation for the best interests of the people of this state, sometimes we need the information, more information than what we have, to do it. The allegations that are involved in processing this legislation could be easily resolved if Arco would provide the information that we requested.

ASSEMBLYMAN SADER:

Yes, Mr. Speaker, there is a question going around the house in the form of conversation about what it means—a motion for contempt—what can we do? I would like to cite the Nevada Constitution, Article 4, which deals with the legislative branch. In Section No. 7, which states, "Punishment of a non-member. Either house during the session may punish by imprisonment any person not a member who shall be guilty of disrespect of the house or by disorderly or contemptuous behavior in its presence. That such impunishment shall not extend beyond the final adjournment of the session." So we can throw them in jail.

ASSEMBLYMAN NEVIN:

Thank you, Mr. Speaker. To you and through you, I stand in full support of this measure. As you probably know, I was the one who introduced this bill because of existing problems that we saw created. We saw patterns existing and we feel that this information is either going to confirm or deny our suspicions and I feel we have a right to see it. Thank you.

ASSEMBLYMAN DUBOIS:

I support this bill. I just wanted to ask, however, for clarification in my own mind, what does this mean? Does this mean that we are going to again subpoena them, or are we going to haul them into this chamber and have a trial here or are we going to file a contempt filing in court?

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Through you and to my colleague from southern Nevada, very briefly I would refer you to NRS 218, Section 533, which sets forth the process. Essentially what happens is, the initial step is to offer a resolution as we have done today to have the individual or the entity cited for contempt by virtue of an Order to Show Cause. The Order to Show Cause would be executed by the Speaker and would require at a certain time and date that representatives from Arco appear in a formal hearing setting before this entire Assembly. And, at that time, they are entitled to present evidence, to have counsel, to present testimony as to why they should not be held in contempt for failure to respond to the subpoena last week. There would be a vote by the entire body. If the entire body then determines to vote in support of a contempt citation, the citation would issue and at that time they would be susceptible to the rather limited enforcement power that we have, unfortunately, which is to put somebody in jail.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. If we can't put them in jail, perhaps we could confine them to one of the legislative offices upstairs. That would be cruel punishment.

ASSEMBLYMAN SCHOFIELD:

Thank you, Mr. Speaker, I rise in support of this. In sitting in this house for the past six sessions, there has been only one time in my memory where a subpoena power of this legislative body was used. It was because of the refusal of one of the State Agency heads at that time to come before the body. I certainly rise in support of this. When a particular firm or someone who has been subpoenaed does not answer the subpoena it is a direct slap in the face to this legislature and I really think that we ought to go ahead with this.

(c) The price received for labor or services used in installing or applying the property sold.

(d) The amount of any tax (not including, however, any manufacturers' or importers' excise tax) imposed by the United States upon or with respect to retail sales, whether imposed upon the retailer or the consumer.

At 10:56 a.m.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 32.

Assemblyman Getto moved the adoption of the resolution.

Remarks by Assemblymen Getto, Dini, May, Brookman and Thomas.

Assemblyman Nevin requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker pro Tem. I guess I'm one of the few, two or three, legislators here that do remember serving with Senator Slattery.

Senator Slattery is probably one of the most colorful characters who has served in this legislature. He will long be remembered for his direct approach and for some of his wit and humor. I think one of the historical ones that I remember—I was not in the Senate, but I heard about it and it has been repeated many times—when they were talking about a cremation bill and he was explaining this cremation bill and in his ending statements he said, "I thought it would be a wonderful thing" when his wife could take his ashes and place them in a urinal—he meant an urn, of course.

Slats represented Storey County. Reapportionment took care of Slats; he probably would have served many, many years there, but when the reapportionment came along it wiped Senator Slattery out.

I'm sure that those of you who have served here over the last seven or eight years at least knew Senator Slattery as a lobbyist. He marched up and down the halls. He was here early in the morning and he cornered legislators and did his thing.

Senator Slattery was well known for his ability in golf—I'm not a golf player, but he was an outstanding golf player. They said he either won by hook or crook. But, he always boasted about his winning ability. I really enjoyed Senator Slattery.

I remember another humorous aspect of Senator Slattery's comments. Of course, he served in the legislature before equal rights. He was confronting a group, I remember, some women's organization, and they were trying to get this bill passed and he looked out and saw some representatives from this women's organization and he finally said, "Why don't you women go home and do your dishes so we can get on with our legislative business." Of course that statement would cause him to probably get killed today.

Slattery was a very outspoken, colorful senator.

ASSEMBLYMAN DINI:

Yes, Mr. Speaker pro Tem. I would be remiss if I didn't stand up and talk about "Slats" because we served together and I represented him since reapportionment of 1972. I was reapportioned into Storey County, so I was an assemblyman from that district and have been up to this time.

Slats was a colorful character. In my first session here I sat next to Bill Swackhamer in the old building, because they wanted to keep me under Swackhamer's hands. Each day Slats would bring a handful of cigars to Swack, and he didn't smoke, so he gave them to me. At that time I liked dollar cigars and it was very nice of him to provide those for me.

Slats and his wife have become great friends. A short time before he passed away he and his wife took a drive to Yerington to have lunch with me at my club. We just became great, great friends.

He was a great leader for our state; he did a lot of good things. You hear a little bit about the Comstock Historical District and sometimes I introduce a little bill or small amendment to the Comstock Historical District; he created that in 1969. It is one of the great things he did for the preservation of the history of this state. By creating that district it made it a state agency. It is the only one in the State of Nevada.

He did many, many other things and he was always for the little people. He worked hard for the working people in this state. He had a broad base of support that elected him. Of course, it was easy to run when you just had Storey County and 400 voters—it was kind of easy. Then he got reapportioned into Washoe and that is when the real battle came and Storey County was just too small to hold a seat. Since that time, of course, reapportionment has gone around the world again and now Storey County is represented by Senator Jacobsen in the Senate.

He was a great leader and he was a good man for the State of Nevada and I hope that history proves him to be the great leader that I think he was.

ASSEMBLYMAN MAY:

Thank you, Mr. Speaker pro Tem. I, too, as did the two previous speakers and perhaps one yet to come, had the distinct pleasure of serving with Senator James Slattery. Years ago there used to be a quite popular TV program called, "Slattery's People." Well, James Slattery had some bumper stickers made up and the bumper stickers simply said, "Slattery's People," referring, perhaps, as much to his constituents and followers and admirers as they did the TV program. It always amazed me to walk around the streets of Carson City and to see the number of those bumper stickers.

He was a man of immense popularity, a quite outspoken man, in fact. That was one of the problems of trying to memoralize him properly, because a great many of his utterances would not be allowable in today's polite society, a somewhat more restrained society.

However, walking down the halls of this building, when he was out of politics and simply advocating whatever cause he felt important to himself, I'd feel that arm—and he was quite muscular—I'd feel that great grip on one of my arms as I walked down the hall. Of course, I'd become almost paralyzed and at a dead stop. But even today sometimes as I walk down to the Senate to do a little lobbying, I can feel the ghost of Senator Slattery out there walking these halls and I can almost feel that iron-like vice grip on my arm. And I look over my shoulder and I say, "Hi, Slats, how are you." We miss him; he was a hell of a guy.

ASSEMBLYMAN BROOKMAN:

Thank you, Mr. Speaker pro Tem. I think I'm about the only remaining female "Assemblyman" in this house or even on the other side who had the good fortune to serve with Slats.

Slats used to come over every day and give us all cigars. I kept my cigars and sold them, but, I saved all the money and gave it to the Children's Home in Eagle Valley. And that is what this little bank is for.

Slats told me to go home and do my dishes. And, I looked him right in the eye and I pulled his tie down and I said, "Slats, you know what, it's time to get out of the house and get in the Senate." And he ran across the hall very fast.

ASSEMBLYMAN THOMAS:

Thank you, Mr. Speaker pro Tem. I did not have the pleasure of working with Slats—I was too young. But I did encounter him on the golf course once or twice. He was the master of the invisible golf shot. You neither saw it nor heard it, but when he reached down into the cup, he managed to pull a ball out every time.

Resolution adopted unanimously.

Mr. Speaker pro Tempore announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

Assemblyman Nevin moved the adoption of the resolution.

Remarks by Assemblymen Nevin, Nicholas and Kerns.

Assemblyman Nevin requested that the following remarks be entered in the Journal.

ASSEMBLYMAN NEVIN:

Thank you, Mr. Speaker. Chuck Bourne was a friend of mine. I had known him around the hallways for some time as a rebel. He took on the Governor—I don't know if he lost or won, but I know he won with the people in his district. He was a concerned legislator; he was concerned about the people in his district—that was his main concern, that was his main job. He really didn't care what happened to the rest of the state as much as what happened to the people in his district. I think he did a fine job and he is going to be dearly missed. Thank you.

ASSEMBLYMAN NICHOLAS:

Thank you, Mr. Speaker. Chuck was a friend. He had a harder life than we would have wished for him and he took it more seriously, perhaps, than would have been good for him. All I can say, really, is that we'll miss him, and we're sorry he's gone.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. Chuck and I were great friends. My wife and Chuck's wife were good friends. We used to spend considerable time with Chuck. During the airshows we were always invited out to his house as his backyard went right alongside the back part of the airshow and it was really great.

Chuck didn't care what party you belonged to; he didn't really care much what you thought about anything. Chuck was very honest. You didn't want to ask Chuck a question if you didn't think you'd like the answer because he would give you what he really thought was straightforward.

I'm sure everybody over here had problems with Chuck but at the same time Chuck helped everybody over here. I know Chuck would just love to be here, right in the middle of this hospital containment bill.

Resolution adopted unanimously.

ASSEMBLYMAN THOMPSON:

Mr. Speaker, Assembly Bill No. 622, requires counties and cities to compensate the owners of signs or billboards which are required by local ordinance to be removed. The measure also prohibits the enforcement of an ordinance or regulation that limits the normal maintenance or repair of these signs or billboards. The bill, however, allows the local government to enter into agreements with a sign or billboard owner for the planned relocation of the advertising without the expenditure of public money—that's the basic overview of the bill.

We heard testimony in committee, Mr. Speaker, that some local governments have enacted ordinances as a way to get rid of their billboard signs whereby they don't allow necessary maintenance and upkeep on the billboards. One of the questions that I asked of one of the people testifying, "give me an example."

He said, "Well, you know, the foundation is crumbling and falling down." I think in these cases, these people are creating a public hazard when they allow these billboards to deteriorate to the point that they are going to be blowing in the highway and in the name of getting rid of these by attrition when more than 50 percent of the sign becomes damaged then the sign is gone. They have a plan called amortization whereby they give you the sign—your sign which is on your property—for ten years and then you have to take it down. I think this whole issue revolves around the basic property right. In the committee on Government Affairs we talked about property rights a lot—TRPA has been a big concern. Property rights is the number one issue. This issue is no different than that. This is a basic property right. If you want the sign, you pay for the sign. If you aren't able to pay for the sign, then you don't take the sign down.

Over 30 states, Mr. Speaker, including California, have adopted billboard legislation mandating the just payment and compensation upon removal. I think even Congress has said the same thing. If you are going to take the signs, you pay for them. Amortization, I would submit to you, is not just payment in these cases.

On another issue that is related to this, our gaming industry in Nevada is of paramount concern to everybody here as our revenues are generated from this industry. This industry cannot advertise on TV, they cannot advertise on the radio, they have to rely on the newspapers and the magazines and the billboards. I think that by allowing these signs to be removed and taken down, we are going to have a negative impact on our state, on our state's revenues without a doubt. There is a stretch of land in the county up here where we had some people testifying who said the question was, "Well, how many signs are there on this one particular stretch of road?" There are ninety-something signs—I forget the exact numbers—and they had a formula whereby they figured out how many signs they wanted to take down. When they got on calculating, they came to the conclusion that all the signs had to be removed, not just a percentage of them. But, I think this whole issue evolves around property rights. If it's my property, it's my sign. If you want my sign on my property, then you pay me for it.

ASSEMBLYMAN ADLER:

Thank you, Mr. Speaker. I would just like to correct a few things that were stated by the previous speaker. First of all, the Washoe County sign ordinance that was referred to specifically states that a sign cannot be repaired if it is 50 percent destroyed by natural disaster. It does not state that repairs cannot be made on signs.

Secondly, the Washoe County ordinance would only remove 13 percent of all signs in Washoe County, not 90 percent. With that, I think I would like to address the basic issue here.

Since 1926, in the landmark case of *City of Euclid v. Ambler Realty,* the United States Supreme Court has said that amortization is the proper way to remove signs. Essentially,

what amortization does is allow the person who had erected the sign which is non-conforming, to collect the entire amount of their investment in addition to a sizable profit prior to removing the sign. That is just compensation, it has been just compensation in this country for over 60 years and it has been used throughout the United States.

In essence, this issue boils down to a matter of local control vs. the State of Nevada forcing its will upon local communities who seek to improve their environment, who seek to have a quality life, who seek not to have their roadsides spoiled by some of these signs, who seek to have a type of environment that they are proud to raise their children in. What this bill does, esentially, is reverse over 60 years worth of case law in the United States and it reverses many local ordinances, including the local ordinance in Carson City. Carson City's ordinance allows these signs to be maintained for 12 years prior to removal. It was their feeling that this has been agreed to by the billboard industry. But, even though Carson City thought they had an agreement, the next thing they knew this bill was introduced in the legislature and was moving out of the government affairs committee. I think fairness dictates that we allow communities to set their own standards as to what the community is going to look like. That way we can all choose to live in a community that we are individually proud of and if someone wants to live in a community which is littered with billboards, more power to them. But, I don't choose to live that way. I would like to see this bill defeated for that reason. Thank you.

ASSEMBLYMAN NICHOLAS:

Thank you, Mr. Speaker, to you and through you. My district borders 395 all the way from Moana in Reno down to the Carson line. Talk about having signs, I've got signs. I also have constituents who are concerned about this particular bill and four separate groups of them have spoken to me on this issue and asked me not only to vote against this bill, but to speak against it. If I had a choice, perhaps I'd make it in a different direction, but I do not. I represent my people, they want me to take the direction of opposing this bill. I will do so.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. Assembly Bill No. 622 essentially takes away from the local government control of land use planning. If I can give you some insight on how the ordinance specifically in Washoe County was developed and the amount of time it took.

The county staff went to all the county commission advisory boards. I happened to be at one of the meetings. The meeting I attended was two to three hours and they went through the ordinance as it existed at that time to various alternatives there were, and eventually the advisory board came up with what they would support in an ordinance which essentially was what would support the guidelines that they'd established in their local master plan for billboards. The process in Washoe County took months and months and months. A.B. 622 was introduced on the 21st of April, less than a month ago, and we would undo all that work that happened in the county that I represent in just a few weeks in this body and I oppose A.B. 622 because of that.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker, to you and through you to this honorable body. Most of my comments have already been spoken to by the previous speakers, so I won't bore you with repeating them. However, I would like to repeat one of them that the ordinance in Washoe County was agreed on after years of study and after extensive public hearings. This was not a decision that was taken lightly. I think that amortization is certainly a fair way of compensating the owners of the signs and I must say someone recently told me that the road going into Reno from Carson City looks like the road to Tijuana, and that bothers me. I think we all should have civic pride, concern about the way our community appears to the outsider. I think that the argument that this is going to hurt the gaming interests is a fallacious argument. I do not agree with that and I oppose this bill and would ask you to join us in putting down this legislation.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker, to you and through you. I also stand in opposition to A.B. 622. I am reminded of that old statement that things are not always as they seem. And, I

would submit that A.B. 622 is a masquerade. It is a masquerade in a sense that the legislature is making, or attempting to make a state law in a state case out of something that is purely and simply a local matter and I have to wonder, I have to ask, why are we doing this? As was stated in previous testimony, there are something like 575 signs presently in Washoe County. About a hundred of those signs would be affected. And, it is estimated that through land use development over ten years that that would be reduced to about 75 signs, or 13 percent. I stand as a fierce defendant of property rights, but the amortization plans have stood the test of courts. I have a list of cases that have been tried throughout our country and amortization has stood. I would further submit that for those who say people will lose income on the rental of their property, well, you don't have to be knowledgeable in classical economics to know that when you have a scarce commodity it rises in value and they will be able to charge double and triple and probably quadruple for those very precious signs. We are not eliminating signs, we are not dismantling them, we are just trying to reduce, by a mere 13 percent—that is not very much. And, it only occurs in a few restricted areas.

If the people of my county tomorrow decide that they would like to rescind that action, I will support them, but I don't think it is appropriate for this body to intercede.

A few weeks ago I reversed myself on a vote on this floor on the issue of JPs being attorneys, and the amendment that came back said that in one particular county in this state it was important for JPs to have that training. And I said, if that is what that county wants, it is not appropriate for me to deny them that. And, I would tell you it is the same case.

As I finish I would just say that I find it an ironic twist of fate that here on the 200th birthday of our Constitution with self-determination as the bedrock of democracy that we are flying in the face of that very important principle. I hope you will vote with me and vote against A.B. 622.

Assemblyman Nevin:

Thank you, Mr. Speaker, I rise in opposition to A.B. 622 and a lot of reasons were given and I won't go over them again. I would like to point out that everyone received on their desk yesterday the opinion from the *Reno Gazette Journal* and the headline, itself, speaks for the whole issue—legislature has no right to usurp local billboard law. A lot of work has been put into this study and we came up with an ordinance and it doesn't, I agree, it doesn't really have any effect on the south, it doesn't affect you at all, but it does affect the north—it affects Washoe County, it affects Carson City, it affects my city of Sparks. I'm also a believer of people having their rights on their private property. One thing that bothered me in this hearing was that they came in with people building homes and extensions on their homes and things of that nature and I contend that a small piece of property with two poles planted in the ground is not a piece of property that you can relate to a home and property rights. I am firmly opposed to this bill. I received here on my desk just today a sheet of paper from an opinion poll. Eighteen people signed this and they put it on our desks. That was overnight. There is not one Las Vegas, not one Las Vegas name on this opinion poll, it's all Reno and they are opposing it. I urge you to vote against this. Let our county pass our laws, let us regulate. Thank you.

ASSEMBLYMAN THOMPSON:

Thank you, Mr. Speaker, for a second time. We got way afield of this. This bill is not a masquerade. This bill does affect Clark County. This bill affects the entire state. I don't agree that amortization is just payment for something that belongs to me. When I went to county government or local government and got a legal permit, legally inspected, paid a legal fee for a sign that was legal one day and then the next day is not legal. This bill does not say that you can't take the billboards down. You can take them down. All you have to do is pay and if you can't pay, then you can't take my property. That's it. That's a basic property right—if you want it, you can take it. This bill does not say that they cannot take those signs. They can take them, but you have to pay for them. The 1978 Highway Beautification Act mandates just payments to be paid by the states for removal of signs

along any interstate or Federal aid primary highway. And, if you don't do that, you lose 10 percent of your money. There is nothing in this bill that says they can't take the signs down, you just have to pay.

ASSEMBLYMAN PRICE:

Mr. Speaker, my questions have been answered in the debate.

ASSEMBLYMAN GARNER:

Thank you, Mr. Speaker, I don't believe that this is a north-south issue at all. It is a matter that involves a simple issue of private property rights.

If government wants to take private property for a public purpose, then fairness and the Constitution dictates that just compensation be paid. To preclude a person from performing ordinary maintenance and repair upon his or her property, knowing that the property will eventually deteriorate and blow away is nothing short of taking, under the Fifth Amendment. I urge a do pass for this bill.

ASSEMBLYMAN BERGEVIN:

Mr. Speaker, I find it ironic that some of the people espousing the idea of the State of Nevada superseding local property rights in this matter saw fit to vote for TRPA, which totally abrogated every county ordinance, every county building permit, everything that stood for property rights, and a good number of the people on this floor voted against the bill to pull out of that particular agency last year. This is simply a matter of property rights. A sign is no different from a home, no different from a car or anything else. If you want it, you pay for it. These signs were put there under the laws and zoning ordinance of the county, now they are changing the rules and don't want to pay to change the rules. I think that this is where the state has to step in in those kind of instances.

ASSEMBLYMAN KISSAM:

Thank you, Mr. Speaker. I rise in support of A.B. 622 in spite of the fact that I might have a potential conflict with a billboard on one of my properties that is of a charitable nature, that produces no income. I do stand in support of this bill and will vote that way.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker for the second time. To my esteemed colleagues who say that this issue is only property rights I would disagree. The courts have said that government interests regulating billboards is especially strong because billboards don't derive their value from the private land they stand on, but on the public roads they stand next to. A billboard would be of no value out in the middle of a field. It derives its value from the public road by which it stands. A local government has the responsibility of land use planning and this is one of these issues and to me it seems that this industry is singling itself out for special interest. The local governments are allowed control of land use planning in all other areas, but in this case the state would be telling the local governments how to do it. This is a local issue, it should be decided on the local level.

ASSEMBLYMAN PRICE:

Thank you. Due to some remarks since I came up, I would like to mention something. My first response would be to my colleague from Reno's observation, talking about the value being in the location. As a person who went to school in Real Estate, one of the first things that we learned about value is that it is location, location, location. And, I would submit to you that there is little doubt that a billboard is, in fact, private property. It is property that is protected under the Constitution. The Supreme Court has upheld that. Yes, they upheld the depreciation method of paying for them, and that may be Constitutional, but I'm not sure that it is fair. If we allow a depreciation scheme to exist on billboards, I cannot see too far a reach to say that when a street or a new highway starts to come through our home that they may be able to plan far enough ahead to come and say, "OK, we think your home has a value of $100,000, and the home may really only be worth $90,000, but we are going to depreciate that from $100,000 to zero in the next five years by the time our road gets here." And, I see very little difference. I think the issue is a little larger than a parochial or local one that the discussion seems to be going on here because it is something that could affect and does, in fact under the law as it must under

our Constitution, affect the entire state and I am sorry that some of my colleagues feel that it is a local issue. I would submit that we are in fact talking about Constitutional, we are talking about fairness doctrine, so I am going to support the bill. I wasn't too sure when we started the debate whether or not I would, but I will be supporting it.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I think the issues have been sufficiently aired and the only thing that I have to add is the disconcerting nature of what I perceive this vote is going to be. When the green lights go up on that board, the green lights are going to be from the representatives from the areas that are not affected by this dispute. The areas affected by this dispute are primarily in Washoe County and in Carson City and I don't think that it is going to be unanimous in those two delegations, but it is going to be overwhelming in the majority opposed. What has happened is that votes have been rounded up to support this bill by representatives who come from counties whose constituents are not making an issue out of this and whose local governments have not decided this issue in public forums. I would urge you not to do that—those of you who have been solicited to vote yes on this bill. Don't ram that down our throats from those of us who come from counties that are affected by this bill and who are responding to our constituents. Let's not start that this session.

ASSEMBLYMAN ADLER:

I would just like to make one comment, Mr. Speaker, thank you, and that is this really isn't an issue of paying for the billboards, because we know that's all a sham. This issue is whether Carson City and Washoe County are going to have those billboards in place for the next 50 to 100 years. And, if you feel strongly that that should be the case, vote for this bill. But, if you think that they should be removed at some point in time, vote in opposition. Thank you.

ASSEMBLYMAN THOMPSON:

Thank you, Mr. Speaker. Just to point out again. This bill affects the entire State of Nevada. There is an ordinance currently in Washoe County that is in effect that has brought it to life but this bill reflects Clark County, White Pine County, every county in Nevada. The signs won't be up for 50 years if they pay for the signs and that is the crux of the whole argument.

Shell Oil Company, et al.*, or to any member of the news media, nor will anyone otherwise comment on the documents themselves or the information contained therein, except that those persons who review the documents or information contained therein do so with the understanding that they are prohibited from any explicit reference to any particular document or information, except in the most general and conclusory terms; and
7. The confidentiality restrictions of this resolution do not apply to documents and information obtained independently of ARCO and not obtained in violation of the confidentiality order entered in the above-captioned litigation;

RESOLVED, That the production of the documents in the agreed upon manner satisfies the subpoena issued by the Speaker of the Assembly and the citation of contempt issued by the Speaker of the Assembly on May 15, 1987, is thereupon withdrawn.

Assemblyman Callister moved the adoption of the resolution.

Remarks by Assemblymen Callister, Jeffrey, DuBois, Getto, Price, Nevin, McGaughey, May and Myrna Williams.

Assemblyman Brookman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CALLISTER:

I think the agreement speaks for itself. I appreciate this body's patience in working with us on this. Obviously, there are some rather severe restraints that we would have to impose upon ourselves in order to be able to review the documents. Obviously that is not my desire. But, I think it is our desire, collectively, to accommodate the needs, at least the alleged needs, for security and sensitivity that any party might have when we subpoena their documentation. I think the pertinent part that should concern us all begins on page 4, paragraph 6, in which it very explicitly sets forth that we are not allowed to discuss anything that might be revealed either in the subcommittee meeting or the full committee meeting—to which all of the members of this body would be invited, and which I would

urge all of you to attend should such a meeting take place. At that time the subcommittee would report back to the full committee as to the nature of any documents that we found which we thought pertained to this very difficult and complex piece of legislation.

The concern we all share is in regard to our ability to express our views. We are balancing competing interests here. Interests that I think are of a precedent setting nature. The interest on one hand of any individual or any corporation's concerns for sensitive information and our need to know. I would suggest to this body that this kind of conflict will occur many times in the years to come as we increasingly are called upon to legislate matters that involve national, international and multinational corporations who are reluctant to participate in the legislative process. I think that their willingness to come this far is a sign of their good faith and their attempt to cooperate. I have no knowledge independently of whether or not we will find documentation that will make or break this determination on this issue, but I would urge the passage of this proposed resolution as a vehicle that allows us to accomplish what we intended to accomplish, what we set out to accomplish.

ASSEMBLYMAN JEFFREY:

Mr. Speaker, I rise in support of the resolution. First of all I would like to commend two members of the subcommittee who worked very hard on this issue, Mr. Callister and Mr. McGaughey.

We all have agreed in the past that all of our proceedings need to be opened to the public and the press and this is an extraordinary measure. However, this is an extraordinary issue with the sensitivity of the documents and we must also consider the gag rule put on by the Federal judge in the Shell case.

I think the only way that the Commerce Committee and the Assembly as a whole is going to make a decision on this particular bill is to be able to review these documents.

ASSEMBLYMAN DUBOIS:

Thank you, Mr. Speaker. To you and through you to the chairman of the Commerce subcommittee. I see no time frame, no time certain on this. Are there certain limitations as to when this will happen, and if so, why is it not in the resolution?

ASSEMBLYMAN CALLISTER:

There are no express time provisions because, of course, we couldn't identify whether or not this body—we couldn't predict whether or not this body would pass the resolution. I can advise you what the anticipated time frame is. It is hoped that upon passage of this we would begin review of the documents in the subcommittee context as soon as possible—perhaps as early as this afternoon. Upon the completion of that subcommittee review, there would be a full committee meeting called, perhaps Wednesday or Thursday of this week—perhaps that early. At that time, in closed session once again, the full committee would meet. All the members of the Assembly would be asked to attend if they so desired, and we would report back to the full committee any findings that we may have come across in terms of documents that were pertinent to the issue. So we are hopeful that it can be accomplished within this week and we can move this bill one way or another down the hall.

Assemblyman Getto:

Thank you, Mr. Speaker. As a point of information to some of the legal minds of the Assembly. In the closed meeting, a member of the legislature attends the closed meeting and then later on discloses what went on in the closed meeting. Does that place that member in some type of liability?

ASSEMBLYMAN CALLISTER:

I would invite responses from those who have greater tenure here than I do. I would suggest that the sanction would be a sanction by this body. Recall again that the initial proposal made by ARCO was in the form of an agreement, a contract, that each reviewing individual member of this body would be obligated to sign—we refused that. We suggested that as an alternative we could express collectively our intent and our consensus by virtue of a resolution—that is the purpose of the resolution. I know of no action that could be brought against a member for violation of such a resolution, but I would certainly

suggest that to violate it, knowingly or unintentionally, would constitute a breach of good faith on ARCO's part in wanting to comply. I think all of us would have an obligation to the very best of our abilities to live up to this resolution. Again, we are talking about a rather new area, a new aspect of legislation. I don't know that there is any precedent for this. In any event, I think that it would certainly be up to this body to sanction any individual member who clearly violated the intent of the resolution.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I made my feelings clear when we started this battle. I want to tell you I'm outraged by this proposed change in our rules. Let me tell you why. We are elected by the citizens of Nevada and by our constituents to protect the best interests of Nevada, Nevada businesses and ourselves. ARCO elects their officers to protect the interests of some far flung business somewhere and there is nothing wrong with that. But when we start talking about compromising our positions against theirs, then I suggest we've gone too far. We do not necessarily need the information that we have asked them for to process legislation. I would suggest to you, and to the members that we remember if those people whose businesses and whose rights we are dealing with do not want to cooperate, that we can process that legislation in a manner that we think is correct. If it should happen to hurt them, too bad. I for one am not willing to close meetings to put myself under jeopardy, or anyone else of some future censure by this body or lawsuit or anything else because we have in some way violated what they feel to be a sensitive matter—whether it is sensitive or not.

I want to go a little step further. This session of the legislature, in my humble opinion, has been dominated by more major closed-door meetings, where all of the other legislators and the public.

I do have a few more things to say, Mr. Speaker, with your indulgence.

I would like to repeat the question of my colleague on the time frame because you answered in the manner of time frame with response to when the information was going to be taken and I thought he was asking, and if he wasn't, I will ask, what is the time frame as you view it on any colleague of ours, myself or yourself in saying something. If you say something five years from now will you be censured by the legislature? Two years from now? Three days? That is the time frame I would be interested in.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Certainly I would suggest that once this bill has passed it doesn't lift our obligation to maintain the concern for sensitivity and secrecy that they've alleged. I would imagine that until that information is made public, available to the public generally, we would still be under that same obligation. If I might respond to your larger issue, I think that all the members of this body would concur that we feel that it is unfortunate that this is the only context in which these documents may be made available to us, but in the end, I guess the essential issue is this: do we legislate in the absence of all available evidence, or do we attempt to reach some accord so that allegedly sensitive material can be viewed and assist us in the legislative process. I for one feel it is better to attempt to have all the information before me before I push a button and make that decision. Because of that I urge your support and this body's support of this resolution.

ASSEMBLYMAN JEFFREY:

Thank you, Mr. Speaker for the second time. First of all, I would like to say any censure by this body would also have to be done by resolution and I think it would depend on the mood of the body on the overall issue at the time that that may be done as to whether that resolution may pass. That has been a matter that has not been done lightly in the past and I'm sure wouldn't be in the future. However, I think that we need to take a look at what the issue really is here and where we are. Assembly Bill No. 420 is the issue. Assembly Bill No. 420 was introduced to try to help some small independent businessmen throughout the state primarily in Southern Nevada, where there was a concern that ARCO was trying to create a monopoly. The papers were served for the subpoena and subsequent events that followed that. Our concern as legislators needs to be, what happens to the overall issue? If an agreement and a resolution is not passed, I don't know all the legal ramifications, I'm not an attorney either, but I think that ARCO could go to Federal court

for a restraining order, especially under the circumstances of the gag rule and may very well get the restraining order. We are in the waning days of the session and those things could be fought in court until we go home—that is one possibility. Assembly Bill No. 420 would die in committee if we wait for that kind of an action. The other possibility is as my colleague from North Las Vegas suggests that we can act on the legislation. And that's true. I think the commerce committee has an appetite to pass the bill. We could act on the bill and send it to the Senate. But from the conversations I've heard, there is no support in the Senate for this bill and if we do that then all the work that has been done on this legislation to this point in time will be for nothing. The subpoena will be moot because we don't have the bill anymore. There is nothing more that we can do besides pass the bill. If the full committee hearing brings out information as I personally suspect it will, then maybe the Senate will change their mind. I think that is one of the issues that needs to seriously be considered. Again, I am not in favor of closing any meetings of the legislature. However, these are extraordinary circumstances that call for extraordinary measures.

ASSEMBLYMAN NEVIN:

Thank you, Mr. Speaker. I stand in support of this resolution, but I have a question, if I may, direct to the chairman of the subcommittee. I noticed that it is on the Assembly and my question is, in time, saving problems and everything, was the Senate invited to look over this information out of their committee with us?

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. To you and through you to my colleague from Sparks. The answer is an unequivocal yes and yes. We asked if the Senate cared to attend in a joint session. Initially they evidenced some ambivalence and then finally they agreed that they had three members that would concur and we were advised by ARCO that under no circumstances could any Senators attend.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. I rise in favor of this resolution and to one of the previous speaker's remarks, I believe that all of us are elected to serve all of the citizens of this state. I have my opinions on A.B. No. 420, but I would like to point out that I believe ARCO is a company that is a citizen of this state and the company is entitled to be fairly judged by this body and we feel that we have not had enough information—bits and pieces that indicate that there is a problem. What we would like is the additional information to confirm if there is a problem or not. I would submit that if we were to subpoena the Coca-Cola Company for the recipe of their Coke that that company would fight vigorously to protect that recipe to fall into the hands of the public. ARCO is in a very competitive business and I can understand and I hope this body would understand why there is information that they have that would be damaging if put in the hands of their competitors. We have had negotiations over the days going to a subpoena in the first place is an extraordinary step the contempt citation, the company indicates it is willing to work with us, we are with it, let's try to judge them objectively and still retain their confidentiality that is important to their business future. I wish that we could have had the Senate sit in on this session, but the resolution didn't provide for it and ARCO strongly objected and so we are going with what we have. I hope that eventually this entire body will have enough information that if A.B. No. 420 is justified we will pass it on the basis of full information and not heresay and allegations that may end up proving to be invalid or not necessary. Thank you.

ASSEMBLYMAN MAY:

Mr. Speaker, thank you. Each of us sees through different eyes. But my eyes are riveted on the language on page three of the bill, "Review by the subcommittee must be done by a duly convened meeting of the subcommittee which must be closed to the public and having an attendance of only the members of the subcommittee, Assembly bill drafting advisor and representatives of ARCO."

I have but one question, Mr. Speaker, to you and through you to the chairman of the subcommittee, and if that answer is "No," then I will be recorded as voting "No" on this

measure. Was any thought, discussion, conversation given to having at least one member of the media designated from among themselves present and available at this meeting and also sworn to the same secrecy and to the very same penalties as the other members present?

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. No, there was not discussion of that possibility. I would be happy to relay that as an option, but I think I can safely suggest that they would refuse.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker, I rise in support of this resolution as a member of the commerce committee. With your indulgence, perhaps, I would like to ask my esteemed colleague to clear something up. Is it true that these documents right now are the subject of some litigation?

ASSEMBLYMAN CALLISTER:

Mr. Speaker, to you and through you to my colleague from Southern Nevada.

The documents that we will be reviewing are discovery in a litigation in Southern Nevada. I have reason to believe they have also been discovery in other similar litigations across the country, but they are not protected in any form as to our review of them by the gag order in Southern Nevada and that is an important point to understand. We are not acting in violation of some Federal court order. The Federal court order affects the parties to that litigation; we are non parties to that litigation.

ASSEMBLYMAN MYRNA WILLIAMS:

I understand that, I was just trying to clear up the fact that these documents are, indeed part of an ongoing action at this time. I would like to, as a member of this body, suggest that as far as not divulging anything, I think that that is an ethical stand that we should take in a situation like this. If we are entrusted with material that is viewed by anybody under these kinds of circumstances, we should have enough faith and respect for ourselves not to ethically violate that agreement. I do stand in support of this resolution.

SECOND READING AND AMENDMENT

Assembly Bill No. 708.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 749.

Amend the bill as a whole by deleting section 1 and adding new sections designated sections 1 and 2, following the enacting clause, to read as follows:

"Section 1. Chapter 123 of NRS is hereby amended by adding thereto a new section to read as follows:

Except as otherwise provided in subsection 2 of NRS 123.123, a grandparent or parent of either parent of an unmarried minor child, whether or not:

1. One parent of the minor child is deceased, divorced or separated from the other parent; or

2. The parental rights of either parent have been terminated,

may visit the child during the child's minority and spend sufficient time with the child to establish a meaningful relationship, if the court determines that visitation is in the best interests of the child.

Sec. 2. NRS 123.123 is hereby amended to read as follows:

123.123 1. [If] *Except as otherwise provided in subsection 2, if* a parent of an unmarried minor child is deceased or divorced or separated from the parent who has custody of the child, or his parental rights have been relinquished or terminated, the district court in the county in which the child resides may grant to [the grandparents, parents and] other children of [the parent who is deceased or divorced or separated from the parent who has custody of the child or whose parental rights have been relinquished or terminated,] *either parent of the child* a reasonable right to visit the child during his minority, if the court finds that the visits would be in the best interests of the child. In determining whether to grant this right to a petitioner , [who is not one of the parents of the person who is deceased or who does not have custody of the child,] the court shall consider the amount of personal contact between the petitioner and the child which occurred before the petition for the right to visit was filed.

2. If the parental rights of *either or* both natural parents of a child are relinquished or terminated, *and the child is placed in the custody of a public agency or a private agency licensed to place children in homes,* the district court in the county in which the child resides may grant to the grandparents, parents and other children of either parent a reasonable right to visit the child during his minority if a petition therefor is filed with the court before the date on which [all] *the* parental rights are relinquished or terminated. In determining whether to grant this right to a petitioner, the court must find that the visits would be in the best interests of the child in light of the considerations set forth in subsection 1.

3. Rights to visit a child may be granted:

(a) In a divorce decree;

(b) In an order of separate maintenance; or

(c) Upon a petition filed by an eligible person after a divorce or separation or after the death of the parent to whom the person was related, or upon the relinquishment or termination of a parental right.

4. Termination of the parental rights of a parent who is divorced or separated also terminates any rights *previously* granted pursuant to subsection 1 , [to persons related to the parent,] unless the court finds that visits by those persons would be in the best interests of the child.

5. For the purposes of this section, "separation" means a legal separation or any other separation of a married couple if the couple has lived separate and apart for 30 days or more and has no present intention of resuming a marital relationship.".

Amend the bill as a whole by renumbering sec. 2 as sec. 3.

Amend sec. 2, page 3, line 2, by deleting: "*to be suitable to care for the child*" and inserting: "*has established a meaningful relationship with the child,*".

"Sec. 4. NRS 432B.550 is hereby amended to read as follows:

432B.550 1. If the court finds that the child is in need of protection, it shall determine [if] *whether* reasonable efforts were made by the agency

which provides protective services to prevent or eliminate the need for his removal from his home and to facilitate his return to his home. The court may, by its order, after receipt and review of the report from the agency which provides protective services:

(a) Permit the child to remain in the custody of his parents or guardian with or without supervision by the court or a person or agency designated by the court, upon such conditions as the court may prescribe;

(b) Place him in the temporary custody of a relative who the court finds suitable to receive and care for him with or without supervision, upon such conditions as the court may prescribe;

(c) Place him in the temporary custody of a public agency or institution authorized to care for children, the local juvenile probation department or a private agency or institution licensed by the department of human resources to care for such a child; or

(d) Commit him to the custody of the superintendent of the northern Nevada children's home or the superintendent of the southern Nevada children's home, in accordance with chapter 423 of NRS.

2. If, pursuant to subsection 1, a child is placed other than with a parent, the parent retains the right to consent to adoption, to determine the child's religious affiliation and to reasonable visitation, unless restricted by the court. If the custodian of the child interferes with these rights, the parent may petition the court for enforcement of his rights.

3. *If, pursuant to subsection 1, the child is to be placed with a relative, the court may consider, among other factors, whether the child has resided with a particular relative for 3 years or more before the incident which brought the child to the court's attention.*

4. A copy of the report prepared for the court by the agency which provides protective services must be sent to the custodian and the parent or legal guardian.''.

Amend the title of the bill by deleting the first and second lines and inserting:

ESSAY BY MARK A. DE LA TORRE

Bicentennial Anniversary of the United States Constitution

This year the United States Constitution is 200 years old. The Constitution is the country's compact between the government and the people. Although this document has been amended in certain areas, it still remains basically in its original form.

Two hundred years ago delegates from all states, except Rhode Island, gathered to lay the Foundation for our government as we know it today. The results of their efforts had, and still has, a tremendous impact on the citizens of the United States.

The reason for the success of this visionary document is that in the preamble of the Constitution we realize that "we the people," as a whole are affected. It is "we" that establish the government and control the destiny of the country. It is only through active participation that we can insure that the individual rights of the governed can be sustained. These are shared rights of free men and women in a free society.

Americans need to renew their sense of citizenship. It is because of this pride that a strong nation has existed for two centuries. We cannot continue if only 25 percent of the people are the ones electing our officials.

People should use the Bicentennial as a time to reflect on what was created by the Constitution. It created three separate branches of government. The Constitutional system of government is one of checks and balances. This system provides tensions. These tensions between the branches are not meant to be resolved, but to be perpetuated, to restrain and give vitality to our government. The manner in which the government is set up gives it an emormous amount of power over the country, but it is limited in that it cannot deny the rights of individuals.

In this country any citizen has the opportunity to obtain anything they so desire, as long as it does not infringe upon the rights of other individuals.

The Constitution of the United States of America along with the Bill of Rights are nothing more than pieces of paper. What the framers of this paper accomplished that summer in Philadelphia was little short of a miracle. These documents outlined the government, the powers it has and how these powers could be exercised. It insured a free life to all who came to this country.

One must ponder the far reaching powers of this document. In its inception, this country did not have the number of states, people, resources, or even the types of businesses that exist today. I am forever in awe at the power this document has exhibited over the course of our country's history—through times of war, depression and in dealing with foreign countries. Nobody knows what the future holds for this country. So far the Constitution has stood the test of time and it will most likely continue to endure. Right

now there is a national cry to convene a Constitutional convention. However, it has not met with the support that is required. This reaffirms to me the strength of our Constitution.

If "we the people" have moved our great nation forward this far under the direction of this miraculous document, I have no doubt that it will help get us through another century. Generations to come will be faced with new and complex problems which the Constitution will help solve. It is our responsibility as citizens to enliven our spirits and renew our faith in the Constitution and our great democratic nation for which it underlies. I conclude that without a doubt, we will at the bicentennial anniversary of the Constitution celebrate "the blessings of liberty to ourselves and our posterity."

ESSAY BY PATRICIA ARMSTRONG

"The Constitution: what it means to me—past, present, and future."

"We the people of the United States, in order to form a more perfect Union . . ." as stated in the United States Constitution.

What an outstanding message to the American public! One should take notice that it says "We the people" and not "We the states." The constitution was created for the equality and fairness of all people. That is something that should not be overlooked.

Many years ago, men seeking justice, independence, and legal rights for all individuals met and created a living document to adjust and grow with new times. I feel privileged to live in a country with the history of such righteous and honorable men, who once fought for our rights.

The liberties I now enjoy are deeply valued. Many people forget what our history is. Our government was designated for the citizens of the United States. Equal protection under the law, the right for blacks and women to vote, no unreasonable search and seizure, freedom of religion and speech are among many rights we share thanks to the initiative of some good men.

As an adult citizen, I plan to uphold my responsibilities. Voting, appearing in court as a jury member or witness, and obeying the laws of this country are duties I will gladly carry out.

In the future, I hope to be a servant of the court. As an attorney, I will uphold my oath to seek justice and order. The chance to do this, and serve fellow citizens, will be my way of repaying a country that I owe so much.

Constitutional Moments—Week of January 26, 1987

Birthdays during this week include: Thomas Paine in 1737; Douglas MacArthur in 1880; Franklin Delano Roosevelt, the 32nd President, in 1882; and William McKinley, our 25th President (assassinated September 6, 1901), born in 1843.

On this date in 1787, John George Washington Hancock, the son of John Hancock, died at the age of nine.

During this week in 1787, Congress was still waiting for a quorum. Alexander Hamilton addressed the New York legislature on regulating elections and Benjamin Franklin paid George Sheed 3 pounds, 3 shillings and 5 pence for horsehair, an ingredient in 18th Century plaster. It seems to have worked—most of the plaster you see on the walls of Congress Hall haven't been touched since it was put on nearly 200 years ago.

We can see that history repeats itself as American captives were being held in the Barbary States during this week in 1787. John Adams and Thomas Jefferson, commissioners for negotiating a treaty with Morocco, wrote Congress enclosing the treaty, reporting a lack of information on the status of the treaty with Portugal, and noting that money was so scarce they would spend no more on the Barbary business, not even to ransom American seamen, without further orders.

In Nevada in 1865, on the 25th day of the Assembly, G. W. Walton made these remarks: "Mr. Speaker, your committee on Public Morals, to whom was referred Assembly Bill No. 91, an Act to prevent unlicensed gaming and to provide for the issuance of licenses for gaming, have had the same under consideration and recommend that it do not pass."

Nevada ratified the 18th Amendment on Prohibition, on this date in 1919. Due to statewide vote, prohibition had already been in effect in Nevada since November 5, 1918.

Thirty-eight years ago on this date in 1949, Assemblyman Don Crawford (D-Washoe) introduced a resolution to change to a unicameral (one house) legislature. The resolution was defeated 1-41 on February 4, 1949. Other members of the Assembly at that time were Chet Christensen, Bill Embry, Harley Harmon, Harry Claiborne and Bill Swackhamer.

Constitutional Moments—Week of April 5-April 11, 1987

During this week in 1787, the Board of Treasury reported to Congress on the plan for selling western lands (western, in those days meant Pennsylvania, West Virginia and Kentucky). Of 657,000 acres surveyed, one seventh part was reserved for veterans of the late war. The land was to be advertised four months in advance and was to be sold for not less than one dollar per acre.

James Robertson of Nashville, Tennessee, wrote to William Blount, North Carolina member of Congress: "On my return to this country, I find it involved in a war with the Chickamagua's which seems to threaten the most disagreeable consequences and without some timely assistance I fear will be productive of the ruin of the settlement. I beg you will use all your influence with the Governor to forward out some immediate assistance as I have no hopes of getting peace by any other means than by carrying the war into the Indian country."

In June 1784, North Carolina ceded its western lands to the United States. Residents of the area, comprising the present counties of Green, Sullivan and Washington in Tennessee, met and erected a new state. At a meeting in Greenville, John Sevier was elected Governor, courts were established, taxes levied, laws enacted and a Constitution adopted. The citizens named their new state after the venerable Benjamin Franklin. Applying to Congress for recognition and admission to the Confederation, the citizens were shocked to learn the Confederation was not interested. The State of Franklin passed out of existence in 1788. The land reverted to North Carolina jurisdiction and became a part of Tennessee when that state was established.

The 17th Amendment was ratified on April 8, 1913, allowing for popular election of United States Senators. As more people became eligible to vote, the idea of electing Senators in the same way as Representatives gained support, prompting the call for this Amendment.

April 6, 1917, the United States declared war on Germany. President Woodrow Wilson had been elected on a platform of "He kept us out of war," but three months after his election, German submarines began sinking American merchant ships. Almost two million men volunteered for service, and approximately three million men were drafted. World War I ended in an Allied victory with an armistice signed on November 11, 1918.

Constitutional Moments—Week of April 4-April 19, 1987

In 1775, on April 19, British troops tried to seize the military supplies of the Massachusetts Militia. This led to the start of the American Revolutionary War. The Second Continental Congress met on May 10, 1775, and organized the Continental Army on June 15, 1775. Congress named George Washington of Virginia as Commander in Chief of the Army.

On April 19, 1787, Congress received the credentials of Henry Lee, Jr. of Virginia, who was accordingly seated. Lee was better known to his friends as Colonel "Lighthorse Harry" Lee of fame in the Revolutionary War. The resolution of fellow Virginia Congressman John Marshal, upon the death of Washington was actually written by Lee. He described Washington as first in war, first in peace and first in the hearts of his countrymen.

William Samuel Johnson, a Congressman from New York, reported on April 21, 1787, that it was snowing in New York as Congress assembled. Debate on copper coinage and offering for sale of western lands continued.

In a letter dated April 20, 1787, to Thomas Jefferson, Ben Franklin wrote, "Our Federal Constitution is generally thought defective, and a convention first proposed by Virginia and since recommended by Congress is to assemble here next month to revise it and propose amendments. The delegates generally appointed as far as I have heard of them, are men of character for prudence and ability, so that I hope good comes of their

meeting. Indeed, if it does not do good, it must do harm, as it will show that we have not wisdom enough among us to govern ourselves and will strengthen the opinion of some political writers that popular governments cannot long support themselves."

April 18, 1913: W. Fred Dressler, later to become state Senator from Douglas County, 1919-1946 (28 years—the longest continuous service in the Nevada Legislature) applied for an auto license (a new requirement by the state) for his 1913 Dorris Motor Company touring car, 35 hp, license number 73. The fee was $3.30.

Constitutional Moments—April 26-May 2, 1987

Two hundred years ago, General Henry Knox, Secretary of War, urged Congress to proceed with its mandate of allotting western lands to veterans of the Continental Army. A committee to plan a temporary government for western territories was slated to present its report.

New Jersey, Pennsylvania and Virginia all included their incumbent governors in their states' delegations to the Convention. William Livingston from New Jersey, Ben Franklin from Pennsylvania and Edmund Randolph from Virginia.

John Rutherford, in a letter from New York to General James Robertson, wrote: "The town is much alarmed at a late attempt to move Congress to Philadelphia. The attempt was defeated by one vote, but it is expected when Maryland comes forward, being at present unrepresented, that it is again intended to make another trial. If Philadelphia succeeds, it will much affect the rents and trades of this place and we will lose the society of the foreign ministers and delegates."

Congress, on favorable report of a committee, directed Secretary of War, Henry Knox, to sell the outdated weaponry at Springfield Arsenal, Massachusetts.

Secretary of Foreign Affairs, John Jay, reported that Congress direct the American Ambassador at Paris to negotiate for the release of American seamen held hostage at Algiers.

On April 30, 1789, George Washington became the first President of the United States. He was 57 years old at the time. President Washington took his oath of office on the balcony of Federation Hall in New York City, New York. His second inauguration occurred in Philadelphia, Pennsylvania. He was the only President to be inaugurated in two cities.

In Nevada, on May 2, 1864, Territorial Governor James W. Nye, issued a proclamation apportioning the number of delegates among the ten counties of the Territory of Nevada, and ordering an election to choose delegates to the Second Constitutional Convention.

Constitutional Moments—Week of May 10, 1987

Two hundred years ago in Congress, Henry Lee of Virginia made a motion that the Board of Treasury erect the necessary building for the accommodations of Congress at Georgetown on the Potomac River. Congress would then take up its session in this Federal town on the completion of those buildings. The motion was defeated on a vote of four ayes to five nays.

With nine states fully represented, Congress directed that the Board of Treasury pay stipends for the education of two sons of generals killed in the late war. Accordingly, John Warren was granted $500 and Hugh Mercer received $400.

The General Assembly of Connecticut was debating the issue of sending delegates to the convention in Philadelphia. Sentiment of the majority seemed to favor Connecticut's attendance while opposing any radical changes to the Articles of Confederation.

The *Independent Gazeteer* published an extract of a letter from Dr. Price in London, dated January 26, 1787. "At present the power in Congress, in Europe is an object of derision rather than respect. At the same time the tumults in New England, the weakness of Congress, the difficulties and sufferings of many of the states and the knavery of the Rhode Island legislature, form subjects of triumph in this country. The conclusion is that you are falling to pieces and will soon repent of your independence. But the hope of the friends of virtue and liberty is that whereas the kingdom of Europe traveled to tranquility through seas of blood, the United States are traveling to a degree of tranquility and liberty that will make them an example to the world, only through seas of *blunders*. God grant this may be the truth."

Constitutional Moments—Week of May 17, 1987

The Free African Society met at the home of Richard Allen and adopted Articles of Association. These provided that "We, the free Africans and their descendants, do unanimously agree, for the benefit of each other, to advance one shilling a month in silver and after one year's subscriptions from the date hereof, then to hand forth to the needy of this society, if any should require, the sum of three shillings and ninepence per week of said money, provided this necessity is not brought on them by their own imprudence.

New York joined Virginia, Pennsylvania and South Carolina among states having a quorum of their delegates present.

The Canton ended its return voyage from China, having departed Philadelphia in early 1786. Captain Thomas Truxton, who would later do much to establish the discipline and traditions of the United States Navy, was greeted by a crowd of well-wishers, including John Pringle, John Donaldson and Tranch Coxe, backers of the voyage.

Since there seemed to be no chance that Congress would have a quorum again until the convention was over, many members were leaving New York.

The *Carlisle Gazette* printed excerpts of George Washington's circular letter urging the power of Congress be increased, the public debt paid, the militia made uniform and the states abandon "Local prejudices and policies."

May 20, 1927: On this date, Captain Charles A. Lindberg embarked on the first solo transatlantic flight. He departed from Roosevelt Field, Long Island, New York, at 7:52 a.m. and landed at Paris, France, at 10:42 p.m., May 21, 1927.

Assembly Bill No. 196.

Bill read third time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 837.

Amend section 1, page 1, line 2, by deleting: "2, 3 and 4" and inserting: "2 to 9, inclusive,".

Amend the bill as a whole by deleting sections 2 through 5 and adding new sections designated sections 2 through 9, following section 1, to read as follows:

"Sec. 2. *1. It is unlawful for any person who:*

(a) Is under the influence of intoxicating liquor; or

(b) Has 0.10 percent or more by weight of alcohol in his blood,

to operate or be in actual physical control of a vessel under power or sail on the waters of this state.

2. It is unlawful for any person who:

(a) Is under the influence of any controlled substance;

(b) Is under the combined influence of intoxicating liquor and a controlled substance; or

(c) Inhales, ingests, applies or otherwise uses any chemical, poison or organic solvent, or any compound or combination of any of these, to a degree which renders him incapable of safely operating or exercising actual physical control of a vessel under power or sail,

to operate or exercise actual physical control of a vessel under power or sail on the waters of this state.

Sec. 3. *1. To determine whether a person operating or exercising actual and physical control of a vessel under power or sail is under the influence of intoxicating liquor, the amount of alcohol in his blood at the time of the test as shown by chemical analysis of his blood, breath or urine gives rise to the following presumptions:*

(a) If there was at that time 0.05 percent or less by weight of alcohol in his blood, that at the time of the alleged violation the defendant was not under the influence of intoxicating liquor.

(b) If there was at that time 0.10 percent or more by weight of alcohol in his blood, that at the time of the alleged violation he was under the influence of intoxicating liquor.

If there was at that time more than 0.05 but less than 0.10 percent by weight of alcohol in his blood, no presumption may be made, but this fact may be considered with other competent evidence in determining whether he was under the influence of intoxicating liquor.

2. The provisions of subsection 1 do not limit the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor.

Sec. 4. *1. Any person who operates or is in actual physical control of a vessel under power or sail on the waters of this state shall be deemed to have given his consent to an evidentiary test of his blood, urine, breath or other bodily substance for the purpose of determining the alcoholic content of his blood or the presence of a controlled substance when such a test is administered at the direction of a peace officer having reasonable grounds to believe that the person to be tested was operating or exercising actual physical control of a vessel under power or sail while under the influence of intoxicating liquor or a controlled substance.*

2. If a person refuses to submit to such a test as directed by a peace officer, evidence of that refusal is admissible in any criminal action to determine whether the person was operating or exercising actual physical control of a vessel under power or sail while under the influence of intoxicating liquor or a controlled substance.

3. The person to be tested must be informed that his refusal to submit to the test is admissible pursuant to subsection 2.

4. Any person who is dead, unconscious or otherwise in a condition rendering him incapable of refusal shall be deemed not to have withdrawn his consent, and any such test may be administered whether or not the person is informed that evidence of his refusal to submit to the test is admissible.

5. Any person who is afflicted with hemophilia or with a heart condition requiring the use of an anticoagulant as determined by a physician is exempt from any blood test which may be required pursuant to this section, but may be required to submit to a test of his breath or urine.

Sec. 5. *1. A court may not exclude evidence of a failure to submit to such a test if the peace officer or other person substantially complied with the provisions of section 4 of this act.*

2. If a person submits to such a test, full information concerning that test must be made available, upon his request, to him or his attorney.

3. Evidence of a required test is not admissible in a criminal proceeding unless it is shown by documentary or other evidence that the testing device was certified calibrated, maintained and operated as provided by the regulations of the committee on testing for intoxication adopted pursuant to NRS 484.3882, 484.3884 and 484.3886.

4. If the testing device has been certified by the committee on testing for intoxication to be accurate and reliable pursuant to subsection 1 of NRS 484.3882, it is presumed that, as designed and manufactured, the device is accurate and reliable for the purpose of testing a person's breath to determine the percent by weight of alcohol in the person's blood.

5. A court shall take judicial notice of the certification by the director of the department of motor vehicles and public safety of a person to operate testing devices of one of the certified types. If a test to determine the amount of alcohol in a person's blood has been performed with a certified type of device by a person who is certified pursuant to NRS 484.3886, it is presumed that the person operated the device properly.

6. This section does not preclude the admission of evidence of a test of a person's breath, blood or urine where the:

(a) Information is obtained through the use of a device other than one of a type certified by the committee on testing for intoxication.

(b) Test has been performed by a person other than one who is certified by the director of the department of motor vehicles and public safety.

Sec. 6. *1. A person arrested for operating or exercising actual physical control of a vessel under power or sail while under the influence of intoxicating liquor or a controlled substance must be permitted, upon his request and at his expense, reasonable opportunity to have a qualified person of his own choosing administer a chemical test for the purpose of determining the alcoholic content of his blood or the presence of a controlled substance in his blood.*

2. The failure or inability to obtain such a test does not preclude the admission of evidence relating to the refusal to submit to a test or relating to a test taken upon the request of a peace officer.

3. A test obtained under the provisions of this section may not be substituted for or stand in lieu of the test required by section 4 of this act.

Sec. 7. *1. The results of any blood test administered under the provisions of section 4 of this act are not admissible in any criminal action arising out of the acts alleged to have been committed while a person was under the influence of intoxicating liquor or a controlled substance unless:*

(a) The blood tested was withdrawn by a physician, registered nurse, licensed practical nurse, emergency medical technician or a technician, technologist or assistant employed in a medical laboratory;

(b) The test was performed on whole blood, except if the sample was clotted when it was received by the laboratory, the test may be performed on blood serum or plasma; and

(c) The person who withdrew the blood was authorized to do so by the appropriate licensing or certifying agency.

2. The limitation contained in paragraph (a) of subsection 1 does not apply to the taking of a chemical test of the urine, breath or other bodily substance.

3. No person listed in paragraph (a) of subsection 1 incurs any civil or criminal liability as a result of the administering of a blood test when requested by a peace officer or the person to be tested to administer the test.

Sec. 8. *If:*

1. A manufacturer or technician in a laboratory prepares a chemical solution or gas to be used in calibrating a device for testing a person's breath, blood or urine to determine the percent by weight of alcohol in his blood; and

2. The manufacturer certifies or the technician makes an affidavit that the solution or gas has the chemical composition that is specified by the manufacturer of such a device as necessary for calibrating the device,

it is presumed that the solution or gas has been properly prepared and is suitable for calibrating the device.

Sec. 9. *1. Any coroner, or other public officer performing like duties, shall in all cases in which a death has occurred as a result of an accident involving a vessel under power or sail on the waters of this state, whether the person killed is the operator of the vessel or a passenger or other person, cause to be drawn from each decedent, within 8 hours after the accident, a blood sample to be analyzed for the presence and amount of alcohol.*

2. The findings of the examinations are a matter of public record and must be reported to the commission by the coroner or other public officer within 30 days after the death.

3. Analyses of blood alcohol are acceptable only if made by laboratories licensed to perform this function.".

Amend the title of the bill to read as follows:

"An Act relating to watercraft; prohibiting the operation of a vessel under power or sail while under the influence of alcohol or a controlled substance; providing for implied consent to testing for the presence of alcohol or controlled substances in an operator's blood; providing presumptions for the alcoholic content of an operator's blood; providing a penalty; and providing other matters properly relating thereto.".

Assemblyman Brookman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. I apologize for the condition of my voice. If you'll bear with me, I'm just going to make a few general remarks and I believe the other members of the subcommittee and other members of this body may wish to speak to this issue. Let me just start off by indicating my extreme pride in serving with a body as unified in spirit and in desire to serve the public as I believe this body to be. I think the course of conduct exhibited by the members of the Assembly in the last week and a half in the face of extreme public dissent has been unparalleled in my experience, and I'm very proud to serve with individuals who are more interested in informed decision-making than they are in political popularity. Regarding A.B. 420, it is with some degree of remorse that I rise to urge your support of this measure. I suggest remorse because, as I believe most other members of this body would share this sentiment, we all are opposed almost uniformly to the notion of the political intervention into the business marketplace. I think our state has long been the champion of the notion of *laisse faire*, free marketplace attitudes, allow the market to cure its ills, allow competition to take its course and resolve the dilemma. It is unfortunately in very rare instances, and I believe this to be one. It is our duty to confront

a specter that looms just over the horizon, and I would briefly identify the specter as the specter of monolithic multinational oil companies who have an absolute cradle-to-grave, well-to-pump control over the most essential commodity each and every one of us requires for our routine daily life—gasoline. We have heard substantial testimony in the full committee and in the subcommittee, pros and cons; we had a three-hour marathon session last night, the conclusion of which I would suggest identifies one central issue and it's important to frame our analysis of A.B. 420 in the light of this issue. As much as I like individuals like Mr. Greco, I don't believe it's this body's duty to get involved in the resolution of contractual disputes. I don't believe it's this body's obligation to get involved in anti-trust enforcement when that can and ought to occur in the judicial branch, but I do believe that we, as policy makers for the State of Nevada, have an obligation to address this central policy. Is it appropriate to allow trade practices to continue that will have the net effect of eliminating from the petroleum marketing industry the independent marketer of gasoline? That's the issue. It's not any broader than that, and divorcement addresses that issue because by severing the right of a multinational major oil refiner marketer, by severing his right to simultaneously access the crude, refine the crude, and market the crude, you are using that as a vehicle to allow the continuance of the independent component in the marketplace from which we have all benefited. All of us who have spent any time in Nevada appreciate the highly competitive nature of this industry which has focused on these independent marketers who drive the competition down, who have traditionally been the most innovative marketers, who have been the high volume, low price dealers. Because of a variety of reasons, there has now been a conscious decision made by at least one major oil company, and this conscious decision is set down on a piece of paper that's entitled "The Strategic Planning Unit" document, which we obtained. When we reviewed that document we saw what the conscious decision made was, and we now know it was their intent to eliminate the independent marketer from the marketplace. We realized it was their intent once that had occurred to explicitly increase prices; that's their express intent, once this interim period that we benefit from now of low, indeed aberrationally low, prices has concluded, the price will go up. Consider for a moment what you would do if you were in a business in which you owned the crude, because that is the case with ARCO. Unlike virtually any other major oil company they own their own crude reserves, they don't buy it. Also they are immune from international conflict because their crude comes from Alaska. They own the crude, they refine the crude and they own the means of distribution. Increasingly in the last four to five years those means of distribution have doubled and tripled at the expense of not other major oil companies but at the exclusive expense of the independent. Who are the independents? They are people we know. They are people that we have grown up with. They are people that have made a lifelong commitment to preserving competition in this state. Recognize this fact. A vote for A.B. 420 is a vote in favor of preserving competition, of preserving a dynamic marketplace. A vote against A.B. 420 is a vote against the preservation of traditional notions of competition. It's important for us to address briefly the documents that were obtained. We all walked out on a long political limb to obtain those documents. After initial requests by form of a written letter of a document we identified I believe to have been the SPU. We identified it by name as best we could. We identified it by reference to the court case in which it had been introduced, at least one of the two court cases, and we were told because of that document's highly confidential and secretive nature they could not provide it. We then issued the subpena.

The result of the subpena was an attorney, in-house counsel, appearing and advising us that he felt it was better to determine this kind of dispute in a judicial arena. That may well be the case if we had the time. By their own admission they are 20 months into a litigation in southern Nevada. I would suggest from my experience, probably another two years from a trial. By the time another two or three years has gone by it will be too late. When we had subpenaed this document and they had refused to comply, we initiated the contempt procedure. In our subpena we had requested other documents besides the SPU, documents that would provide evidence of profitability of company owned stations in southern Nevada. That evidence was not provided until we could reach some accord on an arrangement to view them at least at the subcommittee level, the initial review in closed

session. There has been some degree of controversy over this method. I think all of us here are painfully aware of how important it is that we do our jobs in public. We've always attempted to do so and I am certain that we always will. In reviewing other states who have confronted this same dilemma, we encountered the dilemma of dealing with corporations the size of nations, corporations with the reserves and the legal talent far in excess of anything the humble state of Nevada could hope to muster. When we reviewed the other states we discovered that there are procedures statutorily enacted that would have accommodated this kind of analysis, would have provided the confidentiality concerns and at the same time allowed us to access the documents. But unfortunately we don't have those statutes on the books yet this session. I can guarantee you that in the very near future my colleague from southern Nevada and I on the subcommittee will introduce just such legislation. We don't intend that we should have to go through this trial, this ordeal again, but we had to do it this time and as a result of having done it we were made aware that one of the documents, the SPU, which had long been refused, was in fact public record in a California lawsuit. It is my belief that had we not come forward with a public effort to sanction ARCO, we never would have had this information drawn to our attention. We solicited and obtained a copy out of the court records. By being able to compare that version, which was some four pages longer than the version that was provided in response to the subpena, we were able to document and evidence I believe two points. One, the nature and intent of their practices, that the Strategic Planning Unit document was nothing more than a blueprint designed some six years ago that would allow this corporation to become dominant at the expense of its own dealers and more critically at the expense of the independents. I would note that this document has been solicited from this body as recently as yesterday evening by major publications who are anxious to get their hands on it. There has been a great deal of gamesmanship played; a great deal of individuals and members of the industry are anxious to have a look at the document that we were able to provide. I think we need to, in some sense, recognize the merit of having stood firm, of having said to a multination corporation, produce what we ask so we can make an informed decision. Certainly we had an obvious and simple alternative. Let's have a little trial and throw somebody in jail but that would not have produced the documents. By standing firm we obtained the Strategic Planning Unit document, together with the second component which was so critical, evidence of profitability in southern Nevada. The evidence was that virtually none of the ARCO owner-operated stores in southern Nevada has made a profit in the last year, some 30 stations' operating losses that range into six figures. At the same time gasoline is consistently 10 cents less than it is 400 miles closer to the refinery. You must begin to wonder whose interests are at heart when that kind of ambiguity exists in the marketplace. As a result of this evidence as a result of their stated intent and the evidence of their conduct by virtue of the profitability documentation, I can only urge your support of this measure.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. I wish that there was an alternative to A.B. 420 today rather than to have to vote on the bill but there isn't. The chronology of the industry goes back to 1973 when we had the Arab oil embargo. We had the long lines in places in the country, no gasoline supplies, and then we went into regulation. That regulation then provided that all of those receiving product at that time would receive a share of that product; the independents flourished and all of the independents stayed alive. Then in 1982, ARCO had their special products unit meeting and they formulated the document we've been talking about. In that document they planned to discontinue the credit cards called the credit card blow-up. They established price zones. In blowing up the credit card, one of the intentions was, according to the SPU document, that in the short term at least those dealers would lose all those credit card customers and their volume would decrease. At the same time they were used to paying a rent based upon gallonage of gas sold and that was converted over into economic rent. The economic rent then was 300-400 percent more than what they were paying on the gallonage rent. Their volume is down and their rent has gone up. What happens? They left the business. That allowed the company to then either choose to close the stores or company operate them; they chose to go to company operation. In 1984 in southern Nevada one of our large independents, Terrible Herbst,

found himself unable to survive anymore buying gasoline on the spot market. His wholesale prices that he could buy for were about the same as what he could retail for, and so it was either get out of the business or find somebody to team up with. So he was forced into branding to ARCO, and I want to use the word forced. He didn't do that willingly, he would have preferred to have carried his own banner. Rebel at the same time was approached prior to Herbst and Mr. Casen refused to sign and last night in committee Mr. Casen in his own words stated to us that he was offered and refused to sign. Being the largest independent distributor in the state he is still surviving. So Terrible Herbst is gone, large independent. In August 1984 the Armor Oil Company, another large independent in this state, filed Chapter 11 bankruptcy and left the state. One of the reasons for an independent refiner going out of business is if the independent dealers are gone, there is no one for that independent refiner to sell his product to. In 1985 the rents were increased regardless of lease expiration dates. They were increased again the following year in 1986. We're not talking about $100, we're talking of going from $2,500 to $3,500 a month to $4,500 a month to $6,000 a month; those types of increases. Now we come along to August 1985. USA Gas, an independent company in southern Nevada also left the state because they didn't have a source of gasoline they could buy and retail and make any profit. In late 1985 the swap between ARCO and Shell Oil Company began. As we know on the eastern side of the Mississippi River, Shell took over the ARCO units, and on the western side of the Mississippi, Arco took over Shell. Arco wants to concentrate on the western part of the United States. Shell oil now has gone from southern Nevada. In 1986, Mobil left southern Nevada. They are gone. At the same time in 1986 in the north, USA brands branded. When we say branded that means going from an independent designation to carrying a major oil company brand. USA branded to Shell and Chevron in the north in this area. Armor gas went with Arco in the north. Buy Rite went with Unocal in the north. Texaco notified their dealers in Nevada that "we don't know if we're going to be here."

There's a Texaco dealer right here in Carson City that has been given indication by his company that his lease is up this year. He may not be around because the company may leave the state. Express Brands in southern Nevada is a large independent, functioning out of San Diego. They could find no source of fuel so they were forced to go with Unocal to stay in the business. Fill-n-Fast Brands independent in southern Nevada. They're not Fill-n-Fast anymore, they are now Unocal. We have one independent left in this state operating in southern Nevada with one station in the north and that is Rebel owned by Jack Casen. He's been in the business 37 years and he intends to hang on as long as he can. We ask ourselves what happened to all these small businesses, the businesses that are our neighbors, they service our products, they have taken a corner and carved out a niche in the world for themselves. They can unlock their doors in the morning, lock them at night, hire the people, make business decisions, try to put a legacy together for their family and become a part of the American Free Enterprise system, and what are we doing to those people? I think the large companies of the world need to exist, we need those too, but we need coexistence and this is not anti-business legislation. This is legislation to continue the quest of the small person to run his own business and be able to compete in the marketplace, keep the prices down and we'll all be better off. I'd like to go to who was at this SPU meeting because I think it is very important to give you a feeling for what kind of meeting this was. Was it zone managers, lower level management people that got into a planning session? No. Mr. Benson was vice chairman of the board of Atlantic Richfield. We're talking parent company people here, not divisions and so forth. Mr. Cook, executive vice president and director; Mr. Cox, executive vice president and director; Mr. Downer, vice chairman of the board; Mr. Duker, ex vice president and director; Mr. Kieschnick, chief executive officer, president of Arco; Mr. Wycoff, ex vice president and a director. This was the very highest level of management in the Atlantic Richfield Corporation to assemble in one room. I would submit they were not there to talk about some innocuous agreement or plans in a company that would normally be delegated down to the lower level management people. In the Senate in 1986, September 15, Senate Judiciary, there was legislation dealing with this particular problem and I'd like to just quote two very short paragraphs. "In these direct operations, the refiners sell gasoline in competition with their dealer operated stations in the same marketing area. The refiners

set both the wholesale prices charged the independent franchisees in that area and the retail prices on that same brand of gasoline at the service stations they operate themselves." The significant thing as mentioned, the Judiciary Committee believed that this legislation was needed to preserve the role of the full service franchise gasoline dealer in our competitive motor fuel market. These dealers are small businesses, independent and competitive, and they are unable to survive large scale incursions into the retail tier by the same large companies which supply them with their product. Today I believe that A.B. 420 is a necessary piece of legislation, and it's to preserve business, not to defeat it and I would urge your support. Thank you.

ASSEMBLYMAN FAY:

Thank you, Mr. Speaker. I come here today in favor of A.B. 420 as a guy who has been called many names in his life, but never a Socialist. I hope after today I still will remain not a Socialist. I defend or promote this bill for one reason and one reason only. Captain of industry, Mr. J. S. Morrison himself in these documents alluded twice specifically to the fear of political influence. Captains of industry many times, on most occasions, ascribe to the Milton Friedman form of free economic marketing. Yet in private, in confidential memos, they don't recognize the fact of political judgment on these policies they ascribe to on that basis. I think that it is not only our duty but our obligation at times to get into the private sector when the problems do exist.

ASSEMBLYMAN NEVIN:

Thank you, Mr. Speaker. This bill was not just dreamed up and drafted a couple of weeks ago or last month; this has been in the working for over a year.

I had a meeting with some gasoline retailers and they told me they had a problem. They showed me some interoffice memos they had which they weren't supposed to have and it pointed out that they definitely had a problem. I saw charts; I saw maps; I saw the takeover of the south; I saw how service stations, six months prior to one chart had been taken over and surrounded by ARCO, and others have been driven out of business.

This is a very important piece of legislation. We've come to a point in our time in our state that we are going to have to adopt these kinds of laws because the government isn't going to do it. They don't think they should, they think it's our problem and we should handle it and this is what this legislation does. I urge your support, I urge your "yes" vote and I urge you to make sure that this bill, when it gets to the Senate passes. You talk to them and tell them what the problem is. A two-year interim study from the Senate is not going to solve our problem; it's going to be too late, everybody will be out of business. Thank you.

ASSEMBLYMAN BROOKMAN:

Yes, Mr. Speaker, thank you. Through you and to you to this august body. I sat through the hearing last night—all the way through—and I commend my colleagues that sat on the committee, and especially the subcommittee. I am a consumer of gas, I am a member of this body and I am on the bill.

I rise in support of A.B. 420. I have seen many of the documents and charts and the information in those charts and documents—it must have been a very hard thing to get—and I, alone, will vote for this on that—just from looking at the charts alone.

What they plan to do, these giants, to the little guy and the consumer in the State of Nevada is unforgivable. They've already done it in the north, and now they are trying to do it to us in the south—I think we should rise up in arms and say, "No." The oil companies have dictated to the gas stations, "No more fixing flats; no more serving the people, washing their windshields; no more restrooms; don't be kind, just charge them—gouge them and charge them, they'll have no place else to go." Indeed, how long do we know they are going to stay here when they get the monopoly? I've heard of stonewalling before, but last night in the meeting I saw it.

I urge every one of you here, as a consumer, for the little guy, for the handicapped, for the elderly, I urge you to do a yes vote and vote this out to the other side and send a message to the other side that we will not be pushed around in Nevada by the big guys. We're going to do something for the little guys.

ASSEMBLYMAN DUBOIS:

Thank you, Mr. Speaker. I stand in opposition to this populace. But in saying that, let me add that I come here not to praise Caesar, but also not to bury him.

Let me say that when I first got wind of this from the ARCO dealer in Las Vegas, I was very impressed and I must admit that I believed him and I still believe him. I do believe that there are many injustices that were provoked upon him and upon many other dealers. I became enraged and, like all of us who are do-gooders, I wanted to get out and do something about it.

I had second thoughts after this bill was introduced, and I might add that I signed on it also. I wanted to give it full consideration, and I did. And, I must say that after the bill was introduced, word got out pertaining to it and I had second thoughts, particularly when I talked to my Texaco dealer whom I've done business with for many years and another dealer that I've known and talk to generally about once a month, a Conoco dealer, pleading with me not to pass this bill because they would be put out of business. That's the other side of the coin.

Now, what we're going to do here with this piece of legislation is to tell the marketplace how to run their business—we're going to legislate that. We're attempting to legislate the most competitive business in the world, believe me. That's why ARCO has come out with a very competitive marketing plan.

I've written a few marketing plans. This plan, as the Assemblyman from Las Vegas stated, was presented to their board of directors, most of whom know very little about marketing. When you write a marketing plan, you write it to be persuasive. That's what that plan is.

I think that this is a knee-jerk reaction. I don't think it is wise legislation. What we are going to do here, actually, is join four other states—all of them Eastern liberal states—in a divorcement-type legislation. Those states are Maryland, Delaware, Connecticut and Virginia. There used to be five. They used to have Florida, but two years ago Florida repealed this law—they didn't like it. If you want to join those four states, fine, but I submit to you that if you really studied this bill and really think it's true and have sat on the committees as I have, you'll see this as a special interest bill. I submit to you that it is a special interest for three multi-millionaires who are in the independent oil business. They are the ones who are going to get richer. The bill simply takes out competition in the Nevada market, the major competitors. When you do that, when you take them out of the retail competition, you automatically lessen the competition. We all know what happens—that increases prices—and in the long run you will hurt the consumer, and you are doing that for the benefit of a few.

We heard in testimony that prices in Las Vegas are among the lowest—lower even than in Los Angeles. We all know that there are gas wars that go on, prices go up and prices go down. As I said it is a highly competitive business. I feel that we are acting on our emotions here and I don't think that the legislature is the proper forum for this piece of action. The proper forum is in the courts and, right now there is a court action in Las Vegas Federal Court pertaining to this whole matter. That is where this thing belongs, not for us to legislate business.

My final thought, simply, is that, as I stated before, even the proponents of the bill have admitted that prices are at rock-bottom right now and if this bill passes, prices will increase. Who is going to be hurt? The consumer is going to be hurt—not only the consumer, but many other retailers, not the least of whom are over one hundred retailers in the convenience-food market.

ASSEMBLYMAN SEDWAY:

Thank you, Mr. Speaker. I rise in support of A.B. 420, specifically to counter balance remarks made by the previous speaker, my distinguished colleague from Clark County.

This is not a knee-jerk reaction we are taking. It is not a hasty action. This bill has been before this body for two months. It has been a subject of much scrutiny and much debate. Why are ARCO's prices lower? Any of you who have been made aware of the actions of the committee and the subcommittee and had the opportunity to read the strategic planning document which was presented to us last night, which was gone over line by line by the

chairman of our subcommittee—line by line—would see that that was a blueprint for monopolistic destruction of an industry which serves us. In the course of the testimony last night we were given to understand that all 50 attorneys general—all 50 attorneys general in the United States—have openly complained about the lack of prosecution by the administration, the Federal administration, in prosecuting anti-trust activities of major corporations in this country. What you have here now before you is a remedy to forestall the efforts of the present administration to strangle the efforts of individuals who want to make their way in the State of Nevada.

Why are prices lower in Nevada? They are lower because this corporation has gone out of their way to drive the price down to the point where independents cannot compete. In answer to a direct question that I put to the chief spokesman for ARCO last night, he told me that they would stay here as long as they had to in spite of the fact that they are losing hundreds of thousands of dollars every month. And I asked him how long they can stay here and do that? Are they going to do that for ten years, and he said, "Probably not." I said are you going to do it for five years? And, he said, "I'm not sure, probably not." And I said are you going to do it for one month? And, he said, "Sure." Well we know how long they are going to do it then. They are going to do it for somewhere between one month and five years. Who will be able to stand the force, the economic force, of a multi-billion dollar corporation to fight for survival with a plan like that? I command you, each and every one of you, to get a copy of that document and apply it to your own lives and businesses. You would not be able to survive. We cannot allow business practices like this to exist in the State of Nevada. A.B. 420 is a remedy which must be applied.

ASSEMBLYMAN CRADDOCK:

Mr. Speaker, to you and through you to the members. It is an unusual circumstance that I rise this morning. First of all I want to stipulate clearly that I stand in support of A.B. 420. Secondly, I want to state to you that I have a clear-cut conflict of interest. The conflict of interest is not the type that is normally talked about on this floor. I am one of several who enjoy an income from ARCO. I don't necessarily agree with the way they do business. The public interest far exceeds anything that I have by way of personal gain in this one. I've had that income for years now, and in the event that they would elect to forestall that, that's fine with me and if they have a representative here they can state as a matter of public record that I have said that and I'm willing to go through with it.

But, I do feel that the public interest is at stake here and I feel if these people are allowed to continue in this type of an operation we will certainly find out why they've lost 10 cents per gallon or whatever it is over the course of the last several years. Somewhere down the road we will be exceedingly sorry that we've allowed this thing to continue on this path. So, those members that have any interest in long-term survivalship, or long-term best interests in the State of Nevada better think twice when they vote against this because I think the intent of the plan is laid out clearly and I don't think there is any denying it at this point in time. So, with those remarks I will be voting for A.B. 420.

ASSEMBLYMAN ADLER:

Thank you, Mr. Speaker. I rise in support of this bill. I went to the subcommittee hearing last night undecided on this matter. I wasn't committed to either voting for or against this measure; however, just briefly a couple of things turned me around. This is in response to my colleague from Las Vegas who is opposed to this measure.

We really have no alternative at this point in time. There was sufficient testimony that the Federal government now is not enforcing the anti-trust laws on oil companies. I suggest to you that if they were doing their job, we would not be introducing this legislation today. This is being caused by their failure to meet their responsibilities to the public in general in the United States. Therefore, they have placed multi-national oil companies in the position of monopolizing markets which, I believe after reviewing the documents yesterday, is happening in Las Vegas and will soon happen in the northern part of the state. Secondly, the State of Nevada is not prepared to bring an anti-trust action against ARCO or any other major multi-national corporation. We have one half-time attorney general position to take on ARCO's hundreds of attorneys. Our entire litigation budget would be exhausted in a few months with just one lawsuit against ARCO. I have

been involved in a few lawsuits such as this, not as large as this one, and I can tell you that the attorney's fees can go past $1 million in less than one year's time. And, in preparation of documents, that figure can also be exceeded. So, we do not have a legal alternative in terms of the court system in controlling this multi-national corporation.

And, finally, in reply to my colleague from the south. There was a suggestion that letting this process continue will lead to greater competition. If one looks to the SPU, which is their own document, they state quite clearly that the temporary price reduction which is occurring now wherein they are selling gas below the market price and losing money will continue only to such time as all competition is driven out of the market and they can raise their prices. They do state quite clearly in that document that they will be raising their prices at that point in time and I would suggest to you that when that happens, we will all suffer as consumers. Therefore, I reluctantly support this measure because I believe we have been left with no alternative and I urge your support. Thank you.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in support of A.B. 420. I would say that perhaps this is the most informed vote that any of us will cast. I'm proud to be a member of the Commerce Committee because of the work, the research and the information that was provided to us. There is no question in my mind that had the Federal government acted, we wouldn't have to. There is no question in my mind that our Committee on Commerce and this body acted very courageously; we took steps that are not popular, but we did that so we could stand here today and make the kind of informed vote that we need to make. I would urge all of you that this is a vote that we need to make and this is a vote that is based on information, on evidence, and not a vote that is based on emotion. Thank you.

ASSEMBLYMAN SPINELLO:

Thank you, Mr. Speaker. I rise in support of the bill. In hearing the testimony last night something kept ringing through. It was a term that was used by a very well-liked member of the U.S. Senate some decades ago. He phrased the term "corporate futilism." Futilism, the political system characterized by arrogance, control, the dividing up of things into little areas of control. If you look at the patchwork quilt that I'm sure they have in store for us for various companies to carve off various geographical areas of the country and determine who will control what and within their area what prices they will charge, what services you will be able to get. I don't think it is a coincidence that when that eastern liberal, Teddy Roosevelt, did his greatest trust busting, some of his larger targets were the oil companies. Here we are again. The reason we're here is because we're Nevadans and if the Federal government won't do it, then we must help ourselves. That's why we're here.

ASSEMBLYMAN JEFFREY:

Mr. Speaker, I rise in support of A.B. 420. My colleague from Las Vegas, who intended to speak against the bill, actually spoke in favor of it. There are fewer outlets now for gasoline, or at least fewer people to control the gasoline in Las Vegas now than there were two years ago. We've seen the market narrow in Las Vegas for some time. It is a little disturbing when you drive in Las Vegas and see the number of ARCO stations. They have taken over Shell, they've taken over other operations. They've been forcing their own dealers out of business as well as the competition. You know, there is a well-known commercial that says, "Pay me now or pay me later." I don't want to pay higher prices any more than any other consumer does, but I think we have a choice of paying a stable, realistic price now or paying an artificially low price designed to put independent dealers out of business for the time being in order to pay a higher price later and over the long term.

Gasoline is the life blood of Nevada's tourist economy. We can't afford to have ARCO or any other corporation tamper with our gasoline supplies. There is no question that we'll have to pay no matter what the price is. We saw that during the embargo. I don't want to see it again, especially under these kinds of circumstances.

ASSEMBLYMAN SCHOFIELD:

Thank you, Mr. Speaker. I certainly rise in support of this legislation mainly because of

what the impact, as shown in the southern Nevada area, and, of course the north, will be. The thing that bothered me in sitting on that committee last night more than anything is one particular phrase in that document that has been alluded to and talked about today. It is on page three of the document and I asked exactly what it meant. The requirement, it was almost the thrust of the whole document in my opinion as far as the take-over is concerned, and I'll read it to you. This particular document says, "head off loss of market control." That's exactly what we're talking about. We have an opportunity today to, hopefully, not too late in this game for the people of the State of Nevada, stop that market control that appeared to be their thrust with this particular major oil company. I urge you to vote yes on A.B. 420.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support, but first I would like to express my thanks and congratulations for the good work of my colleague with the shock of blonde hair and the rumpled suit from Las Vegas. Differences aside from the other day, I think the committee did an excellent job. With that, I would like to also respond to the remarks of my colleague who opposes the bill. I would suggest that none of us, Democrats or Republicans, liberals or conservatives, choose to voluntarily involve ourselves into the private sector and into the free enterprise system. I think probably very few people who have come before us in legislative bodies across this land voluntarily chose to do the same thing. However, our history indicates, the history of our country, that in many cases when there has been abuse in any area that those legislative bodies from Congress to the several legislatures across the country have, in fact, injected themselves into private enterprise as they have in many other portions of the private sector where there was anti-trust laws. I suppose you could characterize our "greenmail" bill that we have done this year, regulations for safety on the job and many other areas. And, I think that when we first started hearing of this problem a year or so ago, there were at least indications of abuses as was characterized by our neighbors, the people we have grown up with, business people throughout our state. It would appear at this point in time from the report that has come back from our committee that there is ample evidence of those abuses. I for one am very happy and very pleased because I feel like we are doing something again for the little guys, that we have an opportunity to do something about that. I was not really aware of the size of the company or the people we were dealing with until our colleague indicated that they were larger in dollars than many states, and certainly our state, and many countries. I did not realize that we were dealing with quite that scale. I know that today what we're doing today is not the final answer, but I hope that we—we being Nevada and this legislature—the little guys, like David, have loaded our sling and I hope that we will be able to bring down that giant that has been menacing our neighbors and our friends and our constituents.

Amend section 2, page 4, by deleting lines 30 and 31 and inserting:

"Sec. 2. Section 4 of chapter 245, Statutes of Nevada 1983, at page 551, is hereby amended to read as follows:

Sec. 4. NRS 361.320 is hereby amended to read as follows:

361.320 1. At the regular session of the Nevada tax commission commencing on the 1st Monday in October of each year, the Nevada tax commission shall establish the valuation for assessment purposes of any property of an interstate and intercounty nature, which must in any event include the property of all interstate or intercounty railroad, sleeping car, private car, street railway, traction, telegraph, water, telephone, air transport, electric light and power companies, together with their franchises, and the property and franchises of all railway express companies operating on any common or contract carrier in this state. This valuation must not include the value of vehicles as defined in NRS 371.020.

2. Except as otherwise provided in subsections 3, [and] 4 *and 5* and section 1 of this act, the Nevada tax commission shall establish and fix the valuation of the franchise, if any, and all physical property used directly in the operation of any such business of any such company in this state, as a collective unit. If the company is operating in more than one county, on establishing the unit valuation for the collective property, the Nevada tax commission shall then determine the total aggregate mileage operated within the state and within its several counties, and apportion the mileage upon a mile-unit valuation basis. The number of miles apportioned to any county are subject to assessment in that county according to the mile-unit valuation established by the Nevada tax commission.

3. After establishing the valuation, as a collective unit, of a public utility which generates, transmits or distributes electricity, the Nevada tax commission shall segregate the value of all projects in this state for the generation of electricity whose construction was commenced on or after January 1, 1982, and which are not yet put to use. This value must be assessed in the county where it is located, and taxes must be levied and collected:

(a) On all of it, at the rate levied for the county school district;

(b) On all of it, at the rate levied for county purposes;

(c) On that fraction of it which the population of each incorporated city is of the population of the entire county, at the rate levied for that city;

(d) On that fraction of it which the population of each unincorporated town, as determined by the county, is of the population of the entire county, at the rate levied for that town; and

(e) On that fraction of it which the local assessed value of that portion of each general improvement district located within the county is of the local assessed value of the entire county, at that portion of the rate levied for that district or county which is required to construct those improvements described in NRS 318.125, 318.135, 318.140 and 318.144, including debt service for such improvements. For the purposes of this paragraph, "local assessed value" means the assessed value on the roll of a general improvement district or county excluding that assigned by the Nevada tax commission according to this section and net proceeds of mines.

The legislature finds and declares that this segregation fairly reflects the additional burden put upon the public services of the county during its construction. For the purposes of this section, "commencement of construction" has the meaning ascribed to it in NRS 704.840.

4. After establishing the valuation, as a collective unit, of a public utility which generates, transmits or distributes electricity, the Nevada tax commission shall segregate the value of all projects in this state for the generation of electricity whose construction was commenced before January 1, 1982, and which are not yet put to use. This valuation must be assessed in the county where it is located and must be taxed at the same rate as other property.

5. After establishing the valuation, as a collective unit, of each public utility which generates, transmits or distributes electricity in this state, the Nevada tax commission shall segregate the value of all projects for the generation of electricity whose construction was commenced on or after January 1, 1982, and allocate 10 percent of the valuation of each project to the county in which it is located and 90 percent of it among all the counties of this state in proportion to their respective populations. The valuation so allocated to each county must be assessed, and taxes must be levied and collected:

(a) On all of it, at the rate levied for the county school district;

(b) On all of it, at the rate levied for county purposes;

(c) On that fraction of it which the population of each incorporated city is of the population of the entire county, at the rate levied for that city;

(d) On that fraction of it which the population of each unincorporated town, as determined by the county, is of the population of the entire county, at the rate levied for that town; and

(e) On that fraction of it which the local assessed value of that portion of each general improvement district located within each county is of the local assessed value of the entire county, at that portion of the rate levied for that district or county which is required to construct those improvements described in NRS 318.125, 318.135, 318.140 and 318.144, including debt service for such improvements. For the purposes of this paragraph, "local assessed value" means the assessed value on the roll of a general improvement district, excluding that assigned by the Nevada tax commission according to this section and net proceeds of mines.

The legislature finds and declares that the consumption of electricity is roughly proportionate to population and that this allocation fairly distributes revenues arising from this consumption, and takes fair account of the effect of the generation of power on the natural resources of the state as a whole.

[5.] *6.* The Nevada tax commission shall adopt formulas, and cause them to be incorporated in its records, providing the method or methods pursued in fixing and establishing the taxable value of all franchises and property assessed by it. The formulas must be adopted and may be changed from time to time upon its own motion or when made necessary by judicial decisions, but the formulas must in any event show all the elements of value considered by the Nevada tax commission in arriving at and fixing the value

for any class of property assessed by it. These formulas must take into account, as indicators of value, the company's income, stock and debt, and the cost of its assets.

[6.] *7.* As used in this section the word "company" means any person, company, corporation or association engaged in the business described.

[7.] *8.* In case of an omission by the Nevada tax commission to establish a valuation for assessment purposes upon the property mentioned in this section, the county assessors of any counties wherein the property is situated shall assess it.

[8.] *9.* All other property must be assessed by the county assessors, except as provided in NRS 362.100 and except that the valuation of land and mobile homes must be established for assessment purposes by the Nevada tax commission as provided in NRS 361.325.

[9.] *10.* On or before the 1st Monday in December the department shall transmit to the several county assessors the assessed valuation found on such classes of property as are enumerated in this section, except for private car lines, together with the apportionment of each county of the assessment. The several county assessors shall enter on the roll all such assessments transmitted to them by the department.

[10.] *11.* On or before November 1 of each year the department shall forward a tax statement to each private car line company based on the valuation established pursuant to this section and in accordance with the tax levies of the several districts in each county. The company shall remit the ad valorem taxes due on or before December 15 to the department which shall allocate the taxes due each county on a mile-unit basis and remit the taxes to the counties no later than January 31. The portion of the taxes which is due the state must be transmitted directly to the state treasurer. A company which fails to pay the tax within the time required shall pay a penalty of 10 percent of the tax due or $5,000, whichever is greater, in addition to the tax. Any amount paid as a penalty must be deposited in the state general fund. The department may, for good cause shown, waive the payment of a penalty pursuant to this subsection. As an alternative to any other method of recovering delinquent taxes provided by this chapter, the attorney general may bring a civil action in a court of competent jurisdiction to recover delinquent taxes due under this subsection in the manner provided in NRS 361.560.".

Amend the bill as whole by adding a new section, designated section 3, following section 2, to read as follows:

"Pappy" Smith Award as civic leader of the year, he received the Distinguished Nevadan award from the University of Nevada Regents and he was a Northern Nevada Business Leader's Hall of Fame Laureate; and

WHEREAS, Wallie Warren was revered by many as one of the "wise men" of Nevada's public life, and served as mentor and adviser to hundreds of Nevadans who sought to make a contribution to their state; and

WHEREAS, Wallie's view of the political process was the long view, seasoned over many decades and directed to the broad objective of advancing the common good; and

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That members of the 64th session of the Nevada Legislature do hereby extend their deepest sympathy and sense of loss on the death of a distinguished Nevadan to Wallie Warren's wife of 49 years, Ethel, sons Stan and Leonard and daughter Christy Zinn along with eight grandchildren and two great-grandchildren, all of Reno; and be it further

RESOLVED, That a copy of this resolution be prepared and transmitted by the Chief Clerk of the Assembly to Wallie Warren's wife Ethel, sons Stan and Leonard and daughter Christy Zinn.

Assemblyman Kerns moved the adoption of the resolution.

Remarks by Assemblymen Kerns, Dini, Nicholas, Getto, Jeffrey, Humke, Marvel, Brookman and May.

Assemblyman Nevin requested that the following remarks be entered in the Journal.

ASSEMBLYMAN KERNS:

Mr. Speaker pro Tem, I've known Wallie probably for about twenty-five years. We first became lobbyists together back in 1963 and our friendship developed from there.

Wallie was one of the people responsible for my being here. I don't know whether some of you like that or not.

It was a great honor serving with Wallie all those years. I learned an awful lot from Wallie. I'm not sure how Wallie would lobby for this bill. Wallie would say, "Well, what's this all about? Is this how everybody does things?" Because being right, being honest and being straightforward was Wallie, and he wouldn't be able to understand why we should be making such a big deal about being that type of person. Wallie would hate to think that everybody wasn't that way.

But Wallie was special. In twenty-five years I don't think I ever heard Wallie have anything derogatory to say about anybody. Wallie could find something good about anybody—and I'll tell you that sometimes that's hard to do, but Wallie could do it.

I have some people here that I would like to introduce to you today. I have Wallie's wife, Ethel, sitting with me. In the back are his son, Leonard; his son Stan and his wife, Ruth; daughter, Christy Zinn and her husband, John; and some of the grandchildren: Mike Warren; Gene Warren and his wife, Nancy; and Nancy Kennedy and her husband, Mark. I would like to have you all please stand.

I could stand here and say many, many good things about Wallie, but I'm sure we've heard most of it in the resolution. I'm sure Wallie had a lot of friends in this room who will have a few words to say, so I'll stop at that. Thank you.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker pro Tem. I would be really remiss if I didn't stand up and say a few words about my good friend, Wallie. I guess when I came here to the legislature in 1967, he was one of the first people I met. He taught me what legislative advocates are.

He left me with the impression of honesty and sincerity for the job he was doing. He helped me so many, many times early in my career when I had to have assistance. I think that Walter Cox and Jack McCloskey actually first put me in touch with Wallie Warren. They kind of steered him to me early in 1967 to be sure I stayed straight over here and listened to the populace, I guess.

Wallie was certainly a dedicated man and I'm going to miss him very much because of our close association all those years.

Our condolences to the family. I know it is hard to take, but we are all with you.

ASSEMBLYMAN NICHOLAS:

Thank you very much, Mr. Speaker pro Tem. I will be brief.

We all know many people in many walks of life. We know some who don't achieve and some who do. I think what I would like to have said about me probably never will be, but I can say it about Wallie Warren. He was really, really the top of the line. They don't come any better, they don't achieve more than he did and we are lucky we had him.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker pro Tem. Like my colleague, Assemblyman Dini, my first session was my introduction to Wallie Warren. What I can say about Wallie was that he was a gentle, caring, and yet a very forceful man. He was very informative. He provided me with the information I needed, and yet never was an arm twister.

Wallie's funeral, I think, was a testimonial to the man. The caliber of the people who were there was very impressive to me and surely Wallie had touched every one of those people's lives.

Nevada is a better place today to live because of Wallie Warren. I'm only sorry that he had to go—that he couldn't be here to still make it a better place in the future.

Certainly I would like to pay my respects to the family. I know it is hard, but we have some wonderful memories of Wallie.

ASSEMBLYMAN JEFFREY:

Thank you, Mr. Speaker pro Tem. I first met Wallie, I believe, in 1971, when I first sat in on some Labor and Management meetings in the days when Labor and Management used to get together on some of the then NIC legislation.

I found Wallie to be very well-informed, a tough advocate for the people he represented and yet he was not only concerned about what the right thing was to do, but what was fair.

Wallie had a deep concern for the people of the State of Nevada in the state as a whole. His information was good, his word was good and he will be sorely missed in these halls.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker pro Tem. When I first started, a number of the lobbyists and other people advising those who get into politics said, you have to take a look at lobbyists as a class and remember that their function is to educate you. Don't necessarily pick up the newspaper and believe that all lobbyists are going to be bad individuals for they do serve a very appropriate function. I think that statement could have applied first and foremost to Wallie Warren, who was a great guy. I think he made the profession of lobbyist look good.

I would like to relate a very brief story related by a friend of mine, Dave Howard, who is an out-going city councilman for Reno. When he first ran for public office he put out an announcement and was very happy to receive a phone call from Wallie asking him to come see him as soon as he could. Dave was very excited and he knew that this would either lead to some gold mine of advice or perhaps the other gold mine, financial contributions, as Wallie might put him on the right track. In the end I think that Wallie showed that he had a real sense of humor. He called Dave up to his office and sat down and had some coffee. And Wallie's advice to Dave was this, he said, "When you put out your yard signs, if somebody knocks them down, don't get mad." That was it. Thank you.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker pro Tem. I think it is somewhat regrettable since we have so many new faces in the Assembly this session that they didn't really have the opportunity to know Wallie for what an honorable and incredible man he was. I think you have heard from both parties how much assistance he had given all of us during our sessions in the legislature. We are certainly most appreciative to have known Wallie and the members of his family. Certainly his friendship will be a lasting memory for me the rest of my life.

ASSEMBLYMAN BROOKMAN:

Thank you, Mr. Speaker pro Tem. I knew Wallie before I became a legislator because I was always up in these halls trying to legislate for good things for little people in Nevada. He came up to me one day and he said, "Eileen, I'm going to adopt you as a little girl. I want you to be one of our first women legislators." I took his advice. He called me. I called him. And I did file and I did win and I did become a legislator.

I echo my compadre John Marvel, I'm sorry that the freshmen really didn't get a chance to enjoy Wallie's humor; his wit was marvelous. He was one of the most truthful men I have ever met in my life. He was so very kind. He always called in between sessions to find out how you were. He gave you the truth on everything. Thank you.

ASSEMBLYMAN MAY:

Thank you, Mr. Speaker pro Tem. In 1967, Clark County sent sixteen legislators to the state assembly. Only two of us hold these seats today along with Mr. Getto and Mr. Dini, of course.

Each of us had the great honor of meeting, at least in my case, for the first time in that session, Wallie Warren. Wallie personified that which is a good legislative advocate—straightforward. If you asked him a question, you would get an honest answer even if it were detrimental to the side he was advocating. But, he would never try to color for his own benefit the proposal he was working for or trying to see enacted into statute. He would be candid, he would be straightforward, he'd give you the benefit of years of accumulated wisdom. On many, many occasions he would come to me and he would say, "Paul, whatever you learn up here as you continue to serve us, one thing I would ask of you or advise you strongly on. Once you give your word, stay with it." I've tried to do that.

Wallie, we miss you.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker pro Tem. At this time I would like to present Wallie's wife with a framed copy of the Assembly Concurrent Resolution 62 which she can have as a memento of this occasion.

Ethel says to thank you all.

We also have copies here for the rest of the family.

Assemblyman Wisdom moved the adoption of the resolution.

Remarks by Assemblyman Wisdom.

Assemblyman Spinello requested that Assemblyman Wisdom's remarks be entered in the Journal.

Thank you. Today we have the very special privilege of having some of our Pony Express members here in our gallery.

I would like to speak briefly on the Pony Express and our resolution commending these persons who have worked to continue its traditions. Competing with the time, distance,

harsh climate and caught between battling soldiers and Indians, the Pony Express carried important communications 2,000 miles from St. Joseph, Missouri, to Sacramento, California, in just ten days.

The Pony, as it was called, is an outstanding example of American courage, endurance and determination in the westward expansion of the nation.

The Pony made its first historic run on April 3, 1860, and despite its famous reputation, it lasted only 18 months. Its founder was W. H. Russell, one of the operators of the Overland Stage Line in Leavenworth, Kansas, a daily coach from the Missouri River to Salt Lake City.

The idea for such a daring operation, however, came from Senator William Gwin of California. In the winter of 1859, Russell, while in Washington, D.C., became acquainted with Senator Gwin and was very interested in faster mail service between the east and California. Knowing Russell was engaged in the stage coach business, Senator Gwin convinced him to establish a mail service using horses and riders. The Overland Stage Company had already established stage coach stations every ten or twelve miles as far west as Salt Lake City. Beyond that, new stations in remote hostile territory had to be built. Riders and fast horses also had to be found, but despite all this in less than two months after Russell promised Senator Gwin to do the job, the first Pony Express was ready to leave Sacramento and St. Joseph simultaneously.

To handle the operation, four able division agents were selected, including Bolivar Roberts at Carson City. In a short time, these four agents managed to find 80 experienced riders, 500 horses, and built some of the 190 stations needed for the Pony Express. For risking their lives daily, the riders received $25 a week, two revolvers, a rifle, a Bowie knife and a gold-imprinted bible. Later on, the heavier armaments proved to be too much luggage for the riders and they finally settled for a single pistol with an extra loaded cylinder.

The Pony Express was a fast, efficient organization, but even with its high prices—averaging $1 to $5 an ounce, and sometimes totalling $1,000 in receipts for a single day—it failed as a financial venture. However, the Pony Express is credited with helping to keep California in the Union at the outbreak of the Civil War. Despite this contribution, the Pony Express never received any financial assistance or subsidy from Congress.

But finances were only part of the Pony's demise. While the Pony riders were setting speed records carrying communications between the East and the West, construction was underway on a communications system that they could never beat—the transcontinental telegraph. When it was completed on October 24, 1861, it solved the need for urgent communication that had created the Pony Express. A message that had taken ten days by Pony Express could be transmitted by telegraph in ten seconds. So, four days later, on October 28, 1861, the Pony Express, and with it a colorful era of history, was at an end.

Every year these men make the Pony Express ride—the Pony Express Association as it is today. The ride is 460 miles and it takes them 56 to 59 hours, riding around the clock. This year they leave St. Joseph on June 14 and they will arrive in Carson City on June 23rd.

As it has been said in the past, the past belongs to the future, but only the present can preserve it. The Pony Express may, as tradition, be retained forever.

Resolution adopted unanimously.

Assemblyman Wisdom moved that all rules be suspended and that Assembly Concurrent Resolution No. 63 be immediately transmitted to the Senate.

Motion carried unanimously.

ASSEMBLY IN SESSION

At 10:47 a.m.

Mr. Speaker presiding.

Quorum present.

Remarks by Assemblyman Getto.

Assemblyman Getto requested that the following remarks be entered in the Journal.

ASSEMBLYMAN BANNER:

Yes, Mr. Speaker, I have the privilege of having his wife, Eleanore, and his son, Hank, here at my desk today. It is really an honor for me because I've known Hank since I've been in this building. As some of you know, I am a creature of habit. Hank was also a creature of habit. We met at 7:00 a.m. every morning in the bill room to discuss what we were going to do for the day and what happened and about his son, who has been playing golf. His wife tells me that I probably made him a little more prompt because after I started meeting with him he always made it a point to be here at 7:00 a.m.

Hank turned out to be one of my dearest friends in this Assembly and I feel it an honor to have the family sitting at my desk and to be able to offer them this resolution today. I think it was nice. They will get a copy of it also in the Journal, which I will mail to them. Thank you.

If you could allow it, Mrs. Gardner would like to say something.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker. Very briefly, I met Hank here at the Legislature. One thing

that I can say about Hank is that he loved people. He was a very cheery person. As my colleague from down south said, it was a very spiritual uplifting every morning when I did happen to go in and visit with Hank.

My granddaughter was here the day that Hank passed away. She was in the bill room just about four or five minutes before it happened. This was the first time she met Hank and she took a very particular liking to him and remembered him. When she heard about the tragic event, she was very upset.

As I said before, I think one of Hank's great attributes was that he loved people and he made a lot of friends who will certainly miss him over the years.

The state engineer may request additional information from the applicant. The state engineer may conduct such independent investigations as are necessary to determine whether the application should be approved or rejected.*

If a person who is required to file an annual report under this section fails to file a report when due, the state engineer may assess and collect a penalty of $500 for each month or portion of a month that the annual report is delinquent. The total penalty assessed under this subsection must not exceed $5,000.

4. The records and reports required to be kept and filed pursuant to this section must be in such form as the state engineer prescribes.

Sec. 21. *1. A permit for a recovery well must comply with the requirements of chapters 533 and 534 of NRS.*

2. The holder of a permit for a project may recover water stored pursuant to the permit only from wells designated by the holder and approved by the state engineer, located within the area of hydrologic effect of the project as determined by the state engineer.

3. The person entitled to recover the water must be designated by the holder of the permit and approved by the state engineer.

4. The holder of a permit for a project and a permit for a recovery well may use or exchange water recovered pursuant to those permits only in the manner in which it was permissible for him to use that water before it was stored.

Sec. 22. *1. The state engineer shall establish a storage account for each project for which he has issued a permit. If the project stores water from more than one source, he shall establish subaccounts for each source of water.*

2. The holder of a permit for a project may recover only the recoverable amount of water that is stored by the project.

3. For the purposes of this section, "recoverable amount" means the amount of water, as determined by the state engineer, that has reached the aquifer and remains within the area of active management.

Sec. 23. *1. The state engineer shall levy and collect an annual fee from each person who holds a permit for a project. The state engineer shall establish the amount of the fee for the following year not later than October 1 of each year.*

2. Within 30 days after the state engineer sets the fee, he shall mail written notice of the fee to all holders of permits.

3. The fee must be paid to the state engineer at the time the person holding a permit files an annual report. If a person who is required to pay a fee fails to pay the fee when due, the state engineer may assess and collect a penalty of 10 percent of the unpaid fee, without compounding, for each month or portion of a month that the fee is delinquent. The total penalty assessed must not exceed 60 percent of the unpaid fee.

4. Money received by the state engineer pursuant to this section must be deposited with the state treasurer for credit to the account for projects for recharge, underground storage and recovery of water in the state general fund. The interest and income earned on the money in the account, after deducting any applicable charges, must be credited to the account. Money in the account must only be used for the administration of this chapter.

5. The state engineer may employ special consultants to assist him in fulfilling his responsibilities pursuant to this chapter.

Sec. 24. *1. The state engineer may periodically review a project to determine if the holder of the permit is complying with the terms and conditions of the permit and the public interest is properly guarded. The state engineer may permanently revoke or temporarily suspend the permit for good cause after an investigation and a hearing. Notice must be sent to the holder of the permit at least 15 days before the hearing, by registered or certified mail, that the holder has failed to comply with this chapter. In determining whether to revoke or suspend a permit, the state engineer shall consider uses of land and water which were not in existence when the permit was issued.*

2. Except as otherwise provided in subsection 3, if the state engineer has reason to believe that a person is violating or has violated a provision of this chapter or a permit issued or regulation adopted pursuant to this chapter, the state engineer may issue a written notice that the person must appear and show cause, at a hearing before the state engineer not less than 15 days after the receipt of the notice, why the person should not be ordered to cease and desist from the violation. The notice must inform the person of the date, time and place of the hearing and the consequences of failure to appear.

3. If the state engineer finds that a person is constructing a project in violation of this chapter, the state engineer may issue a temporary order for the person to cease and desist the construction pending final action by the state engineer pursuant to subsection 5. The order must include written notice to the person of the date, time and place where the person must appear at a hearing before the state engineer to show cause why the temporary order should be vacated. The hearing must be held not less than 15 days after the date of the order.

4. After a hearing pursuant to subsection 2 or 3, or after the expiration of the time to appear, the state engineer shall issue a decision and order. The decision and order may take such form as the state engineer determines to be reasonable and appropriate and may include a determination of violation, an order to cease and desist, the recommendation of a civil penalty and an order directing that positive steps be taken to abate or ameliorate any harm or damage arising from the violation. The person affected may appeal the decision to the district court pursuant to NRS 533.450.

5. If the person continues the violation after the state engineer has issued a final decision and order pursuant to subsection 4 or a temporary order pursuant to subsection 3, the state engineer may apply for a temporary restraining order or a preliminary or permanent injunction from the district court. A decision to seek injunctive relief does not preclude other forms of relief or enforcement against the violator.

Sec. 25. *1. A person who is determined pursuant to section 24 of this act to be in violation of this chapter or a permit issued or regulation adopted pursuant to this chapter may be assessed a civil penalty in an amount not exceeding:*

Sec. 27. *The removal of ground water from any basin in Nevada, to alleviate potential hazards to persons and property resulting from the rise of ground water caused by secondary recharge, is hereby declared to be a beneficial use if it is accomplished pursuant to the terms and conditions of a waiver issued pursuant to paragraph (c) of subsection 2 of NRS 534.050 or subsection 2 of NRS 534.070.*

3. In other basins or portions of basins which have not been designated by the state engineer no application or permit to appropriate water is necessary until after the well is sunk or bored and water developed. Before any diversion of water may be made from the well, the appropriator must make application to and obtain from the state engineer, in accordance with the provisions of chapter 533 of NRS, a permit to appropriate the water.

4. Upon written application and a showing of good cause, the state engineer may issue a written waiver of the requirements of subsection 3, to allow temporary use of water in constructing a highway or exploring for oil, gas, minerals or geothermal resources.

5. Any person using water after a permit has been withdrawn, denied, canceled, revoked or forfeited is guilty of a misdemeanor. Each day of violation of this subsection constitutes a separate offense and is separately punishable.

Sec. 30. NRS 534.060 is hereby amended to read as follows:

534.060 1. During the sinking or boring of a well the permittee shall cause to be placed in the well a proper and sufficient casing approved by the state engineer, so arranged as to prevent the caving in of the well and to prevent the escape of water therefrom through any intervening sand or gravel stratum, which casing must be of sufficient length to reach the deepest aquifer encountered during the sinking or boring of the well.

2. The number, size, type and distribution of perforations is optional with the permittee, except that no perforations may be made in a pipe tapping confined (artesian) water above the confining impervious materials.

3. The permittee shall provide the necessary valves, plugs or other appliances to prevent or control the flow of water from the well and prevent the loss of underground water above or below the ground surface.

4. If in the judgment of the state engineer a well is in any manner defective he may order the owner to repair the well or, in his discretion, may cause the well to be repaired or sealed. If the state engineer elects to repair or seal the well, the cost of repairing or sealing the well must be paid from the water distribution account and must not be charged to the owner of the well or be a lien on the land upon which the well is located or on other land of the owner to which water from the well is appurtenant.

5. If the state engineer orders the owner to repair the well and if upon 15 days' written notice by registered or certified mail, return receipt requested, the owner fails to repair [such] *the* well, the state engineer or his assistants or authorized agents may, without further notice, take such steps as may be necessary to effect such repairs. The cost thereof, including the labor and material, may in the first instance be paid by the state engineer from the water distribution revolving account , [;] but any such cost in any event is a lien on the land on which the well is located and, also, any other land possessed by the well owner to which the water from the well is appurtenant.

6. The state engineer, his assistants or authorized agents, as the case may be, shall file an itemized and sworn statement, setting forth the date when the work was done and the nature of the labor so performed, with the board of county commissioners of the county wherein the charge and expense were incurred. The board of county commissioners shall thereupon present a bill for the expense to the person liable therefor under this section, and if that person neglects for 30 days thereafter to pay it, the bill and costs become a lien upon the lands and property of the person so liable for the payment of the bill, and must be collected as delinquent taxes against the lands and property are collected.

7. When a well is abandoned or about to be abandoned, the owner, in lieu of plugging the well, may advise the state engineer and other interested hydrologic entities that the well is available to monitor the ground water. If, in the opinion of the state engineer, the well would be useful as a site for monitoring, the state engineer may grant the owner a waiver of the requirement that the well be plugged.".

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the members of the 64th session of the Nevada Legislature commend Ella Savitt for the many years she and her late husband Sol have contributed to the University of Nevada, Reno, in an attempt to provide the best possible education for the people of the State of Nevada; and be it further

RESOLVED, That a copy of this resolution be prepared and transmitted forthwith by the Chief Clerk of the Assembly to Mrs. Ella Savitt.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans and Swain.

Assemblyman Evans requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. To you and through you, from time to time the Assembly chooses to pause and honor an outstanding Nevada citizen and such is our task this morning.

Ella Savitt, as you heard from the concurrent resolution, has given much to education in northern Nevada. To the University of Nevada library, to the School of Journalism, to the School of Medicine—which bears her name and that of her husband on its library, the Sol and Ella Savitt Medical Library—to the Fleischmann Planetarium Atmospherium, the list goes on and on of the wonderful things that the Savitt name has done.

There are a couple of other things I think, though, that you need to know about this generous, warm and caring lady. For many years, Mr. and Mrs. Savitt owned and operated the Sierra News Service in Reno. In the mid-1950s they began a program whereby freshman scholarships to the University were awarded in the Reno area high schools. That tradition has continued for some 30 years. It has grown, it has expanded, and now includes some 21 northern Nevada high schools. It is known as the Savitt Freshman Scholarship.

Another practice that the Savitts put into place was that of inviting their employees to send their children to the University and offering to pay the tuition of those children who wished to get a higher education. I think that is a splendid idea. Wouldn't it be wonderful if even half of the employers in the State of Nevada would follow that fine example and provide tuition for the children of their employees.

Ella Savitt does not believe in giving a handout; but what she does do is believe in giving a leg up to help those who wish to have a degree and those who wish to earn their way in the world. On that note, Ella Savitt, we tell you today that you have earned your place in Nevada's history and you have won your place in our hearts. We honor you today. Thank you for coming.

ASSEMBLYMAN SWAIN:

Thank you, Mr. Speaker. To you and through you to my colleagues, I would just like to say that Mrs. Savitt is a near neighbor of mine and I am a gardner as she is and so I enjoy it enormously when I drive by her house and see her out there working very, very hard on her beautiful, beautiful place.

I would just like to say that I think she has set a very shining example for all of us and if each one of us in our own way could contribute to the betterment of our University system, the betterment of our libraries in the way that she has to whatever degree we can,

our state would be so much better off. I think that it is a great thing that we can do to give tribute to her today for all that she has done for the University system and I am pleased to be part of that.

SECOND READING AND AMENDMENT

Assembly Bill No. 315.

Bill read second time.

The following amendment was proposed by the Committee on Commerce:

Amendment No. 1061.

Amend the bill as a whole by deleting sections 1 and 2 and inserting:

"Section 1. Chapter 686B of NRS is hereby amended by adding thereto a new section to read as follows:

Any hearing held by the commissioner to determine whether rates comply with the provisions of NRS 686B.010 to 686B.175, inclusive, must be open to members of the public.

Sec. 2. NRS 686B.050 is hereby amended to read as follows:

686B.050 1. Rates [shall] *must* not be excessive, inadequate or unfairly discriminatory, nor [shall] *may* an insurer charge any rate which if continued will have or tend to have the effect of destroying competition or creating a monopoly.

2. [Rates are presumed not to be excessive if] *The commissioner may disapprove rates if there is not* a reasonable degree of price competition [exists] at the consumer level with respect to the class of business to which they apply. In determining whether a reasonable degree of price competition exists, the commissioner shall consider all relevant tests, including:

(a) The number of insurers actively engaged in the class of business and their *shares of the* market *;* [shares;]

(b) The existence of [rate] differentials *in rates* in that class of business;

(c) Whether long-run profitability for insurers generally of the class of business is unreasonably high in relation to its riskiness; [and

(d) Consumer]

(d) Consumers' knowledge in regard to the market in question [.

If such] *; and*

(e) Whether price competition is a result of the market or is artificial.

If competition does not exist, rates are excessive if they are likely to produce a long-run profit that is unreasonably high in relation to the riskiness of the class of business, or if expenses are unreasonably high in relation to the services rendered.

3. Rates are inadequate if they are clearly insufficient, together with the [investment] income *from investments* attributable to them, to sustain projected losses and expenses in the class of business to which they apply.

4. One rate is unfairly discriminatory in relation to another in the same class if it clearly fails to reflect equitably the differences in expected losses and expenses. Rates are not unfairly discriminatory because different premiums result for policyholders with [like loss exposures] *similar exposure to loss* but different expense factors, or [like] *similar* expense factors but different *exposure to* loss , [exposures,] so long as the rates reflect the differences with reasonable accuracy. Rates are not unfairly discriminatory if they are averaged broadly among persons insured under a group, franchise or blanket policy.

Sec. 3. NRS 686B.070 is hereby amended to read as follows:

686B.070 Every authorized insurer and every rate service organization licensed under NRS 686B.130 which has been designated by any insurer for the filing of rates under subsection 2 of NRS 686B.090 shall file with the commissioner all:

1. Rates;
2. Forms of policies to which the rates apply;
3. Supplementary rate information; and
4. Changes and amendments thereof,

made by it for use in this state [on or] *at least 30 days* before the date the rates become effective.

Sec. 4. NRS 686B.090 is hereby amended to read as follows:

686B.090 1. An insurer [may itself] *shall* establish rates and supplementary rate information for any market segment based on the factors in NRS 686B.060 . [, or] *If an insurer has insufficient creditable loss experience,* it may use rates and supplementary rate information prepared by a rate service organization, with [average expense factors determined by the rate service organization or with such] modification for its own expense and loss experience . [as the credibility of that experience allows.]

2. An insurer may discharge its obligation under NRS 686B.070 by giving notice to the commissioner that it uses rates and supplementary rate information prepared by a designated rate service organization, with such information about modifications thereof as are necessary fully to inform the commissioner. The insurer's rates and supplementary rate information shall be *deemed* those filed from time to time by the rate service organization, including any amendments thereto as filed, subject, however, to the modifications filed by the insurer.

Sec. 5. NRS 686B.100 is hereby amended to read as follows:

686B.100 1. If the commissioner finds that competition is not an effective regulator of the rates charged or that a substantial number of companies are competing irresponsibly through the rates charged, or that there are widespread violations of NRS 686B.010 to 686B.175, inclusive, in any kind or line of insurance or subdivision thereof or in any rating class or rating territory, he may promulgate a rule requiring that in the kind or line of insurance or subdivision thereof or rating class or rating territory comprehended by the finding any subsequent changes in the rates or supplementary rate information be filed with him at least [15] *30* days before they become

effective. He may extend the waiting period for not to exceed 15 additional days by written notice to the filer before the first [15-day] *30-day* period expires.

2. By rule, the commissioner may require the filing of supporting data as to any or all kinds or lines of insurance or subdivisions thereof or classes of risks or combinations thereof as he deems necessary for the proper functioning of the [rate monitoring and regulation process.] *process for monitoring and regulating rates.* The supporting data must include:

(a) The experience and judgment of the filer, and, to the extent it wishes or the commissioner requires, of other insurers or rate service organizations;

(b) Its interpretation of any statistical data relied upon;

(c) Descriptions of the actuarial and statistical methods employed in setting the rates; and

(d) Any other relevant matters required by the commissioner.

3. A rule promulgated under subsection 1 must expire not more than 1 year after [issue.] *it is issued.* The commissioner may renew the rule if he deems it necessary.

4. Whenever a filing is not accompanied by such information as the commissioner has required under subsection 2, he may so inform the insurer and the filing shall be deemed to be made when the information is furnished.

Sec. 6. NRS 686B.110 is hereby amended to read as follows:

686B.110 1. If the commissioner finds that a rate is not in compliance with NRS 686B.050, he shall order that its use be discontinued for any policy issued or renewed after a date specified in the order.

2. [Within 1 year after the effective date of an order under subsection 1, no] *No* rate promulgated to replace a disapproved one may be used until it has been filed with the commissioner and not disapproved within 30 days thereafter.

3. Whenever an insurer has no legally effective rates as a result of the commissioner's disapproval of rates or other act, the commissioner shall on request specify interim rates for the insurer that are high enough to protect the interests of all parties and may order that a specified portion of the premiums be placed in an escrow account approved by him. When new rates become legally effective, the commissioner shall order the escrowed funds or any overcharge in the interim rates to be distributed appropriately, except that refunds to policyholders that are de minimis [shall] *must* not be required.

4. If the commissioner disapproves a rate and an insurer requests a hearing to determine the validity of his action, the insurer has the burden of showing compliance with the applicable standards for rates established in NRS 686B.010 to 686B.175, inclusive.

Sec. 7. NRS 686B.120 is hereby amended to read as follows:

686B.120 The commissioner may by order require that a particular insurer file any or all of its rates and supplementary rate information [15] *30* days before their effective date, if and to the extent that he finds, after a hearing, that the protection of the interests of its insureds and the public in

this state requires closer supervision of its rates because of the insured's financial condition or rating practices. He may extend the waiting period for any filing for not to exceed 15 additional days by written notice to the insurer before the first [15-day] *30-day* period expires. A filing not disapproved before the expiration of the waiting period shall be deemed to meet the requirements of NRS 686B.010 to 686B.175, inclusive, subject to the possibility of subsequent disapproval under NRS 686B.110.

Sec. 8. NRS 686B.160 is hereby amended to read as follows:

686B.160 1. The commissioner [shall] *may* promulgate or approve reasonable rules [, including rules] providing statistical plans [,] for use thereafter by all insurers in the recording and reporting of loss and expense experience, in order that the experience of [such] insurers may be made available to him. [No insurer shall be required to record or report its experience on a classification basis inconsistent with its own rating system.]

2. The commissioner may designate one or more rate service organizations to assist him in gathering such experience and making compilations thereof, which [shall] *must* be made available to the public.".

Amend the title of the bill to read as follows:

"An Act relating to insurance; revising certain provisions concerning rates for insurance; and providing other matters properly relating thereto.".

(d) Except as otherwise provided in section 11 of [of this act,] chapter 8, Statutes of Nevada 1987, an action for relief on the ground of fraud or mistake, but the cause of action in such a case shall be deemed to accrue upon the discovery by the aggrieved party of the facts constituting the fraud or mistake.

(b) An action against an officer, or officer de facto for money paid to the officer under protest, or seized by the officer in his official capacity, as a collector of taxes, and which, it is claimed, ought to be refunded.

"Sec. 4. *In any proceeding in which the court orders a parent to pay any amount for the support of a child, the court may also order the parent to assign to the person entitled to the payment of support, or that person's legal representative, that portion of the wages or commissions of the parent which are due or to become due and are sufficient to pay the amount ordered by the court for the support.*

Sec. 5. *1. The court shall order the responsible parent who is subject to a previous order for support of a child, to make an assignment of his wages or commissions, due or to become due, upon application in writing, verified by the person entitled to the support, that the responsible parent is delinquent in paying support in an amount equal to the amount he was ordered to pay as support for a 30-day period.*

2. Within 10 days after the court has entered its order, the person entitled to the support or his legal representative, shall send notice by certified mail to the last known address of the responsible parent, advising him that the assignment will go into effect 15 days after the day on which the notice was sent.

3. The responsible parent may, at any time before the assignment goes into effect, request a hearing before the court on the issue of whether the assignment should be made. If the court receives a request, it shall schedule a hearing and stay the effect of the assignment until after the hearing. If the responsible parent establishes at the hearing that payments were made substantially at the times and in amounts required by the order of the court, the court shall rescind its order of assignment.

4. An assignment pursuant to this section becomes effective:

(a) Fifteen days after the mailing of the notice by the applicant if the responsible parent has not requested a hearing; or

(b) When the court issues its decision after a hearing if it finds that the responsible parent has not complied with the order which awarded support.

5. If the assignment becomes effective, costs and attorney's fees may be assessed against the responsible parent.

Sec. 6. *NRS 31A.160 applies to all assignments of wages pursuant to sections 4 to 13, inclusive, of this act. The assignment:*

1. Must be calculated in accordance with NRS 31.295.

2. May include the amount of the current support due and a payment on the arrearages if previously ordered by a court of competent jurisdiction.

Sec. 7. *1. An order for an assignment issued pursuant to sections 4 to 13, inclusive, of this act, operates as an assignment and is binding upon any existing or future employer of the responsible parent upon whom a copy of the order is served by certified mail, return receipt requested. The order may be modified or revoked at any time by the court.*

2. For the purpose of enforcing the obligation for support, the employer shall cooperate with and provide relevant information concerning the responsible parent's employment to the person entitled to the support or that

person's legal representative. A disclosure made in good faith pursuant to this subsection does not give rise to any action for damages for the disclosure.

3. If the order for support is amended or modified, the person entitled to the payment of support or that person's legal representative shall notify the employer of the responsible parent to modify the amount to be withheld accordingly.

4. To reimburse him for his costs in making the payment pursuant to the assignment, the employer may deduct $3 from the amount paid to the responsible parent each time he makes a payment.

5. If an employer wrongfully refuses to honor an assignment or knowingly misrepresents the income of an employee, the court, upon request of the person entitled to the support or that person's legal representative, may enforce the order of assignment in the manner provided for the enforcement of a notice to withhold in section 2 of this act.

6. Compliance by an employer with an order of assignment operates as a discharge of the employer's liability to the employee as to that portion of the employee's wages or commissions affected.

Sec. 8. *An employer may not use assignments of wages and commissions for payments to collect an obligation of support as a basis for the discharge of an employee or for disciplinary action against the employee. An employer who discharges or disciplines an employee in violation of this section shall reinstate the employee with no loss of pay or benefits, is liable for any payments of support not paid and shall be fined $1,000. If an employee prevails in an action for reinstatement based on this section, the employer is liable, in an amount of not less than $2,500, for payment of the employee's costs and attorney's fees incurred in that action.*

Sec. 9. *In any proceeding where a court makes or has made an order of assignment of wages or commissions for the payment of support of a child to a parent receiving welfare payments for the maintenance of minor children, the court shall direct that payments made pursuant to the assignment be made to the welfare division. The district attorney may appear in any proceeding to enforce that order.*

Sec. 10. *1. The parent to whom support is ordered to be paid by assignment of wages or commissions shall notify the court and the employer of the responsible parent by any form of mail requiring a return receipt, of any change of address within a reasonable time after that change.*

2. If the employer or the legal representative of the person entitled to the payment for support is unable to deliver payments as required pursuant to sections 4 to 13, inclusive, of this act, within 3 months because of the failure of the person entitled to the support to notify the employer or his legal representative of a change of address, the employer or legal representative shall not make any further payments pursuant to the assignment and shall return all undeliverable payments to the employee.

Sec. 11. *The responsible parent may petition the court to terminate an order of assignment of wages or commissions if:*

1. The required payments have been withheld and paid for 18 consecutive months to the person entitled to the support; and

2. All arrearages have been paid.

Sec. 12. *1. Money may be withheld for support of a child pursuant to sections 4 to 13, inclusive, of this act, from any money due the responsible parent as a pension, an annuity, unemployment compensation, a benefit because of disability, retirement or other cause or as a return of contributions and interest, or due to some other person because of his death, from the state, a political subdivision of the state or an agency of either, a public trust, corporations or board or a system for retirement, disability or annuity established by a statute of this state.*

2. When a certified copy of any order of assignment is served by certified mail, return receipt requested, on any public entity described in subsection 1, other than the Federal Government, it shall comply with any request for a return of employee contributions by an employee named in the order by paying the contributions to the person entitled to the payment of support or that person's legal representative unless the entity has received a certified copy of an order terminating the order of assignment. A court may not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for the support of a child upon the issuance of such a request by an employee.

Sec. 13. *Upon receipt of money paid pursuant to sections 4 to 13, inclusive, of this act, the person entitled to the payment of support or that person's legal representative shall, within 10 days after such receipt, send written notice of that fact to the parties and the employer or agency withholding and transmitting the assignment.*".

Amend sec. 2, page 1, line 4, by deleting: "to 6, inclusive," and inserting: ", 3 and 4".

Amend sec. 2, pages 1 and 2, by deleting lines 5 through 10 on page 1 and line 1 on page 2 and inserting: "context otherwise requires:

1. "Gross monthly income" means the total amount of income from any source of a wage-earning employee or the gross income from any source of a self-employed person, after deduction of all legitimate business expenses, but without deduction for personal income taxes, contributions for retirement benefits, contributions to a pension or for any other personal expenses.

2. "Obligation for support" means the amount determined according to the following schedule:

(a) For one child, 18 percent;

(b) For two children, 25 percent;

(c) For three children, 29 percent;

(d) For four children, 31 percent; and

(e) For each additional child, an additional 2 percent,

of a parent's gross monthly income, but not more than $500 per month per child for an obligation for support determined pursuant to paragraphs (a) to (d), inclusive.".

Amend sec. 3, page 2, by deleting lines 2 through 34 and inserting:

"Sec. 3. 1. A court shall apply the appropriate formula set forth in subsection 2 of section 2 of this act to:

(a) Determine the required support in any contested case involving the support of children.

(b) Regarding any request filed after July 1, 1987, change the amount of the required support of children.

2. If the parties disagree as to the amount of the gross monthly income of either party, the court shall determine the amount and may direct either party to furnish financial information or other records, including income tax returns for the preceding 3 years. Once a court has established an obligation for support by reference to a formula set forth in subsection 2 of section 2 of this act, any modification of that support must be based upon changed circumstances.

Notwithstanding the formulas set forth in subsection 2 of section 2 of this act, the minimum amount of support that may be awarded by a court in any case is $100 per month per child, unless the court makes a written finding that the obligor is unable to pay the minimum amount. Willful underemployment or unemployment is not a sufficient cause to deviate from the awarding at least the minimum amount.

4. It is presumed that the basic needs of a child are met by the formulas set forth in subsection 2 of section 2 of this act. This presumption may be rebutted by evidence proving that the needs of a particular child are not met by the applicable formula.

5. If the amount of the awarded support for a child is greater or less than the amount which would be established under the applicable formula, the court shall set forth findings of fact as to the basis for the deviation from the formula.

6. Expenses for health care which are not reimbursed, including, but not limited to, expenses for medical, surgical, dental, orthodontic and optical expenses, must be borne equally by both parents in the absence of extraordinary circumstances.

7. If a parent who has an obligation for support is willfully underemployed or unemployed, that obligation must be based upon the parent's true potential earning capacity.

8. The court shall consider the following factors when adjusting the amount of support of a child upon specific findings of fact:".

(j) The amount of time the child spends with each parent; and

(k) Any other necessary expenses for the benefit of the child.".

"Sec. 4. 1. A parent shall support beyond the age of majority his child who is physically or mentally handicapped until the child is no longer handicapped or until the child".

Assembly Concurrent Resolution No. 69—Memorializing the late Marcus Joy "M.J." Christensen.

WHEREAS, It was with deep sorrow that the members of the Legislature learned of the death of former state assemblyman and state senator, Marcus Joy "M.J." Christensen; and

WHEREAS, M.J. Christensen was born February 1, 1899, in Brigham City, Utah, and was educated in the public schools of Brigham City; and

WHEREAS, M.J. was active in civic affairs as president of the Las Vegas Chamber of Commerce and president of the Las Vegas Better Business Bureau in which he played an important role in its organization; and

Assemblyman Callister moved the adoption of the resolution.

Remarks by Assemblymen Callister, Schofield and Brookman.

Assemblyman Brookman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. There is some appropriateness that Uncle Joy passed away while I am serving my first term in the Assembly. Certainly without his example I never would have determined to run—for better or for worse, depending, I guess, on your point of view.

His example was a choice to me and all my family and I urge the adoption of this resolution.

ASSEMBLYMAN SCHOFIELD:

Thank you, Mr. Speaker. M. J. Christensen was really quite a man. I knew him when I was a little boy selling newspapers on Fremont Street when he first moved into the jewelry store in the corner drug store. He brought my father-in-law to Las Vegas in 1945 and encouraged him to run for election for county treasurer while M. J. was serving here with some mutual friends of theirs.

M. J. had quite a history in his reign in the Assembly and the Senate. Early on he, Senator Gibson and Assemblyman Austin Bowler used to drive back and forth every weekend from Carson City to Las Vegas. That is where a lot of legislation, I think, was decided—in that automobile going back and forth, at least what they could get on at that time.

I certainly am in support of a resolution honoring such a man. I think he leaves a history in the State of Nevada from the time he came to Las Vegas in 1937. I have known him ever since and it is an honor to be able to get up and speak a few words about M. J. Christensen.

ASSEMBLYMAN BROOKMAN:

Yes, Mr. Speaker, thank you. Members of the Assembly. M. J. was a great man, he did great things; he was a leader for his people and we shall sorely miss him.

Resolution adopted unanimously.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 912.

Amend the bill as a whole by deleting sections 1 and 2 and inserting:

"Section 1. Chapter 463 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 through 5, inclusive, of this act.

Sec. 2. *1. Any person aggrieved by a final decision or order of the board made after hearing by the board pursuant to NRS 463.361 to 463.366, inclusive, may obtain a judicial review thereof in the district court of the county in which the petitioner resides or has his or its principal place of business.*

2. The judicial review must be instituted by filing a petition within 20 days after the effective date of the final decision or order. The petition must set forth the order or decision appealed from and the grounds or reasons why petitioner contends a reversal or modification should be ordered.

3. Copies of the petition must be served upon the board and all other parties of record, or their counsel of record, either personally or by certified mail.

4. The court, upon a proper showing, may permit other interested persons to intervene as parties to the appeal or as friends of the court.

5. The filing of the petition does not stay enforcement of the decision or order of the board, but the board itself may grant a stay upon such terms and conditions as it deems proper.

Sec. 3. *1. Upon written request of petitioner and upon payment of such reasonable costs and fees as the board may prescribe, the complete record on review, or such parts thereof as are designated by the petitioner, must be prepared by the board.*

2. The complete record on review must include copies of:

(a) All pleadings in the case;

(b) All notices and interim orders issued by the board in connection with the case;

(c) All stipulations;

(d) The decision and order appealed from;

(e) A transcript of all testimony, evidence and proceedings at the hearing;

(f) The exhibits admitted or rejected; and

(g) Any other papers in the case.

The original of any document may be used in lieu of a copy thereof. The record on review may be shortened by stipulation of all parties to the review proceedings.

3. The record on review must be filed with the reviewing court within 30 days after service of the petition for review, but the court may allow the board additional time to prepare and transmit the record on review.

Sec. 4. *1. The reviewing court may, upon motion therefor, order that additional evidence in the case be taken by the board upon such terms and conditions as the court may deem just and proper. The motion must not be granted except upon a showing that the additional evidence is material and*

necessary and that sufficient reason existed for failure to present the evidence at the hearing of the board. The motion must be supported by an affidavit of the moving party or his counsel showing with particularity the materiality and necessity of the additional evidence and the reason why it was not introduced in the administrative hearing. Rebuttal evidence to the additional evidence must be permitted. In cases in which additional evidence is presented to the board, the board may modify its decisions and orders as the additional evidence may warrant and shall file with the reviewing court a transcript of the additional evidence together with any modifications of the decision and order, all of which become a part of the record on review.

2. The review must be conducted by the court sitting without a jury, and must not be a trial de novo but is confined to the record on review.

3. The reviewing court may affirm the decision and order of the board, or it may remand the case for further proceedings or reverse the decision if the substantial rights of the petitioner have been prejudiced because the decision is:

(a) In violation of constitutional provisions;

(b) In excess of the statutory authority or jurisdiction of the board;

(c) Made upon unlawful procedure;

(d) Unsupported by any evidence; or

(e) Arbitrary or capricious or otherwise not in accordance with law.

Sec. 5. *1. Any party aggrieved by the final decision in the district court after a review of the decision and order of the board may appeal to the supreme court in the manner and within the time provided by law for appeals in civil cases. The supreme court shall follow the same procedure thereafter as in appeals in civil actions, and may affirm, reverse or modify the decision as the record and law warrant.*

2. The judicial review by the district and supreme courts afforded in this chapter is the exclusive method of review of the board's actions, decisions and orders in hearings held pursuant to NRS 463.361 to 463.366, inclusive. Judicial review is not available for extraordinary common law writs or equitable proceedings.

3. The party requesting judicial review shall bear all of the costs of transcribing the proceedings before the board and of transmitting the record on review.

Sec. 6. NRS 463.365 is hereby repealed.

REMARKS FROM THE FLOOR

Assemblyman Price requested that his remarks be entered in the Journal.

Constitutional Moments—Week of May 31, 1787

Activities of the Constitutional Convention in Philadelphia

Resolved into a committee of the whole, the Convention resumed discussion on Charles Pinckney's motion for a single chief executive. James Wilson supported the motion. Roger Sherman agreed, if the executive would have council of advice. The Convention agreed on a single chief executive—7 Ayes, 3 Nays. The committee then agreed to give him a veto, subject to an override by two-thirds of the States' Legislatures. At the end of the day, the committee also agreed that there should be a national judiciary with a supreme tribunal and one or more inferior courts.

The Convention in committee of the whole, considered the proposal that the judiciary be appointed by the national legislature. James Wilson (PA) favored their appointment by the executive. He argued intrigue, partiality and concealment would be the consequence of selection by the legislature. Ben Franklin suggested they let the lawyers choose; they would, he reasoned, choose the best of the bar so that they could share the largest possible vacated practices.

On motion of Charles Pinckney and John Rutledge of South Carolina, the Convention in committee of the whole, considered having the State Legislature, instead of the people, elect the lower house. Elbridge Gerry (MASS) didn't like popular election. He opposed the motion saying, "In Massachusetts, the worst men get into the legislature." But one house had to be so elected. He hoped the other would be so structured as to be filled with men of merit. The motion lost by a vote of 3 Ayes to 8 Nays.

Congress, having failed to achieve a quorum, did not convene on any day this week.

The New Jersey general assembly considered a petition from its delegates for permission to draw on the state treasurer to help pay the convention staff and stationery bill. It authorized them to draw on the treasurer for a sum not to exceed 30 pounds for this purpose.

A letter from a Westchester farmer called for the creation of a consolidated republic and the reduction of the states to the status of "Civil Corporations" whose laws would be void if contrary to the laws and ordinance of the supreme power.

Assemblyman Humke requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. Speaking of mistakes, for the record I'd like to comment on my vote on Assembly Bill 424 this legislative day. My vote was based on a misreading of the bill. After the vote, another member drew my attention to the bill and I discovered information my quick reading did not reveal the first time. I would have voted the other way as this issue is important to me. I just wanted to state that for the record. Thank you.

GUESTS EXTENDED PRIVILEGE OF ASSEMBLY FLOOR

Prayer by the Chaplain, The Reverend Doctor Gregg Townsley.

Heavenly Father, Our Father, we pray this morning as we begin our day's work together. We pray because we seek You, as a source of strength in our lives. We pray because we need You, as a centering "force" for all that we think and do. Our Lord, this day we ask that You would move our lives in such a way that we would rise above our weaknesses, and that we work above our disinterests. Where there is pain, allow us to remedy what we can. Where there is need, encourage us to be sensitive listeners and wise decision-makers. Grant us, this day, Your presence and peace. We pray in the name of our Lord. AMEN.

Pledge of allegiance to the Flag.

No further action may be taken if the parties agree to a settlement.

2. If an agreement is not reached, the executive director of the commission shall conduct an investigation into the alleged unlawful practice. After the investigation, if the executive director determines that an unlawful practice has occurred, he shall attempt to mediate between or reconcile the parties. 4. The order of the commission is a final decision in a contested case for the purpose of judicial review. If the person fails to comply with the commission's order, the commission shall apply to the district court for an order compelling such compliance, but failure or delay on the part of the commission does not prejudice the right of an aggrieved party to judicial review. The court shall issue the order unless it finds that the commission's findings or order are not supported by substantial evidence or are otherwise arbitrary or capricious. If the court upholds the commission's order and

finds that the person has violated the order by failing to cease and desist from the unlawful practice or to make the payment ordered, the court shall award the aggrieved party actual damages for any economic loss and no more.

"*(b) All other medically necessary care rendered in a medical facility designated by the county.*

Amend sec. 3, page 2, by deleting lines 17 through 31 and inserting:

"Sec. 3. *1. A person who is denied by a county medical or financial assistance pursuant to this chapter may appeal that denial in accordance with procedures adopted by the county. Each county shall adopt procedures for appeals which comply with the requirements of this section.*

2. The procedures must provide for adequate notice to the person denied assistance and the opportunity for a hearing. Any employee or other representative of the county who investigated or made the initial decision to deny assistance shall not participate in any decision made pursuant to the hearing.

3. A decision adverse to the person denied assistance must be in writing and set forth the factual basis for the decision and the applicable regulation. A copy of the decision must be served personally or by certified mail upon each party and his representative.

The court shall review the decision on the record of the case before the county, a copy of which must be certified as correct by the county and filed with the court as part of its answer to the petition.

5. Before the date set by the court for a hearing, an application may be made to the court by motion, with notice to the opposing party and an opportunity for that party to respond, for leave to present additional evidence. If it is shown to the satisfaction of the court that the additional evidence is material and that there were good reasons for failure to present it in the proceeding before the county, the court may order that the additional evidence be taken before the county upon conditions determined by the court. The county may modify its findings and decisions by reason of the additional evidence and shall file that evidence and any modifications, new findings or decisions with the reviewing court.

6. The review must be conducted by the court without a jury and must be confined to the record. The court, at the request of a party, may hear oral arguments and receive written briefs.

7. The court shall not substitute its judgment for that of the county as to the weight of the evidence on questions of fact. The court may affirm the decision of the county or remand the case for further proceedings. The court may reverse the decision and remand the case to the county for further proceedings if it determines that substantial rights of the appellant have been prejudiced because the county's findings, inferences, conclusions or decisions are:

(a) In violation of constitutional, statutory or regulatory provisions;

(b) In excess of the statutory authority of the county;

(c) Made in accordance with an unlawful procedure;

(d) Affected by other errors of law;

(e) Clearly erroneous in view of the reliable, probative and substantial evidence on the whole record; or

(f) Arbitrary and capricious.

8. An aggrieved party may appeal any final judgment of the district court to the supreme court in the same manner as a civil case.".

APPOINTMENT OF CONFERENCE COMMITTEES

Mr. Speaker appointed Assemblymen Thompson, Bergevin and Adler as a first Committee on Conference to meet with a like committee of the Senate for the further consideration of Assembly Bill No. 390.

SECOND READING AND AMENDMENT

Assembly Bill No. 736.

Bill read second time.

The following amendment was proposed by the Committee on Commerce:

Amendment No. 1131.

Amend section 1, page 1, line 5, by deleting the period and inserting: "*or discriminate against a tenant for receiving such a company's service.*".

Amend section 1, page 1, line 6, by deleting "2," and inserting "*3,*".

Amend section 1, page 1, by deleting lines 11 through 15 and inserting:

"2. *A community antenna television company which desires to provide such services to a tenant shall give written notice of that desire to the landlord before the company takes any action to provide that service. Before authorizing the receipt of such service a landlord may:*

(a) Take such reasonable steps as are necessary to ensure that the safety, function and appearance of the premises and the convenience and safety of persons on the property are not adversely affected by the installation, construction, operation or maintenance of the facilities necessary to provide the service;

(b) Require that the cost of the installation, construction, operation, maintenance or removal of the necessary facilities be borne by the community antenna television company, the tenants who subscribe to the service or both the company and the tenants; and

(c) Require the community antenna television company to provide evidence that the company will indemnify the landlord for any damage caused by the installation, construction, operation, maintenance or removal of the facilities.

3. A landlord is entitled to receive reasonable compensation for any direct adverse economic effect resulting from granting access to a community antenna television company. There is a disputable presumption that the direct adverse economic effect resulting from granting access to each dwelling unit is $1. If a landlord intends to require the payment of such compensation in an amount exceeding $1, the landlord shall notify the community

antenna television company in writing of that intention. If the company does not receive such a notice within 10 days after the landlord is notified by the company that a tenant has requested the company to provide its services to the tenant on the landlord's premises, the landlord may not require compensation for access to that tenant's dwelling unit in an amount exceeding $1. If within 30 days after receiving a landlord's request for compensation in an amount exceeding $1, the company has not agreed to pay the requested amount or an amount mutually acceptable to the company and the landlord, the landlord may petition a court of competent jurisdiction to set a reasonable amount of compensation for the damage of or taking of his real property. Such an action must be filed within 6 months after the date the company notified the landlord that the tenant requested the company's service.

4. In establishing the amount which will constitute reasonable compensation for any damage or taking by a landlord in excess of $1, the court shall consider:

(a) The extent to which the community antenna television company's facilities physically occupy the premises;

(b) The actual long-term damage which the company's facilities may cause to the premises;

(c) The extent to which the company's facilities would interfere with the normal use and enjoyment of the premises; and

(d) The diminution or enhancement in value of the premises resulting from the availability of the service.

5. The company's right to construct, install or repair its facilities and maintain its services within and upon the landlord's premises is not affected or impaired because the landlord requests compensation in an amount exceeding $1 or files an action to assert a specific claim against the company.

6. A community antenna television company shall not offer a special discount or other benefit to a particular group of tenants as an incentive to request the company's services, unless the same discount or benefit is offered in the same manner to all of the company's customers in the county.".

Amend section 1, page 2, line 1, by deleting "*3.*" and inserting "*7.*".

Amend section 1, page 2, line 3, by deleting "*4.*" and inserting "*8.*".

Amend the title of the bill, third line, after "circumstances;" by inserting: "prohibiting the offering of certain incentives;".

Assembly Concurrent Resolution No. 71—Expressing appreciation to those students from the Western Nevada Community College who served as legislative interns for the 64th Session of the Legislature.

WHEREAS, The caretaking functions for the Legislature are what allows this noble body to carry on the business of making laws and shaping the future of our wonderful state; and

WHEREAS, The caretakers responsible for these activities are rarely given the recognition they deserve unless, of course, there is a mishap; and

WHEREAS, One may wonder what it is that these caretakers do that makes them the hub of all legislative activities without stopping to realize that these are our young interns who attend hours of meetings, take voluminous notes, track illusive bills, answer the ringing telephones, present to the legislators they serve well researched information to assist them in focusing on the tasks at hand, and keep track of minute details for which only they have time; and

WHEREAS, These interns perform their tasks while attending the Western Nevada Community College; and

WHEREAS, These caretakers, who act as the oil for the machinery of the legislative process, are: Dorris Beckie, Mark A. de la Torre, Brian Kale, Brian Lockhart, Andrea Moss, Irving Nielsen, Barbra Oliveria, Todd Spiech and Sandi Wright; and

WHEREAS, These special caretakers are with us today and have been throughout this 64th Session of the Legislature as volunteers, eager for the knowledge they can glean from this intricate democratic process; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the members of the Legislature graciously thank these young, eager members of the 64th Session of the Legislature for their tireless, creative and enthusiastic efforts in support of our political way of life; and be it further

RESOLVED, That copies of this resolution be prepared and transmitted forthwith by the Chief Clerk of the Assembly to the legislative interns mentioned in this resolution.

Assemblyman Wisdom moved the adoption of the resolution.

Remarks by Assemblymen Wisdom, Brookman, Myrna Williams, Spinello, Adler and Callister.

Assemblyman Brookman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN WISDOM:

Mr. Speaker, I think all of us here are aware of the great value of the interns' service during our session while we are here. Also, I think that it is very important that we understand that this is not only good for us, it is good for them. It is an integral part of their education that they cannot receive from their book learning.

A great many of our present political leaders of the State and Nation today started out as interns in this Assembly house. They perform all the tasks that we have mentioned in this resolution and many, many more. They perform errands for us, they perform all kinds of things that we have no time to do.

And at this point, Mr. Chairman, I would like to cut this short because I think each one of the people here who has an intern from Western Nevada Community College would like to say something about their intern and I would like to say that my particular intern was a lifesaver.

ASSEMBLYMAN BROOKMAN:

Yes, Mr. Speaker, thank you. Members of the Assembly, my legislative intern is Brian Kale. He is the president of the student body of Western Nevada Community College. He is a very articulate, bright, young man and I appreciate everything that he has done for

me. The end of the session is when the session begins, and he came just like a blessing from Heaven. He is doing all good work for me. I thank you, and thank you and thank you, Brian.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I'm sorry that my intern, Barbra Olavaria, could not be with us today due to an illness in her family. She has been an outstanding intern. I learned a lot from her, I hope she has learned something from the members of this body and I would like to thank Dr. Dixon very much for directing her to us.

ASSEMBLYMAN SPINELLO:

Thank you, Mr. Speaker. Todd Spiech is my intern and he is extremely hard working. He is from Gardnerville and a constituent of Mr. Bergevin. He really applies himself—he gets in there and digs and seems to enjoy it. Unfortunately, he is not here today.

I really think this program, particularly from a Community College—we know we have programs from UNR and will bring some UNLV students up next time—but this is really an exciting program.

ASSEMBLYMAN ADLER:

Thank you, Mr. Speaker. I had a number of these interns working for me off and on. Mark de la Torre did an exceptional job for me answering some 200 pieces of correspondence at one point and time. I think that this whole program bodes well for the quality of the students at the Western Nevada Community College. I think it makes us all feel grateful for our own support of the Community College System in Nevada, yet it verifies the fact that this system does work and it produces a very high quality student who is of great service to our society. I would like to thank all the interns.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. I just wanted to rise in support of this resolution.

Certainly it has been advantageous to have my intern at the end of the session. I know that many of the members here were granted the privilege of having interns towards the earlier portion of the session and I was lucky enough to obtain one in the closing weeks when we needed them much more. I urge your support of this resolution.

Resolution adopted unanimously.

Assemblyman Wisdom moved that all rules be suspended and that Assembly Concurrent Resolution No. 71 be immediately transmitted to the Senate.

Motion carried unanimously.

Assemblyman Thompson moved that Assembly Bill No. 495 be taken from the Chief Clerk's desk and placed on the Second Reading File.

Remarks by Assemblyman Thompson.

Motion carried.

UNFINISHED BUSINESS

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 289.

The following Senate amendment was read:

Amendment No. 1033.

Amend the bill as a whole by inserting a preamble, between the title and the enacting clause, to read as follows:

"WHEREAS, Limitations upon competition in the field of health care have artificially increased prices to a level which makes such care unaffordable for the average Nevadan; and

WHEREAS, The high price of health care has created a public health emergency requiring immediate and pervasive legislative action; and

WHEREAS, Legislative action to counteract the monopolistic advantage of providers of health care will allow the natural economic forces to surface and control future increases in the costs of health care; and

WHEREAS, If the reductions in prices and revenues required by this act sufficiently stimulate competition in the field of health care, future economic regulation of health care by the legislature will be unnecessary; now, therefore,".

Amend the bill as a whole by deleting sections 1 through 50 and adding new sections designated sections 1 through 61, following the enacting clause, to read as follows:

"Section 1. Title 40 of NRS is hereby amended by adding thereto a new chapter to consist of the provisions set forth as sections 2 to 33, inclusive, of this act.

Sec. 2. As used in this chapter, unless the context otherwise requires, the words and terms defined in sections 3 to 16, inclusive, of this act, have the meanings ascribed to them in those sections.

Sec. 3. "Administrator" means the administrator of the division for review of health resources and costs of the department of human resources.

Sec. 4. "Billed charge" means the total amount charged by a hospital for medical care provided, regardless of the anticipated amount of net revenue to be received or the anticipated source of payment.

Sec. 10. 1. Except as otherwise provided in subsection 2, "fiscal year" means a period beginning on July 1 and ending on June 30 of the following year.

2. A hospital's "fiscal year" is the period of 12 months used by a hospital for the purposes of accounting and the preparation of annual budgets and financial statements.

Sec. 11. "Health facility" has the meaning ascribed to it in NRS 439A.015.

Sec. 12. "Hospital" means any facility licensed as a medical, surgical or obstetrical hospital, or as any combination of medical, surgical or obstetrical hospital, by the health division of the department of human resources.

Sec. 13. "Medicaid" means the program established pursuant to Title XIX of the Social Security Act (42 U.S.C. §§ 1396 et seq.) to provide assistance for part or all of the cost of medical care rendered on behalf of indigent persons.

Sec. 14. "Medicare" means the program of health insurance for aged and disabled persons established pursuant to Title XVIII of the Social Security Act (42 U.S.C. §§ 1395 et seq.).

Sec. 15. "Net revenue" means all revenues earned from inpatient medical care provided to patients by a hospital.

Sec. 16. "Practitioner" has the meaning ascribed to it in NRS 439A.0195.

Sec. 17. The purposes of this chapter are to:

1. Promote equal access to quality medical care at an affordable cost for all residents of this state.

2. Reduce excessive billed charges and revenues generated by some hospitals in this state in order to provide relief from excessively high costs of medical care.

3. Provide the regulatory mechanisms necessary to ensure that the forces of a competitive market will be able to function effectively in the business of providing medical care in this state.

Sec. 18. 1. There is hereby established a legislative committee on health care consisting of three members of the senate and three members of the assembly. The members must be appointed with appropriate regard for their experience with and knowledge of matters relating to health care. The members must be appointed as follows:

(a) Two members must be appointed by the majority leader of the senate;

(b) One member must be appointed by the minority leader of the senate;

(c) Two members must be appointed by the speaker of the assembly; and

(d) One member must be appointed by the minority leader of the assembly.

2. No member of the committee may:

(a) Have a financial interest in a health facility in this state;

(b) Be a member of a board of directors or trustees of a health facility in this state;

(c) Hold a position with a health facility in this state in which the legislator exercises control over any policies established for the health facility; or

(d) Receive a salary or other compensation from a health facility in this state.

This subsection does not prohibit a member of the committee from selling goods which are not unique to the provision of health care to a health facility if the member primarily sells such goods to persons who are not involved in the provision of health care.

3. The majority leader of the senate shall select the chairman of the committee and the speaker of the assembly shall select the vice chairman of the committee. Each such officer shall hold office for a term of 2 years commencing on July 1 of each odd-numbered year. If a vacancy occurs in the chairmanship or vice chairmanship, the majority leader of the senate or the speaker of the assembly, as appropriate, shall appoint a replacement for the remainder of the unexpired term.

4. Any member of the committee who does not return to the legislature continues to serve until the next session of the legislature convenes.

5. Vacancies on the committee must be filled in the same manner as original appointments.

Sec. 19. 1. The members of the committee shall meet throughout each year at the times and places specified by a call of the chairman or a majority of the committee. The research director of the legislative counsel bureau or a person he has designated shall act as the nonvoting recording secretary. The committee shall prescribe regulations for its own management and government. Four members of the committee constitute a quorum, and a quorum may exercise all the powers conferred on the committee.

2. Except during a regular or special session of the legislature, members of the committee are entitled to receive the compensation provided for a majority of the members of the legislature during the first 60 days of the preceding regular session for each day or portion of a day during which he attends a meeting of the committee or is otherwise engaged in the business of the committee plus the per diem allowance and travel expenses provided for state officers and employees generally.

3. The salaries and expenses of the committee must be paid from the legislative fund.

Sec. 20. The committee may:

1. Review and evaluate the quality and effectiveness of programs for the prevention of illness.

2. Review and compare the costs of medical care among communities in Nevada with similar communities in other states.

3. Analyze the overall system of medical care in the state to determine ways to coordinate the providing of services to all members of society, avoid the duplication of services and achieve the most efficient use of all available resources.

4. Examine the business of providing insurance, including the development of cooperation with health maintenance organizations and organizations which restrict the performance of medical services to certain physicians and hospitals, and procedures to contain the costs of these services.

5. Examine hospitals to:

(a) Increase cooperation among hospitals;

(b) Increase the use of regional medical centers; and

(c) Encourage hospitals to use medical procedures which do not require the patient to be admitted to the hospital and to use the resulting extra space in alternative ways.

6. Examine medical malpractice.

7. Examine the system of education to coordinate:

(a) Programs in health education, including those for the prevention of illness and those which teach the best use of available medical services; and

(b) The education of those who provide medical care.

8. Review competitive mechanisms to aid in the reduction of the costs of medical care.

9. Examine the problem of providing and paying for medical care for indigent and medically indigent persons, including medical care provided by physicians.

10. Examine the effectiveness of any legislation enacted to accomplish the purpose of restraining the costs of health care while ensuring the quality of services, and its effect on the subjects listed in subsections 1 to 9, inclusive.

11. Determine whether regulation by the state will be necessary in the future by examining hospitals for evidence of:

(a) Degradation or discontinuation of services previously offered, including without limitation, neonatal care, pulmonary services and pathology services; or

(b) A change in the policy of the hospital concerning contracts,

as a result of any legislation enacted to accomplish the purpose of restraining the costs of health care while ensuring the quality of services.

12. Study the effect of the acuity of the care provided by a hospital upon the revenues of hospital and upon limitations upon that revenue.

13. Review the actions of the director in administering the provisions of this chapter and adopting regulations pursuant to those provisions. The director shall report to the committee concerning any regulations proposed or adopted pursuant to this chapter.

14. Conduct investigations and hold hearings in connection with its review and analysis.

15. Apply for any available grants and accept any gifts, grants or donations to aid the committee in carrying out its duties pursuant to this chapter.

16. Direct the legislative counsel bureau to assist in its research, investigations, review and analysis.

17. Recommend to the legislature as a result of its review any appropriate legislation.

Sec. 21. 1. In conducting the investigations and hearings of the committee:

(a) The secretary of the committee, or in his absence any member of the committee, may administer oaths.

(b) The secretary or chairman of the committee may cause the deposition of witnesses, residing either within or outside of the state, to be taken in the manner prescribed by rule of court for taking depositions in civil actions in the district courts.

(c) The secretary or chairman of the committee may issue subpenas to compel the attendance of witnesses and the production of books and papers.

2. If any witness refuses to attend or testify or produce any books and papers as required by the subpena, the secretary or chairman of the committee may report to the district court by petition, setting forth that:

(a) Due notice has been given of the time and place of attendance of the witness or the production of the books and papers;

(b) The witness has been subpenaed by the committee pursuant to this section; and

(c) The witness has failed or refused to attend or produce the books and papers required by the subpena before the committee which is named in the subpena, or has refused to answer questions propounded to him,

and asking for an order of the court compelling the witness to attend and testify or produce the books and papers before the committee.

3. Upon such petition, the court shall enter an order directing the witness to appear before the court at a time and place to be fixed by the court in its order, the time to be not more than 10 days from the date of the order, and to show cause why he has not attended or testified or produced the books or papers before the committee. A certified copy of the order must be served upon the witness.

4. If it appears to the court that the subpena was regularly issued by the committee, the court shall enter an order that the witness appear before the committee at the time and place fixed in the order and testify or produce the required books or papers. Failure to obey the order constitutes contempt of court.

Sec. 22. Each witness who appears before the committee by its order, except a state officer or employee, is entitled to receive for his attendance the fees and mileage provided for witnesses in civil cases in the courts of record of this state. The fees and mileage must be audited and paid upon the presentation of proper claims sworn to by the witness and approved by the secretary and chairman of the committee.

Sec. 23. Each hospital in this state shall maintain and use a uniform list of billed charges for that hospital for units of service or goods provided to all inpatients. A hospital may not use a billed charge for an inpatient that is different than the billed charge used for another inpatient for the same service or goods provided. This section does not restrict the ability of a hospital or other person to negotiate a discounted rate from the hospital's billed charges or to contract for a different rate or mechanism for payment of the hospital.

Sec. 24. 1. Except as otherwise provided in subsection 4, each hospital in this state has an obligation to provide emergency medical care, including care provided by physicians and nurses, and to admit the patient where appropriate, regardless of the financial status of the patient.

2. Except as otherwise provided in subsection 4, it is unlawful for a hospital to refuse to accept a patient in need of emergency medical care or to transfer a patient to another hospital or health facility because of the financial status of the patient.

3. A hospital or other health facility which treats a patient as a result of a hospital's violation of subsection 2 is entitled to recover from that hospital an amount equal to three times the billed charges of the hospital which provided the treatment for the treatment provided, plus reasonable attorney's fees and costs.

4. This section does not prohibit the transfer of a patient from one hospital to another:

(a) When the patient is covered by an insurance policy or other contractual arrangement which provides for payment at the receiving hospital; or

(b) After the county responsible for payment for the care of an indigent patient has exhausted the money which may be appropriated for that purpose pursuant to NRS 428.050 and 428.285 and section 42 of this act.

No transfer may be made pursuant to this subsection until the patient's condition has been stabilized to a degree that allows the transfer without an additional risk to the patient.

Sec. 25. 1. The legislature finds and declares that:

(a) The practice of refusing to treat an indigent patient if another hospital can provide the treatment endangers the health and well-being of such patients.

(b) Counties in which more than one hospital is located may lack available resources to compensate for all indigent care provided at their hospitals. Refusal by a hospital to treat indigent patients in such counties results in a burden upon hospitals which treat large numbers of indigent patients.

(c) A requirement that hospitals in such counties provide a designated amount of uncompensated care for indigent patients would:

(1) Equalize the burden on such hospitals of treating indigent patients; and

(2) Aid the counties in meeting their obligation to compensate hospitals for such care.

(d) Hospitals with 100 or fewer beds have been meeting the needs of their communities with regard to care of indigents, and have a minimal effect on the provision of such care.

2. Except as otherwise provided in this subsection, the provisions of sections 25 to 29, inclusive, of this act, apply to each hospital in this state which is located in a county in which there are two or more licensed hospitals. The provisions of sections 25 to 29, inclusive, of this act, do not apply to a hospital which has 100 or fewer beds.

3. The provisions of sections 25 to 29, inclusive, of this act, do not prohibit a county from:

(a) Entering into an agreement for medical care or otherwise contracting with any hospital located within that county; or

(b) Using a definition of "indigent" which would include more persons than the definition in section 26 of this act.

Sec. 26. For the purposes of sections 25 to 29, inclusive, of this act, "indigent" means those persons:

1. Who are not covered by any policy of health insurance;

2. Who are ineligible for Medicare, Medicaid, the benefits provided pursuant to NRS 428.115 to 428.255, inclusive, or any other federal or state program of public assistance covering the provision of health care;

3. Who meet the limitations imposed by the county upon assets and other resources or potential resources; and

4. Whose income is less than:

(a) For one person living without another member of a household, $438.

(b) For two persons, $588.

(c) For three or more persons, $588 plus $150 for each person in the family in excess of two.

For the purposes of this subsection, "income" includes the entire income of a household and the amount which the county projects a person or household is able to earn. "Household" is limited to a person and his spouse, parents, children, brothers and sisters residing with him.

Sec. 27. 1. A hospital shall provide, without charge, in each fiscal year, care for indigent inpatients in an amount which represents 0.6 percent of its net revenue for the hospital's preceding fiscal year.

2. The division shall compute the obligation of each hospital for care of indigent inpatients for each fiscal year based upon the net revenue of the hospital in its preceding fiscal year and shall provide this information to the board of county commissioners of the county in which the hospital is located.

3. The board of county commissioners shall maintain a record of discharge forms submitted by each hospital located within the county, together with the amount accruing to the hospital. The amount accruing to the hospital for the care, until the hospital has met its obligation pursuant to this section, is the highest amount the county is paying to any hospital in the county for that care. Except as otherwise provided in subsection 2 of section 28 of this act, no payment for indigent care may be made to the hospital until the total amount so accruing to the hospital exceeds the minimum obligation of the hospital for the fiscal year, and a hospital may only receive payment from the county for indigent care provided in excess of its obligation pursuant to this section. After a hospital has met its obligation pursuant to this section, the county may reimburse the hospital for care of indigent inpatients at any rate otherwise authorized by law.

Sec. 28. 1. Except as otherwise provided in section 25 of this act and subsection 2 of this section, each county shall use the definition of "indigent" in section 26 of this act to determine a person's eligibility for medical assistance pursuant to chapter 428 of NRS, other than assistance provided pursuant to NRS 428.115 to 425.255, inclusive.

2. A board of county commissioners may, if it determines that a hospital within the county is serving a disproportionately large share of low-income patients:

(a) Pay a higher rate to the hospital for treatment of indigent inpatients;

(b) Pay the hospital for treatment of indigent inpatients whom the hospital would otherwise be required to treat without receiving compensation from the county; or

(c) Both pay at a higher rate and pay for inpatients for whom the hospital would otherwise be uncompensated.

3. Each hospital which treats an indigent inpatient shall submit to the board of county commissioners of the county in which the patient resides a discharge form identifying the patient as a possible indigent and containing the information required by the department and the county to be included in all such forms.

4. The county which receives a discharge form from a hospital for an indigent inpatient shall verify the status of the patient and the amount which the hospital is entitled to receive.

5. Except as otherwise provided in subsection 2 of this section and subsection 3 of section 27 of this act, if the patient is a resident of the county and is indigent, the county shall pay to the hospital the amount required, within the limits of money which may lawfully be appropriated for this purpose pursuant to NRS 428.050 and 428.285 and section 42 of this act.

Sec. 29. 1. Before September 30 of each year, each county in which hospitals subject to the provisions of sections 25 to 29, inclusive, of this act, are located shall provide to the division a report showing:

(a) The total number of indigent inpatients treated by each such hospital;

(b) The number of such patients for whom no reimbursement was provided by the county because of the limitation imposed by subsection 3 of section 27 of this act;

(c) The total amount paid to each such hospital for treatment of such patients; and

(d) The amount the hospital would have received for patients for whom no reimbursement was provided.

2. The administrator shall verify the amount of treatment provided to indigent inpatients by each hospital to which no reimbursement was provided by:

(a) Multiplying the number of indigent inpatients who received each type of treatment by the highest amount paid by the county for that treatment; and

(b) Adding the products of the calculations made pursuant to paragraph (a) for all treatment provided.

If the total amount of treatment provided to indigent inpatients in the previous fiscal year by the hospital was less than its minimum obligation for the year, the director shall assess the hospital for the amount of the difference between the minimum obligation and the actual amount of treatment provided by the hospital to indigent inpatients.

3. If the administrator determines that a hospital has met its obligation to provide treatment to indigent inpatients but has not been compensated by the county for such treatment, he shall notify the county of the amount of treatment provided in excess of the hospital's obligation. The county shall pay the hospital for such treatment within 30 days after receipt of the notice.

4. The director shall determine the amount of the assessment which a hospital must pay pursuant to this section and shall notify the hospital in writing of that amount on or before November 1 of each year. Payment is due 30 days after receipt of the notice. If a hospital fails to pay the assessment when it is due the hospital shall pay, in addition to the assessment:

(a) Interest at a rate of 1 percent per month for each month after the assessment is due in which it remains unpaid; and

(b) Any court costs and fees required by the director to obtain payment of the assessment and interest from the hospital.

5. Any money collected pursuant to this section must be paid to the county in which the hospital paying the assessment is located for use in paying other hospitals in the county for the treatment of indigent inpatients by those hospitals. The money received by a county from assessments made

pursuant to this section does not constitute revenue from taxes ad valorem for the purposes of NRS 428.050, 428.285, 354.59805, 354.58911 and 354.59816, and section 42 of this act, and must be excluded in determining the maximum rate of tax authorized by those sections.

Sec. 30. 1. A hospital or related entity shall not establish a rental agreement with a physician or entity that employs physicians that requires any portion of his medical practice to be referred to the hospital or related entity.

2. No rent required of a physician or entity which employs physicians by a hospital or related entity may be less than 75 percent of the rent for comparable office space leased to another physician or other lessee in the building, or in a comparable building owned by the hospital or entity.

3. A hospital or related entity shall not pay any portion of the rent of a physician or entity which employs physicians within facilities not owned or operated by the hospital or related entity, unless the resulting rent is no lower than the highest rent for which the hospital or related entity rents comparable office space to other physicians.

4. No health facility may offer any provider of medical care any financial inducement, excluding rental agreements subject to the provisions of subsection 2 or 3, whether in the form of immediate, delayed, direct or indirect payment to induce the referral of a patient or group of patients to the health facility. This subsection does not prohibit bona fide gifts under $100, or reasonable promotional food or entertainment.

10. The director may, at reasonable intervals, require a hospital or related entity or other party to an agreement to submit copies of operative contracts subject to the provisions of this section after notification by registered mail. The contracts must be submitted within 30 days after receipt of the notice. Any money recovered pursuant to this subsection as a civil penalty must be deposited in a separate account in the state general fund and used for projects intended to benefit the residents of this state with regard to health care. Money in the account may only be withdrawn by act of the legislature.

12. As used in this section, "related entity" means an affiliated person or subsidiary as those terms are defined in section 31 of this act.

Sec. 31. 1. For the purposes of this section:

(a) An "affiliated person" is a person controlled by any combination of the hospital, the parent corporation, a subsidiary or the principal stockholders or officers or directors of any of the foregoing.

If the director has reasonable cause to believe that a violation of subsection 2 has occurred, he may conduct an examination of any books and records of the hospital, parent corporation, subsidiary or affiliated person which he deems pertinent to the examination. The director has the same authority to examine the parent corporation, subsidiary or affiliated person and recover the cost of the examination as he has with regard to the hospital. A parent corporation, subsidiary or affiliated person which refuses to permit the examination of its books and records is subject to the fine provided for in subsection 4 for each day that access to the books or records is restricted.

4. If a hospital, parent corporation, subsidiary or affiliated person is found, after notice and a hearing, to have violated the provisions of this

A commission may require hospitals in the county to submit information concerning the patterns of staffing at the hospitals, and may compile that information for publication with similar information from other states. A committee may require such information from its hospital.

5. If a committee determines that its hospital's quality of care is being compromised in the interest of economic considerations, it shall inform the commission for its county. Sec. 51. NRS 428.030 is hereby amended to read as follows:

428.030 1. When any poor person meets the uniform standards of eligibility established by the board of county commissioners *or by section 26 of this act, if applicable,* and does not have relatives of sufficient ability to care for and maintain him, or when such relatives refuse or neglect to care for and maintain him, then he [must] *is entitled to* receive such relief as is in accordance with the policies and standards established and approved by the board of county commissioners and within the limits of the money which may be lawfully appropriated pursuant to NRS 428.050 [, 428.265, 428.275 or 428.285,] *and 428.285, and section 42 of this act,* for this purpose.

2. *The board of county commissioners shall pay hospitals for the costs of treating indigent inpatients who reside in the county an amount which is not less than 85 percent of the prospective payment required for providing the same treatment to patients pursuant to the state plan for assistance to the medically indigent, within the limits of money which may be lawfully appropriated pursuant to NRS 428.050 and 428.285, and section 42 of this act, for this purpose.*

3. The board of county commissioners may:

(a) Make contracts for the necessary maintenance of poor persons;

(b) Appoint such agents as the board [may deem] *deems* necessary to oversee and provide the necessary maintenance of poor persons;

Sec. 52. NRS 428.060 is hereby amended to read as follows:

428.060 1. If it appears to the satisfaction of the board of county commissioners that a pauper applying for relief has not established his residence and came to the county for some other purpose, but before coming to the county was a resident of some other county of this state, the board shall provide temporary relief for the pauper in accordance with the policies and standards established and approved by the board of county commissioners and within the limits of money which may be lawfully appropriated thereby for this purpose pursuant to NRS 428.050 [, 428.265, 428.275 or 428.285,] *and 428.285, and section 42 of this act,* and shall notify immediately the board of county commissioners of the county where the pauper last had a residence.

2. The notice must be in writing, duly attested by the clerk of the board of county commissioners, and deposited in the post office, addressed to the board of county commissioners of the other county.

3. The board of county commissioners receiving the notice may cause the pauper to be removed immediately to that county, and shall pay a reasonable compensation for the temporary relief afforded. If the board of county commissioners chooses not to remove the pauper, the county affording relief has a legal claim against any money lawfully available in that county for the relief necessarily furnished, and may recover it in a suit at law.

Sec. 53. NRS 428.090 is hereby amended to read as follows:

428.090 1. When any nonresident or any other person who meets the uniform standards of eligibility prescribed by the board of county commissioners *or by section 26 of this act, if applicable,* falls sick in the county, not having money or property to pay his board, nursing or medical aid, the board of county commissioners of the proper county shall, on complaint being made, give or order to be given such assistance to the poor person as is in accordance with the policies and standards established and approved by the board of county commissioners and within the limits of money which may be lawfully appropriated for this purpose pursuant to NRS 428.050 [, 428.265, 428.275 or 428.285.] *and 428.285 and section 42 of this act.*

2. If the sick person dies, the board of county commissioners shall give or order to be given to the person a decent burial or cremation.

3. The board of county commissioners shall make such allowance for the person's board, nursing, medical aid, burial or cremation as the board deems just and equitable, and order it paid out of the county treasury.

4. The responsibility of the board of county commissioners to provide medical aid or any other type of remedial aid under this section is relieved to the extent of the amount of money or the value of services provided by:

(a) The welfare division of the department of human resources to or for such persons for medical care or any type of remedial care under the state plan for assistance to the medically indigent; and

(b) The fund for hospital care to indigent persons under the provisions of NRS 428.115 to 428.255, inclusive.

Sec. 54. NRS 680A.320 is hereby amended to read as follows:

680A.320 1. For the purposes of this section:

(a) [A "subsidiary" is a person of which either the insurer and the parent corporation or the insurer or the parent corporation holds practical control.

(b)] An "affiliated person" is a person controlled by any combination of the insurer, the parent corporation, a subsidiary or the principal stockholders or officers or directors of any of the foregoing.

(b) "Health facility" has the meaning ascribed to it in NRS 439A.015.

(c) A "subsidiary" is a person of which either the insurer and the parent corporation or the insurer or the parent corporation holds practical control.

2. No insurer [shall] *may* engage directly or indirectly in any transaction or agreement with its parent corporation, or with any subsidiary or affiliated person which will result or tend to result in:

(a) Substitution contrary to the interest of the insurer and through any method of any asset of the insurer with an asset or assets of inferior quality or lower fair market value;

(b) Deception as to the true operating results of the insurer;

(c) Deception as to the true financial condition of the insurer;

(d) Allocation to the insurer of a proportion of the expense of combined facilities or operations which is unfair and unfavorable to the insurer;

(e) Unfair or excessive charges against the insurer for services, facilities, supplies or reinsurance;

(f) Unfair and inadequate charges by the insurer for reinsurance, services, facilities or supplies furnished by the insurer to others;

(g) Payment by the insurer for services, facilities, supplies or reinsurance not reasonably needed by the insurer; [or]

(h) Depletion of the insurer's surplus, through payment of dividends or other distribution or withdrawal, below the amount thereof reasonably required for conduct of the insurer's business and maintenance of growth with safety to policyholders [.] *; or*

(i) Payment by the insurer for services or products for which the health facility has charged less than fair market value, unless the reduced charge is reflected in the form of reduced premiums. In determining what constitutes fair market value, consideration must be given to reasonable agreements for the preferential provision of health care, in accordance with regulations adopted by the commissioner. An insurer which charges less than fair market value for services or products in a transaction which is subject to the provisions of this paragraph shall annually file a certification with the commissioner that the reduced charge has been reflected in the form of reduced premiums, together with documentation supporting the certification.

3. In all transactions between the insurer and its parent corporation, or involving the insurer and any subsidiary or affiliated person, full recognition [shall] *must* be given to the paramount duty and obligation of the insurer to protect the interests of policyholders, both existing and future.

4. If a health facility is a parent, subsidiary or affiliate of an insurer or of a parent or facility of an insurer, and the insurer purchases medical or any other services or products from the health facility, the health facility may not:

(a) Attempt artificially to reduce or increase its margin of profit by altering the charges to the insurer.

(b) Alter its true operating results or financial condition through charges to the insurer for services or products.

This subsection does not prohibit activities authorized pursuant to paragraph (i) of subsection 2.

5. If a health facility is found, after notice and a hearing, to have violated the provisions of subsection 4, the commissioner may impose an administrative fine of not more than $5,000 for each violation.

Sec. 55. 1. Each hospital whose percentage of income to operating expenses for the calendar year 1986 exceeded 17 percent shall:

(a) For the fiscal year 1987-1988, reduce its billed charges for inpatients by at least 25 percent below its billed charges in effect on March 31, 1987 and reduce its net revenue per inpatient admission by an average of 15 percent below its net revenue per inpatient admission in the fiscal year 1986-1987; and

(b) Except as otherwise provided in subsections 5 and 8, for the fiscal year 1988-1989, maintain its billed charges for inpatients and net revenue per inpatient admission at a level which is not higher than that required for the fiscal year 1987-1988.

2. Each hospital whose percentage of income to operating expenses for the calendar year 1986 exceeded 12 percent but did not exceed 17 percent shall:

(a) For the fiscal year 1987-1988, reduce its billed charges for inpatients by at least 12 percent below its billed charges in effect on March 31, 1987 and reduce its net revenue per inpatient admission by an average of 7.5 percent below its net revenue per inpatient admission in the fiscal year 1986-1987; and

(b) Except as otherwise provided in subsections 5 and 8, for the fiscal year 1988-1989, maintain its billed charges for inpatients and net revenue per inpatient admission at a level which is not higher than that required for the fiscal year 1987-1988.

3. Each hospital whose percentage of income to operating expenses for the calendar year 1986 exceeded 7 percent but did not exceed 12 percent shall reduce its billed charges by an amount which is sufficient to result in a percentage of income to operating expenses of not more than 7 percent for the fiscal years 1987-1988, 1988-1989, 1989-1990 and 1990-1991.

4. A hospital which:

(a) Is not subject to the requirements of subsection 1, 2 or 3 in the fiscal year 1987-1988; and

(b) Exceeds in the calendar year 1987 one of the respective percentages of income to operating expenses specified in those subsections,

shall in the fiscal year 1988-1989 comply with the requirements of the applicable subsection for the fiscal year 1987-1988.

5. A hospital which is subject to the requirements of subsection 1 or 2 in the fiscal year 1987-1988 may increase its billed charges and its net revenue per inpatient admission in the fiscal year 1988-1989 to the extent authorized by this subsection. A hospital may increase its net revenue in the fiscal year 1988-1989 to the extent that the following costs increase in the fiscal year 1987-1988 over the corresponding amounts for the fiscal year 1986-1987:

(a) Salaries of employees of the hospital, excluding administrative employees;

(b) Malpractice insurance;

(c) Fees for licensing;

(d) Utilities; and

(e) Any other increases in costs which the director determines were beyond the control of the hospital.

A hospital must apply to the director for an increase pursuant to this subsection on or before September 30, 1988, by submitting information verifying increases specifically allowed or proposed for consideration pursuant to this subsection. The director shall, on or before November 15, 1988, determine the amount by which the hospital will be allowed to increase its net revenue in the fiscal year 1988-1989. The decision of the director is a final decision for the purposes of judicial review. The hospital may increase its net revenue per inpatient admission in the fiscal year 1988-1989 by an amount which will result in the increase in net revenue authorized pursuant

to this subsection. The hospital may increase its billed charges in the fiscal year 1988-1989 by 1 percent for each percent that it is authorized to increase its net revenue per inpatient admission.

6. Except as otherwise provided in subsection 8, each hospital which is required to comply with the requirements of subsection 1, 2 or 4 shall not increase its billed charges for inpatients in the fiscal year 1989-1990 or in the fiscal year 1990-1991 by more than 4 percent above the percentage increase in the Consumer Price Index (Medical Care Component for all Urban Consumers), published by the Bureau of Labor Statistics of the Department of Labor, in the preceding calendar year.

7. A hospital which fails to reduce its billed charges or net revenue per inpatient admission or to maintain its billed charges or net revenue at the levels required by subsections 1, 2, 4, 5 and 6, shall, except as otherwise provided in subsection 8, pay a penalty of twice the amount of the difference between its total billed charges and its total authorized billed charges or twice the amount of the difference between its total net revenue and its total authorized net revenue, whichever is greater. A hospital which fails to reduce its percentage of income to operating expenses to the levels required by subsection 3 shall pay a penalty of twice the amount of the difference between its total income and its total authorized income. The director shall determine the amount of the penalty which a hospital must pay pursuant to this section and shall notify the hospital in writing of that amount on or before November 1 of each year. The director shall include in the penalty any amounts by which the hospital failed to meet its obligation in a preceding year which were not discovered at the time of the failure. Payment is due within 30 days after receipt of the notice. If a hospital fails to pay the penalty when it is due the hospital shall pay, in addition to the penalty:

(a) Interest at a rate of 1 percent per month for each month after the penalty is due in which it remains unpaid; and

(b) Any court costs and fees required by the director to obtain payment of the penalty and interest from the hospital.

8. The legislature has determined that the requirements of subsection 1 would result in the following reductions in net revenue if the amount of care provided in the fiscal year 1987-1988 were the same as was provided in the calendar year 1986:

Humana Hospital Sunrise	$9,878,425
Valley Hospital Medical Center	5,103,931
Desert Springs Hospital	3,494,151

If the difference between a hospital's net revenue for the fiscal year 1987-1988 or 1988-1989 and the amount its net revenue would have been based upon its net revenue per inpatient admission in the fiscal year 1986-1987 exceeds the amount specified in this subsection, reduced by any credit approved pursuant to subsection 12, the hospital is exempt from any penalty which would otherwise be imposed pursuant to subsection 7. A hospital which increases its billed charges based upon a determination that the provisions of this subsection will exempt the hospital from any penalty for such action shall notify the director in writing of the increase and submit

documentation in support of the hospital's determination. The director shall determine the amount by which a hospital's reduction in net revenue for the fiscal years 1987-1988 and 1988-1989 exceeded the amounts specified in this subsection, after deducting any applicable credit, and shall authorize the hospital to increase its net revenue per inpatient admission by an amount which is sufficient to allow the recovery of the excess in the fiscal year 1988-1989 or 1989-1990, as appropriate. The hospital may increase its billed charges in the fiscal years 1988-1989 and 1989-1990 by 1 percent for each percent that it is authorized to increase its net revenue per inpatient admission pursuant to this subsection for that fiscal year. Any increase authorized pursuant to this subsection is in addition to the increases authorized pursuant to subsections 5 and 6.

9. One-half of the money collected pursuant to this section must be deposited in the legislative fund and used for the support of the legislative committee on health care. The other half of the money must be deposited in the supplemental fund for assistance to indigent persons. The board of trustees of the fund for hospital care to indigent persons shall distribute to each county before May 1 from money deposited in the supplemental fund pursuant to this subsection an amount proportionate to the amount paid into the supplemental fund by the county in the previous fiscal year.

10. The division shall, on or before July 1, 1987:

(a) Determine the percentage of income to operating expenses for the calendar year 1986 for each hospital in this state based upon reports submitted by the hospitals to the division;

(b) Determine whether that percentage exceeds the amount specified in subsection 1, 2 or 3; and

(c) Notify each hospital which will be required to comply with the provisions of subsection 1, 2 or 3 and of subsection 6. Each hospital so notified, except a hospital which is subject to the provisions of subsection 3, shall within 30 days provide to the director a copy of its list of billed charges in effect on March 31, 1987.

The division shall make such other determinations as are necessary to carry out the provisions of this section.

11. The provisions of subsections 1, 2, 3 and 4 do not require a hospital to reduce the amount it receives pursuant to a contract in effect on the effective date of this section.

12. A hospital which is required pursuant to subsection 1, 2 or 4 to reduce or limit its net revenue per inpatient admission in a fiscal year is entitled to a credit against its net revenue used to compute its revenue per inpatient admission of $2 for each $1 spent by the hospital in the preceding calendar year to increase its ratio of nursing hours to patient days. The credit authorized pursuant to this subsection must not exceed 5.5 percent of the amount by which the net revenue of the hospital would otherwise be required to be reduced in the fiscal year 1987-1988. The credit applies only to nurses licensed pursuant to chapter 632 of NRS. To receive the credit, a hospital must:

(a) Increase its percentage of nurses who work at least 40 hours per week above the percentage for the preceding calendar year;

(b) Increase its ratio of nursing hours to patient days above the ratio for the calendar year 1986;

(c) Maintain its level of expenditures for medical education in Nevada at the level provided in the calendar year 1986, including education of allied health students, education of students in medical school, postgraduate residency programs and continuing medical education for the hospital's staff; and

(d) Submit to the director on or before January 31 of the fiscal year in which the credit is claimed evidence of compliance with the requirements of paragraphs (a), (b) and (c).

The director may disallow all or any portion of the claimed credit which he determines is not supported by the evidence. The decision of the director is a final decision for the purpose of judicial review.

13. The director may adopt such regulations as he deems necessary to carry out the provisions of this section.

14. As used in this section:

(a) "Director" means the director of the department of human resources.

(b) "Division" means the division for review of health resources and costs of the department of human resources.

(c) "Fiscal year" means a period beginning on July 1 and ending on June 30 of the following year.

(d) "Income" means all revenues earned from the care of inpatients, as determined by the division from reports submitted to the division by a hospital, minus operating expenses, before the payment of income taxes.

(e) "Net revenue per inpatient admission" means all revenues earned from medical care provided to inpatients by a hospital, excluding income from inpatients covered by Medicare or Medicaid, divided by the number of inpatients admitted, excluding inpatients covered by Medicare or Medicaid.

(f) "Operating expenses" means expenses of operation of a hospital which the division determines to be an allowable operating expense including:

(1) All operating expenses allowed by the Health Care Financing Administration for hospitals which receive payments for Medicare;

(2) Expenses for capital expenditures approved pursuant to NRS 439A.100; and

(3) Other operating expenses which the division determines to be directly related to the provision of care to inpatients.

(g) "Percentage of income to operating expenses" means income divided by operating expenses and then multiplied by 100.

Sec. 56. 1. The legislature intends that the reductions in revenue required of hospitals by section 55 of this act be carried out without affecting the service provided by such hospitals. The legislature hereby finds that any reduction in the number or quality of the employees of such hospitals would be contrary to the interests of the people of this state, and would endanger

public health. The legislature further finds that any reduction in the salaries or benefits of the employees of such a hospital is likely to result in a reduction in the number and quality of the employees of the hospital.

2. A hospital which is required pursuant to subsection 1, 2 or 4 of section 55 of this act to reduce its net revenue per inpatient admission shall not:

(a) Reduce the wages, hours or benefits of any employee, except in the case of legitimate disciplinary action or at the request of the employee;

(b) Reduce the number of employees employed to perform any service; or

(c) Reduce the quantity or quality of service provided by the hospital, except to the extent that a reduction in quantity corresponds to a reduction in the level of occupancy of the hospital,

unless the hospital's action is approved by the director of the department of human resources.

3. For the purposes of this section, a reduction in the quality of service provided by a hospital includes:

(a) Reducing the number of hours employees are assigned to provide or assist in the provision of a service;

(b) Discontinuing any service which is provided to more than 50 persons in a year; and

(c) Any other action which reduces the quality of care received by patients in the hospital.

4. The director of the department of human resources may:

(a) Impose an administrative fine of not more than $5,000 per occurrence for each violation of this section; and

(b) Adopt regulations necessary to carry out the provisions of this section.

Sec. 57. 1. The legislature hereby finds and declares that:

(a) Rates charged by hospitals in this state are excessive and in need of control;

(b) The provisions of section 55 of this act would provide needed relief to the residents of this state from those rates;

(c) It is essential that the provisions of that section remain in force for the entire period prescribed by that section for the residents of this state to receive the full benefit of its requirements; and

(d) If those provisions are not in effect for the period prescribed by that section, it will be necessary for those provisions to take effect as soon as possible and for the amount of time required by that section.

2. If any of the provisions of section 55 of this act is enjoined, restrained or otherwise prevented by a court from taking effect, those provisions become effective on the date that those provisions are upheld by the Supreme Court of the United States or of Nevada, or on the date that the time for appealing the ruling of a lower court upholding those provisions expires. The times and amounts used to measure the obligation of a hospital and against which compliance is measured must be as stated in that section. The periods in which a hospital is required to comply must be measured from the date on which the provisions become effective pursuant to this subsection, with that date being the equivalent of July 1, 1987.

3. If any of the provisions of this act are found by a court to be unconstitutional, the legislature intends that the remaining provisions take effect with respect to the hospitals that would otherwise be subject to those provisions, and to this end the provisions of this act are hereby declared to be severable.

Sec. 58. 1. Each insurer, nonprofit corporation for hospital or medical service and health maintenance organization shall identify reductions in payments of claims which result from the provisions of this act and pass those savings on to their policyholders in the form of reduced premiums.

2. If an entity described in subsection 1 is found, after notice and hearing, to have failed to identify or pass on savings as required by subsection 1, the commissioner of insurance may impose an administrative fine of not more than $5,000 and impose other sanctions authorized by law.

Sec. 59. The legislative committee on health care shall:

1. Review the actions of the director of the department of human resources in administering the provisions of this act, except section 35 of this act, and adopting regulations pursuant to those provisions. The director shall report to the committee concerning any regulations proposed or adopted pursuant to those provisions.

2. Report to the legislature on December 1, 1988, and December 1, 1990, concerning the effect of this act and the need for continued controls over the costs of health care.

Sec. 60. If a contract was in effect for the fiscal year 1986-1987 between a county and a hospital for the treatment of a majority of the indigent patients in the county, the total amount of reimbursement paid to the hospital by the county in the fiscal year 1987-1988 for the treatment of indigent patients must not be less than the amount paid to the hospital in the fiscal year 1986-1987 if the hospital treats at least as many indigent patients.

Sec. 61. 1. This section and sections 55, 56, 57 and 58 of this act become effective upon passage and approval.

2. Sections 1 to 42, inclusive, 44, 45, 46, 48 to 54, inclusive, 59 and 60 of this act become effective on July 1, 1987.

3. Sections 43 and 47 of this act become effective at 12:01 a.m. on July 1, 1987.".

Amend the title of the bill to read as follows:

"An Act relating to health facilities; requiring certain hospitals to reduce charges and maintain those charges at the reduced level; requiring certain hospitals to reduce their revenue per inpatient; requiring certain hospitals to reduce their percentage of income to operating expenses; creating a legislative committee on health care; requiring certain hospitals to provide an established amount of treatment for indigent patients or to pay an assessment; prohibiting certain transactions between affiliated health facilities and insurers and between hospitals and their affiliates; requiring hospitals to provide emergency medical care; revising the criteria for determining whether certain projects require the approval of the director of the department of human resources and providing other matters properly relating thereto.".

Amendment No. 1020.

Amend section 1, pages 1 and 2, by deleting lines 3 through 14 on page 1 and lines 1 through 6 on page 2 and inserting:

"*1. The legislature hereby declares that in order to ensure that each Nevada child is afforded an adequate educational opportunity it is necessary to reduce the size of each class from kindergarten through third grade to a maximum ratio of one teacher for every 22 pupils in a classroom. The legislature recognizes that such a goal is unachievable without substantial continuing increases in state financial aid for public education. The legislature hereby dedicates a significant portion of the money in the estate tax account in the state general fund to the continuing process of creating smaller classes for Nevada's children. The money must be used exclusively to reduce the size of classes, not to maintain those reductions once achieved.*

2. The superintendent of public instruction shall allocate the money set aside pursuant to section 4 of chapter 21, Statutes of Nevada 1987, on July 1, 1987, July 1, 1988, July 1, 1989, and July 1, 1990, in the manner set forth in this section, except that the amount so disbursed in each year for this purpose may not exceed $5,000,000.

3. The superintendent shall apportion the money among the several school districts in a manner which will allow the school districts with the highest ratio of teachers to pupils in kindergarten and first grade to reduce the size of those classes first. The apportionment must continue with specific effort made to reduce the largest classes in the lower grades first and then continuing until a maximum ratio of one teacher for every 22 pupils per classroom has been achieved.

4. The money apportioned to a school district pursuant to this section must be used to reduce the size of each class from kindergarten through third grade to a ratio of one teacher for every 22 pupils per classroom. The money may be used to pay any costs incurred for materials and labor required to subdivide, remodel or provide additional classrooms to achieve the reductions.

5. If no school in a district exceeds the desired ratio, the board of trustees of the district may, after developing a plan with teachers and representatives of parents, apply to the state board of education for a grant of money for the support of programs to supplement the district's usual

educational programs. If a district obtains such a grant and any school in the district subsequently exceeds the ratio required in subsection 4, the money must be used to reduce that ratio.".

Amend sec. 3, page 2, by deleting line 25 and inserting: "*the several school districts of the state and be distributed by the superintendent of public instruction pursuant to section 1 of Assembly Bill No. 975 of this session. The remaining*".

Amend the bill as a whole by deleting sec. 4 and inserting:

"Sec. 4. 1. Each school district which contains any school in which the ratio of teachers to pupils exceeds 1:22 shall:

(a) Develop a plan to achieve the desired ratio.

(b) Evaluate programs and existing priorities to determine whether any existing revenue may be used to achieve the desired ratio.

(c) On or before November 1, 1988, prepare and submit a report to the department of education of a plan to achieve the desired ratio before the beginning of the school year in the year 2000.

2. The department of education shall compile the reports submitted by the respective school districts and any additional information necessary to determine the extent to which the money provided pursuant to this act was able to achieve the desired ratio. The department shall, on or before January 15, 1989, submit to the director of the legislative counsel bureau a report of its findings and any related recommendations to achieve the stated goal. The director shall transmit the report to the 65th session of the Nevada legislature.

Sec. 5. Notwithstanding the provisions of subsection 2 of section 1 of this act and section 4 of chapter 21, Statutes of Nevada 1987, as amended by section 3 of this act, for the biennium beginning on July 1, 1987, after deducting the amount determined by the department as necessary to pay the costs of administration and to refund any overpayments of tax, the first $10,000,000 of the revenue received from the tax imposed by section 2 of chapter 21, Statutes of Nevada 1987, must be transferred to the state general fund for allocation pursuant to the budget of the governor. Any amount by which the proceeds of the tax in the 1987-1989 biennium fail to meet the $10,000,000 for the budget of the governor must not be subtracted from any future revenue received.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, June 9, 1987

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 47.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 47.

Assemblyman Bergevin moved the adoption of the resolution.

Remarks by Assemblymen Bergevin and Getto.

Assemblyman Getto requested that the following remarks be entered in the Journal.

ASSEMBLYMAN BERGEVIN:

Thank you, Mr. Speaker. I was privileged to know Harvey Gross for a good number of years. He, indeed, was one of the premium pioneer gaming persons in the State of Nevada.

I can remember his establishment at Lake Tahoe back in the 1940s when that was one of the few places in the winter time that remained open at Lake Tahoe. Everything else boarded up and closed up and that was one of the few places where you could go get something to eat if you were hungry.

He started in a one-story building at Lake Tahoe, which I recall had slabbed lumber for its siding. He was next door to Harrah's, which was then a one-story establishment and across the street, where Harrah's now stands was the Sahati's Country Club, which was another one-story establishment. This was one of the favorite places that we used to go as children.

Harvey Gross was a very foresighted man and he gave freely of his time and of his wealth to all of the citizens of the State of Nevada in many projects that today bear his name. You can go up to the Lawlor Events Center at the University of Nevada and see some of the things he has done. He was responsible, mainly, for the pavilion that you see behind the Governor's mansion today. The contributions that he made to the betterment of the State of Nevada are legend.

It is my privilege today to introduce some of his family: his grandson and his wife, Mr. Kirk Ledbetter and Debbie, his granddaughter, Jessica and his granddaughter, Erica.

Certainly he was one of the great people in the gaming industry in the State of Nevada and today the establishment of Harvey's at Lake Tahoe has to be one of the finest hotels and casinos in the world.

ASSEMBLYMAN GETTO:

Yes, just very briefly, too, I would add my words along with my colleague from Gardnerville.

As a young man I remember driving up around Lake Tahoe. It was unimproved and there was a man there who was starting in a little building that looked almost like a chicken house, but there was tremendous good food. He parlayed that to one of the finest gambling casinos in the State of Nevada and there are very few men in this nation that achieve the accomplishments that Harvey Gross did. I certainly feel that it is a tremendous loss to the State of Nevada, but we will long remember him.

Resolution adopted unanimously.

Assemblyman Jeffrey moved that Senate Bill No. 313 be taken from the Chief Clerk's desk and placed on the Second Reading File.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, June 10, 1987

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolutions Nos. 49, 50.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

By the Committee on Government Affairs:

Assembly Concurrent Resolution No. 74—Urging Mt. Wheeler Power, Inc., to conduct an independent management audit and independent study of its costs in providing services and its rates and temporarily reduce its rates for certain classes of members.

Assemblyman Bergevin moved the adoption of the resolution.

Remarks by Assemblyman Bergevin.

Resolution adopted.

Senate Concurrent Resolution No. 49.

Assemblyman Adler moved the adoption of the resolution.

Remarks by Assemblyman Adler.

Assemblyman Thompson requested that Assemblyman Adler's remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and through you, when I worked for the Attorney General's office, I worked with Bill Berning for some six years and Bill Berning was an amazing man. A lot of times we talked about state employees and the hours that they put in, but seriously, Bill Berning was the kind of guy who would put in 16-hour days, 12-hour days, and extended periods of time just to keep the Department of Prisons operating.

I remember one instance where they had a riot at the Department of Prisons where the inmates, I believe, broke some 100 toilets—if you don't think that was ever a mess. But, Bill and his maintenance crew went out there and solved that situation—solved the problems.

I believe that Bill's efforts through maintaining those buildings, keeping the heating systems going, planning new buildings and the like over the years at the Department of

Prisons probably prevented more riots and civil disturbances than any other action taken by any other person within the Department of Prisons. He, under some very trying circumstances, kept the Medium Security Prison operational, the Men's Prison operational, the Women's Prison operational, and all the other prisons in good working order and that is a difficult task.

He was one of those people who was just an exceptional employee of the Department of Prisons. I can't say enough about him. I would imagine they are going to have to hire at least two or three men to replace Bill for all the things that he did. He was a good friend of mine. He was someone I worked with for six or seven years—someone you could always depend upon.

In appreciation of his efforts, I know that many persons from the Department of Prisons are here. If they could stand to be recognized, too. And all these people worked with Bill and appreciated his efforts.

I know that his wife, Dixie, will sorely miss him as well, and we are all going to miss Bill a great deal. Thank you.

Resolution adopted unanimously.

Assemblyman Arberry moved that Senate Bill No. 26 be taken from the Chief Clerk's desk and placed at the top of the General File.

Motion carried.

REMARKS FROM THE FLOOR

Assemblyman Price requested that his remarks be entered in the Journal.

Constitutional Moments—Week of June 7, 1787

Activities of the Convention this week

June 7—The clause providing for the appointment of the 2nd branch of the national legislature, having lain blank since the last vote on the mode of electing it, to wit, by the first branch, Mr. Dickinson now moved that the members of the second branch ought to be chosen by the state legislatures; Sherman then seconded. James Wilson, seconded by Morris, moved that the people elect the Senate. A motion to consider Wilson's motion lost, 10 against, one for. Dickinson's motion was then approved unanimously.

June 8—The convention, in committee of the whole, reconsidered the provision giving the national legislature a veto over state laws "contrary to the Articles of Union or treaties with foreign nations". Charles Pinckney, seconded by James Madison, moved to strike the qualifying clause and thus give the legislature power to veto any state law. After a lively debate the motion was defeated—7 nay, 3 aye, 1 divided.

June 9—Elbridge Gerry (Mass.) moved to reconsider the method of electing the executive, and to have the executive elected by the governors of the states, with their votes weighted in proportion to the vote of their state in the Senate. (This was before the decision for an equal vote in this body.) Edmund Randolph argued strongly against this motion and it lost—10 states no, Delaware divided. The convention recessed until Monday.

June 11—The committee of the whole reconsidered the Rule of Sufferage in the legislature. Roger Sherman moved that it be proportional in the first house and by state (each state one vote) in the Senate. John Rutledge and Pierce Butler, both of South Carolina, wanted representation based on how much money each state contributed. After

extensive and heated debate, the committee decided that representation should be based on the free population plus three-fifths of all others. Sherman's motion that each state have an equal vote in the Senate was defeated.

June 12—The convention meeting in committee of the whole had a busy day. Today it approved having the conventions to ratify the Constitution elected by the people; agreed on three-year terms for members of the House; agreed to pay legislators a fixed salary from the Federal treasury and agreed that Senators should be at least 30 years old.

June 13—Today, the convention meeting as a committee of the whole gave the Federal Judiciary jurisdiction in cases concerning the national revenue, impeachment of Federal officers and questions involving the national peace and harmony. The convention decided that the Senate would appoint Federal judges, defeated a proposal to prohibit the Senate from originating money bills, and rose to report to the Convention.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, June 11, 1987

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 51.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 51.

Assemblyman Nicholas moved the adoption of the resolution.

Remarks by Assemblymen Nicholas, Getto, Kerns and Freeman.

Assemblyman Nicholas requested that the following remarks be entered in the Journal.

ASSEMBLYMAN NICHOLAS:

Thank you, Mr. Speaker. The lady in question passed away a short time ago at the advanced age of 96 after spending a full 69 years as a Sister in the Dominican Order. Her main directions in life had to do with a hospital in Washoe County called St. Mary's and it essentially exists today because of her efforts as the director/administrator of that hospital—as the person who did everything from washing the floors and the windows to the most important decision making that the facility had to make.

I first met her when she was in her 80s and was still involved in the growth of that hospital. Picture, if you may, a Certificate of Need hearing with a grizzled committee of some 12 people sitting in a court-like atmosphere gazing down at those who would request, even beg, for assistance in expansion, new rooms, new anything. The issue in doubt, and then the person to come to the stand, a diminutive little, iron-willed, 85-year-old nun. And the issue changed. And every time that I watched that situation occur, I knew that the catalyst was always Sister Seraphine.

She's gone now, but she left a legacy that is really an amazing one in consideration of her size to the size of what she put together.

With me today is the chairperson of the St. Mary's Board, Sister Peter Damien, and the present CEO of the organization, Bill Van Ry, who joined me in acknowledging to you that this was a person with not only a long life span, but an accomplishment list that matched it. She was a marvelous lady. I would like to have had more of her time. We appreciate the consideration of this body today to this resolution.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker. Very briefly, I had several encounters with Sister Seraphine, mainly as a patient at St. Mary's hospital. I will always remember the spiritual uplifting that this person gave me when she came in. She was a wonderful person.

As my colleague has stated, the accomplishments that she has given to humanity, I think, are almost unmatchable.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. During my 27 years on the fire department with the City of Reno I had a lot of meetings with Sister Seraphine. I always felt that the firefighters were part of her family. She treated all of us like we were her own sons, and it was just absolutely fantastic—it couldn't have been better. In the meantime, if we needed any help at all, we knew where we could go to get it. She really looked out for all of us.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I first met Sister Seraphine some 25 years ago when I was working as a nurse at St. Mary's Hospital. This was a woman who had been a nurse at one time and, I felt, really understood the true meaning of nursing. She was a highly unusual woman and as Mr. Nicholas has said, she was a catalyst for the entire institution. She was a very fine woman and a loss to the community.

Resolution adopted unanimously.

Assemblyman Jeffrey moved that Assembly Bills Nos. 423, 514, 598, 765, 872; Senate Bills Nos. 144, 212, 270, 285, 286, 509, 511, 524, 537, 554, 567, 576 and Senate Joint Resolution No. 22 be placed on the Second Reading File.

Legislative Intent

S.B. 471 liberalizes and amends the current home office and regional home office premium tax credit found in NRS 608B.050. During the course of receiving testimony on this legislation, we were made aware of the fact that credits which are arguably similar to this one are being challenged in other states. The Supreme Court has held that the Alabama domestic tax preference statute is unconstitutional.

The basis for the challenge is the violation of the "equal protection" clause of the United States Constitution, because foreign insurers are taxed differently than domestic insurers.

Because this issue is under review by state and federal courts and because premium tax payments have been made under protest to the Insurance Division, we thought it appropriate to restate our intentions when reviewing the original legislation and considering this amendment.

If this premium tax credit is challenged and stricken by a court of competent jurisdiction, we intend that the tax remain at three percent for all insurers. Those persons who may have been eligible for a tax credit would no longer have their taxes reduced by the credit and would have to pay the full three percent tax. Further, we specifically reject the proposition that if the credit is stricken, all previously ineligible insurers would only have to pay taxes at the lesser rate and that refunds should be made.

This legislation was adopted to reduce taxes as a result of a recognition of the positive economic impact these insurers have on our community. If that is found to be improper, then all insurers should be taxed at the three percent rate.

Assemblyman Adler moved the adoption of the resolution.

Remarks by Assemblyman Adler.

Assemblyman Adler requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. Jim Frank was a very special person to Carson City. He moved here as a teacher and was very involved in the community. He coached many championship track teams. All of his students dearly loved him and looked up to him as a coach. But he did, in the later portion of his life acquire a very severe form of cancer. As a result, he had a long struggle with that disease. We had a fund raiser here in Carson City where, I would swear, probably a third of the community attended to provide money for his medical bills. He was a very, very special person. He was the type of person that exemplified the finest in teaching in the State of Nevada. He was a true Nevadan—he was from Tonopah and had roots going back to Fallon and spent a lot of time here in Carson City. He will always be missed by the persons of Carson City including myself.

With me today are his wife, Daria Frank, and his mother-in-law, Ralphia Elges. Thank you, Mr. Speaker.

Resolution adopted unanimously.

Assemblyman Adler moved that all rules be suspended and that Assembly Concurrent Resolution No. 75 be immediately transmitted to the Senate.

Motion carried unanimously.

Assembly Concurrent Resolution No. 76—Commending the members of the Nevada National Guard for their exemplary record and enthusiastically wishing them a Happy 125th Birthday.

WHEREAS, In 1862, Nevada's first Territorial Governor James W. Nye appointed H. B. Russell as the first Adjutant General of Nevada, thus officially establishing the Nevada National Guard; and

WHEREAS, This year marks the 125th anniversary of the Nevada National Guard; and

WHEREAS, Nevada National Guardsmen have won countless regional and national awards for excellence in events which have tested and proven their skills, mettle and proficiency; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the Legislature commends the members of the Nevada National Guard for their exemplary record and enthusiastically wishes them a "Happy 125th Birthday"; and be it further

RESOLVED, That a copy of this resolution be transmitted by the Chief Clerk of the Assembly to Brigadier General Drennan A. Clark, the Adjutant General of Nevada.

Assemblyman Price moved the adoption of the resolution.

Remarks by Assemblymen Price, Humke, Brookman, Getto and Kerns.

Assemblyman Brookman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I could probably talk all day on the high points and how proud I am of our National Guard. I, like many citizens, probably did not pay too much attention to the Guard until I ended up marrying a guard member. Since then I have become quite aware and I would like to tell you a few things.

Our National Guard, as I suppose most states are, but particularly ours is a very professional group of people. They are in continuous readiness. They train anywhere from one, two or three weekends a month from time to time. This month, for example, my wife

will be spending two weekends with the Guard. They have competed throughout the world against each other, not only Guard units, but regular units of the armed forces, and continually walk away with all the honors.

The Guard unit, as it indicates in our resolution, is actually older than the state. They fought many battles in the early history of Nevada, including Pyramid Lake. They helped establish Fort Churchill out in Speaker Dini's area. And, as the resolution indicates, they have worked on floods, national disasters and all types of things on behalf of not only our state, but our country over the years.

We have sitting with Mrs. Brookman some people who will be introduced. Mrs. Brookman, herself, has been a strong supporter of the Guard. I can remember in past years since I have been here in the legislature, she has, from time to time had resolutions and has also participated and been a great supporter of the National Guard over the years. I'm very proud that today we are taking this moment on their behalf. We would certainly urge unanimous concurrence with this resolution.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. As a former Nevada Army National Guard officer, I would like to echo those remarks. The days that I spent in the Nevada Army National Guard are some of the proudest days in any service that I have given to the State of Nevada. I would just remind the members how important this organization is to this state and to our country because of the readiness of our active duty regular forces. If we get into a shooting war, some of our men and women would be the first to be pressed into service. I cannot emphasize this enough, we have a group of men and women of whom we can be abundantly proud. Thank you.

ASSEMBLYMAN BROOKMAN:

I want to remind this august body that the Guard existed two years before Governor Nye, when Nevada was still a territory, before we even became a state. They are the first ones to be called in a disaster. It was my pleasure in 1967, along with Paul May, Getto, and Mr. Dini, our Speaker, to revive all the Guard bills, make it non-sexist—let me tell you—give them all their pay, and their license plates and all the good things for the Guard. We appreciate what they have done for the State of Nevada. They shall continue to do it. Thank you.

ASSEMBLYMAN GETTO:

Thank you, Mr. Speaker. It brings back fond memories.

I, too, would like to congratulate the National Guard on their 125th Birthday. My son is a former member of the National Guard and I would like to point out that the National Guard persuaded and persevered in getting the legislature to provide scholarships for the members of the National Guard. That is a real fine benefit for our young people and the wonderful things that the National Guard does, especially. I am a firm believer of discipline, and the National Guard, same as the military, teaches discipline. It is just a great organization and I am glad and pleased that we have been able to keep the National Guard at a rate or level where they are functioning. As my cohort from Reno stated, they are on the line in the case of an emergency and will be the first ones out there. We are proud of that. It is a real good feeling to know that they are there.

Congratulations to the members of the National Guard.

ASSEMBLYMAN KERNS:

I probably shouldn't say this because it will tell my age a little bit, but I have a few fond memories of the National Guard myself and they start about 40 years ago when I joined the 116th Armored Cavalry in Idaho, which is kind of an off-branch of what we have here. I can't remember too much of the fun about the weekly meetings, but I sure do remember the summer camps.

Resolution adopted unanimously.

Assemblyman Jeffrey moved that all rules be suspended and that Assembly Concurrent Resolution No. 76 be immediately transmitted to the Senate.

Motion carried unanimously.

REMARKS FROM THE FLOOR

Assemblyman Brookman requested that Mr. Speaker's remarks be entered in the Journal.

You know, some of us old timers around here call her Mother Brookman because, I think she probably nurtured the National Guard back in the 1970s to what it is today in the little bills when she was chairman of the Federal Indian and Military Affairs Committee in 1971, 1973 or what was it 1969. It is so far back, Brookie, I can't remember.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, June 13, 1987

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 53.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 53.

Assemblyman Sedway moved the adoption of the resolution.

Remarks by Assemblyman Sedway.

Mr. Speaker requested that Assemblyman Sedway's remarks be entered in the Journal.

Mr. Speaker, the ultimate gift that anyone can have for his fellowman is his life. Richard Rundle, who in years was only 12 years old, performed a task which very few of us, placed in the same situation, would do. In a split instant, he saw the car out of control bearing down on his best friend on their way to school. Without hesitation, he stepped in to save the life of that other boy. In so doing, he gave up his own life. How many of us would do the same thing? And that this young boy, whose age had not left him with any cynicism or guile, gave of himself without any thought for himself.

For myself and for others in this room I wish to convey to his parents, William and Shirley Rundle, our sincere condolences for the loss of their son with the hope that his act will hold out to the rest of us a symbol that we, too, can hold ourselves to in the hope that we can somehow make someone else's life better while we mourn his. You have our deepest and sincerest condolences.

Resolution adopted unanimously.

The following amendment was proposed by the Committee on Taxation:

Amendment No. 1569.

Amend the bill as a whole by deleting sections 1, 2 and 3 and adding new sections designated sections 1 through 7, following the enacting clause, to read as follows:

"Section 1. 1. The administrator of financial institutions shall collect a fee in the fiscal years 1987-1988 and 1988-1989 for the privilege of doing business in this state from each depository institution doing business in this state on or before July 1 of the calendar years 1987 and 1988, respectively. The fee must be imposed at a rate calculated by the administrator to generate $1,000,000, plus or minus $10,000, in each fiscal year. Each institution's fee must be the same portion of $1,000,000 as its total assets in the state bears to the total assets of all depository institutions doing business in this state.

2. Each depository institution subject to the fee imposed pursuant to subsection 1 shall, on or before October 1, 1987, and October 1, 1988, submit to the administrator a statement of the dollar value of its total assets in this state as of July 1, 1987, and July 1, 1988, respectively. The administrator shall determine each institution's fee and notify the institution in writing of the fee on or before November 1 of the respective years. One-half of the fee is due on January 1 of the following year and the remainder is due on July 1 of the following year.

3. If a depository institution fails to submit the statement required by subsection 2, the administrator shall require an audit of the institution by an independent accountant. The auditor shall determine:

(a) The dollar value of the total assets of the institution in this state on July 1 of the appropriate year; and

(b) The fee the institution would have been required to pay had it submitted the statement as required.

The institution shall pay the cost of the audit, the fee that the auditor determined the institution should have paid, a penalty of 10 percent of that fee, and interest at the rate of 1 percent per month from the date the fee should have been paid until the date the fee is actually paid.

4. If the administrator has reasonable grounds for believing that a statement submitted pursuant to subsection 2 is inaccurate, he may require an audit of the depository institution by an independent accountant. If the auditor determines that the institution should have paid a larger fee, the institution shall pay the additional fee and the penalty and interest required pursuant to subsection 3 on the additional amount. If the auditor determines that the amount indicated in the statement was less than the actual total assets of the institution in this state by more than 10 percent, the institution shall pay the cost of the audit. If the auditor determines that the institution paid more than it should have, the institution is entitled to a refund of the excess payment.

5. If an additional payment is made pursuant to subsection 3 or 4, the administrator shall refund the amount by which the total fees paid in the year exceeds $1,000,000, excluding amounts paid to pay the cost of an audit or as a penalty or interest, to the other depository institutions which have paid the fee imposed pursuant to subsection 1, in proportion to the amounts they have actually paid. The administrator is not required to make a refund pursuant to this subsection if the excess is less than $10,000.

6. If a depository institution is delinquent in the payment of the fee imposed pursuant to subsection 1, it shall pay a penalty of 10 percent of the fee and interest on the fee at the rate of 1 percent per month until the fee is paid. Any fee remaining unpaid 30 days after it is due constitutes a lien against the assets upon which the fee is based.

7. The administrator shall deposit all payments received pursuant to this section in the state treasury for credit to the state general fund.

8. The administrator may adopt such regulations as he deems necessary to carry out the provisions of this section.

9. As used in this section:

(a) "Administrator" means the administrator or financial institutions.

(b) "Depository institution" has the meaning ascribed to it in NRS 657.037.

Sec. 2. The legislative commission shall contract with consultants to conduct an interim study of the fiscal affairs of the state and local governments in Nevada.

Sec. 3. 1. The study must include an analysis of existing revenues and possible new revenue sources.

2. The legislative commission shall:

(a) Define the scope of the study.

(b) Establish a schedule for completion of the study.

(c) Select the consultants and negotiate the terms of the contract.

(d) Require scheduled progress reports from the consultants to ensure that the consultants are adhering to the scope of the study as established by the legislative commission.

3. The study must be completed and submitted to the governor and legislative commission on or before September 1, 1988.

Sec. 4. The governor shall appoint a broad-based committee of no more than 15 persons composed of representatives of business, industry, gaming, mining, agriculture, education, labor, local governments and the general public. The committee shall review the report submitted by the consultants and, before November 30, 1988, submit findings and recommendations to the legislative commission.

Sec. 5. The legislative commission shall submit a report, including the findings and recommendations of the governor's review committee, of the study and any recommended legislation to the 65th session of the legislature.

Sec. 6. 1. There is hereby appropriated from the state general fund to the legislative fund the sum of $500,000 for the support of the interim study conducted pursuant to section 2 of this act.

2. Any remaining balance of the appropriation made by subsection 1 must not be committed for expenditure after June 30, 1989, and reverts to the state general fund as soon as all payments of money committed have been made.

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 151.

The following Senate amendment was read:

Amendment No. 1384.

Amend the bill as a whole by deleting sections 1, 2 and 3 and inserting new sections designated sections 1, 2 and 3, following the enacting clause, to read as follows:

"Section 1. The board of county commissioners of Clark County may convey to Boys Clubs of Clark County, Inc., doing business as Boys and Girls Clubs of Las Vegas, a corporation not for profit, that certain parcel of land located at the corner of Lindell Road and Edna Avenue in Clark County now leased to that corporation, more particularly described as:

That portion of the west one-half of the southwest quarter of the northeast quarter of section 12, Township 21 South, Range 60 East, M.D.B.& M., being government lot No. 49, save and except the south 40 feet, the east 10 feet and the west 40 feet thereof.

Any mistake or informality in the foregoing description does not impair the authority of the board of county commissioners to convey the property actually now so leased.

Sec. 2. The board of county commissioners may impose conditions or provide in the conveyance for the reversion of the property to the county if it ceases to be used for charitable or civic purposes.

Sec. 3. The legislature finds that:

1. It is undesirable to confer upon boards of county commissioners generally the power to convey real property for a civic or charitable purpose, as opposed to their present power to lease for a term of years;

2. In the case of Clark County, a substantial gift to the same donee for its civic and charitable purposes depends upon its receiving the fee rather than a leasehold in the land described in this act; and

3. Therefore, this situation is one to which a general law cannot be made applicable.".

Amend the title of the bill to read as follows:

"An Act authorizing the conveyance of certain real property by Clark County to a corporation not for profit; and providing other matters properly relating thereto.".

Amend the summary of the bill to read as follows: "Authorizes conveyance of real property by Clark County for civic purpose. (BDR 20-543)".

Amendment No. 1538.

Amend sec. 3, page 5, by deleting lines 13 through 32 and inserting:

"Sec. 3. Section 17 of chapter 188, Statutes of Nevada 1987, is hereby amended to read as follows:

Sec. 17. NRS 463.385 is hereby amended to read as follows:

463.385 1. In addition to any other license fees and taxes imposed by this chapter, there is hereby imposed upon each slot machine operated in this state an annual tax of $250. If a slot machine is replaced by another, the replacement is not considered a different slot machine for the purpose of imposing this tax.

2. The commission shall:

(a) Collect the tax annually on or before June 20, as a condition precedent to the issuance of a state gaming license to operate any slot machine for the ensuing fiscal year beginning July 1, from a licensee whose operation is continuing.

(b) Collect the tax in advance from a licensee who begins operation or puts additional slot machines into play during the fiscal year, prorated monthly after July 31.

(c) Include the proceeds of the tax in its reports of state gaming taxes collected.

3. The commission shall pay over the tax as collected to the state treasurer to be deposited to the credit of the state distributive school *account in the state general* fund, the capital construction fund for higher education and the special capital construction fund for higher education, hereby created in the state treasury, in the amounts and to be expended only for the purposes specified in this section.

4. During each fiscal year the state treasurer shall deposit the tax paid over to him by the commission as follows:

(a) The first $5,000,000 of the tax in the capital construction fund for higher education;

(b) Twenty percent of the tax in the special capital construction fund for higher education; and

(c) The remainder of the tax in the state distributive school *account in the state general* fund.

5. There is hereby appropriated from the balance in the special capital construction fund for higher education on July 31 of each year the amount necessary to pay the principal and interest due in that fiscal year on the bonds issued pursuant to section 5 of chapter 679, Statutes of Nevada 1979, as amended by chapter 585, Statutes of Nevada 1981, at page 1251 and on the bonds authorized to be issued by section 2 of [this act.] *Assembly Bill No. 613 of this session.* If in any year the balance in that fund is not sufficient for this purpose, the remainder necessary is hereby appropriated on July 31 from the capital construction fund for higher education. The balance remaining unappropriated in the capital construction fund for higher education on August 1 of each year and all amounts received thereafter during the fiscal year must be transferred to the state general fund for the support of higher education. If bonds described in this subsection are refunded and if the amount required to pay the principal of and interest on the refunding bonds in any fiscal year during the term of the bonds is less than the amount that would have been required in the same fiscal year to pay the principal of and the interest on the original bonds if they had not been refunded, there is appropriated to the University of Nevada an amount sufficient to pay the principal of and interest on the original bonds, as if they had not been refunded. The amount required to pay the principal of and interest on the refunding bonds must be used for that purpose from the amount appropriated, and the amount equal to the saving realized in that

fiscal year from the refunding must be used by the University of Nevada to defray wholly or in part the expenses of operation and maintenance of the facilities acquired in part with the proceeds of the original bonds.

6. After the requirements of subsection 5 for each fiscal year, when specific projects are authorized by the legislature, money in the capital construction fund for higher education and the special capital construction fund for higher education must be transferred by the state controller and the state treasurer to the state public works board for the construction of capital improvement projects for the University of Nevada System, including but not limited to capital improvement projects for the community colleges of the University of Nevada System. As used in this subsection, "construction" includes but is not limited to planning, design, acquiring and developing a site, construction, reconstruction, furnishing, equipping, replacing, repairing, rehabilitating, expanding and remodeling. Any money remaining in either fund at the end of a fiscal year does not revert to the general fund in the state treasury but remains in those funds for authorized expenditure.

7. The money deposited in the state distributive school *account in the state general* fund under this section must be apportioned as provided in NRS 387.030 among the several school districts of the state at the times and in the manner provided by law.

8. The board of regents of the University of Nevada may use any money in the capital construction fund for higher education and the special capital construction fund for higher education for the payment of interest and amortization of principal on bonds and other securities, whether issued before, on or after July 1, 1979, to defray in whole or in part the costs of any capital project authorized by the legislature.".

I've got to bid farewell to a young gentleman who has been here working with us all session. He was my legislative intern last session and this year he has served us well as our Sergeant-at-Arms. Notwithstanding the fact that he got married a few weeks ago, he is still surviving the session. He looks pretty good.

I promised him we'd be done by June 15th. We didn't quite make it, but he ordered his airplane tickets for Hawaii for June 16th and I don't think Robert can afford at this stage to buy new tickets because he will lose them tomorrow if he doesn't get on the plane. He would also have a short marriage if he doesn't get on the plane tomorrow.

I just wanted to wish him a happy honeymoon in Hawaii. Secondly, I want to thank him for the excellent job. He has been an excellent Sergeant-at-Arms. He's done a tremendous job for everyone of us in the House. I think he has acted in a responsible manner and I think he has been a credit to our House in managing our staff. Let's give Bob a great farewell and a thank you for doing a fine job. Have a happy honeymoon over there on the Big Island.

ASSEMBLYMAN NEVIN:

Mr. Speaker, could we make sure that Bob sends Mr. Sader a post card from Hawaii?

ASSEMBLYMAN SADER:

I certainly want to wish Bob a happy and joyous vacation in Hawaii.

ASSEMBLYMAN PRICE:

Thank you. I would just like to add my thanks to Bob. Over the years I would say he has certainly been one of the most efficient, pleasant gentlemen to work with and he and his staff have done wonderful. Thank you very much.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Earlier this session when he was wed, on behalf of the Young Punk Lawyers Division of the Brat Pack, I presented Robert with a special gift. It was a gift certificate for one free divorce. I just wanted to remind him that it expires at the end of this year.

ASSEMBLYMAN SEDWAY:

Mr. Speaker, I don't know how long Robert's honeymoon is for, but if we don't hurry up, we're likely to be here when he gets back.

MR. SPEAKER:

We do have something else for Robert, but it's enroute from Yerington to Carson and it did not arrive. Somehow it got routed through Reno and then my wife went to get a new compressor. You know the outages you have here, the power up and down, well it costs you a lot of compressors when you are in my business. That was a priority today. But it will keep until he gets back.

Assemblyman Jeffrey moved that the Assembly adjourn until Tuesday, June 16, 1987 at 10 a.m.

Motion carried.

Assembly adjourned at 5:31 p.m.

Heavenly Father, guide us as we undertake our tasks on this beautiful day of June. We legislators bear an awesome responsibility to represent the people of our state to the best of our ability. Help us to approach our duties with honesty, sincerity and humility, recognizing that our diverse talents come from You and are not of our own creation. Help us to understand our roles—that we are servants of the citizens of Nevada. All these things we ask through You. AMEN.

The director shall include in the penalty any amounts by which the hospital failed to meet its obligation in a preceding year which were not discovered at the time of the failure. Payment is due within 30 days after receipt of the notice. If a hospital fails to pay the penalty when it is due the hospital shall pay, in addition to the penalty:

(a) Interest at a rate of 1 percent per month for each month after the penalty is due in which it remains unpaid; and

(b) Any court costs and fees required by the director to obtain payment of the penalty and interest from the hospital.

8. The legislature has determined that the requirements of subsection 1 would result in the following reductions in net revenue if the amount of care provided in the fiscal year 1987-1988 were the same as was provided in the calendar year 1986:

Humana Hospital Sunrise	$9,878,425
Valley Hospital Medical Center	5,103,931
Desert Springs Hospital	3,494,151

If the difference between a hospital's net revenue for the fiscal year 1987-1988 or 1988-1989 and the amount its net revenue would have been based upon its net revenue per inpatient admission in the fiscal year 1986-1987 exceeds the amount specified in this subsection, reduced by any credit

approved pursuant to subsection 12, the hospital is exempt from any penalty which would otherwise be imposed pursuant to subsection 7. A hospital which increases its billed charges based upon a determination that the provisions of this subsection will exempt the hospital from any penalty for such action shall notify the director in writing of the increase and submit documentation in support of the hospital's determination. The director shall determine the amount by which a hospital's reduction in net revenue for the fiscal years 1987-1988 and 1988-1989 exceeded the amounts specified in this subsection, after deducting any applicable credit, and shall authorize the hospital to increase its net revenue per inpatient admission by an amount which is sufficient to allow the recovery of the excess in the fiscal year 1988-1989 or 1989-1990, as appropriate. The hospital may increase its billed charges in the fiscal years 1988-1989 and 1989-1990 by 1 percent for each percent that it is authorized to increase its net revenue per inpatient admission pursuant to this subsection for that fiscal year. Any increase authorized pursuant to this subsection is in addition to the increases authorized pursuant to subsections 5 and 6.

9. One-half of the money collected pursuant to this section must be deposited in the legislative fund and used for the support of the legislative committee on health care. The other half of the money must be deposited in the supplemental fund for assistance to indigent persons. The board of trustees of the fund for hospital care to indigent persons shall distribute to each county before May 1 from money deposited in the supplemental fund pursuant to this subsection an amount proportionate to the amount paid into the supplemental fund by the county in the previous fiscal year.

10. The division shall, on or before July 1, 1987:

(a) Determine the percentage of income to operating expenses for the calendar year 1986 for each hospital in this state based upon reports submitted by the hospitals to the division;

(b) Determine whether that percentage exceeds the amount specified in subsection 1, 2 or 3; and

(c) Notify each hospital which will be required to comply with the provisions of subsection 1, 2 or 3 and of subsection 6. Each hospital so notified, except a hospital which is subject to the provisions of subsection 3, shall within 30 days provide to the director a copy of its list of billed charges in effect on March 31, 1987.

The division shall make such other determinations as are necessary to carry out the provisions of this section.

11. The provisions of subsections 1, 2, 3 and 4 do not require a hospital to reduce the amount it receives pursuant to a contract in effect on the effective date of this section.

12. A hospital which is required pursuant to subsection 1, 2 or 4 to reduce or limit its net revenue per inpatient admission in a fiscal year is entitled to a credit against its net revenue used to compute its revenue per inpatient admission of $2 for each $1 spent by the hospital in the preceding calendar year to increase its ratio of nursing hours to patient days. The credit authorized pursuant to this subsection must not exceed 5.5 percent of the

amount by which the net revenue of the hospital would otherwise be required to be reduced in the fiscal year 1987-1988. The credit applies only to nurses licensed pursuant to chapter 632 of NRS. To receive the credit, a hospital must:

(a) Increase its percentage of nurses who work at least 40 hours per week above the percentage for the preceding calendar year;

(b) Increase its ratio of nursing hours to patient days above the ratio for the calendar year 1986;

(c) Maintain its level of expenditures for medical education in Nevada at the level provided in the calendar year 1986, including education of allied health students, education of students in medical school, postgraduate residency programs and continuing medical education for the hospital's staff; and

(d) Submit to the director on or before January 31 of the fiscal year in which the credit is claimed evidence of compliance with the requirements of paragraphs (a), (b) and (c).

The director may disallow all or any portion of the claimed credit which he determines is not supported by the evidence. The decision of the director is a final decision for the purpose of judicial review.

13. The director may adopt such regulations as he deems necessary to carry out the provisions of this section.

14. As used in this section:

(a) "Director" means the director of the department of human resources.

(b) "Division" means the division for review of health resources and costs of the department of human resources.

(c) "Fiscal year" means a period beginning on July 1 and ending on June 30 of the following year.

(d) "Income" means all revenues earned from the care of inpatients, as determined by the division from reports submitted to the division by a hospital, minus operating expenses, before the payment of income taxes.

(e) "Net revenue per inpatient admission" means all revenues earned from medical care provided to inpatients by a hospital, excluding income from inpatients covered by Medicare or Medicaid, divided by the number of inpatients admitted, excluding inpatients covered by Medicare or Medicaid.

(f) "Operating expenses" means expenses of operation of a hospital which the division determines to be an allowable operating expense including:

(1) All operating expenses allowed by the Health Care Financing Administration for hospitals which receive payments for Medicare;

(2) Expenses for capital expenditures approved pursuant to NRS 439A.100; and

(3) Other operating expenses which the division determines to be directly related to the provision of care to inpatients.

(g) "Percentage of income to operating expenses" means income divided by operating expenses and then multiplied by 100.

Sec. 8. Section 49 of Assembly Bill No. 289 of this session is hereby repealed.

Sec. 9. 1. This section and sections 2 to 8, inclusive, of this act, become effective upon passage and approval.

2. Section 1 of this act becomes effective at 12:01 a.m. on July 1, 1987.".

ASSEMBLYMAN SEDWAY:

Thank you, Mr. Speaker. Assembly Bill No. 893 is the general appropriations act for the State of Nevada for the coming biennium. This will be addressed by several members of the Ways and Means Committee.

The general appropriations act is the result of session-long deliberations by Assembly Ways and Means Committee and the Senate Finance Committee. A number of items are not included within the appropriations act and have been reviewed previously today. These issues include salary increases for public employees and the school funding bill.

The salary bill is recommended to provide funding for a 3 percent salary increase effective July 1, 1987, for all employee groups. In addition, the salary bill will contain a provision to allow salaries to be triggered up to 3 percent based on the unappropriated general fund balance on July 1, 1988.

The 1987-89 budget is balanced based on increased revenues generated from mining industry, slot route operators and additional cigarette and liquor taxes.

The money committee recommendations on the operating budgets including aid to schools call for a general fund appropriation of practically $1.2 billion for the 1987-89 biennium. Coupled with the general authorization act, total funding of $3 billion in spending is recommended over the next two years.

The Assembly Ways and Means Committee has spent the last five months reviewing the executive budget which has contained over 1,300 pages and recommended funding for over 400 programs.

Let me briefly go over some of the actions taken by the Ways and Means Committee which are reflected in the appropriations act.

Education: K through 12—appropriations to go to the distributive school fund are made in Assembly Bill No. 892. The basic support guarantee, including proposed salary increases, provides for a 6.9 percent increase per pupil in fiscal year 1988, and a 2.1 percent increase in fiscal year 1989. Special education funding is recommended to increase by 13.5 percent compared to the funding provided in the current biennium.

In the area of higher education, the Assembly Ways and Means Committee is recommending that the number of full-time faculty at the Community College be increased in each year of the coming biennium. Currently, approximately 50 percent of the faculty at the Community Colleges are full-time, with the remaining faculty hired on a part-time basis. It is recommended that the number of full-time faculty be increased at 56 percent in fiscal year 1988, and 57 percent in fiscal year 1989. In addition, the number of classified staff utilized to support faculty positions at the Community Colleges is recommended to increase to one classified position for every 5.5 faculty in fiscal year 1988 and enhance to one classified position for every 5 faculty in 1989.

At UNR and UNLV, the graduate assist level was increased from $5,600 to $8,000 per year and a total of 24 new graduate student positions are recommended. Funding is also recommended for the University's highest priority following salary increases. The interim committee which studied the funding of higher education recommended that additional funds be provided for support positions, which include all non-instructional areas of the University's budget. These positions include librarians, counselors, policemen and admission personnel as well as numerous other positions on each campus. The Assembly Ways and Means Committee has recommended that $790,000 in fiscal year 1988 and $1.1 million in fiscal year 1989 be provided to increase the number of support personnel system-wide.

Mr. Speaker, with your indulgence, I would like to have Miss Jan Evans address the welfare division's budget.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. In reviewing the budgets of the welfare division, the Assembly Ways and Means Committee discussed at length the payment level for Aid to Dependent Children. The current average monthly grant for a mother and two children is $285. The average grant is recommended to increase to $330 per month for those families who do not live in subsidized housing and $300 per month for families who live in subsidized housing.

In the Aged and Blind program, the monthly client allowance for persons living in adult group care facilities is recommended to increase from $35 a month to $55 a month. It is also recommended that the state and the counties swap responsibilities for mental health and child protective services. Initial commitment of the mentally ill is currently a county responsibility, but is recommended to be transferred to the state with the counties assuming responsibility for all child protective service programs. The swap will help provide more efficient and effective services to recipients of these programs.

ASSEMBLYMAN SEDWAY:

Mr. Speaker, may I have Mr. Spinello address the budget on the division of mental health and mental retardation.

ASSEMBLYMAN SPINELLO:

Thank you, Mr. Speaker. In the division of mental hygiene and mental retardation, the Assembly Ways and Means Committee has recommended additional staff in the following areas affecting services to children. Expansion of the pre-school day treatment program for the early childhood intervention program at the Southern Nevada Child and Adolescent Services in Las Vegas, is provided. Additional personnel are recommended to establish a child day treatment program at the Northern Nevada Child and Adolescent Service which will provide partial day care treatment to northern Nevada to help treat patients in an out-patient setting and free up expensive residential care space. The first-step program in Las Vegas is recommended to be expanded. Funding for the Happy Program, which provides early intervention services for young children with handicaps and their families in rural Nevada, is recommended to be contingent with state funding after Federal funding expires in September of 1988.

It is also recommended that the Community Training Center Program receive additional slots plus a rate increase of 5 percent in fiscal 1988 and 1.5 percent in 1989.

ASSEMBLYMAN SEDWAY:

Mr. Speaker, within the Health Division budget, the money committees provided an additional child development specialist for the Reno Special Children's Clinic to provide additional hands-on care at the facility to replace a similar position which was recommended for reclassification to a clinic manager.

At this time, Mr. Speaker, I'd like to have Mr. Arberry address the subject of our prison deliberations.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. The Department of Prisons revised budget recommendations were reduced by the money committees based on revised populations projections as a result of passage by the 1987 legislature of the house arrest program, the mandatory parole release legislation and the meritorious good time legislation. Also, substantial reductions were made in the medical cost areas to more closely align the prison's medical projected costs for the fiscal year 1988 and the fiscal year 1989 with an anticipated actual expense in the fiscal year 1987.

ASSEMBLYMAN SEDWAY:

Mr. Speaker, in summary, these are the recommendations contained in the spending plan embodied in the general appropriations act. These are just a few of the more than 400 budgets that we had reviewed.

The Assembly Ways and Means Committee has reviewed these budgets, the entire legislative session and in addition, broke into various subcommittees which reviewed the major budgets in more detail in an effort to determine the actual funding needs for each of the programs.

I am proud of the work done by all members of the Committee. I believe we met the challenges and lived up to the responsibilities placed on us by those who have elected us. Thank you, Mr. Chairman.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I would like to ask a question to you and through you to the chairman of Ways and Means. Could he explain section 60 on page 16 please.

ASSEMBLYMAN SEDWAY:

To my colleague from Hawthorne.

What section 60 does, it provides the Governor with the authority to request that the Board of Regents set aside unspecified amounts of money to be used for specific purposes with their concurrence.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker, to you and through you, is this a normal practice and could you be a little more specific please.

ASSEMBLYMAN SEDWAY:

Yes, it is. It is normally found in every budget act. It is part of the boilerplate.

ASSEMBLYMAN TRIGGS:

Thank you, Mr. Speaker. To you and through you to the chairman of the Assembly Ways and Means Committee.

Page 9, lines 3 and 4, Community Training Center funding shows a decrease in the second half of the biennium. I believe I heard that there was an increase of one and a half percent.

ASSEMBLYMAN SEDWAY:

It's all set by funds that are received from Title XX in the second year of the biennium.

ASSEMBLYMAN THOMAS:

Thank you, Mr. Chairman. As the immediate past chairman of the interim study on higher education funding, I'm very pleased to see that some of the formulas which we implemented are now being used in University funding. I think this is a giant step in the right direction.

You know, when you're on these interim studies, you never know how it's going to come out. We did a lot of work, had a lot of meetings all over the state, and, of course, we became the minority party this time so the game players all changed. It's nice to see that some of the things that we did rubbed off.

ASSEMBLYMAN BERGEVIN:

Yes, Mr. Speaker, I would like to thank the Ways and Means Committee for a very hard job well done. And I especially appreciate the concise and informative presentation that they have made on this particular bill today. That didn't happen last year and I think every member of this assembly is entitled to the kind of explanation that we received today.

NEVADA LEGISLATURE
SIXTY-FOURTH SESSION

June 16, 1987

MR. SCOTT CRAIGIE, *Chairman,* Public Service Commission, 505 E. King Street, Carson City, Nevada 89710

RE: *A.B. 731*

Dear Mr. Craigie:

The adoption by the Commission of "temporary" General Order No. 5 in January of this year apparently had certain undesired effects as expressed by a number of passenger motor carriers and brokers, and members of this body.

First, some carriers were ordered not to provide services to the public of the nature they had previously performed, such services having been performed with the knowledge and real or implied approval of prior commissions. These changes obviously impede the free flow of visitors to the State's tourist attractions.

Second, the new regulations concerning brokers will possibly deter out-of-state passenger brokers from directing tourists to Nevada.

The legislature, in approving A.B. 731, believes that this bill, coupled with regulatory action on your part, can serve to eliminate the previously referred to problems.

It is our understanding that the commission will re-open General Order No. 5 to accommodate changes necessitated by A.B. 731, and furthermore modify General Order No. 5 to:

(a) eliminate the provisions relative to the registration and supervision of brokers;

(b) permit passenger motor carriers to perform the services they have individually been providing with the apparent approval of the commission, but without expanding the operating authority of any passenger motor carrier; and

(c) make clear that the mere presence of a host or hostess on a bus will not constitute "sightseeing" or "scenic tour" activity, absent the actual conducting of a "lectured tour."

We would anticipate that final action on these matters can be completed by January 1, 1988, and that enforcement of the regulations in question will, in the interim, be performed so as to conform to the legislature's intent herein described.

We would further expect that appropriate communication will be forthcoming from you to the members of the Assembly Transportation Committee, Senate Transportation and Commerce and Labor Committees and the Legislative Commission.

Sincerely yours,

LEONARD V. NEVIN, *Chairman,* Assembly Transportation Committee
JAMES J. BANNER, *Vice Chairman*
JAN EVANS, *Member*
ROBERT W. FAY, *Member*
VAL Z. GARNER, *Member*
PAUL W. MAY, JR., *Member*
JOHN DUBOIS, *Member*
BOB L. KERNS, *Member*

SECOND READING AND AMENDMENT

Senate Bill No. 73.

Bill read second time.

The following amendment was proposed by the Committee on Transportation:

Amendment No. 1679.

Amend the bill as a whole by adding a new section designated sec. 3.5, following sec. 3, to read as follows:

"Sec. 3.5. NRS 484.743 is hereby amended to read as follows:

484.743 1. The [board of directors] *director* of the department of transportation may [by resolution] authorize the movement of vehicles upon the public highways, including without limitation motor vehicles, tractors, trailers, semitrailers and combinations thereof, of a size and weight in excess of the limits prescribed by this chapter, to such extent as may be authorized by any legislation enacted by the Congress of the United States permitting such increases without forfeiture of this state's eligibility for federal aid in highway construction and maintenance.

2. The [board of directors] *director* of the department of transportation may by [resolution] *regulation* establish a reasonable fee or fees to be charged by the department for the issuance of permits authorizing the operation of oversize or overweight vehicles as provided in this chapter. The

fee or fees so established must be in an amount set so that the aggregate amounts received from the fee or fees do not exceed the estimated costs of administering the permit system.".

Amend the bill as a whole by adding new sections designated sections 9.5 and 9.7, following sec. 9, to read as follows:

"Sec. 9.5. NRS 408.020 is hereby amended to read as follows:

408.020 As used in this chapter the words and terms defined in NRS [408.035] *408.037* to 408.095, inclusive, unless the context otherwise requires, have the meanings ascribed to them in those sections.

Sec. 9.7 NRS 408.100 is hereby amended to read as follows:

408.100 Recognizing that safe and efficient highway transportation is a matter of important interest to all the people of the state, and that an adequate highway system is a vital part of the national defense, the legislature hereby determines and declares that:

1. An integrated system of state highways and roads is essential to the general welfare of the state.

2. Providing such a system of facilities, its efficient management, maintenance and control is recognized as a problem and as the proper prospective of highway legislation.

3. Inadequate highways and roads obstruct the free flow of traffic, resulting in undue cost of motor vehicle operation, endangering the health and safety of the citizens of the state, depreciating property values, and impeding general economic and social progress of the state.

4. In designating the highways and roads of the state as provided in this chapter, the legislature places a high degree of trust in the hands of those officials whose duty it is, within the limits of available funds, to plan, develop, operate, maintain, control and protect the highways and roads facilities of this state, for present as well as for future use.

5. To this end, it is the express intent of the legislature to make the [board of directors] *director* of the department of transportation custodian of the state highways and roads and to provide sufficiently broad authority to enable the [board] *director* to function adequately and efficiently in all areas of appropriate jurisdiction, subject to the limitations of the constitution and the legislative mandate proposed in this chapter.

6. The legislature intends:

(a) To declare, in general terms, the powers and duties of the [board of directors,] *director,* leaving specific details to be determined by reasonable regulations and declarations of policy which the [board] *director* may promulgate.

(b) By general grant of authority to the [board of directors,] *director* to delegate sufficient power and authority to enable [the board] *him* to carry out the broad objectives contained in this chapter.

7. The problem of establishing and maintaining adequate highways and roads, eliminating congestion, reducing accident frequency and taking all necessary steps to insure safe and convenient transportation on these public ways is no less urgent.

8. The legislature hereby finds, determines and declares that this chapter is necessary for the preservation of the public safety, the promotion of the general welfare, the improvement and development of transportation facilities in the state, and other related purposes necessarily included therein, and as a contribution to the system of national defense.

9. The words "construction," "maintenance" and "administration" used in section 5 of Article 9 of the constitution of the State of Nevada are broad enough to be construed to include and as contemplating the construction, maintenance and administration of the state highways and roads as established by this chapter and the landscaping, roadside improvements and planning surveys of the state highways and roads.".

Amend sec. 10, pages 6 and 7, by deleting lines 19 through 42 on page 6 and lines 1 through 11 on page 7 and inserting:

3. All legal actions in all courts brought under the provisions of this chapter to enforce the right of eminent domain shall take precedence over all other causes and actions not involving the public interest, to the end that all such actions, hearings and trials thereon shall be quickly heard and determined.

Sec. 33. NRS 408.507 is hereby amended to read as follows:

408.507 1. Real property held in fee or improvements on the property acquired by the department in advance of the actual construction, reconstruction or improvement of highways or in order to avoid the payment of excessive damages, or held by the department pending a determination in the future on its use or disposal may be leased or rented by the department for fair market value in such manner and for such periods as are determined by the director to be in the best interests of the state.

2. The director may lease for fair market value space above and below the established grade line of the highway to state and public agencies and private persons in such manner and for such periods as he determines are in the best interest of the state, if:

(a) The full use and safety of the highway will not be impaired;

(b) Vehicular or pedestrian access to that space will not be required or permitted from the established grade line; and

(c) The free flow of traffic on the highway is not interfered with in any way.

3. All leases of an interest in real property entered into by the department before April 1, 1985, are hereby ratified. All other leases entered into pursuant to subsection 2 must be approved by the [board] *director* subject to the provisions of subsection 4.

4. If the department receives a proposal to negotiate a lease pursuant to subsection 2, it shall publish a notice in a newspaper of general circulation at least once a week for 2 weeks, stating that it has received the proposal and that it will receive other proposals for use of the space for 60 days after the completion of the publication. A copy of the notice must be mailed to each local governmental unit in the affected area. If the property is leased, it must be to the highest bidder for the space. The requirements for publication and notice do not apply if the proposal was received from an owner who controls the property on both sides of the highway.

5. All money received for leases and rentals must be deposited with the state treasurer to be credited to the state highway fund.

Sec. 4. NRS 408.523 is hereby amended to read as follows:

408.523 1. The [board] *director* may retain or may summarily vacate and abandon any portion of a state highway if that portion has been superseded by relocation or has been determined to be in excess of the needs of the department.

2. The [board] *director* shall act to abandon any easement, or to vacate any highway, by [resolution.] *written notice.* A certified copy of the [resolution] *notice* may be recorded without acknowledgment, certificate of acknowledgment, or further proof, in the office of the county recorder of each county wherein any portion of the easement to be abandoned, or the highway to be vacated, lies. No fee may be charged for such recordation. Upon recordation, the abandonment or vacation is complete.

3. When a highway for which the state holds only an easement is abandoned, or when any other easement is abandoned, the property previously subject thereto is free from the public easement for highway purposes. Where the state owns in fee the property on which the vacated highway was located, the department shall dispose of that property as provided in NRS 408.533.

4. In any proceeding for the abandonment or vacation of any state highway or part thereof, the [board] *director* may reserve and except therefrom any easements, rights or interests in the highway deemed desirable and in the best interests of the state.

Sec. 35. NRS 408.527 is hereby amended to read as follows:

408.527 1. Whenever the department and the county or city concerned have entered into an agreement providing therefor, and the legislative body of the county or city has adopted a resolution consenting thereto, the [board] *department* may relinquish to the county or city any portion of any state highway which has been deleted from the state highway system by legislative enactment. The department may likewise relinquish any portion of any

state highway which has been superseded by relocation or which the department determines exceeds its needs.

2. [By resolution of the board, the] *The* department may upon request relinquish to the division of state lands of the state department of conservation and natural resources for the public use of another state agency any portion of any state highway which has been superseded by relocation or which the department determines exceeds its needs.

3. Relinquishment must be made by [a resolution.] *written notice.* A certified copy of the [resolution] *notice* must be filed with the legislative body of the county or city concerned. The [resolution] *notice* must be recorded in the office of the county recorder of the county where the land is located and, upon recordation, all right, title and interest of the state in and to that portion of any state highway vests in the county, city or division, as the case may be.

4. Nothing in NRS 408.523 limits the power of the [board] *department* to relinquish abandoned or vacated portions of a state highway to a county, city or the division. If the purpose for which it is relinquished is abandoned or ceases to exist, then all right, title and interest of the county, city or division reverts back to the department.

5. The vesting of all right, title and interest of the department in and to portions of any state highways relinquished previously by the department in the city, county or state agency to which it was relinquished is hereby confirmed.

Sec. 36. NRS 408.533 is hereby amended to read as follows:

408.533 1. All real property, interests therein or improvements thereon and personal property acquired before or after April 1, 1957, in accordance with the provisions of NRS 408.487 and 408.489 must, [after approval by the board, and] if no longer needed for highway purposes, be disposed of by the director in accordance with the provisions of this section, except that:

(a) When the property was originally donated to the state, then no charge may be made if it is returned to the original owner or to the holder of the reversionary right.

(b) When the property has been wholly or partially paid for by towns, cities or counties, then disposal of the property and of money received therefor must be agreed upon by the governing bodies of the towns, cities and counties and the department.

(c) When the title to the real property has been acquired in fee under NRS 408.487 and 408.489 and, in the opinion of the [board,] *director,* a sale by means of public auction or sealed bids is uneconomical or impractical because:

(1) There is no access to the property;

(2) The property has value or an increased value only to a single adjoining property owner; or

(3) Such sale would work an undue hardship upon a property owner either as a result of a severance of the property of that owner or a denial of access to a public highway,

the [board] *department* may enter into a direct sale of the property with such an owner or someone else for its fair market value.

(d) When the property has been acquired and the proposed purpose for which it was acquired is later abandoned by the department, the department shall give notice of its intention to dispose of the property by publication in a newspaper of general circulation in the county where the property is situated. The notice must include the department's appraisal of the fair market value of the property. Any person from whom the property was purchased may purchase the property from the department within 60 days after the date of the notice at its fair market value.

(e) When the property is sought by another public agency for a reasonable public use, the department may first offer the property to the public agency at its fair market value.

2. All property, interests or improvements not falling within the provisions of subsection 1 must be sold by the department singly or in combination, to the highest bidder bidding for it either at public auction or by sealed bids, the notice of which and terms of which must be published in a newspaper of general circulation in the county where the property is situated. Those auctions and openings of bids must be conducted by the department.

3. It is conclusively presumed in favor of any purchaser for value and without notice of any such real property, interest therein or improvement thereon conveyed pursuant to this chapter that the department acted within its lawful authority in acquiring and disposing of the property, and that the director acted within his lawful authority in executing any conveyance vesting title in the purchaser. All such conveyances must be quitclaim in nature and the department shall not warrant title, furnish title insurance or pay the tax on transfer of real property.

4. All sums of money received by the department for the sale of real and personal property must be deposited with the state treasurer to be credited to the state highway fund, unless the Federal Highway Administration participated in acquisition of the property, in which case a pro rata share of the money obtained by disposal of the property must be paid to the Federal Highway Administration.

5. The department may reserve and except easements, rights or interests from the conveyance of any real property disposed of in accordance with this section or exchanged pursuant to subsection 5 of NRS 408.489. Those easements, rights or interests include, but are not limited to:

(a) Abutter's rights of light, view or air.

(b) Easements of access to and from abutting land.

(c) Covenants prohibiting the use of signs, structures or devices advertising activities not conducted, services not rendered or goods not produced or available on the real property.

Sec. 37. NRS 408.537 is hereby amended to read as follows:

408.537 1. Upon receipt of an application for consent to close a public

road on public land, the department shall give written notice of the application to the planning agencies of the local governments, within 1 week after its receipt of the application.

2. Each planning agency so notified shall within 45 days after the notice is sent hold a public hearing on the application at the place where it normally meets. If the road is located within the jurisdiction of two or more planning agencies, each of those agencies must hold a hearing.

3. Each planning agency shall notify the public and every person known to have a vested private right of way over the road for the purpose of grazing, mining or any other purpose for which such a private right vests, by publication in one issue of a newspaper of general circulation published in each of the counties in which the land is located and by mailing to the last known address of each private user of the road. The notice must be published at least 20 days before the date set for the hearing and set forth the location of the road and the purpose for closing it as stated in the application. The cost of publishing the notice must be borne by the United States or by someone in its behalf.

4. The planning agency shall deliver its written recommendation on the application, including the reasons for its recommendation, to the department within 15 days after the conclusion of its hearing on the application.

5. The application must contain such information and supporting documents as are prescribed in regulations adopted by the department . [with the approval of the board.]

Sec. 38. NRS 408.543 is hereby amended to read as follows:

408.543 [1.] The department shall hold a hearing on an application to close a public road on public land within 45 days after it receives the written recommendation from the planning agency. The department shall give notice of its hearing as required by law. At its hearing the department shall receive any testimony pertaining to any use of the road which is not repetitive and shall consider the written recommendation of the planning agency.

[2. The department shall deliver its written recommendation on the application, including the reasons for its recommendation, to the board within 15 days after the conclusion of its hearing on the application.]

Sec. 39. NRS 408.547 is hereby amended to read as follows:

408.547 1. The [board] *director* in deciding whether to grant or deny the consent of the state to close a public road on public land shall:

(a) Balance the interests of the Federal Government and the state; and

(b) Not apply standards or impose conditions respecting the closure of a public road which are more restrictive than those generally applicable to other persons or governmental agencies in this state.

2. In granting the consent of the state the [board] *director* shall not grant or waive any right, privilege, immunity or other incident of sovereignty provided for in NRS 328.085, except subsection 3 of that section.

3. Consent to such a closure or the extinguishing of a public use does not constitute consent to extinguish a private use, and the state's consent is contingent on compensation by the Federal Government for the loss of a vested private right of way.

4. [Any recommendation of the department which is not acted on by the board within 30 days after it receives the application and which is not in conflict with the requirements of this section is automatically approved unless the board in a writing which is attached to the application and recommendations defers the decision for a good cause.

5.] The consent of the [board] *director* to close a public road on public land must be evidenced by a certificate signed by the [chairman of the board and attested to by its secretary,] *director,* and delivered to the United States.".

REMARKS FROM THE FLOOR

Assemblyman Schofield requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MAY:

Mr. Speaker, I feel it incumbent upon me to bring to the attention of this body a situation developed only this afternoon and one which I feel I, as a member of this body,

have been deliberately misrepresented by a state employee. Furthermore, having asked for an apology of the state and not received it, I have reduced this to writing and I intend to address this correspondence to the Attorney General of the state with a copy to the Governor. With your permission, I'll read it; I think it details not only my feelings, but a synopsis of the happenings.

The letter is addressed to the Attorney General:

NEVADA LEGISLATURE
SIXTY-FOURTH SESSION

June 17, 1987

THE HONORABLE BRIAN MCKAY, *Attorney General,* 198 South Carson Street, Carson City, Nevada 89710

Dear Mr. McKay:

Please accept this correspondence with the highest degree of criticism I can muster with regard to one of your Deputy Attorney Generals, Mr. Harry Swainston.

The events that cause this attitude and displeasure with the above mentioned individual are as follows. On June 17, 1987 at approximately 3:00 p.m., while sitting in session on the floor of the Assembly, Senator Redelsperger entered the Assembly chamber with Swainston in tow. Senator Redelsperger came to discuss A.B. 756 (Bullfrog County Bill) and an alternative S.B. 595 developed by himself and his committee. During the discussion, Mr. Swainston interjected into the conversation "The Governor's Office kinda likes S.B. 595 the better of the two." He did not say the Governor's Office of Nuclear Projects. He did not say the Governor's appointee. He said the "Governor's Office." To me that means one person, our Governor, the Honorable Richard Bryan.

I called the Governor to verify. His reply was "Paul, I have not seen or talked to Harry Swainston in two years."

I confronted Swainston with the Governor's remarks. I *demanded* an apology. I did not receive one! I *demanded* that Swainston attend a soon-to-be-called Clark County delegation meeting on the Senate side of the Legislative Building. Swainston promised he would attend. He did not.

Later in the day your Chief Deputy, Mr. Bill Isaeff, was in the Assembly. I discussed the sitution as outlined with him. I told Mr. Isaeff I would like an apology from Swainston. I have not received one and now I appeal to you, as Attorney General of the State of Nevada, for a written apology from Swainston *plus* some type of censure for what I consider his absolute reprehensible behavior and outright misrepresentation of fact.

Sincerely,

PAUL W. MAY
Assemblyman

I realize, Mr. Speaker, tomorrow I'll be just another citizen, but at this moment I have the pleasure of standing on this floor and to indicate to the members of this body the facts I have read to you are exactly as they have happened. I feel I have personally been lied to by this state employee. The facts will be submitted to the Attorney General with a copy to the Governor. Thank you for listening.

MR. SPEAKER:

Thank you, Mr. May. Any other action you may want to take, we'd sure think you'd have the support of this house.

Assemblyman Jeffrey requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MAY:

Mr. Speaker, to follow-up to some remarks I made earlier this afternoon, I have received a communication and I would like the permission of the Chair to read to this body—a response from the office of the Attorney General. Thank you Mr. Speaker.

STATE OF NEVADA
OFFICE OF THE ATTORNEY GENERAL
CAPITOL COMPLEX, CARSON CITY, NEVADA 89710

June 17, 1987

THE HONORABLE PAUL MAY, *Nevada State Assemblyman*, Nevada State Legislature, Carson City, Nevada 89710

Dear Assemblyman May:

As a follow-up to our conversation this afternoon concerning Bull Frog County and related legislation, it is now apparent to me that the information I conveyed to you from Robert Loux, director of the Nuclear Waste Project Office, was not as clear as it should have been regarding the position of the administration on these bills.

I was only reporting to you what I understood Mr. Loux's comments to be concerning his position and that of the Governor on these bills. Let me assure you that it was never my intention to mislead or deceive you concerning these critical matters. I had no reason at the time to doubt the accuracy of the information I imparted to you, in fact it was for that reason I suggested you call the Governor for confirmation.

(But by the time he made that suggestion, I had just hung up the phone from talking to the Governor. Returning to the letter, . . .)

I am very sorry for any miscommunication which may have occurred between us.

As for the meeting you requested I attend, I did not understand the meeting to be ongoing at that time. I believed I was to be notified later of an exact time and place for the meeting. I had every intention of attending and providing whatever counsel I could.

Again, I know how much this legislation means to you, and I certainly had no intention of causing you great consternation in the Legislature's closing hours.

Sincerely,

HARRY SWAINSTON
Deputy Attorney General
Nuclear Waste Project Office

I would like to further clarify that I will accept that, Mr. Speaker, as full satisfaction and would further like to indicate any remarks I may have had or any animosity I may have had was directed not to the office of the Attorney General as a division of state government, but just to one individual and to one individual only.

At this point, Mr. Speaker, thank you for your support and members of the House, thank you for your support. I am satisfied.

ASSEMBLYMAN SEDWAY:

Thank you, Mr. Speaker. After the dialogue on the floor this afternoon, I requested from the bill drafter, a trailer bill to Assembly Bill No. 891, which is the unclassified salary bill for the biennium. On page 4 of that bill, we have deleted the position of Deputy Attorney General for Nuclear Waste Project Office, which is the position that Mr. Swainston holds. It was my intention to introduce that bill this evening. Mr. Swainston, to the best of my knowledge and from the information I have gleaned during the time since my colleague, the chairman of the taxation committee made his comments this afternoon, indicate to me that Mr. Swainston has acted in a manner not—not—in the best interests of the State of Nevada in the many years that he has held office with the Attorney General. He has forced the director of the department of resources, Mr. Westergard, and Mr. Pete Morros, the State Engineer, to secure private counsel to defend themselves from the actions of Mr. Swainston.

Bowing to my colleague, the charitable chairman of the taxation committee, I will not introduce this bill. But I want state employees who act in a manner which is offensive to members of this legislature to be on notice that in the future if they insult anyone as they have my colleague, the chairman of taxation committee, then we will act in a manner swift and sure to see that this never, ever happens again.

Assemblyman Price requested that his remarks be entered in the Journal.

Constitutional Moments—Week of June 14, 1787
Activities of the Constitutional Convention in Philadelphia

June 14—Mr. Paterson observed to the Convention that it was the wish of several deputations, particularly that of New Jersey, that further time might be allowed them to contemplate the plan reported from the committee of the whole, and to digest one purely Federal and contradistinguished from the reported plan. He said they hoped to have such a one ready by tomorrow to be laid before the Convention. The Convention adjourned that leisure might be given for the purpose.

June 15—Mr. Paterson, pursuant to his intentions as mentioned yesterday, read a set of resolves as the basis of amendment to the Confederation. He observed that no government could be energetic on paper only, which was no more than straw. Mr. Madison moved for the report of the committee, and the question may then come on whether the Convention will postpone it in order to take into consideration the system now offered. Colonel Hamilton cannot say he is in sentiment with either plan, thereupon it was agreed that the report be postponed, and that the house will resolve itself into a committee of the whole to take into consideration both propositions tomorrow.

June 16—The Convention resolved itself into a committee of the whole on the Virginia and New Jersey plans. John Lansing (N.Y.) called for reading the first resolution of each plan—that of New Jersey sustains state sovereignty, that of Virginia destroys it. He gave several reasons for preferring the New Jersey plan. So did William Paterson (N.J.). Both stressed that the New Jersey plan was compatible with the delegate's instructions and with the wishes of the people. James Wilson (Pa.) responded with a point by point comparison of the two plans, and arguments in favor of that of Virginia. Chas. Pinckney (S.C.) cynically but presciently observed that "the whole comes to this: give New Jersey an equal vote, and she will dismiss her scruples, and concur in the national system." The debate, which would take up the rest of June had begun.

June 17—The Convention was in recess today after its third full week of meetings, in which time it had completed committee review of a plan of government.

June 18—On a motion from John Dickinson (Del.), the committee of the whole agreed that the Articles of Confederation should be so amended "as to render the government of the United States adequate to the exigencies, the preservation and the prosperity of the Union." Alexander Hamilton then rose and began a speech which lasted the rest of the day. He didn't like either plan, "being fully convinced, that no amendment to the Confederation leaving the states in possession of their sovereignty could possibly answer the purpose." He proceeded at length to compare the Virginia and New Jersey plans against what he viewed as the essentials of a sound government, and then proposed a plan of his own. A bicameral legislature with power to pass all laws—a House elected by the people for a term of three years, a Senate to be elected by electors from electoral districts to serve for life, a governor to be chosen by the people voting in electoral districts to serve during good behavior and state governors to be appointed by the Federal government.

June 19—The Convention resolved itself into a committee of the whole, Nathaniel Gorham (Mass.) in the chair. The New Jersey plan came again to the floor. James Madison (Va.) then spoke at length, pointing out that the New Jersey plan wouldn't prevent treaty violations by the states, encroachments on the Federal authority, or conflicts between states. Moreover, it wouldn't secure the internal tranquility of the states, good internal legislation for any particular state, nor protect the Union against the influence of foreign powers over its members. It would, however, saddle the small states with the expense of their congressional delegation and make them the objects of the coercive power of the Union. Madison warned that if no plan was approved and the Union dissolved, the small states would be at the power of their larger neighbors. A motion to postpone the first proposition of the New Jersey plan carried. A motion to use and re-report the Virginia plan carried and the committee rose. The small states had lost again.

June 20—The Convention took up a resolution "that a national government ought to be established, consisting of a supreme legislative, executive and judiciary. Oliver Ellsworth (Conn.) and Nathaniel Gorham (Mass.) moved to change "national government" to government of the United States." Ellsworth didn't want to abrogate the Confederation, and he wanted the new plan to be ratified under it. This passed without controversy. A

second resolution that the legislature of the United States have two branches was taken up, but John Lansing (N.Y.) moved instead that the powers of legislation be vested in the United States in Congress. He contended that neither the powers given the Convention nor public opinion supported abandoning the Confederation. George Mason (Va.) ridiculed Lansing's motion, Luther Martin and Roger Sherman supported it and it lost, six opposed, four for and Maryland divided.
