## COMMUNICATIONS

June 7, 1991

TO THE HONORABLE MEMBERS OF THE NEVADA LEGISLATURE, Carson City, Nevada 89710

No one could have felt more surprised, touched and pleased than I did on opening that big box yesterday containing the framed Resolution 93 with such kind, thoughtful words honoring my husband, Graham Erskine. What a wonderful tribute and how it would have pleased him! He loved living in Nevada, was always concerned about his fellow citizens, and was proud of your building and its function. Your recognition has a special meaning for us.

In his name and for his family, his friends and myself, I send heartfelt thanks to each one of you. I feel very lucky.

Sincerely,

JEANNE ERSKINE

## SECOND READING AND AMENDMENT

Assembly Bill No. 673.

Bill read second time.

The following amendment was proposed by the Committee on Taxation:

Amendment No. 1185.

Amend the bill as a whole by deleting sections 1 and 2 and adding new sections designated sections 1 through 5, following the enacting clause, to read as follows:

"Section 1. Chapter 244 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 to 5, inclusive, of this act.

Sec. 2. *As used in sections 2 to 5, inclusive, of this act, "criminal gang" means any combination of persons, organized formally or informally, so constructed that the organization will continue its operation even if individual members enter or leave the organization, which:*

*1. Has a common name or identifying symbol;*

*2. Has particular conduct, status and customs indicative of it; and*

*3. Has as one of its common activities engaging in criminal activity punishable as a felony, other than the conduct which constitutes the primary offense.*

Sec. 3. *1. Except as otherwise provided in subsection 6, the board of county commissioners of each county whose population is 400,000 or more shall levy a tax for the prevention and suppression of criminal gang activities. The board of county commissioners of a county whose population is less than 400,000 may levy such a tax.*

*2. The rate of the tax imposed pursuant to subsection 1 must not exceed, in the fiscal year 1991-92, 3 cents on each $100 of assessed valuation of taxable property within the county. In any fiscal year after the fiscal year 1991-92, the maximum allowable rate is the rate that would generate an amount of revenue that represents the same percentage of increase over the amount generated by a tax at the rate of 3 cents in the fiscal year 1991-92 as the percentage increase in the county's allowable revenue from taxes as*

*valorem for the fiscal year in which the tax is imposed represents over the county's allowable revenue from taxes as valorem for the fiscal year 1991-92.*

*3. The tax collected pursuant to subsection 1 and any interest earned from the investment of the proceeds of the tax:*

*(a) Must be accounted for separately in the county general fund; and*

*(b) Must be used to fund a task force in the office of the county sheriff or the sheriff of the metropolitan police department for the prevention and suppression of criminal gang activity and for the prosecution of crimes alleged to have been committed by members of criminal gangs. The money must not be used for any other purposes.*

*4. A tax levied pursuant to this section and its proceeds must be excluded in computing the maximum amount of money which the county is allowed to receive from taxes ad valorem. Notwithstanding the provisions of NRS 279.676, no portion of the taxes imposed pursuant to this section may be distributed to a redevelopment agency.*

*5. A county in which a tax is levied pursuant to this section must not reduce the amount spent from other sources for the prevention and suppression of criminal gang activities below the amount spent for that purpose in the 1990-1991 fiscal year.*

*6. If a tax is imposed in a county pursuant to this section, the question of continuing the imposition of the tax must be submitted to the voters of the county at the second general election following the imposition of the tax. If the voters do not approve continuing the imposition of the tax, the tax must not be imposed after the fiscal year in which the election is held unless subsequently approved by the voters of the county at a general election.*

Sec. 4. *1. In any county in which a tax is levied pursuant to section 3 of this act, the board of county commissioners shall create a board for the prevention and suppression of criminal gang activity to direct the administration of the proceeds of the tax. The board of county commissioners shall provide administrative and clerical support for the board.*

*2. The board for the prevention and suppression of criminal gang activity must consist of:*

*(a) A county commissioner appointed by the board of county commissioners, or his designee.*

*(b) A representative of the governing body of each of the three largest cities in the county or, if the county does not have three cities, from each city in the county, appointed by the governing body of each of the respective cities, or their designees.*

*(c) The county sheriff or the sheriff of the metropolitan police department, or his designee.*

*(d) The district attorney of the county or his designee.*

*(e) Except as otherwise provided in this paragraph, the chief of police of the two largest cities in the county, or their designees. If a metropolitan police department has been formed in the county, the chief of police of the two largest cities that have not merged their law enforcement agencies with the law enforcement agency of the county, or their designees, are members*

*of the board. If there are not two cities in the county that have not merged their law enforcement agencies with the law enforcement agency of the county, the chief of police of the city, if any, that has not so merged its law enforcement agency, or his designee, is a member of the board. If a metropolitan police department has not been formed and there are not two cities in the county, the chief of police of the city, if any, in the county, or his designee, is a member of the board.*

*(f) The ranking police officer of the gang unit of the county sheriff or the sheriff of the metropolitan police department.*

*(g) The ranking police officer of the gang unit of the police department for the city, if any, in the county with the greatest number of gang members, excluding any cities that have merged their law enforcement agencies with the law enforcement agency of the county. The determination of the city with the greatest number of criminal gang members must be made by the members of the board designated pursuant to paragraphs (a) to (f), inclusive.*

*3. The board shall:*

*(a) Estimate annually the amount of revenue that will be generated by the tax levied pursuant to section 3 of this act.*

*(b) Allocate a portion of the amount estimated pursuant to paragraph (a) for the prosecution of crimes alleged to have been committed by members of criminal gangs.*

*(c) Estimate the number of officers that the remaining revenue will support for the task force.*

*(d) Notify the county of the estimates made pursuant to paragraphs (a) and (c) and the allocation made pursuant to paragraph (b) for the purpose of including the funding for the task force and the prosecutions in the budget for the county.*

*(e) Estimate quarterly the number of criminal gang members there are in each city and in the unincorporated area of the county.*

Sec. 5. *1. The task force created with the revenue from the tax levied pursuant to section 3 of this act shall engage in activities that are directly related to the prevention or suppression of criminal gang activities, or both, particularly the prevention or suppression of drug-related offenses. The task force must be created within the office of the sheriff, but the resources of the task force must be allocated quarterly among each city in the county and the unincorporated area of the county in the same ratio as the estimated number of criminal gang members in the city or unincorporated area of the county bears to the total estimated number of criminal gang members in the county.*

*2. The board for the prevention and suppression of criminal gang activity created pursuant to section 4 of this act shall change the allocation of the resources of the task force in accordance with any change in the quarterly estimates of the number of criminal gang members in each city and in the unincorporated area of the county.*".

Amend the bill as a whole by renumbering sections 3 and 4 as sections 6 and 7.

### REMARKS FROM THE FLOOR

Assemblyman Callister requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. I just note for the record that, of course, this is the introduction of the Classified Pay Bill that I know your hearts and minds have been anxious to have your greedy little grips on. We'll have a chance to discuss it briefly in committee. It will be brought back down to the floor. You are all aware by now that it's been the subject of some degree of controversy. It does in fact incorporate the 4 percent that was recommended by the Governor's budget, as well as a 90-day deferral of that 4 percent. I will advise the members at this point in time that I will be introducing along with other members of this house, two proposed amendments to that bill, one of which would, of course, make it a 5 percent increase as opposed to a 4 percent deferred, and the second of which will address the issue of one to five in incremental figures for the second year of the biennium. Sorry, I guess we don't get a chance to vote on that today. I know

many members of this body and, of course, many of those here visiting today would like to have that occur today. It's not going to be the case but we can promise you that there will be an opportunity to vote on it and we look forward to that.

Assemblyman Porter moved that the Assembly recess until 2:30 p.m.

Motion carried.

1. *Each person licensed pursuant to chapter 645 of NRS as a real estate broker, broker-salesman or salesman who does business in this state and receives wages, commissions or other compensation based upon activities for which the license is required shall be deemed for the purpose of this chapter to earn wages of $1,500 per month. "Sec. 2. NRS 616.317 is hereby amended to read as follows:

A sole proprietor may elect to be included within the terms, conditions and provisions of this chapter for the purpose of personally securing compensation equivalent to that to which an employee is entitled for any accidental injury sustained by the sole proprietor which arises out of and in the course of his self-employment by filing a written notice of election with the system.

2. A sole proprietor who elects to accept the terms, conditions and provisions of this chapter shall submit to a physical examination before his coverage commences. The system shall prescribe the scope of the examination and shall consider it for rating purposes. The cost of the physical examination must be paid by the sole proprietor.

6. For purposes of this chapter, a sole proprietor shall be deemed to be receiving a wage of $300 per month [.] *unless, at least 90 days before any injury for which he requests coverage, he files written notice with the system that he elects to pay an additional amount of premiums for additional coverage. One or more deficiency determinations may be made of the amount due for one or for more than one period.

2. In making a determination the department may offset an overpayment for a period, together with interest on the overpayment, against any underpayment for another period, against any penalty or interest on the underpayment.

3. The interest on any underpayment or overpayment must be computed in the manner set forth in NRS 360.417 and section 49 of this act.

4. If any part of the deficiency for which a deficiency determination is made is because of fraud or an intent to evade the provisions of this chapter or any regulations adopted pursuant thereto, a penalty of 25 percent of the amount of the determination must be added to it.

Sec. 18. 1. Except in the case of fraud, intent to evade the provisions of this chapter or regulations adopted pursuant thereto, a failure to make a return or of a claim for an additional amount pursuant to section 27 of this act, every notice of the determination of a deficiency must be personally served or mailed within 3 years after the last day of the calendar month following the period for which the amount is proposed to be determined or within 3 years after the return is filed, whichever period expires later. In the case of a failure to make a return or a claim for an additional amount pursuant to section 27 of this act, every notice of determination must be mailed or personally served within 8 years after the last day of the calendar month following the period for which the amount is proposed to be determined.

2. If, before the expiration of the time prescribed in this section for the mailing of a notice of determination, the taxpayer has consented in writing to the mailing of the notice after that time, the notice may be mailed at any time before the expiration of the period agreed upon. The period so agreed upon may be extended by a subsequent agreement in writing made before the expiration of the period previously agreed upon.

Sec. 19. 1. The department shall give to the taxpayer written notice of its determination.

2. The notice may be served personally or by mail. If the notice is served by mail, the notice must be addressed to the taxpayer at his address as it appears in the records of the department.

3. In the case of service by mail of any notice required by this chapter, the service is complete when the notice is deposited with the United States Postal Service.

Sec. 20. 1. If any person fails to make a return, the department shall make an estimate of the total amount of the consideration received by the person so failing on which the tax is imposed by this chapter. The estimate must be made for the period or periods for which the person failed to make a

return and based upon any information which is in the department's possession or may come into its possession. Upon the basis of that estimate, the department shall compute and determine the amount required to be paid to the state and add to that amount a penalty equal to 10 percent of the amount. One or more determinations may be made for one or for more than one period.

2. If an enterprise is discontinued, a determination may be made at any time thereafter within the periods specified in section 18 of this act concerning liability arising out of that business, irrespective of whether the determination is issued before the date the liability is due as otherwise specified in this chapter.

Sec. 21. 1. In making a determination, the department may offset an overpayment for a period, together with interest on the overpayment, against any underpayment for another period, against any penalty and against the interest on the underpayment.

2. The interest on any underpayment or overpayment must be computed in the manner set forth in NRS 360.417 and section 49 of this act.

Sec. 22. The amount of the determination, exclusive of penalties, bears interest at the rate of 1.5 percent per month, or fraction of a month, from the last day of the month following the period for which the amount or any portion of it should have been returned until the date of payment.

Sec. 23. If the failure of any person to file a return is because of fraud or intent to evade the provisions of this chapter or any regulations adopted pursuant thereto, a penalty of 25 percent of the amount required to be paid by the person, exclusive of penalties, must be added to it, in addition to the 10 percent penalty provided in section 20 of this act.

Sec. 24. Promptly after making its determination the department shall give to the person written notice of the estimate, determination and penalty, the notice to be served personally or by mail in the manner prescribed for the service of a notice of a deficiency determination.

Sec. 25. 1. Any person against whom a determination is made pursuant to sections 17 to 24, inclusive, of this act, or any person directly interested, may petition for a redetermination within 30 days after service upon the person of the notice of the determination.

2. If a petition for redetermination is not filed within the 30-day period, the determination becomes final at the expiration of the period.

Sec. 26. 1. If a petition for redetermination is filed within the 30-day period, the department shall reconsider the determination and, if the person has so requested in his petition, shall grant him an oral hearing and give him 10 days' notice of the time and place of the hearing.

2. The department may continue the hearing from time to time as necessary.

Sec. 27. The department may decrease or increase the amount of the determination before it becomes final, except that the amount may be increased only if a claim for the increase is asserted by the department at or before the hearing.

Sec. 28. The order or decision of the department upon a petition for redetermination becomes final 30 days after the service upon the petitioner of the notice of the order or decision.

Sec. 29. All determinations made by the department pursuant to sections 17 to 24, inclusive, of this act, are due at the time they become final. If they are not paid when due, a penalty of 10 percent of the amount of the determination, exclusive of interest and penalties, must be added to it.

Sec. 30. Any notice required by sections 24 to 28, inclusive, of this act, must be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Sec. 31. 1. The department, if it deems it necessary to ensure compliance with this chapter, may require any person subject to the chapter to place with it such security as the department may determine. The department shall fix the amount of the security which, except as otherwise provided in subsection 2, may not be greater than three times the estimated average tax due monthly of persons filing returns for monthly periods, determined in such manner as the department deems proper.

2. In the case of persons who are habitually delinquent in their obligations pursuant to this chapter, the amount of the security may not be greater than five times the average actual tax due monthly of persons filing returns for monthly periods.

3. The limitations provided in this section apply regardless of the type of security placed with the department.

4. The amount of the security may be increased or decreased by the department subject to the limitations provided in this section.

5. The department may sell the security at public auction if it becomes necessary to recover any tax or any amount required to be collected, interest or penalty due. Notice of the sale may be served upon the person who placed the security personally or by mail. If the notice is served by mail, service must be made in the manner prescribed for service of a notice of a deficiency determination and must be addressed to the person at his address as it appears in the records of the department. Security in the form of a bearer bond issued by the United States or the State of Nevada which has a prevailing market price may be sold by the department at a private sale at a price not lower than the prevailing market price.

6. Upon any sale any surplus above the amounts due must be returned to the person who placed the security.

Sec. 32. At any time within 3 years after any tax or any amount of tax required to be collected becomes due, and at any time within 3 years after the delinquency of any tax or any amount of tax required to be collected, or within 3 years after the last recording of an abstract pursuant to section 38 of this act or a certificate pursuant to section 40 of this act, the department may bring an action in the courts of this state, or any other state, or of the United States, in the name of the State of Nevada, to collect the amount delinquent together with penalties and interest.

Sec. 33. The attorney general shall prosecute the action and the provisions of NRS and the Nevada Rules of Civil Procedure and Nevada Rules of Appellate Procedure relating to service of summons, pleadings, proofs, trials and appeals are applicable to the proceedings.

Sec. 34. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required.

Sec. 35. In the action a certificate by the department showing the delinquency is prima facie evidence of the determination of the tax or the amount of the tax, of the delinquency of the amounts set forth and of the compliance by the department with all the provisions of this chapter in relation to the computation and determination of the amounts.

Sec. 36. If any amount required to be paid to the state pursuant to this chapter is not paid when due, the department may, within 3 years after the amount is due, file in the office of the county clerk of any county a certificate specifying the amount required to be paid, interest and penalty due, the name and address as it appears on the records of the department of the person liable, the compliance of the department with this chapter in relation to the determination of the amount required to be paid and a request that judgment be entered against the person in the amount required to be paid, together with interest and penalty as set forth in the certificate.

Sec. 37. The county clerk immediately upon the filing of the certificate shall enter a judgment for the State of Nevada against the person in the amount required to be paid, together with interest and penalty as set forth in the certificate.

Sec. 38. 1. An abstract of the judgment or a copy thereof may be filed for record with the county recorder of any county.

2. From the time of the filing, the amount required to be paid, together with interest and penalty set forth, constitutes a lien upon all the real and personal property in the county owned by the person liable or acquired by him afterwards and before the lien expires. The lien has the effect and priority of a judgment lien and continues for 5 years after the date of the judgment so entered by the county clerk unless sooner released or otherwise discharged.

3. The lien may, within 5 years after the date of the judgment or within 5 years after the date of the last extension of the lien pursuant to this subsection, be extended by filing for record in the office of the county recorder of any county, an abstract or copy of the judgment, and from the time of filing, the lien is extended to the real and personal property in the county for 5 years, unless sooner released or otherwise discharged.

Sec. 39. Execution must issue upon the judgment upon request of the department in the same manner as execution may issue upon other judgments, and sales must be held pursuant to the execution as prescribed by law.

Sec. 40. 1. If any amount required to be paid to the state pursuant to this chapter is not paid when due, the department may, within 3 years after the amount is due, file for record in the office of any county recorder a certificate specifying the amount, interest and penalty due, the name and

address as it appears on the records of the department of the person liable for the amount due, and the fact that the department has complied with all provisions of this chapter in the determination of the amount required to be paid.

2. From the time of the filing for record, the amount required to be paid, together with interest and penalty, constitutes a lien upon all real and personal property in the county owned by the person or acquired by him afterwards and before the lien expires. The lien has the effect and priority of a judgment lien and continues for 5 years after the time of the filing of the certificate unless sooner released or otherwise discharged.

3. The lien may, within 5 years after the date of the filing of the certificate or within 5 years after the date of the last extension of the lien pursuant to this subsection, be extended by filing for record a new certificate in the office of the county recorder of any county, and from the time of filing, the lien is extended to the real and personal property in the county for 5 years, unless sooner released or otherwise discharged.

Sec. 41. 1. The department may at any time release all or any portion of the property subject to any lien provided for in this chapter from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount, interest and penalties are secured sufficiently by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest and penalties.

2. A certificate by the department to the effect that any property has been released from the lien, or that the lien has been subordinated to other liens and encumbrances, is conclusive evidence that the property has been released or the lien has been subordinated as provided in the certificate.

Sec. 42. 1. At any time within 3 years after any person is delinquent in the payment of any amount required to be paid, or within 3 years after the last recording of an abstract pursuant to section 38 of this act, or a certificate pursuant to section 40 of this act, the department or its authorized representative may issue a warrant for the enforcement of any liens and the collection of any amount required to be paid to the state pursuant to this chapter.

2. The warrant must be directed to any sheriff or constable and has the same effect as a writ of execution.

3. The warrant must be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution.

Sec. 43. 1. The department may pay or advance to the sheriff or constable the same fees, commissions and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The department shall approve the fees for publication in a newspaper.

2. The fees, commissions and expenses are the obligation of the person required to pay any amount pursuant to this chapter and may be collected from him by virtue of the warrant or in any other manner provided in this chapter for the collection of the tax.

Sec. 44. If the person who is liable for any amount pursuant to this chapter sells his enterprise or quits the enterprise, his successors or assigns

shall withhold sufficient of the purchase price to cover that amount until the former owner produces a receipt from the department showing that it has been paid or a certificate stating that no amount is due.

Sec. 45. 1. If the purchaser of a business fails to withhold the purchase price as required, he becomes personally liable for the payment of the amount required to be withheld by him to the extent of the purchase price, valued in money. Within 60 days after receiving a written request from the purchaser for a certificate or within 60 days after the date the former owner's records are made available for audit, whichever period expires later, but not later than 90 days after receiving the request, the department shall issue the certificate or mail notice to the purchaser at his address as it appears on the records of the department, of the amount that must be paid as a condition of issuing the certificate.

2. Failure of the department to mail the notice releases the purchaser from any further obligation to withhold the purchase price.

3. The time within which the obligation of a successor may be enforced begins when the former owner sells his enterprise or the determination against the former owner becomes final, whichever occurs later.

Sec. 46. 1. If the department determines that any amount, penalty or interest has been paid more than once or has been erroneously or illegally collected or computed, the department shall set forth that fact in the records of the department and certify to the state board of examiners the amount collected in excess of the amount legally due and the person from whom it was collected or by whom paid. If approved by the state board of examiners, the excess amount collected or paid must be credited on any amounts then due from the person pursuant to this chapter, and the balance refunded to the person, or his successors, administrators or executors.

2. Any overpayment of the tax imposed pursuant to this chapter by a customer to a person who is required to collect the tax and who gives the customer a receipt therefor must be credited or refunded by the state to the customer.

Sec. 47. 1. No refund may be allowed unless a claim for it is filed with the department within 3 years after the last day of the month following the close of the period for which the overpayment was made, or, with respect to determinations made pursuant to sections 17 to 24, inclusive, of this act, within 6 months after the determinations become final, or within 6 months after the date of overpayment, whichever period expires later.

2. No credit may be allowed after the expiration of the period specified for filing claims for a refund unless a claim for credit is filed with the department within that period or the credit relates to a period for which a waiver is given pursuant to section 18 of this act.

Sec. 48. 1. Every claim must be in writing and must state the specific grounds upon which the claim is founded.

2. Failure to file a claim within the time prescribed in section 47 of this act constitutes a waiver of any demand against the state on account of overpayment.

3. Within 30 days after disallowing any claim in whole or in part, the department shall serve notice of its action on the claimant in the manner prescribed for service of notice of a deficiency determination.

Sec. 49. 1. Interest must be paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the last day of the calendar month following the period for which the overpayment was made. No refund or credit may be made of any interest imposed upon the person making the overpayment with respect to the amount being refunded or credited.

2. The interest must be paid:

(a) In the case of a refund, to the last day of the calendar month following the date upon which the person making the overpayment, if he has not already filed a claim, is notified by the department that a claim may be filed or the date upon which the claim is certified to the state board of examiners, whichever is earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

3. If the department determines that any overpayment has been made intentionally or by reason of carelessness, it may not allow any interest on it.

Sec. 50. No injunction, writ of mandate or other legal or equitable process may issue in any suit, action or proceeding in any court against this state or against any officer of the state to prevent or enjoin the collection pursuant to this chapter of any tax or any amount of tax required to be collected.

Sec. 51. No suit or proceeding may be maintained in any court for the recovery of any amount alleged to have been erroneously or illegally determined or collected unless a claim for a refund or credit has been filed.

Sec. 52. 1. Within 90 days after the mailing of the notice of the department's action upon a claim filed pursuant to this chapter, the claimant may bring an action against the department on the grounds set forth in the claim in a court of competent jurisdiction in Carson City for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

2. Failure to bring an action within the time specified constitutes a waiver of any demand against the state on account of alleged overpayments.

Sec. 53. If the department fails to mail a notice of action on a claim within 6 months after the claim is filed, the claimant may, before the mailing of a notice by the department of its action on the claim, consider the claim disallowed and bring an action against the department on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

Sec. 54. If judgment is for a refund, it must be credited on any tax imposed pursuant to this chapter due from the plaintiff. The balance of the judgment must be refunded to the plaintiff.

Sec. 55. In any judgment, interest must be allowed at the rate of 6 percent per annum upon the amount found to have been collected illegally from the date of the payment of the amount to the date of the allowance of

credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days. The department shall determine that date.

Sec. 56. A judgment may not be rendered in favor of the plaintiff in any action brought against the department to recover any amount paid if the action is brought by or in the name of an assignee of the person paying the amount or by any person other than the person who paid the amount.

Sec. 57. 1. The department may recover any refund or part of a refund which is erroneously made and any credit or part of a credit which is erroneously allowed in an action brought in a court of competent jurisdiction in Carson City in the name of the State of Nevada.

2. The action must be tried in Carson City unless the court, with the consent of the attorney general, orders a change of place of trial.

3. The attorney general shall prosecute the action and the provisions of NRS, the Nevada Rules of Civil Procedure and the Nevada Rules of Appellate Procedure relating to service of summons, pleadings, proofs, trials and appeals are applicable to the proceedings.

Sec. 58. 1. If any amount in excess of $25 has been illegally determined by the person filing the return or the department, the department shall certify that fact to the state board of examiners and the board shall authorize the cancellation of the amount upon the records of the department.

2. If an amount not exceeding $25 has been illegally determined by the person filing a return or the department, the department, without certifying this fact to the state board of examiners, shall authorize the cancellation of the amount upon the records of the department.

Sec. 59. 1. The department shall enforce the provisions of this chapter and may adopt regulations relating to the administration and enforcement of this chapter.

2. The department may prescribe the extent to which any regulation may be applied without retroactive effect.

Sec. 60. The department may employ accountants, auditors, investigators, assistants and clerks necessary for the efficient administration of this chapter and may delegate authority to its representatives to conduct hearings, adopt regulations or perform any other duties imposed by this chapter.

Sec. 61. Each person in this state who is liable for tax under this chapter:

1. Shall keep records, receipts, invoices and other pertinent papers in such form as the department may require.

2. Who files the returns required pursuant to this chapter shall keep the records for not less than 4 years unless the department in writing sooner authorizes their destruction.

3. Who fails to file the returns required pursuant to this chapter shall keep the records for not less than 8 years unless the department in writing sooner authorizes their destruction.

Sec. 62. 1. The department, or any person authorized in writing by it, may examine the books, papers, records and equipment of any taxpayer and

may investigate the character of his business to verify the accuracy of any return made, or, if no return is made by the person liable, to determine the amount required to be paid.

2. Any person who keeps outside of this state his records, receipts, invoices and other documents relating to the total amount of the fees, charges and other consideration received by him on which the tax is imposed by this chapter, shall pay to the department an amount equal to the allowance provided for state officers and employees generally while traveling outside of the state for each day or fraction thereof during which an employee of the department is engaged in examining those documents, plus any other actual expenses incurred by the employee while he is absent from his regular place of employment to examine those documents.

Sec. 63. 1. Except as otherwise provided in this section, it is unlawful for any member of the Nevada tax commission or officer or employee of the department to make known in any manner whatever the business affairs, operations or information obtained by an investigation of records and equipment of any taxpayer or any other person visited or examined in the discharge of official duty or the amount or source of income, profits, losses, expenditures or any particular of them, set forth or disclosed in any return, or to permit any return or copy of a return, or any book containing any abstract or particulars of it to be seen or examined by any person not connected with the department.

2. The governor may, by general or special order, authorize the examination of the records maintained by the department pursuant to this chapter by:

(a) Other state officers;

(b) Tax officers of another state;

(c) The Federal Government, if a reciprocal arrangement exists; or

(d) Any other person.

The information so obtained may not be made public except to the extent and in the manner that the order may authorize that it be made public.

3. Successors, receivers, trustees, executors, administrators, assignees and guarantors, if directly interested, may be given information concerning the items included in the measure and amounts of any unpaid tax or amounts of tax required to be collected, interest and penalties.

4. Any relevant information may be disclosed as evidence in an appeal by the taxpayer from a determination of the tax due.

Sec. 64. Any taxpayer in this state who:

1. Fails or refuses to furnish any return required to be made;

2. Fails or refuses to furnish a supplemental return or other data required by the department; or

3. Renders a false or fraudulent return,

shall be fined not more than $500 for each offense.

Sec. 65. Any person required to make, render, sign or verify any report who makes any false or fraudulent return, with intent to defeat or evade the determination of an amount due required by law to be made, shall for each

offense be fined not less than $300 nor more than $5,000, or be imprisoned for not more than 1 year in the county jail, or be punished by both fine and imprisonment.

Sec. 66. 1. Except as otherwise provided by specific statute, any violation of this chapter is a misdemeanor.

2. Any prosecution for a violation of any of the penal provisions of this chapter must be instituted within 3 years after the commission of the offense.

3. In the determination of any case arising under this chapter, the rule of res judicata is applicable only if the liability involved is for the same period as was involved in another case previously determined.

Sec. 67. All fees, taxes, interest and penalties imposed and all amounts of tax required to be paid to the state pursuant to this chapter must be paid to the department in the form of remittances payable to the department.

Sec. 68. The remedies of the state provided for in this chapter are cumulative and no action taken by the department or the attorney general constitutes an election by the state to pursue any remedy to the exclusion of any other remedy for which provision is made in this chapter.

Sec. 69. In all proceedings conducted pursuant to the provisions of this chapter, the department may act for and on behalf of the State of Nevada.

Sec. 70. 1. The governing body of an Indian reservation or Indian colony may impose a tax on the fees, charges and other consideration received by the provider of a service whose fixed place of business is located on the reservation or in the colony.

2. If the tax is imposed, the governing body may establish procedures for collecting the tax from the proprietor of any such enterprise located on the reservation or in the colony.

Sec. 71. The department of taxation shall not collect the tax imposed by this chapter on an Indian reservation or in an Indian colony on which a tax has been imposed pursuant to section 70 of this act if:

1. The tax is equal to or greater than the tax imposed by this chapter; and

2. A copy of an approved tribal tax ordinance imposing the tax has been filed with the department of taxation.

Sec. 72. NRS 360.412 is hereby amended to read as follows:

360.412 If the department believes that the collection of any amount of sales or use tax , *tax upon receipts for services,* or other excise due under this Title or chapter 585 of NRS will be jeopardized by delay, it shall make a determination of the amount required to be collected and serve notice of the determination upon the person against whom it is made.

Sec. 73. NRS 360.417 is hereby amended to read as follows:

1. Request lists of employers and employees from the state industrial insurance system and the employment security department; and

2. Enter into an agreement for the exchange of information with the Internal Revenue Service,

to carry out the provisions of this chapter.

Sec. 12. Upon written application made before the due date, for good cause the department may extend the time within which a business is required to pay the tax imposed by this chapter. If the tax is paid during the period of extension, no penalty or late charge may be imposed for failure to pay at the time required, but the business shall pay interest at the rate of 1.5 percent per month, or fraction thereof, from the date the amount would have been due without the extension until the date of payment.

Sec. 13. Notwithstanding any other provision of this Title, in any action by the department to enforce the provisions of this chapter, it is a valid defense against a claim for taxes due for a quarter before the quarter in which the action is filed, to recover taxes imposed pursuant to paragraph (a) of subsection 2 of section 9 of this act, including any penalties or interest due thereon, that the person responsible for a business had not received any correspondence from the department concerning the tax and was otherwise unaware of the liability, but the tax for the current quarter and thereafter must be paid when due.

Sec. 14. 1. Each person responsible for a business shall:

(a) Keep such records as may be necessary to determine the amount of its liability pursuant to the provisions of this chapter;

(b) Preserve those records for 4 years or until any litigation or prosecution pursuant to this chapter is finally determined, whichever is longer; and

(c) Make the records available for inspection by the department upon demand at reasonable times during regular business hours.

2. Any person who violates the provisions of subsection 1 is guilty of a misdemeanor.

Sec. 15. 1. A person shall not:

(a) Make, cause to be made or permit to be made any false or fraudulent return or declaration or false statement in any return or declaration, with intent to defraud the state or to evade payment of the tax or any part of the tax imposed by this chapter.

(b) Make, cause to be made or permit to be made any false entry in books, records or accounts with intent to defraud the state or to evade the payment of the tax or any part of the tax imposed by this chapter.

(c) Keep, cause to be kept or permit to be kept more than one set of books, records or accounts with intent to defraud the state or to evade the payment of the tax or any part of the tax imposed by this chapter.

2. Any person who violates the provisions of subsection 1 is guilty of a gross misdemeanor.

Sec. 16. 1. Except as otherwise provided in subsection 2, the records and files of the department concerning the administration of this chapter are confidential and privileged. The department, and any employee engaged in the administration of this chapter, or charged with the custody of any such records or files, shall not disclose any information obtained from the department's records or files or from any examination, investigation or hearing authorized by the provisions of this chapter. Neither the department nor any employee of the department may be required to produce any of the records, files and information for the inspection of any person or for use in any action or proceeding.

2. The records and files of the department concerning the administration of this chapter are not confidential and privileged in the following cases:

(a) Testimony by a member or employee of the department and production of records, files and information on behalf of the department or a taxpayer in any action or proceeding pursuant to the provisions of this chapter if that testimony or the records, files or information, or the facts shown thereby are directly involved in the action or proceeding.

(b) Delivery to a taxpayer or his authorized representative of a copy of any return or other document filed by the taxpayer pursuant to this chapter.

(c) Publication of statistics so classified as to prevent the identification of a particular business or document.

(d) Exchanges of information with the Internal Revenue Service in accordance with compacts made and provided for in such cases.

(e) Disclosure in confidence to the governor or his agent in the exercise of the governor's general supervisory powers, or to any person authorized to audit the accounts of the department in pursuance of an audit, or to the attorney general or other legal representative of the state in connection with an action or proceeding pursuant to this chapter or to any agency of this or any other state charged with the administration or enforcement of laws relating to workers' compensation, unemployment compensation, public assistance, taxation, labor or gaming.

Sec. 17. 1. If any business which is liable for any amount pursuant to this chapter sells out its business, or any portion thereof, or stock of goods, or quits the business, its successors or assigns shall withhold a sufficient portion of the purchase price to cover that amount until the former owner produces a receipt from the department showing that it has been paid or a certificate stating that no amount is due.

2. If the purchaser of a business, or any portion thereof, or stock of goods fails to withhold from the purchase price the amount required by

subsection 1, he becomes personally liable for the payment of the amount required to be withheld by him to the extent of the purchase price, valued in money. Within 60 days after receiving a written request from the purchaser for a certificate, or within 60 days from the date the former owner's records are made available for audit, whichever period expires later, but not later than 90 days after receiving the request, the department shall issue the certificate or mail notice to the purchaser at his address as it appears on the records of the department, of the amount that must be paid as a condition of issuing the certificate.

3. Failure of the department to mail the notice releases the purchaser from further obligation to withhold any portion of the purchase price.

4. The time within which the obligation of a successor may be enforced begins at the time the person or business sells out its business or stock of goods or at the time that the determination against the person or business becomes final, whichever occurs later.

Sec. 18. 1. A person who contracts with, employs or otherwise agrees to compensate an independent contractor, subcontractor or other person who is required by this chapter to have a business license and pay the tax imposed by this chapter shall require proof that the independent contractor, subcontractor or other person has a business license and is not delinquent in paying the tax imposed by this chapter before making any payments.

2. A person who violates the provisions of subsection 1 is personally liable for any taxes owed by the independent contractor, subcontractor or other person that were delinquent at the time the contract or other agreement was finalized.

Sec. 19. 1. If any amount required to be paid to the state pursuant to this chapter is not paid when due, the department may, within 3 years after the amount is due, file for record in the office of any county recorder a certificate specifying the amount, interest and penalty due, the name and address as it appears on the records of the department of the person liable for the amount due, and the fact that the department has complied with all provisions of this chapter in the determination of the amount required to be paid.

2. From the time of the filing for record, the amount required to be paid, together with interest and penalty, constitutes a lien upon all real and personal property in the county owned by the person or acquired by him afterwards and before the lien expires. The lien has the effect and priority of a judgment lien and continues for 5 years after the time of the filing of the certificate unless sooner released or otherwise discharged.

3. The lien may, within 5 years after the date of the filing of the certificate or within 5 years after the date of the last extension of the lien pursuant to this subsection, be extended by filing for record a new certificate in the office of the county recorder of any county, and from the time of filing, the lien is extended to the real and personal property in the county for 5 years, unless sooner released or otherwise discharged.

4. The department may at any time release all or any portion of the property subject to any lien provided for in this chapter from the lien or

subordinate the lien or other liens and encumbrances if it determines that the amount, interest and penalties are secured sufficiently by a lien or other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest and penalties.

5. A certificate by the department to the effect that any property has been released from the lien, or that the lien has been subordinated to other liens and encumbrances, is conclusive evidence that the property has been released, or that the lien has been subordinated as provided in the certificate.

Sec. 20. 1. At any time within 3 years after any tax or any amount of the tax imposed by this chapter becomes due, and at any time within 3 years after the delinquency of any such tax, or within 5 years after the last recording of an abstract pursuant to NRS 360.450, or of a certificate pursuant to section 19 of this act, the department may bring an action in the courts of this state, or any other state, or of the United States, in the name of the people of the State of Nevada, to collect the amount delinquent together with penalties and interest.

2. The attorney general shall prosecute the action, and the provisions of NRS and the Nevada Rules of Civil Procedure and Nevada Rules of Appellate Procedure relating to service of summons, pleadings, proofs, trials and appeals are applicable to the proceedings.

3. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required.

4. In the action a certificate by the department showing the delinquency is prima facie evidence of the determination of the tax or the amount of the tax, of the delinquency of the amounts set forth, and of the compliance by the department with all the provisions of this chapter in relation to the computation and determination of the amounts.

Sec. 21. If the department determines that any tax, penalty or interest has been paid more than once or has been erroneously or illegally collected or computed, the department shall set forth that fact in the records of the department and certify to the state board of examiners the amount collected in excess of the amount legally due and the business or person from which it was collected or by whom paid. If approved by the state board of examiners, the excess amount collected or paid must be credited on any amounts then due from the person or business under this chapter, and the balance refunded to the person or business, or its successors, administrators or executors.

Sec. 22. 1. Except as otherwise provided in NRS 360.235:

(a) No refund may be allowed unless a claim for it is filed with the department within 3 years after the last day of the month following the close of the period for which the overpayment was made, or, with respect to determinations made pursuant to NRS 360.300 to 360.416, inclusive, within 6 months after the determination becomes final, or within 6 months after the date of overpayment, whichever period expires later.

(b) No credit may be allowed after the expiration of the period specified for filing claims for refund unless a claim for credit is filed with the department within that period.

2. Each claim must be in writing and must state the specific grounds upon which the claim is founded.

3. Failure to file a claim within the time prescribed in this chapter constitutes a waiver of any demand against the state on account of overpayment.

4. Within 30 days after disallowing any claim in whole or in part, the department shall serve notice of its action on the claimant in the manner prescribed for service of notice of a deficiency determination.

Sec. 23. 1. Interest must be paid upon any overpayment of any amount of the fee or tax imposed by this chapter at the rate of one-half of 1 percent per month, or fraction thereof, from the last day of the calendar month following the period for which the overpayment was made. No refund or credit may be made of any interest imposed upon the person or business making the overpayment with respect to the amount being refunded or credited.

2. The interest must be paid:

(a) In the case of a refund, to the last day of the calendar month following the date upon which the person making the overpayment, if he has not already filed a claim, is notified by the department that a claim may be filed or the date upon which the claim is certified to the state board of examiners, whichever is earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the fee or tax or amount against which the credit is applied.

3. If the department determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest on it.

Sec. 24. 1. No injunction, writ of mandate or other legal or equitable process may issue in any suit, action or proceeding in any court against this state or against any officer of the state to prevent or enjoin the collection under this chapter of the tax imposed by this chapter or any amount of tax, penalty or interest required to be collected.

2. No suit or proceeding may be maintained in any court for the recovery of any amount alleged to have been erroneously or illegally determined or collected unless a claim for refund or credit has been filed.

Sec. 25. 1. Within 90 days after the mailing of the notice of the department's action upon a claim filed pursuant to this chapter, the claimant may bring an action against the department on the grounds set forth in the claim in a court of competent jurisdiction in Carson City for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

2. Failure to bring action within the time specified constitutes a waiver of any demand against the state on account of alleged overpayments.

Sec. 26. 1. If the department fails to mail notice of action on a claim within 6 months after the claim is filed, the claimant may, before the mailing of notice by the department of its action on the claim, consider the claim

disallowed and bring an action against the department on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

2. If judgment is rendered for the plaintiff, the amount of the judgment must first be credited towards any fee or tax due from the plaintiff.

3. The balance of the judgment must be refunded to the plaintiff.

Sec. 27. In any judgment, interest must be allowed at the rate of 6 percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment, or to a date preceding the date of the refund warrant by not more than 30 days. The date must be determined by the department.

Sec. 28. A judgment may not be rendered in favor of the plaintiff in any action brought against the department to recover any amount paid when the action is brought by or in the name of an assignee of the business paying the amount or by any person other than the person or business which paid the amount.

Sec. 29. 1. The department may recover a refund or any part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in Carson City in the name of the State of Nevada.

2. The action must be tried in Carson City unless the court with the consent of the attorney general orders a change of place of trial.

3. The attorney general shall prosecute the action, and the provisions of NRS, the Nevada Rules of Civil Procedure and the Nevada Rules of Appellate Procedure relating to service of summons, pleadings, proofs, trials and appeals are applicable to the proceedings.

Sec. 30. 1. If any amount in excess of $25 has been illegally determined, either by the person filing the return or by the department, the department shall certify this fact to the state board of examiners, and the latter shall authorize the cancellation of the amount upon the records of the department.

2. If an amount not exceeding $25 has been illegally determined, either by the person or business filing a return or by the department, the department without certifying this fact to the state board of examiners, shall authorize the cancellation of the amount upon the records of the department.

Sec. 31. 1. The department shall deposit all fees, taxes, interest and penalties it receives under this chapter in the state treasury for credit to the business tax account in the state general fund.

2. The money in the business tax account may, upon order of the state controller, be used for refunds under this chapter.

Sec. 32. The remedies of the state provided for in this chapter are cumulative, and no action taken by the department or the attorney general constitutes an election by the state to pursue any remedy to the exclusion of any other remedy for which provision is made in this chapter.

Sec. 33. The commission shall adopt such regulations as it deems necessary to carry out the provisions of this chapter.

Sec. 34. NRS 360.412 is hereby amended to read as follows:

360.412 If the department believes that the collection of any amount of sales or use tax , *business tax,* or other excise due under this Title or chapter 585 of NRS will be jeopardized by delay, it shall make a determination of the amount required to be collected and serve notice of the determination upon the person against whom it is made.

Sec. 35. NRS 360.417 is hereby amended to read as follows:

360.417 [Any] *Unless a different penalty or rate of interest is specifically provided, any* person who fails to pay any tax provided for in chapter 362, 365, 369, 370, 372, 373 or 374 of NRS *or sections 2 to 33, inclusive, of this act,* or fee provided for in NRS 590.700 to 590.920, inclusive, to the state or a county within the time required, shall pay a penalty of not more than 10 percent of the amount of the tax or fee which is owed, as determined by the department, in addition to the tax or fee, plus interest at the rate of 1.5 percent per month, or fraction of a month, from the date on which the tax or fee became due until the date of payment.

Sec. 36. NRS 78.150 is hereby amended to read as follows:

78.150 1. Each corporation organized under the laws of this state shall, on or before the last day of the month in which the anniversary date of incorporation occurs in each year, file with the secretary of state a list of its officers and directors and a designation of its resident agent in this state, certified by the president, secretary or other officer of the corporation.

2. Upon filing the list of officers and directors and designation of resident agent, the corporation shall pay to the secretary of state a fee of [$50.] *$75.*

3. The secretary of state shall, 60 days before the last day for filing the list required by subsection 1, cause to be mailed to each corporation required to comply with the provisions of NRS 78.150 to 78.185, inclusive, and which has not become delinquent, the blank forms to be completed and filed with the secretary of state. Failure of any corporation to receive the forms does not excuse it from the penalty imposed by law.

Sec. 37. NRS 244.335 is hereby amended to read as follows:

244.335 1. Except as otherwise provided in subsection 2, the board of county commissioners may:

(a) Regulate all character of lawful trades, callings, industries, occupations, professions and business conducted in its county outside of the limits of incorporated cities and towns.

(b) Except as otherwise provided in section 3.7 of [this act,] *chapter 19, Statutes of Nevada 1991,* fix, impose and collect a license tax for revenue or for regulation, or for both revenue and regulation, on such trades, callings, industries, occupations, professions and business.

2. The county license boards have the exclusive power in their respective counties to regulate entertainers employed by an entertainment by referral service and the business of conducting a dancing hall, escort service, entertainment by referral service or gambling game or device permitted by

*4.* No license to engage in business as a seller of tangible personal property may be granted unless the applicant for the license presents written evidence that:

(a) The department of taxation has issued or will issue a permit for this activity, and this evidence clearly identifies the business by name; or

[4.] *5.* Any license tax levied for the purposes of NRS 244.3358 or 244A.597 to 244A.655, inclusive, constitutes a lien upon the real and personal property of the business upon which the tax was levied until the tax is paid. The lien must be enforced in the following manner:

[5.] *6.* The board of county commissioners may delegate the authority to enforce liens from taxes levied for the purposes of NRS 244A.597 to 244A.655, inclusive, to the county fair and recreation board. Except as otherwise provided in NRS 244.3357, all information concerning license taxes levied by an ordinance authorized by this section or other information concerning the business affairs or operation of any licensee obtained as a result of the payment of such license taxes or as the result of any audit or examination of the books by any authorized employee of a county fair and recreation board of the county for any license tax levied for the purpose of NRS 244A.597 to 244A.655, inclusive, is confidential and must not be disclosed by any member, officer or employee of the county fair and recreation board or the county imposing the license tax unless the disclosure is authorized by the affirmative action of a majority of the members of the appropriate county fair and recreation board. Continuing disclosure may be so authorized under an agreement with the department of taxation for the exchange of information concerning taxpayers.

2. *No license to engage in any type of business may be granted unless the applicant for the license submits written evidence from the department of taxation indicating that the business has complied with the provisions of sections 2 to 33, inclusive, of this act.*

*3.* No license to engage in business as a seller of tangible personal property may be granted unless the applicant for the license presents written evidence that:

(a) The department of taxation has issued or will issue a permit for this activity, and this evidence clearly identifies the business by name; or

(b) Another regulatory agency of the state has issued or will issue a license required for this activity.

[3.] *4.* Any license tax levied under the provisions of this section constitutes a lien upon the real and personal property of the business upon which the tax was levied until the tax is paid. The lien must be enforced in the following manner:

[4.] *5.* The city council or other governing body of each incorporated city may delegate the power and authority to enforce such liens to the county fair and recreation board. Except as otherwise provided in NRS 268.0966, all information concerning license taxes levied by an ordinance authorized by this section or other information concerning the business affairs or operation of any licensee obtained as a result of the payment of those license taxes or as the result of any audit or examination of the books of the city by any authorized employee of a county fair and recreation board for any license tax levied for the purpose of NRS 244A.597 to 244A.655, inclusive, is confidential and must not be disclosed by any member, official or employee of the county fair and recreation board or the city imposing the license tax unless the disclosure is authorized by the affirmative action of a majority of the members of the appropriate county fair and recreation board. Continuing disclosure may be so authorized under an agreement with the department of taxation for the exchange of information concerning taxpayers.

[5.] *6.* The powers conferred by this section are in addition and supplemental to, and not in substitution for, and the limitations imposed by this section do not affect the powers conferred by, any other law. No part of this section repeals or affects any other law or any part thereof, it being intended that this section provide a separate method of accomplishing its objectives, and not an exclusive one.

Sec. 39. NRS 612.265 is hereby amended to read as follows:

Except as otherwise provided in this section, information obtained from any employing unit or person pursuant to the administration of this chapter and any determination as to the benefit rights of any person is confidential and may not be disclosed or be open to public inspection in any manner which would reveal the person's or employing unit's identity.

2. Any claimant or his legal representative is entitled to information from the records of the employment security department, to the extent necessary for the proper presentation of his claim in any proceeding under this chapter. A claimant or an employing unit is not entitled to information from the records of the employment security department for any other purpose.

3. Subject to such restrictions as the executive director may by regulation prescribe, such information may be made available to:

(b) Any state or local agency for the enforcement of child support; or

*8.* The executive director may request the Comptroller of the Currency of the United States to cause an examination of the correctness of any return or report of any national banking association rendered pursuant to the provisions of this chapter, and may in connection with the request transmit any such report or return to the Comptroller of the Currency of the United States as provided in Section 3305(c) of the Internal Revenue Code of 1954.

[8.] *9.* If any employee or member of the board of review or the executive director or any employee of the executive director, in violation of the provisions of this section, discloses information obtained from any employing unit or person in the administration of this chapter, or if any person who has obtained a list of applicants for work, or of claimants or recipients of benefits under this chapter uses or permits the use of the list for any political purpose, he is guilty of a gross misdemeanor.

[9.] *10.* All letters, reports or communications of any kind, oral or written, from the employer or employee to each other or to the employment security department or any of its agents, representatives or employees are

privileged and must not be the subject matter or basis for any lawsuit if the letter, report or communication is written, sent, delivered or prepared pursuant to the requirements of this chapter.

616.192 1. Except as otherwise provided in this section and in NRS 616.193 and 616.550, information obtained from any employer or employee is confidential and may not be disclosed or be open to public inspection in any manner which would reveal the person's identity.

2. Any claimant or his legal representative is entitled to information from the records of the insurer, to the extent necessary for the proper presentation of a claim in any proceeding under this chapter.

3. The department and administrator are entitled to information from the records of the insurer which is necessary for the performance of their duties. The manager may, by regulation, prescribe the manner in which otherwise confidential information may be made available to:

(a) Any agency of this or any other state charged with the administration or enforcement of workers' compensation law, unemployment compensation law, public assistance law or labor law;

(b) Any state or local agency for the enforcement of child support; or

(c) The Internal Revenue Service of the Department of the Treasury.

Information obtained in connection with the administration of a workers' compensation program may be made available to persons or agencies for purposes appropriate to the operation of a workers' compensation program.

The request must set forth the social security number of the person about whom the request is made and contain a statement signed by the chief executive officer certifying that the request is made to further a criminal investigation currently being conducted by the agency. Upon receipt of a request, the manager shall furnish the information requested. He may charge a reasonable fee to cover any related administrative expenses.

5. *The manager shall provide lists containing the names and addresses of employers and the number of employees employed by each employer to the department of taxation, upon request, for its use in verifying returns for the business tax.*

*6.* If any employee or member of the board of directors or manager or any employee of the manager, in violation of this section, discloses information obtained from files of claimants or policyholders, or if any person who has obtained a list of claimants or policyholders under this chapter uses or permits the use of the list for any political purposes, he is guilty of a gross misdemeanor.

[6.] *7.* All letters, reports or communications of any kind, oral or written, from the insurer, or any of its agents, representatives or employees

are privileged and must not be the subject matter or basis for any lawsuit if the letter, report or communication is written, sent, delivered or prepared pursuant to the requirements of this chapter.

Sec. 41. 1. There is hereby appropriated from the state general fund to the department of taxation for the costs of additional computer programming, employees, travel expenses and operating costs necessary to carry out the provisions of this act:

For fiscal year 1991-1992 ..... $2,000,080
For fiscal year 1992-1993 ..... $1,822,787

2. The sums appropriated by subsection 1 are available for either fiscal year. Any remaining balance of the appropriation made by subsection 1 must not be committed for expenditure after June 30, 1993, and reverts to the state general fund as soon as all payments of money committed have been made.

Sec. 42. Section 1 of Assembly Bill No. 387 of this session is hereby amended to read as follows:

Section 1. NRS 612.265 is hereby amended to read as follows:

685A.070 1. A broker shall not knowingly place surplus lines insurance with an insurer which is unsound financially or ineligible under this section.

2. No insurer is eligible for the acceptance of surplus lines risks under this chapter unless it has surplus as to policyholders not less in amount than $3,000,000 and, if an alien insurer, unless it has and maintains in a bank or trust company which is a member of the United States Federal Reserve System a trust fund established under terms reasonably adequate for the protection of all of its policyholders in the United States of America in an amount of not less than $1,500,000. Such a trust fund must not have an expiration date which is at any time less than 5 years in the future, on a continuing basis. In the case of a group of individual unincorporated insurers, such a trust fund must be not less than $50,000,000. The commissioner may require larger trust funds than those set forth in this section if in his judgment the volume of business being transacted or proposed to be transacted warrants larger amounts.

3. No insurer is eligible to write surplus lines of insurance unless it has established a reputation for financial integrity and satisfactory practices in underwriting and handling claims. In addition, a foreign insurer must be authorized in the state of its domicile to write the kinds of insurance which it intends to write in Nevada.

4. The commissioner may from time to time compile or approve a list of all surplus lines insurers deemed by him to be eligible currently, and may mail a copy of the list to each broker at his office last of record with the commissioner. *To be placed on the list, a surplus lines insurer must file an application with the commissioner. The application must be accompanied by a nonrefundable fee of $2,450.* This subsection does not require the commissioner to determine the actual financial condition or claims practices of any unauthorized insurer. The status of eligibility, if granted by the commissioner, indicates only that the insurer appears to be sound financially and to have satisfactory claims practices, and that the commissioner has no credible evidence to the contrary. While any such list is in effect, the broker shall restrict to the insurers so listed all surplus lines business placed by him.".

Amend the bill as a whole by adding new sections designated sections 53.1 through 53.8, following sec. 53, to read as follows:

"Sec. 53.1. NRS 686A.360 is hereby amended to read as follows:

(c) A current certified financial statement or another financial statement if individually approved by the commissioner;

(d) An appointment of the commissioner and his successors in office as the applicant's attorney to receive service of process; and

(e) If the applicant is a corporation, a copy of its articles of incorporation.

2. The applicant shall provide the commissioner with any material change concerning information contained in the application within 10 days after the change occurs.

Sec. 53.2. NRS 686A.380 is hereby amended to read as follows:

686A.380 1. A company must renew its license on or before March 1 of each year. An application for renewal must be submitted on a form prescribed by the commissioner and must be accompanied by:

(a) A financial statement for the preceding year; and

(b) A fee of [$100] *$500* and any penalty imposed pursuant to subsection 2.

2. The commissioner may grant an extension allowing a company to file an application for renewal after March 1 if the company shows that for reasons beyond its control it cannot apply before that date. If a company which has not been granted an extension files its application for renewal after March 1, the company shall pay a penalty of $25 for each day the application is late.

Sec. 53.3. Chapter 686B of NRS is hereby amended by adding thereto the provisions set forth as sections 53.4 to 53.7, inclusive, of this act.

Sec. 53.4. *The advocate for insurance customers, as to any matter in which he has intervened or is a party, may appeal any order or decision of the commissioner made pursuant to this chapter.*

Sec. 53.5. *The commissioner may adopt regulations:*

*1. Governing the manner in which the advocate for insurance customers may review rates and supplementary information filed pursuant to this chapter.*

*2. Relating to the advocate's participation or intervention in hearings conducted pursuant to this chapter.*

*3. Which set forth the procedures for conducting any hearing held pursuant to this chapter.*

Sec. 53.6. *Each authorized insurer who issues policies of motor vehicle insurance covering private passenger vehicles and each rate service organization who assists in making rates for such policies of insurance shall provide the advocate for insurance customers with copies of any information which is required to be filed with the commissioner pursuant to NRS 686B.070. The copies must be provided to the advocate for insurance customers on or before the date the information is filed with the commissioner.*

Sec. 53.7. *1. At the request of the advocate for insurance customers, the commissioner may issue an order authorizing the advocate to examine*

*the books, accounts, minutes, records, documents or other papers or property of any insurer who issues policies of motor vehicle insurance covering private passenger vehicles and who makes a filing relating to a proposed change in rates pursuant to this chapter. The commissioner may authorize such an examination only if the information being sought is not available in the records of the division and the examination does not duplicate any examination previously conducted by the commissioner.*

*2. The expense of an examination conducted pursuant to this section must be borne by the insurer examined and paid in the manner provided by NRS 679B.290 and 679B.300. Only the actual cost of performing the examination may be recovered from the insurer.*

Sec. 53.8. NRS 686B.110 is hereby amended to read as follows:

686B.110 1. The commissioner shall consider each proposed increase in the rate of any kind or line of insurance or subdivision thereof filed with him pursuant to NRS 686B.070. If the commissioner finds that the proposed increase will result in a rate which is not in compliance with NRS 686B.050, he shall disapprove the proposal. [In any event, he] *The commissioner* shall approve or disapprove each [such] proposal no later than 60 days after it is filed with him [.] *, unless additional time is required to allow the intervention or participation of the advocate for insurance customers. In no event may this period of review be extended more than 60 additional days.*

2. Whenever an insurer has no legally effective rates as a result of the commissioner's disapproval of rates or other act, the commissioner shall on request specify interim rates for the insurer that are high enough to protect the interests of all parties and may order that a specified portion of the premiums be placed in an escrow account approved by him. When new rates become legally effective, the commissioner shall order the escrowed funds or any overcharge in the interim rates to be distributed appropriately, except that refunds to policyholders that are de minimis must not be required.

3. If the commissioner disapproves a proposed rate and an insurer requests a hearing to determine the validity of his action, the insurer has the burden of showing compliance with the applicable standards for rates established in NRS 686B.010 to 686B.175, inclusive. *Any such hearing may be held before the date the rates are intended to become effective.*".

Assembly Bill No. 414.

Bill read third time.

Remarks by Assemblymen Evans, Freeman, Little, Stout and Callister.

Assemblyman Carpenter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Assembly Bill No. 414 is amended to provide for appropriation of $300,000 each year of the biennum to the State Health Division's Women, Infants and Children's program known as WIC. The WIC program provides supplemental foods such as fruit juices, milk, eggs, cheese, infant formula and baby cereal in addition to nutrition education at no cost to eligible participants.

The two primary funding sources for the WIC program are a federal grant from the U.S. Department of Agriculture and the Infant Formula Reimbursement Program. This provides a negotiated contract with a sole-source provider. It's estimated that approximately 51 percent of all potentially eligible women and children in Nevada are not served

by the WIC program due to current funding limitations. To the use of infant rebate funding, the WIC program caseload peaked at approximately 16,300 served monthly; however, a reduction in caseload of approximately 1200 eligible participants per month was necessary to remain within the WIC funding levels. The appropriations proposed by the Ways and Means Committee will provide for the availability in program services to an estimated 500 additional recipients per month throughout the biennium to make up for this shortfall.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I rise in support of A.B. No. 414. I can't think of a better use of state money when we are talking about our families and children from disadvantaged families. I would like to congratulate the members of Ways and Means for supporting this program and would urge support of all the members.

ASSEMBLYMAN LITTLE:

Thank you, Mr. Speaker. To you and through you to the chairman of that committee. I would like to know—I have an executive budget that contains $21 million of non-state funds going into this special supplementary food program and we are asking for an additional $600,000. I would like to know for 15,000 families we are talking about, that's quite a bit of money.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Yes, to my colleague from southern Nevada. The money that you see in the state budget is not state money. This is the first time in the history of Nevada that we are proposing that state funds be used to support the WIC program. The WIC program is a federal program, U.S. Department of Agriculture, and all the money that we have put in this forever has been simply federal money, but because of inflation, because of decreases at the federal level, we felt that it was essential with the reduction in caseload that we would be serving fewer than we had in the past. Please understand, we are only serving now about 50 percent of those who are eligible. So this is the first time that state dollars will be put in the program. The money that you see in your budget books, those dollars are federal dollars.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I rise in support of A.B. No. 414. The testimony in Ways and Means was pretty convincing of this shortfall that's in that program. One of the things that really sold me on the idea was that over $3 for every $1 that is put in the program is saved in health care costs down the line. We're talking about newborns, prenatal care and after they are born, they are being helped. This is an extremely important thing for America to get behind and especially our state. Thank you.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Mr. Stout made most of my remarks so I will be brief. I rise in support of this measure. I think it's important however to remember a distinction between the WIC program and other welfare-related programs. And that is, in this instance, what's being given to these folks is food, not some check, not food stamps, something that might be bartered or used in some inappropriate fashion, but actually the food products themselves. That has led to its enormous success and I would urge your support.

ASSEMBLYMAN LITTLE:

Thank you, Mr. Speaker. To you and through you, I don't object to giving money to helping children, etc., but when we are talking about $21 million and we are talking about 15,000 families, that's quite a bit of money, and add an additional $600,000—I have kind of a problem if that money is going for food or if it's going into administration.

ASSEMBLYMAN EVANS:

Mr. Speaker, thank you. Through you and to my colleague, again, from southern Nevada. The money that you are talking about, the $21 million, again, that serves approximately half, only half of the people who are eligible. So again, we're not taking care of everybody who is out there.

Secondly, as I said, there has been a reduction at the federal level, and thirdly, the $300,000 that we're talking about, we asked that precise question in Ways and Means. How much of this will go to some kind of administrative service and the answer was, zero, because everything and everybody who is in place to carry out the program is already there. It will not require additional new hires, new personnel, new office space or whatever. This is strictly a nutrition program for providing food and nutrition and it will all go to direct services.

Assembly Concurrent Resolution No. 102—Commending the Superintendent and staff of the State Printing and Micrographics Division of the Department of General Services for services rendered to the Nevada Legislature.

WHEREAS, The 66th session of the Nevada Legislature created an overwhelming number of bills and amendments during this legislative session, requiring the Superintendent and staff of the State Printing and Micrographics Division of the Department of General Services to work long hours in meeting the needs of the Legislature; and

WHEREAS, The work produced by the Division met the high standards of previous years because of the care that the Superintendent and his excellent staff devoted to every assignment given to them; and

Assemblyman Myrna Williams requested that her remarks be entered in the Journal.

Thank you, Mr. Speaker. Yes, every day when we sit in these chambers, I'm sure all of us are amazed at the efficiency and, if I may use the term, "wizardry" of the Printing Division. We no sooner ask for something than we have it, we see it in the amendments as

they come through rapidly, we see it in our bill books. Clearly, clearly, we would be here much longer, if that's possible, if it were not for the efficiency and excellent work performed by the Department of Printing, the superintendent and all of the staff that works for him. We owe them a debt of gratitude.

Resolution adopted unanimously.

(6) For constructing, purchasing or otherwise acquiring such recreational facilities.

*(d) Use the proceeds of any tax imposed pursuant to this section on the revenues from the rental of transient lodging:*

*(1) To pay the principal, interest or any other indebtedness on any general or special obligations issued by the city pursuant to the City Bond Law, NRS 268.672 to 268.740, inclusive;*

*(2) For the expense of operating or maintaining, or both, any facilities of the city; and*

*(3) For any other purpose for which other money of the city may be used.*

*2. The proceeds of any tax imposed pursuant to this section that are pledged for the repayment of general obligations may be treated as "pledged revenues" for the purposes of NRS 350.020.*

*3.* No license to engage in business as a seller of tangible personal property may be granted unless the applicant for the license presents written evidence that:

(a) The department of taxation has issued or will issue a permit for this activity, and this evidence clearly identifies the business by name; or

(b) Another regulatory agency of the state has issued or will issue a license required for this activity.

[3.] *4.* Any license tax levied under the provisions of this section constitutes a lien upon the real and personal property of the business upon which the tax was levied until the tax is paid. The lien must be enforced in the following manner:

Except as otherwise provided in NRS 268.0966, all information concerning license taxes levied by an ordinance authorized by this section or other information concerning the business affairs or operation of any licensee obtained as a result of the payment of those license taxes or as the result of any audit or examination of the books of the city by any authorized employee of a county fair and recreation board for any license tax levied for the purpose of NRS 244A.597 to 244A.655, inclusive, is confidential and must not be disclosed by any member, official or employee of the county fair and recreation board or the city imposing the license tax unless the disclosure is authorized by the affirmative action of a majority of the members of the appropriate county fair and recreation board. Continuing disclosure may be so authorized under an agreement with the department of taxation for the exchange of information concerning taxpayers.

[5.] 6. The powers conferred by this section are in addition and supplemental to, and not in substitution for, and the limitations imposed by this section do not affect the powers conferred by, any other law. No part of this section repeals or affects any other law or any part thereof, it being intended that this section provide a separate method of accomplishing its objectives, and not an exclusive one.''.

502.040 1. The commission shall adopt regulations regarding the number of license agents to be designated in any locality, the standards to be met by license agents, the manner of remitting money to the department, and the manner of accounting for licenses, tags, stamps and permits received, issued, sold or returned. A license agent's authority may be revoked or suspended by the department for his failure to abide by the regulations of the commission. The agent may appeal to the commission for reinstatement.

2. A license agent designated by the department is responsible for the correct issuance of all licenses, tags, stamps and permits entrusted to him, and, so far as he is able, for ensuring that no licenses are issued upon the false statement of an applicant. (b) Ten cents for each stamp or similar document issued which does not require completion by the agent.

7. Any person authorized to enforce this chapter may inspect, during the license agent's normal business hours, any record or document of the agent relating to the issuance of any such license, tag or permit.

8. All money collected by a license agent, except service fees collected pursuant to subsection 6, is public money of the State of Nevada, and the state has a prior claim for the amount of money due it upon all assets of the agent over all creditors, assignees or other claimants. 3. When any deer hunter kills a deer which he has reason to believe is diseased and unfit for human consumption, he must place his tag on the carcass in the manner provided by law or regulation, but, upon inspection of the carcass by a game warden, the hunter may be authorized by the warden to obtain a duplicate tag without charge if the warden has found by his inspection that the deer killed was diseased and unfit for human consumption. *The warden shall seize and properly dispose of any such deer, including its hide and antlers.*

Assemblyman Callister moved the adoption of the amendment.

Remarks by Assemblymen Callister, Humke and Price.

Assemblyman Humke requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. I rise in support of this amendment. I would like the proponents of the original amendment to know that. I would like to also state for the record, that there is some uncertainty about the language. I haven't found it yet in the amendment but I want to make it clear that it's the intent of a compromise to show that all aspects of the draw for tags will be privatized so long as a bidder can be found. I just want to make that absolutely clear to this body. Thank you.

Amendment adopted.

Bill ordered reprinted, re-engrossed and to third reading.

## MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 65.

Assemblyman Bergevin moved the adoption of the resolution.

Remarks by Assemblyman Bergevin.

Assemblyman Gibbons requested that Assemblyman Bergevin's remarks be entered in the Journal.

Thank you, Mr. Speaker. I move for the adoption of this resolution. I have known Duane Mack all of my life. He was more affectionately known as Scotchie to all of the people of Douglas County, and as the resolution stated, he was a great community man. He was very generous to the community with the things that he had, giving land for the library, for churches, for water wells and other things to the Town of Minden. He also had one of the most beautiful ranches in Carson Valley situated on the East Fork of the Carson River. At one time he was a great producer of alfalfa and timothy hay. The timothy hay that he produced was sold to the Los Angeles markets for the horse racing business. In later years Duane Mack decided to subdivide a portion of his ranch, and if you drive out into Minden today, you'll find that the subdivision is one of the most generously planned and accurately planned of any subdivision you'll find anywhere. It's a first-class operation.

I got to know Duane real well. He was a constant morning man at Sharkey's for a cup of coffee. You could walk in there any morning about nine o'clock and Duane would be there, and he and I would sit down, he having been a former member of this legislature, and talk over some of the things that were going on in this legislature. I enjoyed those talks with Duane, i.e., Scotchie. In the later years of his life, he became rather infirm and was not able to get around, but his spirit was still there. Certainly, he was a man of the community, he was well respected in the community and he will be greatly missed by the community.

Resolution adopted unanimously.

Assemblyman Bergevin moved that the Assembly recess subject to the call of the Chair.

Motion carried.

## INTRODUCTION, FIRST READING AND REFERENCE

By the Committee on Ways and Means:

Assembly Bill No. 818—An Act making appropriations from the state general fund and the state highway fund for the support of the civil government of the State of Nevada for the fiscal years beginning July 1, 1991, and ending June 30, 1992, and beginning July 1, 1992, and ending June 30, 1993; and providing other matters properly relating thereto.

Assemblyman Callister moved that the bill be referred to the Committee on Ways and Means.

## GENERAL FILE AND THIRD READING

Assembly Bill No. 224.

Bill read third time.

Remarks by Assemblymen Myrna Williams, Spriggs, Price, Johnson, Haller, Callister and Little.

Assemblyman Carpenter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. Assembly Bill No. 224, as amended by the Assembly Committee on Ways and Means, revises the household income levels for eligibility for refund of property taxes for senior citizens who are homeowners, as well as those who are renting a home or a mobile home. The senior citizens' property tax assistance program provides relief to eligible senior citizens who are carrying excessive residential property tax burdens in relation to their incomes, and to those seniors who through rent payments pay a disproportionate amount of their income for property taxes. Currently, to be eligible for refund, a person must be a resident of Nevada, have maintained a residence for six months of the preceding calendar year, attained the age of 62 on or before the last day of June immediately preceding the filing period, and have a household income of not more than $15,100. The Executive Budget provided for more equity to senior citizens participating in this program by increasing the levels of household income eligibility to account for public program cost of living increases. Assembly Bill No. 224, as amended, raises the income eligibility level to a maximum household income of $19,000 and revises other income ranges between zero and $19,000 according to the recommendation in the Executive Budget effective July 1, 1991. The Committee on Ways and Means recommends do pass.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I would like to ask a question to you and through you. The Taxation Committee heard this bill first and put in what they thought the limits should be, and now Ways and Means has really raised that a lot higher. I would like to know what the fiscal impact of this new amendment is to the county governments and the schools.

ASSEMBLYMAN PRICE:

Thank you. Actually, we had two bills; one from the administration and one from our colleague from Washoe County on the same subject. The budget was closed with the figures from the administration bill in there, so we amended the administration's figures into Mr. Haller's bill. The fiscal impact, of course, if there is one, is in our fiscal notes book, but that's according to the governor's and the closed budget.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker, for the second time. What we're talking about and what the answer was is the state budget, and I think this has quite an impact on county budget, and that's what I was asking.

ASSEMBLYMAN PRICE:

I can't answer that off the top of my head. We would have to get an analysis from the counties. Normally, on these bills we've passed over the years, the figures that we have had dealt with the budget impact statewide.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I rise in support of this bill. I think the process of giving tax breaks to the elderly is appropriate. I think that at some time we need to review the

property tax system that we have that proposes to give breaks to the senior citizens and gives the tax break to the class of property rather than to the individual who has the demonstrated and documented need, so I encourage the support of this approach.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in support of the bill. What it really amounts to is not a tax cut, it is actually a rebate of money already paid, and it's not total by any means in most cases. The principle has been well-established, it goes back quite a few years, and we have been periodically updating the amount because it's getting tougher, folks. I would say, speaking from the viewpoint of Washoe County Assessor's office, they supported the bill, as did the tax department in the state. The Assessor's office in Washoe finds one problem in that so few people have been applying and they're trying to build it up. It's genuinely important to people who are really on the edge.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. To you and through you to my colleague from Hawthorne. A quick glance at the fiscal note that's in your green fiscal note volume suggests that A.B. No. 224 has no impact on Clark County. It also notes that the Nevada Association of Counties and the Nevada League of Cities report for the rural areas does not have a reflection one way or another.

ASSEMBLYMAN LITTLE:

Thank you, Mr. Speaker. To you and through you to the chairman of that committee. If this is a bill based on need, is there another part of this bill that will be extended to young families that are in this low type of income for some of these credits on tax also?

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. The answer is no.

Assembly Bill No. 548.

Bill read third time.

Remarks by Assemblymen Giunchigliani, Stout and Petrak.

Assemblyman Wendell Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. Assembly Bill No. 548, as amended by the Assembly Ways and Means Committee, provides a general fund appropriation of $38,274 in '92 and $36,444 in 1993 to the Division of Aging Services in order to establish the office of ombudsman for aging persons. The funds will be utilized by the division to provide assistance to persons who are 60 years of age or older and who do not reside in long-term care facilities. Currently the ombudsman program within the Division of Aging Services focuses solely on the health, safety and civil rights issues for elderly Nevadans residing in long-term care facilities. Assembly Bill No. 548, as amended, addresses the needs of senior citizens who may be active in the community, as well as the seniors who are without resources and may be homebound. The ombudsman program as outlined in A.B. No. 548 will assist senior citizens through coordination of resources and services within their respective communities. Other assistance provided in A.B. No. 548 includes the development of a centralized data base consisting of information of interest to aging persons and a publication as a reference guide of programs available to seniors in each community. The general fund appropriation provides for one staff ombudsman and associated equipment and travel costs. Order of Business No. 15.

Thank you, Mr. Speaker. The concept of this bill was generated from a senior citizens' task force that I formulated in my district. The task force is chaired by Mr. Bart Rivers, and the current members are Audrey Thomas, Joan Urbantke, Emery Davis, former Congressman Berkeley Bunker, and Richard Bentley. We felt the senior citizens of Nevada needed an ombudsman to cut through the red tape and help them to network with each other. There are many services for seniors, but there does not seem to be anyone that can coordinate the federal, state and local programs. By having one person to call, we can better ensure that these services are not duplicated and that they are more efficiently

handled. With the large number of seniors moving into Nevada, it is absolutely necessary that the aged have someone to assist them. This bill also calls for a directory or guide to be put together for use in each of the counties. This bill was not in the governor's budget; however, I would submit that for a total cost of less than $75,000 we will be funding a program which will provide a direct service to the senior citizens in our state. It will allow them to be self-sufficient and be able to live in dignity. If we can buy an airplane for $450,000 when it wasn't in the budget, we surely can spend $75,000 for the people who have worked hard and contributed to our community. Your committees on Health and Welfare and Ways and Means recommend a Do Pass.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I reluctantly rise in opposition to this. I think that we've got to start holding the line some place on this budget. Although the idea is well thought out, I have been a member of RSVP and other senior citizen advisory councils in Henderson, and I know that we have adequate information for anyone who would care to find out the programs. I think this is just another duplication of services, and I think we can do without it. I urge you to vote against it. Thank you.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. I rise in support of this legislation, very important. As the Assembly member of the Nevada Committee on Aging, at the last meeting that we had—of course, the folks on that committee were up here and you were introduced to them—we discussed fully this particular subject and they felt there was a great need in the state. I certainly stand here in recommendation that you consider supporting this legislation. Thank you.

2. All interest and income earned on the money in the fund must be credited to the fund after deducting any applicable charges.

3. The state controller shall distribute the money in the fund monthly among the several local governments in the county that are eligible to receive a distribution of the revenue from the supplemental city-county relief tax, including the county, in the proportion which the basic ad valorem revenue of each local government bears to the total basic ad valorem revenue of all these local governments.

4. As used in this section, "basic ad valorem revenue" has the meaning ascribed to it in NRS 377.057.

Sec. 29. 1. Except as otherwise provided in section 33.4 of this act and in addition to all other sales and use taxes, the board of county commissioners of Churchill, Elko, Humboldt, Lander and Washoe counties and the board of supervisors of Carson City may by ordinance, but not as in a case of emergency, impose a tax at the rate of up to 1/4 of 1 percent of the gross receipts of any retailer from the sale of all tangible personal property sold at retail, or stored, used or otherwise consumed in the county.

2. The tax imposed pursuant to this section applies throughout the county, including incorporated cities in the county.

3. The ordinance enacted pursuant to this section must include provisions in substance as follows:

(a) Provisions substantially identical to those of the Local School Support Tax Law, insofar as applicable.

(b) A provision that all amendments to the provisions of the Local School Support Tax Law subsequent to the date of enactment of the ordinance, not inconsistent with this section, automatically become a part of the ordinance enacted pursuant to subsection 1.

(c) A provision that the county shall contract before the effective date of the ordinance enacted pursuant to subsection 1 with the department to perform all functions incident to the administration or operation of the tax imposed pursuant to subsection 1.

4. All fees, taxes, interest and penalties imposed and all amounts of tax required to be paid to the county under this section must be paid to the department of taxation in the form of remittances made payable to the department of taxation.

2. The total amount of revenue estimated to result for any fiscal year from the imposition of a license fee pursuant to the provisions of this section must not exceed the total amount of revenue estimated to result for the same year from the imposition of all taxes imposed in the county pursuant to sections 29 to 33, inclusive, of this act, multiplied by a fraction, the numerator of which is the total gaming license fees collected by all local governments in the county, including the county, for the fiscal year 1990-1991, and the denominator of which is the general fund revenues of the county and any incorporated cities in the county for the fiscal year 1990-1991.

3. The tax imposed pursuant to this section applies throughout the county, including incorporated cities in the county.

4. The proceeds of the tax imposed pursuant to this section must be deposited with the state treasurer for credit to the tax distribution fund for the county in which it was collected.

The amount of tax must be computed on the basis of the value of the transferred real property as declared pursuant to NRS 375.060.

2. The ordinance imposing the tax must include:

(a) Provisions substantially identical to those contained in chapter 375 of NRS, insofar as applicable; and

(b) A provision that all amendments to chapter 375 of NRS after the date of enactment of the ordinance, not inconsistent with the chapter, automatically become a part of the ordinance imposing the tax.

2. The provisions of NRS 354.59811 do not apply to a tax levied pursuant to the provisions of this section and the tax must not be considered in determining the allowed revenue from taxes ad valorem for the county or any local government therein.

3. Notwithstanding the provisions of NRS 279.676, no portion of the taxes imposed pursuant to this section may be distributed to a redevelopment agency.

4. The county treasurer shall deposit the proceeds of the tax levied pursuant to the provisions of this section monthly with the state treasurer for credit to the tax distribution fund for the county in which it was collected.

Sec. 33.2. 1. As soon as practicable after the effective date of this act, the executive director of the department of taxation shall make an estimate of:

(a) The difference between the total amount of revenue from the proceeds of the supplemental city-county relief tax that would be distributed to the local governments in Carson City and Churchill, Elko, Humboldt and

Lander counties, including the county, without the reductions required by the provisions of paragraph (c) of subsection 2 of section 22 of this act for fiscal year 1991-1992 and paragraph (c) of subsection 1 of NRS 377.057 for fiscal years 1992-1993 and 1993-1994 and the total amount of that revenue that will be distributed with the reduction required by those provisions;

(b) The difference between the total amount of revenue from the proceeds of the supplemental city-county relief tax that would be distributed to the local governments in Washoe County, including the county, without the provisions of this act for the fiscal years 1991-1992, 1992-1993 and 1993-1994 and the total amount of that revenue that actually will be distributed to the county; and

(c) The amount of proceeds that would be derived from each of the taxes imposed pursuant to sections 29 to 32, inclusive, of this act, if those taxes were imposed at the maximum authorized rates.

2. The department of taxation shall provide to the board of county commissioners of Churchill, Elko, Humboldt, Lander and Washoe counties and the board of supervisors of Carson City, any additional estimate that is requested by the board and necessary to carry out the provisions of this act.

Sec. 33.4. The governing body of any county in which one or more of the taxes authorized by sections 29 to 33, inclusive, of this act have been or will be imposed:

1. Shall, on or before September 1, 1991, adopt a plan to replace the reduction in the amount of proceeds of the supplemental city-county relief tax estimated for that county pursuant to paragraph (a) or (b) of subsection 1 of section 33.2 of this act for fiscal years 1991-1992, 1992-1993 and 1993-1994. The plans may include one or more of the taxes authorized by sections 29 to 33, inclusive, of this act, but the total amount of revenue estimated to result from the imposition of all taxes imposed pursuant to sections 29 to 33, inclusive, of this act must not exceed the estimate made by the department of taxation of the reduction in the amount of proceeds of the supplemental city-county relief tax estimated for that county pursuant to paragraph (a) or (b) of subsection 1 of section 33.2 of this act for the fiscal year during which the plan is to be in effect.

2. Shall fully implement the plan adopted pursuant to subsection 1 for fiscal year 1991-1992 on or before October 1, 1991.

3. May revise the plans adopted pursuant to subsection 1 for the fiscal years 1992-1993 and 1993-1994 on or before the June 30 immediately preceding the fiscal year during which the plan is to be in effect.

4. Shall not, after June 30, 1994:

(a) Except as otherwise provided in subsection 5, decrease any of the taxes imposed pursuant to sections 29 to 33, inclusive, of this act unless all of the local governments that are entitled to receive a monthly distribution from the tax distribution fund for the county agree to the decrease.

(b) Increase the rate of any tax imposed pursuant to sections 29 to 33, inclusive, of this act.

5. If necessary to avoid violating the provisions of subsection 2 of section 31 of this act, the governing body of the county shall reduce the

amount of the license fee imposed pursuant to section 31 of this act by the minimum amount necessary to comply with the provisions of subsection 2 of section 31 of this act.

Sec. 33.6. 1. On or before May 31, 1994, the department of taxation shall make an estimate of the total amount of proceeds that will be derived in Washoe County from each of the taxes imposed pursuant to sections 29 to 33, inclusive, of this act in fiscal year 1994-1995.

2. On or before June 30, 1994, using the estimate prepared pursuant to subsection 1, the board of county commissioners of Washoe County shall reduce the rate of one or more of the taxes imposed pursuant to this act if necessary to maintain the estimated revenue from all taxes imposed pursuant to sections 29 to 33, inclusive, of this act at or below an amount equal to $3,366,720 less than the amount determined for the fiscal year 1993-1994 pursuant to paragraph (b) of subsection 1 of section 33.2 of this act.

Sec. 34. 1. The department of taxation shall provide estimates of the amount by which the proceeds from the supplemental city-county relief tax that will be distributed pursuant to the provisions of this act for any local government in any fiscal year will exceed the amount that it would have received without the provisions of this act in the same fiscal year.

2. Using the estimates provided by the department of taxation pursuant to subsection 1, the governing body of each local government that will receive more proceeds from the supplemental city-county relief tax pursuant to the provisions of this act in any fiscal year than it would have received without the provisions of this act in the same fiscal year shall hold a public hearing on the use of the additional proceeds before any portion of the additional proceeds is expended.

3. The governing body shall publish notice of the hearing not less than 5 nor more than 10 days before the date of the hearing in a newspaper of general circulation in the county. The notice must be at least equal in size to one-quarter of the size of a normal newspaper page and must include:

(a) The date, time and location of the hearing;

(b) The amount of additional revenue resulting from the provisions of this act;

(c) The effect upon property tax rates if the additional revenue stated pursuant to paragraph (b) were used to reduce property taxes; and

(d) The proposed use of the money.".

Amend sec. 38, page 28, by deleting line 26 and inserting:

"Sec. 38. 1. Section 17 of this act becomes effective on July 1, 1991.

2. This section and all remaining sections of this act become effective upon passage and approval.".

Amend the bill as a whole by deleting the preamble and adding a new preamble, preceding the enacting clause, to read as follows:

"WHEREAS, In 1981, the Nevada Legislature substantially revised the laws governing the financial structure of the local governments of this state; and

WHEREAS, As part of that revision the supplemental city-county relief tax was imposed at the rate of 1.75 percent of taxable sales and a formula was enacted which allocated the revenue from that tax among the local governments; and

WHEREAS, The amount of property taxes that each local government was allowed to receive was reduced by an amount equal to the amount of revenue from the supplemental city-county relief tax that was allocated to that local government; and

WHEREAS, Various other controls were also instituted that limited the amount of revenue which could be received by a local government; and

WHEREAS, The formula for the distribution of the supplemental city-county relief tax was based upon the replacement of equal amounts of property tax revenue and did not attempt to return a particular portion of the proceeds of the sales and use tax to the area in which they were collected; and

WHEREAS, This legislature hereby finds and determines that it is more equitable to distribute the revenue from the supplemental city-county relief tax to the counties in which it was collected and to counties in which the persons who pay the tax may reside; and

WHEREAS, The changes in the formula to accomplish the new goals necessitate changes that are different for each county and will cause shortfalls in revenue in some medium-sized counties which must be made up with new tax revenue; and

WHEREAS, It is in the best interests of this state to continue to limit the total revenues received by local governments and therefore it is necessary to authorize new taxes only for certain medium-sized counties to retain the balance and ensure equity and fairness in taxation throughout the state; and

WHEREAS, The legislature finds and declares that a general law cannot be made applicable to the situation because of the economic diversity of the local governments of this state, the unusual growth patterns in certain of those local governments and the special conditions experienced in certain counties related to the need to provide basic services; now, therefore,".

Amend the title of the bill, fifth line, by deleting "Washoe County" and inserting "certain counties".

Assemblyman Giunchigliani moved the adoption of the amendment.

Remarks by Assemblymen Price, Johnson, Carpenter, McGinness, Marvel, Stout, Sader, Giunchigliani and Elliott.

Assemblyman Wong requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. Amendment No. 1097, to A.B. No. 104, is the product of your committee. Some of it I shared with you the other day. A major, and a very important part had to do with the flow chart that I put on your desk that provides the mechanism for Washoe County, who is the most obviously, the impacted county, to be able to look at various options for raising taxes to make up for their loss. The impact of this particular version that you are looking at, will be some $13,924,000 to Washoe County. As you will recall, the various plans that you've heard talked about in the newspaper, and the reports back from your committee, and so forth, have ranged all the way from actually $27

million down to $3 million and back and forth. The amendment sets up how they will regain, or at least the options that they have for regaining the money and the distribution that will be made among the various counties. There are provisons in there that require, they are not a "shall," that require the county commissioners to hold public hearings, noticed, so that the citizenry will have an opportunity to come and speak their mind as to what various combination and/or perhaps reducing budgets, or whatever the case may be, but the citizen will have ample opportunity for input into the decisions that will be made by the county commissioners.

It is structured so that the county commissioners will, in fact, make the decisions, but the money will eventually flow back to all of the affected districts—the various cities, the special districts, and so forth. I think I'll take questions if there are any.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. The question that I have is the basis for this reallocation. Does this take into account the legal, legislative, statutory statement of the taxes collected in the county or is it some arbitrary, other basis of taxes allocated to the county?

ASSEMBLYMAN PRICE:

I certainly need not tell you, because we've all been reading about it in the paper, that there has been much discussion as to the collection and the allocation method over the last 10 years. This particular plan is based on the formula that has been used for the last 10 years, the SCCRT formula, and it would continue that on. There, as you have read in the paper and we have discussed at different times, there are other types of formulas that, in fact, you can do anything you want to when you are dealing with formulas and dollars. This particular bill, which was the judgment of your committee, at least the majority, which by the way didn't include myself, but I want to present it fairly. This particular amendent to the bill is figuring everything based on the SCCRT formula as it has been in effect for the last 10 years. It does not follow the other formula that we have talked about, the LSST, and all the other things. The judgment was to continue with the formula that we have used.

ASSEMBLYMAN JOHNSON:

I take it then that the tax is an adjusted formula. As you say you can do a lot of things to the adjustment of the formula, but I was questioning about the basis. My understanding is that the basis is not upon total sales taxes that are collected in the county, but upon some adjusted basis thereof.

ASSEMBLYMAN PRICE:

I don't think I can say anymore than I have. It is based on the exact same formula that we have been using, and there has been, understandably so, suggestions and recommendations and good arguments made, or arguments made I should say to change the formula because of exportation of people coming in and buying a piece of equipment, and having it registered outside the Washoe County area, and so forth. But this is the same formula that has been in place for 10 years.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. To you, and through you to my colleague from southern Nevada. Does this amendment provide that five rural counties would pay approximately $4 million per year to Washoe?

ASSEMBLYMAN PRICE:

Yes. Thank you, Mr. Speaker. I will be exact in the Washoe adjustment. To the detriment of Carson City, using, and when I use the word "detriment," I wish to qualify that as compared to the original A.B. No. 104 amended and so forth. Using that as the baseline, the loss to Carson City will be $685,356; from Churchill County, $680,168; it will benefit Clark County $21,647; it will be to the detriment of Elko to the figure of $1,604,854; to Humboldt County, $1,009,107; and to Lander County, $49,606. Now, let me qualify, because the arguments are made on both sides, the counties that I have just mentioned, with the exception of Lander, what it really represents, what it does in fact represent, is under the other plan, they would have received this much more dollars. And, I don't want to debate—I took my vote on this and I indicated, I opposed it, but I do want

to try and explain the whole thing properly. So, those counties will not be going negative, but for the most part those are counties who, during the past 10 years, have been exporting dollars, I think I want to say $27 million, I'm really going off the top of my head now, from here in Carson and, anyway, millions of dollars that have been exported, including Clark County, of course, exported to the rest of the state, of which the majority of those dollars did, in fact, end up in taxing districts in Washoe County. And that is the very tough situation that Washoe County is going to have to deal with, because under any of the scenarios that we have talked about, once you go back to whatever you want to call it, "fair share," or "raising the dollars and supporting yourself in your county," or whatever, no matter what you call it or how we work it, it will, it is going to mean that the citizens in Washoe County are either going to have to reduce services, probably beyond the level that I could imagine they could do, or they're going to have to use some of the options that we have provided for them.

ASSEMBLYMAN MCGINNESS:

Thank you, Mr. Speaker. I'm going to have to speak against Amendment No. 1097 to A.B. No. 104. A couple of the counties that I represent, Churchill and Lander counties, are going to be drastically affected by this. Churchill County officials have represented to me in the last 10 years that we've exported $4.58 million, and for a county of about 18,900 people, that is a lot of money. We could have used that to lower taxes, build roads, or maybe even build an administration office so that we could move out of that converted Baptist church that was donated to us. I think fair share has to be fair to all of us, and the rurals have to be included. The path of least resistance was taken in this process, and that path was out in the rural counties. Churchill County would be better served under the original version of A.B. No. 104, where 97 percent of the taxes originated in that county would be returned to that county. Under this amendment, we get back 73 percent. I think that just continues the problem we've been having. I support the change in the formula, because I think it will put everybody back where they should be.

It's also been represented to me that the ability to go out and raise those additional taxes is out there; you can go to the people. I think that's kind of like a mugger mugging you on Saturday night, but telling you I'm going to let you live so you can go back to work on Monday morning.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I, too, rise in opposition to the amendment for the reasons stated by my colleague from Fallon. Humboldt County is one of the major counties in my district, and it will only receive back 74.5 percent, and it loses over $1 million from the original version. Plus the fact Lander County, which I partially represent along with Mr. McGinness, will be left in somewhat of a vacuum in the event that they lose their exporting status, there would be absolutely no guarantee of being held harmless. So, those are the reasons I will also have to oppose it.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I, too, rise in opposition to this amendment. I voted against it in the committee, and for the reasons that have been stated. But I also want to remind people that there wasn't a lot of evidence presented to change the formula from the original that we discussed early on, that held the small counties as previously done. It was an idea that was presented to make it so that it wasn't that difficult on Washoe, and I think that since we're talking about the taxes that were imported and exported from various counties, that the original was the right way to go, and I think this amendment is the wrong way to go.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I rise in support of Amendment No. 1097. I'd just like to make a couple of quick points. Those of us in Washoe County, from Washoe County, look at this whole fair share issue as not fair at all. We'll explain that more fully on General File. But, the legality of financing in this state, is that the urban counties support the rural counties in many, many ways, in many of the tax schemes through the distribution of generation and support and distribution. The fallacy of this whole argument is to take one particular tax, and analyze how it's generated and how it's distributed and call that fair,

without looking at all the other taxes. And this particular amendment beautifully illustrates that because there are many ways that Washoe County, as well as Clark County, supports the rural counties in the distribution of revenues coming out of the urban areas. The second point I want to make is that this whole fair share issue, while you may conceptually organize it in your own mind and intellectualize the fairness, as you go through the argument, this whole issue is devastating for Washoe County. The amount of reduction in services or increase in taxes for one county to bear the full load of this is very, very difficult. This amendment, at least, reduces that burden to some extent.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I have a question to you and through you to the Chairman of Taxation. My question is, I believe, and I don't have my document with me, I'd like to know exactly under this amendment how much Clark County will return, and the five counties that you noted. Under this amendment, how much Clark County will receive along with Churchill?

ASSEMBLYMAN PRICE:

Under this particular amendment here, Carson City, and I'll start with Carson City, would be losing the $600+ thousand. They would, in fact, be receiving $7,311,253.

MR. SPEAKER:

They'd have a gain over what they're getting now?

ASSEMBLYMAN PRICE:

Yes. We're talking gains over what they are getting now. And in each of those cases, in Churchill it's a little over $2 million. In Clark County, I think I'm reading from the wrong line, wait a minute, let me back off. Let me back off. I'm going to start again. Carson City would receive an additional, above what they receive now, $883,936. Churchill would receive $28,780. Clark will receive $8.9 million. Elko will receive $2.9 million, and Humboldt will receive $319,000, and the rest of the counties zero out and it will be to the detriment of Washoe County at $13,183,924.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in opposition to Amendment No. 1097. In Elko County we have been contributing to the other counties ever since the inception of the plan that was implemented in 1980. We first started out collecting 80 percent of our taxes. In the last two or three years, we have got down to less than 50 percent—44 percent. Our county government has not been able to keep up with the demand. We have a double whammy in Elko County. The people live in our county, but they work in Eureka County and Eureka County gets the benefit of the large industrial tax base. So, it's up to Elko County to provide those services. Our population has almost doubled in the last five years, yet we've been able to only put on our county forces about 8 percent more people. The people that we've been able to put on, and the extra money that we have been able to gain, we've had to put in the area of law enforcement and judicial, because that's where the big, immediate problem is. When you have a doubling of your population in construction workers, they hit you hard, and you've got to keep law and order. So, that's what we've had to do in Elko County. Our libraries, services like this, have just, you might say, gone to pot. In Elko County, we have no parks, we have no welfare, only what the state mandates. Elko is a conservative county. When we went into this, we had the lowest tax rate of any county in the State of Nevada, and when we were getting the 80 percent back, we were able to make do. But now, we cannot, and to continue to take another $1.6 million from our county I don't think is fair. We know it's a big hit on Washoe County. But we are willing to pay our share to help Washoe County during the initial stages of this situation. Under A.B. No. 104, as it's presently written, Elko County would be giving up $2+ million, to help Washoe, and we're glad to do that, because we understand what it is to have to reduce your services. But I think it must be remembered that Washoe County is a large county. Even under the current situation that they recommend, they're getting $34 per capita more than we are. They're getting almost over $100 more than Churchill County is. And I think this is what counts, because you have to pay for services on a per capita basis. We feel that 104 as it's presenty written, without this amendment, is a fair way to go. In addition to the

$4 million that the five rural counties would be giving, we also would be giving approximately another $788,000 to help our other rural neighbors remain whole, and we don't mind that. We know that we have to do that. So, Clark County would be contributing about $5 million to the other rural counties to keep them whole. Our other five rural counties would be putting up approximately $800,000. So, we really feel that this amendment is not fair, but we're willing to do our share, but not forever, to help Washoe County over this phase-in period.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. Through you and to you, I'd like to ask the Chairman of the Taxation Committee what this export means. Can you define the meaning of "export" for me?

ASSEMBLYMAN PRICE:

Thank you. In the concept of the formula that has been used for 10 years, it talks about sales tax dollars that are raised in a particular county, and in the five counties that are majorly affected here, the money is sent to—at least a portion of the money—is sent throughout the state to help what normally might be thought of as the least fortunate counties. The formula with respect to Washoe County, I must tell you, has done, and it worked pretty well for about the first five years, I would say, or six years, as it was designed to. It was initially designed to help counties, cities and taxing districts to replace money that was taken away from them when the tax shift came about, and the property tax was reduced so much in 1981. Under the formula as it works now, those areas—and certainly Elko, Las Vegas, Carson City, Douglas has kind of gone back and forth—those areas that have strong economy with good sales tax, lots of growth and so forth, obviously raise more sales tax dollars per capita than those counties who choose the policy of no growth or slow growth, as Washoe County has over the years. I don't have to tell you that that's a very hot political issue. But, to some small degree, not totally, it can be said that you can afford to have slow growth or no growth if someone else is shipping money into the county to help maintain those necessary items. Now these are all debatable things, certainly good debates on both sides. But, as I view it, I and my colleagues, there's probably four or five of us and Mr. Speaker, were here and debating this 10 years ago, but export simply means raising money, SCCRT money, which is 1¾ cent of our sales tax, raising money in one area and part of it being sent to another area to help finance their needs.

ASSEMBLYMAN ELLIOTT:

Through you to chairman of the Taxation Committee, I'm still a little confused. I guess what I'll try to do is walk this through for my own edification, and if I'm incorrect with this, if you'll, if you would correct me. As I understand it, the way the present SCCRT works is that if somebody in Mr. Carpenter's territory out there in the north forty, east forty, were to buy a piece of equipment in Washoe County or in Reno, because there's no particular vendor for that piece of equipment in Reno, then the sales tax on that is applied in Reno. However, should that person take delivery, in other words a window through, it follows the person, if that person takes delivery of that piece of equipment in Reno, the sales tax would then become a part of Washoe County's factor. However, if the person were to take delivery of that piece of equipment in Elko, then the Elko resident that took delivery that's where the tax money would be sent to. Is that correct? The window follows the purchaser, so the tax money . . .

ASSEMBLYMAN PRICE:

The registration in some cases. There is an argument to be made, and you are correct, that there are some areas where the sales could be made in Washoe or made in Clark, but it might, depending on the bookkeeping system of who is doing it, and registration and so forth, show up in another county.

ASSEMBLYMAN ELLIOTT:

So, Mr. Speaker, may I continue? So, if somebody in Lovelock, where there doesn't exist any of these vendors, comes to Reno and buys that and forgets to say, "Hey, send this tax money over to Lovelock, by the way," then the accounting system in Reno or

anywhere else in the state, Clark County included, would automatically apply that sales tax to that entity, which it might be, in this case, it could be and, in fact, it probably has been, Washoe County because the system works here. This is where the vendors are, as well as your other large counties in the state. Is that correct?

ASSEMBLYMAN PRICE:

Same scenario that you're talking about is the potential, and you will hear some complaints from Washoe County, from Douglas County, who a lot of people come over here to shop and various other things, that the potential for what you are saying is correct.

ASSEMBLYMAN ELLIOTT:

So, the real culprit here is not only the formula, but the citizens who are forced to go somewhere else to buy their goods. Is that right?

ASSEMBLYMAN PRICE:

I don't know if you would—I would hesitate to call it a "culprit." Let me say that you can—our money people, the money crunchers—the figure crunchers—can design any type of a distribution system that we ask them to. And as was indicated by our distinguished Chairman of Judiciary, we do, in fact, use various scenarios, various formulas, for different parts of the tax plan of our state. And it has, as a matter of fact, been suggested—and I think a very good suggestion—in committee, that perhaps that in itself should be a subject matter for an interim study during this next period. But, whether it's fair, a culprit, or anything else, it truly is in the eyes of the beholder. The only thing that I can tell you is that the figures that you are looking at here are calculated on the exact same formula that has been used for 10 years. And there certainly were arguments made to change the formula in figuring these and so forth, but that was not what came out of your committee.

ASSEMBLYMAN ELLIOTT:

So, we're basically penalizing the county because people come here in a region from all over the state to buy things and the sales tax accrues here, but now that particular county is guilty for applying a formula that was set in 1981, and they did it in no different way or different from any other county?

ASSEMBLYMAN PRICE:

No guilt, and I don't think anyone should characterize Washoe County as being guilty. I think, as I've indicated, it is simply a method that has been used for this particular tax for 10 years and it's one of several methods that are used in different things, and the figures are before you. And I do not choose to say—and I particularly but I do choose to say that we cannot characterize Washoe County as having done anything wrong. They have done exactly what the law said. However, in the opinion of some people, the formula worked for a number of years, and then due to the rush in gold mines, the discovery of the new methods of doing gold and the tremendous growth in Las Vegas and some other areas, it became—some of us felt that it needed to be changed.

Assemblymen Porter, Arberry and Garner moved the previous question.

Motion carried.

The question being on the adoption of Amendment No. 1097 to Assembly Bill No. 104.

Assemblymen Marvel, Gibbons and Carpenter requested a roll call on Assemblyman Giunchigliani's motion.

Roll call on Assemblyman Giunchigliani's motion:

YEAS—24.

NAYS—Bayley, Carpenter, Gibbons, Goetting, Gregory, Hardy, Heller, Little, McGaughey, McGinness, Marvel, Pettyjohn, Price, Scherer, Spitler, Stout, Wong, Mr. Speaker—18.

The amendment having received a majority, Mr. Speaker declared it adopted.

The following amendment was proposed by Assemblyman Heller:

Amendment No. 1098.

Amend sec. 7, page 11, between lines 5 and 6 by inserting:

"*10. For the fiscal year 1991-1992, the revenue required by the approved final budget of each local government in the following counties that is eligible to receive a portion of the proceeds of the supplemental city-county relief tax, including the county, must be reduced by a portion of the following amount listed for the county in which the local government is located in the proportion which the basic ad valorem revenue of each local government bears to the total basic ad valorem revenue of all the local governments in the county:*

| | |
|---|---|
| *Carson City* | *$353,575* |
| *Clark* | *3,593,498* |
| *Elko* | *1,187,096* |
| *Humboldt* | *127,890* |

*11. For the fiscal year 1992-1993 and each fiscal year thereafter, the revenue required by the approved final budget of each local government in the following counties that is eligible to receive a portion of the proceeds of the supplemental city-county relief tax, including the county, must be reduced by a portion of the following amount listed for the county in which the local government is located in the proportion which the basic ad valorem revenue of each local government bears to the total basic ad valorem revenue of all the local governments in the county:*

| | |
|---|---|
| *Carson City* | *$707,149* |
| *Clark* | *7,186,995* |
| *Elko* | *2,374,192* |
| *Humboldt* | *255,780* |

*12. The tax rate necessary to produce the revenue required by the approved final budget of each local government whose required revenue is reduced by subsections 10 and 11 must be correspondingly reduced.*

*13. Any reduction in revenue from taxes ad valorem required by subsections 10 and 11 must not affect the allowed revenue from taxes ad valorem in subsequent years.*".

Amend the bill as a whole by adding a new section designated sec. 25.5, following sec. 25, to read as follows:

"Sec. 25.5. 1. For the fiscal years 1991-1992 and 1992-1993, the following amount for each county must be subtracted from the allowed revenue from taxes ad valorem of the local governments in the county that are eligible to receive a distribution of the revenue from the supplemental city-county relief tax, including the county, in the proportion which the basic ad valorem revenue of each local government bears to the total basic ad valorem revenue of all these local governments:

| | |
|---|---|
| Carson City | $353,575 |
| Clark | 3,593,498 |
| Elko | 1,187,096 |
| Humboldt | 127,890 |

2. The decreases made in each of the fiscal years pursuant to subsection 1 are cumulative and must be included in the basis for the calculation of the allowed revenue from taxes ad valorem in all future years.

3. As used in this section, "basic ad valorem revenue" has the meaning ascribed to it in NRS 377.057.".

Amend the title of the bill, fourth line, after the semicolon, by inserting: "requiring a decrease in the actual and allowed revenue from taxes ad valorem of certain local governments;".

Assemblyman Heller moved the adoption of the amendment.

Remarks by Assemblymen Heller, Myrna Williams, Gregory, Price and Petrak.

Assemblyman Wong requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HELLER:

Thank you, Mr. Speaker. I move for the adoption of Amendment No. 1098 to Assembly Bill No. 104. I am assured that the majority of the people here in this room understand what this amendment does, but I'll go through it briefly.

Basically, what it does is take those counties that receive a windfall of new taxes—those counties include Carson City, Clark, Elko and Humboldt. What it does is divide this windfall up from 80/20—80 percent going to the taxpayer as a reduction in property tax and 20 percent going to the counties to use at their discretion in their budgets. Some people question why sales tax dollars would go to property tax dollars, and I guess that's just simply an understanding of local government finances, simply being that there's two major sources of revenue into these counties, one of them being sales tax and the other being property tax. Those counties that are currently exporters are subsidizing on the backs of property tax holders their revenues so that their particular county can function. My effort in this particular amendment is to say that those counties that are receiving a windfall of new sales taxes would then proportionately give back to the property tax owners that are currently subsidizing a reduction that is comparable. Mr. Speaker, can I go to Order of Business 15?

Thank you, Mr. Speaker. Last year, as a first-time candidate for the Nevada Assembly, I made a commitment to listen, to learn and to then represent the constituents of Assembly District 40. As a freshman, there is much to learn about procedures, public policy, as well as legislative politics, and it is my good fortune that I am able to live and work in Carson City both to represent and reside at the same time in the same place. This unique context has afforded me an opportunity on weekends to walk various neighborhoods and to hear the concerns, as well as the reactions, to specific legislative issues during the session. I must say, parenthetically, that on several occasions various assembly colleagues have expressed their regret that geographical logistics prevent them from such an opporunity for such interaction with their constituencies. These walks are important because they assist me in evaluating what I hear in the legislative halls as compared to what I hear in the neighborhoods, and all too frequently, but yet with justification, numerous constituents define politics in the same tenor as did Ambrose Bierce when he said, "The conduct of public affairs for private advantage." It is my hope, as members of the assembly, that we can today successfully challenge this view. My purpose in proposing this amendment, which I might add, was in the original bill, is to return some monies where we can this session to taxpayers for a change rather than to local governments. My additional purpose is also to try to help us address the widely held view that the legislature is too often seen just as an affair with another organized interest, even the intensely organized interest of local governments. It is my obligation, therefore, to ask you to take a special note that in the original bill, Section 3, subsection 9 stated, "The Department of Taxation shall reduce each local government's allowed revenues from taxes ad valorem in the next fiscal year following the receipt of any new revenues." Why, during the legislative process of this bill, was this language deleted? Why do the taxpayers become a secondary concern while

some local governments become the primary concern? Is there a relationship with the deletion of this language and an army of local bureaucrats and local governmental lobbyists storming the halls of this legislature? Do many of our constituents have Bierce's view of politics because voters accurately envision the legislative process to include publicly-funded individuals working to pigeonhole members of this assembly to vote against returning any tax monies to the taxpayers? It is possible that local, well-meaning government bureaucrats are viewed by an increasing number of our constituents as simply self-serving, i.e., seeking advantage at the expense of public service. These, in my opinion, are some of the right questions. Admittedly, these are some tough questions. These are the questions, I suspect, our public is waiting for us to ask and to answer this session. Few of our constituents are ever in these legislative halls, they are too busy with the work of life, including the work of paying taxes. They know, however, we as members of the assembly work and live in an isolated and insulated environment, especially as the session continues to lengthen day by day. Most of the people who voted for or against this hold the view that we are to withstand the pressures for and the temptations of governmental excesses. Nevadans have a belief that our purpose, as members of the assembly, is to represent people, not government. It was Thomas Jefferson who said in 1824, "People by their constitution are naturally divided into two parties, those who fear and distrust the people and wish to draw all powers from them, and those who identify themselves with the people and have confidence in them." By introducing this amendment, I have placed myself amongst the latter party. I have confidence in the people that I represent, and I would hope that you would show your constituents that you do too by supporting this amendment.

I have a couple of letters that I have received I have received numerous letters and telephone calls around this state. I would like to read a couple of them to this body. "Dear Mr. Heller: In regard to your amendment to A.B. No. 104, I would like to think that you will remain strong in your convictions. Please, it is time we, the overburdened citizens, get a tax break. Sincerely, Ann Lindstrom," from Las Vegas. "Dear Mr. Heller: I am sorry to bother you at this very busy time, but I needed to write this letter. Your amendment to the "Fair Share" bill has been the center of focus both at work and home, and we applaud you for your efforts. Please stick to your guns and don't give up. The taxpayers are counting on you. Sincerely, Helen Constanza" from Las Vegas, Nevada. My effort in this amendment is a philosophical question, and that philosophical question is who are we going to represent today, and we have two choices. We represent the government, the local governments, or we represent the people, and I choose the people.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in opposition to this amendment. Order of Business 15. First I would like to take exception to this being characterized as being a windfall. It's not. I also take exception to my colleague from Carson City's statement of representing the people and not local government. As far as I am concerned, local government is the people. I happen to live in a district that has the most apartments in the State of Nevada. Those people are the people that pay SCCRT. SCCRT is not property tax money. To give back money to help with local governments and make sure that only large property owners—I think the chairman of Taxation has a breakdown on who would receive the property tax break—is wrong. It's wrong, it's cheating hundreds of thousands of renters, it's cheating young families, it's cheating the people who need the services—the children, the seniors, the handicapped—the infrastructure needs of various counties who have not had enough money to take care of them. They finally have a chance because of the taxpayers who have been paying the taxes to pay for those services, the sales tax payers, that they finally have an opportunity to redress and assist them with some of the needs that have gone unmet in many of our counties, particularly the exporting counties. To suggest for one minute that local governments do not represent the people is specious, it does not speak well of us as citizens, we are the ones that elect local government. If we feel that local government is not representing us, we better change our local government. We better get out there and vote and change our local government. Now you may have that opinion. I think that my county represents me. I think that my county is looking to provide for a family court. I think that my county is overburdened in the area of indigent care. I know

that when I walk my district the people in the apartments need services, they need extra assistance with low cost or subsidized housing for seniors, and the county has a five-year waiting list. Those are the people that I think need to be helped. I do not think that the big business, the major property owners in this state, have the same needs, nor do they pay this money in. So, I rise in strong opposition to this amendment.

ASSEMBLYMAN GREGORY:

Thank you, Mr. Speaker. I rise in support of Amendment No. 1098, proposed by my colleague from Carson City. After the last speech from my colleague from District 10, I think I'll give my whole checkbook to the county, and let them spend all of my money for me. The issues are quite simple for me, Mr. Speaker. We all know that we have a budget shortfall of $297 million at this point—it could be higher—that we are going to have to fund. We all know that we are going to support major tax increases this session. This is the one chance that I have to vote to give some money back to the taxpayer. Yes, I've heard the argument that some large property owners will get more, and that's true. They paid more, but if I make a mistake voting to give some money back to the taxpayers, then I am sure my voters will let me know that in the next election. If I have a choice one time to vote for the taxpayer, for once I am going to do it. Thank you, Mr. Speaker.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body, I would like to congratulate my new young colleague from Carson City for certainly coming up with a popular—and what some might characterize as sexy—issue to bring before us today. By the way I would like to extend, pass on to you, thanks from the City of Los Angeles for the money that you will be saving them in this amendment. I have been called many things, from a populist to a weirdo. There are some in this hall today that have called me much worse that I won't mention, but I have always tried to be, as you characterized, a representative of the people. Over the years, I have tried, and certainly many times when it's not popular, with the information that I receive—particularly in the area of taxation—to be responsible and to try and make decisions that I know sometimes I might have to go home and account for. I'm sure this will be one of them. I think there are some things that should be said so that we all, regardless of our reasons, know what we are talking about and voting on today.

Two or three days ago, I asked our assessor in Clark County to make a list of the largest taxpayers in our county. There was one thing, by the way, that surprised me. I think it has been a few years since I looked at this, and the City of Los Angeles, in fact, a few years ago was the largest taxpayer in Clark County. This year they are about 23rd. And they would be receiving back, should this amendment fly, $12,754; Nevada Power would be receiving $143,000; Golden Nugget Properties, $121,000; Hilton Hotels, $117,000; Circus Circus Properties, $102,000, etc. going down. My point is this, while we certainly have—by the way, someone called "Unbelievable Incorporated" whoever they are, have property to the assessed valuation of $34.4 million and they will be receiving back $17,000 for unbelievable use—but at any rate the point that I bring down is this is only the top 20 or 22 businesses in Clark County, and I must believe on a percentage basis that will be mirrored in each and every county. The point being, whatever the tax dollars that we are sending back and we're asking or mandating in this case a local government to reduce the tax rate, far and away those giant savings, or those savings, will be going to the wealthy, to out-of-state people, etc. A person, if he was lucky enough to be living in a home around our state that is worth $100,000, he might save $17.50 in Clark County, and it would vary in other places. I'm sure that anyone would like to save $17 or $10 or $20 on their yearly property tax rate, but to get to that point we have to be giving hundreds of thousands and millions of dollars to those other folk.

Another thing that I have come to decide, partially, I might add, by this body paying nearly $.5 million for the Price Waterhouse Report, one of the criticisms of our state policy that they suggested that we should begin to undo—and your tax committee has been trying to do that—and there's been a move over the years a little at a time—is to quit dictating the thing that the former speaker from Clark County indicated, to quit mandating to local governments how to run their business. If we elect city councilmen, if we elect county commissioners, I can only presume that the county commissioners of Washoe

County, or of Elko County, or of wherever, or the city officials from Reno know much more about how to conduct a business and where the money, this small windfall they might receive—they should know much better how to deal with that than I as an Assemblyman who lives 450 miles away. I would respectfully suggest that my young colleague from Carson City knows very little about the City of North Las Vegas that I represent, and to tell them that this money, the few dollars that they receive, has to go back into property tax reduction, I believe, is not good fiscal policy in the relationship. It is the same as those folks at the other end of the states, Washington, D.C., trying to tell us how to micro-manage our business here in Nevada, and we know what a problem that is. So I would urge that we, after due consideration, do not support this amendment. Thank you, Mr. Speaker.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. To my colleagues in the Assembly, I rise in opposition to this amendment. Order of Business 15. I would like to inform my young colleague from Carson City that in Clark County there are 174,000 apartments, that includes mobile homes, that includes single home rentals, that includes duplexes and triplexes and fourplexes; 174,000 families, almost a half a million people in our county live in rentals. Now I would submit to you that the landlords of these rentals, at the end of the year after they receive their property refund—looks like Santa Claus is coming around—that they have a Christmas party for all of their tenants, but I don't feel that way. Now at the same time, we have 142,000 single homes where the folks pay property tax. I think it is a noble gesture on the part of my young colleague from Carson City to make such a gesture, but I have yet to be able to fathom the fact that this is actually sales tax refund, so to speak, because all of those people including the 500,000 that I said live in apartments paid into this fund also. So I would try to come up with an answer on how those folks who will be denied anything on this particular issue are going to be honestly and morally refunded, so to speak, on this thing. If there is an answer for that, then I'd be well-satisfied. I think to say, "Hey, we are going to reduce your taxes, and everyone jumps up and says "My hero." That's great. I think that is fine, but I think it's rather unfair and unAmerican and unNevadan to come up with anybody that says we'll deny a half a million people their right to a refund. I feel strongly that we should be in opposition to this amendment and thank you.

Remarks by Assemblymen Lambert, Anderson, Gibbons, Humke, Giunchigliani, Price, Johnson and Elliott.

Assemblyman Wong requested that the following remarks be entered in the Journal.

ASSEMBLYMAN LAMBERT:

Thank you. This amendment only concerns the counties allowed to levy replacement taxes under this bill to replace lost SCCRT. The people of Washoe County aren't going to be able to afford "business as usual" after this bill passes. The purpose of this amendment is to put a mechanism in place to ensure that reasonable budget cuts are made at the local government level by requiring a package of taxes and spending cuts to be presented to the people at an election. Who, better than the people receiving the services, to decide what a proper service level should be? This amendment requires a vote of the people before a sales tax may be implemented and requires a vote before any ad valorem taxes that can be put into place shortly after this session, or after this bill passes, if those taxes may be continued into future years. These are broad-based taxes that everyone pays and everyone should have a say in their implementation. If we are to survive this tremendous hit, everybody must be part of the solution.

The package of available taxes that can be raised to replace lost revenues affects the people and businesses of our county. It affects gaming, our major industry, and it also should affect our local government through spending cuts, and not just cuts in libraries and parks, police and fire but all areas of government, including administration and general government. If everyone gives a little, surviving the impact of A.B. No. 104 will not be pleasant but it may, at least, be possible. I urge your adoption of Amendment No. 1239 to A.B. No. 104. Thank you.

ASSEMBLYMAN ANDERSON:

A question through you, Mr. Speaker, to my distinguished colleague from Washoe County. Would the ad valorem vote go before any property tax assessment would take place or would the county have the option to do that initially and then come back afterwards and have an approval?

ASSEMBLYMAN LAMBERT:

The county would be able to implement the tax. The rates have to be set by July 16, I believe, for the first year, 1991-1992, and then go to a vote to continue that levy on into the future.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. I rise in support of this amendment. Obviously so, because my name is on it and I do support this amendment, and I cannot sit here in muted ambivalence to the process that is going on today. I don't believe there is an issue that this body is considering that is more divisive to the state than A.B. No. 104. What it's doing, of course, is cementing in concrete, the rift that is growing between the north and the south. This amendment here, is going to do several things. First of all, it's going to include the public in Washoe County in having a decision in this regard. Perhaps it will bring some vestige back to them of feeling included in making the decisions on how their government is run. I find curious, the comments that I've heard earlier about who better to know what the people of the county want than local government. Perhaps so, but let me suggest that it is the people who vote that should know.

This bill, Assembly Bill No. 104, regardless of the form it takes, is going to greatly, and perhaps unnecessarily so, hurt the people of Washoe County and I say that with great respect, because it is not just Washoe County, it is the people there who have needs and who have needs for services.

I think what we are doing with this amendment is bringing back to those people who are going to be injured by this bill, an opportunity to voice their concerns, whether they want lesser services, or maintain the same services, whether they want greater taxes or whether they want lesser taxes.

I do not always rise and speak my objections. I voted against Amendment No. 1097, not for what it did but for what it failed to do, and I stand and speak my mind on Amendment No. 1239 because of what it does, not for what it fails to do. It does give back to the people what we are attempting to take away. We are attempting to take away their right to decide whether or not taxes should be increased. So I rise to support this amendment and I hope that all of you do too, because to disenfranchise the voter is the greatest disservice we can do as an elected officer.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in support of Amendment No. 1239 to Assembly Bill No. 104. It's difficult to find any new words to say about this amendment or about the bill. Suffice it to say that it's tough to find anyone in Washoe County who would like the bill and what they anticipate will be its final form, but this amendment is the way to salve the wound of the Washoe County citizen. It is the way to bring power to the people of Washoe County. Please give them some respect. Thank you.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I find that I must rise in opposition to Amendment No. 1239, probably for one reason, and one reason only. I see this as a stalling tactic. If this were to go into place, it could be a year, two years, or the taxes to repay Clark County would not come forth and we would be back here next session trying to deal with fair-share one more time. I think the people in Clark County voted to increase their own taxes to pay for services because the monies were not coming from the north and the rural counties. For the last 10 years, they have had to pay the increase and now that's what this whole issue is about. We allowed for enabling legislation in A.B. No. 104 for the county commission to be able to have a variety of taxes to be able to enact in order to pay for this. It's a hard bite. We tried to work out a compromise bill and this amendment simply would stop Clark County taxpayers from receiving their fair share.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. May we go to Order of Business 15? Thank you. I'm sure having fun today. Yesterday, I think it was yesterday, or it could have been day before yesterday, or last week, we passed a bill from this house creating a commission on democracy and the republic and I spoke about all the good things we've done teaching students about democracy and the republic.

The remarks I hear from my colleagues today make me believe that perhaps we should direct our attention to this body. I would remind you when you talk about the citizenry voting, direct vote on issues, I would remind you that the form of government that we chose, that our forefathers chose, and that we have duplicated is, in fact, a republic. They

choose us through the voting process to make decisions in this body. They choose their county commissioners to make decisions on their behalf at that level and they choose city commissioners and on and on.

Your Committee on Taxation in developing the amendment and the bill as it now sets made provisions in it to make sure, if there was any doubt, which at least one of our committee members from Washoe County, and perhaps two were concerned about, that there would be adequate hearings, that the citizenry would have the opportunity to make their voices heard. That, my colleagues, is a republic which I believe this land and our country is all about. I would respectfully suggest that even the mechanics and the time problems, if we were not a republic, trying to set up an election and the cost, and all the various things to meet the other time lines that are necessary for establishing property tax rates, and so forth, would be very difficult, if not impossible to meet. What is going to happen when this bill takes effect, and assuming that it does, is that the citizenry of Washoe County will have to participate to the best of their abilities in the republic that we have chosen to create for them.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I view this whole bill somewhat in speaking on the previous amendment is somewhat out of place. This is kind of like "is my eyeball hurting your elbow," but there are several things that we really should consider in this amendment. One is that the citizens of Washoe County in the past have through their votes established their level of service that they desire. They voted for tax increases, they voted for their elected officials. They have had public hearings, they have objected, they have defeated bond issues, they have passed bond issues.

I would like to remind you that the purpose of A.B. No. 104 is not something that we're taking revenues from Washoe County, we are removing revenues that presently go back to Washoe County. By doing this, this body is establishing the amount of revenue that will be available, not the citizens in Washoe County. The vote of this body will determine how much money is available for you to pass. This amendment says that the money can't be made up by the normal process that everybody would wish to have. We have, by actions of this body, restricted their ability to respond to local needs forcing them into elections. What you would be doing with this amendment is forcing elections, special elections, if you want to get it done in any reasonable time, but no matter what, you'll have cutbacks in staffing because of cash flow problems. Even if you don't pass this, there will be reductions in service because of cash flow. This amendment is potentially very harmful to the citizens who have previously established their level of service. How they want their local government to be run, how they want their streets to be fixed, their safety, public safety, public health, those issues have been established before, already, and this body will be removing the amount of money that's available for them. Not to allow them to implement programs of their choice, at the local level by the process that has been established would be wrong. I will oppose this amendment.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. To you and through you to the chairman of the Taxation Department, I think it was an excellent and fresh idea that he came up with on a new republic. Perhaps, that's the solution that maybe we should call it Clark County; however, if that is in fact, what you meant, I applaud you, sir. However, I think that the people who are going to be disadvantaged by this action should have a say in how they are going to be taken advantage of.

*(b)* That notice for some sufficient reason could not have been made.

[(b)] *(c)* That failure to give notice will not result in an unwarrantable charge against the state insurance fund.

[(c)] *(d)* That failure to give notice was because of the employee's or beneficiary's mistake or ignorance of fact or of law, or of his physical or mental inability, or [to] *because of* fraud, misrepresentation or deceit.

7. The insurer shall accept or deny responsibility for compensation under this chapter or chapter 617 of NRS within 14 working days after the notice provided for in this section is received. If additional information is necessary to determine liability, the administrator may, [for] *upon* good cause shown [,] *by the insurer,* extend the period to 45 days upon notice to the claimant. If additional information is still necessary, the administrator may *, upon good cause shown by the insurer,* grant a further extension if the claimant gives his written consent, but the total period may not be extended to more than [90] *75* days.

Sec. 73. NRS 616.502 is hereby amended to read as follows:

616.502 *1.* The insurer may not [:

1. Deny responsibility under this chapter for any charges for treatment of the injuries or disease of an employee solely because the treatment was provided by a physician or chiropractor who is not a member of the panel of physicians and chiropractors.

2. In] *, in* accepting responsibility for any [such] charges, use fee schedules which unfairly discriminate among physicians and chiropractors.

*2. If a physician or chiropractor is removed from the panel established pursuant to NRS 616.342, he must not be paid for any services rendered to the injured employee after the date of his removal.*

Sec. 74. NRS 616.541 is hereby amended to read as follows:

616.541 1. The chief of the hearings division of the department of administration [may] *:*

*(a) May* by regulation provide for specific procedures for the determination of contested cases.

*(b) Shall develop a format to be used by hearing officers to indicate their findings in contested cases.*

2. An insurer or employer may be represented in a contested case by private legal counsel or by any other agent.

Sec. 75. NRS 616.5412 is hereby amended to read as follows:

616.5412 1. Any person who is subject to the jurisdiction of the hearing officers [under] *pursuant to* this chapter or chapter 617 of NRS may request a hearing before a hearing officer of any matter within his authority. The insurer shall provide, without cost, the forms necessary to request a hearing to any person who requests them.

2. A person who is aggrieved by:

(a) A *written* determination of an insurer; or

(b) The failure of an insurer to respond within 30 days to a written request mailed to the insurer by the person who is aggrieved,

may appeal from the determination or failure to respond by filing a request for a hearing before a hearing officer. Such a request must be filed within 60 days after the date on which the notice of its determination was mailed by the insurer or the unanswered written request was mailed to the insurer, as applicable. Except as otherwise provided in subsection 7 of NRS 616.500, the failure of an insurer to respond to a written request *for a determination within 30 days after receipt of such a request* shall be deemed by the hearing officer to be a denial of the request.

3. Failure to file a request for a hearing within the period specified in subsection 2 may be excused if the person aggrieved shows by a preponderance of the evidence that he did not receive the notice of the determination and the forms necessary to request a hearing. The claimant or employer shall notify the insurer of a change of address.

4. The hearing before the hearing officer must be conducted as expeditiously and informally as is practicable.

Sec. 76. NRS 616.5416 is hereby amended to read as follows:

616.5416 1. The hearing officer shall:

(a) Within 5 days after receiving a request for a hearing, set the hearing for a date and time within 30 days after his receipt of the request; [and]

(b) Give notice by mail or by personal service to all interested parties to the hearing at least 15 days before the date and time scheduled [.] *; and*

2. *The notice must include a statement that the injured employee may be represented by a private attorney or seek assistance and advice from the Nevada attorney for injured workers.*

*3.* If necessary to resolve a medical question concerning an injured employee's condition, the hearing officer may refer the employee to a physician or chiropractor chosen by the hearing officer. If the medical question concerns the rating of a permanent disability, the hearing officer may refer the employee to a physician or chiropractor designated by the administrator. The insurer shall pay the costs of any medical examination requested by the hearing officer.

[3.] *4. The hearing officer may allow or forbid the presence of a court reporter and the use of a tape recorder in a hearing.*

*5.* The hearing officer shall render his decision within [15] *7* days after:

(a) The hearing; or

(b) He receives a copy of the report from the medical examination he requested.

[4.] *6. The hearing officer shall render his decision in the most efficient format developed by the chief of the hearings division of the department of administration.*

*7.* The hearing officer shall give notice of his decision to each party by mail. He [must] *shall* include with the notice of his decision the necessary forms for appealing from the decision.

[5.] *8.* The decision of the hearing officer is not stayed if an appeal from that decision is taken unless a stay is granted by the hearing officer or an appeals officer within [30] *15* days after the date on which the decision was rendered.

Sec. 77. NRS 616.5422 is hereby amended to read as follows:

616.5422 1. Any party aggrieved by a decision of the hearing officer relating to a claim for compensation may appeal from the decision by filing a notice of appeal with an appeals officer within [60] *30* days after the date of the decision.

2. The filing of a notice of appeal does not automatically stay the enforcement of the decision of the hearing officer. The appeals officer may order a stay, when appropriate, upon the application of a party.

3. The appeals officer shall, within 10 days after receiving a notice of appeal, schedule a hearing for a date and time within [60] *45* days after his receipt of the notice and give notice by mail or by personal service to all parties to the appeal and their attorneys or agents at least 30 days before the date and time scheduled.

4. An appeal may be continued upon written stipulation of all parties, or upon good cause shown . [, but not for more than 45 days after the date of the stipulation. Notice of continuance must be given by mail or by personal service to all interested parties.]

5. Failure to file a notice of appeal within the period specified in subsection 1 may be excused if the party aggrieved shows by a preponderance of the evidence that he did not receive the notice of the decision and the forms necessary to appeal the decision. The claimant, employer or insurer shall notify the hearing officer of a change of address.

Sec. 78. NRS 616.5426 is hereby amended to read as follows:

616.5426 1. A stenographic or electronic record must be kept of the hearing before the appeals officer and the rules of evidence applicable to contested cases under chapter 233B of NRS apply to the hearing.

2. The appeals officer must hear any matter raised before him on its merits, including new evidence bearing on the matter.

3. If necessary to resolve a medical question concerning an injured employee's condition, the appeals officer may refer the employee to a physician or chiropractor chosen by the appeals officer. If the medical question concerns the rating of a permanent disability, the appeals officer may refer the employee to a physician *or chiropractor* designated by the administrator. The insurer shall pay the costs of any examination requested by the appeals officer.

4. Any party to the appeal or the appeals officer may order a transcript of the record of the hearing at any time before the seventh day after the hearing. The transcript must be filed within 30 days after the date of the order unless the appeals officer otherwise orders.

5. The appeals officer shall render his decision:

(a) If a transcript is ordered within 7 days after the hearing, within 30 days after the transcript is filed; or

(b) If a transcript has not been ordered, within 30 days after the date of the hearing.

6. The appeals officer may affirm, modify or reverse any decision made by the hearing officer and issue any necessary and proper order to give effect to his decision.

Sec. 79. NRS 616.560 is hereby amended to read as follows:

616.560 1. When an employee coming under the provisions of this chapter receives an injury for which compensation is payable under this chapter and which [injury] was caused under circumstances creating a legal liability in some person, other than the employer or a person in the same employ, to pay damages in respect thereof:

(a) The injured employee, or in case of death, his dependents, may take proceedings against that person to recover damages, but the amount of the compensation to which the injured employee or his dependents are entitled under this chapter, including any future compensation under this chapter, must be reduced by the amount of the damages recovered, notwithstanding any act or omission of the employer or a person in the same employ which was a direct or proximate cause of the employee's injury.

(b) If the injured employee, or in case of death his dependents, receive compensation under this chapter, the insurer *, or in case of claims involving the uninsured employers' claim fund or the subsequent injury fund, the administrator,* has a right of action against the person so liable to pay damages and is subrogated to the rights of the injured employee or of his dependents to recover therefor. In any action or proceedings taken by the insurer *or the administrator* under this section , evidence of the amount of compensation, accident benefits and other expenditures which the insurer [has] *, the uninsured employers' claim fund or the subsequent injury fund have* paid or become obligated to pay by reason of the injury or death of the employee is admissible. If in such action or proceedings the insurer *or the administrator* recovers more than [the amounts it has paid or become obligated to pay as compensation,] *those amounts,* the excess must be paid to the injured employee or his dependents.

(c) The injured employee, or in case of death his dependents, shall first notify the insurer *, or in the case of claims involving the uninsured employers' claim fund or subsequent injury fund the administrator,* in writing of any action or proceedings, pursuant to this section, to be taken by the employee or his dependents.

2. In any case where the insurer *or the administrator* is subrogated to the rights of the injured employee or of his dependents as provided in subsection 1, the insurer *or the administrator* has a lien upon the total proceeds of any

recovery from some person other than the employer, whether the proceeds of such recovery are by way of judgment, settlement or otherwise. The injured employee, or in the case of his death his dependents, are not entitled to double recovery for the same injury, notwithstanding any act or omission of the employer or a person in the same employ which was a direct or proximate cause of the employee's injury.

3. The lien provided for under subsection 2 includes the total compensation expenditure incurred by the insurer , *the uninsured employers' claim fund or the subsequent injury fund* for the injured employee and his dependents.

4. Within 15 days of the date of recovery by way of actual receipt of the proceeds of the judgment, settlement or otherwise, the injured employee or his representative shall notify the insurer , *or in the case of claims involving the uninsured employers' claim fund or subsequent injury fund the administrator,* of [such] *the* recovery and pay to the insurer *or the administrator, respectively,* the amount due under this section together with an itemized statement showing the distribution of the total recovery.

5. In any trial of an action by the injured employee, or in the case of his death by his dependents, against a person other than the employer or a person in the same employ, the jury shall receive proof of the amount of all payments made or to be made by the insurer [.] *or the administrator.* The court shall instruct the jury substantially as follows:

[(a)]

"Payment of workmen's compensation benefits by the insurer , *or in the case of claims involving the uninsured employers' claim fund or subsequent injury fund the administrator,* is based upon the fact that a compensable industrial accident occurred, and does not depend upon blame or fault. If the plaintiff does not obtain a judgment in his favor in this case, he is not required to repay his employer , [or] the insurer *or the administrator* any amount paid to him or paid on his behalf by his employer , [or by] the insurer ["; and

(b) "] *or the administrator.*

If you decide that the plaintiff is entitled to judgment against the defendant, you shall find his damages in accordance with the court's instructions on damages and return your verdict in the plaintiff's favor in the amount so found without deducting the amount of any compensation benefits paid to or for the plaintiff. The law provides a means by which any compensation benefits will be repaid from your award."

Sec. 80. NRS 616.565 is hereby amended to read as follows:

616.565 1. [No compensation under] *Compensation is not payable pursuant to the provisions of* this chapter [may be allowed] for an injury:

(a) Caused by the employee's willful intention to injure himself.

(b) Caused by the employee's willful intention to injure another.

(c) Proximately caused by the employee's intoxication [.] , *whether by alcohol or a controlled substance.* If the employee was intoxicated at the time of his injury, intoxication must be presumed to be a proximate cause unless rebutted by evidence to the contrary.

2. No compensation is payable for the death, disability or treatment of an employee if his death is caused by, or insofar as his disability [may be] *is* aggravated, caused or continued by, an unreasonable refusal or neglect to submit to or to follow any competent and reasonable surgical treatment or medical aid.

3. If any employee persists in [insanitary or injurious practices which tend to either imperil or retard] *an unsanitary or injurious practice that imperils or retards* his recovery, or refuses to submit to such medical or surgical treatment as is [reasonably essential] *necessary* to promote his recovery, his compensation may be reduced or suspended.

Sec. 81. NRS 616.567 is hereby amended to read as follows:

616.567 1. When the insurer determines that a [case] *claim* should be closed before all benefits to which the claimant may be entitled have been paid, the insurer shall send a written notice of its intention to close the [case] *claim* to the claimant by [United States] *first-class* mail addressed to the last known address of the claimant. The notice must include a statement that the claimant has a right to a hearing before a hearing officer on the closing of his [case,] *claim,* and that he may request a hearing, in writing, on the form provided with the notice, within 60 days after the date on which the notice was mailed by the insurer. A suitable form for requesting a hearing must be enclosed with the notice. *The closure of a claim is not effective unless notice is given as required by this subsection.*

2. If the insurer does not receive a request for a hearing before a hearing officer within 60 days after mailing the notice, it may close the [case.] *claim.* Upon receiving a request for a hearing, the insurer shall treat the [case] *claim* as a contested case for the purposes of the hearing.

*3. Notwithstanding the provisions of NRS 233B.125, in any hearing conducted pursuant to this section, the decision of the hearing officer may be served by first-class mail.*

Sec. 82. NRS 616.585 is hereby amended to read as follows:

616.585 1. Every employee in the employ of an employer, within the provisions of this chapter, who is injured by accident arising out of and in the course of employment, or his dependents, is entitled to receive for the period of temporary total disability, 66 2/3 percent of the average monthly wage.

2. *If a claim for the period of temporary total disability is allowed, the first payment pursuant to this section must be issued by the insurer within 14 working days after receipt of the initial certification of disability.*

*3.* Any increase in compensation and benefits effected by the amendment of subsection 1 is not retroactive.

[3.] *4.* For purposes of benefits for a temporary total disability under this section, the period of temporary total disability ceases when any physician or chiropractor determines that the employee is capable of any gainful employment.

Sec. 83. NRS 616.585 is hereby amended to read as follows:

616.585 1. Every employee in the employ of an employer, within the provisions of this chapter, who is injured by accident arising out of and in

the course of employment, or his dependents, is entitled to receive for the period of temporary total disability, 66 2/3 percent of the average monthly wage.

2. If a claim for the period of temporary total disability is allowed, the first payment pursuant to this section must be issued by the insurer within 14 working days after receipt of the initial certification of disability.

3. Any increase in compensation and benefits effected by the amendment of subsection 1 is not retroactive.

4. For purposes of *the payment of* benefits for a temporary total disability under this section, the period of temporary total disability ceases when any physician or chiropractor determines that the employee is capable of any gainful employment.

*5. Each insurer shall, with each check that it issues to an injured employee for a temporary total disability, include a form approved by the department for the injured employee to request continued compensation for the temporary total disability.*

*6. The insurer shall issue to the injured employee, not less than 6 working days before the beginning of the period specified in the form, a check for the compensation due the employee for that period, if:*

*(a) The injured employee has completed and returned the form to the insurer; or*

*(b) There is documentation with the insurer which indicates a continuing disability.*

*A check shall be deemed delivered upon the date that it is postmarked, if it is properly addressed and the postage is prepaid.*

Sec. 84. NRS 616.605 is hereby amended to read as follows:

616.605 1. Every employee, in the employ of an employer within the provisions of this chapter, who is injured by an accident arising out of and in the course of employment is entitled to receive the compensation provided for permanent partial disability. As used in this section "disability" and "impairment of the whole man" are equivalent terms.

2. The insurer shall select a physician *or chiropractor* from a group of rating physicians *and chiropractors* designated by the administrator, to determine the percentage of disability in accordance with the American Medical Association's Guides to the Evaluation of Permanent Impairment [in the form most recently published and supplemented before January 1, 1986. The department may supplement this publication by adopting regulations for a supplemental guide.] *as adopted and supplemented by the department pursuant to subsection 3 of NRS 616.427.*

3. No factors other than the degree of physical impairment of the whole man may be considered in calculating the entitlement to compensation for a permanent partial disability.

4. Each 1 percent of impairment of the whole man must be compensated by a monthly payment of 0.5 percent of the claimant's average monthly wage for injuries sustained before July 1, 1981, and 0.6 percent for injuries sustained on or after July 1, 1981. Compensation must commence on the

date of the injury or the day following the termination of temporary disability compensation, if any, whichever is later, and must continue on a monthly basis for 5 years or until the claimant is 70 years of age, whichever is later.

5. Compensation benefits may be paid annually to claimants who will be receiving less than $100 a month.

6. Where there is a previous disability, as the loss of one eye, one hand, one foot, or any other previous permanent disability, the percentage of disability for a subsequent injury must be determined by computing the percentage of the entire disability and deducting therefrom the percentage of the previous disability as it existed at the time of the subsequent injury.

7. The department may adopt schedules for rating permanent disabilities resulting from injuries sustained before July 1, 1973, and reasonable regulations to carry out the provisions of this section.

8. The increase in compensation and benefits effected by the amendment of this section is not retroactive for accidents which occurred before July 1, 1973.

9. This section does not entitle any person to double payments for the death of a workman and a continuation of payments for a permanent partial disability, or to a greater sum in the aggregate than if the injury had been fatal.

Sec. 85. NRS 616.605 is hereby amended to read as follows:

616.605 1. Every employee, in the employ of an employer within the provisions of this chapter, who is injured by an accident arising out of and in the course of employment is entitled to receive the compensation provided for permanent partial disability. As used in this section "disability" and "impairment of the whole man" are equivalent terms.

2. *Within 7 days after receiving from the treating physician or chiropractor chosen pursuant to NRS 616.342 a report indicating that the injured employee may have suffered a permanent disability and is stable and ratable, the insurer shall schedule an appointment with a rating physician or chiropractor to determine the extent of the employee's disability.* The insurer shall select a physician or chiropractor from a group of rating physicians and chiropractors designated by the administrator, to determine the percentage of disability in accordance with the American Medical Association's Guides to the Evaluation of Permanent Impairment as adopted and supplemented by the department pursuant to subsection 3 of NRS 616.427. *Rating physicians and chiropractors must be selected in rotation from the list of qualified physicians and chiropractors designated by the administrator, according to their area of specialization and the order in which their names appear on the list.*

3. No factors other than the degree of physical impairment of the whole man may be considered in calculating the entitlement to compensation for a permanent partial disability.

4. *The rating physician or chiropractor shall provide the insurer with his evaluation of the injured employee. After receiving the evaluation, the insurer shall, within 14 days, provide the employee with a copy of the evaluation and notify the employee:*

*(a) Of the compensation to which he is entitled pursuant to this section; or*

*(b) That he is not entitled to benefits for permanent partial disability.*

*5.* Each 1 percent of impairment of the whole man must be compensated by a monthly payment of 0.5 percent of the claimant's average monthly wage for injuries sustained before July 1, 1981, and 0.6 percent for injuries sustained on or after July 1, 1981. Compensation must commence on the date of the injury or the day following the termination of temporary disability compensation, if any, whichever is later, and must continue on a monthly basis for 5 years or until the claimant is 70 years of age, whichever is later.

[5.] *6.* Compensation benefits may be paid annually to claimants who will be receiving less than $100 a month.

[6.] *7.* Where there is a previous disability, as the loss of one eye, one hand, one foot, or any other previous permanent disability, the percentage of disability for a subsequent injury must be determined by computing the percentage of the entire disability and deducting therefrom the percentage of the previous disability as it existed at the time of the subsequent injury.

[7.] *8.* The department may adopt schedules for rating permanent disabilities resulting from injuries sustained before July 1, 1973, and reasonable regulations to carry out the provisions of this section.

[8.] *9.* The increase in compensation and benefits effected by the amendment of this section is not retroactive for accidents which occurred before July 1, 1973.

[9.] *10.* This section does not entitle any person to double payments for the death of a workman and a continuation of payments for a permanent partial disability, or to a greater sum in the aggregate than if the injury had been fatal.

Sec. 86. NRS 616.607 is hereby amended to read as follows:

616.607 1. Except as otherwise provided in NRS 616.5435, an award for a permanent partial disability may be paid in a lump sum under the following conditions:

(a) A claimant injured on or after July 1, 1973, and before July 1, 1981, who incurs a disability that does not exceed 12 percent may elect to receive his compensation in a lump sum. A claimant injured on or after July 1, 1981, who incurs a disability that does not exceed 25 percent may elect to receive his compensation in a lump sum.

(b) The spouse, or in the absence of a spouse, any dependent child of a deceased claimant injured on or after July 1, 1973, who is not entitled to compensation in accordance with NRS 616.615, is entitled to a lump sum equal to the present value of the deceased claimant's undisbursed award for a permanent partial disability.

(c) Any claimant injured on or after July 1, 1981, who incurs a disability that exceeds 25 percent may elect to receive his compensation in a lump sum equal to the present value of an award for a disability of 25 percent. If the claimant elects to receive compensation pursuant to this paragraph, the insurer shall pay in installments to the claimant that portion of the claimant's disability in excess of 25 percent.

2. If the claimant elects to receive his payment for a permanent partial disability in a lump sum, all of his benefits for compensation terminate. His acceptance of that payment constitutes a final settlement of all factual and legal issues in the case. By so accepting he waives all of his rights regarding the claim, including the right to appeal from the closure of the case or the percentage of his disability, except:

(a) His right to reopen his claim according to the provisions of NRS 616.545; and

(b) Any counseling, training or other rehabilitative services provided by the insurer.

The claimant must be advised in writing of the provisions of this subsection when he demands his payment in a lump sum, and has 20 days after the mailing or personal delivery of this notice within which to retract or reaffirm his demand, before payment may be made and his election becomes final.

3. Any lump sum payment which has been paid on a claim incurred on or after July 1, 1973, must be supplemented if necessary to conform to the provisions of this section.

4. Except as otherwise provided in this subsection, the total lump sum payment for disablement must not be less than one-half the product of the average monthly wage multiplied by the percentage of disability. If the claimant received compensation in installment payments for his permanent partial disability before electing to receive his payment for that disability in a lump sum, the lump sum payment must be calculated for the remaining payment of compensation.

5. The lump sum payable must be equal to the present value of the compensation awarded, less any advance payment or lump sum previously paid. The present value must be calculated using monthly payments in the amounts prescribed in subsection [4] *5* of NRS 616.605 and actuarial annuity tables adopted by the department. The tables must be reviewed annually by a consulting actuary.

6. If a claimant would receive more money by electing to receive compensation in a lump sum than he would if he receives installment payments, he may elect to receive the lump sum payment.

Sec. 87. NRS 616.620 is hereby amended to read as follows:

616.620 Except as otherwise provided by NRS 616.5435, 616.607 and 616.615, *and section 32 of this act,* the insurer shall not make or allow any lump-sum settlements.

Sec. 88. NRS 616.623 is hereby amended to read as follows:

616.623 *1.* Every injured employee, widow, widower or dependent, within the provisions of this chapter, is entitled to receive from a qualified employee of the insurer an explanation of the various alternatives implicit in lump sum compensation or other settlement [under] *pursuant to* this chapter and the long-range effects of a determination made as to one or the other kind of settlement.

*2. The insurer shall provide a written explanation of the alternatives pursuant to subsection 1.*

*3. Upon selecting an alternative, the injured employee, widow, widower or dependent shall provide his selection in writing to the insurer.*

Sec. 89. NRS 616.630 is hereby amended to read as follows:

616.630 1. [If any] *Any* employer within the provisions of NRS 616.285 *who* fails to provide and secure compensation [under] *as required by* the terms of this chapter, [he shall be fined not more than $500 for each offense.] *is:*

*(a) For the first offense, guilty of a misdemeanor.*

*(b) For a second or subsequent offense committed within 7 years after the previous offense, guilty of a gross misdemeanor.*

2. If the administrator or interested employee complains to the district attorney of any county that an employer in his county has violated the provisions of this section, the district attorney shall investigate the complaint. If, after investigation, [he finds that the complaint is well founded,] *the district attorney determines that a violation of this section may be proven beyond a reasonable doubt,* he shall prosecute the employer for the offense [.] *regardless of whether a civil penalty is imposed or may be imposed.*

3. If the administrator or interested employee complains to the attorney general of any neglect of any district attorney in the [premises,] *performance of his duties pursuant to subsection 2,* the attorney general shall investigate the complaint. If, after investigation, [he finds that the complaint is well founded,] *the attorney general determines that:*

*(a) A violation of this section may be proven beyond a reasonable doubt, he shall prosecute the employer for the offense regardless of whether a civil penalty is imposed or may be imposed.*

*(b) The district attorney has neglected to perform his duties pursuant to subsection 2,* he shall forthwith institute proceedings against the district attorney as for a misdemeanor or to remove him from office.

4. The duty of the district attorney and of the attorney general must be enforced as to procedure in the same manner as is provided in the case of actions for the protection and benefit of employees as provided in NRS 607.160 and 607.200.

Sec. 90. NRS 616.635 is hereby amended to read as follows:

616.635 1. If the manager finds that any employer or any employee, officer or agent of any employer has willfully made a false statement or has willfully failed to report a material fact concerning the amount of payroll upon which a premium is based, he shall make a determination thereon and charge the employer's account an amount equal to three times the amount of the premium due. The manager shall mail a copy of his determination to the employer.

2. An employer who is aggrieved by the manager's determination may appeal from the determination by filing a request for a hearing. The request must be filed within 30 days after the date on which a copy of the determination was mailed to the employer. The manager shall hold a hearing within 30 days after he receives the request. The determination of the manager made pursuant to a hearing is a final decision for the purposes of judicial review.

*3. A person who willfully makes a false statement or representation or who willfully fails to report a material fact concerning the amount of payroll upon which a premium is based is guilty of a gross misdemeanor. Any criminal penalty imposed must be in addition to the amount charged pursuant to subsection 1.*

Sec. 91. NRS 616.640 is hereby amended to read as follows:

616.640 1. It is unlawful for an employer to make any charge against any employee or to deduct from the wages of any employee any sum of money to meet the costs, in whole or in part, of the liability incurred by the employer by reason of his acceptance or rejection of this chapter. [Any employer who makes a deduction for that purpose from the salary or wage of any employee shall be fined not more than $500 for each offense.]

2. Any employer violating this section shall be prosecuted upon complaint of any employee who submits proper evidence of a violation.

Sec. 92. NRS 616.647 is hereby amended to read as follows:

616.647 1. If the administrator has reason to believe that an insurer , *health care provider, third-party administrator* or employer has:

Prayer by the Chaplain, The Reverend Stan Pesis.

"The Lord is my light and my salvation;
Whom shall I fear?
The Lord is the stronghold of my life;
Of whom shall I be afraid?
When evil doers assail me to devour my flesh—
My adversaries and foes—
They shall stumble and fall.
Though an army encamp against me,
My heart shall not fear;
Though war rise up against me,
Yet I will be confident."

Teach us, Lord, to make our decisions based on the confidence that You are our salvation. Then we may rest secure in the knowledge that we have acted with justice.

### GENERAL FILE AND THIRD READING

Senate Bill No. 506.

Bill read third time.

Remarks by Assemblymen Dini and Humke.

Assemblyman McGaughey requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

I have a statement here I want to read into the record and it will explain this bill. This bill, of course, was a compromise that was worked out.

Senate Bill No. 506, as amended, includes department of wildlife housekeeping amendments including further defining the invalid use of big game tags, redefines residency requirements for licenses, tags and permits, and removes references to "aliens"

regarding eligibility to obtain licenses to hunt or fish, among others. The bill also includes increases in license fees for nonresidents and for resident and nonresident big game tags as part of the money committees' budget package.

A new section from this house, Section 17, directs the department to solicit bids in accordance with state law for the development of its computer program for the issuance of tags for special seasons. It is highly desirable that a new, modernized, more flexible and accessible program be available. The purposes of the changes and improvements being sought by this amendment are to restore public confidence in the fairness and security of the tag drawing system.

The Requests for Proposals will require technical assistance, either interagency or consultant under contract. The department under this amendment shall: first, call for bids through the private sector for the program development only; and then, second, call for bids from the private sector for the running of this new program, or if it finds that the services may be available; third, it calls for bids on both developing and running the program from a single source.

Because of the many unknowns in entering this complex arena, regardless of which way the department proceeds, they need the fallback position of being able to use a public agency if no qualified bids are received. The amendment addresses this option for the computer program and the department understands that the preferred approach is for the private sector to do both facets; program development and running the annual drawing.

Section 17 also directs that the department will, before proceeding with a contract, submit the bid or bids with Interim Finance Committee for advisory review. Further, there is presently under consideration this session S.C.R. No. 46, that if it is implemented, directs the Legislative Commission to conduct an interim study concerning privatization of data processing services for state agencies. Therefore, our amendment may not be the only approach to exploring the feasibility of privatization of the state's data processing activity.

This is a compromise that was worked out among all groups and we think that it allows the department to go forward and improve this system.

ASSEMBLYMAN HUMKE:

Thank you, Madam Speaker pro Tempore. I thought I should say a few words in support of this amended version of S.B. No. 506. I believe that the Speaker has read into the record the legislative intent that another side agrees to. I would just emphasize that while there are safeguards in the bill, as currently drafted, for the possibility when bids cannot be generated to show an interest in a privatized draw. It is the expectation that the Department of Wildlife will go to private bid for all aspects of the drawing and if they do not, we still have the oversight of the Interim Finance Committee and the Board of Examiners before that. I do support the bill. Thank you.

Amendment No. 1314.

Amend the bill as a whole by renumbering sections 5 and 6 as sections 10 and 11 and adding new sections designated sections 5 through 9, following sec. 4, to read as follows:

"Sec. 5. Chapter 361 of NRS is hereby amended by adding thereto a new section to read as follows:

*1. On or before the first Monday in June of each year, the Nevada tax commission shall fix and establish the valuation for assessment purposes of all resort hotels in the state.*

*2. The valuation of resort hotels so fixed and established is for the next succeeding year and is subject to equalization by the state board of equalization.*

*3. The Nevada tax commission shall cause to be placed on the assessment roll of any county property found to be escaping taxation coming to its knowledge after the adjournment of the state board of equalization. This property must be placed upon the assessment roll before the delivery thereof to the ex officio tax receiver. If the property cannot be placed upon the assessment roll of the proper county within the proper time, it must be placed upon the tax roll for the next ensuing year, in addition to the assessment for the current year, if any, and taxes thereon must be collected for the prior year in the same amount as though collected upon the prior year's assessment roll.*

*4. The Nevada tax commission shall not raise or lower any valuations established by the state board of equalization unless, by the addition to any assessment roll of property found to be escaping taxation, it is necessary to do so.*

*5. Nothing in this section provides an appeal from the acts of the state board of equalization to the Nevada tax commission.*

*6. As used in this section, "resort hotel" means any building or group of buildings that is maintained as and held out to the public to be a hotel where sleeping accommodations are furnished to the transient public and that has:*

*(a) More than 500 rooms available for sleeping accommodations;*

*(b) At least one bar with permanent seating capacity for more than 30 patrons that serves alcoholic beverages sold by the drink for consumption on the premises;*

*(c) At least one restaurant with permanent seating capacity for more than 60 patrons that is open to the public 24 hours each day and 7 days each week; and*

*(d) A gaming area within the building or group of buildings.*

Sec. 6. NRS 361.320 is hereby amended to read as follows:

361.320 1. At the regular session of the Nevada tax commission commencing on the [1st] *first* Monday in October of each year, the Nevada tax commission shall establish the valuation for assessment purposes of any property of an interstate and intercounty nature, which must in any event include the property of all interstate or intercounty railroad, sleeping car, private car, street railway, traction, telegraph, water, telephone, air transport, electric light and power companies, together with their franchises, and the property and franchises of all railway express companies operating on any common or contract carrier in this state. This valuation must not include the value of vehicles as defined in NRS 371.020.

2. Except as otherwise provided in subsection 3 and NRS 361.323, the commission shall establish and fix the valuation of the franchise, if any, and all physical property used directly in the operation of any such business of any such company in this state, as a collective unit. If the company is operating in more than one county, on establishing the unit valuation for the collective property, the commission shall then determine the total aggregate mileage operated within the state and within its several counties, and apportion the mileage upon a mile-unit valuation basis. The number of miles apportioned to any county are subject to assessment in that county according to the mile-unit valuation established by the commission.

3. After establishing the valuation, as a collective unit, of a public utility which generates, transmits or distributes electricity, the commission shall segregate the value of any project in this state for the generation of electricity which is not yet put to use. This value must be assessed in the county where the project is located and must be taxed at the same rate as other property.

4. The Nevada tax commission shall adopt formulas, and cause them to be incorporated in its records, providing the method or methods pursued in fixing and establishing the taxable value of all franchises and property assessed by it. The formulas must be adopted and may be changed from time to time upon its own motion or when made necessary by judicial decisions, but the formulas must in any event show all the elements of value considered by the commission in arriving at and fixing the value for any class of property assessed by it. These formulas must take into account, as indicators of value, the company's income, stock and debt, and the cost of its assets.

5. As used in this section the word "company" means any person, company, corporation or association engaged in the business described.

6. All other property must be assessed by the county assessors, except as provided in NRS 361.321 and 362.100 and except that the valuation of

*resort hotels,* land and mobile homes must be established for assessment purposes by the Nevada tax commission as provided in NRS 361.325 [.] *and section 5 of this act.*

7. On or before November 1 of each year the department shall forward a tax statement to each private car line company based on the valuation established pursuant to this section and in accordance with the tax levies of the several districts in each county. The company shall remit the ad valorem taxes due on or before December 15 to the department which shall allocate the taxes due each county on a mile-unit basis and remit the taxes to the counties no later than January 31. The portion of the taxes which is due the state must be transmitted directly to the state treasurer. A company which fails to pay the tax within the time required shall pay a penalty of 10 percent of the tax due or $5,000, whichever is greater, in addition to the tax. Any amount paid as a penalty must be deposited in the state general fund. The department may, for good cause shown, waive the payment of a penalty pursuant to this subsection. As an alternative to any other method of recovering delinquent taxes provided by this chapter, the attorney general may bring a civil action in a court of competent jurisdiction to recover delinquent taxes due under this subsection in the manner provided in NRS 361.560.

Sec. 7. NRS 361.403 is hereby amended to read as follows:

361.403 1. Any person, firm, company, association or corporation, claiming overvaluation or excessive valuation of its property in this state; or

2. Any representative of any local government entity or the department claiming undervaluation, overvaluation or nonassessment of any property in the state,

solely by reason of the valuation placed thereon by the Nevada tax commission pursuant to NRS 361.320 or 361.325 [,] *or section 5 of this act,* whether or not it is apportioned pursuant to NRS 361.321 or 361.323, is entitled to a hearing before the state board of equalization to protest any assessment resulting therefrom, without appearing before or requesting relief from the county board of equalization. If a hearing is held, evidence of the valuation of the property in which the value is determined by using appropriate appraisal standards must be submitted to the state board of equalization.

Sec. 8. NRS 473.050 is hereby amended to read as follows:

473.050 1. For the consideration and approval of the district board of directors, the state forester firewarden shall annually:

(a) Prepare a budget estimating the amount of money which will be needed to defray the expenses of the district organized under the provisions of NRS 473.020 and 473.030.

(b) Determine the amount of a special tax sufficient to raise the sum estimated to be necessary. The amount of the tax to be collected for the purposes of this section must not exceed, in any 1 year, 1 percent of the assessed value of the property described in subsection 2.

2. When so determined, the state forester firewarden shall certify the amount of the estimated sum and the estimated tax to the board of county

commissioners in the county or counties wherein the district or portion thereof is located. At the time of making the levy of county taxes for that year, the board of county commissioners may levy the tax certified, or a tax determined by the board of county commissioners to be sufficient for the purpose, upon all the real property, together with improvements thereon, and all property valued by the Nevada tax commission pursuant to NRS 361.320, 361.323 or 361.325 *or section 5 of this act,* and similar intra-county properties in the district within its county.

3. If levied the tax must be assessed and collected in the same manner, at the same time and by the same officers as are state and county property taxes, and must be paid to the county treasurer. The county treasurer shall keep the money in a separate fund designated by district name and it must be used only for fire protection purposes.

4. Any tax money or county general fund money provided for support of the district may be used to provide structural as well as forest or watershed fire protection if deemed necessary. All funds must be expended in accordance with an annual budget prepared by the state forester firewarden and approved by the board of directors. The money so provided must be disbursed by the county treasurer to the responsible protecting agencies in accordance with the budget. All claims must be:

(a) Certified by a responsible officer of the protecting agency.

(b) Subject to approval and audit as are other claims against the agency.

(c) Subject to inspection and audit by the state forester firewarden and the board of county commissioners.

5. Any money budgeted for forest and watershed protection must be deposited in the state treasury to the credit of the division of forestry account within the state general fund and may be disbursed by the state forester firewarden in accordance with the district budget, and shall be used for the sole purpose of the prevention and suppression of fires in such organized fire protection districts in accordance with state law and regulations.

Sec. 9. The Nevada tax commission shall, on or before January 15, 1993, submit to the director of the legislative counsel bureau for transmittal to the 67th session of the legislature a report of its recommendations on the manner in which centralized assessment of large gaming resort hotels should be carried out. The report must contain at least:

1. The estimated cost of administering this additional responsibility by the department of taxation.

2. Recommendations regarding the necessity of statutory criterion for the classification and assessment of the resort hotels.".

Amend sec. 6, page 2, by deleting line 9 and inserting:

"Sec. 11. 1. This section and section 9 of this act become effective on October 1, 1991.

2. Sections 1 to 4, inclusive, and section 10 of this act become effective on July 1, 1992.

3. Sections 5 to 8, inclusive, of this act become effective on July 1, 1993.".

Amend the title of the bill, fourth line, after "law;" by inserting: "providing for the central assessment of certain resort hotels; directing the Nevada tax commission to submit a related report to the next legislature;".

(a) NRS 286.410 is 9.58 percent for both the contribution paid by the employer and the contribution paid by the employee.

(b) NRS 286.421 is 18.47 percent for the total contribution paid by the employer.

2. The public employees' retirement board shall, in determining the rates of contribution actuarially computed to be sufficient to pay for the allowances and benefits provided pursuant to chapter 286 of NRS, including the benefits provided by this act, apply rates of retirement at all ages of eligibility rather than assuming a single average age of retirement.

3. The legislature hereby finds and declares that:

(a) The change required pursuant to subsection 2 in the method of determining actuarially the required rates of contribution was recommended by the independent review of the biennial actuarial valuation of the public employees' retirement system that was made pursuant to chapter 641, Statutes of Nevada 1989.

(b) The independent review indicated that this change would save one-half of 1 percent in the required rates of contribution to the public employees' retirement system.

(c) The rates of contribution specified in subsection 1, in conjunction with the change required pursuant to subsection 2, are sufficient to ensure the actuarial soundness of the public employees' retirement system for the ensuing biennium.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. A.B. No. 104 does a number of things, and may I move to Order of Business 15? During the interim, we had a tax study committee of which I happened to be a member; I had the sub-subcommittee on local governments. In that capacity, I took a trip with fiscal analysts for the Assembly Taxation and fiscal analysts for Senate Taxation. We went to the annual assessors' meeting in Pahrump, and we found out how some terrible mistakes were made. They were made because we have 17 counties in the State of Nevada who were all using different assessment practices—nothing standardized. Back to Order of Business 12.

A.B. No. 104 does a number of things. It standardizes, makes uniform, assessment practices throughout the state. It provides for the repayment of errors made as a result of assessment practices. It corrects the unfair distribution formula for SCCRT that was begun 10 years ago under the tax shift program. We fooled around with it for a long time, but I must tell you, your Committee on Taxation has worked long hours to bring this before you. It guarantees under the new distribution formula the rural counties to remain whole. It does many things. If you have specific questions or anyone has specific questions on the assessment portion, we have our resident assessor from Hawthorne who worked very hard on the assessment portion of this bill. The technical end of the bill Mr. Price is prepared to address. In essence, what this is going to do is bring those counties who have been exporters into line by receiving their fair share of money, while not hurting the smaller counties that can't support themselves. But they will be able to take care of their infrastructure needs, their service needs, etc., along with Clark County. There's been one beneficiary as a result of the way the formula worked, and it's unfortunate that it all has to hit at once, but it does, and your Committee on Taxation urges your support.

ASSEMBLYMAN HALLER:

I rise in opposition of A.B. No. 104. This bill is a raid on the taxpayers of Washoe County perpetrated by the members of the Assembly from Clark and Elko counties. It is very clear that Clark and Elko counties suffer from extravagant growth, a growth that has had a disastrous effect on their infrastructures; an uncontrolled growth that they welcomed, but which they are unable to pay for. Their solution appears to be to "sock it to the taxpayers of Washoe County."

The number crunchers have had a field day in figuring how to justify a hard-hearted mugging of the northern county. The 25 co-sponsors of the bill are all from Clark County, with the exception of a colleague from Elko. Yes, my colleagues, you have the power to ruin us, but if you do, the great State of Nevada will be irreparably damaged, and some day you will have to face up to your guilt. What goes around comes around!

I am sure that there have been campaign promises made based on the idea that Clark County dollars have been flying to the north, but I assure you if you pass this immoral bill, there will be fewer dollars from the north to put in the state kitty to be distributed to Clark and Elko.

Finally, in the bill it is stated that the aim is to "ensure equity and fairness in taxation." This bill is neither fair nor equitable. It is a tax shaft for Washoe County. The people of Washoe County urge you to vote against this punitive bill.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. I rise in opposition to A.B. No. 104. Don't worry, Mr. Speaker, I'm not going to take off on a tangent here. A.B. No. 104—I guess what I've heard a great deal about A.B. No. 104 is that it's Washoe County, but I'd like to point out Washoe County is people. You have poor folks, and you have wealthy folks. You have in-between folks and you have retired folks. You have people on fixed incomes, and you have all the things that make up a county. It's not just lines on a map. And I would wish that you would consider that sort of a situation because it is apropos to all counties throughout the state.

My feeling is that the SCCRT is flawed, and that in itself is where lies the problem, and I would suggest, and for the record, that in the next interim that what we do is study the way the sales tax is divvied up, and make up regions. For example, let's just, for example, take Washoe County, and we take Reno, Carson City, Douglas, those cities that are very close and people drive into those major centers, for example, Reno. Take all of the sales tax from one particular area, put it into a grand pot, and then distribute it according to the population. I would suggest that that probably would be more equitable than basing it simply and solely on property tax valuation, particularly given what's going to probably happen here today. I don't think there's time to correct it this time, certainly, but I would urge those who are going to be sitting on the interim committees to study that potentiality. That's all I have to say. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I don't know whether I'm for it or "agin" it, but anyway, we do appreciate going from 44 percent up to 79 percent of our sales tax. I think that the rural counties, other than possibly Churchill, do benefit from the bill as written now, but poor Churchill, they only gain, I think, $28,000 and, I think, are going to be really in the middle of a bad situation again. Although I realize that this is somewhat of a perplexing problem to Washoe County, Elko County will still be contributing $1.6 million of our money to you. So, if you don't welcome us with open arms, I still hope you let us in your shopping centers down there. Thank you.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. You know I wish I could say that my remarks are going to be brief, but they're not. I want to prewarn you. I guess the history teacher in me required that I spend a good deal of time researching this and it's not that I want to share that information in a direct fashion. I am not going to read the entire Price Waterhouse study back to you but in 1987 this legislature commissioned the Price Waterhouse study of the tax conditions in the State of Nevada. That Price Waterhouse study was presented to the Legislative Commission in November of 1988. Part III of that study details the State of Nevada's assessment of local governments, more specifically state control of local revenue raising in Nevada. It describes in great detail the Supplemental City/County Relief Tax (SCCRT) which was the centerpiece of the 1981 tax shift program with the 57-steps process that calculate that SCCRT payment.

If we're to look back at the tax climate of 1981 when the tax shift program was initiated we see the mid 1970's were characterized by relatively high rates of inflation that increased property tax values and property tax burdens significantly. There was a rapid increase in property taxes that contributed to a growing taxpayer revolt nationally and here in Nevada, where properties were reappraised every five years, it was even more dramatic. California, of course, had Proposition 13. Nevada taxpayers passed Question 6, that constitutional initiative to limit local property taxes. The 1979 Legislature then approved a tax relief package and when Question 6 appeared on the 1980 ballot, it was defeated by the voters. The 1979 Legislature accomplished this turn around in voter behavior by providing across-the-board property tax relief by changing the maximum rate from $5 to $3.64 per $100 of assessed valuation, and further it limited the local

government's general fund expenditures and the amount of property taxes that a school district may levy. Of course we know the local governments were able to get around that by expanding activities in other funded areas and user fees.

Still as the 1981 Legislature convened, property tax issues were still on the agenda since the effect of the five-year reappraisal cycles were in place and the state could not meet its requirement to control property tax relief. In addition, the rapid growth in population was placing a greater burden on the school districts so the cap there proved to be more restrictive than had been anticipated. The 1981 Legislature passed the package we are now bemoaning and crying with the following major provisions: First, it cut property taxes by 50 percent. Then it increased the Local School Support Tax (sales tax) from 1.0 to 1.5 cents to reduce the burden on the Distributive School Fund. It passed the Supplemental City/County Relief Tax (SCCRT) of 1.75 cents which is mandated in addition to a 50 cent Basic City/County Relief Tax. The purpose of this new SCCRT was to replace local property taxes on a dollar-for-dollar basis. A formula, jurisdictional property taxes of 1981, charged against the CPI and a growing of assessed valuation and some other magic formulas were created for determining the basic ad valorem. The combined SCCRT and the Property Tax Review, which is the big thing we keep on talking about, and each jurisdiction would receive a certain percentage. Then there is a limit to property taxes of 4.5 percent growth annually. A cap on fees and licenses based upon the local CPI. Assessment procedures were significantly modified including the value for residents to be based on replacement costs rather than sales value computed annually.

The Interim Legislative Commission on Local Government Finance was created. Still we move forward. In 1983, fiscal problems remained. When the national recession had an adverse effect here in Nevada and local governments would cut their property taxes as mandated by this body found a significant shortfall in SCCRT payments and were limited to their ability to generate and allocate revenues. Yet the population continued to grow and demands on services on the infrastructure continued to mount.

In 1983, the legislature addressed the revenue shortfalls and the various other problems by enacting several revenue raising measures. Tax rates for local school districts were increased from 50 cents to 75 cents per $100 assessed value. A statewide ad valorem tax of 5 cents per $100 plus another additional 75 cents for hospital care for indigent persons injured in car accidents. A 4.5 percent limitation on local government property tax collections was suspended to make up the differences between the estimated and actual SCCRT payments. The Interim Legislative Commission on Local Government Finance was eliminated and returning that authority to oversight of local governments to the Nevada Tax Commission and again limits on licenses and permits were redrawn.

The 1985 Legislature, the economy was starting to look a little healthy and an anticipated general fund surplus here at the state level for '83-85 biennium of $154 million. Still, the local governments had financial problems and big problems. So the legislature added a statewide ad valorem tax of 2 cents per $100 assessed valuation for bond interest. An ad valorem tax of 3 cents with 90 percent going to the county of origin for indigent medical care up to $25,000, ten percent coming back to the state to pay indigent medical cares in excess of $25,000. They created the emergency 911 telephone system, at a cost of 5 cents per $100 of assessed valuation. The authority over the SCCRT was moved from the Nevada Taxpayer Commission back to the Interim Finance Committee which, of course, had just been done away with. Other changes in local city and county tax structure were authorized.

The 1987 Legislature saw the continued increase in population and the subsequent demand on government services and passed 44 significant revenue-related bills including 16 bills affecting local finances. Now, I want to let you all rest asssured, I won't speak of all 44 of those unless you really want me to.

The 1989 Legislature again changed the process so there was an increased amount of SCCRT distributed to Churchill, Clark and Elko with reductions to Douglas and Washoe, as well as a separation of the SCCRT and property taxes. In fact, that was a clear setup in 1989 for the events that are about to take place here now.

The SCCRT payments program must be considered a success if the purpose was to hold down increases in local property taxes. From 1977 to 1986, cities and counties increased

their property tax collections 25 percent and 83 percent respectively, while nationally, cities and counties increased their property taxes by 60 and 97 percent. All this is great, however, the picture is incomplete since it ignores the factors that affect the demand for governmental service. Population increases, the highest population increases in the United States with a decrease in per capita spending from 116 percent to a mere 106 percent in 1986. We leave behind the rest of the country.

While the SCCRT program seems to be achieving its narrowly defined goals of limiting local property taxes, the real losers are the citizens of the state who have had to forego providing the level and/or quality of services demanded and expected by our citizenry. We have deferred maintenance on capital facilities, reduced the scope of services. Revenue raising responsibility has moved from the local level to the state legislature and in this session we see the proliferation and continuing of local revenue bills because we become more powerful.

That is the point of this long historical statement. Fair-Share is the failure of the 1981 tax proposal and a pure and simple local revenue bill. Your concept of Fair-Share is both anti-democratic and anti-republic. Not Democratic or Republican in the party sense; but rather, in the concept that they have provided from the inception of government itself. The purpose of my statement is not to delay the inevitable power of majority rule; but rather to remind my fellow members of the need for their actions to be just. We are told that justice cannot be found in the courts since they merely interpret the law nor can it be in the hands of the executive since he enforces the rules we make. Here then in the legislature, the oldest branch of government in the country, do we look for justice. It is for the legislative branch that recognizes the responsibility of collective security and collective need for all of its citizens to do what is best for all. Now the Taxation Committee maintains that this body should change the formula for distributing the taxes. Some members of this body, in fact, have promised that they would bring home the bacon to their constituents. The tax dollars will filter back and they're unwilling to listen to the punitive damages of their actions to Washoe County.

Shall Washoe pay more for following the legislative mandated plan? Where is the justice when Washoe citizens lose more services because we do not have growth? Where is the justice when we open our books for legislative inspection and Clark refuses to? Where is the justice of the political "jingoism" with response to Fair-Share is no more fair than I am brief.

Mr. Speaker, I thank you for your patience in allowing me to speak. I ask my fellow members to recognize that justice needs to be served here—that fair-share is anything but just.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I rise in opposition to A.B. No. 104. I would like to echo the comments of my colleague from Sparks. You know, this is my third session here, and this has to be probably one of the most painful situations I've ever encountered in the three sessions I've been down here, because it seems that by the raid on the people and the taxpayers of Washoe County, that we are being made the scapegoat for the irresponsible and unplanned growth in Clark County. We have watched it over the years with no, seems to be, no concern for what the impact on the people who actually live in the area and how it affects everybody.

You know, I'm the kind of a person that when it was time to do your taxes you added up all your receipts and went to a bookkeeper or CPA. So, I came into this process certainly not a tax expert, but I did go to our financial expert from Washoe County and asked him to explain to us the tax system that was initiated in 1981, and to even an unschooled person like myself in regards to taxation, I was appalled that it was unnecessarily complicated. It was appalling. There were built-in inequities, and the intent seemed to be very unclear other than the purpose to lower property taxes. The fact that we have 17 counties all using different assessment practices certainly is an indication as a result of what happened.

One of the reasons that it grieves me when I vote "no" on this bill is that I shall not only be voting "no" on the so-called fair-share issue, but there's a lot of language in this bill dealing with the question of cleaning up our assessment practices, and I'll be forced to vote against that at the same time. I think that's something that severely needs to be

addressed. My colleague from Hawthorne tells me there are other bills that we've already voted on that address that to an extent, but I'm also concerned that we haven't really addressed the problem of the tax shift that took place in 1981. I would like to echo the comments of my colleague from Washoe Valley. We need to do something in the interim that will send a very clean, clear signal to the people who live in this state that we are going to address this in a serious fashion that will benefit all of us.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I would like to rise in opposition. I have this prepared statement, but I won't present it. Early in the session we identified some problems we would be facing in this session. Water importation was probably one of those along with taxes and spending. "Fair-Share" was certainly identified. I think there has been some confusion. The pipeline was built and was used to transport dollars instead of water. I simply oppose this bill as being unfair.

ASSEMBLYMAN MCGINNESS:

Thank you, Mr. Speaker. I also rise in opposition. My cowboy colleague from Elko County prompted me to stand up one more time. When this discussion began evolving, there were some rural counties that really began to rally around because they felt that perhaps some inequities that have been perpetrated were going to be taken care of. Not all rural counties are affected, but those that are affected are affected in a tough way. Out in Churchill County we are taking a big hit, and we don't have the luxury of doing things like supporting our youth activities and recreation programs. Thankfully, we have a lot of volunteers to get those done. The Senior Center has been operated by a service club. They have just bailed out and now they are scrambling to try and put a nonprofit organization together to keep that going. The infrastructure is not what it should be. I'm not going to pretend to walk you through, as my colleague from Sparks did, the complicated procedures and formulas and figures and theories of all these plans that have been put together, but I can tell you that the loss to the small counties is significant. If you look at the numbers that have added up over the years, the amount of money we have exported, it amounts to a substantial sum of money even on a per capita basis. Those of us who live close enough to those large counties—my colleague from Elko also alluded to this—if you park in Churchill or Lyon or Pershing or one of those counties out there and watch the paychecks flow into the shopping malls on Fridays, that would also amaze you. When the original version of A.B. No. 104 came out, Churchill County was in line for an additional $700,000, and then there was a rural compromise that brought it down to about $500,000. There were other panic compromises produced by the rural counties to try to maintain some sort of equity. The bottom line is Churchill County comes out with about $28,000 plus.

Now during this whole process, there have been great quotes, one of those when the chairman of Taxation felt he was being jerked around—and I think the rural counties are being jerked around by their pocketbooks—Mr. Anderson stole a great quote, "Some of those people have to bring home the bacon." Well, I can attest, "The hog has been butchered and his carcass is hanging out in rural Nevada."

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 104. Having served on the subcommittee, there's just one point I would like to make. As we debated the issues on fair—and yes, fair is in the eye of the beholder—what we attempted to do was recognize that we have 17 counties. If you remember, the original plan was to put it to Washoe County alone. After taking a look at the other points that were brought forth and through the support of some of the rural county assessors, what the subcommittee made as a final recommendation is to look at the state as a whole, to try to hold the rural counties harmless, to rebate the rebasing program to the counties that were the major exporters and to give them back additional revenue that they have not been getting and have been sending off into other areas, and not to single out Washoe County. So I recognize the individuals from the northern part of the state need to stress their concern to their constituents. We have been fair.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. After all this debate on Assembly Bill No. 104, I don't think that any of us are going to be changing any votes with our statements. I do think, however, that there are some points being made in the discussion that is food for thought in the future. I guess the good thing to say about this is that we'll soon be done with the "fair share" issue in this session. The bad thing is that I don't think it goes away. That is, this particular tax, this particular revenue distribution system may go away, but the thought process that gives rise to the "fair share" issue doesn't go away. There are lots of other taxes and revenue distribution systems that you can look at and isolate and compartmentalize and say, "This is unfair." And that is the fallacy of this whole reasoning of so-called "fair share," that we are compartmentalizing one particular tax and revenue system making some conclusions based on how revenue is distributed and saying that regions are not getting their fair share. The fallacy is that we must look at the tax picture as a whole, and only when we do that, based on all of the political and judgment values that go into making compromises and allocations, can we say whether an overall system is fair or not. I would like to suggest three specific areas to consider in this session and in recent years that illustrate my point that picking this particular tax structure and making a value judgment that it is fair or not is not appropriate.

Consider, for instance, the transportation situation. We have in this state primarily federal funds given to us for the construction of roads. Now, we have had in the last biennium, a major rethinking of the allocation of interstate and primary road money. That rethinking has come based on political pressure from Clark County, because of Clark County's growth, to redistribute those funds to Clark County. Now, I don't think there's anything wrong with that. I think that the money probably should be redistributed to Clark County. That's where the growth has been. That's where the need is most. That's where the traffic jams occur. However, for the resident who lives in Washoe County or out in Lyon County or over in Winnemucca, it doesn't make a darn bit of difference to them whether there's been growth or not except they're not getting money they otherwise would have gotten because Clark County has grown in a much larger proportion to the rest of the state. Sure, the money is needed there, but from an equitable point of view, it doesn't make any difference to the rest of us who haven't grown like that.

Consider, for instance, the same situation with library funds. I can't remember whether it was '87 or '89 when we passed state bond money for the construction of new libraries, almost all of which was gobbled up by Clark County. No question that the need was in Clark County; no question that an overall state view should consider the allocation of money to Clark County to be fair because that's where the need was greatest. Nevertheless, the child who will not get new library services in Washoe County or out in the rural counties is every bit as prejudiced by that position—is every bit as prejudiced as if it were not considered on a statewide basis. The point being that, again, although the need is the greatest and growth indicates that you should put the money there, for the residents—the rest of us—it doesn't make any difference. We're going to pay a proportion of burden for that growth.

Now consider the big one. The big one is this session, and what we're going to do this session in our revenue picture. Consider the fact that we now stand here, and probably within a week, we'll make decisions on what appears to be approximately $300 million of revenue shortfall in the state budget. Consider the statements made by the most affected persons on the money committees who suggest that the reason largely that we need these revenue increases is because of growth in the state, and that we have what is called a structural deficit in this state; that is, a tax system which does not pay for growth. It is structurally deficient in that regard. Being that as it is, as long as we grow the way we're going to grow, we're going to have to increase our taxes each year. Consider the disproportionate growth in Clark County; whereas a county like Washoe has grown by large numbers, by national standards, just under 3 percent a year, Clark County has grown by 7 percent each year of the last biennium. Sure, gaming taxes and sales taxes which have been generated from some of that growth helped to defray some of the state expenses, but they don't do enough. There's still a structural deficit. Now we face sales tax, service tax and business taxes that *all* residents of the State of Nevada will pay, and

the residents in Washoe County and the residents in the rural counties will pay a disproportionate share for the growth that has occurred because Clark County has grown faster than the rest of the state.

Now this is not an indictment of growth. It is an indictment of a tax structure that is structurally deficient and allows this kind of disproportionate burden in new tax sources. I think it is the ultimate irony in this session that we should in one week pass a so-called "fair share" bill allocating money primarily to Clark County and then in the next week pass a budget which will tax all the rest of us in a disproportionate manner for Clark County's growth. That is not fair. That is very regional, but that is not fair.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you, I rise in support of A.B. No. 104, even though I had supported other versions of the bill. As we all know, a compromise is what our business is all about, and if there's to be any changes made, it will be through A.B. No. 104. I would like to compliment, by the way, all of the prior speakers, particularly our historian—I would hope that you would let me have a copy of your, I might add, very accurate historical recollection of what happened. There are one, two, three, four of us who were here when it started, and it will continue. I do not believe that Assembly Bill No. 104, as it is currently structured, will eliminate the problem either, and I would certainly agree with the distinguished Chairman of Judiciary that the culprit is the system and certainly not the citizens or the officials of Washoe County nor of Clark County nor of the rest of the state.

I would like to respond at least once to one remark that was made by my colleague from Sparks concerning the Clark County officials refusing to open books, and so forth, and that is incorrect. I, too, have read that in the newspapers, and even this morning, you will notice that some of the officials from our Department of Taxation have refuted the remarks that were attributed to them. By the way, I have suggested, and we may yet hopefully between now and the next session, that we have our Department of Taxation get to the bottom and look into the various allegations that seem to be floating around. But, at any rate, the last line of Randy Travis' song says, "If you see what's wrong, and you try to make it right, then you'll be a point of light." I got to tell you, this is a system that many of us have recognized, and as has been articulated, is not right at this point in time. It's wrong, and we've made an effort to compromise, and I suppose the Senate will be tinkering even more to try and make it right, but at least we're taking a step in a direction that is necessary. I regret, in fact, that it will mean that our friends and colleagues in Washoe County will have to be looking toward either increased revenue measures or reductions in services, but somewhere along the line, we're going to have to correct that, at this point in time, flawed system, and this is our best offer to this point.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I also speak in opposition to A.B. No. 104. Most of what is on my mind has been said and been said quite eloquently. I am concerned, too, about the longer term effects. We had to give up money in 1989, we're giving up money in 1991, I hate to think what's going to happen two years from now. What is the price tag going to be, because I don't see anything in A.B. No. 104 that causes me to feel secure that is the last go-around, that this is the last time we will face this issue. A few days ago in Legislative Functions and Elections, there was a suggestion that we have an interim study again on taxes, and my esteemed colleague from Douglas County raised the question of, "Well, we've studied and we've studied and we've gone all over the state and we've talked to just about everybody, and I don't know if we need to continue this." But after hearing the debate on this question today, some of the very fine points that have been raised, I think that it is clear in my mind that, indeed, we must continue working on this subject in terms of tax equity. How many times, how many speakers, even the chairman of Taxation, talked about a tax system that is flawed. I would hope if there is some good to come out of this, that we do recognize it is flawed, it is *still* flawed, and that we still need to work on the equity side.

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker. I rise in support of A.B. No. 104, and I'm certainly not a tax expert. There have been a lot of very salient words spoken today on this issue, and I appreciate the dialogue which has been put forth. I guess I just resent a little bit Clark County being painted as a culprit in this. I don't know the history of how it all started. I've read quite a bit about it and I understand a part of it, but it seems to me it boils down to being a fairly simple proposition that there is a great inequity throughout the state in terms of the financial centers, the revenue generating locations, Clark County, of course, being the major one and Washoe County following close behind. It seems to me that those people who are our predecessors tried to find some way to resolve those inequities in the revenues which had been generated by those two centers and to help the other outlying areas of the state who did not generate large revenues to support the infrastructure and to build hospitals and to serve patients, and things like that. So I applaud those people on that effort to try to find some ways to take the money which is being raised in the populous areas and distribute it out to those who need it.

I would call attention, though, to a group here, as I watched the elections this past three or four weeks in Reno and Sparks, I saw there was a debate between the candidates about growth and no growth. There were those who advocated there should be no growth, and they were supported by a lot of the supporters of those candidates along that line. That's a choice for them to make, but the fact there was no growth there is a fact. In Clark County we did have great growth, no doubt about it. We built up the city tremendously. There was a lot of industry and a lot of casinos being built, a lot of revenue being generated. Now if we talk about fair, I suppose we could have a formula whereby all revenue which is generated in one county could stay in that county regardless of who the purchaser is. We could not, perhaps, even attempt to go out and say if a man came from one county into Clark County and bought an automobile or a truck or a tractor or whatever, we would try to find out where he lived and then redistribute that sales tax back to him. We could, in fact, keep it all there. Easy way to do it, but in talking about fairness, that's not fair. So, as I said, our predecessors tried to find a way to distribute that back out and to help all those who need it. So I really think that even though there are inequities, I kind of resent the fact that Clark County is being characterized as being totally unfair when I think, in spite of the inequities, in spite of the fact it's not a perfect system, there is not an attitude or an attempt on their part to be totally irresponsible and totally unfair. Thank you.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. I had decided I wouldn't speak on this, but then I decided I might say a couple of words. It'll be a little shorter than my colleague from Sparks because I discovered the facts have absolutely nothing to do with what we are talking about. I was kind of surprised that my colleague from Clark County was interested in what Bernie had to say. Facts haven't entered into it before; I don't know why he'd be interested in it now. There have been a lot of people from Clark County who have come to me in the last couple of weeks saying, "Gosh, this is bad and I really hate to vote for it, but I don't have any choice. It doesn't make any difference if it is good or bad, we're not left a choice, we have to vote for it. Our leadership would stop us, and when we went back home, we'd be painted as a person who gave away Clark County." Unfortunately, the people who feel that way are still going to feel that way after they vote for this bill, and there's nothing we can do for you there. You'll just have to continue feeling that way, and heaven help you. Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in opposition to A.B. No. 104. I, too, was not going to say anything, but I thought someone should dedicate a few remarks to all those people who stand silent in the face of what we know is a majority that will vote for this bill. Just because we don't say anything, it doesn't mean that we are not opposed to it. I would call that the tyranny of the majority. The distinguished chairman of Taxation perhaps misspoke, but nonetheless he said, "This is the best offer." I would submit that this is not an offer. I would submit that the citizens of Washoe County can have the same choice that a

condemned man may have in some states, either die by firing squad or by hanging. Those are the choices we have. Mr. Speaker, this is the day that fairness, the sanity and the justice take a holiday. Thank you.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. I am sure that the comments of all of us are not going to change the outcome of what's already a "fait accompli" on this measure. I do want to say though, as I look out at all 41 of my colleagues, I see that we are all after the same goal, and that is we want a better state for our children to grow up in, to be educated in, and to lead a better way of life. I think we are elected to this position not just, as a reminder, to represent our own districts, but to represent the state as a whole, for it is our challenge to represent the state to the best interest of the state as a whole. I don't think that Assembly Bill No. 104 really is in the best interest of the state as a whole. I think the challenge here today is one of fundamental fairness. I appreciate the gracious reduction of parts of this bill that you have been so generous with in not attacking us for. For example, the payback from $99 million down to $10 million. But I would say, to be statesman like, for an act which was ingeniously following what the law said we were to do should be eliminated altogether. I think you should remove the punitive $10 million payback provision. It reminds me of when a child gets caught with his hand in the cookie jar. The initial confrontation is one of shock when the child realizes he has been caught. It's an emotional trauma to them, and normally they do cry, and some point in time you realize you don't need to slap them on the hand for that because all that does is add injury to an already emotional sting. I think this payback provision is doing just that, it's a slap on the hand for getting caught for something that really didn't have a wrong attitude when it was initiated or followed by the law. You know, $3 million a year is certainly not something that's going to make Clark County rich, it's certainly not going to take care of your problems, and I would also assert it's not going to break Washoe County. It is a sting, and it will sting, but it is unnecessary. Washoe County is going to have to get by on a lot less. Our kids are not going to be able to enjoy the libraries that we've heard about. Our senior citizens and the citizens of our county are probably going to have to do with less police protection because of this bill. I've always been told that wealth, after all, is a relative thing, that a person who has little and wants less is richer than a person who has much but wants more. I don't want to delay the outcome of what is inevitable this afternoon, but I do want to leave all of you with one nagging thought that sort of parallels my colleague from District 27's thoughts today, and that is that everybody sooner or later sits down to a banquet of consequences. Thank you, Mr. Speaker.

## ASSEMBLY IN SESSION

At 11:23 a.m.

Madam Speaker pro Tempore presiding.

Quorum present.

Remarks by Assemblyman Dini.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I move for the adoption of A.C.R. No. 104. I have the distinct privilege of knowing Mrs. Landing for eight years now. I also had the distinct privilege of knowing her husband, Del, not as well as I would have liked to, but we did have some fun at an NCSL meeting which Del attended. Mouryne, obviously, is a reflection of the relationship that existed between this outstanding man and herself. It's one of integrity, of humor, of good spirits and loyalty. We grieve with you, Mouryne, and we respect the memory of Del and honor it, and we honor you.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. One need only to note the emotion in the voice of Carol as she read the resolution to understand the difficulty all of us feel in the passing of Mouryne's husband, and the amount of love and affection that we have for her and the support we want to give her during this period of grief.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tem. I had the privilege of meeting Del over 20 years ago. Our relationship with Mouryne, of course, has been so close for at least 18 years that I remember. I think his life reflects a man who was a good family man, who was compassionate with his family; he was a community leader, he was a good businessman, and he leaves a good legacy for his family to remember him by. He fought the hard battle, and sometimes we just don't win that one. To Mouryne, I must say that this entire house reflects the hard work that you do for us and the compassion you have given us. We hope that we were able to help you in our small way during this trying time.

ASSEMBLYMAN SADER:

Madame Speaker Pro Tem, Order of Business No. 15. I have at this time a resolution framed to give to Mouryne to keep, and I also have extra copies of the resolution. I would like to acknowledge the presence of family members in the gallery and ask you please to stand, if you would. There are Sheryl and Paul Seaman and children Matt and Katie Seaman; Lisa and Mike Menath and children Ryan, Jacob and Scotty Menath. Welcome and thank you for coming.

Resolution adopted unanimously.

Assemblyman Porter moved that all rules be suspended and that Assembly Concurrent Resolution No. 104 be immediately transmitted to the Senate.

Motion carried unanimously.

Assemblyman McGaughey moved that the Assembly recess subject to the call of the Chair.

Motion carried.

## MOTIONS, RESOLUTIONS AND NOTICES

Assemblyman Evans moved that Assembly Concurrent Resolution No. 103 be taken from the Chief Clerk's desk.

Assembly Concurrent Resolution No. 103.

Resolution read.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans, Lambert, Freeman, Myrna Williams, Humke and Mr. Speaker.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. It was earlier in the session that we noted with sadness the passing of Mary Frazzini. It is interesting that the first time I was introduced to Mary, it was by another Mary—Mary Gojack. The irony there, of course, as you know, Mary Gojack was a Democrat and Mary Frazzini, a Republican, but they served together, worked together, knew each other and there was great mutual respect. Although they were people in different parties, there was something that bound them together, and that was their great and abiding sense and compassion for humankind, their dedication to social and economic justice. Mary Frazzini served in this body, served honorably in this body for many years, and after she left the legislature she continued her public service in the Youth Services Division working in the Child Care Bureau. As was noted in the resolution, she was very interested in and dedicated to the well-being of children, and then on the other end of the spectrum, of senior citizens. When Mary retired from state service, she did not retire from public service, because that would not be her way. Her way was to continue in the community on a volunteer basis, and that's where I got to know her even better and work with her in a variety of community-based organizations serving children, serving the elderly. In my own county of Washoe, she was active in our domestic crisis shelter, Committee to Aid Abused Women. So, it is with pride that I speak in support of this resolution, but it is with sadness that we say good-bye to Mary Frazzini, a great woman and a great Nevadan.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. I also rise in support of this resolution. Mary was a friend and a constituent. She lived in Lemmon Valley. Many of you in southern Nevada have heard a lot about Lemmon Valley this session. Mary was one of the special residents of Lemmon Valley. In fact, she was one of the special Nevadans. Mary was willing to stand up for what she believed in. She was always there to help people who needed someone to speak for them and to help people who needed help. I am always going to remember Mary with love and much respect. Thank you.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I also rise in support of this resolution. The first time I ever saw Mary Frazzini was in this body. She was sitting just about where Mr. Spitler is sitting, if I remember correctly, and there was an issue that wasn't discussed in legislative bodies at that time. It was in the early '70's, and Mary was one of the few people who had the courage to stand up on the floor and address this rather emotional subject that most people wouldn't have touched with a 10-foot pole. But Mary did. She had that type of courage. She never equivocated, never backed down on any of her stands on issues; she was a woman of courage and vision. She was always a champion for those who were disadvantaged. And Mary will be missed.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. I had the privilege of meeting Mary in 1965 when I was up here on some other matters, and she was serving. While we didn't share the same political philosophy, we did share the same concern for people. Mary brought respect to women in this house, along with Eileen Brookman and Flora Dungan, and for that we will always be grateful to her. She was an extraordinary lady; she was a fine lady; and, even though I am from the other end of the state, from another party, we will miss her greatly.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in support of this resolution. I would like to prove that not only do the ladies have great respect for Mary Frazzini, some of the men did as well. I recall she was a member of many women's organizations, and one of those was the Republican Women's Club. I know because I was their first associate member in Washoe County. I would just like to say that I knew Mary through that organization and would like to reiterate the remarks of others. She was a lady whose life was dedicated to service to others. Thank you.

MR. SPEAKER:

With the permission of the house, I 'd just like to say a few words. I met Mary in 1967 in my first term here. She'd already been here one term, but, you know in that era—I've served with many ladies in this house, and that was quite an era; Mary Gojack, Nancy Gomes, Flora Dungan, Mary Frazzini, Eileen Brookman were all leaders in this house. I served with them, and was very proud to serve with all of them. Mary was an outstanding member of the house. She worked very hard on her committee work and her floor work was excellent. I have many fond memories of the years she served here and my relationship with her. Certainly, I am saddened by the loss of her, and I know that Nevada is a lot better state because she has served in this house.

Assemblyman Scherer requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. Amendment No. 1354 to A.B. No. 799 would accomplish the following: The State Board of Education member would remain as a member of the Commission on Professional Standards in education. It is essential the State Board of Education have a member on the Commission. It maintains the linkage with the State Board of Education so the coordination of decisions made by the Commission regarding qualifications of licensed personnel are consistent with the decisions of the State Board of Education regarding a course of study for students that teachers would have to teach. In addition, the State Board representative on the Commission has been an active participant since the Commission's inception in 1987. The representative has worked well with the Commission and has been essential to this decision-making process. The addition of the representative from the local school boards of trustees is an enhancement. The representative from the local school boards of trustees can give greater insight to the Commission on how the decisions of the Commission would be implemented within the local school districts.

No one can argue as to the value of the member from the general public. The general public member will give input from and representation to parents.

In 1979, the Sixtieth Session of the Legislature adopted A.B. No. 388. This bill established an 11-member Commission on Professional Standards in education which at that time was an advisory to the State Board of Education. That advisory committee included a representative from the general public and a representative from the local school board of trustees. These representatives participated on the Commission from 1979 until 1987 when the Commission was removed as advisory to the State Board of Education and the structure was changed to represent its current activities and configuration. The input from the general public and from the local school boards of trustees was important for that period of time and should be strongly supported as important now.

There would be minimal fiscal impact because of this amendment. The commissioners received no salaries. The only costs are for travel. The addition of these members would, figuratively speaking, complete the wheel of representation on the Commission. The adoption of standards, implementation of such standards and the subsequent practical application of such standards in the seventeen school districts demands a team-work approach. The viewpoints, concerns and responsibilities of teachers, counselors, school administrators, College of Education, State Board of Education, local boards of school trustees and the public can all be accommodated with the proposed expansion of the Commission.

Public education cannot afford the luxury of bickering and turf wars. Cooperation is essential if the needs of the children are to be met. The exclusion of one or the other of the spokes of the wheel only causes dissension and turmoil. The adoption of this amendment will cement and strengthen such cooperation among all. Education and the well-being of children must be paramount. I urge your adoption of Amendment No. 1354.

ASSEMBLYMAN BACHE:

Thank you, Mr. Speaker. To you and through you, I rise in opposition to this amendment. I disagree with my colleague from Elko County. I think there is going to be a significant fiscal impact because of the addition of two members to the board. Secondly, the reason why, the State Board of Education member removed from the board is that they currently have veto power over what the Commission on Professional Standards does. So, in essence, the State Board representative has made a decision first on the Commission and then they can come back and ask the State Board to again oppose something that they were opposed to that was possibly passed.

ASSEMBLYMAN MCGINNESS:

Thank you, Mr. Speaker. I rise in support of Amendment No. 1354. I think putting a member of the board of trustees from the county school district on there is a good step. I think it's putting somebody on there who has knowledge of the local workings and I will support this.

ASSEMBLYMAN HALLER:

Mr. Speaker, off the floor, I heard that there was a significant fiscal impact and that this had been considered and was in the budget as it originally was. I would like to know just what is the cost of this particular amendment with two more people on the board.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. As I stated before, there are no salaries for these members. There would be a travel expense. I think they maybe meet four or five times a year. I think that the travel would be minimal. I think that the large budgets that the Commission and the Board of Education have that they could well handle the addition of the two extra members at this time.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I rise in opposition to the amendment to A.B. No. 799. Quite simply, the question comes down to clearly the need for the representative of the general public which is an important ingredient that has been missing from the Professional Standards Commission, in which, of course, Nevada has taken the lead. The absence of a school board member on the surface appears to be an oversight but in reality, I think it clearly serves a very, very important factor and that is, it maintains the local integrity of the local school board member without having to become involved in those statewide issues. There is nothing, I believe, that would prevent a local school board member from being the representative of the general public if the governor were to make that appointment, at least in my reading of the bill. I just don't see where both the financial impact of this and the service of what this is supposed to accomplish, is going to be served by the additional two members. In addition, the bill itself is intended to drop the member of the State Board of Education from the Professional Standards Commission. It maintains the integrity of the State Board of Education's position and the sanctity of their power as holding the primary check over this body. I support the bill as it was originally written. I think it is a good bill and I'm afraid this amendment, although, looking good on the surface, in reality, has a detrimental effect to the overall purpose of the Commission.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I rise in opposition to Amendment No. 1354. I will note for the record, I am a teacher and as the president of the NSEA, I do attend these meetings and kind of oversee what goes on. The reason I am opposed to it is that in 1987, when the Commission was created, the intent was that a majority of classroom teachers would begin to be treated as professionals and would issue their own licenses. We compromised because there was a big battle called "territory" between the State Board of Education and the new creation of the Commission on Professional Standards. The territory has continued to exist; the in-fighting has continued to go on. The State Board has pointed out that the Board of Education member has the right to veto what the Commission does so they already have the power to oversee what's going on but by keeping the State Board of Education member on, it creates divisiveness. You have to have people who can work together and take a look in an objective way. The State Board still opposes the licensing board, still does not support its continued creation and what we're doing is just continuing to foment this.

The original intent of A.B. No. 799, though, was to bring in some public policy and public point of view and that is the integrity of the original bill, and is what needs to be kept here. So I would urge you to vote against this and if this amendment does succeed in getting on, then I would rather see the bill dead.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. I apologize for not being able to respond earlier. The obvious answer to the question posed is the adoption of this amendment would obviously require two additional positions in the budget. I don't have exact numbers, what those costs would be, but it would obviously require additional positions.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I rise in support of this amendment. In the one area especially, that the school board, like we like to see what's going on with the state budget, quite often they like to see what's going on with hiring of the teachers, and I think we should at least allow them to be there.

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker. I rise in support of the amendment and I would, if I may, correct my esteemed chairman of Ways and Means. It really would not add two people because the basic bill itself just changes the State Board of Education; it leaves on a general public representative and so the fundamental bill has that position. It would in fact, I think, add only one position. In listening to the testimony about the divisiveness which apparently permeates the board, I'm a little curious as to why identifying this particular member by the others as the one who by elimination is going to eliminate that divisiveness; I'm a little curious as to the possibility might be some of the other members which is about an eight-member board.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I rise in opposition to the amendment; in support of the bill. I have some familiarity with professional standards boards and this is what this board is. I think the citizens should have representation on that board and the replacement by a single member and opposed to essentially management; these people are bureaucrats who should have a professional staff relationship with the board rather than as a member of the board.

SECOND READING AND AMENDMENT

"Section 1. NRS 319.145 is hereby amended to read as follows:

319.145 1. The division is hereby designated as the housing credit agency for the State of Nevada, as that term is defined in 26 U.S.C. § 42(h)(7)(A), for the purpose of allocating and distributing credits for low-income housing pursuant to 26 U.S.C. 42.

2. The division:

(b) Shall exercise all powers necessary to administer the allocation and distribution of those credits.

*3. The division may act for the State of Nevada as the agency to facilitate the state's designation as a participating jurisdiction in the HOME Investment Partnership Act (42 U.S.C. 12701 et seq.). Sec. 2. NRS 319.510 is hereby amended to read as follows:

In no case may the division expend more than $40,000 per year or an amount equal to 6 percent of any money made available to the state pursuant to 42 U.S.C. §§ 12701 et seq., whichever is greater.* Of the remaining money allocated from the fund:

(a) Except as otherwise provided in subsection 3, 15 percent must be distributed to the welfare division of the department of human resources for use in its program developed pursuant to 45 C.F.R. § 233.120 to provide emergency assistance to needy families with children, subject to the following:

(1) Priority must be given to those projects that qualify for the federal tax credit relating to low-income housing.

(2) Priority must be given to those projects that anticipate receiving federal money to match the state money distributed to them.

(3) Priority must be given to those projects that have the commitment of a local government to provide assistance to them.

(4) All money must be used to benefit families whose income does not exceed 60 percent of the median income for families residing in the same county, as defined by the United States Department of Housing and Urban Development.

(5) Not less than 15 percent of the units acquired, constructed or rehabilitated must be affordable to persons whose income is at or below the

federally designated level signifying poverty. For the purposes of this subparagraph, a unit is affordable if a family does not have to pay more than 30 percent of its gross income for housing costs, including both utility and mortgage or rental costs.

(6) To be eligible to receive money pursuant to this paragraph, a project must be sponsored by a local government.

3. The division may, pursuant to contract and in lieu of distributing money to the welfare division pursuant to paragraph (a) of subsection 2, distribute any amount of that money to private or public nonprofit entities for use consistent with the provisions of this section.

Sec. 3. NRS 375.020 is hereby amended to read as follows:

A tax, at the rate of [60] *65* cents for each $500 of value or fraction thereof, is hereby imposed on each deed by which any lands, tenements or other realty is granted, assigned, transferred or otherwise conveyed to, or vested in, another person, if the consideration or value of the interest or property conveyed, exclusive of the value of any lien or encumbrance remaining on the interest or property at the time of sale, exceeds $100.

2. The amount of tax must be computed on the basis of the value of the transferred real property as declared pursuant to NRS 375.060.

Sec. 4. NRS 375.070 is hereby amended to read as follows:

375.070 1. The county recorder shall transmit the proceeds of the real property transfer tax at the end of each quarter in the following manner:

(a) An amount equal to that portion of the proceeds which is equivalent to [5] *10* cents for each $500 of value or fraction thereof must be transmitted to the state treasurer who shall deposit that amount in the trust fund for low-income housing created pursuant to NRS 319.500.

(b) The remaining proceeds must be transmitted to the county treasurer, who shall in Carson City, and in any county where there are no incorporated cities, deposit them all in the general fund, and in other counties deposit 25 percent of them in the general fund and apportion the remainder as follows:

(1) If there is one incorporated city in the county, between that city and the county general fund in proportion to the respective populations of the city and the unincorporated area of the county.

(2) If there are two or more cities in the county, among the cities in proportion to their respective populations.

2. If there is any incorporated city in a county, the county recorder shall charge each city a fee equal to 2 percent of the real property transfer tax which is transferred to that city.

Sec. 5. 1. This section and sections 1 and 2 of this act become effective on July 1, 1991.

Amend the title of the bill to read as follows:

Amend the bill as a whole by adding a new section designated sec. 9.5, following sec. 9, to read as follows:

"Sec. 9.5. 1. A business may elect to pay the tax imposed by section 9 of this act on the basis of the average number of employees determined pursuant to the provisions of this section in lieu of the provisions of subsection 2 of section 9 of this act. The election must be made on or before the date the first payment of the fiscal year is made. An election made pursuant to this subsection applies for all four payments due during the fiscal year in which the election is made.

2. If a business elects to pay the tax pursuant to the provisions of this section, the total dollar amount of the payroll of the employer for the calendar quarter upon which the tax is based must be divided by the average wage factor for the fiscal year to determine the average number of employees of the business. The amount of tax due pursuant to subsection 3 of section 9 of this act must be calculated based upon the average number of employees determined pursuant to this subsection.

3. The average wage factor for fiscal year 1991-1992 is $3,120. The factor must be cumulatively increased or decreased by the department for each fiscal year by a percentage equal to the percentage change in the Consumer Price Index for the preceding calendar year.

4. If 50 percent or more of the employees of a business average working 20 hours or less per week, the business may petition the executive director to allow it to prove that it pays a substantially higher average wage than the average wage factor for the fiscal year to which the petition applies for the purposes of determining its number of employees pursuant to this section. The business shall pay the tax based upon the average wage factor for the

fiscal year pending the determination of the petition. An adverse decision of the executive director may be appealed to the commission. The decision of the commission is a final decision. If the executive director, or the commission upon appeal, determines that the business meets the requirements of this subsection, the business may apply the formula set forth in subsection 2 using the higher wage approved for the business pursuant to this subsection in place of the average wage factor. The number of employees determined pursuant to the provisions of this subsection must be multiplied by 1.33 before it is used to determine the amount of tax due for the calendar quarter pursuant to subsection 3 of section 9 of this act.

5. The commission shall adopt regulations that provide for the development of average wage factors for businesses that are primarily engaged in the business of providing temporary or continuing employees to other businesses on a contract or fee basis. The regulations must ensure the development of average wage factors that equitably tax all such businesses and result in the payment by each business of an amount of tax that is approximately equal to comparable businesses of other types. The commission may require such additional information from these businesses as it deems necessary to carry out the provisions of this subsection.".

Amend sec. 11, page 4, by deleting lines 16 through 21 and inserting:

"Sec. 11. The executive director may request lists of employers, the number of employees employed by each employer and the total wages paid by each employer from the state industrial insurance system and the employment security department to carry out the provisions of this chapter.".

## REMARKS FROM THE FLOOR

Assemblyman McGaughey requested that Assemblyman Goetting's remarks be entered in the Journal.

Mr. Speaker, to you and through you to this honorable body. We still have some difficult tasks at hand before we can reach adjournment. The fact that our great state is almost equally divided between major party affiliations is represented in the closeness of numbers in each house of this legislative building. Mr. Speaker, in our house the numbers are 21-21 on numerous philosophical issues. One of the three major issues yet to be dealt with is reapportionment. Mr. Speaker, that is why I am addressing this honorable body now. Mr. Speaker, it is no one person's fault and no one person or party is to blame for the lack of consensus we are able to reach on the subject of reapportionment. We all find ourselves in a difficult situation while the citizens of this great state look to us for the answers. Those same citizens can't understand the in-fighting in reaching that consensus. They, like us, would like to see this session end.

Mr. Speaker, it is for all of the above-mentioned reasons that I propose that the leadership of this house get together and decide to throw out both the Republican map and the Democratic map. Mr. Speaker, we then should call on our Legislative Counsel Bureau staff to step in, like they are ready to do, and produce a neutral set of maps which they can do within two days.

Mr. Speaker, we should instruct our staff to, first and foremost, respect the existing boundaries of each Senate and Assembly District so as to not disenfranchise the voter. It is that voter who sent us here and it is that voter who will decide whether or not to return us.

Mr. Speaker, this neutral process can be completed in four days according to staff. Two days in drawing the maps and two days to make any minor adjustments and put it in bill form.

We owe this solution to the people of our state, not some federal judge. Thank you, Mr. Speaker.

Assembly called to order at 8:46 a.m.

Mr. Speaker presiding.

Roll called.

All present.

Prayer by the Chaplain, Assemblyman Val Garner.

Father in Heaven, we humbly come before Thee on this Saturday morning. In spite of the difficulties that face us, we are grateful for the many blessings that Thou has bestowed upon us. We are grateful for the health and strength that we enjoy, the great country in which we live, the bounties of life that we enjoy in our great state.

Our Father in Heaven, as we work to bring this session to a close, we ask for Thy power and influence to prevail, to especially bless our leadership in both houses with the inspiration they need to achieve this goal. Help us all to work toward this common goal asking for Thy assistance in everything we do to show more patience, more consideration and to work toward bringing this session to a close that will allow us to return to our families and our homes and other things that are essential in our lives. We ask this prayer humbly and do it in the name of the Messiah. AMEN.

Remarks by Assemblymen Myrna Williams, Porter, Price, Humke and Mr. Speaker.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. Carol L. Moore is clearly a very eclectic woman. Carol has been with this body almost as long as I've lived in the State of Nevada which surely means she knows more about what is going on here than any of us. I was very interested to find out that we have our own Imelda Marcos, but in a more serious vein, when things get really tough, you find out what a person is made of and we certainly found out with Carol during Mouryne's unhappy times. Carol jumped in and did a superb job. We are fortunate, indeed, to have the entire front desk but today we want to honor Carol and thank her for all the help and assistance she has given all of us. She certainly shows the best of the State of Nevada.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 105. I just couldn't pass this up. I first met "Granny" six years ago when I came to work here. She didn't quite know what to make of me then. She still doesn't know what to make of me. I will tell you a little story that happened yesterday. We've gotten to know each other very well this year because when I first got here, I didn't know quite what to do in this job and Granny has coached me along and sent me the bills and told me what to do and how to

do it. She is the one who actually makes me look like I know what I am doing. When I screw up, it's my fault, not hers, but yesterday, the chairman of Judiciary asked me to turn in a bill for the committee and he was out of the room. To show you Granny's loyalty, when I brought the bill down and turned it in, she finally came up and said, "Are you authorized to do this?" I said, "Yes, Granny, you know Bob told me to please call the committee and turn the bill in." She said, "Well, I don't know, if he's here in the building, I would really rather have him sign this than you." So, it only goes to show, Mr. Speaker, I don't know why she's so loyal to the chairman of Judiciary—maybe they go four-wheeling together—but she still doesn't trust me. Granny, I'm doing the best I can. Congratulations on your 30th anniversary. It is well deserved. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I would like to know what she was doing here when she came to work at nine years old. I have to say that it is with extreme pleasure and fondness that I would like to add my words to this resolution. Carol, of course, was here and has helped guide me through and teach me about procedures in various things. It's our benefit, it's the benefit of the state, it's a treasure that we have such wonderful people who come back year after year and that Carol has been doing this for some 30 years. Those people like Carol whose fingerprints are on so many of the laws and decisions that have been made because while our names get printed in the papers, sometimes good, bad or indifferent, but Carol who is back there really guiding us and making sure that things that we attempt to do are being done in a proper manner, that are really important. With her wonderful background with her father who, you know, here she is a second generation person who has been guiding Nevada for all these years and we really congratulate you. We are so pleased that we are here to be with you on your 30th anniversary and we would like to stay here another whole day with you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I would just like to add a few brief words. I don't mean to belabor it. I just want to wish Carol a happy 30th anniversary. It has been a pleasure for myself personally. I just think to sum it up—Carol you're a doll.

MR. SPEAKER:

With permission of the house, I would like to say a few words from the podium here. Carol and I have been working together for quite a while, I guess, a few days. I remember in 1973 when I was Speaker pro Tempore and I got my first chance to preside and she had to hold me up up here before I fell off the podium. Ever since then, you know when I really get in trouble, I tell her, "Carol what am I going to do now." She says, "Well, if you want me to call my dad up, I'll have him come over and straighten you out." Her dad is Jeff Springmeyer, who was our first director of the Legislative Counsel Bureau, I believe, and was an advisor here for many years and retired in '67. He was a renowned parliamentarian and Carol is also one of those. It has been a great working relationship and I have always really appreciated her. She is a loyal employee who is in there supporting the Chief Clerk all the way and has proved herself to be a very invaluable person on our staff. I just want to congratulate her for hanging in here for 30 years. You've seen a lot of them come and go but you are still here. Probably some more will come and go before you are done with your job here. Carol, thanks from all of us. We really appreciate it.

Resolution adopted unanimously.

All present.

Prayer by the Chaplain, Assemblyman Val Garner.

Father in Heaven, once again we come before Thee on a beautiful Sunday morning to give thanks for the many blessings that we enjoy. We are grateful for the health and strength that we each have and we pray especially for those among us who are ill, thinking of Assemblyman Arberry, Senator Hickey and others. We pray that Thou will bless them, that they will regain their health and will be able to rejoin us here for these final days of this session.

We pray that Thou will be with us today, that we will be productive in all of our deliberations, that we will be able to solve the problems before us. We acknowledge Thy hand in all things and Thy influence over this body. We pray that Thou will bless us. We are grateful, Father in Heaven, for this great land in which we live, here in Nevada. (g) "Revenue neutral" means a change in price made by a hospital that neither increases nor decreases the gross revenue of the hospital.

2. On or before July 1, 1991, each major hospital shall submit to the department a complete charge master for the hospital that will be effective on July 1, 1991. The charge master must be submitted on a computer medium in a form acceptable to the director.

3. Except as otherwise provided in subsections 4 to 8, inclusive, during the period from July 1, 1991, through June 30, 1995, no major hospital may:

(a) Raise the unit price of any item in its charge master.

(b) Modify the unit to which a price applies unless the change is revenue neutral.

(c) Replace an existing item in the charge master with a different item or add a new item to its charge master unless the price for the different or new item is approved by the director.

4. The director shall by regulation establish a procedure and standards for approving charges for items that:

(a) Are not stated in the charge master;

(b) Represent special equipment, supplies or medication ordered by a physician; and

(c) Are not standard items that the hospital regularly provides,

and for such other unique or unusual items as the director prescribes by regulation. The director shall allow a hospital to use the rate formula that the hospital has in effect on July 1, 1991, for determining charges for such items.

5. A major hospital shall notify the department in writing of any modification pursuant to paragraph (b) of subsection 3 or the replacement or addition of an item pursuant to paragraph (c) of subsection 3 not less than 10

days, excluding Saturdays, Sundays and legal holidays, after the modification, replacement or addition. The hospital shall submit with the notice documentation that:

(a) The modification is revenue neutral; or

(b) The different or additional item is priced at a level that reflects the same rate of return on the item as the hospital receives on comparable items or received on an item being replaced.

6. If the director determines that a modification pursuant to paragraph (b) of subsection 3 is not revenue neutral or that a replacement or addition pursuant to paragraph (c) of subsection 3 exceeds the level allowed pursuant to paragraph (b) of subsection 5, he shall disapprove the proposed charge and notify the hospital of the charge he will allow for the items disapproved. The hospital shall charge the amount approved by the director and shall credit the bill of any patient charged the amount disapproved the difference between the approved charge and the actual charge within 20 days, excluding Saturdays, Sundays and legal holidays, after receiving notice of the disapproval. If the director does not give notice of disapproval pursuant to this subsection within 20 days, excluding Saturdays, Sundays and legal holidays, after receiving notice of the modification, replacement or addition, the modification, replacement or addition shall be deemed approved.

7. If any new state or federal taxes are imposed on hospitals between July 1, 1991, and June 30, 1992, except the tax imposed on hospitals pursuant to section 13 of this act and any tax imposed pursuant to section 16 or 17 of this act, a major hospital may increase the prices in its charge master by an amount that will generate net revenue sufficient to recover the amount of the added expense. Prices may be increased pursuant to this subsection only to compensate for new taxes. Prices must not be increased to correspond with increases in existing taxes, or a modification, reconfiguration or replacement of existing taxes which results in an increased tax burden on a hospital. The director shall by regulation establish the mechanism for carrying out the increase allowed by this subsection.

8. At any time during the fiscal years 1992-93, 1993-94 and 1994-95, a major hospital may increase the price of any item on its charge master by a percentage up to the percentage increase, if any, in the Consumer Price Index (Medical Care Component for All Urban Consumers) as published by the Bureau of Labor Statistics of the United States Department of Labor for the most recent 12-month period for which information is available at the time the notice of the allowable increase is given pursuant to subsection 9. A hospital shall notify the director in writing within 10 days, excluding Saturdays, Sundays and legal holidays, after making an increase allowed by this subsection. In addition to the increases authorized by this subsection, a hospital may modify the unit to which a price applies, replace an existing item in the charge master with a different item or add a new item to its charge master during the fiscal years 1992-93, 1993-94 and 1994-95 in the manner provided in subsections 5 and 6.

9. On or before May 1, 1992, May 1, 1993, and May 1, 1994, the director shall notify each major hospital of the permissible percentage increase in each item in its charge master for the succeeding fiscal year.

10. A major hospital shall submit to the department upon request by the director a detailed listing of charges by the identification code used in the hospital's charge master for any inpatient admission or outpatient visit on a computer medium in a form acceptable to the director.

11. A new major hospital shall submit to the director a complete charge master for the hospital within 60 days after becoming a major hospital. The charge master must be submitted on a computer medium in a form acceptable to the director. The director shall review, revise as appropriate, and approve the prices in the charge master based upon the prevailing charges in the area in which the new major hospital is located. After approval of the charge master, the hospital is subject to the provisions of this section to the same extent as other major hospitals. The director shall adopt regulations governing the approval of a charge master pursuant to this subsection.

12. A major hospital which considers its financial condition so weakened that the quality of care provided by the hospital is seriously jeopardized by any provision of this act may request approval to increase the prices in its charge master by submitting a written request for the increase and supporting documentation to the director. The director shall consider the potential impact on the quality of care provided by the hospital and the probability that failure to grant relief would cause financial instability. The director may approve the request, or revise and approve the request, if he determines that such approval is necessary to ensure the ability of the hospital to provide adequate care to its patients.

13. A hospital that submits its charge master for approval pursuant to subsection 11 or requests an increase in its prices pursuant to subsection 12 shall pay the department a fee for its review of the charge master or the request. The director shall by regulation establish rates or fees for the department's review of the charge master or the request.

14. A hospital shall not:

(a) Raise a unit price in its charge master unless authorized pursuant to this section;

(b) Charge a patient a higher price for any item than the price stated in the charge master or otherwise authorized pursuant to this section; or

(c) Except as authorized pursuant to subsection 4, charge a patient for any item not included in its charge master without seeking the approval of the director as required by subsections 5 and 6.

15. The director may compare a major hospital's actual charges with the charges authorized pursuant to this section to determine whether the hospital's charges are in compliance with the provisions of this section. If the director determines that a hospital has engaged in a pattern of violations of any provision of this section, he may impose an administrative penalty on the hospital of not more than:

(a) Two times the difference between the price charged in violation of this section and the allowable price, for each instance in which that item is billed; or

(b) One thousand dollars,

whichever is greater.

16. The director may adopt such regulations as he considers necessary to carry out the provisions of this section.

Sec. 22. 1. The costs of monitoring compliance with the provisions of section 21 of this act must be met by an annual assessment of the hospitals with 200 or more licensed or approved beds that are not operated by a local government.

2. On or before July 15 of each year, the director of the department of human resources shall notify each hospital of its assessment for the fiscal year. Payment of the assessment is due on or before September 15. Late payments bear interest at the rate of 1 percent per month or fraction thereof.

3. The director shall estimate the total cost to the department of human resources, within the limits of legislative authorization, for carrying out the provisions of section 21 of this act in the current fiscal year. The total cost must be divided by the total number of patient days of care provided in the previous calendar year by the hospitals subject to the assessment. For each hospital, the assessment must be the result of this calculation multiplied by its number of patient days of care for the preceding calendar year.

4. The assessment made pursuant to this section may be combined with the assessments made pursuant to sections 20, 23 and 24 of this act.

Sec. 23. 1. The director of the department of human resources shall establish a foundation for hospital nursing practice pursuant to section 5 of this act if a foundation is not formed in accordance with subsections 1 and 2 of that section on or before October 31, 1991.

2. The director of the department of human resources shall impose upon each hospital subject to the provisions of section 5 of this act an annual assessment for the support of the foundation in the fiscal years 1991-92 and 1992-93. On or before July 15, 1991, and July 15, 1992, the director of the department of human resources shall notify each hospital of its assessment for the fiscal year. Payment of the assessment is due on or before September 15. Late payments bear interest at the rate of 1 percent per month or fraction thereof.

3. The amount of $250,000 must be divided by the total number of patient days of care provided in the previous calendar year by the hospitals subject to the assessment. For each hospital, the assessment must be the result of this calculation multiplied by its number of patient days of care for the preceding calendar year.

4. The assessment must be made regardless of whether the foundation is formed by the hospitals or the director. If the foundation is formed by the hospitals, the director shall pay the proceeds of the assessment to the foundation.

Sec. 24. 1. The cost of the educational program to promote wellness, physical fitness and the prevention of disease established pursuant to section

7 of this act must be met by an annual assessment of the hospitals with 200 or more licensed or approved beds that are not operated by a local government.

2. Each hospital which is subject to the provisions of this section shall pay an annual assessment for the support of the program in the fiscal years 1991-92 and 1992-93. On or before July 15, 1991, and July 15, 1992, the director of the department of human resources shall notify each hospital of its assessment for the fiscal year. Payment of the assessment is due on or before September 15. Late payments bear interest at the rate of 1 percent per month or fraction thereof.

3. The amount of $100,000 must be divided by the total number of patient days of care provided in the previous calendar year by the hospitals subject to the assessment. Except as otherwise provided in subsection 4, for each hospital, the assessment must be the result of this calculation multiplied by its number of patient days of care for the preceding calendar year.

4. The director may grant a credit against the assessment made pursuant to subsection 3 for a hospital that establishes its own program to promote wellness, physical fitness and the prevention of disease and accidents, if the program:

(a) Has received the prior approval of the director; and

(b) Meets the criteria set forth in section 7 of this act and any regulations adopted to carry out that section.

Sec. 25. 1. The welfare division of the department of human resources shall develop and propose an amendment to the state plan for assistance to the medically indigent in accordance with section 12 of this act as soon as practicable after July 1, 1991. The amendment must propose to:

(a) Establish a methodology allowing for maximum compensation or for an increased rate of payment to a hospital for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients; and

(b) Increase the rate of reimbursement to hospitals for treating Medicaid patients.

2. If the amendment to the state plan proposed pursuant to subsection 1 is approved, the provisions of sections 13, 14 and 15 of this act may be applied retroactively to not earlier than July 1, 1991, to the extent that such retroactive application is approved, except that:

(a) The tax authorized pursuant to section 13 of this act must, to the extent that it is imposed retroactively, be collected in equal installments over the first 12 months that the tax is in effect; and

(b) The payments made pursuant to section 15 of this act with respect to the collection of any retroactively imposed tax must be correspondingly allocated over the first 12 months that the tax is in effect.

3. Notwithstanding the provisions of section 15 of this act, the welfare division shall transfer from the hospital tax account to the state general fund, in the manner provided in subsection 4, the following amounts:

For the fiscal year 1991-92 ..... $1,310,000
For the fiscal year 1992-93 ..... $590,000

4. The welfare division shall make monthly transfers of a portion of the amounts specified in subsection 3 to the extent that money is available in the hospital tax account after making the payments required by:

(a) Subsection 2 of section 15 of this act for the fiscal year 1991-92; and

(b) Subsections 1 and 2 of section 15 of this act for the fiscal year 1992-93,

until the total amount for the respective fiscal year is transferred. Any amount required to be transferred in the fiscal year 1991-92 that is not transferred before the end of the fiscal year must be transferred in the fiscal year 1992-93.

5. There is hereby appropriated from the state general fund to the welfare division the sum of $150,000 for the administrative costs of proposing the amendment to the state plan for assistance to the medically indigent pursuant to subsection 1 and carrying out the amendment, if approved, in the fiscal year 1991-92. The welfare division is authorized to expend in the fiscal year 1991-92 not more than $150,000 contributed by the Federal Government to match the amount of the appropriation made by this subsection. If the proposed amendment to the state plan is disapproved, the balance of the appropriation made by this subsection must not be committed for expenditure and reverts to the state general fund as soon as all payments of money committed have been made. Notwithstanding the provisions of subsection 1 of section 15 of this act, the welfare division is not authorized to allocate money from the hospital tax account for the administrative costs of the Medicaid program in the fiscal year 1991-92.

Sec. 26. 1. There is hereby appropriated from the state general fund to the University of Nevada System to lower the ratio of students to teachers in health technician programs in the community college system to 7.5 to 1 in programs in which such a ratio is feasible:

For the fiscal year 1991-92 ..... $510,000

For the fiscal year 1992-93 ..... $590,000

2. Any balance of the sums appropriated by subsection 1 remaining at the end of the respective fiscal years must not be committed for expenditure after June 30 and reverts to the state general fund as soon as all payments of money committed have been made.

Sec. 27. 1. There is hereby appropriated from the state general fund to the state public works board the sum of $800,000 for the planning and design of a facility for general education at the West Charleston campus of the Clark County Community College.

2. Any remaining balance of the appropriation made by subsection 1 must not be committed for expenditure after June 30, 1993, and reverts to the state general fund as soon as all payments of money committed have been made.

Sec. 28. 1. This section and sections 1 to 12, inclusive, and 17 to 27, inclusive, of this act become effective on July 1, 1991.

2. Sections 13, 14 and 15 of this act become effective upon approval by the Health Care Financing Administration of the amendment to the state plan for assistance to the medically indigent proposed pursuant to subsection 1 of section 25 of this act.

3. Sections 13, 14 and 15 of this act expire by limitation if federal law, regulation or policy causes the welfare division of the department of human resources to be unable to make the payments specified in section 15 of this act from the revenue available for that purpose.

4. Section 16 of this act becomes effective:

(a) Upon the disapproval by the Health Care Financing Administration of the amendment to the state plan for assistance to the medically indigent proposed pursuant to subsection 1 of section 25 of this act; or

Thank you, Madam Speaker pro Tempore. Order of Business 15. As we were closing yesterday's floor session, I recalled a story from Saturday night at my high school reunion.

I am sorry if in doing so I hurt anyone's feelings or offended them. Let me extend a personal apology to Mr. Williams and Mr. Arberry. It was never my intention to offend you. These are difficult times as we work long hours together in an effort to complete the work of this session. In doing so, we need to remain sensitive to one another. I spoke to Mr. Williams this morning and assured him as a valued member of our leadership team it was never my intent to offend him. I extend the same assurances to Mr. Arberry.

WHEREAS, The secretaries and other clerical support have kept minutes, listened to constituents, written letters, organized the offices of legislators and performed countless other important tasks necessary to the operation of this Legislature; and

WHEREAS, The sergeant at arms and his staff have pleasantly performed errands, poured coffee, delivered messages and organized the daily files of the Assembly; and

Remarks by Assemblymen Porter, Price, McGaughey and Madam Speaker pro Tempore.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PORTER:

Thank you, Madam Speaker pro Tempore. Whatever the number of it is, the substance of it is still the same. The substance of the resolution commends all the individuals who are behind me now, the ladies who are in front of me and the wonderful young people who are in the red coats that assist us every day and keep this session functioning as smoothly as it has. Madam Speaker pro Tempore, there is not enough thanks that this body can give to all of these individuals. I know that we thank them on a daily basis but for the most part they really don't get enough thanks. They don't get enough recognition for the job that they do in keeping us here and keeping us prepared in keeping this legislative session rolling. If we were as efficient as the staff that runs this place, we probably would have been able to leave a long, long time ago, but we are not, and we have other differences between us. They allow us to have those differences and allow us to do our jobs in, hopefully, what I think will be an effective manner. I would like to welcome all of you that are here now for coming down and watching our floor session and especially for myself, the Speaker, the Minority Leader and the rest of us—we certainly appreciate the job that all of you have done for this legislative session and thank you all, very much.

ASSEMBLYMAN PRICE:

Thank you, Madam Speaker pro Tempore. I, too, would like to rise in recognition in honoring our wonderful employees and staff, the unsung heroes of the legislative session, and keep us to some degree, what, at least to the efficiency and the point that we are, and it's pretty hard on them. I'm not sure why some come back every year, but I want to commend Mouryne because of her ability to somehow find all of these wonderful people for us every year. Thank you, again. I don't think there is enough that we can say or do on behalf of the people, and the ladies, and the young gentlemen, and all those who come in at four o'clock in the morning, back in the bill book room, and everyone who helps us. We thank you all. I won't tell any stories on you if you don't tell any stories on me.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Madam Speaker pro Tempore. I want to add my thank you to the staff. I have seen the ladies at the front desk as late as 9:30, 10:00, at night here. They work the weekends, they are here on Sundays, Saturdays, just like we are and without them, we'd never get our job done. So, I, too, want to thank everyone in this building for all the good work they have done for us.

MADAM SPEAKER PRO TEMPORE:

Thank you, Mr. McGaughey. I would like to take a point of personal privilege and echo the remarks of my colleagues and extend those remarks to all those people who have worked so diligently for us but cannot be here or are not here with us today.

Resolution adopted unanimously.

Amend the bill as a whole by deleting sections 1 through 26 and adding new sections designated sections 1 through 10, following the enacting clause, to read as follows:

"Section 1. Chapter 422 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 to 8, inclusive, of this act.

Sec. 2. *As used in sections 2 to 8, inclusive, of this act, unless the context otherwise requires:*

*1. "Billed charge" means the total amount charged by a hospital for medical care provided, regardless of the anticipated amount of net revenue to be received or the anticipated source of payment.*

*2. "Hospital" has the meaning ascribed to it in NRS 439B.110.*

*3. "Medicaid" has the meaning ascribed to it in NRS 439B.120.*

*4. "Operating cost" means the expenses of operation of a hospital which the department determines to be an allowable operating expense including:*

*(a) All operating expenses allowed by the Health Care Financing Administration for hospitals which receive payments pursuant to a state or federal program to provide assistance to the medically indigent;*

*(b) Expenses for capital improvements; and*

*(c) Other operating expenses which the department determines to be directly related to the provision of care to patients.*

Sec. 3. *1. The department is authorized to include in the state plan for assistance to the medically indigent a methodology allowing for maximum compensation or for an increased rate of payment to a hospital for treating a disproportionate share of Medicaid patients, indigent patients or other low-income patients. The plan must be consistent with the provisions of sections 2 to 8, inclusive, of this act and Title XIX of the Social Security Act (42 U.S.C. §§ 1396 et seq.), and the regulations adopted pursuant to those provisions.*

2. A program for increasing reimbursement to teaching hospitals that is directly related to reducing the ratio of students to teachers in health technician programs in the community college system must not be adopted as part of the state plan for assistance to the medically indigent unless first approved by the legislature by concurrent resolution, if the legislature is in regular or special session, or by the interim finance committee.

Sec. 4. *1. There is hereby imposed a tax on hospitals at a rate established pursuant to subsection 2.*

*2. The department shall establish the rate of the tax imposed pursuant to subsection 1, upon approval by the board of the necessary changes to the state plan for assistance to the medically indigent. The rate of the tax must be:*

*(a) Not less than 1 percent nor more than 7 percent on the operating costs of a hospital;*

*(b) Not less than 1 percent nor more than 4 percent on the billed charges of a hospital;*

*(c) Not more than 100 percent of the state share of the amount of Medicaid payments made to a hospital for services provided to inpatients; or*

*(d) Any combination of the rates authorized by paragraphs (a), (b) and (c), except that the total amount of the tax must not exceed the amount that would be generated by a tax at the maximum rate allowed by paragraph (a) or (b), whichever is greater.*

*3. The tax must be imposed uniformly on all hospitals and must, except in the case of a tax imposed pursuant to paragraph (c) of subsection 2, be paid monthly. The tax is due within 10 days, excluding Saturdays, Sundays and legal holidays, after notice of the amount of the tax is received by the hospital. A tax imposed pursuant to paragraph (c) of subsection 2 may be paid at the time a Medicaid payment is made to the hospital.*

*4. The proceeds of the tax imposed pursuant to subsection 1 and any interest and penalties imposed on delinquent payments of the tax must be deposited in the state treasury for credit to the hospital tax account in the state general fund. The department of human resources shall administer the account.*

*5. The interest and income earned on money in the hospital tax account, after deducting any applicable charges, must be credited to the account.*

Sec. 5. *1. The allocations and payments required pursuant to section 6 of this act must be made, to the extent allowed by the state plan for assistance to the medically indigent, from the Medicaid budget account.*

*2. The money in the hospital tax account must be transferred from that account to the Medicaid budget account to the extent that money is available from the Federal Government for proposed expenditures, including expenditures for administrative costs. If the amount generated by the tax imposed pursuant to section 4 of this act, including the amount contributed by the Federal Government to match that money, exceeds the amount authorized for expenditure by the department for the purposes specified in section 6 of this act, the department is authorized to expend the additional revenue in accordance with the provisions of section 6 of this act.*

Sec. 6. *1. Before making the payments required or authorized by this section, the department shall allocate money for the administrative costs of the Medicaid program. The amount allocated for administrative costs must not exceed $300,000 in a fiscal year. The interim finance committee may adjust the amount allowed for administrative costs.*

*2. After deducting the amount allocated pursuant to subsection 1, the department shall make payments to each hospital within 30 days after each payment of the tax imposed pursuant to section 4 of this act. Except as otherwise provided in this subsection, the amount paid to a hospital must at least equal the amount of the tax imposed pursuant to section 4 of this act that was paid by the hospital in the preceding month plus $100,000 in each fiscal year. If the tax authorized pursuant to paragraph (c) of subsection 2 of section 4 of this act is the only tax imposed pursuant to that subsection, the amount paid to a hospital must at least equal the amount of the tax that was*

*paid by the hospital in the preceding 30 days. If the amount paid to a hospital pursuant to subsection 3 is less than the amount required by this subsection, the difference must be paid from the hospital tax account.*

*3. A hospital may be paid the amount to which it is entitled pursuant to subsection 2, and any amount to which the hospital is entitled in excess of that amount, from the Medicaid budget account:*

*(a) If the hospital qualifies pursuant to criteria specified in the state plan for assistance to the medically indigent for compensation or an increased rate of payment for treating a disproportionate share of Medicaid patients, indigent patients or other low-income patients;*

*(b) Through an increased rate of Medicaid payments to hospitals for services provided to inpatients; or*

*(c) Through a combination of the payments authorized by paragraphs (a) and (b).*

*4. In addition to the allocation required by subsection 1 and the payments required by subsections 2 and 3, the department shall use the amount of money that is authorized for expenditure pursuant to subsection 5 to make the required expenditures for:*

*(a) The provision of new services that are first required by the Federal Government on or after April 1, 1990;*

*(b) The provision of services to persons in categories of eligibility that are first required by the Federal Government to receive coverage for such services on or after April 1, 1990; and*

*(c) Increases in the number of persons who are recipients of Medicaid over the number approved by the legislature for the Medicaid budget account.*

*5. Except as otherwise provided in this subsection, the department shall, after making the allocation required by subsection 1, use approximately one-half of the money in the Medicaid budget account that is attributable to the tax imposed pursuant to section 4 of this act, including the amount contributed by the Federal Government to match that money but excluding the amount that represents the amount of the tax itself, for the purposes specified in subsection 3 and one-half for the purposes specified in subsection 4. The proportion of the amount in the Medicaid budget account used for the purposes specified in subsection 3 may be decreased by the department if such a decrease is required for approval of the state plan for assistance to the medically indigent by the Health Care Financing Administration.*

*6. A county or district hospital that borrows money to pay the tax imposed pursuant to section 4 of this act may pledge the amount of money to be paid to the hospital pursuant to this section for payment of the loan.*

Sec. 7. *1. In addition to any other tax imposed on providers of medical care, there is hereby imposed a tax on the state share of Medicaid payments made to providers of medical care, except for payments to a hospital for services provided to inpatients and payments for long-term care, at a rate established pursuant to subsection 2.*

*2. The department shall establish the rate of the tax, upon approval by the board of the necessary changes to the state plan for assistance to the*

*medically indigent. The rate of the tax must be not more than 100 percent of the state share of the amount of Medicaid payments made to a provider of medical care, except for payments to a hospital for services provided to inpatients and payments for long-term care. The tax may be imposed at the time a payment is made to a provider. The proceeds of the tax and any interest and penalties imposed on delinquent payments of the tax must be deposited in the state treasury for credit to the Medicaid budget account.*

*3. The money in the Medicaid budget account attributable to the tax and any amount contributed by the Federal Government to match that money:*

*(a) Must be used:*

*(1) For the administrative costs of the Medicaid program that are related to the tax; and*

*(2) To repay the amount of the tax to the providers who pay the tax through an increased rate of reimbursement for services provided to Medicaid patients.*

*The amount of money remaining after the payments required by subparagraphs 1 and 2 must be used to increase the reimbursement paid to the providers of medical care who paid the tax for services provided to Medicaid patients, in proportion to the amount of tax paid by such providers, or for other expenses of the Medicaid program.*

*(b) Is in addition to the amount appropriated or authorized for expenditure by the legislature for that budget account.*

Sec. 8. *1. The department, through the welfare division, shall adopt regulations concerning:*

*(a) Procedures for the collection of the taxes imposed pursuant to sections 4 and 7 of this act.*

*(b) Provisions for the payment of a penalty and interest for delinquent payments of the taxes.*

*(c) Provisions for the payment of interest by the department for late reimbursements to hospitals or other providers of medical care.*

*2. The department shall report to the interim finance committee quarterly concerning the provisions of sections 2 to 8, inclusive, of this act.*

Sec. 9. 1. The department of human resources, through the welfare division, shall develop and propose an amendment to the state plan for assistance to the medically indigent in accordance with section 3 of this act and submit the proposed amendment to the Health Care Financing Administration on or before September 30, 1991. The amendment must propose to:

(a) Establish a methodology allowing for maximum compensation or for an increased rate of payment to a hospital for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients;

(b) Increase the rate of reimbursement to hospitals for treating Medicaid patients; or

(c) Make some combination of the changes authorized pursuant to paragraphs (a) and (b).

The department of human resources shall implement the proposed amendment on September 30, 1991.

2. The provisions of sections 4, 5 and 6 of this act must be applied retroactively to July 1, 1991, except that:

(a) The tax authorized pursuant to section 4 of this act must be collected over the first 3 months that the tax is in effect. The tax for the month of July must be collected with the tax for the month of October. The tax for the month of August must be collected with the tax for the month of November. The tax for the month of September must be collected with the tax for the month of December.

(b) The payments made pursuant to section 6 of this act with respect to the collection of the retroactively imposed tax must be correspondingly allocated over the first 3 months that the tax is in effect.

3. Except as otherwise provided in subsections 4 and 5, if the proposed amendment is not approved, the hospitals to which payments are made pursuant to section 6 of this act shall repay to the department:

(a) The amount paid to the hospital pursuant to the change in the state plan proposed pursuant to subsection 1 for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients;

(b) The amount paid to the hospital as a result of the increased rate of reimbursement paid to hospitals pursuant to the change in the state plan proposed pursuant to subsection 1 for treating Medicaid patients; and

(c) The amount by which the amount guaranteed to be paid to the hospital pursuant to subsection 2 of section 6 of this act exceeds the amount of tax paid by the hospital,

between September 30, 1991, and the date that the proposed amendment is rejected. Payment is due within 30 calendar days after notice of the amount of the required repayment is received by the hospital. Delinquent payments must be accompanied by a penalty of 10 percent of the amount of the payment and interest at the rate of 1.5 percent per month, or fraction thereof, from the date the payment is due until the date the payment is made.

4. The repayment, if any, required pursuant to subsection 3 does not include:

(a) The amount expended by the department for administrative costs.

(b) Any reimbursement paid to hospitals for treating inpatients pursuant to the state plan for assistance to the medically indigent in effect on June 30, 1991, including increases after that date that would have been made pursuant to the plan in effect on that date.

(c) Any payment for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients pursuant to the state plan for assistance to the medically indigent in effect on June 30, 1991.

5. If a portion of the proposed amendment is approved and a portion is not approved, the repayment required by subsection 3 is limited to the amount paid to the hospital pursuant to the portion of the proposal that was disapproved.

6. There is hereby appropriated from the state general fund to the department of human resources the sum of $150,000 for the administrative costs of proposing the amendment to the state plan for assistance to the medically indigent pursuant to subsection 1 and carrying out the amendment

in the fiscal year 1991-92. The department is authorized to expend in the fiscal year 1991-92 not more than $150,000 contributed by the Federal Government to match the amount of the appropriation made by this subsection. If the proposed amendment to the state plan is disapproved, the balance of the appropriation made by this subsection must not be committed for expenditure and reverts to the state general fund as soon as all payments of money committed have been made. The amount appropriated pursuant to this subsection must be repaid to the state general fund from the hospital tax account in the manner provided in subsection 1 of section 6 of this act.

7. Notwithstanding any other provision of law to the contrary, the department of human resources may request additional funding from the legislature to replace money included in the budget approved by the legislature in reliance upon the revenue to be generated pursuant to this act that is lost as a result of any change in federal law, regulation or policy that affects the amount of money generated for the state pursuant to the provisions of this act, including the loss of any money included in the budget that was intended to be contributed by the Federal Government to match that amount.

Sec. 42.5. Section 5 of Senate Bill No. 609 of this session is hereby amended to read as follows:

Sec. 5. NRS 62.211 is hereby amended to read as follows:

62.211 1. If the court finds that the child is within the purview of this chapter, except as otherwise provided in subsection 3, it shall so decree and may:

(a) Place the child under supervision in his own home or in the custody of a suitable person elsewhere, upon such conditions as the court may determine. A program of supervision in the home may include electronic surveillance of the child. The legislature declares that a program of supervision that includes electronic surveillance is intended as an alternative to commitment and not as an alternative to probation, informal supervision or a supervision and consent decree.

(b) Commit the child to the custody or to the guardianship of a public or private institution or agency authorized to care for children, or place him in a home with a family. In committing a child to a private institution or agency the court shall select one that is required to be licensed by the department of human resources to care for such children, or, if the institution or agency is in another state, by the analogous department of that state. The court must not commit a female child to a private institution without prior approval of the superintendent of the Caliente youth center, and must not commit a male child to a private institution without prior approval of the superintendent of the Nevada youth training center.

(c) If the child is 12 years of age or older, commit the child to the custody of the division of child and family services of the department of human resources for suitable placement in a correctional or institutional facility. The division must notify the parents of the child and the court before transferring a child from one such facility to another.

(d) If the child is between the ages of 8 and 12 and, but for the age of the child, the court would have committed the child to the Caliente youth center or the Nevada youth training center, commit the child to the custody of the division of child and family services of the department of human resources for suitable placement in a public or private institution or agency authorized to care for children.

(e) Order such medical, psychiatric, psychological or other care and treatment as the court deems to be for the best interests of the child, except as otherwise provided in this section.

(f) Order the parent, guardian, custodian or any other person to refrain from continuing the conduct which, in the opinion of the court, has caused or tended to cause the child to come within or remain under the provisions of this chapter.

(g) Place the child, when he is not in school, under the supervision of a public organization to work on public projects or a private nonprofit organization to perform public service. The person under whose supervision the child is placed shall keep the child busy and well supervised and shall make such reports to the court as it may require.

(h) Permit the child to reside in a residence without the immediate supervision of an adult, or exempt the child from mandatory attendance at school so that the child may be employed full time, or both, if the child is at least 16 years of age, has demonstrated the capacity to benefit from this placement or exemption and is under the strict supervision of the juvenile division.

(i) Require the child to provide restitution to the victim of the crime which the child has committed.

(j) Impose a fine on the child. If a fine is imposed, the court shall impose an administrative assessment pursuant to NRS 62.223.

2. If the court finds that the child is a serious or chronic offender, it may, in addition to the options set forth in subsection 1:

(a) Commit the child for confinement in a secure facility, including a facility which is secured by its staff.

(b) Impose any other punitive measures the court determines to be in the best interests of the public.

3. If the court finds that the child is within the purview of paragraph (a) of subsection 1 of NRS 62.040 and has not previously been the subject of a complaint under NRS 62.128 before committing the acts for which the petition was filed, the court shall:

(a) Admonish the child to obey the law and to refrain from repeating the acts for which the petition was filed, and maintain a record of the admonition; and

(b) Refer the child, without adjudication, to services available in the community for counseling, behavioral modification and social adjustment.

A child must not be adjudicated to be a child in need of supervision unless a subsequent petition based upon additional facts is filed with the court after admonition and referral pursuant to this subsection.

4. At any time, either on its own volition or for good cause shown, the court may terminate its jurisdiction concerning the child.

5. Whenever the court commits a child to any institution or agency pursuant to this section, it shall transmit a summary of its information concerning the child and order the administrator of the school that the child last attended to transmit a copy of the child's educational records to the institution or agency. The institution or agency shall give to the court any information concerning the child that the court may require.

*6. In determining whether to place a child pursuant to this section in the custody of a person other than his parent, guardian or custodian, preference must be given to any person related within the third degree of consanguinity to the child whom the court finds suitable and able to provide proper care and guidance for the child.*".

Amend the bill as a whole by adding a new section designated sec. 49, following sec. 48, to read as follows:

"Sec. 49. Sections 25 to 34, inclusive, and 43 of this act expire by limitation on July 1, 1993.".

The following amendment was proposed by Assemblyman Arberry:

Amendment No. 414.

Amend the bill as a whole by adding a new section designated sec. 3, following sec. 2, to read as follows:

"Sec. 3. NRS 463.335 is hereby amended to read as follows:

463.335 1. The legislature finds that, to protect and promote the health, safety, morals, good order and general welfare of the inhabitants of the State of Nevada and to carry out the policy declared in NRS 463.0129, it is necessary that the board:

(a) Ascertain and keep itself informed of the identity, prior activities and present location of all gaming employees in the State of Nevada; and

(b) Maintain confidential records of such information.

2. No person may be employed as a gaming employee unless he is the holder of:

(a) A valid work permit issued in accordance with the applicable ordinances or regulations of the county or city in which his duties are performed and the provisions of this chapter; or

(b) A work permit issued by the board, if a work permit is not required by either the county or the city.

3. A work permit issued to a gaming employee must have clearly imprinted thereon a statement that it is valid for gaming purposes only.

4. Whenever any person applies for the issuance or renewal of a work permit, the county or city officer or employee to whom the application is made shall within 24 hours mail or deliver a copy thereof to the board, and may at the discretion of the county or city licensing authority issue a temporary work permit. If within 90 days after receipt by the board of the copy of the application, the board has not notified the county or city licensing authority of any objection, the authority may issue, renew or deny a work permit to the applicant. Any holder of a work permit must obtain renewal of the permit from the issuing agency within 10 days following any change of his place of employment.

5. If the board, within the 90-day period, notifies:

(a) The county or city licensing authority; and

(b) The applicant,

that the board objects to the granting of a work permit to the applicant, the authority shall deny the work permit and shall immediately revoke and repossess any temporary work permit which it may have issued. The notice of objection by the board which is sent to the applicant must include a statement of the facts upon which the board relied in making its objection.

6. Application for a work permit, valid wherever a work permit is not required by any county or city licensing authority, may be made to the board, and may be granted or denied for any cause deemed reasonable by the board. Whenever the board denies such an application, it shall include in its notice of the denial a statement of the facts upon which it relied in denying the application.

7. Any person whose application for a work permit has been denied because of an objection by the board or whose application has been denied by the board may, not later than 60 days after receiving notice of the denial or objection, apply to the board for a hearing. A failure of a person whose

application has been denied to apply for a hearing within 60 days or his failure to appear at a hearing of the board conducted pursuant to this section shall be deemed to be an admission that the denial or objection is well founded and precludes administrative or judicial review. At the hearing, the board or any designated member of the board or an examiner appointed by the board shall take any testimony deemed necessary. After the hearing the board shall review the testimony taken and any other evidence, and shall within 30 days after the date of the hearing announce its decision sustaining or reversing the denial of the work permit or the objection to the issuance of a work permit. The board may object to the issuance of a work permit or may refuse to issue a work permit for any cause deemed reasonable by the board. The board may object or refuse if the applicant has:

(a) Failed to disclose, misstated or otherwise attempted to mislead the board with respect to any material fact contained in the application for the issuance or renewal of a work permit;

(b) Knowingly failed to comply with the provisions of this chapter or chapter 463B, 464 or 465 of NRS or the regulations of the commission at a place of previous employment;

(c) Committed, attempted or conspired to commit any crime of moral turpitude, embezzlement or larceny or any violation of any law pertaining to gaming, or any crime which is inimical to the declared policy of this state concerning gaming;

(d) Committed, attempted or conspired to commit a crime which is a felony or gross misdemeanor in this state or an offense in another state or jurisdiction which would be a felony or gross misdemeanor if committed in this state;

(e) Been identified in the published reports of any federal or state legislative or executive body as being a member or associate of organized crime, or as being of notorious and unsavory reputation;

(f) Been placed and remains in the constructive custody of any federal, state or municipal law enforcement authority; or

(g) Had a work permit revoked or committed any act which is a ground for the revocation of a work permit or would have been a ground for revoking his work permit if he had then held a work permit.

*If the board issues or does not object to the issuance of a work permit to an applicant who has been convicted of a crime which is a felony or gross misdemeanor, it may specially limit the period for which the permit is valid, limit the job classifications for which the holder of the permit may be employed and establish such individual conditions for the issuance and effectiveness of the permit as the board deems appropriate, including required submission to unscheduled tests for the presence of alcohol or controlled substances.*

8. Any applicant aggrieved by the decision of the board may, within 15 days after the announcement of the decision, apply in writing to the commission for review of the decision. Review is limited to the record of the

proceedings before the board. The commission may sustain or reverse the board's decision. The decision of the commission is subject to judicial review pursuant to NRS 463.315 to 463.318, inclusive.

9. All records acquired or compiled by the board or commission relating to any application made pursuant to this section and all lists of persons to whom work permits have been issued or denied and all records of the names or identity of persons engaged in the gaming industry in this state are confidential and must not be disclosed except in the proper administration of this chapter or to an authorized law enforcement agency. Any record of the board or commission which shows that the applicant has been convicted of a crime in another state must show whether the crime was a misdemeanor, gross misdemeanor, felony or other class of crime as classified by the state in which the crime was committed. In a disclosure of the conviction, reference to the classification of the crime must be based on the classification in the state where it was committed.

10. A work permit expires unless renewed within 10 days after a change of place of employment or if the holder thereof is not employed as a gaming employee within the jurisdiction of the issuing authority for more than 90 days. *If a limited work permit is issued to a person who has committed a felony or gross misdemeanor in this state or an offense in another state or jurisdiction which would be a felony or gross misdemeanor if committed in this state, the limited work permit must expire not later than 6 months after its issuance. It may be renewed upon confirmation by the board that the applicant remains suitable to hold the work permit.*

11. Notice of any *nonrenewal,* objection to or denial of a work permit by the board as provided pursuant to this section is sufficient if it is mailed to the applicant's last known address as indicated on the application for a work permit. The date of mailing may be proven by a certificate signed by an officer or employee of the board which specifies the time the notice was mailed. The notice is presumed to have been received by the applicant 5 days after it is deposited with the United States Postal Service with the postage thereon prepaid.".

Amend the title of the bill to read as follows:

"An Act relating to convicted persons; authorizing a court to require a convicted person to perform supervised work as punishment or as a condition of his probation; authorizing, under certain circumstances, the issuance of a limited gaming work permit to a convicted person upon the completion of his sentence; and providing other matters properly relating thereto.".

ASSEMBLYMAN BENNETT:

Thank you, Mr. Speaker. S.B. No. 293 expresses the public policy that a state officer or employee is encouraged to disclose to the extent not expressly prohibited by law, improper governmental action. It further expresses the Legislature's intent to protect the rights of a state officer or employee who makes such a disclosure.

The bill specifies that one state officer or employee may not use the provisions of the act to harass another officer or employee. The measure also affirms that its provisions do not prohibit a state officer or employee from initiating disciplinary procedures against another officer or employee who discloses untruthful information concerning improper governmental action.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I also rise in support of S.B. No. 293. This is a significant piece of legislation. It has been before us before. Those of you who were here last term remember how hard Jim Spinello worked on this bill. This was Jim Spinello's bill. It was killed in the Senate. To the freshmen, you will see this happen frequently. We have good legislation go through this house, doesn't go anywhere in the other house, and guess what, it comes back the next time with their jacket on it. I hope you will support it. I will be thinking of Jim Spinello when I vote yes.

3. The state controller shall distribute the money in the fund monthly among the several local governments in the county that are eligible to receive a distribution of the revenue from the supplemental city-county relief tax, including the county, in the proportion which the basic ad valorem revenue of each local government bears to the total basic ad valorem revenue of all these local governments.

4. As used in this section, "basic ad valorem revenue" has the meaning ascribed to it in NRS 377.057.

Sec. 29. 1. Except as otherwise provided in section 34 of this act and in addition to all other sales and use taxes, the board of county commissioners of Churchill, Elko, Humboldt and Lander counties and the board of supervisors of Carson City may by ordinance, but not as in a case of emergency, impose a tax at the rate of up to ¼ of 1 percent of the gross receipts of any retailer from the sale of all tangible personal property sold at retail, or stored, used or otherwise consumed in the county.

2. The tax imposed pursuant to this section applies throughout the county, including incorporated cities in the county.

3. The ordinance enacted pursuant to this section must include provisions in substance as follows:

(a) Provisions substantially identical to those of the Local School Support Tax Law, insofar as applicable.

(b) A provision that all amendments to the provisions of the Local School Support Tax Law subsequent to the date of enactment of the ordinance, not inconsistent with this section, automatically become a part of the ordinance enacted pursuant to subsection 1.

(c) A provision that the county shall contract before the effective date of the ordinance enacted pursuant to subsection 1 with the department to perform all functions incident to the administration or operation of the tax imposed pursuant to subsection 1.

4. All fees, taxes, interest and penalties imposed and all amounts of tax required to be paid to the county under this section must be paid to the department of taxation in the form of remittances made payable to the department of taxation.

3. The tax imposed pursuant to this section applies throughout the county, including incorporated cities in the county.

4. The proceeds of the tax imposed pursuant to this section must be deposited with the state treasurer for credit to the tax distribution fund for the county in which it was collected.

2. The ordinance imposing the tax must include:

(a) Provisions substantially identical to those contained in chapter 375 of NRS, insofar as applicable; and

(b) A provision that all amendments to chapter 375 of NRS after the date of enactment of the ordinance, not inconsistent with the chapter, automatically become a part of the ordinance imposing the tax.

3. The tax imposed pursuant to this section applies throughout the county, including incorporated cities in the county.

4. The proceeds of the tax must be deposited with the state treasurer for credit to the tax distribution fund for the county in which it was collected.

Sec. 33. 1. Except as otherwise provided in section 34 of this act, the board of county commissioners of Churchill, Elko, Humboldt and Lander counties and the board of supervisors of Carson City may levy a tax ad valorem on the assessed valuation of all taxable property in the county.

2. The provisions of NRS 354.59811 do not apply to a tax levied pursuant to the provisions of this section and the tax must not be considered in determining the allowed revenue from taxes ad valorem for the county or any local government therein.

3. Notwithstanding the provisions of NRS 279.676, no portion of the taxes levied pursuant to this section may be distributed to a redevelopment agency.

4. The county treasurer shall deposit the proceeds of the tax levied pursuant to the provisions of this section monthly with the state treasurer for credit to the tax distribution fund for the county in which it was collected.

1. Shall adopt a plan to replace the reduction in the amount of proceeds of the supplemental city-county relief tax estimated for that county pursuant to section 35 of this act on or before September 1, 1991, if the tax is to be imposed or levied for fiscal year 1991-1992 and on or before May 31 of the immediately preceding fiscal year if the tax is to be imposed or levied for fiscal years 1992-1993 through 1995-1996. The plans may include one or more of the taxes authorized by sections 29 to 33, inclusive, of this act, but the total amount of revenue estimated to result from all taxes imposed or levied pursuant to sections 29 to 33, inclusive, of this act must not exceed the estimate of the reduction in the amount of proceeds of the supplemental city-county relief tax estimated for that county pursuant to section 35 of this act for the fiscal year during which the plan is to be in effect.

2. May revise the plans adopted pursuant to subsection 1 for the fiscal years 1992-1993 through 1996-1997 on or before the May 31 immediately preceding the fiscal year during which the plan is to be in effect.

3. Shall not, after June 30, 1996, impose, levy or continue any of the taxes authorized by sections 29 to 33, inclusive, of this act.

The legislature hereby finds and declares that the following amounts specified for each county estimate fairly the amount by which the proceeds of the supplemental city-county relief tax were reduced during the revision of the formula for the distribution of the supplemental city-county relief tax:

SECOND READING AND AMENDMENT

Assembly Bill No. 371.

Bill read second time.

The following amendment was proposed by the Committee on Ways and Means:

Amendment No. 1492.

Amend the bill as a whole by deleting sections 1 through 11 and adding new sections designated sections 1 through 8, following the enacting clause, to read as follows:

"Section 1. As used in sections 2 to 6, inclusive, of this act, unless the context otherwise requires:

1. "Chief" means the chief of the budget division of the department of administration.

2. "Selected agency" means the agency finally selected by the governor pursuant to section 2 of this act.

Sec. 2. 1. On or before October 1, 1992, the governor shall, with the assistance of the chief, select a department, division, bureau, institution, office, board, commission or other agency of the executive branch of government to which the provisions of sections 2 to 6, inclusive, of this act are to apply. These provisions apply only to the selected agency and, except as otherwise provided in sections 3, 4 and 5 of this act, apply notwithstanding any inconsistent provision of state statute or other legislative measure that would otherwise apply to the agency.

2. The selected agency:

(a) Must be one for which the establishment of a special account is authorized by section 3 or 4 of this act. If the establishment of such an account is not authorized for the agency selected initially by the governor, additional agencies must be selected until an agency is selected that meets the requirements of this paragraph. The final selection must be made within the time provided by subsection 1.

(b) Must not be a board or commission whose expenditures during the fiscal year 1991-92 are entirely from sources other than appropriations from the state general fund or state highway fund.

Sec. 3. 1. On or before October 1, 1992, the governor shall, with the assistance of the chief:

(a) Examine the amount of the reversion to the state general fund or state highway fund of the unencumbered balance of the sums appropriated to the selected agency for expenditure in the fiscal year 1991-92; and

(b) Determine from that amount the savings attributable to prudent fiscal management by the selected agency in accomplishing the purposes of the reverting appropriation.

2. On or before November 1, 1992, the state controller shall, except as otherwise required by specific state statute or other legislative measure, by federal law or as a condition to the receipt of money from any source:

(a) Establish a special account in the state general fund or state highway fund, or both, on behalf of the selected agency; and

(b) Transfer to the account the savings attributable to the selected agency.

Sec. 4. 1. On or before October 1, 1992, the governor shall, with the assistance of the chief:

3. The unencumbered balance of the amount transferred to a special account pursuant to section 3 or 4 of this act must not be committed for expenditure after June 30, 1993, and reverts to the remainder of the fund in which it was transferred as soon as all payments of money committed have been made.

2. The provisions of NRS 353.215 and 353.220 do not apply to any work program authorized pursuant to section 5 of this act or to any money allotted to such a work program from a special account created pursuant to section 3 or 4 of this act.

## REMARKS FROM THE FLOOR

Assemblyman Myrna Williams requested that Assemblyman Porter's remarks be entered in the Journal.

Thank you, Mr. Speaker. Under Order of Business 15, I have my own speech about your performance, but I'll save it for the last night. Mr. Speaker, if I may be allowed a moment of pride in the indulgence of the house this morning, I would like to share with you a little story. It's my turn to tell a story this time, right.

Mr. Speaker, back in 1987, my law partner was retained to represent a man who was accused of stealing some travelers checks and a large quantity of cocaine from a vault that he was the owner of. The Grand Jury returned an indictment, and upon the return of the indictment we went over to the courthouse and surrendered this individual, whereupon my law partner called a press conference. Several members of the Las Vegas media attended that press conference where my partner made certain extrajudicial statements. He was issued a private reprimand by the State Bar of Nevada for violating the state bar's disciplinary rules about prejudicial statements dealing with the conduct of a trial. Not being content with a private reprimand, if you know my partner, he chose to make it public and appealed that reprimand to the Nevada Supreme Court. The Nevada Supreme Court in a four to nothing decision affirmed the decision to issue the private reprimand to my partner, and he thereupon appealed to the United States Supreme Court. As you know, the United States Supreme Court granted certiorari, and this case was argued on April 15. This morning the U.S. Supreme Court in a five to four decision reversed the Nevada Supreme Court and ruled in favor of my partner, Dominic Gentile. With the chair's permission I would like to read part of the court's decision which was FAXed to me a few moments ago. The case is entitled, Dominic P. Gentile versus State Bar of Nevada. Let me quote from part of the proceedings, Mr. Speaker, "The State Bar of Nevada reprimanded petitioner for his assertion supported by a brief sketch of his client's defense that the State sought the indictment and conviction of an innocent man as a scapegoat and had not been honest enough to indict the people who did it, the police department, crooked cops. At issue here is the constitutionality of a ban on political speech critical of the government and its officials.

"Unlike other First Amendment cases, this Term in which speech is not the direct target of the regulation or statute in question, this case involves punishment of pure speech in the political forum. Petitioner engaged not in solicitation of clients or advertising for his practice, as in our precedents from which some of our colleagues would discern a standard of diminished First Amendment protection. His words were directed at public officials and their conduct in office.

"There is no question that speech critical of the exercise of the State's power lies at the very center of the First Amendment. Nevada seeks to punish the dissemination of information relating to alleged governmental misconduct, which only last Term we described as 'speech which has traditionally been recognized as lying at the core of the First Amendment.'

"The judicial system, and in particular our criminal justice courts, play a vital role in a democratic state, and the public has a legitimate interest in their operations. It would be difficult to single out any aspect of government of higher concern and importance to the people than the manner in which criminal trials are conducted. Public vigilance serves us well, for the knowledge that every criminal trial is subject to contemporaneous review in the forum of public opinion is an effective restraint on possible abuse of judicial power. Without publicity, all other checks are insufficient; in comparison of publicity, all other checks are of small account.

"One may concede the proposition that an attorney's speech about pending cases may present dangers that could not arise from statements by a nonparticipant, and that an attorney's duty to cooperate in the judicial process may prevent him or her from taking actions with an intent to frustrate that process. The role of attorneys in the criminal justice system subjects them to fiduciary obligations to the court and the parties. An attorney's position may result in some added ability to obstruct the proceedings through well-timed statements to the press, though one can debate the extent of an attorney's ability to do so without violating other established duties. A court can require an attorney's cooperation to an extent not possible of nonparticipants. A proper weighing of dangers might consider the harm that occurs when speech about ongoing proceedings forces the court to take burdensome steps such as sequestration, continuances, or change of venue.

"If as a regular matter speech by an attorney about pending cases raised real dangers of this kind, then a substantial governmental interest might support additional regulation of speech. But this case involves the sanction of speech so innocuous, and an application of Rule 177 safe harbor provision so begrudging, that it is difficult to determine the force

these arguments would carry in a different setting. The instant case is a poor vehicle for defining with precision the outer limits under the Constitution of a court's ability to regulate an attorney's statements about ongoing adjudicative proceedings. At the very least, however, we can say that the Rule which punished petitioner's statement represents a limitation of First Amendment freedoms greater than is necessary or essential to the protection of the particular governmental interest, and does not protect against a danger of the necessary gravity, imminence, or likelihood.

"The vigorous advocacy we demand of the legal profession is accepted because it takes place under the neutral, dispassionate control of the judicial system. Though cost and delays undermine it in all too many cases, the American judicial trial remains one of the purest, most rational forums for the lawful determination of disputes. A profession which takes just pride in these traditions may consider them disserved if lawyers use their skills and insight to make untested allegations in the press instead of in the courtroom. But constraints of professional responsibility and societal disapproval will act as sufficient safeguards in most cases. And in some circumstances press comment is necessary to protect the rights of the client and prevent abuse of the courts. It cannot be said that petitioner's conduct demonstrated any real or specific threat to the legal process, and his statements have the full protection of the First Amendment. The judgment of the Supreme Court of Nevada is reversed."

## REPORTS OF COMMITTEES

Roll called.

All present except Assemblyman Bergevin, who was excused.

Prayer by the Chaplain, The Reverend Bruce Henderson.

Lord, Republicans and Democrats, north and south, urban and rural, we sure have lots of divisions here. Please help us to mend fences and leave, Father, as friends. We ask a special blessing on our colleagues who are ill. Please be with Senators Hickey and Horn and Assemblymen Bergevin and Arberry. May they know our love and support.

As we look back on the days we have spent here, may we cherish the good and learn from the bad. As we continue through life, may we have enough troubles to be humble, enough success to be happy, and enough faith and love to make it. Thank You for being with us. In Jesus' name. AMEN.

Pledge of allegiance to the Flag.

Assembly Bill No. 303.

Bill read third time.

The following amendment was proposed by Assemblyman Johnson:

Amendment No. 1556.

Amend sec. 8, page 3, line 3, after "5." by inserting: "Each separate business must be licensed pursuant to this section. The executive director shall determine the number of licenses that must be issued for the activities of each person who applies for a license pursuant to this section. The decision of the executive director may be appealed to the commission. The decision of the commission is a final decision. The executive director shall require separate licenses for businesses that:

(a) Have separate nonrestricted gaming licenses;

(b) Pay any other taxes assessed by the state or a local government as separate entities, including without limitation, the tax on the net proceeds of mines;

(c) Have separate business licenses issued by the same local government;

(d) Operate independently at different locations; or

(e) Conduct business under different names.

6.".

Amend sec. 9, page 4, by deleting lines 1 through 7 and inserting:

Amend sec. 9, page 4, by deleting lines 17 through 22.

Assemblyman Johnson moved the adoption of the amendment.

Remarks by Assemblymen Johnson and Price.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I move that the Assembly adopt Amendment No. 1556 to A.B. No. 303. This amendment solves part of the problem that I see this bill has with the capping of the fees that are set on the current schedule. There is a significant difference between similar business activities, particularly in the casino area. Subparagraph (a) just simply says that for calculating these taxes in an individual business enterprise that has separate nonrestricted gaming licenses would still have the same caps of $100,000 a

quarter, but they couldn't group the separate business activities from multiple business operations in the state. This would make a fairer allocation of the fees. There are significant differences between the current schedule—yesterday, I passed out a handout that listed the current schedule and there were alternate schedule fees. Those alternative schedule fees were calculated on a little different basis than what this bill would do. They were adjusted so that the total revenue generated was equal. This bill doesn't address that, it simply removes that each individual business activity, and there are several other categories. For instance, if they are operated independently and if they conduct businesses under different names, they would have to pay a license fee of $25 plus the existing schedule for their employees. There was some objection to this bill that small business operators that have three hotdog stands, or something, would be taxed with tougher differential harm in this because they would be taxed at a higher rate. It just depends on how they fit into the schedule. If, for instance, you have 19 employees, to calculate the amount owed under individual taxes would be less expensive, there would be a savings. If you had 20 employees, you would fall into a different category and the separate business activity would cost slightly more money.

I see this amendment as an improvement in a bill that I will be supporting and address at the time we vote on the bill. But the amendment, I think, makes it a fairer bill.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. Boy, there're some days. I'm sure it's no surprise to anyone. I am rising to speak against the amendment, even though it is the same program that I supported in committee. Your Committee on Taxation looked at this. I will explain a little bit further so you, at least, know what you are voting on. Your committee voted against this plan basically 10 to 1, I think. I'm the only one that I remember. As the subcommittee in Taxation put together the current scheme for the annual business fee, they moved a long ways, and that's Mr. Callister and Mr. Bergevin who's not with us today, but they worked long and hard to develop to the point the scheme that they have. This proposed annual fee is not exactly on base as to paying so much per employee; however, it kind of works out that way when you look at some of the numbers. When you have an employer under our plan that has a little over 4,000 employees, then they reach the $100,000 maximum annual—or $400,000 actually, it's $100,000 per quarter—$400,000 maximum annual tax on this. So when you link some of the larger employers together, as was pointed out by my colleague on the left, when you have employers that have ten or eleven hundred employees, then the obvious yearly rate goes way down to the nine or the eight dollar version.

I received a letter yesterday also from the Carson City Chamber of Commerce which asks it be read into the record that they support this particular amendment.

CARSON CITY CHAMBER OF COMMERCE

June 26, 1991

ASSEMBLYMAN BOB PRICE, *Chairman,* Taxation Committee

RE: A.B. 303

The Carson City Chamber of Commerce is concerned with the impact of A.B. 303 upon the small businesses of Nevada. The bill as currently proposed is not equitable and is the hardest upon those businesses employing the fewer number of persons.

Our concern is that those businesses who find themselves just over the threshold of the next higher tier would be forced to cut back the number of employees rather than have to take a harder tax "hit" or would put off hiring additional employees if those employees would result in higher taxes.

However, the Carson City Chamber of Commerce will support an amendment to A.B. 303 that would remove the caps imposed on the higher end of the scale and raise the number of employees tier at the lower end so those businesses and corporations employing the largest number of persons would pay on a fair and equitable per-employee basis and have a less severe impact on those businesses employing ten or less persons.

If I can provide additional information or assistance in regard to this issue, please let me know.

Sincerely,

LARRY M. OSBORNE, *Executive Vice President*
BRENT HOLDERMAN, *President*
HANK THOMAS, *Chairman,* Legislative Task Force

However, that being said, I must tell you that in the final days of discussion on this before it came out of committee, we had all of the representatives from all of the various gaming properties, at least, who are being taxed, and the Nevada Resort Association representatives and the Gaming Industry Association, which is the northern Nevada equivalent I guess, met on this and eventually decided to support the package as it came out of your taxation committee. I was not privileged to listen to any of those arguments which I would have enjoyed listening to; however, I did get the full report. So, for those reasons and since I am chairman of the committee and the bill came out in the manner that it is, I will be supporting the committee version, but I wanted to explain to you as clearly as I could the options that are before you.

Amendment lost.

Remarks by Assemblymen Price, Heller, Wong, McGinness, Haller, Porter, McGaughey, Goetting, Callister, Giunchigliani, Elliott, Spriggs, Spitler and Norton.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Assembly Bill No. 303 is a comprehensive first step into establishing what we hope will be a broad-based business tax. One that, in this current version, has been supported by a large segment of the business community, and I will have to tell you we also received letters, at least I did, in opposition to 303 from various businesses, as we receive letters from all businesses. It established, as you will see, I think, on page 3 or 5, based on number of employees, a range of quarterly taxes to be paid, with the lowest being $25 per quarter or $100 a year. It also has an annual filing fee for corporations of $25 and that, in itself, is expected to raise around $2.6 million. I won't read all of the ranges for you. The tax itself is expected to generate around $113 million for the biennium from '91 to '93. While on a percentage basis it won't be quite as large an income to our general fund as sales tax and gaming gross fee right now, it will become the third largest of the pie-shaped income. It's important because it not only helps us balance the budget for the next year, but it is, in fact, the first broad-based business tax that we've—and when I say broad-based, of course, I am excluding gaming because gaming does pay a business tax based on their gross, and mining pays a tax based on their net proceeds, and the insurance industry pays a tax based on insurance premiums—so we have three major industries who do, in fact, pay a business tax, but all of the rest of the community across the state—we're one of only three states that does not impose some type of a business tax for the operation of state government. This will be our first venture into including all the businesses with the exception of the very small—we didn't call them "Mom and Pop" we called them either "Mom" or "Pop," where one person is working, your Avon ladies and those types of people. It moves us in a direction that was recommended by the Price Waterhouse report that we paid a half million dollars for and the Blue Ribbon Commission study on the fiscal affairs of our state prior to that. While it's a big step, it's something, I feel, is necessary and your committee feels is necessary and is good fiscal long-range planning for your state. We hope that you can see it in your heart to support this.

ASSEMBLYMAN HELLER:

Thank you, Mr. Speaker. I stand in opposition to A.B. No. 303 for a number of reasons. We can discuss different reasons why this particular tax is not good; we can talk about the inability for these businesses to pay, that it is not based on the ability to pay; we can talk about our economic conditions that we currently have. But I would like to talk

about some hard facts and some hard figures that I received from the Employment Security Department this week. This is talking specifically about what has happened here in Nevada since we have been in session. I want to give some figures on our unemployment. As of January of this year there have been 8,000 new hires statewide. On the other hand, those jobs that have been lost statewide is over 41,000. To me that's a ratio of 5 to 1 of people who are losing their jobs in this state to those who are being hired. Also the figures have been broken down, 1,375 people in Carson City alone have lost their jobs since we have been in session. We can take these figures and look back to what we've done in previous years, and you can see that the ratio of those unemployment claims are almost going to be double of what they were a year ago. For this reason, I will not be supporting this particular tax.

ASSEMBLYMAN WONG:

Thank you, Mr. Speaker. I, also, rise in opposition to A.B. No. 303, and my opposition is predicated on one very simple point. This tax is not based on the ability to pay. We're in a recession in this state at the present time, and to go out to businesses that are marginal at this point, ask them to pay a tax that could be the difference between making it and not making it, instead of seeing businesses standing up, we are going to see them "belly up." I oppose this tax.

ASSEMBLYMAN MCGINNESS:

Thank you, Mr. Speaker. I agree with the two previous speakers. As the chairman of taxation said, this is only a first step. I think it may be a very tenuous step. He also mentioned that there's support from a large group of businesses, and I contend that there's not a lot of support from another large group, and those are small businessmen. Those are the people that have not been lobbying us here in the halls, have not been to the committee meetings because they are home working their small businesses. As a small business person myself, I can attest there are going to be some inequities, that family-owned operation that has a few full-time employees with a lot of part time, those Mom or Pop businesses that Mr. Price spoke of that perhaps hire one person on a temporary basis or maybe hire a high school student to come in after school—in summers they provide some very important on-the-job training—so for those small businessmen that are not here in the hall today, I will be voting no.

ASSEMBLYMAN HALLER:

Mr. Speaker. I rise in support of this bill. As a member of the Taxation Committee, I found that it was one of the toughest committees in this building as far as having to "bite bullets." I never saw so many people oppose anything as we saw opposed to every tax that was proposed. With very few exceptions, I think this is one that I think we hit a landmark on because we had bipartisan support, and in fact, bipartisan effort between two of the members to put the thing together. We did find that there were some pretty big employers in the state who are really going to be hit hard but were willing to step up and say, "Hey, okay, the state needs it. We're going to pay it." This state is going to be in one hell of a mess if we don't pay some taxes and pull some people out of the hole. I think that, by and large, coming from Washoe County, the most difficult thing I will ever do is to vote for taxes because you've already put us with a nose to the grindstone for something we're not going to get anything back for. I strongly urge support for this bill.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 303. That may sound interesting coming from an individual who, in his previous four years has voted for, I think, two taxes in his entire career, and is now faced with the prospect of voting on three separate bills. I rise in support because it amazes me that members of the Ways and Means Committee who processed a budget on the floor that I now have to vote to fund can stand here and not put their solution on the board with their name on it or any other fashion. So Gene Porter is standing here supporting a tax increase that I have never done, but I do today because I do it to balance a budget that feeds people, that fixes state problems, that keeps the government of this state running. I would urge my colleagues to adopt not only this one, but the next bill, and I would ask them what their solutions to this budget are, especially when they voted for 95 percent of it. Thank you, Mr. Speaker.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. I rise in favor of Assembly Bill No. 303 very reluctantly. There are none of us in this body that wants to vote for taxes, but Nevada is a growing state. We have not addressed all those needs in the past few years like we should have, and now the "chickens have come home to roost." We have a budget that needs to be funded. We've all worked very hard in this committee, or not this committee but this house. Mr. Bergevin, a member of our party, worked very hard on this bill. We've got to fund the needs of our state and we've got to broaden that base. We have for too long relied on a few sources of revenue for the state, and this tax is going to do that. It may work well, and it may have problems because it is something that is new. But I'm going to vote for it, give it a try. I recommend to my colleagues to try to vote for it also, and if there's problems, like we do every two years, we amend, we fix, but we've got to take care of the needs of this state. We have infrastructure problems, we have school problems, we have problems in every part of our society. We've got to "bite the bullet" and take care of them. Thank you.

ASSEMBLYMAN GOETTING:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 303, or actually in opposition to Assembly Bill No. 303. Sorry about that. On Ways and Means, we did look at some tough decisions. These three taxes that we have before us are in order to provide for a 34 percent increase in general fund appropriations from this biennium to the last biennium. I don't think that need was warranted, and that's why I'll be voting in opposition to this bill.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. I rise in support of A.B. No. 303, and also to acknowledge somewhat of a miracle. To see my colleague and dear friend from southern Nevada, the esteemed majority leader, rise in support of any tax is miraculous. I want to acknowledge and express my appreciation for that. I also want to share his public consternation at hearing from the members of the Ways and Means Committee their opposition to this and, I anticipate, other tax measures. I don't understand how that can be the case. I have in front of me about three inches worth of transcripts of the final closings which indicate that, with the exception of a couple of budgets—these were budgets that were passed unanimously that comprise the total of 300, actually about $297 million in spending beyond our available revenue, and even that isn't accurate.

I want to take a moment and digress. When we get into the budget, we'll have a chance to discuss this, but in truth what this budget is all about is the shortfall of about $250 million between available revenue and what the budget calls for. Added to that $250 million shortfall was the unfortunate and really unprecedented slide in existing revenues, sales tax revenues, in chief, which dipped $48 million between January and June, and that's the difference between the $250 million and the $297-$298 figure.

But I want to stress a couple of points here. Number one, we in this state experienced what is called a "structural deficit." The chairman of taxation has spoken of that on many occasions. The most frequently asked question to all of us here is, "Why doesn't growth pay for itself?" The answer is because the average new person moving to the State of Nevada generates, under our existing tax scenario, about $600 or $700 in annual taxes and expends about $2,100 to $2,200 in services. That's a structural deficit. We paid a half a million dollars, this body did, a few years back, to commission the first in a 20-year period, the Price Waterhouse tax study. Basically, you distill that mega-volume down to one sentence, and what it tells you is this: Expand your tax base. And that's their approach to try to begin to resolve this structural tax deficit in which growth doesn't pay for itself. We've experienced in excess of 7 percent growth over the last two years of the biennium, up to 14 percent growth. It isn't free; it doesn't pay its own way. Somebody, somewhere, has to develop some new alternatives. Is this the perfect alternative? I think, as the esteemed minority leader suggested, perhaps it is not; we'll find that out over time. But it is, I believe, an impressive start. For the first time, it addresses the issue of trying to stabilize our over-dependency in this state on the most volatile revenue sources, that is to say gaming and sales tax. That's what this vehicle is all about, trying to impose some

general license fee on all of those in the state, whether they're big businesses or small businesses, at some equitable level that compels all of them, myself included, to pay some tax, some business license fee to the state for the first time. Is that a comfortable, easy decision? No! Is it politically popular? No! Is it our job? Yes. Is it our job to attempt to fund the budget we endorse? Yes. I don't expect that all of us here today will be entirely satisfied with this or any other new tax. There's portions of the budget I don't feel comfortable with. I think the members of the committee are aware of where those portions are, the things that I fought for and against. But the bottom line is we're now roughly 48 hours away from having this state shut down because we don't have a tax package and a budget. It's time to do our jobs! I urge your support for this measure.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Bill No. 303. On February lst, 1988 my organization launched a campaign statewide, and the issue we were attempting to get across was what the public said is that education is important, it should be the number one priority, and we need to responsibly fund it. The other issue we found was that it was time to broaden our tax base. So I spent, personally, two years of my life being known as the corporate tax lady. That was the nicest name I was called, to be honest. But I want to remind you what all this battle was about, and that is to be responsible to fund the programs that the people of this state depend on. Now this last year we made an agreement to not go forth with the corporate tax, and that agreement was made at the behest of business. We do not need to tear this state apart. We do need to work together, and that's what Assembly Bill No. 303, that's the culmination of that. To have my colleague from Douglas County sit down with my colleague from southern Nevada, turn around and bring business together to create a tax that is as equitable as we are going to get at this point in time. I would encourage everybody to do the right thing, to do what we were elected to do. It is very easy to come up here—and I've worked these halls off and on over the years—it is very easy to come up here and worry about getting reelected, and that's what a lot of people have a tendency to do. I've gotten to know a lot of you and I think you've come up here to do the job that you were elected to do, and not worry about whether or not you're going to get elected. It's very easy to say no, and it's irresponsible to say no, and it's much more difficult to do and say yes. None of us likes taxes. We all have to pay them, but the same people that we hear about with the recession being laid off work, seniors not being able to pay their bills, those are the exact same people that depend upon the budget that we need to fund with the taxes that we have to raise. So I would ask you to show some courage, I would ask you not to look at whether or not you are going to get reelected because I think the public will understand, as long as you go back and say that I cut the budget where I could, we took out the waste where we could, but we had to be responsible and that is that we have to vote, unfortunately, for taxes. Thank you.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. I rise against this tax. The small businessman in America, not just in Nevada, is the largest employer—well it is the largest employer. Not EXXON or some of your big corporations, but the small businessman and he's hit by local taxes, as well as county and city taxes, and I would request that I escape the wrath of the majority leader or those people who sat on that Ways and Means Committee because I didn't sit there so I can be exempt for this.

I would say that we need to be responsible, and we certainly need to be because it looks and appears we are going to need additional monies. I don't think this is the appropriate way of doing it, and I think we are going to see an increase in unemployment. I hope that the taxes raised by this bill aren't used for those people who are going to be on unemployment.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. To you and through you, I thank you for your indulgence. I think a lot of us maybe have a different philosophy. To me, to be responsible means to live within your means. I think that maybe a 30 percent or more increase in a budget is too much, and if I had the choice, I would cut the budget. That is the reason that I'll be voting against this. I think we are going too far, too fast.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. I rise in support of this particular measure. No one had to remind me about the needs of our state when I ran for office, and certainly no one had to remind me of my obligation to support our state's needs now. I also remember a corporate tax initiative which had businesses and citizens looking for solutions. Businesses met for over a year, citizens met with them for over a year, and many of those people came up with the idea that we needed a broader based business tax. I agree with the Chairman of Ways and Means that the budget is reasonable, and when you look at the growth, we're looking at a different state. We have drug situations that no one else has ever faced before, and we can turn our backs now and fail to fund these things, but, believe me, when we turn our backs on the needs of children in this state, we are going to pay that cost dearly in the future. Prisons are bursting, education systems are full, and we have an obligation to look at that and find those solutions now. I support fully the measures of those speaking for this particular bill. It is our responsibility to support this measure. Thank you, Mr. Speaker.

ASSEMBLYMAN NORTON:

I rise in support, Mr. Speaker, of this bill. I'm proud Nevada is growing. I'd hate for us to have an opposite problem. When we talk about hurting the small businessman, it is the small businessman, family and kids that we've got to educate in this state. We can diversify our economy, and we will not have to be dependent upon one or two sources of taxes. We need to broaden our base. Let's support this bill.

## ASSEMBLY IN SESSION

At 6:53 p.m.

Remarks by Assemblymen Price and Bache.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body, the second part of our proposed tax triangle is Assembly Bill No. 295 which increases the sales tax portion, that portion of our sales tax that goes to the local school support fund, LSST. It increases it by 3/4 of 1 percent. That in turn, of course, allows us to back an equivalent amount of funds from the distributive school fund, which of course is then available for use in our regular budget in the general fund. In addition to that 3/4 of 1 percent, it reduces the amount that retailers are allowed to keep for collecting sales tax from a 1/4 of 1 percent. Now, when the sales tax was first adopted in 1955, a rate of 1 1/2 percent was set to allow the retailers some dollars for the paperwork and so forth they have to do. Now, at that point in time, the sales tax was only 2 cents, and, of course, now it is up to 7 to 7 1/4 percent, depending on local options and the things that we are passing here this year. Your tax committee figured by reducing 1/4 of a percent, which will raise some, about $2.8, almost $3 million over the biennium which will also put money into local government because part of that collection will go back to help local governments that the retailers would still be receiving the same amount of dollars for volume sales that they have had in the past, since we are actually increasing the sales tax for as much as it has increased. So they will be held harmless and will perhaps even gain a little bit, but that will be a help to your government. We also are reducing the amount that is allowed to be kept by the folks who sell cigarettes, the cigarette stamps, and the same theory goes through there. The total estimated revenue from this particular version of the sales tax will be a little over $200 million during the biennium, and we will gain around an extra $700,000 on the cigarette and other taxes that we're saving. That's pretty much about it. There's an appropriation for $26,000 to the Department of Taxation to make changes to the computer programming to set up for this particular bill. I would be glad to answer questions.

ASSEMBLYMAN BACHE:

Thank you, Mr. Speaker. I rise in reluctant support of A. B. No. 295. A sales tax is a regressive tax. It proportionately takes more income from the lower and middle income people of the State of Nevada. However, it would be easy for me to oppose this tax, but instead I will support it because I think we need to broaden our taxes in the State of Nevada; it's the responsible thing to do; it's a tough thing to do. I urge my colleagues to vote for this issue, and I also urge my colleagues that in the future we develop a comprehensive plan, setting tax policy for the State of Nevada instead of continuing with our Band-Aid method of taxation.

Order of Business 15. Over the entire session, the distinguished but often tardy chairman of taxation—I've talked to him frequently on this particular tax. I've said in District 11, I represent the working men and women of the state. I probably have more working people there, average working people, than any other district, and I told him repeatedly they are tired being nickeled and dimed to death on sales tax, and if he could find any other way possible to solve our tax problems here in the State of Nevada. If I can vote for this particular tax, and I have probably one of the largest problems with it, I would hope that everybody else in the Assembly could vote for it too. Thank you, very much, Mr. Speaker.

Amendment No. 1532.

Amend the bill as a whole by renumbering sections 1 through 5 as sections 2 through 6 and adding a new section designated section 1, following the enacting clause, to read as follows:

"Section 1. NRS 463.0129 is hereby amended to read as follows:

463.0129 1. The legislature hereby finds, and declares to be the public policy of this state, that:

(a) The gaming industry is vitally important to the economy of the state and the general welfare of the inhabitants.

(b) The continued growth and success of gaming is dependent upon public confidence and trust that licensed gaming is conducted honestly and competitively, that the rights of the creditors of licensees are protected and that gaming is free from criminal and corruptive elements.

(c) Public confidence and trust can only be maintained by strict regulation of all persons, locations, practices, associations and activities related to the operation of licensed gaming establishments and the manufacture or distribution of gambling devices and equipment.

(d) All establishments where gaming is conducted and where gambling devices are operated, and manufacturers, sellers and distributors of certain gambling devices and equipment must therefore be licensed, controlled and assisted to protect the public health, safety, morals, good order and general welfare of the inhabitants of the state, to foster the stability and success of gaming and to preserve the competitive economy and policies of free competition of the State of Nevada.

(e) To ensure that gaming is conducted honestly, competitively and free of criminal and corruptive elements, all gaming establishments in this state must remain open to the general public and the access of the general public to gaming activities must not be restricted in any manner except as provided by the legislature.

2. No applicant for a license or other affirmative commission approval has any right to a license or the granting of the approval sought. Any license issued or other commission approval granted pursuant to the provisions of this chapter or chapter 464 of NRS is a revocable privilege, and no holder acquires any vested right therein or thereunder.

*3. This section does not:*

*(a) Abrogate or abridge any common law right of a gaming establishment to exclude any person from gaming activities or eject any person from the premises of the establishment for any reason; or*

*(b) Prohibit a licensee from establishing minimum wagers for any gambling game or slot machine.*".

Amend the bill as a whole by renumbering sec. 6 as sec. 10 and adding new sections designated sections 7 through 9, following sec. 5, to read as follows:

"Sec. 7. NRS 464.020 is hereby amended to read as follows:

2. Mr. Speaker appointed Assemblymen Sader, Humke and Porter as a first Committee on Conference to meet with a like committee of the Senate for the further consideration of Assembly Bill No. 652.

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 451.

The following Senate amendment was read:

Amendment No. 1031.

Amend section 1, page 1, line 2, by deleting: "2, 3 and 4" and inserting: "2 to 7, inclusive,".

Amend the bill as a whole by renumbering sections 5 through 20 as sections 8 through 23 and adding new sections designated sections 5 through 7, following sec. 4, to read as follows:

"Sec. 5. *1. In addition to the fee established pursuant to NRS 118B.185, except as otherwise provided in subsection 3, the owner of a mobile home park shall pay to the division an annual fee of $12 for each lot within the park that was occupied at any time during the year. The owner shall not impose a fee or surcharge to recover from his tenants the costs resulting from the annual fee per lot paid pursuant to this subsection, or any related penalty.*

*2. The administrator shall notify the owner of each mobile home park in the state on or before July 1 of each year of the fee imposed pursuant to this section.*

*3. If on May 15 of that year the balance in the trust fund for low-income owners of mobile homes which is attributable to deposits pursuant to this section exceeds $1,000,000, the administrator shall not charge or collect a fee pursuant to this section. He shall resume the collection in any year when the balance on May 15 is less than $750,000. The administrator shall request the state treasurer to inform him of the applicable balance of the fund on May 15 of each year.*

*4. If an owner fails to pay the fee within 30 days after receiving written notice from the administrator to do so, a penalty of 50 percent of the amount of the fee must be added.*

*5. All fees and penalties collected by the division pursuant to this section must be deposited in the state treasury for credit to the trust fund for low-income owners of mobile homes created pursuant to section 6 of this act.*

Sec. 6. *1. There is hereby created in the state treasury the trust fund for low-income owners of mobile homes, to be administered by the division. All money received for the use of the fund pursuant to section 5 of this act or from any other source must be deposited in the fund.*

*2. The interest and income earned on the money in the fund, after deducting any applicable charges, must be credited to the fund. All claims against the fund must be paid as other claims against the state are paid.*

*3. The money in the fund may be used only to pay necessary administrative costs and to assist eligible persons by supplementing their monthly rent for the mobile home lot on which their mobile home is located. To be eligible for assistance from the fund a person must:*

*(a) Have been a tenant in a mobile home park in this state for at least 1 year immediately preceding his application for assistance;*

*(b) Own the mobile home which is subject to the tenancy;*

*(c) Have a monthly income which is at or below the federally designated level signifying poverty; and*

*(d) Be a tenant in a mobile home park and maintain continuous tenancy in that park during the duration of the supplemental assistance.*

*4. The division shall administer the provisions of this section and may adopt regulations necessary for that purpose. The division shall adopt regulations establishing annual reporting requirements for persons receiving assistance pursuant to this section. The regulations must require that each such person provide the division with a written acknowledgement of his continued eligibility for assistance.*

*5. The maximum amount which may be distributed to a person to supplement his monthly rent pursuant to this section is an amount equal to the difference between $150 and the amount of rent charged for the lot, but in no case may the supplement exceed the average monthly rent charged per mobile home lot in the county in which the mobile home is located.*

Sec. 7. *A person who receives assistance pursuant to section 6 of this act shall notify the administrator of any change in his eligibility pursuant to that section within 10 days after the change. A person who violates this section is ineligible for assistance from the trust fund for low-income owners of mobile homes.*".

Amend sec. 6, page 2, line 1, by deleting "[Whenever] *If*" and inserting "If".

Amend sec. 6, page 2, line 15, by deleting "under" and inserting "pursuant to".

Amend sec. 6, page 2, between lines 17 and 18, by inserting: "The administrator may, in addition to or in lieu of any action authorized by paragraph (a), (b) or (c), impose a fine pursuant to section 1 of [this act.] *Assembly Bill No. 450 of this session.*".

Amend the bill as a whole by adding new sections designated sections 24 and 25, following sec. 20, to read as follows:

"Sec. 24. Notwithstanding the provisions of section 6 of this act, no money may be distributed from the trust fund for low-income owners of mobile homes pursuant to section 6 of this act until July 1, 1992.

Sec. 25. 1. This section and sections 5, 6 and 24 of this act become effective on July 1, 1991.

2. Sections 1 to 4, inclusive, 7, 8 and 10 to 23, inclusive, of this act become effective on October 1, 1991.

3. Section 9 of this act becomes effective at 12:01 a.m. on October 1, 1991.".

Amend the title of the bill, fourth line, after the semicolon, by inserting: "imposing an annual fee on owners of mobile home parks; providing for the use of the proceeds of those fees to subsidize the rent paid for a mobile home lot by certain eligible persons;".

## REMARKS FROM THE FLOOR

Assemblyman Myrna Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Mr. Speaker and members of the Assembly. I am really sad that Mr. Bergevin is not here today. It came to my attention that this was going to be his last session in the legislature. For those members who have been here, I think they know there has probably been no more of a volatile relationship, at least in committee, than Lou Bergevin and

Myrna Williams. However, once committee has been over, he has been a decent, fair friend. I don't mean to suggest that he hasn't been decent and fair in committee because he has. Our philosophies may be different; however, he has always treated me and everyone else in this body with the greatest respect and we will sincerely miss him.

We did have a plaque made up for Lou and, again, I am very sad that he can't be here. We will miss him greatly and I personally will miss sparring with him as we have on many occasions. You can see the plaque. It has the seal of the State of Nevada on it and it reads, "In appreciation to Louis W. Bergevin for his fourteen years of dedicated service to the State of Nevada from the members of the 1991 Nevada Assembly." In lieu of Mr. Bergevin not being here, I would like to present this to the Minority Leader to make sure that Lou gets it and we wish him well and good health.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. It is with great pride that I accept this on behalf of Lou. By the way, he is home. He is feeling much better, but he is still not ready to come back down here. I think in my 8 years in this house, that is at the end of this term, that Lou Bergevin has been the out-front people of this legislature for many years. I would suggest that tonight A.B. No. 303 and the tax bills that we are dealing with would never have been put together without his help. I think that, too, he has been a great role model for all of us as we have come into this house, from both sides of the aisle and we are going to miss him. I think the state is going to miss Lou Bergevin for his candor, his courage, and stand on the issues. Lou would tell you how it was, whether you liked it or not. I think that we will be probably worse off for having him gone but I'm glad he is going to be okay. His heart is kind of a problem and with some medicine and rest, he will be fine. Thank you.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Briefly, I wanted to add to the comments of those already made. As Mrs. Williams had noted, there could scarcely be more dissimilar backgrounds than Mr. Bergevin's and my own. Of course, prior to this session, although I had known him and worked with him, I had not worked with him on any particular issue too closely. I had the opportunity over the last few weeks on the issues of taxation to have a chance to go one on one with Lou and it was an extraordinary experience. I learned much. I cannot say enough about his vision and leadership and most significantly his concern for the State of Nevada and doing the right thing whether it was politically expedient or not. He will be someone that I will long cherish and certainly think that we all owe him our debt and appreciation.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I am sorry that Lou isn't here tonight to receive this plaque because I think if there is any one man dedicated to serving the State of Nevada, it has been Lou Bergevin. Lou and I come from rather parallel backgrounds. We are both from ranching families. We worked together very closely in Nevada Cattlemen's Association. We were both presidents of the Nevada Cattlemen's Association, we served on the Nevada Tax Commission together and we came to the legislature at the same time. I think we are now, I guess you might say the senior citizens—only Mr. Dini and Mr. Price have served longer, even though I think that we are older than either of them. It has really been a pleasure having served with Lou. I think everybody here, you people in the audience, you lobbyists, always knew where he came from. I don't think there was ever an untruth that Lou ever stated to anybody. You may not have always agreed with him but, I think in his own mind, he was right and all of his decisions were honest and came from his heart and his intellect. The thing I really like about Lou is he is always so even-tempered

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I, too, am proud and happy to say a few words about someone that I consider a very good friend, Lou Bergevin. He probably would be embarrassed if he were here listening to us. Lou and John came in 1979 which happened to be the first year that I was chairing Taxation, which was also the first year that I ever served on Taxation. I have had my guidance from John and Lou because of their experiences on the Tax Commission. I found Lou to be, he really is a role model, because if all of us had the ability to really do the right thing as we philosophically see without regard to what

consequence that we might have to suffer at election time, our state would probably be better served, the public would be better served. There are some people that we think are posturing or whatever from time to time, but not Lou Bergevin. He is a true leader, he has a love for our state and he has always served it to the best extent.

I know that I was told Lou went into World War II, I think, signing up as a grunt or sergeant or whatever and came out as an officer made in the field. That doesn't surprise me because he is a natural born leader. I have to tell you one of the small enjoyable times that I had the year I served in the minority, when the Republicans had the majority here, was serving on Government Affairs when Lou was chairman. Lou has often said things and told people to shape up in a manner that I never quite had the nerve to do but it was really fun to watch. I can tell you that he ran a tight ship in Government Affairs and when folks came down there, they testified on what they were supposed to be testifying on and there was no fooling around. It was enjoyable. Lou is a credit to our state and I am very pleased to be here tonight while we are taking this opportunity to honor him.

SPEAKER DINI:

Thank you, Mr. Price. With the permission of the House, I would just like to say that Lou and I have worked together these past 14 years in a real great working relationship. In the last two terms, he was the Minority Leader, and I was Speaker in '87 and '89 and we became very close. You know, leaders have to work together. There is a different philosophy or a different party but whenever there was a problem, we didn't go to the press and make headlines and big speeches. We went to the office and chatted about it and took care of the problem. He is a man that is easy to work with for me and we understood our problems, our mutual concerns and I think we always worked to the best interests of the state. I know that the legislature will miss his services. I am sorry to hear that he wants to retire but I don't blame him because I think he wants to enjoy a little bit of life and I hope that he has a very happy and fine retirement. He deserves it.

Mr. Speaker presiding.

Roll called.

All present except Assemblyman Bergevin, who was excused.

Prayer by the Chaplain, Assemblyman Val Garner.

Father in Heaven, we humbly bow our heads before Thee this morning as we begin what we hope will be the last day of this session. We wish to express our appreciation unto Thee for the help and strength that we enjoy, for the moisture that we have received. We pray especially that Thou will bless those who are ill and recovering from the effects of hard work, Mr. Bergevin, Senator Horn and Senator Hickey and others who have experienced difficulties, we pray that Thou will bless them.

We pray, Father in Heaven, that Thou will continue to bless the Assembly leadership, the Senate leadership and all of us who are here, that we will be able to bring a successful conclusion to this assembly. Help us each, individually, to work hard and to do those things that will help to bring the session to a close. May we resolve all the conflicts, any ill feelings and as we leave here, that we can leave with the knowledge and assurance that we have done the best job that we can for our constituency. We ask this prayer humbly, praying that Thou will be with us as we bring this session to a close. Thank You, again for all the blessings that Thou has given us. ## GENERAL FILE AND THIRD READING

Assembly Bill No. 296.

Bill read third time.

Remarks by Assemblyman Callister.

Assemblyman Price requested that Assemblyman Callister's remarks be entered in the Journal.

Thank you, Mr. Speaker. I rise to address A.B. No. 296. Order of Business 15, Mr. Speaker. To you and through you to my colleagues on the floor, we've been the recipients of some most disconcerting news in the last few moments involving one of the most crucial components of this budget and tax package, and that is A.B. No. 303 which this house has processed. We've been advised that there are present efforts being made on the other end of the hall to substantially revise the heart of that bill. Of course, that is of major concern to all of us. Our concern has been as follows. Not unlike times past, it has typically been the case, in my experience, that this house, in the end is responsible for crafting much of the budget and much of the tax package. I am sure all the members here are aware, in the end, that has to be done in a bipartisan fashion. I am pleased that has been the case. Over the past five months we've been able to work together and effectively craft a budget and a tax package that funds that budget. We've processed those taxes. There has been bipartisan support for those taxes. They now are lodged in the other house only for us to learn that in the context of a virtual deadlock on this house, the other side is going to propose, or is considering, significant amendments that would totally undo our work and totally upset the budget and the tax package that we've labored for so long. Mr. Speaker, I think I speak for all of us here today—we want to go home. In order to go home, this very tenuous, yet I think, well-crafted budget and tax package needs to be dealt with today. I think with this measure we can send an effective message to our counterparts down the hall that we have done our duty. This Assembly has risen to its obligation and met those challenges in a bipartisan fashion, and we are now prepared to go home, to pass out a budget to keep this state operational, to keep checks going out to indigent mothers and children, to keep aid to the medically unsound, to keep our schools open, to keep our institutions of public safety open. It's time. I appreciate the opportunity to speak, and I urge all the members of this house to join me in sending a crucial message to our counterparts down the hall. We have done our task, and if and when they are prepared to process a sales tax on services, then we're happy to address it, but we are not willing to sit around anymore and watch them pick apart measures that are supported in a bipartisan fashion and upon whom the entire state's future depends.

Assemblyman Scherer moved that Assembly Bill No. 818 be taken from its position on the General File and placed at the bottom of the General File.

Remarks by Assemblyman Scherer.

Motion lost.

Assemblyman Pettyjohn moved the adoption of the amendment.

Remarks by Assemblymen Pettyjohn, Myrna Williams, Stout, Evans, Goetting and Callister.

Assemblyman Pettyjohn requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker. Assembly Bill No. 818, of course, everyone knows, is the budget. Amendment No. 1428, as everyone also knows, is a proposed amendment to the budget to reduce the budget by 5 percent. There are those who would say that this is, perhaps, a capricious and whimsical move at this late date in the session, but let me assure you it is not that; it is a reasoned thought-out process.

We have heard testimony on some of the other tax bills that we should not be willing to vote for a budget that we're not willing to vote for taxes to support that budget. There was also the comment made that those who are not in favor of doing the taxes should have an alternative, and this is what this amendment provides, an alternative to the current budget that's before you in the basic bill. This reduction of 5 percent would be easily applied to the budget in that it's a line-item application; it takes into account the work which has been done in preparing the budget which I will concede has been a very fine effort and a very fine piece of work on the part of those who have worked on preparing this. Those who were concerned about having to reopen the budget to discuss this amendment need not worry about that because I am advised by the legal department that this approach is sound from a legal point of view and that it takes the existing line-items contained in the basic bill and can apply the new numbers in a direct fashion.

Let me now discuss some of the rationale concerning this effort to do this amendment. I recognize that we are concerned about running a state. I recognize that it takes money to run a state. I recognize that this basic bill has been given a great deal of thought by a lot of people. And we have a very legitimate argument before us, Mr. Speaker, in that we are here to debate this bill; we're not here to bury it necessarily, but we're here to improve it, I think, with this amendment.

The fundamental process of reviewing the budget entails those people sitting on the money committees sitting down and listening to testimony which has been given by the people who run the various departments and agencies of the government. They come in and tell the stories and they develop their input so that they can provide supporting rationale for their requests for money. Those of us who listen to this testimony are predisposed in one of two directions. We either: one, accept the information we are given and do accept that these are justified needs in toto, and we accept that; or, two, we are inclined to think that there may be some excesses in those budgets which need to be reviewed. Now I need to digress just one second because there are those among us who might say, "Who is that presumptuous freshman that is going to stand up and presume to be able to speak on the whole budget process." I would assert to you that I perhaps have as much or more budget experience as any person in either house that sat on the money committees. I am prepared to support that assertion by telling you that I have spent 30 years in the budget building process. Admittedly, as a second lieutenant, you don't have very much say because you may be the squadron welfare officer or you may be the sports officer, and you may only be talking about whether you buy three or four bats for the baseball program that year or half a dozen balls, or whatever, but you are involved in thinking out a program, thinking out a requirement, presenting it to those who review it and justifying it. For 30 years I was involved in that at different levels to the point where I was working on budgets of several billions of dollars, working on very sophisticated military programs such as a U-2 or satellite programs; we were spending lots of money and we had to justify budgets to a very, very extensive degree. So, when I sat and listened to the testimony that came before us in the Ways and Means Committee, I had some experience in doing that, so I don't think that those who think that I am presumptious in standing to talk on this process is warranted.

Another point I would like to make concerning the budget is that we have some excesses which I would like to refer to in a rather gross way. In the last ten years, 1982 to 1983, we have seen our budget grow from $422 million to a current proposal of $1.130 billion in the general fund. That growth has been 167 percent. At the same time we have seen the population increase in the state by 60 percent. Currently, the comparison between the current biennium and the coming biennium, we have a current work program of $868 million, and it's been closed out at $1.055 billion as a proposal for the first year of the coming biennium which is a 22.2 percent increase. If we compare both years of the biennium past to the coming one, there is a reflection of 34.3 percent increase in the budget. Now, using just one example of a budget line-item in one of the departments, using the performance factors or measures of merit, whichever you prefer to call them, they have indicated on their own input they expect to have an increased work load of 12.7 percent, but that particular organization asks for a 26.4 percent increase, I believe, in manpower to perform that mission. Now, it's my contention that we have an opportunity here to help the taxpayers of the state, and I would refer very quickly to the situation that exists in Washoe County where we have just gone through the laborious and agonizing process of doing a "fair share" reapportionment measure, and the people of that county are going to be hard-pressed to provide services to their people because of the loss of revenue. Those people would probably be very anxious to have the opportunity to reduce the budget somewhat, and thereby reduce the tax burden which will be placed upon them. We also know that the economy is down in our state which has probably aggravated this to a great extent. We're going to have a $180 billion tax package upon the American people at the federal level which means every household will be taxed $10,000 in the coming year.

So now, I would say our philosophies differ. The debate is serious. We're, perhaps, talking about the most fundamental thing we have come here this session to decide, and

that is, how much money we are going to spend and how much tax are we going to raise to cover that money. There are two ways to solve the problem. You raise more taxes to provide more services or you cut the cost. Now, I am not trying to propose something here that's going to be hard on the recipients of the various monies which we will distribute to the people of the state. I'm trying to bring equity to both those people who receive and those people who pay the bill, so we can provide them a chance to look at the government, demand that we in this legislature who tax the people for this $2.2 billion are responsible in the way we go about administering it. I believe it is incumbent upon us to find ways to trim that, and this way that I propose here by cutting 5 percent across the board will cause all agencies to tighten their belts a little bit, for everybody to take a little bit of the bite.

We did not single out any one agency and try to cut them severely and destroy their ability to perform their services. We felt it was reasonable, or I felt it was reasonable, to take a little bit from everyone. I think this is an opportunity in this hard time, to show the people of the state. I must say in closing one more thing. There were some implications made that those who do not support all the taxes are, in fact, posturing to be reelected. I would like to go on record that I am not one of those because it really doesn't make any difference to me, personally, whether I come back or not. So, I would like to assure you that I am not posturing for reelection. I am posturing to serve the people who did elect me and pay them back for that service or that vote of confidence which they gave me, but not to ask them to do it again.

Now, Mr. Speaker, I would encourage my colleagues to support this bill, take the opportunity to reduce the spending of the state at least 5 percent, let us be able to go to the people and collect less taxes, and then administer our government in a more efficient manner. I believe that this is a sound and reasonable approach. I believe it is responsible. There will be those who say it's not responsible. I believe it is the epitome of being responsible to our people. Thank you, very much, Mr. Speaker.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in opposition to Amendment No. 1428. I listened carefully to the comments of my colleague from Henderson. Before I get into what services would be cut, I have a few remarks to make. We work very hard in Ways and Means. I had the very painful job of chairing the subcommittee for MH/MR. Growth and taxes are not necessarily synonymous. When the economy is down, that's when the needs for people are the greatest. We didn't just have agency people in. We had citizens in; citizens come and testify with very real needs. In spite of this, we still cut that budget by $4 million, a very significant, significant cut from what the governor recommended. I would like to read to you, after the $4 million cut that we've already made, what would be cut in MH/MR: Committee to Hire the Handicapped, Maternal and Child Health Services, Special Children's Clinic, Bureau of Community Health Services, Consumer Protection, radiological health, sexually transmitted disease control, communicable disease control, immunization control, health aid to counties, Mental Health and Mental Retardation, Southern Nevada Adult Mental Health Services, Southern Nevada Child and Adolescent Services, facilities for the mental offender, Rural Clinics, Southern Nevada Mental Retardation Services, Northern Nevada Mental Retardation Services, resident placement, special education, home health care, vocational rehabilitation, financial assistance for physically disabled, community based services, services to the blind, alcohol and drug abuse related rehabilitation, traumatic head injury programs. I could go on and on. That's not the point. With all due respect to my colleague from Henderson, the truth of the matter is that when you budget for people, it is a lot different than budgeting for hardware. And I would assume that all of us have read the papers over the past years and conclude that they didn't do a very good job of budgeting in the Defense Department with their cost overruns and overly-expensive materials, such as Mr. Goetting's favorite subject: commodes. I don't think that we cut can people; we can't treat people like hardware; people are not hardware; people have needs; and again, I would like to repeat, when the economy is bad, that's when the needs are the greatest. I urge you to defeat this amendment.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I rise in support of this amendment. In a few short blocks on East Charleston, from Maryland Parkway toward Boulder Highway, small businesses are

suffering. A report made yesterday shows that the "Mom and Pop" donut shop is now closed; Manilla Grocery store has closed; the pizza shop will close unless the owner can come up with $20,000 in 90 days; Shorts' bar business is off 20 percent; Queen's Women's Shop will be closing. Another small business owner has had to sell off his retirement property to put $24,000 in the business just to stay open; the Print Shop is down from nine to three employees.

In light of the current recession, 5 percent per year is not asking too much. This amendment will bring the budget more in line with funding of the state's true needs. Give our already suffering taxpayers a chance to stay in business and meet these needs. I ask you to support this amendment.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I rise in very strong opposition to this proposed amendment, and I do so with a great sense of bewilderment that, at this stage of the process, these kinds of budgetary cuts would be proposed. I haven't had a whole lot of time to look through the amendment, but it appears to me that it takes the appropriations act whole hog and begins cutting. As I look through here, some of the things that jump out at me—and I would like you to pay attention to them as well—for example, in Section 23, I notice there is a proposed cut to the Department of Education's budget. Well those of us on Ways and Means who reviewed that budget will recall that we specifically asked the state superintendent how much of his money is from the state general fund, and he said, "We're 85 percent federal dollars and 15 percent state." Now, when you start cutting, what are you going to cut when you're only talking about 15 percent of a budget? In Section 30, you'll notice there's a suggestion to cut Aging Services, and when we asked Aging Services in their 10 percent proposal to come back to us and tell us what reductions would be required in order to meet that, or even come close to it, they told us it would mean doing away with all of the rural senior centers, all of them. On a similar note, how much of Aging Services budget is Nevada money? How much from the general fund and how much from the feds because the Older Americans Act primarily funds Aging Services, and the answer there—state dollars, 17 percent.

Moving on, I see there are further reductions suggested for the Youth Training Center in Elko and Caliente. How very bizarre at a time when we read every day in our papers about problems, drugs, gangs, troubled youth. How and where do we cut in our youth training centers? Shall we not give them food or should we give them less food? Shall we reduce the money we provide for their education? How about cutting positions? That's always a popular one. You bet! Let's cut positions. Do you realize that those two facilities are not secure facilities. They have a fence around them, razor wire. They are staff secure, and if you don't keep your training centers fully staffed, you do not have secure facilities.

Continuing along, food stamps. That looks like a good one to cut. Hungry people. Keep in mind, those are all federal dollars for the cost of the food stamps. The feds also pick up half of the cost of the administration of the Food Stamp Program. Now, there again, where or what shall we reduce? Keep in mind that earlier in this session a lawsuit was brought against the State of Nevada regarding food stamps. Because of the growth and the caseload and because of our low staffing ratios, we are unable to process a food stamp application in the 45 days required by federal mandate, so they took us to court. This is one of three lawsuits brought against Welfare Division this session. I notice, too, there is a suggestion that we reduce the Employment and Training budgets. Employment and Training Program was first passed in the '87 session; it's chief sponsor was our own Speaker. A wonderful program. What is its purpose? Its purpose is to get people off the welfare rolls. Do you want people on or do you want them off? You have to make a decision. If you want people off the welfare rolls, you have to give them skills, you have to give them that "leg up" so they can go out in the job market, get off the welfare rolls and on the payrolls. But no, we're going to cut that one. I notice, too, that there is a suggestion that we reduce BADA. BADA—Bureau of Alcohol and Drug Abuse. Again, how many times has this body discussed the drug problem in our state and the problems it is causing us? I think you should know that over the governor's budget, your Ways and Means Committee reduced $496,000 in the first year of the biennium, and we cut another $458,000 in the second year of the biennium. I am concerned that there is a perception that we have not been

cutting, trimming, and in some cases slashing budgets. We've not been going as far as we could. We've gone as far as we dared. Keep going to court? You'd rather pay attorney fees, court costs, or do you want to stay legal?

And finally, something that jumped off the page at me, which I thought was truly amazing, is a proposal to cut the prison budget. That's a big one. Well I think you should know that over the biennium, your Ways and Means cut the prison budget in excess of $10 million, so prisons have taken their hit. And now, irony of ironies, you also are proposing to cut parole and probation. You want to cut prisons which keeps them in, then you want to cut parole and probation that keeps them out! You've got to make up your mind. You can't have it both ways. So, as I look at this proposal, I'm deeply troubled and disturbed and disappointed at the lack of sincerity because I think, if there had been a sincere effort, not grandstanding, not headline grabbing, not "I'm going to fix myself up for my next campaign," I think they would have gone through the budget with a scalpel instead of a meat axe because this kind of wholesale, indiscriminate budget-cutting serves no useful purpose, and I hope you will defeat this amendment.

ASSEMBLYMAN GOETTING:

Thank you, Mr. Speaker. To you, and through you, to this honorable body, I rise in support of Amendment No. 1428 to Assembly Bill No. 818. The task before us has been a most difficult one. We have been asked to balance a budget which reflects a 34 percent increase in general fund appropriations from the last biennium to this biennium with the largest tax increase in the history of our great state. We have to raise $297 million in additional tax revenue just to balance this budget, as well as provide the funding for the classified and unclassified employees' pay bills, and implement class size reduction in our schools.

Mr. Speaker, Nevada's economy has hit some hard times as is reflected by the downturn in anticipated sales tax revenue, as well as gaming revenue. Collections from December 1990 through May of this year are at a combined $10.5 million shortfall over the projected amounts for gaming and sales tax. The budget appropriations bill is a "wants list" which comes at a time when the state is experiencing economic hardship. We cannot justify this budget to the citizens of our great state. Mr. Speaker, it is for those reasons that we have proposed this amendment to Assembly Bill No. 818. This amendment, if adopted, would reduce all budgets within the appropriations act by 5 percent. This 5 percent reduction would produce a savings of $30 million in fiscal year 1991-92 and $32 million in fiscal year 1992-93 for a combined savings of over $62 million. The real winners of this amendment, if adopted, are all of our taxpaying constituents who are opposed to uncontrolled government growth. When we speak of uncontrolled growth, we have to look at the 907 new state employees proposed in the first year of the biennium alone, as well as a combined total of 1,229 new positions in the Executive Budget over the biennium. Yes, Mr. Speaker, that old cliche has never been more appropriate than right now: "Stop government waste and uncontrolled growth."

Mr. Speaker, I have distributed to the members of this honorable body a copy of a letter from our illustrious chairman of Ways and Means to all state agency administrators. The purpose of calling this to everyone's attention is to point out the fact that every agency has had plenty of time and notice to decide how to handle possible budget cuts of up to 10 percent. The passage of this amendment would not come as a shock to any state agency administrator. Mr. Speaker, I strongly urge all my colleagues to show fiscal restraint and adopt this amendment. And I don't believe we are really cutting; just cutting back on growth is what we're doing here. I don't believe this will be a hardship to any of these agencies

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. I rise in opposition to Amendment No. 1428. I think it's appropriate, although I apologize, I'll have to try and explain a few of the components of the budget, if I could briefly, in order to respond. So if I could go to Order of Business 15.

Very quickly, for the benefit of all the members, it is important to understand that this act, A.B. No. 818, is the first of seven bills that will comprise "the budget." This act deals, hence, with a portion—although this is one of the more significant portions of the budget—but I want to characterize that for you so you know what we are talking about

here. A.B. No. 818, the general appropriations act, provides the funding for all divisions of state government with the exception of gaming, gaming control, kindergarten through 12 funding, and any class size reduction measures whatsoever. Those are in three separate bills yet to come. Also salaries, any salary increases are dealt with exclusive of this measure. Hence, what is A.B. No. 818? A.B. No. 818 is the funding for the University System, it is the funding for the office of the attorney general, for the office of the secretary of state, for the office of the treasurer, for the Department of General Services, for the Commission on Economic Development, for the commerce department, for almost everything else that you see itemized to some extent in the proposed list of reductions. What is curious to me is that the three speakers who have spoken before me have voted yes on almost, with some exceptions—in particular the exception of my associate from Henderson—yes, in support of the closings of all of those budgets that I just mentioned. I am confused, gentlemen, about which time you meant what you said.

I think what this amendment is all about, Mr. Speaker, is politics versus people. In that sense, I want to respond one bit further by noting that if all we were compelled to do in this legislature in terms of appropriation was to select a percentage of increase, or a percentage of decrease, then we need not be here at all. We need not spend six months hearing budgets. We need not look into the needs of the state and see where growth has occurred and where it is proportionate and disproportionate with available revenue or existing services. We need not weigh what, if any, new programs we want to adopt. We need not address those issues. If all we needed to do, if our job, our constitutional obligation was to say "let's pick a number, O, I don't know, make it 5 percent and reduce every budget by that amount," then the job could be performed not just only by computer, but by a mini-calculator, a watch calculator.

I have attempted to pass out here today, to simplify as best I can, two charts to try and exemplify what this budget is all about. There are really two ways of graphically demonstrating the same thing, but I'll turn first to the pie chart that is entitled, "Allocation of General Fund Spending." What it points out, in brief, it compares the 89/91 biennium that is going to close in about 48 hours here and how the budget monies were allocated, to how the proposed budget would expend those same funds. I want to take a moment and thank all of the members of Ways and Means, even those who spoke and rose in support of this amendment, for their excellent work in crafting the results you see before you. What you see before you is a proportionate reduction in each instance of general government, human resources, public safety, regulatory, conservation, and then the miscellaneous grouping that is everything else. There's only been two growth areas in the budget, if you will, yet all of these areas have received more dollars. But the proportionate increase has only occurred in education and in transportation. In the latter in transportation there has been a 0.1 percent increase. I think that, no doubt, is a result of our increased concern, especially those of us from southern Nevada, about adequately funding our infrastructure needs there. That was a result of Question 10 and its widespread support. The other increase, the increase from 56.7 to 59.3 percent is precisely where I think it ought to be and where apparently, based on my vote tally, almost all of the members of Ways and Means thought it ought to be—in education. And I don't believe there is any shame in an additional 2 percent for education.

When I look at the tally of votes that I see for each of the members of the committee, including a number of those who have chosen to speak today or have chosen to endorse this amendment, again, I have to note my confusion, with the exception again of the gentleman from Henderson. I think, with the exception of two votes apiece, those were unanimous votes in all of the other major budget categories by those who spoke here today. I am, additionally, a little bit annoyed by the notion that I find the names of rural representatives on this proposed amendment. If someone were to say to me early on this session, "Mr. Callister, you're compelled to reduce 5 or 10 percent"—and there was a significant concern about that, and yes, I did author this letter and asked each of the agencies of state government to give us a list of where and how they would prioritize those reductions. As members of this committee and this body know, we referred to those letters on numerous occasions in helping us arrive at our final decisions about where growth should occur and where it ought not, but if I were simply to have indicated what was the

easiest way to generate $60 million in net reductions, which of course would leave us here today attempting to try to generate $240 million in taxes instead of $297 million. I might have suggested these proposals. I might have suggested, as the governor did in his budget, that we shift long-term Medicaid back to the counties. We'd have saved a quick $25 million, but apparently this body didn't have any stomach for doing that, making that hard decision. I could have suggested as my associate has, we close the rural centers and pick up another million and a half, the rural senior citizen centers. I could have suggested that we shift one-half of the obligation for the payment of ADC from the state to the counties, as has been done in California and in other states. We would have picked up $10 million. Let the counties bear their fair share of paying for Elko County's indigent at the expense of other counties. I could have made that proposal. We could have simply cut out the funding for the Northern and Southern Nevada Children's Homes and picked up another $3 million, or shift that to the counties, but I doubt that would have been well-received by the rural representatives here. I could have suggested we cut the health aid to counties which is an absolute pass through; the state pays money to the counties, with the exception of Clark and Washoe. I could have suggested that we have a mandatory release from prison of those inmates that we thought we could no longer afford to keep behind those bars, and pick up another $5 to $10 million. I think that might have been a more meaningful approach to where we would have reduced these expenditures here. I chose not to do so because I didn't feel like it would meet with support in this body.

What we did do was cut $750,000 from the BADA expenditures, as mentioned by my associate from Las Vegas; we cut $12 million from prison spending; we cut $5 million from University of Nevada System, proposed enhancements; we cut $885,000 from the distributive school account; we made major reductions in the governor's proposal. We made each and every reduction we thought was appropriate, but in an era of unprecedented growth, growth takes its toll.

Mr. Speaker, I'll have some remarks when we address the budget, but I urge all of you here today to give serious consideration before you cast this vote. I urge you to think not of politics, but of people, of kids in overcrowded classrooms, the state employees who deserve a raise. I urge you to think of the programs that we provide for the indigent. I urge you to remember the remarks of our own director of prisons earlier this week in a series of articles in the southern Nevada press in which he noted that we're fast approaching the time when we'll have as many mentally handicapped people behind bars in this state as we do in our general system. You have to pay for those needs, or somebody does, or I imagine we could just let them join the ranks of the homeless and, in effect, give that cost to the cities or the counties as we have done. I think this proposal is irresponsible, Mr. Speaker. I think it appeals to all of us at our most base nature, our political nature. I think it bespeaks political expediency and not political courage. I urge its failure.

## ASSEMBLY IN SESSION

At 6:02 p.m.

Mr. Speaker presiding.

Quorum present.

Remarks by Assemblymen Goetting, Stout, Wong, Pettyjohn, Evans, Scherer, Price, Freeman and Little.

Assemblyman Pettyjohn requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. A.B. No. 818, the appropriations act in conjunction with the six other major funding bills which I just mentioned will be considered later, are the final results of the session-long deliberations by the Ways and Means Committee and the Senate Committee on Finance. The two committees met separately and then resolved their differences through conference action. First, I would like to provide an overall general fund summary. The money committees' recommendations provide for a general fund appropriation of $2.19 billion during the 1991-93 biennium. The general fund amount represents an approximate 34 percent increase in the amount approved for the current biennium. The Assembly Committee on Ways and Means has spent the last few months reviewing the Executive Budget which recommended general fund operating appropriations of approximately $2.20 billion. The results of these deliberations by the money committees has resulted in reducing the amount to approximately $2.18 billion. Highlights of some of the spending recommendations include as follows:

Education—The education funds are recommended to receive 59.3 percent of the total general fund appropriation during the upcoming biennium. This increase is from 56.7 percent provided by the 1989 Legislature.

Distributive School Account—The recommended budget for the Distributive School Account alone accounts for approximately $210 million in additional state funds over the 1991-93 biennium. The only discretionary funds included in the general fund support is the recommended 4 percent salary increase, effective October 1, 1991, which represents approximately $50 million of the $210 million in additional state support.

Class Size Reduction—The class size reduction recommendations are not contained in this measure, but I would like to briefly mention them at this time. The Assembly Committee on Ways and Means is recommending that a 16 to 1 class size ratio be utilized in grades 1 and 2 in fiscal year 1991-92, and beginning in the fall of fiscal year 1992, grade 3 will also be funded at the same level. I would note that we are still not complying with the statute in so funding. It is important to remember that pursuant to existing NRS

provisions, and there has been no proposed amendment to the class size provisions of the law, the law compels us to provide class reductions at a 1 to 15 level. So we are truly not in compliance, but the recommendation was to adopt the 1 to 16 ratio because it generated about a $15 million savings over the lower 15 to 1 that was proposed by the Senate side. Along with the use of estate tax revenues which are exclusively, statutorily earmarked for class size reduction and no other measure, the state general fund support required to implement these recommendations amounts to approximately $8 million in additional funding over the biennium. In other words, the cost of doing third grade in addition to second grade is about $8 million. It should be noted through a thorough analysis of the distributive school account, it was found that the budgeted salary for non-teaching personnel was overstated which resulted in a savings that was made available of over $10 million for the class size program.

University System—General fund support for the University System's budget is recommending an unprecedented 28 percent increase to amounts provided over the current biennium. Enhanced funding is recommended for support services, for grants in-aid, for improved student/faculty ratios, for improved new positions' salaries, for library funding for the Desert Research Institute and many other areas.

Human Resources—The human resources section of the budget provides funding for the divisions of rehabilitation, health, welfare, mental hygiene and mental retardation, as well as youth services. This section of the budget is recommended to receive approximately 21.6 percent of the total general fund appropriation. This compares to last biennium's 22.6 percent, a reduction of about 1 percent. In reviewing the proposed reorganization of the new Youth Services Division, the money committees made numerous budget reductions, realigned proposed expenditures in some accounts and increased others. These reductions resulted in potential savings in one area being redirected to cover cost shifts to the counties, in this instance in the amount of approximately $890,000. The Executive Budget also included a recommendation for new funding of approximately $3.2 million over the 1991 biennium to implement the recommendations of the governor's drug commission. The committees were cognizant of the need for these new programs. We were also faced with the decision of balancing the continuance of existing programs. To this end the committees reduced the new general fund support for these new programs by approximately $955,000 and redirected $200,000 to enhance existing programs instead. Within the Welfare Division it was noted the caseload for the Aid to Dependent Children had increased by approximately 2,300 recipients between January and April of 1991. Of course, as all the members are aware, these are federal mandates. We do not determine what the level is and to whom we will make these appropriate payments; it is mandated by the feds in order for us to receive their 50 percent participation. Based upon this enormous growth in caseload, the Welfare Division presented the money committees with new caseload projections which indicated the caseloads would surpass those recommended in the Executive Budget. Of course, this had also been the case in prior bienniums. The money committees noted the caseload mix between public and nonpublic housing required adjustment to reflect the current trends. The projected caseload increase and the adjustment between public and nonpublic housing required additional funding which the money committees were able to find within the budgetary savings generated in the ADC unemployed parent projection calculations and average grant payments included in the Executive Budget. Finally, the money committees did not concur with the Executive Budget recommendation to shift the cost of long-term care to the counties. The recommendation not to shift long-term care to the counties will increase the state's share of the Medicaid budget by more than $25 million over the biennium.

Public Safety—The Public Safety section of the budget provides funding for the Department of Prisons, the Department of Parole and Probation, the Parole Board and the Department of Military. Based upon legislation considered and approved by this committee, a net reduction of approximately $10 million is recommended by the money committees for the public safety section of the Executive Budget. I think this is an unprecedented first, one to which I really want to speak my appreciation for the members of the committee and to the members of the Incarceration Alternatives Committee who were largely responsible through their courage and foresight in adopting new and innovative

approaches to incarceration and incarceration alternatives. It was clearly a "guns/butter" kind of decision. We were able to generate significant savings from the general fund. I think you see those savings manifested in the major steps forward in the University System expenditures. An addition to the legislation considered and approved by the legislative body is a calculated estimate to reduce the average growth in the prison population by approximately 1,000 inmates over the biennium.

Briefly, what I would like to do in closing, Mr. Speaker, I have distributed two documents that I think give a flavor of how we spent the money. I know one of the most chronically asked questions from me is, "Where is the new revenue, the $297 million, being expended?" I want to try and characterize that briefly, if I could today. I don't have a graphic, so I'll have to ask you to visualize this. If I had a chalkboard in front of me, I'd draw a pie that represented the $297 million in additional revenue that is being sought in order to balance this budget. In other words, we have a $2.2 billion budget, $1.9 billion in available revenue. Why is that shortfall? Largely that shortfall between the $2.2 billion and the $1.9 billion is a result of reductions we have experienced in sales tax and gaming revenue, as mentioned by some of the speakers in support of the amendment. However, since January we've experienced the most precipitous decline in sales tax revenue in almost a decade, and that decline has resulted in an additional $49 million. In truth, this budget only needs about $251 million for new spending. The other $49 million is a reduction from existing revenue, but it is the epitome of "funny money," if you will. That difference, that $49 million difference, is the result of us being compelled to anticipate sales tax revenue 24 months from now premised upon sales tax performance during February, March and April which represented the worst performance in sales tax revenue in the prior decade. You can appreciate how difficult it is in a biennial budgetary cycle to try and guess what our revenue will be 24 months from now, and based on that projection, anticipate how much we will need in additional revenue. It is a very treacherous course. I think it speaks loudly to the reason why I am a supporter of some kind of, at least, fixed-term, annual, fiscal cycle or budgetary cycle so we can get out of that trap and go back to being like the rest of the world and most of the nation and craft a budget based on 12-month projections instead of 24.

So, back to that budgetary pie, one-sixth of it, $49 million is the result of this question mark about how sales tax will impact us. We have to presume the worst. Another two-sixths is the result of the 4 percent salary increases even deferred 90 days, and the members of this body need to understand that, that a full $85 million of the $300 million or $297 million or $250 million new spending, if you will, is a result of the 4 percent salary increases. Another $40 million is a result of University of Nevada System enhancements other than salary enhancements. Finally, about $8 million is comprised of the increase because of the Ways and Means and Senate recommendation that we go ahead and take care of third grade at a 16 to 1 ratio, the difference being about $8.5 million. The balance, the other two-sixths, a little more than that and a little shy of one-half, is the growth, and that manifests itself in every budget from the Department of Prisons to Aid to Dependent Children to counselors for elementary school children. That comprises, in quick reference, the proposed $297 million in new revenue. I'd be happy to entertain any questions. I urge your adoption of this budget.

ASSEMBLYMAN GOETTING:

Thank you, Mr. Speaker. I rise in opposition to Assembly Bill No. 818. I'm concerned about the confusion on the part of our chairman of Ways and Means on some of our voting records. For example, he points out most all of us voted for the 25 percent increase in the University of Nevada System's budget. I, for one, voted yes on that budget, but when we had our joint budget closings with the Senate Finance, we added another $10 million which I voted against and which is included in this budget bill. We can go on and on about the lack of restraint we have shown in this budget, but the facts remain the same, the people of our state will remember a $300 million tax increase which reflects a 34 percent increase in general fund appropriations. They won't remember the charts and graphs, misleading information, and smoke and mirrors that were employed in selling this package deal. I wonder if the same tactics prevailed when the 300 percent pension

increase was sold. I can see the mailers now, "1989: 300 percent pension increase; 1991: $300 million tax increase; 1993: question mark." I urge the defeat of Assembly Bill No. 818.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. Early on this morning, we had the chairman of Ways and Means and the vice chairman wonder aloud and often and very eloquently how we could be doing what we're doing. All over the country their budgets are going in the toilet; New York just laid off 10,000 people that work for the State of New York because they couldn't meet their budgets. All over, people are trying to be a great help to other people with state funds and tax dollars, and they're falling short. As my colleague from Las Vegas just said, we voted against a lot of these things, but we're in the minority, and on every committee and every subcommittee, there's a majority and there's a minority, and those minority votes don't always get tallied and sometimes the votes that are in the regular meetings don't get tallied. So don't say we didn't vote for it. Yesterday, the chairman of Ways and Means made a statement that we voted for 95 percent of the budget. Well, we're asking for that 5 percent to be cut. I wish you to support our vote against this budget.

ASSEMBLYMAN WONG:

Thank you, Mr. Speaker. I rise in opposition to A.B. No. 818. I note some earlier comments today when they stated it was fiscally irresponsible not to vote for this budget. Well, when I walked my district, I can tell you frankly the people told me it would be fiscally irresponsible to vote for this budget. And I intend to answer to that constituency by voting no on A.B. No. 818.

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker, but I perhaps some day soon will qualify to be a "notch baby" so that's alright. You know, John Dillinger once said that, "It's easier to rob a bank with a gun and a smile, than it is with a smile alone." I don't draw an analogy or a parallel on this situation concerning the budget, but thought perhaps it would take the edge off of me if I keep my sense of humor a little bit and my perspective and recognize that all things sometimes are not as serious as what we make them out to be. This particular issue is a serious issue to the people of this state; so, therefore, I think the debate is healthy, it's good, it's a reflection of the democratic process. Sometimes it's a very painful and laborious thing for us to go through, but necessary for us to put the dialogue in front of the public whom we serve.

I'd like to address a couple of points concerning A.B. No. 818, and reemphasize a couple of things that were said this morning and to correct what I think is a misleading statement which was made on a couple of occasions. I would like to tell you that the figure I used this morning, that the current work program is $868.277 million is right from our own staff people, so I am sure they are all accurate and correct. The increase in that budget was, in fact, to the first year of the biennium 22.2 percent and the second year, 34.3 percent. In the case of education, and that's the one I want to emphasize because we went from a $505 million budget in the current work program to the first year of the new biennium, $624 million or plus 23 percent. I know when you work a pie chart, that may be only 2 percent of the increase in the total budget, but the amount in that pie is an awfully big slice. It may well be warranted, but it is the growth and the increases we're talking about.

Relevant to some of the other individual budget items which were focused on, I think probably those of you in the gallery and also on the floor heard the comments about cutting. We're cutting things away from people, we're cutting this out and we're not going to do that, and we're not going to provide this service, and so forth and so on. Well, let me put into perspective a little bit of that thinking and those words. Let's take the office and mansion of the governor. The growth and increase in that office is 34.6 percent. Now by cutting the budget by 5 percent, we're just simply saying, "Listen, Mr. Governor, could you get by, you know, with 29 percent growth in your budget this year instead of going to 34.6?"

Let me go to one other item in the prisons that was brought up. There's one particular line item in there that's 183 percent growth. The average in that division is 29.3 percent.

We're just saying that we think you can tighten up the management a little bit, you can do a little bit better, the people are a little short of money this year. We think that maybe on 24 percent you can work; 24 percent growth, not a cut; just control the growth a little bit. Commission on Economic Development growth is 67.8 percent; Department of Education, just in the department itself, total 79.8 percent. Questions were asked about the Department of Human Resources. Division of Aging, that was a sum that touched people's heart, 61 percent growth. We're just saying, "We know you need the help, we can give you the help. How about working just a little harder to do it on a little bit less.

I recognize that we heard many stories from many people during the course of the hearings. Let me tell you a story. I got a telephone call about two weeks ago from a young lady, a young mother. She was sobbing to me on the phone and saying to me, "I am a divorced mother. I have two children. I work as a secretary for a savings and loan company. I haven't had a raise in more than a year. I sometimes babysit in the evenings to get enough money to pay my rent, and you're going to tax me, a big increase in taxes, to pay for all these other services. Where's my turn?" It took me a long time to be able to even address some kind of an answer to her. So, I guess what I'm saying, Mr. Speaker and to this body, is I'm not against taxing, I'm not against spending, and if we had the ability to reduce this budget, as we just passed up the opportunity, I would vote for taxes, I would vote for spending. If this budget could get down to the amount of the amendment which was defeated, to cut it by $62 million over the biennium, make it around $250 million increase—in growth, not just a base—that's an increase over the work program—I would vote for taxes and I would vote for the budget at that level, but I can't vote for a budget which I know is bloated, it has excesses in it, and I would urge our colleagues to think about the people who are not able to come here and appear before committees and testify for themselves.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I rise in support of A.B. No. 818. As many of you know, in the Ways and Means Committee we operate on a subcommittee system. There's a lot of work to be done and we try to spread it around. For the past three sessions I have chaired budget areas in the Department of Human Resources: Welfare, Aging and Youth Services. In that subcommittee we had many long and heated debates, and I can assure you that every decision was a wrenching decision. Those of you who know me know of my sentiments about the people who are affected by these budgets because they are old people, sick people, disabled people and children. But, nevertheless, we knew we had to do our part and put it into the overall context of the budget, and we knew that we could do no less than to make cuts here, as painful as it was. And cut we did. For example, in Welfare we cut the administration budget, Aid to Dependent Children, Medicaid, food stamps, and the employment and training program that I mentioned early today. Total cuts in this one budget area for the biennium are in excess of $14 million. Now, with all deference to my colleague from Clark County who a moment ago referred to "smoke and mirrors," I don't see any smoke or mirrors in a $14 million reduction. That's real and that is substantial, and to suggest anything less is—I'll be polite—a gross misrepresentation.

In Ways and Means we took a no-nonsense approach to budget building, and we made reductions wherever we could, but we always stopped short of crippling our agencies for, clearly, that is not in the best interest of our people. I appreciate the hard choices that my colleagues on Ways and Means made, and I appreciate and respect the difficult choices the rest of you will have to make today. Mr. Speaker, at this point I think we're all a bit tired, and perhaps a little bit like the old lion in the "Wizard of Oz," we're searching for courage. Let's pull together, let's link arms and find the courage to do the right thing. Let's pass the appropriations act for it is truly in the best interest of Nevada's people, and I respectfully solicit your support for A.B. No. 818. Mr. Speaker, Order of Business 15. Thank you, Mr. Speaker. In a number of newspapers in the last couple of days, there were various headlines that talked about "legislators bicker as the poor wait for aid." What we have is some 9,000 ADC checks that cannot be mailed, Medicaid payments for the ill that cannot be made, and the monthly payments that go to our foster parents. So I would hope that this house will expeditiously pass A.B. No. 818. I have spoken with Chairman Horn

in the Senate, and he assures me he will do everything possible to pass A.B. No. 818 from the Senate today. Governor Miller is standing by. Ms. Ryan and the Welfare Division have volunteered to work tomorrow to get the checks in the mail. It's up to you.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. I rise in opposition to A.B. No. 818. I had not intended to speak, but I feel compelled to respond to claims of misrepresentations, to claims of cuts. The cuts that have been described are from what the governor submitted. It's easy to cut from something that is extraordinarily bloated in the first place, and we need to be talking about where we started from and where we've gone to and not cutting from something that was too much to start with.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. One of my colleagues mentioned New York. I don't know if any of you have looked at the issue that's on the stands right now of *USA Today,* but those headlines say, "States face record tax hikes." This argument and the problems that we are wrestling with here this afternoon are, in actual fact, are being wrestled with in legislatures all across the United States. They were good enough to mark down what some of those legislatures are doing, so I wondered what New York was doing. Budget deficit, $29 billion; single largest revenue increase, $500 million in gas taxes, $69 million from sales tax on telecommunications, $25 million increase in corporations, $12 million in vehicle registrations and fees. They're dealing with the same thing we're having to do, raise taxes, try and keep their state going. Earlier this morning it was described accurately the desperate situation that some businesses are in on Fremont Street down in Las Vegas, an area that's been going downhill, an area where businesses are having a tough time. I will tell you and I would challenge anyone to show me any business in Nevada which is failing because of taxes that they are paying to fund our general fund that we're talking about. There are none, and the reason is there are no tax dollars coming from businesses into that general fund except for the three industries that I mentioned yesterday: gaming, insurance and mining. There are no stores, no restaurants, no motels or the other types of businesses. They're failing because of hard times, which we do recognize, but we still have to run our government. They're failing sometimes possibly because of being in an area that's been going downhill which is regretful.

When we were looking at some of the areas for which we are using this money, one of the things, just a small one, that struck me this morning is the school lunch program. I can tell you that in my area, the school lunch program is the best meal that many of those little kids get during the course of their day, and I have to tell you, in actual fact, it's probably the only real meal that some of them get. Trying to do a budget is balancing what we feel our values are, the responsibility that our state has to our citizens, and we try to balance that with what do we take from them and what do we give back to them. It's a fight that's been going on, I suppose, ever since democracy and budgets began, or even before democracy. I guess it will go on forever. But I would suggest that after these many weeks and months of working line by line, which is not my preference in the way of doing budgets, we've come to about as good of a point as we're going to. As we hear from time to time, something that makes everybody mad, those who don't think we are giving enough and those that think we are giving too much. I would urge that we take this general appropriations bill and get it over to the other side.

I marked down something the other day. I thought to myself, when we came here, we came in January with ideals, and I think that's especially so with our new members. We started learning about new deals and big deals and secret deals, and now it's become an ordeal to be here. I would hope that we would get this behind us and make it a done deal so we can get out of here!

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I rise in support of A.B. No. 818. I don't serve on Ways and Means. I do not have a hand in crafting this budget, but I have been here three sessions and have watched the budgetary process and listened to it. I would like to point out to you members that my husband and I live on retirement plus the enormous salary I make working over here. Paying taxes is as much a burden on us as it is on anyone else, but we

do live in a state where we have a very large group of people who are unskilled and make low pay. These are the people who cannot afford child care, whose children go to school sometimes without breakfast. I've had teachers tell me that they take food with them to school to give the children. They come to school sometimes with their clothes on inside out and backward. We seem to have a lot of parents out there who are dysfunctional. We need to do what we can as citizens of this state to support those who cannot do for themselves, those who are working, who are trying to make it. We need to give them the helping hand, and I do plan to vote for this budget.

ASSEMBLYMAN LITTLE:

Thank you, Mr. Speaker. To you and through you to this honorable body, I will stand in opposition of this bill for many reasons. I believe truly that many people here really are sincere about helping all those children, senior citizens and families out there. I happen to have been one of those families that had some of those difficulties, and I know how difficult it is to try and get on your feet and get going when everything is against you. I left school when I was 15 years old; that wasn't the taxpayers' fault. When I was divorced at 32 years old and I had five children, it wasn't the taxpayers' fault. One problem I did have was getting the government to help make the other side of this, their dad, pay. That was the problem I had, and that's one of the things I think we should address here, not the taxpayers should pay for everybody else's kids but the parents that had those children should pay for them. Another problem that I had was I couldn't find a job, I didn't have a high school diploma. Well, I didn't ask the government to pay for me to go to school. I went to night school for four years and I graduated three days before my son, Frankie, did from high school. I did that because I know that education is important, and that it is very important that we educate our children. But I don't see our kids getting educated. My grandchildren come home, they have very poor grades. They have an "A" on their report card, but they're in the fifth grade, fifth level of reading which is a poor level of reading. I am very unhappy with education. I feel there are a lot of good teachers out there, but unfortunately those aren't the ones that are getting the credit. I think we need to look at education and look on merit pay and reward those that are doing the job and not those that aren't.

I want you to know that also I got involved, after my own problems, with a volunteer group. I worked with the group and we passed out food and clothing and helped families and children, we even sent some women and their children back to the states where they came from. That was all voluntary, that wasn't government. Well, I want you to know that three girls came in one day and wanted some food and clothing and some things taken care of. They lived at the Donna Apartments, which is the low cost housing. I asked them if there was anything else we could do to help them get on their feet, maybe get them some job training, or else help them get a job. Their reply to me was, "Why should we get a job when we have housing, when we have medical for our children, when we have no worries about having food when we have food stamps." That kind of upset me because these were young women that we should be helping get on their own feet. Their problem was, if they get off of all these programs, they'd have to find a job, find a baby-sitter, find transportation, and they wouldn't have the medical. Well, I have to tell you, the people next to me that live in my neighborhood, both parents work, have two children, they sacrifice every day to provide for themselves, and I will be darned if I would go ahead and tax them to pay somebody else's children and their problems. Thank you.

Assemblyman McGinness requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. I share the concerns of my colleague from Elko, and for those of us that can remember back to last night, we tried to get the amendment on to exclude agriculture. I think the only assurances we do have to help us are that agriculture was not a high priority in this bill. There is some language included in here that takes into account the proximity to population and water supplies, and I think that agriculture can take some assurances in that most of their applications would not be in close proximity to population. So, hopefully, those assurances will be carried out, and we can be back here in 1993 to take a look at this. My concern, too, like Mr. Carpenter, is that this is a very important piece of legislation. I'm sorry it had to come right at the last days of the legislature so we couldn't give it the attention it deserved.

SPEAKER DINI:

Mr. McGinness, were you not told that agriculture would probably be one of the last ones to come under it? Do you want to make that part of the record?

ASSEMBLYMAN MCGINNESS:

Yes, thank you, Mr. Speaker. I thought I did that. The assurances—those are some of the things that do help us a little bit. Agriculture is a very low priority and would be probably the last people on the list that they would take regulating authority over. I hope that is part of the record.

GENERAL FILE AND THIRD READING

Assembly Bill No. 815.

Bill read third time.

Remarks by Assemblymen Callister, Bayley, Giunchigliani and Humke.

Assemblyman Hardy requested that Assemblyman Bayley's remarks be entered in the Journal.

Thank you, Mr. Speaker. I ask your indulgence. I haven't made a speech all year and if you give it to me, this is it. I'll take two subjects together and I'll save you a speech later on. They are related.

I am for class-size reduction. I believe we need it for our kids. Currently 61 percent of our children supposedly are in a reduced class-size. This isn't so. Sixty-one percent of our classes are reduced. That means less than half our kids are currently in a class-size reduced class. Half our kids are in team teaching programs. How many of those kids are going to be when we add the first grade and second grade, the grades we are considering, in true class-size reduced classes, not very many. The $80 million for the class-size reduction is really for team teaching. Team teaching is a bad use for our tax dollars. I'll tie this together.

I don't want you to misconstrue my statement. I appreciate, admire and respect our teachers. I really do. I am very close with the ones where my kids go to school. I have a son with learning disabilities. We are really involved with our school. Their opinions are often the opposite of what I hear up here. My policy on education, may be to quote Warren Hardy, is "anything for the kids."

We all have different opinions of what is good for the kids. My opinions: alternatives and teacher certification, merit reward system, choice in education, a means to remove the very small minority of teachers who are ineffective and entrenched in the system. The kids got none of these. I realize we believe different things about what kids need but they got none of these. This year there was a plan, it was called the Grixom plan. It was developed by one of the schools in Clark County. This was a wonderful plan. It accomplished true class-size reduction, it brought kids in early in the morning, some later in the afternoon. The kids in this school were two ahead in their curriculum in the middle of the year. It costs approximately from one-fourth to one-sixth the cost of the proposed team teaching bill. It utilized our existing resources of available classrooms and teachers. The kids loved it. They were doing great. The teachers in the program raved about it. The parents who had their kids in the school were so pleased and enthusiastic about the school they refused to register their children in the new school that was built for them. They were so excited about the program. What was the reward for the marvelous innovation and concrete results? It was a lawsuit to close the program, propaganda in the form of a letter twisting facts, denouncing the program, and once again ignoring the needs of our kids and the proper use of a tax dollar.

All state employee raise considerations must be balanced with responsible economics and the pockets of the little guys who pay the bills. Those pockets are thin right now. All over the country governments are freezing, reducing, laying off and cutting back. Our teachers are underpaid. The cost of living in Nevada and the fact that we are only one of

two states in the country that pays their full retirement puts them up to approximately tenth in the nation. Some say this doesn't count and that's not relevant. I am sorry, I do not agree. I believe in the real world it's perfectly relevant.

Team teaching and salary raises represent a great big piece of the $3 million budget deficit. My opposition to these salary raises is consistent with my vote against taxes and the budget. This is not an easy road to take. I have been warned by those who care about me that opposing these bills and the powerful political forces behind them is to incur their wrath and my own political death. What is easy is to follow the course of least resistance. That course always lies with the most powerful lobbying group. I don't know from personal experience but that is what I have observed.

To finish up, I am a people person. I am a lay counselor. I work with alcoholics, I work with kids, I work with the Great Food Bank. I have given a ton of my time to a youth camp and I have never made a dime. My name just isn't on these organizations. I give tons of volunteer hours. I am considering an offer right now to work for a youth camp raising funds for poverty wages. I may take it. I do not accept that you stand up for fiscal responsibility if you stand against people. I am very close to people who struggle on the bottom.

I do not want to group all our welfare programs together. Some are very worthy. I want you to know that welfare is a trap sometimes. It's got arms that come up and grip people and hold them down so they can't get back up. Taxes can be the worst enemy of the family unit. The raises of state salaries are going to people who make more than the people who we will be taking the tax from. So with all respect to different opinions, and we all have them, and with great respect to the teachers whom I do respect, I have to vote against this bill, and thank you for the time to explain why. Thank you.

Assemblyman Giunchigliani requested that her remarks be entered in the Journal.

Thank you, Mr. Speaker. I simply want to note for the record that while I am a public employee in the State of Nevada, the public employees negotiate their salaries so there is no conflict of interest and those of us who are public employees will be voting for this.

Conflict of interest declared by Assemblyman Humke.

Conference Amendment No. 29.

Amend sec. 4, page 2, by deleting lines 24 through 29.

Amend the bill as a whole by adding a new section designated sec. 4.5, following sec. 4, to read as follows:

"Sec. 4.5. *A major hospital shall not collect or seek to collect the deductible or copayment from a patient who is covered by Medicare and who*

*demonstrates that he is medically indigent, as that term is defined for the purposes of Medicaid coverage for persons in long-term care. The hospital may seek and collect payment for the deductible or copayment from any source other than the patient, including from the supplemental insurance of the patient.*".

Amend the bill as a whole by adding a new section designated sec. 8.5, following sec. 8, to read as follows:

"Sec. 8.5 NRS 439B.200 is hereby amended to read as follows:

439B.200 1. There is hereby established a legislative committee on health care consisting of three members of the senate and three members of the assembly, appointed by the legislative commission. The members must be appointed with appropriate regard for their experience with and knowledge of matters relating to health care.

2. No member of the committee may:

(a) Have a financial interest in a health facility in this state;

(b) Be a member of a board of directors or trustees of a health facility in this state;

(c) Hold a position with a health facility in this state in which the legislator exercises control over any policies established for the health facility; or

(d) Receive a salary or other compensation from a health facility in this state.

This subsection does not prohibit a member of the committee from selling goods which are not unique to the provision of health care to a health facility if the member primarily sells such goods to persons who are not involved in the provision of health care.

3. The legislative commission shall select the chairman and vice chairman of the committee from among the members of the committee. Each such officer shall hold office for a term of 2 years commencing on July 1 of each odd-numbered year. *The chairmanship of the committee must alternate each biennium between the houses of the legislature.*

4. Any member of the committee who does not return to the legislature continues to serve until the next session of the legislature convenes.

5. Vacancies on the committee must be filled in the same manner as original appointments.

6. The committee shall report annually to the legislative commission concerning its activities and any recommendations.".

Amend the bill as a whole by deleting sections 10 through 17 and adding new sections designated sections 10 through 17, following sec. 9, to read as follows:

"Sec. 10. Chapter 422 of NRS is hereby amended by adding thereto the provisions set forth as sections 11 to 17, inclusive, of this act.

Sec. 11. *As used in sections 11 to 17, inclusive, of this act, unless the context otherwise requires:*

*1. "Billed charge" means the total amount charged by a hospital for medical care provided, regardless of the anticipated amount of net revenue to be received or the anticipated source of payment.*

2. "Hospital" has the meaning ascribed to it in NRS 439B.110.

3. "Medicaid" has the meaning ascribed to it in NRS 439B.120.

4. "Operating cost" means the expenses of operation of a hospital which the department determines to be an allowable operating expense including:

(a) All operating expenses allowed by the Health Care Financing Administration for hospitals which receive payments pursuant to a state or federal program to provide assistance to the medically indigent;

(b) Expenses for capital improvements; and

(c) Other operating expenses which the department determines to be directly related to the provision of care to patients.

Sec. 12. *1. The department is authorized to include in the state plan for assistance to the medically indigent a methodology allowing for maximum compensation or for an increased rate of payment to a hospital for treating a disproportionate share of Medicaid patients, indigent patients or other low-income patients. The plan must be consistent with the provisions of sections 11 to 17, inclusive, of this act and Title XIX of the Social Security Act (42 U.S.C. §§ 1396 et seq.), and the regulations adopted pursuant to those provisions.*

*2. Except as otherwise provided in this subsection, a program for increasing reimbursement to teaching hospitals that is directly related to reducing the ratio of students to teachers in health technician programs in the community college system must not be adopted as part of the state plan for assistance to the medically indigent unless first approved by the legislature by concurrent resolution, if the legislature is in regular or special session, or by the interim finance committee. Such a program may be adopted without the approval of the legislature or the interim finance committee if the revenue used to match the amount contributed by the Federal Government is provided from a source other than the Medicaid budget account or the hospital tax account, but must be discontinued if the source of revenue is discontinued.*

Sec. 13. *1. There is hereby imposed a tax on hospitals at a rate established pursuant to subsection 2.*

*2. The department shall establish the rate of the tax imposed pursuant to subsection 1, upon approval by the board of the necessary changes to the state plan for assistance to the medically indigent. The rate of the tax must be:*

*(a) Not less than 1 percent nor more than 7 percent on the operating costs of a hospital;*

*(b) Not less than 1 percent nor more than 4 percent on the billed charges of a hospital;*

*(c) Not more than 100 percent of the state share of the amount of Medicaid payments made to a hospital for services provided to inpatients; or*

*(d) Any combination of the rates authorized by paragraphs (a), (b) and (c), except that the total amount of the tax must not exceed the amount that would be generated by a tax at the maximum rate allowed by paragraph (a) or (b), whichever is greater.*

*3. The tax must be imposed uniformly on all hospitals and must, except in the case of a tax imposed pursuant to paragraph (c) of subsection 2, be paid monthly. The tax is due within 10 days, excluding Saturdays, Sundays and legal holidays, after notice of the amount of the tax is received by the hospital. A tax imposed pursuant to paragraph (c) of subsection 2 may be paid at the time a Medicaid payment is made to the hospital.*

*4. The proceeds of the tax imposed pursuant to subsection 1 and any interest and penalties imposed on delinquent payments of the tax must be deposited in the state treasury for credit to the hospital tax account in the state general fund. The department of human resources shall administer the account.*

*5. The interest and income earned on money in the hospital tax account, after deducting any applicable charges, must be credited to the account.*

Sec. 14. *1. The allocations and payments required pursuant to section 15 of this act must be made, to the extent allowed by the state plan for assistance to the medically indigent, from the Medicaid budget account.*

*2. The money in the hospital tax account must be transferred from that account to the Medicaid budget account to the extent that money is available from the Federal Government for proposed expenditures, including expenditures for administrative costs. If the amount generated by the tax imposed pursuant to section 4 of this act, including the amount contributed by the Federal Government to match that money, exceeds the amount authorized for expenditure by the department for the purposes specified in section 15 of this act, the department is authorized to expend the additional revenue in accordance with the provisions of section 15 of this act.*

Sec. 15. *1. Before making the payments required or authorized by this section, the department shall allocate money for the administrative costs of the Medicaid program. The amount allocated for administrative costs must not exceed $300,000 in a fiscal year. The interim finance committee may adjust the amount allowed for administrative costs.*

*2. After deducting the amount allocated pursuant to subsection 1, the department shall make payments to each hospital within 30 days after each payment of the tax imposed pursuant to section 4 of this act. Except as otherwise provided in this subsection, the amount paid to a hospital must at least equal the amount of the tax imposed pursuant to section 13 of this act that was paid by the hospital in the preceding month plus $100,000 in each fiscal year. If the tax authorized pursuant to paragraph (c) of subsection 2 of section 13 of this act is the only tax imposed pursuant to that subsection, the amount paid to a hospital must at least equal the amount of the tax that was paid by the hospital in the preceding 30 days. If the amount paid to a hospital pursuant to subsection 3 is less than the amount required by this subsection, the difference must be paid from the hospital tax account.*

*3. A hospital may be paid the amount to which it is entitled pursuant to subsection 2, and any amount to which the hospital is entitled in excess of that amount, from the Medicaid budget account:*

*(a) If the hospital qualifies pursuant to criteria specified in the state plan for assistance to the medically indigent for compensation or an increased rate of payment for treating a disproportionate share of Medicaid patients, indigent patients or other low-income patients;*

*(b) Through an increased rate of Medicaid payments to hospitals for services provided to inpatients; or*

*(c) Through a combination of the payments authorized by paragraphs (a) and (b).*

*4. In addition to the allocation required by subsection 1 and the payments required by subsections 2 and 3, the department shall use the amount of money that is authorized for expenditure pursuant to subsection 5 to make the required expenditures for:*

*(a) The provision of new services that are first required by the Federal Government on or after April 1, 1990;*

*(b) The provision of services to persons in categories of eligibility that are first required by the Federal Government to receive coverage for such services on or after April 1, 1990; and*

*(c) Increases in the number of persons who are recipients of Medicaid over the number approved by the legislature for the Medicaid budget account.*

*5. Except as otherwise provided in this subsection, the department shall, after making the allocation required by subsection 1, use approximately one-half of the money in the Medicaid budget account that is attributable to the tax imposed pursuant to section 13 of this act, including the amount contributed by the Federal Government to match that money but excluding the amount that represents the amount of the tax itself, for the purposes specified in subsection 3 and one-half for the purposes specified in subsection 4. The proportion of the amount in the Medicaid budget account used for the purposes specified in subsection 3 may be decreased by the department if such a decrease is required for approval of the state plan for assistance to the medically indigent by the Health Care Financing Administration.*

*6. A county or district hospital that borrows money to pay the tax imposed pursuant to section 13 of this act may pledge the amount of money to be paid to the hospital pursuant to this section for payment of the loan.*

Sec. 16. *1. In addition to any other tax imposed on providers of medical care, there is hereby imposed a tax on the state share of Medicaid payments made to providers of medical care, except for payments to a hospital for services provided to inpatients and payments for long-term care, at a rate established pursuant to subsection 2.*

*2. The department shall establish the rate of the tax, upon approval by the board of the necessary changes to the state plan for assistance to the medically indigent. The rate of the tax must be not more than 100 percent of the state share of the amount of Medicaid payments made to a provider of medical care, except for payments to a hospital for services provided to inpatients and payments for long-term care. The tax may be imposed at the*

*time a payment is made to a provider. The proceeds of the tax and any interest and penalties imposed on delinquent payments of the tax must be deposited in the state treasury for credit to the Medicaid budget account.*

*3. The money in the Medicaid budget account attributable to the tax and any amount contributed by the Federal Government to match that money:*

*(a) Must be used:*

*(1) For the administrative costs of the Medicaid program that are related to the tax; and*

*(2) To repay the amount of the tax to the providers who pay the tax through an increased rate of reimbursement for services provided to Medicaid patients.*

*The amount of money remaining after the payments required by subparagraphs (1) and (2) must be used to increase the reimbursement paid to the providers of medical care who paid the tax for services provided to Medicaid patients, in proportion to the amount of tax paid by such providers, or for other expenses of the Medicaid program.*

*(b) Is in addition to the amount appropriated or authorized for expenditure by the legislature for that budget account.*

Sec. 17. *1. The department, through the welfare division, shall adopt regulations concerning:*

*(a) Procedures for the collection of the taxes imposed pursuant to sections 13 and 16 of this act.*

*(b) Provisions for the payment of a penalty and interest for delinquent payments of the taxes.*

*(c) Provisions for the payment of interest by the department for late reimbursements to hospitals or other providers of medical care.*

*2. The department shall report to the interim finance committee quarterly concerning the provisions of sections 9 to 17, inclusive, of this act.*".

"Secs. 18 and 19. (Deleted by amendment.)".

Amend sec. 21, page 8, line 13, by deleting "439B.400." and inserting: "439B.400, except that the term includes the uniform list of billed charges for units of service or goods provided on an outpatient basis.".

The department of human resources, through the welfare division, shall develop and propose an amendment to the state plan for assistance to the medically indigent in accordance with section 12 of this act and submit the proposed amendment to the Health Care Financing Administration on or before September 30, 1991. The amendment must propose to:

(a) Establish a methodology allowing for maximum compensation or for an increased rate of payment to a hospital for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients;

(b) Increase the rate of reimbursement to hospitals for treating Medicaid patients; or

(c) Make some combination of the changes authorized pursuant to paragraphs (a) and (b).

The department of human resources shall implement the proposed amendment on September 30, 1991.

2. The provisions of sections 13, 14 and 15 of this act must be applied retroactively to July 1, 1991, except that:

(a) The tax authorized pursuant to section 13 of this act must be collected over the first 3 months that the tax is in effect. The tax for the month of July must be collected with the tax for the month of October. The tax for the month of August must be collected with the tax for the month of November. The tax for the month of September must be collected with the tax for the month of December.

3. Except as otherwise provided in subsections 4 and 5, if the proposed amendment is not approved, the hospitals to which payments are made pursuant to section 15 of this act shall repay to the department:

(a) The amount paid to the hospital pursuant to the change in the state plan proposed pursuant to subsection 1 for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients;

(b) The amount paid to the hospital as a result of the increased rate of reimbursement paid to hospitals pursuant to the change in the state plan proposed pursuant to subsection 1 for treating Medicaid patients; and

(c) The amount by which the amount guaranteed to be paid to the hospital pursuant to subsection 2 of section 15 of this act exceeds the amount of tax paid by the hospital,

between September 30, 1991, and the date that the proposed amendment is rejected. Payment is due within 30 calendar days after notice of the amount of the required repayment is received by the hospital. Delinquent payments must be accompanied by a penalty of 10 percent of the amount of the payment and interest at the rate of 1.5 percent per month, or fraction thereof, from the date the payment is due until the date the payment is made.

4. The repayment, if any, required pursuant to subsection 3 does not include:

(a) The amount expended by the department for administrative costs.

(c) Any payment for treating a disproportionate share of Medicaid patients, indigent patients and other low-income patients pursuant to the state plan for assistance to the medically indigent in effect on June 30, 1991.

5. If a portion of the proposed amendment is approved and a portion is not approved, the repayment required by subsection 3 is limited to the amount paid to the hospital pursuant to the portion of the proposal that was disapproved.

6. There is hereby appropriated from the state general fund to the department of human resources the sum of $150,000 for the administrative costs of proposing the amendment to the state plan for assistance to the medically indigent pursuant to subsection 1 and carrying out the amendment in the fiscal year 1991-92. The department is authorized to expend in the fiscal year 1991-92 not more than $150,000 contributed by the Federal Government to match the amount of the appropriation made by this subsection. If the proposed amendment to the state plan is disapproved, the balance of the appropriation made by this subsection must not be committed for expenditure and reverts to the state general fund as soon as all payments of money committed have been made. The amount appropriated pursuant to this subsection must be repaid to the state general fund from the hospital tax account in the manner provided in subsection 1 of section 15 of this act.

7. Notwithstanding any other provision of law to the contrary, the department of human resources may request additional funding from the legislature to replace money included in the budget approved by the legislature in reliance upon the revenue to be generated pursuant to this act that is lost as a result of any change in federal law, regulation or policy that affects the amount of money generated for the state pursuant to the provisions of this act, including the loss of any money included in the budget that was intended to be contributed by the Federal Government to match that amount.".

4. Sections 13, 14 and 15 of this act expire by limitation if federal law, regulation or policy causes the department of human resources to be unable to make the payments specified in section 6 of this act from the revenue available for that purpose.

5. Section 16 of this act expires by limitation if federal law, regulation or policy causes the department of human resources to be unable to make the payments specified in that section from the revenue available for that purpose.".

Amend the title of the bill to read as follows:

"An Act relating to health care; limiting increases in charges for certain care; establishing and financing various programs to assist in containing the costs of health care; imposing a tax on hospitals at a rate determined by the department of human resources; requiring the department to propose a certain amendment to the state plan for assistance to the medically indigent; imposing a tax on other providers of medical care at a rate determined by the department; requiring that the chairmanship of the legislative committee on health care alternate biennially between the houses of the legislature; making appropriations; authorizing expenditures; and providing other matters properly relating thereto.".

Assemblyman Freeman moved that the Assembly adopt the report of the first Committee on Conference concerning Assembly Bill No. 577.

Remarks by Assemblymen Freeman, Giunchigliani, Wong, Arberry and Stout.

Assemblyman Freeman requested that her remarks be entered in the Journal.

Thank you, Mr. Speaker. This is a rather complex long amendment that is an agreement between all of the interested parties. This is the Governor's bill on hospital cost containment and also A.B. No. 807, which is the Kentucky Plan, that is incorporated into this bill. I would be glad to read you a summary of it if you would like me to.

(1) This amendment amends A.B. No. 577 to incorporate the updated revisions of A.B. No. 807, the Kentucky Plan. This will allow the Nevada Medicaid Program to utilize hospital bed use taxes as matching funds for increased medicaid payments to hospitals and to generate additional federal aid to pay for federal Medicaid mandates on increased eligibility. These provisions will enable the Medicaid budget to meet its obligations for nursing home payments without additional county financial participation.

(2) The amendment requires legislative approval before any of these funds could be used to finance community college class-size reduction but does allow such reduction without legislative approval only if other matching funds are found.

(3) The amendment clarifies provisions to the hospital cost containment to accomplish the following: (a) Requires federal approval of the discount given to low income seniors to insure compliance with Medicare bad-debt regulations; (b) It clarifies that the hospital billed charge master applies to both inpatient and outpatient charges as the vehicle to monitor compliance with the billed charge freeze and inflation adjustment; (c) Clarifies that penalties for violating the price freeze and inflation limits can be applied for a single major violation, rather than the pattern of violations previously contained in A.B. No. 577.

(4) The amendment allows taxes to be imposed on other medical providers in order to bring additional federal money into the Medicaid budget so long as the providers are repaid those taxes from the federal funds.

(5) Finally, the amendment appropriates $150,000 in state general funds to administer the Kentucky Plan with the funds to be repaid out of the hospital tax account. That's the end.

Motion carried.

Assemblyman Gibbons moved the adoption of the amendment.

Remarks by Assemblymen Gibbons, Wong, Sader, Callister, Humke, Haller, Elliott, Porter, Anderson and Scherer.

Assemblyman Callister requested that his remarks be entered in the Journal.

What the unclassified pay bill does is afford the executive branch under a separation of powers doctrine, the right to make salary decisions because they are largely inseparable from who you hire, the right to make those decisions. This bill authorizes the executive to make decisions up to a certain amount. The governor may choose in certain instances to approve right up to that ceiling or less than that. Typically, he does so. He may not, in fact, utilize the full amount authorized. Indeed, because of concerns that have been raised, because of diminished revenues over the last six months, we asked the Governor, in the Executive Branch, to comment upon that and I will read into the record his response dated June 28.

I stated at the time the Governor intends to review on a case-by-case basis each of the positions under his control whose salaries were increased above the recommendations in the executive budget. And, indeed, as a component of those negotiations, on occasion, we will exceed the Governor's recommendation in that final eight-man negotiating session. And his response is that as to those positions, it is his intention to limit any increase not contained in the executive budget to no more than 10 percent. So we have an odd scenario in which the Governor provides through his budget a list of increases that he would like to have us authorize. We reviewed those. They are encapsulated at the end together with what the two four-man negotiating teams think is an appropriate final package that's voted out and as I recall, it was voted unanimously and then it is encapsulated in the bill that you find before you here today. Does it mean that in each instance the executive must increase salaries to this amount? No. It merely means they may. They have the option. The Executive Branch under a traditional separation of powers notion may exercise that option as he sees best fit. I urge defeat, once again, of this amendment for all of these reasons. I simply don't understand how we can step into the shoes of the executive and speak for him on all of his hires.

Remarks by Assemblymen Goetting, Myrna Williams, Wong, Giunchigliani, Haller, Anderson, Bayley, Callister and Evans.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GOETTING:

What this amendment would do, would defer second grade of class-size reduction into the second year of the biennium and eliminate third grade until next session. We have proposed this amendment, basically—I promised the chairman of Ways and Means I'd make this quick—based on a survey done of the classrooms available. Currently 61

percent of first-grade classrooms are staffed with one teacher and 39 percent are taught by teams. Based upon the school district's estimates of their needs and the numbers of classrooms available in the next biennium, 74 percent of first grades and 40 percent of second grades will have a ratio of 16 to 1 in fiscal year 1991-92. The remainder of those grades would be team taught. In fiscal year 1992-93, 82 percent of first grades, 56 percent of second grades and 50 percent of third grades would be at the 16 to 1 ratio with the rest of those grades requiring team teaching. By deferring second grade to the second year of the biennium, and deleting third grade from consideration until next session, we would save approximately $31,305,000 over the biennium. I guess the choice is—and how I view this, I'm not sold on team teaching. I think the class size with 16 to 1 ratio has merit, it is still a new program and it hasn't really been studied too much either way and I think to get the 16 to 1 ratio, we need to wait a year on second grade so that we have the classrooms. Basically, when you look at this amendment you're looking at team teaching versus waiting and having the classroom at a ratio of 16 to 1. That's about the size of it.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in opposition to this amendment. I think we made it pretty clear what we wanted to do for our children. We all want to save money, but it is more important to save children. And, we save our children by giving them a foundation and that foundation starts in very early years of their lives. I've heard a lot of talk this evening about team teaching. Let me tell you something. I have a nine-year old grandson who is in the fourth grade. There are 40 children in that class. Nobody is going to tell me that having two teachers in that classroom wouldn't assist every one of those children. So, I would hope that this body would understand the intent of class size reduction as we passed it in the last session, for the teachers of this state and for the future of our children, and reject this amendment.

ASSEMBLYMAN WONG:

Thank you, Mr. Speaker, I rise in support of Amendment No. 1598. When I came to this body, a gentleman who I have a great deal of respect for told me that it's evolution not revolution. I think this is an opportunity to go slowly, to add the second grade, to allow us to catch up with building so that we have adequate classroom space which we don't have right now. I kind of look down and say that class size isn't all it's cracked up to be, too. Some of the people you brought here yourselves, Dr. Card, said that class size reduction was not the answer. So, I think it's prudent of us at this point if we take one step at a time and I think the second grade plan at this point is more than adequate.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker, I rise in opposition to Amendment No. 1598 to the class size reduction act. Some of the concern seems to be the issue of team-teaching. I would point out that team-teaching has been in the books and in this particular section for over 25 years. It's not something new that was created by the legislature. When I started teaching in 1976, I team-taught. It can work. You have different personalities that are together. It's a short-term solution until the facilities are available. However, I would also point out that in this law there are allowances for school districts to apply for variances if they don't have the facilities. So they already have that opportunity. What this legislative body did in 1989 was to become the first one in the United States to make a commitment to children to reduce class sizes for kindergarten through third grade in order to provide them with the quality learning experience and to force people into recognizing that it works. But, you have to show them that it works and in order to show them that it works, you have to give them the time to move through the process. These are people. These are children. They're not something that you're going to get a quick statistic with overnight, and by changing, if this amendment were to pass what you would be doing is eliminating the opportunity for those kids who started in first grade and will be going in the second grade and then completing the phase of the third grade in the smaller class size setting. It is more than test scores. It is an opportunity for children to be treated as individuals, to learn to share, to learn how to work together. That's what class size is all about. I would just urge you to not buy into some of the rhetoric that you are hearing here. If the teachers are standing up and

saying that they're willing to handle the team teaching, you're not the one that's going to have to do the team teaching. I will appreciate it if you'd respect the professionals that are in the classrooms that are the ones who are willing to take this on.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in opposition to this amendment. I probably have spent more time in more different kinds of classrooms than anyone in this room. I darn near got fired once for advocating team teaching. But, come on, lets get into the 20th century. We're doing things in the classrooms that a lot of people make the big mistake of saying "Well, when I was in sixth grade we did it this way." They personalize stuff and they don't even know what's happening. We saw some marvelous team teaching on our trip of two weeks which some people say were wasted. They sure weren't wasted by the Education committee when we went down to Las Vegas. I saw some stuff that Las Vegas should be proud of. I saw a portable, you know, temporary building that had two classes working at the same time with one teacher. Think what she could have done with two teachers. But, the point is, team teaching is not a dirty word. And there are lots and lots of different variations on it. In fact, I heard one praised by Mr. Bayley a little while ago. Actually, it was a team-teaching situation in a strange kind of a setting in one of the elementary schools in Las Vegas. But, nevertheless this move toward the smaller classes, particularly in the primary, is one of the most glorious things that people who can put their mouth where their money is could jump on to. Nevada is ahead of the world on this one. Let's not do this amendment.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. The class size issue is, I guess, not surprisingly, important to classroom teachers. Because it is important to kids, it's going to make the difference in this state. For all of you who keep on talking about accountability, who want to see differences in kids, you're going to see that. You're going to see that when those kids come out at the end of this and come into our middle schools and high schools able to read and write and communicate at a higher level. You can go ahead and throw away the millions of dollars that has already been put into class size reduction for first grade, because the emphasis will be lost if they can't move into another situation here at the second grade level this coming year. You'll have lost that momentum. You have to keep it rolling. These first three years are critical. This entire day a lady sat next to me who deals with second grade problems every day. She can tell you of the heartache of dealing with 35, 36 or 37 or 42 kids in a second-grade classroom because she has dealt with those things. This is going to make a difference. Thank you.

ASSEMBLYMAN BAYLEY:

Thank you, Mr. Speaker. Quickly, if I could, taxpayers voted for class-size reduction. That is not what this is. This is a team-teaching bill. I wonder how they would have voted if it had been presented to them like that. That's what they'll be getting for their money. Secondly, I'm in contact with the teachers in a few schools and I have talked to them and they seem to say the opposite of what we hear up here. They look at me and say "team teaching" and they shake their head. And, some of them say it's trade-off teaching. And that's not all and I'm not inferring that to all situations at all. But, I'm telling you what the teachers that I'm in contact with tell me. Not the ones that have come up here, but the ones in my schools. They say, "no way."

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. To you, and through you to my colleagues, I will attempt to keep my comments as brief as I can. I'll try to respond both to the amendment, and in so doing, I imagine I'll make the bulk of the comments that I would have in regard to the bill. I, of course, rise in opposition to the amendment and I echo the sentiments of those who have gone before me and why I stand in opposition. Fundamentally, I'm opposed because I think number one, the amendment would defeat class size before it's barely had a chance to start. One of the most typically asked questions of me as a legislator in supporting this program is when and how do you plan to measure it? And, can you demonstrate yet, Mr. Callister, that it is worth the expense? I want the members of this body to know that I share some very serious concerns about the answers to that question. I appreciate that this

is a bold experiment. I appreciate that it's an expensive and bold experiment. And I am much reassured by the continuing support and leadership that this body has provided over the past 6 years in supporting this measure. But, that doesn't mean that I don't have the same qualms that I think many of you have about it's efficacy. But, I would suggest to you that to take the kids who have now benefited from it for just the last one year—the last nine months—just now concluding that first year, those first-graders, and to deny them the privilege of going forward into a similarly-reduced second grade would clearly gut the program before it has a chance. I'd like to take a moment, also, to give you some sense of the statutes that we're guided by here today. And I'd like to begin by reading from NRS 388.700 and remind you all that what we have here today is not an amendment to the code. What we have here is a proposed amendment to intentionally under-fund. That is a clear and different item. NRS 388.700 reads as follows: except as otherwise provided, the ratio in school district, in each school district of pupils per class in kindergarten and grades 1, 2 and 3 per licensed teacher designated to teach those classes full time must not exceed 15 to 1. That's the law. If someone wants to change the law, the procedure then would be to submit an amendment to NRS 388.700. No one sought to do that. What's been done, instead, is to suggest that we ought to intentionally under-fund the legal obligation that binds us. Additionally, there are some concerns over the cost of third grade and I would certainly recognize that this amendment, amongst other items, while it intends to eliminate both second grade also intends to eliminate third grade and defer them into some future realm. I think it's important to note that the cost of third grade, as an addition to this budget, is less than $10 million. The number to bear in mind is roughly $10 million for second and $10 million for third. It's a lot of money, but I don't think it's too much for the purposes that we're seeking to accomplish. I had passed out a collection of documents that I've put together over the past year or two and I'd like to walk through them briefly with you.

For those of you who have taken a moment to peruse them, they're not a prejudiced set. They raise many of the same issues that you have raised and that others have raised. Questions about the team-teaching issue. Questions about classroom availability. Questions about the legitimacy of the program and there are some comments pro and con. But, I do suggest to you that all of these comments seem to echo one theme. And that theme is that insofar that we can measure thus far, the program is working. The bold experiment is working. The first page notes in the second paragraph that both Clark County and Nevada should continue to work on class size reduction. There are a couple of pages of clever cartoons. The first meaningful page, I think, is a letter that I received from Susan Brand, principal of Laughlin School, who notes the benefits of team teaching and states the benefits of collaborative teaching models which have been developing stands far beyond what we'd predicted. Teacher burnout as a result of isolation has been significantly impacted in a positive manner. Quality, high-level teachers were attracted to and retained by the opportunity to interact and to work in a collaborative model. That's intriguing to me. That some teachers, indeed many teachers that I have met and spoken to, and I've had the opportunity to meet with a group of more than 200 southern Nevada teachers involved in this program and about 85 percent supported it, irrespective of whether it meant team-teaching. I thought that was a heart-warming number. But I'm intrigued by the comment of this professional educator that there are significant benefits to team teaching. Is it as good as having a 15 to 1 ratio in a single classroom? Clearly not. That is clearly not the intention of the Code or the Act. But I would suggest to you that the only alternative we would have would be to say to all the school districts in the state, "give us a call when you've got those extra empty classrooms and you've managed to convince the local folks in a school bond election to build more classrooms than you need, give us a call. The state legislature will step into the breach and fund you with those new teachers." I think we all recognize the inherent absurdity of that. We're all professional enough politicians at least to know that someone has to press the issue. I'm pleased that for four years this legislature has done so. We have taken the first step and said, "we're going to provide the teachers. You take care of the classrooms." If you turn the page again, there is a page of comments from parents and I can't recall which school it was, but it's a number of interesting comments and includes such statements as, "My child, James, was in a large kindergarten

class last year and didn't get a solid understanding of reading, however he's doing great this year because of class-size reduction." Another parent notes, "Last year, my child fell through the cracks." This year she's noted a dramatic change in her son. She's extremely impressed. Those kind of comments are legion. Comments from parents in particular of children who have learning disabilities and who in a traditional 30 to 1 or 40 to 1 classroom would be farmed out to a much more expensive version of class size; special education. One of the fascinating benefits of class-size reduction is that repetitively, I've been advised that parents have been able to keep their children main-streamed, because a teacher in a main-stream, 15 or 16 to 1 class size scenario, could deal effectively with the one or two handicapped children—could accommodate them. But, when you get into a 30 or 40 to 1 scenario, those children would have to be removed to a different situation where you're now having a 7 or 8 to 1 class-size reduction. There's another page from the Andrew J. Mitchell School in Boulder City, Nevada, that notes a number of benefits that teachers there who have all signed the bottom of the page feel are the result of class size reduction. Fewer discipline problems, self concept has improved, a family-like atmosphere. All of these factors contribute to students who are better problem-solvers, better critical thinkers and more confident and prepared to face tomorrow's challenges. You know I can go on and read a number of comments, you can do that yourself. The one final document I wanted to draw to your attention is an excerpt from a document entitled Education in Crime which itself is an excerpt from a U.S. Department of Education and Bureau of Census publication. It notes a striking correlation on page two of that document between Sylvan who received the benefit of a program much like class size, called Head Start. Some of you may have been familiar with it. Head Start and class size reduction are both programs that in particular are beneficial to high-risk children. Children who perhaps come to school from a home where they are not receiving significant support in terms of helping them do their homework or helping them get up on time or having adequate meals sometimes. Those same children, I would suggest to you, frequently end up costing the state much, much more than the class size program because they end up filling our jails. This document notes that 82 percent of America's prisoners are high school drop-outs. I've noted before from a number of studies that between 65 percent and 75 percent of all inmates, including Nevada inmates, are functionally illiterate. I would certainly suggest that these dollars are dollars that we will spend whether we spend them on the front-end of the system or the tail end of the system, we will spend these dollars. Finally, the document notes that children enrolled in Head Start compared to those who were not so enrolled, 19 years later or 16 years after the program, the following statistics were demonstrated: 59 percent of those who were in the Head Start program were employed, while 32 percent of the control group were. Sixty-seven percent were high-school graduates compared to 49 percent of those who didn't have the Head Start program. Thirty-eight compared to 21 percent were enrolled in college. I think the other statistics you can read for yourself. Again, I would simply note that I think it's a question of whether we spend the money now or later. I don't imagine that we can avoid spending the dollars. I think that from a long-term investment point of view, class size more than pays for itself and I certainly take difference of opinion with those who take Dr. Card's comments otherwise. Dr. Card noted that indeed they would be more than happy to send some Princeton graduate students to study our program. But, this is one area where Nevada was indeed first in the nation. And, I would suggest in closing, Mr. Speaker, that if there is any one area where I would like to see Nevada be ahead of the crowd, be first in the nation, it would be in the area of class-size reduction and in the area of education.

ASSEMBLYMAN WONG:

Thank you, Mr. Speaker, for your indulgence. I must rise once again in opposition to this class-size reduction move for first through third grade and support this amendment. When you talk about professionals; I've only had six years of teaching experience, but my wife has 20, and my brother has 30 years. My brother has had several articles published by Harvard University. We have discussed this issue on numerous occasions. Team teaching does not provide the benefits vis a vis the investment. How, then, can you explain that an average Japanese school—41 students per class—they excel. Is it because Mom and Dad are an example for their children? Is it because Mom and Dad encourage their

children to succeed? How long and how far must we expect teachers to be all things to all people? And, that is what we are expecting. The teachers aren't going to solve all the problems of the State of Nevada. Mom and Dad are going to have to show by example when those kids go to school. It's not because of overcrowding in the schools it's because when those kids are going home, they're probably watching too much TV and Mom and Dad aren't putting a common investment in them. That's why they're not succeeding. In other countries where they are, Mom and Dad are showing by example and that's why they're succeeding. My colleague, the chairman of Ways and Means, talk about Head Start. Do you also know that Head Start, sure it gave them a head start, but by the fourth grade they're no farther ahead than the other students who didn't have Head Start. What is it telling us? It's telling us that Mom and Dad, their family structure isn't working and isn't providing the support and that is why those kids aren't doing as well as the others. We are wasting our money here. We are simply wasting our money here. It's a good idea, but it isn't going to work because it is simply not going to be supported by the family structure. And, until the family structure in this state accepts the responsibility to show by example to their children, we're going to throw money away.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker, I wish to speak in opposition to the amendment. It seems that folks are getting "curiouser and curiouser." The amendment that we are looking at is a verbatim duplication of an amendment that was proposed and defeated yesterday in the Senate. It went down like a rock in the Senate and I hope it goes down like a rock in the Assembly. Given that, I have to question the purpose of introducing this amendment in our house, because if by some odd chance we would pass it, of course the Senate would not concur and eventually the bill would die. Is that really what is behind all of this, to simply kill class-size reduction? I find that very sinister and I hope you will defeat this proposal.

Assemblymen Porter, Garner and Myrna Williams moved the previous question.

## REMARKS FROM THE FLOOR

Assemblyman Evans requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. Mr. Speaker and colleagues, this morning it came to my attention that one of our newspapers had issued a report card and, of course, being the proponent of open government and open information that I am, I decided to investigate. They said, from what I have been told, that 14 opinions were sought, three were lobbyists and the rest were legislators so I determined to find out who they were. The three lobbyists I found out, one was the representative of the plant survival group, one was the representative of the Mormon Cricket endangered group, one was the representative of the Society of the Preservation of Speed Metal Music. Of the legislators represented, one was from the planet of Mars, one was from Venus, one was from Saturn, one was an earthling, that was Merlin, one was from Pluto, one was from Mercury and then they had four members of lunar colonies who were demanding their fair share.

Since in this body we act on peer review as any other professional group does, we had a little report card made out. The report card is for Gene T. Porter, "The Champ," Sixty-sixth Session, attendance 161 days and still counting. Subject, no grandstanding—"A"; no posturing—"A"; grace under pressure—"A"; peacemaker—"A"; pizza man and he delivers—"A"; keen negotiating abilities—"A"; pacesetter—"A"; public deportment—"A"; citizenship—"A"; and, leader of the pack—"A". We want to present this to our Majority Leader, Mr. Porter.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. Thank you is not enough. I appreciate that. I spoke to my wife this morning and she read my report card to me over the phone and I guess I got a "C," but I have always been an average kind of guy, Mr. Speaker. I guess I'm still an average kind of guy but that is okay. As long as this is the last day, this means a lot to me Myrna, thanks. When we started January 21st, I was new to this role. You had selected me, Mr.

Speaker, for this task. It turned out to be the challenging one. I appreciate the guidance that you have given me and especially the staff down front and all the work that Carol did trying to teach me this job. It's kind of like being a large traffic cop, if you haven't noticed that. From me to all the members of this house, thank you, for supporting my procedural motions, except for a few times. Thank you, for giving me the support and understanding the new role that I had to try to adjust to. I hope I have honored your selection, Mr. Speaker, and I appreciate the confidence that you instilled in me and if I did anything to bring the session to a close or benefit the people of the State of Nevada, then I have done my job. Thank you, very much.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. Under Order of Business 15 also, I would be remiss if I didn't take a moment to extend my appreciation to our Majority Leader and to echo the comments that he made to me a few days ago in the hall. At this time I'd suggest them in a more serious vein, yes indeed, Mr. Porter, you have come a long way from High Park Junior High and the principal's office.

MR. SPEAKER:

Under the same order of business. Gene, we started out the year with practically a half-way new team here, a lot of new leaders, lot of new people and I think it has been a remarkable session. We had a few ups and downs and I know it was your cooperation, your hard work and being able to develop consensus that really helped us to get to the bottom of this thing, and get us here, which we hope today is the last day.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN KERNS:

It's going to cost $100 to file for office now and that for sure will stop me from coming back and joining you good people two years from now. I'm sure that I will see most of these shining faces here a couple of years from now, so I won't have to say goodbye because I can come see you again then, but for those who are lucky enough to join me in not coming back, it's really been a pleasure working with all of you and it's been an interesting 10 years. I certainly have no regrets and I just want to say it's been great being part of this organization and I really feel I've been lucky to have a second career and to be able to be involved in everything that goes on in this state. I think it's been well worthwhile and I've really enjoyed doing it and I want to let you all know that I've really appreciated working with all of you. There are a couple I might have yelled at a time or two. And, some of you have yelled at me! But, I just want to say that it has been a real pleasure and it's been a real highlight in my life—the 10 years that I've spent here in this state legislature. I want to thank all of you for a lot of good times and good memories and a lot of unusual experiences. Thank you.

ASSEMBLYMAN SADER:

Mr. Speaker, Bob Kerns knows he's retiring, but how about all of us who will probably be retiring but just don't know it yet?

MR. SPEAKER:

That is a possibility, Mr. Sader, but I've known Bob since my first session when he was lobbying for the firefighters, then he became a legislator and he quit making money at his job, but it has been great serving with Bob all these years. You've done an excellent job, Bob, and the state can't thank you enough for the excellent job that you've done. We might have fought a few times, but not very often. You've done a wonderful job and we're going to miss you in these chambers.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. Well, I'll take this opportunity to say a few words. We have a bulldog and I guess the fond name for Mr. Kerns is also a "Bulldog" and he was out there growling with "Truman" the other day and I didn't know which one was doing which!

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker, I would be remiss if I didn't say a few words about Bob Kerns. We served together for eight years. He and I have been known to go ballistic, together and separately and for those people from southern Nevada, we owe him a debt of gratitude. Children in the special children's clinic, because he and I took a little tour of the special children's clinic where it used to be and both of us went crazy. When you go down to southern Nevada now and you see the beautiful, new, well-equipped therapeutic setting for these children, Bob Kerns had a great deal to do with it and I personally want to thank him for it.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker, it's with reluctance that I say goodbye to Bob. I have very fond memories of the 1989 session, because in 1989 Bob was on Ways and Means. The chairman at that time, Marvin Sedway, for those of you who don't know, was even wilder and woolier than our current chairman of Ways and Means. But, Bob Kerns could match him. I think they were equals in many ways. Bob, we missed your presence on Ways and Means this year. Another closely-guarded secret that I should tell you is not only will Bob be missed in the legislature, but also as part of our Washoe delegation because in off-season, if you will, the time between legislative sessions, our delegation does meet a number of times on local issues, and that will be another void that will be painful to us. But, Bob, it has been great serving with you and I know that you're going to have more time now to use that marvelous talent you have. If any of you have not yet seen Mr. Kern's wonderful wood carvings, he is a very talented artist. Good Luck, Bob.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. Bob has always been special to me. When I was a freshman in 1985, I was assigned to him and he was supposed to keep me in line and teach me the ropes and he did a great job. He really helped me out and I really appreciated it. He kept me from falling in a lot of holes. He also keeps my grandchildren supplied with baseball cards and the things that they need and I've really appreciated working with you all this time, Bob.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in total support of Mr. Kerns' retirement. For those of you who are freshmen and especially those of you who are from the opposition party who may hate me for one reason or another, you can probably thank the man who is retiring today for everything that I am. For the past two terms, I have occupied the seat now held by the distinguished chairman of Education. Mr. Kerns still has the seat that he had when I first came here in 1987. Lenny Nevin sat right here and Jack Jeffrey was in my seat and as all this is winding down, you're probably just as lost as I was in those days and the only guy who ever told me what was going on was Bob Kerns. All of a sudden, my caucus would break and I would turn to Bob and I'd say, "What are we doing?" He'd say, "You guys are going to talk about this," or "You guys are going to talk about that," because Jeffrey never told me what we were going to talk about until I got in the room, but Bob always knew ahead of time. I never understood the motions and why we were doing this and why were we doing that and Bob would take the time to explain it to me. After we adjourned *sine die* the first session, we went over to the Corner Bar, I think, and we had a beer together and he gave me a hug and the only Republican to call me after I won in 1989 was Bob Kerns. Every time I've had guests come over or something, especially my mother, who is in love with Bob Kerns—terribly, asks me about him every time she calls, but he was gracious to all my guests and the one man who taught me all the ropes around here didn't even come from my own party. It came from the man who is retiring. And, I'll never forget you, sir, I really appreciate it. Thanks.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. In following that up, for the past four sessions Bob has attempted to teach me the ropes. He's yelled at me probably every day and I don't know if

I've learned anything or not. According to the Review Journal today I probably haven't. But anyway, Bob, I wish you well in your retirement and you've still got to drop one of those ducks by and maybe we'll see you back here next session.

ASSEMBLYMAN KRENZER:

Thank you, Mr. Speaker. Well as the current freshman sitting next to Bob and being educated by him, I do want to stand and say how glad I am that he's not coming back. When we had the teachers here that day I was thinking to ask Mr. Speaker to move my seat. I felt like a kid who's had their pigtails dipped in the ink well all session. But, I honestly do want to say thank you to Bob. He certainly did teach me a lot. I'd turn to Mr. Bennett and he wouldn't know what to do and I'd go to Mr. Kerns and he always knew what to do. He, too, commented on the caucuses. He would lean over and say "You're having another stupid caucus where you're not going to talk about anything." I am sincerely going to miss him.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I, too, would like to say a few words about Bob "Backdraft" Kerns. Bob and I started in the same year, 1983, and therefore I have a special fondness for him. I have a lot of memories over the years. I have a memory of him in that first year, 1983, when we all sent out newsletters during the session. It was our secret weapon, I guess. His had a picture of himself with an expression not unlike the one he is currently wearing. The caption said, "Too many bills." Bob didn't have any bills that he introduced that year. I think he didn't have any bills until perhaps last session. That might have been his first year. So, that's a lesson to all of us. You can be successful without having a lot of bills, Mr. Callister. Bob, also, I think, has taught us a lesson. He is probably one of the most dangerous legislators in America. That is true because he came here with 16 years lobbying experience, and I think that helps him to be on a constant "busman's holiday" to help out people like the Majority Leader just as a freebie. All that experience pays off. I also remember going way back to '83 when we had a year somewhat similar to this year when our party was the majority party; in fact, I think we only had 19 that year, and as a practical matter, we won on a whole lot more issues than we even did this year. Bob was responsible for going and finding 3, 4 or 5 votes and we even had some surplus and Bob worked it real well. We had a lot of battles together. It has been a lot of fun. I'm going to miss you.

ASSEMBLYMAN GOETTING:

Thank you, Mr. Speaker. Well, Chief, guess I'm going to have to carry on the torch since you won't be here. You have an axe for me? Maybe a fire extinguisher—that's probably what I'll need. I really appreciate the advice that you gave me. "Speak from your heart and you won't go wrong." I think that's very good advice. The firefighters throughout this state are going to miss your presence here and so will I.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I also rise in favor of Mr. Kerns. Mr. Kerns has been here the three sessions that I've been here and I've really enjoyed him. He's outspoken and my kind of guy. I've really enjoyed being on the Natural Resources and Agriculture Committee with him this year. To my way of thinking, we did a few good things. Some others might not think that. Anyway, Bob, I have enjoyed serving with you and next time you'll probably be back here lobbying and get the big bucks. But, Mr. Speaker, I think this is a great deal that we've done for Mr. Bergevin and Mr. Kerns because, to my knowledge most of the time we just do this after they die, so we're glad to be able to do it now.

ASSEMBLYMAN GARNER:

Thank you, Mr. Speaker. I hope that Mr. Kerns and Mr. Bergevin don't have to die before anyone says things nice about them. I have to tell you that I've had a similar experience that Mrs. Spriggs has had. She may have been assigned to him or him to her. I don't know if anyone assigned Bob Kerns to me, but he's taken me on all year long, too. Watching after the things that take place in Government Affairs. I want to express to him my appreciation for his support in Government Affairs. He did an outstanding job, and also while I'm on my feet, I also want to thank Mr. Bergevin for the help that he gave too.

I have been in Bob's home. He and his gracious wife invited us there and I envy him retiring and going on to bigger and better things like carving, fishing and hunting and those kinds of things. I just wish you the best of luck. Thank you.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. I, too, am going to miss Bob Kerns. He's one of those rare politicians who doesn't mince words on anything. He certainly made our caucuses lively. Although, Mrs. Krenzer, he had the same opinion of our caucuses that he had of yours.

ASSEMBLYMAN MARVEL:

Bob, I was here a couple of sessions before you and I am going to miss you, but I particularly missed you on Ways and Means this year. Bob used to sit in front of me and I used to watch the back of his neck and I could tell how Bob was reacting because when it got up to boiling, you knew he was going to come unglued. It's really been a pleasure working with you, Bob, and I certainly want to wish you well.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. Mr. Humke said that one or two years that Mr. Kerns didn't introduce any legislation. Well, I had talked to Bob Kerns about that and he said, "No, I didn't introduce any legislation, but I sure killed a lot of bills." That was good. I've been listening to him and he's given me a lot of advice on how to think on different things and I think every firefighter in the state of Nevada owes this man a debt of gratitude because he's the one that helped them in their quest for a good life in his work with them as a firefighter. We were invited to his home and his wife and family were real gracious and I appreciate that invitation and I appreciate as a "Notch Baby" welcoming you kind of to the fold a little bit. Any time you're in the south, all of us certainly want to welcome you. Nice knowing you and you're top shelf in my book. Thanks.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I had the pleasure of being here when Bob was a lobbyist before he started in the legislature. Of course, representing a labor union we always worked together and were never on different sides of any legislation he was working on until he became a legislator. I think you even developed a talent for carving the ducks since you've been in the legislature, haven't you? I know the ones that I see now are a a lot better than the first time that I ever saw one. Bob has been a real credit to his party and to his constituents and to the legislature. I don't know exactly why he's quitting, I really don't. I have more fun here than I did when I got lost for two days and four nights in "Hollywierd." We're really going to miss you. But, you know you're really going to be embarrassed if you change your mind and decide to come back and we're all going to be haranguing you. We love you, Bob, you've done a good job with your state and with your colleagues.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. I simply rise to thank Bob for all the things that everyone has said here before me. Also for something that these people here don't know; that Bob's early working on decoys were the pictures of those prehistoric decoys that we saw in the Carson Sink. No one really knows that except Bob and he has passed them off as being antique. Bob also did two things for me for which I'm really pleased. One, is that he encouraged me to become involved in this legislative process and it's because of Bob that I decided to run for this office. So, I'd like to thank him for that and I'd also like to thank him for retiring because he worked so hard on re-districting and now he's made public that I don't have to run against him after putting me in his district.

ASSEMBLYMAN MCGINNESS:

Thank you, Mr. Speaker. Last session, my office was next to Bob Kerns' office and my wife loves ducks, decoys and stuff like that. He'd shown me some of his carvings and they are absolutely beautiful; so, one day she was here and I told her that Bob Kerns carved these decoys. He took her in the office and the door was closed long enough that I finally went and tapped on the door. I'm not so sure that this wasn't a "Come on up to my

apartment and see my etchings'' type scheme that he has. I appreciate all of the things that he has taught me and he's turned my 13-year old into a baseball card fanatic and I guess I thank you for that too, Bob. Good luck.

ASSEMBLYMAN HELLER:

Thank you, Mr. Speaker. Sometimes I'm bewildered by the irony of the relationship that Bob and I have. When I was in high school, Bob's son, Tom, was the starting center on Reno High's basketball team and I was the starting center on Carson High's basketball team. For several years we went head to head. In fact, a couple of times we even went to blows. I was booed out of Reno High's gym one time and I'm sure Bob was booing me. Now I find that the strength of our relationship and Bob, along with Lou, is one of the two most influential people in getting me here today and I want to thank him for that.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. When Mr. Gibbons talked about being grateful to Bob for retiring and not running against him since they're in the same district, I started to thinking about what we went through when Bob had mentioned that he probably was going to retire. So I thought, well, if we have to lose an Assembly district, we should cut up Bob's. Then he saw the map. And, what Mr. Marvel said about the back of his neck reaching the boiling point? Well, it went past that, I think. I have to say that the people in District 25 are really lucky that Bob Kerns has been representing them for this 10 years, because he cared so much about those people and how that community of interest, worked together there was no way we're going to break that up. It just shows how much he cares and how important those people are to him and I think that they are real lucky that he has been their representative for 10 years.

**Speaker of the Assembly.**

1. All officers of the Assembly are subordinate to the Speaker in all that relates to the prompt, efficient and correct discharge of their official duties under his supervision.

2. Possessing the powers and performing the duties described in this rule, the Speaker shall:

(a) Take the chair at the hour to which the Assembly stands adjourned, call the members to order, and upon the appearance of a quorum, proceed to business.

(b) Preserve order and decorum and have general direction of the chamber of the Assembly and the approaches thereto, and in the event of any disturbance or disorderly conduct therein, order the same to be cleared.

(c) Decide all questions of order, subject to a member's right to appeal to the Assembly. On appeal from such decisions, the Speaker has the right, in his place, to assign the reason for his decision.

(d) Have the right to name any member to perform the duties of the chair, but such substitution shall not extend beyond one legislative day.

(e) When the Assembly resolves itself into Committee of the Whole, name a chairman to preside thereover and call him to the chair.

(f) Have the power to accredit the persons who act as representatives of the press, radio and television, and assign them seats.

(g) Sign all bills and resolutions passed by the Legislature as provided by law.

(h) Sign all subpenas issued by the Assembly or any committee thereof.

(i) Receive all messages and communications from other departments of the government and announce them to the Assembly.

(j) Represent the Assembly, declare its will and in all things obey its commands.

(k) Vote on final passage of a bill or resolution, but he shall not be required to vote in ordinary legislative proceedings except where his vote would be decisive. In all aye and no votes, the Speaker's name shall be called last.

3. If a vacancy occurs in the office of Speaker, through death, resignation or disability of the Speaker, the Speaker pro Tempore shall temporarily and for the period of vacancy or disability conduct the necessary business of the Assembly.

4. If a permanent vacancy occurs in the office of Speaker, the Assembly shall select a new speaker.

**Committee on Ethics; Legislative Ethics.**

1. The Committee on Ethics consists of:

(a) Two members of the Assembly appointed by the Speaker from the majority political party;

(b) One member of the Assembly appointed by the Minority Leader from the minority political party; and

(c) Two qualified electors of the state chosen by the members of the committee who are appointed pursuant to paragraphs (a) and (b), neither of whom is a present or former member of the Legislature or employed by the State of Nevada.

2. The Speaker shall appoint two members of the Assembly, one from the majority political party and one from the minority political party to serve as alternate members of the committee. If a member is disqualified, the alternate appointed from the same political party shall serve as a member of the committee during the consideration of a specific question.

3. A member is disqualified if he is the requester of advice concerning a question of ethics or conflict of interest, or if the advice is requested by another member of the Assembly and a reasonable person in his situation could not exercise independent judgment on the matter in question.

4. The committee shall hear complaints on alleged breaches of ethics and conflicts of interest, brought by Legislators and others, and it may advise Legislators on questions of breaches of ethics and conflicts of interest. All proceedings by the committee on matters of ethics or conflicts of interest are confidential unless a Legislator:

(a) Against whom a complaint is brought requests a public hearing;

(b) Discloses the opinion of the committee at any time after his hearing; or

(c) Discloses the content of an advisory opinion issued to him by the committee.

5. A complaint which alleges a breach of ethics or a conflict of interest must be in writing and signed by the person making the allegation. The complaint must be filed with the chairman and he shall send a copy of the complaint, within 24 hours after receiving it, to the Legislator against whom the complaint is brought.

6. The criterion to be applied by the committee in determining whether a Legislator has a conflict of interest is whether the independence of judgment of a reasonable person in his position upon the matter in question would be materially affected by:

(a) His acceptance of a gift or loan; or

(b) His private economic interest.

7. A Legislator who determines that he has a conflict of interest may vote upon, advocate or oppose any measure as to which a potential conflict exists if he makes a general disclosure of the conflict. In determining whether to vote upon, advocate or oppose the measure, the Legislator should consider whether:

(a) The conflict impedes his independence of judgment;

(b) His participation will produce a negative effect on the public's confidence in the integrity of the Legislature;

(c) His participation is likely to have any significant effect on the disposition of the measure; and

(d) His interest is greater than the interests of an entire class of persons similarly situated.

3. When taking the ayes and noes on any question, the electronic roll call system may be used, and when so used shall have the force and effect of any roll call under these rules.

2. The contest must be submitted so far as may be possible upon depositions or by written or oral arguments as the Assembly may order. Any party to a contest may take the deposition of any witness at any time after the statement of contest is filed with the Secretary of State and before the contest is finally decided. At any time before the presiding officer calls for a vote on the passage of the consent calendar, a member may give written notice to the Chief Clerk or state orally from the floor of the Assembly in session that he objects to the inclusion of a particular bill on the consent calendar. If a member so objects, the Chief Clerk shall remove the bill from the consent calendar and transfer it to the second reading file. A bill removed from the consent calendar may not be restored to that calendar.

5. During floor consideration of the consent calendar, members may ask questions and offer explanations relating to the respective bills.

6. When the consent calendar is brought to a vote, the bills remaining on the consent calendar must be read by number and summary and the vote must be taken on their final passage as a group.

**General File.**

All bills reported to the Assembly, by either standing or special committees, after receiving their second readings shall be placed upon a General File, to be kept by the Chief Clerk. No bill shall be considered by the Assembly until the regular order of business shall have been gone through. Then bills shall be taken from the General File and acted upon in the order in which they were reported, unless otherwise specially ordered by the Assembly. But engrossed bills shall be placed at the head of the file, in the order in which they are received. The Chief Clerk shall post, in a conspicuous place in the chamber, a daily statement of the bills on the General File, setting forth the order in which they are filed, and specifying the alterations arising

from the disposal of business each day. He shall likewise post notices of special orders as made.

**Reconsideration of Vote on Bill.**

On the first legislative day that the Assembly is in session succeeding that on which a final vote on any bill or resolution has been taken, a vote may be reconsidered on the motion of any member. Notice of intention to move such reconsideration shall be given on the day on which such final vote was taken by a member voting with the prevailing party. It shall not be in order for any member to move a reconsideration on the day on which such final vote was taken, except by unanimous consent. But there shall be no reconsideration of a vote on a motion to indefinitely postpone. Motions to reconsider a vote upon amendments to any pending question may be made at once.

# JOINT STANDING RULES OF THE SENATE AND ASSEMBLY

## 1

## COMMITTEES ON CONFERENCE

**To Be Appointed by One House at Request of the Other.**

In every case of an amendment of a bill, or joint or concurrent resolution, agreed to in one House, dissented from in the other, and not receded from by the one making the amendment, each House shall appoint a committee to confer with a like committee to be appointed by the other; and the committee so appointed shall meet publicly at a convenient hour to be agreed upon by their respective chairmen and announced publicly, and shall confer upon the differences between the two Houses as indicated by the amendments made in one and rejected in the other and report as early as convenient the result of their conference to their respective Houses. The report shall be made available to all members of both Houses. The whole subject matter embraced in the bill or resolution shall be considered by the committee, and it may recommend recession by either House, new amendments, new bills or resolutions, or other changes as it sees fit. New bills or resolutions so reported shall be treated as amendments unless the bills or resolutions are composed entirely of original matter, in which case they shall receive the treatment required in the Respective Houses for original bills, or resolutions, as the case may be.

The report of a conference committee may be adopted by acclamation, and such action may be considered equivalent to the adoption of amendments embodied therein. The report is not subject to amendment. If either House refuses to adopt the report, or if the first conference committee has so recommended, a second conference committee may be appointed. No member who served on the first committee may be appointed to the second.

There shall be but two committees of conference on any bill or resolution. A majority of the members of a committee of conference from each House must be members who voted for the passage of the bill or resolution.

[Statutes of Nevada 1947, 872; A 1977, 1697; 1979, 1964]

## MESSAGES

**Procedure Concerning.**

Proclamations by the Governor convening the Legislature in extra session

shall, by direction of the presiding officer of each House, be read immediately after the convening thereof, filed and entered in full upon the Journal of proceedings.

Whenever a message from the Governor is received, the Sergeant at Arms will announce: "Mr. President, or Mr. Speaker, the Secretary of the Governor is at the bar." The secretary will, upon being recognized by the presiding officer, announce: "Mr. President, or Mr. Speaker, a message from His Excellency, the Governor of Nevada, to the Honorable, the Senate or Assembly," and hand same to the Sergeant at Arms for delivery to the Secretary of the Senate or Chief Clerk of the Assembly. The presiding officer will direct the biennial message of the Governor to be received and read, and all special messages to be received, read and entered in full upon the Journal of proceedings.

Messages from the Senate to the Assembly shall be delivered by the Secretary or Assistant Secretary, and messages from the Assembly to the Senate shall be delivered by the Chief Clerk or Assistant Clerk, who shall be announced by the doorkeeper, enter within the bar, announce and deliver his message.

[Statutes of Nevada 1931, 466]

Additional copies of such bills may be distributed at a charge to the person to whom they are addressed. The amount charged for distribution of the additional copies must be determined by the Director of the Legislative Counsel Bureau to approximate the cost of handling and postage for the entire session.

[Statutes of Nevada 1920-21, 410; A 1977, 1657; 1979, 1964; 1983, 2108; 1991, Assembly Concurrent Resolution No. 1 of 1991 Session (File No. 2)]

## 9

## ADJOURNMENT

1. In calculating the permissible duration of an adjournment for 3 days or less, the day of adjournment must not be counted but the day of the next meeting must be counted, and Sunday must not be counted.

2. The Legislature may adjourn for more than 3 days by concurrent resolution. One or more such adjournments, for a total of not more than 20 days during any regular session, may be taken to permit standing committees, select committees or the Legislative Counsel Bureau to prepare the matters respectively entrusted to them for the consideration of the Legislature as a whole.

3. In addition to any adjournment taken pursuant to subsection 2, after the first 19 calendar days of a regular legislative session, the Legislature shall adjourn until the 36th calendar day of the regular session. During this adjournment, the Senate Standing Committee on Finance and the Assembly Standing Committee on Ways and Means shall hold hearings in both the mornings and afternoons to consider the budgets of the major agencies of the state. The two committees shall, when practicable, meet jointly while maintaining majorities of both committees. During this adjournment all other standing committees may hold hearings at any place in the state on legislative measures or on any general topic which is pertinent to possible legislative action.

4. During the adjournment taken pursuant to subsection 3:

(a) Notwithstanding the provisions of Senate Standing Rule No. 92 and Assembly Standing Rule No. 92, an agenda may be revised by the chairman of a committee to add or delete any item at any time on the day before the meeting. (a) One, if such membership is less than 21 percent.

(b) Two, if such membership is between 21 percent and 33 percent.

If the members of the minority party in the Senate or in the Assembly comprise more than 33 percent of the total number elected to that House, minority party membership for that House on the Commission must be three, being equal to the membership of the majority party.

2. Each House shall select one or more alternate members for each member from that House, designating them according to party or according to the individual member whom the alternate would replace.

3. A vacancy in the regular Senate or Assembly membership created by death or by resignation or by the Legislator's ceasing to be a member of the Legislature shall be filled by the proper alternate member as designated by that House. If there is no proper alternate member, the Legislative Commission shall fill the vacancy by appointing a Senator or Assemblyman of the same party.

4. If for any reason a member is or will be absent from a meeting and there are no alternates available, the chairman of the commission may appoint a member of the same House and political party to attend the meeting as an alternate.

5. The members shall serve until their successors are appointed by resolution as provided in NRS 218.660, notwithstanding that their terms of office may have expired, except that the membership of any member who does not become a candidate for reelection or who is defeated for reelection shall terminate on the day next after the election and the vacancy shall be filled as provided in this rule.

6. The chairman shall be selected at the first meeting of the newly formed Legislative Commission and shall serve until his successor is appointed following the formation of the next Legislative Commission.

## LIMITATION ON INTRODUCTION AND REQUESTS FOR DRAFTING OF LEGISLATIVE MEASURES

1. Except as otherwise provided in subsection 2, any request submitted, after a regular legislative session has convened, to the Legislative Counsel for the drafting of a bill or resolution will not be honored by the Legislative Counsel unless the request is approved by:

(a) A two-thirds vote of the members present in the House where it is to be introduced; or

(b) A standing committee of that House if the request was approved by two-thirds of all of the members of the committee.

2. After a regular legislative session has convened, the Legislative Counsel shall honor not more than 5 requests from each Assemblyman and not more than 10 requests from each Senator for the drafting of a bill or resolution which has not received the approval required by subsection 1.

3. After the first 10 calendar days of a regular legislative session, bills and joint resolutions may be introduced by:

(a) Standing committees without consent.

(b) Except as otherwise provided in subsection 4, a member who had requested the drafting of the bill or resolution by the Legislative Counsel before the 11th calendar day of the legislative session.

4. The following measures must be introduced by a standing committee:

(a) Measures drafted at the request of agencies and officers of the executive branch of state government, local governments, the courts and other authorized nonlegislative requesters.

(b) Measures requested by interim legislative studies.

(c) Bills and joint resolutions requested by a standing committee, or by persons designated to request measures on behalf of a standing committee during the interim. Bills and joint resolutions requested by or on behalf of a standing committee must be introduced by that committee.

5. Simple and concurrent resolutions requested by or on behalf of a standing committee may be introduced by an individual member.

6. If two or more measures are being considered in the same house which are substantially duplicative, only the measure which has been assigned the lowest number for the purpose of establishing its priority in drafting may be considered, unless the measure with the lowest number is not introduced within 5 days after introduction of a measure with a higher number.

7. A legislator may not change the subject matter of a request for a legislative measure after it has been submitted for drafting.

8. Consent to suspend this rule may be given only by the affirmative vote of a majority of the members elected to the House where it is to be introduced, which must be entered in its Journal for that day, and the consent may apply to no more than one bill or resolution or request for drafting.
