SIXTY-SIXTH SESSION

---

## THE FIRST DAY

---

CARSON CITY (Monday), January 21, 1991

Pursuant to the provisions of the Constitution and Statutes, the Assembly was called to order by Secretary of State Cheryl Lau at 12 noon.

Prayer by the Chaplain, The Reverend Bruce Henderson.

Father, here we are again. We thank You for bringing us together and pray for the new session ahead of us. As today we honor Dr. King and his dream, we too have dreams. May You honor our dreams only as we honor You in them. Especially are we mindful of our loved ones serving us in the Middle East. Our dream is that this will soon conclude. Hear us, Lord. Please. AMEN.

AMERICANISM

A Is for Advantage;
We have so many more
Because we are Americans;
Let's give thanks therefore.

M Is for Majority,
Decision by the most;
That's the rule we follow
From coast to rugged coast.

E Is for Education,
Available to all;
So every last American
Stands up straight and tall.

R Is for Religion,
We worship as we will;
A right we'll always cherish
And let no evil kill.

I Is for Independence,
That our fathers once declared;
Our nation rose to greatness
Because there brave men dared.

C Is for Citizenship,
Of which we are proud;
So let's proclaim it daily
And do it long and loud.

A Is for Assembly,
To gather as we might;
That's another privilege,
Another precious right.

N Is for the News,
A press that's always free;
A sentinel on watch
To guard our Liberty.

I Is for Impartial,
Equal justice for us all;
Laws the same for everyone,
The great, the poor, the small.

S Is for our Speech;
Though others disagree,
You may still express yourself
Because our speech is free.

M Is for our Motto,
And that is why we say:
"In God We Trust," to live
The good American way.

Pledge of allegiance to the Flag.

Thank you. As we embark on our mission here at the 1991 Legislative Session, we need to pause, and keep those Americans on a different mission in our thoughts and in our prayers. They include a member of our own house, Assemblyman Jim Gibbons. Please join me in a moment of silence to remember the courageous servicemen and women in the Persian Gulf, their valor and the uncertainty which they face.

My warmest welcome, Assemblymen and women of the Sixty-sixth Session of the Nevada State Legislature. And congratulations. I know how hard you've worked to get here and I know how proud your family and friends are of you today. I feel a genuine electricity in the air.

As the class of 1991, we face crucial issues, and major challenges. From reapportionment to an innovative budget hearing process and more, the 1991 Session will make a lasting imprint on Nevada's future.

In accepting the Speakership, I'd like to reflect on my first opening day in January, 1967. None of you were here then, but I was.

On the national scene, Lyndon Johnson's State of the Union message focused on raising taxes to support his "Great Society." And NASA's Apollo space program was on the verge of putting man on the moon, when a tragic launching pad fire claimed the lives of astronauts Grissom, White and Chaffee. In true American fashion the agency redoubled its efforts and soon achieved its goal. How typical of this great country those actions were.

To be sure, 1967 was a year for firsts. Dr. Christian Barnard performed the first heart transplant, CBS introduced the first electronic video recording, the first shock absorbing bumper for cars hit the market and amazing as it seems, 1967 was the year of the first Super Bowl, like this one, minus a true western team.

And it sure is a different economy in 1991 than it was in 1967. You could buy a brand new, full-sized Chrysler Newport for $2,895.00 down here in Carson City. Today you're looking at $15–$20,000.00 for an equivalent car.

In 1967 a person could pick up a pair of Levi's for less than $10, three pounds of hamburger down at Safeway for a dollar and incredibly, New York steak for 98 cents a pound.

And on those "infrequent" occasions in 1967 when lawmakers got headaches here at the Legislature, they cured them by purchasing economy sized bottles of 250 aspirin for a whopping 29 cents.

While change is to be expected, we here in Nevada have seen more than our share of it. That's due in part to the fact we are the fastest growing state in this nation.

Our 1967 population of about 400,000 residents has tripled in my time in the Assembly to more than 1.2 million today.

Then there's the budget. The one considered by the 1967 legislature was about $125 million. Some of our agencies receive more than that now. Compare that with the budget we're facing. It's in the $4 billion range.

More evidence of how much Nevada has changed can be seen in a January 22, 1967, front page story in the Las Vegas Review Journal. Its headline proclaimed "No Water Fight Here." My how things have changed, or have they?

As noted linguist Yogi Berra once said, "It's deja vu all over again," for there are many similarities between 1967 and 1991. They start with global uncertainties.

I remember sitting in this very chamber in January, 1967, with deep personal concern for Americans abroad. The fighting then took place not in the Iraqi desert, but the Mekong Delta.

Here in Carson City there are parallels as well. In 1967 we had the largest class of freshman legislators in state history. Today, more than half the lawmakers here weren't Assembly members just two years ago.

And the issues themselves are much the same. The biggest concerns we dealt with in 1967 were: education, taxes, north/south factionalism; shortening legislative sessions; the question of annual sessions, highway construction and the very biggest problem of all . . . one which State Senator Jim Bailey summed up in one word, "finances."

Today's predominate issues still include finances, education, highways, legislative reform, regionalism and taxes, along with health care, insurance, prisons, senior citizens and water, so they are not all that different.

This Assembly must deal effectively with them and that all comes down to how well each of us individually copes with the many bills which we will hear.

Let me relate a story which makes my point. A man and his son were going down a road one hot day, the boy riding the family burro and the father walking alongside. They came upon a man who told them that burros were ideally adapted for hot weather and that they could both ride on the burro. They took his advice and did so.

A little further down the road, they came upon another man who scolded them saying it was too hot for anyone, much less two people, to ride a burro on such a day.

So the man and son got off the burro and walked. Later they came to a bridge where a third man warned them that burros were afraid of water and suggested they carry the animal over the bridge. They took his advice, tied the beast's front legs together and its back legs together, running a pole between its legs. They started carrying the burro upside down, but it was too heavy and when in the middle of the crossing, the bridge collapsed and sent all three into the water. The man and his son scrambled safely to the bank, but unfortunately the poor burro, legs tied together, drowned.

The moral of this story is you can lose your burro trying to please everyone, so don't try.

The people of Nevada who sent us here expect each one of us to be up to speed on these issues and pass laws which are good for the state, and they deserve no less.

This is a time for hard work and I'd like to take a moment to remember one of Nevada's all time hardest working legislators, someone who isn't with us here today, Assemblyman Marvin Sedway.

Make no mistake about it. Dr. Sedway was intense and he was tough. But what stands out most in my mind was that Marvin Sedway did his homework and he was prepared. He was a tireless worker and a passionate supporter of everyday people. He set an excellent example for us, so please join me in honoring him with a moment of silence here today.

In accomplishing your work, what's critical is to remember we must set aside regional issues and make doing what is best for all of Nevada our top priority.

In closing I would like to leave you with a few words which I think make a good deal of sense.

They come not from some recognized management analyst or an ancient, sage philosopher, but I don't think that makes them any less meaningful. They're found in Robert Fulghum's book, "All I really need to know I learned in Kindergarten."

They're based on the belief that wisdom lies not in walls full of graduate degrees as much as in basic rules which have guided us since our early years telling us to:

Share everything . . .

Play fair . . .

Don't hit people . . .

Put things back where you found them . . .

Clean up your own mess . . .
Don't take things that aren't yours . . .
Say you're sorry when you hurt somebody . . .
Wash your hands before you eat . . .
Always flush . . .
Warm cookies and cold milk are good for you . . .
Live a balanced life—learn some and think some and draw and paint and sing and dance and play and work every day some . . .
Take a nap every afternoon (but I might suggest not here on the floor) . . .
When you go out into the world, watch out for traffic, hold hands and stick together . . .
And lastly, be aware of wonder . . .

On that final topic I'm reminded what Harry Truman once said about legislative duty. "For the first several months of legislative service you may wonder how you got here—after the next several months you'll wonder why you stay here!"

I'm deeply honored to serve you as Speaker of the Assembly. Again, congratulations on your election, welcome to the Assembly, best wishes for a successful session and may God bless you and yours. Thank you.

A committee from the Senate composed of Senators Horn, Titus, O'Donnell and Getto appeared before the bar of the Assembly and announced that the Senate was organized and ready for business.

Mr. Speaker declared Assemblyman Myrna Williams to be Speaker pro Tempore of the Assembly.

Remarks by Madam Speaker pro Tempore.

Assemblyman Porter requested that Assemblyman Myrna Williams' remarks be entered in the Journal.

Thank you, Mr. Speaker. I also wish to thank Mr. Callister. I am deeply honored to once again hold this position. These are historic times, historic for more than one reason. Our speaker is the first speaker in history to ever serve in that position four times—that makes it historic. It is historic because we are on the verge of the twenty-first century, and we have an opportunity now to prepare our state to move into new times. We have a unique composition within this assemblage; we have dynamic new leadership who will help us; we have experience and we have youth. We have it all—we have men, we have women.

It is a privilege, and I am excited about it. I know we will do extraordinary things this time because the will is there. And I thank you all very much.

Remarks by Assemblyman Price.

Assemblyman Haller requested that Assemblyman Price's remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and the honored members of this distinguished body and to our friends and loved ones present, today I rise with the greatest of pride and the deepest of regret to speak in support of Assembly Concurrent Resolution Number 2.

My regret stems from the fact that our Americans and loved ones have to be on that particular mission as we enter the last decade of the twentieth century when one would have expected that man should have learned to live in peace and harmony rather than in turmoil. My pride stems from the actions of our fellow Americans; America's finest, thousands, who have stepped forward—those members of the Armed Forces, both voluntary and reserves, our guard units—to answer the call of their President. They have put themselves in harm's way to serve in that troubled area so that others may again enjoy the freedom and liberty that we find so dear. They have put themselves in harm's way against the aggressor forces of Iraq—and may I paraphrase "pro-life" Andy when he calls him "so insane Hussein."

Across this great land in the past few weeks, there has been much debate over the necessity of us being there, political debate of whether the President has gone too far, but that is not what we are talking about here today. Today this resolution—and as you indicated, Mr. Speaker, in your earlier remarks—is to show our love and support and our thanks to our sons, our daughters, mothers, fathers, and even grandmothers and grandfathers, loved ones and friends we all have that have answered that call.

Right here in our own chambers, I am so proud, as we all are, that one of our very own was among the first to answer that call. Jim Gibbons, member of the Reno High Rollers of the Nevada Air National Guard of which unit there are a thousand members, and when they were asked for volunteers, over 600 people volunteered, I believe, in the first 24 hours. Our friend and colleague, Jim Gibbons, was one.

I've heard, at least in passing, some people wondered why Jim would volunteer after just winning an election to the Nevada Legislature. Some people have suggested perhaps his first duty may have been to his constituency in his district, but I think that probably those were initial thoughts and somewhat confused priorities. Someone made the statement in passing that Jim had taken an oath long before he took the political oath that we all took today, so I got a copy of that oath and took a look at it. I thought I might read it to you. It's really not a whole lot different than ours, but there is a little difference. This is the oath of a National Guard officer: "I do solemnly swear that I will support and defend the Constitution of the United States," as we do, "and the Constitution of the State of

Nevada against all enemies foreign and domestic; that I will bear true faith and allegiance to the same," and here is one of the differences, "and I will obey the orders of the President of the United States and the Governor of the state. I make this obligation freely without any mental reservation or purpose of evasion and I will well and faithfully discharge the duties of this office," as he and many of our friends and loved ones are doing today.

It is heartening to see the support that has been raised on behalf of our fellow Americans in this conflict, and it is particularly heartening after some of the tough times in the past war in Vietnam. People, legislators and legislatures, cities and counties, everyone across this nation has joined together in support of our fellow Americans in the Persian Gulf.

I would like to acknowledge in my remarks, Mr. Speaker, that we have with us today some members and leaders of operation "Yellow Ribbon," the Carson City support group for those left behind who have those loved ones overseas: Justine Tucker, Lucy McWilliams, Justine Stafford who are sitting behind me, and to my left I have General John Molini of the Reno High Rollers, our National Air Guard.

I would like to conclude by stating my support and my pride as we all have, and, if I may be permitted, particularly for our colleague and friend, Jim Gibbons, a proud American, an outstanding Nevadan, loving husband, caring father, citizen legislator and citizen soldier.

Resolution adopted.

Assemblyman Price moved that all rules be suspended and that Assembly Concurrent Resolution No. 2 be immediately transmitted to the Senate.

Motion carried unanimously.

Assemblyman Wendell Williams moved the adoption of the resolution.

Remarks by Assemblyman Wendell Williams.

Assemblyman Arberry requested that Assemblyman Wendell Williams' remarks be entered in the Journal.

Thank you, Mr. Speaker. As we come together today to take care of the business of our beloved state, there is probably no other time or any greater urgency we are experiencing in our world community than to activate the ideals and philosophy of Martin Luther King. The legacy of Dr. King reminds us to strive to make our nation secure, not by just the barrel of a gun but by a commitment to strong moral principles. There is no greater time to stop giving rhetoric to quality education using balloons and banners as backdrops and instead commit real dollars and real attendance to education.

As we celebrate the legacy of Martin Luther King, we must remind ourselves as business is growing, as corporations merge, it can't be done at the expense of workers or workers' rights. The vision of Dr. Martin Luther King reminds us that, if we really encourage young people to say "no," we can't say "no" till we say "no" to homelessness, poverty, despair, all violence. The celebration of the legacy of Martin Luther King is a consciousness that reminds us that the world is only as good as the weakest link or the people at the bottom. The purposes that Martin Luther King lived for and died for are a celebration of humanity and what America stands for. The celebration of Martin Luther King is not a celebration of a man who happened to be born in Atlanta, Georgia in 1929; instead it is a celebration of a vengeance for peace, love for all, striving for the best of the world, the best for America, and more importantly the best for Nevada. The vision of the celebration of Martin Luther King is one that we all can build on to make our state better.

Mr. Speaker, to you and through you to my colleagues, I urge the adoption of the resolution, and as we begin to face the challenges of our state, hopefully we can build on that vision and we can make our state a better place to be and a better place to live. Thank you, Mr. Speaker.

Resolution adopted.

Assemblyman Wendell Williams moved that all rules be suspended and that Assembly Concurrent Resolution No. 3 be immediately transmitted to the Senate.

Motion carried unanimously.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair in observance of Martin Luther King, Jr.

### REMARKS FROM THE FLOOR

Assemblyman Arberry requested that the following remarks be entered in the Journal.

BEFORE THERE WAS HISTORY THERE WAS BLACK HISTORY

Before there was history there was Black History
Before those mighty pyramids rose on that glorious River Nile, the lands Kush and Axum stood
And what of fair Nefertiti, she was the Helen of Sparta for all African, proud to be black
Traveling deeper to the heart, the kingdom of Congo and Zimbabwe rose in those dark jungles
Truly before there was history, there was Black History.

STEPHON SWEAT, Western High School

How Can the Visions and Dreams of Dr. King Help Today's Youth Meet the Challenges of Living in 1991? Good Afternoon. First give honor to God for blessing and allowing me to be here.

To the distinguished Governor and all his friends and dignitaries, I would like to thank you for selecting me to be here. This is a day I will never forget.

Dr. King's dream continues to influence us even in his absence. His dream was not only for blacks, but for all Americans. It was not only for the elderly, but for the youth as well. Although times have changed and Dr. King is no longer with us, we as a people still have not achieved the dream.

As a youth growing up in the 90's, I feel we as young people must look beyond race, color, creed and religion and start helping each other realize we are in some terrible times. Gang violence and drugs are taking my peers and fellow classmates in rapid numbers—and it is very frightening to see so many of them with little or no support. Parents in today's society have little or no control over their children—and because of this lack of communication, it brings about low self esteem.

Dr. King's visions and dreams would be just what the doctor ordered in the 90's. I say this because we are looking for someone to pattern our lives after. We are hungry for someone to help us truly believe that we are somebody—and that we can be what we want to be, only if we work hard for it. The youth of today are not really copping out. It's really a matter of needing more moral support from family, friends and other people in our community.

Today's youth have been affected by Dr. King in a number of ways. We now have an opportunity for higher education which brings about self esteem and preparations for a better future. Dr. King said and did things which let young people know that it is okay to be proud, and to stand up for what you believe in, and to say whatever you feel is right. I feel that one of the best things Dr. King could have left us was a chance to know that we have a choice, and it is because we are of a different race, it is not wrong.

Dr. King's visions and dreams are still alive in America today, but as a youth I do not feel that we have realized how to achieve his dream. I personally feel that we must put all of our differences aside and accept each other for who we are. Secondly, we should understand that we are the future and we may be called upon to make decisions which affect us all. And finally, we must put Christ back in all of our lives.

As a young African-American male, I strongly feel that there is hope for my generation, and as long as we have support from our elders we can make a difference in this place we call the land of the free.

As we sit with our eyes glued to the television screens watching our country at war—I must say that it is time for us all to come together and help each other truly understand what Dr. King's dream stood for.

In closing, I feel that Dr. King was one of the greatest men of all times. This man withstood many beatings, and arrests, and much criticism—but still received praise and won the hearts of all Americans, black and whites alike. Unlike Malcolm X's theory, Dr. King believed that we could live in peace and happiness together.

If he were here today—I sometimes wonder where we would be in a time where racism is again on the rise—and youth are faced with teen pregnancy, gang violence, and deadly drugs. I believe the generation would be a little better as far as race relations—and have a more positive outlook on life. Although he is not here with us physically, he is with us mentally and spiritually. And I know that today's youth will make it through hope and prayer—and we will all be able to live in the place we call the land of the free. To the Governor and the Legislature, I wish you all the best of luck in your session today. I want to thank you again and wish you good luck and God bless you.

The Governor delivered his message as follows:

Madam President, Mr. Speaker, Mr. Chief Justice, distinguished justices of the Supreme Court, members of the 66th Nevada Legislature, honored guests and fellow Nevadans.

Tonight American men and women are serving our nation in the Persian Gulf. Many Nevadans, as they always have, answered the call to duty.

To help us remember the sacrifices of these as well as past generations of soldiers, I have asked veterans from World War I, World War II, Korea and Vietnam to take their honored place tonight in this Chamber.

Every one of us is holding our breath, praying for peace and anxiously awaiting the safe return of our American troops and the Nevadans among them.

I have ordered that, beginning tomorrow, the Nevada state flag is to be flown at three-quarters mast over the State Capitol. And it will be done every day as a salute and in tribute to the brave Nevadans serving in the Gulf, for as long as any of them are there. But we here must do more than just remember. The elected officials in this room have an obligation . . . to make certain our own level of service and commitment measures up to that of our men and women overseas.

As elected representatives, each of us is called not only to manage government, but to lead people. Whether we intend it or not, we lead by example. Let us make our example worthy of those we ask to follow us and vote for us.

The highest standard of leadership means having the trust and confidence of all Nevadans.

The leadership of this legislature, both Republican and Democrat . . . has already taken the first major step by pledging the quick passage of the ethics in government campaign bill.

We must lower the campaign contribution disclosure limit, prohibit honoraria, strengthen conflict of interest rules and give the Nevada Commission on Ethics . . . the authority to enforce these laws and penalize violators.

The bottom line is . . . our government must place public interest above special interest every time.

Placing public interest above all else means providing the leadership Nevada needs. One of the most important ways we prove our allegiance with the people is to stand up and staunchly protect consumers.

Nevadans are rapidly finding they can no longer afford automobile insurance. I say to the auto insurance industry, Nevadans demand you get your costs under control. We will not tolerate these skyrocketing prices. Our insurance costs are the fourth highest in the nation . . . one in five Nevadans drives without insurance, risking their family's financial security.

Despite this, the automobile insurance industry is lined up at the door of Insurance Commissioner Al Iuppa seeking even higher rates. As of today, there are 42 requests for rate increases.

Now—more than ever before—we must have a consumer advocate practicing before the Insurance Commissioner. This must be the year consumers get their voice in the process.

Another vitally important consumer issue: hospital costs. For the past four months I have been engaged in a series of tough negotiations trying to crack this problem. Our hospital costs are the highest in the nation—hospital care is out of reach for far, far too many Nevadans. This is not a situation we can accept—and we have not.

The state's five major hospitals have agreed to place a complete freeze on all charges for a full year beginning in July.

A major feature of this settlement extends state price controls to hospital out-patient services—an area formerly unregulated . . . an area that has skyrocketed in price under the old cost-containment law.

And hospitals have agreed to a 30 percent rollback in charges to all patients who have to pay their own bills. This rollback will dramatically reduce the financial crunch of a single hospital stay that can be placed on a family.

Hospitals will pay for an independent consumer complaint division . . . that will investigate and have the authority to arbitrate bill complaints from patients. Consumers with high bill complaints will now get action! And at no cost to taxpayers!

The agreement also includes funding for rural hospital assistance, an additional $250,000 a year in nursing training programs. But the most important information is this: in the first year Nevada consumers will save $155 million—and another $186 million the second year. And Nevada will fall out of first place in hospital charges this year! It's about time!

As we plan for the '90's, and beyond, there's one all-encompassing challenge . . . growth.

Nevada has been America's fastest growing state for a decade . . . by a wide margin . . . and our growth rate has been climbing steadily. Four years ago our annual growth rate was barely over four percent. Today it is nearly seven percent.

Nowhere is the strain of rapid growth more apparent than on our roads. Our roads are crowded, beat-up avenues of frustration! In fact, "Clark County Transportation" has become an oxymoron.

By any measure, it is obvious that road maintenance and traffic congestion are major problems throughout our state. Cutbacks in federal transportation funding have made the problem even worse.

By voting for Question 10, the voters of Clark County have shown their willingness to support a transportation funding program on the local level. Your action is needed to make the Clark County plan work—I ask you . . . quickly and enthusiastically vote "Yes" one

more time on Question 10! The Department of Motor Vehicles buildings in Southern Nevada are as crowded as our roads and highways. Last year 820,000 Las Vegans stood in long DMV lines. They deserve better service. And we are going to give it to them.

I propose we build a full-service facility that will increase our Southern Nevada capacity and eliminate those long insufferable lines.

For many, growth means opportunity. Nevada's business community has flourished. Last year 40,000 new jobs were created . . . that's the highest new job rate in the nation. The average Nevadan's personal income increased seven and a-half percent last year . . . we rank 12th highest among the states in per capita income.

But even prosperity has a price tag. For example, during this coming biennium, we will enroll 25,000 new students in our public schools. The impact of that growth on the state's budget: $46 million. That's growth only . . . not one new initiative.

University system growth will bring in nearly 4,000 new full-time students—cost: $22 million.

Public assistance growth: $34 million. State prison population growth: over $17 million.

The fact is the cost to our budget for growth alone is nearly $140 million.

Even though Nevada is driven by a dynamic economic engine, the cost of delivering vital services—education, public safety and environmental protection—has increased dramatically.

The truth is inescapable. To meet our state's needs . . . we must increase our state's revenues.

I have often said that any new revenue must come from a broad-based, fair source—having as small an impact as possible. That's why I am asking for your support for a business activity tax, a low rate, small burden, broad-based tax.

I want to take every step we can to reduce any strain this may put on our business community. Therefore, I will ask that the average rate for unemployment insurance, a fee now paid by businesses to the Employment Security Department, be reduced.

This reduction will save Nevada businesses about $54 million dollars over two years . . . a savings that will offset about one-fourth of the cost of this new tax. At the same time we must be sure the small business base of our economy is protected. Therefore I am proposing measures to protect small businesses. These measures will mean more than 10,000 companies will pay no more than an annual $150 flat business license fee.

Let's be clear on one thing: This is a tax paid fully by businesses . . . not by individual employees.

My proposal will generate $128 million in new revenue the first year. And we will maintain our position of having the second lowest tax burden in the nation—second lowest!

We need this additional revenue to keep our state strong, continue to deliver needed services and protect our prosperity.

We must show our citizens we care about their lives, their children and their future. We must also show our employers we care about the quality of their workforce.

Education is the very foundation for building a strong Nevada future. Therefore over 61 percent of all new revenues in my budget go to education.

In 1989, we took the first step toward achieving our most significant single educational improvement: class size reduction in all the primary grades. It's working!

We have already reduced class sizes in our kindergartens with the greatest numbers of "at risk" students. We achieved a 15 to 1 pupil-teacher ratio in the first grade.

We must now take the next step. Next year, we must reduce the class sizes for second grade from the current 26 to 1 level down to 19 to 1. And in the second year of this biennium, we must do the same with third grade.

We cannot stop now—let's make certain every Nevada child starts his educational career with a solid skill base.

The champions of this class size reduction success are clearly our first grade teachers. The main burden of making this great program work falls squarely on these educators. I am extremely proud of our teachers. They know it works, you know it works.

Teachers are the most important quality component of our education system. We must invest in our future by helping professional educators improve and grow to their full potential. The better our teachers . . . the better our schools . . . the stronger our children become. So my budget includes an appropriation to provide free college credit courses to help teachers advance. All of our state's teachers can benefit from this program. Many business leaders have told me we must do more for those students about to enter the work force. I agree. I have responded by proposing a major step in creating an effective, comprehensive program to give students occupational education. It's time we stop trying to fit all our children into existing programs and start providing the educational programs each child really needs.

Further, I believe we must alleviate the tremendous level of overcrowding that exists in our colleges. Our university system is the key to a strong, competitive Nevada in the 21st century—and we must build for that future now.

Therefore, I am recommending this legislature renovate various facilities at the University of Nevada, Reno. We must also fund the planning and design of the Advanced Technology Center at Truckee Meadows Community College. I further recommend the construction of classroom additions throughout our community college system.

On the rapidly growing UNLV campus, I recommend construction of not only the architecture building . . . but also the chemistry and physics building . . . and a general classroom/office complex as well.

There is one more education program that is near and dear to my heart. We have men and women throughout Nevada who want, and deserve, the opportunity to upgrade their training.

But going back can be tough. For example, many who have not been in an algebra class for 10 or 15 years find it difficult to return to a large classroom. Therefore, I propose to fund the reduction of class sizes for these returning students.

I attend many college graduations. In the past you would hear the traditional, "Congratulations, Son," called out from the audience as another young man received his degree. Well, there is a change in the air. More often at college graduations, you hear the cheer coming from the audience, "Way to go, Mom." This program will help many more people get their chance.

I have talked so far this evening about our growth, the demands it makes on our infrastructure . . . and the additional revenues, services and programs we must have just to meet very basic needs. Growth, coupled with increased federal mandates, strains our budget, challenges us with possible cutbacks, requires hard decisions.

But we cannot ask our teachers to subsidize our growth by going without salary increases.

The backbone of education is the quality of our teachers. We in Nevada are lucky to have so many dedicated and qualified professionals working in our state's classrooms.

I am proposing a first year, four percent pay raise for teachers and state employees, with a commitment to monitor the economy in the hopes of increasing that first year level to five percent even before this session is out. Additionally, I ask for your support in providing salary triggers of up to five percent in the second year of the biennium.

I wish we could do more. We need to do more. But even in difficult times we must make some progress toward our goal.

School has always been a place for new beginnings—where people share and grow. However, this year, the first day of school was marred by murder in the Eldorado High School cafeteria. A 16-year-old juvenile was arrested for the shooting. Earlier in the summer a murder resulted in the arrest of five teenagers. The suspected shooter was only 14 years old.

One of the most dangerous trends in our society today is the growth of street gangs. All the trends are bad: the numbers of gangs and gang members are spiraling . . . their activity is becoming more and more violent . . . and violent crimes are committed by younger and younger children. I will introduce a comprehensive anti-criminal street gang package during this session, which includes tougher enforcement, stricter laws, stronger penalties and a provision to make our schools safe. The message we must send to these criminals is: We will take whatever steps are necessary to wipe out gang terrorism.

And in conjunction with this program is the need to continue to aggressively fight the drug war. There are signs we are making real progress. Nationally, during the past five years, cocaine use has decreased by 72 percent. Overall drug abuse in 1990 is down 70 percent. These are signs of progress. But we are a long way from winning.

I propose we appropriate two million dollars to fund the hiring of substance abuse counselors to serve school districts statewide.

Further, I am proposing an additional three million dollar appropriation for prevention, intervention and treatment programs for adolescents and adults . . . plus employee assistance programs, and latch-key programs all aimed at preventing substance abuse.

I have exchanged views about the drug problem with students in all 17 school districts . . . our children are open minded—young people's attitudes can change. However, we cannot expect our children to "just say no" to drugs and gangs unless we are prepared to say "yes" to finding the resources to better protect them . . . better educate them . . . and give them better choices.

Drug abuse is only one of the major contemporary challenges facing our state's families. Never have families been under greater stress. We owe it to our children to protect and preserve the family unit.

I am recommending we enact a significant reorganization of children and family services—designed specifically to improve the status of Nevada's children and families.

My budget proposes the creation of a new Children, Youth and Family Division, a full-service agency that will focus on protection of the family unit, able to provide comprehensive and early services that will help keep families intact.

The foundation of our families is our grandparents. We owe so much to all the seniors who built a strong America and a strong Nevada. Your parents and mine have earned a life of dignity and respect.

Most of all they've earned the right to be treated fairly. We must speak forcefully. Both the Assembly and Senate should send a clear, strong, resounding message to Congress that says, "treat our seniors fairly. End the notch baby rip-off."

We, too, have a responsibility to take care of seniors. One of the best programs we have in this regard, one I am the most proud of, is the community home-based initiative program—CHIP. By providing in-home care, CHIP allows seniors to live in their homes rather than being sent to a nursing home. CHIP is the greatest service we can offer to seniors facing serious health problems—it improves the quality of their life.

I recommend in my budget that we extend CHIP services . . . and a better life . . . to 199 more Nevada seniors.

Senior services and senior citizen centers throughout Nevada are facing a crisis. Some are facing shut-down. This legislature must appropriate $800,000 in state grants that will help preserve senior services throughout the entire state.

We have made progress in protecting our children, our seniors and our consumers. But unless we protect our environment and our natural resources, all our other accomplishments will be hollow.

We Nevadans are pressured to solve our own state's hazardous material predicament. We should not have to solve other states' problems too.

Currently, hazardous material disposal companies in California must pay $105 for each ton of hazardous materials they dispose of in their own state. The cost to dispose of that same ton in Nevada is only twenty dollars.

California has intentionally created an economic incentive forcing California hazmat companies to export hazardous garbage to other states. California gets the benefit of the jobs these industries produce and the taxes these industries pay. And all Nevada has been getting is garbage!

Unfortunately, their plan is working. In 1986, Nevada imported just over 35,000 tons of hazardous materials for disposal. By 1990 that volume grew to over 140,000 tons.

It's time we slam the door on hazmat peddlers.

Eliminate the economic incentive California has created . . . we must require any hazardous material brought from out-of-state for disposal be assessed the same taxes . . . that would have been assessed if disposed of in the originating state. That will shut down

the hazmat pipeline! Unfortunately, the fight against the most serious hazmat threat of all—Yucca Mountain—continues. But now we are facing a whole new offensive. A cynical new strategy . . . to try and buy Nevada's surrender.

Spokesmen for the Department of Energy have teased Nevadans with promises of as much as 100 million dollars if we would just "give-in" on Yucca Mountain. These proposals are naked bribery. They couldn't muscle us. They couldn't push us. So now they're trying to buy us. Nevada's environment, Nevada's health and safety, and Nevada's future are not for sale!

Those who may be tempted by these promises of big payments need only study the record of promises made . . . promises broken . . . by the Department of Energy.

Most everybody here knows the list of DOE's broken promises to Nevada: the promise of full participation in every part of the review process. A promise we had to go to court to force DOE to keep.

The promise there would be a nuclear waste repository on both coasts, broken when they unilaterally cancelled any search for a site in the East. The promise of multiple sites that boiled down to one site: Nevada. If that's not enough look at poor New Mexico. They were asked by DOE and Congress to house the Waste Isolation Pilot Plant (WIPP), a site for storage of a lower grade of waste. They, too, were promised fair treatment and bags of gold!

In 1978, the State of New Mexico was promised they would have an absolute veto over the establishment of the WIPP site. Sound familiar? The federal government reneged, and withdrew the state veto option. Thus began a pattern.

New Mexico was promised the state would be a full participant in all major events. And within days of that promise the DOE sunk the exploratory shaft—in secret—hiding the activity from the state!

New Mexico was promised over $250 million in highway improvements—and in a shameless display, DOE didn't even pretend to try and deliver on this promise—they never even put it forward to Congress. Heard enough?

There's more. New Mexico was promised all nuke waste shipments would be by rail, the safest option. Now, no surprise to us, all the materials will be brought by truck, a more dangerous option. New Mexico was promised all labor and materials would be acquired locally, boosting the economy. A promise made . . . a promise broken. The construction contract went to a Japanese firm. Workers came from labor halls in Oklahoma and Texas. The local purchase and contract awards are less than 20 percent of what was originally promised.

Now the state of New Mexico is left to go, hat in hand, back to Congress to beg for consideration. You see, they bought the line and bargained away their right of refusal in 1981. And that's the same surrender the pro-nuke people in Nevada want us to commit to today. The answer is . . . NO. Not in this lifetime!

As you can see, there is much work to be done. I was happy to learn that for the first time ever, your staff, on the first legislative day had over 1,000 bills finished and ready to go. There they are. Frankly, ladies and gentlemen, I'm not sure Nevada needs 1,000 new laws—but each of these proposals deserves to be heard. We can now start early—and if we work hard—we can finish early!

Tonight, I pledge, above all, to work closely with you, Senators and Assemblymen, Republicans and Democrats, as we stand at this most important crossroads in Nevada's history. I pledge at each step from today forward to be your partner, to work as hard as you do, to listen and to act on your ideas. I am committed to working with you so that together we build on our accomplishments and meet the challenges of the future.

Good luck, goodnight and . . . wouldn't it be nice to be home in May?

### REMARKS FROM THE FLOOR

Assemblyman Porter requested that Assemblyman Myrna Williams' remarks be entered in the Journal.

Mr. Speaker I have two guests with me today rather an interesting day to have them. We have all heard about the terrorist bombings, I am sure, in Turkey where a religious mission was bombed, in Rio where a Mormon Church was bombed and a Jewish synagogue was bombed. We've seen the headlines on our desk. A number of years ago the lady sitting at my desk decided it was important for children to understand we could never ever allow a civilized country to forget what genocide and holocaust are. Edythe Katz went about the business of doing that until finally we have a Governor's Advisory Committee on Education relating to the holocaust which is almost in every state now. It is also in the universities. The State of Utah has done a wonderful job and it is my pleasure to introduce the Director of the Governor's Advisory Committee on Education relating to the holocaust, Edythe Katz and her Administrative Assistant, Roz Sbarrad.

Assemblyman Arberry requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PETRAK:

I watched closely the activities that went on with regard to Mr. Wynn's organization and the people he has involved in all the points mentioned in the resolution. The man takes above and beyond his normal activities to help out in all of these areas. I certainly recommend concurrence with this resolution.

ASSEMBLYMAN MYRNA WILLIAMS:

I rise in support of the resolution. I think it is important for us to understand that Mr. Wynn has lived and practiced what many of us talk about and that is inclusion in politics in a nonpartisan manner. In a manner that says, voice your choice, we'll help you. It is not just that government involvement helps. The Golden Nugget Mirage has devoted hours to hospice. They give their employees time off with pay for their volunteer hours. They have helped many people in addition to the educational advances that they have made. I think this is really fine government. The philosophy of Mr. Wynn has been if the community is good to you, you must be good back to your community.

Resolution adopted unanimously.

And most of the time the public doesn't take the time to recognize the tremendous sacrifices that a law enforcement officer must undertake not only with his family but as he puts his life on the line every day that he goes out and does his job. Assemblyman Anderson moved the adoption of the resolution.

Remarks by Assemblymen Anderson and Humke.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ANDERSON:

The quality of Mr. Hill's life is highly reflected in the statements that appeared in the newspaper. In his day-to-day caring attitude of a person who personified good government, he was there whenever the people of his community needed him. In a very real sense, he reflected the positive attitude of approachable. He was constantly in the community. There was never a closed door. Tom Hill was always there for his kids, for the people of our community. He, I think, reflects the highest ideals of law enforcement. As a result of him and the type of people that he made sure entered the Police Department of the City of Sparks, reflects the high respect the citizens of our community have for law enforcement officers.

"El Jefe," of course looked upon his wide girth at first as a negative statement until he found that indeed it is a position of respect, "The Chief." He is one of those unique individuals who could look at himself and laugh and saw the real humor in the love of life.

MR. SPEAKER:

I, too, had the pleasure of knowing Mr. Hill for many, many years. Our past led us across a lot of Masonic work. We belonged to a lot of Masonic Orders together. He was recently the Recorder of the Kerak Temple. We served together in the Royal Order of Jesters in the various orders in Reno, but I knew him when he was Chief of Police in Sparks. His reputation was for trying to take care of young people. I know a lot of people in their early thirties who Tom made a great impression on. When he was Chief of Police, he chased them around town and would drag them to their parents. He did not have to arrest them in those days. You just took them home and let father and mother take care of the problem. He believed in caring for his children. His daughter lives in Yerington. He had his heart attack a couple days ago in Yerington when he came to visit his grandkids. He was a man of great dedication and has done a lot of great things for the young people in our state.

ASSEMBLYMAN HUMKE:

Mr. Speaker, I, too, knew Tommy. He was a friend. One thought to amplify on what you have said. I think Tommy personified Sparks as a small town. I know that Sparks is still a small town but it's getting bigger and with his passing goes part of that era as a small town. The other thought, I know that a lot of veteran officers at Sparks PD are deeply saddened today because of the passing of Tommy.

Resolution adopted unanimously.

Assemblyman Anderson moved that all rules be suspended and that Assembly Concurrent Resolution No. 17 be immediately transmitted to the Senate.

Motion carried unanimously.

Thank you, Mr. Speaker. I'll take just a few minutes. I was just looking over the paper that was left on my desk this morning and on the front page it says that Hawthorne has an ammo dump. I think that is rather insulting. We have a production facility and a storage facility and I'm not quite sure that they ought to be telling the whole world about that right now. I'm not sure that is the wisest thing to do, but be assured that we don't have a dump.

## THE FIFTEENTH DAY

CARSON CITY (Monday), February 4, 1991

Assembly called to order at 11:01 a.m.

Mr. Speaker presiding.

Roll called.

All present.

Prayer by the Chaplain, The Reverend Douglas Linderman.

Father, we come to You today knowing You have established every governing authority among men. That is a sobering thought for us and makes us realize that we are answerable to You for the decisions we make here today. We are humbled to realize we are just Your servants.

You have said that those who have been given a trust must prove faithful. Lord, make us faithful to You with the task You have entrusted us with.

You have told us that if we lack wisdom, we should ask You for it, for You give generously to all without finding fault and You would give it to us. Lord, we desperately need wisdom. You have also told us that the wisdom of this world is foolishness in Your sight. So, we ask for Your wisdom, because we know that our wisdom falls short.

We thank You for this day and pray that our decisions would promote Your truth and the furtherance of Your Kingdom here on earth as it is in Heaven.

In the name of Your Son, Jesus. AMEN.

## GENERAL FILE AND THIRD READING

Senate Joint Resolution No. 5.

Resolution read third time.

Remarks by Assemblymen Petrak, Haller, Price, Pettyjohn, Wendell Williams, Anderson and Elliott.

Assemblyman Callister requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. Regarding my fellow colleagues here in the Assembly, regarding my background, I had two sons in Vietnam. My number one son was a combat helicopter pilot. There were many nights in the time the two of them were away that we worried, we didn't sleep. That's kind of rough, that's kind of rough.

Talk about myself, I was in World War II for 54 months and I know what that is all about. When I was a little kid going to school, if anybody dropped that flag on the ground, that was a sin and you shouldn't do that. At night, when it got dark, anybody left their flag out over night, that was also a sin and they shouldn't do that.

When I think about the kids overseas right now, I think about the husband of Mrs. Gibbons, think about some friends back home that have young ones over there and it bothers me. I think the American flag is the symbol that should be held high. I have a deep regard for what it means to you, to me and to the people here and I think this Joint Resolution should go to those folks in Washington for them to maybe do something about helping this situation of holding the flag high and not allowing it to be desecrated. I urge all my colleagues to go along with us and to send that Resolution on to Washington. Thank you, Mr. Speaker.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in support of S.J.R. 5. I, too, am a World War II veteran and am a lifetime member of the VFW. Incidentally, in the last weekend, I went back to my district and I think about every other house on my street was flying a flag. I have a great reverence for the flag and sometimes doubt some of the actions of some people involved. But don't burn my flag.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you, I should be able to accomplish in the next two minutes what one of our rather large industries and some of my friends were not able to do in the last election and that is to speak against something that is extremely popular. This past Saturday, I had the privilege and pleasure of acting as a judge for the Bicentennial Commission of students from across this state and their knowledge of the Constitution of the United States. This was the final in the competition with the winning team being able to go to Washington, D. C. to compete in the national competition. The winning team was Reed High School where our colleague works. The people who came in second were from Clark and third from the little town of Ely. I spent the day observing the debate, the knowledge and the enthusiasm that these young people had for democracy and for the Constitution of the United States. I marveled as did everyone who was there. They were enthusiastic, they have principles and fortunately they are not burdened with worrying about their next reelection as many of us are. This year, right now, we are celebrating the Bill of Rights contained in this Constitution. Two years ago we were

celebrating the Constitution itself and this year we are celebrating the Bill of Rights. If I may remind us of those: The first amendment guaranteed our freedom of speech which we have been told by one sitting on the Supreme Court includes the right, however stupid or jerky it may be, to burn our flag. The second one is the right to bear arms. The third that we will have no soldier quartered in our homes during peace time without the owner's permission. The fourth guarantees probable cause before you are indicted and the fifth protects you from double jeopardy. The sixth guarantees you the right of an impartial jury and the seventh a trial by jury. The eighth which was debated among our founding fathers as to whether the Bill of Rights should be in the Constitution as a part of it or out of it because some people felt that if the rights were lifted then that would be the only rights you had so they came with the eighth amendment which guaranteed that you have rights even if they are not enumerated in the Constitution. And the tenth is the state's rights that we argue back and forth today. This is just the Constitution. It is not going to make or break our state. May break an election or two. I don't know. But I can remember in 1979, I voted for a resolution on this floor calling for a constitutional convention because I thought that part of it was not as important as projecting the image of trying to get Congress to balance the budget.

Some ten years or so later, I came back and with the help the of members of this body who have returned after a few years of understanding and seeing the developments and the potential harm that a constitutional convention could do, we eventually took action to rescind and show that we did not call for a constitutional convention. During that period of time through resolutions not quite the same as this resolution but through resolutions from the bodies of legislators across these United States, we came within two states of having a constitutional convention. Most people, thoughtful people have concerns about that, but that was the resolution that I voted on and I came to be concerned about in later years. What we're talking about in my opinion at least is symbolism. We are riding the wave and it makes us all feel so wonderful, myself included, a wave of compassion and Americanism and support for our troops, our loved ones. Some of us it has already touched personally. My own wife may be there within days or weeks and we love them and support them. But in our fever to support and show our support, we still have a duty. We took an oath a few days ago to support the resolution, to support the Constitution of the United States along with our own constitution. As an individual, without a moment even in my fat, unconditioned self be glad to fight or take on anyone who wanted to burn our flag. But as a body, as a legislator, as people who have been trusted to protect that constitution, to protect our own constitution and our own interest, we as a body, in my humble opinion and even when it hurts, needs to rise above the emotions of us as humans and act as the steadying body of the ship of state.

Symbolism often means everything. It was only last year that we saw that young man standing in front of a tank in China trying to bring about freedom to have the same rights that we have—the right to disagree, the right to protest and all those other rights. I would dare say that if someone were to burn an Iraqi flag today, he may not live long enough to have a trial. I do not want our country to become that.

I understand, I think, the objectives of our friends and the loved ones with VFW in trying to get this message to Congress but I respectfully disagree with my former colleague. There are some things you have to call them the way you see them and while I certainly don't expect you to agree with me, I understand what is going on. I have hoped that I can instill some thoughts today. Even though I did not rise, I even object to the procedure that we took by not having actual hearings. At any rate, I would urge you to give deep consideration to this. It is not going to be the end of the world one way or the other, I understand that. But we are here to be a buffer of emotion as opposed to acting in the best interest of our country and of our state.

ASSEMBLYMAN PETTYJOHN:

I rise to speak in favor of S.J.R. 5 and to express my feelings and my thoughts concerning not only the thoughts expressed by Mr. Price but those of what I think represent the popular view of the people of these United States. I think that Mr. Price

indicates to us that by passing this resolution we are in fact doing something which infringes upon the freedom of speech which is guaranteed to us by the Constitution. In fact, I believe, it is a fulfillment of that very proposition.

When we pass that resolution here we pass on to the U.S. Congress to take this issue to the people of the United States. And that is all this resolution will do will enjoin Congress to go down the course of putting it to the people via the constitutional amendment. I believe that we will recall that the actions which transpired in the past were that the Congress of the United States did in fact pass a law which made flag burning prohibited. That was struck down, I am not sure about the voting, but let's assume for a moment it was a narrow margin even to a great margin struck down by five people, maybe six people. Now we are going to run the test to find where the American people stand on this issue. There have been polls conducted that show 95 percent of the American people oppose flag burning. They disagree with the justice of the Supreme Court that that is an expression of free speech. So now let's let the people speak on this issue. Let's find out what the people think. Give them their agency, their right of free speech and not let those three, four or five single individuals decide an issue such as this which has such great impact upon us. The moral fiber of the nation is at risk here. I testified on behalf of this amendment in the Senate yesterday and I will repeat something I said there. With the advent of the world media as it is at this time when one event in one part of the world can be seen around the world in seconds, when the people of the world judge this country upon the conduct of its citizens, they scoff at us, they laugh at us, they deride us for lack of unity, lack of appreciation, admittedly it is a piece of cloth. Admittedly it is worthless probably as a commercial product except for those who make and sell them. But those things for which it stands are not that simple. They are not that insignificant. They are in fact the thing that made this country great—those ideals for which it stands. That's what is being trampled. It is not simply just the act of burning a piece of cloth. It is that wanton disrespect for the things for which this country stands. And now for us to take this action is appropriate. For this State of Nevada to be on the forefront to go to the U.S. Congress and go to the other states in the nation and say we are ready for the people to speak on this issue and let them decide whether or not burning of the American flag is in fact an expression of free speech or whether it is something beyond that. Thank you, Mr. Speaker.

ASSEMBLYMAN WENDELL WILLIAMS:

Thank you, Mr. Speaker. As we stand in support of our nation and the principles that this flag so greatly deserves, we as policymakers must never forget in this regard those who express an opposite view. This resolution is not necessarily unAmerican. Some are simply disenchanted because the American principles that are described by the posting of our flag and constitution are not available to everyone. I think one of the most important wordings in this piece of legislation is in lines 9 through 12 where it says "Whereas, The American Flag to this day is a most honorable and worthy banner of a nation which is thankful for its strengths and committed to curing its faults, and remains the destination of millions of immigrants attracted by the universal power of the American ideal." As we stand in support of this resolution, let's pass this resolution with the commitment to strengthening our strengths, but more importantly to curing our ills and to renew a commitment to curing our faults.

Mr. Speaker, to you and through you to my colleagues, our flag will be respected only as much as we respect each other. We must not only pledge allegiance to the flag but we must pledge allegiance to a commitment which will mean the same thing in times of peace as it does in war. As we vote in favor of this resolution and as I vote in favor of this resolution I do so with a refillment of hope that those who are locked out of the American process and who are locked out of American ideals be considered. The strength of our flag does not lie in a piece of cloth that is made in Taiwan and who sits in sinking sand. The strength of the flag really is reflected in the people and the way they are treated. Regardless of how you stand on this issue, and I support it, to totally disregard the people who oppose this because they are treated unfairly they should not be disrespected or looked at as those who are less than American. If this country really wants to be what it claims to be in the writing of this constitution in the displaying of this flag and we all

become sentimental when our troops are in war. But we must realize that when those troops return home, they will be faced with the same flag that they fight under when they are at war. So let's pass this resolution with the reminder that all Americans are not just Americans under this flag. Let's do so with the hope of improving our nation and our state.

ASSEMBLYMAN ANDERSON:

To you, Mr. Speaker, and to this Honorable Body. It would be very easy to sit quietly back and avoid this issue but I, too, am forced to stand. Mr. Price's words strike a very real note. The moral fiber of this nation is not indeed carried in any one single symbol but is everlasting and will always be there. It is in our young people today and it is in our old people. It is a continuing line. Two hundred years ago, John Jay, Alexander Hamilton and James Madison argued for the passing of a constitution and in that argument, the so called Federalist papers, they made a firm commitment to the idea that the will of the majority would never trample upon the rights of the minority. In what desperation would an American have to reach to burn this symbol of illumination. Is that not a desperate act to try to draw our attention. Two hundred years ago, the writers of the constitution believed the Bill of Rights was not necessary because those rights were protected clearly in the states. They were not. They are not. I, too, support this amendment but I wish to register the clear sign that we must at all times protect that inalienable right of freedom of speech. Thank you.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. I rise in favor of S.J.R. 5 but I would also like to add to this that I deeply respect my colleague, Mr. Price's position and would hope that everyone else in this Assembly would do the same.

### SIGNING OF BILLS AND RESOLUTIONS

## REMARKS FROM THE FLOOR

Assemblyman Bergevin requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. I would like to address an article in the local newspaper that you have probably all seen today. The headline on the second section reads "Local lawmakers dubbed 'young neo-fascists'." As a member of this institution, I am outraged that any of my colleagues would be referred to in the manner the newspaper article portrays. To compare any legislator to Aryan prison gangs and to Adolph Hitler, I think is reprehensible by anyone in this house, even in this body. I would like to read you part of that article. In the first paragraph, it says, "The unnamed legislators are referring to them as the 'Aryan Brotherhood' and 'young neo-fascists' behind their backs." Then it goes into, in the third column, "the Aryan Brotherhood is the name taken by white thugs who attempted to overpower rival gangs and the administration at the Nevada State Prison in the early 80s. Adolph Hitler also referred to fascist, white Germans as the superior Aryan race." I would like to ask you, should any member of this house be put in the same category, I think not. We form friendships when we come up here. I know I did in 1985 when there were about 14 new members, and we formed working relationships. We are all new so we tend to cling together. I think in past sessions that all of us here have done that.

In 1987 and 1989 it was done by the freshmen, and there has been nothing done differently this session than before. We have four young men on the Judiciary Committee. They serve on the committee together. They happen to find a common goal they'd like to pursue in some legislation. They're working on it. It has to do with prison reform. I think they would like to have a tighter system than some of us other people would like and is perfectly within their right. Philosophically, we've always respected each other. There's liberals, there's conservatives, there's moderates, you name it, there's someone in this body that fills that role. I think their sincerity and loyalty to this institution at this point in their career is without question. I would ask all of you that in the future, let's refrain from these kind of things. It is one thing to call somebody a lump head, but it is quite another thing to call someone by the names referred to in this article. I'd like to propose that from this day forward we work in harmony and peace in this body and let's keep those kind of comments to yourself if you think them. I sure would ask and I hope the Speaker will agree with me that we need peace and harmony in this session, we need to respect each other as individuals, respect each other as elected members of this house. Their constituents sent them here, it was their choice and however, they do their job, they will have to answer to that constituency. If they do not follow the constituencies' profile or philosophy in legislation, I think they probably won't return. But this article disturbs me. I would hope that any member in this house would agree with me that this kind of accusation or name calling is out of place. Thank you.

ASSEMBLYMAN SADER:

As the Chairman in Judiciary, this article indicates that this problem seems to have arisen from my committee and I just want to make it clear here the vote on which these people aligned was one on which I also aligned with them. So if there's some kind of group being formed here whether it's called by the name stated in the paper or it's the "Fab Four," I want to be a member and you guys ought to tell me how I get to join the membership because I belong.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. I wanted to say that I concur with Mr. McGaughey's assessment and I would also like to add that I know these men and nothing could be further from the truth and I, too, voted for the bill that they are supposedly indicted. Thank you.

ASSEMBLYMAN ANDERSON:

Mr. Speaker, I want to associate myself with Mr. McGaughey's remarks. I am also a member of the Judiciary and while voting against the Committee Chair on the other side, I have had the opportunity of listening to the four gentlemen for some time now and have been closely involved in the piece of legislation they are proposing. I guess I fit the weight category if nothing else, maybe not the age category of which they are being alluded to. If I can be associated with people of that category and caliber, I find myself in good company.

ASSEMBLYMAN NORTON:

Thank you, Mr. Speaker, I just wanted to point out to Mr. Anderson that Mr. Sader's remarks were the "Fab Four" not the "Flab Four."

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. I'm one of those good guys from the Sader Judiciary Committee. I happened to be placed in the row between three of these four gentlemen mentioned and I have heard nothing but the fact that they remind me of my kids back home. I learn from them professionally what the idea of law and judiciary means. I appreciate being associated with them, Mr. Sader and our Judiciary Committee.

ASSEMBLYMAN PRICE:

I would like to add two cents. Three of the four gentlemen I have only met in recent years. Mr. Hardy was my neighbor for all of his young years growing up and the worst thing I can ever remember us calling him is that pesky kid up the street. This fine young business man grew up with my son and I know him to be a good and honorable gentleman. We may differ on some philosophies but that is what we're all here about and I hope that this passes by us.

MR. SPEAKER:

Thank you, Mr. Price. I am going to clean up and take the opportunity as long as I have the microphone. I agree with Mr. McGaughey. We're all here together, we ought to start out as friends and we'll end up as friends. We're not going to vote the same on every issue but let's work for the best interest of our state, for the people that we represent. Let's leave it at that and end this subject matter right now.

GENERAL FILE AND THIRD READING

Assembly Joint Resolution No. 6.

Resolution read third time.

Remarks by Assemblyman Petrak.

Mr. Speaker requested that Assemblyman Petrak's remarks be entered in the Journal.

Thank you, Mr. Speaker, fellow Assemblymen. This joint resolution is rather important because this seems to be the year of the Notch Babies. In 1977, Congress was notified by the Social Security Administration that there wasn't any money in the Social Security Fund. So what Congress did was a very severe measure. They said, "okay starting with the people born in 1917 through 1921, we're going to say that these folks when they reach age 62 and they are still working, their donations to social security along with their employer, instead of going into their benefits for retirement would go entirely into the trust fund." This happens to people born in 1917 through 1921. A person working at age 62 and working toward retirement at 65, when he retires will receive—say a person born in 1918, and I'm a Notch Baby and I was born in 1918, the same person born in 1916 earning the same identical money that I did can take into social security the same identical money that I did along with my employer, that person born in 1916 would receive around 15 percent more in his social security when he reaches age 65. This applies to all of them, first born in 1921 paying into social security versus the person born in 1916 would receive 22 percent less in his social security than a person in 1916.

Another thing that happens is that when the person retires at 65, the Notch Baby, say for instance he retired in June, gets his first social security check in July. First born in 1916, earning the same amount, retiring at 65, the same time, he will get a lump sum payment of the first six months of that particular year that he retires, then he will receive his normal payment. Suppose at 65, a person, a Notch Baby, wants to keep on working because his health is good or because he has to because of income, he will work and pay social security every year that he works along with his employer. A person born in 1916 doing the same thing, working after 65, he will pay the social security just as the person, the Notch Baby, however at the end of the year, no credit will be given to the Notch Baby for that money paid into social security; however, the person born in 1916, the money he paid in will be credited and he will receive an increased income. Now what happens is the fact that here in Nevada in the southern part of the state, in the Las Vegas area, we have 30,000 Notch Babies; statewide we have 50,000. Over the nation we have 8 million Notch

Babies that are more or less second class citizens. What we are trying to do is to encourage Congress and they are coming up with Notch legislation this year. We are trying to encourage Congress to become aware of the fact that this can be cured by just bringing all of those Notch Babies on the parity with those born in 1916. Now as you know, social security is figured in five year increments so that at the end of 1921, they came up with a new formula for those people born in 1922 through 1926. These people born at that particular time, in their formula, will receive more than the first session of Notch Babies but less than those people born in 1916, so we have a figure of 1917 through 1926.

At the present time, the Social Security Trust Fund is estimated that at the end of this fiscal year will be close to a trillion dollars. The only thing that we want to bring us on a parity with those born in 1916 is to come up with a program that will cost $5 million a year and on a five year basis, that is $25 million. We are trying to awaken the conscience of our Congress to do something about the bill that is going to be introduced by Congress and Roybal of California. Incidentally, California has a joint resolution that they already sent to Washington. I've asked a friend of mine in Ohio to do the same. He works in the Ohio legislature. September 17 of this year is going to be National Notch Baby Day. We are going to get involved in this thing and we think with the encouragement of our representatives of 1,200,000 people, that's our legislature, that we represent 1,200,000, we can have some impact on the actions of Congress.

This year, today, for instance, the Notch Babies, 230 of us will die. If we wait long enough, this situation can be taken care of by that. I encourage you very much to consider approving, backing and supporting this particular joint resolution and I thank you very much for your time.

Assembly Concurrent Resolution No. 20—Commending Scott M. Ruedy for his service to the Nevada Assembly and to his country.

WHEREAS, Native Nevadan Scott M. Ruedy was born on March 24, 1969, and graduated from Douglas County High School in 1987; and

WHEREAS, Scott Ruedy recently served 3 years with the United States Army and during that time was stationed in West Germany and Fort Ord, California; and

WHEREAS, After receiving an honorable discharge, Scott Ruedy remained a member of the Army Reserves with a rank of Sergeant E-5; and

WHEREAS, During the short period Scott served as a page with the 1991 Nevada Assembly, he captured the respect and admiration of his friends and coworkers; and

WHEREAS, As the enormity of the Gulf War became apparent, Scott volunteered to return to active duty and participate in Operation Desert Storm as a combat signaler with an armory unit; and

WHEREAS, The U. S. Army accepted Scott's patriotic offer and deployed him on February 13, 1991; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the members of the 66th session of the Nevada Legislature express their appreciation for Scott's courteous and efficient service to the Assembly and extend their best wishes as Scott bravely serves his state and country; and be it further

Assemblyman Porter moved the adoption of the resolution.

Remarks by Assemblymen Porter and Myrna Williams.

Assemblyman Callister requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. As those of you may or may not know, we have a new page this morning who I'm sure Mrs. Williams will introduce at a later date. The reason for that is because Scott Ruedy, whom I'm sure all of you met, has now been called back to duty in the Armed Forces. It is ironic, Mr. Speaker, for a war that is thousands of miles away, we need look no further than this very room to see that conflict has touched all of us, first with our distinguished colleague, Mr. Gibbons who is serving admirably, and now another member of this body, the 66th Session, has been called away. There aren't that many of us in this room on a percentage basis; it is a little frightening.

Scott is a very nice young man and had a great future ahead of him and still does. I urge the adoption of the resolution. I wish Scott well. I wish Jim well and all the other members of our Armed Forces who at this moment are putting their lives on the line. Thank you, Mr. Speaker.

ASSEMBLYMAN MYRNA WILLIAMS:

I, too, urge the adoption of this resolution. Mr. Porter said that we need only to look at this room and our small numbers and realize that two people who have worked with us, that we feel affection for, are gone, doing a job that we believe needs to be done and they volunteered to do it. We are very proud of them. We pray for them and we wish them well and we certainly urge your adoption of this resolution.

Resolution adopted, unanimously.

Assemblyman Bergevin moved that Assembly Bill No. 81 be taken from the Chief Clerk's desk and placed on the General File for the next legislative day.

Remarks by Assemblyman Bergevin.

Motion carried.

## REMARKS FROM THE FLOOR

Mr. Speaker requested that Assemblyman Price's remarks be entered in the Journal.

Thank you, Mr. Speaker. I would like to take a few moments to reflect on legislative definitions. During my many years here at the Legislature with you, we have revised definitions from time to time. Routinely we make misdemeanors felonies. We have defined those bodiless, faceless corporations as persons. On occasions, we have made juveniles adults.

A few years ago we cavalierly, as the word is, declared that for the purposes of Nevada Revised Statutes that "he's" would also mean "she's." A declaration that may have been appropriate in San Francisco and who can forget, I believe it was only a couple of sessions ago that at the behest of the Racing Commission, we boldly declared that mules were horses for one day a year, coincidentally, on the same day as the Winnemucca mule races.

Mr. Speaker, on January 21 of this year, this body had for its consideration ACR 1 setting for the procedure, a procedural scheme, that you sir, represented that if my colleagues and I voted in the affirmative, we would receive a two-week recess.

Mr. Speaker, by the end of the first week of your declared recess, I began to think that I had not heard you correctly, so I went back to our legislative record and reviewed it and found that you surely did promise that we would, in fact, receive a two-week recess.

Somewhat confused at that point in time, I decided to refer to that document written by that giant among men, former United States Senator, Daniel Webster, now deceased, and commonly referred to as Webster's Dictionary and I would like to read that definition. The definition of a recess is, "A suspension of business or procedure often for rest or relaxation."

Mr. Speaker, during the 18 years that I have known you and we have been acquainted, I have always found you to be an honorable, honest, well spoken, generally truthful representative of the people of Nevada. So, since I believe that you have indicated that we may have more recesses in the future, I am proposing for your consideration a definition of a legislative recess to be put into our statutes. It would be a change of normal business procedure that often results in legislative committees working 9 to 12 hours a day, 6 days a week with no pay. Financial staff working 16 to 18 hours a day, 7 days a week. Other legislative staff may become confused because some are sent home resulting in a loss of income while others are working overtime. The public becomes confused as to which

committees are meeting in southern Nevada or Carson City. The bewildered *Nevada Appeal* declares simultaneously on its front page, in one story, that few citizens are coming to the meetings while its headlines relate that hundreds are attending legislative hearings. Overworked legislators are reported to doze off during hearings while lobbyists sleep in the audience. Other lobbyists complain that having legislators at both ends of the state makes it much harder to resolve problems, lavish expensive meals, tickets or attention upon said legislators. Senators and Assemblymen become tired and cranky, often venting their frustration by issuing subpenas and berating agency heads and employees. Normally a condition that might be referred to as an Iraqi fire drill. Thank you, Mr. Speaker.

Resolution read third time.

Remarks by Assemblymen Porter, Scherer, Carpenter and Sader.

Assemblyman Scherer requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PORTER:

Senate Joint Resolution No. 11 of the 65th Session proposes to amend the Constitution of the State of Nevada to provide for the election of the Chief Justice by the Justices of the State Supreme Court. This measure will also establish a term of office of four years for the Chief Justice. Provisions will become effective on January 1, 1996. If the bill is approved by the legislature, it will be placed on the 1992 ballot for consideration by the public.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. I rise, today, to express my reasons for voting against this resolution. I believe there is a provision in it that permits the Chief Justice to succeed himself indefinitely as Chief Justice. I believe that creates a dangerous potential for empire building and for that reason, I am voting against this resolution today. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in opposition to S.J.R. 11 of the 65th Session. I believe that the present method of selecting the Chief Justice has worked well for over 125 years. The selection of the Chief Justice is now a predictable event and provides for rotation.

The election of the Chief Justice could produce in-fighting, jealousies and prejudices which could spill over into the decision making process. A strong willed and dominant personality could conceivably control the court for years. If this person were inclined to pursue a specific political agenda or if the inclination were to have a domineering court system, the suppression of individual freedoms, Nevada could suffer undue hardship and turmoil. It could be devastating if the majority of the justices were of such persuasion.

The fact of allowing the Chief Justice to be elected by the majority could be the focal point for much animosity and unnecessary political posture. The situation wherein the Chief Justice will select the Chief Justice of our Appellant Court is another reason we should not make this change. It is the concentration of too much power in one individual. I have heard the arguments that court reform or policies instituted by a Chief Justice cannot be completed because of the short time he is the Chief Justice. I submit that if the changes have merit, the new Chief Justice will continue on the same track. Ours is a system of checks and balances. This system prevents the ones who would dominate our lives and suppress our freedoms from taking over. The only saving feature of S.J.R. 11 is that it must be voted on by the people and hopefully they will see the issues the same as I do and will not allow this change in our Constitution. Furthermore, I would urge a "no" vote by this Assembly to kill S.J.R. 11. Thank you, Mr. Speaker.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I would like to respond to the opposition briefly. First, I'd like to key on the last statement of the former speaker which is that all you are voting for is to allow this to go to the vote of the people. If the people decide that it's not a good idea then at least you have given them an opportunity to decide.

I would like to speak to the merits of the resolution, Mr. Speaker. As Mr. Carpenter indicated, in the current system of appointing a Chief Justice this is simply done on a rotating basis based on who has the shortest term remaining. So each year there is a new Chief Justice. Now the problem with that is in a growing state such as ours the job of Chief Justice changes dramatically. It is no longer sufficient to have a random rotation on an annual basis of Chief Justices. Currently, in today's Nevada, the Chief Justice administers a very difficult and complex docket, one that's grown tremendously and which needs constant attention to streamline and make expeditious procedures. For instance, the Chief Justice of the court recently has made moves to expedite death penalty cases, a project which took several years. Unfortunately, it was done despite the fact that the Chief Justice who initiated it did not have the opportunity to finish the work. Many other jobs, however, might not end up that way. The problem is that one Chief Justice may have a strong interest in reform and the next one may have no interest in reform. Consider for instance the current situation with the Supreme Court in which it is investigating the State Bar of Nevada for discipline charges and other perceived problems. This investigation will take several years. There is no guarantee that the Chief Justice one year will have the same interest as the Chief Justice of the next in pursuing administrative reforms. The Dispute Resolution Committee that the court is currently pushing is also one that takes

several years to do. You just can't finish the job in one year. Just like the Governor who needs several years to work or the legislator who has more than one year, often times you just need to have more time to get something done and that's what this bill really does. It allows four years for the election of a Chief Justice.

And to those critics who suggest that this is empire building, I would suggest to them that the Chief Justice must be re-elected every four years and has to have a majority of your colleagues to do that. For those who consider that to be the potential for abuse because one person can remain in office, I would suggest that it's also possible to have a good Chief Justice who is the same individual and showing good leadership to continue to be re-elected and to be considered by his peers or her peers to be the best person for the job and that is a benefit to the state and not a detriment. Finally, I would make the analogy, Mr. Speaker, just like the Speaker of the Assembly may be re-elected several times because he does a real good job so the Chief Justice of the Supreme Court should have the same opportunity. Thank you.

## REMARKS FROM THE FLOOR

Assemblyman Gibbons requested that Assemblyman Petrak's remarks be entered in the Journal.

Thank you, Mr. Speaker. I would like to reminisce for just about two minutes if I can have that time with my colleagues. Back when I was just a young person, about 1934, I was a little bit younger than Mr. Hardy over there. I was a sophomore in high school and the subject that I took was biology. In biology we had a class where we had laboratories and I had this young girl as a lab partner, her name was Ruth, a very dear friend. When we graduated from high school, Ruth went on to the famous teachers college in Pennsylvania, Slippery Rock State Teachers' College, and she got her degree in teaching and her career ended up in education. She later met my brother and she married the guy and became my sister-in-law. She is a notch baby, I tell Mr. Carpenter and Mr. Williams, and she is here with us from Elwood City, Pennsylvania, the place where I was educated. She is here in the audience and she's going to be with us for two weeks. Chances are my colleagues will get to see her and say "Hi" to Ruth, the pretty young lady back here. I would like her to stand. Thank you, Mr. Speaker. Thank you, Ruth.

Assembly Bill No. 204.

Bill read third time.

Remarks by Assemblymen McGaughey, Sader, Carpenter, Humke, Price, Scherer, Pettyjohn, Porter, Haller, Myrna Williams, Petrak and Anderson.

Assemblyman Humke requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MCGAUGHEY:

Assembly Bill 204 requires national collegiate athletic associations to observe minimum procedural standards in proceedings involving member institutions in Nevada.

The bill states that the Legislature finds that these associations have substantial control over intercollegiate athletics in the United States, and that the imposition of sanctions may have a considerable effect upon the institutions affected and upon the careers of student athletes. Therefore, the Legislature requires that the proceedings of these associations meet minimum standards of due process.

The measure requires that all parties against whom sanctions may be imposed must be given an opportunity for a hearing. Proper notice of the hearing must be provided. Parties may be represented by counsel and are entitled to confront all witnesses and evidence against them and may call witnesses on their own behalf. At least 30 days before the hearing, all parties must be provided with the evidence which will be introduced at the hearing. Written statements introduced as evidence must be notarized and signed under oath. Proper records of the hearing must be kept and at the request of any party, oral statements made at the proceeding must be transcribed. The bill also sets forth the rules of evidence to be followed.

The person who presides over the hearing must be impartial and decisions must be rendered in a reasonable period of time which are supported by a preponderance of evidence. Any penalties which are imposed must be reasonable and consistent with those previously imposed on other institutions.

A national collegiate athletic association may not impose a sanction upon a Nevada institution or anyone associated with it, or bar an institution from competition unless it follows these procedural requirements. An association is also forbidden to threaten to sanction or impair the membership of an institution which seeks redress under the provisions of this measure.

In addition, the bill creates a cause of action if the procedural requirements are not followed. A district court may enjoin an association from violating the law and may award costs and reasonable attorney's fees to the successful plaintiff. An association is also liable for monetary losses sustained as a result of a penalty imposed in violation of these requirements.

This measure becomes effective upon passage and approval and applies only to proceedings or acts that take place after the effective date of this bill.

A.B. 204 doesn't address the innocence or guilt of any university dealing with the rules of the NCAA. What A.B. 204 does do is simply ask for fairness in how those rules are applied. In that college athletics are big ticket items in the country, they are a lot of money to the schools and that money is an important part of the university athletics budget. The careers of coaches and students alike are very important because most college students, the good ones, will go on to professional athletics so they have a very vested property right interest in what happens to them in their college education. All we want is that the rules be fairly applied to those students and those schools.

To give you a very sordid example of how the rules are not fairly applied, in 1984 Marist University of New York was charged with 14 violations. Those violations included buying milkshakes and hamburgers for recruits, driving them to the airport from the college campus, buy two of those recruits coats. It was a cold winter, a lot of these kids come from homes and economic situations where money is in very short supply. They also allowed them to phone their families to tell them they were okay. The total cost of these infractions was $773.20. That school was put on two years probation, two banned from intercollegiate post-season play and two years of limited scholarships.

In that same year of 1984, UCLA was charged with 10 violations, more serious violations than buying hamburgers. The total value of those was $2600. Within weeks after Marist was really hit heavy, UCLA didn't receive any sanctions, only a letter of censure and their basketball program continued on.

In the 1978 Congressional hearings—the problems with NCAA goes back many, many years—there were 11 witnesses that testified to the effect that there was total lack of regard by the NCAA for the accused of what it would do to the universities. They proved that beyond any doubt they were not interested in having a hearing that produced penalties based upon what they really were in the fairness of those penalties. The NCAA budget last year was $98 million. Their TV bill which brings in the revenue over the next year and a half is over one billion dollars. It is not a small organization. The property rights of these students and schools are at stake and their reputation as well and I think it is time to put the brakes on the NCAA's kangaroo court and I would ask you to please vote for this bill. Thank you.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I have weighed the merits of this bill back and forth and I am going to vote against this bill and suggest the reasons for my opposition to you. However, I want to say up front that I think that there may be some real benefit that comes out of this bill as well, as I'm going to mention. It is just that it is an uncertain situation at this point and therefore I think fraught with great risk.

This bill deals with procedural safeguards, due process, creating state causes of action, all proscribing actions of the NCAA against athletic institutions in this state. As such, I think everyone of these standards are needed in relation to the NCAA because I believe the NCAA has abused its discretion and its authority in governing in athletic endeavors in institutions and there is not enough due process in the considerations of this institution. Nevertheless, my opposition relates to the fact that this is state legislation and it can only apply in one state. As such, there are several other states considering similar standards. These standards are invariably going to be different. We could have a situation where we have 10, 20, 50 different standards for the NCAA to have to deal with in the 50 different states. This is an untenable situation for an institution which by definition has to regulate national practices within athletic programs in institutions. I don't think any of us doubt the need for an organization like the NCAA, only the current way it is run. The potential for so many different standards and so many disparate methods of dealing with investigation of impropriety and the imposition of sanctions creates an untenable position.

This session, this issue should be dealt with nationally. It's the only way that this can be reasonably dealt with to rein in the NCAA so my opposition really is to the approach of state regulation in the first place. Now that is the detriments and the risk I see. The real risk, of course, is that Nevada will pass these kinds of provisions and then our institutions in this state will receive detrimental treatment from that through the process of NCAA. I

think that is a real potential threat to our institutions, a down side that we must consider in this bill. However, there might be an up side. The up side is that if enough states pass these kinds of regulatory provisions, I think it will force the NCAA or force the federal government to deal with the issue and that would be beneficial. If that happens then I think the sponsor of this bill will be seen as a great visionary with a fantastic piece of legislation. I hope that is the result. Nevertheless, the risk is also there and I fear the risk outweighs the benefit in this case.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. As you know the NCAA or whatever it is, they don't have any control of Elko yet but it seems to me as a citizen of this state that they really came down too hard on our university. I think that Nevada should be a leader in this kind of legislation hoping that the other states will follow suit. Really, I just wish they would let the Rebels play.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I share some of the same concerns that the Chairman of Judiciary expressed to this body. There are tremendous dangers. The effect of this bill if it passes and is signed into law could be that the NCAA could drop our institutions from membership and that would not be a very great outcome in the short term. However, I take a different approach. I feel that we need to put pressure on the other states and possibly upon the Congress to deal with this matter. The NCAA has extraordinary powers, probably greater than any institution in our society and we need to put this type of pressure on the other states. I will vote for this bill and will commit to any satisfactory uniform statute that comes down the pike. Alternatively, if Congress acts in this area, I think that their action has got to be superior to the current NCAA type of action in these matters. I would like to illustrate a point if I might and go to item of business 15. Thank you, Mr. Speaker. The problem in this country with Nevada institutions is not restricted to the perception of the NCAA. I would just illustrate this point by relating a personal incident. Last Sunday I was watching the CBS Sunday morning program. Charles Kurault typically does a few sports highlights at the outset of the program and he said, "UNLV, a pro-team which happens to play college basketball, won their game last night." It's that type of perception that frankly encourages the NCAA to do what it does. Thank you, very much.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support of Assembly Bill 204 and I do know that, and it hasn't been mentioned, there are some other states at least that have begun this process because I recall at one of our NCSL meetings last year speaking to legislators who were introducing this kind of legislation at that point in time. It would seem to me that there should be no organizations, particularly organizations of the size and scope of this one, who should conduct their business particularly when that business deals with the lives and futures of students in an arbitrary manner as they have done for many years. While I recognize the risks that have been articulated by my colleagues, I see no problem if the need be and apparently it is to proceed on a state-by-state basis. There are many pieces of legislation that pass through this legislature over the years whereby problems are dealt with on a state-by-state basis. To refresh your memory one of the major pieces last year had to do with punitive damages which only yesterday the Supreme Court of the United States ruled, belonged in the state legislatures and not at the national level. This may again be one of those types of issues. I strongly support this, and I congratulate our colleague for having the bill drafted. I hope that it accomplishes the goal that we have, and if it doesn't then we will come back and look at something else.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker, to you and through you to our esteemed minority leader, I would like to ask a question and that is would this bill in any way affect current ongoing investigations?

ASSEMBLYMAN MCGAUGHEY:

To you and through you. No, it will not, and the last section of the bill, Section 16 provides specifically that the bill will only address incidents that happen, or come to light, after the effective date of the bill.

ASSEMBLYMAN SCHERER:

Thank you, very much. The reason I ask is because one of the members of the firm with which I am associated represents certain individuals, not the university, involved in an ongoing investigation. In light of the fact that this bill will not affect that representation in any way I don't see that I have a conflict of interest on it. I would in that case like to ask another question if I may, Mr. Speaker, and that is this, to you and through you again to our minority leader. Did the university officials appear before the committee and testify either for or against this bill?

ASSEMBLYMAN MCGAUGHEY:

To you and through you, Mr. Speaker. No, the university officials did not and they did not appear at my request. I didn't think that because of the ongoing investigations now and the problems the university is having with the NCAA that they should become involved in the processing of this bill. This bill is, under the purview of this body, it's our fight. It is our job in this body to see that everyone in our state is treated fairly by everyone else, all of our citizens, our businesses, our schools, and everyone else, so they are not party to this. I might read Section 16 which clears that up. "This act becomes effective upon passage and approval and applies to any proceeding of a National Collegiate Athletic Association regarding an act or omission which occurred after the effective date of this act."

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker. I rise in favor of this bill and it is my instinct that there are, in fact, a large number of states and other institutions throughout this country that perhaps feel the same way we feel as expressed in this particular bill. I believe that the objectives of this bill are very broad and long range and will have great impact upon the intercollegiate activities of this country. I believe that we should not be intimidated by the threat of a bully, and that may be a little harsh when we are speaking of the institution which we are aiming these remarks at in this bill. To think that we might incur some kind of penalties if we are willing to speak out is a little bit, I think, timid because we have already been struck down. We have already had sanctions placed against us for actions which have been considered to be rather minimal in their severity, but the sanctions have been severe. I think we would be in fact indicating to the rest of the country that we have the courage to take on this challenge and speak our mind and I believe there will be other states that would be willing to follow this example. Often a fight is begun with the first battle or the first one out of the block or the first institution that is willing to step forward and take the heat from such an action. I believe it is correct that Nebraska has already passed a bill. They have come under some kind of review, I am sure, by the NCAA. I believe that we are, in fact, taking a stand here that is admirable and justified which will in fact serve notice to the national leaders that there are concerns throughout the country. They may be willing to take recognition of this and there will be other states that will step up to this by taking the same kinds of action that we are willing to take in this body. Thank you, Mr. Speaker.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I simply wanted to state, as Mr. Scherer has, that my partner has also represented a percipient witness in an ongoing investigation along with individuals from Mr. Scherer's firm. However, because of the reasons he expressed, and the nonapplication of this bill to that ongoing investigation I will also be voting in favor. Thank you, Mr. Speaker.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in support of this bill and would remind the members, even though the member from Elko didn't feel, I suppose, that it involved Elko, I think this involves the whole state. We have had some experiences in the North that you may recall having to do with some restrictions on our football team and this is a Washoe County bill, this is a Nevada bill, this is an American bill. I would urge your support.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. The NCAA's home office is in the State of Kansas. That's where they are incorporated and that's where they operate from. A couple of days ago I got a call from a staffer in Kansas, the staffer to Senator Winters, and he asked me how our bill was proceeding and informed me that they, the home state, have a bill dealing with the NCAA sponsored by Senator Winters. It is Senate Bill 234. I have a copy. There are two parts, I would like to read to you. "In addition to requiring the NCAA to follow due process in the State of Kansas, they are also requiring that they afford due process to every university in the United States." In the bill, Section 3, "That any proceeding which result in the imposition of a sanction or penalty for violation of a rule of an athletic association, no such sanction or penalty may be imposed by the athletic association on any educational institution located in the State of Kansas or located outside the State of Kansas, etc." The penalty for not affording due process to the schools outside of Kansas is this, Section 8 of the bill, "Any athletic association found guilty of violating this act is also liable for the cost litigation, expenses of attorney fees of any party prevailing against it and such athletic association shall be subject to revocation and recision of ad valorem tax exemption on any property owned by such athletic association or its parent holding company including exemptions granted from the date of violation to and including the tax which would have been due commencing in the calendar year of 1989." I would say that the State of Kansas is not under investigation and yet the State of Kansas and their legislative body is as concerned about the out-of-control NCAA as the State of Nevada is and the State of Nebraska. Six or seven other states have attempted to process the bill, there are probably 15 right now, and I would say all of these states wouldn't be taking up the time to process the bill if there wasn't fire behind all that smoke. As far as this Legislature feeling, if we do something we will be banned from the NCAA or expelled. The flag over there says "Battle Born." Nevada is a "Battle Born" state. I don't think that we have ever in this body stood here timid in our response to the needs of our people and our businesses. We've always been strong. We've handled lots of tough issues in this body and if we make a mistake, we will take care of that as it comes. I think the mood of the country is that the NCAA is not doing right and that the NCAA hopefully will reform itself and then even though the laws hopefully are on the books, they won't have to be used. Thank you.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I, too, rise in support. I would like to associate myself with the remarks of the Minority Leader. He said something else that is important to us as Nevadans when he talked about the comment made by Mr. Kurault. Most of us in this room have children that have been raised in this state, grandchildren that are being raised in this state. We know what a fine place Nevada is to live in. We have been slandered by the NCAA. The perception of Nevada is certainly one that people are not looking up to. While it may inspire tourists to come for what may be a thrill in the State of Nevada, we've got so much more to offer. I think we are entitled to respect. I don't think the NCAA has shown us respect. I think they discriminated against us based on perception. For those reasons, for Mr. McGaughey's reasons, I certainly urge your vote on behalf of this bill.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. I happen to be from Ohio and back in the late 70's and early 80's, the NCAA destroyed the basketball program of Cleveland State University. The petty articles that they used to justify their action, to a lot of us back at that time just were inconceivable, it just couldn't happen, but it happened. I've watched their actions throughout the years on different cases like that and I read the newspaper here two weeks ago about Nebraska adopting similar legislation. I think that we should stand up and be counted with regard to this bully that seems to be over the nation. I completely support A.B. 204, Mr. McGaughey, and your action on this. Thank you.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I also want to rise in support. I did not have the opportunity to sign on this particular bill but I clearly have an interest in it. I think in dealing with young people and knowing the outcome of the NCAA and how it is viewed, Nevada does indeed

suffer from an image problem. Those people would like to throw stones at our state constantly without understanding what we're all about. If nothing else we do, indeed, we must provide at all times due process. The questions of whether we have and do provide due process for all of our citizens, a continuing process needs to be firmly stated here in this state. If no where else, NCAA should recognize that in Nevada they must go through the hoops. The question is of freedom of speech, if we are indeed afraid of speaking, we have lost the golden opportunity of democracy and I don't believe we can ever be intimidated by that under any circumstances. I wish to associate my remarks with those of the Minority Leader.

Roll call on Assembly Bill No. 204:

YEAS—40.

NAYS—Sader.

Not voting—Wendell Williams.

Assembly Bill No. 204 having received a constitutional majority, Mr. Speaker declared it passed, as amended.

### REPORTS OF COMMITTEES

*Mr. Speaker:*

Your Committee on Judiciary, to which were referred Assembly Bills Nos. 71, 313; Senate Bills Nos. 64, 69, has had the same under consideration, and begs leave to report the same back with the recommendation: Amend, and do pass as amended.

WHEREAS, When Mr. DiGrazia was only 19 years old he purchased the small town of Valmy, which consisted of a gas station, an auto court, an abandoned railroad shack and a grocery store with a post office in the rear; and

WHEREAS, Eugene DiGrazia was appointed postmaster of the Valmy Post Office on February 15, 1935, and held this position for 56 years, including the 3 years he served before his appointment at age 21, which gave him the distinction of being the longest-serving postmaster in the West and the third longest-serving in the nation; and

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the Nevada Legislature offers its heartfelt condolences to Eugene DiGrazia's wife of 46 years, Julia, and to their two sons, Dr. Peter DiGrazia, a dentist in Reno, and Gary DiGrazia, an attorney in Elko; and be it further

RESOLVED, That a copy of this resolution be transmitted forthwith by the Chief Clerk of the Assembly to Julia DiGrazia.

Assemblyman Marvel moved the adoption of the resolution.

Remarks by Assemblymen Marvel, Carpenter, Callister and Anderson.

Assemblyman Humke requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. To you and through you and to this honorable body. I don't think we can say in a resolution or what I can say that will really and truly depict the life and the contributions of Eugene DiGrazia. His life was a success story. As the resolution stated he bought the town of Valmy, but this was during the great depression of the 30's, when he was 19 years old. Now if any of you don't know where Valmy is, its between Mote and Stonehouse. Eugene's life is really a success story. As the resolution stated, Eugene was the youngest postmaster ever appointed. As a matter of fact, when he was 19, he had to serve as acting postmaster until he was 21 and then he was appointed by Gene Farley who was Postmaster General. I think there are a few of us left that remember that he lived to be the third longest serving postmaster in the United States. Not only was Eugene an astute business man, he was a doer, a goer and he just wasn't happy to be at home. He had to be involved in things. He was an ardent booster of the schools, he was active in Lionism, he was active in the Knights of Columbus, he was a member of the Chamber of Commerce, director of senior citizens and was very active in the postal associations. Eugene was also an avid hunter as his son, Peter, will attest. He always brought home the bucks even though it was the day before season opened. You know, Valmy, Eugene and Julia brought a lot of national attention. They have been written up in several national periodicals and at the unfortunate demise of Eugene, he was being scheduled to appear on the Johnny Carson Show, so that shows you the kind of national attention the DiGrazia family received. Eugene did not know what adversity was. He had several pacemaker implants which would probably slow up the ordinary man. To have known Eugene, you would have thought he had a turbo charger implanted because his motto was go, go, go, and he did. To me, Eugene is the epitome of what I think a man should be—a loving husband of 50 plus years, a very proud father and grandfather, and certainly a very sincere friend, and above all, a very dedicated public servant. Now if anybody in this audience, in this chamber today feels depressed, I would say that reflects the life of Eugene DiGrazia as he was one person that achieved the great American dream. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of the resolution. I first met Eugene DiGrazia many years ago in the Knights of Columbus. The thing that I remember the most about him was that he was always smiling. He wouldn't say anything about anyone unless it was favorable. He was a great man. He did a lot of great things in his community, for Battle Mountain, Elko and the State of Nevada. He also leaves a great legacy. His son Peter, was and maybe still is, the Chairman of the Health Board here in Nevada. His son, Gary is a very good attorney in Elko, and if you want to get anything done, you go see Gary

DiGrazia and he will get it done for you. To his sons and his daughters-in-law and grandchildren, he was a great man and I'm sure he will be remembered by all of us for a long time. Thank you.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. It is odd that I would rise to support this resolution or happen to have the pleasure of making Mr. DiGrazia's acquaintance. I've heard about him through an odd combination of events. I've driven that lonely highway and seen his gasoline station and oddly enough for those who aren't aware, that gasoline station graced the cover of a Bruce Springsteen album. For that reason I rise in support of this resolution.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I had the great pleasure of knowing Mr. DiGrazia as a member of the Knights of Columbus. He is the type of unique individual who has indeed been an inspiration to a wide number of people obviously from the age of 19 on. The kind of leadership that he has shown, the kind of courage in facing real problems and situations and encouraging other people to participate in the community is in the highest ideals of Nevadans and what we all stand for.

Resolution adopted unanimously.

Assemblyman Marvel moved that all rules be suspended and that Assembly Concurrent Resolution No. 24 be immediately transmitted to the Senate.

Motion carried unanimously.

By Assemblymen Norton, Dini, Porter, Heller, Hardy, Scherer, Bayley, Anderson, Pettyjohn, Haller, McGinness, Spitler, Humke, Spriggs, Giunchigliani, Marvel, Petrak, Garner, Wong, Bache, Goetting, Gregory, Kerns, Krenzer, Arberry, Evans, Callister, Price, Sader, Little, Johnson, Bennett, Carpenter, Lambert, Myrna Williams, Elliott, Bergevin, Freeman, Stout, McGaughey, Gibbons and Wendell Williams:

Assembly Concurrent Resolution No. 25—Commending the troops of the United States and the reservists from Nevada upon their return from their participation in the Persian Gulf War.

WHEREAS, Iraq mocked and evaded the resolutions of the United Nations Security Council calling for the restoration of the rightful government of Kuwait; and

WHEREAS, Pursuant to the direction of the United Nations, the allied United States Armed Services, the British and French forces and the Pan-Arab forces initiated a ground assault against the occupying army of Iraq in Kuwait on February 24, 1991, in the face of possible chemical and biological attack; and

WHEREAS, Within 100 hours after they began the assault, the allied forces rapidly and successfully routed the Iraqi forces and liberated Kuwait on February 27, 1991; and

WHEREAS, Patriotic reservists from Nevada temporarily sacrificed their civilian lives and set aside their personal and family obligations to uphold the honor of our great nation for the selfless aid of others; and

WHEREAS, President Bush, as Commander-in-Chief, and his military commanders, General Colin Powell, Chairman of the Joint Chiefs of Staff, and General H. Norman Schwarzkopf, in their collective prowess, have brought about the capitulation, defeat and destruction of the Iraqi war machine while minimizing casualties among Iraqi civilians; and

WHEREAS, A cease fire has been imposed in the Persian Gulf region, bringing the return of peace and stability to Kuwait and providing for the imminent return of our troops home to Nevada; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the Nevada Legislature commends the noble, selfless and heroic efforts of our servicemen and women; and be it further

RESOLVED, That the Nevada Legislature offers its prayers to the families who lost loved ones in this conflict; and be it further

"Section 1. NRS 463.335 is hereby amended to read as follows:

463.335 1. The legislature finds that, to protect and promote the health, safety, morals, good order and general welfare of the inhabitants of the State of Nevada and to carry out the policy declared in NRS 463.0129, it is necessary that the board:

(a) Ascertain and keep itself informed of the identity, prior activities and present location of all gaming employees in the State of Nevada; and

(b) Maintain confidential records of such information.

2. No person may be employed as a gaming employee unless he is the holder of:

(a) A valid work permit issued in accordance with the applicable ordinances or regulations of the county or city in which his duties are performed and the provisions of this chapter; or

(b) A work permit issued by the board, if a work permit is not required by either the county or the city.

3. A work permit issued to a gaming employee must have clearly imprinted thereon a statement that it is valid for gaming purposes only.

4. Whenever any person applies for the issuance or renewal of a work permit, the county or city officer or employee to whom the application is made shall within 24 hours mail or deliver a copy thereof to the board, and

may at the discretion of the county or city licensing authority issue a temporary work permit. If within 90 days after receipt by the board of the copy of the application, the board has not notified the county or city licensing authority of any objection, the authority may issue, renew or deny a work permit to the applicant. Any holder of a work permit must obtain renewal of the permit from the issuing agency within 10 days following any change of his place of employment.

5. If the board, within the 90-day period, notifies:

(a) The county or city licensing authority; and

(b) The applicant,

that the board objects to the granting of a work permit to the applicant, the authority shall deny the work permit and shall immediately revoke and repossess any temporary work permit which it may have issued. The notice of objection by the board which is sent to the applicant must include a statement of the facts upon which the board relied in making its objection.

6. Application for a work permit, valid wherever a work permit is not required by any county or city licensing authority, may be made to the board, and may be granted or denied for any cause deemed reasonable by the board. Whenever the board denies such an application, it shall include in its notice of the denial a statement of the facts upon which it relied in denying the application.

7. Any person whose application for a work permit has been denied because of an objection by the board or whose application has been denied by the board may, not later than 60 days after receiving notice of the denial or objection, apply to the board for a hearing. A failure of a person whose application has been denied to apply for a hearing within 60 days or his failure to appear at a hearing of the board conducted pursuant to this section shall be deemed to be an admission that the denial or objection is well founded and precludes administrative or judicial review. At the hearing, the board or any designated member of the board or an examiner appointed by the board shall take any testimony deemed necessary. After the hearing the board shall review the testimony taken and any other evidence, and shall within 30 days after the date of the hearing announce its decision sustaining or reversing the denial of the work permit or the objection to the issuance of a work permit. The board may object to the issuance of a work permit or may refuse to issue a work permit for any cause deemed reasonable by the board. The board may object or refuse if the applicant has:

(a) Failed to disclose, misstated or otherwise attempted to mislead the board with respect to any material fact contained in the application for the issuance or renewal of a work permit;

(b) Knowingly failed to comply with the provisions of this chapter or chapter 463B, 464 or 465 of NRS or the regulations of the commission at a place of previous employment;

(c) Committed, attempted or conspired to commit any crime of moral turpitude, embezzlement or larceny or any violation of any law pertaining to gaming, or any crime which is inimical to the declared policy of this state concerning gaming;

(d) Committed, attempted or conspired to commit a crime which is a felony or gross misdemeanor in this state or an offense in another state or jurisdiction which would be a felony or gross misdemeanor if committed in this state;

(e) Been identified in the published reports of any federal or state legislative or executive body as being a member or associate of organized crime, or as being of notorious and unsavory reputation;

(f) Been placed and remains in the constructive custody of any federal, state or municipal law enforcement authority; or

(g) Had a work permit revoked or committed any act which is a ground for the revocation of a work permit or would have been a ground for revoking his work permit if he had then held a work permit.

8. Any applicant aggrieved by the decision of the board may, within 15 days after the announcement of the decision, apply in writing to the commission for review of the decision. Review is limited to the record of the proceedings before the board. The commission may sustain or reverse the board's decision. The decision of the commission is subject to judicial review pursuant to NRS 463.315 to 463.318, inclusive.

9. [All] *Except as otherwise provided in this subsection, all* records acquired or compiled by the board or commission relating to any application made pursuant to this section and all lists of persons to whom work permits have been issued or denied and all records of the names or identity of persons engaged in the gaming industry in this state are confidential and must not be disclosed except in the proper administration of this chapter or to an authorized law enforcement agency. *Upon receipt of a request from the welfare division of the department of human resources pursuant to NRS 425.400 for information relating to a specific person who has applied for or holds a work permit, the board shall disclose to the division his social security number, residential address and current employer as that information is listed in the files and records of the board.* Any record of the board or commission which shows that the applicant has been convicted of a crime in another state must show whether the crime was a misdemeanor, gross misdemeanor, felony or other class of crime as classified by the state in which the crime was committed. In a disclosure of the conviction, reference to the classification of the crime must be based on the classification in the state where it was committed.

10. A work permit expires unless renewed within 10 days after a change of place of employment or if the holder thereof is not employed as a gaming employee within the jurisdiction of the issuing authority for more than 90 days.

11. Notice of any objection to or denial of a work permit by the board as provided pursuant to this section is sufficient if it is mailed to the applicant's last known address as indicated on the application for a work permit. The date of mailing may be proven by a certificate signed by an officer or employee of the board which specifies the time the notice was mailed. The

notice is presumed to have been received by the applicant 5 days after it is deposited with the United States Postal Service with the postage thereon prepaid.".

Amend the bill as a whole by adding a new section designated sec. 2, following section 1, to read as follows:

Assembly Bill No. 167.

Bill read third time.

Remarks by Assemblymen Bache, Pettyjohn, Haller, Garner, Anderson, Scherer, Arberry and Bergevin.

Assemblyman Pettyjohn requested that his remarks be entered in the Journal.

ASSEMBLYMAN PETTYJOHN:

Thank you, Madam Speaker pro Tempore. I rise to speak against the particular bill on the grounds that I have some concerns about the basic and fundamental constitutional rights of the individuals, particularly as the law is written. It says, "The district may authorize people to sign and serve written citations on persons who are accused." I feel there is the opportunity for abuse in this kind of a system. Further, I don't believe the bill provides for any kind of penalties involved so I am unclear as to what the nature of the citation would be and what kinds of enforcements and what kinds of penalties would be associated with it.

Thank you, Madam Speaker pro Tempore, for the opportunity to speak the second time on the bill. I'm looking at the specific language contained in the bill and I suppose that's what gives me some concern. If I were able to read in it that it was aimed at people stealing water out of hydrants for commercial purposes, it might be one thing, but on line 12 of page 2, it indicates, "related to the waste of water" and that's a judgment that would be left to the inspector or somebody who is observing either casually or on a specific mission to determine what is in fact a waste. If we as a homeowner were sprinkling our lawn and if it had been just a tad bit too long and it was running in the street, that would be, I suppose, cause for issuing a citation. Of course, I would like to go on record saying that I am as concerned about the conservation of water in this state as any member of this body. I do think we ought to find ways to help preserve it but if the aim of this bill is in fact to get those people who are stealing water out of fire hydrants to do commercial projects, I believe that could be stated more clearly. Thank you.

Assemblyman Porter moved that Assembly Bill No. 167 be taken from the General File and placed on the Chief Clerk's desk.

ASSEMBLYMAN MYRNA WILLIAMS:

Amy Phelps has been of assistance to all of us. From the very first day that I came here and obviously for two decades since although I haven't been here for two decades. She has been helping everyone. It's a happy day for Amy. It's not such a happy day for the rest of us who will deeply miss her, and on behalf of the members of the Assembly, we do have a little presentation to make. We hope this will remind you of us and you will come back and visit us, and when you look at it, you will remember fondly your days here.

MR. SPEAKER:

Amy, we are not going to let you off that easy because I was here first. I'm your senior so now I can talk to you after all these years. I have known Amy since 1969. Amy never says much, just works. She has been one of our most respected employees. She has been such a terrific asset to the front desk. Before that, she started out as a secretary. In those days, we didn't have private offices. None of you were here when we had our offices on the floor in the old Capitol above the Governor's offices. We would call the pool and Amy would come to take dictation and send our letters out to constituents. She took care of most of us from the rural counties; Virgil Getto, myself and five or six others. Since then, we have become very fond of her and the work that she has done for us here. We all respect her and wish her well on her voyage to retirement. We don't like to see her leave here but first things come first. We understand that, Amy. On behalf of the Assembly, we

would like to present you with a copy of the resolution which we have just read. We want to wish you happiness forever. Come back and visit us often. We are going to miss you. Best of everything.

Amend the bill as a whole by deleting sec. 37 and adding new sections designated sections 37 through 39, following sec. 36, to read as follows:

"Sec. 37. 1. The legislature hereby declares that:

(a) Washoe County contains many diverse areas for which tourism is an important economic factor including mountain peaks, mountain lakes, valley lakes and old and new "downtown" business districts;

(b) A unique National Automobile Museum is located in Washoe County for which the City of Reno may choose to become responsible for, among other reasons, its ability to draw tourists to the area;

(c) In the past, many tourists have been attracted to the area as participants in or spectators of national bowling tournaments although a permanent facility in which to hold the tournaments is not currently available in Washoe County;

(d) Because of Washoe County's fragile economy and the need to develop a stable tourist trade, it is important that tourist-related businesses are able to depend on a tax that will remain at a constant rate and be used for projects that have a history of drawing tourists to Washoe County; and

(e) A general law cannot be made applicable to the situation because of these unique circumstances and special conditions, and the provisions of this section are therefore necessary.

2. Notwithstanding the provisions of sections 3.7 and 13.5 of this act, the Board of County Commissioners of Washoe County, in addition to all other taxes imposed on the revenues from the rental of transient lodging, shall impose a tax at the rate of 1 percent of the gross receipts from the rental of transient lodging in that county upon all persons in the business of providing lodging throughout the county, including its incorporated cities.

3. The ordinance imposing the tax must include all the matters required by NRS 244.3352 for the mandatory tax, must be administered in the same manner, and imposes the same liabilities, except that collection of the tax by the Reno-Sparks Convention and Visitors Authority must commence on July 1, 1991. The Reno-Sparks Convention and Visitors Authority:

(a) Shall remit all proceeds of the tax imposed on or before June 30, 1992, and any penalty and interest attributable thereto, to the City of Reno 30 days after receipt; and

(b) May not retain any part of the tax, interest or penalties as collection or administrative fee.

4. The proceeds of the tax imposed pursuant to subsection 1:

(a) From July 1, 1991, through June 30, 1992, and any penalties and interest attributable thereto must be used to pay the costs of operation or debt service, or both, of the National Automobile Museum; and

(b) After June 30, 1992, and any penalties and interest attributable thereto must be used to pay the cost of the construction and operation of a multi-purpose bowling facility, including parking and space for other functions ancillary to such a facility.

5. If the Reno-Sparks Convention and Visitors Authority does not approve the construction of the bowling facility on or before June 30, 1992, the collection of the tax must be suspended until such action is taken or June 30, 1993, whichever is earlier. If the collection of the tax is suspended on June 30, 1993, the board of county commissioners shall repeal the ordinance imposing the tax and shall not impose any further taxes pursuant to this section.

6. The county, acting by and through the Reno-Sparks Convention and Visitors Authority, may pledge any money received from the proceeds of the tax imposed pursuant to this section with revenue derived from the project that is described in paragraph (b) of subsection 4, including any existing or future extensions or enlargements thereof, for the payment of general or

special obligations issued for the project. A pledge pursuant to this subsection may include the tax authorized by this section and other taxes imposed on the rental of transient lodging that are available for pledge by the Reno-Sparks Convention and Visitors Authority. Any money pledged by the county pursuant to this subsection may be treated as pledged revenues of the project for the purposes of subsection 2 of NRS 350.020.

Sec. 38. 1. This section and sections 1 to 19, inclusive, 21, 22, 24 to 37, inclusive, and 39 of this act become effective upon passage and approval.

2. Section 20 of this act becomes effective upon passage and approval for the purpose of allocating any tax revenue received from a tax imposed pursuant to section 19 of this act and on July 1, 1991, for all other purposes.

3. Section 23 of this act becomes effective on July 1, 1991.

Sec. 39. If any provision of this act, or the application thereof to any person, thing or circumstance is held invalid, such invalidity shall not affect the provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are hereby declared to be severable.".

Amend the title of the bill, first line, by deleting "transportation;" and inserting "taxation;".

Amend the title of the bill, fourth line, after "fees;" by inserting: "limiting the total rate of certain taxes in the larger counties; requiring Washoe County to impose a tax on the rental of transient lodging and providing for the use of the proceeds of the tax;".

Assemblyman Myrna Williams moved the adoption of the amendment.

## COMMUNICATIONS

HOUSE OF REPRESENTATIVES
WASHINGTON, D.C. 20515

March 13, 1991

THE HONORABLE JOSEPH E. DINI, JR., *Speaker,* Nevada State Assembly, Carson City, Nevada 89710

DEAR SPEAKER DINI:

As you know, there are many issues of joint concern to Nevada's Congressional Delegation and the Nevada Legislature. I believe that it is vital for our federal and state legislators to maintain our open lines of communication; therefore, I request the privilege of addressing the Nevada State Legislature on March 27th.

Thanks for your attention to this, Joe. Please contact me or my Administrative Assistant, John Fadgen, at your earliest convenience.

Sincerely,

JAMES H. BILBRAY
*Member of Congress*

THE COUNCIL OF STATE GOVERNMENTS
WESTERN OFFICE
121 SECOND STREET, 4TH FLOOR
SAN FRANCISCO, CALIFORNIA

February 25, 1991

HONORABLE JOSEPH E. DINI, JR., *Speaker,* Nevada Assembly, State Capitol, Carson City, Nevada 89710

DEAR SPEAKER DINI:

During each legislative session year the Western Legislative Conference (WLC) makes state visits to each member state. We are hopeful that we can do this in 1991 during the week of April 15, 1991.

In addition to meeting legislators, explaining the role of CSG and the WLC and its 1991-92 workplan, we have also been making presentations on WESTRENDS work in progress. That work has centered on the infrastructure needs of the West through the year 2000. We have chapters complete on education, corrections and transportation thus far and should have some others by April.

We would like an opportunity to make a short presentation—about 30 minutes—to as many legislators as possible. In addition, we would like to have lunch or dinner with the leadership of both houses.

If this proposal is agreeable, perhaps you and Senator Vergiels would like to designate someone to work with us to set things up.

I hope all is going well for the 1991 session. I look forward to "coming home" to the Nevada Legislature.

Sincerely,

ANDREW P. GROSE
*Director*

THE AMERICAN LEGION
NEVADA DEPARTMENT
CARSON CITY, NEVADA 89702

March 4, 1991

ASSEMBLYMAN JOE DINI, *Assembly Speaker,* Nevada Assembly, Carson City, Nevada 89710

DEAR SPEAKER DINI:

I have been informed that the national commander of The American Legion, Robert S. Turner, will visit Nevada from Washington, D.C., on May 12, 13, 14, 1991.

He has indicated to us that he certainly would welcome the opportunity to address either a joint or recess session of the Nevada Legislature on May 13 or May 14, if your time schedule permits.

Commander Turner has highly commended Nevada for being the first state to pass legislation this year in support of a Constitutional amendment protecting the U.S. Flag and would like to reiterate that support in person to members of the 1991 session.

Consequently, we hope such an appearance can fit into your busy schedule. If such is possible, would you please give me your decision at your earliest convenience so that we can begin our planning for the event?

A representative of the Nevada Department can be reached at 882-1943 in Carson City if you have any questions about this.

Thank you, on behalf of the Nevada Department, for consideration given to this request. We appreciate the cooperation you have shown to our Department.

Kindest regards.

Sincerely,

DALE R. SALMEN
*Commander*
Nevada Department,
The American Legion

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 1 of article 16 of the constitution of the State of Nevada be amended to read as follows:

Section [.] 1. 1. Any amendment or amendments to this Constitution may be proposed in the Senate or Assembly; and if the same shall be agreed to by a Majority of all the members elected to each of the two houses, such proposed amendment or amendments shall be entered on their respective journals, with the Yeas and Nays taken thereon, and referred to the Legislature then next to be chosen, and shall be published for three months next preceding the time of making such choice. Senate Concurrent Resolution No. 29.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans, Bache, Spriggs, Anderson and Johnson.

Assemblyman Pettyjohn requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Mr. Speaker, I rise to recognize a most distinguished visitor to our chamber. He is this year's Nevada Medal winner, Dr. Benoit Mandelbrot.

The Nevada Medal is presented by the Desert Research Institute and sponsored by Nevada Bell. The award includes a specially designed medal and a $5,000 prize provided by Nevada Bell's shareowners. The Nevada Medal is awarded each spring, alternately in Reno and Las Vegas to an outstanding scientist whose achievements have greatly contributed to our understanding of the global environment.

This year's award recipient is, indeed, an eminent member of the scientific community. Dr. Mandelbrot has pioneered in the development of Fractal Geometry. For those of you who may not know anything about Fractal Geometry, it has to do with chaos, something that this legislature knows a great deal about. He originated the principles of Fractals which have revolutionized fields ranging from physical science research to modern graphic design. Dr. Mandelbrot's applications are being used on a number of projects in Nevada. For example, in the construction of three-dimensional models of groundwater movement, and as a new technique in water quality management.

Dr. Mandelbrot is the fourth recipient of the Nevada Medal. Former honorees have included Dr. Verner Suomi, inventor of the Spin-Scan weather satellite camera; Dr. Dwight Billings, noted researcher in desert plant ecology and Dr. James Van Allen, whose name is almost synonymous with space exploration.

Dr. Mandelbrot will receive his Nevada Medal in special ceremonies tonight at Harrah's in Reno and I hope all my Assembly colleagues will be able to attend this ceremony, not only to applaud the achievements of Dr. Mandelbrot, but also to recognize the many scientific contributions of our Desert Research Institute, of which we are very proud, and to give a large pat on the back to Nevada Bell for setting a fine example of leadership and good corporate citizenship. It now gives me great pleasure to present for your warm welcome, Dr. Benoit Mandelbrot.

ASSEMBLYMAN BACHE:

Thank you, Mr. Speaker. Through you and to my fellow colleagues, I take pleasure in supporting S.C.R. 29 honoring Dr. Mandelbrot. Dr. Mandelbrot's work in Fractal Geometry provides me with new and different material and concepts to present to my seventh grade students during my Geometry units.

Fractal Geometry can be described as a geometry of natural phenomena such as the shape of a mountain, and as my colleague from northern Nevada referred to the travel of groundwater, and many other items too numerous to describe. These discoveries are useful and will be important in expanding our knowledge of how the world works. Thank you very much.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I just wanted to concur also in the resolution. I have studied Dr. Mandelbrot's work in Fractal Geometry. My brother and I have spent many hours arguing over how to apply this in computer graphics. He is doing quite a successful job of it at the moment and I just wanted to congratulate you.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. Through you and to you to this honorable body, I wish to add my remarks to those of my distinguished colleague from District 30 and Mrs. Spriggs from Hawthorne.

Geometry, the classical example of Euclid with the straight lines, circles, parabolis etc., have been enlarged by the work or love, in reality, of Dr. Mandelbrot, the fractal, the zigzag line. But what is that to us? Basketballs are still round and the perfect three point shot still has the definable arch of Euclid's predictability. It is in the other part of our lives, the chaos of events that Dr. Mandelbrot's mathematical structure looks at the essential unpredictability of our lives. What may appear as a simple atmospheric change will lead to dramatic chaotic behavior. It is here with an incredible wealth of fractals along whose twists and twirls a representative point of a system may dance like a puppet on a mathematical string, that all of us are entwined. Dr. Mandelbrot has developed models which help all of us see the sum area of our universe with greater predictability. It is indeed a true honor to see such an enlightened force within us all.

ASSEMBLYMAN JOHNSON:

Thank you, Mr. Speaker. I, too, wish to concur with S.C.R. 29. As a scientist, I recognize Dr. Mandelbrot's contribution to science as the originator of the principles of Fractals and their application to Chaos Theory. Personally, I don't think I am clever enough to have applied these to their full tool. I have on occasion had people who worked for me understand the application in groundwater moduling and I can attest to the fact that this is a significant contribution. The State of Nevada is indeed honored by the presence of Dr. Mandelbrot.

Resolution adopted unanimously.

## MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, March 20, 1991

*To the Honorable the Assembly:*

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 30.

MARY JO MONGELLI
*Assistant Secretary of the Senate*

## MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 30.

Assemblyman McGinness moved the adoption of the resolution.

Remarks by Assemblyman McGinness.

Resolution adopted.

## REMARKS FROM THE FLOOR

Assemblyman Wendell Williams requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. I rise to address this body on Rule 99. I rise with some regret, Mr. Speaker, and with some remorse. I would like to remind the members, my colleagues of this House, when they get a chance, to review the manual that we all proceed by.

In Chapter 13, Section 120, which states, "The rights and duties of members of the legislative body are derived and founded upon the absolute equality of the members. Members must not be permitted by their conduct to deny to others that which they may claim for themselves." It goes on in Chapter 7, Section 52, and says, "In public bodies, the equality of members is presumed. It would seem that for any democratic group to be able to operate, acceptance of the principle of equality of members is essential. Equality seems essential also to secure the acceptance in good faith of decisions of the group." I say that because I introduced a bill in this body back before we had a recess in Las Vegas.

I asked for a hearing of that bill in Las Vegas. I was given a hearing for 15 minutes before the committee adjourned for lunch. The bill was not even posted, so those who would like to have testified on the bill had no knowledge of the bill being heard.

I had a hearing on the bill yesterday. I find it very unfortunate that those who wear blue badges, in this particular case, law enforcement, can dictate to this body how much time members can testify, when they can testify, when they cannot testify. I was so astounded by that that I went back to my office to look at my commission and I realized my commission says the same thing that everybody else's commission says. I think that if we have strong feelings about bills and if we have family members who oppose bills that we should maybe pass the gavel over to our vice chairman and let those people handle that. I find it very inappropriate that lobbyists can dictate to members of this House when they can testify and if they can't testify. If, in fact, the mandate that the people gave to place us in these seats is not as strong as those who come here as lobbyists, then maybe we should look at giving the lobbyists the opportunity of sitting in these chairs and approach the Bar and serve in this Assembly.

It is not that I have bad feelings about the bill because there was no action taken on the bill, so it is not that the bill survived or died, but I had a situation where I asked two people to testify. One was another legislator and one came in from out of town. Law enforcement had one person from out of town. There was not enough time to really testify. I asked that the bill be rescheduled. Law enforcement said "No, we'll hear it now," and we heard it then. I think that we should remind ourselves that we are all here for the equality of each other and we should treat each other with respect, good respect and demand respect. Thank you, very much.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

Assembly in recess at 11:57 a.m.

## REMARKS FROM THE FLOOR

Assemblyman Kerns requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. Sitting at my desk is Specialist Fourth Class Richard DeBilzan. Rich has never been a 4-H'er but he spent a couple of months harvesting a few things for us; a few Iraqi tanks, armored personnel carriers and maybe even a few Iraqis.

Rich served with the 101 First Airborne Division in Iraq. That was that little group who in about 48 hours took about 60,000 men 200 miles into Iraq and formed that little pincher movement that cut them all off from the southern part of Iraq. We have an awful lot to be thankful for.

Rich's parents are Jan and Bruce Brooks. I think most of you know Bill Brooks who is seated in the back and does a little lobbying for the City of Reno. You gals, don't be eyeing this guy. He just got engaged yesterday and he is going to be married August 1. He hopes to come back to Reno, if he doesn't reenlist. He has to return to Fort Campbell, Kentucky, in two weeks. I just want to say that it is people like this that we owe this country to and I would like to have you give Rich a good applause and a great welcome. Thank you.

Senator Reid delivered his message as follows:

MESSAGE TO THE LEGISLATURE OF NEVADA
SIXTY-SIXTH SESSION, 1991

*Madam President, Mr. Speaker, Members of the Nevada Legislature, members of the Judiciary, honored guests and fellow Nevadans.*

At the end of 1864, before the final desperate battles of the Civil War, a beleaguered Abraham Lincoln faced a press and people still torn with self-doubt and despair.

Responding to a crowd celebrating his reelection, Lincoln pondered the nature of America.

"It has long been a grave question," he said, "whether any government, not too strong for the liberties of the people, can be strong enough to maintain its existence in great emergencies."

He continued by predicting the future. "Human nature will not change. In any future great national trial, compared with the men of this, we shall have as weak and as strong, as silly and as wise, as bad and as good."

Less than six months later, President Abraham Lincoln was struck down at Ford's Theatre.

In a cry of national anguish, Walt Whitman wrote:

"Oh Captain, my Captain! Our fearful trip is done
The ship has weathered every rack, the prize we sought is won."

Like all great poets, Whitman was an oracle and a seer. What he said was valid and yet false. His mystic vision had but one flaw; for while the prize was won, the trip had just begun.

In the 1970's and 80's historians looked back at the 100 years which began with Appomattox and ended with the escalation in Vietnam, and called it the American century. That century, they said was one of American dominance and power, one in which the ship of state, and the ships which sailed from our state, were sometimes rocked by disaster but in the end, always invincible.

From the great White Fleet of Teddy Roosevelt, to the carriers of the great land-sea battles in the Pacific, to the Polaris submarines in the 1960's, America, and her projections of force, had been the invincible bulwark of democracy, the last refuge to which embattled democracies could withdraw.

But that time ended, the historians said. It ended with Vietnam. Like Walt Whitman, they were right, and they were wrong.

That hundred years was the American century, but I have no question ladies and gentlemen, not one shadow of a doubt, that a hundred years from 1965, those historians yet to be born will look back on the two hundred years of the world's history past, as the two American centuries.

Vietnam was not the end, it was not even as Winston Churchill once said, the beginning of the end. It was merely the end of the beginning.

The greatness of America, our true national genius, is that we learn from our mistakes.

Never again will this nation send our young men and women off to war without the full support of the American people. Never again will we fail to apply the power necessary to end a conflict in the quickest possible way with the least loss of American lives. Never again will we fight a battle unsure of our goals or uncertain of our commitments.

We learned the lessons of Vietnam, and we applied those lessons in the sands of Saudi Arabia and Kuwait.

Make no mistake, those lessons were not tutelage in the arrogance of power or the hubris of strength. Pride, the Bible tells us, goes before the fall. No, we did not learn, and we did not practice, the politics of raw power.

Rather, we learned to work together with all nations which believe in freedom, to fight shoulder to shoulder with allies of different hues and religions, and hopefully, to make peace together as effectively as we have waged war together.

That lesson, of facing a problem squarely, of talking with potential allies, and working together to achieve a common goal, was the great gift given to us by those who suffered so much and bore such a soul-searing burden in the jungles and swamps of Vietnam.

It is a lesson we learned at a tremendous price to apply on the world stage. Let us use that knowledge in Nevada today so that our children, and their children after them, will not have to pay as heavy a toll, or fight as terrible a battle.

If we acknowledge the problems which face this beautiful state, if we talk to each other and build a consensus, then we can do more than move mountains, we can create a world where we learn to live with nature and where mountains don't have to be moved.

If tomorrow, I were to walk from the public stage, and never again draft a bill or argue an issue, or call out for justice and decency, there is nothing I could ever do, nothing in the future, and certainly nothing in the past, of which I could ever be as proud, as the preservation of Nevada's fragile natural beauty.

I have walked those valleys and climbed the slopes of the Great Basin National Park; touched the smooth bark of a thousand-year-old bristle-cone pine, and listened to the mountain breeze sing through its branches. I have seen the stars at night through the purest air on God's green earth, and reached out to touch the skies. I have learned what all the world should know; that on the edge of Nevada sit the hills of Paradise, and we made its preservation a reality for generations yet unborn.

Across this lovely state, from north to south, from Utah to the California border we have preserved our untouched wilderness. We have kept so much for posterity, so much of what makes this state a special and mysterious place.

And on a quiet summer evening in the Stillwater Marsh, you can hear the sounds Nevada's first settlers heard when they stopped on the way to their new homes. You can hear the frogs croak, and the fish splash, and the evening song of the birds that the Paiute tribe heard before the settlers came. It is a place where a man can sit and listen to the sound of silence, to the sound of his own soul. And for our children and for their children's children, those sounds will survive.

We, the people of Nevada working together have preserved these works of God from the unthinking hand of man. We did it even though there were those who said it was an impossible dream.

There are people in this state, indeed, people in this chamber who told me more than once, that we cannot build a coalition that would end the eighty-year-old war for water in northern Nevada. They said the Stillwater Marsh was dead, let it be. They said we couldn't save the timeless Cui-ui or end the 100-year water dispute with California.

Leave it alone, they said. Don't bring a fight on yourself. People just won't work together on this one. There's too much at stake.

Well, there was a lot at stake. But we did build a coalition, a grouping of diverse people with differing interests from varied backgrounds. And we found common ground, the people in this chamber, the people of the United States Navy, and those in Nevada's countryside, her towns and her cities. We fought a unified battle because we faced a common enemy. We fought it and we won.

While California is desperately trying to buy water, indeed, talking about importing Canadian water in tankers, we have created a resolution for the drought problems in northern Nevada for the next forty years.

I did not come here today, however, to preach or to praise. I came to ask you to do what we have shown can be done, as Americans and Nevadans. Let us look ahead to fight those battles yet to be won, not behind us at the victories of the past.

We must deal with the phenomenal growth in this state, especially in Clark County. Legislation I introduced in Washington has directed the United States Geological Survey to work together with the Desert Research Institute, the Las Vegas Valley Water District and the State of Nevada to deal with the question of pumping aquifers beyond Clark County.

The law is not an answer, it is the search for a question. The only answer lies in common effort and common sense. Nevada has a phenomenal future, if we don't squander it on the gaming tables of thoughtlessness, greed and waste.

So many roads diverge before us. Let us take the paths of decency, of wisdom, of caring and sharing, and working together. If we do, if we look to the problems which need to be solved, and work together to resolve them, no people can do better then those of this state and this nation.

We have the resources. All over this nation, indeed, all over the world, Nevada has had more than its share of effects.

Do not think for one minute, that the peace could have endured between democracies and the cold-eyed, soulless dictatorships of the East, if a nuclear deterrent had not been tested beneath our sands. Do not think for a moment that victory in Kuwait would have been as sweet or as easily fought if our pilots had not honed their skills in our wide skies, and the Stealth had not been developed in our vast outlands.

We are still a small state, we have always, from the time we were Battle Born, contributed more than our share to this nation's defense. Sitting in this chamber today are military leaders of this nation and of the State of Nevada. Present today representing Major General Billy McCoy, Commander of Nellis Air Force Base, is Colonel Lawrence Green, Jr.; also present is Commander of the Naval Air Station at Fallon, Captain Rex Rackowitz; here also is the Commander of the Hawthorne Army Ammunition Plant, Lt. Col. O. B. McCane, Jr.; and Commander of the U.S. Marine Corp Detachment 4th Force Reconnaissance Company, Captain John Stradley and the Commander of our own Nevada National Guard, Major General Tony Clark. I ask them to stand and for us to give them a round of applause indicating our appreciation and support. We can congratulate ourselves for the support this state has given the thousands of young men and women who have trained at Nellis and Fallon.

And we can do more than congratulate ourselves, our hearts can swell with pride, for the achievements of Nevada's National Guard. From the crack reconnaissance pilots of our Air Guard, including Assemblyman Jim Gibbons, who were literally the first to fly over Iraqi targets, to the members of the 72nd Military Police who are guarding Iraqi prisoners even as I speak, this state has done its part and more.

I also look with tremendous pride on our educational system, and especially at the University of Nevada. The University of Nevada-Las Vegas has more than just a great basketball team. It is only one of nine universities in the nation which has a super computing facility, a resource which not only makes it easy to recruit top-flight scientists, but which literally has them scuffling to teach at our school. University of Nevada-Reno's Mackay School of Mines has a world famous reputation.

We have these resources, skills, people of good spirit and with common sense. We need to apply them to the problems facing every Nevadan.

The most vulnerable members of any society are those unable to protect themselves. Battered women who need protection; abused and mistreated children who have nowhere to run; the elderly who have worked throughout their lives to build this nation. These are the people who need what we as legislators can and must provide.

There are others who are vulnerable. Nevada voter registration laws are punitive and archaic. They hinder voter participation and as an example, during the last four years, would-be voters have been frightened into not exercising their constitutional right to vote. The system in Nevada is for the convenience of the voter registrar, not the convenience of the voter. This must be corrected.

We must clear the streets of the thugs and hoodlums who prey on the weak and helpless. When a woman is beaten, and it happens every 18 seconds somewhere in this nation, she should have some refuge available where she can seek shelter. When a child is abused, that child's testimony should be easily admissible to convict the abuser in a court of law. Since last year it has been admissible in federal courts. You should give these desperate children the same protection in the state courts.

But children need more than protection, they must be nurtured and nourished with food for the mind and sustenance for the soul. It is a proven fact that there is a direct correlation between class size and learning achievement. We must face up to the hard choices necessary to improve the quality of education.

The choices are hard, but they must be made, and made now. We no longer have time to spare or do we have reason to wait.

Our state has changed, ladies and gentlemen, and we must recognize that the old special Nevada way of life will never exist again. There is a new Nevada. That is why it has been so important to preserve what remained untouched. When I was a young man we used to laugh about driving "Nevada speeds," down our state's lonesome highways. Remember, we had no speed limit. Those roads are no longer country lanes, they are super highways.

We can remember the past, we can save pieces of it, but we cannot live in it. I often think of what Robert Frost said in one of his poems:

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;
Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear..."

We have chosen our route, we Nevadans, the road to a bright and vibrant future. Let us map that course with courage, and vision, and a firm commitment to the next generation and those yet to follow. For their sake, and for our own, we cannot fail. Thank you.

Senator O'Connell moved that the Senate and Assembly in Joint Session extend a vote of thanks to Senator Reid for his timely, able and constructive message.

The President of the Senate welcomed Senator Bryan and invited him to deliver his message.

Senator Bryan delivered his message as follows:

### MESSAGE TO THE LEGISLATURE OF NEVADA
### SIXTY-SIXTH SESSION, 1991

I thank your Vice Excellency, Sue Wagner. That is a title we do not hear frequently in this chamber as we recall, but it is certainly appropriate, and we are all very delighted to see Sue in that position today; my old friend, Speaker Joe Dini, a colleague with whom I first served in the State Senate in 1972 when we were first elected; President pro Tem Joe Neal.

I was thinking as I look out at all of you today and welcome the opportunity to speak to you once again, that it was 22 years ago that I first drove down the road here to Carson City joined by another freshman colleague who spoke to you yesterday from this very platform. What a difference there is between that day and today. Only four members of this Legislature served with us in 1969. Mr. Speaker was among us; the then Speaker pro Tem, Lawrence Jacobsen; Virgil Getto was with us on that occasion; and Hal Smith, the chair of the Government Affairs Committee in that particular session.

But it was such a contrast in the sense that in that particular year this country was driven by divisive forces, the Vietnam War raged on, violence erupted on the campuses of America and this country faced the most severe domestic divisions certainly in this century. Today the country is united as never before as we celebrate the victory of those that participated in Operation Desert Storm whose own great victories in the Gulf transformed not only the world in that particular region but also has transformed our attitude here at home because we are united as a country. We celebrate and welcome their

return and as Nevadans we take particular pride that the air battle in the Persian Gulf was the most successful air operation in our nation's military history and the genesis of that occurred over the skies of Nevada. Every carrier wing that participated in the Operation trained at the Fallon Naval Air Station and every one of the fighter pilots that were attached to Air Force units received some measure of their training at Nellis Air Force Base. We take particular pride in our own Air National Guard which, as General Schwarzkopf said, was the eyes that he needed, to know when and where to take the appropriate action, and pride in the other reserve units in our own state and those who serve as professional military men and women.

But I want to pay special tribute to a very special person. I had occasion to meet her last night. I think if there is a symbolic difference that we see in this recent encounter that we had in the Gulf with our previous conflicts, it is the role military women are playing in our Armed Forces. Last night I had occasion to meet a young woman who graduated from the University of Nevada and received her commission in 1988. I happened to be there that day in a different capacity. She and her husband are both professional military officers; she an army nurse, he an artillery captain. They are the proud parents of a young daughter 17 months old. In August of this past year, rather shortly after the Iraqi invasion of Kuwait, this young woman was called up as an army nurse and deployed to the Gulf. A month later her husband was also called up and he too was called to the Gulf but in a different part of that area. I would like you to give a warm Nevada welcome to that young woman who came in last night and was reunited with her 17-month-old daughter. I am referring now to Lieutenant Irene Falk, who joins us this morning.

Irene has made us all very proud and she is joined here today by her father and mother in law, Byran and Valerie Falk and a daughter of theirs. We are delighted to have the family here and we hope your Captain will be returning within the next few weeks so your family can be reunited, and as Irene told us at the airport, to kind of get their lives back together and to bring their families together. You are one of the real heroes and we are just honored and pleased that you could join us today at the Nevada Legislature.

I think if there is anything that has been disappointing, however, in the great accomplishment that we celebrate with the victory in the Gulf, it has been that our two most economically prosperous allies, Japan and Germany, have failed to respond to what I believe is a minimal responsibility that the coalition sought to impose upon them.

As a nation we have expended blood and treasure to accomplish what was accomplished in the Gulf. We asked our allies in Japan and in Germany to provide financial assistance as their fair share. The commitment of the Japanese was $11 billion; to date they owe us $6 billion. There has been a currency swing between the yen and the dollar and now they are talking about paying in cheaper yen rather than dollars. The Germans who made a commitment of $6.5 billion still owe us $3.5 billion, and in the news media last week you probably saw the report that they are trying to see if they can negotiate down. Now it is one thing to say that they did not send military personnel. Indeed the Japanese at one point had medics in the unit when we anticipated casualties. As General Schwarzkopf indicated, miraculously that did not occur, but they even recalled those medics. So I have introduced a measure in the Congress of the United States to authorize our President, who so skillfully put together the coalition, and I am proud to say that each and every member of the Nevada delegation without reference to partisan affiliation stood tall to support the President when he asked for our support in that fateful Gulf resolution that we debated in January of this year but to assure American taxpayers that they do not bear a disproportionate burden, I have introduced legislation that authorizes the President of the United States to impose a tariff on all imported goods from those countries who made a pledge and a commitment of financial support but who have failed to honor that commitment of support. The President would be authorized to keep that in effect until such time as Japan and Germany, in particular, honored the financial commitment that they made early on, that they now seek to get out of. I think that is only fair and reasonable and I hope that we can get that piece of legislation on.

We are enormously prideful of what was accomplished in the Gulf. It is truly an opportunity for us to celebrate a great American victory. Probably no clear cut decision since 1945 and the end of World War II has occurred in terms of our military commit-

ment. But I must say that three times within the last twenty years this nation has received a body blow when we have seen instability occur in the Gulf because of our dependence on imported oil. In 1973 you will recall the OPEC oil embargo shattered our economy, long gas lines formed, we drove on Sunday with one eye on the gas gauge and one eye on the road because we were not sure that the gas station would remain open. Those of us in Nevada know all too well the vulnerability that meant for our own tourist-based economy and how concerned we were. There was an initial reaction to that. We did a number of things that were positive in terms of conservation, but we forgot that lesson before the decade concluded. The Shah of Iran fell, the Iyatollah Khomeini became the leader of Iran and again we had a tumultuous situation in the Middle East. Again oil prices soared, uncertainty occurred and the economy was racked with uncertainty. Again on August 2 of last year when the invasion of Kuwait occurred, you will recall that the oil market went crazy. The mercantile market of oil increased to $40 a barrel, and we were concerned about its impact in terms of inflation. I believe that all credible observers would acknowledge that it exacerbated a recession that was then just beginning to be felt across the country. I believe that it is in our long-term best interest as Americans that we develop a long-term policy in terms of our energy independence and our own security that never again will an American President be forced to make the decision that George Bush had to make last August which was to commit 500,000 American men and women to the Gulf to protect what has become an economic umbilical cord tied to the Persian Gulf where 70 percent of the proven oil reserves in the world lie and in which our economic sufficiency, our economic success in viability are still very, very dependent. I don't think that makes sense, and we have an opportunity in this Congress of the United States to do something about it. We import 50 percent of all of the oil that we consume in America. If you look at how we consume it, about 63 percent is consumed in the transportation sector alone and 40 percent of the total is the American automobile. The way most of us got to this chamber this morning, the way most of us conduct our day-to-day business whether it is going to work, to school, to take our families to recreational activities, and just to conduct our everyday activities of going to the market are essentially a part of our life. In 1975, the Congress, after the first one of those devastating shocks, imposed for the first time, fuel economy requirements on automobiles, then averaging 13.8 miles per gallon, requiring those automobiles to achieve an average of 27.5 miles per gallon. By so doing, we save ourselves today, permanently, each and every day 2.5 million barrels of oil. I propose that we carry on with the proven success of the 1975 legislation and require fuel economy improvements that will by the year 2001 improve our fuel average to 40 miles per gallon which will save us another 2.5 million barrels of oil permanently and reduce, to some extent, our dependence on this very volatile region. We could all rejoice in what happened, but none of us today would say that Iraq is more stable than it was before August 2. In the north, civil war rages as the Kurds fight the Iraqi government and in the south the Shiites are fighting the Sunni government of Iraq. It is a history of conflict and turmoil that goes back thousands of years, and yet our own economic security is dependent upon that part of the world so long as we allow ourselves to import, as we do today, 50 percent of the oil we consume. By the year 2000, analysts indicate we could be importing, if we do not change, 62-75 percent of our total petroleum requirement. I don't think it makes sense. I must say that as proud as I was to support the President's courage and vision in foreign policy, his proposals and that of his administration do not go far enough in establishing a natural energy policy, which must in part, include conservation and specifically target on our appetite for oil and how we might curtail that without changing our life style; but strictly saying, can't we do better than the 27½ mile per gallon average that we have today by going to, within the decade, something that would clearly make us less energy dependent.

This session of the Congress poses a particularly serious problem for us in Nevada. The Department of Energy and Admiral Watkins have proposed that Nevada's environmental laws have been superseded, that Nevada does not have the ability to go to court and to fight the Department of Energy in its relentless and unyielding attempt to locate a high-level nuclear waste dump in our state. Let me say that the Nevada Legislature in the last session, ably led by our Governor, provided a bipartisan response, and I was proud,

indeed, to be in Washington last week when the Governor, each member of Nevada's Congressional delegation and your Speaker and the Majority Leader were there all indicating that Nevadans remain steadfast in their opposition to the high level nuclear waste dump.

Because this battle began in January of 1983 when I first assumed office as your Governor, I think it is sometimes helpful to really focus on what we are talking about. So frequently we hear the esoteric arguments, scientists arguing the technicalities of hydrology and vulcanism and seismic numbers. I read a book recently which has in it a very pointed example of what we are talking about that no Nevadan ought to forget, and no Nevadan who has been entrusted by the citizens of our state, each of us who are elected as public officials, ought to ever forget. An accident occurred in Idaho in January of 1961. A nuclear reactor went critical and there was an explosion. Two men were killed instantaneously. A third individual as a result of the explosion of a control rod was impaled through the groin on the ceiling of the building in which the accident occurred. Let me just go on and quote, if I may, from the article: "Those parts of the corpses which had been covered by clothing were buried in lead coffins, placed inside of lead lined vaults, but the parts of the bodies directly exposed to radioactive materials, the heads and the hands, had to be amputated from their bodies and stored awaiting a final burial ground for the nation's high-level radioactive wastes because those parts themselves had become high-level nuclear waste." So we are not just talking about something that men and women can discuss and debate in laboratories and scientific symposiums. We are talking about something that has a profound impact on the health and safety of Nevadans, your state and mine.

I must say that as one who grew up in this state, that the more we know about the adverse implications of the byproducts of radioactivity, the less we seem to know. Last week as I was preparing for that testimony in which our Governor and the rest of the delegation participated, there was an article that appeared in the *New York Times, The Wall Street Journal* and the *Washington Post,* and in it was a study just released by the American Medical Association. That is not a group that is out there in left field, you can't very well pejoratively say about the American Medical Association that they tend to be some ultra liberal think tank. Let me share the results of the study that appeared in that publication. They analyzed the health of those men and women that worked in the Oak Ridge National Laboratories from 1945, to I believe it was 1982, as the base line of the study. The study concluded that the incidents of leukemia, cancer if you will, increased by 63 percent over that of other individuals in the same age demographic growth. That ought to be of concern to us. Then I checked back on my own experience as a youngster. I was in the eighth grade when the first atmospheric detonation occurred at Frenchmen's Flat at the Nevada test site. We came out there and saw the nuclear cloud and we were assured by the scientists of that generation there was absolutely nothing to be concerned about. No worry, don't worry about it. I was in high school when those convoys of soldiers went up to Camp Desert Rock to conduct an exercise in which men of our Armed Services were in trenches a few thousand yards from ground zero and those blasts occurred. We saw it, read about it, and we were so proud. My own high school class even placed on the cover of our year book, the picture of the nuclear cloud and the explosions that were occurring, and we were sure that it was absolutely safe. There is no self-respecting scientist worthy of that name today. Let me tell you that to detonate a nuclear bomb 90 miles from an urban center is something that is not safe and we ought to be concerned about those downwind. Nevadans, and those in our sister state, east in Utah, pay the consequence of that, and belatedly, the Congress just last year recognized the downwind legislation that said these people were entitled to some compensation as a consequence of that.

I must say that the litany of promises that we have received from the Department of Energy makes that agency's credibility unworthy of recognition. No sooner had the President of the United States in January of 1983 signed the Nuclear Waste Policy Act into law than the Department of Energy, which was supposed to provide funding to our state and other states that were being considered for the high level nuclear waste dump, refused to make those payments. Attorney General Brian McKay, in our state, and the Attorney General of Washington state and Texas moved forward to make sure that we got our share,

but we had to appeal all the way to the Ninth Circuit and ultimately go back to the Congress. We were told that our state would participate in the site characterization, that we would have input. We have had none. I must say when the original legislation was contemplated, there would be two high level nuclear waste dumps, one in the East and one in the West, so that there would be regional equity in balance. Unilaterally, the former Secretary of Energy, John Harrington, abandoned the site in the East and when the working papers of the Department of Energy were examined by a Congressional subcommittee on which no Nevadans served, it was learned that determination was made because of the politics that might affect candidacies in the East in the 1986 election cycle. Politics and not science have driven the process in my judgment. I must say that the experience Nevadans have had has not been a good one.

In 1989 Governor Miller and the entire Congressional delegation met with the new Secretary, Admiral Watkins, and he pledged to us we would be sure to have the adequate funding for the state office which you all have established here to conduct independent scientific oversight. Admiral Watkins failed to deliver on that promise. John Barton is now making his way around the state and trying to importune us that this is a good thing for us. Mr. Barton promised me and Senator Reid, in writing, that he would support that funding. Last year when there was an attempt to eliminate or more accurately reduce substantially that funding, John Barton was nowhere to be found.

Fifty years ago this December, this nation had an experience with the Imperial Government of Japan in which they spoke of cooperation and peace, when in fact, they prepared for confrontation and war. That is where we are with the Department of Energy today. Peace and cooperation is all they seek they say, but they prepare for confrontation and war. I would remind Admiral Watkins, who had a distinguished career in the Navy, that he may recall on that fateful Sunday of December 7, 1941, there was only one ship, only one battleship that got under way that day in Pearl Harbor, and that was the USS Nevada. That tradition and that legacy is with us today and we are going to stay under way. We will never surrender, there will never be compromise with the health and safety of the people of the State of Nevada, and Nevadans are not for sale.

Let me in passing show you something that caught my interest just yesterday. Some of you are involved in real estate and you have heard the old refrain, in real estate three things are important: location, location, location. Let me tell you how they are trying to advertise and to promote our state. This appeared in a technical publication, full page ad, and it says with the inviting and lilting language of, "Are you looking for the perfect home for your hazardous wastes." Under that they have got, location, location, location and then US Ecology tells us in this ad of the low level site in Beatty, Nevada, which many of you are aware of that has both a low level nuclear component and a toxic waste site. This is the way Nevada is perceived and is sold by so many who do not know about our state. I am proud that this legislature and Governor Miller have taken a very strong public policy position. What is at risk here is not just what happens in this session of the legislature or to those of us who serve, we have a responsibility of long term. Our kids and grandkids will hopefully profit from the mistakes that each of us has made in the past and those that preceded us, and will develop the policy which protects and defends for the future. I believe you are doing so with the kind of bipartisan support that you provided on this issue.

Let me talk about a couple of other issues briefly, if I may. The Trojan horse of ancient Troy has been reassembled and is moving out from Washington to each of the states. First they tell us they are going to give us $15 billion and you can do with it as you want at the state level. I have to say, as a former Governor, that has a certain appeal but you always want to take a look at what you are being given. When the Federal Government comes into town and speaks to the legislature and Governor and says, "We're here to help," let me suggest that you want to have the smartest and brightest people on your staff to look closely between the lines. I think that what you are being asked to do is to accept something that will free an unwelcome consequence for you as you deal with the very serious financial problems that our state faces in this session.

There is another Trojan horse in the form of the administration's highway proposal. It is going to change the formula allocation as to how money comes to us in Nevada from the

states, a formula in which at the present time we receive $1.37 from every $1 that Nevada motorists pay into the highway trust fund. They are going to try to change the match which for many, many projects is a 5 percent match, change that so that the state would have to in some instances have a state match of 40 percent and they are saying it means more money for the state.

Let me suggest that we have an answer for them. One of the great budget frauds has been perpetrated at the federal level, one for which each of you as members of this legislature would face a recall; if you tried to invade a trust fund and use that fund for a purpose for which it was not intended, if you'll pardon the vernacular, "all Hell would break out," as it should.

The Highway Trust Fund is comprised of dollars that are paid at the gas pumps. Federal gas taxes which are paid go into that Highway Trust Fund. There is about $9.5 or $10 billion in that fund that's being withheld. That money may be, in effect, loaned to operate a federal deficit.

We have legislation that we introduced in the last session and again this year to release the trust fund and to allocate those monies for the purpose for which they are entitled, namely, highway improvements. By so doing, we would add $20 million more each year in highway funding in our own state than is presently allocated, more than any of the changes contemplated by any of the administration's proposals. It makes sense, it's fair, it's honest. We need to do that. I recognize, and I applaud the action of this legislature in making the decision which they did in passing, just recently, the legislation to provide for additional monies for our own highway program.

Let me just mention one or two other items, if I may, and my time is limited. You all have been debating, as we have in the Congress of the United States, what type of new ethical legislation you want to pass, what kind of standards you want to establish for yourselves and for future members of this legislative body and all state and local government elected officials. I applaud you for the effort that you are making. Tough questions are not easy questions, I understand that. In fact, I heard Senator Wilson yesterday describe that ethical package, and I went over there to make doggone sure that they weren't retroactive. They are not. But no campaign reform at the federal level should be dignified by the name of campaign reform unless we address the fundamental problem in our elected system. Not only at the federal level but at the state level.

The cost of running for public office in America, whatever political affiliation because this is totally nonpartisan, is a national disgrace. And you and I are part of that system. I have a great deal of sympathy because in order to be competitive, you've got to go out there and raise those enormous sums of money. I'm working on legislation this year which, I hope, will have bipartisan support. We worked on it last year and we were not successful, but we need to enact a truly meaningful campaign reform which will limit the amount of money that we spend in running for public office. By so doing, I think that's the most important ethical reform that we can adopt at the federal level. I can tell you, there is not a week that goes by, not a day, Monday through Thursday of each week, in which members of Congress—Democrat, Republican and now there is a Socialist in the Congress as well, so we want to include him—that is not out there raising money for that next election, two, four, six years down the road. That, in my view, is the most disappointing and the most potentially dangerous thing in terms of our American democracy. We've got to get a handle on the election process and we've got to reduce the amount of money spent.

Let me conclude with a couple of things that we're trying to do that I think do work in tandem with you. A number of you have written us about "notch babies"; Social Security recipients who receive less than those who are slightly older and who receive less than those who are just slightly younger. We've introduced a piece of legislation which we hope will correct that injustice. I know you get calls because you contact our office. It is overdue. Over the last 10-15 years we've tried to get something like this done. We've made some headway, I think, because you hear a lot about the Medigap policies, particularly in our state, where health care costs are so high. We had testimony in Las Vegas where some people had 12, 15, 20 Medigap policies. We've tried to make those much more simple and understood. Hopefully, that will be helpful as we grapple with those problems.

No session of the Nevada Legislature since I have served, has not had a bill dealing with mobile home owner problems, because that represents an increasing percentage of the way people in our state live. In the last session of the legislature, we were successful in staving off a bill that would have stripped mobile home owners of any of the rights that they enjoy under federal law. A mobile home commission is being established, and I hope to see that a Nevadan is appointed to that.

Finally, in a rare and refreshing moment of honesty when it comes to the federal budget process, we finally took the Social Security Trust Fund off budget so it's not commingled as we look at the accounts of the Federal Government.

Nevada led the way after the tragic hotel fires in southern Nevada a decade ago. The last session of the Congress passed a national Hotel-motel Fire Safety Act in which many of the provisions that were wisely put into law here in Nevada now have become a national standard. That, I think, is positive legislation.

Another area is penny stock fraud which I know the Secretary of State and the Attorney General's office are very much concerned with. Legislation is moving in that area as well.

The problems with telemarketing which continue and which, I know, occupy much of your own time are still before us at the federal level, and we seek to work in tandem with you in that respect with a piece of legislation that we moved a long way last session but did not quite get through.

I've been interested in a piece of legislation which is the most important thing we can do to make our automobiles safer. That is to require air bags in automobiles, both on the driver and the passenger side. I must say that the most dramatic example came just a few miles from Washington, D.C., in which two automobiles, each driven by an owner that had an air bag in the car, collided at 35 miles per hour, a head-on collision with the equivalent force of 70 miles per hour. The vehicles were mangled wrecks, and we hope to have those out here so that people can see them and know what's at risk. The Virginia Highway Patrol officer coming upon the scene said, "I was fully prepared to report at least two fatalities." By the time he got to the scene of the accident, both drivers were able to get out of their cars and just had minor bruises. We can save as many as 9,000 traffic fatalities each year by this simple piece of legislation. The technology is there. The air bags are already available in some of the larger automobiles. That is something we hope to pass into law during this session to make our highways safer for all of us who drive.

Let me just say by way of conclusion, I am not unmindful, just as we in the Congress are not among the most beloved in the land, that occasionally, you come in for a little criticism yourself. Once in awhile the media is a bit harsh, occasionally a constituent does not understand the full effort that you are making on his or her behalf and there is criticism sometimes that is unwarranted. It is far easier to criticize than to do.

We thought in 1969, when Senator Reid and I came up as two rookies into this chamber, that we could solve all the problems of the state in a matter of what was then a 95 day session. I must say your problems are so much more complicated, so much more difficult than the ones we grappled with. The numbers have grown so much larger and the implication of each of your decisions is so vastly more complex than those rather idyllic days of the late 1960's, when I first dealt with these kinds of issues.

I want you to know that those of us at the federal level suffer from some of the same types of constraints as you do. I am not one to believe that all wisdom resides on the banks of the Potomac. Much of what you do is trendsetting. Much of what you do in terms of the integrity with which you handle the fiscal process and the difficult decisions that will surely bring much criticism and relatively little joy among your constituents, are the kind of things that we failed at the federal level, over the years, to own up to. I just want you to know that a lot of us appreciate what you're trying to do. We understand it and we offer to work with you in a spirit of friendship and camaraderie in a joint federal and state partnership which is the sole charge and responsibility that each of us has as elected public officials. Do your best to make this a better America, a better Nevada, and do it working in a spirit of harmony and goodwill. I, for my part, intend to offer that hand of friendship to each of you. Thank you so very much.

MESSAGE TO THE LEGISLATURE OF NEVADA
SIXTY-SIXTH SESSION, 1991

Thank you, very much. Good morning to all of my friends in the Nevada Legislature; Nevada Supreme Court representatives; representatives of the administration and honored guests. Also, my wife is here, Mikie is sitting with Assemblyman Porter. She came back to Carson City because she wanted to see so many of our friends, too.

I look out on so many of the people that were here when I was here just a few years ago, actually five years ago. Senator Vergiels, Senator Neal, Senator Horn. So many of you were close to me, and we ran around together up here. I remember so many battles that we had back and forth, and we used to think in the old days how hard it was. I could never understand how the Assembly could get anything done with so many members. Now, I look back on 42 Assemblymen and I sit in the House with 435 House members; I can see how you get things done. I can't see how we can get anything done, I'll tell you that.

I sit on a committee on Armed Services that has 52 members, just on the committee. As a junior member, you sit on that committee and you wait under the five minute rule to be able to ask a question, and if a key person is there, like Colin Powell or Secretary Cheney, you wait for everybody to go through their five minutes. Of course, the senior members have learned that the way to do that is to ask their series of questions in their five minutes and then wait for Administration officials to answer in the next ten minutes. So if you're down at the end of the list, you can anticipate that you will wait four hours before you can

ask your first question. Of course, what happens nine out of ten times, the Administration witnesses come in at nine and have to leave at noon. So the poor junior members never get to ask a question except on rare occasions when senior members don't want to be there because the witness is not important to what they have in mind at the time. I look at subcommittees, and I think of the committee structure that we had here. We had seven member committees in the Senate, which I thought was a very workable number; and we had larger committees in the Assembly. But again, even our subcommittees within the committees, sometimes sit 20-25 members and that is where most of the work is done. Looking back with fond memories on the Nevada Legislature, we're geared in this Legislature to get things done, to move forward and get legislation passed in a reasonable period of time. Although, I personally believe we got it done in a much more reasonable time in 1983 and 1985, and hopefully, this year you'll get it done in a more reasonable time. When I was looking back with nostalgic memories of serving here, when I saw what happened last session when you were as long as you were, there was a wave of relief that went over my body that I wasn't here that particular session. I remember the end of every session when all of us would leave. Senator Horn probably loves the Legislature more than anyone I have ever known in creation. I loved being a Senator more when we were home than I loved it when we were here. Senator Horn loves being here on a continual basis, and even Nick at the end of the session would say, "I'm never coming back again. I will never run again. I will never serve here again and I will never come back." But like a woman having a baby, I think after the session is over and the 18 months intervene, at the end of that time you've forgotten what it was like in those few days when all chaos broke loose, and we thought, "what is happening up here." You do miss it here, and I am proud to be one of your alumni. I wish I could be up here for your alumni meeting coming up, but unfortunately we're in session on that day. My heart will be with you because, as John F. Kennedy said, "I am still always a member of the State Legislature."

Two years ago, this was a different world when I spoke to you. The cold war, although cooling down, was far from over. The Warsaw Pact still existed and Germany was a divided nation. The changes which have taken place have been dramatic in that two years. The Warsaw Pact is now a part of history. Germany is reunited, and the Soviet threat to world peace is diminishing with each passing day. In fact, I was invited to a meeting this month of NATO and where was the NATO meeting going to be? In Prague, Czechoslovakia. That is really something none of us, two years ago, could have ever foreseen that countries like Poland, Czechoslovakia, Hungary, Bulgaria, Romania, etc., would be free from the Soviet occupation of the last 40 years. It's just remarkable. Even the Soviets showed up at our North Atlantic Alliance Meeting, which is the political wing of NATO. In fact, jokingly I told a Soviet official the other day, "When are the Soviets going to join NATO," and he said, "Hopefully in the next few years." I think that was joke, but I'm not sure.

When Congress adjourned for its August 1990 break, all of us thought a new era of world peace had begun. Just a few days later, Saddam Hussein would shock us back to reality. This tyrannical egomaniac invaded a defenseless, friendly nation. The rape, pillage and mass destruction that followed can only be compared to that of Hitler, or Pol Pot in Cambodia. I met with the Emir of Kuwait shortly after the invasion. The stories that were told to me were uncanny. The things that were happening to Kuwaiti citizens, most of you only became aware of after the fact when we liberated Kuwait. These things were going on. We knew about them; that is one of the reasons the decision was made to go in and free these people because it couldn't go on forever. We could not allow the rape, pillage, and the murder of innocents to go on and look the other way like we did in 1939 when Hitler's Germany began the extermination of those that they felt were inferior people.

The President's decision to send troops into Saudi Arabia was a correct one. In January, 1991, Congress authorized the use of force against Saddam. The entire Nevada delegation supported it. Both democrats and republicans supported the decision of the President. We thought it was necessary. We thought that if this kind of message were sent out to a reasonable man, it would show that the U.S. and her allies meant business. But Saddam

Hussein showed us he is not a reasonable man. He still believed our resolve was weak. He believed that the ghost of Vietnam forever tainted the soul of America. He found out how wrong he was.

Recent reports show that Iraq has been reduced to a preindustrialized nation status. The country is in havoc. It's in throes of civil war. I recently called on the floor of the House for the President to aid the Kurds. I think we should take an active part. We should not allow what happened to Kuwait to happen to the Kurdish people in northern Iraq. I, for one, don't care if Iraq is divided into one or two different nations. That's the price they'll pay. The Kurdish people have existed from the time of Alexander the Great. They were there before the Arabs ever entered Iraq. They were there before the Turks entered the Anatolian Plateau. The Kurds were the armies that fought Alexander's armies when they left Baghdad after the death of Alexander. They're four thousand, five thousand years old as a culture. They need our support. They need our help, and I'm hoping the Administration in the next few weeks will help the Kurds in their fight against this tyrannical oppressor, Saddam Hussein.

As a member of the House Armed Services Committee, I sat through days and months of briefings on the crisis. In fact, I told my wife people went home at night and watched CNN or other television broadcasts about the war. I was in shock from nine o'clock in the morning till late in the evening. All I heard was the war, the war, the war. We had briefing after briefing from General Powell, General Schwarzkopf, and Secretary Cheney telling us what the goals of our military were, and that we intended to engage in a war that we wanted to win. The first attacks on Baghdad were made by F-117's, the Stealth fighters, once based at Nellis Air Force Base. Those were the first fighters. In fact in the first 48 hours, 40 percent of all missions against the Iraqis were by Nevada based fighters. They delivered 40 percent of the attacks even though they only made up 5 percent of the aircraft in the Persian Gulf. They were remarkable. Not one F-117 was scratched. They never knew what hit them. They came right in and delivered bombs in such precision; it's unbelievable. The photographs from satellites are unbelievable. They could put a smart bomb from a F-117 right through that window over there. Not this window if they didn't want it; they could put it in that window right there and deliver it right on the Speaker's rostrum if they wanted to. That's how our technology is going.

I had a request from a young man, a Nevadan, who is a marine. It is Corporal Ed Walsh. He wrote me a letter and said, "Congressman, I'm driving an attack vehicle here in the Saudi desert. I'm going to be in one of the first waves that goes in, and I'd like a Nevada flag to fly on my vehicle." We hustled around and sent him one. I got a letter from him the other day. He said his vehicle went into Kuwait in the liberation. All the way in, he flew the Nevada flag. He's sending me pictures, and I'll get copies to all of you. The Nevada flag leading the attack into Kuwait because he wanted not only the people from all states, but he wanted the people in Kuwait and the world to know that Nevadans cherish their freedom like everyone else, and they were willing to fight and die for freedom for other people around the world. We compliment Corporal Ed Walsh, and I will send you all a copy of that picture because I think it's something that should be hung here in the Nevada Legislature.

In closed hearings before the House Armed Services Committee, General Powell scoffed at projections of 10,000 casualties. He scoffed at the reports going out from the press everywhere that we sent 10,000 body bags to Saudi Arabia to return bodies if that was the case. He estimated that we were running a smart air war. Our casualties in the air were minimal compared to what we expected earlier, and even those were going to be minimal. He also said he wondered why people thought we would run a dumb ground war when we ran such a good, effective air war. He said we would run a good, effective ground war as well. You know what happened, he predicted light casualties, but even he was astonished at the lightness of those casualties. There is no question in the world that we ran a smart air war, we ran a smart ground war, we were very effective in this war, and we will continue to be an effective military in the future.

The Armed Services Committee studied every new development of this war. Many of the weapons systems used had been approved in some cases, like the Patriot missile, and saved by the Congress. I don't think people realize in the 1980's the Administration

decided the Patriot was not an effective weapon and had it scheduled for cutting. Both sides of the aisle, Democrats and Republicans, fought to keep the Patriot. In fact the person who led the fight in the U.S. Senate was a then-Senator from Indiana by the name of Dan Quayle who fought to keep the Patriot against Ronald Reagan and the Department of Defense, who wanted to cut it. We decided to keep the Patriot. We thought it was effective, it would be good in conventional wars, even though at that time everyone said there would be no more conventional wars—the big one was coming with the Soviet Union—that was going to be the big war—and the Patriot would not be effective. Congress felt that the more likelihood of conflict in the 1990's and the turn of the century was limited ground wars of the size we fought in the Gulf. We kept the Patriot in the budget. It was there when I came in and we keep it funded on the Armed Services Committee, and that is why the Patriot was available to be used in Saudi Arabia. If it had been cut in 1981 or 82, we would not have a Patriot missile and we would have not had the effectiveness to keep Israel out of the war. And believe me, if we had not been able to knock down the Scuds from Iraq, Israel would have entered that war, and it would have been a lot more bloody war because some of our allied states would have probably sat on their hands at that point and we would have fought that war alone except for Britain and France.

Let me tell you something about the British. When the last Americans lined up against that wall and no one else was there to fight with us, the British would be there fighting with us. They are our strongest ally in the world. The only criticism I got from the British when I met with some of their leadership the other day is they think we should go all the way to Baghdad and take the guy out—they think we've only done it halfway and they think we should go tomorrow morning.

Our committee also kept intelligence briefings on the Soviets. We have had a tremendous rapport with the Soviets over the last two years. Since I was here the last time, our committee made up of about 20 of us, went to the Soviet Union for fourteen days. This was not a junket. We didn't stay at the nice hotels, we stayed at military bases all over the Soviet Union, from Alma-Ata, Kazakhstan to outside of L'vov to an armed unit with T-72 tanks, all the way down to Sevastopol where we stayed on a Soviet cruiser, and out to missile sites up above Moscow. They opened up these spaces to us. We went right down into the silos where the control centers were where two Soviet officers were there to push a button on each side. Of course, my first question was, where are these aimed at? I couldn't get an answer to that. It's kind of scary that one of them might be aimed at the United States, which probably most of them were, or at Nellis Air Force Base. But we went right down in those bases. The Soviet generals were kind of dismayed, you could see the look on their faces—here are a bunch of American politicians going down into those bunkers that even Soviet citizens had never done. In fact, the Soviet colonel that took us told us it was off limits to him. They didn't even have roads that we think of as roads—I mean something the State Department of Transportation can look at. They took big pieces of cement and stacked them side by side like cobblestones. We went out there about 80 miles by bus the whole way across the country. I'm just joking, State Department of Transportation, I hope you know that. But it was not the kind of roads we talked about because no one ever went out there except the military. They took us right down to their most classified areas because they are trying to open up to us.

During the war there was criticism of the Soviets at times because of their participation in trying to obtain a withdrawal from Saddam Hussein from Kuwait prior to the launching of a ground war. Let me tell you. We did not discourage the Soviets from doing that, in fact we encouraged the Soviets to take part in the process. We still hoped up to the last hour that Saddam Hussein would come to his senses and would leave Kuwait peacefully. The Soviets kept us apprised of their negotiations; they kept us apprised constantly of everything going on. They were a staunch supporter of us during the war; they continue to support us in the peace process. They've not vetoed one resolution in the United Nations that we've proposed; they, in fact, have voted for practically every resolution that we proposed, and the U.N. is functioning like Franklin Delano Roosevelt, Churchill and the others envisioned the U.N. would function in 1945. It can and will be an effective way of obtaining peace in the world as a new world order takes place, a new world order where big countries cannot cannibalize small countries, where the meek do not have to be fearful

of the mighty. The fact is, the U.N. can be a voice working in conjunction with the world powers. The Red Chinese also participated. They cooperated but not like the Soviets did. There is turmoil in the Soviet Union right now; they are in a state of terrible problems. There will probably be a return to some sort of dictatorship, but at the same time we have no evidence from our intelligence sources that the Soviet Union is changing any of its capability from defensive to offensive. Over the last few years, they have changed their whole military policy to a defensive position. Nothing in our intelligence reports shows any evidence that the Soviet military is changing. They are modernizing their force like we are, but they are not increasing it; they've withdrawn almost totally from eastern Europe, and by the next two to three years, they will be out of eastern Europe. Those emerging democracies will be free of Soviet domination for the first time in nearly half a century.

Let's all rejoice in how this war went. We kept the casualties to a minimum, but as General Schwarzkopf has said, "any loss is too great." We also anguished for the Iraqi people. They have suffered so terribly in this war. We don't have any estimates of what the total Iraqi casualties were. We know that we bombed bunkers that caved in when we hit them. We don't know what was under those bunkers. In some cases we've heard that there was a battalion of soldiers underneath there when they caved in. Casualties could well exceed 150,000 dead at the present time, just the military dead. And right now we know what is going on in Iraq, hundreds of thousands of people will probably die in the rebellion of both the Kurds in the north and the Shiites in the south. This massacre is going on, the war is going on, and let's hope that soon Saddam Hussein will be out of this world and brought to trial as a criminal, which he is, a war criminal.

I would like to tell a little story first of what General Colin Powell told me about how well our units worked. You know, we have tremendously superior military equipment. We proved that in Iraq. The Russian aircraft and the mirage aircraft from the French didn't stand up at all against our planes. Let me tell you something, people talk about the Iraqi aircraft pilots being weak, that they didn't know how to fly their aircraft. Let me tell you, the mirage aircraft people were really trained well by the French. In fact, that is one of our biggest bones of contention right now after the war is over. Why should our ships and their ships, the French and the British, have to worry about missiles supplied by the French hitting them off the coast with our own technology transported to the Iraqis and the British technology sent to the Iraqis. What we found in dealing with them is the fact that even the well-trained pilots the French trained from when they were enlisted all the way through training in France; if they didn't meet the muster of what they thought they could do and perform, they were sent back to Iraq and a new pilot was sent out until the mirage pilots turned out to be as good and as well trained as any French pilot. They were very effective against the Iranians, they just virtually destroyed the Iranian aircraft, but the fact was when they came up against the American Navy and Air Force pilots, they weren't even close to being a match. Our equipment was far superior, our training was far superior. We don't have to worry. In fact, one of the things that came up recently was a friend of mine from the Academy of Sciences in Moscow who is a good friend said the Soviet military is in awe of the American military high technology. They thought the Soviet equipment could stand up against the American equipment. They found that it couldn't. Their air defenses were useless, their planes could not compete with our planes, their tanks were utterly destroyed.

Getting back to what I mentioned about General Colin Powell. He told me a story about an American armored division that was coming over a ridge and down into the valley; it was a terrible day; it was raining and there was fog and they could only see about 500 meters in front of the tanks. But the high-tech visability equipment that they had was so fine tuned that 2,500 to 3,500 meters away they spotted an Iraqi republican guard division heading straight for them. They didn't know the Americans were there. The Americans sighted in, they waited, and when the Iraqis got within range, they started picking them off. Within the next few minutes two-thirds of all the Iraqi T-72's, which were their best tanks, were destroyed. The remaining tanks turned around and started to high-tail it out. The American tanks pursued but our M-1 tanks are faster. General Colin Powell referred to what they shot, but I'll say the rear end of the tank, and they blew them apart. Not one

Iraqi tank escaped that day. They wiped out an entire republican guard division, the elite, the ones that were supposed to be the tremendous troops. Every single tank was destroyed, and not one single American tank was hit, not one was even damaged in the least way. That's how our equipment has stood up, and that's what everybody in the world is in awe of. In fact, a comment was made in committee the other day, we don't have to worry too much about the Russians selling military equipment to the Third World because no one wants it. They want American high-tech equipment because it is far superior to any other.

Not everything in the war, however, went like clockwork. I don't want to give you a false impression. This year I sit on three subcommittees, on Procurement, on Mil-Con, and on Sea Power. I always joke a little bit, from a landlocked state like Nevada, I keep asking for a naval base at Nellis on Lake Mead, but I can't get them to put one in yet. I guaranteed we would be immune from attack in that position. We found that our own sealift was inadequate. We had ships in mothballs sitting around San Diego, Norfolk and Newport News that were not in good maintenance when we took them out of mothballs. We found that we didn't have adequate airlift to get our troops over there, and one of our fears is that if next time we have one of these conflicts—and God forbid we ever have one—let's hope we never have another one—but if we do have one, will we have four months to prepare for it and to move the troops from the United States or Europe or Asia to that particular hot spot and get prepared. Saddam Hussein gave us adequate time to get ready, but would we have been ready if we had to go in a hurry? So we're concerned on airlift, we're concerned on sealift. Money will be spent in that area in the next few years to increase our capacity to move from point A to point B in a minimal amount of time.

Some of you have asked me the question, now that the war is over—first let me point out the war is not over, there is only a temporary truce. We hope it's over but it's not over. But when it is over, and hopefully that's shortly from now, what will happen in this country. I have been asked by both sides of the aisle here, what is going to happen with the military. Are we disregarding all the cutbacks and the peace dividends that we projected to have after the cold war came to an end, or are we going to continue with this massive military buildup that we experienced in the 1980's. I think it's a good question because one of the problems we face is, where do we get the money to fund the federal deficit that we have today. Let me tell you, we are continuing to cut. The Administration is moving forward with the cuts that we proposed before this war. Everything is on schedule. The military will be cut one-third over the next five years; that means one-third less personnel will be in all branches of the service, and military personnel make up 50 percent of the cost of the military budget. Some of those losses will be sustained in the reserves and guard, but the majority of that loss will fade away and be gone. That doesn't mean that the United States, and some of you are concerned, will have less national security. We hope that by the cuts we make and the projections we've made, we will have a "meaner and leaner" military machine. We believe we can do it. It is going to be done over five years, and, in fact, you will find that the military budget in 1995 will be less than the military budget in 1989. That is remarkable because in the 1980's the average increase in the military budget was somewhere between 10 and 14 percent. So we're talking about cutting the budget and having less money spent in actual dollars which cannot be inflated for inflation. This is actual dollars being spent on the military in 1995, less money than was spent in 1989. That is very important because the budget summit that we just passed in 1990 called for spending caps and what the budget will be. Of course, one of the problems we have is the fact that everything has kind of fallen apart in that budget agreement because of the recession and the war. The recession is deeper than anticipated, it is causing us more problems, and our deficit is going to be larger. The projection was that by the mid 1990's we would have a balanced budget. Now, as we always hear, we're talking about the end of the 1990's as the time we can have a balanced budget.

How does that affect you? It basically means that the federal government cannot be as good a partner as it has been in the past. Now, some of you will say we haven't been a very good partner in the past anyway, but we are going to be less of a partner in the future. Many of you sitting in the money committees right now know what has been happening. More and more programs are being sent from the federal government directly to the states,

and we are giving you very, very little money to fund them. Where we are giving you money to fund them in the future, we are saying that you have to make up a bigger and bigger share of that pie. You are having all the special interest groups coming to Carson City saying, "Don't cut my program. You have got to match dollars with us for the federal program that has been created." You are under tremendous pressure to perform these programs. That is going to be the way of the future, unfortunately. I wish I could come up and say, "Hey, for the next couple of years, things are going to change." It is going to get worse. The pie is getting smaller and smaller that we are going to be able to give you a slice of.

Our delegation works well together. Not only the two Democratic Senators, Congressman Vucanovich and myself work well together. We work well together to try to get a fair share, a name that I love, of the monies for the state of Nevada. We continue to try to get those monies here and we will get our fair share of those dollars, but the pie is so thin that even our fair share is going to get worse and worse. We are going to send back this money to you, and you are going to have to do the things you have to do, either cut programs or raise taxes. We give you no choice. I am sorry but that is the choice we have.

On our end, we are going to have to do the same thing that you are going to have to do here. We must trim government bureaucracy. It is too bloated. It is in terrible shape. Unfortunately, we found being back there that the only people who know how budget bloated it is and where all the budgets can be trimmed are the bureaucrats themselves, and they are not telling. You have the same problem here.

I remember years ago when Governor O'Callaghan was just elected, and of course, Mike had worked in the bureaucracy. A couple of his department heads that he had appointed came up and said, "I need more people here and I can't function unless I have more people, and so forth, and we are losing revenue if we don't have more people here." I remember Mike telling me the story how at that time he got up and he said, "Listen, I have been in the bureaucracy all my life and I know what you are telling," and he said it in little less polite terms, you know Mike O'Callaghan, but he said, "I want this knocked off right now. You don't need all these extra people, you can function with less people and you can do the job with less people." We have got to do that on the federal level, we have got to cut the bureaucracy, and you have got to do it here at the state level. It is a tough job. I know that the Public Employees Groups don't like this little comment. I am sorry about that but you know yourselves that we have got to get this thing under control. We have got to pay our people well for the jobs they do but we have got to get the budget under control.

In our area we have got to get procurement mismanagement down in corruption. We are being ripped off constantly by defense contractors and others that overcharge and overstate the cost of their goods. We have got to save millions in defense and other areas in government procurement and you can look at the same. We have got to manage our assets much better on the federal level. Something that is very controversial, something my own party does not like very well, but what we have got to do, and do it now, is give the President of the United States the line-item veto. I would like to work within Congress to reform the appropriation process. I would like to come back to you and say, we can do it ourselves but it has become so corrupted within our own system that people in higher echelons of the Appropriating Committees are able to put special interests, pork barrel types of legislation in, and the members as a whole cannot do anything about it. What happens is, they put money into programs that are in the massive budget items. For instance, if you have an appropriation of $15 billion, you have to vote against the entire appropriation. You may have problems like money for veterans, veterans hospitals, housing for the poor and programs that you know are well needed. At the same time, a Senator from North Dakota can put in $500,000 to establish a Lawrence Welk Museum in North Dakota. Now how do you cut it out. You cannot go to the Rules Committee, because the Rules Committee will not give you a rule to put an amendment.

In the House of Representatives, the Rules Committee is all powerful. If in this particular case, Myrna Williams wants an amendment and she goes before the Rules Committee and says, "I want to take out the $500,000 for the Lawrence Welk Museum," unless the Rules Committee says, "You can introduce that amendment," you cannot make

that amendment on the floor, so you cannot take it out. In most cases, the people that are putting it in have cut a deal with someone else. The Rules Committee will not take it out. Now we just passed last week a resolution taking it out.

I saw in the paper today that Lawrence Welk now says he wants the $500,000 to go to the museum. I also know that the Congressman from Idaho, where his wife and daughter live, told him just a month ago that the grant was an embarrassment to the Welk family and that they would have rather that it had never been put in. That is just one little seed of the problems that we face back there. I can't get it changed. Senator Bryan can't get it changed, Senator Reid or Congressman Vucanovich and the majority of members can't get it changed. We have to give the President the ability to cut some of these items out. I will presume that any President, Democrat or Republican, will exercise that right very limitedly and will not arbitrarily cut good programs out. If he does, we still have the right to override his veto and put these programs back in. Members will not tolerate decent programs being cut without overriding him. The fact is, we have got to get the process under control because the federal budget is bloated and has to have some of these "special" projects cut out.

Also, the states should continue to exercise their rights under the Tenth Amendment that declares "the powers not delegated to the United States by the Constitution nor prohibited by it to the states, are reserved to the states respectively." The states are all too eager in many situations to advocate their choices to Washington. Unfortunately, since I have been back there, I have found Washington is all too willing to take over and start legislating in those areas. Whether it is gun control, whether it is women's issues, franchising, taxes, the federal government would love to do all the laws for you and set them all up for you from top to bottom. Believe me what some people from California, Maine, Illinois or Louisiana feel about certain issues may be 180 degrees from what Nevadans feel on those same issues. I think it very important that the states hold the rights they have, cover areas. I mentioned franchising. Let me tell you there are twelve states that have franchising laws in this country. The federal government is going to come in and preempt them all in the next few years unless states do something about franchising. That is just a small minute area. We are going to come in right down the line and we are going to write federal laws instead of uniform laws that maybe each state will work together and try to handle. We will take those powers from you. I think it is very important that you exercise those rights. You correct and you make sure that on personal issues and business issues that the state writes the laws, not the federal Congress because, believe me, you are closer to it, you understand the problems. You can do it much better than the United States Congress can do it.

In closing, let me compliment you on something very near and dear to my heart. I would like to thank you for passing A.B. 204 and S.B. 202. These are positive pieces of legislation which force a small bit of fairness into the NCAA process. Other states will follow and hopefully the Congress will pass legislation that will compel the NCAA to adopt meaningful due process in their governing of member institutions. In the next few weeks, myself and many, many cosponsors, we hope up to 80 to 100 cosponsors, will introduce legislation that will compel the NCAA to give due process on the national level. We believe that this year is ripe for it. As our UNLV Rebels are back there in Indianapolis winning, without doubt, their second national championship, we will be here in Congress fighting to make sure that legislation addresses what they said and what was brought up by the cases that Coach Tarkanian has brought against the NCAA. I urge all of you to read a book that just came out called *Undue Influence*. You read that book and if anyone can read that book and at the end think that the NCAA is not a star chamber type of proceeding, boy I tell you, they did not read the book or did not read the same book that I am reading. I would like to compliment all of you. You took the courageous stand, you did not buckle into the NCAA. They are running a lap around the hill right now like a bunch of beetles, trying to cover every office, trying to kill this bill. They will continue to do it across the country. Your courage, you did the right thing, which you usually do here in the Nevada Legislature, and I am sure you will do the right thing the rest of the session which is something to be admired. That is why I say, I am proud to be an alumni of your legislature.

You know, I offered four years ago that I would open my office up to all of you. Some of you have used it effectively. The Public Lands Committee uses my office like it is their office. In fact, I walk in half the time and they are behind my desk using my phone. That is okay. I expect Jack Vergiels is laughing, he knows who I am talking about. Anyway, we are open to you. My office will help you with scheduling. We have said that before. We will help you set up appointments. Sometimes your staff has called up and said, "I can't get in to see Bruce Bento, head of Public Lands or I can't get in to see George Miller" or "I can't get in to see this person or that person." I will get you in to see him. We will open those doors for you and we have done that. Members of the Public Lands Committee can tell you that. A lot of you don't use it like you should.

I don't care if you are Republican, Democrat or now a Socialist, we have in our federal government, I don't care what party you come from. If you are from Nevada and you are back there and you need help, you come to my office, we will help you. We will be your message center. If you need messages called in there, passed over to you, you can call in, we will do that for you. I offer it, my office is your office. It is Nevada First Congressional District but it is for the whole state. Continue to use my staff, continue to use my office, continue to use my phones, whatever else you want to use, and we will continue to help you get things done for this state. Like I said, you have done a great job, you are a great Legislature. Thank you for having me and God bless all of you.

## MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, March 27, 1991

*To the Honorable the Assembly:*

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 31.

MARY JO MONGELLI
*Assistant Secretary of the Senate*

## MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 31.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans and Haller.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. August of 1990 was a very sad time because Nevada lost one of her favorite sons, Dr. Louis Lombardi. Dr. Lombardi was a devoted husband, a loving father, grandfather, a distinguished physician and a community leader. As it said in the resolution, he was a native of Reno, graduated from the University of Nevada, took his medical degree from St. Louis University and returned to Nevada to begin his clinical practice.

When the war began, he answered the call to duty, served in Guam and Iwo Jima, and came home highly decorated. Although Dr. Lombardi's passion was medicine, his great love was the University. He did serve for over 30 years as University Regent. When Dr. Lombardi began as a University Regent, the University of Nevada in Reno was the University of Nevada System. During his tenure, he helped to shape first an institution called Nevada Southern, which later became University of Nevada-Las Vegas, of which we are all very proud.

He helped to establish the Community College System and one of his crowning achievements was the establishment of the University of Nevada School of Medicine. After he left the service on the Board of Regents, he served for many years as a member of the school's Advisory Board.

It is altogether fitting and proper that we pause today to pay tribute to this distinguished Nevadan. He is no longer with us, but we will always remember him and he will forever have a place in our hearts. Thank you.

ASSEMBLYMAN HALLER:

Thank you, Mr. Speaker. I just have a short comment. I ran across Dr. Lombardi at the University on some occasions but one thing that sticks in my mind was an occasion when I was helping someone who was campaigning against him. He really ran a campaign that was hard. It looked bad there for a while because he was terrific. Thank you.

Resolution adopted unanimimously.

## REMARKS FROM THE FLOOR

Assemblyman McGaughey requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HUMKE:

I would like to make a statement about Mr. Wong's absence. I take some fault in this. We knew at Ways and Means that the Chairman of the Committee, yourself and everyone concerned about the Historical Mint Building wanted to move this bill today. Mr. Wong, however, did not realize another bill was to be voted upon. I think this is a lesson to all of us to go through the Speaker to inform the Speaker before leaving the floor when a session is still "alive" as they say. I think it is a lesson for all of us. We would just like to say that for the record to cover Mr. Wong's voting record due to this inadvertent absence. Thank you.

## MESSAGE TO THE LEGISLATURE OF NEVADA SIXTY-SIXTH SESSION, 1991

*Madam President, Mr. Speaker, members of the Nevada Legislature, members of the Judiciary, honored guests and fellow Nevadans:*

I thank you very much for that warm welcome.

As most of you know, this is the fifth opportunity that I have had to address the Nevada Legislature, and it is always good to see so many familiar faces, as well as so many new ones. Those of us who place our records before the voters every two or four years don't necessarily appreciate the value of change. But there is something to be said for the fresh voices and new perspectives the newly elected bring to the Chambers of Congress, as well as these Chambers here in Carson City. That doesn't mean that I don't miss some of my Republican friends who were here to greet me two years ago, but I know they would be among the first to tell us that there is life after the legislature. Let's just hope that those of us who are here this morning don't have to enjoy the political afterlife too soon. I'm not looking forward to that.

One of the really refreshing things about coming to Carson City though is that Nevada is one of the few states where the words "citizen legislator" still has real meaning. As a Nevadan and as someone who has learned from over eight years in Congress, I urge you not to lose touch with the people who elected you. In Carson City and in Washington our job is to represent Nevadans, to cast votes which are in their best interest, and to listen to them and to speak for them. Nevadans believe in the value of being able to see, hear and touch the people they elect. That's their right, and as we all know, Nevadans are very protective of their rights.

Nevadans are proud, and it is this pride that has seen Nevada through our most recent troubling times, and I'm talking about the war in the Persian Gulf. I understand the other three members of our Congressional Delegation have talked about the Persian Gulf. All of us who have been back in Washington have been rather involved with that whole issue. The last few months have been the most emotional since Nevadans first sent me to Washington in 1982. The war in the Gulf has, of course, captured the attention of every American. It has brought us closer as a nation and as individuals as we shared the President's determination. After Saddam Hussein invaded Kuwait and after the President responded so decisively and successfully, there was a great deal of debate in Congress. It was a very emotional, soul searching debate. An overwhelming majority of us supported the President's moves as being right and proper. The President was right; the majority of my colleagues in Congress were right; and the American people who gave overwhelming support to the war effort were right. As I am sure all of you know, our entire delegation stood foursquare behind the President, behind this state and behind this country when it counted the most. It took more than a little political courage for Nevada Democrats in Washington to vote with the President, and I salute them for it. And, of course, the people who benefited the most by the support the President received were the men and women who served in the Persian Gulf. For months on end, our thoughts, our hearts and our prayers were with the thousands of American men and women in the Persian Gulf including hundreds of Nevadans. I don't think anyone in Washington stayed away from CNN for very long.

A member of my staff in Washington has a young cousin still stationed in the Gulf, and right now he is on detail in Kuwait City. I would like to share with you a few thoughts he wrote to her on February 25, the day before the end of the war. He said, and I quote, "In the heat of combat, material rewards lose their splendor, and you concentrate on what really matters, my faith in the Lord, my family and my country that I have sworn to defend. You, as an American, should be proud, proud of the way you and the rest of the country united in your support for us, and it is your effort that helped get me through this. When I read letters from back home, it puts into focus the purpose of my being here. I am here to preserve peace for you and the rest of the family, and it makes me proud to do it. And you should feel good about that, so please tell your boss to tell her constituents that they can feel proud to be Americans."

I think some of you know I come from a military family. Two of my brothers were West Point graduates. My dad had a very distinguished military career spanning over four

decades. My grandfather, also a career officer and a doctor, was in the Medical Corp. One of my sons volunteered for two tours in Vietnam as a Green Beret. In addition to graduating from West Point, both of my brothers served our country in active tours of duty, one served two years in Vietnam, and my other brother gave his life at Anzio during World War II. I remember the day my mother was notified of my brother's sacrifice, and it is a day that is permanently etched in my memory. With this in mind, when I was asked to consider whether this country should commit military forces, should commit its young men and women to a war halfway around the world, I remembered the risks we take and the price we pay as a nation and as families. And I still say, unequivocally, yes, we were right. Nevada sent hundreds of her bravest and best young men and women to the war in the Persian Gulf, including over 130 men and women from the 152nd Tactical Reconnaissance group from Reno, the Marine's 41st Reconnaisance Recovery Company from Reno, the 257th Army Transport Company from Las Vegas, the Nevada Air National Guard, the 72nd Military Police Company of the Army Guard from Fallon, and the eight Navy Reserve Units from around the state who provided operational and medical support. And there were others as well. That roster, of course, includes our own State Assemblyman, Jim Gibbons, who served so bravely. Special thanks go to his wife, Dawn, who has given her unqualified support to not only Jim, but to the entire state by filling Jim's seat during his absence.

If my facts are correct, every single Nevadan who went to war in the Persian Gulf will be coming home, safe and sound and very proud, as well they should be. I think there's another thing we really need to remember, and that is, America was not alone in the battle against Hussein. There were hundreds and thousands of soldiers from more than two dozen other countries around the world who teamed up to fight Saddam Hussein. I'm sure you all share my pride as a Nevadan and as an American in seeing the continued strong support for our troops still deployed in the Persian Gulf. They had a tough job to do, and I am sure it helped to know that we were behind them all the way. The mission of the troops in Saudi Arabia was a clear one. They were there to free Kuwait from the strangling clutches of a cruel and dangerous dictator. They were there to prevent Saddam Hussein from continuing his satanical crusade of murder, rape and pillage throughout the Middle East. We share the nation's pride as well as we watch the heroes' welcome given to the troops who fought so bravely as they return home. The sight of wives and husbands and children reunited at airports around the country, embracing after many long months of uncertainty, is not one we will soon forget. John Wayne captured the spirit of America when he said, "Just give the American people a good cause and there is nothing they can't lick."

Today there are hundreds more Nevadans who have experienced firsthand the courage and heroism that go hand in hand in wartime. They feel the national appreciation for this country, founded on freedom, built on freedom, and today the most freedom-blessed society on earth.

Well, closer to home consider the Nevada Air National Guard, Reserves, men and women who have jobs and house payments and families and hobbies just like the rest of us. But for reasons perhaps only they can explain, they have a somewhat higher standard of duty, allegiance and honor. They volunteered to leave their loved ones behind, to fly halfway around the world, to fight for something they believed in. They are why we fought in Kuwait and Iraq, and they are why we won in Kuwait and Iraq. They are also why we must now focus our attention on ensuring a stable and prosperous future here in the United States. We have a long road in front of us, but the mood is as upbeat as I have seen in the last decade. Of course, we as a nation are facing many uncertainties, but there is hope that the postwar euphoria that we are all enjoying will give us some measure of momentum toward solving the problems we face. Our young men and women returning from the Gulf and all Americans deserve from us, their legislators, the same commitment and dedication that they showed their country over the last several months.

Now, more to the point, I would like to share briefly with you my personal agenda for the current session of Congress. There are a number of issues that my office will be working on this year, and I am sure you have seen from various reports, many are already heating up. As you well know, Senator Reid and all of the Congressional Delegation were

successful last year in securing passage of the Truckee River negotiated settlement bill. It is the first truly meaningful tool for managing the waters of western Nevada. There is still a great deal to be done before the negotiated settlement is complete, but the legislation we passed provided a working document which will enable progress to continue. Now I know that not everyone supported every detail of this bill. Shortly after the bill passed last fall, I went to Fallon for a meeting designed expressly to discuss this legislation. As you might expect, there were an enormous number of questions and some very apparent concerns about whether the negotiated settlement would ruin agriculture in western Nevada. I feel sure it will not, but as legislators, we all need to be aware of proposals in Washington which could severely impact agriculture in the west, including the Newlands Project.

Here in Nevada, water is a precious commodity, and it is becoming more and more valuable as more and more people find out how great western living can be. Because of that, people in Washington, including a California congressman by the name of George Miller, would like to do something about who uses water, how much they use, and how much they pay for it. Because George Miller is the Chairman of the Interior Committee and in the majority party with the majority of votes, what he wants to do he has a pretty good chance of doing. I am sure all of you here can relate to that scenario. George Miller and some of his colleagues would like to see a complete overhaul of western water projects. They would like to throw out the Bureau of Reclamation and start all over. Doing so could be very expensive for farmers. Their actions will have an enormous impact throughout the west, and my role as your Congressman will be to make sure that we are properly positioned to fight for our interests. Water issues are vital to us here in the west, particularly in the smaller states. Unfortunately, Congress is dominated by people elected from the east and from major population centers where the availability of water is not an issue, and they will make the fight a tough one for all of us.

For similar reasons we will have a fight on our hands over the Administration's proposal to change the formula which spells out how highway funds are allocated. In the past, funding has been based on total highway miles. In a state like Nevada with over 5,400 miles of highway being maintained on a cost-sharing basis with the federal government, that formula has helped us. Now it is being proposed that highway dollars be allocated based on population. In a state where we are already behind in highway construction and maintenance, such a change could be deadly when measured in highway improvements and highway safety.

As a new member of the Appropriations Committee, I will be doing everything I can to minimize the impact of any change in highway funding allocations. This change is simply not fair, and together with representatives from other western states, we have let the President know what we think about it. We will have to keep him in touch.

In another issue area, in the next few months, subcommittee hearings will be held throughout the west on proposed changes in federal mining laws. Many of these changes would not be helpful to Nevada. For instance, suggested change in the fee structure could hurt Nevada's small miners and could discourage exploration in our state. As one of the world's richest mineral states, we want to do everything we can to help an industry which makes a significant economic contribution to our well-being. We don't want to unreasonably limit the mining industry's ability to do its job and to help our state. As a ranking minority member of the Interior Committee's Mining Subcommittee, I will be watching any mining law changes very carefully.

There is another area in the legislative process I would like to touch on. In 1989 I introduced legislation eliminating the so-called source income tax, and I have introduced two separate versions of the bill again this year. One version is identical to the 1989 bill which remains stalled in the Judiciary Committee—never can make it to the floor—and because I see no chance of the bill making it out of committee this session, I introduced a separate bill which has been referred to the Ways and Means Committee, very simply a source tax applied to someone who retires and moves to Nevada. Many retirees are living on a pension, but suddenly they find that their pensions are being taxed by the state in which they previously lived. My bill, currently in the Judiciary Committee, would prohibit any state from imposing a source income tax on the pension income of individuals who are not residents of that state. This bill, the one that is before the Ways and Means

Committee, is a bit different. While it doesn't place an absolute ban on pension taxation, it forces states with source income taxes to provide taxpayers advance notice of such a tax, imposes a formula that does not include income from other states as is current practice, and gives retirees a chance to pay the tax before leaving the state. As it exists today, many of the older residents of our state are the victims of taxation without representation. They should not be threatened by the greed of a state they moved away from in the first place. I applaud you here in the state legislature for taking steps to help alleviate some of the burdens on Nevada's retirees hit by these unfair taxes. By telling the state courts to ignore out-of-state court orders to have senior citizens turn over property to pay for back income taxes owed to their former residence, you have helped save thousands of retirees, literally, from destitution; and this passed in the last legislature. Being forced to give up their properties in Nevada to another state is outrageous. While I work in Washington to get this tax eliminated, I greatly appreciate your protection of Nevada residents in the meantime.

On another subject, during the next two years the Nevada Congressional Delegation will be continuing to fight efforts to circumvent the permitting process regulating Yucca Mountain. Our message is simple. Nevada has rights and the federal government should play fair. We don't want the nuclear waste dump shoved down our throat. Just two short weeks ago, the entire Nevada Congressional Delegation joined with Governor Miller, Senate Majority Leader John Vergiels and Assembly Speaker Joe Dini to tell the United States Senate that we did not want a nuclear waste repository at Yucca Mountain shoved down our throat and that we will do everything in our power to see that ground is never broken on this project. This is not a partisan issue; we all stand firm as Nevadans and we will show them we can play hard ball just as well as they can. We will not be passed over and we will not be "steamrollered" into housing the country's waste. The federal government is trying to bypass our rights under federal and state laws on air and water quality permits and licensing procedures. We will not stand for it.

Of course there are a number of other issues as well. I will continue to promote expanded breast cancer detection benefits for those on Medicare and Medicaid. Again, during the last session, you here in Nevada helped accomplish something that I couldn't tackle from a federal standpoint. Mandated insurance coverage of baseline mammography services for women between the ages of 35 and 40 and annual screenings for women 40 and older. Following your lead, 29 other state legislatures have implemented similar legislation.

We are also fighting against unreasonable changes in the Bureau of Land Management's grazing fees. In fact, I will be holding a hearing tomorrow in Reno on the effects the change in the grazing fee formula will have, not only on ranchers, but on businesses throughout the state. We were successful earlier this month in getting several local ranchers to Washington to talk with members of the Interior Committee. I hope they were listening, but if they weren't I'll continue to urge Nevadans to speak up and let the East Coast know that the West is here and we will not sit still as they try to change policies that do not directly affect them. There is nothing wrong with the current grazing formula. It works, so why try to change it. That's the message we've been trying to sell.

So in closing, one thing I say that we all need to remember is that we are all in this together. Our job is to ensure a higher quality of living in Nevada and show its residents, our constituents, a better way of life. We need to continue to work with each other to make Nevada's voice heard. We're a strong state growing stronger each and every day. We have a strong state legislature in tune with the state's problems. I think we have a good Congressional Delegation that will take your concerns, Nevada's concerns, to Washington. Let's not have partisan differences stand in our way. Let's show Nevada pride and determination. I think Nevada has a very bright future. I look forward to working with all of you to ensure that future. Thank you very much for the opportunity to come and speak to you. Thank you.

"Section 1. NRS 502.040 is hereby amended to read as follows:

502.040 1. The commission shall adopt regulations regarding the number of license agents to be designated in any locality, the standards to be met by license agents, the manner of remitting money to the department, and the manner of accounting for licenses, tags, stamps and permits received,

issued, sold or returned. A license agent's authority may be revoked or suspended by the department for his failure to abide by the regulations of the commission. The agent may appeal to the commission for reinstatement.

2. A license agent designated by the department is responsible for the correct issuance of all licenses, tags, stamps and permits entrusted to him, and, so far as he is able, for ensuring that no licenses are issued upon the false statement of an applicant. Before issuing any license, the license agent shall satisfy himself of the identity of the applicant and the place of his residence, and may require any applicant to present proof of his identity and residence.

3. Except as otherwise provided in this subsection, a license agent shall furnish a bond to the department for the proper performance of his duties, executed by the license agent as principal, and by a corporation qualified under the laws of this state as surety, and payable to the State of Nevada in such an amount as is determined by the commission. In lieu of a bond, the license agent may deposit with the department a like amount of lawful money of the United States or any other form of security authorized by NRS 100.065. If security is provided in the form of a savings certificate, certificate of deposit or investment certificate, the certificate must state that the amount is not available for withdrawal except upon order of the department. Premiums for the bonds must be paid by the license agent, except in remote areas where the agency is established for the convenience of the commission, in which case the premium must be paid from the wildlife account in the state general fund. A license agent may purchase inventory in advance of sales in lieu of furnishing a bond or may provide a cash bond in lieu of paying a premium for a bond.

4. A license agent is responsible to the department for the collection of the correct and required fee, for the safeguarding of the money collected by him, and for the prompt remission to the department for deposit in accordance with NRS 501.356 of all money collected. The department shall furnish to the license agent receipts for all money which he remits to the department. A license agent shall furnish a receipt to the department of all licenses, tags, stamps or permits which he receives from the department.

5. For each license, tag, stamp or permit he sells, a license agent is entitled to receive a service fee of:

(a) Fifty cents for each license, tag or permit, in addition to the fee for the license, tag or permit ; [stated in NRS 502.240 or 502.250;] and

(b) Ten cents for each stamp or similar document issued which does not require completion by the agent.

6. Any person authorized to enforce this chapter may inspect, during the license agent's normal business hours, any record or document of the agent relating to the issuance of any such license, tag or permit.

7. All money collected by a license agent, except service fees collected pursuant to subsection 5, is public money of the State of Nevada, and the state has a prior claim for the amount of money due it upon all assets of the

agent over all creditors, assignees or other claimants. The use of this money for private or business transactions is a misuse of public funds and punishable under the laws provided.".

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I was expecting crowds of my colleagues here today but they must be working because Realtors are very hard-working people. However, in the case of your colleague here, I can't remember the last time I made a sale. Seriously, Realtors have long been some of the outstanding professionals in our state—just ahead of attorneys—and contribute a great deal to the economy. Their job is even harder in the growth days and we are glad to see that. We are following the tradition this year of honoring them on this particular day. I would urge your concurrence with this resolution. We will send it over to the Senate where I think they all are.

Resolution adopted unanimously.

Assemblyman Haller moved the adoption of the resolution.

Remarks by Assemblyman Haller.

Assemblyman Sader requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HALLER:

Thank you, Mr. Speaker. Ruth Sullivan was a real Nevadan. She was independent and a talented person. She was very active in the political life of our state and her family continues on the path that she led.

Her musical ability was well known and to listen to her play the piano was delightful.

Various stories about Ruth's individuality and strong character abound. For example, once in Lovelock during a political campaign, Ruth was attacked by a dog and fell and broke her arm. Later, with a sling on her arm, she continued to work for her candidate. Interestingly, Ruth would not press charges against the owner of the dog, and, indeed, she paid all of her own medical bills and bore the pain of the injury without complaint.

We shall miss Ruth Sullivan.

Resolution adopted unanimously.

## ASSEMBLY IN SESSION

At 11:08 a.m.

Madam Speaker pro Tempore presiding.

Quorum present.

Remarks by Assemblymen Bergevin, Marvel, Giunchigliani, Price, Kerns, Bache, Callister, Spitler and Dini.

Assemblyman Sader requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. This is rather a difficult subject to talk about, but then again, maybe not. When we moved to Nevada 31 years ago, the first person my husband met was Marvin Sedway. We became very fast, personal friends.

Marvin's love of people, his generosity, his humanitarianism, led me in paths I had never dreamt I would take over my years in southern Nevada in helping and understanding the areas of disadvantaged children, seniors, handicapped and disabled people. He gave of himself and he gave of his time. He gave to me. He was, perhaps not by blood, but he was my brother. We miss him dearly. We love him. No one is more deserving of this resolution and memorializing than Marvin Sedway.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in support of this resolution. It is not my custom to speak on these matters, but this one I cannot let pass.

Mr. Speaker, when the freshman class of 1987 was elected, there was one individual more than any other, who became, not so much a father figure to us, but certainly a friend. That individual was Marvin Sedway. He took Mr. Spinello, Mr. Williams, Mr. Callister, Mrs. Evans, Mrs. Freeman and the rest of our freshman class, including now Senator Adler, under his wing and taught us the ropes. Whether or not you agreed with Marvin, Marvin knew the system. Marvin knew what he stood for and he let that be clear with anyone. You could disagree with Marvin. If you did so respectfully, he had no problem with that. If you double-crossed him, he was the toughest man I have ever seen.

Mr. Speaker, occasionally this legislative body has someone that comes to these halls and really leaves an imprint. Out of all the people I have served with, I can't think of anyone who left more of an impression upon me than did Marvin Sedway. I watched his style and admired his style. I admired his tenacity. I have tried to incorporate some of those qualities into my legislative service, although not to the degree that, of course, Marvin could. I spent a lot of time with him last year. His wife, Kim, has always been very gracious to me and has always been there whenever I needed anything. I miss the gentleman and I wanted the opportunity to speak on this resolution. Thank you, Mr. Speaker.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I rise in support of this resolution. It was almost eight years ago when Marvin and I met. He and his wife, and I and my wife, went to a dinner one night. Marvin and his wife knew that we were very nervous because we were the new kids on the block. He told me that when we got to session, he would take good care of me. Sometimes when some people tell you that, you might not have a warm feeling, but when it came from him, you knew that he had a deep concern and a caring feeling for you when he made that statement to you.

Many days went by as we served together in the Education Committee. On one occasion, I remember I had a very stressful day. That day was so stressful, I had pain running down my neck. I went over to Marvin and Kim's house, early in the morning, about 6:30, to wake him up. Marvin and his wife got me to see a doctor early that morning. That is what I mean by caring people.

I want to relate to you that Marvin would tell you, when you are upset with someone, don't get mad, just get even. Those were his words to me. Whenever I knew he felt really, really in a bad mood and upset at the brother, I knew that if I knew my shoes and did my cues and everything on target, that I had better make sure I was in his corner.

I only rubbed him once and I will be brief, Mr. Speaker. I only rubbed him once really bad in a committee, our first session in Ways and Means. As you know, my last name starts with an "A." We were on a very serious vote and I had just come back from the restroom and I hadn't gotten my marching orders basically from the chairman. I walked in right when we were getting ready to vote and I voted no. Everybody followed suit. He was so mad that he took us in his office, one by one and gave us a Jewish blessing. I would like to say to all of this body here, his spirit is here and will always be here. We miss you dearly, Marvin. And, Kim, hang in there. We love you both.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. I came to know Marvin Sedway in the '83 and '85 session. I was here as an advocate working on a variety of issues and as good luck would have it, many of those issues were also of great interest to Dr. Sedway.

When I ran for office in 1986 and was subsequently elected, the first call I made was to Marvin. I told him, I really wanted a seat on Ways and Means because he was going to be chairing that committee. I said, "if that's at all possible, I sure would like to be considered." He said, "it's not whether you want to be there, it's because I want you to be there." I thought that was, perhaps, the greatest compliment that I could ever have had.

Marvin Sedway was my teacher, he was my rabbi. Though others will come to take his place, no one will ever fill his shoes.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. Coming from a different perspective, I think, Mr. Kerns and I, and Mr. Sedway were in the class of '83 together. We are the remainder of that class, I believe.

I could tell a lot of stories about Dr. Sedway, but suffice it to say, I did not always vote with him, but you always knew you were a friend. He had the ability to look you in the eye and say, "you know your bill is not going to pass," and then smile. You walked away smiling and say, "well it happened to me," but he is still a great guy. Thank you.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. I rise in support of the resolution. I had the greatest respect for Marvin as a legislator. I think he brought a lot of conviction, caring and compassion to this body. He was absolutely dedicated to the causes that he supported. If he believed in something, no matter what other people felt, he went all the way with it, even alone at times.

Marvin was a good friend, although if he didn't agree with you, he could also be a very good enemy. I would like to say that I think this body is a better place for having had him here. I think that he could probably be called the "peoples' legislator." Thank you.

ASSEMBLYMAN BERGEVIN:

Thank you, Madam Speaker pro Tempore. I, also, rise in support of this resolution. Mr. Sedway and I were of violent disparity of opinion on many, many occasions. I can tell you for sure that Marvin Sedway was the conscience of the State of Nevada for the years that he served in this Legislature. He gave the state a greater awareness of what education should be, of children's programs. I would characterize him as the father of the new legislative complex that is gradually and slowly taking place. He was the pusher behind that. He was the pusher behind many of those kinds of things in cleaning up Carson City to be truly a state capitol. Although, we argued on many occasions, we had many occasions where we sat down and very, very carefully figured things out together. I counted him as one of my best friends in this body.

ASSEMBLYMAN MARVEL:

I think everything has been said that I can possibly say. Even though we may not have agreed on every issue, one thing about Marvin, when he gave you his word you could go to the bank with it. Kim, we're going to miss Marvin. He certainly was, I would say, a cornerstone for this legislature.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Madam Speaker pro Tempore. I do rise in favor of A.C.R. 42. I echo what everybody else has said, but I do want to share a little story with you. I first met Marvin Sedway when my husband encouraged him to run for office for the State Assembly, and I was doing interviews for the Teachers Association. Marvin came in and he drove up in a brand new Rolls Royce. He had just gone to an interview with the senior citizens group, and he had a story to tell us about how incensed they had been when he first went in for his interview and said "How dare you drive up in a Rolls Royce." He thought for a minute and he said, "Well, at least you know I could afford it before I went to the legislature." I think that is somewhat typical of Marvin and his sense of humor and his ability to bring that to the legislature. While he was a colorful gentleman, he meant what he said, and he may have chosen to say it in words that were not always supposed to be echoed in these halls, but from time to time he did get his message across. I do think that Mr. Bergevin, though, used the words that I wanted to and that is "Marvin Sedway is our conscience, and he lives on in everyone of us that worry about the underprivileged, the elderly, the children in this state." So in that way, we can always keep a little bit of Marvin with us, so I hope people remember that Marvin is watching us. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Madam Speaker pro Tempore. I'd like to rise in support of the resolution honoring our former colleague and friend. I had the privilege of working with Marvin and first meeting him when we were working on other committees, the health systems coalition and various things prior to his coming to the legislature. Of course, everything that has been said here is so true about Marvin. One of the things I think I appreciated was his wonderful ability for "stirring the pot" and getting things going that would never have happened. I can think of our own Committee on Taxation, things that would have never happened had it not been for Marvin jumping in with both feet, the way that he always did, to get the ball rolling. I also recall one night during some campaign, and it wasn't the last one, it was before that, he showed up at my house because he didn't think I was working hard enough on my campaign. He cared enough to come driving over to North Las Vegas to chew me out and tell me to get busy so I wouldn't lose the campaign. I was

kind of taken aback, but he cared about all of us. As we all know, he is sorely missed in the state and this is so appropriate, having the resolution today and the building of future things that will help us keep his memory alive.

ASSEMBLYMAN KERNS:

Thank you, Madam Speaker pro Tempore. As Mr. Humke said, he and I and Marv were among the vanishing breed of the 1983 Freshman Class of 19. There are some great memories of that 1985 year, too. I had the honor last session of being on Ways and Means with Marvin, and needless to say, we did have our problems. I can recall one little situation where we had a vote and it came out 13 to 1, and I happened to be the "no" vote. Marvin said, "Kerns did you vote no on that?" I said, "Yes." He said, "Do you want to be recorded as voting "no" on that?" Needless to say I told Marvin what I thought about that question. No matter how much we fought on the floor and in Ways and Means, and we did have our battles, Marvin was a good and true friend outside of these chambers. I won't say he wasn't a friend inside the chambers and inside the committee rooms, except we never agreed on anything. I might even vote "no" on this resolution, but there's a big light fixture above me here and it might be asking for trouble because Marvin did have some power. I'm just not quite sure just how far that power reaches, so I'm not going to take any chances. I am going to be delighted to vote "yes" on this resolution. Also, send Kim my love. Thank you.

ASSEMBLYMAN BACHE:

Thank you, Madam Speaker pro Tempore. I rise in support of this resolution. I think everybody else has said many of the things that I feel about Marvin. I, like Ms. Giunchigliani, met Mr. Sedway at the same time and enjoyed the various stories. I worked and supported him in his elections in 1982, 1984, 1986, and 1988, and he is sorely missed in this body. Thank you.

ASSEMBLYMAN CALLISTER:

Thank you, Madam Speaker pro Tempore. I, too, would rise in support of this measure. There are very few people who will leave the kind of footprints that this gentleman has left. There are very few individuals that any of us will ever meet in our lives who leave an impression that survives their passing in the way that I believe Marv's impression has been left indelibly on this institution and on most all the members here, irrespective of party affiliation, regionalism, or anything else. I echo the sentiments of those who have spoken before me. I would imagine that, in terms of my own personal experience, outside of my father no man has had a greater impression in my lifetime, and I doubt that any other will. Marvin was a gentleman of extraordinary example, humor, intellect, compassion, integrity, and extraordinary hard work. Marvin was one of those folks whose personal vocabulary did not include the notion of expediency. Marvin, at whatever cost both personal, public or private, could always be counted on to do the right thing. For the members of Marvin's committee this year, I would remind them that we start an hour and a half later than Marvin ever started to give you some flavor of how hard he worked, although we finish at the same time. I believe that in truth Marvin gave, in the end, his health and even his life to this state, but in the immortal words of that great American poet, Neil Young, "My my, hey hey, it's better to burn out than to fade away."

ASSEMBLYMAN SPITLER:

Thank you, Madam Speaker pro Tempore. I, too, rise in support of this resolution. While we honor his memory, I would add that I will forever be appreciative of his openness and his willingness to let me share his life and his family. I'll respectfully remember his legacy through his family, especially through his very beautiful wife, Kim.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tempore and members of the Assembly. I, too, rise in support of the resolution. Marvin made a great impression on me in the years I served with him. I think he leaves a legend that is going to be hard to beat for anybody in this house for many, many years to come.

You know we come from a different region, from a different upcoming. I was a rural legislator; he was a Clark County legislator, but you know, we had a meeting of the minds

because we decided we were going to try to do what was best for the State of Nevada, and that was always in his mind. That's the legacy he's going to leave to this house and to both houses, and to the state because you have to try and do what is best for the State of Nevada.

Look at what he did for the community college system when he fought for its establishment and got it off the ground in Clark County. He's the father of the Clark County Community College System. He fought for that, and then he came to the legislature here, and you know we had some rough years in 1983 being short of money; 1985 the Democrats were in the minority; and we had some different kind of battles then with the majority party at that time. I think he was the inspiration for us to say, "We're not going to be in the minority anymore; we're going to be in the majority next time." I think he led the battle for us to come back and take the majority over in 1987.

Then in 1987, I appointed him chairman of Ways and Means, and half of the lobbyists in the State of Nevada called and said, "You're crazy. What are you doing to the State of Nevada." I said, "I'm putting the most competent person in that position, and he will do a fine job for the State of Nevada." That's what he did. He worked 18 hours a day at his job. He was very prudent in the way we spent our money. He had his goals. His goals were taking care of the children of this state in the future. You know we started the ball rolling for a lot of programs under Marvin's administration in 1987 and 1989. He felt strongly about the elderly in this state. He wanted to take care of the old people. His own personal relationship with his parents showed his devotion to the elderly people in our state. So that's a legacy that's going to be hard for anybody to overcome and beat, probably for the next generation in this house.

He and I developed this bond together in the 1985 Session and 1987 and 1989; occasionally we went to the woodshed together and talked over our differences, but we always worked out what was best for the State of Nevada. He'd say, "Joe, don't take me to the woodshed today. I didn't do too much wrong." I would say, "Well, Marvin, let's go talk about it anyway." But, that's what it was all about, and I wish that everybody in this house could have been here to serve with him so that you would know what a real Assemblyman was all about. In his devotion to the State of Nevada, he had it in his heart for this state, and he had it in his heart for this capitol. He wanted us to have the most beautiful capitol in the United States. He travelled a lot with Kim and saw many capitols throughout the United States, and wanted to see Carson City look beautiful when our visitors came here to see it. He wanted us to have a functional building here at the legislature. He sat on the building subcommittee. We got the SOB building over here, the State Office Building; that was his idea. He put that together as chairman of that committee. We did our remodeling this year which has helped considerably in providing better facilities for members of these houses to operate in. That was his goal, to do everything right for the membership in these houses, too. I think those are necessary things, and that is why we miss his leadership this time because he was willing to step up there and do these things for the State of Nevada.

He went to the University of Nevada-Reno at the same time that I went. He only stayed a year, I think, but he had a lot of the old time spirit of Nevada from growing up in Las Vegas in his early days. He captured that spirit and he continued it while he was here in the Assembly, and we're going to miss him greatly. We want to send our condolences to Mrs. Sedway and to his brother, Paul, again. He is deeply missed in this chamber, but we know that his spirit will always be with us and will help us do better things for the people in our state.

Assemblyman Price requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and through you to this honorable body. As we now see, some of our Realtor friends and colleagues have joined us from the Senate. I wanted to add for the record today we have approximately 150 Realtors visiting us here in the Legislature with about 51 of them from Las Vegas. I think behind me here, at this point in time, and I know here in the building from the Las Vegas area, the president of our greater Las Vegas Association of Realtors, Judy Woods; we also have Jack Woodcock, President Elect; Marv Rubin, First Vice President; Chris Harris, the Legislative Committee Chair from Reno; on my right Ronn Reiss, the former Commissioner with our Real Estate Commission; and on my left, I would like to present our Resolution to Curry Jameson, State President of the Association, also from Reno, not from Las Vegas.

27 March 1991

MS. MOURYNE B. LANDING, *Chief Clerk of the Assembly,* Legislative Building, 401 S. Carson Street, Carson City, Nevada 89710

DEAR MS. LANDING:

It was with very special pride that I received the Assembly's Concurrent Resolution No. 25 recognizing the efforts of our armed forces in the recent war against Iraq. It is just this type of interest and support which enabled our forces to succeed in the Gulf.

This is a very special and proud time for our entire country. Our successes during the war were clearly the result of a team effort. The Assembly's support as we welcome the Nevada Desert Storm winners home helps keep that pride and dedication going strong. On behalf of every man and woman at Nellis—thank you!

Sincerely,

BILLY G. MCCOY

NEVADA STATE ASSEMBLY, C/O MR. JOE DINI, Carson City, Nevada 89710

Perhaps you sent a lovely card, or sat quietly in a chair.
Perhaps you sent a funeral spray, if so we saw it there.
Perhaps you spoke the kindest words, as any friend could say;
Perhaps you were not there at all, just thought of us that day.
Whatever you did to console our hearts,
We thank you so much whatever the part.

The flowers are beautiful! Thank you very much.

41.141 1. In any action to recover damages for death or injury to persons or for injury to property in which comparative negligence is asserted as a defense, the comparative negligence of the plaintiff or his decedent does not bar a recovery if that negligence was not greater than the negligence or gross negligence of the parties to the action against whom recovery is sought.

2. In those cases, the judge shall instruct the jury that:

(a) The plaintiff may not recover if his comparative negligence or that of his decedent is greater than the negligence of the defendant or the combined negligence of multiple defendants.

(b) If the jury determines the plaintiff is entitled to recover, it shall return:

(1) By general verdict the total amount of damages the plaintiff would be entitled to recover without regard to his comparative negligence; and

(2) A special verdict indicating the percentage of negligence attributable to each party remaining in the action.

3. If a defendant in such an action settles with the plaintiff before the entry of judgment, the comparative negligence of that defendant and the amount of the settlement must not thereafter be admitted into evidence nor considered by the jury. The judge shall deduct the amount of the settlement from the net sum otherwise recoverable by the plaintiff pursuant to the general and special verdicts.

4. Where recovery is allowed against more than one defendant in such an action, except as otherwise provided in subsection 5, each defendant is severally liable to the plaintiff only for that portion of the judgment which represents the percentage of negligence attributable to him.

5. This section does not affect the joint and several liability, if any, of the defendants in an action based upon:

(a) Strict liability;

(b) An intentional tort;

(c) The emission, disposal or spillage of a toxic or hazardous substance;

(d) The concerted acts of the defendants; or

The screening panel shall consider all the documentary material, including the complaint, answer and response, health care records and records of a hospital or office and the testimony of any expert witnesses the panel considers necessary, and shall determine only, from that evidence, whether there is a reasonable probability that the acts complained of constitute medical malpractice and that the claimant was injured thereby. Except for the issue of whether there is a reasonable probability of medical malpractice and whether the claimant was injured thereby, the screening panel shall not consider any pleading or paper to the extent that it addresses a legal issue presented by the claim or a legal argument of a party.

(c) Based upon a review of the materials submitted by the parties and the testimony of medical experts (if any were called) we are unable to reach a decision on the issue of medical malpractice.

[6.] *7.* Whenever four members of the screening panel are unable to find that there is a reasonable probability of medical malpractice and that the claimant was injured thereby or that there is no reasonable probability of medical malpractice, the screening panel shall be deemed unable to reach a decision on the issue and shall make a finding to that effect.

41A.097 1. Except as provided in subsection 2, an action for injury or death against a provider of health care may not be commenced more than 4 years after the date of injury or 2 years after the plaintiff discovers or through the use of reasonable diligence should have discovered the injury, whichever occurs first, for:

3. For purposes of this section, the parent, guardian or legal custodian of any minor child is responsible for exercising reasonable judgment in determining whether to prosecute any cause of action limited by subsection 1. If the parent, guardian or custodian fails to commence an action on behalf of that child within the prescribed period of limitations, the child may not bring an action based on the same alleged injury against any provider of health care upon the removal of his disability, except that in the case of:

(a) Brain damage or birth defect, the period of limitation is extended until the child attains 10 years of age.

(b) Sterility, the period of limitation is extended until 2 years after the child discovers the injury.

## REMARKS FROM THE FLOOR

Mr. Speaker requested that Assemblyman Price's remarks be entered in the Journal.

Mr. Speaker, thank you. To you and through you, to this honorable body and our guests. Unfortunately, as the saying goes, "Men make plans and God laughs."

Today, we have two of our very own people from right here in the legislature, flying in from the Persian Gulf. One of our members, Assemblyman Jim Gibbons and the other, Chuck Chinnock, whose wife is one of our employees. Chuck has worked with this Legislature for all the years that I have been here from when he was with the Department of Taxation.

Some people may or may not realize that these two pilots along with the others of the High Rollers in Reno, were the very first people to put their lives on the line flying into Iraq. Their job was flying F-4's. They took pictures of the targets and then returned to take pictures of the damage afterwards. They even preceded the Stealth Bombers, who are also pilots from Nevada. They even preceded these people and went in and took the first pictures and, of course, were very successful during the war. To this point in time, we have only lost one plane with no loss of life to our pilots. That was unrelated to the war—they were coming back from a mission and had some type of failure.

Anyway, today we have all of our friends here from the Nevada PTA, probably the only legitimate organization that for years has been working on the behalf of our children in education. They are here to visit with us and to talk about the problems and the needs of our children and education. And yet, at the same time, we have legitimate war heroes and, unfortunately, once in a while we have a war. It is something you can't plan for and it is something you don't want. Here we had our own people volunteer. You know, there are a thousand people in that unit of the High Rollers of which I am proud. My wife happens to be one of them. Six hundred volunteered for duty on the first day. They called for volunteers and Gibbons and Chinnock were among those selected.

Of course, what went on is all a matter of history now. It is still ongoing to some degree. They are coming home today. While it is hard to set priorities, the PTA has been one of the strongest supporters. I would like to talk to you just for a moment to see if there are any of you that would like to go to the airport to greet these folks.

Unfortunately, the time is in absolute conflict so there is nothing that can be done about that. I had made arrangements. We have a 24-person bus, 3 twelve-person buses, a 15-passenger van and a 7-passenger van and some of us have our cars, etc. If you could see in your hearts that you might take time, even though the luncheon is planned and go with us, we are going to leave here at 11:30 and we should be back about 1:45 to 2:00. I called the General a short while ago and he told me they took off on time. They were flying in from Indiana and it looks like they will be right on the minute getting in. Come with us and greet our war heroes. You would have an opportunity going and coming to lobby as there will be legislators sitting next to you, and I have to tell you honestly, I think there are going to be a lot of people, press, etc., and it would be wonderful to show that the PTA was down there also, even on a last minute change, greeting our own war heroes coming home. I would like to invite any of you, as many that might like to come with us to greet our heroes coming home.

Those of you who have been planning this, probably for two years, to come up and lobby and talk to us and have gone to the expense, I know a little about that. We, through our committee and occasionally individuals, have to make guarantees for meals, etc., and that is always a problem. And to what small extent it will help, Mr. Gaston, are you listening, I'm going to give you a $100 check to help offset any losses. That will pay for my meal and a few of the people that don't make it. I think that the goodwill along with the lobbying that you are doing today will be well taken. This just happens to be one of those tough times in our life where we are all happy because our guys are coming back safe but we are unhappy that you may think that we are something less than responsible when we go to meet them. My colleague over here is telling me to cut it off. So, anyway, anybody that wants to go, we would love to have you.

### REMARKS FROM THE FLOOR

Assemblyman Wendell Williams requested that Assemblyman Heller's remarks be entered in the Journal.

Thank you, Mr. Speaker. Order of Business 15. If I could have the gentleman next to me stand up. I know that we are in somewhat of anticipation of the return of our former colleague, Mr. Gibbons, but I have here today another war hero in our midst.

I don't really know where to start since Kenny and I went to high school and college together. We both attended the University of Southern California. Kenny was a Cobra Pilot with the Marine Light Attack Helicopter Squadron 367 based at Camp Pendleton, California. He was a pilot and he did fly into Kuwait with laser-guided missiles and anti-tank missiles. He put his life on the line for us. This really is a pleasure for me. He came into my office yesterday for the first time. I had not seen him for quite a while. When he showed up, I saw him in his uniform and his new hair cut. I looked at him and said, "Kenny, I can't believe you are a Captain in the Army right now." He looked at me and said, "I can't believe you are my Assemblyman."

Kenny was the manager and trainer on the football and basketball team when I was in high school. I teased him a lot about me being his hero. I will admit to this day and forever more that Kenny will be my hero.

Just as a little bit of history and maybe for you, Mr. Speaker, you remember his mother, Terry. She served as the Chief Clerk and predecessor to Mrs. Landing. She served as Chief Clerk for Senator Jacobsen and also worked under Governor Laxalt. It is my privilege today to introduce Captain Kenny Loy.

Thank you again, Mr. Speaker. I wasn't going to do this. I think I had better set the record straight. Captain Kenny is in the Marines. He is not in the Army. Maybe you have just called me a Boy Scout.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. Glenn Barnes was born in Reno, February 11, 1950. As a youngster, he was active in Boy Scouts and Little League. He loved all sports and spent many enjoyable hours shooting baskets or playing catch with his two brothers or waterskiing behind the family boat. He attended Vaughn Junior High School where his favorite activities included pole vaulting and playing basketball. During his high school years at Wooster, he played football and basketball until knee injuries forced him to the sidelines. He graduated from Wooster in 1968. He attended the University of Nevada and was a member of the Lambda Chi Alpha Fraternity.

In June, 1970, he married his high school sweetheart, Diane. At that time, he was employed as a title officer for a local title company, having worked his way up from file clerk. His future in the title business looked bright. As soon as he became head of the title department, company executives asked him to consider moving to San Francisco as another step up.

The move was never to take place. Glenn joined the Washoe County Search and Rescue in 1971. He took part in many searches and felt a great sense of pride in being able to serve his community in this way. Through the Search and Rescue, he also gained an undying love for the beauty of the outdoors—from the hot springs near Gerlach to the majesty of the mountain lakes. He took many jeep trips into the Rubicon, never tiring of the magnificent beauty surrounding him.

He became a father in 1972 and again in 1974. His children became a major focus of his life. As they grew older, he was always thinking of them and what he could do to make them happy and see to it that they had a good life. Family outings and vacations were always planned with Jennifer and Brian in mind. Glenn became involved in Boy Scouts to be near his son and insure that Brian would have the many positive experiences offered in scouting. One of Glenn's proudest moments was seeing Brian earn his Eagle Scout award. Glenn was equally proud of his daughter, Jenny. She earned excellent grades in school and seemed to get along with everybody she met. Jenny acquired Glenn's love for waterskiing and he was happiest when he was pulling her behind his boat while she slalom-skied. Glenn was also very proud of his wife, Diane. He encouraged her to go back to graduate school for her Master's Degree, despite her objections. He knew it would be difficult for her, teaching full time and taking classes at night while she had two children at home. But he had the utmost confidence in her and because of his support and encouragement, she achieved her goal.

Shortly after the birth of Brian in 1974, Glenn became a member of the Reserves for the Washoe County Sheriff's Department. He gave many hours of service to the Department, enjoying all of it and again, feeling that sense of pride in serving his community. He became a regular on the Department in 1975. He worked in the Detention, Patrol and Detective Divisions before becoming a sergeant in the Detective Division. Glenn worked in Detectives for 10 years bringing many difficult cases to a successful conclusion. After being promoted to lieutenant, he was transferred to the Patrol Division where he worked until he was assigned as Search and Rescue Coordinator. He held this position until his untimely death on March 19, 1991, at 40.

Glenn Barnes set an example that all of us could follow. He was a hard worker who wanted to give something back to a community that had given something to him. He was a

life-long Nevadan. He was a dedicated and loving father and husband who placed his family foremost in his thoughts and actions. He was a true friend to many, always willing to help and give of himself. Glenn will surely be missed by many.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. I don't think that we can say too much more about Glenn and the tremendous things he did for this community. I think probably there are very few persons in the Reno area of Washoe County that weren't touched by Glenn's activities at one time or another. The years he spent in all these different organizations—he was very dedicated. Glenn was here about a month or five weeks ago, on a bill testifying for the Search and Rescue and was very dedicated to everything he did.

My knowledge and knowing of Glenn goes back a long way. I served for 25 years with Glenn's father in the Reno Fire Department and Steve used to bring the boys down to the firehouse. I think maybe at that time they all wanted to follow Dad and be firefighters. Glenn somehow got led astray and got with the Police Department. We can't hold that against him. He did a good job there. Unfortunately, Glenn's father passed away last year. Steve had spent close to 30 years on the Fire Department. The whole Barnes family, we could safely say, dedicated their lives to all of you. I think the honor we are giving Glenn here today is well-deserved. I would just kind of like to add the name, Steve Barnes, to all the honors that are being handed out here today, in memory of his father also. Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I would like to say just a couple of words to highlight what was said by the Representative from District 23. Glenn spent a lot of time trying to not just catch bad guys, which is the primary mission of the Sheriff's Office, but he also tried to make life better for all of us through his work on the Search and Rescue Squadron. He saw a need to improve survival skills. I believe he was primarily responsible for starting a program working with the Washoe County School District. I know that when my daughter was in sixth grade, we participated in their Survival Skill day in which the children had to hike up a mountain, build a shelter, prepare a meal and practice surviving. I think it was very worthwhile and, no doubt, has saved a number of lives in the Sierra Nevada. Thank you.

Assembly Bill No. 165 having received a constitutional majority, Mr. Speaker declared it passed, as amended.

Bill ordered transmitted to the Senate.

Assembly Bill No. 173.

Bill read third time.

Remarks by Assemblyman Garner.

Assemblyman Garner requested that his remarks be entered in the Journal.

Assembly Bill 173 declares that it is the policy of the State of Nevada to encourage and promote the use of effluent water, where this is not contrary to the public health, safety and welfare, and where the use does not interfere with federal obligations to deliver Colorado River water.

The bill also removes the concurrent authority of the Colorado River commission to act upon applications for subsequent appropriation of effluent or recharged water which contains water originally appropriated from the Colorado River. Thus, this authority rests solely with the State Engineer.

The measure further clarifies that applications for the original appropriation of Colorado River water are made to the Colorado River commission. The commission's action on this type of application constitutes the recommendation of the State of Nevada to the United States for any federal action on the matter.

Finally, the bill directs the Colorado River commission to furnish the State Engineer with copies of all agreements entered into by the commission relative to the original appropriation of Colorado River water, as well as any other information deemed necessary by the State Engineer to allow him to act upon applications for subsequent appropriation of these waters.

Assembly Bill No. 173 is a product of the interim study of water and waste water resources in Nevada. In addition to declaring the state's policy relative to the use of effluent, the goal of the measure is to clarify that the Colorado River commission is responsible for Nevada's actions concerning applications for the original appropriation of Colorado River water, and the State Engineer is solely responsible for acting upon applications for the subsequent appropriation of these waters.

No legislative action associated with this bill should be construed as limiting the State Engineer's sole authority to act upon applications for the subsequent appropriation of

water originally appropriated from the Colorado River, nor should any legislative action be construed as requiring permits under Chapter 533 of NRS for the original appropriations of Colorado River water.

Because of the complicated nature of the state and federal relationships relative to waters of the Colorado River, I would request that my comments on this bill be recorded in today's Journal.

Assembly Bill No. 190.

Bill read third time.

Remarks by Assemblymen Myrna Williams, Elliott, Pettyjohn, Sader, Stout, Spriggs, Scherer, Porter, Kerns, Carpenter, Evans, Gregory, Haller, Price, Giunchigliani, Freeman and Petrak.

Assemblyman Evans requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. Assembly Bill 190 is a comprehensive ethics commission bill. It changes the state law concerning ethics in government.

It allows the Commission on Ethics to issue subpoenas compelling the attendance of witnesses and the production of books and papers.

A government contract, lease or grant entered into in violation of the ethics in government law is voidable by the state, county, city or town. A public officer or employee is prohibited from soliciting, accepting or receiving an honorarium in conjunction with his public office or employment.

The Commission on Ethics, within the limits of the legislative appropriation, is required to employ such persons as are necessary for administrative purposes, the review of financial disclosure statements and the investigation of matters under its jurisdiction.

The bill requires the Commission to make such investigations as are necessary for the rendition of its opinions. Adherence to the Code of Ethical Standards is made mandatory for public officers and employees. Currently, the Code of Ethical Standards listed in state law serves only as a guide for the conduct of public officers and employees. Three new provisions are also added to the code which prohibit the improper use of public office or employment for personal benefit or gain.

Current law allows the state legislator or other public officer, whose public service requires less than half of his time, to represent or counsel for compensation a private person before a public agency in which he does not serve. Section 12 of the bill provides that, not later than January 10 of each year, a legislator or other public officer must disclose each such representation or counseling over the preceding year. The section also provides a one-year "cooling off" period for a former public officer or employee before he may receive compensation for representing or counseling a private person concerning an issue which was under consideration by his former agency during his service. Finally, the section specifically prohibits certain representation and counseling services for compensation by full-time public officers and employees of the state, county and city government.

State law concerning the action or vote of the state legislator, public officer or employee on a matter in which he has a certain interest is clarified and strengthened. Among other things, greater public disclosure before voting is required, and the relative benefit or detriment accrued by a legislator because of his vote is clarified.

The Commission is allowed, upon request of a public officer or employee who is seeking an opinion on a matter of ethics, to hold a public hearing regarding the requested opinion. An opinion may not be issued on a matter initiated by the Commission unless the public officer or employee in question is extended the opportunity to appear and present evidence and arguments. If an opinion relates to the propriety of present or future conduct by a public officer or employee, the opinion of the Commission is binding upon the requester and final, subject to certain judicial review.

A public officer or employee who willfully violates certain ethics provisions is liable to the State of Nevada for a civil penalty, as determined by the Commission, of up to $5,000 for each violation.

State law concerning the filing and contents of statements of financial disclosure required of candidates and public and judicial officers is clarified and strengthened. Among other things, all gifts of $100 or more must be reported unless received from certain family members or business associates. The Commission on Ethics and the appropriate county and city clerks must retain statements of financial disclosure. Currently, only the Secretary of State is required to maintain these statements.

The expenditures for personal use of unspent campaign contributions received by a candidate for public office is prohibited, and the disposition of any unspent campaign contributions is specified. The bill also provides for the reporting by a public officer or former candidate of unspent campaign contributions and their disposition.

This comprehensive revision of Nevada's governmental ethics laws was initiated by the Commission on Ethics. Several public hearings were held on this topic, both before and after the introduction of A.B. 190. This measure is the cornerstone of ethics and campaign reform legislation under consideration by the 1991 Nevada Legislature.

At the time A.B. 190 was brought down to the floor, we placed it on the desk for 48 hours to give everyone time to read it. There was one recommendation made for an amendment and that was by one of my colleagues from Clark County. It was correct, in my opinion. As presented, the bill singled out state legislators. The amendment that we adopted, which is contained in the second reprint, makes it clear that this applies to all public officers. This is an important bill.

We urge your support of A.B. 190.

ASSEMBLYMAN ELLIOTT:

Thank you, Mr. Speaker. While this bill does have merit, I have some objections to it. Also I would like to let people know I am speaking totally on my own, not as a Republican, but as Joe Elliott, citizen down here. The Republicans are very much worried that in the papers they will be crucified as being against campaign reform and never was anything more untrue, nor is this man, myself, against campaign reform. But this bill boils down to a big money bill. What we have done here, if we pass legislation that is not crafted well and unskillfully—I would like to draw your attention particularly to Sections 21 to 23 which says that after you have campaign funds left over, you can't use any of those campaign funds later on for campaigning the next time around. At first thought, that's wonderful, that sounds very logical, but it is totally illogical for the small fry who happens to be winner or loser, because those people who are heavily money connected, that is, if they get back their money, they will have instant access to big money again the next time around; whereas the small fry guy who happens to get in on a fluke, like many of us here or somebody else, cannot have access and has to start from ground zero all over again, that's whether you won or not. Now let's take the scenario: We take a person who loses, big money connected; next time around we're going to bury this guy so they really hit the challenger and the present incumbent, the small fry, is spending all of his little time out there trying to raise money, or her little time out there. The reverse is true for the winner; if we have a person out there who is a candidate that lost, a small fry candidate who loses, then that person has to start from ground zero again, yet the incumbent has a direct line to big money, and that big money doesn't have any trouble raising his or her money.

Now I hear a great deal about public perception, and we've got to do things so the public perceives that we are doing things correctly—and I have already heard on this bill there is a way around it—so we are passing legislation that we are trying to figure out how

to get around, and it is dishonest, it is deceitful. We have got to quit trying to manipulate public opinion and start passing skilled, crafted, honest legislation, not legislation that is perceived and predicated on an idea of convincing the public that we are doing for them what is right. I have always been a believer in the truth, and believe me, the truth can hurt and it stings many times. But if we pass good legislation, solid legislation and honest legislation, I think the public will sense that, know it, and the perception will be proper.

ASSEMBLYMAN PETTYJOHN:

Thank you, Mr. Speaker. To you and through you to my colleague from Assembly District 10. I have a question concerning Section 21 and it pertains to existing office-holders who at the present time have campaign contributions which have been left over from previous elections. How does the bill provide for their disbursement of those funds back into the system, and how much time will they have to dispose of those funds which they now possess?

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. If it is agreeable to you, I would like to have the Chairman of Judiciary answer in a most technical way. The Chairman of Judiciary worked very closely with former Senator Spike Wilson in crafting the language in this bill, and they were most careful about how they crafted it. So if the Chairman of Judiciary would respond.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. The real thrust of the question deals with the retroactive effect of this legislation. The maker of the question assumes that it has retroactive effect. I don't think it does have retroactive effect. The bill specifically deals with campaigns that take place on or after the effective date of this legislation which is prospective. Therefore, it is my view that campaigns which are already finished and contributions made in those campaigns are not affected by this bill.

ASSEMBLYMAN STOUT:

Thank you, Mr. Speaker. I would like to rise in favor of this bill. When this was being formulated long before the election was over last year, I know I appeared in front of Spike Wilson's group and testified, as did many others, and this is sort of a fruition of what has come about from a tremendous need, at least in Clark County, of the obscene amounts of money that are left in people's campaigns. Whether the public perceives it as bad or not, I perceive it as bad, and I think that this has taken care of that. I have no ulterior motive to see this thing is passed except I think it is the beginning of some real good ethics that have been needed for a long time. I want it to be clear that I am not doing it for any ulterior motive except that I support a strong ethics bill, and this is one of them. Thank you.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I would like to ask a question, if I might, to the Chairman of Legislative Functions. I wasn't privy to the testimony, and I notice on the campaign contribution return the option of giving it to a charity has been removed. Since it is very repugnant to me to give any money to state or local government, other than the taxes I have to pay, I was wondering why that option was removed.

ASSEMBLYMAN SADER:

There were various suggestions for distribution of this money in other bills. This bill takes the position that the certain enumerated uses of the funds would be the only ones. I must suggest to you that I think contributions to charity would be a good use of the funds as well, but the bill is a compromise of many important issues, and that was one of the compromises I made in my own mind. To answer specifically the question, the testimony in committee against charities was that there are some charities which are shams, and it is very difficult to distinguish. The 501C3 designation of federal law in the income tax code doesn't necessarily distinguish them either, so in order to avoid the potential abuse of making contributions to sham entities and perhaps subverting the intent of the law, the answer is to exclude the opportunity altogether to contribute to charitable organizations.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. I rise in support of A.B. 190, and I would like the opportunity to respond specifically to the remarks of our colleague from District 37. I think it will be the rare day when the little guy has a substantial amount of money left over from a campaign that could potentially make a difference in the next campaign. I don't think this is a big money bill, with all due respect to him, and I think it is a very good piece of legislation. I think the public's perception and its confidence and trust in this institution is very important. With regard to the question about charities, I, too, agree it probably should have been included, perhaps school districts should have been included. There are a lot of pieces of legislation that come through here that I vote for that I might have written a little differently if I wrote them myself, but this is a process of compromise among the 42 of us in here. I think this is a very good piece of legislation as it is, and I urge my colleagues to support it.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Bill 190 and to echo some of the comments of my distinguished colleague from Assembly District 2. There have been references on the floor today, Mr. Speaker, that perhaps this bill was somehow dishonest and we are trying to figure a way around it and this is all some type of charade. I take extremely strong exception to that characterization. There have been questions raised about whether or not charities were considered. I would ask my colleagues to look at the first reprint of 190, Section 21, and compare it to the other reprints of 190, Section 21. You will find a minor distinction in subparagraph (c). Other than that, the language is as recommended by the State Ethics Commission. This is their language. It is not something the legislature dreamed up, this is not something the Chairman of Legislative Functions dreamed. This is an independent body appointed by the Governor, this is their recommendations that the Committee on Legislative Functions chose to pass virtually intact. The suggestion that that process was somehow tainted, I would challenge the previous speaker to document, and as for the references that we have somehow tried to figure a way around it, I challenge that to be documented. I have heard none of that discussion in these halls or in these chambers. I would urge my colleagues to endorse Assembly Bill 190 wholeheartedly, as we have been requested to do by an independent body charged with governing our own independent conduct. Thank you.

ASSEMBLYMAN KERNS:

Thank you, Mr. Speaker. Through you and to the members of this body, there have been a couple of comments made here about obscene contributions. The only change is going to be from the obscene contributions that you've got, to the obscene amounts of money that will be spent on your campaign if you know you can't hold it over to the next one. That will probably take care of most of your money, and I am sure your campaign managers will love that. To my colleague from District 37, I think I have mentioned this to him before, a lot of times facts have nothing to do with the things we do here, most of the time they do, fortunately. In speaking of ways to get around, I would like to ask the Chairman of Judiciary, in Section 21, paragraph 2(c), it says, "Designate and reserve a specific amount of money for the payment of expenses directly related to his public office...". I am not sure there is anything to designate what direct expenses to public office are. I might ask a question, if I had $25,000 left over in my campaign and I designate $25,000 as money that I plan on spending pertaining to my office for the next two years; and at the end of that two years when it comes time for the campaign to start, I say, "Whoops, I didn't need but $5,000 of that." What happens then, what happens to that $20,000?

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. Well, you can't use the money for personal use, and you can't use if for any other use than those indicated in the bill. So if you have money left over which you did designate in reserve for public uses which is not needed for that purpose, then you are still under an affirmative obligation, as excess contribution funds, to use it for one of these purposes. Now the concept that you could intentionally subvert the intent of the bill by designating a much larger amount of money than you could use is potentially

there, but certainly would not stand the scrutiny of public disclosure, nor would there, I would suggest, be an opportunity to do that more than one campaign since that kind of money obviously mounting up would indicate an intentional attempt to subvert the intent of the law.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. The points that I'd like to make, I think have already been made, but I really think that you should be able to donate these unused campaign funds to charities and I think that you should be able to use these funds on another campaign. I think that's why the people gave them to you, for you to use on your campaign. I think if we don't do that, why we're passing some legislation here that is wrong. Now in my particular case last time, I didn't have any opposition, and I had all kinds of checks coming into me. I don't know why. I figured I didn't need them because I didn't have a campaign, so I felt it was really unethical to keep those funds, so I sent them back. I didn't take any money for my campaign because I didn't need any. You talk about public perception, not one time did anybody say, "Boy that Carpenter; he's a great guy. He didn't take any money." I didn't hear anything about it, so I think you're caught between a rock and a hard spot if you do something that's right, you're not going to get any credit for it. But if you do something a little wrong, they're sure going to catch you for it. I really hate to see a bill like this go out of here with these things that I see as a major flaw in them.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I'm also rising in support of A.B. 190. What we've been focusing on an awful lot is one section of the bill. I do understand the controversy. I would also like to direct your attention though to many other sections that I think help clarify the parameters of ethical conduct. I, myself, had occasion to call upon the Ethics Commission. I asked for a hearing last year relative to my service on the Ways and Means Committee, when I should be voting on certain measures or when I should be disclosing. I can say, had this bill been in place, all of my questions would have been answered, and I would not have had to seek their counsel. I do commend the Ethics Commission and Chairman Wilson for their hard work on this. I think it's going to help us in a multitude of ways.

ASSEMBLYMAN GREGORY:

Thank you, Mr. Speaker. To you and through you. I guess I'm somewhat surprised that we would raise such an issue when it's been such a high profile issue. On many occasions when I vote in this body, I have my constituency split, and many times need to make a decision. This is one case when I feel that I don't have a hard decision. I feel very confident that I can vote and support this legislation and feel that I support what my constituents would want me to do.

ASSEMBLYMAN HALLER:

Thank you, Mr. Speaker. I rise in support of A.B. 190. I can document the facts of a small-fry incumbent, non-incumbent, in my reports. I've been both, and I would have to tell you that I've never had money left over. I really do disagree and do have the documentation to prove that incumbency doesn't turn you into a financial tiger.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support of the Ethics Commission's proposals. I, too, had the opportunity to attend some of the hearings they had prior to the election when they were formulating their suggestions to adopt this bill. Like most of the things that we do over the years, they're not always perfect. The nature of our business is to try and do things, then come back and improve on them and occasionally repeal them if we find that we have done something that was way out of line. Anyhow, the nature of our process is that we are very seldom able to make major changes that are perfect the first time around. I would urge my colleagues who have spoken against this, to be persuaded by the debate today, and to move this legislation forward with our blessing to this point. If errors are found or suggestions or changes are made in the Senate, take a look at them there. If we

have to come back next year or the year after to continue, then do so. There are many things that I would have liked to have seen including the charities that would be options for dispersal of the money, but of course I can honestly say I've never had that problem.

I would also like to respond to the initial comments of my colleague from the capitol district indicating that this was an incumbent's bill. I think that no matter what you do incumbency is always going to have some advantages, nothing less than name recognition. I think you would be in error to presume, as was mentioned, that simply because you received campaign contributions from someone, some industry or some group in an election or even in a series of elections going back that you are going to receive those campaign contributions in the next election coming up, which was the inference that was made. There's a lot of things that could change people's ideas about supporting you on one thing or the other. So, I think that is a presumption. With regard to being able to work around the legislation, I think almost anything we do—criminal legislation, government, in this case ethics—we're trying to do the best thing. If people are crafty or if people want to try and be dishonest, unethical, or whatever the case may be, those people who are clever enough will always find ways to get around the law for awhile, until they're caught and pay the price. I would like to mention at least, perhaps to the comfort of our colleague from Elko who thought that no one knew that he was returning his checks, I do recall someone asking me in Las Vegas during the campaign, "Who is that weird guy that's sending back campaign contributions up in Elko."

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of this legislation. I would like to bring back the focus. This is one piece of an ethics reform legislation, and this is the one piece that finally gives "teeth" to the Ethics Commission and that's really the main focus of this bill. While it does deal with campaign contributions and disclosure, which I appreciate having a better disclosure form which will finally be developed from this, it also bans honorariums. To state as a public employee, I'll feel much more comfortable because I'll know where the lines are and hopefully dispel people from saying, "How can you be a public employee and a public official." I think it gives us some boundaries that we're able to work with and will apply some consistency to that. Maybe, the best piece of it will cause the public to understand that the word "politician" is no longer a dirty word and possibly put what "poli" stands for "of the people," back into the legislature.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I rise in support of this bill. It's true that it's not perfect, but if any of you have ever sat on a body where you have to decide ethical issues, it's not an easy job to do. I appeared at one of the Ethics Commission hearings and the questions that they grappled with are really very difficult. I cannot, for the life of me, understand why anyone would vote against this bill. I consider it a good bill, an honest effort, and I intend to support it.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. I wish I knew John Carpenter about a year ago, when he had all this money. Very seriously, I attended the Ethics Commission meetings and testified at a couple of them. I think that what they were trying to do at those meetings was try to find out exactly what the public throughout the state wanted as far as the performance of their legislators go. I think they came up with an excellent bill which I am 100 percent in support of. I would like to say that this is a government of the people, and by the people, and for the people. Our job, I think, with this legislation will help restore a particle of confidence back into the 1.2 million that we represent in this state, and I think it's great. I urge your support of this.

## REMARKS FROM THE FLOOR

Assemblyman Petrak requested that Assemblyman Gibbons' remarks be entered in the Journal.

Thank you, Mr. Speaker. I am proud today to introduce my very special guest and husband. Before I do, I do want to thank everyone for being so kind and good to me, during the last two and a half months. It has been the most difficult time in my entire life, and I really appreciate it. I do love all of you very much. You have been wonderful and it has been a wonderful experience.

Before I introduce Jim and let him stand up, I want to present something to him. When I first came to the Legislature, the very first day, they delivered his bills to me and one of them was a 20 page bill that dealt with habeas corpus. I didn't even know what habeas corpus meant. After about two weeks and exhausting five or six LCB staff, I learned that it meant "have body." I talked to my husband the next day. He said, "if you can get Assemblyman Porter to sign them, then I think you can get the bill passed. He is my co-sponsor." I had this bill framed and it says, "To my loving husband and my favorite constituent. This bill is for you."

## COMMUNICATIONS

DISABLED AMERICAN VETERANS
DEPARTMENT OF NEVADA

LAS VEGAS, NEVADA, March 27, 1991

JOSEPH E. DINI, JR., *Speaker of the Assembly,* State of Nevada, Capitol Complex, Carson City, Nevada 89710

DEAR MR. DINI:

The purpose of this letter is to request a joint recess of the Nevada Assembly and Senate on Friday, May 3, 1991 at 11:30 for a presentation by the National Commander, Disabled American Veterans, Joseph Andry.

The Disabled American Veterans' and Auxiliary's 43rd annual convention will be held May 3-5, 1991 at the Ormsby Hotel-Casino. Some 200 of the nearly 6,000 members of the DAV in Nevada, which represents 13 chapters and six auxiliary units are expected to attend.

Purpose of the convention is to approve a "BLUEPRINT" for providing improved assistance to Nevada veterans and their families, to review programs, adopt resolutions and elect 1991-1992 officers.

Special convention guest will be Joseph Andry of Ohio, national DAV Commander for 1990-1991. DAV is a federally chartered non-profit organization, which has more than one million active members. Andry is a combat-disabled Vietnam veteran who joined the Army in 1969. His dream of competing as an Olympic team distance runner died in the smoke of a Viet Cong booby trap. The explosion took his left leg and right eye, riddling his body with shrapnel. The young sergeant left the Army with a Purple Heart and a new dream of helping his fellow veterans. He earned a degree in education, business management and labor relations, and has worked as the Ohio state director for veterans employment. Andry and his wife, Julie, will be arriving Friday morning from Phoenix, Arizona.

Respectfully submitted for consideration,

FRANK PAYNE
*Convention Chairman*

## SECOND READING AND AMENDMENT

Assembly Bill No. 487.

Bill read second time, ordered engrossed and to third reading.

Senate Bill No. 62.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:
Amendment No. 245.

Amend the bill as a whole by renumbering section 1 as sec. 2 and adding a new section designated section 1, following the enacting clause, to read as follows:

"Section 1. Chapter 4 of NRS is hereby amended by adding thereto a new section to read as follows:

*1. The justice of the peace shall, on the commencement of any action or proceeding in the justice's court for which a fee is required, and on the answer or appearance of any defendant in any such action or proceeding for which a fee is required, charge and collect a fee of $2 from the party commencing, answering or appearing in the action or proceeding. These fees are in addition to any other fee required by law.*

*2. On or before the first Monday of each month, the justice of the peace shall pay over to the county treasurer the amount of all fees collected by him pursuant to subsection 1 for credit to the state general fund. Quarterly, the county treasurer shall remit all money so collected to the state treasurer, who shall place the money in an account in the state general fund for use by the director of the department of taxation to administer the provisions of NRS 360.283, insofar as that section requires the department to estimate annually the population of townships.*

*3. The director may refund to the county clerk of the county of origin a pro rata share of any surplus money collected pursuant to this section. The county clerk shall pay over to the county treasurer any amount so refunded and the county treasurer shall place that amount to the credit of the county general fund for the support of justice's courts.*".

Amend section 1, page 1, by deleting lines 3 through 16 and inserting: "the state, for which there must be elected by the qualified electors of the township the following number of justices of the peace according to the population of the township [:

(a) If the population is less than 90,000, one justice of the peace.

(b) If the population is 90,000 or more but less than 150,000, three justices of the peace.

(c) If the population is 150,000 or more but less than 400,000, five justices of the peace.

(d) If the population is 400,000 or more, six justices of the peace.] *, as certified by the governor in even numbered years pursuant to NRS 360.285:*

*(a) In a county whose population is 400,000 or more, there must be one justice of the peace for each 100,000 population of the township, or fraction thereof.*

*(b) In a county whose population is less than 400,000, there must be one justice of the peace for each 50,000 population of the township, or fraction thereof.*

*(c) If a township includes a city created by the consolidation of a city and county into one municipal government, there must be one justice of the peace for each 30,000 population of the township, or fraction thereof.*

2. *If the provisions of subsection 1 operate to require an increase in the number of justices of the peace in a township and, in the opinion of a majority of the justices of the peace in that township, the case load does not warrant an additional justice of the peace, the justices of the peace may notify the director of the legislative counsel bureau of their opinion. The director shall submit the opinion to the next regular session of the legislature for its consideration.*".

Amend the bill as a whole by renumbering sections 2 through 4 as sections 6 through 8 and adding new sections designated sections 3 through 5, following section 1, to read as follows:

"Sec. 3. NRS 4.080 is hereby amended to read as follows:

4.080 No other fees [shall] *may* be charged by justices of the peace than those specifically set forth in [NRS 4.060, nor shall] *this chapter, nor may* fees be charged for any other services than those mentioned in [those sections.] *this chapter.*

Sec. 4. NRS 4.100 is hereby amended to read as follows:

4.100 1. ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. Before we adjourn, I am sure most of you know by now that today will be the last official day of service of Mrs. Gibbons. I think her resignation is effective tomorrow morning at 9:30, I believe.

I just wanted to take a minute, on behalf of all the members here, to thank you for your dedication and for the effort that you put into it. I think you have a brilliant future in politics. I hope you decide to stay in the arena. Not that I want you to run against Jim or anything like that but we would certainly welcome you switching to the Democratic Party, Dawn, and we will be happy to assist you should you decide to do that. On behalf of all of us, thank you so much for taking the time to be here and serve. We are going to miss you. Thanks, we appreciate it.

### REMARKS FROM THE FLOOR

Mr. Speaker requested that Assemblyman Gibbons' remarks be entered in the Journal.

Thank you, Mr. Speaker. It is indeed a pleasure to be here. Before I begin attempting to say thank you, I have some bad news and good news. The bad news is that, no, this is not the way Dawn looks when she gets up in the morning. I do not get any better looking and what you see is what you get. The good news is, of course, you won't have to listen to Mr. Porter wax on about the accomplishments of my wife while I am here. Mr. Porter, thank you. You do not know how difficult you made my life. I have now to live with this woman and it is up to me to bring her head out of the clouds and, at least, tell her that her ankles are getting wet when she walks on water. Thank you.

Mr. Speaker, it is hard for me to find words to say "thank you" because those words seem insignificant to the way I feel. I am very proud to be a Nevadan, very proud to be here today. I am thankful for all the support you gave Dawn and thankful for all the support you gave the troops. The resolution that you passed was indeed the hit of the base. When that word got to us over there, it was the talk of the base. The whole base, all 8,000 of us that were captured on this little island and in this little air base that was on Bahrain knew about that resolution. Everybody was envious of the Nevada Air National Guard because of the pride you people had in us. Thank you.

I only hope that I am capable of living up to what my wife has set the pace in doing before me. I know her pumps are going to be hard to fill. Mr. Speaker, before I introduce my guests who are sitting at my desk today, I do have a little presentation for you, actually it is for the whole Assembly. As you know the Nevada flag has captioned across the top, "Battle Born." On January 18, I took a flag with me on a flight which I have signed and said, "This flag flew in combat." So, now truly, as I present this flag to you, we have a flag to fly over the Legislature which flew in combat to epitomize the state being "Battle Born." If I may present that to you now, Mr. Speaker, I will and then I will come back and introduce my guests.

Thank you. If I may, Mr. Speaker, introduce my guests at this point in time. I have many friends all of whom I cannot begin, except with the help of my wife. I am not going to know what to do without her. I am going to have to have her around all the time. Typical, she always outshines me. As I said, many of my friends and guests are here today to show their support. I think not just for me but for the State of Nevada as well. It is really a pleasure. I wish I had the opportunity to introduce every one of them because I consider everyone here my friend. Let me introduce those that are sitting with me today. On my right-hand side are Mr. and Mrs. Charlie Dowd, good friends and constituents. On my left, some of my friends and colleagues at Delta: Mr. Jerry McDonald, Mr. Jack Bauer and his lovely wife, Janis over there on the other side of Mrs. Marvel. In the audience, in the back, I have Mr. and Mrs. Pastor and their daughter, Ana Stephanie.

George and Ellen Toto, Sara Toto is with them. I have Shirley and Win Dale also here. My brother, John, is here. As unimportant as it may seem, I hope never to overlook the importance of my most important guest, my wife, Dawn. It really is indeed a pleasure to be here. I am thankful that everybody got home and with that, Mr. Speaker, let's get on with the business at hand. It's good to be home.

Assemblyman Bennett requested that Assemblyman Petrak's remarks be entered in the Journal.

Through you, Mr. Speaker, and to my colleagues in the Assembly. I kind of goofed up when I came to Carson City. I failed to report to Legislative Functions the fact that I had some information I should have divulged at the time. I would like to do it now.

Forty-nine years and 33 days ago, Mr. McGinness, there was a St. Patrick's Day dance in Cleveland. I lived there as a resident. The dance was being held at the YWCA down the street, at 17th and Prospect. Mr. Wong knows where that is. I happened to enter this dancing hall and saw a good looking Irish colleen, by the name of Phyllis. She was a strawberry blond with pretty blue eyes. A good looking woman. The rest of the night I danced with Phyllis.

I suppose about the 20th day we decided that we should do something about this thing and get married. She agreed. I wrote to a Justice of the Peace in Greenup, Kentucky. He said, "If you come down here, I will marry you for $2." On the 32nd day after I had met Phyllis, we got into my 1941 car, and, incidentally, the cost of gas was 12 cents a gallon. I had 23 silver dollars in my pocket and we headed out for Kentucky. At two o'clock in the morning we arrived at the banks of the beautiful Ohio River in the town called Ports Smith. We decided to stay at a hotel there. I went to the big hotel on main street and they said, "We don't have any lodging facilities for you. Go down the street about half a block and there is a little hotel. You can check in there, possibly." So I did that. We drove down the main street. I turned left and just as I turned left at two o'clock in the morning, in this lazy river town on the Ohio River, my horn started to blow. There was a short in it. I got out of the car and I pulled the horn wires out and the horn stopped blowing. I went in to check in. The clerk at the desk was sleeping on a cot behind the counter and I woke him up and said, "I would like to have two rooms." He said, "What do you got, another couple with you?" I said, "No, this is my lady friend and we want two rooms." It cost us a dollar each for the night's lodging there.

The next morning we went across the beautiful Ohio River and up the river about six miles to a town called Greenup, Kentucky. I looked for this justice of the peace, Greenslade. I went to his house. This man came out. He was in a black suit, real dirty, and a white shirt and a bow tie, and his coat came down to his knees. He had a black hat with a straight leveled brim on it. He said, "What can I do for you?" I introduced myself. "Yes," he said, with a Kentucky southern accent, "I will be glad to marry you this morning." He said, "You have gotta go up to the doctor uptown there," and he told me where to go to get a blood test. We went and had a blood test and after that, he told us to return to the Sheriff's Department, the jail was in town. We went over to the Sheriff's Department at 11 o'clock and met the justice of peace, Greenslade. If you can, picture the way in which this ceremony went on. The sheriff's wife happened to do the clerical work for the sheriff and she was the sponsor of our marriage. The justice of the peace was standing across from us and we were here and all of a sudden the deputy sheriff came in

with two prisoners. He locked the prisoners up in the jail cells right there and they were watching us while the sheriff performed the marriage. It cost me $2. I had my silver dollars and I gave him two of them and I gave him a dollar tip. That was 49 years ago about half an hour ago.

This girl I thought so much of has been with me during all the years. We have been through the good and bad times. She has always been with me. I think so darn much of her. Like my colleague, Jim Gibbons said, "He didn't know what he would do without her." Well, Jim, I feel the same way about Phyllis. She's with me this morning. She was my campaign manager for my Assembly race. She is a winner. I appointed her my executive administrative assistant, Mr. Speaker, without pay. That is saving the state some money. I want to say that I think so much of her. She has been a real good buddy and partner and I love her very much. I wanted to interrupt this General File to tell you about that because you know $2 for a marriage license isn't very much when you figure that today, Assemblyman Heller, it has gone up to thirty bucks. I would like to go back to my General File remarks. Testimony indicated that the current $20 fee is not sufficient to cover the costs and time and travel required to perform marriages. In addition, county marriage commissioners currently charge the same $25 or $30 fee proposed for this bill. I ask my colleagues here in the Assembly if you would please vote for this legislation. Thank you, Mr. Speaker, and thank you, dear colleagues in the Assembly.

Enable us this day then to be grateful for other things as well; for the work that You have given us to do; for co-workers, perhaps; for family and friends at home. Assemblyman Arberry moved the adoption of the resolution.

Remarks by Assemblymen Arberry, Myrna Williams and Carpenter.

Mr. Speaker requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I am honored to be one of the major sponsors of the Sammy Davis, Jr. resolution. As the Chief Clerk read, Sammy Davis began performing when he was three years old. If some of you have seen the clippings from the older years, when he looked like a midget, I understood they were selling his act as though he were an adult, but he was only three years old.

I never had the opportunity to meet Mr. Davis in person but because of his closeness in the performing arts as a singer, dancer, musician, actor and comedian, it was hard not to know him and feel close to him. Also, Mr. Speaker, and to this body, I can say Mr. Davis was deeply concerned about Nevada because they called him "Mr. Entertainer." He was really "Mr. Nevada" because he spent most of his entire life here. In note with that, the Harrah's Reno will be naming the showroom after Mr. Davis. I feel that is a lifelong friendship. Nevada feels very strongly about him and we wanted to show our deep concern toward Mr. Davis.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in support of this resolution. I had the good fortune, because of my family background, to have known Sammy from the time I was a little girl. It was a very close, warm personal friendship between Sammy's family and my family. We shared many very fine times and there were many tough times. I had to laugh when my colleague talked about Sammy being small in stature. Maybe, physically, but certainly not as a person. He was a giant. He was a giant, not just as an entertainer but as a person and friend. I cannot tell you how deeply, those of us who knew him well and shared some of our lives with him as he shared his life with us—how deeply we feel about this. I don't think there is much we could name that would really do justice to Sammy Davis.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. Sammy Davis was an entertainer that people in my generation could relate to. Whenever you saw him on stage, or heard him on radio, or saw him on TV, he always made you feel good. So this is a "feel good" resolution and I think we ought to vote for it.

Resolution adopted unanimously.

By the Committee on Legislative Functions and Elections:

## REMARKS FROM THE FLOOR

Assemblyman Gibbons requested that Assemblyman Petrak's remarks be entered in the Journal.

Thank you, Mr. Speaker. Through you, Mr. Speaker, to my colleagues in the Assembly. I would like to tell you a decade is a long time, ten years. I am thinking about four decades and three years ago, in 1948, and I will go to Mr. Wong, because that is the year the Cleveland Indians won the American League pennant and that was a proud time for the City of Cleveland, and it has been a long time for them.

I am thinking about going from the midwest and taking a long trip out to the far west, as we thought about it at that time, 36 months after that, in 1948. In 1951, at the University of Nevada-Reno, there were a couple of young college kids, like our Pages here, who were attending the University of Nevada-Reno, and they drew a real attachment to one another. In 1951, just four decades ago, on April 7, they decided it would be a good thing to get married and so that happened to them. I would like to introduce to you the royal family from Battle Mountain, the king and queen who have been married 40 years on April 7, and I think it's just great. They are right behind me. It is John and Willie Marvel and I would like them to stand up because they deserve a good hand. Thank you, Mr. Speaker and congratulations to these good people.

Assemblyman Porter moved the adoption of the resolution.

Remarks by Assemblymen Porter, Myrna Williams, Evans and Price.

Assemblyman Evans requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PORTER:

Mr. Speaker, it is wonderful to have all of these former legislators here with us today. Their accomplishments speak for themselves. It's kind of funny, though, about the Nevada legislature; we are getting quite a turnover around here. A lot of people are here that I served with and I have only been here three terms. I look around and see a lot of faces that I became friends with during my past terms.

There is one thing about serving in this body, Mr. Speaker, and that is once you are here, it's kind of a large fraternity because there is a certain amount of respect that we all develop for each other, having gone through campaigns, having fought the battles and having ultimately served here. Once you have made it to a sine die, especially under Mr. Jeffrey's reign, you have earned your stripes. Hopefully, Mr. Speaker, we won't break his two previous records and we will do our best to get out of here. Thank you.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. As I look around, I see many friends and people that I have known over the years, people I have served with and people who were serving here when I was coming up here yelling and screaming at them the way that people yell and scream at us now. I thought your choice of words was very interesting in that you said, "they were descending upon us." That could mean almost anything. I am not sure "old timer" is exactly the phrase we want to use. Most of the people I see around here are extremely vigorous and do great things in their communities. Many of them are very young. They are all young at heart, chronologically they are very young. Some of them who have been around for a long, long time have done more for this state in their lifetimes than almost anyone I can think of. We welcome them and are pleased to have them with us.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Never short of words here, I guess I am already looking forward to the day when I am going to be an "old timer." Many more sessions like this and a lot of us will be looking for retirement. To all of you who have been here, who have been our predecessors, we owe you a great debt of gratitude for your years of service to the legislature. You have established many fine traditions that we are trying to uphold and if we can get out of here setting a record on the other end, instead of the longest session, decreasing it this time, we think that we will have served you very well. We are pleased that you are here. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body and all of our honorable guests. It's a real pleasure seeing so many old friends, vigorous old timers, of which I am surrounded by a couple of beautiful old timers over here. At any rate, we are so pleased to see you and to extend our thanks for what you did over the years and the precedents and the traditions that you built. I hope that we follow. My only complaint is, how come you didn't get the pay up before we got here. Seriously, it is so good to see everyone and we are looking forward to the rest of today and our lunch together.

Resolution adopted unanimously.

Thank you, Mr. Speaker. To you and through you to this honorable body. I feel the bill is very worthwhile but the problem I have with it is as Congressman Bilbray stated, "the more that we ask from Congress, the more regulations we have in this state." I prefer it at a state level and I will be voting "no."

### REMARKS FROM THE FLOOR

Mr. Speaker requested that Assemblyman Myrna Williams' remarks be entered in the Journal.

Mr. Speaker, if I may under Order of Business 15. It is an appropriate day for students to be here because the Governor's Conference on Holocaust Education is taking place today and tomorrow, and dinner tonight. Hopefully, much information will come to these young people as a result of this within their schools and within their educational framework. If I may, I have an informal resolution I would like to read, with your permission, Mr. Speaker.

WHEREAS, The year 1991 marks the 50th anniversary of the beginning of the dark period in human history known as "The Holocaust"; and

The 1989 Nevada Legislature, in understanding that only through a constant program of education will our universal society learn history's lesson, created the Governor's Advisory Council on Education Relating to the Holocaust; and

WHEREAS, The Nevada Legislature directed the Advisory Council to develop programs for the education of children and adults in issues relating to the Holocaust and to prepare to host an international conference on the Holocaust in Nevada in 1991; and

WHEREAS, The Governor's Conference on "The Universal Implications of the Holocaust" is being held today and tomorrow, April 23 and 24, in Reno, Nevada; and

WHEREAS, The Governor's Conference is extremely honored to present internationally renowned Dr. Elisabeth Maxwell as the keynote speaker at this evening's dinner; and

WHEREAS, The Governor's Conference will provide teachers and other professionals in the medical, legal and religious professions with opportunities to explore

some of the significant questions related to Holocaust study, including how people with great ethical, intellectual and professional standards could have been enlisted in such an amoral and inhuman cause and, more importantly, under what conditions could this happen again; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, That the members of the Governor's Advisory Council on Education relating to the Holocaust, Edythe Katz, John Henry Brebbia, Hy Kashenberg, Gene Greenberg, Norman Kaufman, William Marion, Dr. Vern Mattson, Karla McComb, Dr. Dennis Ortwein, Dr. Eugene Paslov and Dr. Leonard Weinberg, be commended for their outstanding service to the State of Nevada; and be it further

DECLARED, That we should forever remember the words of Telford Tayler, "The story of the Holocaust is not a Jewish story. Nor is it a German story. The import of the Holocaust transcends all lines of race or religion; it is of human significance."

Thank you.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I am pleased to stand in support of this measure. It has only been in relatively recent times that we have come to recognize that victims are sometimes victimized twice. By that, I mean, they are victimized originally by the perpetrator of the crime, and, secondly, because of insensitivity, lack of understanding and just getting caught up sometimes in procedures. The understanding that they need the sympathy, the help as they move through the system with law enforcement, with the criminal justice system, the courts, and so forth can be extremely difficult on them. As a matter of footnote, in 1981 when I was doing a lot of advocacy on behalf of victims, it was the first time that I met then District Attorney Bob Miller. When Governor Miller was DA of Clark County, he was at the forefront of the national movement for victim rights and has been given national recognition for his work in victim rights. I am pleased to see that there is ongoing work, cooperation between the public and private sector to bring attention to the importance of victim rights.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I also rise in support of this resolution. In the ten years that I have been in this body, there has been a major transformation in the attitude of the system towards victims and that includes the laws that we have passed and the way that we have approached the subject of victim's rights. It has always been a situation with crimes that the state has prosecuted crimes against the offender. It is not the victim who prosecutes the crime. In setting up that kind of system, we have started a procedure which potentially has no notice to the victim of what is happening, no opportunity to be heard and no feedback on the result. These are the areas that the legislature has addressed in the last ten years to provide victims more rights and these are the things that we talk about with victim's rights. Along with that is the realization that the people who are victimized by crimes have a healing process and a resolution of that assault that takes place, part of which is participating in the outcome of society's penalty of the offender. It is a necessary aspect to wellness of the victim.

Another aspect is education. Resolutions like this help in education of the public to understand that the victim's rights are important and that we are moving towards a society which pays more attention in the process to victims.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. There is little to add to my two colleagues' remarks; however, I would like to say that we must also recognize and commend those groups and agencies that are out there working every day with the victims of crime helping them to re-establish their lives and get past and into the healing process that my colleagues spoke about.

Resolution adopted.

## MOTIONS, RESOLUTIONS AND NOTICES

Assembly Concurrent Resolution No. 28.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblyman Evans.

Assemblyman Price requested that Assemblyman Evans' remarks be entered in the Journal.

Thank you, Mr. Speaker. A.C.R. 28 was one of a series of resolutions that was proposed by the Interim Study Committee on teenage pregnancy. As you know, we have a very high rate of teenage pregnancy in Nevada and we are doing all that we can to work on the preventative side as well as on the treatment side. It was brought to our attention that the young women in our schools do not have enough information regarding this as an option. That was really the reason behind it, to answer it, to respond to their request for more information on adoption.

Resolution adopted.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. We all have most of our secretaries here with us. Probably the most thankless job in this house other than our own, is being charged with the responsibility of keeping all of us in line and making sure that we make our committees and appointments on time. Probably the toughest thing is running interference with lobbyists. I know that the staff that Mouryne graciously gave me is excellent and we have a little cartoon that we put up the first day that has a couple of wolves trying to keep some cavemen out and underneath the caption says, "If you let them in once, they will expect it every time." Cindy is very good at that. We have a real tough policy. This place could not operate without the excellent staff that Mouryne hires and trains. From my point of view, they really help our session run smoothly. I really appreciate all they have done. Thank you.

ASSEMBLYMAN SPRIGGS:

Thank you, Mr. Speaker. I think it has been such a definite improvement for us to have our own secretaries or to share one. I know that it has made my job a whole lot easier. I know that you have as large a district as I do, Mr. Speaker, and never before have I had the opportunity to really correspond with my constituents the way I can now. I wanted to say how much I appreciate my secretary and all those who work here. Thank you.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. As we know in the last session, my seat mate next to me was from District 42 and she was always after me to keep my desk straight. Well, my desk is still probably about like it was but there is a great contrast in my office, a clean desk and everything is very orderly and organized. I want to thank Kay Graves, my secretary, for doing such a terrific job of getting me organized and straightened out; however she doesn't come out here, so maybe she will have to even straighten this desk up. Anyway, I want to thank her for the great job she is doing for me this year.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Chairman. Along the same lines, maybe it is because I am a notch baby, maybe it is because I am the oldest guy in this Assembly, but Kathleen Day, I don't know that she has deserted John Carpenter or myself today, but I am sitting here with an empty chair and it was to be for my super great secretary. We think an awful lot of her. She does an outstanding job, but I have to point to her because my vision is good enough to see her over there with Doug Bache. Kathleen, stand up, I think that you are the greatest. That is my girl. Thank you.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. I would like to comment that I have had the privilege of having two different secretaries since I have been here, both of whom have been excellent. The first one left for the bigger bucks that she could make or should I say was stolen away by our colleague from Sparks. Fortunately for my colleague from District 5 and me, our second secretary has also been excellent. They both have done a great job for us and deserve to be commended.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in support as well and would like to echo the words of Mrs. Spriggs. We have seen much more personal opportunity in this session than we have before. I think I said in a previous session that the staff is really the engine that drives this machine that we call government. We are riding very smoothly and we appreciate them very much. I appreciate my secretaries, Carol Martini and Sharon Burnham.

ASSEMBLYMAN WENDELL WILLIAMS:

Thank you, Mr. Speaker. I rise in support of the resolution. There is one part of the resolution that was omitted that should read subject to the effect "to make a man go where life has never gone before." That would summarize what my secretary, Marilyn Cole, is all about. On the first day of the session, when I walked in the office, she said, "If you have any tears, prepare to shed them now." While the other people were speaking, I was in the process of cleaning off my desk. As most of the people who work on the front desk know, she comes down and because we are the Committee on Education, she grades my desk on the floor and in the office. I stayed up last night to clean my desk and when I got in this morning, there was a note that said, "A+." It was my first "A+" this session that I have received. Whenever I come in the office I have to salute. When I first got here, she was termed as the drill sergeant, but as many people know in my office, she has new stripes. She is now a master sergeant. Anyone who comes near that office understands what that means. I do not view her as a secretary, only in the term of the word, secretary. I view her as a co-worker because we work together. I really appreciate the things that she has done in helping not only with the Committee, because I am sure they appreciate it, but helping me personally maintain the operation of the Education Committee. I cannot find the words that would really show and tell her how much she is appreciated for the things that she has done for our Committee and myself, especially so. Wholeheartedly, I must, before I get demoted, support this resolution and urge others to do the same.

ASSEMBLYMAN CALLISTER:

Thank you, Mr. Speaker. In response to my colleague, Mr. Williams, unfortunately his master sergeant has not had the opportunity of grading my desk. For those of you who visited my office, there is little possibility that I would receive even a passing grade on my desk. On my desk we have taken to lining up the phone messages in long rows which covers the entire top of the desk. I advise visitors that it is kind of my version of a game show. It is much like Concentration. You have to get a match before I bother to return your phone call. The implication being, if you make a lot of phone calls, that enhances your chances of getting a match. I wanted to take just a moment and express my appreciation in a more serious vein to all five of the secretaries working in my office. Reba, of course, who all of you know, runs my life, not just my calendar. Patty McDaniel, Launa Martin, Dale Gray, Cheryl Thurston, all of them have done a terrific job with an extraordinary burden this session, especially in light of this scheduled closing date. They have been terrific. When I needed minutes over night to accommodate any individual members of the Committee's needs, they have been able to produce them verbatim, exhaustive minutes as you are aware from three, four and five hour meetings in Ways and Means. I just wanted to rise in support of this resolution. If I didn't, I would really be in deep trouble.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I appreciate the opportunity of speaking briefly. The opportunity of never having had a secretary to rely on for me was a new experience. The secretary that Mr. Hardy and I have the pleasure of having work with us and support what we do here, Ms. Simpson, has been beyond compare. I know that Warren thinks that she likes me best and Paulette keeps saying, "that is really not true." I know deep down, of course, that she does indeed like me best, but regardless, not only can she interpret my writing but she corrects my spelling. I really do appreciate the hard work and great effort that she puts into my office. Thank you very much.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I will make it very, very brief. I just want to compliment all the secretaries. I am very supportive of this measure because I feel that Mouryne has

developed a very good crop of ladies. They have been very friendly, very responsive, and I can say that they have taken care of the most of the concerns in all of the committees or when you have a problem. I just wanted to let this body know that we have given our corridor in our area a new title and a new name. We call that Lake Mead Boulevard. So any time you are on the third floor and you want to take a tour of our area, just come over to Lake Mead Boulevard and stop in and see my secretary, Lula Collins, who takes very good care of me or go across to the master sergeant who will take very good care of you. When you need a little debriefing, go by Assemblyman Williams' office, his secretaries will take good care of you. If you would like to go to Palm Springs, just come and visit us. If you want good climate control, come over and visit my colleague, Mr. Price. If you need a little spaghetti bowl, a little sparo, just go down to Mr. Callister's office and you will see plenty of rotation, Mr. Speaker.

ASSEMBLYMAN BACHE:

Thank you, Mr. Speaker. I would like to rise in support of this resolution. Kathleen Day, who is my secretary, as well as my colleague from Assembly District 18 and my colleague from Elko, has done an excellent job for me. In response to my colleague from Assembly District 18, the reason why she is here instead of with either one of them, number one, I got to her first; and number two, I give her the lightest work load.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of the resolution. I will have to respond to that. I think that Kathleen Day must have the toughest job of any secretary. She has to ride herd on a cowboy from Elko. She has to take care of the "latch key baby" from Ohio and in addition to that, she is being educated by the teacher from Las Vegas. So Kathleen, I hope you stand up under all of this pressure. Thank you for the great job you do.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I must confess to being that person from Sparks that my colleague from District 2 referred to. Yes, indeed, I did pirate away his secretary. My first secretary couldn't make it much past the first five weeks which I guess says a lot about what it is like to work for me. Marcie and I have a shared experience. We worked together a few years ago in another setting. To some degree she knew what she was in for when she came with me. She asked if there was any priority in terms of what she had to do. I said, "Two things; first you have to read my mind and secondly, don't worry about managing the office, just worry about managing me." I have to say, she gets A+ on both. It is great to have you Marcie.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I rise in support of this resolution. My secretary isn't here today. She is at the doctor's office. I don't know what that tells you about this stage of the session but that is where she is today. She and I sort of inherited each other. The secretary who had been assigned to me fell and hurt her back the second day of the session. So Pat Menath and I have muddled through the session together. She has done a wonderful job. I would like to thank her. Certainly everybody that is in the secretarial pool, they take such good care of us. They give me coffee in the afternoon when I can't find it in any of the committee rooms and popcorn when I am having real problems. I just want to thank you all. You do a marvelous job.

ASSEMBLYMAN GARNER:

Thank you, Mr. Speaker. I rise in support of the resolution. You can see that I am surrounded by three secretaries. This is really only half enough to keep me out of the kind of trouble I can get into here. I really appreciate all the work they do and all the secretaries in the legislature that give so much time and consideration to the work that needs to be done here. I have seated here with me Laura Pabon, Betty Wills and Donna Calhoun. I just wanted to express my appreciation to them for the fine work they do here. Thank you.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in strong support of the resolution. Some of you may know I have been coming down here since the late 50's. I have seen some tremendous changes. They didn't even have offices over in the other building. They used to meet in the bathroom and

some other places where they shouldn't have. I really appreciate what has happened including the change in the building because it is just a different place. April Carino is our secretary. Mr. Kerns carves ducks and I lose wallets and April takes care of all those details. We had Dawn Gibbons for quite a while but we had to shift over to a less attractive person in that office and that is not detracting from the one who is there; the other was so much better. In any event, April is a jewel and I am very proud of her and she does things beyond the call of duty. We work overtime on finding my wallet as I said. Thank you very much, April.

ASSEMBLYMAN BAYLEY:

Thank you, Mr. Speaker. I just want to thank Mr. Norton's, Mr. McGinness' and my secretary, Carol Dickerson. She is a sweetheart. I never had a secretary before. I am still trying to figure out how to use a secretary but she covers for me in areas that I couldn't even tell you. Thank you, Carol.

ASSEMBLYMAN BENNETT:

Thank you, Mr. Speaker. I can't pass up this opportunity, not only to speak of the competence of my secretary, Martha Bowers, but also, if you will remember that she also sang before this body a week or two ago. Not only can she sing, she is also a consultant in appearance, in makeup, and so forth. I don't think she would agree with my tie today but I have some additional help from my staff.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. The three people who keep Judiciary together are Iris Bellinger, Kathy Pereos and Susan Packard. I only have two of them because the other one is working upstairs, I guess. They couldn't decide what to suggest for me to show my appreciation for Secretary's Day. In Judiciary, everything is done by committee decision. A committee is composed of three secretaries, I don't have a vote. We talked about standing on my head or doing cartwheels but now they have decided that lunch will do.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. Obviously, I rise in support of the resolution. This year I am blessed with two young ladies that I call the "A Team," that we all know, Sherree Koehler on my left and Dianne Laird. They were given the task to get me straightened up and organized. Well they have done most of that. The only thing they haven't done is to get me to meetings on time yet. They are a wonderful team and it just absolutely amazes me the work and the organization that they are able to perform for our committee. Over the years, I think those of us that have been here before, can say, we have been blessed with excellent help which I have to say is a credit, in my opinion, and I know in all of our opinions, to Mouryne's ability to interview and select the right people and assign them to us. I would like to thank you publicly, Mouryne, for the help and for your wonderful, wonderful decisions that you made for me this year. Thank you.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. This is the first time that the Minority Party has ever had secretaries. I really appreciate the opportunity to have Donna Watt. I just missed being a "notch baby," but Donna does an excellent job of baby sitting me. Of course, it is great having a couple of gals who work with Ways and Means. Those gals are always here early in the morning and always very cheerful. I think this is an excellent resolution and I am delighted we are able to recognize Secretary's Day.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Chairman. I rise in support of the resolution, as well. I agree, particularly, with the remarks of Mrs. Spriggs, Mr. Marvel and the remarks of Mrs. Evans as to mind reading. That is a skill that is much in demand especially when you are very busy here. Particularly, it is nice to surrender the calendar to a competent secretary and to have her have the ability to read my mind to know who I feel is a jerk and to only schedule five minutes with them, among other things. All present company excepted, of course. I would also like to compliment Mrs. Landing on her "people" skills. Just excellent, all around excellent, choices. They are just excellent people. I have come in contact with many of them. The Ways and Means secretaries seem to have an affinity for

dogs and other animals in their cartoons and that is much appreciated. Finally, I would like to say that my secretary, Colleen Janes, is extremely competent. She speaks Russian, has worked for the federal government and is still a good secretary. Now, if I might suggest, she is trying to get a job with the Executive Branch Agency of the State of Nevada, why, I am not sure. If anyone knows of any opportunities, I am not trying to make a blatant advertisement, but she is looking for an opportunity after the session. I would appreciate it if anyone could pass those opportunities along. Thank you.

ASSEMBLYMAN KRENZER:

Thank you, Mr. Speaker. I, too, rise in support of the amendment and say ditto to a lot of the remarks that were made. I am grateful to Maureen Francisco, that she can read my handwriting and decipher my upside down and backward scratchings on a page. Also, she has the particular opportunity of putting up with all the fights in our corridor between Joe Elliott and myself.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. I would also like to rise in support of this motion and publicly tell April, thank you for not only taking care of the "notch baby" from Ohio and the cowboy from Elko and the absent-minded professor over there from District 27. But for myself, I would like to tell my colleagues that I am a little bit smarter. For sitting at my desk is Pat Hatch who is the supervisor of all the secretaries and that is how I get my work done.

MR. SPEAKER:

This a great discussion going on but I have to get the Education Committee to the airport so we have to do General File. So with your indulgence we will cut this conversation off right now but I do have to introduce to you, two secretaries that I have. One, she is not the secretary, she is the Assistant Speaker, I got her to sign her letters that way now, everybody knows Betty Day. She has been with me three terms now. Connie Lewis came aboard this year. She is bailing us out because we get tons of letters. You guys keep messing around with Medicaid and we are going to hire one just for Medicaid letters.

Resolution adopted unanimously.

Assemblyman Porter moved that all rules be suspended and that Assembly Concurrent Resolution No. 55 be immediately transmitted to the Senate.

Motion carried unanimously.

"Sec. 15.5. NRS 463.370 is hereby amended to read as follows:

463.370 1. Except as otherwise provided in NRS 463.373, the commission shall charge and collect from each licensee a license fee based upon all the gross revenue of the licensee as follows:

Three percent of all the gross revenue of the licensee which does not exceed $50,000 per calendar month;

Four percent of all the gross revenue of the licensee which exceeds $50,000 per calendar month and does not exceed $134,000 per calendar month; and

Six and one-quarter percent of all the gross revenue of the licensee which exceeds $134,000 per calendar month.

2. Unless the licensee has been operating for less than a full calendar month, the commission shall charge and collect the fee prescribed in subsection 1, based upon the gross revenue for the preceding calendar month, on or before the 24th day of the following month. This fee prepays the license fee for the third month following the month whose gross revenue is used as its basis.

3. When a licensee has been operating for less than a full calendar month, the commission shall charge and collect the fee prescribed in subsection 1, based on the gross revenue received during that month, on or before the 24th day of the following calendar month of operation. The payment of the fee due for the first full calendar month of operation based on the gross revenue derived from gambling pursuant to this section must be accompanied by the payment of a fee equal to three times the fee for the first full calendar month. This additional amount prepays the license fees for the

next three calendar months. Thereafter, each license fee must be paid in the manner described in subsection 2. Any deposit held by the commission on July 1, 1969, must be treated as an advance payment.

4. All revenue received from any game or gaming device which is leased for operation on the premises of the licensee-owner to a person other than the owner thereof, or located in an area or space on such premises which is leased by the licensee-owner to any such person, must be attributed to the owner for the purposes of this section and be counted as part of the gross revenue of the owner. The lessee is liable to the owner for his proportionate share of such license fees.

5. If the amount of license fees required to be reported and paid pursuant to this section is later determined to be greater or less than the amount actually reported and paid by the licensee, the commission shall:

(a) Charge and collect the additional license fees determined to be due, with interest thereon until paid; or

(b) Refund any overpayment, with interest thereon, to the licensee.

Interest must be computed at the rate [of 1 percent per month] *prescribed in NRS 17.130* from the first day of the first month following either the due date of the additional license fees or the date of overpayment until paid.

6. Failure to pay the fees provided for in this section shall be deemed a surrender of the license at the expiration of the period for which the fees are prepaid, as established in subsection 2.

7. Except as otherwise provided in NRS 463.386, the amount of the fee prescribed in subsection 1 must not be prorated.

8. Except as otherwise provided in NRS 463.386, if a licensee ceases operation, the commission shall:

(a) Charge and collect the additional license fees determined to be due; or

(b) Refund any overpayment, with interest thereon, to the licensee,

based upon the gross revenue of the licensee during the last 3 months immediately preceding the cessation of operation, or portions of those last 3 months.".

Amend sec. 19, page 9, line 41, after "*thereon*" by inserting: "*at the rate prescribed in NRS 17.130*".

Amend sec. 22, page 12, line 36, by deleting: "*making the report.*" and inserting: "*receiving written notice from the chairman of the board to do so.*".

## THE NINETY-SIXTH DAY

CARSON CITY (Friday), April 26, 1991

Assembly called to order at 10:39 a.m.

Mr. Speaker presiding.

Roll called.

All present except Assemblymen Arberry, Bache, Carpenter, Gibbons, Giunchigliani, Goetting, Gregory, Haller, Hardy, Johnson, Krenzer, Stout, Myrna Williams, Wendell Williams and Wong, who were excused.

Prayer by the Chaplain, The Reverend Sam Caldwell.

Mr. Speaker, even in times of prayer, a little levity might be appropriate. With this in mind, I would like to offer the following:

Heavenly Father, this is confession time. Forgive me, but the Assembly Chamber sometimes makes me feel like paraphrasing the Twenty-third Psalm:

The Legislature is my shepherd,
Much more shall I want.
It maketh me to lie down in exhaustion;
It leadeth me by general orders.
It recordeth my vote.
It leadeth me in the path of multiple committee meetings, for its name's sake.
Yea, though I walk through the valley of the shadow of defeat,
I will fear no veto, for it is with me most of the time.
Its two-thirds majority vote, sometimes comforts me.
It preparest legislation before me in the presence of the other party;
It anointeth my head with statistics;
My calendar runneth over.
Surely reporters and lobbyists shall follow me all the days of my term,
Even if I dwell in the House of the Assembly forever.
Although, I sometimes feel this way Lord, I am very grateful that You are my true Shepherd. AMEN.

Pledge of allegiance to the Flag.

Assemblyman Porter moved that further reading of the Journal be dispensed with, and the Speaker and Chief Clerk be authorized to make the necessary corrections and additions.

Motion carried.

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 21 of article 6 of the constitution of the State of Nevada be amended to read as follows:

Sec. 21. 1. A justice of the supreme court , [or] a district judge , *a justice of the peace or a municipal judge* may, in addition to the provision of article 7 for impeachment, be censured, retired , [or] removed *or otherwise disciplined* by the commission on judicial discipline. A justice or judge may appeal from the action of the commission to the supreme court, which may reverse such action or take any alternative action provided in this subsection.

2. The commission is composed of:

(a) Two justices or judges appointed by the supreme court;

(b) Two members of the State Bar of Nevada, a public corporation created by statute, appointed by its board of governors; and

(c) Three persons, not members of the legal profession, appointed by the governor.

The commission shall elect a chairman from among its three lay members.

3. If at any time the State Bar of Nevada ceases to exist as a public corporation or ceases to include all attorneys admitted to practice before the courts of this state, the legislature shall provide by law, or if it fails to do so the court shall provide by rule, for the appointment of attorneys at law to the positions designated in this section to be occupied by members of the State Bar of Nevada.

4. The term of office of each appointive member of the commission, except the first members, is 4 years. Each appointing authority shall appoint one of the members first

appointed for a term of 2 years. If a vacancy occurs, the appointing authority shall fill the vacancy for the unexpired term. An appointing authority shall not appoint more than one resident of any county. The governor shall not appoint more than two members of the same political party. No member may be a member of a commission on judicial selection.

5. The supreme court shall make appropriate rules for:

(a) The confidentiality of all proceedings before the commission, except a decision to censure, retire or remove a justice or judge.

(b) The grounds of censure [.] *and other forms of discipline which may be imposed by the commission.*

(c) The conduct of investigations and hearings.

6. No justice or judge may by virtue of this section be:

(a) Removed except for willful misconduct, willful or persistent failure to perform the duties of his office or habitual intemperance; or

(b) Retired except for advanced age which interferes with the proper performance of his judicial duties, or for mental or physical disability which prevents the proper performance of his judicial duties and which is likely to be permanent in nature.

7. Any person may bring to the attention of the commission any matter relating to the fitness of a justice or judge. The commission shall, after preliminary investigation, dismiss the matter or order a hearing to be held before it. If a hearing is ordered, a statement of the matter shall be served upon the justice or judge against whom the proceeding is brought. The commission in its discretion may suspend a justice or judge from the exercise of his office pending the determination of the proceedings before the commission. Any justice or judge whose removal is sought is liable to indictment and punishment according to law. A justice or judge retired for disability in accordance with this section is entitled thereafter to receive such compensation as the legislature may provide.

8. If a proceeding is brought against a justice of the supreme court, no justice *of the supreme court* may sit on the commission for that proceeding. If a proceeding is brought against a district judge, no *district* judge from the same judicial district may sit on the commission for that proceeding. *If a proceeding is brought against a justice of the peace, no justice of the peace from the same township may sit on the commission for that proceeding. If a proceeding is brought against a municipal judge, no municipal judge from the same city may sit on the commission for that proceeding.* If an appeal is taken from an action of the commission to the supreme court, any justice who sat on the commission for that proceeding is disqualified from participating in the consideration or decision of the appeal. When any member of the commission is disqualified by this subsection, the supreme court shall appoint a substitute from among the eligible judges.

9. The commission may:

(a) Designate for each hearing an attorney or attorneys at law to act as counsel to conduct the proceeding;

(b) Summon witnesses to appear and testify under oath and compel the production of books, papers, documents and records;
