OF THE

ASSEMBLY OF THE STATE OF NEVADA

SIXTY-SEVENTH SESSION

THE FIRST DAY

CARSON CITY (Monday), January 18, 1993

Pursuant to the provisions of the Constitution and Statutes, the Assembly was called to order by Secretary of State Cheryl A. Lau at 12 noon.

Prayer by the Chaplain, The Reverend Bruce Henderson.

Our Father in heaven, today is the day we honor a man with a dream. As we come to this opening session, each one of us had a dream, too. May our dream, our goal, our purpose for this 67th session be the betterment of our people. May we serve them with humility, sacrifice, and love. May we serve them above ourselves. Thank you for this glorious opportunity. We also ask a special blessing on our colleague, Mr. Haller. May he recover soon and be with us. AMEN.

Presentation of Colors by Boy Scout Honor Guard, Boulder Dam Area Council.

ANCIENT BANNER

By Seth Long

High she rises above the shrouded mists.
High she waves and flutters above the golden land.
Blessed be she always into eternities ancient shore.
She stands for the highest alone, Freedom, Liberty and Justice. O through the times she has been tried.
The pitched scream of her gallant minutemen at Concord or how she beamed with joy at Yorktown upon the sea.
She unfurled her banners high. How she hung low when Washington burned. Those broad stripes and stars seemed to weep when brother fought brother. How she smiled when we were united.
She saved the world twice. O mighty banner how you spanned the globe.
You rise above the shrouded mists.
Your call is simple for it tis a beacon for all to follow.

Liberty, Peace, Freedom, Happiness. You have seen the endless centuries pass, you have climbed the hill to see our future.
The trials that passed are your test of will and testament for all to hear the present and the past, and immortal future.
Ancient Banner most high I praise thee.
For all my day I stand under your shadow.
Liberty is the sweetest song you have ever sung to thee.
You stand above all the nations and alone you flutter for liberty and good men's freedom.

Pledge of allegiance to the Flag.

I want to thank the members of the house for their support. It is certainly an honor and a privilege for me to accept this Speakership and to serve along side you at the Sixty-seventh Session of the Nevada Legislature.

And here let me dispel any rumors you newcomers may have heard that I have served at all 66 previous sessions. That is malicious gossip.

Despite today's festivities which include recognizing Dr. Martin Luther King, Jr. and opening this session, once again this country finds itself under a cloud of uncertainty about

growing tensions in the mideast. It reminds us to remain focused on resolution not only of the issues of this nation and this state, but those of the world as well. In addition, please join me in keeping fellow assemblyman Ken Haller in our thoughts and prayers as well. Ken, we wish you a speedy and healthy return to this chamber.

Congratulations everyone on your successful campaigns. Now then, I have done a little research about the make up of this Assembly which I'd like to share with you.

Collectively, we range in age from our 20s to somewhere around the 60s. We average 48 years of age, and I'd trade for 48 instead of the one I've got.

From an experienced standpoint, this assembly averages four years of legislative experience. And I'm pleased to note we have 12 Assembly women, a full 50 percent more than two years ago.

The 16 new Assemblymen and women who weren't here last session represent a 38 percent turnover from 1991. Combined with the 50 percent turnover in the Assembly in 1991, this reminds us all that we should take nothing for granted. We really don't need term limitation in Nevada. I think the voters do a nice job of that.

In 1993, the Assembly is comprised of diverse people with diverse backgrounds and I think it's great. It gives us the breadth to address many of the wide range of issues that faces us here at this session. Just how wide is that experience?

Well the 42 people sitting in the voting chairs of this house can run a household or a business as well as round up cattle or direct an orchestra. Now that's real diversity. This reflects the type of balance our members have—balance which will prove valuable in juggling the many issues we will face.

And I'm really pleased about the leadership group we have assembled. On the majority side, Speaker Pro Tem Myrna Williams is an experienced legislator and a solid leader as is Majority Leader Gene Porter. I'm fortunate to have them and they are well supported by Assistant Majority Leader Rick Bennett and Majority Whip Bob Sader.

And on the other side of the aisle, Minority Leader John Marvel is an excellent lawmaker who will do a fine job for us here in these chambers. He is capably assisted by Bill Gregory as Assistant Minority Leader.

Collectively, it's a sound leadership team which we can help guide the development of this great crop of freshmen who bring ability, enthusiasm and change to this body.

It is my sincere hope that one such change is that this will be a more harmonious session than 1991. Too often, emotions and regionalism dominated in the waning days of that session. Tolerance is an important ingredient in the success of this process so critical to the well-being of our state.

Each of us has an obligation to our constituents, and I believe, to Nevada as a whole. We are one state, made up of good people with varied needs, but we are one state.

More than a century ago, literary great Rudyard Kipling wrote, "East is East and West is West and never the twain shall meet." Had he lived in Nevada in 1991, perhaps he might have written, "North is North and South is South and never the twain shall meet." But remember the rest of Kipling's poem says, "But there is neither East nor West, border, nor breed, nor birth, when two strong men . . ." and here I should add, or women, ". . . stand face to face, though they come from the end of the earth." That poem highlights what this legislative process is about—face to face and shoulder to shoulder in our dealings. It's called negotiation, and it's called give and take. And make no mistake, it's hard work.

There are several issues which need to be addressed in 1993. This legislature must adopt a realistic budget that reflects today's difficult financial times. We have the boarded up Ormsby House across the street as a reminder of the difficulties in the economy today.

At the same time we cannot afford to lose such gains as the important class size reductions already in place which will help protect our children's future.

We also need to revisit the business tax whose inequities have proven to be hard on the small business owners. And absolutely we must adopt meaningful workers' compensation reform in 1993. This is the game breaker, the big one. With liabilities ranging from one to two billion dollars, with a capital B, it simply cannot go unattended this year. It is not

acceptable that this system designated to make injured workers well is perhaps itself, the sickest patient the legislature has to deal with. It frustrates injured workers and employers alike.

When I was a younger assemblyman in 1967, and that is quite a while ago, my legislative mentor was Joe Viani from Hawthorne, Nevada. He gave me some great advice. It was to listen carefully to all the information on the bills you see and think hard about them. As tempting as it might be to get committed to a position early, be patient. Gather as much information as is possible before taking a position. Failing to do your homework means you either ride out a bad position or you flip flop. Neither will serve you well as lawmakers. However, once you've got all the facts, then stay with your position, although you would be wise to allow some space for compromise. For the fact is, this is not an all or nothing process. It's a process of degrees.

And there are no quick fixes, although in a really tough spot nothing would prevent you from going across the street to visit the psychic reader which is positioned across Carson Street. I have thought about doing that a few times myself.

Seriously, 1993 is a once in a lifetime opportunity for all of us. Who knows what fate has in store for us. A return here, onward and upward to another elected office, or something else. We just don't know. I urge you to grab this moment, to make it happen. More than a million fellow Nevadans are counting on us.

Now, I'd ask you all to join me in a big round of applause for the people up front here who are responsible for getting us organized, the people who make this machine run, Chief Clerk Mouryne Landing and her staff. As we go through the session, you will find out how really important they are.

Many thanks also to the behind the scenes people in the Legislative Counsel Bureau who have worked so diligently, and for everyone else here who participates in this process.

And never lose sight of the fact that the Assembly has been and always will be the people's house.

Assemblymen and Assemblywomen, this is your day, your moment, you've worked hard to get here, you've earned it, enjoy it.

Thank you for your attention and for your continuing confidence in me as Speaker. It's an honor which touches me dearly.

In closing, I'd like to use this opportunity to give a heartfelt and public thanks to my very special friend and strongest supporter and my life-long mate, my wife Jeanne. Without her and my family, I certainly would not have stayed in the legislature as long as I have.

God bless you and yours. Now let's roll up our sleeves and go to work for the people in the State of Nevada. Thank you.

Mr. Speaker declared that nominations were in order for Speaker pro Tempore.

Assemblyman Spitler nominated Assemblyman Myrna Williams for Speaker pro Tempore.

Assemblyman Price moved that nominations be closed.

Motion carried unanimously.

Mr. Speaker declared Assemblyman Myrna Williams to be Speaker pro Tempore of the Assembly.

Remarks by Madam Speaker pro Tempore.

Assemblyman Spitler requested that Assemblyman Williams' remarks be entered in the Journal.

Thank you very much. Thank you. This is the third time my colleagues have afforded me this honor. I was thinking of what I could say and then I listened to our Speaker, who as usual said everything that needed to be said and everything that we all feel. I do want to thank you for allowing me to be a part of a leadership team where not only the Speaker but every member of this leadership team has a special place in the history of this State and

included in that is our good colleague, the Chairman of the Ways and Means Committee. And so I want you to know that I appreciate it very much. Like everyone else in leadership, my door is always open. If anybody has any questions, difficulties or anything that we can work on, please feel free to come see any of us. Let's have a good session, a harmonious one. I agree with the Speaker, I think the twain will meet this time. I don't think that we will have "the North and South and never the twain shall meet" in this session. Let's put that all behind us. I guess I have a special role in that one. I thank you all again and I look forward to us working together.

Mr. Speaker declared that nominations were in order for Chief Clerk.

Assemblyman Anderson nominated Mouryne B. Landing to be Chief Clerk.

Assemblyman Petrak moved that nominations be closed.

Motion carried unanimously.

Mr. Speaker declared Mrs. Mouryne B. Landing to be the Chief Clerk of the Assembly.

A committee from the Senate composed of Senators Nevin, Lowden and McGinness appeared before the bar of the Assembly and announced that the Senate was organized and ready for business.

Mr. Speaker appointed Assemblymen Porter, Garner and Marvel as a committee to inform the Senate that the Assembly was organized and ready for business.

Mr. Speaker appointed Assemblymen Myrna Williams, Wendell Williams and Lambert as a committee to inform the Acting Governor that the Assembly was organized and ready for business.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

Assembly in recess at 1:23 p.m.

SENATE CHAMBER, Carson City, January 18, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day passed Senate Bill No. 1.

Mary Jo Mongelli
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

By the Committee on Judiciary:

Assembly Joint Resolution No. 21 of the 66th Session—Proposing to amend the constitution of the State of Nevada to extend the jurisdiction of the commission on judicial discipline.

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 21 of article 6 of the constitution of the State of Nevada be amended to read as follows:

Sec. 21. 1. A justice of the supreme court , [or] a district judge , a justice of the peace or a municipal judge may, in addition to the provision of article 7 for impeachment, be censured, retired , [or] removed or otherwise disciplined by the commission on judicial discipline. A justice or judge may appeal from the action of the commission to the supreme court, which may reverse such action or take any alternative action provided in this subsection.

2. The commission is composed of:

(a) Two justices or judges appointed by the supreme court;

(b) Two members of the State Bar of Nevada, a public corporation created by statute, appointed by its board of governors; and

(c) Three persons, not members of the legal profession, appointed by the governor.

The commission shall elect a chairman from among its three lay members.

3. If at any time the State Bar of Nevada ceases to exist as a public corporation or ceases to include all attorneys admitted to practice before the courts of this state, the legislature shall provide by law, or if it fails to do so the court shall provide by rule, for the appointment of attorneys at law to the positions designated in this section to be occupied by members of the State Bar of Nevada.

4. The term of office of each appointive member of the commission, except the first members, is 4 years. Each appointing authority shall appoint one of the members first appointed for a term of 2 years. If a vacancy occurs, the appointing authority shall fill the vacancy for the unexpired term. An appointing authority shall not appoint more than one resident of any county. The governor shall not appoint more than two members of the same political party. No member may be a member of a commission on judicial selection.

5. The supreme court shall make appropriate rules for:

(a) The confidentiality of all proceedings before the commission, except a decision to censure, retire or remove a justice or judge.

(b) The grounds of censure [.] and other forms of discipline which may be imposed by the commission.

(c) The conduct of investigations and hearings.

6. No justice or judge may by virtue of this section be:

(a) Removed except for willful misconduct, willful or persistent failure to perform the duties of his office or habitual intemperance; or

(b) Retired except for advanced age which interferes with the proper performance of his judicial duties, or for mental or physical disability which prevents the proper performance of his judicial duties and which is likely to be permanent in nature.

7. Any person may bring to the attention of the commission any matter relating to the fitness of a justice or judge. The commission shall, after preliminary investigation, dismiss the matter or order a hearing to be held before it. If a hearing is ordered, a statement of the matter shall be served upon the justice or judge against whom the proceeding is brought. The commission in its discretion may suspend a justice or judge from the exercise of his office pending the determination of the proceedings before the commission. Any justice or judge whose removal is sought is liable to indictment and punishment according to law. A justice or judge retired for disability in accordance with this section is entitled thereafter to receive such compensation as the legislature may provide.

8. If a proceeding is brought against a justice of the supreme court, no justice of the supreme court may sit on the commission for that proceeding. If a proceeding is brought against a district judge, no district judge from the same judicial district may sit on the commission for that proceeding. If a proceeding is brought against a justice of the peace, no justice of the peace from the same township may sit on the commission for that proceeding. If a proceeding is brought against a municipal judge, no municipal judge from the same city may sit on the commission for that proceeding. If an appeal is taken from an action of the commission to the supreme court, any justice who sat on the commission for that proceeding is disqualified from participating in the consideration or decision of the appeal. When any member of the commission is disqualified by this subsection, the supreme court shall appoint a substitute from among the eligible judges.

9. The commission may:

(a) Designate for each hearing an attorney or attorneys at law to act as counsel to conduct the proceeding;

(b) Summon witnesses to appear and testify under oath and compel the production of books, papers, documents and records;

(c) Grant immunity from prosecution or punishment when the commission deems it necessary and proper in order to compel the giving of testimony under oath and the production of books, papers, documents and records; and

(d) Exercise such further powers as the legislature may from time to time confer upon it.

Remarks by Assemblymen Arberry, Wendell Williams and Myrna Williams.

Assemblyman Spitler requested that Assemblymen Arberry, Wendell Williams and Myrna Williams' remarks be entered in the Journal.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I tell you this is a very moving day for me. A few years ago when I was re-elected and my colleague, Assemblyman Williams came into this house, we worked very hard to see this day come about. I can say that this day means so much to us because it's a way that we can refresh and renew our vows. That we do it and hopefully that you will do the same and those vows are, why do we meet as a body on a day that means so much to a lot of people. One reason is that the legislature meets today and it's a fresh start. We know that we have a lot of obligations to the constituency of our own and to the constituency of this State and that is what Dr. King was about. He wanted us to be committed to not hating your neighbor because of the color of their skin but loving them in a way that if you were called to meet your maker that you could say that I loved everyone equally. But I could say, Mr. Speaker, and to this body to take this day even though we look at it as a holiday, but it isn't a holiday, that we renew our commitments and say that when we look back from a year from now and to this day that we can say how long are we in not hating the person next to us in the automobile or where we live or in a mall or anywhere. To this body, I really appreciate the opportunity to speak and stand before you to make these words. Thank you, Mr. Speaker.

ASSEMBLYMAN WENDELL WILLIAMS:

Thank you, Mr. Speaker. I rise in support of A.C.R. No. 2. Mr. Speaker, to you and through you to my colleagues in the chambers, I rise in support of this resolution particularly for the day that we open here. There is no better day to address the needs of the people of this State than opening on the birthday of one of the greatest human rights leaders of all times. Today, as you mentioned Mr. Speaker in your opening remarks, with all the concerns and problems and good things and bad things that we all face, we should serve this day by commemorating not only the person but also the idea and the ideals. It signifies also that the real foundation and penance of what this country is supposed to be about is really not in the halls of government but in the homes of the people that live in our State. It is an honor to stand to support this resolution. I would encourage my colleagues to do so as well. Lets move on from this day until we adjourn addressing the needs of the people. Thank you very much.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I arise in support of the resolution. I'll be brief. For those of us who are old enough to remember Dr. King and his movement as he followed in the non-violence steps of Gandhi. My colleague touched off a memory of one of Dr. King's statements that I think is important and perhaps very important to those of us who serve in this body when Dr. King said, "We must judge each other not by the color of our skin but of the content of our character." I believe that's what we do and I hope that as we wind down this session, we will show the people of Nevada that we indeed do work together on the basis of merit. Thank you.

Resolution adopted unanimously.

Assemblyman Arberry moved that all rules be suspended and that Assembly Concurrent Resolutions Nos. 1 and 2 be immediately transmitted to the Senate.

Motion carried unanimously.

I. OFFICERS AND EMPLOYEES

Duties of Officers

1

Speaker of the Assembly.

1. All officers of the Assembly are subordinate to the Speaker in all that relates to the prompt, efficient and correct discharge of their official duties under his supervision.

2. Possessing the powers and performing the duties described in this rule, the Speaker shall:

(a) Take the chair at the hour to which the Assembly stands adjourned, call the members to order, and upon the appearance of a quorum, proceed to business.

(b) Preserve order and decorum and have general direction of the chamber of the Assembly and the approaches thereto, and in the event of any disturbance or disorderly conduct therein, order the same to be cleared.

(c) Decide all questions of order, subject to a member's right to appeal to the Assembly. On appeal from such decisions, the Speaker has the right, in his place, to assign the reason for his decision.

(d) Have the right to name any member to perform the duties of the chair, but such substitution shall not extend beyond one legislative day.

(e) When the Assembly resolves itself into Committee of the Whole, name a chairman to preside thereover and call him to the chair.

(f) Have the power to accredit the persons who act as representatives of the press, radio and television, and assign them seats.

(g) Sign all bills and resolutions passed by the Legislature as provided by law.

(h) Sign all subpenas issued by the Assembly or any committee thereof.

Committee on Ethics; Legislative Ethics.

1. The Committee on Ethics consists of:

(a) Two members of the Assembly appointed by the Speaker from the majority political party;

(b) One member of the Assembly appointed by the Minority Leader from the minority political party; and

(c) Two qualified electors of the state chosen by the members of the committee who are appointed pursuant to paragraphs (a) and (b), neither of whom is a present or former member of the Legislature or employed by the State of Nevada.

2. The Speaker shall appoint two members of the Assembly, one from the majority political party and one from the minority political party to serve as alternate members of the committee. If a member is disqualified, the alternate appointed from the same political party shall serve as a member of the committee during the consideration of a specific question.

3. A member is disqualified if he is the requester of advice concerning a question of ethics or conflict of interest, or if the advice is requested by another member of the Assembly and a reasonable person in his situation could not exercise independent judgment on the matter in question.

4. The committee shall hear complaints on alleged breaches of ethics and conflicts of interest, brought by Legislators and others, and it may advise Legislators on questions of breaches of ethics and conflicts of interest. All proceedings by the committee on matters of ethics or conflicts of interest are confidential unless a Legislator:

(a) Against whom a complaint is brought requests a public hearing;

(b) Discloses the opinion of the committee at any time after his hearing; or

(c) Discloses the content of an advisory opinion issued to him by the committee.

5. A complaint which alleges a breach of ethics or a conflict of interest must be in writing and signed by the person making the allegation. The complaint must be filed with the chairman and he shall send a copy of the complaint, within 24 hours after receiving it, to the Legislator against whom the complaint is brought.

6. The criterion to be applied by the committee in determining whether a Legislator has a conflict of interest is whether the independence of judgment of a reasonable person in his position upon the matter in question would be materially affected by:

(a) His acceptance of a gift or loan; or

(b) His private economic interest.

7. A Legislator who determines that he has a conflict of interest may vote upon, advocate or oppose any measure as to which a potential conflict exists if he makes a general disclosure of the conflict. In determining whether to vote upon, advocate or oppose the measure, the Legislator should consider whether:

(a) The conflict impedes his independence of judgment;

(b) His participation will produce a negative effect on the public's confidence in the integrity of the Legislature;

(c) His participation is likely to have any significant effect on the disposition of the measure; and

(d) His interest is greater than the interests of an entire class of persons similarly situated.

IV. QUORUM, VOTING, ELECTIONS

3. When taking the ayes and noes on any question, the electronic roll call system may be used, and when so used shall have the force and effect of any roll call under these rules.

4. When taking the ayes and noes by oral roll call, the Chief Clerk shall take the names of members alphabetically except that the Speaker shall be called last.

5. The electronic roll call system may be used to determine the presence of a quorum.

6. The ayes and noes shall not be taken with the electronic roll call system until all members present are at their desks. The Speaker and the Speaker pro Tempore may vote at their desks or at the rostrum.

7. Only a member, certified by the Committee on Credentials of the Assembly, may cast a vote in the Assembly. A member shall not vote for another member on any roll call, either electronic or oral. 2. The contest must be submitted so far as may be possible upon depositions or by written or oral arguments as the Assembly may order. Any party to a contest may take the deposition of any witness at any time after the statement of contest is filed with the Secretary of State and before the contest is finally decided. At least 3 days' notice must be given to the prospective deponent and to the other party. If oral statements are made at any hearing before the Assembly or a committee thereof which purport to establish matters of fact, they must be made under oath. Strict rules of evidence do not apply.

The Assembly shall, as soon as practicable thereafter but not later than 7 calendar days after the Speaker received the statement of contest, vote whether to accept or reject the committee's recommendation without amendment. If the recommendation is accepted, the Speaker shall declare the recommended candidate elected. If the recommendation is rejected, the Assembly shall consider immediately whether to declare another candidate elected. These persons shall rise in an order determined by the chairman, address the chair, furnish their names, addresses and firms or other organizations represented. Any member may call for a division of the question, which shall be divided, if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Assembly. REMARKS FROM THE FLOOR

Assemblyman Myrna Williams requested that her remarks be entered in the Journal.

Thank you, Mr. Speaker. Today is a day of happiness and sadness. Happiness because we have a longtime member of our front desk who is going on to do some wonderful things with her family and sadness for us because we are losing her after 21 years. Joanie Anderson, I know, probably is going to be embarrassed by this, but I would like everyone to know something about Joanie. Joanie started in 1971 as a committee secretary and that happens to be the same year that the Legislature moved into this building so she really has ties to this Chamber. She joined the front desk in 1977 which was the first year that our Speaker, Mr. Dini, was Speaker. She served under Speakers Jacobsen, Ashworth, Dini, May, Barengo, Vergiels, Bilyeu and then if I may just say Dini, Dini, Dini. Joanie is going to be dividing her time between Sparks and Phoenix, Arizona, and North Star Golf Course which really sounds pretty good to me and I think probably pretty good to everybody else. The front desk calls her the punster because of her wonderful sense of humor and we're going to miss Joanie. We have a little remembrance for her. With your permission Mr. Speaker I will bring it down. In addition, after the presentation and after we adjourn, there is a cake in the conference room of leadership offices.

Assemblyman Porter moved that the Assembly adjourn until Monday, January 25, 1993 at 11 a.m.

Senate Joint Resolution No. 3.

Resolution read third time.

Remarks by Assemblymen Marvel and Gibbons.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I rise in support of S.J.R. 3 commending President Bush and Vice President Quayle for their many years of public service. I think the resolution is quite clear on the accomplishments of these two gentlemen.

President Bush did have an illustrious career in World War II. As stated in the resolution, he was Ambassador to China, represented the CIA, a member of Congress for many years, he was chairman of the Republican National Committee and, of course, Vice President under President Reagan.

Vice President Quayle, prior to being Vice President, served in the State of Indiana and the United States in the Congress for over a decade. I think history will, whether some

people agree or not, leave its mark during the administration of these two gentlemen. We saw the end of the cold war, we saw the dissolution of the USSR and we certainly witnessed the dismantling of the Berlin Wall. And, of course, as my colleague, Colonel Gibbons, is going to attest, we were quite successful in the Persian Gulf. I don't think more need be said. These two gentlemen were devoted to our great country and are loyal Americans. I certainly urge your support of this resolution. Thank you.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. To you and through you to my colleagues, I'd like to say that I support this resolution. Unfortunately, President Bush couldn't send me overseas this time to avoid the conflicts in this Legislature. On a little more serious note, I think that this nation among all nations distinguishes itself not by the way we elect people but by the caliber of people we do elect to the presidency, all of whom in every instance have at least been a statesman for the cause of freedom for which the United States stands. Looking at Mr. Bush as my colleague from Winnemucca has said, Mr. Bush was a war veteran. One thing that he and I do share in common is that we both flew in a war and both have been decorated with a Distinguished Flying Cross for those services. He not only was a state legislator, congressman, ambassador, vice president and president, but I think every president has the responsibility and the duty to establish the direction in which this country is going. In 1967, I joined the military under then President Johnson. During that time I have had the pleasure to serve under seven presidents including President Clinton. I've seen the country come together and I've seen it torn apart on several issues; many of those issues were economic, social, international and military issues. As a person who has seen the grim reality of war, who has witnessed the ultimate human tragedy, I can tell you that there is nothing more serious than having to face combat. With this in mind and with respect and thanks to veterans, I'd like to support this resolution for President Bush's efforts on behalf of my children and every other child in this country for helping to eliminate nuclear war and above all for the veterans who have served in the past to help eliminate and rid our country of the ghost of Vietnam, and to once again establish a measure of pride in our country. Mr. Speaker, if it is appropriate, I would now like to ask through you and to you to my colleagues for each of us to stand in a moment of silence not in recognition of just Mr. Bush and Mr. Quayle but for the office of the presidency and Mr. Clinton who after all is our only President that we have right now and he deserves our support too. Thank you.

The Governor delivered his message as follows:

President Wagner, Speaker Dini, Chief Justice Rose and distinguished justices of the State Supreme Court, ladies and gentlemen of the 67th Nevada Legislature, honored guests and fellow Nevadans.

There are winds of change blowing all across America. A new president rallies us to an era of renewed activism in government.

This president challenges us as public servants to a new standard of leadership, asking we address the most serious problems in an honest and straightforward manner, to have the courage to reform and change our government even when it might be difficult or unpopular.

He issues a new call to citizenship asking all Americans to make a commitment to personally participate in finding and implementing tough solutions.

In his inaugural address, President Clinton said, and I quote, "We have to face hard truths and take strong steps." That's true for America and it certainly has been true for Nevada over these past two years as we struggle out of the worst recession since the Great Depression.

Twice during these past two years I have had to make hard choices, ordering major budget cuts totalling $173 million. I imposed a hiring freeze across state government. Every department and agency was affected. As of today we have 1,452 positions that have either been completely eliminated or are standing vacant. That is over 11 percent of the state work force. When it became necessary, state government tightened its belt.

Wall Street's most respected professional financial analysts, Moody's and Standard and Poor's, judged our efforts a total success. During 1991 and 1992 these rating agencies lowered bond ratings on over 800 state and local government bond issues. Meanwhile, three times they reaffirmed Nevada's bond rating, each time reporting it as "stable." They described our response to the budget crisis in glowing terms, calling it "swift and credible," "decisive," "conservative" and "strong."

Early in this session I will need your approval of some of the agonizing budget-cutting decisions that I was responsible for making in your absence.

I need you to support and pass my bill that appropriates $51 million to public schools to cover their continuing revenue deficit. Fortunately, the $51 million is available without new taxes, the result of savings from our hiring freeze and two rounds of budget cuts. Included in that supplemental appropriation is legislative approval of the five percent reduction in school spending needed to make possible the overall budget-cutting program ordered last year. We need to complete the reductions which kept our budget balanced.

Let me take this opportunity to express my appreciation to many of you here tonight, Republicans and Democrats, who put politics aside and spoke in support of the tough budget-cutting decisions I was forced to make. And to those most affected by the cuts in programs and services let me again express the depth of my sorrow and anguish for the load you have been carrying during these difficult economic times.

As I prepared myself for this 1993 legislative session, and for this message, I was confronted with a mix of emotions. I am saddened and disappointed that I could not approach you today as I have twice before with an ambitious list of new programs, new ideas and enhanced funding to improve existing programs.

But I am resolved to attack our problems, confront the economic realities of Nevada, and take all the necessary steps to insure that whoever stands before you two years from now is facing a healthy economy, a stable and predictable budget in a prosperous state. These are the key elements any chief executive needs to be progressive and innovative.

There are many issues facing us and much legislation that will be crafted, debated and voted on during this legislative session. I will take part in many, if not, all of those debates. But tonight there are three main areas I have focused on. I will use every resource I have as Governor to insure legislative approval and public support in each of these vital areas.

Number One: I am presenting to you a budget which will elate some and disappoint others. But as I stand here today I believe that Nevada's best hope for the future is for us in government to use these next two years to build a sound and stable budget. That means setting strict spending limits, finding more efficient ways to provide better services and allowing Nevadans to achieve their own personal economic recovery without fear of paying higher taxes.

Number Two: I am asking that you endorse and approve my plan for making state government more efficient, more economical as well as more responsive to our constituents by reorganizing and streamlining our current structure. I am joined by many Nevadans in asking you ladies and gentlemen of the 1993 Legislature to put politics aside and to adopt the belief that no one is being criticized for how state government has worked, but to accept the challenge to make it work better.

Number Three: Quite possibly our greatest challenge is to reform our injured workers insurance program. I am presenting to you a dramatic package to reform SIIS. Let me caution you that there are neither easy answers nor politically safe cures for the system. If we act aggressively today Nevada's injured workers can be guaranteed a system that helps them heal, rehabilitate and re-enter the work place. But at the same time neither employers nor taxpayers should shoulder the unnecessary burden of inefficiency.

Now let's talk about Nevada's economy and my budget plan. Today, there are signs of a recovery. Employment is up. So are housing sales. Las Vegas is home to over $2 billion in new destination resort construction. Tax revenues have begun to rebound. However, our state budget continues to be severely strained. School and university enrollments are climbing rapidly, almost as if the economy was still in full bloom. At the same time, welfare and Medicaid caseloads are climbing fast, as if the recession were still in total control. This combination has driven our state expenses far beyond the reach of these recent tax revenue increases.

We must keep Nevada among the lowest tax burden states in America. Recently Money Magazine reported Nevadans pay the second lowest taxes in the country. It must remain so.

Now more than ever the obligation we all must accept is to spend money wisely and spend it frugally. I have recommended strict general fund spending limits for every segment of state government.

Except for education, welfare and Medicaid, and our mental health and mental retardation division, every single agency in state government is held to the same or less funding than was authorized for them during this past biennium. Most agencies experience continued reductions.

Our public employees continue to respond to these challenges, handling increased workloads with a decrease in the work force. Frankly, I am proud of their dedication.

My goal is to maintain essential services without pulling the rug out from under our economic recovery. Therefore, this must be a hold-the-line, bare essentials budget.

One area of service continues to be first in our hearts, first in priority, our children. Each child deserves the best chance, the best opportunities we can possibly offer.

If we are to rebuild America as a world economic leader, we absolutely must adequately fund the growth in our schools, community colleges and universities. Therefore,

while other budgets are held at or below present funding levels, I propose increasing education funding by $96 million. Let me stress that this increase only insures that we can maintain and meet the costs of existing programs.

Sandy and I are parents of two school age children and we care very much about their education. We are also grateful for the good health of all three of our children. These are the first priorities of all parents. We believe we must help all parents have healthy children. We must pursue preventative care programs. As Governor, my budget will enhance the overall health and well-being of Nevada's youngest through new initiatives in prenatal and maternal health, and family support programs including "Baby Your Baby" and MOMS. These will improve the quality of life for each child they touch, and they will also return this year's modest investment many times over in the future.

The health and well-being of all Nevadans is a priority that demands increased funding in welfare and Medicaid. Despite hard times, we have a responsibility to protect the poor and nurture the ill.

Medicaid services are essential. But increased caseloads and a growing list of services the federal government requires we provide known as mandates have created an almost insatiable, budget busting black hole in our budget. Still, it is our moral and legal responsibility to adequately fund these programs.

To help in that funding, I propose we continue the hospital assessment you passed last year known as the "Medicaid Miracle." This program will help fill the funding deficit in Medicaid by adding $77 million in federal matching funds. Even with the use of this federal money, we will have to increase the state's general fund contribution to Medicaid by 32 percent.

We must also deal with the very tough and delicate issue of welfare reform.

Nevadans know America became great because we prided ourselves on individual responsibility, each person carving out his or her place in our society and in our economy. Of course, we absolutely must help those who cannot support themselves or their children. Yet we owe each of these people every opportunity to find their own place, standing on their own, working and living in our society. Welfare has become a system that for many breeds dependency. We must rebuild the system, creating incentives that help families become self supporting again.

If we give a family no more than basic support benefits, they become dependent on us again each succeeding month. The cycle repeats. But if we also offer education, training, and employment experience, we give the head of that family the opportunity to succeed in our economy.

During the coming weeks our human resources administrators and I will present to you programs that create incentives for parents to get back on their feet; incentives for job training and incentives to help their children work successfully in a school environment; incentives to stay on the job, rather than quit and go on welfare.

We have heard the popular phrase many times, "Workfare not welfare." And that is the thrust of the programs I propose.

I want Nevada's effort to be known for its compassion, and for its commitment to help build self reliant families who live and function with pride. These are good people coping with hard times. We must remember they need a helping hand, not a heavy hand. But it has got to be a hand up, not just a hand out.

The tight budget situation we face means the state hiring freeze must continue for most or all of the next two years. In fact, my budget, even before reorganization, permanently eliminates 710 positions in the state work force.

And, unfortunately, there will be no pay raises for state workers, teachers and other workers in our schools and university system. These hard working public servants deserve salary increases. They have dedicated their careers to public service, and have done a great job. However, there is just no money for increases at this time. I cannot propose any increases in light of our most recent economic instability.

I have recommended a modest $3 million tax increase for slot route operators so that gaming taxes across the state are collected on an equitable basis. But for the general public the budget I have submitted to you proposes there be no new taxes.

One area of taxation needs immediate attention. We must fix the business license fee. Two years ago my proposal promised to protect small businesses from the business tax. Unfortunately, the small business exemption I proposed did not make it into law.

I know everybody in this room shares my belief that small businesses are big businesses under construction. I have always intended these growing companies be protected against burdensome taxation.

Today, I recommend we deliver on our commitment to small business. I will bring forth legislation which creates an exemption for all small businesses with four employees or less. This exemption means that once a business pays its business fee one time of $25 and as long as it remains with four employees or less, that business will not pay another dime in business license fees. This step alone will exempt nearly 18,000 of our smallest, most fragile businesses from any further payment.

In order to accomplish this small business exemption, I propose we remove the cap which applies to a handful of the state's largest corporations, thus the tax will fall on those who can most afford it.

In addition, I have proposed legislation which will allow businesses with 50 employees or less to provide group health insurance to their employees. This plan allows small businesses to be included in a group health insurance pool of the state thus benefitting from the state's enormous purchasing power. This will enable many more businesses and their employees access to affordable health insurance.

This budget preparation has been very difficult for me. I do not seek political gain for the seemingly popular label of the fiscal conservative. Nor do I challenge you to read my lips.

What I do know is what I have heard from hard-working Nevadans from all corners of this state. Their message to you, and to me, is get state government under control, show us you are spending every tax dollar effectively and efficiently, and prove to us that state programs are working before you ask us to invest more of our tax dollars in state government.

We must show Nevadans that state government can work, even when times are tough.

Holding the line on spending, no new taxes on the general public, maintaining strict spending limits and an across-the-board hiring freeze are only temporary fixes. Necessary, but temporary. There are many reasons why we must look at long-term changes in the way we do business in state government.

Foreign gaming. Eight other states have approved casino style gaming. Every state except Hawaii and Utah now have some form of legalized gambling.

Indian gaming. Fourteen states have approved Indian owned and operated casinos within their borders and 12 more are considering approval.

We have no idea what long-term impact the proliferation of casino style gaming will have on our economy. Whatever the impact, the effect on state government will be immediate. Gaming and tourism fund over 50 percent of Nevada's state budget.

Furthermore, the rapidly deteriorating California economy will hit us hard. Forty percent of Nevada's tourists come from California, and thousands of Nevada companies depend on a healthy California.

This tight budget and these long-term uncertainties mean Nevada must begin to build a state government based on efficiency and accountability. I can tell you from my four years' experiences as Governor of this state that we are rife with duplication, overlaps, inefficiencies. We cannot leave this issue unaddressed.

Nevada currently has 47 different agencies that report directly to the governor. In addition there are approximately 170 boards and commissions that free float. They set policy and create regulation, yet they work through no formal structure in our government.

All together, the governor's theoretical span of control in this government is about 200 to 1. That is foolish and unworkable.

Last year I impaneled an independent commission, headed by Dr. Kenny Guinn, to look at state government from a business point of view. That commission built a reorganization plan which I strongly endorse, and I intend to do whatever it takes to convince you it is critical to the future of state government.

This reorganization proposal brings state government down to 13 departments, three major boards and four major commissions. All other boards and commissions will report to the governor through various state agencies. This reduces the span of control down to 20 to 1, a more workable ratio for proper review and good management.

There are some very important improvements that can result from your approval of this plan. For example, today businesses have to cope with waves of auditors coming from all over state government. The Insurance Department, Employment Security Department, Taxation Department and State Industrial Insurance System each has a staff of auditors that visit businesses and repeatedly audit essentially the same books. It is time for us to merge all of the tax audit teams and tax collecting responsibility into one agency. One stop shopping. This merger will work. Business will have more confidence and government will be more efficient. We can immediately save nearly $4 million in unnecessary duplication.

On another front it makes absolutely no sense for us to have seven different payroll systems. The Department of Transportation, Public Employees Retirement System, State Industrial Insurance System, our University System, the Legislative Counsel Bureau, the State Controller and State Personnel all have their own individual systems. In the science of computer payroll systems today, bigger is cheaper. We must reorganize and merge some of these systems. Perhaps there is no better example of how out of control Nevada's bureaucracy has become than to look at our purchasing system. When our state employees report they can go to any major retail business supply store and make purchases for less money than through the state system, something is very wrong. Elimination of the red tape and delay makes them more productive; it also immediately saves us $1.2 million.

I could give you many other examples. But the bottom line is if you approve this reorganization plan as submitted, we save $27 million over this first biennium and reduce the bureaucracy by an additional 266 positions.

Let's set the priorities, tighten our belts where we can, eliminate waste, reorganize, cut the cost of bureaucracy by $27 million and use that money to provide services for families who need it, the elderly who have earned it and our children who deserve it.

With your help, 1993 will be a year of genuine restructuring and reform. One area that cries out for reform and improvement is Nevada's elections process. There is no greater insult to people who go to the polls on election day, with justifiable pride in their citizenship, only to be denied their right to vote. Campaign hijinks and election department inefficiencies have turned the voting booth into a place of confusion, intimidation and manipulation. If we are to build confidence in our leadership and our government, we have got to make the voting booth safe again.

Assemblywoman Myrna Williams' Elections and Procedures Committee will take the leadership role in this vitally important area. They will consider a comprehensive plan that includes increasing the accountability of election departments; increasing penalties for election fraud; and eliminating intimidation at the voting booth.

We must encourage all Nevadans to vote. To do so we must not only eradicate fraud, but the perception of fraud. The first step in this process must be eliminating commissions paid to voter registrars. There must be no more bounties.

Finally, our most serious challenge. Everybody in this chamber is aware the State Industrial Insurance System, SIIS, is officially insolvent. As of June 30, 1992, SIIS' real debt was $2.2 billion. That debt equals all state government's spending for education, prisons, welfare, Medicaid, state workers' salaries, environmental protection, senior citizen services, every single part of our general fund spending for not one, but two full years.

SIIS will be penniless as of December 1995. At that time it will leave us a full $3 billion debt for which there is no revenue. If we do not act forcefully and quickly, it will force a taxpayer bailout. I certainly hope we have learned our lesson from the savings and loan crisis.

Each day, the problem gets worse. SIIS' premium revenues for this year alone fall $394 million short of SIIS' own expenses. As Governor I declare this a "state emergency."

Emergency steps must be taken now before it becomes a financial calamity. I believe SIIS reform will be effective only when sweeping changes have been made. The only way to implement these changes fairly is to ask all groups to share in the sacrifice.

Injured workers will have less freedom in selecting doctors, more stringent demands made on them to go back to work. Their appeal rights will be altered. Still, our commitment to providing quality care will continue.

Medical providers. Primary care physicians and medical specialists of all kinds must accept a fixed, capped rate.

Chiropractors, as other specialists, will no longer be able to deliver service without first having that patient referred to them by a primary care physician.

Attorneys. I recommend we place a conservative cap on private attorneys' fees relative to workers compensation cases.

Businesses, too, are going to have to do their share. They will be expected to pay a deductible for each of their workers who has a legitimate SIIS claim. They will have to take responsibility for establishing and running a meaningful safety program in their workplace. And the plain fact of the matter is that all the changes proposed for SIIS might still not be enough to protect against future rate increases.

Another group that will make sacrifices are the existing SIIS employees. All management and professional workers will be made more accountable for making the reforms you approve during this session successful. If they cannot do the job they face the very real possibility they will be demoted or even fired.

Each day of the session these halls will fill with people who want to solve this problem, on someone else's back. They will have good stories about why they must be left untouched. But at night as you go home or on weekends as you visit your neighborhood, look carefully at each person you meet. They are the workers who could be without coverage in the future, the business leaders soon to be forced out of business by skyrocketing premium payments, people who, except for you, are voiceless in this process.

The bottom line for SIIS reform is that everybody must participate. Everybody must step up to the plate, or we will not be able to avert a real disaster.

The first component of my proposal is managed care. Everybody generally agrees on this principle. I believe we must go further than others have gone. Treatment offered by primary care physicians and medical specialists will be performed only as part of a managed care package under an exclusive contract awarded to multiple provider networks resulting from a bid and negotiation process.

The managed care and utilization review program will include capped charges, controls over the type and amount of care, preapproval requirements for all major procedures, and strict cost-saving standards.

Next, an early return to work program, requiring all employers and employees to work aggressively to get workers back to work as soon as possible. This system must operate more like a private insurance company and less like a state bureaucracy. It should be removed from the State Budget and Personnel Acts. We should establish clearer and stronger regulatory controls over SIIS by the same insurance commissioner who fully regulates privately held companies.

We must centralize the fraud unit; consolidate within the Attorney General's office all authority to investigate and prosecute fraud; establish a secret witness 1-800 hotline for insurance fraud; and provide strict penalties for violators.

The entire rehabilitation system should be transferred to the state division of rehabilitation.

There are many other issues covered in my program including removing stress once and for all as a compensable injury and allowing groups of companies to establish self-insurance programs.

All of these are essential. Equally essential is the necessity to have tight control of this system. There is one more major change.

I believe the management of our workers compensation program can no longer, given the emergency state of the system, be handled by an emergency board. Therefore, I recommend we abolish the Board of Directors for SIIS and place the responsibility under the direct control of the governor.

People expect their governor, as the state's chief administrator, to take personal command of an emergency. While I do not relish this task, I accept it as my obligation and my responsibility, and I must have the tools to effectively manage this crisis.

I do not want our legacy, yours and mine, as elected leaders of this state's government, to be one of bankruptcy. Only if you and I pull together, work hard together, agree together on the toughest medicine of all, can we hope to succeed. The financial viability of our state's businesses, continued protection of Nevada's workers, the stability of our state government are all at risk.

We are facing many challenges but we will meet each one head on because the heart and the will are here because we will always put the interests of the great people of this incredible, dynamic state above partisanship and sectionalism.

I believe you are sacrificing time away from your families, your jobs and your businesses because you want to help build a prosperous, progressive, energetic state.

The time has come for us to reach deep inside our hearts for the courage, and deep inside our souls to find the conviction, to serve those who have placed their trust in us as leaders of this great state. Thank you.

THE NINTH DAY

CARSON CITY (Tuesday), January 26, 1993

Assembly called to order at 10:50 a.m.

Mr. Speaker presiding.

Roll called.

All present except Assemblyman Haller, who was excused.

Prayer by the Chaplain, Rabbi Mel Hecht.

A brief comment before my prayer.

The tradition of my ancestors and people is based on the rule and necessity of law. However, that rule is tempered with a profound insight; that law is meant to serve humanity, not humanity the law. For we, and the Judeo-Christian ethic which permeates this American experiment of ours has come to abhor slavery in any form. So my prayer is a simple one:

May your deliberations and decisions transcend the boundaries of political self-interest and concern, and produce statutes and ordinances, laws and commandments which serve and provide for our collective humanity.

May they be laws which promote the well-being of our citizenry, which enhances justice for all, and establishes peace among the inhabitants of our land.

May future generations look back to the work of we, their ancestors, and praise us for expanding the foundation of freedom and helping to bring ever nearer the day of God's kingdom on earth. In whatever name we pray, let us say AMEN.

Pledge of allegiance to the Flag.

Assemblyman Porter moved that further reading of the Journal be dispensed with, and the Speaker and Chief Clerk be authorized to make the necessary corrections and additions.

REMARKS FROM THE FLOOR

Assemblyman Porter requested that the following remarks be entered in the Journal.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks.

I would like to welcome the National Commander of the American Legion, Roger Munson. If I might, I would like to give you the biography on him.

He was elected National Commander of the American Legion, August 27, 1992, during the closing session of the 74th Annual National Convention in Chicago.

He is a veteran of World War II. Munson enlisted in the Navy's V-12 Officer Training Program in February, 1944, and served until June, 1946. One month after his discharge, he joined the Heights-Hillcrest Post 104 in Cleveland Heights, Ohio, and has been a member ever since, serving as its Commander before progressing to leadership roles at the county and district echelons. He holds a life membership in Post 104.

In 1968, Ohio Legionnaires elected Munson Department Commander. He also has served as Ohio's National Executive Committeeman and Alternate NECman. At the national level of the American Legion, Munson has served as National Vice Commander, 10 years as chairman of the National Security Commission, and as a member of the National Membership and Post Activities Committee and the National Policy Coordination and Action Group.

In addition to his Legion offices, Munson is a Past President of the Cleveland Heights Joint Veterans Council, Past President of the Cleveland Heights Fire Pension Board, and has held various offices as an active member of the First Covenant Church of Cleveland, where he is presently Chairman. He is a member of Sigma Alpha Epsilon and Pi Delta Epsilon fraternities.

Munson is owner of R. A. Munson and Associates of Cleveland, Ohio, building supply distributors. He holds a Bachelor of Science degree in electrical engineering from Case Institute of Technology. He also attended the Illinois Institute of Technology and Baldwin-Wallace College.

Munson and his wife, Jane, reside in Mentor, Ohio. They are the parents of three children: Roger, Jr., also of Mentor; Judith Ann Schwanz and James H. of Euclid, Ohio. They have five grandchildren.

Let's give a hearty welcome to the National Commander.

MR. ROGER MUNSON, *National Commander,* American Legion:

Thank you very, very much. Thank you for the introduction, Mr. Speaker. Lieutenant Governor, Sue Wagner; Speaker of the Assembly, Joe Dini; State Senate Majority Leader, Bill Raggio; distinguished members of the Nevada State Legislature and ladies and gentlemen. It is an honor and privilege to be invited to speak to you today. I thank you for taking time from your busy schedule of doing the business of this great state to listen to my brief remarks.

I also wish to thank some of Nevada's finest citizens for arranging this opportunity to speak to you. I am sure many of you already know them, especially the man who sat among you for 20 years as a member of this body who's the National Executive Committeeman of the Nevada American Legion, the honorable Mr. Archie Pozzi. I would ask that you also recognize the State Commander of the Nevada Legion, Bill Carpenter and the State Adjutant, Jack Hoxie. Thank you very much.

These men are not just friends and fellow Legionnaires but they are friends to all veterans and the citizens of this great state. It is because of them and the many Legionnaires of Nevada working hand in hand with you that Nevada and indeed America, have become a better place for all of us to live.

As the National Commander of the world's largest veterans organization, more than 3.1 million men and women who served their country in time of war or conflict, I do a lot of traveling. I am constantly on the road. It is part of my job, not only to visit as many Legionnaires as I can in the 50 states and the eight foreign departments but to travel overseas to Europe, Central America and the Far East where we also have Legion Posts, by the way, in order to assess the state of our foreign relations and national security.

I have come here to Nevada almost directly from Washington, D.C., where I attended the inaugural festivities last week. Just before Christmas I spent most of December touring the Far East and the Pacific Rim. So I'd like to tell you of a few of my impressions I got during my recent travels, and how I think what I learned may affect veterans, and indeed all Americans, in the near and long-term.

First of all, I feel I should point out what some of you may already know that the American Legion by tradition is not political, does not and never has endorsed any

political party or candidate, nor any specific nominee or holder of an elected or appointed office. We do, however, develop and maintain positions and policy on various matters that are germane to the principles and programs of the American Legion.

First and freshest in my travel memory are the scenes and impressions of the presidential inauguration last week in the nation's capitol. I attended the ceremony as President Bill Clinton took the oath of office at the U.S. capitol. Needless to say it was an impressive event. We hosted the Veterans' Ball at the Capitol Hilton Hotel, one of the 11 official inaugural balls which the American Legion traditionally hosts in honor of the nation's Medal of Honor winners. Maybe it wasn't quite the MTV ball but it was grand and the representatives of all the veterans' organizations were there and the heroes who wear the sky blue ribbon and medal around their neck were honored by the presence of the President of the United States, the Vice President of the United States and their wives. I might say the four of them came to that ball early in the evening while they were still fresh. General Colin Powell turned to me as they came in and he said, "My heaven at this point in time they got ten more to make and I don't know how they are going to make it through the day."

As you know, President Clinton is not a veteran. Veterans rightfully have taken a "wait-and-see" attitude as to just what he will do on behalf of the nation's 27 million living men and women who served their country in uniform, and the millions more who died either in its defense or afterwards. However, when presidential candidate Clinton spoke to the American Legion's National Convention in Chicago last August, he addressed many of the issues veterans consider very important, and promised to honor our service with deeds, not words. He also promised to appoint not a new Secretary of Veterans Affairs but a Secretary for Veterans Affairs. I might say he has kept that promise. His nominee, Jesse Brown, has now been sworn in as the new VA Secretary. Jesse is a former national executive with the DAV. He has an outstanding record of ongoing service to his country, and of course, we are proud that he is also a Legionnaire. We look forward to working with him and his team at the VA to ensure that the veterans of this country continue to receive the care and service they have earned. We expect the new Secretary will devote his early efforts to those areas which demand the greatest attention.

The first important matter, in our view, is budgetary. Fiscal planners must evaluate those programs which really have contributed to the current fiscal mess in our country. Although a major portion of the increasing national budget deficit is due to the ever escalating costs of health care to the citizens of this nation, the VA has not been a contributor to the budget problems and should not be victimized by some sweeping budget plan which might apply indiscriminate across-the-board cuts in entitlements.

The Department of Veterans Affairs Health Administration operates the largest hospital and health care system in the nation. Most visible is the VA's network of nearly 200 hospitals, outpatient clinics, domiciliaries and other facilities which deliver some sort of health care to the nation's veterans. There is a VA Medical Center in Reno, and a clinic in Las Vegas. Just as the hospital in Reno is in need of replacement, so are many others.

For ten years, the system has been plagued by fiscal problems. More and more money has been required to deliver and care for fewer and fewer veterans. The annual appropriations have been barely adequate to keep the system afloat and the increases have not allowed for the shrinking value of the health care dollar. Therefore, VA has had to impose tight restrictions on access to the system. Although it is trying to do more with less, the result is a virtual rationing of care. More and more veterans who need and deserve health care have been excluded by a complex maze of eligibility requirements. Many of these are older veterans, who are often the sickest, and the group is growing in numbers.

The entire situation and system is at a critical point. Its survival may be in jeopardy. The American Legion, which was instrumental in the establishment of the VA in the first place and recently its elevation to Cabinet level status, has developed a proposal to reform the VA health care delivery system and simplify the eligibility requirements so more veterans can use the system if they want to. We also believe that Medicare and other federal health care payors should be permitted to reimburse VA for the cost of care it provides eligible veterans.

The VA health care system is the only federal health care delivery system we have in this country. Despite its problems, it has brought innovations which have been applied throughout the practice of medicine. The American Legion believes it should be preserved as a national asset and must be included in any future discussion and planning of national health care reform.

Now, what does all this mean to you here in Nevada? What if the system didn't exist? What if there wasn't a VA hospital in Reno or a clinic in Vegas? Who would take care of Nevada's 147,000 veterans, 26 percent of whom are over 65 years of age? Where would they go for medical care and who would pay for it? State or local government?

The federal government poured over $146 million into Nevada in just a single year, in 1990, which is the most recent year we have figures for. That total covers VA expenditures in this state for veterans health care, facilities, compensation and pensions. Of course, Nevadans pay a portion of that in their federal income tax dollars but consider the payback on those tax dollars in terms of money put back into the state's economy due to veterans benefits. Much of that money goes back to the local economy for housing, food, clothing, and autos. I think you'll agree when you add up the roll-over effect, it's a very, very wise investment.

The other major observation I want to share with you today comes from my tour of the Far East this last month. I visited the Philippines, Taiwan, Korea and Hawaii to observe America's interests in the Pacific Rim. I came away convinced, more than ever, that the American people must maintain a forward military presence in this part of the world. In the Philippines, I had the honor of meeting with President Ramos, who immediately pointed out the United States was not to blame for the Philippine Senate's decision to close down U.S. military installations. When the American flag was lowered at Subic Bay Naval Station and the other installations that we held there last November, it also lowered the curtain on nearly a century of U.S. military presence in the Philippines, dating back to the Spanish-American war. U.S. operations such as Subic Bay annually pumped more than $344 million into the Philippines. One cannot help but wonder what will become of the already battered Philippine economy now that they lose this. As far as our national security interests are concerned, our increased military presence in Singapore and Okinawa at the invitation of those host governments, will help us maintain what we lost in the Philippines.

Then I traveled to Taiwan, a country with a booming economy and a robust work force. An interesting and largely unknown fact about this tiny island nation is that it does in fact carry on a vital and ongoing trade relationship with the Peoples Republic of China. I can tell you that Taiwan still is a trustworthy ally to our interests. They are very grateful that Congress recently approved their request to buy F–16 fighters from us. They will help us in that part of the world should it become necessary.

I then went into South Korea. Not only did I have the privilege of meeting with our top diplomatic corps, but I had the honor to meet with the men and women who serve our people and our nation so admirably. From top generals to lowly privates, they are committed to their mission and their morale is top-notch. As I looked into the bleak landscape of North Korea above the DMZ, I couldn't help but wonder about the future of one of the last bastions of communist rule in this entire world. There is a lot of talk that Korea might unify one day. It's on everyone's mind, both North and South. It could be a costly decision for South Korea, which has emerged not only as a leading U.S. ally in the Pacific Rim but also as a great economic power.

In Hawaii, I met with Admiral Charles Larson, Commander-in-Chief of the Pacific fleet. I also met with Army Major General Thomas Needham, Chief of the Joint Task Force Full Accounting for U.S. MIA's and POW's in Southeast Asia. I also saw the U.S. Army's Central Identification Laboratories. Since I returned, the Senate Select Committee on POW-MIA Affairs has issued its final report. While they learned much more than had been known previously, and Vietnam apparently has been more forthcoming with evidence and information about missing Americans, the Legion believes the Committee quit too soon, and left too many questions unanswered.

The American Legion is not opposed to the eventual lifting of the trade embargo or normalization of relations with Vietnam. But we think the evidence in the Committee's

report does not justify such actions at this particular time. As long as there is the possibility that there is one American POW still alive in Southeast Asia, the American Legion will not consider this issue resolved. To sum up my trip to the Far East, I came home convinced more than ever that America must maintain a forward military presence in the Pacific Rim as essential to our security interests and those of our friends throughout the region.

I am also of the mind that the world in general is still a very dangerous and unstable place. Witness the necessity to again impress upon Saddam Hussein that he lost the "mother of all battles," and put an end to his "cheat and retreat" tactics in defiance of U.N. resolutions. Witness the chaotic and cruel situation that exists in the Balkans and the instability in the various independent states which were once the Soviet Union. Witness the fact that the U.S. forces of Operation Restore Hope are bravely serving in harm's way to simply give aid and comfort to thousands of Somalis who are starving to death.

We sincerely hope that the President of the United States be guided by the Almighty and by wise advisers in the conduct of this nation's national security and foreign policy, and that he allows and permits professional military men to handle any military operations as was done during the Persian Gulf War. The American Legion continues to believe that America must always maintain a strong national defense posture, not to pursue war, but to preserve peace. The nation's leaders and military planners should proceed cautiously with any down sizing of the military establishment. This is definitely not the time to reduce our armed forces too far, too fast.

You know, my visit to the DMZ and seeing the icy, expressionless stares of the soldiers who wear the uniform of the North Korean Army is quite a contrast to the pageantry, patriotism and upbeat atmosphere I witnessed at that once-every-four-years miracle of American democracy that permits us to change our national leadership, if we choose, without violence or upheaval and get on with our lives in this, the greatest country on earth.

Watching the inauguration ceremony and the parade, with all the young people, and the bands, and so many American flags, brought it all home to me once again. I remembered a September day nearly six decades ago when I watched row after row of American flags being carried by stiff-backed men in blue caps all marching in step down Euclid Avenue in Cleveland, Ohio. This was the 1936 National Convention Parade of The American Legion. Although it wasn't his town, Mayor Fiorello LaGuardia, a member of New York Post 743, led New York City's finest down Euclid Avenue. Drums were beating and bands were playing as more than 600,000 people turned out to watch the Legionnaires of that day go by. At the end of the parade, a crowd gathered outside the old Municipal Auditorium to listen to crooner Rudy Vallee, who also was a Legionnaire, sing patriotic songs. Although I was only ten years old then, I knew I was witnessing something greater than just flags, floats and bands. I was viewing pure, unabashed, patriotic Americanism on parade.

What is this thing called Americanism? It's not just waving a flag or singing songs or shouting slogans. Americanism is having a special pride in your country and a real love of America. Americanism is loving the flag and believing and practicing all the fine ideals and traditions represented on that field of red, white and blue. Americanism means appreciating and guarding our personal liberties, which also means we respect what the other guy has to say or believes even when we don't agree with it.

In the heat of our battle to secure a constitutional amendment to protect the U.S. Flag from physical desecration a campaign incidentally we are still waging. Legionnaires are careful to seek an amendment that would not affect citizens' right to free speech.

Incidentally, I want to once again commend the Nevada Legislature for being the first in the nation to pass a resolution memorializing the United States Congress to enact legislation proposing a constitutional amendment to protect the flag. Your action came almost exactly two years ago. Since then, 27 more states have followed your lead. We are closing in on that magic number of 38, the required two-thirds to demonstrate that such an amendment is desired by an overwhelming majority of Americans and in fact, can be ratified.

The American Legion observes February of each year as Americanism month. There is no finer example of Americanism than the more than 4.1 million members of The American Legion, The American Legion Auxiliary, and The Sons of The American Legion. They represent the very fabric of mainstream America. They care about the quality of life and the future of their communities, their states, and of this great nation.

Certainly, I know that you who choose to perform public service as elected representatives of those people share those same standards and ideals. Listen to the veterans in your districts, and all across the State of Nevada. Learn what is on their minds, not only about veterans' issues but about most of the concerns we all have. I believe that by working together, we can keep this country on track. We can renew and re-emphasize the values it was built on. And by doing so, we will insure that America continues to be the greatest nation on the earth. Thank you all. God bless you. God bless America.

Remarks by Assemblymen Wendell Williams, Anderson, Evans and Myrna Williams.

Assemblyman Wendell Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN WENDELL WILLIAMS:

Thank you, Mr. Speaker. Thurgood Marshall was a man that understood what America's greatest challenge was, living up to the standards that we all believe in. He understood the challenge America placed on him was a great one which is living up to the tenets of the Constitution of America. America challenged itself more so than any other nation in this world when it said, "All people, men and women, have the right to the pursuit of life, liberty and, of course, the pursuit of happiness."

Marshall understood that saying those words was not as important as living those words. He understood if America is to be what it ought to be, we as Americans must strive and continue to strive to be all that we can be. People who live careless lives are often spoken of but people who live committed lives and lives of courage are people whose lives are remembered and whose lives are emulated. That is the type of life that former Justice Thurgood Marshall lived.

Marshall didn't really challenge America as much as he challenged himself to help America. I think that is the lesson we can all live and learn from the life of Thurgood Marshall. He should not be remembered so much as being on the Supreme Court as he should be remembered for what he did for himself and this nation. He understood for America to be better we all have to be better.

Today as we memorialize this great American we should not really be saddened by his death as much as we should be remindful and joyful of the legacy that he will leave not only for generations today but for generations to come. It is often said, Mr. Speaker, that ships are safe in harbors but that is not what ships are made for. Ships are made to sail and face the unquestionable and uncertainties that lie ahead. We as people sometime must function not as ships and get away from our harbors and sail out to make America better. I think that is the example Thurgood Marshall left for us. So wherever he is today as I stand to support this resolution, I can say I love him not for what he has done as a professional and for himself but for what he has done for us to live in this nation in the years to come. I would urge my colleagues to also support this resolution. Thank you, Mr. Speaker.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I wish to join my remarks with those of my esteemed colleague of District 6. Mr. Speaker, I rise in support of this resolution.

Thomas Jefferson once said that, "The only true safety for democracy rested with an educated population." Thurgood Marshall was a hero for me because he represented that promise of democracy when he argued the case of *Brown vs. the Board of Education of Topeka, Kansas* in 1954 and overturned the *Plessey vs. Ferguson* "Separate but Equal" doctrine and held out the promise of education to millions of Americans and millions of Americans unborn. His was a life that shows each individual can raise the quality of life for all, that equality like justice is a goal to be achieved, a standard to be guarded. Justice Marshall's life makes us all more aware that the struggle for human rights rests with all of us each and every day. I think that there can be no greater honor than to rise for such a man again when they talk of Justice Marshall. There are two Marshalls that they can refer to each standing in excellence.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I too rise in support of ACR 7. Justice Marshall was an inspiration to many of us. I recall some years ago when my children were growing up watching a television documentary on the *Brown vs. Board of Education* decision and on the civil rights movement that my children sat in utter disbelief that there was a time in our country when white children and black children could not attend school together and participate in a host of other activities. I think that so much was done during the 50s and 60s, the era of civil rights, that we sometimes think it is all done but I think events of the recent past stand as a stark reminder that much remains to be done. So in honor to and in tribute to Justice Marshall, a man of conscience and conviction, we too must renew our pledge to promoting civil rights and to search our conscience and to have the convictions to do the right thing.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I too rise in support of ACR 7. I certainly join in all the remarks that preceded me. I thought it was rather interesting as I listened to a gentleman interview Justice Marshall shortly before he died and he talked to Justice Marshall about *Brown vs. Board of Education* as being the most important accomplishment of his life. Justice Marshall said, "No, it wasn't." I am reminded of that as I look around this room because if it were not for Justice Marshall many of us would not be sitting here because in 1954, Justice Marshall challenged an all white, male primary and won. As a result of that, he considered that the crowning accomplishment of his life. As a result of that, he added greatly to the richness of the American political scene and the decisions that are made today in chambers like this across the country because we owe our diversity to Justice Marshall's courage at a time when it took enormous courage to make the kind of challenge he made. It is indeed an honor to be able to stand in support of ACR 7.

We pray that Thou will bless each of us; especially that Thy blessings will be with Assemblyman Haller in his recovery. We pray that Thou will bless each of us in our health, those who work here on the front desk and those of us who serve in legislative positions. We are grateful for the moisture that Thou has sent. We are grateful for the responsibility that we have and we pray that Thou will help us to be up to the task that lies ahead; that we will be able to fulfill our obligation, achieve those things that we have come here to do, and we ask this prayer humbly praying that Thou will bless us as we work on this day, as we address the critical issues of the State. We say this in the name of the Messiah. AMEN.

STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, NEVADA 89710, July 5, 1991

THE HONORABLE CHERYL LAU, *Secretary of State*, Capitol Building, Carson City, Nevada

DEAR SECRETARY LAU:

I am herewith forwarding to your office, for filing within the Constitutional time limit, and without my approval, Assembly Bill No. 130 entitled:

An act relating to state employees; authorizing collective bargaining for certain employees in the classified service of the state; and providing other matters properly relating thereto.

My veto of this bill should in no way be construed as opposition on my part to the concept of collective bargaining for Nevada's state employees. In fact, collective bargaining is in place and works at the Federal government level, at the local county and city governmental level as well as for state employees in other states. Public sector collective bargaining is not bad; however, this bill is.

I have two major policy concerns with Assembly Bill No. 130. The first is the provision of the bill that requires the governor or a person designated by the governor to negotiate with an employees' organization which has been designated as the exclusive bargaining agent over wages and benefits for employees with a bargaining unit. Wages and certain benefits are, of course, a major part of the budget package which is submitted by the governor for legislative review and approval every two years. In preparing that budget, the governor must carefully balance the needs of the state and its citizens, including wage increases for our state employees, with available revenue sources over the upcoming biennium. I believe that the lengthy process of preparing a budget, both at the executive and legislative branch levels, should be free of the collective bargaining process.

My other major concern is that neither of the legislative money committees reviewed this bill. Section 12 of the bill provides for direct negotiation between an exclusive bargaining agent and the head of each state department under certain circumstances. If the parties in the negotiations are unable to reach an agreement, either party may submit the dispute to arbitration with each party paying half the cost of the arbitration.

This cost could have a major impact on an agency's budget, an impact which was not considered by me in submitting my proposed budget to the legislature or apparently by either the Senate Finance Committee or Assembly Ways and Means Committee in their final approval of the budget.

In vetoing this bill, I want to make it clear that I believe that input from employees and employee organizations is valuable to, and a valuable part of, the administration of the executive branch of government. However, not all of that input is appropriate for collective bargaining. It is my intention to designate a representative of my office to meet with representatives from state employee organizations over the interim to determine if there are personnel policies and practices and matters affecting the working conditions of state employees which we can all agree may be appropriate for collective bargaining and which could be jointly recommended as proposed legislation to the 1993 legislature.

Sincerely,

BOB MILLER
Governor

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Assemblymen Collins, Heller, Price, Carpenter and Porter.

Assemblyman Regan requested that the following remarks be entered in the Journal.

ASSEMBLYMAN COLLINS:

Mr. Speaker, I want to start off by complimenting the 1991 Legislature for passing A.B. 130. I want to say the most prosperous time in America was from 1946 to 1979 which time period parallels the time in America when we had the largest number of people represented in this country by collective bargaining. Collective bargaining is a freedom that, I believe, the state employees of Nevada deserve. I hope that we will approve the bill. Thank you.

ASSEMBLYMAN HELLER:

Thank you very much, Mr. Speaker. I also stand in opposition to this veto. Eighteen months ago when the Governor decided to veto this particular measure, the association got together and picketed out in front of the Governor's office. Through my office I saw the picketing going on and I walked over and joined that particular picket line, probably to the surprise of some of my colleagues and constituency. I did that for a particular reason and I would like to share a couple of those reasons with you today.

Here as a body we get together every two years and we spend six months going through this budget and we make substantial changes. I have a feeling we are going to make some substantial changes this time during this session, and then we rely on state employees to take the information that we have given them, and give them the function to extrapolate the changes that we have made in this budget and all the problems that go with it. I think they do a tremendous job and should be commended for doing so. I think what is going on and what we are hearing out there from the associations is that they are tired of being treated as second-class citizens and I don't blame them.

If you take a look at all the cities and counties in this state, if you take a look at higher education, K through 12 system, if you look at our police and fire associations, every one of them have their own collective bargaining units. Yet the state employees in this state are not allowed to. I think this is an issue of fairness.

The second reason for my concern is, of course, some of the stories I hear of the alternatives that are going to be facing us this session. One of the alternatives, I am understanding, is what we are essentially going to be doing is splintering the association into different bargaining groups. The union in definition in itself is one voice, and I think that if we allow the association to be splintered in so many different groups they will not be heard, they will be divided, they will be conquered and they will never have a say in the process of what goes on in state government and for those two reasons I will be voting to support A.B. 130 and voting against the veto.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body, I rise to speak on the affirmative to override the veto of our Governor. I am reminded of the saying, "That politics has strange bedfellows." These halls have lifelong friends in organized labor and other pursuits that are on different sides of this particular issue.

I would like to read you a list: Alaska, California, Connecticut, Delaware, Florida, Hawaii, Illinois, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, and normally in that list would come Nevada but it is not here, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin; a list compiled by the Commerce Clearing House in 1988. I am not sure what states have since authorized collective bargaining in one form or the other for their trusted state employees.

We in America live by the Constitution that I hold in my hand that gives us the right to "Promote the general Welfare, and secure the Blessings of Liberty to ourselves." We respect, revere and we are created after the Declaration of Independence where we sought separate and equal stations in life. Some of you know and some of you do not know I have spent most of my adult life representing employees through the union. I am an electrician by trade and I came up as a construction electrician, have negotiated many contracts on both teams and later had the most esteemed privilege of being elected by my particular union, The International Brotherhood of Electrical Workers, as what is termed, the Financial Secretary Business Manager, who is the person responsible for maintaining and bargaining for, at that time, some 32 contracts.

One of the complaints that I've heard and we all have heard about the particular version of this bill, A.B. 130, is that it does not provide for bargaining units. It provides, with the exception of law enforcement and so forth, generally, for state employees as a total class all the way up through some supervisory positions perhaps to be represented by a union, if in fact a union could get a majority of the state employees to sign up and agree to be represented. I again have that unique experience because of the nature of our union and the five contracts I had to negotiate, represent, bargain for a total class of people from secretaries all the way through linemen. I even negotiated for Tom Collins at one time and electricians and a certain level of supervisors.

In the construction trades, negotiating in contract terms for supervisors is very common. In the construction trades, electricians, plumbers, and so forth, we negotiated for the worker, foreman and general foreman of a project. Most often we do not negotiate for the actual project supervisor but in many cases the supervisors themselves are members of the union.

The right to collective bargain is not a constitutional right but it was a right that was first afforded Americans through the passage of the Wagner Act in 1935. We are talking seven decades ago. For seven decades Americans, first in the private sector, and then in the public sector have been allowed to have some say so about the terms and conditions at their work place where they spend a great part of their hours, as a matter of fact, probably the majority of their working hours in many cases.

There is somewhat of a movement today that belittles public service. There are many people across this great nation that have little respect for politicians, bureaucrats, public employees and the like and I am hoping with the new morning, this may sound a little precipitous but at least our President talked about perhaps trying to get that turned around for all people, and it has nothing to do with party affiliation.

A retired senator from Nevada, is it appropriate to mention names Mr. Speaker? A very knowledgeable and to me beloved senator from Fallon, I believe, years ago authored and put together the first collective bargaining bill for general public employees for county, city, firemen and so forth. It was an act and it bears his name. I won't tell you what it is but you can find it in our history. That gentleman, that senator had in his heart the right intentions and he opened the door and he allowed hundreds of thousands of employees the same right others have across the United States.

We have amended that bill many times over the years. Employees found problems with it that they wanted amended. It seemed to me for awhile, almost every session we were looking at something but they had that basic right. It was something that could be corrected, amended and so forth as the times needed. I would submit to you that our friends, neighbors, our acquaintances who have chosen the honorable pursuit serving their fellow Nevadans as state employees should not be relegated to the status of second-class Americans. They should enjoy our respect, they should enjoy the dignity of equal station that was mentioned in that Declaration of Independence. They deserve the right to

pursue the improved general welfare for themselves, their families and their loved ones that is mentioned in the preamble of our Constitution. They should be allowed the same rights of collective bargaining, of having a say so in the future and the welfare of their families as hundreds of millions of Americans across this great land. We can argue over the fine points and we can make amendments and we can change, but they should be allowed those rights. They have a dream.

In 1973, Assembly Bill 418 addressed that dream but it did not get out of committee. Again in 1977, their hopes were raised through Assembly Bill 242, again, not voted out of the Senate committee. In 1979, Assembly Bill 137, again not voted out of the Senate committee. By the way, both of those bills were passed out of this house. In 1991, Assembly Bill 130 passed both houses of the legislature and I have to believe that they were probably excited and hopeful that they had achieved that dream to have the same right as hundreds of millions of other Americans across our great land. Today on January 27, 1993, at 11:02, we hold their fate in our hands. You have the power of their destiny in your individual hand and we as a body and in principle have their collective fate in our hands. I would urge you as you are balancing the future of our ten or 11,000, perhaps 11 or 12,000 friends, neighbors, loved ones and acquaintances who are asking for your help. As we weigh that against the message of our Honorable Governor, whom we on the Democratic side love and support, however, even when we do that we do not always agree. I would urge you to give our servants the rights of all of those other fellow Americans and Nevadans under the Dodge Act. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in favor of the Governor's veto of A.B. 130. I believe that employee organizations are necessary and we should have them. My main objection to this bill is that the legislature and the governor are elected by the people to do the budget process, to come up with the tax bills and to say where that money is to be spent.

I think the binding arbitration in this bill takes that power away from the legislature and governor. Binding arbitration, I think, a lot of time leads not to negotiation but to confrontation. I haven't had too much experience with this particular subject. I served as county commissioner for many years in Elko County and we had real good relations with our employees. When I got out of the county commissioners, there were bargaining units formed in both the city and the county. This spring, fall, winter whatever it is, the employees in the City of Elko had not had a contract for two years. They were denied their rights because they picked one guy and the city picked another guy, both from out of state. All these people were interested in is loggerheads. The lawyer representing the city got $180 an hour so he really didn't have any reason to settle this situation. I don't know what the guy on the other side got, but I thought, "Man, the whole city is kind of crumbling under this labor situation." I got the city people together, and we came up with a fair wage plan. This thing was settled in a matter of hours you might say. Within two weeks, these people had a contract. So my experience is that it has not worked, at least in the City of Elko.

Another thing I see wrong with this bill is this collective bargaining bill applies to the city and county and the things that are done in secret. I think that these negotiations should be open so that the people know who is on which side and who is being unfair. Having these negotiations in secret is unfair to the employees as well as to the employer. I think that Section 6 and binding arbitration is going to cost the state and the employees a lot of money and it is not going to accomplish too much. I think we have the process now where they can get down and really negotiate and come up with a wage package and the conditions that will be best for the employees and all of the citizens of this state. Thank you, Mr. Speaker.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in support of the Governor's veto of Assembly Bill 130. Both my distinguished colleagues from Assembly District 1 and Assembly District 17 have alluded to the historical precedence in collective bargaining in unions in America. It is funny that my distinguished colleague from District 17 should mention the Wagner Act because, Mr. Speaker believe it or not, when I was a law student I wanted to be a labor lawyer and spent most of my legal, educational career studying labor law. The Wagner

Act is now known as the National Labor Relations Act. The heart and soul of that is Sections 8a and 8b of which I do know something about which deals with basically an employee's right to bargain and/or grieve with his/her employer for wages, hours and other conditions of employment. An entire body of case law has now been set through different decisions by the National Labor Relations Board overturned and/or sustained by the United States Circuit Court of Appeals, where those decisions go, and ultimately ruled upon by the Supreme Court with the amendments through Taft-Hartley which has brought us to today.

The issue here is not the right to collective bargaining. I think everyone in this room would agree an employee has the right to discuss wages, hours and other conditions of employment with his or her employer. I don't think the issue here is the right to grieve. I don't think the issue is retaliation. The issue today is how best to achieve that objective.

The union contract in collective bargaining has a lot of elements to it. You are dealing with certification elections, bargaining units, representation cards, whether or not a certain number of cards of union members will force the certification election, whether or not an employer must recognize the union as a certified bargaining unit based on signature cards, whether or not a union representative can go onto the premises of the employer for the purposes of organizing, collective bargaining agreements, covered check off provisions for union dues, those members who are or are not members of the union, address yellow dog contracts, agency shop provisions and a myriad of other issues that go into the overall conceptual framework of collective bargaining.

Our Governor vetoed this bill not because he opposed collective bargaining. In fact, paragraph two of his vetoed message reads and I quote, "My veto of this bill should in no way be construed as opposition on my part to the concept of collective bargaining for Nevada's state employees." I don't think that was our Governor's problem. Our Governor's problem was how fast to achieve that objective. It's the executive branch of the government that has to negotiate this agreement. It is the executive branch that administers this law, a law that we sent to him, and he decided to exercise his constitutional right not to negotiate within the framework and the parameters that we established. I support him in that regard and I ask my colleagues to do the same but I also agree with the Governor in his last paragraph of his message where he says once again and I quote, "It is my intention to designate a representative of my office to meet with representatives from state employee organizations over the interim to determine if there are personnel policies and practices and matters affecting the working conditions of state employees which we can all agree may be appropriate for collective bargaining and which could be jointly recommended as proposed legislation to the 1993 legislature." Mr. Speaker, it is my hope that we can achieve that objective and that we can achieve it in a context of both parties that have to negotiate this agreement do so on a playing field which they are both comfortable with, so that all workers under this state's system and any other system can benefit from that kind of contract and that kind of agreement. I urge my colleagues to sustain the Governor's veto. Thank you.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, NEVADA 89710, July 5, 1991

THE HONORABLE CHERYL LAU, *Secretary of State,* Capitol Building, Carson City, Nevada 89710

DEAR SECRETARY LAU:

I am herewith forwarding to your office, for filing within the Constitutional time limit, and without my approval, Assembly Bill No. 290 entitled:

An act relating to the legislature; creating the Carson City capitol complex subcommittee of the legislative commission; and providing other matters properly relating thereto.

This bill creates a legislative subcommittee of the legislative commission consisting of five legislators. This committee is mandated to review the location and architecture of any new building, parking lot or other new structure or improvement located in the Carson City capitol complex, any additional construction to or major repairs of existing structures, and any landscaping within the complex. In addition, the bill specifically provides that the subcommittee shall participate, along with various executive branch agencies, in the planning of all significant aspects of the matters involving the capitol complex for which they are charged with reviewing.

The bill is unclear as to the scope that the subcommittee's "participation in the planning" of matters involving the capitol complex is to take. Because of this, and because of the broadness of the matters involving the capitol complex which are placed within the scope of the subcommittee's mandatory review, there exists the possibility of a significant intrusion by the legislative branch into matters which are clearly within the province of the executive branch of state government. Therefore I must veto this bill.

Sincerely,

BOB MILLER
Governor

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Assemblyman McGaughey.

Assemblyman Regan requested that Assemblyman McGaughey's remarks be entered in the Journal.

ASSEMBLYMAN MCGAUGHEY:

Thank you, Mr. Speaker. Assembly Bill 290 was written as a result of my participation on the Capitol Complex Building Committee in cooperation with Senator Adler of the other house. The bill is designed to assure that through the years the master plan that has been developed for the Capitol Complex area is followed so that traffic and architectural aesthetics and those things are maintained. In that the legislature has the duty to provide funding to all the state buildings, it is only right the legislature be allowed to participate in the planning and location of those buildings as they relate only to the Capitol Complex, not the whole state.

The bill was passed out of this house 42 to nothing. In the Senate it was held in committee for amending because the administration objected due to the fact that there was a mandatory requirement of approval by the legislative committee before the project could go forward. The administration's objections were removed in the amendment to provide only for review. The committee does not have power in the final analysis of what's going to be done but sit at the table, participate and give their opinions. However, I realize that today we are not talking about good government, we are talking about the reality of politics and I suggest that the executive branch is doing what they are accusing this bill of doing, and that is intruding in the legislative process and with that, thank you. I hope you support it but I have an idea that I know where it is going. Thank you.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, NEVADA 89710, July 5, 1991

THE HONORABLE CHERYL LAU, *Secretary of State*, Capitol Building, Carson City, Nevada 89710

DEAR SECRETARY LAU:

I am herewith forwarding to your office, for filing within the Constitutional time limit, and without my approval, Assembly Bill No. 491 entitled:

> An act relating to traffic laws; revising the penalties for driving under the influence of intoxicating liquor or a controlled substance; requiring an assessment of a person convicted of such an offense to determine if he is an abuser of alcohol or another drug; providing a penalty; and providing other matters properly relating thereto.

This bill was passed by both houses of the legislature on the final day of the legislative session. On its face, it would appear to be a laudatory bill in terms of its provisions for evaluation and treatment of persons convicted of driving under the influence of intoxicating liquor or controlled substances. This is something I have always been a strong proponent for, in addition to the very tough DUI laws we have in this state. On closer examination, however, the bill raises many questions which I believe could have a major impact on our court system and existing DUI laws if signed into law. I must therefore reluctantly veto this bill.

I am concerned with section 4 of the bill and the apparent discretion that it gives to treatment facilities over the confinement of a DUI offender. I note that under that section, a treatment facility may "at its discretion," confine an offender "in an institution for no longer than 6 months." This discretion, and the vague reference to confinement in an institution, may infringe on the prerogatives of the judicial system.

I favor strengthening our DUI laws. This bill does propose a system of evaluation and treatment that would, by itself, be beneficial. However, it also limits judicial discretion and provides for confinement that is likely unconstitutional. I fear if we take these steps, we will take a step backward which could seriously and permanently damage the public's confidence in our ability to fight the battle against DUI offenders.

Sincerely,

BOB MILLER
Governor

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Assemblymen Carpenter and Sader.

Assemblyman Regan requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. A.B. 491 would provide an evaluation process to hopefully weed out social drinkers from those that have a real drinking problem on the first or second offense of a DUI.

There is a problem with this bill in that it refers to the situation that the institutions giving the counseling could possibly hold the people up to a period of six months. We don't want a problem like this with this bill so I would ask you to sustain the Governor's veto so we could correct the language and bring it back to you for further consideration. Also, Mr. Speaker, it is not every legislature that gets to have the Governor veto his bill especially when you are the only name on it. Thank you.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. This bill came through the Assembly Judiciary Committee in the last session. There was a lot of work done on it and it has by and large in its provisions some very valuable and important new changes in the law for treatment of DUI offenders. As the Governor's message suggests, the Governor is not opposed to the main thrust of the bill but we did make a mistake on page 2, section 4 in providing discretion to a treatment facility and how long a person would be incarcerated. I think on further reflection we agreed the Governor is right and this bill should have been vetoed and should not be sustained now. What we will need to do is to recraft this language and to come back with a bill that doesn't have the problems that caused this veto.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, January 28, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolutions Nos. 1, 2, 3.

MARY JO MONGELLI
Assistant Secretary of the Senate

INTRODUCTION, FIRST READING AND REFERENCE

By the Committee on Judiciary:

Assembly Bill No. 175—An Act relating to crimes against public justice; prohibiting a person from directly or indirectly threatening or intimidating a state employee; providing a penalty; and providing other matters properly relating thereto.

Assemblyman Sader moved that the bill be referred to the Committee on Judiciary.

Motion carried.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 1.

Assemblyman Heller moved the adoption of the resolution.

Remarks by Assemblyman Heller.

Assemblyman Price requested that Assemblyman Heller's remarks be entered in the Journal.

Thank you, Madam Speaker pro Tempore. I have the privilege at this time to have Deputy Sheriff Matthew Putzer sitting with me today. He is a constituent of mine. It's good to know that there are some solid peace officers out there protecting our citizens from some unwanted individuals who feel free to go around robbing different stores.

Just to give a little bit of background on what happened, if I recall correctly, we had a taxicab that was taking a gentleman from one 7-Eleven Store to the next 7-Eleven Store and as he was robbing them, waiting there to pick the robber up and take him to the next store. It just so happened that Deputy Sheriff Putzer, hearing this over the radio,

understood one of the stores hadn't been robbed yet, so he made a beeline to that particular store and when he got there found the robber was already there and, unfortunately, some things happened that shouldn't have happened.

Coincidentally, I happened to enter that 7-Eleven Store the next day and the clerk in the store was very happy to show me some of the bullet holes that had been riddled throughout the store. The bullets were still lodged into the walls. It gives you a sobering feeling of gratitude for the efforts of these individuals who are willing to put their lives on the line for us. I would like for you to join me in congratulating Deputy Sheriff Putzer for receiving this award based on his courage and heroic efforts.

Resolution adopted unanimously.

Senate Concurrent Resolution No. 2.

Assemblyman Humke moved the adoption of the resolution.

Remarks by Assemblymen Humke and Anderson.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HUMKE:

Thank you, Madam Speaker pro Tempore. Deputy Wright is present this morning along with Sheriff Vince Swinney of Washoe County Sheriff's Department.

Deputy Wright is an example of a new breed of law enforcement. He is extremely goal oriented and has established a list of goals he wishes to accomplish during his tenure on the Washoe County Sheriff's Department. I think the resolution speaks to many of those goals. I won't go over and reiterate them. One thing that is woven through the description is his desire to participate, on his own time, in improving himself to become a better sheriff's deputy and to make the department a better one. He obviously had the incident involving the National Championship Air Races where he was the first to respond to the crash. I don't think there was a fatality in that crash, but he obviously helped to keep that from coming about.

I would like to say a couple of words about Deputy Wright. He comes from rather famous stock. His father is Mike Wright, who is currently president of the Washoe County School Board of Trustees, and he is a constituent of Mr. Anderson. I think his father will be introduced in his own right. Deputy Wright was named the Officer of the Year. I would like to import to you, Deputy Wright. Thank you.

ASSEMBLYMAN ANDERSON:

Thank you, Madam Speaker pro Tempore. To you and through you to this honorable body, it is indeed with a great deal of pleasure that I rise to support the resolution. I have had the pleasure of watching young Mr. Wright make presentations before the Washoe County School Board to expand the Explorer Program available to students through the Washoe County Sheriff's Department. In fact, he is extremely instrumental, if not clearly the sole leader in making sure that that program was revitalized and brought back into full operation. His time in the D.A.R.E Program is legendary in our district and speaks to one of the major problems our society fulfills. I might disagree slightly with Mr. Humke's presentation in one small regard. I think that Officer Wright represents the great tradition of what police officers are all about in this society, and although he is a new breed of officer, he carries on that great tradition and there is no finer example than this young man who has been selected as the Officer of the Year.

Resolution adopted unanimously.

Senate Concurrent Resolution No. 3.

Assemblyman Augustine moved the adoption of the resolution.

Remarks by Assemblymen Augustine and Perkins.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN AUGUSTINE:

Thank you, Madam Speaker pro Tempore. I am honored to have Officer Rodriquez-Carroll here today. She is one of my constituents. In addition to this list of fine accomplishments, she also worked with incarcerated teenagers, 13 to 17 years of age, in order to get them involved in alternative activities in the community after their sentences were completed in juvenile hall.

Officer Rodriquez-Carroll is beginning a boys and girls basketball program, with the assistance of other officers volunteering their time, as well as the Park and Recreation Department in Clark County. They are trying to get parents to participate in these programs with the youth, also. Officer Rodriquez-Carroll also visits bilingual schools to talk with Hispanic children about law enforcement so they will have a better understanding of police operations in our community. She is well deserving of this award, and I urge your support of this resolution. Thank you.

ASSEMBLYMAN PERKINS:

Thank you, Madam Speaker pro Tempore. To you and through you to this body, I am very proud today to stand as the only acting law enforcement officer in this group. I reserved my comments until this point to address them consistently to all three resolutions.

I feel compelled to speak in support of and to recognize these officers for many reasons, one of which it is important for us to recognize law enforcement officers as a whole are very good people and very hard working. We tend to get a lot of negative press at times and I have seen that happen quite a bit the last couple of years. Overwhelmingly though, more officers are good than bad.

It is refreshing to see positive recognition. And refreshing to see the officers we have before us and I understand that they make such a positive contribution towards society. I also recommend and urge support for this resolution.

MADAM SPEAKER PRO TEMPORE:

I take the privilege of the chair to say that I, too, share Mr. Perkins' feelings as someone who holds a degree in law enforcement, even though people may not think I do. I think it's wonderful and I applaud these officers that we have with us today.

Resolution adopted unanimously.

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 1 of article 10 of the constitution of the State of Nevada be amended to read as follows:

Section 1. 1. The legislature shall provide by law for a uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for taxation of all property, real, personal and possessory, except mines and mining claims, which shall be assessed and taxed only as provided in section 5 of this article.

2. Shares of stock, bonds, mortgages, notes, bank deposits, book accounts and credits, and securities and choses in action of like character are deemed to represent interest in property already assessed and taxed, either in Nevada or elsewhere, and shall be exempt.

3. The legislature may constitute agricultural and open-space real property having a greater value for another use than that for which it is being used, as a separate class for taxation purposes and may provide a separate uniform plan for appraisal and valuation of such property for assessment purposes. If such plan is provided, the legislature shall also provide for retroactive assessment for a period of not less than 7 years when agricultural and open-space real property is converted to a higher use conforming to the use for which other nearby property is used.

4. Such property shall not be deprived of such exemption because while in the warehouse the property is assembled, bound, joined, processed, disassembled, divided, cut, broken in bulk, relabeled or repackaged.

5. The legislature may exempt motor vehicles from the provisions of the tax required by this section, and in lieu thereof, if such exemption is granted, shall provide for a uniform and equal rate of assessment and taxation of motor vehicles, which rate shall not exceed five cents on one dollar of assessed valuation.

6. The legislature shall provide by law for a progressive reduction in the tax upon business inventories by 20 percent in each year following the adoption of this provision, and after the expiration of the 4th year such inventories are exempt from taxation. 9. *The legislature may exempt by law property or any portion of the value of property on which a declaration of homestead has been recorded.*

10. No income tax shall be levied upon the wages or personal income of natural persons. Assemblyman Myrna Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. It's my pleasure to have two very distinguished guests sitting with me today. You all know journalists Guy Shipler and his son, David.

Guy, of course, for many years has been called the "Dean of Nevada Journalists" covering the legislature. I happen to have a column he wrote at the beginning of this session that shows he is one of the people with the media that truly understands the work and pressures that we are placed under when we are up here. As a correspondent for *Time Magazine, The Carson Appeal,* and for numerous other newspapers, television and radio stations throughout Nevada over the years, Guy is well known to all of us.

Now, I would like to introduce his son, David K. Shipler. David, formerly with the *New York Times* for many years was the *Times* Bureau Chief in Israel, in the former Soviet Union and in South Vietnam; all during the critical times in our recent history. He is now better known for his books. *Russia, Broken Idols and Solemn Dreams* was written in 1983 and was one of the first serious treatments dealing with the Russian character prior to the momentous days that led up to the dissolution of the Soviet Union. In 1986, David wrote the book, *Arab and Jew, Wounded Spirits in a Promised Land,* for which he won the Pulitzer Prize for Literature. We are indeed honored today.

He is presently working on another project that promises to be of major interest but at this time he is doing research here in the United States. Without revealing his directions, perhaps I can say that he is looking closely at relationships here at home rather than studying people in a far-off country.

It really is my distinct privilege to introduce Guy Shipler and David Shipler.

DAVID SHIPLER:

Thank you, very much. I appreciate this honor tremendously. I would just like to say that the project that I am working on now is about race relations, black and white relations, in the United States which, I think, is the major problem this country faces. That's the reason I want to write about it. It underlies almost every major social issue that we have to come to grips with and exacerbates many of our problems. It is a difficult issue to write about, of course, because everyone in the United States is an expert on the subject, unlike my books on Russia and Israel, which are far-off places, and not everyone thought he knew about those subjects so, it's a challenge for me. I've been working on it for a couple of years learning about my own country. Seeing a lot of what is good about the country as well as what is very wrong. I think the line in President Clinton's inaugural address that struck me the most in this regard was, and I can't reproduce it exactly, but it had to do with there is nothing wrong with this country that cannot be cured by what is right with it, and I do believe that this is also true in the area of race relations if we work very hard at it, but it is a difficult one—a very important issue. I appreciate the chance to be here and to be honored this way. I wish you well with your very important work. Thank you.

SPEAKER OF THE ASSEMBLY JOSEPH E. DINI, JR.

DEAR MR. DINI:

In reply to the legal opinion of the Legislative Counsel Bureau written by Lorne J. Malkiewich, Legislative Counsel:

The issue is not merely whether a Legislator may concurrently be an employee of the University of Nevada System, but whether a state employee may serve in the Legislature. The contest is based on section 1 of Article 3 of the nevada constitution, which reads:

> The powers of the Government of the State of Nevada shall be divided into three separate departments,—the Legislative,—the Executive and the Judicial; and no persons charged with the exercise of powers properly belonging to one of these departments shall exercise any functions, appertaining to either of the others, except in the cases herein expressly directed or permitted.

The Legislative Counsel Bureau has apparently made the determination that the Constitution does not mean what it says, but that "any function appertaining to either of the others" can be loosely interpreted to a doctrine not held by the Attorney Generals of Nevada or the recent court decisions of several sister states that can be called a "doctrine of degree".

Let us examine these legal conclusions of the Legislative Counsel Bureau.

The LCB admits on page two of its brief that the University of Nevada System is indeed part of the executive branch of the Nevada Government. This is an important point because there are those who would argue that because the University's Board of Regents is elected by the people, that the University System is somehow a special separate case. But, of course, Article 3 Section 1 specifically declares that the "Government of the State of Nevada is divided into three separate departments..." and if this needs judicial support, we shall see that it is forthcoming. Therefore, I would urge the Assembly to examine the Hierarchy Chart of Government in the Legislative Manual and make it clear that the University is indeed part of the executive branch.

There were two relevant decisions on this subject rendered by Nevada Attorney General W.T. Mathews. They have laid the groundwork for Nevada's official position on this issue. In AGO 357 issued on December 22, 1954 ,the Attorney General states that a Mr. Baptista M. Tognoni, employed as a Senior Engineering Aide in the Nevada Highway Department and an elected Assemblyman from Eureka County, and Mr. Edward C. Leutzinger, employed as a Senior Civil Engineer in the same department, and the elected State Senator from the same Eureka County, had requested leave from their jobs from Mr. Worth McClure , Jr. Personnel Director, Nevada State Personnel Department. Mr. McClure asked the Attorney General if such leave should be granted. Attorney General Mathews declared "We think such practice would ignore if not in fact be violative of the above-quoted constitutional provision, and certainly against the public policy of this state as so expressed therein."

Attorney General Mathews then cited State ex rel. Black et al.,v. Burch, State Auditor, 80 N.E.2d.294 (Indiana). The court ruled that three Assemblymen and one Senator had violated Section 1, Article 111 of the Indiana Constitution, which is identical with Section 1, Article 111 of the Nevada Constitution. The Indiana court exhaustively examined the authorities and reasons for the separation of powers doctrine, quoting from the Federalist Papers, and concluded:

> In view of the fact that it is obvious that the purpose of all these separation of powers provisions of Federal and State Constitutions is to rid each of the separate departments of government from any control or influence by either of the other departments and that this object can be obtained only if Section 1 of Article 3 of the Indiana Constitution is read as it is written...if persons charged with official duties in one department may be employed to perform duties, official or otherwise, in another department the door is opened to influence and control by the employing department. (underlining added).

The Nevada Attorney General Mathews declared he was in accord with the language of the Indiana Court that "section 1 of Article 3 of the Indiana Constitution is read exactly as it is written." and that the same rule applies to Section 1 of Article 111 of the Nevada Constitution. A.G. Mathews concluded:

> It is the opinion of this office that any legislative act empowering any official or person to grant leaves of absence from employment in the Executive Branch of the State Government for the purpose of exercising powers belonging to the Legislative Branch would be beyond the powers of the Legislature to enact.
>
> It is our considered opinion that the personnel director has no power to grant such leaves.
>
> ...the resignation of employees of the Executive Department for the purpose of serving as members on the Legislative Department, with reinstatement thereafter in the Executive Department would be a manifest evasion of such constitutional prohibition, in brief a subterfuge evading the public policy of the State.

Attorney General Mathews had earlier given an official opinion in another situation. On July 9, 1952, in OAG 183, A.G. Mathews had replied to State Senator John Murray, also, coincidently from Eureka County Nevada, concerning a query as to whether his holding the position of the Office of Director of Drivers License under the Motor Vehicle Laws of the state while at the same time serving in the Senate was a violation of Section 8, Article IV of the Nevada Constitution, which concerns a legislator being appointed to a newly created civil office. Instead of replying to this question, A.G. Mathews answered that Section 1, Article 3 of the Constitution was the Constitutional section that pertained. "Executive class includes all persons who have functions in the administration of public affairs, as contradistinguished from legislative and judicial functions." People v. Salsbury, 96 N.W. 936; 23 C.J., page 982.

Relying on the case of Saint, Attorney General et al. v. Allen et al., 126 So. 548, (Louisiana), which Mathews declared had a separation of powers clause almost identical to Nevada's, the Nevada A.G. defined any exceptions to the rules as purely parliamentary, i.e. confined to such instances as where the Senate is given executive or administrative power confirming appointments, or where the House of Representatives is given judicial power of impeachment, and the Senate given judicial power of trying impeachments.

Further, on page 555 the court states: "It is certain that the highway department is not a part of the legislative department, and it is equally certain that it is not a part of the judicial department; and hence, as there are not four, but only three, general departments of government...the highway department must be classified as belonging to the executive department...it is not necessary, to constitute a violation of the article, that a person should hold office in two departments of the government. It is sufficient if he is an officer in one department and at the same time is employed to perform duties, or exercise power, belonging to another department. The word 'exercise power' speaking officially, means perform duties or functions."

A.G. Mathews also cites State v. Corley, 172 A. 415, and Meagher v. Howell et al., 188 S.W. 373; 100 A.L.R. 1171.

On May 22, 1974, Attorney General Robert List in OAG 168 issued an official opinion to Mr. Howard Hill, then Director of the Department of Motor Vehicles, concerning Highway Patrol General Order 75.4 which stated:

> No member of the Division shall file for or publicly announce his candidacy for public office. It is mandatory for the good of the service that members shall not become candidates for public service.

A.G. List struck down this general order as too broad and violative of first and fourteenth amendment rights. In direct response to Question Three, which was:

> Can a member of the Highway Patrol file for an office, such as county commissioner, assemblyman or state senator, and (a) if elected, would there be a conflict of interest,...

A.G. List relied upon the Attorney General Opinions I have cited, but "a distinction may be safely made between local government elective offices and state elective offices. While an employee of the Highway Patrol could serve in the patrol and simultaneously hold a local government elective office, an employee of the patrol would have to resign his position in the patrol if he were to be elected to a state legislative or judicial office..." (underlining added).

List explains that "an employee of the patrol helps perform the administrative functions of the state executive branch of government and, therefore, he is a member of the executive branch... It would, therefore, be constitutionally invalid for an employee of the patrol to simultaneously serve as a member of the state legislature or judicial departments... Therefore, a highway patrolman elected to the Legislature or to the judiciary...would have to resign from the patrol." OAG 168, page 37 (1974).

In light of these opinions issued by the Attorney Generals of Nevada, it would appear that the Doctrine of Degree which is put forth by the Legislative Counsel Bureau cannot stand. Let us discuss this further.

11

> "The sovereignty of a state extends to everything which exists by its own authority, or is introduced by its permission:..." McCulloch v. The State of Maryland 4 Wheat. 316, 429.

"We are in accord with the language of the Indiana court 'that Section 1 of Article 3 of the Indiana constitution is read exactly as it is written'". OAG 357 page 47 (12-22-54).

The Legislative Counsel Bureau has made much of the fact that the Nebraska Constitution includes the words persons being one of these departments, which is not included in the Nevada wording. However, the Nebraska Constitution uses the words shall exercise any power properly belonging to either of the others, while the Nevada Constitution goes further than that by expressly declaring that no person charged with the exercise of powers properly belonging to one of these departments shall exercise any functions appertaining to either of the others. Does not the person in question, Jan Evans, exercise power in the Legislative branch and a function in the Executive branch? let us visit again page 47 of OAG 357 of 1954. "The Indiana court exhaustively examined the authorities and reasons for the separation of powers of government, quoting at length from the Federalist the work of Hamilton and Madison during the formative period of our constitutional government, and then concluded as follows:

> ...In view of the fact that it is obvious that the purpose of all these separation of powers provisions of Federal and State Constitutions is to rid each of the separate departments of government from any control or influence by either of the other departments, and that this object can be obtained only if Section 1 of Article 3 of the Indiana Constitution is read exactly as it is written, we are constrained to follow the N.Y. and Louisiana cases above cited. If persons charged with official duties in one department may be employed to perform duties, official or otherwise,in another department the door is opened to influence and control by the employing department. (underlying added)

The Legislative Counsel Bureau makes the point that the Nebraska decision was split 3-2 and the dissent centered around the fact that the State Senator in question was a professor. This fact undoubtably caused the two dissents, as the profession of teaching, as Justice Shanahan noted in his dissent, has the purpose of conveying truth, and enjoys substantial First Amendment protection. However, Jan Evans is not a teacher, so the point does not apply here. It may be true that Ms. Evans does not make policy judgments at UNR, but neither do Highway Patrolmen, highway engineers, or probably even directors of Drivers

License. But legislators do make policy, and Jan Evans wants to be a Assemblyman and at the same time hold a job in the executive branch of the State. The Constitution establishes a great deal of autonomy for the University System within the Executive Branch in order that it may be as independent as possible from micromanagement by the Legislature or the Governor. "It was the intention of the framers of the Constitution to vest exclusive executive and administrative control of the university in a Board of Regents to be elected by the people." King v. Board of Regents, 65 Nev. 533, 200 P..2d 221 (1948). "Control of the University of Nevada is placed in the board of Regents and no other body." AGO 134 (12-6-1955). "The Legislature may prescribe duties of regents but cannot limit or extend [their] powers." AGO 124 (4-14-1964).

This control by the Board of Regents over the administrative and executive affairs of the University system, of course, explains why Ms. Evans' position was not created by Legislative statute. The Legislature is forbidden from micro-managing the University by creating jobs within it by statute.

This is not to say, of course that the Constitution has created some sort of fourth branch of Government in the University System, or that the University System is somehow completely independent of the rest of government. "The constitutional separation of powers doctrine does not prevent judicial review of the judicial or quasi-judicial acts of the Board of Regents when an excessive of jurisdiction is in question." State ex rel. Richardson v. Board of Regents, 70 Ne. 144, 261 P.2d 515 (1953).

The Legislature has the discretion to set the length of the term of the Board of Regents, Tam v. Colton, 94 Nev. 452, 581 P2d 447 (1978). With regard to the purchase of real property by the Board Of Regents, "the Constitution, statutes and case law of Nevada do not contemplate or authorize speculative expenditures or investments of the University of Nevada funds." AGO 428 (11-20-1958). "The authority vested in the Board of Regents by Const.,Art.11 Sec. 7 and Sec. 4, must be viewed in conjunction with the authority of the Legislature under Const.,Article 4, Sec. 19, and Art. 11, Sec. 6, to appropriate money for the support of the University from the state general fund upon presentation of budgets in the manner required by law." AGO 80-7 (3-18-1980). While the Board of Regents has the exclusive power to invest proceeds from the grant of public lands in Art 11. Sec. 8, (AGO 112 (1-21-1924)), nevertheless the securities must remain in the possession of the State Treasurer. AGO 112 (1-21-1924).

Finally, let us discuss the issue of sovereign power of the state, and the ideal of a Citizen Legislature. One of the issues addressed by the Nebraska court in Spire v. Conway was whether a university teacher shared in the sovereign power of the state. The court declared he did, and I support their decision. Nevertheless, Ms. Evans is not a teacher, but is employed in University Administration. The Legislative Counsel Bureau's legal opinion on this issue would seem to imply that Ms. Evans job is the same as a private sector job. (See page 2). Nothing could be further from the truth. Ms. Evans' position embodies state sovereignty in several ways. She is employed by the University of Nevada System, a government agency of the executive branch that exists largely through public funds and the sovereign taxing power of the State of Nevada. The University system comprises approximately 20% of the State Budget, in the neighborhood of 200 million dollars of state revenue appropriated by the Legislature during the 1991-1993 Biennium from the General Fund. Can there not be seen conflicts of interest in an employee who helps to approve funding for his own agency from the General Fund? Furthermore, the UNR medical school was not mandated by the Nevada Constitution, but is a creature of the joint approval of the Board of Regents, the Legislature and the Governor. Ms. Evans directly benefits from this governmental approval. Private sector medical schools would have to compete against this government juggernaught in order to establish themselves. In fact, the taxing power of the state is so great that there is only one private university, Sierra Nevada College, located in the wealthiest part of Northern Nevada, Incline Village, that is able to compete with the state power. The sovereign power of the state to tax affects every citizen of Nevada, regardless of whether they attend the University or not. This is quite different from a private business, which must gain revenue from those who use its products or services, or who wish to voluntarily invest or donate to it. Ms. Evans uses the

power of the state as one of her prime strategies in soliciting donations from the private sector. She does not have to worry about competition in respect to the existence of the medical school because the sovereign power of the state is with her.

Furthermore, she benefits directly from the Nevada revised statutes (N.R.S. section 630) that mandate state licensing for medical practice, and elevates one branch of the healing arts, known as allopathic medicine, and one subset of practioners within that branch of medicine or healing, the physician, above all others. Occupational licensure is an expensive,inefficient and counterproductive way to promote the public welfare, and many economists, beginning with Nobel prize winning economist Milton Friedman, ascribe much of the blame for rising medical costs in this country to state licensing laws and regulations. Jan Evans' position within the bureaucracy partakes of sovereign state power in that the private sector must take notice of medical licensure, and the state's role in limiting competition and the free market in medicine. There is right now in Reno a notorious case of a healing practitioner who is being prosecuted by the State of Nevada (many would say persecuted) not for fraud, negligence, or gross malpractise, but precisely under the State's licensing and pharmacology laws. Ms. Evans' conflict of interest in regards to health care is aggravated substantially by her being the Chairperson of the Health and Human Services Committee of the Assembly. This is precisely the type of conflict of interest the framers of the U.S. and Nevada Constitutions were wary of when they wrote separation of powers clauses into our system of government.

The concern is presented by the Legislative Counsel Bureau on page 4 of its opinion that some overlap between the branches is necessary to preserve a Citizen or part-time legislature. This argument is specious for the following reasons:

State employees, in respect to their employment, are <u>not</u> Citizens. They are Citizens with respect to their private lives, of course; they are of course able to vote and are protected by all the privileges and immunities afforded all citizens under our Constitution, Bill of Rights, and amendments. With respect to their employment as state employees, however, they are the servants of the Citizens of Nevada and are subservient to them. The state must show or prove jurisdiction over its sovereign citizens whenever it affects them; state employees are <u>presumed</u> to be under the jurisdiction of the state and must show or prove they are not when the state tells them to perform to its wishes. State employees are legally <u>persons subject to government authority;</u> sovereign citizens may stand on their unalienable rights as existed long before the organization of the State, and can only be taken from them by due process of law, and in accordance with the Constitution. To have a legislature of state employees described as a "Citizen" legislature is therefore an oxymoron; a contradiction in terms. It is to have a legislature of those who look to the state for their sustenance, and not to the free marketplace; a legislature that is attuned to the bureaucratic way of regulations and command, and not the free citizen's way of individual choice and the spontaneous order of the changing marketplace. The burden of taxation that is felt by the Citizen even to the point of possibly ruining his business is felt only as a benefit by the state employee. Much has been made in the reply by the Legislative Counsel Bureau to my challenge that our sister State of California has ignored their Separation of Powers Doctrine and has allowed state employees in their Legislature. I reply yes, but to what end? Has this preserved in that state a part-time citizen Legislature? The answer is clearly no. State employees in the California Legislature have contributed to the creation of a permanent, professional Legislature which has become so oppressive that thousands of citizens and businesses are fleeing that once-free state for Nevada and other states. The people of California have had to rise up and place powerful restrictions on their Legislature by Initiative such as Proposition 13, and strict term limits. Perhaps that could have been averted if their Constitution had been better enforced by their Courts, and state employees had been kept out of their Legislature.

There were three Citizens who opposed Jan Evans in the last election. There is no shortage of Citizens who wish to serve their State in the Legislature. Nevada is growing, not shrinking; becoming more cosmopolitan, not more insular. If there is a need for action to preserve our part-time Citizen Legislature, why not concentrate on such things as campaign and election reform, ballot access reform, and other reforms so that all the

disparate voices in the Nevada Community can participate, and give more opportunity for diversity of opinion in the Legislature—not weaken the Constitution to allow state employees to serve.

Jan Evans has taken an oath to preserve and obey the Constitution above all else. Let her keep that oath. She should resign either her Legislative position, or her position in the Executive Branch. Failure to do so will result in further legal action.

Very truly yours,

(a) For the first offense within 7 years, is guilty of a misdemeanor. Unless he is allowed to undergo treatment as provided in NRS 484.3794, the court shall:

(1) Except as otherwise provided in subsection [6,] 7, order him to pay tuition for an educational course on the abuse of alcohol and controlled substances approved by the department and complete the course within the time specified in the order, and the court shall notify the department if he fails to complete the course within the specified time;

(2) Unless the sentence is reduced pursuant to NRS 484.3794, sentence him to imprisonment for not less than 2 days nor more than 6 months in jail,

or to perform 48 hours of work for the community while dressed in distinctive garb which identifies him as having violated the provisions of NRS 484.379; and

(3) Fine him not less than $200 nor more than $1,000.

The teacher of the educational course shall evaluate the offender and, if he finds the offender is an abuser of alcohol or controlled substances, he shall promptly report his findings to the court for its use.

(b) For a second offense within 7 years, is guilty of a misdemeanor. Unless the sentence is reduced pursuant to NRS 484.3794, the court shall sentence him to imprisonment for not less than 10 days nor more than 6 months in jail and fine him not less than $500 nor more than $1,000.

(c) For a third or subsequent offense within 7 years, shall be punished by imprisonment in the state prison for not less than 1 year nor more than 6 years and must be further punished by a fine of not less than $2,000 nor more than $5,000. An offender so imprisoned must, insofar as practicable, be segregated from offenders whose crimes were violent and, insofar as practicable, be assigned to an institution or facility of minimum security.

2. *A violation of the provisions of NRS 484.379, which is committed by a person within 7 years after he has been released from prison after serving any part of a sentence imposed for an offense punishable as a felony, shall be deemed to be a third or subsequent offense within 7 years for the purposes of this section.*

3. Any offense which occurred within 7 years immediately preceding the date of the principal offense or after the principal offense constitutes a prior offense for the purposes of this section when evidenced by a conviction, without regard to the sequence of the offenses and convictions. The facts concerning a prior offense must be alleged in the complaint, indictment or information, must not be read to the jury or proved at trial but must be proved at the time of sentencing and, if the principal offense is alleged to be a felony, must also be shown at the preliminary examination or presented to the grand jury.

[3.] *4.* No person convicted of violating the provisions of NRS 484.379 may be released on probation, and no sentence imposed for violating those provisions may be suspended except, as provided in NRS 4.373, 5.055 and 484.3794, that portion of the sentence imposed that exceeds the mandatory minimum. No prosecuting attorney may dismiss a charge of violating the provisions of NRS 484.379 in exchange for a plea of guilty or nolo contendere to a lesser charge or for any other reason unless he knows or it is obvious that the charge is not supported by probable cause or cannot be proved at the time of trial.

[4.] *5.* Any term of confinement imposed under the provisions of this section may be served intermittently at the discretion of the judge or justice of the peace, except that a person who is convicted of a second or subsequent offense within 7 years must be confined for at least one segment of not less than 48 consecutive hours. This discretion must be exercised after considering all the circumstances surrounding the offense, and the family and employment of the offender, but any sentence of 30 days or less must be

served within 6 months after the date of conviction or, if the offender was sentenced pursuant to NRS 484.3794 and the suspension of his sentence was revoked, within 6 months after the date of revocation. Any time for which the offender is confined must consist of not less than 24 consecutive hours.

[5.] *6.* Jail sentences simultaneously imposed under this section and NRS 483.560 or 485.330 must run consecutively.

[6.] *7.* If the person who violated the provisions of NRS 484.379 possesses a driver's license issued by a state other than Nevada and does not reside in Nevada, in carrying out the provisions of subparagraph (1) of paragraph (a) or (b) of subsection 1, the court shall:

(a) Order the person to pay tuition for and submit evidence of completion of an educational course on the abuse of alcohol and controlled substances approved by a governmental agency of the state of his residence within the time specified in the order; or

(b) Order him to complete an educational course by correspondence on the abuse of alcohol and controlled substances approved by the department within the time specified in the order,

and the court shall notify the department if the person fails to complete the assigned course within the specified time.

[7.] *8.* If the defendant was transporting a person who is less than 15 years of age in the motor vehicle at the time of the violation, the court shall consider that fact as an aggravating factor in determining the sentence of the defendant.

[8.] *9.* As used in this section, unless the context otherwise requires, "offense" means a violation of NRS 484.379 or 484.3795 or homicide resulting from the driving of a vehicle while under the influence of intoxicating liquor or a controlled substance, or the violation of a law of any other jurisdiction which prohibits the same or similar conduct.

Sec. 2. NRS 484.383 is hereby amended to read as follows:

484.383 1. Except as *otherwise* provided in subsections 4 and 5, any person who drives or is in actual physical control of a vehicle on a highway or on premises to which the public has access shall be deemed to have given his consent to an evidentiary test of his blood, urine, breath or other bodily substance for the purpose of determining the alcoholic content of his blood or the presence of a controlled substance when such a test is administered at the direction of a police officer having reasonable grounds to believe that the person to be tested was driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or a controlled substance.

2. The person to be tested must be informed that his failure to submit to the test will result in the revocation of his privilege to drive a vehicle.

3. Any person who is dead, unconscious, or otherwise in a condition rendering him incapable of refusal shall be deemed not to have withdrawn his consent, and any such test may be administered whether or not the person is informed that his failure to submit to the test will result in the revocation of his privilege to drive a vehicle.

4. Any person who is afflicted with hemophilia or with a heart condition requiring the use of an anticoagulant as determined by a physician is exempt from any blood test which may be required pursuant to this section but may be required to submit to a breath or urine test.

5. If the alcoholic content of the blood of the person to be tested is in issue, he may refuse to submit to a blood test if means are reasonably available to perform a breath test. If the person requests a blood test and the means are reasonably available to perform a breath test, and he is subsequently convicted, he must pay for the cost of the substituted test, including the fees and expenses of witnesses in court.

6. If the presence of a controlled substance in the blood of the person is in issue, the officer may direct him to submit to a blood or urine test, or both, in addition to the breath test. The officer shall inform him that his failure to submit to either or both of the blood and urine tests, as required, will result in the revocation of his privilege to drive a vehicle. A failure to submit to either or both of these tests constitutes a failure to submit to one test under this section.

7. Except as provided in subsections 4 and 6, a police officer shall not direct a person to submit to a urine test.

8. If a person to be tested fails to submit to a required test as directed by a police officer under this section, none may be given, except that if the officer has reasonable cause to believe that the person to be tested was driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor or a controlled substance, and that the person:

(a) Thereby caused death or substantial bodily harm to another; or

(b) Has been convicted of an offense, as defined in subsection [8] *9* of NRS 484.3792, within the previous 7 years,

the officer may direct that reasonable force be used to the extent necessary to obtain a sample of blood from the person to be tested.

Sec. 3. The amendatory provisions of section 1 of this act apply only to violations of NRS 484.379 that are committed on or after October 1, 1993.".

Amend the title of the bill to read as follows:

"An Act relating to traffic laws; providing that the offense of driving while under the influence of intoxicating liquor or a controlled substance is punishable as a felony if it is committed by a person within 7 years after he is released from prison after serving any part of a sentence imposed for certain offenses; and providing other matters properly relating thereto.".

MESSAGE TO THE LEGISLATURE OF NEVADA

SIXTY-SEVENTH SESSION, 1993

Mr. Speaker, Madam President, President pro Tempore, members of the Nevada Legislature, members of the Supreme Court, members of the Governor's cabinet, Attorney General, Secretary of State, honored guests and fellow Nevadans.

I appreciate being here today. I understand there are a bunch of Girl Scouts here that I would like to welcome to Carson City. And I hope in the future when you get a little older and you have an opportunity to take part in Close-up and other programs to go to Washington, you'll take advantage of that because it's great to see this Nevada Legislature in action, but it's also very interesting to see the Federal Congress in action. It's a lot bigger, but I don't think it's nearly as efficient as this legislature. They do a great job, and I'm proud to have been a member of this legislature for so many years.

I'm happy to be back, and I look out here amazed at how many new faces there are. It's only been a little over six years since I was here, and so many people have changed, and there are so many new people here. I feel that if some of you had been here to work with some of the people that really were outstanding legislators over the years, like Senator Jim Gibson who was my mentor and my friend, who helped shape me as a legislator when I served in the legislature. And people like Senator Horn that some of you served with who was my good friend; Spike Wilson and Jack Vergiels and Mel Close and Bob Robinson and both Ashworths and Floyd Lamb and people that worked over the years with us and were really people that I came to know and respect and work with. All or a lot of you are new, just like the Federal Congress—110 freshmen. It's amazing because I walk through the halls of the Congress and there are so many faces that I can't even associate whether they're democrats or republicans or from the east or the west. I always thought when I was a member of this body that I couldn't understand how the Assembly functioned with the large size of the committees compared to the seven-member committees we had in the Senate until I got to Washington and I sat on the Armed Services Committee with 52 members. I look back and say, "Geez, I can now understand how the Assembly can function." I don't know how we function. As a new member of Congress, you sit in that committee, you sit under the five-minute rule. Under the five-minute rule, every member

that's there before you and the senior members get to ask their questions first, and then they get to you. With 52 members, if you're the fifty-second member, you realize how long it is until you get to ask your question. My first year, many times I never got to ask a question. I just had to sit there and sit there for hour after hour before I could finally have the opportunity to ask questions. So you that serve in the Assembly and State Senate are very, very lucky to be able to really participate in the system.

In this six years, which is amazing, I have come from being the bottom of the heap to 205th in seniority in the entire Congress, which is amazing. You figure that in six years, I'm in the lower half in seniority and the thirteenth ranking on the Armed Services Committee from 52. So, if people talk to you about term limits, as many of you know here that are in the Assembly and the Senate and certainly in Congress, we do limit our members. The average stay now in Congress is eight years. It's not the sure 20 or 30 or 40 years that so many people talk to you about because that does not happen. In fact there are only 40 members of Congress out of 435 that have actually served 20 years or more. All the rest have served less than that. So I don't believe for a small state like Nevada—I'm making a little plug now for all of you that are out there—that we need term limits because the people of Nevada certainly limit the terms of many of you as evidenced by the many freshmen and second year members that are here today.

You know, I am very happy to be here because I still feel like I'm part of this legislature. Over the years, as I've sat in Congress, many of you have come back to visit with me, and as Senator Rhoads can tell you as a member of the Public Lands Subcommittee, my door has always been open to members of this body to set up meetings and do the kind of things that are necessary to help you get things on for Nevada. If you need a meeting with key committee chairmen or subcommittee chairmen, I've always been there to help because I feel like John F. Kennedy did when he said, "I am a Berliner in the 1960s." I feel that I am still a part of this body and will always have part of my heart here as a member of the Nevada Legislature.

I would also like to talk to the new members that have come in. You may call them the "young turks" like we do in Washington with this figure that wants to get things done, wants to get things changed, and wants to bring new blood into the body, and that's good because I think sometimes we who have been here for awhile need a little prodding and need a little development, and need a little push. But on the other hand, I would like to say that those that have been here for awhile, and as one of the bodies called one of the members the other day, the "noble dinosaurs" of this body. They also have a lot to give. They have been here for a long period of time, some not so long but they have been here, they've developed within the system. They know how the roads run. They know the "Ys" in the road that go to deadends and those that lead to productive activity. Listen to them. You don't have to agree with everything a more senior member says, but they have over the years had the experience to know where the pitfalls are, what experiments will not work and what will work. And that's true in Congress too, because many times I've had what I thought was an outstanding idea and could not understand why no one would pick it up until more senior members would explain to me that it had been tried several times, and those theories had failed, and it was not necessary to reinvent the wheel. At the same time I say to the senior members, listen to the younger members because they've been out in the trenches just like you have and they understand the problems out there. Some of them may have a new perspective that can be very, very helpful. The marriage of these two groups is very, very important, the young and the old. When I say young, that doesn't necessarily mean age-wise because some of the more junior members could be older than some of the more senior members, and that's a fact in Congress. You have people in their forties that have been there ten years, and people arriving who are 60 and 70 years old who are in their first term. I also ask you, regardless of where you come from in the state, to come together. Whether you are a northern Nevadan or a southern Nevadan, whether you come from the rural counties or you come from the urban counties, whether you're a democrat or a republican—and if I was in Congress, I could say a socialist—come together to work for the benefit of this state because that's what it's all about.

President Clinton, when he spoke to Congress the other day, said that the only special interests that we should be concerned about are the special interests of the American people, and that's true of you who sit in this body, too. The interests of the people of Nevada should be the number one item on your agenda.

President Clinton met with a group of democrats prior to that speech, and he said I'm going to ask you as legislators to do some things that are very, very difficult to do. First of all, I'm going to ask you to cut programs that mean a lot to a lot of you. I'm also going to ask you to vote tax increases which probably, as everybody in this body knows, is the worst thing that you can ask a legislator to do, but I'm going to ask you for the good of the American people to take the hard choice, take the hard road, make those choices that you don't want to make but have to be done because of these young people sitting out here right now, today. Because of them and their children's children, make those choices. And if you're here, as our Majority Leader told us right afterwards, Richard Gephart, if you're here to get re-elected, and that's your only purpose to be here, you shouldn't be here because that's not the purpose you're here for. You're here to make those hard choices, and if you're not re-elected in two years or four years, then that's because you did something. Our President told us in this caucus, if he's defeated in four years and, as a democrat I hope to God he is not, but if he is defeated, it's because he did something, not because he did nothing, and that's what's important.

We realize in Washington that this debt has taken 12 years to develop. Twelve years ago we had about a $300 billion debt which we thought could be easily handled over the next four to six years. Today, as we speak, our national debt is approaching over $4 trillion. It takes 11 percent of our national income just to pay the interest. That isn't one cent on the principal, just on the interest. If we continue the present pattern of spending, 20 percent of our income will be paying payments on the national debt by the year 2000. It is strangling us, and it is killing our economy. Now people can tell you that the economy is getting better, everything is improving, that if we do nothing, we will ease ourselves out of this depression, we will be able to handle the debt in future years. That is not true. We have an upsurge in the economy, but it is very, very slight. The fact is that most economists tell us, unless we stimulate this economy and get this economy moving and handle the deficit, we will slide back into recession within 18 months to two years, and it will be deeper and harder than the one we faced in the last four years. We have to do something, and we have to do it quickly, and we have to move on it. We have to invest in the infrastructure of this country. You know that Japan spends as much on government infrastructure programs and research and development on programs as the United States does, and their country is just one-fourth the size of our own in population and 100th of the size in actual land area without the natural resources that this great country has, and they don't have the massive debt that we have. They have a surplus in their budget, and we face a strangling economy, a debt that will strangle this economy and kill this country. Japan increases its productivity by 2 percent per year, United States averages an increase of its productivity of one tenth of 1 percent per year. That's what's killing us. It is predicted that if we do nothing, by the end of the century we will have the lowest standard of living of any industrialized nation in the world.

All of us remember, as President Clinton said, how everything looked better for every generation, that our children could look forward to having a better standard of living than we did. That's not true anymore. They say for our children to have a better standard of living than we do, it will take 100 years at the present rate before that would happen. So these young people out here can look at a standard of living that will be worse than ours, and their children can look at a standard of living that will be worse than ours because we didn't have the courage to make the hard decisions. I believe the American people are ready for those decisions. They understand what we're going to do is a tough thing, that we're going to raise their taxes, we're going to cut programs that mean a lot to a lot of people. I sat in the Democratic caucus when we were talking about the cuts. Now everybody talks about how wonderful it will be to make all these cuts. Well, you could have heard every member yelling when they gored his particular program. I remember a Congressman from Missouri whose entire area is served by rural electrification. They're going to cut the subsidies under the Clinton plan to rural electrics. He got up and said,

"That's it, I can't vote for the program, I'm out of here." Now as he went down through the 150 different cuts, you had different Congressmen getting up on every single cut saying, "You can't cut that program because that's the bread and butter in my district. Don't cut my program, the other 149 are okay, but that one I can't vote for." Well, let me tell you, if every Congressman does that, we are in deep trouble because we are going to have to come together, both republicans and democrats, to put the votes on the table because the cuts hurt. In Nevada, for instance, we face several cuts that are dangerous. You know, one thing we are looking at is, of course, the entertainment deduction for 80 percent of the money spent for meals and entertainment in the past. President Clinton proposes to drop that to 50 percent. Will that stop some tourists from coming here, some conventions from coming across the country or doing some of the things they do? Will that cut it away? Will it hurt some of our tourism? Probably, yes. Not enough though that I could sit there in good faith and vote against the program because I know some of these cuts are going to hurt Nevada, some of these cuts are going to hurt every state in the Union. But if we do nothing, it's going to hurt us a lot more because, when the economy goes into the slammer, I don't know where those tourists are going to come from when they don't have any money to spend and to visit our fair state. So yes, we all have to make tough choices. And the President has asked the opposition, the loyal opposition, because that's what the opposition party is, to specify particular cuts. Now why did he do that? You heard the speech he made. I won't call it a "state of the union message" because it wasn't, it was addressed to Congress. In the address he made, he said, "Give me more cuts, but be specific." What happened was, basically, some people got up and said cut 5 percent of the agriculture budget, cut 5 percent off the justice budget, cut 5 percent off the transportation budget. Be specific, tell us what programs you want to cut. Do you want to cut highway transportation funds for the states to rebuild infrastructure? You spell out what projects you want to cancel. Not many people have the courage to get up and say, okay cut 25 percent of the highway transportation funds and take it out of my district. Don't build the spaghetti bowl in the next 20 years in Las Vegas. Take that $55 million and apply it to the deficit. Not many people have that courage. So what we've asked for, if you want projects cut, you tell us what they are. And, if you as legislators should address the same problems, be specific. Tell us what you want to cut, what it will save, and what it means to the American economy.

His stands are controversial. The President has gone across the country to the people. And let me tell you something, 60 percent or more of my phone calls are coming in asking us to favor the President in his program. They're saying, do it. Do it now, do something because as I campaigned over the last election, and all of you are doing the same, you remember what people were telling you out there, end the gridlock, do something. They even said do it if it's wrong. Well, they don't really mean that, as you well know. We do it and it's wrong, we'll all hear about it in the 30-second spot next election or a 60-second spot on the radio. But they want us to do something. And you know what, right off the bat we did something. We passed a piece of legislation that has been sitting around since I've been in Congress trying to get through, that's the Family Medical Leave Act to allow people, to allow mothers and fathers to take off to be with their baby right after birth or to take care of a sick parent or sick child. This is important legislation; it was too long in coming, and we worked on that.

We are going to end gridlock. Early in the day I met with some of my democratic colleagues here and they asked me about health care. And yes, we are going to address the health care issue. We are going to address this terrible problem that is sucking the vitality out of this country; $800 billion a year for health care right now, $800 billion, estimated to reach by the year 2000, if not controlled, to the amount of $1.5 trillion for health care in this country, the highest cost for health care of any country in the world. No one has this kind of staggering health bill. Health care costs are going up at two times the inflationary rate in this country. Yes, we are going to have a health care bill because President Clinton put the finest person he could in this country in charge of that, that has his ear on a daily basis, Hillary Clinton, who is going to produce a good health care bill by the end of this year.

We ask what this means for Nevada? It's not all bad. Americans are willing to take the burden, but they also want to know what it brings back to us. The President's plan calls for something that hasn't been done for years. Those of you who serve on the Transportation Committee know how vital federal transportation funds are for the rebuilding of the infrastructure in this state. The President has promised two things:

1. That he will release the highway trust funds. He will get them out to the states, he will not allow them to be used to cover the massive federal debt, and he will get that money to you to allow you to rebuild the infrastructure and create jobs in this state for Nevadans and make sure that people can move from point A to point B in our urban centers and across the rural areas of this state. That money will be coming. In addition, there is an estimated $20 million more that is going to be in this first stimulus package to come to the State of Nevada. That's if you can get some projects off the design stage and ready to go in this next year. There will be 20 million additional dollars that we can use to help rebuild the infrastructure. That's in this program. That will be money you can count on if you can get the thing rolling, and if we can get the director of the Transportation Department, who I think our Secretary of State knows very well, to get these things done and get these road projects on the board. I think our present director of the Highway Department will be able to do that.
2. There is $8 million in additional block grant money that will be coming to the local localities to use for rebuilding infrastructure or special programs to put people to work. Also, there will be $4 million in additional money for wastewater treatment facilities in this state.

The President also has a high interest in high speed rail transportation. Some of you are on the committee for the high speed train between Las Vegas and Los Angeles. He has $900 million set aside for this type of program. If we can get our act together here and agree on the roots, where it goes, what it does and how it is going to happen, there is money that we can reach out and grab onto in that program to help build this. That is going to mean a lot to Nevada's economy whether you live north, south, east, west, rural or urban. It is going to mean more revenue into Clark County which translates into more revenue here in Carson City to help the entire state.

We've got to move forward on this, and I'm glad the President finally has addressed the problem of high speed rail, and if you can get your act together our delegation will help you get some of that money to build this much needed system.

The President also is calling on increasing the Department of Environmental Energy Restoration and Waste Management initiatives in this state . . . putting more money into industrial and energy clean-up, and also programs to develop new sources of energy, which are vitally needed. As the Cold War is over, and as defense industries are shutting down, we in the delegation sit up there, and we are very concerned about the future of the Nevada test site. As you know, the moratorium is until June on testing, and at that time six to eight more tests are authorized. Whether those tests will take place, I'll tell you, I honestly don't know if there will ever be another test at the Nevada test site, but the facts are we've got a facility out at the Nevada test site, billions of dollars of infrastructure, and the President is committed to reusing those facilities, retraining those workers, and getting new sources of programs into that area. I chose to be changed from the Procurement Subcommittee in the Armed Services Committee to the Research and Technology Subcommittee because I believe that many of the new programs that we'll work on for the 21st Century could be worked on and developed at the Nevada test site, things like hydrogen research, solar research, and other environmental clean-up programs that could be developed to make sure this wonderful talent we have up there, and we have some of the finest workers in the world up there, do not just dissipate, and go off into other areas of the state. It's going to be tough, but, you know, we're losing workers up there which we hope to rebuild by other programs, but believe me, other districts are hurting bad. Look at Boeing, announcing 20,000 people to be laid off in Seattle. Other companies across the country are laying people off. I recently heard the complaints by a bunch of Soviets, or Russians I should call them, talking about how many of their people were being immobilized, they had no place for them to live. I paraphrased a general's sermon back in war times, and this was a general from the Russian army. I said, "Peace is hell." And, in

this particular case, peace is hell, because people are being laid off and are not able to have the jobs that they've had for the last 40 to 50 years in the Cold War. But, I think we have to look at that, and the test site. The President is committed to developing alternative programs, and re-employing those workers, and making sure they don't lose their jobs.

In addition, the President has increased the amount of federal dollars for Head Start Meal Programs, and that money will be flowing into this state, as well.

Increased drinking water and clear water revolving funds will also be made available in this state, but some of the rural communities are particularly important where they have a real purification problem. Some of that money will be coming into the state as part of the President's programs. In addition, he plans $2 million, roughly, will be coming into the state for immunization of children, and I think that is an important program. The President estimates after his immunization program is completed and every child in this country is given the proper shots for critical childhood diseases, the government will save $10 billion over the next five years in health costs, so it is very important. It's like changing the filter on your automobile. Remember the old ad, "Pay me now, or pay me later." Well, right now, we're going to pay now so we don't have to pay later, and I think that's an important program.

In addition, $3 million is earmarked for this state for Head Start and summer youth employment programs, and I can tell you, those are important monies.

After the last riots in West Las Vegas, I met with various leaders in West Las Vegas, including Senator Neal, Wendell Williams, Morse Arberry, and others that serve in this body, and with young people in that district. And, let me tell you, the biggest thing they wanted was jobs. They want to go to work. They don't want to sit around the streets at night not doing things. There's a friend of mine from one of the urban areas on the east coast who called me. He was talking about some of his friends that have a job. He said, "You know those guys aren't fun anymore. They came in at night, on Friday night, and I said let's go out and really live it up. They said, "No, I'm too tired, and I have to go to work in the morning." That's great because it takes those young people off the street, it gives them a few dollars in their pockets, it helps them learn a trade, and it will keep this country together because there's no reason why the richest country in the world can't keep every man, woman and child in this country working who wants to work. Putting $3 million into this program will help do it, and also funds adequately and fully Head Start, which is so important.

The Clinton proposals are not to come cheap. As I said, everyone is going to have a share of this. I believe Nevadans are willing to carry their share. You know, none of us likes taxes, as I said earlier. But the fact is, Nevadans are speaking loud and clear by a 2 to 1 majority that they are willing to carry their share of the burden, as long as that share is fair, and the Clinton plan is fair.

Economic forecasts about Nevada show that Nevada is doing very, very well, and will continue to do very well into the 21st Century. Right now we are a job haven. People are moving into our state and swelling our population by over 40,000 people over the last two years. Although our economy is linked heavily to California, which is in a tremendous economic slide due to the failure of the defense industries and the fact that the Cold War is over, Nevada grew by 1.9 percent during the third quarter of 1992 in job growth; the sixth best in the nation. They project that in the next few years Nevada's growth rate will increase to 4 percent per year allowing us to be the number one economy in the country, and that Nevada will move from thirteenth in standard of living to number one in the nation within the next four years. Number one. But, there's one caveat that's in all these reports that come back, and that is, foreign and Indian gaming. It is a danger to our state. It's a danger to our economy, especially to areas like Reno. Las Vegas is building a major resort anticipating foreign gaming so that people will move into Las Vegas and come to Vegas because it's unique in the world. But many of our areas in this state will be hurt by foreign gambling. And let me tell you, our delegation doesn't care what anyone else feels about it. We intend to fight and adjust that law to make sure that Nevada's protected, and we don't care who opposes us, and we don't care who they are or how much money they have.

What we need to do is to continue to work with all of you on these important problems. You know, I have just introduced a bill to create a 300,000-acre area in the Spring Mountains to protect that area from urban encroachment. Your Public Lands Committee has supported that bill, and I appreciate that. Also, I'm going back today to Washington, right after we finish here, and I'm going back to testify. And, I want you to know that the off-roaders, the hikers, the Sierra Club, and all the different groups in southern Nevada have come together. And, what's even unique to you, having served here for so many years, the Nevada Mining Association will be there testifying in favor of this bill, which I think is so good to protect the Spring Mountains from future urban development. I thank you for your support from the Nevada Legislature and ask that you continue to support programs that will still ensure the protection of these areas, but at the same time allow for hiking, off-roading, hunting and fishing in these areas that are so important to keep pristine. Because the last thing we need is the fact that these beautiful Spring Mountains, ranging from Mt. Charleston to Red Rock, will be destroyed so that these young people and their children's children will not be able to enjoy them because they will look back to us and say, "Why did you let us down?" Not only did you get the economy going, hopefully, but you protected this area for future Nevadans.

You know, some people have criticized you for bringing your meetings down to southern Nevada. Some people said it's a waste of time, that few people showed up for the hearings. Let me tell you I believe that opening government to all of the people is what we need to do because failure to do so brings that discredit to us. What's happening behind closed doors; what's happening in Carson City so far away from Las Vegas brings distrust. People believe we do things we don't do, and sometimes I believe they believe we do things we do do, but in most cases, they don't know what we're doing up here; what we're doing in Washington; what we're doing in Carson City, and if only a handful of people showed up at those hearings . . . that's still wonderful. I wish more would come. But, don't let anybody tell you coming down a couple of weeks to Clark County to let the people know what's going on is a bad thing. It's a good thing, and I compliment you for doing it.

In closing, let me tell you that my wife, Mikie, is sitting down here with Myrna Williams and Renee Diamond, my district director. Mikie and I really love coming back here because we have such fond memories of being up here except for those last few days of the session which we'd like to forget. But, remember when you're up here, you know, things get tough, it gets hard, and you have to make hard choices. You think that every time you get one of those cranky letters or one of those silly phone calls that come up here, and you get some of them all the time, where they call you everything in the book, and they tell you how everything is terrible, and that you guys are screwing everybody in the state by whatever you're doing. I remember one Assemblywoman a few years ago who had just been elected, got up on the floor and said, "You know, I campaigned on an anti-legislative agenda, talking about how you guys got up here and you spent all your time at Jack's Bar and you didn't get any work done." She said, after having been here, and she had seen the long hours that you spend and the months and months of agony you go through. Some of you that have businesses or law offices back in Las Vegas know how much business you lose, and you wonder, is it all worth it? The answer to that is, at the end of the session come August or September . . . we did use to get out in May and June, by the way, when I was here. That, when that time comes, and you have to go back, if you can look back and say we accomplished something, we did what had to be done, then it's all worth it. But, if you go back home and say, "Geez, I just took the easy course. I let everybody push that green button, but I pushed the red button because I don't want to answer to my constituents." And, you know, that there's some of you out there that are inclined to do that. We had them when I was here, and I don't know who you are today, but there are some of you that would rather push the red button every single time so you can go back and say, "I never raised taxes; I never did anything. You can't blame me for anything, because I didn't do anything." And there are some of you here who like to do that. You're not a legislator. A legislator is a person who gets up and does something. I remember Senator Raggio, after the great tax shift and some of the bills we passed raising taxes in '81 and '83, wrote into the record commending both sides of the aisle for having

come together and did what had to be done. He said I'm doing this because you did the right thing, and I am the minority leader. That was the good old days, and I want to tell you Democrats that if any Republican comes up and denounces you for votes to do the things that have to be done, I want you to have this particular sheet of paper to show him. We need courage like that again. We need people protecting each other in the sense when you do the right thing it's not a Republican or Democratic issue, it's a Nevada issue. I tell you again, we are open to you. But, fight this battle out here. Get this Nevada economy going. Do the right things, and be damned the election, because I believe that people know you're up here doing the right thing. You'll come back here, time after time, as long as you want to be here. God bless all of you, and thank you for coming and hearing me today.

Assemblyman Dini moved the adoption of the resolution.

Remarks by Assemblymen Dini and Neighbors.

Assemblyman Petrak requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tempore. It certainly is my honor to be able to present this resolution and speak on it to the Viani family. They have been lifetime friends of mine.

As you heard in the resolution, Julia came to Nevada when she was five years old from the old country. I was acquainted with her parents early in life and with Julia as time went along. We became very close friends when I first came to the legislature. Her husband, Joe, was a real teacher to me in the legislative process. We went through a lot of tough times. Papa Joe was sick during his last session. He was sitting in that seat right there, your seat on the floor, when we first opened this building. He had cancer.

This lady was a devout wife. She came every day and drove him to the session. She cared for him like a baby. He struggled through the session. Shortly after the session he passed away. She was such a devoted wife and mother to her family. I will never forget the kind things she did.

The Viani family, in Hawthorne, was respected by all the United States Senators and Governors in this state's history since Balzar's time. Pat McCarran was a good friend of theirs. If you go in the club you will see pictures of most of the governors since that time as well as United States Senators. I know Richard Bryan and Harry Reid grew up in this system with Papa Joe and Julia in the 1969 Session, which was her first session here at the legislature. They were taught a lot about rural county politics by these two great Nevadans in Hawthorne.

I bought my first house in Yerington from Mrs. Viani, her mother, back in 1957. We have done business together since that time. It was always a pleasure to go through Hawthorne and see that family. The last time that I was in town, coming from a democratic convention in Las Vegas, I stopped in about five in the afternoon one Sunday, which was a good time to have a good spaghetti and chicken dinner at their club. I said, "No, I have to go back to Yerington and get home," and she told me in Italian, "Sunshine, if you don't stop this time, I'll never come back to see you again." So, naturally I stopped and had some of their excellent spaghetti and chicken.

They were great leaders in our state. Everybody who came through town sought counsel from them. You always stopped to see them in the old days. The Las Vegas delegation, in the era of Keith Ashworth, when they drove home, would always stop to see Joe and his family in Hawthorne.

She was a great leader. She was involved in all kinds of events in Mineral County and throughout the state. Papa Joe told me that when he was courting Julia, and she was teaching in Storey County, he was working on the Quilici Ranch down in Dayton. He used to get on his saddle horse every night and ride up there and do his courting and then be back in time to go to work. That is old time courting.

We had a lot of happy times together. She was really a beautiful lady who did so many things for so many people. I am very glad to be able to commend her today. To the family, we give them our condolences as we recite the happy times we had together. Thank you, Madam Speaker pro Tempore.

ASSEMBLYMAN NEIGHBORS:

Madam Speaker pro Tempore, I too, rise in support of this concurrent resolution. I would like to echo the feelings of Speaker Joe Dini.

I have known the family for many, many years. I have received numerous calls from Mineral County. I received a call from the Honorable District Court Judge William P. Becko of Tonopah this morning and it seems everyone is in agreement that the State of Nevada has certainly lost a true friend. Thank you.

ASSEMBLYMAN DINI:

It is indeed my pleasure, Madam Speaker pro Tempore, to present the resolution to the family. I will give it to Hazel. Her husband, Joe, was unable to be here today. If you are involved in the gaming business, Regulation 6 says certain people have to be there when they are doing the slot drop and I guess it was rather important that someone in the family stay there to take care of business.

We want to present this to the family. We have other copies for you in my office so that you can give them to other members of the family. We certainly want you to know how we feel. She was a great lady. This house certainly supports this resolution. You will be going down to the Senate very shortly and Mr. McGinness will see you there. Thank you for coming.

Resolution adopted unanimously.

Assemblyman Dini moved that all rules be suspended and that Assembly Concurrent Resolution No. 22 be immediately transmitted to the Senate.

Motion carried unanimously.

Senate Concurrent Resolution No. 7:

Assemblyman Porter moved that the resolution be referred to the Committee on Transportation.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, March 2, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 10.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 10.

Assemblyman Garner moved the adoption of the resolution.

Remarks by Assemblymen Garner and Myrna Williams.

Assemblyman Petrak requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GARNER:

Thank you, Madam Speaker pro Tempore.

Harold Beard was one of the family: you, me, the lobbyists, press, attachés, staff and all who came within this legislative building. Harold started working for our Security Section in 1979, was promoted to Chief of Security in 1985 and held the post until his passing in August of last year.

Harold's first love was his wife, Doris, and their family. Second came this building and those who work within it. Over the years I've come to know who truly runs this building—Counsel Bureau staff, janitors, maintenance personnel and security.

Harold Beard had the patience, manner and style to make safety and freedom work together. His motto, "better safe than sorry." Many of the capabilities we have in this building today for everyone's safety came from Harold's concern. He wanted his crew trained and qualified to do the job. He wanted his crew to be noticeable, kind, courteous, giving directions, guiding tours, doing someone elses job or stopping a mob.

I will always remember Harold for his devotion to his job and his caring and sharing. Thirteen years of his life were spent worrying about you, me and many others in our legislative building.

These remarks were those of Senator Jacobsen from the Senate side.

In addition, I want to say that I have known Harold Beard since 1987 when I first came to the legislature. It has been my good fortune to work with him concerning security matters for several years. He was the epitome of what one would look for in a law enforcement officer. He was always professional in his appearance and in his performance. This body owes him a debt of gratitude and a debt to his family for the many years of outstanding public service he has given to the State of Nevada. Thank you.

Madam Speaker pro Tempore requested the privilege of the Chair for the purpose of making the following remarks.

Thank you, Mr. Garner. I would like to take this opportunity to associate myself with your remarks. Mr. Beard is sorely missed especially by those of us who seemed to get in hot water once in a while. He always made sure we were safe, secure and protected. We appreciated that and cared a great deal for him.

ASSEMBLYMAN GARNER:

It is an honor for me, on behalf of the Assembly, to present Harold's wife, Doris, and sons David, Dale and Harold, Jr., this plaque in appreciation for the long years of service that he has given to the State of Nevada.

In addition, let me present to Doris a special plaque coming from Chief Kenny and other security officers who served with him here in the legislature. It is a beautiful thing, and I want to present this to her as a token of our appreciation for his long years of service. I want to show it to everyone.

Madam Speaker pro Tempore, I would like to introduce Chief Beard's wife, Doris, and her daughter-in-law Jeri. Seated behind me are 13 members of his family who we are happy to welcome here today.

Resolution adopted unanimously.

ASSEMBLY IN SESSION

At 12:04 p.m.

Madam Speaker pro Tempore presiding.

Quorum present.

Remarks by Assemblymen Gregory, Toomin, Perkins, Porter and Dini.

Assemblyman Price requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

On Tuesday, a friend of 30 years, a mentor, died. It doesn't seem real. It still doesn't seem real. What makes it so unreal is, as I read the newspaper columns about him, all I read about is his accomplishments, and I guess that's because Jim was a private man and didn't really reveal his personal side. This was a man who was a great humanitarian, who loved children. He fought and worked for welfare mothers—which may surprise people—for child support, for victims of domestic violence. On a personal level, the other night one of our mutual friends said that Jim's favorite saying was, "Not to worry." Any of his friends who were in trouble or had any problems or difficulties would speak to Jim, and he would say, "Not to worry." This didn't mean that he was necessarily going to solve the problem, it meant that he would always be there. He was somebody you could turn to; he was somebody you could trust; whose confidence you could trust; whose word you could trust.

It's difficult to talk about. Jim had a side that was wonderful. He was a man who worked crossword puzzles with a pen which always amazed me, the "London Times." He was a man who loved to play Pac Man games, he loved sports, he loved playing Trivial Pursuit. A side that many people in this building never got to experience with Jim.

Politicians come and go. Lobbyists come and go, but good friends are forever and they're irreplaceable. Jim Joyce is irreplaceable in many of our lives. Thank you, Mr. Speaker

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I, too, rise in support of ACR 25. I had gotten to know Jim Joyce pretty well over the last 14 years in the legislature. Incidentally, Jim was a member of my fraternity at UNR in a different eon. One of the things I think people should remember is that Jim Joyce was a gentleman. He was an educator, not an intimidator, and I don't think that he ever tried to twist your arm to vote his way. He presented his case to you and you'd make your own decision. I am somewhat offended by an editorial I read yesterday, and I think what you are going to hear here today will overcome that editorial. I urge every member of this chamber to support this resolution. Thank you, Mr. Speaker.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I rise in support of ACR 25. Probably the nicest thing we can do in having a testimonial is to have nice things said about us. I would like to say that Jim was always fair and possessed an extraordinary ability to listen. I was able to contact some of the former members of this body, and I would like to share with you some of their remarks.

Jim Banner, whom many of you served with, served nine terms. All nine terms were while Jim was here. In Jim Banner's concise way, his description was, "His word was good."

Eileen Brookman also served nine terms, six of which were with Jim. Some of the things she said have already been said, so I won't repeat them. But one thing she said was, "There will be a big void in the State of Nevada."

Jane Wisdom served two sessions, both with Jim, and her description says, "Jim was like a human diamond because he had so many points of light." Something she said that I think we all agree with is, "This gentle giant sleeps, may he rest in peace." Thank you.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. I met Mr. Joyce for the first time in 1981 when I came to the legislature as an advocate, as a volunteer lobbyist. As it turned out, the one and only bill I worked on that session, was opposed by clients of Jim Joyce. Everybody warned me, "You're not going to get very far with your bill because you're going against the number one lobbyist in the Nevada Legislature." Even back in 1981, he had quite a reputation, often referred to as a Titan. I think that's appropriate. But as it turned out, I introduced myself to him early in the session and explained what the bill was all about. It was the domestic violence funding bill, and he said, as the Speaker pro Tempore told you a moment ago, "Not to worry."

Well, what does that mean? His follow-up statement was, "This is an important bill. It's a bill whose time has come, and I will tell my clients that I intend to support your bill, and if they don't like it, they can hire somebody else." You can imagine my relief. But it says something about the person, the individual. Jim was a student of the process and a constitutional scholar, and he did his homework. But he always kept in mind the big picture. And it wasn't just a matter of representing his clients, because if he felt in his heart that it was not in the best interests of Nevada, he wouldn't support it. Rest in peace, Jim.

ASSEMBLYMAN PETRAK:

Thank you, Mr. Speaker. I rise in support of this resolution. I would like to say that I have known Jim Joyce as a friend. I've known him for three years and I consider him a real friend. Many times, he would see me and say, "How's your grandson, Scott, doing?" He didn't have to say that, but the reason he said that and he had an interest was because my grandson, Scott, is going to Northwestern University School of Journalism, so I kind of hit on Mr. Joyce. I'd say, "When he graduates, I'm going to bring him out to Las Vegas and I'm going to talk to somebody about a position for him." He became a friend of mine, and every time he would see me, he would say, "How are things going?" and would always ask about my girlfriend that I live with, and I thought that was real nice. He was always interested. Jim Joyce is truly a giant. I'd like to say he will always walk tall among men, and I'll miss him. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body, the first time I remember meeting Jim he was still with Senator Cannon's office, before he began his career here. In my mind, he certainly achieved being a legend in his own time. He was a fine Nevadan, a fine citizen over our 20-some-odd year relationship. We would obviously be on the same side of many issues, and on a different side of many issues over the years. He conducted himself in these halls and outside these halls with honor and dignity.

I had not looked at this editorial until it was mentioned by my colleague, and as I look at the *Reno Gazette Journal* editorial from yesterday, I have to say I think it was in poor taste to use such words as "power brokers," etc. And even as they indicate here, he has worked within the law and within the rules of the system. I'm certainly not opposed to changing

the system, that's why we're here and we do what we do. It angers me to see someone being criticized at this time when it goes on to indicate they have worked within the rules and have worked within the policies. If we don't like those, there's nothing wrong with changing them, but it does bother me a little bit.

As most of you know, Jim and I were on separate sides of campaigns a couple sessions back. He worked hard and I worked hard. The day after that election was over, that was behind us.

The last time I actually visited with Jim was at a Christmas party in his office, which he was very proud of. He had purchased a very historical home in Las Vegas and converted it into the offices of Joyce Advertising. It's a beautiful little home that used to belong to a former chief of police in Las Vegas. While he did not look healthy, he was very happy to be surrounded by friends on that particular day. I believe it was the next day he went into the hospital and never returned. I cannot say words fine enough about how he conducted himself in his business. He will be remembered. He has made his positive mark on Nevada, and I hope he is resting in peace. I know he is now.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I only knew Mr. Joyce for ten years. I can think of no greater compliment than to say that he was a "stand-up guy" and his word was his bond. You could do business with him on a handshake basis, no matter what that business would be. Many of us have expressed the bitter disappointment at certain editorial treatment of Mr. Joyce in the wake of his death. That is inappropriate, I believe, notwithstanding the First Amendment.

I'd just like to relate something that happened in my presence with Mr. Joyce. I had a series of interns when I first started in the legislature. They happened to be three young ladies from the University of Nevada in Reno, and they all had the same professor. I believe it was Professor Driggs, who left the impression that many of the lobbyists had horns. They were like the devil, perhaps. That's my interpretation, I'm not quoting Professor Driggs, a very fine professor, but he had a certain impact on these interns. I made it a habit to introduce those interns to Mr. Joyce, and he would come into my office and spend half an hour, sometimes an hour, just talking with them. That did two things: one, I think Mr. Joyce has three very strong supporters in this state now. As a result of those conversations, they have changed their perceptions. And it demonstrated another thing and that was his great love for students at the University of Nevada at Reno, and for education in general. I don't think it's possible to say enough nice things about this gentleman. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I, too, rise in support of ACR 25. I remember a few years back, Jim was pushing a bill to limit punitive damages that a jury could award. About that time there had been a large jury award in Las Vegas. In the neighborhood of a few hundred million, or something like that. I was kind of a novice and I thought well, if we cut that award down to maybe only ten percent, it would be a really good deal. I suggested the limit maybe should be about $20 million. Of course, this was much higher than Jim wanted, so after that he always called me his "$20 million cowboy." The other evening I was watching a TV interview, and Jim said something to the effect, "You know, I never get mad at a legislator because he's not on my side on a particular issue, because tomorrow he may be right with me." I think that says a lot for Jim Joyce. He was a gentleman and surely a lot of fun to be around. Thank you, Mr. Speaker.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I also rise in support of this resolution. I guess the great privilege of being here as a legislator is overshadowed every once in awhile by the greater privilege of being a teacher. I enjoyed Mr. Joyce because of his commitment to education and how highly he placed education in his view of the basic things of life that needed to be supported. I think that basic foundation, that child in him that never died, gave him the sense of being who he really was. He reflected that in all of his actions. He never lost that sense of excitement that comes from childhood, from education and from learning. As a teacher, I once asked him for some information to support my government class in dealing

with lobbyists, what they do, and he as a person who puts out campaign material. I was deluged with materials to support my classroom from a wide variety of sources that I would have never dreamed existed. He didn't care whether you taught in Clark County or whether you taught in Washoe County or if you taught in Esmeralda County. He cared about the process. His commitment to education, a life-long learning, is the kind of thing that we always need to keep in mind, and for that reason he will always hold a hallowed place in my heart. Mr. Joyce is a person that will truly be missed.

ASSEMBLYMAN GREGORY:

Thank you, Madam Speaker pro Tempore. I certainly haven't known Mr. Joyce as long as many of you in this body. I certainly didn't know him as well as the Speaker pro Tempore, but I must say that Jim always treated me with respect and kindness. I must tell you I expected something different of Jim. When I first campaigned, from what I read in the papers, I was quite frankly amazed at the man whom I met because of the way I was treated by him. When I heard of Jim's passing, something occurred to me, a good analogy that I thought of Jim. Many star athletes today are compared to the great athletes of years ago, and I think many lobbyists will be compared to Jim in the years to come, but I don't think any of them will ever fill his shoes. I think when most of us here are dead and gone ourselves, we will be forgotten, but I think the legend of Jim Joyce will live on in these halls forever. Thank you, Madam Speaker pro Tempore.

ASSEMBLYMAN TOOMIN:

Thank you, Madam Speaker pro Tempore. I rise in support of this resolution as well. I knew Mr. Joyce in a much different way than most of you here. I had the pleasure and honor of meeting Jim in 1983 when I signed him to a membership at the Las Vegas Sporting House where I was the manager at that time. I spent many a day and evening in the steamroom with Jim and talked about a lot of varied subjects, none of which were about politics. We talked about sports and a lot of other things.

I left the Sporting House in 1986. My wife and I bought a pool company. Jim, in August of that year, retained our company to take care of his swimming pool. There are many funny stories that I could relate to you with regard to his Doberman pinschers and my servicemen which almost culminated in several lawsuits.

In 1990 I decided to throw my hat in the political arena. At that point in time, Jim and I had become fairly good friends. We shared the same barber as Madam pro Tempore and I do now. We shared many conversations and listened to a lot of rumors and, again, we sat in that steamroom and talked about a lot of subjects. One day, as I said, I decided to throw my hat in the ring and told Jim I wanted to run for the county commission. He looked at me like I was crazy. He also told me that I didn't have a "Chinaman's chance" and that I wasn't suited for politics. Also, I would be much better off doing what I was doing. We talked many times after that.

As most of you in this room know, he supported my opponent in the primary during last year's election. Jim and I had many philosophical differences although we shared many of the same topics of conversation. We both enjoyed doing crossword puzzles and we obviously enjoyed working out quite a bit.

After the primary was over, I got a a phone call from Jim. He wanted to see me. I went down and talked with him and even though our philosophical differences remained in opposite directions, he supported my campaign and I respected him.

I only have one question. Jim, what do I do now? Thank you, very much.

ASSEMBLYMAN PERKINS:

Thank you, Madam Speaker pro Tempore. I rise in support of ACR 25. At first, I wasn't going to speak because I didn't feel worthy to speak on this topic for such a great person. The more I listen to the comments of this body, the more I understand that Jim stood for the little person of which I consider myself a member.

I had the opportunity to visit these halls during the 1987, 1989 and 1991 sessions and I watched Mr. Joyce work in the halls and I listened to people talk about him. All of them had high regards for him.

As many of you know, I am a very tall person but I always saw him standing at least a foot taller than I. The first time I met him was at the beginning of my campaign. He called

and we had a meeting. As the remarks by the minority leader expressed, he was an educator, not an intimidator. Well, my first meeting with Jim didn't help me. I was quite intimidated to come into his office the first time. My biggest worry was what was I going to say and what was I going to ask him. Those fears were allayed quite quickly as he did all the talking and put me to rest.

The contacts I had with Jim Joyce were always very good and his advice was always very solid. As I said originally, he stood for the little people. The little people of this state are those who are going to suffer the most by his passing. Thank you.

ASSEMBLYMAN PORTER:

Thank you, Madam Speaker pro Tempore. I rise in support of ACR 25. I don't know that I can duplicate the sincerity of your remarks nor the eloquence of the minority leader, but I don't mind saying that I have had a real short legislative career. Madam Speaker pro Tempore, it is getting kind of old memorializing people that I have served with and worked with.

It always brings me back to what Rodney King said in the context that, "Can't we all just learn to get along?" I've had the fiercest battles of my career with my distinguished colleague from District 26, Mr. Humke. At Mr. Kerns' funeral last year, we used that opportunity to shake hands. Mr. Humke and I now understand each other and that it is okay to agree to disagree. I think Jim Joyce stood for that concept more than any other lobbyist that I have had the opportunity to work with. It was okay to disagree with Jim. You may have run a risk of doing that in any number of ways but it was okay to disagree. There are so many people who work these halls and tell us things that we think we want to hear. The one thing about Jim, as everyone else has said, you always knew where he was coming from. The reason why Jim was successful was because he was effective and he told you straight up where he was and what he was going to do, but that it was okay to disagree.

To you and through you Madam Speaker pro Tempore, to my colleague from District 26, serving with you and him has taught me something, David. Thank you.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tempore. I guess because I have served here the longest, I have probably known Jim the longest because of the first session he came here in his relationship with the legislature. He epitomized belief in the State of Nevada. Jim always believed first in the State of Nevada. He was one of those threads from the old school. He attended the University of Nevada, Reno, and graduated from journalism with the thread that said that this is the great State of Nevada. That is what we are going to miss the most from him.

From my personal standpoint and my family, he was very close to my family. If I had a family problem, it was his problem. He always called to see if everything was okay. He and my wife traded political buttons for the last 15 years. All of a sudden, there would be a package in the mail with a big bunch of buttons that he had collected around the United States. She would send him another batch and they carried that on for many years, so the relationship is a great personal loss in our family.

You know, the resolution mentions Mark Twain. He is one of my idols, not just because I represent the Comstock and Virginia City, but because of the quips that have come from many years of reading his work. Had Jim stayed in journalism as a newspaper reporter, I think we, in a few years, would be reciting the quips that he gave to us on an individual basis. I think, had Jim stayed in journalism, he would be in history in the same relationship as Mark Twain is. I know that he is going to be standing up there over Mt. Davidson in Virginia City looking over us and saying, "Take care of my state."

Now if you don't mind, if you would rise, I would like to lead you in the Lord's Prayer in honor of Jim. Please recite with me:

> Our Father, who art in heaven, hallowed be Thy name.
> Thy kingdom come, Thy will be done on earth as it is in heaven.

Give us this day, our daily bread and forgive us our
trespasses as we forgive those who trespass against us.
And lead us not into temptation, but deliver us from
evil. AMEN.

Resolution adopted unanimously.

ASSEMBLYMAN DINI:

Madam Speaker pro Tempore and members of this body, I feel really inadequate to speak to you about this distinguished Nevadan who we have here with us today. I have had the good fortune of being associated with him in many different areas in the past 35 or 40 years. I don't want to admit to all that time.

He has always been an outstanding person in this state. If you knew him and watched his career, whether it was in highway construction or being the state engineer or being involved in water matters, the subconservancy district, anything in Washoe County had Ed Pine's name written all over it as he went along in life.

I had the distinct pleasure of serving with him and alongside of him in Masonry where he is recognized throughout the United States as one of the most outstanding Masons in our country. He serves high up in the national Masonry Organization. He has also had an outstanding career in supporting the Shrine Hospitals which are so great for our children. I think he has been on the board of directors of three Shrine Hospitals in his career.

At anytime in the history of the University of Nevada, if you want to look through the records, you see Ed Pine's name written in the University history. I think he served 20 years on the Washoe County School Board just as a sideline. You can see by his record that he has been a very busy man. He is one who has distinguished himself with honesty and integrity and doing the job for the people in our state.

I would like to commend and thank a great man, Ed Pine, for the wonderful career he has had. I can't believe that he is going to retire from everything, because he has been so active. We want to commend to him our highest honors and thanks for a job well done for the people in the State of Nevada. Thank you, Ed.

ASSEMBLYMAN MARVEL:

Thank you, Madam Speaker pro Tempore. I, too, rise in support of S.C.R. 12. Ed Pine is not only a great man but he is a living legend. I would say that he is an institution of citizenry and humanitarianism.

I have known Ed since I was an undergraduate at the University of Nevada. This is where Ed and I, like Speaker Dini, have worked throughout the years in our Masonic community. Ed, matter of fact, has been my sponsor for the Scottish Rites and the Shrine. As the Speaker indicated, Ed played an important part in the creation of these crippled children's hospitals. Now we have many burn centers. So you can see the Shrine does many great things for our young people. It is really a pleasure, Ed, that you are here to experience this memorial today because we just wanted to prove to you that the citizens of Nevada do love you and admire you. Thank you for being here.

ASSEMBLYMAN ERNAUT:

Thank you, Madam Speaker pro Tempore. I stand in support of S.C.R. 12, not only for Ed's outstanding career in public service but for my oldest playmate in my life, that is his granddaughter, Denise, who is about ready to make a fourth generation to this family. Ed has always been someone who has served his community well, as the rest of the other generations in his family have. I am very proud today to stand in support of S.C.R. 12. Thank you.

ASSEMBLYMAN ANDERSON:

Thank you, Madam Speaker pro Tempore. I also rise in support of this resolution. I have had the opportunity of dealing directly with Mr. Pine over several different issues relative to education. As a school teacher in Washoe County, I have always admired the board that he sat on and particularly Mr. Pine with his openness. Having worked in the buildings that he helped design for the last 22 years, I know that he is clearly a man who cares about the most valuable resources in our society, the children, and for that I support this resolution.

ASSEMBLYMAN DINI:

At this time I would like to introduce the people who have come with Ed, his wife, Mary Alice is over here and, of course, Ed, who is sitting next to me, and his granddaughter, Denise, on my right-hand side. Bill Norton is here. Bill Petty is back there. Ed Pine, Jr., and Jack Pine are sitting next to Mr. Marvel. Let's give them all a big hand for coming over.

ASSEMBLYMAN MARVEL:

For the education of these people, Ed Pine, Jr., was an all American center and linebacker at the University of Utah. I thought this would add a little background to the family.

ASSEMBLYMAN DINI:

With your indulgence, Madam Speaker pro Tempore, I would like to present this resolution to Ed and his family. Ed, on behalf of the members of the Assembly, it is my pleasure to do our half of the presentation to you for this memorable day. We hope you continue to do all the fine service you have done in the past especially with your brothers in Masonry.

Resolution adopted unanimously.

United States Senator Harry Reid delivered his message as follows:

MESSAGE TO THE LEGISLATURE OF NEVADA

SIXTY-SEVENTH SESSION, 1993

Madam President, Mr. Speaker, members of the Nevada Legislature, distinguished guests, fellow Nevadans.

It's really good to be home.

Robert Frost said, "Home is the place where when you have to go there, they have to take you in." For me home is something more; it's a place where when you go there with something on your mind, they not only take you in, they also take the time to stop and listen and think.

I've come here today with much on my mind and I want to share it with you today.

Recently, I met with President Clinton. He said something with which I think we all agree. He said, "Even those people who voted against me want me to succeed."

I've been in government a long time and I think there's a mood of solemn determination, the likes of which this nation hasn't seen since the Second World War. It's time to stop playing games, it's time to stop playing politics, it's time to start thinking of America, to look to her future, and to invest in her future.

If our constituents, the voters, are convinced that an honest effort is being made to put our nation on a sound financial basis, the American people are ready to give and to give up a great deal. They're willing to stand behind the President, indeed, to give more than he's asked.

But there has to be quid pro quo. The people are willing to give but in return they want a guarantee that real cuts are being made, that the federal government is really reducing spending. The people will sacrifice a great deal for the sake of future generations, but they want honest open budget reduction in return.

You see, the people will be heard. Ultimately, the people will prevail.

The good news is that the mortgage on our children's future is going to be reduced. Money will be freed for investment, decisions will be made by the market rather than by the government.

The bad news, things are going to be tight. For those in the states and cities who have gotten used to federal money, the pot's shrinking and more are competing for what's left.

Today, I want to talk to you about working together as Nevadans, not as Republicans, not as Democrats, not as liberals or conservatives, not as lobbyists or special interests, but only as Nevadans.

We must present a united front because you see, my friends, we'll be competing with 49 other states that are getting smart very, very fast. As Benjamin Franklin said to the other signers of the Declaration of Independence, "We're in it now and we must all hang together, for if we don't, we most assuredly will all hang separately."

In my 11 years in Congress I have always pointed with pride to the bipartisan approach of Nevada's congressional delegation. During that time, I went from being our state's sole Democrat in Washington to being now the senior Senator in a delegation in which Barbara Vucanovich now is the only Republican. Throughout that time one thing has remained constant. We have always worked together in Nevada's interest, and every member of the delegation has been involved.

This same bipartisan approach must govern our state's relationship with Washington. Today I'd like to discuss some problems which loom on the horizon; challenges we can meet successfully only if we resolve our internal differences so they can be answered with one voice, Nevada's voice.

The world is changing rapidly both in the balance of power and the balance of knowledge. These changes directly affect the welfare of the people of the State of Nevada.

The sudden collapse of the Soviet Union has convinced a majority of the Congress that nuclear testing is unnecessary. I disagree with that position, but it is a reality. We cannot ignore the very real probability that one day the Nevada Test Site will be closed to nuclear testing and that is a billion dollar impact on the economy of the State of Nevada.

For the past few years, I have been intensely exploring alternative uses for the site.

Along with Senator Bryan and Governor Miller, we recently attended a national conference in Los Angeles on the development of hydrogen as a fuel. We're trying to make the nation more aware of the potential of the Test Site as a place where solar and hydrogen energy can be developed. Next week, as part of that effort, I will be chairing hearings. These hearings will focus on the potential for developing solar-hydrogen energy at the Nevada Test Site. Fossil fuels you see are destroying our environment and our economy.

Our delegation is hopeful that Nevada, which receives more sunlight than any other state, can be at the leading edge of the new energy technologies proposed by this new administration.

The site is ideal as a research lab on hydrogen fuels, and as you know, it is already the location of a fuel spill facility. This year I will seek to place that facility under EPA jurisdiction. I believe that change in jurisdiction will help promote use of the Test Site as an environmental research laboratory. We must work to have the Test Site be part of the new military configuration. This could mean 10,000 jobs for the Nevada Test Site. We're qualified. I believe we deserve it.

These things are things that we can do. These are things the congressional delegation can do. But they're not enough and will not succeed unless we work together. And when I say we, I mean everyone in this chamber, indeed, everyone in this state. We must speak with one voice or we will not be heard.

Washington is a very long distance from here and we are a very small state. There are many other voices crying for the same piece of the pie. We must care enough about our state to work together; we must care enough to NOT care about who gets the credit.

In the Middle East they have a saying, "The enemy of my enemy is my friend." Let me turn that on its head. Our motto should be, "Any friend of Nevada's is a friend of mine," whether there's a D or an R after their name. We must all work together. Anything less will mean failure.

Let me direct your attention to the State of Idaho. When Idaho Falls National Engineering Lab was proposed as a site for a nuclear rocket program, the federal agencies charged with locating the program were flooded with contacts by Idaho legislators, mayors, chambers of commerce, as well as the governor and the congressional delegation from Idaho. The Air Force listened because the State of Idaho spoke with one voice. We must do the same.

This body and its leadership must work with us and with the governor to help diversify the Nevada Test Site. This is not a partisan issue. It is not a regional issue. It is a major economic question which has direct impact on the tax base of the entire state. We must work together or we will surely fail.

Another major economic question we must face together is the proliferation of gaming in America.

Make no mistake. I am not just talking about Indian gaming. We must stand in the forefront of the most stringent regulation of gaming and gamers both on and off the reservations.

This state has fought a long and often fierce war against corrupt and unsavory elements which flock to infiltrate any gaming industry. We have to run those people out of Nevada, and we work constantly to keep them out. It is a never-ending struggle.

There are some people now all over the country, there are always some, who think legalized gambling is the answer to their economic woes. They are being sold a bill of goods if they think for a moment they can enjoy the benefits without bearing the responsibilities that go with controlling any gaming industry.

Recent reports by the Department of the Interior show, for example, that millions of dollars have already been stolen from Indian gaming operations by unscrupulous operators. I am convinced that the information we now have is only the tip of the iceberg.

Senator Richard Bryan and I have been working in the Senate to build support for refinement of the Indian Gaming Act to preclude wholesale gaming in states that don't want it. I was largely responsible for the Act, and let me tell you now, it was not intended to give the tribes any more right to avoid law and regulations than any other citizen of any of the 50 states.

I believe tribes should have the same rights as non-Indian gaming operators, and, of course, they get a tremendous tax advantage under the terms of the Act. What they do not have a right to is to force gaming down the throat of a state like Arizona that doesn't want it simply because the state allows a lottery or horse racing. That was not the intent of the Act.

There have been and will continue to be strong efforts to check this proliferation, but we must face reality. As elected Nevada officials it is our job to act in the best interests of this

state, and those interests are no longer necessarily the same as those of all our gaming businesses. We must act accordingly to protect Nevada and the integrity of its chief industry, whether big corporations which push the spread of gaming like it or not.

None of us should ever forget that the greatest leisure-time location in the world, the world has ever known, is the State of Nevada. The ten largest hotels in the world are in Nevada. Year after year record numbers of tourists come from the world over to Nevada—not only to enjoy the bright lights of Las Vegas and Reno, but also to enjoy our national treasures like Lake Tahoe, Lake Mead, the Great Basin National Park, and the many burgeoning resorts like Wendover and Laughlin.

Our future, though, must look beyond gaming. This state is part of a tiny minority, only one of six states, without a science advisor to the governor, and I applaud Governor Miller's decision to create an Office of Science and Technology. I urge the Governor to place this most important position in the Office of Economic Development so Nevada can be best positioned to benefit from the estimated $750 million increase in technology funding we're going to see coming to the states from the Department of Commerce. We have to be smart and we have to act smart. The name of the game is competition, and we're in the race with every other state.

One area where this body could get so much for so very little is in funding the upgrade and operations of the $20 million supercomputer that I obtained for the University of Nevada at Las Vegas.

Frankly, that was one of my proudest accomplishments, and it has been instrumental in attracting some of the brightest scholars in America to the State of Nevada. Don't think that every university has a supercomputer; very, very few do. It is an incredibly valuable resource, and I urge you to invest in its upkeep. Nevada will reap so much from a small investment. The federal government has more than done its share.

Another valuable program is EPSCOR, the Experimental Program To Stimulate Competitive Research, now headed by our First Lady, Sandy Miller. EPSCOR seeks to bring Nevada along with the rest of the bottom third of the states into parity in competing for federal research grants. Under the program the federal government provides research funding and our University System provides the expertise. All you have to do is appropriate modest matching funds.

Keep in mind when you vote on that issue that it is estimated that for every dollar you invest, $60 circulates throughout the economy of Nevada.

I am working this year to secure additional funding—we secured funding last year, this will be the second year—for the Great Basin Biodiversity Initiative at UNR. That program links UNR with Stanford University to provide regional environmental expertise on the Great Basin which covers parts of seven states. This program is designed to avert in the future the kinds of problems we now have from the desert tortoise and goshawk. It will be assisted by a statewide advisory panel composed of academics, state and federal officials, environmentalists, mining and ranching communities so directly impacted by these environmental issues. The idea is to marry economic growth to preservation of natural resources. It is a marriage which can bear fruit for many generations to come, not only in Nevada but all over this country. Some identify, some scientists identify this program as the top scientific study in America today on the environment.

As I said earlier today, we must look to the future in all we do, and as I've also said, we must work and act smart, and as I have continually said today, we can only do that if we work together. I sit on the appropriations committee, and I have to tell you that funding for even the most urgent projects is going to be extremely difficult this year. The bottom line for Nevada is simple. Our state can no longer make requests for federal assistance or aid in a haphazard fashion and expect results. We must coordinate our efforts. Accordingly, I have asked the various entities including the University System, the Desert Research Institute—one of the world's premier scientific institutions—the Biodiversity Initiative, and UNLV's Environmental Research Center to create a coordinated plan of action prior to presenting federal funding requests. They've expressed a willingness to work together along these lines. This is a good thing, for as I began by saying, we must all hang together or we will most certainly hang separately. This is certainly the truth.

I cannot leave here today without discussing water. I'm proud of our successful efforts to resolve the Truckee-Carson water problem. We are now in the process of putting the finishing touches on the operating agreement to put the settlement into operation. I had a long and productive meeting earlier today with Pete Morros who is the expert, as you know, in these areas. It was a positive and constructive meeting. Remember, this Truckee-Carson River project that has been completed involves the Carson River, the Truckee River, Pyramid Lake, Tahoe Basin, Lahontan, the wetlands and much more. I cannot urge this body strongly enough to take no legislative action which could undermine the settlement. We will work with you to address realistic concerns about state water law, and I know we can reach agreement. This issue is too vital to our state's future to be approached in anything other than a most rational and comprehensive fashion. We are a small state. We speak with one voice or we simply won't be heard.

As a federal legislator, I can no more abdicate my responsibilities to create rational interstate water policy than I can ignore my general duties about the State of Nevada. It is that responsibility which mandates that I tell you today what the Bible has told us for centuries, "A house divided against itself cannot stand." We must do a better job communicating among ourselves and with other states along the Colorado River system. We must stop this internal squabble about water. We must cease useless competition between the Colorado River Commission and the Southern Nevada Water Authority. To do otherwise is directly contrary to the interest of the people of the State of Nevada.

If no other resolution is reached, it may be necessary for this body, the Nevada State Legislature, to resolve those issues. You may have to change this system which perpetuates controversy. If no more palatable solution arises, you must bite the bullet because we cannot afford to incur the ire of other western states in our search for water. And we certainly cannot afford to anger them by offering solutions which other states view as a violation of the law of the river. To do so is not only unfair, it is foolish for it invites the wrath of the very people with whom we must work to resolve our common problems.

I salute this body, the Nevada State Legislature, the Assembly and the Senate, for recognizing that tomorrow you will unitedly conquer with courage the serious issues affecting our state. You face a daunting task, but I know you will succeed.

Let me close with Ralph Waldo Emerson. He said, "Don't say things. What you are stands over you the while, and thunders so that I cannot hear what you say to the contrary." What we say will soon be forgotten, but how we deal with the problems facing Nevada will directly impact our progeny. Let us govern ourselves today so that our actions, and not our meager words, will thunder across the years to future generations of Nevadans. Thank you, very much.

Amend sec. 2, page 1, by deleting lines 20 through 24 and inserting:

"*5. "Value" has the meaning ascribed to "market value" as that term is defined in 12 CFR Part 34.42(f).*".

Amend the bill as a whole by adding a new section designated sec. 4, following sec. 3, to read as follows:

"Sec. 4. This act becomes effective upon passage and approval. The amendatory provisions of section 1 of this act are intended to codify the rule generally held to apply under current jurisprudence. The amendatory provisions of section 2 of this act which define "value" apply only to a complaint filed pursuant to NRS 37.060 on or after the effective date of this act, and are not intended to influence in any manner a proceeding related to a complaint which was filed before the effective date of this act.".

Representative Vucanovich delivered her message as follows:

MESSAGE TO THE LEGISLATURE OF NEVADA
SIXTY-SEVENTH SESSION, 1993

Thank you, very much. I appreciate the reception. It's good to be back in Nevada and to come before the Nevada Legislature again. From what I read in the newspapers you have your hands full, and I know the feeling so all I can say is, "Keep up the good work."

First of all, I have to tell you that there's a question I am asked frequently these days. People want to know if things have changed for me in Washington now that Bill Clinton is President. Some seem to think that just because there isn't a Republican in the White House, my quality of life has deteriorated. I have to tell you it was nice to have a Republican Administration that was concerned about the care and feeling of Republican members of Congress. Of course it's changed; of course it's a bit different. I have to spell Vucanovich when I call the White House. That, of course, is a change, but one that I can live with.

This is the sixth time I have had the honor of addressing a joint session of the Nevada Legislature, and it's very good to see so many friends like Sue Wagner and Joe Dini and Jake, and I'm not going to try to say who else in here. But I'm equally happy to see so many new faces.

You know, in Washington where change is about as rare as a budget cut, I have to tell you that we're not used to seeing so many new people in the House of Representatives. We have more than 100 new members, most of them young, fresh-faced, idealistic and full of grand plans for changing the way the federal government does business. As a legislator, I welcome and share their enthusiasm and their commitment to the people who elected them. As a Nevadan, I am encouraged by their desire to reduce the Washington bureaucracy and get the government back to the people where it belongs. And as an American, I

am hopeful that they can live up to the pledge that got many of them elected and that is to cut the federal deficit. However, as a conservative who has watched Congress in action, I am cautious about expecting too much too quickly.

You have all heard a great deal in the past few months about President Clinton's plan to change America, to revitalize an ailing and struggling economy. You've heard rosy words about the Clinton plan from my colleagues Jim Bilbray and Harry Reid. But as the only Republican member of the Nevada delegation, I have a responsibility to provide you with a little different view. My Democrat friends understandably aren't going to see things the same way I do, but I do have a responsibility to be as frank with you as possible. You know the responsibility of the party out of power is the loyal opposition. We all want the best for the country and we all want our nation to prosper and move forward. Selfishly, my primary concern is for the great State of Nevada, and quite frankly as I review what Mr. Clinton wants to do for our country, I am a little bit alarmed.

The President says he wants a "New Direction" for America—he wants to reduce the deficit—he wants to create jobs—he wants to increase productivity and raise our living standards. He asks Americans to invest in the future, to pursue the American Dream. And he asks for sacrifice. Candidly, my fellow legislators, the only sacrifice I see in the plan comes at the expense of the working men and women of Nevada. Look out America, because without as much as even trying to cut federal spending, President Clinton plans to reduce the deficit with the largest tax increase ever seen in this country.

Just let me tell you how I see his plan impacting Nevada. I don't have to tell you that historically and economically, Nevada has had a close relationship with mining. A healthy minerals industry is part of our state's tradition. And whether or not you are a supporter of mining, you can't disagree that the industry makes significant economic contributions to the state. But I am sorry to tell you, and most of you probably know, that the Administration proposes to place a 12½ percent royalty tax on gross proceeds of mines on public lands. The impact on Nevada would be devastating. The President's tax plan would simply destroy over half the mining jobs in Nevada. They are among the highest paying in the state—and the secondary jobs created by the industry would be in equal jeopardy. I must say, if you're out to create new, high paying jobs, it seems rather odd to tax to death a job creating industry like mining.

Let's look at other pending Administration proposals from Nevada's perspective. Mr. Clinton proposes to place user fees for grazing on public lands. A University of Nevada study has estimated that severe increases in federal grazing fees could cost Nevada ranchers millions in lost income. You can also guess that more jobs would be lost.

Another concern from Nevada's view, our beautiful state attracts tourists from all over the world and a good many Nevada families depend on the dollars that flow from these welcome visitors. Well, President Clinton intends to stop this flow in not one, but two ways. One, by changing the business meal and entertainment tax deduction from 80 percent to 50 percent. Is this an incentive to spend money doing business? I think not and I submit it is a disincentive that will keep businesses out of our hotels, convention centers and restaurants. Established jobs are at risk and new job creation would be all but dead. Two, the President also proposes an energy tax. Travel to our state becomes more expensive when gas is 7.5 cents per gallon higher. If you're flying, watch out because the BTU tax will add from ten to 15 cents per gallon to the cost of jet fuel. Who pays? The ticket buyer, and when she says enough is enough, Nevada loses one more customer. It's clear that the consequences are lost jobs. Is that good for Nevada? I don't believe so.

Most of the Nevadans I talk to tell me that the American Dream doesn't mean paying more taxes. They believe sacrifice begins with the government. If we are ever going to reduce the deficit, we simply must reduce federal spending. And so far, I'm disappointed that President Clinton doesn't see it that way. If he should see the light, I have a great place for him to start—a sacrifice Nevada would make—stop spending the $400 million scheduled to be spent this year at Yucca Mountain. What a great way to reduce the deficit!

I want to make it clear that I support the need for change, and I hope that we achieve President Clinton's goal of reducing the deficit. I just don't think it is clear enough to the President that the fat in the federal government is in the federal government, and not the taxpayer's wallet. My preference would be for the federal government and the federal

legislature to take the same kind of responsibility for their actions as you take. You all are wrestling with issues that will affect our state for decades, like SIIS and state spending. And when you leave here this year, you will have accomplished something. Traffic may slow down at times, but there is no gridlock in Carson City. That is an example that more members of Congress should take, especially those new colleagues whom I mentioned earlier.

As you can see, the plate is full in our Nation's capitol, but there are many other issues that will be of interest to you. I've already talked about Mr. Clinton's impact on mining, but to elaborate a little bit more, Congressional reform of the 1872 Mining Law is underway and there is real reason for concern. At a hearing I recently held on the issue, Secretary of the Interior Babbitt heard an earful about the devastating effects of the 12½ percent royalty and the dramatic land use changes. These changes would make it totally impractical for mining companies to mine in Nevada. As you may know, I invited the President to come to Elko to see our first-class mining operations for himself. Unfortunately, he has declined. I'm going to ask Secretary Babbitt next. Nevertheless, I will be working with Senators Reid and Bryan to make sure that we have reasonable reform and that that does take place.

Additionally, on April first, I will introduce a bill which will designate areas of the Toiyabe National Forest in Nevada and the El Dorado and Tahoe National Forests in California as the Lake Tahoe Basin National Forest. I believe the lack of national forest identification for the Lake Tahoe Basin continues to cause confusion among the public and those involved in administering policies in this area. There will be no change in current multiple-use management practices.

A growing consensus in Congress makes it likely that the earnings limitation for social security recipients will be raised. Why must we continue to shelve our most precious national resource—our seniors. We came close to passing this legislation last Congress, and I am optimistic for this year.

Seeing that the Clinton Administration wants to lower the deduction for business expenses, I introduced a bill to bring the deduction back to 100 percent. We simply must continue to grow our Nevada economy and this deduction is very important.

Additionally, you are all aware of the moratorium on nuclear testing. I intend to hold hearings this May in Nevada, and bring together our finest scientific minds, industry and labor, to discuss how best to bring about new uses for the Nevada test site. The realities of a post cold war world make it imperative that we usher in a new age at this world's greatest outdoor laboratory. We continue to keep the peace—now let's build on that successful record and keep this proud facility a leader in technological advancement.

This Congress will address the confusion rampant with Indian gaming. The first week of March, five governors, including Governor Miller, urged Interior Secretary Bruce Babbitt to settle growing disputes between state and tribal casinos. Secretary Babbitt said he will continue to seek out a consensus to which all can agree. I wish him well, but I say clarify the 1988 Act. It's for the good of all.

As Nevada grows, your delegation is united in pushing to get rid of the source income tax this year, and we will work toward passage of Representative Bilbray's Spring Mountain National Recreation Area Act.

Of course, there's much more, but let me close by saying how much I enjoy these biennial opportunities to visit with you. We are all Nevadans, regardless of party, and there is much that we can accomplish by working together. As I said in the beginning of my talk, my criteria for actions that we take in Washington is, "Is it good for Nevada, and then is it good for our country?" I will continue to use those guidelines while I am your representative.

Thank you again, and I look forward to seeing you back here again in two years.

WHEREAS, Dorothy B. North moved to Elko, Nevada, in 1977; and

North upon receiving the well-deserved "1993 Capitol Focus Award" and commend her for her dedication to helping others in the fight against alcohol and drug abuse; and be it further

Remarks by Assemblymen Price, Carpenter, Ernaut and Evans.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I was looking for Dorothy. I thought she was going to be here. To remind those of you who may have forgotten, tonight we are going to be roasting Dorothy beginning at 6 p.m. at a special function at the Carson City Nugget.

Dorothy is a very fine little lady. Unfortunately, she is on crutches because of illness. She has been lobbying for the various causes and working here in Nevada since 1977 on various issues as indicated in our resolution. She is a very fine lady.

Of course, she is special to me. Some of you who have been here for the last couple of sessions will recall her singing on the last night along with me. She is an excellent country music singer. We got to talking, and come to find out, she is from southern California. We were singing at some of the same clubs in the Los Angeles area back in the 60s.

She is very deserving and has worked very hard, particularly in the last few years with her appointment as chairman of the commission working on drug rehabilitation. I would urge you to support this resolution and, also, to come over for a couple of hours of fun tonight when the Speaker, myself, some of the Senators and various other people will be on the panel roasting her.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. For those of you who don't know Dorothy, you are going to miss something in your life. I was on the county commission when we hired Dorothy to be director of the alcohol and drug abuse program in Elko. That was way back in 1977. At that time it wasn't really socially accepted, especially in Elko, to be for alcohol and drug treatment programs. We were just used to rolling the cowboys out of the bars at night and then we would roll them back in the next evening. We didn't have much treatment. Anyway, Dorothy came to the commissioners. We had been trying for many years to find someone to do our program for us because there was another cowboy on the commission with me and we understood alcoholism. We thought we should get a treatment program going. We didn't have too much luck with two or three treatment people, but when Dorothy came along, she really turned the program around.

What always impressed me about Dorothy was that she said, "I'm just an alcoholic, but I am recovering." Then she would proceed to tell me all of the things that happened in her lifetime. I just want to say that Dorothy is an inspiration to anyone who has had problems with alcohol or drug abuse. There is no one who works harder to try to bring the more unfortunate people of our society back into the main stream. Thank you.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution

No. 32. I have known Dorothy North since I was very young. In fact, she was the Democratic Chairman of Elko County the entire term my mother was the Republican County Chairman, so obviously we had quite a few dealings with Dorothy.

On a professional level, Dorothy, as my colleague from Elko alluded to, was much more than a political figure. She was someone who worked very hard in alcohol and drug rehabilitation. Having a very dear friend, probably my dearest friend in the world, go through that and having to change his life around, I know that it really does work when someone cares. When someone cares, like Dorothy North, to go to a rural town such as Elko, and go right into the lion's mouth on some of these things where people tend to look the other way when rural kids get into trouble, to take that on and succeed, is testament to such a fine lady. I wish she was here today so that I could tell her that. It will suffice to say that I support this resolution. Thank you.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I am delighted to rise in support of A.C.R. 32. Dorothy has a statewide presence. She has argued persuasively for the people that she serves in those programs. It has been difficult for her in recent years because so much money has been put into interdiction and law enforcement to the detriment of the treatment programs. Dorothy has been the leading figure in Nevada to try to turn that around. Congratulations, Dorothy. We hope she keeps up the good work.

Remarks by Assemblyman Humke.

Assemblyman Porter requested that Assemblyman Humke's remarks be entered in the Journal.

Thank you, Mr. Speaker. In the words of University of Nevada President, Joe Crowley, "Count Dandini was very much a fixture for many, many years as a professor and as a supporter at the University. He was a man of tremendous breadth of wisdom and had a genuine devotion to the University."

A Reno businessman, whom many of you in northern Nevada know, Bruno Benna, first met Count Dandini in 1947 when Benna attended the University. He was very impressed with him as a fantastic professor and a beautiful dresser. He additionally said, "He was stylish, good-looking and he epitomized the masculine perfection."

Additionally, Mr. Speaker, as the resolution states, Count Dandini was a renaissance man practicing many professions, the highlight of which, in my opinion, was that he held 22 patents. Significantly, he was the 1980 Inventor of the Year. Most significantly, Mr. Speaker, in 1989, he was the Italian Man of the Year for Nevada. I do impart this resolution to you. Thank you.

Resolution adopted unanimously.

Assemblyman Arberry moved that the Assembly recess subject to the call of the Chair.

Motion carried.

Sec. 4. NRS 616.2233 is hereby amended to read as follows:

616.2233 The system shall cooperate with the commissioner in the performance of his duties pursuant to this chapter, and shall provide the

commissioner with any information, statistics or data in its records which pertain to any employer [who is making application to become self-insured, or] who is self-insured.

Sec. 5. NRS 616.291 is hereby amended to read as follows:

616.291 1. An employer may qualify as a self-insured employer by establishing to the satisfaction of the commissioner that the employer has sufficient administrative and financial resources to make certain the prompt payment of all compensation under this chapter or chapter 617 of NRS. *The commissioner shall require evidence that the tangible net worth of the employer is at least $5,000,000 before the commissioner certifies an employer as self-insured or renews the certification. The commissioner shall, by regulation, annually increase or decrease the amount of tangible net worth required by this section in an amount corresponding to the percentage of increase or decrease in the Consumer Price Index (All Items) published by the United States Department of Labor for the preceding year. If the tangible net worth of an employer becomes less than the amount required by this subsection, the commissioner shall revoke the employer's certification.*

2. A self-insured employer must, in addition to establishing financial ability to pay, deposit with the commissioner a bond executed by the employer as principal, and by a corporation qualified under the laws of this state as surety, payable to the State of Nevada, and conditioned upon the payment of compensation for injuries and occupational diseases to employees. The bond must be in an amount reasonably sufficient to ensure payment of compensation, but in no event may it be less than 105 percent of the employer's expected annual incurred cost of claims, or less than $100,000. In arriving at an amount for the expected annual cost of claims, due consideration must be given to the past and prospective experience of the employer with losses and expenses within this state, to the hazard of catastrophic loss, to other contingencies, and to trends within the state. In arriving at the amount of the deposit required, the commissioner may consider the nature of the employer's business, the financial ability of the employer to pay compensation and his probable continuity of operation.

3. In lieu of a bond the employer may deposit with the commissioner a like amount of lawful money of the United States or any other form of security authorized by NRS 100.065. If security is provided in the form of a savings certificate, certificate of deposit or investment certificate, the certificate must state that the amount is unavailable for withdrawal except upon order of the commissioner.

4. The required deposit may be increased or decreased by the commissioner in accordance with chapter 681B of NRS and his regulations for loss reserves in casualty insurance. If the commissioner requires an employer to increase his deposit, the commissioner may specify the form of the additional security. The employer shall comply with such a requirement within 30 days after receiving notice from the commissioner.

5. The commissioner shall require the self-insured employer to submit evidence of excess insurance to provide protection against a catastrophic

loss. The excess insurance must be written by an insurer authorized to do business in this state. The commissioner shall consider the excess insurance coverage as a basis for a reduction in the deposit required of an employer.

6. The account for self-insured employers is hereby created in the state agency fund for bonds. All money received by the commissioner pursuant to this section must be deposited with the state treasurer to the credit of the account for self-insured employers. All claims against this account must be paid as other claims against the state are paid.

Sec. 6. NRS 616.291 is hereby amended to read as follows:

616.291 1. An employer [may qualify] *who was previously certified* as a self-insured employer [by establishing] *must continue to establish* to the satisfaction of the commissioner that the employer has sufficient administrative and financial resources to make certain the prompt payment of all compensation under this chapter or chapter 617 of NRS. The commissioner shall require evidence that the tangible net worth of the employer is at least $5,000,000 before the commissioner [certifies an employer as self-insured or] renews the certification. The commissioner shall, by regulation, annually increase or decrease the amount of tangible net worth required by this section in an amount corresponding to the percentage of increase or decrease in the Consumer Price Index (All Items) published by the United States Department of Labor for the preceding year. If the tangible net worth of an employer becomes less than the amount required by this subsection, the commissioner shall revoke the employer's certification.

2. A self-insured employer must, in addition to [establishing] *maintaining proof of his* financial ability to pay, *maintain on* deposit with the commissioner a bond executed by the employer as principal, and by a corporation qualified under the laws of this state as surety, payable to the State of Nevada, and conditioned upon the payment of compensation for injuries and occupational diseases to employees. The bond must be in an amount reasonably sufficient to ensure payment of compensation, but in no event may it be less than 105 percent of the employer's expected annual incurred cost of claims, or less than $100,000. In arriving at an amount for the expected annual cost of claims, due consideration must be given to the past and prospective experience of the employer with losses and expenses within this state, to the hazard of catastrophic loss, to other contingencies, and to trends within the state. In arriving at the amount of the deposit required, the commissioner may consider the nature of the employer's business, the financial ability of the employer to pay compensation and his probable continuity of operation.

3. In lieu of a bond the employer may deposit with the commissioner a like amount of lawful money of the United States or any other form of security authorized by NRS 100.065. If security is provided in the form of a savings certificate, certificate of deposit or investment certificate, the certificate must state that the amount is unavailable for withdrawal except upon order of the commissioner.

4. The required deposit may be increased or decreased by the commissioner in accordance with chapter 681B of NRS and his regulations for loss

reserves in casualty insurance. If the commissioner requires an employer to increase his deposit, the commissioner may specify the form of the additional security. The employer shall comply with such a requirement within 30 days after receiving notice from the commissioner.

5. The commissioner shall require the self-insured employer to submit evidence of excess insurance to provide protection against a catastrophic loss. The excess insurance must be written by an insurer authorized to do business in this state. The commissioner shall consider the excess insurance coverage as a basis for a reduction in the deposit required of an employer.

6. The account for self-insured employers is hereby created in the state agency fund for bonds. All money received by the commissioner pursuant to this section must be deposited with the state treasurer to the credit of the account for self-insured employers. All claims against this account must be paid as other claims against the state are paid.

By the Committee on Ways and Means:

Assembly Joint Resolution No. 26—Proposing to amend the constitution of the State of Nevada to clarify the exemption from the debt limitation of money borrowed to retrofit state buildings to make the use of energy in the buildings more efficient.

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 3 of article 9 of the constitution of the State of Nevada be amended to read as follows:

Sec. 3. The state may contract public debts; but such debts shall never, in the aggregate, exclusive of interest, exceed the sum of two per cent of the assessed valuation of the state, as shown by the reports of the county assessors to the state controller, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein; and every such law shall provide for levying an annual tax sufficient to pay the interest semiannually, and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the state, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the state in time of war, or, if hostilities be threatened, provide for the public defense.

The state, notwithstanding the foregoing limitations, may, pursuant to authority of the legislature, make and enter into any and all contracts necessary, expedient or advisable for the protection and preservation of any of its property or natural resources, or for the purposes of obtaining the benefits thereof, however arising and whether arising by or through any undertaking or project of the United States or by or through any treaty or compact between the states, or otherwise [.] , *including contracts for the retrofitting of state buildings to make the use of energy in the buildings more efficient.* The legislature may from time to time make such appropriations as may be necessary to carry out the obligations of the state under such contracts, and shall levy such tax as may be necessary to pay the same or carry them into effect.

Senate Concurrent Resolution No. 19.

Assemblyman Gibbons moved the adoption of the resolution.

Remarks by Assemblymen Gibbons, Anderson, Marvel and Dini.

Assemblyman Petrak requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GIBBONS:

Thank you, Madam Speaker pro Tempore. It gives me a great deal of pleasure today to rise in support of this resolution. Among other things, Procter Hug, a former Sparks teacher, principal, superintendent of schools, and ultimately the superintendent of Washoe County Schools was literally an icon in the eyes of the people of Sparks. I know my family directly revered Procter Hug and held him in the highest esteem.

His contributions to the children, to the welfare of the citizens of Nevada, literally, is legendary. I think that it goes without saying that no single individual contributed as much of their individual time, energy and talents as Procter Hug did to the improvement, if not the betterment of not only our community, but our state. Procter Hug was a compassionate individual. He was compassionate to all people. He cared about education. He cared deeply about the children and their future. In fact, in doing so, he spent 39 years of his life dedicated to the future of the children of this state. He worked hard for Nevada.

He became one of Nevada's most respected legislators. While he served on the other side of the hallway, he spent eight years over there as a senator dedicating those eight years for the betterment of the State of Nevada.

Even in his later years, Procter Hug contributed greatly to this community. He became the chairman of several committees including the Senior Citizen's Center. Through his hard work, dedication and effort, he was able to secure public funding for many community projects such as the Senior Citizen's Center, the swimming pool in northeast Reno, in fact, they did name a high school after him for his efforts as an educator.

Let it not be said that for all that Procter Hug was, for all that he contributed to the community, for all that he stood for, Procter Hug probably took the greatest joy from his family. He was a devoted husband and father. He was a compassionate man in his community and that compassion was merely a reflection of the love that this man had for his family. Many of his family are here today. I will introduce them later. His love for his wife and children simply mirror what he did for this community.

This state, especially the citizens of Reno, Sparks, and Washoe County have benefitted greatly from the work of this man. I think all of us in this state, in the communities of Reno and Sparks, are going to miss him greatly. He was a great Nevadan. I urge your support for this resolution.

ASSEMBLYMAN ANDERSON:

Thank you, Madam Speaker pro Tempore. I rise in support of this resolution and echo the comments of my esteemed colleague from Assembly District 25. There are few words that can be said about Procter Hug that Mr. Gibbons has not already expressed.

I know as a young man growing up in the City of Sparks, I held three people in highest regard relative to education. The number one name on that list was indeed Procter Hug, Tip Whitehead, his long time friend and Kathryn Dunn. To me those three people epitomized what education is. It is those role models I chose to look at and it is those role models that are clearly exemplified by their fine son, Procter Hug, Jr., sitting there and his great dedication to the bench, and the young gentleman who sits with me here. Mr. Gibbons is going to later introduce him, who also has a long history of service, and is starting on an esteemed history for this state. Their dedication is only a reflection of those examples set by Procter Hug, Sr.

ASSEMBLYMAN MARVEL:

Thank you, Madam Speaker pro Tempore. It is really quite an honor for me today to rise in support of S.C.R. 19. I have had the pleasure of knowing the Hug family, I hate to admit it, for about 50 years. I would say that the Hug family is truly one of the greatest families in the State of Nevada. Of course, I got to know Procter Hug, Sr. quite well when I was going to the University of Nevada. I had the pleasure of being able to induct Procter, Jr. into the ATO fraternity.

Truly, I think what made Procter a great man was the wonderful, lovely lady he married, Margaret. She is one of the finest ladies I have ever had the pleasure of knowing. I think you people are most deserving of this resolution in memory of Procter, Sr.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tempore. I guess I have to say Procter and I crossed paths many times in the last 50 years, starting out in athletics, when Sparks used to thrash Yerington 40-0 every time we played.

He indicated his interest in education as superintendent of schools in Washoe County by the contributions that he made to these bodies, and by the expertise he had in operating school districts. In politics, as a senator, he was an outstanding member of the Senate. He had a great working relationship with us in the rural counties because we had known each other for many years. He exemplified the humanitarian aspects of having been a member of the Masonic Lodge and the Shrine in Reno. He was an average guy who could talk to anyone in all walks of life. I was just a kid coming out of nowhere. He treated me like we were equals, and we weren't. I will never forget the kindness he always extended to us.

We would like to offer our condolences to the family on behalf of all of us. We know it is a great loss to you. It is also a great loss to the entire State of Nevada.

Resolution adopted unanimously.

REMARKS FROM THE FLOOR

Assemblyman Price requested that Assemblyman Kenny's remarks be entered in the Journal.

Thank you, Madam Speaker pro Tempore. I know that it is not usual or customary to discuss elections, campaigns and such. I have a special instance I would like to bring up.

As many of you know, my three very most loyal campaign workers are my three children, Stephanie, Thomas and Patrick. They did all the things that most adults hate to do like paper clipping and stuffing envelopes. They did a wonderful job and they did it very happily. Soon after the election, my husband and I got to talking and realized with the size of District 4 growing so rapidly, our three little campaign workers were not going to be enough. So, we went home and started working on that problem. It is with great pride today that I announce that come the end of this summer, campaign worker number 4 will be born to the Kenny family.

Thank you, Mr. Speaker. To the PTA, approximately two weeks ago, we adopted a concurrent resolution which I would like to read to you and present to your president.

We would like to welcome all of you here. As my colleague stated, too often we do not have enough of the public sector here in our chambers. There are times when we have children up in the gallery saying the Pledge of Allegiance with us, and it changes the focus. Sometimes, we forget that the people behind those kids are you. You should be commended for your commitment to education. Thank you, very much.

Roll called.

Prayer by the Chaplain, The Reverend David Camp.

This morning let us join together in a moment of silent prayer in memory of Jerry Thran whose funeral service is taking place this hour. We do this in respect to his widow, Joan Thran, long-time Senate Committee Secretary for Senator Jacobsen.

Lord, You constantly remind us how temporal is our earthly existence. Grant to us Your power to fulfill Your will and make our lives consequential for good in our homes, our communities and our state.

Lord, make us so disgusted with our shallowness that we shall pray sincerely this morning for a new spirit and new attitudes. Then shall our prayers mean something, not alone to ourselves, but to others. To You be the glory. AMEN.

Pledge of allegiance to the Flag.

Assembly Bill No. 89.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 86.

Amend the bill as a whole by deleting section 1 and adding new sections, designated sections 1 through 5, and the text of the repealed section following the enacting clause, to read as follows:

"Section 1. Chapter 202 of NRS is hereby amended by adding thereto the provisions set forth as sections 2, 3 and 4 of this act.

Sec. 2. *As used in sections 2, 3 and 4 of this act, unless the context otherwise requires:*

1. "Dangerous animal" means an animal of the canine or feline family which:

(a) The owner knows or reasonably should know has a propensity, tendency or disposition to attack unprovoked, cause injury or otherwise endanger the safety of persons or domestic animals.

(b) Is owned or harbored primarily or in part for fighting.

(c) Is trained for fighting.

(d) Makes an unprovoked attack that causes injury to a person, if the attack occurs in a place other than the place where the animal is confined on the owner's premises.

The term does not include an animal which is used exclusively for agricultural purposes or which attacks a person who is or appears to be trespassing upon the premises of the animal's owner. An animal is not a "dangerous animal" solely by virtue of its breed or species.

2. "Injury" means a puncture of the skin, laceration, broken bone or any injury which results in the victim's death.

3. "Owner" means a person who owns or has custody or control of the animal.

Sec. 3. *1. It is unlawful to own a dangerous animal which is not registered as such with the sheriff of the county in which the owner resides. A sheriff shall not accept an application for such a registration unless it is accompanied by evidence of liability insurance in a face amount of at least $50,000 which insures the owner for personal injuries inflicted by the dangerous animal. Upon receipt of the application, evidence of insurance and any applicable fee set by the board of county commissioners, the sheriff shall issue a certificate of registration for the dangerous animal and provide the owner of the animal with a metal tag as evidence of registration. The tag must be attached to a collar or harness worn by the dangerous animal at all times. Such a certificate must be renewed annually.*

2. Except as otherwise provided in this subsection, it is unlawful for the owner of a dangerous animal to allow the animal to be unconfined on his premises. The provisions of this subsection do not apply to an animal which is on patrol in a secured area and was supplied by a dog handler licensed pursuant to chapter 648 of NRS.

3. It is unlawful for the owner of a dangerous animal to allow the animal to go beyond the boundaries of the owner's premises unless the animal is safely restrained. If a dangerous animal goes beyond the boundaries of the owner's premises and injures or causes the death of a person or a domestic animal, the owner is rebuttably presumed to have allowed the animal's unrestrained activity.

4. A law enforcement officer who has probable cause to believe that a person has violated the provisions of this section may petition a court of competent jurisdiction for an order to seize and impound the animal during the pendency of criminal actions against the owner.

5. Unless a more severe penalty applies, a person who violates the provisions of this section is:

(a) For the first offense, guilty of a misdemeanor.

(b) For the second or subsequent offense, guilty of a gross misdemeanor.

6. If a dangerous animal causes the death of a person, the owner shall be punished by imprisonment in the state prison for not less than 1 year nor more than 6 years, and may be further punished by a fine of not more than $5,000.

7. If a dangerous animal attacks a person or domestic animal, the court may order the dangerous animal to be destroyed if the court determines that the dangerous animal represents a continuing threat of serious harm to persons or domestic animals.

8. A person who is found guilty of violating the provisions of this section shall pay all expenses ordered by the court which relate to the violation, including, but not limited to, expenses for shelter, food, veterinary care, and, if applicable, destruction of the dangerous animal.

9. The penalties provided in this section do not preclude the victim from seeking any other legal remedy available.

10. As used in this section, "unconfined" means not confined securely:

(a) Indoors; or

(b) Outdoors in an enclosed and locked pen or run which is:

(1) Clearly marked as containing a dangerous animal;

(2) Designed to prevent the entry of the general public, including children; and

(3) Designed to prevent the escape or release of the animal.

Sec. 4. *1. If a person who is lawfully on the premises of the owner of a dangerous animal is the victim of an unprovoked attack by the dangerous animal or witnesses such an attack, he may use reasonable force to repel or stop the attack. The person is not liable for damages resulting from action taken to repel or stop an unprovoked attack or to restrain or control the dangerous animal.*

2. As used in this section, a person is "lawfully on the premises" if he is there:

(a) In the performance of a legal duty;

(b) By invitation, expressed or implied; or

(c) In the performance of a duty relating to public health or safety.

Sec. 5. NRS 202.500 is hereby repealed.

TEXT OF REPEALED SECTION

202.500 Unlawful to keep vicious dog. It shall be unlawful for any person to own or keep any vicious dog. If any person shall own or keep a vicious dog, and such dog shall injure any person, the owner or keeper of the dog shall be guilty of a misdemeanor.".

SIGNING OF BILLS AND RESOLUTIONS

There being no objections, the Speaker and Chief Clerk signed Assembly Bills Nos. 52, 65; Senate Bills Nos. 73, 80; Senate Concurrent Resolution No. 20.

REMARKS FROM THE FLOOR

Assemblyman Anderson requested that Assemblyman Hettrick's remarks be entered in the Journal.

Thank you, Mr. Speaker. I rise today to address a lingering problem in this Honorable Assembly. You see, Mr. Speaker, there seems to be some doubt as to whether or not I qualify for the infamous Cowboy Caucus and Hall of Fame of this body. That doubt lingers despite the fact that I live in rural Douglas County; and despite the fact that I ran a ranch and feedlot some 30 years ago; and despite the fact that I owned and operated a company for some 20 years that manufactured supplements for horses and cattle; and, most importantly, despite the fact that I own 320 acres of scrubby sagebrush land in Elko County that is the poorest of any poor cattle ranches out there. So, I appear before you today, Mr. Speaker, appropriately on April Fool's Day, wearing my own cowboy hat, my own silver, custom made belt buckle, which I would be happy to show all of you close up as it is beautiful, and my cowboy boots which I won't bother to raise so you can see them. I offer the following cowboy poem which appears to be appropriate from the actions of Mr. Carpenter, whom I regret is not here today to really enjoy this and to see if I cannot satisfy the qualifications.

The cowboy is as proud a cuss
As ever you will meet,
And specially fastidious
About his dainty feet.
He figgers that they wasn't made
To walk upon a heap,
Like those of men that wield a spade
Or herd a bunch of sheep.
That's maybe why the high-heeled boot
He wears at work or play,
Sometimes will cost this proud galoot
Purt near a whole month's pay.

He'll short himself on trips to town,
And pass up payday pleasure
To lay a wad of money down
For new boots made-to-measure.
He'll have the tops dolled up a bit,
With fancy stitchin' in,
But mainly they have got to fit
His feet as tight as skin.
It's lucky he's a man of brawn,
Of rawhide strength and muscle,
For pullin' tight boots off and on
Takes plenty tug and tussle.
'Died with his boots on' is a phrase
That rings through western hist'ry,
But if you know the cowboy's ways,
That surely ain't no myst'ry,
They died with boots on, day or night—
I do not wish to scoff—
Because—sometimes—they were so tight
They could not git them off!

Thank you, Mr. Speaker.

Remarks by Assemblymen Gregory, Price, Sader, Humke, Freeman and Smith.

Assemblyman Sader requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GREGORY:

Thank you, Mr. Speaker. Your Judiciary Committee worked very hard on this piece of legislation. They heard extensive hearings in joint committee with the Senate, both in Las Vegas and here in Carson. I would like to commend all of them for their hard work. In addition, you should know that the Trial Lawyers Association and District Attorneys from around the state worked hard on the legislation to ensure that this bill would be constitutional.

I was lucky enough to have my stalking bill come out. There were many in here, during the last campaign, who worked hard on this issue and worked with their constituents. Many of you came to me and told me about constituents you had worked with. Mr. Price had a stalking bill. I know Mr. Garner worked on a stalking bill and there were others. There are a lot of people in this chamber, and both houses, that deserve a lot of credit for this. I believe it is a piece of legislation that is long overdue and urge passage. Thank you, Mr. Speaker.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I repeat congratulations to the committee because the committee had worked very hard on this whole subject matter. I am very pleased to see it as a lot of our members have moved over to the Senate. I am sure it will have the same results there.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. I have a short statement to make for the record clarifying legislative intent of the Judiciary Committee, interpreting the language that exists on lines 11 through 14 on page 2 of the first reprint. This language defines "without lawful authority" which is a portion of the definition of the crime which would be stalking without lawful authority and that definition, and I am quoting, "includes acts which are initiated or continued without the victim's consent and acts which are not otherwise authorized by specific constitutional or statutory law, regulation or order of the court of competent jurisdiction."

We heard quite a bit of testimony on the potential abuses of this law with an expansive definition. The term "without lawful authority," is meant to encompass the concerns of the people who testified and others who do have lawful authority for what they are doing. In that category would be such people as process servers, those who repossess vehicles, private investigators and most particularly the press. When we say, "not authorized by

specific constitutional or statutory law," we are excluding people and we intend to exclude people from the definition of stalking who have a profession or duty or a right to be doing what they are doing because the law permits it with lawful authority.

This business of the press is perhaps most important. Abuses have occurred in the past where members of the press were arrested when they were trying to do their job to gather the news or to report. The Constitution protects this activity, and we mean to include that in the term, "not otherwise authorized by a specific constitutional or statutory law." That includes protecting the press and their rightful authority to seek the news and to speak or follow people or attempt to acquire information from individuals in their lawful pursuit of their first amendment rights.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in support of this bill. I, too, had a stalking bill that was in the process of being drafted at the request of a constituent. I think it is a much needed area and I would commend the Judiciary Committee for the hard work they have put in on this bill. I hope it withstands court challenges. I think that they have worked enough that it should be able to, but I do have a question of either the chairman or the chief sponsor. That question has to do with page 2, lines 5 and 6. My area of concern is with the last few words on line 6, "or any other labor dispute." I am concerned about how narrowly drawn that is because a citizen visited me and stated that they had a stalking situation which came about as a result of an employment situation gone sour. Since this person did not wish to testify for obvious fear, that is about all I can say. I am curious as to whether this last phrase has to do with organized labor disputes or with more standard disputes, hirings and firings and that sort of thing. Thank you.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. To you and through you to our representative from District No. 26, that is a real good question and one that perhaps needs some further explanation. This term as it is defined relates only to picketing, picketing which occurs during a strike, work stoppage or any other labor dispute. Now in relation to picketing activities, often times there are what is called informational picketing, which may not be defined or at least some could define it as not a full scale labor dispute. However, it is included in picketing activity, but only picketing activity.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I didn't have a bill on this issue but I wish that I had. I wanted to thank the sponsor of the bill and the committee for their hard work. I, myself, have been stalked. Thank you.

ASSEMBLYMAN SMITH:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 199. I had the misfortune or the privilege of hearing the testimony on it and it was really horrible. There are no words to describe the victims that came before us and sat there trembling, and I mean are reduced to nothing but trembling in their daily lives. There was concern, I think on all the victims part, of the depth that we take this issue. I am sure for those victims that there is no legislation strong enough for the perpetrators of this crime. However, we now have a mechanism with which to prosecute these people. There is a definition on the books and we have a means with which to go after these people. I am very grateful for that. I urge you to support it.

SECOND READING AND AMENDMENT

Assembly Bill No. 138.

Bill read second time.

The following amendment was proposed by the Committee on Government Affairs:

Amendment No. 188.

Amend the bill as a whole by deleting sections 1 through 3 and adding new sections designated sections 1 through 9, following the enacting clause, to read as follows:

"Section 1. Chapter 484 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

Sec. 2. *"School crossing zone" means those sections of streets not adjacent to school property that pupils cross while following a designated walking route to school.*

Sec. 3. *"School zone" means those sections of streets which are adjacent to school property.*

Sec. 4. NRS 484.013 is hereby amended to read as follows:

484.013 As used in this chapter, unless the context otherwise requires, the words and terms defined in NRS 484.0135 to 484.217, inclusive, *and sections 2 and 3 of this act* have the meanings ascribed to them in those sections.

Sec. 5. NRS 484.366 is hereby amended to read as follows:

484.366 1. A person shall not drive a motor vehicle at a speed in excess of 15 miles per hour in an area designated as a school zone except [on] *:*

(a) On a day on which [or during the hours when] school is not in session [.] *;*

(b) During the hours when school is not in operation; or

(c) If the zone is designated by an operational speed limit beacon, during the hours when the pupils of the school are in class.

2. *A person shall not drive a motor vehicle at a speed in excess of 25 miles per hour in an area designated as a school crossing zone except:*

(a) On a day on which school is not in session;

(b) During the hours when school is not in operation; or

(c) If the zone is designated by an operational speed limit beacon, during the hours when the pupils of the school are in class.

3. The governing body of a local government or the department of transportation shall designate school *zones and school crossing* zones. An area must not be designated as a school zone if imposing a speed limit of 15 miles per hour would be unsafe because of higher speed limits in adjoining areas.

[3.] *4.* Each such governing body and the department shall provide signs [for] *to mark the beginning and end of* each school zone *and school crossing zone* which it respectively designates.

5. As used in this section, "speed limit beacon" means a device which is used in conjunction with a sign and equipped with two or more yellow lights that flash alternately to indicate when the speed limit in a school zone or school crossing zone is in effect.

Sec. 6. NRS 484.3665 is hereby amended to read as follows:

484.3665 1. Each permanent sign which designates a school zone *or school crossing zone* and the speed limit in that zone must [be uniform in] *:*

(a) Meet or exceed all applicable federal standards regarding size and color *;* and [must clearly]

(b) Clearly designate the hours during which the speed limit applies.

If the regularly posted speed limit on the street is 30 miles per hour or more, each such permanent sign in a county whose population is 400,000 or more must be 3 feet by 4 feet in size.

2. Each portable sign designating a school zone *or school crossing zone* and the speed limit in the zone must be uniform in size and color. A portable sign may be placed beside a roadway only during those hours when pupils are arriving at and leaving regularly scheduled school sessions.

3. This section does not prohibit the use of automatic traffic-control devices in school zones *or school crossing zones* in lieu of permanent or portable signs.

Sec. 7. NRS 268.425 is hereby amended to read as follows:

268.425 The city council or other governing body of each incorporated city, whether incorporated by general or special act, shall cause to be displayed, in each school zone *and school crossing zone* where the city has posted a speed limit, signs *or other devices* designating the hours of the day or night or both during which the [school zone] speed limit *in the zone* is to apply.

Sec. 8. NRS 269.185 is hereby amended to read as follows:

269.185 1. In addition to the powers and jurisdiction conferred upon the town boards or boards of county commissioners by this chapter, such boards [shall have the power:

(a) To regulate] *may:*

(a) Regulate traffic upon the streets and alleys of towns or cities governed by such boards pursuant to this chapter.

(b) [To regulate] *Regulate* the speed, parking, stopping, turning and operation of all motor vehicles and other vehicles using the streets and alleys.

(c) [To pass] *Pass* and adopt all ordinances, rules and regulations, and do and perform all acts and things necessary for the execution of the powers and jurisdiction *conferred* by this section . [conferred.]

2. The town board or board of county commissioners shall cause to be displayed, in each school zone *and school crossing zone* where the county has posted a speed limit, signs *or other devices* designating the hours of the day or night or both during which the [school zone] speed limit *in the zone* is to apply.

Sec. 9. 1. This act becomes effective on July 1, 1993.

2. Notwithstanding the amendatory provisions of section 6 of this act, each local government and the department of transportation, as applicable, shall replace any nonconforming existing sign with a conforming sign on or before July 1, 1994.".

"An Act relating to traffic laws; revising the provisions regarding speed limits in school zones and school crossing zones; and providing other matters properly relating thereto.".

Assemblyman Giunchigliani requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. To you and through you, Mr. Speaker, there has been quite a bit of misunderstanding and confusion on this bill. Opponents have said that in some way Assembly Bill No. 253 erodes the sovereignty of states' rights in general and Nevada's rights of control specifically. To allay those fears, I would say this bill merely allows the National Guard to participate in multistate law enforcement projects, not facilitate them. That is exemplified by some of the testimony given in the Government Affairs Committee by Major Comstock of the Nevada National Guard. He said, "We are not in competition with any law enforcement agency" and this is speaking of the Nevada National Guard. "Our entire guideline is based on the concept of support. A bona fide drug law enforcement agency comes to us and asks us for support. In coordination with the Nevada Department of Investigations, we provide things that they would not ordinarily have, soldiers, weapons, sophisticated night vision systems, and so forth. We provide them with training, but never act independently. We do not arrest people. We do not seize confis-

cated equipment or contraband. We do not transport prisoners unless there is a law enforcement agent with us, and we would never initiate a law enforcement agent with us, and we would never initiate a mission. I am prohibited from doing anything which even looks like that. We're simply there to support bona fide agents."

A.B. 253 does not erode our government or sovereignty of this state. It merely acts as another tool available in the aggressive and ongoing war against drugs. Thank you.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. To you and through you to the previous speaker. I received some of the calls. I just wanted to clarify one other question that had been raised because I think your other ordinance specified it. There was something about the Governor's delegating his authority to call up the National Guard. If I look at this I think article 5 cleans that up, but there is no effect on that.

ASSEMBLYMAN ERNAUT:

To you and through you, Mr. Speaker. Basically the Governor does not lose control merely because the National Guard soldiers in their duty are in another state. They come under control of the other Governor for that period of which they are in that state. It has to be initiated from the Governor. It has to be asked for by another law enforcement agency. It is still implemented through the Governor's office.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. Perhaps we could have the remarks entered in the Journal so that they are clear as to what the intent of this legislation was.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. First of all I wish to rise to give notice that I am a member of the National Guard but this does not in any way affect me any differently than any other member of the National Guard and, as such, I will be voting for this measure.

By way of explanation, Mr. Speaker, I would also like to add what we do in the National Guard when there is a request from a federal agency such as the Department of Drug Enforcement is to coordinate our effort using the resources and aircraft of the Air National Guard to go out, and, for example, fly to California to photograph what may be an area of illegal drug growth in the State of California. We use those resources to provide that asset to them, and as such, this is necessary to coordinate that effort with the California law enforcement agencies who may then later on interdict that growth of marijuana or whatever it may be in California or wherever it is in any other state. We do have a vast arrangement with many other states right now to where we provide the resource of our National Guard for that purpose. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I guess for the record, I am never sure if I have a conflict but my wife is a member of the Air National Guard. I will be voting on this but I still haven't decided how.

I have to admit I have some concerns about this. My colleague from Carson City, what the Guard will not be doing, and my colleague from Reno indicated some of the things the Air Guard has provided which makes me wonder why a compact is needed. For example, if we already have the ability to do flights in California or other states using the expertise that our Air Guard has and the equipment, which we heard in Ways and Means maybe the last of the units that are actually performing that type of service, I would like to know what are they going to do physically? The National Guard has always been called out, I guess, for national or state emergencies, occasionally on riots, floods and so forth. We know that there have been some unfortunate things happen that were very high profile and I am going back thinking to that one regretful time when students at the University of Ohio were killed during riots, were shot by guard members. They are not peace officers, I don't think, although, the oath that they take to uphold the laws in the Constitution is similar to our officers. I would like to know exactly what are they going to do if they are going to, for example, provide backup for a drug bust; why wouldn't they become involved in shooting incidences or would they have the power to arrest, and the peace officer then comes to mind.

I am not too sure on the transitory language at the beginning of the bill. I presume it is transitory, article 1, where it talks about purpose. It says on lines 11 and 12, "Drug interdiction," that I understand. "Counter-drug and demand reduction activities," I am not sure what demand reduction activities means.

ASSEMBLYMAN GARNER:

Thank you, Mr. Speaker. To my colleague from Assembly District 17, there is probably no way I can answer all the questions that you raised concerning this bill. I can tell you, first of all, with one question you raised is the one concerning whether the National Guard is already doing some of this kind of thing, and they are, which brings us to the position where we are today. They are saying that they need this law in order to legalize what they have been doing and enter into a compact with Arizona, California and other states who may want to enter into this compact and provide resources to each other, in trying to reduce the availability of drugs and all the activities surrounding that. There was no opposition to this bill in committee and it passed out of our committee with unanimous support. I don't believe it takes anything away from the Governor in the terms of his ability to participate in this program. I believe it is an added resource and capability provided to law enforcement upon the invitation only of law enforcement to bring them into these activities. To reiterate again, it doesn't give arrest or confiscation powers or anything like that at all. This is a program that the Governor wants and supports in his battle against drug abuse. It will provide to the State of Nevada a rather large array of very sophisticated equipment that can be used for this purpose. Some of the money that comes to the National Guard is used in our DARE program. To my colleague from Assembly District 17, I just don't see anywhere in here that there is a problem. I know that concern has been raised that it is a national police force. I think there are protections in the law that answers those concerns.

When you talk about the first section of the bill that said, "NRS is hereby amended by adding thereto a new chapter to consist of the provisions set forth as sections 2, 3 and 4," I think what they are really saying is that this is a law they need, they don't have on the books and it will assist in the counter-drug activities that go on in this state. Thank you.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. To you and through you to my colleague from District 17. One specific question he raised on demand reduction. I think you will find the definition of that in a policy or administrative statement. Demand reduction speaks to supply and demand as the demand for drugs. It has nothing to do with the reduction of crowds or anything like that. It is supply and demand.

ASSEMBLYMAN AUGUSTINE:

Thank you, Mr. Speaker. To you and through you to Mr. Gibbons. I voted for this bill in committee and now we have had several questions that have been raised regarding the sovereignty of the state. I know Ms. Giunchigliani asked a question of Mr. Ernaut regarding the same thing but it didn't seem to quite clarify it. Once our National Guard has left the State of Nevada, they are no longer under the jurisdiction of Governor Miller. Would they in fact be under the jurisdiction of the governor of California or Arizona or wherever they are going or do they come under the jurisdiction of the federal government?

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. To you and through you to my colleague from District 12, the issue is one of jurisdiction whenever a request for the service of the state militia is used out of state. Under federal statute, if the Guard is called up for an act that the President wishes, then it comes under the federal jurisdiction and he has plenary authority. The problem we have here today is when an agency of another state wants to utilize the resources and services that are provided by or in the possession of say the Nevada Guard for a California event. In that situation, it is my understanding and I could be wrong, but the Guard resources that are used in California still remain under the resource demand of the Governor of the State of Nevada. They do not transfer at that point to the Governor of California, if that is the example. To answer the other question, the Governor still has the authority to call them up in any time of crisis or emergency. It would be my understanding that one of jurisdiction in this matter remains with the state unless those assets are in fact

transferred by some official act of the Governor to that state then they would become a part of that governor's responsibility. In most of these cases it is merely a transitory training event wherein we have used a joint compact to effect the ability to take those Guard resources and jointly use them on some drug interdiction case. They still remain under the jurisdiction of the state and the governor under which they are domiciled, if that is the word you want to use. Did that answer your question?

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Chairman. In part to support Mr. Gibbons' contention, I might point out to my distinguished colleague from the south that the Nevada National Guard traditionally trains out of the state since there are very few facilities within this state that provides them the opportunity to conduct their summer or two-week training exercises within the State of Nevada.

As a former member of the Nevada National Guard, I can well testify to the fact that the jurisdiction of the Governor of the State of Nevada does indeed extend beyond this state. His jurisdiction goes with the National Guard wherever it happens to be. The Air National Guard of this state travels extensively throughout the world carrying out its mission and duties and the jurisdiction of the Governor is extended to those training exercises there. I think that this particular piece of legislation does bring forth some questions about sovereignty but one that in the current confinement of our society is well needed. I rise in support of this meritorious piece of legislation.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. To you and through you to the Chairman of Government Affairs, when the troops are in another jurisdiction who absorbs the cost of those troops being in either California or Arizona when they are on assignment?

ASSEMBLYMAN GARNER:

Thank you, Mr. Speaker. To my colleague from Assembly District 41, it is my understanding that these costs are costs that the State of Nevada has already agreed to. There are no additional costs to the State of Nevada for their participation in these programs.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. If I may, to you and through you, add a supplement to what my colleague from the south has just added with regard to cost. Let me state that often times there is a requirement for additional support from one of these states. At that point in time, the state requesting the Guard unit would provide or make allowance for payment for those services if they are indeed in addition to those that have already been agreed upon and settled by the state having control over that unit. For example, if the DEA agency wants the Air National Guard of Nevada to undergo a mission that is not within our normal activities they provide the additional funds to pay for that.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 22.

Assemblyman Freeman moved the adoption of the resolution.

Remarks by Assemblymen Freeman and Haller.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. Barbara Bennett and I came to Reno in the same year, in 1964. We didn't meet until the late 1970s during our political activities. I was very impressed by this lady, her integrity and honesty. Her sense of fairness made her a very unusual and wonderful person to know. When she ran for Reno City mayor, she was seen as sort of a dark horse. No one knew who she was but she ran a grass roots campaign, the type that had not been seen before. She won by an overwhelming majority and was so well loved by her constituents and by everyone in the community. She was revered, respected and was probably one of the better mayors in the City of Reno.

ASSEMBLYMAN HALLER:

Thank you, Mr. Speaker. Mary and John were really great people. I worked with Barbara quite a lot with the Democratic Party. I would have to say that she was one of the best workers we ever had in Washoe County. I would have to qualify what I just heard. I think without a doubt she was the best mayor that Reno has ever had and probably the best mayor Reno could possibly have.

Resolution adopted unanimously.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, April 8, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolutions Nos. 23, 24.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 23.

Assemblyman Ernaut moved the adoption of the resolution.

Remarks by Assemblyman Ernaut.

Assemblyman Porter requested that Assemblyman Ernaut's remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and through you to this esteemed body, I have the honor of presenting two resolutions honoring a legendary Reno family. In fact, the two people we are going to be honoring today have over 166 years of combined residency in this state. I will begin with Senate Concurrent Resolution No. 23, memorializing Jeanne Thornton.

Every century or so, a special person comes along who dedicates their life to the service of their community. Jeanne Thornton was such a person. Her selfless efforts on behalf of women's and children's groups served as a strong voice for the advancement of their causes.

Among her many projects, she was president of several organizations such as the Babcock Kindergarten Mothers' Club, Doten School Mothers' Club, Sigma Nu Mothers' Club, Reno United Parent Teacher Association, Children of the American Revolution, the Holcomb Chapter National Colonial Dames of the 17th Century, National Society of Daughters of the American Revolution and so on. She was a person that gave of herself. It gives me a great deal of pleasure today to support Senate Concurrent Resolution No. 23 memorializing such a legendary humanitarian and an acting mother of many other than her own family.

Jeanne Thornton is to be remembered as someone who gave of herself far beyond the call of duty. Nevada should be proud to call Jeanne Thornton one of her own.

Resolution adopted unanimously.

Senate Concurrent Resolution No. 24.

Assemblyman Ernaut moved the adoption of the resolution.

Remarks by Assemblyman Ernaut.

Assemblyman Porter requested that Assemblyman Ernaut's remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and through you, as all of us know, water and agriculture are Nevada's most precious resources. It took the foresight and vision of pioneering people like Clarence Thornton to plan and manage those resources so that all of us may enjoy the pristine beauty of this state as well as utilize those resources for business and recreation.

As an 86-year resident, Clarence Thornton distinguished himself as a leader, a humanitarian and a great citizen of Nevada. To that extent, he was honored with many awards such as Distinguished Alumnus of the University of Nevada Reno in 1978 and Reno's Distinguished Nevadan in 1982.

It is with great sorrow that we speak of Clarence Thornton's passing, but with great pride and reverence that we honor him today. To the members of this body, I would say that this resolution memorializing Clarence Thornton serves as a testament to our own endeavor to not seek to follow in the footsteps of the men of old, but to seek what they sought.

Resolution adopted unanimously.

Assemblyman Sader moved that the Assembly recess subject to the call of the Chair.

Motion carried.

Assembly in recess at 11:43 a.m.

Assembly Bill No. 123.
Bill read third time.
Remarks by Assemblyman Freeman.

Assemblyman Freeman requested that her remarks be entered in the Journal.

Thank you, Mr. Speaker. Assembly Bill No. 123 is a product of the interim study of hazardous materials.

During the interim study, it became apparent that the PSCN's issuance of a permit to transport radioactive waste is a duplication of a permit required by the Nevada Highway Patrol Division. This bill eliminates the burden of a transporter having to obtain two different permits for the same activity.

The PSCN expressed support for eliminating the duplication, provided that the commission retains the responsibility to determine, before any permit is issued, whether the carrier is "fit, willing and able" to perform its duties as outlined in Chapter 706 of NRS. Assembly Bill No. 123 makes it clear that the PSCN retains the fitness and suitability review of the applicant for a permit to transport radioactive waste. The Transportation Division of the PSCN will verify the fitness and suitability of the carrier and so advise the Nevada Highway Patrol before the relevant permit is issued.

Roll call on Assembly Bill No. 123:

YEAS—42.

NAYS—None.

Assembly Bill No. 123 having received a constitutional majority, Mr. Speaker declared it passed, as amended.

Senate Concurrent Resolution No. 26.

Assemblyman Sader moved the adoption of the resolution.

Remarks by Assemblymen Sader, Price and Mr. Speaker.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. Mead Dixon was a very distinguished and prominent lawyer in northern Nevada, indeed, in all of Nevada. During his lifetime, he became a major partner in the law firm of Vargas, Bartlett and Dixon, as it was known at that time, and which was certainly a distinguished firm in the northern Nevada area.

Mr. Dixon was a very close, personal friend of William Harrah. He became, not only a lawyer, but a close business associate in the affairs of Harrah's. After Mr. Harrah died, he became the executor of Harrah's estate and became the Chairman of the Board of Harrah's. Here, I think, is where Mr. Dixon's life became more than that of just a prominent Nevadan. It became intertwined with the essence of affairs in Nevada in a very important way, and one that I think we should remember.

We have gone through a transition in this state in the last 20 years from small gaming establishments run by very dominant individuals, such as William Harrah, to an industry which has public corporations dominated by large corporations and has really become

more of a business than a personal extension of an individual. Harrah's is such a corporation now. A corporation that has made that transition and was the first to make the transition to a public corporation. Mead Dixon ushered that era through, and I think, he holds the rank as a farsighted and perceptive individual seeing the trends in business, in the gaming industry and bringing that corporation to a new level. I think he has to be considered not only a pioneer of modern gaming but somebody who all of us in Nevada need to remember and thank for his ability to deliver a strong economy for the future for all of us.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 26. I personally had the greatest respect for Mead Dixon. He was the attorney for the Dairy Commission when I was first elected. One of the first duties I was assigned was an interim study dealing with that commission. At that time, I had no idea of Mead's connections or friendship with William Harrah or anyone else for that matter. He was an extremely warm person, interested in Nevada and certainly a fine citizen. He was a pilot and he continued that, I suppose, throughout his life.

I recall that the commissioner, the executive director of the commission, told me he thought Mead was some kind of friend of William Harrah. He made the statement the gamers really appreciated and thought highly of Mead Dixon. As my knowledge grew of our state and of our gaming operations, and of Mead, I came to realize that he certainly was a person of high standards. Over the years, from time to time, I talked with Mead about various problems and ideas that I had. I used him as a sounding board. I saw him not too long before he died. I was very saddened, as many Nevadans were, on hearing of his death. I think this resolution is very appropriate and I am glad that we are considering it.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks.

Thank you, Mr. Price. With the permission of the house, I would like to say a couple of words. I knew Mr. Dixon very well. I met him in the 70s at a lunch with Bill Harrah for a mutual friend that both of them had, Al Figone, who was a slot route operator in Reno. We had lunch together and we were friends ever since then.

Mead Dixon was a great Nevadan. He was dedicated to the state and that is the thing that I think is important. He always put the state first in his goals. It was certainly a pleasure in my life to have known Mead Dixon.

Resolution adopted unanimously.

Assemblyman Anderson requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DE BRAGA:

Thank you, Mr. Speaker. Assembly Joint Resolution No. 19 seeks to amend the Nevada Constitution in order to protect the financial stability of the Public Employees Retirement System. To accomplish this, the state constitution will be strengthened in four respects: PERS will be prohibited from making loans to the state or investing in obligations of the state; the constitution will declare that the system must be governed by the Retirement Board; the executive officer of the system will continue to serve at the pleasure of the Retirement Board; the Retirement Board will continue to employ an independent actuary and adopt actuarial assumptions based upon the recommendations made by the independent actuary. This resolution was unanimously passed by the Government Affairs Committee.

ASSEMBLYMAN HELLER:

Thank you, Mr. Speaker. I rise in support of Assembly Joint Resolution No. 19. At the beginning, I would like to give some thanks to my colleague from Churchill County. I believe she deserves a lot of credit for this particular bill. She had a similar bill in committee. We worked very closely on it. She took a bipartisan bill that was a good government bill and let it maintain itself as a good government bill. I give the same credit to the Chairman of Government Affairs.

The steps that were taken on Assembly Joint Resolution No. 19 in the field of public pensions are very bold and aggressive in maintaining the health of this particular system. We learned in committee that over a third of the retirement systems in the other states are facing some serious financial problems. The provisions in Assembly Joint Resolution No. 19 are some of the same provisions other states are trying to enact after having had some serious financial problems. I think it is important to understand that systems rarely fail because of financial problems. Most of these systems are failing because of political manipulation and, for this reason, I urge my colleagues to support Assembly Joint Resolution No. 19.

Assemblyman Dini moved the adoption of the resolution.

Remarks by Assemblyman Dini.

Assemblyman Porter requested that Assemblyman Dini's remarks be entered in the Journal.

Madam Speaker pro Tempore and members of the Assembly, Herb Rowntree was a great man in his day. I know he served in this chamber five terms, from the 1950s to 1961. Because of reapportionment, he decided not to run at that time. Lyon County had two assemblymen and then they were delegated down to one in the 1961 reapportionment.

Although, he was a Republican, he was a very good supporter of mine. He got me interested in water law. Herb was one of the smartest people there was when you talked

about water law in the State of Nevada. Over the years, after I got elected, I always went to see Herb about a bill if I thought it was controversial and how it affected farmers' water rights.

Every year, when they had the Republican Lincoln Day dinner, he sold me the first two tickets. It was a regular ritual. Believe it or not, he was in the chicken and turkey business. Can you believe in Yerington that they raised chickens and turkeys? It is hard to believe today that that was in the 30s and 40s. It was quite a business.

He excelled in this legislature. He was a great parliamentarian. I sought his advice many times on parliamentary procedures. He was Secretary of the Senate for two terms after he left the Assembly.

His involvement in the community was as a longtime Rotary member. Herb was a good family man, a man who was respected by everyone in the community and throughout the state. He was known throughout the state because of his knowledge, the things he did in the legislature and the things that he did in the Republican party.

It is my pleasure to have the family here today. In a minute, I will introduce them. His loss is a great sorrow to all of us. It is a great loss to the entire State of Nevada. I hope you will concur in the resolution.

On behalf of the Assembly and Senate, I would like to present this resolution to Elsie. It expresses our deep sorrow and our thoughts to the family from all the members of the Assembly. Thank you for coming.

Resolution adopted unanimously.

Assemblyman Dini moved that all rules be suspended, and that Assembly Concurrent Resolution No. 41 be immediately transmitted to the Senate.

Motion carried unanimously.

Madam Speaker pro Tempore announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

Remarks by Assemblyman Heller.

Assemblyman Petrak requested that Assemblyman Heller's remarks be entered in the Journal.

Thank you, Mr. Speaker. The purpose of this resolution is twofold. First, an act of this nature would provide more assurance to Western state voters that their vote really counts both nationally and locally. Admittedly, studies conducted for the major television networks have purportedly found that the present region time staggered voting reporting system only impacts the national vote approximately one percent. However, even that one percent voter dropoff can significantly spell the difference in a closely contested state and/or local election.

Two, if the enacted provision were also to include weekends, Saturday and Sunday voting, or a national holiday, as is done in many Western European countries, perhaps our national voter turnout would increase from the bare mid-50s to the high 60s and even 70s as the percentage of American voter participation, which by the way, is the common percentage of voter turnout in numerous European democracies. I urge support of Assembly Joint Resolution No. 23.

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 27.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 27.

Assemblyman Augustine moved the adoption of the resolution.

Remarks by Assemblymen Augustine, Humke and Mr. Speaker.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN AUGUSTINE:

Thank you, Mr. Speaker. Today at 1:30 p.m., the new Reynolds School of Journalism will be dedicated at the University of Nevada, Reno.

It is unfortunate that Mr. Reynolds did not live to see his dream come true, but his dream will live on with Nevada's young people who will be the recipients of his dedication to the profession of journalism.

Starting out as a paper boy in Oklahoma City, through hard work, gumption and a little luck, Mr. Reynolds became a highly respected and successful businessman. He was the epitome of the American dream and leaves a legacy that will live on forever in the minds of young Nevada journalism students who are fortunate to be the beneficiaries of the Reynolds School of Journalism. Hopefully, they will also inherit Mr. Reynolds' spirit of never forgetting the value of a good education.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I had the opportunity to meet Mr. Reynolds. He was truly an inspiration. This is really an Horatio Alger story. He was a person who literally did start as a paper boy and became one of the legendary publishing magnates and entrepreneurs of this country. He is represented here by two of the finest newspapers, I think, that exist in this part of the country. Thank you, very much.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks:

I visited the new building last night. It is a tremendous asset for the University of Nevada, Reno and for the whole system. It is really a beautiful building.

Resolution adopted unanimously.

The Committee on Escort escorted the Senator to the rostrum.

Mr. Speaker welcomed Senator Bryan and invited him to deliver his message.

Senator Bryan delivered his message as follows:

MESSAGE TO THE LEGISLATURE OF NEVADA
SIXTY-SEVENTH SESSION, 1993

Madam President and Mr. Speaker, it is an honor to be here this morning. Fellow members of the Legislature, members of the Supreme Court and my fellow Nevadans. Some 24 years ago, I was privileged, as each of you are, to sit as a member of this body. I recall how eagerly I awaited the message from Washington in those years, and I know how anxious you are to hear from me today. In full recognition of this and with appropriate humility that only my fellow Nevadans can remind me of, let me "cut to the chase" as they say and talk about the issues and visit with you a little bit.

We are currently debating in the nation's capital, two macro-economic issues; that is the national economic strategy for the future of the country and what we're going to do about health care. Overriding the discussions about the economic strategy for the future is a national debt that is out of control. It is my view that in Washington, a poor job has been done in cutting expenses and that is why I believe, just as each of you and Governor Miller are subject to a constitutional limitation in terms of your own ability to appropriate funds.

There are so many programs, whether we're talking about the program which is a search for martians in outer space or we're talking about a market promotion program that over five years provides a billion dollars to some of the largest companies in America to supplement their advertising expenses, all with taxpayer dollars, or whether some of the programs which may indeed have merit, but yet we simply cannot afford them; the kind of choices that you're required to make each and every session the Nevada Legislature convenes. The space station. It may be desirable, but its long-term costs are about $130 billion when you calculate the operational outlays. The superconducting supercollider started out at about a $3–$4 billion project. Today we're looking at $11 billion. Star Wars are the programs that have to be reduced substantially, and in come cases, eliminated if we have any hope at all of getting our budget back into perspective.

The health care debate that we are all part of at the national level has affected the deliberations that each of you have been involved with. Whether it is the Medicaid budget or the problems that you face with SIIS, the exploding health care cost is an impact felt by every Nevadan. Let me just tell you the consequences if we do nothing, as some have suggested. Today we're spending about $875 billion in terms of annual health care costs. If we do nothing by the turn of the century, that number goes to $1.8 trillion. There is no way that either we or you can deal with that type of an explosive situation.

One particular aspect of health care that has caught my attention is the cost of prescription drugs affecting the elderly in our society. In the past decade, the costs have gone up by about 142 percent. That is three times the national rate of inflation. For example, a medication such as Adavan, which is a very popularly prescribed medication, that would cost $7 for 100 tablets in Canada, costs those in the United States an average of $48. Some of you may have seen a television special by Peter Jennings fairly recently where they talked about a particular heart medication that an individual went to Mexico and bought a year's supply for $700. The cost of that identical medication here in the United States, the same supply, was some $3,500. So clearly, we need to get a handle on the health care cost explosion in America.

Let me turn now to some Nevada issues that are of concern to all of us. We've had some success, as has been noted, with respect to the original OMB proposals on grazing and mining fees. The President, I think, has prudently recognized that those numbers were not driven by economic reality, and he has said in effect, "Look, we will put together the framework for discussion and negotiation as to what type of fee increases each of those two critically important industries must bear." That does not mean that we are out of the woods, but it does mean that economic reality, rather than the demands of the Office of Management and Budget, will dictate the parameters of that discussion.

Indian gaming has been discussed by others who have preceded me, but that's an issue that is of critical importance to us in Nevada. And we cannot forget, although we are fortunate not to have been impacted by any of the recommendations of the base-closing commission, we in Nevada may very well benefit by that consolidation with some additional transfers of personnel into our own state. But Nevada is potentially impacted by the changing political climate in the world, a climate which is decidedly less threatening

from a nuclear holocaust perspective than what we lived with for nearly a half a century during the cold war. The Nevada test site, something of concern to each of us as we look to the long term as to what potential exists beyond the period of any test ban that may go into effect in 1996. We've been talking about hydrogen, we've been talking about solar, and the possibility of above-ground simulators, the cost of which may range from $1 billion to $1.5 billion and the potential of hiring several thousand people who would be performing essentially the same kind of responsibilities that for nearly a half a century have been performed at the Nevada test site.

We, in Congress, must undertake reform itself. The Warren Commission is looking at a number of ways we can improve the manner in which we operate. A few aspects are of particular interest to me. We have tens of thousands of lobbyists in Washington, D.C., who are not registered. The lobbying legislation needs to be strengthened considerably. We have an exodus after every administration, Democrat and Republican, people that have represented agencies dealing with trade and foreign commerce leave the federal government and then become part of a network of national government interests which then lobby against the best interests of the American people. That kind of activity, as Ross Perot has pointed out, needs to stop, and legislation has been introduced to curtail that, which I'm proud to cosponsor.

I've had a chance as Chairman of the Commerce Subcommittee on Consumer Affairs to work closely with a number of Nevadans. You all have been dealing with, and rightly so, the problems of telemarketing in Nevada. I have introduced legislation which would strengthen the hands of the attorney general's office to enforce and control that type of telemarketing activity. Recently, Tammy Smith of the Consumer Affairs Division in Southern Nevada came back to testify at my request. I think we have an excellent opportunity in this session of Congress to enact that legislation. The State Fire Marshal has been back talking about some of the experiences we have had, historically, in Nevada in terms of hotel and motel fire safety provisions, and legislation has been enacted in recent years to do that. We all recognize in Nevada that tens of thousands of Nevadans choose as their home, mobile homes. There was an attempt fairly recently to reduce the standards in terms of the construction of those mobile homes, and we have had an opportunity to work to prevent that from coming about.

The credit crunch has more severely impacted Nevada than any other state. Commercial lending has declined by 30 percent. What that means is a loss in business opportunities. Credit-worthy individuals are unable to put their business transactions together, and Nevadans have lost an opportunity for additional employment, and for those of you who struggle with the state budget, obviously the loss of essential state revenue to operate the critically important functions of state government.

Nevada families will travel more safely along the highways of our state as a result of legislation enacted that requires an airbag to be installed, not only on the driver's side but on the passenger's side.

And there are other issues that we deal with that directly affect us. Reno Air, a fledgling airline, which now represents 28 percent of the passenger volume coming in and out of Reno-Canon, was recently threatened by a predatory practice of a long-established airline. The administration responded, at our request, and today some 500 jobs in Reno are secure, and the prospect of further expansion by that airline has been announced. It is critically important to bring in the millions of visitors who come to Nevada to make Nevada the resort and vacation destination of the world.

Now I want to say something else that nearly slipped my mind. I want to talk about nuclear waste. I know that some of you have publicly welcomed the nuclear waste dump to the facility in our state. And let me say, although I disagree with you, I respect your right as I do any citizen's right to disagree with the position. But there is a view that has gained some constituency in recent weeks that suggests that somehow you can support negotiation and oppose the nuclear waste dump. My friends, that is an incompatible and irreconcilable position. Former Attorney General, Brian McKay, and Attorney General Frankie Sue Del Papa, who joins us this morning, have made it very clear that under the

law, by accepting those benefits, not only do you waive the right of the state veto, but you waive the right of the state's ability to challenge aspects of the siting process itself including the most vitally important issue, and that is the health and safety of Nevadans.

Let's put this issue into context. No other state in the union wants it, and no other state legislature in America would be caught dead negotiating for it. That is the reality. Now we're not just talking about stuff that is slightly hazardous. Some people say it is alarmist, but it is accurate. This is the most lethal stuff in the world. It causes cancer, genetic damage and it lasts for 100,000 years. That is the consequence. If the nuclear waste dump is sited in Nevada, we're talking about 77,000 metric tons. We are talking at least 100,000 shipments that would stream into Nevada from every point on the compass. As recently as 10,000 years ago in the history of our hemisphere, there was a land bridge between Siberia and North America. The English Channel did not exist. So when you are talking about the kind of time you're talking about with nuclear waste, you are talking about something that lasts beyond the pale of generations and generations.

Now there should be no surprise for any of us here in this chamber this morning as to what is actually occurring. About two years ago, the Nevada Initiative, the long-term program and overview, was made available. This, my friends, would be the equivalent of the invasion of Northern France and Normandy during World War II if the Germans had a copy of the invasion plan because this lays it out. Let me just cite a couple of things in it. In this Initiative, we are told that it will be part of the process to enlist influential Nevadans to become part of the support of the dump movement. Now what do we have, the creation of the Nevada Nuclear Waste Study Committee, point one. Point two, they go on to say they will recruit top Nevada journalists to become part of the effort. They have done so, as you know, with two journalists in southern Nevada who are now part of the effort. Point three, they will launch a media campaign to persuade us. We all remember the little guy with the pellet on television, do we not? That is also part of the process. And part four is where all of you come in as legislators, because there you are the target to enlist your support and the plan is to do so in a nonelection year. That is a quote—so that the voters will not then have an opportunity to directly participate in the decision-making process this year.

Now the argument is made, and it is a siren call of inevitability. It's a good fight you all put up in Nevada, but it's inevitable as the argument.

Well, let me suggest that if this project were so inevitable, its timeline has slipped by 15 years. Secretary of Energy, Hazel O'Leary, ten days ago or so, announced that it will slip further. The nuclear waste fund itself actuarially is unsound. That is, there's insufficient money going into the fund to complete the deposit program. And indeed, this year $124 million has been requested from the general fund to supplement that fund to advance the cause of the high-level nuclear waste dump. Utilities are moving to above-ground storage because a number of them have lost confidence in the program. And in the last 90 days or so, a large number of people in the scientific community, who have reviewed this process, have concluded for a number of reasons that it ought not to be built, and we ought to look to other options. I would say to you that if this project was so inevitable, why would the nuclear power industry be spending, on an annual basis, according to the Nevada Initiative, in excess of $3 million to persuade us in Nevada that this is such a good deal for us. You know them, they have lobbyists working the halls as we speak, and that has a face to it. But behind them lies the money, the power of the nuclear power industry, who very frankly could not care one iota about you and me as Nevadans. It reminds me a little bit of that dramatic moment in the film that many of us have seen, The Watergate, where in the basement "Deep Throat" is providing some advice to Bob Woodward as to how to proceed with the investigation. And, in very harsh terms, his advice in that dimly lit garage was, "Follow the money." That is what this is all about—profits. The nuclear power industry, it has no long-term benefit in my judgment for us as Nevadans. But they have promised, literally, everything from a cure to male patterned baldness to halitosis to a cure for the heartbreak of psoriasis. I will share with you one of their recent publications that indicates the benefits they include: water rights, education funds, transportation systems, factories, money to offset the burgeoning state deficit. Well, under the state law, if it negotiated a benefit, it would be entitled to $6.7 million which in the budget that you

are dealing with, represents less than one-half of one percent. Less than one-half of one percent. And, if that isn't misleading and deceptive enough, look carefully at the fine print. The principal spokesman for the nuclear power industry was recently asked about negotiating for benefits, and he said, speaking on behalf of the nuclear power industry, "I haven't promised anything. Congress would have to authorize it." Now may I say that dealing with the federal government on this issue hardly warrants our trust and confidence. This is the crowd that brought us the "screw Nevada" bill in 1987. Last year, the same federal government led by the same group urging you to accept the benefits led the charge in Washington, D.C. to reduce the health and safety standards at Yucca Mountain and no other place in America.

Finally, I would say that this is the same group that year after year, to undermine the state's ability to independently make oversight, makes scientific judgments as to the validity of that process itself. I would say that what is at risk is billions and billions of dollars that have been spent over the years in the premier resort infrastructure in the world. And billions of dollars are currently being spent in this very year to expand and to make that even more attractive for tens of millions of people from all over the world who come to visit us in Nevada. All of that is potentially at risk and in jeopardy if the high-level nuclear waste dump is sited in our own state.

We talk today, and understandably so, about what the impact is on us as Nevadans. It is gaining proliferance about the potential problems that we might encounter with the expansion of Indian gaming. This morning's paper indicated that the governor of New York has entered into an agreement, a compact as it is called, with the tribes in New York. So all of that causes great concern.

I believe what is at issue is our vision of the future for Nevada. Now, there are those who may see a vision that accepts the nuclear waste dump. And if you do so, may I suggest to you that there are those poised outside our borders who are looking for a place to dispose of low-level nuclear waste, millions of gallons, hundreds of thousands of drums of toxic waste, non-nuclear, to come to Nevada. If that is your view of what the future in Nevada portends, if that is the kind of future we are to devise as policymakers, you at the state level and those of us who are privileged to serve you at the federal level, that is not my vision.

Let me share with you a recent piece of correspondence. This comes from the fourth grade class at Mark Twain Elementary School here in Carson City, Nevada. They will be the first graduating class of the new century, 2001.

DEAR SENATOR BRYAN:

> We as fourth graders would like you to know that we have written a letter similar to this to Mr. Clinton. We want to help stop states and governments from dumping toxic waste in Nevada. Our fourth grade class would like to know why the people of Nevada can't vote to keep the dump out of Nevada. Why can't the state who produced it, keep it? WE DON'T NEED IT. We fourth graders would like to help the state to be a better place. Thank you.
>
> Respectfully submitted,

> Mr. Verant's Fourth Grade Class, Carson City

Now these youngsters and tens of thousands of others like them in Nevada, don't have a paid lobbyist working the hallways each and every day, and paid a substantial amount of money to spin their web. They look to you at the state level and to me at the federal level to represent their interests. But they are the Nevadans that all of us are charged with representing. I would hope, as you contemplate this issue, you might remember the words of John Fitzgerald Kennedy when he said, "Let us resolve to be masters, not the victims of our history. Controlling our own destiny without giving way to blind suspicions and emotions." Together, my friends, I think we can be the masters of our fate. That the future of our state is exceedingly bright; that the future of our state can be something that we have an opportunity as policymakers to shape, and the generations of Nevadans not yet born can benefit by our thoughtful foresight and prudence. I look forward, at the federal

level, to working with each of you at the state level as you undertake your endeavors, and I wish you the very best as you contemplate the very difficult decisions you have in this session of the Legislature.

WHEREAS, Patty Sheehan, daughter of Reno's Robert (Bobo) and Leslie Sheehan, graduated from the University of Nevada, Reno, and San Jose State University before beginning her professional golfing career in July 1980; and

WHEREAS, After winning the U.S. Women's Open last year during an 18-hole playoff in Oakmont, Pennsylvania, Patty Sheehan needed only one more tournament win to qualify and on March 21 in Phoenix, Arizona, Patty earned that win by capturing her 30th tournament victory; and

WHEREAS, In addition to her accomplishments on the golf course, Patty Sheehan strives to help less fortunate persons and has been recognized for her humanitarian efforts by receiving, among others, the Golf Writer's Association of America's "Charlie Bartlett" award in 1987 and the Golf Digest/Ladies Professional Golf Association's Founder's Cup in 1985, and more recently, she has hosted the Patty Sheehan Pro-Am benefiting the Nevada Special Olympics; and

RESOLVED, That the Chief Clerk of the Assembly prepare and transmit a copy of this resolution to Patty Sheehan.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans and Chowning.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr.Speaker. Indeed, it is an honor and privilege for us to pause briefly amid the flurry of our legislative activity to honor a fine Nevadan and great champion.

In testimony to what a great champion she is, at no time this morning has Patty asked me for my handicap. Now, I know that it would appear since Patty won on March 21 her 30th tournament on the Ladies Tour that is why we are honoring her today, but actually many of us thought last fall, after her victory in the Women's Open, that it was long overdue for us to recognize her many fine achievements. Although, much is being made of her 30 victories and qualifying to be in the Hall of Fame, I must confess that something that didn't get a lot of attention, really did something very special for me. That was in late December, there was a little two-day tournament that took place in 1992 and that tournament was made of three teams; a team from the ladies professional circuit: Patty, Donna Mockrie, Nancy Lopez and some gentlemen from the PGA and the Seniors Tour. I think you have heard of some of these people: Fred Couples, Tom Kite, Ray Floyd and Jack Nicklaus. Well, at the end of that two-day tournament between the ladies and the gents, guess who won? Even though on the last hole, Patty had to get into her rain gear and hit it out of the water. For a golfer who spends an awful lot of time in the water, in the bunker, in the rough, every place but in the fairway or on the greens, it really did my heart good.

I first met Patty some ten years ago when she came home one summer weekend and played an exhibition round at Hidden Valley County Club for the benefit of the Women's Athletic Program at UNR. In my mind, it is not just her accomplishments on the golf course, but the sort of things that she does and takes care of in the greater world. As mentioned in the resolution, Patty will be playing a Pro-Am on September 20 at Hidden Valley Country Club in Reno, that is in conjunction with the Reno Hilton, and that is for the benefit of the Special Olympics.

She also sponsors a youth tournament for girls, 7 to 14, trying to encourage the next generation to come along. I also have the privilege of serving with Patty on the Advisory Board of Step 2 which is a program in Reno for drug and alcohol victims, women who are chemically dependent. So, she not only takes care of getting the ball in the cup in the fewest amount of strokes, she takes care of the young people of our state, nation and makes sure that she contributes to her community. With that, Mr. Speaker, it is a great honor to have Patty with us today.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 42 on behalf of my parents, who were both very avid golf enthusiasts. Some of the nicest parts of their lives were watching Patty's career. I want to thank you for bringing so much joy to their lives. I know that they are looking down approvingly from that big golf course in the sky.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 28.

Assemblyman Freeman moved the adoption of the resolution.

Remarks by Assemblyman Freeman.

Assemblyman Porter requested that Assemblyman Freeman's remarks be entered in the Journal.

Thank you, Mr. Speaker. Nurses' Day is a very special day every two years, I think, to those of us in the legislature. These are the people who are in the front line of the health care question. Senator Bryan spoke to it today very eloquently. The need to consider all aspects is probably one of the pressing issues in our nation today and these are the people, who, as I said, are in the front lines and understand it extremely well. The resolution mentions the needs in the rural area, immunizations, child welfare, infectious diseases, all the questions relating to health care. The nurses are here today to speak about the issues that we are discussing currently. It seems that no matter what committee we serve on, health care issues come up in all of these concerns. I hope you will listen very carefully to them. I would like to welcome all of you today. Welcome to the legislature.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I rise in support of Senate Joint Resolution No. 26. My first session in this body was the first year we had become a sister state with Taiwan. The warmth, pleasure and generosity of the people of Taiwan was very evident then as it is today. We have our beautiful paintings. I would like to thank the people of Taiwan on behalf of the people of the State of Nevada and urge your support.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I, too, rise to support the resolution. In 1986, I visited the Republic of Taiwan and saw the hall where all the sister state relationships were displayed. I saw our flag proudly being flown there. I would like to thank the Coordination Council for this very gracious gift. Thank you.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I also rise in support of Senate Joint Resolution No. 26. If you have taken a walk through the halls here, you have noticed the beautiful art work that is the subject of this resolution. It is, indeed, lovely, Mr. Speaker.

I have not quite gotten into the tax bracket where I can afford to purchase such lovely items but one of these days, I will get lucky enough. I also want to join with colleagues, Mr. Humke and Mrs. Williams, in thanking the people of Taiwan for their relationship.

I know, due largely to your own effort, Mr. Speaker, and that of Senator Jacobsen in our sister house, the relationship with Taiwan has been an ongoing one. It seems every year that we come here, there is more and more of a better understanding between the two peoples. These kinds of resolutions, these kinds of gifts and exchanges between the people of Taiwan and the people of the State of Nevada foster a better world for all of us. Thank you.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks:

I would just like to say that every year we receive gracious gifts from the Republic of China. We inquired about having the State Seal emblems made in Taiwan. One day the emblems showed up here as a gift from Taiwan. If you look on both ends of the outside of this building, you will see the emblems of the State Seal. We really appreciate all the fine gifts they have given us and the fine relationship we have had. We have had many

delegations go over to their island. We have been treated very graciously and cordially. We really got the red carpet treatment. They are really our friends. We would like to continue that relationship with their country.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, April 20, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 29.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 29.

Assemblyman Augustine moved the adoption of the resolution.

Remarks by Assemblymen Augustine, Myrna Williams, Spitler and Gibbons.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN AUGUSTINE:

Thank you, Mr. Speaker. In addition to the other projects that are noted in Senate Concurrent Resolution No. 29, I would like to mention that the Junior League of Las Vegas is working on a mini grant program which is scholarships awarded to teachers for special Clark County school projects. We are working on "Done In A Day" projects which is a one day renovation of centers, such as the Reach Out Center.

We provide enabling funds for use in the Las Vegas community. These funds are for non-profit agencies, such as Classroom on Wheels Bus, which was available for legislative tour while we were in recess in Las Vegas. The Junior League of Las Vegas is also responsible for the Shade Tree project for homeless women and children, and for the DARE program which has been turned over to the Las Vegas Metropolitan Police Department.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 29. I became involved or aware of the good works with Junior League almost ten years ago when we were working on such issues as Displaced Homemakers, Child Support and Family Court. I know that our lieutenant governor, myself, Mrs. Evans and others in here consider the assistance of Junior League on those issues as having been invaluable. I see Mrs. Segerblom's daughter-in-law is sitting with her. At the time, she was very instrumental in these issues and in the assistance of the Junior League. I know we all want to thank them on behalf of the women and children of this state who have benefited. Thank you.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. I also stand in support of this resolution. I became familiar with Junior League with my involvement with the State Parks Cultural Arts Board. Much to my surprise, I learned in my tenure with the Board, it was Junior League that really gave them the seed money to start that organization. Now, when I go out to Spring Mountain Ranch and see a pavilion built there, you really have to look back and give thanks to the people who had the idea, and a lot of faith, and a lot of volunteers, and then backed away and let it all happen. I think that is what is really important with groups like this who give of their time and energies. I certainly rise in support of commending them for those actions.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. In order for us to bring back our focus on the 180 thousand plus members of Junior League who have dedicated their membership in this organization to the betterment of women, children, and those people who are often times less fortunate than we are, their membership does require dedication to volunteerism. The number of times I have sat on committees that have dealt with these issues that they have appeared before, I have noticed the consistent uniformity in their approach to these issues. I think of the many times we have heard their comments on these issues; they have stood tall for those issues that are important to all Americans. Thank you.

Resolution adopted unanimously.

Roll called.

All present except Assemblymen Ernaut and Regan, who were excused.

Prayer by the Chaplain, The Reverend Albert Tilstra.

We pray today for our troubled world. We are surrounded by civil unrest, economic doom, personal uncertainties. People are filled with suspicion and fear, animosity and greed. You have allowed these men and women to be elected to help unite us in high adventure of building a better world, and starting right in our own neighborhoods. Give each of them the courage to speak and act their convictions. May they be more concerned with Your roll call of their actions than the report card of the people. We ask these things in the name of our God. AMEN.

Pledge of allegiance to the Flag.

Assemblyman Chowning requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. The Distributive School Account (DSA) is the budget through which the state distributes direct financial aid to local school districts. The legislature determines the level of state aid for schools, and each district's share is developed through a formula which is called the Nevada Plan. The plan allows for the differences across districts in the costs of providing education and in local wealth. The total guaranteed support level, which is intended to cover about 80 percent of the school district's operating funds, is a responsibility shared by the local school district and the state and is guaranteed by the state in the sense that if local resources are insufficient, the state makes up the difference.

Section 1 of Senate Bill No. 329 provides a supplemental appropriation of roughly $51 million to the DSA to make up the shortfall. This payment is due to the districts by May 1, 1993. Thank you, Mr. Speaker.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I will make the following disclosure these individuals: Wendell Williams, Stephanie Smith, Douglas Bache, Bernie Anderson and Chris Giunchigliani. On the advice of counsel, we are school teachers on an unpaid leave of absence. We will not benefit any differently than any other teacher with either a "yes" or "no" vote. Therefore, we will be voting on this bill.

Today, we are all torn between our duty to be fiscally responsible and our duty to fight for those who cannot vote, the children. Senate Bill No. 329 is simply a reflection of

unstable taxes, recession, lack of courage and lack of vision. We were elected to do a job and not maintain the status quo. We have a problem in this state and it goes beyond just education funding.

We have not established tax and social policies, nor five, ten and 20 year plans which could be a road map for this state. We are no longer a small state. We are the fastest growing state in the nation, yet, we are not willing to determine what services the public wants, or what services they are willing to fund. We have woefully under funded budgets because growth does not pay for itself. The fact is, we still fund our budget on sales taxes which is regressive and volatile.

The Governor had to make tough decisions during the interim due to revenue shortfalls, and the legislature supported him. This bill simply codifies his request that school districts reduce budgets by five percent. Yet, there is an underlying problem here that is not being addressed. This will be the first time in the history of this state, since the Nevada Plan was enacted, that we are rolling back the per pupil expenditure. That, in and of itself, is frightening. The second point is that districts are not being made whole by returning the per pupil funding to the current level. The one time $18 million that they have lost to the five percent cut will not be returned and those program cuts will stay in place.

Further, the budget before Ways and Means and Senate Finance does not deal with the 24,000 new students who will be entering our school systems over the biennium. In fact, the budget enrollment projects a 5.1 percent increase in enrollment, yet the budget is only funded for a 3.5 percent increase. The per pupil funding must be increased over the biennium and to do nothing about it is nothing short of a crime.

When people say they have made education a top priority, they have not shown that through the budgeting process over the years. For example, Nevada has fallen to forty-first in the nation in the area of revenue provided to education by state governments. In 1991, 57.5 percent of the state budget went to education. In 1993, it has fallen to 53.7 percent of the budget.

Despite our commitment to class size reduction, due to the inadequate funding that we have, we are now ranking fortieth in the nation.

Special Education funds are held flat and we still do not fully fund them, causing districts to have to fund an unfunded mandate to the tune of over $17 million.

School counselors still are not provided at all the schools and the funding is short in the proposed budget. Kindergarten still is not mandatory and it is not fully funded. At-risk children and programs continue to be under funded. Much needed occupational programs are grossly inadequate.

I could go on and on with numbers, but perhaps the following sums up our state commitment to education funding. We spend $3,312 per pupil, yet on the average we spend $15,000 per prison inmate and up to $30,000 for some prison inmates. To me, this is unconscionable.

We will be voting today to codify the Governor's five percent cuts and to support the supplemental appropriation in the bill because it is the fiscally responsible thing to do. But it does not end here.

We must go back to the budgets and properly fund not only education but mental health programs, senior needs, aid to dependent children, service to the blind and others. It is our responsibility to return Nevada's funding to a stable base. It is our responsibility to secure a broad based tax. It is our responsibility to stop worrying about re-election and return to what is right. For those of us who ran on change, we have nothing less to do. We must represent our constituency and go on living with ourselves. Perhaps Mahatma Ghandi said it best:

> It is not the critic who counts, nor the man who points out how the strong man stumbles, or where the doer of deeds could have done better.
>
> The credit belongs to the man who is actually in the arena; whose face is marred by dust and sweat; who strives valiantly; who errs and may fail again, because there is no effort without error or shortcoming, but who does actually strive to do the deeds; who does know the great enthusiasm, the great devotion; who spends himself in a worthy cause; who at the best, knows in the end the triumph of high achieve-

ment, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who know neither victory nor defeat.

Thank you, Mr. Speaker.

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That section 21 of article 6 of the constitution of the State of Nevada be amended to read as follows:

Sec. 21. 1. A justice of the supreme court or a district judge may, in addition to the provision of article 7 for impeachment, be *reprimanded,* censured, retired or removed by the commission on judicial discipline. A justice or judge may appeal from the action of the commission to the supreme court, which may reverse such action or take any alternative action provided in this subsection.

2. The commission is composed of:

(a) Two justices or judges appointed by the supreme court;

(b) Two members of the State Bar of Nevada, a public corporation created by statute, appointed by its board of governors; and

(c) Three persons, not members of the legal profession, appointed by the governor.

The commission shall elect a chairman from among its three lay members.

3. If at any time the State Bar of Nevada ceases to exist as a public corporation or ceases to include all attorneys admitted to practice before the courts of this state, the legislature shall provide by law, or if it fails to do so the court shall provide by rule, for the appointment of attorneys at law to the positions designated in this section to be occupied by members of the State Bar of Nevada.

4. The term of office of each appointive member of the commission, except the first members, is 4 years. Each appointing authority shall appoint one of the members first appointed for a term of 2 years. If a vacancy occurs, the appointing authority shall fill the vacancy for the unexpired term. An appointing authority shall not appoint more than one resident of any county. The governor shall not appoint more than two members of the same political party. No member may be a member of a commission on judicial selection.

5. The supreme court shall make appropriate rules for:

(a) The confidentiality of all proceedings before the commission, except a decision to *reprimand,* censure, retire or remove a justice or judge [.] *, and except as limited by subsection 6.*

(b) The grounds of *reprimand or* censure.

(c) The conduct of investigations and hearings.

6. *If the commission determines that there is probable cause that there are grounds to reprimand, censure, remove or retire a justice or judge, all subsequent proceedings of the commission concerning the matter must be open and public.*

7. No justice or judge may by virtue of this section be:

(a) Removed except for willful misconduct, willful or persistent failure to perform the duties of his office or habitual intemperance; or

(b) Retired except for advanced age which interferes with the proper performance of his judicial duties, or for mental or physical disability which prevents the proper performance of his judicial duties and which is likely to be permanent in nature.

[7.] *8.* Any person may bring to the attention of the commission any matter relating to the fitness of a justice or judge. The commission shall, after preliminary investigation, dismiss the matter or order a hearing to be held before it. If a hearing is ordered, a statement of the matter shall be served upon the justice or judge against whom the proceeding is brought. The commission in its discretion may suspend a justice or judge from the exercise of his office pending the determination of the proceedings before the commission. Any justice or judge whose removal is sought is liable to indictment and punishment according to law. A justice or judge retired for disability in accordance with this section is entitled thereafter to receive such compensation as the legislature may provide.

[8.] *9.* If a proceeding is brought against a justice of the supreme court, no justice may sit on the commission for that proceeding. If a proceeding is brought against a district judge, no judge from the same judicial district may sit on the commission for that proceeding. If an appeal is taken from an action of the commission to the supreme court, any justice who sat on the commission for that proceeding is disqualified from participating in the consideration or decision of the appeal. The magistrate or court or judge or justice, having regard to the considerations set forth in NRS 178.498, may require one or more sureties or may authorize the acceptance of cash or bonds or notes of the United States in an amount equal to or less than the face amount of the bond.

2. Any bond or undertaking for bail must provide that the bond or undertaking extends, for a period of [at least] 1 year unless bail is exonerated earlier pursuant to the provisions of subsection 4, to any action or proceeding in a justice's court, municipal court or district court:

If no formal action or proceeding is instituted against a defendant who has been admitted to bail, the bail must not be exonerated until a period of 30 days has elapsed from the day the bond or undertaking is posted unless the defendant requests that bail be exonerated before the expiration of the 30-day period.

5. If, within the periods provided in subsection 4, the defendant is charged with a public offense arising out of the same act or omission

supporting the charge upon which bail was first given, the prosecuting attorney shall forthwith notify the clerk of the court where the bond was posted, the bail must be applied to the public offense later charged, and the bond or undertaking must be transferred to the clerk of the appropriate court. Within 10 days after its receipt, the clerk of the court to whom the bail is transferred shall mail notice of the transfer to the surety on the bond and the bail agent who executed the bond.

To the Honorable the Assembly:

MARY JO MONGELLI

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 33.

Assemblyman Gibbons moved the adoption of the resolution.

Remarks by Assemblymen Gibbons, Anderson and Mr. Speaker.

Assemblyman Humke requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. Often times, we as humans fail to realize the benefit and value people and their efforts have on our lives until they are tragically taken from us.

Today, we recognize formally, and rightfully so, the efforts of those individuals, the risks they take to save lives, and the impact their efforts have on all of us. Their challenge and duty is to save lives. They do so through the use of high tech equipment, including aircraft and helicopters.

Tragically, every now and then, an accident will occur. On the evening of November 27, 1991, one such tragedy occurred when a helicopter suffered a major structural failure en route to a hospital in Reno. That tragedy took the lives of many people who were very deeply committed not only to their profession, but to the people and the lives they saved through the years. The lives that were taken from us are today memorialized in this piece of paper we have before us. I think among all other things, we remember what they have done for all of us. The deepest sorrow and regret we have as human beings for their loss is transcribed in a few words, but in our own hearts and memories we want to take this opportunity to extend to those who died our thoughts of the loss for their families and our deepest regrets. I know as we look at this resolution, we are confronted with the idea of just how much they have contributed to our community and when you look at the number of lives they have saved and the number of patients that they have carried, over 10,000 people, and nearly 1,700 lives saved since they instituted their operation. In the Reno area alone, Care Flight and REMSA have had a significant benefit on our community.

Mr. Speaker, there are a number of people in the audience and seated among us today I would like to introduce after we vote on this resolution. At this point in time, this will conclude my remarks.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I also rise in support of Senate Concurrent Resolution No. 33. Although Mr. Gibbons very eloquently stated the intent and our heartfelt sympathy toward the immediate families, I think it is for all of us to realize and recognize the extent this group of people put forth for our community and our society every day to risk their lives so that others might survive for just a few minutes longer. It is a much needed resolution, and my heartfelt feelings join those of Mr. Gibbons.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks:

If I might digress for just a few moments. If it were not for Care Flight, the people in Yerington and the people I represent would not have very good health care. Almost every day, they fly to Yerington to pick up patients at the Lyon County Health Center. They fly across the front of my house, so I know when they are in town. We always know when there is trouble at the hospital. They do a great service for all of us in rural Nevada.

Resolution adopted unanimously.

(a) To the victims of any crime for which the offender is incarcerated and for which an amount of restitution was set pursuant to NRS 176.033; *and*

Sec. 6. NRS 213.126 is hereby amended to read as follows:

213.126 1. Unless complete restitution was made while the parolee was incarcerated, the board shall impose as a condition of parole, in appropriate circumstances, a requirement that the parolee make restitution to the person or persons named in the statement of parole conditions, *including restitution to a governmental entity for expenses related to extradition,* at the times specified in the statement unless the board finds that restitution is impracticable. The amount of restitution must be the amount set by the court pursuant to NRS 176.033. In appropriate circumstances, the board shall provide for an assignment of wages earned by the parolee while on parole to the department for restitution.

2. All money received by the department for restitution for:

(a) One victim may; and

(b) More than one victim must,

be deposited in the state treasury for credit to the restitution trust fund which is hereby created.

(a) If the money received from the parolee in a single payment is $200 or more or if the total accumulated amount received from the parolee is $200 or more, whenever money is received from the parolee.

(b) If the money received from the parolee in a single payment is less than $200 or if the total accumulated amount received from the parolee is less than $200, at the end of each year until the parolee has paid the entire restitution owed.

Any money received from the parolee that is remaining at the end of each year must be paid at that time in pro rata payments to each person to whom the restitution was ordered. A final pro rata payment must be made to such persons when the parolee pays the entire restitution owed.

4. A person to whom restitution was ordered pursuant to NRS 176.033 may at any time file an application with the department requesting the department to make a pro rata payment from the money received from the parolee. If the department finds that the applicant is suffering a serious financial hardship and is in need of financial assistance, the department shall pay to the applicant his pro rata share of the money received from the parolee.

5. All payments from the fund must be paid as other claims against the state are paid.

6. If restitution is not required, the board shall set forth the circumstances upon which it finds restitution impracticable in its statement of parole conditions.

7. Failure to comply with a restitution requirement imposed by the board is a violation of a condition of parole unless the parolee's failure was caused by economic hardship resulting in his inability to pay the amount due. The defendant is entitled to a hearing to show the existence of that hardship.

8. If, within 3 years after the parolee is discharged from parole, the department has not located the person to whom the restitution was ordered, the money paid to the department by the parolee must be deposited in the fund for the compensation of victims of crime.

Sec. 7. NRS 213.153 is hereby amended to read as follows:

213.153 *1.* The necessary expenses of returning to the state board of parole commissioners a person arrested for violation of parole are a charge against the state and must be paid from money appropriated to the department of parole and probation. After the appropriation for this purpose is exhausted, money must be allocated to the department of parole and probation out of the reserve for statutory contingency account, upon approval by the state board of examiners, for the payment of these expenses.

2. *Upon determining that a parolee has violated a condition of his parole, the board shall, if practicable, order the parolee to make restitution for any necessary expenses incurred by a governmental entity in returning him to the board for violation of his parole.*".

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, April 30, 1993

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 34.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 34.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans, Lambert and Anderson.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Dr. Margaret Bryan Davis is the sixth prominent scientist to be honored with this award and, certainly, her many accomplishments speak for themselves.

Dr. Davis is visiting Nevada from the University of Minnesota where she is Regents' Professor in the Department of Ecology, Evolution and Behavior. Her work in ecology has led to new insights into past, present and future ecological change.

The study of fossil pollen was only a few decades old in North America when Dr. Davis began her studies, in the 1950s, as an undergraduate at Radcliffe College. She continued her studies as a Fulbright Scholar in Scandinavia, where pollen analysis was first developed, and received her PhD in biology at Harvard in 1957. In the 1960s, her work confirmed that fossil pollen could describe the makeup of ancient plant communities. Over the years she became recognized as a leading authority in the study of ancient ecosystems.

Dr. Davis' research has opened new doors into geology's Quaternary Period, approximately the last two million years of the earth's history. In summary, Dr. Davis has made major contributions to a variety of scientific fields. She has challenged prevailing scientific assumptions that plant and animal communities are generally stable.

As Dr. Davis has stated, "Ecological change will always occur, but we must understand what part we play in it." For the part she has played in helping us to understand, the Desert Research Institute and Nevada Bell are pleased to add her name to the growing list of Nevada Medal Laureates. Mr. Speaker, I am proud to introduce Dr. Margaret Bryan Davis.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. For six years, the Desert Research Institute and Nevada Bell, through the Nevada Medal Award, have brought some of the world's leading scientists to our state. Three of the six honorees have been presented in this chamber: Dr. Dwight Billings, Dr. Benoit Mandelbrot and now Dr. Margaret Bryan Davis.

Tonight, Dr. Davis will be at a dinner in her honor to be held at Harrah's in Reno. She will speak about her long years of research in the field of paleoecology. That scientists the caliber of Dr. Davis should visit Nevada, year after year, is a tribute to the continuing public-private partnership begun by DRI and Nevada Bell back in 1988.

Nevada Bell is the state's largest telephone company in terms of geographical area served. It is a modern, high tech company with rapidly expanding digital and fiber optics capabilities.

DRI, with facilities in Reno and my district in Stead, in Las Vegas and Laughlin, is world renowned for its research in air quality, groundwater science and water quality management, desert plant ecology, anthropology, archaeology and atmospheric science.

Dr. James Taranik has been President of DRI since the inception of the medal program. Bob Blanz, as President and CEO of Nevada Bell, has also been a strong leader during his four-year tenure. In May, he will retire to be succeeded by Mac King, Jr. All three gentlemen have joined Dr. Davis in the chamber this morning and we welcome them.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I rise in support of the resolution. Desert Research Institute and Nevada Bell have recognized many remarkable scientists with the Nevada Medal Program. All have made, and are making, remarkable contributions to our lives and our well being. This year's medal winner, Dr. Margaret Bryan Davis, offers an exceptional insight into the nature of ecological changes; one that will have the greatest impact on the research capabilities of Nevada's Desert Research Institute.

Few areas in this country are as sensitive to environmental change as is the Great Basin. Whether you drive along our roads or fly over our landscape, you can see the open exposed earth that is Nevada. Indeed, that bright Nevada sky adds to its luster. Dr. Davis has given scientists some innovative research approaches for examining the process of change so we can see and understand what has happened in the past, and what might happen in the future. The Desert Research Institute scientists are already using these new tools to reveal how Nevada's climate has changed from wetter to drier conditions over the years.

It is very easy for us to look at the changes that have occurred over thousands of years; the great, dramatic events, such as the Ice Ages, and the lakes that rose to cover much of the Great Basin. Dr. Davis has pointed out that these conditions are a continuing process of small, incremental changes, in a way not too unlike the movement of some legislation. The causes of these small differences are what we must be sensitive to, particularly our own role in causing environmental change.

We appreciate the insights Dr. Davis has given us and encourage our scientists to take full advantage of her accomplishments. The Desert Research Institute and Nevada Bell are to be commended once again for bringing this exceptional scientist to Nevada. We thank Dr. Davis for coming to accept the Nevada Medal.

I noted in the paper the other day about the Nevada desert rat and its opportunity to pack material away for 80,000 years and stay in a single location. I had the opportunity to drop by the Chairman of Taxation Committee's office the other day and the similarity between the two events did not escape me. If you have not had the opportunity to drop by the pack rat of the Nevada legislature, I would suggest that there is a commonalty. Maybe we could get Dr. Davis to do a scientific study on the ecological process that takes place in that unusual environment. Thank you, Mr. Speaker.

Resolution adopted unanimously.

Assemblyman Evans moved that the Assembly recess subject to the call of the Chair for the purpose of hearing remarks by Dr. Margaret Bryan Davis.

Remarks by Assemblymen Myrna Williams, Perkins, Gibbons, Porter, Haller, Smith, Price, Anderson, Sader, Scherer and Collins.

Assemblyman Bennett requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. At this time, I move the action whereby we passed Assembly Bill No. 393 be reconsidered. This was not an easy decision to make. Every morning many of us sit and deal with budgets, underfunding and the need to find revenue somewhere and to cut costs.

However, we are sitting here today because we are fortunate enough to live in a country that has the most simple, yet the most profound document in the world and it is called the Constitution of the United States. There comes a point where we have to be extremely careful that we do not end up like some other countries where they have eroded, eroded and eroded the rights of the people until one day they woke up and had nothing left.

Based on this, I think that the constitutional imperatives here are more important than the money that we are going to save. As painful as that is to say, when our need is so great in terms of money, I think our need for the constitution supersedes that. So, I am asking everyone to please reconsider their action on this bill.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. I rise in opposition to Assembly Bill No. 393 which I supported on our last legislative day. With my background, I expect this will surprise many, but I do so for a couple of reasons.

This bill deals with the voluntary waiver of a convicted person's presence in front of the authority passing his or her judgment and sentencing. The key word here is "voluntary." I have personally dealt with dozens of similar waivers. While I personally would not spend as much time as was necessary to educate the convicted person of their options so that they make an educated and properly voluntary decision, I recognize that often times the time is not available to law enforcement corrections personnel to properly conduct this education. If this duty does not fall to law enforcement, then it would fall to the even busier public defender. We need to remember that many of our convicted persons are intellectually challenged, which may limit their capacity to make a voluntary decision.

The other reason that I will vote against this bill is that I believe it is important for the convicted person to face the person passing judgment upon them. I sincerely believe that the judge needs to touch, taste and see the person they are going to incarcerate, not only to mitigate a sentence for those convicted persons who are sincerely remorseful, but also to compound sentences for those who have no regard for the rights of society. Mr. Speaker, on January 18 of this year, I took my second oath to uphold the constitutions of the United States and the State of Nevada. The first was on January 3, 1984, when I was commissioned as a police officer for the City of Henderson. I will defend these constitutions to my death, and although the proponents of the bill will defend its constitutionality, and I do not dispute this, I do not believe in my heart that our founding fathers ever dreamed of anyone waiving their rights to be present during sentencing.

The reason for this legislation is to save money. Mr. Speaker, how much money will be saved if a convicted person appeals his or her waiver arguing that it was misunderstood or otherwise involuntary? The cost of these appeals will be enormous. It is for these reasons, Mr. Speaker, that I will be voting against this bill.

ASSEMBLYMAN GIBBONS:

Thank you, Mr. Speaker. As the lead proponent of this bill, I rise in support of it. I would just like to remind people that when we are speaking about a convicted criminal, we are talking about someone who has already been present at all phases of the trial and who has faced the victim throughout the hearing and trial. Now, we are talking about a person who has, between the time of conviction and the time of sentencing, been incarcerated in another state and another jurisdiction and the requirement and request of that individual voluntarily saying, "I do not want to return to the State of Nevada for the purpose of being present to face the judge for this sentencing. I voluntarily waive that right." This is a right which he has probably and would most certainly be counseled on by his attorney. It is a voluntary waiver, one which would have been demonstrated that he did so without the proper knowledge, could be appealed. That would be the rare circumstance as is the rare circumstance of having to be brought back from another state and another jurisdiction. I think the important thing is that we, as taxpayer representatives, have the duty to make sure that we spend money wisely. For those individuals who have voluntarily relinquished their rights to return for the simple purpose of being sentenced, when a sentence would run concurrently with a sentence here in Nevada, certainly have not skipped out on anything, nor have they subjugated the right of facing the victim or the sentencer at the time of trial. As a result, I would rise in opposition to the motion for reconsideration.

ASSEMBLYMAN PORTER:

Thank you, Mr. Speaker. I rise in support of the current motion on the floor for reconsideration. Should this motion not pass, my remarks will be academic. So with your permission, Mr. Speaker, I would like to go to Order of Business No. 15 to make my remarks, deviating from the current motion on the floor.

Thank you, Mr. Speaker. As we debated Assembly Bill No. 393 the other day, we had a very interesting debate about just what the subject matter of this bill dealt with. I would encourage all my colleagues to get their bill books out and take a look at it. It will only take you a second.

A pertinent part of Assembly Bill No. 393, first reprint, deals with lines 10 through 13. They read as follows, "If the defendant was present at the trial through the time he pleads guilty, or is found guilty, but at the time of his sentencing is incarcerated in another jurisdiction, he may waive his right to be present at the sentencing proceedings and thereby agree to the imposition of sentence in his absence." For those of you who do not practice in the criminal justice system, let me describe for you a current scene and the sentencing.

The judge arrives. The bailiff says, "All rise." Everyone stands up and the judge takes his seat, slams the gavel down and says, "The court is now in session." Case No. 82-4075F, State of Nevada vs. Robert Jones. The court will note the presence of Mr. Jones. Counsel for the state is Mr. Smith. Counsel for the defendant is Mr. Walker from parole and probation. Is the defendant present?" "No, he is not, your honor." "Mr. Smith, where is your client?" "He is in Utah, your honor. He is incarcerated there. He was arrested the other day." "Why isn't he here?" "I have a written waiver, your honor, which he signed waiving his right to be present here at trial." "Very well, may I see the document, please." "Yes." "I am assuming that this is your client's signature on there. Is that correct, Mr. Smith?" "Yes, it is okay your honor." "Very well, proceed. May I hear from the state."

"Mr. Jones was convicted of armed robbery in this court several weeks ago. As the court is aware the evidence against Mr. Jones was overwhelming. He went in with a .45 calibre gun, pointed it to the head of an AM-PM Mini Market clerk and took a bag of Hostess Twinkies on the way out the door. I can think of a no more heinous crime for society. I suggest that Mr. Jones be given the maximum ten years in prison in the Nevada State Penitentiary." "Very well, what does Parole and Probation recommend?" "Well, your honor, we had the opportunity to speak with Mr. Jones at the close of his trial. He has no prior convictions, but we are not going to suggest one way or the other what the state's recommendations should be. We agree with the prosecution that he should be given the maximum sentence of ten years." "Very well, Mr. Smith, what do you argue on behalf of your client?"

"Well, your honor, I had the opportunity to talk to my client by telephone about half an hour ago because I was counsel on record in these proceedings. This happens to be Mr. Brown's track. Mr. Brown could not be here today for the sentencing phase of this proceeding. So, I talked to this gentleman. He was kind of like, well, you know, you guys do whatever you think you gotta do over there." "Very well, the court has been advised. It is the judgment of this court that Mr. Jones be sentenced to ten years in prison in the Nevada State Penitentiary. The court is adjourned." What is wrong with this picture? What is wrong with this picture?

When everybody in the criminal justice system agrees this is a good bill, that ought to be your first clue something is wrong with it. The criminal justice system in America has some serious flaws, and believe me, I practice in it every day. Criminal defense lawyers are in support of this. Prosecutors are in support of this. Everybody else is in support of this. You know why? Because it is efficient. Yes, it is efficient. Does it save us some money? Yes, maybe it saves us some money, but is it the right thing to do? No.

Economic conservatism at the expense of constitutional rights is no bargain. That kind of situation will repeat itself day in and day out, day in and day out, mark my words on that. A knowing and intelligent waiver of constitutional rights is just that. Knowing and intelligent. Look at the language in Assembly Bill No. 393, lines 14 through 18, which is current law.

In the case of a misdemeanor, and a gross misdemeanor by imprisonment for not more than one year, a misdemeanor and a gross misdemeanor would be taken into account. The court, with the written consent of the defendant, may permit arraignment, plea, trial and imposition of sentence in the defendant's absence. If, in current language, the court determines the defendant was fully aware of his applicable constitutional rights when he

gave his consent, Mr. Speaker, how in the world is this judge passing sentence on this defendant in absentia going to know whether or not he was fully aware of his applicable constitutional rights when he gave his consent? That is not possible, ladies and gentlemen. It is not going to happen. The judge is not going to call him on the phone. He is not going to ask him, "What do you think, should you spend six years or 60 days?" Where are we? Take a look at what is happening. We now have a stronger waiver argument for a misdemeanor than we do for sentencing of a felony. This bill is backwards.

Unless you build in some absolute provisions where there is a 100 percent convincing on the part of that court that this defendant knew what he was doing, understood his rights to counsel, understood that he may get a public defender assigned to another track who has never seen him, who does not even know him, and to sit there and argue, "Well judge, he has no priors, so maybe he should get a year." That is what the entire system was designed to protect against. I would ask my colleagues to look at this bill, look at this language, search your conscience, picture what goes on in criminal justice. It is not Miami Vice, it is the real world. This is the real world. This bill will not help everybody, but it might help one person, and if it does that then I have done my job and you have done yours. I urge your reconsideration of Assembly Bill No. 393. Thank you.

ASSEMBLYMAN HALLER:

Thank you, Mr. Speaker. Speaking against the motion to reconsider, I would remind the group that we have had an impassioned plea from one of our colleagues, but we had quite a few lawyers in the committee hearings and they did not believe that this bill had anything to do with unconstitutional action. I would submit to you that just because somebody says that there is a constitutional problem, it does not make it so. Let's vote against reconsideration.

ASSEMBLYMAN SMITH:

Thank you, Mr. Speaker. I rise in opposition to reconsideration. There have been many concerns raised over Assembly Bill No. 393, even to the point of implying that this measure will erode civil rights and democracy as we now know it.

I do not see it in this light. This is an opportunity for a convicted person to decide whether or not he or she wishes to return for sentencing. This waiver is not mandatory, it is voluntary. This person is already in another prison, convicted, and may not want to return for the sentencing. He or she may decide that for a six-month sentence, it is not worth the effort to travel from Florida, where he or she is already serving a ten-year sentence.

We cannot guess at all the possibilities that exist in the world of multi-convicted criminals. If we are genuinely concerned about civil rights, then we can offer them a chance to decide for themselves. It should also be mentioned that the cost of this extradition may be charged to this person if this current legislation passes.

We should not forget that this person will be represented by attorneys in both Nevada and their current state of incarceration.

We are not forfeiting Nevadans' rights by this measure. We are giving already convicted criminals an opportunity to make a choice and perhaps save Nevada taxpayers unnecessary expense.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I will be speaking in favor of the motion because I believe that any of us should be able to have a motion to have something discussed again. I do not think the question is, is it constitutional or not constitutional as may have been interpreted from my colleague from Reno. It is really, is it right or wrong? What are we doing when we statutorily encourage the right of citizens, even ones we do not like, to give up their constitutional rights? A very good argument was made by my colleague, the defense counsel, about what happens if the defendant did change his mind at the last minute? It would be very possible that a person could even be sick on the day that he is asked to sign the waiver and really not be fully thinking about what he is doing. That's possible. He could even be on prescription medication and still not be thinking right. He may have been in the infirmary, or whatever.

When we talk about the one suggestion made, multiple violators who are in other states, occasionally there are people in jail for doing the right thing as many civil rights violators who spend many days, weeks, months in jails, detention centers, or prisons across our country during dark times. I presume this would not apply to them, but we have people in prison on American territory today because they were trying to come to this country from Haiti and they are over here herded up like animals. There are many reasons that someone may be incarcerated and, of course, 99⁹/₁₀ percent of the time it is because they are bad people, but it is not always. Even bad people have their rights protected because every time we do something improper against them, it sets the pathway for it to be used against us.

At any rate, I would hope that we would at least have the opportunity to reconsider this today. I would hope that in doing so this particular bill would not pass. I would have you think of some of those first amendment rights: the freedom of speech, the freedom of press, the freedom to assemble. When did we start selling those? The right to bear and keep arms, all of the other things and most of our rights, and the rights of people in other countries are normally bridged beginning with just little, tiny things. I would hope that Assembly Bill No. 393 would not leave this house today.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I rise in support of the motion to reconsider. I see this bill as an erosion on both sides of the constitutional issue. That is both the right of the defendant and the right of the victim of the crime to know the person, who has indeed been violated by this person, that the sentence is going to be carried forward in their presence. We hear a great deal today about victims' rights. If the person has gone through the process, the victim wants to see that person stand before the bar and hear what the sentence is, not in absentia, not by a piece of mail from some different location, possibly reduced to a lessor charge, merely because we in our urge to save a couple of bucks send them out of state, or because he has been arrested some place else. The human pride in our society rages about the fact that the justice system does not do what it is supposed to do, and that is not vengeance. The whole purpose of law and justice is not a vengeful society, but to say that society is going to treat someone fairly from beginning to end. At each stage, both sides will have their shot, both sides will hear their argument. To take away or diminish either one of those rights is wrong. That is exactly what this bill comes to. It may seem to be a trivial matter, but it is not. It does go to the very root of the system itself.

ASSEMBLYMAN SADER:

Thank you, Mr. Speaker. In listening to the debate on Friday and then again today, I am struck with how difficult this rather simple issue has become. I think, Mr. Speaker, what we are really talking about is an issue we are going to face several times this session about where we draw the line in funding prisons, prisoners and costs of incarcerated people.

I agree with these statements of philosophy and the issues of rights that have been made by those who support the motion to reconsider. I just disagree that this is the place to draw the line. I think we have really lost track and sight of what this bill does and what an offense it is to the system of constitutional rights protected by the first amendment. The question of sentencing and having representation by counsel being present is called the critical phase in the proceedings. There is no question that sentencing is a critical phase. You are entitled to a lawyer at that time. Your lawyer needs to be present. Your lawyer argues your case for you.

What we are talking about here, is a voluntary waiver of that right by one incarcerated some place else and who does not want to come, whose lawyer is going to be present, is going to make that argument. If you have ever been to a sentencing, as I have, and my esteemed colleague from District No. 8, who has been to more than I have, the lawyer does all the talking. The defendant has an opportunity to speak, but lawyers have a tendency in these things to do all the talking in each phase of each proceeding in each trial and this is no different. That lawyer is there. My colleague from District No. 8 suggests what's wrong with the picture he paints for you.

What's wrong with the picture is that he gives you an example of a wholly ineffective counsel for that defendant, which is not the case in criminal proceedings. Very rarely does one have ineffective counsel. That counsel is going to get up and make his or her best

argument for that defendant whether that defendant is there or not. That's the reality in courtrooms today. The suggestion that somehow there is a wholesale sellout of constitutional rights is just inappropriate and incorrect.

Now, let's talk about what this bill is really about. This is one of many issues we face this month and next month. What this bill is about is priorities of funding. This bill came to us from the Attorney General's Office. The Attorney General, this session, has taken a close look at the cost of extradition and the cost of transportation of prisoners and the fact that so many of the people who violate crimes in this state or from some other state, yet the taxpayers of Nevada pay huge amounts of money to keep them in prison for justice to our state, costing our taxpayers all that money. This is a rather small aspect of it, but it isn't cheap. When you go to Illinois or Maine or New York to pick up a prisoner, you send two people. They fly out, they get the prisoner, they get him or her a plane ticket, fly him back, have the proceeding, fly him back again, that's four trips, two round trips for the officers, two of them apiece, that is a round trip for the defendant, and that is not cheap. Multiply that by a number of these cases every year and you have some real money. That's what we are talking about, real money in the prison system.

Now, let's talk about priorities. We are faced with not having money for education. We are faced with not having money for Aid to Dependent Children. We are faced with not having money for welfare and any number of social causes. To suggest that this is the place to draw the line and to fund this kind of voluntary waiver is, in my opinion, wholly inappropriate. It is just the wrong place to draw the line. There is a place to draw the line and it does deal with constitutional rights. The real constitutional rights of people. This is not that place. So, take your choice. This is one of many bills we are going to have. This issue now and tomorrow is "cons versus kids." Let's not vote for the cons.

ASSEMBLYMAN SCHERER:

Thank you, Mr. Speaker. Most of the arguments have already been ably made by colleagues. I did want to respond to one argument that has been made by the proponents for reconsideration here. That is the argument of victims' rights. The argument that the victim should have the right to see the defendant present at sentencing and to see the defendant sentenced, all I would argue is that the victim should have the right to see the case closed. To bring closure to a situation in which they have been victimized. We have heard many times in your Judiciary Committee this session about the importance of closure for victims. I think to wait six or eight to ten years for closure of a case to actually hear a sentence is small in relative comparison to just having a final outcome in a timely manner. By that time, who cares? The victim has already waited far too long.

If the people in the District Attorney's Office and the Attorney General's Office have not been able to respond as to what happened to this guy, what is the ultimate outcome? Let's give them the ultimate outcome in a timely manner. Thank you, Mr. Speaker.

ASSEMBLYMAN COLLINS:

Thank you, Mr. Speaker. I think the important thing here is that it says on line 12, "He may waive his right." We hear all this legal stuff, and you know it is real simple to me, these guys get in the system and they are in jail somewhere and if they want to take a trip across the United States, they say, "No, I am not going to waive it." They go to court and they show up in front of the judges. The thing is, they have already been convicted, the guy is previously distressed, he had a gun to the guy's head, he is already a bad guy and he has been convicted of it. This is just a simple matter of sentencing him. If he wants to make a trip, he has the right to make the trip. This just allows him to waive that trip and sometimes it is probably more lenient in his case if he does. Thank you.

ASSEMBLY IN SESSION

At 12:06 p.m.

Mr. Speaker presiding.

Quorum present.

REMARKS FROM THE FLOOR

Remarks by Assemblyman Myrna Williams.

Assemblyman Haller rose to a point of order regarding the disorderly use of words.

Mr. Speaker ruled that there was no improper usage of words.

Assemblyman Bennett requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. Very shortly, it will be ten years that I have served in this house. This is the first time in that ten years that I have ever asked to have a bill reconsidered. I did not do that lightly, but I would like to address the issue of cons versus kids. Now, if we are really concerned about cons versus kids, Mr. Sader is right. We have had any number of significant bills that eroded, in my opinion, the rights of people and there are more coming. On the other hand, if money is the criteria by which we cast our votes, then we are going to be facing the compassionate leave bill which has enormous numbers of dollars in it, and the facility capacities act which has enormous dollars in it. Now, if we are going to vote based on money, then you had better think very carefully, because that was the bottom line. If we set a precedent that all we care about is money and not doing the right thing; if we are concerned about cons versus kids, then let that be a standard for everything we do, not just sometimes. So if kids come first, I guess kids are going to have to come first on all those bills that carry significant amounts of money as opposed to this one.

ASSEMBLYMAN HALLER:

Point of order, Mr. Speaker. I have been tarred with a pretty wide brush. I did not vote the way I did because of cons versus kids. I voted because it was the right thing to do.

MR. SPEAKER:

I do not think your point is justified, Mr. Haller. It was on Order of Business 15. You can respond when she is done with her statement. Mrs. Williams, continue.

ASSEMBLYMAN MYRNA WILLIAMS:

My only point is that if we are going to vote based on that kind of a standard, we have an obligation to be consistent.

ASSEMBLYMAN HALLER:

"Consistency is a hobgoblin of small minds," was an observance by Emerson. I do feel I am consistent, however, in that we had a full blown public hearing, we had committee action, we followed the proper process and I really do not believe that it is correct to characterize people, and I have said it already as to their motives in voting in any situation.

Assemblyman Anderson moved the adoption of the resolution.

Remarks by Assemblymen Anderson, Evans, Haller, Giunchigliani, Myrna Williams, Carpenter and Mr. Speaker.

Assemblyman Porter requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. All too infrequently, we have the opportunity to honor those students who have achieved something of true noteworthiness. This resolution speaks to an athletic program which has brought excellence to a group of young ladies, who for the last three years have remained undefeated. It also speaks highly of the educational program in Washoe County, in fact, throughout this state and has finally recognized the importance of women in athletics at this level. This resolution fully attests not only to these young ladies' ability athletically but, also, scholastically.

Mr. Speaker, today we have the captain of the basketball team, Miss Kelly Ashby, who is one of the five valedictorians at Reed High School with a perfect 4.0 Grade Point Average. She will be going on to play basketball at St. Mary's College in Moraga, California. Five of these young ladies are seniors and will be graduating soon. On my right are the two coaches: Mr. Ed Shepard, who has just recently completed this winning streak, and Mr. Dick Allen, who started the winning streak. These people show the excellence of what a good program can do. Thank you, Mr. Speaker.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I, too, would like to rise in support of Assembly Concurrent Resolution No. 52. Coming from a much older generation, I remember the days when you had something called the limited dribble in girls' and women's basketball. You could only bounce the ball a couple of times and then you had to pass it on. It was a half-court game. That is, you had guards on one side, forwards on the other, and when you reached that magical center line, you had to pass it across to the other side. You simply could not carry the ball the full length of the court. In those days, it was thought that to play a full court and have unlimited dribble, sort of like the guys, was too taxing on young women who could not endure all that physical exertion. It just goes to show you how wrong you can be.

I think a lot of what has happened in women's sports is a result of Title 9 of the Education Act. Every now and then, the federal government does something decent. Back in the early 70s, when they passed Title 9 to give equity and some semblance of equality to women's sports, it changed irrevocably. We are proud that they have done so. We are delighted to have the Reed Basketball Team here today to honor.

ASSEMBLYMAN HALLER:

Mr. Speaker, I rise in support of Assembly Concurrent Resolution No. 52. A lot of people may not know it, but I spent a lot of time in Sparks. At the time I taught there, Sparks High School was the only school in town. Now all kinds of things have happened. On occasion, I have substituted at Reed. I am very, very proud of this group. I think a lot of people miss the point that athletics are important to the morale and other things as far as schools are concerned. I urge support of this resolution.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 52. I want to share a little story with you. As a school teacher for sixth, seventh and eighth grade students last year, the boys made a comment in class that said, "Women only belong in the kitchen and we really couldn't play sports." On behalf of my female students, we challenged the boys to a football game at the end of the school year. We beat them. I played on the team. That was something in and of itself. We wanted to try to get a message across, that we all can do anything we put our minds to. It is just not boys versus girls. I think these women are indicative of the fact that we are now on equal standing. I hope we see some of them back in the halls as fellow legislators in the future. Thank you.

ASSEMBLYMAN MYRNA WILLIAMS:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 52. For the past number of years, I have had the honor of being a presenter for the Lady Rebels when they have their awards. They are something to behold. The Lady Rebels team all have to maintain very high academic standards, the same as the young women who are joining us today. I wholeheartedly support this resolution. I certainly hope we see some of these young women on the Lady Rebels team in the future.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 52. The Elko Indians came in second, and I think we should make note of that. I know that only number one counts. In this instance, I want to take note that the Elko Indians were number two. Hopefully, next year we will be number one and my friends from Sparks will be number two. Thank you, Mr. Speaker.

Mr. Speaker requested the privilege of the Chair for the purpose of making the following remarks:

I do have my resident Fernley AA player right next to me. It brings back a story from my era. Back in about 1944 or 1945, Wadsworth still had a high school. They only had four boys and one girl in the high school. We didn't have divisions then, it was all state championships. They got to play in the state tournament, but they would not let the girl play. Things have changed for the better in 50 years.

Resolution adopted unanimously.

Assemblyman Anderson moved that all rules be suspended and that Assembly Concurrent Resolution No. 52 be immediately transmitted to the Senate.

Motion carried unanimously.

By Assemblymen Freeman, Marvel, Haller, Ernaut, Garner, Gibbons, Carpenter, Heller, Myrna Williams, Anderson, Evans, Lambert, Bache, Chowning, Schneider, Smith, Spitler, Segerblom, Collins, de Braga, Price, Kenny, Bennett, Sader, Hettrick, Neighbors, Petrak, Toomin, Humke, Scherer, Giunchigliani, Tiffany, Gregory, Arberry, Regan, McGaughey, Augustine, Perkins, Porter and Dini:

Assembly Concurrent Resolution No. 53—Expressing the position of the Nevada Legislature concerning discrimination in employment and sexual harassment.

Assemblyman Freeman moved that the resolution be referred to the Committee on Government Affairs.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, NEVADA 89710

May 11, 1993

THE HONORABLE JOSEPH E. DINI, JR., *Nevada State Legislature,* Capitol Complex, Carson City, Nevada 89710

DEAR MR. SPEAKER:

Last Friday, May 7th, I went to the legislative building to take pictures for use in a speech I will give to Public Administrators this Thursday.

Friday morning I visited many legislators while they were in their offices working. I talked to them about my project and took the pictures I needed.

Later in the day I returned to finish the project and at that time I entered some offices that were unoccupied. Without question this was bad judgment.

It was a mistake, one for which I accept total responsibility. I know members of the Assembly are offended by this conduct and that reaction is completely understandable and correct. To be very frank about it, I am quite embarrassed by my action.

Therefore, please accept this letter of apology to you and through you to each and every member of the Assembly.

Sincerely,

SCOTT M. CRAIGIE
Chief of Staff

The following amendment was proposed by the Committee on Transportation:

Amendment No. 419.

Amend the bill as a whole by renumbering section 1 as sec. 3 and adding new sections designated sections 1 and 2, following the enacting clause, to read as follows:

"Section 1. NRS 405.191 is hereby amended to read as follows:

405.191 As used in NRS 405.193 and 405.195, "public road" includes:

1. A United States highway, a state highway or a main, general or minor county road and any other way laid out or maintained by any governmental agency.

2. Any way which exists upon a right of way granted by Congress over public lands of the United States not reserved for public uses in chapter 262, section 8, 14 Statutes 253 (former 43 U.S.C. § [932),] *932, commonly referred to as R.S. 2477),* and accepted by general public use and enjoyment before or after July 1, 1979. Each board of county commissioners may locate and determine the width of such rights of way and locate, open for

public use and establish thereon county roads or highways, but public use alone has been and is sufficient to evidence an acceptance of the grant of a public user right of way pursuant to former 43 U.S.C. § 932.

3. Any way which is shown upon any plat, subdivision, addition, parcel map or record of survey of any county, city, town or portion thereof duly recorded or filed in the office of the county recorder, and which is not specifically therein designated as a private road or a nonpublic road, and any way which is described in a duly recorded conveyance as a public road or is reserved thereby for public road purposes or which is described by words of similar import.

Sec. 2. NRS 405.193 is hereby amended to read as follows:

405.193 *1.* No public agency is required to maintain any public road which is so designated only because it meets the requirements set forth in subsection 1 or 2 of NRS 405.191 nor is any public agency required to accept any public road as a main, general or minor county road.

2. No action may be brought against the county, its officers or employees for damage suffered by a person solely as a result of the unmaintained condition of a road made public pursuant to NRS 405.195.".

Amend section 1, page 1, by deleting lines 2 through 12 and inserting:

"405.195 1. [The governing body of any political subdivision affected by a public road which meets the requirements of NRS 405.191] *Five or more residents of this state may petition any board of county commissioners to open, reopen, close, relocate or abandon a public road within the county. The petition must be accompanied by proof of the petitioners' residency and adequate maps and documentation to justify a hearing on the petition. Upon receipt of such a petition and the required documentation, the board of county commissioners shall set a date to conduct a public hearing on the petition. The date selected must not be earlier than 30 days, nor later than 45 days, after the petition is submitted. In addition to any other notice required by law or ordinance, the board shall cause notice of the time, date and location of the hearing to be published at least once each week for 2 successive weeks in a newspaper of general circulation in the county.*

2. Upon conclusion of the public hearing, the board shall determine whether the road in question has acquired the status of a public road because:

(a) Construction of the improvement occurred while the land was unappropriated, unreserved public land;

(b) The improvement was constructed by mechanical means which made the physical change to the natural area necessary for the customary or usual passage of traffic; and

(c) The right of way was:
