The following amendment was proposed by the Committee on Education:

Amendment No. 420.

Amend the bill as a whole by deleting sections 1 and 2 and adding new sections designated sections 1 through 13, following the enacting clause, to read as follows:

"Section 1. Chapter 394 of NRS is hereby amended by adding thereto the provisions set forth as sections 2, 3 and 4 of this act.

Sec. 2. *1. The account for student indemnification is hereby created in the state general fund. The existence of the account does not create a right in*

any person to receive money from the account. The administrator shall administer the account in accordance with regulations adopted by the commission.

2. Except as otherwise limited by subsection 3, the money in the account may be used to indemnify any student or enrollee who has suffered damage as a result of:

(a) The discontinuance of operation of a postsecondary educational institution licensed in this state; or

(b) The violation by such an institution of any provision of NRS 394.383 to 394.560, inclusive, and sections 2, 3 and 4 of this act, or the regulations adopted pursuant thereto.

3. If a student or enrollee is entitled to indemnification from a surety bond pursuant to NRS 394.480, the bond must be used to indemnify the student or enrollee before any money in the account may be used for indemnification.

4. In addition to the expenditures made for indemnification pursuant to subsection 2, the administrator may use the money in the account to pay extraordinary expenses incurred to investigate claims for indemnification or resulting from the discontinuance of the operation of a postsecondary educational institution licensed in this state. Money expended pursuant to this subsection must not exceed, for each institution for which indemnification is made, 15 percent of the total amount expended for indemnification pursuant to subsection 2 or $10,000, whichever is less.

5. No expenditure may be made from the account if the expenditure would cause the balance in the account to fall below $10,000.

6. Interest and income earned on the money in the account, after deducting any applicable charges, must be credited to the account.

7. The money in the account does not lapse to the state general fund at the end of any fiscal year.

Sec. 3. *1. Except as otherwise provided in subsection 2, each postsecondary educational institution licensed in this state shall pay to the administrator a fee of $5 for each student the institution initially enrolls in a program for which the student pays a tuition or registration fee. On or before January 1, April 1, July 1 and October 1 of each year, each institution shall transmit to the administrator the fees required by this subsection for the immediately preceding quarter. The administrator shall deposit the money in the state treasury for credit to the account for student indemnification.*

2. The administrator shall notify each postsecondary educational institution licensed in this state if the balance in the account is $250,000 or more. If the balance in the account is $250,000 or more, a postsecondary educational institution is not required to pay the fee required by subsection 1. If the balance in the account subsequently falls below $250,000, the administrator shall notify each postsecondary educational institution licensed in this state that the fee must be paid until the balance in the account is $250,000 or more.

2. The administrator shall execute, direct or supervise all administrative, technical and procedural activities for which he is responsible in accordance with the policies and regulations of the commission and subject to the commission's direction and control.

Sec. 6. NRS 394.441 is hereby amended to read as follows:

The information must be provided before enrollment.

[4. An accredited institution may use the policy for cancellations or refunds published by the body by which it was accredited, if the policy is determined by the administrator to be reasonably comparable to that required by this section and the regulations of the commission.]

Sec. 8. NRS 394.480 is hereby amended to read as follows:

394.480 1. [Any] *Each* postsecondary educational institution *initially licensed on or after July 1, 1995, and each postsecondary educational institution* or other entity [employing] *not licensed in this state which is authorized to employ* one or more agents *in this state,* shall file with the administrator a surety bond in the amount of $10,000. [Any other post-secondary educational institution shall file a bond in the amount of $5,000.] The bond must be executed by the institution or other entity as principal and by a surety company as surety. The bond must be payable to the State of Nevada and [, except as otherwise provided in subsection 5,] must be conditioned to provide indemnification to any student, enrollee or his parent or guardian, determined by [a final judgment] *the commission* to have suffered damage as a result of any act by the postsecondary educational institution that is a violation of NRS 394.383 to 394.560, inclusive [. Except as otherwise provided in subsection 5, the] *, and sections 2, 3 and 4 of this act. The* bonding company shall provide indemnification upon receipt of written notice of [such judgment.] *the determination by the commission.* The bond may be continuous, but regardless of the duration of the bond the aggregate liability of the surety does not exceed the penal sum of the bond.

2. [The] *Except when a surety is released, the* surety bond must cover the period of the *initial* license to operate *, including any provisional period,* or the agent's permit, as appropriate . [, except when a surety is released.]

3. A surety on any bond filed pursuant to this section may be released after the surety gives 30 days' written notice to the administrator, but the release does not discharge or otherwise affect any claim filed by a student, enrollee or his parent or guardian for damage resulting from any act of the

postsecondary *educational* institution or agent alleged to have occurred while the bond was in effect, nor for an institution's ceasing operations during the term for which tuition had been paid while the bond was in force.

4. A license or an agent's permit is suspended by operation of law when the institution or agent is no longer covered by a surety bond as required by this section . [; but the] *The* administrator shall give the institution or agent, or both, at least [30] *20* days' written notice before the release of the surety, to the effect that the license or permit will be suspended by operation of law until another surety bond is filed in the same manner and amount as the bond being terminated.

5. If any student is entitled to a refund from an institution pursuant to any provision of NRS 394.383 to 394.560, inclusive, *and sections 2, 3 and 4 of this act,* the surety [is required to] *shall* provide indemnification . [only if and to the extent that the assets of the institution are insufficient, upon liquidation, to satisfy the claim.]

Sec. 9. NRS 394.510 is hereby amended to read as follows:

394.510 1. The commission may impose an administrative fine of not more than $10,000 against a licensee, revoke a license, or make a license conditional after its issuance, if the commission reasonably believes that the holder has violated the provisions of NRS 394.383 to 394.560, inclusive, *and sections 2, 3 and 4 of this act,* or regulations adopted pursuant to those sections, or has failed to comply with a lawful order of the commission. The administrator shall notify the institution of the reasons for the action by certified mail to its last known address, 20 days before the meeting of the commission at which the action will be considered.

2. If the commission revokes a license, the institution shall cease its operations and granting degrees and shall refund to each enrolled student the cost of his current course or program.

3. The administrator may impose an administrative fine of not more than $10,000 against an institution or agent, revoke an agent's permit, or make a permit conditional after its issuance, if he reasonably believes that the holder has violated the provisions of NRS 394.383 to 394.560, inclusive, or regulations adopted pursuant thereto. Before action is taken, the administrator shall notify the holder by certified mail of facts or conduct that warrant the impending action and advise the holder that if a hearing is desired it must be requested within 10 days after receipt of the notice letter. If no hearing is requested within the prescribed period the action becomes final.

4. If an agent is fined or his permit is revoked or conditions imposed, the administrator shall notify, by certified mail, the institution the agent represented in addition to the agent and any other parties to any hearing.

Sec. 10. NRS 394.520 is hereby amended to read as follows:

394.520 1. Until 1 year after the last date of attendance or date on which the damage occurred, whichever is later, a person claiming damage as a result of any act by a postsecondary educational institution or its agent, or both, that is a violation of NRS 394.383 to 394.560, inclusive, *and sections 2, 3 and 4 of this act,* or regulations [promulgated] *adopted* pursuant thereto, may file with the administrator a verified complaint against the

institution, its agent, or both. The complaint must set forth the alleged violation and contain other information as required by regulations of the commission. A complaint may also be filed by a commissioner or the attorney general or initiated by the administrator.

2. The administrator shall investigate any verified complaint and may, at his discretion, attempt to effectuate a settlement by arbitration, mediation or negotiation. The administrator may also consult with the applicable accrediting body to resolve the complaint. If a settlement cannot be reached, the administrator shall render a decision and notify each party of the decision and the reasons for it by certified mail to his last known address. Either party may request a hearing before the commission by notifying the administrator by certified mail within 15 days after the decision was mailed to him. The hearing must be held at the next meeting of the commission in the geographical area convenient to the parties. If a hearing is not requested, the decision of the administrator is final.

3. If, after consideration of all the evidence presented at a hearing, the commission finds that a postsecondary educational institution or its agent, or both, are guilty of the violation alleged in the complaint, it shall issue and the administrator shall serve upon the institution or agent, or both, an order to cease and desist from the violation. If the commission finds the institution has substantially failed to furnish the instruction or services agreed upon in the agreement to enroll, it shall order the institution to make full restitution to the student of all money paid pursuant to the agreement. If the commission finds that the institution has substantially furnished the instruction or services agreed upon in the agreement to enroll, but that conditions in the school were sufficiently substandard that it was not reasonable to expect the student to complete the instruction, the commission shall order the institution to make restitution to the student of one-half the money paid pursuant to the agreement. The commission may also, as appropriate, based on the administrator's investigation and the evidence adduced at the hearing, or either of them, institute proceedings to revoke an institution's license or recommend that the administrator institute proceedings to revoke an agent's permit.

Sec. 11. NRS 394.540 is hereby amended to read as follows:

394.540 1. [All] *The* fees *imposed pursuant to this section* must be collected by the administrator and deposited in the state treasury to the credit of the state general fund, and no fees so collected are subject to refund.

2. The fees are:

(b) For an application by an unlicensed out-of-state educational institution to employ agents in this state	1,000
(c) For a change of ownership	750
(d) To add a new degree or vocational program	500
(e) For an initial agent's permit	200
(f) For the renewal of an agent's permit	100
(g) For a transcript of an academic record which is in the possession of the administrator pursuant to NRS 394.550	5

3. In addition, the administrator shall collect from each licensed postsecondary educational institution a fee [equal to] *of* $4 for each student from which the institution has received tuition or registration fees. The institution shall collect this fee from each such student at the time of the student's initial enrollment with the institution. On or before the first day of January, April, July and October, the institution shall transmit to the administrator the fees collected pursuant to this subsection during the preceding quarter. The administrator shall deposit the fees so transmitted with the state treasurer for credit to the state general fund.

Sec. 12. A postsecondary educational institution licensed in this state before July 1, 1995, which has filed a surety bond pursuant to NRS 394.480 shall maintain a bond in effect until at least December 31, 1996.

All present.

Prayer by the Chaplain, The Reverend Randy Talcott.

Almighty God: We humbly stand before Your presence. Use this Assembly as ministers of Your pleasure. We commit our state, our Governor, our leaders and all its citizens into Your hands. Make us pure and just. Give us courage and faith to make the right decisions. Make us cautious and prudent, yet fearless. Give us wisdom to pause when the path is unclear and give us boldness to refrain from hesitancy when we know what we should be doing. Grant those here to speak and act with the best intentions for the people of our state. As servants of the common good, may this Assembly meet every problem and every task with the greatest of integrity and with sincere hatred of all pretense and expediency. Even in the clash of minds wrestling with thorny questions, grant us the art of disagreeing without being disagreeable, remembering ever that a soft answer turns away wrath and that he who keeps his own spirit is greater than he who takes a city. We ask Your blessing to this end. For Christ's sake. AMEN.

Pledge of allegiance to the Flag.

Assembly called to order at 11:05 a.m.

Speaker Hettrick presiding.

Roll called.

All present.

Prayer by the Chaplain, Jerry Peterson.

Heavenly Father: I ask for Your presence here this morning. Lord, please bless these assemblymen and assemblywomen as they carry out their work today. May You keep their minds sharp and their tongues soft. Make their skin thick and their hearts tender. May You give them the courage to not simply do the expedient, but to do the necessary. Father, grant to them the ability to see the impact of their decisions, for they are unable to see the future in their own abilities. In the times they seem to be in a no-win situation and they turn to You, give them Your wisdom and insight. Help them separate the emotions from facts. I ask that You might be with them now as they proceed with business. At the close of the day, may they sense that they have been guided by Your hand. These things I ask in Christ's Name. AMEN.

WHEREAS, Throughout the debate there was one principle that never varied and was agreed upon by an overwhelming majority of Nevadans and that principle was Nevada's forceful and unyielding opposition to the permanent storage of high-level radioactive waste and spent nuclear fuel in Nevada

and any amendment of the Nuclear Waste Policy Act which would allow the siting of an interim storage program or monitored retrievable storage program in Nevada; and

WHEREAS, The State of Nevada has studied the economic, social, public health and safety and environmental impacts that are likely to result from the transportation and storage of high-level radioactive waste and spent nuclear fuel and has conclusively determined that transforming this beautiful state into a nuclear waste disposal area would pose a severe threat to the health and safety of the current and future generations of Nevadans and have devastating consequences on the tourist-based economy of the State of Nevada; and

WHEREAS, The environmental wonders of this state, from the rim of the Red Rock Canyon, the dramatic depths of the Lehman Caves, the lush alpine meadows and the clear mountain streams of the Great Basin National Park to the heights of the spectacular Ruby Mountains, through the wondrous Black Rock Desert to the emerald shores of Lake Tahoe Basin, through the plethora of wonderful wilderness areas to the glimmering waters of Lake Mead, are far too special a treasure to be".

Assemblyman Bache requested that Assemblyman de Braga's remarks be entered in the Journal.

Thank you, Mr. Speaker. I rise not in favor of, nor in opposition to Senate Bill No. 139, but in the hope of clarifying the stand I am about to take.

As a freshman legislator, I was confronted with a bill that added an aggravating circumstance to the list of crimes for which the death penalty could be applied. I voted against it because I have a philosophical conviction against killing, and because it is very difficult for me to accept the premise that one life is somehow of greater value than another.

A similar bill surfaced early in this session, and again I voted against it because my basic views have not changed. In so doing, I knew full well that my vote was not going to have any impact on the outcome of the bill or on the future application of capital punishment in this state.

Now, I am faced with Senate Bill No. 139. I am torn between two critical questions. Even though I remain firm in my conviction that the death penalty does nothing to deter crime and that once it is imposed all punishment for that criminal ceases, my conscience and I have engaged in significant battles over this bill.

In light of the recent events in Oklahoma City and the increase in crimes that are indefensible by any known measure, I am going to vote in favor of Senate Bill No. 139. I know my conscience is not done with me yet, but I also know that an unmistakable message has to be sent that the taking of human life, especially that killing which is motivated solely by unreasoning hate, must stop.

Speaker Hettrick requested the privilege of the floor for the purpose of making the following remarks:

I happened to attend the Western Nevada Community College graduation ceremonies last night for a friend of mine, and in the middle of that ceremony, I saw this familiar face and a familiar name was mentioned. Nicole Geissler graduated last night as a Phi Theta Kappa with her Associate's Degree in General Studies. Please help me give her a big hand for working and going to college.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 17, 1995

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 35.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 35.

Assemblyman Humke moved the adoption of the resolution.

Remarks by Assemblymen Humke, Evans, Anderson and Dini.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I noticed the resolution contains a host of items about this wonderful man and his wife and family. I was taken by the phrase, "exuberance for life." I was also taken by the other phrase, "life-long service." I think that most importantly quantifies Mr. Jones' feeling toward his community as well as his wonderful wife, Martha. And I would like to say that Mr. Jones will be remembered for many, many generations to come along with his wife Martha based on their gratitude and philanthropy to one of their most important recipients which was the University of Nevada, Reno.

It is so difficult to find words for the gratitude that we feel for Mr. Jones because of the tremendous service he did for Reno, Sparks and the entire Nevada community. I wish to impart to you the importance of this resolution and urge adoption. Thank you.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 35. I notice in the resolution it mentions Clarence Jones as one of Nevada's foremost citizens. I would have to say that is an understatement. I thought of Clarence Jones as a Renaissance Man who had a reputation as a no nonsense businessman. But few people in our community had a more loving, caring, and giving heart and I would certainly have to say that applies to Martha.

Clarence grew older, but he never grew old. Until the end, he was always excited with new things. He thought the computer was just a dandy device. He was interested in something called "artificial intelligence," and he was always sending copies of the various publications and journals on artificial intelligence to me at the School of Medicine to pass along to our faculty and students. He wanted to make sure everybody was up to date.

Clarence's memorial service in Reno was held on campus in the Redfield Theater, a very large facility. And I must tell you, every seat was taken. As a tribute to Clarence and

his contributions to the community, as a tribute to Martha and to their daughters, I can think of nothing finer than that expression of love from the community. Clarence, we miss you.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I also rise in support of the resolution. As a young man I was actively involved in junior achievement programs and entrepreneurial education. I know that some of you may find that difficult to believe. At that time, Clarence was pushing the program and because of his leadership, that became a really important part of our community by providing a different point of view and experience for young people. I know from having had the opportunity to deal with his daughter over the last several years, Ms. Carlson continues to reflect that same kind of dedication to make a difference in lives, and I remember with great fondness, Mr. Jones and his caring attitude about kids.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker. I knew Mr. Jones for many years and through the Masonic Order got acquainted with him when I was initiated into the Scottish Rite, and he served as Grand Master. He believed in high principles in Masonry and of the Golden Rule of treating other people like you wanted to be treated. It was always his goal to give back to the people of the State of Nevada the things that he gained here materially, and I think his record reflects that he was a great man to be serving us.

Resolution adopted unanimously.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 17, 1995

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 36.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 36.

Assemblyman Evans moved the adoption of the resolution.

Remarks by Assemblymen Evans and Dini.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. As you can all tell by the content of this resolution, Mr. Cooke was a prominent member of our Reno community.

I would like to add an additional note, something that many of you may not know, because he certainly did not take credit for this activity or draw attention to himself. Tom Cooke took it upon himself to be a one-man support group for victims of Guillain-Barre Syndrome.

Guillain-Barre Syndrome, sometimes called French Polio, is a dreadful virus that can strike anyone at anytime without warning. What happens to you in a very short period of time is that you become paralyzed. Paralyzed to the point where you need a respirator, to be fed intravenously, and if you are lucky, you will still have the ability to blink your eyes.

Guillain-Barre Syndrome happened to Lieutenant Governor Sue Wagner two months after her dreadful airplane crash. She didn't know what was happening to her or why. It wasn't immediately diagnosed. Tom Cooke, when he found out she was hospitalized, immediately went to her bedside, visited her many times and explained the nature of this terrible illness. He told her, "You can recover. You can recover anywhere from a little bit or all the way." Since he had been victimized, he said be of good cheer, good heart and do all the things in therapy and she would have a great opportunity for full recovery.

Sue asked me to especially share this with all of you today, because his presence and help meant so much to her. As we recognize and remember Tom Cooke for all the wonderful things he did in our community, this is a great contribution that he made and one for which he was not recognized, but all of us owe him a great debt of gratitude. Thank you, Mr. Speaker.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker. I had the privilege of knowing Tom for many, many years. First in the Democratic circle, and also as the chairman of the Comstock Historic District, which is a body that was created by this legislature and the State of Nevada in participating in preserving the history of the Comstock in Virginia City. He served there very strongly and did a great job in starting the preservation.

Tom was also involved in the preservation of Lake Tahoe. He served on the previous TRPA commission. While we were negotiating in 1980 for a new contract, Tom was very helpful. He came to visit me on more than one occasion with Senator Wilson to help us make our deliberations on that important subject. He really did a great job in preservation and in the environmental areas for our state. He must surely be remembered by our body.

Resolution adopted unanimously.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

ASSEMBLY IN SESSION

Remarks by Speaker Hettrick.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. Among the many tasks we perform in a legislative session, one of the more difficult is acknowledging that some of our closest and dearest friends and colleagues are no longer with us.

Today we pause in remembrance of Jeanne Dini, who for so many years was a central figure in the Nevada Legislature and especially in this Assembly.

It is sometimes challenging for a woman who is married to a very successful, high-profile man to find her own voice and her own place in this world.

This was not the case with Jeanne. She was a loving and devoted wife, mother and grandmother who took great pride in her family, but she had a mind and a life of her own. She pursued many interests and provided creative leadership to an array of civic activities and state projects. Jeanne was well known for her efforts on historic preservation and my vivid recollection is of her support for health and mental health issues. Jeanne was often found in our Assembly Health and Human Services Committee testifying on those issues. Our rural hospitals and rural mental health clinics found a true friend and advocate in Jeanne Dini.

As I think back over the many outstanding Nevada women that I have known and worked with, Jeanne Dini will always remain at the top of the list of those I most admire. She gave unselfishly of her time and talent to her family, her community, the State of Nevada and certainly to this legislature. Her record of public service is to be envied and is missed. Jeanne always set an example for us in keeping her focus on what was best for all Nevadans.

On a personal level, I miss Jeanne very much. She had a quick mind, a big heart, a generous spirit and a great sense of humor. It was fun just to be with her.

Yes, Jeanne had many fine qualities and one of her defining characteristics was loyalty. Jeanne watched over her family, her friends, and most especially, Joseph E. Dini, Jr. He was the love of her life and the apple of her eye. Woe be to anyone who spoke unkindly about Joe Dini and woe be to any misguided soul or campaign opponent who tried to besmirch his reputation. Jeanne would seek them out, get in their face and set the record straight.

Jeanne, we know you are looking down from Heaven and still watching over us. As we celebrate your life and many contributions, we say thank you for doing so much for so many. God bless you.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 34. I would like to make some comments about Jeanne Dini. It seems like it was just yesterday when I came into this chamber as a freshman and I would like to share a brief story with this body.

My wife and I happened to be in one of the local Carson City stores when I first arrived in town. Coming from and growing up in Las Vegas, to me Carson City seemed like a foreign country even though I had been up here once before. Anyway, my wife and I were

in the local store trying to make a purchase for some merchandise for our moving, and we presented a check to the clerk. The clerk told me that the check was out of state because it was from Las Vegas. I proceeded to tell her that this was an FIB check and that I was sure that FIB was up north. Jeanne Dini overheard the conversation. I didn't know her at the time. I had heard of her and of the Speaker, but I didn't know her. She came to our rescue. She walked over to the clerk and told the clerk, "Excuse me, can we have your manager?" The manager came out and after Jeanne Dini got through, I said, "I don't know who this lady is, but she is all right!" We got our merchandise.

Anyway, I just wanted to share this with you. She made us feel warm because, like I said earlier, when you come into this chamber and you are a freshman and you don't know anyone, you are a little afraid. After a while, you feel comfortable because we become a family. She made us feel like a family.

When we traveled, she was into clocks as some of you might know. She would go find old clocks, fix them and make them work. Well, my wife is into clocks. She doesn't go find old clocks. She finds new clocks that are already working!

I found out about the Garlic Festival in California and I said to Jeanne, "Let's go to the Garlic Festival." She said, "No, all the garlic is grown in Yerington and we ship it to the Garlic Festival."

Anyway, Mr. Speaker, we will miss her. She will always be in our hearts, with you and with us. God bless the family.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. Too often, we don't get time to say thank you and I think that this is an opportunity, maybe a little bit late, to say thank you to Jeanne Dini.

In my first term, I referred to her as "Mom." Her arms were always open. You always knew where she stood, unlike the Speaker sometimes, whose fingerprints are never on anything. With Jeanne, you always knew and I admired that about her because she was forthright on her positions and fought for those positions. In fact, what I always appreciated when Gary and I would go through Yerington was that the house was always open to us. Maybe Joe didn't always realize that, but she always made us welcome and made it a home for anybody that traveled through the area. In fact, one time Jeanne and Joe stayed at our place at Mt. Charleston and Jeanne tried to buy our couch because it was so comfortable.

For those of you who don't know, Joe and Jeanne survived a horrible accident many years ago and her back was severely injured. She had difficulty sleeping. One time, when she was at Mt. Charleston, she fell asleep on the couch and decided she was going to take it with her. It was very difficult to convince her not to. That was the type of person she was.

She truly epitomized "community spirit." In that way, she lives on with us because of her activities and her involvement. The one thing that I would like to thank her and the Speaker for is what I saw in their relationship. That is an impression that Jeanne left with me and my husband and for that I want to say "thank you."

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 34. When you have been around here since 1979, you forget about your partisanship. I think you look more to comradeship and the friendships that you initiate while you are here. And certainly, Jeanne Dini became very close to Willie and me. There has been a tremendous void in this legislative building without the presence of Jeanne Dini. I had the opportunity to work with her on historic preservation. I admired her enthusiasm and her vigor. To Joe and the family, she is going to be sorely missed. But I will tell you one thing, her fingerprints are going to be all over the State of Nevada.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 34, also. You know, once we are elected, all of us become a part of a rather unique community. We are thrown together for a very intensive legislative period in which we spend time agreeing, disagreeing, arguing, building coalitions and tearing them down. We learn a lot about each other during this process. We learn consistencies in our colleagues'

behavior and we sometimes learn and experience inconsistencies in our colleagues' behavior. We meet families and friends of those here at the legislature and, in some cases, we see first-hand how fortunate our colleagues are to love and be loved by such wonderful people. It's in that context that I stand today to honor and remember a very special person.

I first met Jeanne in 1985 when I was a lobbyist and very new to this process. She and I sometimes sat together in the gallery where Mr. Hawes is sitting now. There would also be friends of hers from Yerington sewing or working cross-word puzzles. She was organizing everyone. We would critique a lot of the goings-on. I saw the kindness and genuine concern she had for everyone including her family, her friends, legislators, staff and absolutely anyone in need. In whatever she got involved, it got taken care of.

My next memorable event occurred when a legislator and I were driving to Carson City from Las Vegas. We made the usual stop at Dini's Lucky Club in Yerington. We were going to have dinner there and visit with the Dinis. We found the restaurant closed and no Dinis around. Mr. Speaker was out of town. Jeanne left her home, opened the kitchen and cooked a dinner for her friends. There was absolutely nothing that she wouldn't do for those she cared about and you could have a stranger with you and they were treated beautifully.

My memory of Jeanne will always be of her intense loyalty to her family in good times and bad; her concern for the legislative process; her love of Nevada and unending dedication to the restoral of the Yerington Grammar School No. 9. If you need to know about that commitment, just go back to 1991 and read the minutes of the Ways and Means Committee.

In closing, Mr. Speaker, I remember once several years ago driving through Washoe Valley and being passed by the Dinis, and I might add, at high speed. The license plate read then as it does now "Mr. Speaker." I thought to myself that the plate really should read "Mr. and Mrs. Speaker." Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. It is difficult to find the words to describe thoughts and feelings on Jeanne Dini. The previous speaker alluded to the fact that once you got to know Mr. Speaker and you got to know Jeanne there really was no partisanship. By the way, I suggest to all members, if you haven't really gotten to know Joe Dini as a friend, you have missed a tremendous bet in this organization. Both Joe and Jeanne have always been extremely gracious and loyal.

I was particularly taken by one phrase in the resolution. "Jeanne Dini deeply respected the legislative process." That means a lot to me and I know it means a lot to Mr. Speaker. It means a lot to most of the members here, but the Dinis both proved that every day.

I just wanted to relate an anecdote about Jeanne's humor and graciousness. I was on several trips with Jeanne and Joe, usually on Western Legislative Conference business. We were coming back from Guam, half-way around the world. We stopped in Honolulu after about an eight-hour flight, after having eaten too many peanuts and drank too many cokes and coffees and were unable to get some sleep. We had a two-hour layover. Too short a time to go anywhere and too long a time to appreciate any rest. Jeanne Dini spent her time split between her concern for some friends who had moved to one of the islands and had experienced a hurricane and had received some property damage. Her other concern was to keep everyone entertained. She managed to do both. There were two hours of phone call attempts interspersed with two hours of nonstop, unadulterated banter which had us all in stitches. It is a time that I will never forget. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 34. I used to wait in great anticipation for all the goodies that Jeanne would bring into this building. I can still see her walking down the hallway with both arms full of great morsels. But what I remember most about her was her unfailing loyalty to our Speaker. When the going got tough, the tougher she would get. I just want to extend my sympathy to Mr. Speaker and members of his family. Thank you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I, too, humbly rise in support of Assembly Concurrent Resolution No. 34. The first time that I met Jeanne Dini was the same time that I met Joe, in 1966. I was a political neophyte and I met them at a function in Yerington. At that time, long before I got into the legislature, I had enough money to have a small airplane and I was flying a gentleman around who was campaigning for Governor against Mike O'Callaghan. He had heard about this up-and-coming young man in Yerington by the name of Joe Dini. They were having a Democratic function at the National Guard, so we flew in and went over and met Joe and Jeanne.

Years later when I came to this body, we became great friends and everything that has been said about her is so true and so wonderful. Jeanne and I both collected political buttons and various memorabilia dealing with politics, and many times over the years she would get some political button for me that I didn't have and I would get something for her when I was around collecting and we would exchange those.

She was such a wonderful supporter of Joe, of Nevada, of her family and the process. She was just a tower of strength. Nancy and I visited her in the hospital the day before she left us. I walked away thinking that she was getting better. She was so cheery and pleasant on that particular day and then of course we were in Interim Finance when we heard the news that she had gone on above. I am proud to be in support of this resolution. Our condolences to the family and Joe. We know she is looking down on us.

GOVERNOR MILLER:

Thank you for allowing me the opportunity to speak in this chamber. Nevada, as we all know, is the Silver State. Perhaps in more recent years, we have become more famous for mining precious gold. But, no amount of silver or gold, that has ever been mined in Nevada, or ever will be, can amount to the value of Jeanne Dini to this state.

She has been amply described by so many others in this body. I don't think that there is much more that can describe her personality. She was full of life; a wonder to behold. Certainly, she was outspoken. She not only lobbied members of the legislature, but I can assure you that she lobbied governors as well. She didn't take "no" for an answer. I'm sure many of you found that to be the case.

Jeanne was devoted to her community. The evidence, thereto, I think was how she was held in regard at her funeral. Her funeral was held in a gymnasium. No event in that gymnasium has ever had as many people as there was present to honor Jeanne.

Her passing was a shock to all of us. I know, I had visited her in the hospital, too. I had constant conversations with Joe. All of us thought she had passed the more critical time and was on a fast road to rehabilitation, but it proved tragically to be otherwise.

She has left this state a great legacy. A marriage that is the envy of any who have had the opportunity to witness it. A bevy of children in whom she had so much pride. A community in which she devoted her tireless energies and a state she loved and exemplified by her own actions day in and day out. Her passing is something that all of us should mourn. I commend this body for recognizing the many contributions that Jeanne Dini has made to our state.

Speaker Hettrick requested the privilege of the floor for the purpose of making the following remarks:

I didn't know Jeanne for very long. I didn't have the privilege of getting to know her very well. But, the one thing that I do remember, is a wonderful lady with a great smile and she always had a twinkle in her eye. She was always happy and friendly. She was such a joy to be around.

Resolution adopted unanimously.

Assemblyman Evans moved that all rules be suspended and that Assembly Concurrent Resolution No. 34 be immediately transmitted to the Senate.

Motion carried unanimously.

REMARKS FROM THE FLOOR

Assemblyman Ernaut requested that Assemblyman Dini's remarks be entered in the Journal.

Thank you, everyone, for the kind remarks and wonderful resolution. They greatly honor and please Jeanne and her entire family.

I'm especially proud to be joined at my desk by my four sons. As you see, we grow them big and bigger.

As you know, no one runs for office alone; it's a family affair and most certainly Jeanne was my greatest supporter.

To be sure that relationship which started on a blind date and lasted 47 years, lasted a long time. We had challenging times and lots of fond memories, including this wonderful family. In fact, my newest great-grandson Evan, all three weeks of him, is proof positive that the Dini family is still going strong.

Today, Jeanne would want me to thank all of you here who sent thoughts, prayers and encouragement to her and the family during her illness. I am grateful for all the support we received.

Jeanne spent many hours in this Assembly Chamber and loved this process. It was a big part of her. Last session, we had a bill that we needed for the small rural hospitals, and we had a lobbyist here who went down and talked to Senator Townsend about an amendment on the bill and was told, "No, you can't do that. You will have to get your own bill and then we will pass it." Within 24 hours, it was on the Governor's desk and this lobbyist said, "How did you do this?" I just turned Jeanne on it and it was done.

Jeanne kept track of things here. One thing about it, she never interfered with my legislating. She didn't tell me how to vote. We had a few discussions about a few subjects, but it was my final decision. It was just like my decision to run this last time. We talked about it. She was tired. She said, "You do what you want to do." So, I decided and that was the way it would work.

On behalf of the family, I want to thank you all for your kindness and the wonderful words that were said here today. Thank you, so much.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 17, 1995

To the Honorable the Assembly:

Assembly Concurrent Resolution No. 35—Memorializing former Legislative Counsel Russell W. McDonald.

WHEREAS, The members of this session note with sadness the passing of Russell West McDonald, who served our legislature and the people of this state for so long as Legislative Counsel and in other public offices; and

WHEREAS, Russ McDonald was a native Nevadan, born October 8, 1917, in Reno to Thomas M. and Juanita West McDonald; and

WHEREAS, After beginning his education at the University of Nevada and spending 2 years at Oxford University as a Rhodes Scholar, he entered the United States Navy to serve during World War II and attained the rank of Lieutenant Commander; and

WHEREAS, He completed his education at Stanford University School of Law after the war and was admitted to the State Bar of Nevada; and

WHEREAS, He served as Assistant City Attorney of Reno and codified the ordinances of Washoe County and the cities of Reno, Sparks, Winnemucca and Lovelock; and

WHEREAS, He was appointed in 1951 as Director of the Statute Revision Commission which was composed of the Justices of the Supreme Court and charged with revising the statutes of the state; and

WHEREAS, Under the supervision of the justices, he took the mass of statutes which had accumulated over 90 years without being authoritatively harmonized and weeded out the inconsistencies, producing for enactment by the legislature in 1957 the Nevada Revised Statutes, which comprised "all laws of a general, public and permanent nature" as of January 21, 1957; and

WHEREAS, During the progress of that work and after its completion, he drafted, with the aid of a small staff of lawyers, all bills and resolutions and any amendments thereto introduced in the Nevada Legislature, so the coherence of the Nevada Revised Statutes could be preserved; and

WHEREAS, Upon completion of the revision of the statutes, he and his staff began digesting all of the opinions of the Supreme Court to prepare annotations to the Nevada Revised Statutes and a topical digest of the Nevada Reports, a task initially completed around 1965 and continuing in the annotations now integrated with the statutes as a responsibility of the Legislative Counsel; and

WHEREAS, He had a strong social side as well, attested by his many friends and his affiliation with the Free and Accepted Masons, the Order of Nobles of the Mystic Shrine, the Benevolent and Protective Order of Elks, and the Independent Order of Odd Fellows; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the members of the 68th session of the Nevada Legislature offer their condolences to the family and friends of Russell W. McDonald; and be it further

Remarks by Assemblymen Dini and Marvel.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

Thank you, Madam Speaker pro Tempore, and members of the Assembly. It is indeed my pleasure to be able to speak to you on this resolution.

I came here in 1967, and the first person I ran into in the old building was Russ McDonald. He was the whole show. The Legislative Counsel and the director, and was a one-man show down there in the old building. He didn't have much staff, either. I think Ann was his secretary, and there might have been another attorney floating around the building if you could find him.

His record is very impressive. His education was outstanding. If you knew the man, you knew he was a take-charge man. A man who could do the job and didn't mess around. He just did it and that was the way he operated the Counsel Bureau in those days.

He is the father of our NRS. He was commissioned to do the NRS because there wasn't any NRS before 1957. The Nevada Supreme Court had him gather a lot of the laws together and compile them. It takes a brilliant man to do that. He was the right man at the right time for the Nevada Legislature and for the State of Nevada to produce the NRS.

I was involved with him in the Masonic Order and when I was inducted into the Scottish Rite, just a few years ago, Russ gave the charge for me on the 18th or 19th Degree and did that beautifully. A man of his age and memory and that night was just like he was here at the legislature. I appreciated being inducted by him.

His family is here with us today. He leaves a record that can never be obtained by anyone else as far as running this show and in doing the legal end of this important

function in government. I don't know if anyone else can ever match that in the history of this state. I want you to know that in my heart, he was the Nevada Legislature when I arrived here in 1967.

We had a few battles, but sometimes you had to go in and say, "Russ I need a bill." He would say, "I'm pretty busy." Then he would look down the schedule and say, "Well, you've only asked for three this session, so I guess I can put that on the schedule." The next morning when you came into the building there was your bill. And, that was the way he operated. He portioned the bill drafts on occasion, and if he thought you weren't getting enough bills he would take care of you. Sometimes, it was a short staff and we didn't have the magnitude of bills that we have today. He certainly didn't have the staff to go with it. He was a one-man staff.

I will never forget the impression he made on me. He is thoroughly missed by those of us who knew him well. I wish everyone of you could have known him as I did.

ASSEMBLYMAN MARVEL:

Thank you, Madam Speaker pro Tempore. I didn't have the pleasure of working with Russ at the legislature.

When I was elected in 1979, Russ spent a great deal of time around these legislative halls. You might say he was a walking encyclopedia, because if you had any subject you wanted to know something about, just ask Russ. Immediately, he had an answer for you or the NRS citation.

He really was phenomenal in his own right. As Speaker Dini said, we are affiliated in the Masonic Order, in the Scottish Rite and Masons. Russ was in the 33rd Degree which is one of the highest orders you can achieve in Masonry. We certainly want to send our condolences to the family. Russ was an institution and just a fine person.

REPORTS OF COMMITTEES

Mr. Speaker:

Your Committee of the Whole has met and reports back that it has considered Assembly Resolution No. 9.

WENDELL P. WILLIAMS, *Chairman*

Assemblyman Batten requested that the following remarks made during the Committee of the Whole be entered in the Journal.

DENISE DUARTE:

I am Denise Duarte representing the Nevada Women's Lobby. The Nevada Women's Lobby supports Assembly Resolution No. 9. We applaud Assemblyman Thomas Batten's efforts to bring forth this topic for open discussion. It is our hope that this discussion will prove to be a catalyst for our society to move beyond simple compliance of the law, to a natural progression of embracing diversity.

We agree that the concept of affirmative action was based on fairness and equal opportunity and that the ideal has yet to be realized. The original intent of affirmative action was to establish a message to achieve social awareness and create a role model for our society as a whole to emulate.

It has been well documented that white males still maintain a position of power in many aspects of American lives. The United States Department of Labor's Glass Ceiling Commission recently reported that white males possess 95 percent of top management positions. Women comprise 51.5 percent of low-income earners according to the United States Bureau of the Census in 1992. The wage disparity is further illustrated by comparing people of color. For instance, black men earned 74 percent of white males; Hispanic men earned 64.8 percent; black women earned 63.7 percent and Hispanic women earned 53.9 percent.

Since the lives of all people are inherently valuable and worthy of respect and dignity, we must actively work against barriers of race and gender. The Nevada Women's Lobby believes that we should value human differences as a competitive advantage, and our

society should to a multi-culturistic perspective. We are on the path to obtaining a pluralistic culture which will reflect all of the interests, contributions and values of all of its members. Yes, we have been on this path for a short time and since we have not yet reached our destination, we should not change course now. The current accepted definition of social change is, "the alteration in patterns of social structure, social institutions and social behavior over time." We must allow the natural progression to continue. Nevada should promote the doctrine that all people are equal and their economic contributions are valued in our society. Please make this statement by voting in favor of Assembly Resolution No. 9. Thank you.

MARGO PISCEVICH:

Mr. Chairman, members of this Assembly. My name is Margo Piscevich and I am the President of the State Bar of Nevada. I am not here, however, on behalf of the State Bar of Nevada. I am here on behalf of myself as a woman practitioner for the past 25 years. I'm naturally appalled that there are states in the country that are considering abolishing affirmative action. There never has been and never will be an equal playing field in our country. Anyone who believes that there is, is literally rewriting history. We believe that we have a system based on merit. But then if we did, why was there a need for affirmative action? If people believe that the system was made on merit and there is no need for affirmative action, they really need to go back to all of the history books from day one for the last 300 years. In this country, merit has really primarily meant being American means white, Protestant, and male. Thirty years ago where were we? In downtown Reno, blacks were not even allowed to be guests of hotels and casinos. Where were women? Sandra Day O'Connor, the first woman to be on the United States Supreme Court, graduated from Stanford Law School. She looked for work and was offered a position with a prestigious San Francisco firm as a legal secretary.

Look at the history of unions. It's well documented in New York City that if you are not a relative, you are not a member. That had a preference all of its own. If you look at higher education, there's even a higher preference. In private schools, it's called the legacy tag. That means if you are the son or daughter of an alumni, you have a preference in getting accepted. This group is very seldom looked at. However, statistics prove that there are far, far more legacies in private schools than there are combined Asians, blacks, and women.

I think one of the primary benefits and the primary receivers of affirmative action have been women. There's no doubt about it. I was the only woman in my law school when I entered 28 years ago and now approximately 50 percent of the classes are women. In the next century, you will see members of the Bar comprised 40–50 percent by women.

One of the things that I think is a myth about affirmative action is that there is now discrimination against white men. I would like to assure you that reverse discrimination is not a significant problem. According to the U.S. Department of Labor, a study conducted by Rutgers University of Law, Professor Alfred Blusenroe reports that a majority of the discrimination claims brought by white men are without merit. Of the more than 3,000 federal court decisions issued in discrimination cases between 1990 and 1994, less than 100 involved reverse discrimination claims. Furthermore, only six of those reverse discrimination claims were successful.

Affirmative action does not give an excuse to abandon qualifications as a criteria. I think the people think that now you don't need to be qualified in order to get the position. In order to prevail in a civil rights action, obviously you must be a member of the protected sex, but you must be qualified for the position or the promotion. Affirmative action is not an excuse to circumvent the qualification criteria. And that, to me, is where we are making great strides backwards in this country if we try to do away with what has made this country great.

My family came here with both sets of grandparents from Yugoslavia and from the British Isles. Why did they come here? For an opportunity, for freedom. It's that diversity that has made every one of us work in this community and in this nation. All of us came from somewhere and we need to understand that that still needs to keep going. I urge the passage of this resolution and thank you for your time.

JAKE HIGHTON:

I teach journalism at the University of Nevada, Reno. I apologize for not being a sociologist, a Ph.D., a woman, a black, a Latino or Native American. But still, I can speak passionately about the need for retaining affirmative action. It gives women and minorities the opportunities that society still denies them. The truth is that this is a male-dominated society. White males, with only one-third of the U.S. population, predominate at the highest levels of government, business and education. Affirmative action gives women and minorities a chance to break into that dominance.

Yes, some angry white men oppose affirmative action, arguing that they are victims of reverse discrimination. But they have never been subject to the discrimination that blacks in America faced, and still face. This country enslaved blacks for 200 years. It repressed them with "Black Codes" for another 100 years. Even now that legal discrimination has vanished, bias still exists in the job market.

Blacks with equivalent resumes and references as whites have, tend to lose out to whites. What affirmative action does is help assure that racism no longer prevails in job opportunities; that blacks, Latinos and women have a chance at jobs and careers. Black joblessness is higher than that of whites. Blacks lag behind whites in every major prestige occupation except sports.

The median income for whites is about $33,000. It is less than $20,000 for blacks. Latinos make up 55 percent of day-laborers in California, but are less than 6 percent of all California professionals.

Affirmative action is not favoritism, although favoritism is an old custom in America. Your chances of getting into Yale or Harvard are greater if your dad or mother graduated from those schools. Elite colleges insist on racial and geographic balance to better reflect American society. Affirmative action does not mean that unqualified blacks or Latinos are chosen over qualified whites. It simply means that blacks and Latinos get a chance.

I don't think any of us who are not black can truly understand what it is to be black in America. The affronts blacks suffer to their human dignity are constant. Example: Just this month a black executive, an executive at a magazine in New York was detained during a search for an armed suspect. Earlier this week, a report released by the University of California noted that minority enrollment would plummet if affirmative action policies are dropped. And just today, the front page of the New York Times reports on a study showing that segregation persists in 12 states despite the historic desegregation decision by the Supreme Court in Brown vs. Board of Education, 41 years ago yesterday.

So, it is obvious that society still discriminates. We still have "old boy" networks. Glass ceilings can keep women from their due. About 11 percent of white men make more than $50,000. Yet, in the same income bracket, we find just 2.3 percent of black men; just 1.8 percent of white women, and a mere .7 of 1 percent for black women.

Finally, it seems to me that those opposed to affirmative action are being divisive. They are not acting in the spirit of a nation that provides opportunities for so many diverse peoples.

Affirmative action is still necessary to make sure bias does not prevail in the workplace. It is an essential legal means to a just end. A remedy for past and ever continuing discrimination.

I have a column, by the way, that I wrote on the 9th of March. It appears in the *Sparks-Tribune* if anybody is interested. Thank you.

CHAIRMAN WILLIAMS:

As Mr. Cotton is coming up, I would like to acknowledge Councilman Matthew Callister who came to this body with myself back in 1987. Councilman Callister.

GEORGE COTTON:

I would like to thank Assemblyman Batten for inviting me to be here today. My name is George Cotton. I am the Clark County affirmative action manager. I'm a native Nevadan and was born and raised in Reno. I experienced some of the discrimination that has been talked about in this state. I was the Assistant Director of the Equal Rights Commission in

the O'Callaghan administration, so I've seen it from both sides, on the enforcement side as well as now working on the side of an employer trying to eradicate discrimination and how.

I'd like to talk today about a very important topic. The critical issue for the affirmative action debate. The general consensus among many Equal Opportunity professionals and board members representing several Fortune 500 companies which comprise the Equal Employment Advisory Council, is that much of the current debate is based on ignorance or misunderstanding as to the complexity of affirmative action and how it is practiced in the employment context.

The focus of my brief discussion today will be on Executive Order No. 11246 and federal contract compliance programs. As you may be aware, the Congressional Research Service (CRS) prepared a special report at the request of Senate Majority Leader Robert Dole which included Executive Order No. 11246 as one of approximately 160 federal laws and regulations that according to the report requires the granting of preferential treatment on the basis of race, gender or ethnic background. That characterization of the Executive Order program by CRS increases the possibility that it will be caught up in what are expected to be serious congressional efforts to eliminate preferential treatment programs. Indeed, acting on the basis of the CRS report, Senator Dole recently criticized the Executive Order program and called for hearing by the Senate Labor Committee.

I hope to be able to begin a dialogue that will clarify the nature of affirmative action planning as required by the Executive Order program and as practiced by most companies and governmental entities across the country. Specifically, I seek to explain the point that Executive Order No. 11246 does not require contractors to grant preferential treatment to any employee or applicant on the basis of race, gender, or ethnic background.

I trust I'll be able to dispel some of the negative images that are part of many discussions of affirmative action. Policymakers, employers, employees and members of the public should understand that many of the images associated with the term "affirmative action" are simply wrong. When one looks at what, in fact, constitutes affirmative action planning as required by the Executive Order program, it becomes quite clear that contrary to the Congressional Research Service report, Executive Order No. 11246 does not require "preferential treatment" in employment decisions.

To understand fully what is at issue in this debate, it is necessary first to acknowledge that for some people the term "affirmative action" conjures up negative images, such as hiring and promotion quotas; employment vacancies which are "set aside" for women or minorities; unqualified minorities receiving jobs while qualified non-minorities are passed over; corporate productivity drowning in a sea of bureaucratic red tape; and so forth. And, folks, that's not affirmative action, that's just bad management.

To put the current debate over affirmative action in its proper context, it's useful to summarize briefly how the law of equal employment opportunity and affirmative action has evolved over the past 30 years. Title VII of the Civil Rights Act of 1964 sets the standard by prohibiting employment discrimination on the basis of race, color, religion, sex and national origin. Courts enforcing Title VII often use the phrase "affirmative action" in describing positive steps employers are ordered to take to remedy proven instances of discrimination. But in framing such remedial orders, the courts generally have been careful to point out that Title VII does not require employers to remedy the effects of discrimination by society in general. Thus, as used in Title VII context, affirmative action usually has had relatively narrow meaning tied strictly to the consequences of an employer's own unlawful acts or omissions.

Executive Order No. 11246 was signed by President Johnson in 1965. It parallels Title VII in prohibiting employment discrimination by federal government contractors and subcontractors, a category that encompasses most large U.S. companies and many smaller ones. The Executive Order simply requires that contractors and subcontractors, "take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, religion, sex, or national origin." Thus, under the Executive Order, the obligation to take affirmative action exists independently from any showing that an employer is engaged in an unlawful discrimination act.

Nowhere in the Executive Order is the phrase "affirmative action" defined, nor is any suggestion given that the term was intended to be synonymous with racial or gender preferences. Accordingly, in the employment context, the concept of affirmative action is largely an expression of the executive branch, not necessarily the will of Congress or of the courts. Nevertheless, the language of Executive Order No. 11246 makes clear that the purpose of affirmative action is to ensure equal employment opportunity. On its face, this language would appear to prohibit contractors from ever making any employment decision on the basis of such factors as race or gender. How, then, has affirmative action come to be associated in the mind of most members of the public with decisions that are race and gender conscious, rather than race and gender blind? Thank you for your time.

LAURA VARGAS:

Thank you Mr. Chair and members of the Assembly. For the record, my name is Laura Vargas, and I serve as a representative of the Alliance for Latinas in Action and Solidarity, Nevada Hispanic Services and the Hispanic Business Council. I would like to offer support on behalf of Assembly Resolution No. 9 and I beg your indulgence to allow me to explain why.

Affirmative action is a policy that has allowed our employers and institutions of higher learning to open doors to ethnic minorities and women, who for many years have been unrepresented in our country. In its true form, affirmative action has allowed ethnic minorities and women an opportunity to be hired and receive an education based on their merit and capabilities. Most recently, due to our economic downturn, there are many who choose to lay blame on affirmative action for what they call "stealing jobs from our own." There is also the belief that affirmative action works against white males who have for generations been the dominate culture of our work force.

What is important to note are the following statistics: between 1980 and 1990 the Hispanic population increased nationally by 53 percent, African Americans increased by 13 percent, Native Americans by 38 percent, and the Asian population increased by 108 percent. By the year 2000, our national work force will consist of 10 percent Hispanics, 11 percent African Americans, and 4 percent Asians. Women will make up 47 percent of the work force. These statistics were provided as part of a study conducted by the Department of Labor in 1987. You may ask, "What does this have to do with affirmative action?" It may seem that our ethnic populations and women will continue to become a major part of our work force with or without affirmative action. The key here and the bottom line for many is what is going to be good for business. What is good for business is a strong diversified work force that can meet the demands of a changing population. Public service institutions, businesses, colleges and universities must recognize that their recruitment and retention of ethnic minorities and women will only increase the demand for services that they provide. Where affirmative action fits in is that it continues to be a necessary means of getting ethnic minorities and women in the door. Once in the door, if the institution or business wants to survive, they should be allowed based on merit the opportunity to become the mentors and receive the promotions they are due because of the quality of the work that they perform. Any individual worth their weight will not ask for preferential treatment, only that they be allowed the opportunity, and I emphasize opportunity, to perform. If this country is to remain an economic power, we must recognize the benefits of appreciating and cultivating the diversity that exists.

Although affirmative action in its true form has worked toward this end, the reality is that prejudice and discrimination continues to exist in our society. Preferences continue to exist in our society. As an advisor of the National Conference Camp Anytown Program, I have witnessed the cruelty of prejudice through the tears that comes from the heart of young people who continue to face prejudice and discrimination within the communities where they live. As a diversity management consultant, I have seen the frustration of employees who have worked diligently for their organizations but continue to come up against the glass ceiling. Preferences exist for our veterans, our athletes, and our alumni. They exist not necessarily because they are the best candidate for the job, but because society has deemed that "we owe them something" or that "academic merit is not the only relevant consideration." Do these preferences somehow contain more merit than striving to create an inclusive educational or work environment?

What we must realize is that historically, and still to this day, the "good old boys," college fraternities, and country club memberships that have been the alliances and networks that have influenced or defined job opportunities. Can we honestly say that these practices will not continue if we choose to eliminate affirmative action? Can we honestly say that Hispanics and African Americans will continue to be provided with equal opportunities that it have taken so long to gain? Can we honestly say that the gains made to provide Asians and women with equal pay will continue? Truly, our history and current day attitudes conclude that we cannot.

We must not allow affirmative action to become a scapegoat for our nation's economic ills. We must not allow the struggles that have been made and the progress that has been gained to be for naught. We must not throw the proverbial baby out with the bath water. We must remember that that proverbial baby with all its faults and imperfections is still our baby. We must remember that with care and understanding and the willingness to work through the imperfections, this baby will grow to be a contribution to the betterment of our society. If we choose to sacrifice this baby we will cease to work toward the betterment of our society.

As our state's leaders, show us that you support the betterment of our society through a process that allows for the inclusiveness of everyone. Dismiss those who would choose one preference over another; one bias over another; one fear over another. Reaffirm for us the American dream of equal opportunity for all who wish to contribute to the wellbeing of our community. Vote "yes" on Assembly Resolution No. 9. Thank you.

RAYMOND HOFERER:

Mr. Chairman, I would like to thank Assemblyman Batten and co-sponsors Williams and Arberry for giving me an opportunity to speak on behalf of Assembly Resolution No. 9. This is my first opportunity to address this honorable Assembly of legislators from our great State of Nevada. My name is Raymond Hoferer, Chairman of the Walker River Paiute Tribe of Nevada. We are the second largest tribe in the state in population and land base. As a student at the University of California at Davis in the early 1970s, I was present during the landmark Bakke Decision which eliminated using race as a primary factor in determining accessibility to equal opportunity in education and employment.

As a freshman, I did not realize the far-reaching implications affecting futures of the then applicable minorities of women, who until that point had not realized equal protection under the law.

Until now, Native Americans on federally-recognized Indian reservations have been relatively isolated from ongoing efforts by state, county, and local municipalities in addressing this problem.

As an ever growing, ethnically diverse state, I would ask the Assembly to support Assembly Resolution No. 9, granting each ethnic or under-represented group, has a diverse set of problems as broad as its representation. At the same time, these groups look upon their legislative bodies of representation to protect the rights of all people regardless of race, religion or gender.

I have found this to be evident in accessing equal education for our school children on the Walker River Paiute Reservation. The Schurz School is composed primarily of Native Americans, Mexican-Americans, Euro-Americans and Afro-Americans. The misconception remains as a federal problem, a state problem, a tribal problem and a county problem.

Ladies and gentlemen of the Assembly, as federal decisions become a reality, the cooperation of all entities is demanded to address the needs of all issues pertaining to the residents of Nevada, including funding.

I would urge us to work together as Nevadans to continue to make Nevada a truly unique and diverse community. Thank you.

GLADYS CLARK:

Chairman Williams, Assembly, good morning. For the record, I am Gladys Clark, the Equal Employment Opportunity Director for the State of Nevada. Affirmative action is needed to prevent discrimination. I can recall the days when I, as well as other blacks, in the State of Nevada and also in the state where I grew up were not allowed in certain establishments such as restaurants, churches and other public places. I would like to recall and relate to you a little story that was told to me by one of my girlfriends who grew up in

Las Vegas. She was a guest at the Sands Hotel and Sammy Davis, Jr. was performing there. She and her girlfriend decided they would both go swimming. When they reached the pool, to their amazement the pool had been drained because Sammy Davis had been in the pool. Can you imagine in 1995, or even then, draining a pool simply because a person of a different race or color had gone in for a midnight dip? Well, we have all come a long way, baby.

But that is not the reason I stand here before you today. I want to communicate to you that black males are not the only applicants in the job market who are seeking equal employment opportunity. The job market is very scarce and jobs are very tight.

The issue here is solely economics, and everyone wants their piece of the pie. Why should we kill a program that has the capability of working and benefiting all people? Affirmative action works for men, women, white, ethnic minorities and people with disabilities. Governor Miller is a firm supporter and believer in affirmative action, and so am I because I know that I, as well as other people like me, would not hold positions that they hold today if it were not for affirmative action.

On a more personal note, I attended segregated schools; I studied out of inferior books and some of my instructors only had an eighth-grade education. In some of my classes, when we were instructed to read and we came across a word that we could not pronounce we were instructed to say, "Big word," and move on. Can you imagine? Sometimes, I remember the only thing I could say was, "Big word." Today, I find that a little funny, but I did survive. The superintendent of the schools, who admired the initiative and success of my father who only had a fifth-grade education, furtively provided books to me and my sisters and brothers that were the same provided to the white children because he was a man who believed that everyone should be given an equal opportunity. He also believed and assured in the future success of me and my 11 brothers and sisters. We all went on to college; we received Bachelors Degrees, Masters and some of us even Ph.D.s. My brothers and sisters, if they could, would testify to you today that they too have benefited from affirmative action in the positions that they now hold, and they all are performing very well on their own merit.

It should be understood that even though we encourage state agencies to aggressively recruit and hire ethnic minorities, women and people with disabilities, keep in mind that the decisions are not based on gender, ethnicity or disability alone. It is just as illegal to hire a person based on gender, ethnicity or disability as it is to refuse employment or promotion based on the same criteria. The paramount consideration here is qualifications. Only when qualifications are equal does affirmative action become a consideration.

Affirmative action allows fairness to all qualified applicants. Yes, there may have been a few wrong decisions made in the past because of inexperience, but do we halt a program completely when something goes wrong? For instance, do we stop the amputating of diseased limbs simply because one doctor in the State of Florida amputated the wrong leg? The answer is "no" and we should apply and allow the continuation of affirmative action programs.

Between January 1, 1994 and January 1, 1995, we achieved a 7.8 percent increase in the number of ethnic minorities in full-time, permanent positions. That compares to an increase of 3.3 percent in the number of state employees.

I would like to urge you, the Assembly, to strongly support Assembly Resolution No. 9. It embodies the concepts and ideas of a firmly and clearly designed affirmative action program. I would also like to emphasize to you that if we eliminate this program, the demographics of the State of Nevada as a workforce across the country will mirror what we so painfully endured in the 1960s. Once again, I urge you to support Assembly Resolution No. 9 because it allows opportunity for all to apply who meet the criteria to be hired. Thank you.

JOYCE PEIRCE:

Thank you, Mr. Speaker. My name is Joyce Peirce. I am a state officer for the Business and Professional Women, and that is part of a national organization. Most of the topics have been well covered by the previous speakers, but I did want to add information that was provided to me by our national president. On March 15, 1995, the U.S.A. reaffirmed its commitment to the policies in a press release distributed on that date and I quote, "At a

time when working women still earn approximately seven cents for every dollar men earn in comparable positions, the need for affirmative action laws remains great. When terms like "glass ceiling," "nontraditional occupations" and "gender pay gaps" become obsolete, then perhaps affirmative action will have run its course." I am pleased that this body is considering this resolution, and I hope and pray for all of our sakes that you vote "yes" on this resolution.

GLEN TAYLOR:

Thank you, Mr. Speaker. I am Reverend Glen Taylor of the Greater Life Treatment Center Church. I am also the Affirmative Action Officer for the City of Reno. A number of surveys and a number of overviews limited to state and federal laws have been discussed prior to me coming up here and I do not want to be repititious, but I do want to say this in reference to Assembly Resolution No. 9. I appreciate Assemblyman Batten giving me a call and I made my way up here to really encourage this Assembly to pass this particular resolution because what you are looking at as you look at me standing up here, actually I guess, you would call me a prodigy of affirmative action. Not just because of the fact that I am currently in the affirmative action position for the City of Reno, but when I moved to that State of Nevada, the State of Nevada was known as the "Mississippi of the West" particularly in the black neighborhoods, if you want to call it that. The bottom line is that I made it a point to overcome many of the obstacles which, historically as well as in some instances currently, exist within this state. Nevertheless, because of affirmative action, I was able to pull myself up by my boot straps and gain access into a system that historically, again, did not allow people of my color and people of my particular race to get involved. Of course, there are still systems out there that remain confident that they will be able to maintain the same goal or keep those same barriers in place.

I am here to let you know that the concept of the "Mississippi of the West," as far as Nevada is concerned, I have watched so many changes in this state and I believe with progressive and proactive thinking of Assemblypersons like yourselves, can make a big difference, not only from this day forward, but out of all of the things that you have done historically I still see light at the end of the tunnel. I have had the opportunity, since I have been in this state, to work 10 years in private industry and over 20 years in the public sector at the state level, federal level and the city level. With those opportunities, I have not forgotten where I have been and I think it is an African proverb that says, "If a person forgets where they have been, in turn they will also forget where they are going."

I really think there are a number of individuals who have benefited from affirmative action, but now they have somewhat forgotten their roots. They have forgotten where they have been and in many instances, they may not even know where they are going. But, I am here today to let you know I know where I am going and, at the same time, I also know where I have been. I hope that when you think in terms of affirmative action, you don't just think of it as a black thing or a hispanic thing, but as a people thing. It is hard for me to understand how individuals can go around and say that they are for equal employment opportunity, and yet they fail to recognize the actions that it takes in order to implement such guidelines and policies, be it in the employment realm or even in the realm of public works. When it comes to women minority business enterprises, and when I first heard what was happening in Washington, D.C. relative to affirmative action, I did not believe that the attack was on what's happening in the employment realm. I truly still believe that the reason people are standing up against affirmative action now is because they are tired of giving away the 10 percent that woman and minorities have received throughout the United States. When you get somebody in their pocket, you would be surprised what their testimony would be. You would be surprised at what opinion is all about. I don't care how humanistic they appear on the surface, if the bottom line is what is controlling there lives, then unfortunately, they could care less about you or anybody else, including people like myself. So I really think there is an attack on affirmative action that has nothing to do with who is getting hired in certain jobs. I think it is a matter now of various individuals who are out there who are afraid of women and minorities becoming economically stable as well as getting involved in economic development, not only in this state, but in other states throughout the United States. Just like there is a movement to kill the minority and business enterprise programs as far as public work projects are concerned because, again,

there are many contractors out there who want more than the 90 percent. They want the whole pie. They want 100 percent of the loaf of bread that exists out there. I am afraid to say that, unfortunately, they are putting that under the heading of affirmative action. And then there are laws that are being passed to stop the money from benefiting women and minorities and others.

As well, it seems right now that it is going to affect all of the individuals who have strived to provide equal access in the realm of employment. I pray that those of you who are here not only allow your conscience to be your guide, but allow your real heart to really think in terms of a future for our children as a whole, be it black kids, Hispanic kids, Asian kids, Polynesian kids or white kids. It does not matter because our future in this state will depend upon such actions as what is about to take place here today and a move, a proactive move to support affirmative action in this state. I think a consciousness of individuals who are out there who are trying to not only destroy the hopes and the dreams of a minority and women, but there are many instances where you probably inflate their egos with respect to their hopeless end they feel they have in life. I use that expression because of the fact that I am finding out that when we look throughout the United States and there are people that are just senselessly murdering individuals just to prove a point against a government agency; when you look through this United States and you see people who are just bound by various drugs and other things, and I am not saying that people that are bound by drugs are in a position or in that position just because of the fact that they don't have the opportunity available to them to get good jobs. I do know that some of the crime has been centered around the fact that we have a lot of frustrated individuals out there in our community who have not had the same opportunities of others, and if that continues, and we create more frustration, it always amazes me how we cut back on supplying programs that will help drug offenders and people get off the street, but yet we will spend a whole lot of money to build bigger prisons. Somehow or another that just doesn't ring a spiritual or natural bell with me, but the reality of it all is that I really believe that affirmative action would assist many of those individuals in getting into the employment mainstreams. It would help limit some of their frustration.

I believe that affirmative action will also carry over into the public sector as well as the private sector with respect to equal access for women and minorities, and then I also believe that when it comes to business enterprises, which has been proven historically, that we don't have that many in women business enterprises out there because there have not been a lot of the opportunities to go in and even get a bank loan. In fact, even if you go to the Small Business Administration, which is a federal agency, it is very difficult.

I hope and pray that those of you here will understand the seriousness of what is going on here today and support Assembly Resolution No. 9. Thank you, Mr. Speaker and the Assembly for this time.

ERNEST FOUNTAIN:

Good afternoon. I hardly know what to say after that presentation. First of all, I would like to thank the Chairman for asking me to come here today. My name is Ernest Fountain. I am the President of the Black Business Council. I would like to make some brief comments in reference to affirmative action.

First of all, this country thrives on capitalism which is the economic system whereby all power is derived. Now, how does this system work? It's based on the theory of free enterprise. This free enterprise system is based on each individual having the freedom to become the best that he or she can be. It began at the early stages of childhood whereas we are taught to compete with one another whether it's in the classroom of our schools, childhood games or sports. We all are groomed to compete. Now, I know some people are asking themselves, "What does this have to do with affirmative action?" Well, if the entire system is based on competition and being competitive, then there is a direct correlation between the two. The best performers are those who have access to the resources which will help them to compete. As an example, on a basketball or football team, you can't expect a basketball team to compete without allowing them access to the gym; without providing them with a basketball and without providing them with a coach to teach them the game of basketball. There is a direct correlation to this example and the reason for affirmative action.

First, America kept my ancestors enslaved for 244 years and did not give them access to the constitutional rights of every other American. They did not have access to an education to teach them about the American system. It was against the law for a black person to read or write; they did not have access to property ownership to pass on to their heirs; life insurance benefits and other types of investment products to help propel them to the next economic level. They were denied every opportunity to be all they could be so they could compete in white America. Even after slavery, and for another 100 years, segregation laws prevented my ancestors from having access to the resources that every white American had available to them. The laws were set up to willfully deny my ancestors the opportunities to compete in a system designed for individuals to excel based on competition.

Since segregation, they have institutionalized racism and discrimination to keep me and other minorities from competing. We still don't have access to the financial markets, and without access to finance and economics, we don't have access to the resources or tools to compete on the same level.

Now, in order for us to reach the same goals of success, we must stagger the field. The same way as a track field. Now let's dispel some of the myths in reference to both "set-aside goals" and hirings as it relates to affirmative action. First, the only "set-aside" program is the SBA 8(A) program, whereas federal contract opportunities are actually set-aside for minorities to compete for. We must understand that these are qualified, experienced, licensed and bonded contractors. In other words, they are not just pulling minorities off the streets and giving them contracts in this program regardless of qualifications. Also, under affirmative action, the federal government has goals. For example, the Department of Transportation has a 10 percent goal for minority women. But remember, these are qualified, experienced, bonded and licensed contractors. They had to meet the same standards as all other contractors to be licensed in the state where they are domiciled. Twenty billion dollars, in 1994, 10 percent went to minority and women with only 22 percent going to ethnic minority. The only other goals program is the DOD 5 percent. Still, these goals programs are for qualified, licensed, experienced and bonded contractors, not for any minority off the street who does not have the experience to perform the services or produce the products.

Finally, the last area I would like to discuss is hiring practices. I keep hearing that some qualified white person was not hired when some unqualified black person was hired. This has to be the biggest fallacy of them all. It just irritates me when I hear this simply because there are substantially more unqualified white folks being hired in both the public sector and private sector than black or any other minority group. The supreme court case where the black man was promoted over the qualified white man is the exception, not the rule. Anyone who is not blind really knew that there are not equal opportunities for blacks based on the examples stated above. To imply that 30 years of affirmative action has created a level playing field is insanity, at the least. We ask for your support in passing Assembly Resolution No. 9. Thank you.

CHAIRMAN WILLIAMS:

Thank you. That is the last person signed in to speak on this legislation. Is there anyone else from the public who would like to speak in favor or in opposition of this resolution? Are there any members of the body who would like to make any remarks?

ASSEMBLYMAN ANDERSON:

Mr. Chairman, will we have the opportunity to speak on this when we come back in? If we would, maybe my remarks would be more appropriate for that time.

CHAIRMAN WILLIAMS:

Yes, we will. We will hold the remarks from the members of the body. Mr. Dini?

ASSEMBLYMAN DINI:

Thank you. Mr. Chairman, my only question is to you or to the sponsor. Why did you use a one-house resolution, rather than a two-house resolution? Usually, a one-house resolution is used in-house for our own body action. I think it kind of weakens our position to use an AR rather than an ACR.

MR. BATTEN:

Mr. Chairman, to you and through you to my colleague from Yerington. The reason why I kept it in one house is because I feared it might have died if it went over to the Senate.

CHAIRMAN WILLIAMS:

When the resolution comes up, members will have the chance to speak at that particular time.

MR. BATTEN:

Mr. Chairman, I move that the Committee of the Whole now rise and report back to the Assembly.

CHAIRMAN WILLIAMS:

You have heard the motion, all in favor signify by saying, "aye." The Committee of the Whole is adjourned.

Assembly Resolution No. 9.

Assemblyman Arberry moved the adoption of the resolution.

Remarks by Assemblymen Arberry, Anderson, Krenzer, Freeman and Chowning.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I am caught off guard here Mr. Speaker, as my colleagues designated me as the hit person to give some remarks. But, being one of the minorities in this caucus, it is nice to see that we have one additional, my colleague from the north, and that is what you call affirmative action.

We never thought a minority could really get elected in Carson City or the northern part of the state, but that is about affirmative action. Let's just say that affirmative action is an American success story. Since 1960, I've heard and read that there has been about five million minorities and six million women in the workplace that have been helped by affirmative action. Affirmative action also demonstrates that you are not trying to say that you're not qualified, but that the person is qualified to be at the top of the ladder.

In this nation, we pride ourselves in excellence and fairness to all people. I'd hate to see us abandon affirmative action. I understand, too, Mr. Speaker, that the *Los Angeles Times* took a poll. This poll said, "That fifty percent of the people in this country still believe that prejudice exists in this country." It is important as Nevadans to be committed to affirmative action to insure an equal opportunity for all in reaching out to the racial and ethnic minorities and women and the disabled. I'd love for all of you to successfully approve this resolution.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I am a dreamer in this group. I've always seen myself as such. As a classroom teacher, I believe in it. Equality is a destination. Tolerance is an ideal. An ideal that we must constantly strive for. We all look at the mandate from last November. Each of us was empowered. Agreement is making this constantly alive.

This resolution continues to support that dream. A dream, a continual commitment, that was laid by European philosophers and restated in a declaration by Thomas Jefferson. He believed that the concept of democracy had to be reborn in every generation. It had to be something you were willing to die for. Indeed, all of us do die for this each and every day. If not on the field of battle, here in these Chambers.

I look to my own heritage and think of my father, who came to this country and the nation from which he left, which is still at war over the questions of jobs and who will be economically successful. This resolution keeps in mind the importance for all that we do to continue to strive for those ideals, now more than ever, as our society begins to change

in its technological ways. Now more than ever, as we begin to realize the efforts of the ethnical diversity of our society. This resolution keeps that dream alive; keeps that spirit alive in all of us. I do, indeed, support this resolution.

ASSEMBLYMAN KRENZER:

Thank you, Mr. Speaker. In 1972, then President Richard Nixon, enacted the first affirmative action legislation creating the Office of Minority Business Enterprise. The premise was that America needed more black capitalist.

Affirmative action laws have never been needed more than in 1995, as we seek welfare reform. For the past 12 years, I have worked with minorities, handicapped, seniors, displaced homemakers, injured workers, on the Governor's Committee for Employment of People with Disabilities and the Private Industry Councils. Because of affirmative action laws, private and public employers think twice when recruiting and hiring. None of my clients ever came asking for a handout. All of my clients came looking for a job. Affirmative action works. It saves tax dollars for people who don't want to be on welfare, public housing or SIIS. They become self-sufficient taxpayers. The bottom line is that employers win when they have a well-qualified, diversified, loyal and usually very grateful employee. I urge your support of Assembly Resolution No. 9.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I would be remiss if I, as an elected woman official, did not speak in favor of this resolution. I have been around here long enough, that I remember when there were no women on the city council; there were no women on the county commission; there were no women in constitutional offices and only a few token women in the Nevada State Legislature. It is because of programs such as affirmative action that have given women the courage to step out and prove themselves before the voters and have proven to the voters that they are doing the right thing by supporting women and minorities. I support this resolution and ask that you do the same.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I rise in support of Assembly Resolution No. 9. All my adult life, I have worked to try to help people. When I grew up as a young girl in Las Vegas, the entertainers who entertained so wonderfully on the Strip, were not even allowed to stay in the hotels where they entertained.

As I worked through college, I was told that if I heard a voice at the other end of the phone that sounded like a minority, I was to say that there were no more rooms at the hotel. I couldn't do that. I lost a job because of it. But, fortunately my children do not have to grow up with those kind of orders.

I work all the time in real estate with Hispanics, and I fight all the time so that they can get loans. Because I see prejudice every single day. They have to work harder, and I help them work harder. When I see those doors closing, I open them. But, I can't do this alone. And I am very, very proud of the efforts and of the words that we have had here today. I am proud to be a member of this legislative session and I urge your support of this wonderful resolution. Thank you.

Remarks by Assemblymen Freeman, Ohrenschall, Nolan and Williams.

Assemblyman Freeman requested that the following remarks be entered in the Journal.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I hope you will read Assembly Concurrent Resolution No. 13 in its entirety. It was presented to the Nevada Legislature on May 7, 1987, by the Nevada Federation of Women's Clubs—Child Abuse Coalition.

I would like to read the following remarks of Mrs. Blanche Zucker who is here today:

> Thank you, Speaker Dini, for the opportunity to address the Assembly. It is, indeed, a great honor to speak with you regarding an issue dear to my heart. I wish to speak on Assembly Concurrent Resolution No. 13, which is asking that the original Children's Bill of Rights, created by the General Federation of Women's Clubs—Nevada Child Abuse Coalition be retained as adopted by the Nevada Legislature on May 7, 1987, which was declared Child Abuse and Neglect Prevention Day in this state by Governor Bryan. And, was created by the Legislature in 1985 for the purpose of prevention of child abuse.
>
> As a result of that bill which passed, I'm holding up for you, a report. A report that the children's trust account makes to the Legislature every two years.

This is what Mrs. Zucker is involved in. As she said, "It is an issue dear to our hearts."

The Children's Bill of Rights is a resolution that speaks to our committee as a commitment to safeguard our children. Therefore, we have a job to do as our philosophy and our purpose which parallels the intent of the statute. We dedicate ourselves to the goals of prevention throughout Nevada. This Bill of Rights speaks to all of us, that our

children to the best of our ability, should enjoy these rights. It is a dedication demanded from all of us in this state to secure our future. "If it is not you or you or you, who will speak for the children? Please rededicate the Federation's Bill of Rights of 1987. Thank you." This is a quotation from Mrs. Zucker.

I don't know if I have to read to you the language in the bill, but I do ask for your support. I think it is important. Thank you.

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. I rise in support, be it reluctant, of Assembly Concurrent Resolution No. 13. I truly believe this is a simple reaffirmation of our concern about the children of this state. I did vote for the amendment which was just defeated. I know this resolution has become somewhat controversial as some individuals are reading different meanings into its language. I have heard references from many constituents about the youth corps, youth camps and worries about the future.

Again, I've studied the language and I see this as nothing more than a recommitment on our part to consider the best interests of the children as we make policy decisions. If I felt it was more than this, I would not be voting for the resolution. If the day ever comes that I feel action is being taken that infringes on parents or families, I will lead the charge against those actions.

I, too, have children and I don't want the government in any way to interfere in my family life, as long as I'm doing my job and as long as my children have everything that they need. I think the fact that Assembly Concurrent Resolution No. 13 was first adopted in 1987, and has been on the books for eight years, and has not yet lead to any of the dire consequences predicted is a good argument that it is a simple statement and reminder that we are to look to the interest of children.

I am supporting this resolution because I am concerned about the more than 9,000 substantiated cases of child abuse and neglect in our state in 1993. I am concerned about the more than 1,300 children who are in foster care, because their parents either cannot or will not provide them a safe, loving environment. I think that's what this resolution is aimed at—to make us remember these cases and these children. Thank you.

ASSEMBLYMAN NOLAN:

Thank you, Mr. Speaker. I have just one question to ask. Who of us needs a reminder that we are here to represent the opinions, viewpoints and perspective of children in this state? Who needs a resolution for us to remember what we work on is acts of legislation for the perspective of children within this state? I would like to see a show of hands, including the proponents, of those people who need a resolution to remind them of what our duty is to children in this state. And, I don't see that.

I think, we, in the past several months have been discussing, and yes, I sit on the committee who has discussed this, has received literally hundreds of phone calls from constituents who elected us and put us into office saying they do not need, nor do they want this resolution. The fact that it has been on the books and remains on the books is good enough for me. Thank you.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. To my colleague from District No. 13, we all need a reminder when it comes to children whether we know it or not.

Every single day a child is at risk. We talk so much about children at risk, but every child is at risk. I think, we, more than anyone else in the State of Nevada, who makes policy and sets policy, needs a reminder every single day. This resolution does nothing else for us. We should have it plastered on our walls. Every morning, we should look up and read it to remind ourselves. The day we don't need a reminder to show the children we do set policies in this legislature is the day we need to leave. We do need a reminder, all of us need a reminder, whether we are working for children or not. I can tell you again, if we don't, something is wrong.

Every time you look at the statistics of the young people incarcerated, committing suicide, bringing guns into schools and young people who are committing crimes, we need

a reminder everyday. If you look at those statistics you remind yourself, and the day we don't remind ourselves, we have a serious problem. I urge you to pass Assembly Concurrent Resolution No. 13.

Assemblymen Giunchigliani, Ernaut and Bache moved the previous question.

Motion carried.

The question being on the motion to adopt Assembly Concurrent Resolution No. 13.

REMARKS FROM THE FLOOR

Assemblyman Harrington requested that Assemblyman Nolan's remarks be entered in the Journal.

Thank you, Mr. Speaker. This was Emergency Medical Services Week. As some of you noticed, there were paramedics and EMTs wandering the halls, and a few were sitting with us a little bit earlier. They didn't have quite the staying power that my colleague's guest from Boulder City had. I just want to make a quick remark on behalf of them and their colleagues; men and women in the Emergency Medical Services.

Sometimes, we take for granted that most of us can pick up the telephone and dial a simple number anytime day or night in the middle of a crisis, and that within a short period of time, professional people will arrive and help us through that crisis whether it be a fire or a medical emergency. The people who do this job have a very difficult job. Not only do they have to deal with the pain, suffering, agony and gore, but they have to also bear witness to acts of inhumanities, even which the most seasoned medics sometimes can't erase from their eternal memories.

They risk injury to themselves, both from violence and physical injury, by lifting and carrying patients, as well as exposing themselves to a whole plethora of diseases, such as meningitis, AIDS and hepatitis. I think these people do quite a bit throughout the state for us. They don't get paid a whole lot for what they do. Yet, they sacrifice themselves and their families to provide a service that many of us couldn't imagine doing. I would like to ask this Assembly to acknowledge those men and women, both paid and volunteer, working for private services and fire departments, and offer to them a hand of thanks for the good job they do for us every day and every night. Thank you, Mr. Speaker.

Remarks by Assemblyman Dini.

Assemblyman Ernaut requested that Assemblyman Dini's remarks be entered in the Journal.

Thank you, Mr. Speaker, members of the Assembly. It is, indeed, my pleasure to be able to speak on behalf of Gary Owen. Sometimes, I speak of men that were here before me, and sometimes I speak of men that were here after me. But, when you have perpetual life like me, you'll be here forever.

Gary appeared on the scene here in 1972. He was our Assembly legal advisor. Some people who come to work here immediately go to the top, just like cream on top of the milk. Gary was like that. He was an outstanding attorney; very bright and cheerful. He worked with all of us on any matter where we needed help. But, he was a super attorney when it came to environmental matters and property rights. That is where he excelled.

In the area of the Tahoe Regional Compact, he really excelled. He helped us considerably in creating the original Tahoe Compact. After he left here, he became known throughout the community as an attorney you could hire. He worked with the TRPA for one year and became an expert in that area. His counsel was sought by many people trying to learn how to work within the realms of the Interstate Compact.

Gary was a hardworking man. He was here early in the morning and late at night. His wife can attest to that. You don't find many people who are that devoted. He was honest and sincere. I'm just really proud to have known Gary and watched him develop as the expert that he was. It is a great loss to our state having him pass away. He was such a great asset to us all in the Western Nevada area. I must say my condolences to the family. My memories of him are all good. We worked together many times in areas in which we were both interested. The state will suffer at the loss of this fine gentleman. I urge you all to support this resolution. Thank you.

Resolution adopted unanimously.

Assemblyman Ernaut moved that the Assembly recess subject to the call of the Chair.

Motion carried.

Potential conflict of interest declared by Assemblyman Bennett.
Assemblyman Anderson requested that the following remarks be entered in the Journal.

ASSEMBLYMAN BACHE:

Thank you, Mr. Speaker. Assembly Joint Resolution No. 26 reaffirms the legislature's vehement opposition to the permanent or interim storage of high-level radioactive waste in Nevada. The resolution also urges Congress to continue the current practice of on-site dry cask storage of high-level radioactive waste until technology is available to recycle and reuse the waste.

The committee, after taking a great deal of testimony, amended the bill, not only to state our opposition, but also to suggest a positive solution. We took care of the various problems that were raised with the bill. Thank you, very much.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of this legislation. I just want the record to show that this resolution, not like the previous resolution, is not a "free speech" bill.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker. My distinguished colleague from Assembly District No. 11 has briefly summarized this resolution before you. It reaffirms this legislature's opposition to the storage of high-level radioactive waste in Nevada.

When this resolution is mentioned in future publications of the legislature or when we talk about it after the session ends, that brief summary will be all that most people hear. A few months after we've gone home, Assembly Joint Resolution No. 26 may be discounted as "only a resolution."

But, each of us here knows that Assembly Joint Resolution No. 26 is far more than just a resolution. It is far more than "reaffirmation of opposition." This resolution represents the integrity of the sovereign State of Nevada.

In 1982, the Nuclear Waste Policy Act established a national policy for the Federal Government to assume responsibility for the permanent disposal of high-level radioactive waste and spent nuclear fuel from civilian nuclear power plants. The Federal Government was also to identify the best site in the nation to develop a permanent repository.

In 1987, the Nuclear Waste Policy Act was amended to designate Yucca Mountain as the only site to be characterized for its suitability as a repository, not because it was the best site in the nation, but because of political expediency.

After 13 years of study, and over $4 billion of expenditures, the United States Department of Energy has generated little more than incomplete and questionable scientific studies. The DOE's current, very optimistic schedule is to have an operating repository by the year 2000, many years beyond the original deadline.

We've seen the work that the Department of Energy has done so far, a series of broken promises accepted by the Federal Government, because the underlying assumption has been that the repository will be built at Yucca Mountain. The underlying assumption is that nuclear waste will come to Nevada, regardless of whether Yucca Mountain is suitable; regardless whether the health, safety, economic well-being and environmental integrity of the State of Nevada is endangered.

The Federal Government has put on political blinders, refusing to acknowledge the potential for catastrophe resulting from incomplete data and short cuts.

The recent revelations about possible explosive criticality at a Yucca Mountain repository, combined with increasing recognition of the dangers of transport of nuclear waste, have caused a groundswell of public and media concern, and not only in Nevada.

In the past four months, there have been scores of editorials in newspapers throughout the country calling for a change in public policy and a rethinking of the proposed site at Yucca Mountain, or anywhere in Nevada.

Nevertheless, legislation has been introduced in Congress to require the construction and operation of an interim storage facility on the Nevada Test Site, and to direct the DOE to complete site characterization at Yucca Mountain. If Yucca Mountain is deemed suitable, this legislation would direct DOE to build the repository there.

This is not the time to permit any ambiguity about Nevada's position on the nuclear waste issue. Congress, the President, the nuclear power industry and the people and officials of other states must clearly understand that Nevada remains united in its opposition to the unfair, unscientific, and dangerous federal approach to nuclear waste management.

The recent debate, in both houses of this legislature, could easily be misrepresented by those in the nuclear power industry and their allies in Congress. They will misrepresent those debates to indicate that Nevada and its legislature is weakening in its opposition to nuclear waste storage in Nevada.

We know that this is not true. The citizens of Nevada are overwhelmingly opposed to either permanent or interim storage of nuclear waste in our state, and this legislature is equally united in its opposition.

Assembly Joint Resolution No. 26 will leave no room for doubt about where Nevada stands on the matter. This resolution sends the message, forcefully and clearly, that Nevada is not a dumping ground, not a wasteland and not a convenient political fix to the nuclear industry's problems.

The resolution also urges Congress to continue this practice of on-site radioactive waste storage until technology is available to recycle and reuse the waste. Certainly, on-site storage is the safest and most fair solution to the problem. It's an option that must be vigorously pursued, instead of following the current failed national policy.

Frequently, a past generation is blamed for having been short-sighted or unconcerned about the future. Sometimes, we jeopardize future generations in our efforts to make the present better. Sometimes, we don't know how our actions today will affect our children tomorrow.

Assembly Joint Resolution No. 26 is an unambiguous statement of this legislature's concern for the future of our state, both current and future generations. It compliments the efforts of our congressional delegation. Most important, Assembly Joint Resolution No. 26 is the voice of Nevada's citizens.

I urge my fellow colleagues to approve Assembly Joint Resolution No. 26. Thank you.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN NEIGHBORS:

Assembly Bill No. 533 designates a portion of State Highway No. 375 as the Extraterrestrial ET Alien Highway. This measure requires the director of Nevada's Department of Transportation to install and maintain simple highway markers reflecting this designation and allows the director to accept contributions to help pay for the related costs.

First, with all the serious events that are transpiring around us in the nation today, I believe we need to create opportunities for ourselves to enjoy a little fantasy and humor. We do have to have that flexibility and that mix. And before I get into further remarks, I want all of you to know these aliens don't like the color red, so when it's time to vote, don't make them mad up there.

Assembly Bill No. 533 designates the ET Alien Highway, the portion of State Route 375 located between Crystal Springs in Lincoln County and Warm Springs in Nye County. This highway which passes through Rachel, Nevada is as close to the area 51 portion of the Nellis Air Force Range that is alleged to have contained unidentified flying objects, UFOs from outer space. The proponents of this bill testify that it will attract tourists to the specific areas designated in Lincoln and Nye counties. And at this time, I would remind everyone of the importance of economic development and tourism to the State of Nevada. It is evidenced by the re-establishment of the Assembly Committee on Economic Development and Tourism. I feel that this bill will draw additional tourists to the State of Nevada.

This year the town of Rachel, held as UFO capital, has an annual parade featuring a host of space aliens, providing a boost for the economy. Incidentally, there are 14 votes there and I need to get my share of them, so be sure and don't push any red voting lights.

As you know, Cable News Network talk show host, Larry King, recently broadcasted live from Rachel and CBS Sunday Morning with Bill Geist did his show out there last week. They notified me yesterday that on Sunday Morning On The Road, they will be doing a show on that, and mention our bill. I'm sure that everyone recalls that on July 19, 1976, which just happened to be Nevada's 200th birthday, Spaceship Viking landed on Mars. To do what? To find out if there was any life on Mars. Or how about Pioneer Spaceship X that is still out there somewhere? That spaceship had a gold plated, metallic record with over 100 languages along with a record player. There were pictures of a man and woman on board so that anyone in space out there could hear the voices and see what we looked like. For whatever that's worth. I better quit while I'm ahead here.

Finally, I believe that Assembly Bill No. 533 represents part of the excitement, the fantasy, and the tourism attraction that is Nevada. Whether we're talking about King Arthur's Court, Excalibur, the pyramids, the pirates of Treasure Island, Circus Circus, Caesar's Palace, or how about the loneliest Highway 50? It makes national news on various occasions.

With that, I would urge the Assembly to pass Assembly Bill No. 533 and beam it over to the Senate as soon as possible. Thank you.

ASSEMBLYMAN MANENDO:

Thank you, Mr. Speaker. To you and through you to this honorable body, nanu nanu. First, we all know this is a fun issue, but at the same time this definitely has an impact on our state. Assembly Bill No. 533 would make Nevada the gaming capital of this universe. And, we know how important that out-of-this-universe revenue can impact our economy. Remember that. A recent article stated that the use of motorhomes, trailers and campers by vacationing families is on the rise this year. I believe Nevada, having an extraterrestrial highway, gives us an added opportunity to tap into that resource of vacationing families. After all, what family traveling the highways would deprive their children of the opportunity to possibly have a "close encounter" in the most logical place for it to happen in the United States, here in Nevada? I urge your support on Assembly Bill No. 533. Now, if I can get these ears off. Thank you.

ASSEMBLYMAN ARBERRY:

Mr. Speaker, I hate to do this to my colleague. On page 2, line 17, it says "it shall" and we need a "may" because if it does go with the "shall," then some of the money's going to have to come out of the highway fund. So, Mr. Speaker, I make a motion to move this UFO flight to the Chief Clerk's desk.

ASSEMBLYMAN NEIGHBORS:

I did meet with Mr. Stevens about that. He happens to be the director in the Department of Motor Vehicles. He came into my office and he assured me they have a budget for signs over there and he didn't feel this would be any impact at all. In addition, if you will notice, it further states that the director is allowed to accept contributions. Even the Lieutenant Governor has indicated he would contribute to this, so I see no fiscal impact on this bill at all.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. To you and through you, it would not have a fiscal impact, it's the language. It says "shall." And "shall" counteracts accepting any contributions. So if that language would say, "the director of the department of transportation shall" item a, b and c. So it needs not to say "shall," it needs to say "may."

ASSEMBLYMAN NEIGHBORS:

Mr. Speaker, I don't have any problem with that.

ASSEMBLYMAN ARBERRY:

Mr. Speaker, I feel real bad. Skip the motion.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise for and against Assembly Bill No. 533. If Rachel's going to be the tourist center of Nevada, we're in real trouble. But, on a more serious note, my alien friends from Hiko, Ash Springs and Alamo are very upset for not being included in this space bill. And, I'm afraid if my space friend Neighbors here doesn't get an amendment in the Senate, he will not get any alien votes next time.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I rise in support of this meritorious alien bill. But, I just really would plead with my colleague to add "install suitable markers and a transportation call box" on page 2. It's very, very important so that ET can phone home.

DARTH VADAR:

Greetings earthlings! I have traveled many "galactic," as you call miles, to visit with you. And you will notice, I have attired myself in the proper manner for your honorable chamber today. I have distributed among you a letter from our Intergalactic Tourism Association and I have asked the honorable earthling on my left to read it to you. Your pollution has polluted my eyes and I cannot see well enough to read the letter. Earthling, would you proceed?

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. I'll attempt this. To you and through you to the great unit members, this comes from the Galactic Tourism Association, 1995 Milky Way Road, Alpha Centauri 0505194035. The Galactic Tourism Association is a trade group representing over 700 travel agents in 35 star systems. Our scanners indicate the concern of you and your unit with Assembly Bill No. 533, propositioning to designate one of your travel strips as the Extraterrestrial Alien Highway and your population called Rachel as a destination resort. You be informed that a set designation is in place. GTA will post this site on your super nova discount package tour. Be thus prepared to receive many of our clients in a mutually profitable experience. We look ahead to being great neighbors in a priceless relationship. Yours most far, GITGO, Executive Tourister. DARTH VADAR:

Thank you, honorable earthling. I respectfully request your positive vote on this issue and I must leave you to join my soul brother, Michael Jackson later this morning.

RESOLVED, That the Nevada Legislature encourages all residents of Nevada to participate in local events which recognize and honor Asian Pacific Americans in an effort to become more aware of the Asian Pacific influence on the history of Nevada.

Assemblyman Spitler moved the adoption of the resolution.

Remarks by Assemblymen Spitler, Giunchigliani, Ohrenschall, Harrington, Segerblom, Carpenter, Chowning and Anderson.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. Asian Pacific Americans have long been active in the history and progress of our state and our great nation. They have often been the silent entity whose contributions have been passively accounted for in history. For years, they have adhered to their customary ways of quietly working by the sidelines. They do not often expect to be handed anything, rather they have demonstrated the ability to earn it. Their principles and work ethics drummed in them for generations is what is so admirable. They were there in the days of discovery and settlement of the "new frontiers" and the construction of the railroads and Hoover Dam.

Nevada was, indeed, a home to many of these people for many years as evidenced with the existence of a Chinese cemetery in Virginia City. However, there is still much that needs to be discovered about the history of this group. Our Assembly has just recently recognized them with the passage of Assembly Bill No. 525, and the resolution of Asian Pacific Heritage Month, which we are doing this morning.

With us today, are the leaders of the 65,000 Asian Pacific Americans in our state. They came to make known to all of us their interest to participate in the progress of Nevada. They are a diverse group of many cultures and ethnic backgrounds. They have different languages, religions and education. They are Bengali, Chinese, Hawaiian, Indian, Japanese, Korean, Malaysian, Pakistanis, Philippino, Thai and Vietnamese. They are our constituents, our friends and our neighbors.

The Asian Pacific American community is experiencing a tremendous growth in population in our state. For years, they have helped the resources of Nevada through their contributions; professionally or monetarily through the gaming industry. Now, with the resurgence of the "family" theme in Las Vegas, we will find them more and more from all over the nation and throughout the world. These citizens also represent strong ties to their homelands, the Pacific Rim, which could only benefit our state given the respect and opportunity endowed to us all. With the support of their elected officials, the Asian Pacific Nevadans can provide opportunities for our beloved state.

Because of their diversity and multiple interests, there are approximately 30 organizations in existence. They address the various needs of their specific communities, professions and special interest groups. And with their growth in our state, we, too, must take actions to help these constituents.

With that, Mr. Speaker, I urge the adoption of Assembly Concurrent Resolution No. 40.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 40. I think it's appropriate for us to recognize many of the individuals whose talents involve tourism, which shows true community spirit. This resolution, in my opinion, goes hand in glove with the bill that we passed this week, Assembly Bill No. 525, which was introduced by my colleague from Boulder City. Assembly Bill No. 525, which calls on the county commission to establish a commission to take a look at the needs, wants and talents of the Asian community that we have in our state.

I know many of these individuals, some of whom are my friends. I wish to extend a very warm welcome, and a thank you, not only for what you do for your community, but also for the work ethics you bring back to our spirits. I think this is very, very important. I also would like to say hello to my neighbor, Mr. Goto. Thank you.

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. I have many, many friends who are Asian Americans. I have been impressed throughout the years that I have lived in Southern Nevada, as well as in other places, with how individuals who can come to a country where the language, alphabet and everything is entirely different, adapt to a new culture, and yet, keep their own culture. And, through their work ethics, become leaders in the community, politics and commerce. I wish to salute all of those here today, and all of the great Asian Americans who I have known through the years.

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. I, too, wish to support this resolution. I was hired by two Asian physicians, Dr. Randolph Shiraishi, who is the director of my emergency department, and who hired me directly. Also, Art Wong who is the owner of the EPMT for whom I work. They are the reasons I'm in this great State of Nevada. They are tremendous doctors; wonderful to work for. Their contributions to our community are terrific.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. I rise in support of this resolution. I'm sorry that at this time we only have a bill to study Clark County. When I come back two years from now, I'm going to have a bill which studies the Asian community of Nevada. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 40. When I was a young man, and I was a young man once, growing up in Ely, some of my best friends were Asian Americans. They have a great heritage all over Nevada. I wish to speak very favorably for this resolution.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 40. As a little girl I was able, along with my family, to enjoy the marvelous food at Fong's Gardens on Charleston Boulevard in Las Vegas. I just wanted to share that one of our former esteemed colleagues, Mr. Banner, was very, very grateful for the wonderful care that Dr. Prabhu gave him. I just want to say thank you for all the commitments through the years, both business and community-wide, to the State of Nevada.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I, also, rise in support. Obviously, the community which I represent has a deep heritage. A long history of alliance with Chinese and Asian Pacific Island communities, because of its railroad heritage. Also, because of the large number of merchants who have been in our community who have made our city what it is. I rise in support of this resolution and I think our continued efforts in this regard should move forward. I salute my colleague from the south, who hopes to bring forth a resolution, a stronger bill next session, so we can include a more historic perspective.

Resolution adopted unanimously.

Assemblyman Spitler moved that all rules be suspended and that Assembly Concurrent Resolution No. 40 be immediately transmitted to the Senate.

Motion carried unanimously.

REMARKS FROM THE FLOOR

Assemblyman Nolan requested that his remarks be entered in the Journal.

JAPANESE AMERICAN CITIZENS LEAGUE

1316 S. 8th Street

Las Vegas, NV 89104

PRESIDENT ED WAKAYAMA'S CORNER:

As I watched the 50th commemoration of VE Day on May 8, 1995, that rolls across the continents of North America, Europe, and Russia with reflection, mourning, and celebration, I can immediately recall the sacrifices of Japanese American (Nisei) soldiers who volunteered from the concentration camps, built on the wastelands of the United States, to serve in the famed 442nd Regimental Combat Team along with the 100th Infantry Battalion of Hawaiian Japanese in Europe as well as in the Military Intelligence Service (MIS) in the Pacific. At the gathering of World War II veterans on the green grass of Fort Myers' parade ground, I noticed, among those honored and prominently represented the U.S. armed forces, a former member of the 442nd Regimental Combat Team, wearing a hat of Veterans of Foreign Wars, with a logo, "Go For Broke," standing proudly next to

President Clinton. This ceremony was a fitting tribute to all Japanese Americans who had served in the armed forces during WW II, including those who courageously defied the military draft and were subsequently incarcerated in the military prison at Fort Levinworth, Kansas. The reason for not serving in the military was quite simple: as long as their families were incarcerated in the concentration camps, they would refuse to die for the country that had taken their inalienable rights: liberty, freedom, property and the pursuit of happiness.

We must also remember the sacrifices of a passing generation and the responsibility of future generations to remember the terrible blood shedding that cost some 55 million lives during WW II. There were 26.5 million Russian soldiers and civilians killed in the conflict; 6 million Jews died in the gas chambers; 292,000 American combat deaths in Europe among whom 10,166 Nisei were killed or wounded in action. A total of 33,000 Nisei served in the 442nd/100th and 6,000 in MIS. In less than two years, the 100th/442nd Regimental Combat Team had successfully fought in seven major military battles in Italy, France and Central Europe. In one campaign, the 100th/442nd was ordered to rescue the "Texas Lost Battalion" of the 141st Regiment of the 36th Division at any cost. Although the 100th/442nd was at half strength with only 300 replacements, they engaged in action for six of the bloodiest and fiercest fighting days ever undertaken by any military unit. When 211 Texans were finally rescued, the total number of casualties exceeded the number of men saved. Out of the usual 4,500 men in a regiment, only several hundred men remained. For example, prior to this action, K Company had started out with 200 riflemen, but only 17 men remained at the end of the battle, while I Company had only 8 men survive. When the Commander of the 36th Division, General Dahlquist, came to review the 442nd/100th and personally thanked them, he asked the Regiment Commander, Colonel Miller, "Where are the rest of the men?" Miller tearfully replied, "Sir, you're looking at the entire regiment . . . that's all that's left!" Nisei in the Pacific served their country as translators, interpreters and interrogators. They were credited with shortening the Pacific War by two years, saving a million American lives. They fought with a weapon unique to warfare—language—in such famous places as Corregidor, Okinawa, Guadalcanal and Iwo Jima along side the U.S. Marines as well as Merrill's Marauders in Burma. These Nisei were not only fighting fascism but also racism at home to free their loved ones and other fellow Japanese Americans. As the late President Harry Truman eloquently stated during the military ceremony presenting the seventh Presidential Unit citation to the 442nd/100th Regimental Combat Unit, "I can't tell you how much I appreciate the privilege of being able to show you how much the United States thinks of what you have done . . . you fought not only the enemy but you fought prejudice—and you won!" Nisei soldiers earned 18,143 individual decorations for valor, making the 442nd/100th the most decorated unit for its size and length of service in the annals of the United States. The United States Army selected the rescue of the Texas Lost Battalion in October, 1944 by the 442nd/100th Regimental Combat Unit as one of the ten most important battles in the U.S. history since the Revolutionary War. At the end of WW II, the U.S. Army decided to keep only two combat units in the reserve. Yes, you guessed it, the 100th and 442nd in the State of Hawaii.

We are here to celebrate a triumph of good over evil, and justice over injustice, acceptance over discrimination, and love over hate, it was a grand victory of the human spirit that prevailed at the end.

The Japanese American families had been a focus of facial solidarity through five years of war, fear and deprivation. Most Japanese American families were thinking their uncertain future in the concentration camps, but they are still here in their home called America. We should feel good about being Americans. It's good for us to know the future is still here with us. But we must learn a lesson about the fragility of the personal freedoms and constitutional rights that many Nisei soldiers died for and that we hold so dearly. Let's not forget that because of their sacrifices, the redress became reality in 1988 and we are readily accepted into the mainstream of society. Let's not forget our quiet heroes of Nisei veterans who are too often forgotten or overlooked. We have several Nisei veterans in our Las Vegas Chapter of JACL. When you see them, let's personally thank them for their sacrifices and service as American soldiers. We must remember the

sacrifices of all Americans of Japanese ancestry who endured the unendurable hardship, gave their lives to the country which had betrayed them, and worked hard to be "good" American citizens.

This Chapter President's message is dedicated to all Japanese Americans who lost their freedom and interned in the concentration camps and who served in the armed forces during World War II.

Assemblyman Perkins requested that Assemblyman Price's remarks be entered in the Journal.

Thank you, Mr. Speaker. One of our colleagues, earlier this week, received a very prestigious honor at the university. I thought it would be appropriate to recognize her, Patricia Tripple.

Patricia A. Tripple, Ed.D., has served the university for 40 years as dean of the School of Home Economics and as a professor of home economics. She joined the university in 1955 and became an administrator in 1964, serving as home economics state leader for Cooperative Extension. From 1969 to 1977, she was dean of the School of Home Economics. She later served as the school's graduate program coordinator.

She has served as chairwoman for the following university committees: Interdisciplinary Gerontology Curriculum, Agricultural Experiment Station Research and Graduate

Faculty. She has also been a member of the Community Advisory Board for the Graham and Jean Sanford Center for Aging, the Survey Research Center Advisory Committee and the School of Home Economics Personnel Committee.

She currently serves as a Nevada state assemblywoman and is vice chair of the Education Committee. She is a member of the Assembly's Government Affairs, Transportation and Health and Human Services Committees.

A member of a variety of national organizations devoted to home economics and issues related to aging, she has written or contributed to 100 published articles and made more than 50 presentations at professional meetings. She was appointed to the Nevada Board of Examiners for Nursing Home Administrators and the Governor's Northern Nevada Advisory Council for Older American Programs.

For her many years of service to this university, for her dedication to education and scholarly achievement, and for the esteem in which she is held by her colleagues, the UCCSN Board of Regents has unanimously approved a recommendation that Patricia A. Tripple be promoted to the position of Professor of Home Economics, Emeritus.

I'm very proud to serve with Pat, as I'm sure we all are.

Motion carried.

Assembly Concurrent Resolution No. 11.

Resolution read.

The following amendment was proposed by the Committee on Elections and Procedures:

Amendment No. 283.

Amend the resolution, pages 1 and 2, by deleting lines 9 through 27 on page 1 and lines 1 through 15 on page 2 and inserting:

"*1. A complaint which alleges a violation or a prospective violation of:*

(a) The requirement in section 15 of article 4 of the constitution of the State of Nevada that all meetings of legislative committees be open to the public; or

(b) The rules concerning meetings of legislative committees that are applicable to the House in which a meeting is held,

must be in writing and signed by the person making the allegation.

2. The complaint must be filed with the Director of the Legislative Counsel Bureau not later than 3 legislative days after the alleged violation. The Director shall review the complaint to determine whether it alleges facts which, if true, would constitute a violation of the constitutional requirement that meetings of legislative committees be open to the public or of the rules concerning meetings of legislative committees that are applicable to the House in which the meeting was held.

3. If the Director determines that the complaint does not allege facts which, if true, would constitute a violation, he shall return the complaint to the person who filed the complaint and indicate that the complaint is not within the purview of this rule. The determination of the Director may be

appealed to the Speakers of the Assembly, if the complaint involves an Assembly committee, or the Majority Leader of the Senate, if the complaint involves a Senate committee.

4. If the Director determines that the complaint alleges facts which, if true, would constitute a violation, or if upon appeal the Speakers or the Majority Leader so determine, the Director shall transmit a copy of the complaint, within 1 legislative day after the determination, to the committee responsible for hearing the complaint and the legislator against whom the complaint was filed.

5. Except as otherwise provided in this subsection, the Committee on Elections and Procedures shall hear a complaint which alleges a violation by an Assemblyman. If the complaint alleges a violation by the Committee on Elections and Procedures, the complaint must be heard by a committee consisting of the Speakers, Democrat Floor Leader and Republican Floor Leader of the Assembly or their designees.

6. Except as otherwise provided in this subsection, the Committee on Legislative Affairs and Operations shall hear a complaint which alleges a violation by a Senator. If the complaint alleges a violation by the Committee on Legislative Affairs and Operations, the complaint must be heard by a committee consisting of the President pro Tem, Majority Leader and Minority Leader of the Senate or their designees.

7. Except as otherwise provided in subsection 8, a hearing must be held as soon as practicable after the filing of the complaint. The complainant and the legislator against whom the complaint was filed may present the testimony of witnesses and other evidence at the hearing. If oral statements are made at the hearing, they must be made under oath. Strict rules of evidence do not apply at the hearing.

8. If the complaint alleges only a violation of the rules concerning meetings of legislative committees, a hearing must not be held and no further action may be taken if the legislator against whom the complaint was filed:

(a) Takes corrective action before a meeting of a committee is held in violation of the rules; or

(b) Acknowledges in writing a violation of the rules and agrees to refrain from violating the rules in the future.

9. If the committee hearing a complaint determines that a meeting has been held in violation of the requirement that all meetings of legislative committees be open to the public or of the rules concerning meetings of legislative committees that are applicable to the House in which the meeting was held, the committee shall determine the appropriate remedy for the violation. In determining an appropriate remedy, the committee shall consider the severity of the violation, whether previous violations have occurred, and the degree of harm resulting from the violation. The committee may:

(a) Issue a letter of reprimand or take other punitive measures;

(b) Require that another hearing be conducted on any issue or legislation heard or considered at the meeting in question, or that some other remedial action be taken; or

(c) If the violation was minor and no harm is shown to have resulted therefrom, determine that no action is necessary to remedy the violation and no punishment is appropriate under the circumstances.

The committee shall notify the legislator against whom the complaint was filed of its proposed ruling before taking any action on that ruling.

10. If the legislator against whom the complaint was filed objects to the proposed ruling of the committee, he may appeal the matter to the House for its resolution of the complaint by filing a notice of appeal with the Chief Clerk of the Assembly or the Secretary of the Senate within 1 legislative day after being notified of the proposed ruling. If the legislator does not file a notice of appeal within the time allowed, the ruling of the committee becomes final and the committee shall take the action proposed.

11. The filing of a complaint pursuant to this rule does not prevent any action from being taken with respect to legislation considered at the meeting at which the alleged violation occurred. A determination pursuant to subsection 9 that a violation has occurred does not affect the validity of any legislation heard or considered at the meeting in question.".

THE ONE HUNDRED AND THIRTY-FIFTH DAY

CARSON CITY (Tuesday), May 30, 1995

Assembly called to order at 11:07 a.m.

Speaker Dini presiding.

Roll called.

All present.

Prayer by the Chaplain, Mr. Bob Ellison.

Our Father in Heaven, we come before Thee, grateful for the many blessings that Thou hast given us. We are grateful for the opportunities given to us as citizens of this great land, filled with its freedoms and the opportunity to govern ourselves. We give Thee thanks for the peace and prosperity of this state, for the beauty of this part of Thy vineyard and for the opportunity to serve one another.

As we begin this day of deliberations and concerns for the welfare of the state, we seek the insight, concern, understanding and reason that will serve us as we seek to serve others. We pray for the inspiration to do Thy will, to choose the right in all things and to have the strength to stand by those choices. We seek Thy guidance upon this Assembly in all its business this day.

We desire a special consideration at this time of loss for the family of Sparks Police Officer, Larry Johnson. We pray for Thy spirit of love to be upon his family to console them in their grief this day. May they be blessed with understanding as so many people pay tribute to this good man today. May they find peace in their hearts as they ponder how he gave his life in the service of others and in the enforcement of those laws created by this governing institution.

As the standards are considered this day by which our society is to be governed, may we be ever mindful of their true need and of the ramifications and benefits they will have in the lives of the citizens of this great state.

This I pray in the Name of my Savior, Jesus Christ. AMEN.

Pledge of allegiance to the Flag.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 30, 1995

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolution No. 42.

MARY JO MONGELLI
Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 42.

Assemblyman Neighbors moved the adoption of the resolution.

Remarks by Assemblymen Neighbors, Carpenter, Price and Mr. Speaker Dini.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN NEIGHBORS:

Thank you, Mr. Speaker. It is an honor for me to say a few words about Nevada's friend, Bill Beko. I consider myself fortunate, indeed, to have known Bill and to have had him as a friend.

Judge Beko was a gentle giant; and as tough as he could be. Dispensing justice is no easy task. Bill was as gentle as a teddy bear under that tough exterior. I can count the times he did things for others, both as full-time judge and later as the senior judge who rode the circuit. Bill Beko was Nevada through and through.

Bill never shrank from the tough challenges as Nye County's District Attorney some years ago. He tried to change the profit businesses at the Nevada Test Site to take their share of property taxes the same as we did. He won that landmark case and brought millions of dollars, both to the state and to the county. A lot of other people would have shrunk from that challenge, but not Bill Beko.

There is no doubt that Bill Beko was pure Nevadan. He is woven permanently into the history of our state and into our hearts. He loved his work, our country and state, and he loved a good time.

I went fishing with him on numerous occasions in Oregon. I remember fishing Walker Lake about six months ago. He always had this contest where we bet on who caught the first and biggest fish. I recall on that day that he won both, as he caught the one and only fish.

Rural Nevada is very special. It needs solid and compassionate people. My friend Bill Beko was one of those and much more. We, as well as his beloved state, will miss him deeply. Our hearts go out to his wife Dorothy, daughter Victoria and son Tom. The loss of Bill is their loss, first and foremost, but also our loss and the state's loss. But in a much broader sense, Bill Beko is all of our gain. For in the final analysis, the plain fact is, we are all better off for having known this great friend. Our lives are much better off for having known him. Please welcome his family, Dorothy, Vicki and Tom. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 42. I knew Judge Beko when he was the District Attorney in Nye County. At that time, I was on the Elko County Commission and often the county commissioners and district attorneys would hold their meetings together. I was always impressed with Judge Beko's thinking. He was truly a rural Nevadan.

Judge Beko was appointed to the judgeship when another good friend of mine had passed away, Judge Pat Mann. One time in Elko, I was involved in a case where Judge Beko was the visiting judge. He thought our case was not too meritorious, and so he firmly called us aside and said, "You have to settle this deal right now." And believe me, we did. Judge Beko was a great man and truly an outstanding Nevadan, especially one for rural Nevada.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 42. I, like many Nevadans, have known Bill for a very, very long time. Our relationship did not relate to the legal profession. Back in 1959 or 1960, I was living in Tonopah, working at the test site and playing city league basketball. Bill was the coach for our team. I might add, he was in good shape and probably could have given the Governor a good game. I was very saddened when Bill passed away, and my condolences to the family. Bill will be sorely missed by Nevada and his friends.

Speaker Dini requested the privilege of the floor for the purpose of making the following remarks:

I knew Bill for many, many years while at the university. Bill was working for a mutual friend of ours, Bonnette Novelty Company, on the graveyard shift. He ran change and took care of the slot machines, and that is where I first met him. Our mutual friend was Al Figoni in Reno. We became friends and ran across each other many times, especially in Hawthorne, because we had many mutual friends there. We chased around the Democratic Party sometimes and chatted, but he was always my friend. A couple of years ago, he was sitting in Yerington as a visiting judge on an important case, and I thought he showed real leadership among the district court judges in this state. He was respected by everybody who had anything to do with him. His loss is a great loss to the State of Nevada. My condolences to the family.

Resolution adopted unanimously.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

Assembly Joint Resolution No. 27.

Resolution read third time.

Remarks by Assemblymen Close, Humke, Steel, Carpenter and Ohrenschall.

Assemblyman Close requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. Assembly Joint Resolution No. 27 proposes to amend the Nevada Constitution to revise the provisions relating to the selection of a Supreme Court Justice or a District Court Judge.

With this legislation, a judge whose term of office expires on or after December 31, 1999, and who declares his candidacy for another term of office, must not be opposed by another candidate. Rather, the justice or district judge would serve another six-year term if a majority of the voters approve the question of retention in office. Any vacancy that is caused when a justice or district judge does not seek another term, or when a majority of the votes are cast against retention, is filled by appointment in the manner now provided in the Constitution. Such appointments are made by the Commission on Judicial Selection and Review. The structure and duties of such are changed by Assembly Joint Resolution No. 27. In place of current constitutional provisions, the Legislature would be required to provide by law for the number, qualifications, appointment, compensation and terms of office of the commissioners, not more than two-fifths of whom may be licensed attorneys in Nevada. Additionally, the commission would be required to review and publish a report annually, regarding the performance of each justice and district judge. The Legislature would have to provide by law for the mechanics of this process. Finally, the commission would be authorized to adopt regulations for its operation and for maintaining the confidentiality of its proceedings and records.

Testimony indicated that Supreme Court Justices and District Court Judges must run for re-election once every six years. Although these offices are nonpartisan, several recent contested elections have been very expensive and marked by negative campaign practices. To meet the cost of the campaigns, judicial candidates have become more dependent on various groups of financial supporters, whose interests may not reflect those of the public at large. Moreover, when these supporters appear before the very judges they helped to elect, especially when their contributions have been large, it may seem that justice is for sale. These recent elections have the potential to reduce the number of qualified persons willing to serve or to continue to serve on the bench, but if left unchecked, threaten the independence and the integrity of, and public confidence in, our state judiciaries.

Assembly Joint Resolution No. 27 is not the "Missouri Plan" and it is not the "Nevada Plan." It is a compromise between the two, which for lack of another term, has been labeled the "Close Plan." It proposes that if they, the voters, want to see their judges continue to be elected as in the past, they should not vote for this proposal. However, on the other hand, if they want to see their judges appointed for a six-year term and to then stand for re-election based upon their performance as a judge, they should then vote for the plan.

There has been some testimony expressing some concern as to how the Commission on Judicial Selection and Review would be modified if this resolution is passed by this session, the 1997 Legislature, and by a vote of the people in 1999. In an attempt to clarify intent with this piece of legislation, I would like to provide you with how I visualize the general makeup of this commission.

Primarily, the commission would function as a nonpartisan, nonsalaried commission of laymen and lawyers. The Legislature would determine the exact number of individuals to serve on the commission. However, not more than two-fifths of the number would be attorneys admitted to practice before the courts in our state. The individuals who would serve on the commission would represent the rural and urban populations of our state. In addition, there would also be at least one justice from the Supreme Court, along with

female and minority representation on the commission. I would anticipate that the term of appointment for all members of the commission would be for six years with no opportunity for reappointment. The main goal of the commission would be to select three qualified candidates to fill any judicial vacancy, with the Governor having the opportunity to select the judge from the three candidates nominated by the commission.

I would hope that the commission would select the three candidates for a judicial vacancy based upon a compilation of selection criteria that would develop. However, as has been identified in the literature as the six highest qualities for an individual to be a judge, I would hope that the criteria for selection would include, but not be limited to the candidates moral courage; decisiveness; reputation for fairness and uprightness; patience; good health, both physical and mental; and consideration for others.

I appreciate this long, but hopefully informational, opportunity to speak to the merits of Assembly Joint Resolution No. 27. I would urge your favorable vote on this piece of legislation so the voters of this state can express their views on this issue at the polls.

ASSEMBLY IN SESSION

At 11:34 a.m.

Mr. Speaker presiding.

Remarks by Assemblymen Arberry, Ohrenschall and Chowning.

Assemblyman Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. It is an honor for me to address this body and urge my colleagues to adopt Assembly Concurrent Resolution No. 41 honoring one of Nevada's long time honored great educators, Mr. H. P. Fitzgerald. I had the opportunity some time ago to meet Mr. Fitzgerald in a number of ways as a fraternity brother, as a fellow educator, and one whom I respect a great deal. The great educator from long ago, John Dewey, said, "You learn to do by doing." I think the life of H. P. Fitzgerald exemplifies that to the highest degree. In these times in America and in Nevada when there is so much talk about reform in education, I think the life of H. P. Fitzgerald, unlike many people, exemplifies what we really need to do and reminds us of that with the field of education. He was one who exemplified and emphasized to many of us, not only from what he said so much, but from the things he did. He showed us as educators and as community people in Nevada that we should develop the whole person.

I had the opportunity, on many occasions, to talk to him and gain information that I will value throughout my lifetime. I have had the opportunity to stop at his home and sit down in his office which was right in the front of his house. He talked to me on a number of occasions, from a counseling standpoint, and he always had a saying that, "Mr. Say ain't nothing; Mr. Do is a real man." He said we should really go out and do things. He is the first person who really explained to me that story we often hear about ships. Ships are really safe in harbors, but ships are not built to stay in harbors. Ships are built to go out and expand and explore new territories and waters that are sometimes rough and sometimes are very uncertain. That is what his life exemplified.

And many times, Mr. Speaker, we in this body, present resolutions such as this and we sort of do them in a nonchalant way. I think we should use them expressly as the one I present today, to set an example for us to build on our state and especially for our young people; to take the things that people did in their lives and make that something that we can build on as a state.

With that, the resolution speaks for itself. Many of the things he did I won't go into. But, as mentioned in the resolution, about a year-and-a-half ago in Las Vegas, one of the new schools that opened was named after Mr. Fitzgerald. At that time, I had the opportunity as well as the honor, of working at that school and planning the dedication for its opening. It was a delight, because Mr. Fitzgerald, and his wife who is with us today, was very much a part of the planning and being involved in the dedication of the school. And, as soon as the school opened, the first person you saw coming to the school was Mr. Fitzgerald. He walked into my office saying, "I came here to teach today." He would just walk in the classroom, and he loved being with children. He was there every day working in classrooms. It was so good that he was still with us at the time the school opened, because the children at the Fitzgerald School got a chance to really find out what he was about.

One of the things that I had the pleasure of doing was developing a video on Mr. Fitzgerald's life which we presented the night of the opening of the school. So, Mr. Speaker, with your permission, if we could go into maybe a three minute recess, I would like to show that video.

ASSEMBLYMAN ARBERRY:

Thank you, Mr. Speaker. I rise in support of this resolution. I am honored that my colleague from District No. 6 put this before us today. Growing up as a student in the West Las Vegas area, I didn't have an opportunity to get to know H. P. But as they state, "It's never too late." After returning home from college and working for the City of Las Vegas Building Department, was when I got an opportunity to meet H. P. I worked with him when he would come in to pick up permits for housing, or whatever project he might have had going on. And from that, we developed a very good relationship. When I changed positions and moved into the Neighborhood Service Office, H. P. was the first one there to volunteer his time to help to revamp our community. We made him one of the board

members, and then at the same time, we had a problem trying to locate a lot of people to get them on the board. Well, he told us if we would get him a list he would turn the people out, and he did just that. The next time we had a meeting, we had a crowd of people. He was that well respected. He built a very strong foundation for us.

I went over to his school one day after we had dedicated the park to him. The park was missing a quarter of a parcel to be a whole parcel. After we got the sale of that short parcel and we had put the sign up, that night at a meeting he leaned over and said, "You know Moose, the sign says Fitzgerald Park." Then he said, "Anybody can be Fitzgerald Park. I need that sign to say H. P." I said, "Mr. H. P., it's done." Two weeks later, the City of Las Vegas changed that sign. I went by his house, and he just waved and said "Okay, I'm happy."

Just knowing H. P. was a joy. And when he was getting sick and losing some of his responses, he still made a point to come by and see us. I am proud of my colleague from District No. 6 for presenting this resolution because he gave us a legacy that we will not forget. In closing, Mr. Speaker, my colleague and I were sitting around last night talking about H. P. as my colleague was waxing his car. So, if any of you go out to the parking lot, you might notice his car looks different. But anyway, we said that even though we're elected from a district where I grew up and my colleague from District No. 6 also spends his life right now, none of us could fill the shoes of H. P. We feel there will never be another person like H. P. and he will be missed. Thank you, Mr. Speaker.

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. Sometime in the past, I ran the legal clinic for the West Side Credit Union. And I can tell you, that H. P. Fitzgerald was very, very active in encouraging people on the west side to come to the credit union to face problems they would have before they became too extreme and couldn't be faced by providing help within the community for them. He would also tell them when they might have had a little problem that perhaps they weren't aware of. We always had plenty of business, and a lot of it was due to H. P. Fitzgerald.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 41. I did not have the pleasure of serving under this beloved educator, but I did know many teachers who did. It's an honor for me to stand here today and recognize a person of this caliber and all of the children whose lives he touched are better citizens today because of him. Thank you.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. As has been mentioned, you know it's pretty tough to fill Mr. Fitzgerald's shoes but, as my mother says, "Don't try to fill the shoes of great men, just walk the path they walked." I think the fact that the Fitzgerald School is now in existence, all the children who have a chance to walk the halls of that school will have the benefit of trying to at least walk the path of that legacy.

Resolution adopted unanimously.

Assemblyman Williams moved that all rules be suspended and that Assembly Concurrent Resolution No. 41 be immediately transmitted to the Senate.

Motion carried unanimously.

By the Committee on Elections and Procedures:

Assembly Resolution No. 11—Commending the loved ones of the members of the Assembly for their support.

WHEREAS, The spouses, families and "significant others" of members of the Assembly often make sacrifices equal to or even greater than those made by the members themselves so that their loved ones can serve the people of the State of Nevada; and

WHEREAS, These supportive persons often campaigned tirelessly before elections, sacrificing time, finances and privacy to help to improve this state; and

WHEREAS, Frequently, they must bear the greater responsibility for child rearing, homemaking and income production while the members of the Assembly are serving during a legislative session; and

WHEREAS, Many members of the Assembly must accept a reduction in pay while they serve and this often requires family members to make financial sacrifices; and

WHEREAS, The spouses, families and "significant others" endure periods of loneliness and loss of companionship during a legislative session and often are forced to move or change jobs while members of the Assembly are serving this state; and

WHEREAS, The majority of these persons have been or are currently involved in service to the state and their communities in their own right; and

WHEREAS, They have constantly offered their support, love and loyalty to the members of the Assembly and they seldom have received the accolades and recognition they so richly deserved; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, That the members of the 68th session of the Nevada Assembly extend their feelings of deepest love, highest honor and sincerest appreciation to their spouses, families and "significant others" who have given so much and requested so little, including, but not limited to, Cherryl Allard, Clyda Hooper Anderson, Carol Arberry, Sallie S. Bache, Elisabeth Batten, Connie Bennett, James Braunlin, John Brower, Roseann Carpenter, Elmer Chowning, Gaye Close, Lyle de Braga, Jeanne Dini, Bob and Nancy Ernaut, Rob and Tracey Evans, Joan Fettic, Richard Freeman, David and Mary Goldwater, Gary Gray, Diane Ellen Harrington, Arla Hettrick, Virginia Humke, Stefan Ivanov, Chan Kendrick, Richard Krenzer, Gregory Lambert, Mike A. and Marie A. Manendo, Willie Marvel, Walt Monaghan, Betsy Neighbors, Kim Nolan, Terri Jo Perkins, Maria Pintos, Nancy Price, Kathleen Sandoval, Candy Schneider, Cliff Segerblom, Gaylan Stroth, Ross Tonkens and Zelda Williams; and be it further

RESOLVED, That the Chief Clerk of the Assembly prepare and transmit a copy of this resolution to those persons or, if appropriate, in memory of those persons in acknowledgment of their support.

Assemblyman Harrington moved the adoption of the resolution.

Remarks by Assemblyman Harrington.

Assemblyman Ernaut requested that Assemblyman Harrington's remarks be entered in the Journal.

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. To you and through you to this body. I think all of us appreciate those who have helped us to get elected and to serve here. I have observed that several of your families have come through sacrifices that other families have had to go through. Some of you have given up jobs to be here and the spouses have to wonder what is going to happen after the session is over. Others have had health problems while we've been away. In my particular circumstances, my children have had to be fatherless for the six months since I've been up here, except for the weekends. The very first weekend that I was gone, when I came back my three-year-old was playing on the floor and as soon as I walked in he just froze. He was really angry at his father for being gone that first week and he went and sat on the green sofa. I tried to talk to him, but nothing really worked until I offered him ice cream and that warmed him up. Subsequently he's gotten kind of used to the idea that dad goes all week and comes back on the weekends. But it is a significant sacrifice for the children to have their father gone. It's even harder for my wife to have to deal with six kids all week long. She just waits for Friday to come when she can get a little relief. And so, indeed, our spouses and families frequently do make greater sacrifices than we do being here. Here, it's kind of fun and we get to talk about interesting things, meet interesting people and do fun things. Frequently, they have to hold up the tough end of the battle of rearing the families, making do with a lot less money than they are accustomed to and many other sacrifices. I think we owe it to them to commend them for the fine service they do and for the work they do without too much recognition. I think they deserve that.

Resolution adopted unanimously.

Senate Concurrent Resolution No. 43.

Assemblyman Dini moved the adoption of the resolution.

Remarks by Assemblymen Dini, Marvel, Carpenter, Giunchigliani, Nolan, Humke, Mr. Speaker Hettrick, Price, Schneider, Spitler and Tiffany.

Assemblyman Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

Mr. Speaker, it is indeed my pleasure to be able to speak on this resolution today. I met Jim in 1973. His dad brought him to the session in 1973, and got him acquainted with the legislative process and introduced him to all of us here.

When you see a young person, sometimes you spot one that you think is going to be a leader for our state, for our communities and he was one. It is really tough on his parents and his family. It is tough on some of us who knew him when he was young. You hate to see young people pass away early in life when they are just reaching the mature part of their life and their productivity.

As you could see from his activities, he was involved in his community in Las Vegas, and he was a man who was involved in the future of our state. You can go to any town in Nevada and they know who Jim Cashman was. You can go to Elko, Ely, Winnemucca, Battle Mountain, Yerington, or Reno and everyone knew him because he was involved.

We discussed economic development many, many times as he served on the Economic Development Board and Commission and his ideas were for Nevada to go forward. Always go forward and do a good job; develop our state and make it the greatest state in the Union. I think he dedicated his life to that with his involvement throughout his many community activities. He was on all kinds of boards of directors; all kinds of organizations. These are true state leaders and he was a great state leader; a great community leader.

It was my privilege to have known him and to have worked with him on many, many projects. My condolences to the entire family on behalf of this organization.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I, also, rise in support of Senate Concurrent Resolution No. 43. It certainly is a shock to all of us who have known the Cashman family for numerous years to have lost this fine young man at such an early age. Of course, the Cashman family are not strangers to northern Nevada. I just happened to pick up a paper the other day where in Elko, the Cashman Equipment has added another extensive addition. So, as Speaker Dini just related, the Cashman family is well known to all of us, and we are certainly going to miss young Jim. Certainly, Willie and I offer our condolences to the Cashman family. He will be missed sorely.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 43. I first met Jim when he was a neighbor of mine in Elko and they purchased the Anchor Guest Ranch. He was always a gentleman. After I became a member of the Assembly, I saw him many times over in these halls and he always was working for the good of Nevada. He was a good man and a great neighbor and I, too, want to extend my condolences to the family.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 43. I first got to know Jimmy when I was president of the Nevada State Education Association and I launched that infamous corporate initiative. We had many wonderful debates, but I have to say we always agreed to disagree and he was always a gentleman and did it with a great deal of respect. I did respect Jim and his opinion.

I have to say, in 1991 I saw him after my first session, and I sat with him and talked about what problems affected businesses. The genesis of that conversation became

Assembly Bill No. 153, which was passed last session, and was on how to better organize and be more efficient in government and learn something from the private sector. I have to say, that was to his credit.

It was a shock to all of us to hear of Jimmy's passing. I have to say, though, that Tim continued on with the school-to-work programs and occupational education. An honor to him last week was passage of Assembly Bill No. 303 which really culminates the school-to-work program, and one which I think he believed in very, very sincerely. I would also like to pass on my condolences and say that a legacy has been left here, and that is the community spirit that Jim represented. Thank you.

ASSEMBLYMAN NOLAN:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 43. I first formally met Jim Cashman about eight years ago, which is relatively recent to a lot of individuals here. However, I grew up with his younger brother, Tim.

I met him in a Leadership Orientation Program in Las Vegas where we had to introduce one another. I asked Jim a little about himself. He said, "Don't worry about the introduction, when it's time for you to introduce me I'll tell you what to say." Half of the people in the organization already knew Jim and knew his activities in the community, and so, I was alone in not knowing him. When it came time to introduce him he said, "Tell them I like working with people and I like working for people." I looked at him after about one-half of the introductions had been given, and everyone went on to tell about their professional careers and I said, "Are you going to have me tell more than that?" "No." he said, "Just say that." So I did. Everyone acknowledged that, and come to find out, that is the way Jim was.

I saw Jim over the last eight years at so many benevolent and community activities, that I started to wonder if there were twins who existed in the Cashman family that I didn't know about. Also, when I decided to run for office, Jim called me and said, "You are going to be my representative and I want to support you, but tell me why I should vote for you?" I went on to tell him, with a well polished presentation, about why he shouldn't vote for any other candidate because it would be a doom and gloom day. He said, "That was very well done, now tell me why I should vote for you?" He was that kind of man. No discouraging words. You never heard anything bad about anyone else from him. He was one gentleman who truly deserves this honor.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 43. I, too, knew Jim. I won't repeat the well-documented list of accomplishments from the resolution or from the traits that have been described from the Speaker, Ways and Means Chairman and various others. I would like to emphasize that I did represent his brother, Tim. I would agree with the previous speaker that representation was appropriately difficult under our democratic system, but I was proud to do so.

I was also very happy to have seen Jim just prior to his death. He was up here and I uncharacteristically had a good chat with him at a reception, which I seldom attend. It was just fate and I was glad to see him. I would like to emphasize that he always worked for a solution to whatever problem we had inside these walls and it was always for the good of the State of Nevada. He will be sorely missed. Thank you.

Speaker Hettrick requested the privilege of the floor for the purpose of making the following remarks:

I, too, had the pleasure of talking with Jim at that reception and it was a pleasure for me. I, too, miss Jim Cashman very much.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 43. I have been sitting here trying to remember when Jim and I first met. It was a long, long time ago. Over the years, we had many conversations. Particularly, after I got into politics. We met even before that. Not surprisingly, oftentimes on separate sides of the

issue and oftentimes on the same side of the issue. He really set a wonderful example of how things should be done and how you could discuss different sides, do it in a meaningful way and eventually come to solutions.

As has been his family's tradition, he was very involved in the community and the good things that we try to encourage our own children and friends to do in life. I, like all of us and the rest of Nevadans who knew him, was shocked when we lost him. I am glad that we are honoring him today. My condolences to the family. We know that while he was among us, he did wonderful things. They will be proud of him forever. Thank you.

ASSEMBLYMAN SCHNEIDER:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. I have known the Cashmans for quite awhile. As a matter of fact, I graduated from high school with Jim's wife, Mary Kaye. She was a classmate of myself and my wife, Candy. She just reminded me a little bit ago that my wife was her first friend at Bishop Gorman.

I would like to relate something about Jim Cashman. As a good Democrat, he and I had a lot in common. At every cocktail party, he'd have a glass of red wine and I'd have mine and he would somehow make it over to me and say, "How's it going?" We all knew how it was to represent the business community as Democrats, and we'd joke about it a little bit.

There was one incident that happened in the first part of December, shortly after the election. There was a lot of discussion about the balance of power in this house. Jim came over to me at that Chamber function and said, "I have a solution. We are sending you to Bosnia, Mike. We have precedence for that. Candy will take your seat. We have broken the balance of power." Candy looked at him, grabbed his arm and said, "Jim, I don't think you'd like the way I voted." Jim and I have the best of both—we are married to Republicans from Bishop Gorman. Thank you very much, Mr. Speaker.

ASSEMBLYMAN SPITLER:

I also rise in support of Senate Concurrent Resolution No. 43. Listening to the long list of the many organizations to which he belonged, speaking so highly of his civic involvement and of his pride in Nevada. In fact, I think it was through United Way that I first met him.

At that first meeting, I had absolutely no idea who he was. He was quiet and sat with me in the back of the room. And yet, through that whole meeting, he kept pulling everything together and making things happen. It was a real pleasure to work with him on civic projects. He always kept his word and always worked as hard as the next person.

I'll particularly miss his calls and notes during the campaign season. He always was nice to take a few minutes to call and ask how the campaign was going, or drop a note. His loss to all of us is sad and we'll miss his leadership; but, truly we should take his example of leadership and kindness and share it with those around us. I would like to thank all of his family for sharing him with us.

ASSEMBLYMAN TIFFANY:

Thank you, Mr. Speaker. I have only been in Nevada about five years, and Jim was one of the first people that I met when I moved here. Particularly, when I decided to run for office. There are a handful of people in Clark County that you go visit and sit at the knee of; he was one of them.

To show you how nonpartisan he was, obviously you have probably concluded by now that he was a Democrat, and obviously I'm not, but he touched every single one of us. When I decided to run for office, he was the person that would talk about what we needed and I particularly focused on Clark County. What do we need? Education, community service, growth issues, taxes, banking, it didn't matter. He was there and he had the knowledge.

Once I got elected, he was one of the business people in Clark County that I would call. If we had legislation that impacted either the city, the county or the business community, he was the one who we would touch base with and say, "What do you think about this?" He always gave us great, solid advice. The second time that I ran for office was with the chamber working on candidate recruitments and the structure of how to elect the

candidates that the chamber supported. So, the Republican caucus had a business plan. He was one who helped structure the business plan on how to get Republicans elected in Clark County. It tells you again how nonpartisan he was.

I attended the funeral. I have to tell you I didn't know him as a family man and I was just struck by the photographs that you had, and the program you and the kids did. When the kids got up and talked about their father; the relationship with him. He will leave a legacy through these children forever. I want to thank the family also for sharing him with us. All of us were impacted here at the state legislature. He has two wonderful children to carry on the next generation. We will dearly, dearly miss him.

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day adopted Senate Concurrent Resolutions Nos. 44, 45.

MARY JO MONGELLI
Assistant Secretary of the Senate

Assemblyman Ernaut moved that the Assembly recess subject to the call of the Chair.

Motion carried.

Assembly in recess at 12:09 p.m.

ASSEMBLY IN SESSION

At 12:13 p.m.
Mr. Speaker presiding.
Quorum present.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 44.

Assemblyman Marvel moved the adoption of the resolution.

Remarks by Assemblymen Marvel, Dini and Carpenter.

Assemblyman Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. It was with great sadness that I lost one of my better friends, a person that I have known all my life, Pete Walters.

I've known the Walters family since the 1930s, when they were connected with the Commercial Hotel. These Elko folks were probably the focal point for eastern Nevada. Pete was manager of the Commercial Hotel, and my folks used to stay there, habitually, as Elko was the shipping center. So, we had known Pete for many, many years.

It amazes me the number of activities this man was involved in. I don't know how he kept his durability, and certainly, his congeniality. No matter what you were involved in, it seemed as if you always ran into people who knew him. His name was Frank, but I don't think anyone realized that Frank was his God-given name. It was always Pete as long as I knew him.

As you know from the resolution, he was a member of this body for two sessions; one was a special session. He was a member of the first Gaming Commission, before it was separated from the Tax Commission. He was a pioneer in many ways for state government in the State of Nevada.

I certainly wish to extend my condolences to his wife, Connie, who is sitting with me today. We will surely miss Pete's presence.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker, members of the Assembly. I've known Pete for many, many years. He was probably on the Gaming Commission when I received my first nonrestrictive gaming license.

I became well acquainted with him when he was living in Fallon. He and his wife lived there for at least nine years. Under reapportionment, I represented Clark and Churchill County for about 20 years, and got acquainted with him at all the public meetings. It was very interesting. With his knowledge of government and his history of being a legislator, he gave me a lot of good points. He knew a lot of good history and a lot of the issues we are facing today. He kept track of the issues and would call me many times and say, "Joe, you need to look at this bill or look at this idea."

Pete will be sorely missed. He always had a friendly face and handshake for me. We really got along well. He will be missed.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 44. I didn't meet Pete until I moved to Elko. He used to come to Elko very often. What amazed me, although I hadn't known him very long, was we carried on a conversation like we had known each other all our lives. The people in Elko spoke very highly of him. What a great manager he was down at the Commercial. Like John Marvel mentioned, the Commercial was the place to be in those days. I got to know him in the real estate business. He was such a friendly guy and I always enjoyed his company. I was always happy to have him come back and visit us in Elko.

Resolution adopted unanimously.

Senate Concurrent Resolution No. 45.

Assemblyman Fettic moved the adoption of the resolution.

Remarks by Assemblymen Fettic, Dini and Carpenter.

Assemblyman Williams requested that the following remarks be entered in the Journal.

ASSEMBLYMAN FETTIC:

Thank you, Mr. Speaker. As a life-long resident of Carson City, and having spent over 25 years in law enforcement in this city, I take this as a personal affront to my community; to the people who live in this community; the State of Nevada; and especially, the innocent people at the United States Forestry Service for this cowardly act. There is nothing more low-life or sneakey than a bomber. They don't care who they hurt, who might get injured or what damage they cause. I would urge your support of this resolution. Thank you, Mr. Speaker.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker. I would like to stand up and support this resolution. This is a democracy where you have a right to protest. You have the right to talk to your elected officials and if there is a problem, you solve it. These acts of violence don't have a place in beautiful Carson City.

We've made laws and run the government from this city, and to have employees suffer under this magnitude of pressure because they work for the Forestry Service is not fair to the good people who work for that department. I just want to support this resolution. I hope we can do whatever it takes in this Legislature to stop this kind of violence. We must do it. We cannot continue to have good employees, good people who are doing their jobs for all the people in this state, have to suffer this kind of pressure. I would like to support this resolution.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 45. There has been a lot of press in regard to this situation in Carson City, and really, all over the West. There has been some finger pointing which I don't agree with. I believe all of us deplore this kind of violence. As our Speaker said, "In this nation, we have the right to stand up and disagree, but we do not have the right to destroy the property and lives of others." I do stand up in support of this resolution. Hopefully, the perpetrators will be brought to justice.

Resolution adopted unanimously.

Amend sec. 2, page 1, by deleting lines 19 through 25 on page 1 and lines 1 through 44 on page 2, and inserting:

"534.090 1. Except as *otherwise* provided in [subsections 2 and 3,] *this section,* failure for 5 successive years after April 15, 1967, on the part of the [holder] *owner, as determined in the records of the office of the state engineer,* of any right, whether it is an adjudicated right, an unadjudicated right, or a permitted right, and further whether the right is initiated after or before March 25, 1939, to use beneficially all or any part of the underground water for the purpose for which the right is acquired or claimed, works a forfeiture of both undetermined rights and determined rights to the use of that water to the extent of the nonuse. *If the records of the state engineer indicate at least 4 consecutive years, but less than 5 consecutive years, of nonuse of all or any part of a water right governed by this chapter, the state engineer shall notify the owner of record of the water right by registered or*

certified mail that he has 1 year after the date of the notice in which to use the water right beneficially and to provide proof of such use to the state engineer or apply for relief pursuant to subsection 2 to avoid forfeiting the water right. If, after 1 year after the date of the notice, proof of beneficial use is not sent to the state engineer, the state engineer shall, unless he has granted a request to extend the time necessary to work a forfeiture of the water right, declare the right forfeited within 30 days. Upon the forfeiture of a right to the use of ground water, the water reverts to the public and is available for further appropriation, subject to existing rights. If, upon notice by registered or certified mail to the [person] *owner* of record whose right has been declared forfeited, [that person] *the owner of record* fails to appeal [such] *the* ruling in the manner provided for in NRS 533.450, and within the time provided for therein, the forfeiture becomes final.

2. The state engineer may, upon the request of the [holder] *owner of record* of any right described in subsection 1, extend the time necessary to work a forfeiture under that subsection if the request is made before the expiration of the time necessary to work a forfeiture. The state engineer may grant , *upon request and for good cause shown,* any number of extensions, but [no] *a* single extension [may] *must not* exceed 1 year. In determining whether to grant or deny a request, the state engineer shall, among other reasons, consider:

(a) Whether the [holder] *owner of record* has shown good cause for his failure to use all or any part of the water beneficially for the purpose for which his right is acquired or claimed;

(b) The unavailability of water to put to a beneficial use which is beyond the control of the [holder;] *owner of record;*

(c) Any economic conditions or natural disasters which made the [holder] *owner of record* unable to put the water to that use; and

(d) Whether the [holder] *owner of record* has demonstrated efficient ways of using the water for agricultural purposes, such as center-pivot irrigation.

The state engineer shall notify, by registered or certified mail, the owner of record of a water right who has requested an extension pursuant to this subsection of his decision regarding whether the request is granted or denied.

3. If the failure to use the water pursuant to subsection 1 is because of the use of center-pivot irrigation before July 1, 1983, and such use could result in a forfeiture of a portion of a right, the state engineer shall, by registered or certified mail, send to the owner of record a notice of intent to declare [such] a forfeiture. The notice must provide that the owner has at least 1 year from the date of the notice to use the water beneficially or apply for additional relief pursuant to subsection 2 before forfeiture of his right is declared by the state engineer.

4. A right to use underground water whether it is vested or otherwise".

Our Father, who art in Heaven: We, a few of Thy children with thanksgiving in our hearts assembled before Thee this morning, are truly thankful for this opportunity of communing with Thee through Thy Holy Spirit. We desire to worship Thee in truth and to be taught Thy ways always.

We ask that Thy blessings be with the sick, the poor, the needy and the afflicted in the world, our nation and our state this day. We especially pray for those throughout the world who live in war-like conditions; who live in fear for their lives and family members who may have to leave their homes. We also pray for the starving people around the world. Pray that Thy blessings and Thy comfort will be with them as would be Thy will.

We are truly blessed to live in this great nation, The United States of America, the greatest of all nations. We are, indeed, grateful to make our homes in the great State of Nevada, for the peace and prosperity we find here and for the beauty we have in Nevada. We are thankful for the water that we find at this time in our rivers, streams, lakes and reservoirs that help alleviate our drought problem. We are grateful for the beautiful wild flowers that are on our mountains, valleys and deserts that are blooming so abundantly, that add to the beauty of our state.

We are truly thankful and grateful for the leaders of our state government. We pray that Thy hand will be in decisions made that will benefit the people of the State of Nevada. We pray that Thou wilt bless and protect us all throughout this day and help us in all we do. This is our prayer, we humbly pray, in the Name of our Lord and Savior Jesus Christ.

Our Dear Heavenly Father: We pause a few moments at the beginning of this session of the Nevada State Assembly, to give Thee thanks for the many blessings we enjoy and to invoke Thy continued blessings on this Assembly.

We are thankful for this beautiful and prosperous State of Nevada, for the freedoms and opportunities available to each of us. We give thanks for dedicated men and women who are willing to leave their homes, their jobs, their businesses and professions, and their families, and come here to Carson City to labor together in this Assembly, to help make Nevada a better place for all us.

As the pace increases with the approaching end of this 1995 session, we pray for Thy Holy Spirit to be with each of them. Grant them strength and stamina, patience, wisdom and a spirit of cooperation and helpfulness. Let them not lose their sense of humor, their dedication and diligence, nor their integrity. Help them to accomplish all that needs to be accomplished, to remain friendly and kind one to another, and to be satisfied and to feel good about all they have done here. Sec. 1. NRS 176.185 is hereby amended to read as follows:

176.185 1. [Whenever] *Except as otherwise provided in this section, whenever* a person is found guilty in a district court of a crime upon verdict or plea, except in cases of murder of the first or second degree, kidnaping in the first degree, sexual assault, *attempted sexual assault of a child who is less than 16 years of age,* an offense for which the suspension of sentence or the granting of probation is expressly forbidden, or where the person is found to be a habitual criminal pursuant to NRS 207.010 or a habitual felon pursuant to section 180 of [this act,] *Senate Bill No. 416 of this session,* the court:

(a) If the person is found guilty of a category E felony, shall suspend the execution of the sentence imposed and grant probation to the person pursuant to NRS 193.130; or

(b) If the person is found guilty of any other felony, a gross misdemeanor or a misdemeanor, may suspend the execution of the sentence imposed and grant probation as the court deems advisable.

2. In determining whether to place a person on probation, the court shall not consider whether the person has the financial ability to partici-

pate in a program of probation secured by a surety bond established pursuant to sections 197 to 204, inclusive, of [this act.] *Senate Bill No. 416 of this session.*

3. The court may grant probation to a person convicted of indecent or obscene exposure or of lewdness only if a certificate of a psychologist or psychiatrist, as required by NRS 201.210, 201.220 or 201.230, is received by the court. The court shall consider the standards adopted pursuant to NRS 213.10988 and the recommendation of the chief parole and probation officer, if any, in determining whether to grant probation.

4. If the court determines that a defendant is otherwise eligible for probation but requires more supervision than would normally be provided to a person granted probation, the court may, in lieu of sentencing him to a term of imprisonment, grant him probation pursuant to the program of intensive supervision established pursuant to NRS 176.198.

5. The court shall not, except as otherwise provided in this subsection, grant probation to a person convicted of a felony until the court receives a written report from the chief parole and probation officer. 6. Remarks by Assemblyman Dini.

Assemblyman Ernaut requested that Assemblyman Dini's remarks be entered in the Journal.

Thank you, Mr. Speaker, members of the Assembly. We are here today to honor a great Nevadan, John Koontz. He comes from a long line of great people from Goldfield. He was one of the more knowledgeable men who served in state and local government. He started out in 1934 as the County Recorder of Esmeralda County. This started his political career which lead him to be one of the greatest Secretaries of State this state will ever know.

John came from the old style of working. He worked in the mines, the grocery store and cattle punching on ranches. This is how he got his start in Nevada. He was a great Democratic leader and was honored by our party many, many times as being one of the more outstanding leaders in the history of this state in the Democratic party.

As Secretary of State, he did a lot of great things during a time when the budgets where small. He did everything by hand, as there weren't any computers. It was acknowledged that the Nevada Secretary of State's office was one of the most efficient and more aggressive in the United States.

He also had great vision regarding the archives. When he found those historical records stored in the basement of the State Capitol building on a dirt floor, he realized that something had to be done to salvage the history of this state. He and John Cahlan started the drive to create the archives in this state. Because of this, we recently dedicated a room in the Nevada State Library in honor of him and Mr. Cahlan. I had the privilege of speaking that day in honor of John Koontz.

It is unfortunate that his wife could not be with us today, but we have other members of his family here. I think we recognize him for what he was; a great Nevada leader. A great man with vision and a very honest, hardworking, good Nevada American. We send condolences to his family. It has been my privilege to have known this man for the past 40 years. It has really been a pleasure. We will miss him sadly.

Resolution adopted unanimously.

3. May not provide for a difference in percentage rates of payment for coinsurance of more than 30 percentage points between the payment for coinsurance required to be paid by the insured to a preferred provider of health care and the payment for coinsurance required to be paid by the insured to a provider of health care who is not preferred.

4. Must require that the deductible and payment for coinsurance paid by the insured to a preferred provider of health care be applied to the negotiated reduced rates of that provider.

Assembly Bill No. 364.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 362.

Amend the bill as a whole by deleting section 1 and adding a new section designated section 1, following the enacting clause, to read as follows:

"Section 1. Chapter 176 of NRS is hereby amended by adding thereto a new section to read as follows:

1. A county or city may authorize the justices or judges of the justices' or municipal courts within its jurisdiction to impose, in addition to an administrative assessment imposed pursuant to NRS 176.059, an administrative assessment for the provision of court facilities.

2. Except as otherwise provided in subsection 3, in any jurisdiction in which an administrative assessment for the provision of court facilities has been authorized, when a defendant pleads or is found guilty of a misdemeanor, including the violation of any municipal ordinance, the justice or judge shall include in the sentence the sum of $10 as an administrative assessment for the provision of court facilities and render a judgment against the defendant for the assessment.

3. The provisions of subsection 2 do not apply to:

(a) An ordinance regulating metered parking; or

(b) An ordinance which is specifically designated as imposing a civil penalty or liability pursuant to NRS 244.3575 or 268.019.

4. The money collected for an administrative assessment for the provision of court facilities must not be deducted from the fine imposed by the justice or judge but must be taxed against the defendant in addition to the fine. The money collected for such an administrative assessment must be stated separately on the court's docket and must be included in the amount posted for bail. If the defendant is found not guilty or the charges are

dismissed, the money deposited with the court must be returned to the defendant. If the justice or judge cancels a fine because the fine has been determined to be uncollectible, any balance of the fine and the administrative assessment remaining unpaid shall be deemed to be uncollectible and the defendant is not required to pay it. If a fine is determined to be uncollectible, the defendant is not entitled to a refund of the fine or administrative assessment he has paid and the justice or judge shall not recalculate the administrative assessment.

5. If the justice or judge permits the fine and administrative assessment for the provision of court facilities to be paid in installments, the payments must be applied in the following order:

(a) To pay the unpaid balance of an administrative assessment imposed pursuant to NRS 179.059;

(b) To pay the unpaid balance of an administrative assessment for the provision of court facilities pursuant to this section; and

(c) To pay the fine.

6. The money collected for administrative assessments for the provision of court facilities in municipal courts must be paid by the clerk of the court to the city treasurer on or before the fifth day of each month for the preceding month. The city treasurer shall deposit the money received in a special revenue fund. The city may use the money in the special revenue fund only to:

(a) Acquire land on which to construct additional facilities for the municipal courts or a regional justice center which includes the municipal courts.

(b) Construct or acquire additional facilities for the municipal courts or a regional justice center which includes the municipal courts.

(c) Renovate or remodel existing facilities for the municipal courts.

(d) Acquire furniture, fixtures and equipment necessitated by the construction or acquisition of additional facilities or the renovation of an existing facility for the municipal courts or a regional justice center which includes the municipal courts. This paragraph does not authorize the expenditure of money from the fund for furniture, fixtures or equipment for judicial chambers.

(e) Acquire advanced technology for use in the additional or renovated facilities.

(f) Pay debt service on any bonds issued pursuant to subsection 3 of NRS 350.020 for the acquisition of land or facilities or the construction or renovation of facilities for the municipal courts or a regional justice center which includes the municipal courts.

Any money remaining in the special revenue fund after 5 fiscal years must be deposited in the municipal general fund for the continued maintenance of court facilities if it has not been committed for expenditure pursuant to a plan for the construction or acquisition of court facilities or improvements to court facilities. The city treasurer shall provide, upon request by a municipal court, monthly reports of the revenue credited to and expenditures made from the special revenue fund.

7. The money collected for administrative assessments for the provision of court facilities in justices' courts must be paid by the clerk of the court to the county treasurer on or before the fifth day of each month for the preceding month. The county treasurer shall deposit the money received to a special revenue fund. The county may use the money in the special revenue fund only to:

(a) Acquire land on which to construct additional facilities for the justices' courts or a regional justice center which includes the justices' courts.

(b) Construct or acquire additional facilities for the justices' courts or a regional justice center which includes the justices' courts.

(c) Renovate or remodel existing facilities for the justices' courts.

(d) Acquire furniture, fixtures and equipment necessitated by the construction or acquisition of additional facilities or the renovation of an existing facility for the justices' courts or a regional justice center which includes the justices' courts. This paragraph does not authorize the expenditure of money from the fund for furniture, fixtures or equipment for judicial chambers.

(e) Acquire advanced technology for use in the additional or renovated facilities.

(f) Pay debt service on any bonds issued pursuant to subsection 3 of NRS 350.020 for the acquisition of land or facilities or the construction or renovation of facilities for the justices' courts or a regional justice center which includes the justices' courts.

Any money remaining in the special revenue fund after 5 fiscal years must be deposited in the county general fund for the continued maintenance of court facilities if it has not been committed for expenditure pursuant to a plan for the construction or acquisition of court facilities or improvements to court facilities. The county treasurer shall provide, upon request by a justice's court, monthly reports of the revenue credited to and expenditures made from the special revenue fund.".

Amend the title of the bill to read as follows:

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. Judge Thompson is the second Judge Thompson that we honor during this legislative session. His brother, Bruce, also met his demise since the last legislative session. They were a tremendous pair of brothers; a tremendous pair of individuals. They were important to the State Bar and the court systems of this state. They were giants.

Gordon was no less a giant than his brother Bruce. He published many, many opinions at the Supreme Court, as he was the chief drafter—a work horse. He was respected by all members of the judiciary and the State Bar of this state. I also believe he was well respected by all members of the Legislature and all public officials.

I had the pleasure of knowing him very late in his career. He taught at the Nevada School of Law at Old College where he taught Civil Procedure. I'm pleased to say that I suggested to the student body that we create a "Professor of the Year Award" and that we present it to him. This was done unanimously, almost without discussion, because of his stature. Judge Thompson did pass away earlier this year and will be sorely missed. Thank you, Mr. Speaker.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. I went to college with Judge Thompson when he was just Gordon Thompson. He was as fair and kind then and a lot of fun. We had a good time together. I knew his brother Bruce very well, too. I recommend that you all join us in supporting this resolution. Thank you.

Resolution adopted unanimously.

Assembly called to order at 11:10 a.m.

Mr. Speaker Dini presiding.

Roll called.

All present except Assemblyman Harrington, who was excused.

Prayer by the Chaplain, The Reverend Dean Higginbotham.

Our Father, we thank You for Your manifold blessings. We thank You for the health and prosperity that we enjoy. We are blessed to live in this most desirable state in the most desirable nation on earth.

We ask Your blessing upon each individual gathered in this room today. We have come to discuss and to debate and to decide upon those courses of action that we believe will resolve many of the problems that confront us—to put forth ideas and plans for the betterment of the people of our communities.

Bless us today with wisdom, understanding, truth and honesty and with the ability to see the whole picture. Give us the courage to be unselfish and a spirit of cooperation, that we may promote an orderly society that truly honors God and family. A society that restores to our children the opportunities for happiness and hopefulness that they deserve.

We would be reminded of the words of the Psalmist David, when he said, "Except the Lord build a house, they labor in vain that build it." We ask Your guidance as we work together today. May all that we do honor You, for in so doing, we will honor ourselves and honor those we serve. AMEN.

Pledge of allegiance to the Flag.

WHEREAS, Valerie Springer graciously accepted this responsibility and with the help of Barbara Welling, Treasurer of the Communications Workers of America Local 9413 and the joint efforts of local labor organizations, veterans service organizations and communications corporations, the PT Phone Home project is about to become a reality for the Reno facility; and

WHEREAS, The project could not have been successful without donations from Nevada Bell for the internal circuitry, Telephone Pioneers of the Silver State Chapter 101 for 10 new trunk lines, Vodavi Communications Systems of Scottsdale, Arizona, for telephone sets, along with contributions from the Nevada State AFL-CIO, Markone Video, Washoe County Teachers Association, Disabled American Veterans and Disabled American Veterans Auxiliary, Sheet Metal Workers International Association Local 88, Sheet Metal Workers Union Local 26, Culinary Workers Union Local 226, AT&T

Assemblyman Anderson moved the adoption of the resolution.

Remarks by Assemblyman Anderson.

Assemblyman Perkins requested that Assemblyman Anderson's remarks be entered in the Journal.

Thank you, Mr. Speaker. The resolution describes the events that are to take place, and the hard work of these people in organizing, within our local community and at the local Veterans Hospital, the project that has been completed and will have its formal dedication tomorrow.

It is my pleasure to introduce the lovely lady on my right, Ms. Val Springer, who is currently an active member of the Communication Workers of America Local 9413 and is the former executive board member and the former Union Steward of Local 9413. She is a single, working mother who has worked for Nevada Bell for several years including Operator Services; Assignment, Computer Operations; Public Relations and her most recent assignment in Engineering. She has donated over 250 hours to this program.

She has spearheaded the PT Phone Home Project here in the state, Washoe County and for the local Veterans Hospital. She also spends a good deal of time skiing and is, in fact, the secretary of her local ski club.

In addition, we are honored to have with us today, the originator of the program, who is mentioned in the resolution, Mr. Dosio. Mr. Dosio has introduced this project from New York. He will be here tomorrow as part of the dedication ceremony at the local Veterans Hospital in Washoe County.

On my left is Barbara Welling who is the Treasurer of the Communication Workers of America, Local 9413 and active in all aspects of the union. She has dedicated many hours to the PT Phone Home Program and specifically to the Reno Veterans Hospital. Barbara has worked for Nevada Bell for many years, and most recently has been assigned to Human Resources. These two lovely ladies are people you most often see when you go to Nevada Bell.

Clearly, this is not just a two-, three- or four-person project. It took many, many long hours of hard work. We wish to honor them both, for their recognition nationally and also because they are Nevadans, doing what Nevadans do best.

I almost forgot their Shop Steward, John Doran, who helped make sure all of this took place today. Mr. Doran also provided us with the additional information. Please welcome them here, Mr. Speaker. Thank you.

Resolution adopted unanimously.

Assemblyman Anderson moved that all rules be suspended and that Assembly Concurrent Resolution No. 44 be immediately transmitted to the Senate.

Motion carried unanimously.

Assemblyman Anderson moved that the Assembly recess subject to the call of the Chair.

MOTIONS, RESOLUTIONS AND NOTICES

Senate Concurrent Resolution No. 48.

Assemblyman Anderson moved the adoption of the resolution.

Remarks by Assemblymen Anderson, Evans, Perkins and Carpenter.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. In the past, I had the unpleasant duty of reporting to this body, the death of a police officer in my community, for whom you have already shown respect.

There is no way that this simple resolution can possibly show our feelings of loss and support to this family. It is a mere token for us to make a law, and specifically for those of us in Judiciary to realize that this man, and other men like him, on the streets of our communities, have to face the ultimate sacrifice for democracy.

We are touched, both by the courage of the police officers in our state and by the sacrifice of the Johnson family. I ask for the adoption of this resolution.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I, too, rise in support of the resolution. I did not have the pleasure of knowing Officer Johnson, but my daughter knew him. He often went to the restaurant, in Sparks, where she works and she thought he was a wonderful man.

The incident occurred in my district. In the 10 years that I have served in this body, I must say it was the most disturbing incident that I can recall. Many of us were able to go to Reno, to Lawlor Events Center, for the memorial services. Thousands of people from the area attended. I think it was a tribute to Officer Johnson, to his family and to all who serve in law enforcement. I deeply regret this terrible loss, and to the Johnson family. God Bless you and give you strength.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. It's no secret to members of this body that I, too, am a police officer. It is, however, difficult to describe the feelings that I have when I hear about the deaths of fellow law enforcement officers. It truly is a family connection in this line of work. It is not unlike finding out that you've lost a very close family member.

We all feel relatively secure in our homes and in our streets because of the service that the law enforcement community provides for us. It is people like Officer Johnson who have gone out and given the ultimate sacrifice in public service that help us be less insecure.

I know that my wife has had to feel concern when I've left for work, not knowing what perils were in store or whether I was going to return home. I am sure these same feelings were felt by the family of Larry Johnson. I, too, wish to thank the Johnson family for their support of Officer Johnson and offer my best wishes to them and my condolences for the loss. This will by no means compensate them for that loss, but it's the best we as a body can offer and I wish to offer that to them. Thank you, Mr. Speaker.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I, too, rise in support of this resolution. I have a son who is on the Arizona Highway Patrol. I never realized, until I was there one evening and my son put on the flack jacket and revolver, how deep the feelings really are between the members of law enforcement.

I always worry that something will happen, and I'm able to somewhat know the feelings of the Johnson family. I want to express my feelings and condolences to them.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. Allow me to introduce to this body, the former wife of Officer Larry Johnson, Patricia Johnson, his son Michael, his daughter Michelle, and the Chief of the Sparks Police Department, Chief John Dotson. I wish to present our resolution. I would ask you to show your respect for both Officer Johnson and his family.

MRS. PATRICIA JOHNSON:

I just want to say thank you to everyone for being so gracious. I know Larry would have wanted it to be said. His children appreciate all of this, and we will try to go forward with what he started. Thank you.

CHIEF JOHN DOTSON:

Mr. Speaker, thank you for the opportunity to address this distinguished body. I am John Dotson, Police Chief of the City of Sparks, Nevada. On behalf of all the members of our department, and speaking for the Johnson family, we deeply appreciate the gesture that you have shown for the family in your appreciation for the loss of Larry Don Johnson in the service of his community in Sparks, Nevada. We thank you, very much.

Resolution adopted unanimously.

Assemblyman Anderson moved that the Assembly recess subject to the call of the Chair.

Remarks by Assemblyman Humke.

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 131.

The following Senate amendment was read:

Amendment No. 588.

Amend sec. 11, page 4, line 33, after "*games.*" by inserting: "*An inter-casino linked system must not be used to link games other than slot machines, unless such games are located at an establishment that is licensed for games other than slot machines.*".

Amend the bill as a whole by renumbering sec. 16 as sec. 18 and adding new sections designated sections 16 and 17, following sec. 15, to read as follows:

"Sec. 16. Section 4 of Assembly Bill No. 133 of this session is hereby amended to read as follows:

Sec. 4. NRS 463.370 is hereby amended to read as follows:

463.370 1. Except as otherwise provided in NRS 463.373, the commission shall charge and collect from each licensee a license fee based upon all the gross revenue of the licensee as follows:

Three percent of all the gross revenue of the licensee which does not exceed $50,000 per calendar month;

Four percent of all the gross revenue of the licensee which exceeds $50,000 per calendar month and does not exceed $134,000 per calendar month; and

Six and one-quarter percent of all the gross revenue of the licensee which exceeds $134,000 per calendar month.

2. Unless the licensee has been operating for less than a full calendar month, the commission shall charge and collect the fee prescribed in subsection 1, based upon the gross revenue for the preceding calendar month, on or before the 24th day of the following month. Except for the fee based on the first full month of operation, the fee is an estimated payment of the license fee for the third month following the month whose gross revenue is used as its basis.

3. When a licensee has been operating for less than a full calendar month, the commission shall charge and collect the fee prescribed in subsection 1, based on the gross revenue received during that month, on or before the 24th day of the following calendar month of operation. After the first full calendar month of operation, the commission shall charge and collect the fee based on the gross revenue received during that month, on or before the 24th day of the following calendar month. The payment of the fee due for the first full calendar month of operation must be accompanied by the payment of a fee equal to three times the fee for the first full calendar month. This additional amount is an estimated payment of the license fees for the next three calendar months. Thereafter, each license fee must be paid in the manner described in subsection 2. Any deposit held by the commission on July 1, 1969, must be treated as an advance estimated payment.

4. All revenue received from any game or gaming device which is operated on the premises of a licensee, regardless of whether any portion of the revenue is shared with any other person, must be attributed to the

licensee for the purposes of this section and counted as part of the gross revenue of the licensee. Any other person who is authorized to receive a share of the revenue is liable to the licensee for his proportionate share of the license fees paid pursuant to this section.

5. Any person required to pay a fee pursuant to this section shall file with the commission, on or before the 24th day of each calendar month, a report showing the amount of all gross revenue received during the preceding calendar month. Each report must be accompanied by:

(a) The fee due based on the revenue of the month covered by the report; and

(b) An adjustment for the difference between the estimated fee previously paid for the month covered by the report, if any, and the fee due for the actual gross revenue earned in that month. If the adjustment is less than zero, a credit must be applied to the estimated fee due with that report.

6. If the amount of license fees required to be reported and paid pursuant to this section is later determined to be greater or less than the amount actually reported and paid , [by the licensee,] the commission shall:

(a) Charge and collect the additional license fees determined to be due, with interest thereon until paid; or

(b) Refund any overpayment [,] *to the person entitled thereto pursuant to this chapter,* with interest thereon . [, to the licensee.]

Interest must be computed at the rate prescribed in NRS 17.130 from the first day of the first month following either the due date of the additional license fees or the date of overpayment until paid.

7. Failure to pay the fees provided for in this section shall be deemed a surrender of the license at the expiration of the period for which the estimated payment of fees has been made, as established in subsection 2.

8. Except as otherwise provided in NRS 463.386, the amount of the fee prescribed in subsection 1 must not be prorated.

9. Except as otherwise provided in NRS 463.386, if a licensee ceases operation, the commission shall:

(a) Charge and collect the additional license fees determined to be due with interest; or

(b) Refund any overpayment, with interest thereon, to the licensee,

based upon the gross revenue of the licensee during the last 3 months immediately preceding the cessation of operation, or portions of those last 3 months.

10. If in any month, the amount of gross revenue is less than zero, the licensee may offset the loss against gross revenue in succeeding months until the loss has been fully offset.

11. If in any month, the amount of the license fee due is less than zero, the licensee is entitled to receive a credit against any license fees due in succeeding months until the credit has been fully offset.

Sec. 17. Before November 1, 1995, an inter-casino linked system in which the game is conducted at one location may be placed only at gaming establishments with nonrestricted licenses that are affiliated with each other.

On or after November 1, 1995, an inter-casino linked system in which the game is conducted at one location may be placed at all gaming establishments with nonrestricted licenses.".

Assemblyman Stroth requested that the following remarks be entered in the Journal.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. It really is a sad day when you see another one of the Warrens who won't be with us. We have a tradition around here. Stan's father, Wally, was one of the most highly respected people that ever roamed the legislative halls. We were all saddened when we lost him, and now we are going to be saddened when we lose Stan. We hope that he and Ruthie will visit us occasionally.

I am not sure who coined the phrase "legislative engineer," but it is very appropriate. Even as active as he is during the legislative sessions, Stan has always made it a point to attend the most important interim committee meetings, whether they were in Las Vegas, Laughlin or Elko; Stan was there.

He has truly represented his clients well and we are certainly going to miss you, Stan. It has certainly been a pleasure knowing you all these years and truly knowing your quality, because to me you are one of the finest gentlemen I've ever known. With that, Mr. Speaker, it is a pleasure that we honor Stan, Ruthie and family.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. I wish to rise in support of the resolution. This may come as a big shock to Mr. Warren, but I, as a freshman to this body, needed a great deal of help preparing myself for the first session. Mr. Warren was kind enough to explain to me long before I ever arrived here, in great detail, some of the more technical issues that I might have to face without regard to which committee I might be on. His careful consideration made me realize, to a greater extent than I had already as a student of this body, the need for preparation to sit in these chambers. His high presentation is fairness of doctrine. He set a sterling example for others who advocate for a particular position, and if we had that kind of treatment from his colleagues in this establishment, our days would go by and be less than 100. Thank you, Mr. Speaker.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 49. I consider Stan a real friend. He is about the only lobbyist who has come out to Elko to see me and fill me in on what is going on. Sometimes, I have given him a bad time and he has given me a bad time, but we are the best of friends. I am sure that 1941 Chevrolet is a 1942. We are going to miss Stan, and I want to wish him good luck in his retirement, if he wants to call it that.

ASSEMBLYMAN CHOWNING:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 49. Stan's sense of professionalism and ethics is so respected by me and all the members of this body. One of the most contentious or could have been a very, very decisive bill was re-figuring privilege tax. We had every single classic car owner in this state calling us and coming to the committee. Stan's diligence and fairness helped us to get a really good bill passed. I would like to give you one of the nicest compliments we can—thanks Stan, because your word is good.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I'm delighted to stand in support of Senate Concurrent Resolution No. 49. It is a pleasure to see Ruthie here today. Actually, it is nice to see Stan here, too. I think it's only the third or fourth time we've seen him all session. I'm sure he tells Ruthie he comes here daily.

Before I was elected to this body, I spent three sessions here as a volunteer lobbyist. It was not unusual for various community groups, who wanted to know about the legislature

and the legislative process, to invite Mr. Warren and me to speak, as a professional lobbyist and as a volunteer lobbyist. What was it like? What was the difference? After we did this several times, Stan came up and said, "I think we should just get cards and bill ourselves as the Stan and Jan show." We haven't been able to do that in recent years. I miss that. Maybe they will let me out of here soon, so we can bring that back, Stan. All the best to you both.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 49 to my solo classic car owner. Stan will probably never let me forget when I bought my 1940 Chevy, as I was learning the jargon and talking to him about paint jobs. I thought I was really in tune with things. I referred to it as making sure my car had no "onion peel" and I was corrected by Mr. Warren that it is called "orange peel." I'm becoming educated. He is slowly explaining that mine is a hot rod, as I've replaced the engine to a 450, and his is a "true classic." I think at some point after session we will have a drag race, if he ever gets his car up and really running.

I think the one thing that will be missed in the hallways is that some individuals act with a demeanor that is always kind and forthright. Stan is a true gentleman. He will never turn you around on an issue. He will always get you the facts and you make your own decisions. I respect you very, very much for that. Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. It is a pleasure to rise today in favor of Senate Concurrent Resolution No. 49. The name Stan Warren brings new meaning to the term "lobbyist." It brings a meaning that should have always been there—always positive.

It is an understatement to say that Stan is in a class by himself. He was in a class with his father, Wally, and a class with Jim Joyce. Stan's father was a fine man. Jim Joyce's reputation is legendary. Stan seems quiet and low-keyed most of the time, but I would point out to some of the junior members that he has worked some very big issues around here. I can think of no greater tribute than that.

In addition to the other traits that have been listed by other members, the greatest trait I can list is he is always the same. He is the same person even when the issues are tough and tempers are short. He helped me as a freshman and has been helping ever since. He helped carry out the advice that used to be given to freshmen around here which was, "Be quiet, sit down at the end of the row and vote when you are told. After a few sessions, someone like Jack Jeffrey or Lou Bergevin will contact you if they need your assistance." People like Stan and a very, very small group of people like him supplied the rest of the information and advice.

Stan provided the nuances. I also note the presence of his lovely wife, Ruthie. It is very nice to see her. It's always nice to see Stan and Ruthie together. I would finally say that if Stan has ever told you that you are a good legislator, and that sounds trite to say, you can't take that to the bank, but you can know that you have received a very good and valuable gift.

ASSEMBLYMAN NEIGHBORS:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 49. Stan, I want you to know that my support has nothing to do with the fact that yesterday in the Senate you didn't testify against my "water bill." I have known Stan since I came here as an administrative lobbyist for the county in 1972. I can remember wandering around these halls, very green, and he was very helpful. I appreciated it very much. Speaking as a legislator, you have always been fair. When issues come up, you've given both sides, the pros and cons. This I appreciate. I wish you the very best in your retirement. Thank you.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I also rise in support of Senate Concurrent Resolution No. 49. I echo the comments of my colleagues and will simply say, "Stan, have a wonderful retirement. We will miss you."

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. As a freshman, I've known Stan Warren for less time than the previous speakers, but it has been very instructional and a great pleasure to work with someone as thoroughly competent, professional and patient as Stan. I think I can sum it up in one sentence when I say that Stan Warren makes the term "lobbyist" one of great honor. Thank you.

ASSEMBLYMAN SANDOVAL:

Thank you, Mr. Speaker. I, too, rise in support of Senate Concurrent Resolution No. 49. I consider Mr. Warren a true gentleman and friend. When I first started my campaign, he gave me some advice; advice that I truly respect. I say this about few people, but I consider Mr. Warren's word as good as gold and his handshake means that I have the confidence that there is a deal. I truly mean this as a compliment in the highest order. I'm proud to have had the opportunity to serve one term with you. I will truly miss you. I hope that I will have the opportunity to see you again. I wish you all the best.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. I rise in support of Senate Concurrent Resolution No. 49. I arrived here last year as a freshman and discovered that Stan Warren was associated with my relatives in Reno. He has been so helpful ever since. I plan to come back and I will miss you, Stan.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. I also stand in support of Senate Concurrent Resolution No. 49. My relationship with Stan goes back to 1985 when I was a lobbyist. Stan took me under his wing and then pushed me out of the nest. I wondered how he got so much done so quietly.

For those of you who have been around since those years, you know that the telecommunications for which we both worked was going through some phenomenal changes. Stan wrote a lot of those laws which put Nevada in a very competitive market in that industry. I used to think he accomplished all of that so silently. What I realized was that he was very silent and firm with me. He would sic Brian Herr on me so that I would see the light on some of those issues. It has really been my pleasure to work with him in the telecommunications industry.

After my leaving the ranks of lobbying and joining this body, I find that Stan continues to be very steady and very consistent in all of his actions. Truly he will be missed, as the monumental tasks that he has had before him have been done extremely well. He has remained friends with everyone as can be affirmed by the nice things that have been said about him today. So truly, I will miss Stan. Hopefully, I will get to ride in his car which I have heard so much about.

Occasionally, at the Nevada Telephone Association, he will bring up experiences of great embarrassment to me. But I like those good old stories. Thank you.

ASSEMBLYMAN BRAUNLIN:

Thank you, Mr. Speaker. I also rise in support of Senate Concurrent Resolution No. 49. My first experience of really getting to know Stan was during our two-week recess in Las Vegas. Stan approached me on a certain issue and asked me, "Deanna, how much do you know about this issue?" Needless to say, since then I have learned a tremendous amount, not only on that but on so many issues. I've also had the opportunity to get to know his lovely wife, Ruthie. I just wish you both the best. You will be missed.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker. I think I would be remiss if I didn't take this opportunity to say something about Stan. We've been friends for many, many years. His dad broke me in around these chambers.

There are two types of people you meet in this building. One, you hope they retire in a hurry. The other, you hope they stay around forever. Stan is one of those we are really going to miss and wish he would stick around longer. I'm very happy for him and his family. Enjoy your retirement and your family and have a good time. Best wishes to both of you.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to Stan, I can't remember how many years it has been that I consider we've been friends. Stan, as everyone has said, you certainly have the highest principles and qualities that you could ask for in doing your job as a lobbyist.

Stan, like all of us, has come through these years where lobbyists and politicians sometimes don't have a great reputation. Stan is among the top of the people who have worked here. I believe that Stan and Nancy go back longer than I've known either one of them. Even Nancy could afford to have antique and special cars before she married me. They may have had some connections there as well as the phone company. Stan rates the highest with our family. We are going to miss you, Stan. I wish both of you good times in your retirement. Thank you.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. I stand in support of Senate Concurrent Resolution No. 49. I first met Stan in 1989 when I was here as caucus director. The first day I walked into this legislative building was the first day I was hired as the Republican Caucus Director. Obviously, at that point the Minority Leader was Lou Bergevin. Lou called Stan in and said, "This kid is a little wet behind the ears. Why don't you show him around?" Stan did, and I appreciated it very much. He showed me where all the bathrooms, candy dishes, secret hallways, bill rooms and the library were.

Of the six or so years that I've known Stan, the thing I've gotten the most chuckle out of is the fact that he is the most utterly blunt human being that I've ever met. One day at a luncheon in Reno, and I hadn't seen Stan in three or four months, I saw him across the room and he came over with a smile on his face and I said, "Hi, Stan. How are you?" To which he replied, "Gosh, you look fat!" This is a true story.

Seriously, Stan has always been someone I've very much respected, admired, listened to and someone who will be sorely missed around this process. Lou Bergevin said, "There is going to be a day when all the tough guys are gone." We've just lost another one. Thank you.

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. I also rise in support of Senate Concurrent Resolution No. 49. As a freshman of this body, I can appreciate the remarks my peers have stated about Mr. Warren today. Our opportunity to be exposed to each other during this session has been a result of our interest in classic vehicles. As stated in reference to his ability as a lobbyist, I appreciate his assistance in getting the license plate bill passed through this session for classic vehicles. I would like to be able to give Mr. Warren the first license plate, for he is truly a "classic." Thank you.

Mr. Speaker Hettrick requested the privilege of the floor for the purpose of making the following remarks:

I, too, have to make a couple of comments. I met Stan four years ago when I first decided to run for office, much in the same way that Mr. Ernaut just expressed, through Lou Bergevin. He brought Stan down and said, "You have to meet this guy. I think he is going to run for this seat." I appreciated his tremendous advice.

We share an interest in old cars. I truly believe he has become a friend, a real friend. He and his wife, Ruthie, are great people. They will be missed around here. He will be missed, as he has done a tremendous job for this body and the people of the State of Nevada in ways that most people in this state will never know. It is with some sadness that I say good-bye to him, but with a great deal of best wishes and our best thoughts.

Resolution adopted unanimously.

Assemblyman Price moved that a letter be addressed to the Department of Motor Vehicles and Public Safety requesting that the first classic car license plate produced in the State of Nevada be assigned to Mr. Stan Warren.

Remarks by Assemblyman Price.

Motion carried.

crime upon verdict or plea, the court, except in cases of murder of the first or second degree, kidnaping in the first degree, sexual assault, *attempted sexual assault of a child who is less than 16 years of age,* an offense for which the suspension of sentence or the granting of probation is expressly forbidden, or where the defendant is found to be a habitual criminal pursuant to NRS 207.010 or a habitually fraudulent felon pursuant to section 2 of [this act,] *Assembly Bill No. 570 of this session,* may by its order suspend the execution of the sentence imposed and grant probation to the convicted person as the judge thereof deems advisable. THE ONE HUNDRED AND FORTY-EIGHTH DAY

CARSON CITY (Monday), June 12, 1995

Assembly called to order at 11:08 a.m.

Speaker Dini presiding.

Roll called.

All present.

Prayer by the Chaplain, The Reverend Bruce Henderson.

O Lord, when we came to Carson City, we came with our Social Security numbers, credit card numbers and the number of our Assembly districts. We then had to learn new phone numbers and a new zip code number. Now, during this 148th day of the 68th Session, we will consider bill numbers 439, 406 and 542. Lord, deliver us from numbers!

God, there is something about a number that takes away identity and personality. May we still see people, needs and hearts. We pray this in the Name of the One who knows everything about us, including our numbers. AMEN.

Pledge of allegiance to the Flag.

Assemblyman Perkins moved that further reading of the Journal be dispensed with, and the Speaker and Chief Clerk be authorized to make the necessary corrections and additions.

Prayer by the Chaplain, Lorraine Turtle of the Navajo Nation.

Hello, my name is Lorraine Turtle, a full-blooded Navajo. I want to say a prayer in my own language. When I was a young girl, my grandfather told me that some day in the future you will be asked to pray. You have your own native tongue which you pray with, that way the Creator knows who you are and what you are asking for. My husband is not here today. He was going to do this prayer. He is a Southern Cheyenne from Oklahoma. I have this young man over here who is going to help me by burning cedar. I would like you to smell the cedar and wave your hand four times through the smoke. You will feel it within you that a blessing has been received. This is the Indian way which we have. I like to stay with my own culture. I'm going to say a very good prayer for all of you. AMEN.

Amendment No. 801.

Amend the bill as a whole by deleting section 1, renumbering sections 2 through 5 as sections 4 through 7 and adding new sections designated as sections 1 through 3, following the enacting clause, to read as follows:

"Section 1. Chapter 466 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

Sec. 2. *"Resort hotel" means any building or group of buildings that is maintained as and held out to the public to be a hotel where sleeping accommodations are furnished to the transient public and that has:*

1. More than 1,000 rooms available for sleeping accommodations;

2. At least one bar with permanent seating capacity for more than 30 patrons that serves alcoholic beverages sold by the drink for consumption on the premises;

3. At least one restaurant with permanent seating capacity for more than 60 patrons that is open to the public 24 hours each day and 7 days each week; and

4. A gaming area within the building or group of buildings.

Sec. 3. *1. Each licensee conducting racing with pari-mutuel wagering on greyhound races in a county whose population is 400,000 or more shall, in lieu of the tax otherwise imposed by NRS 466.125, pay to the commission a fee on all gross revenue, at the same time and rate and in the same manner as fees are paid pursuant to NRS 463.370.*

2. In addition, the licensee shall pay to the commission an amount equal to all costs of the board in the regulation of racing at his establishment as determined pursuant to a regulation adopted by the commission. The board shall estimate the costs and may require a deposit to be paid by the licensee in advance as a condition precedent to issuing a license. After the issuance of the license, the licensee shall remit the costs with his payment of fees on gross revenue, based upon the board's estimate. The board may adjust its estimate at any time upon 30 days' advance written notice to the licensee.

3. On or before July 31 of each year, the board shall provide the licensee with an itemized accounting of the costs incurred through June 30. If the board's actual costs are greater than the amount paid by the licensee, the licensee shall remit the difference within 30 days after receiving the itemized accounting from the board. If the board's actual costs are less than the amount paid by the licensee, then the board shall refund to the licensee the excess amount paid within 30 days. A licensee may file, pursuant to the procedures set forth in NRS 463.3883, a petition for redetermination of the itemized accounting of the costs within 30 days after the board provides the itemized accounting of costs if the petition is accompanied by payment in full of all costs itemized by the board. A petition for redetermination:

(a) May challenge only the accuracy of the itemized accounting of the costs of the licensee and the amount of fees on gross revenue owed by the licensee based on those costs; and

(b) May not challenge the extent or scope of the regulatory authority of the board.

4. Except as otherwise provided in this section, the fees on gross revenue and costs of regulation which a licensee conducting racing with pari-mutuel wagering on greyhound races is required to pay pursuant to this section are subject to the provisions in chapter 463 of NRS.

5. As used in this section, "gross revenue" means the total amount collected and not returned to patrons from pari-mutuel wagers on greyhound races.".

Amend sec. 2, page 2, line 13, by deleting: "*county license board of*" and inserting: "*track at which the greyhound racing will be held is located in*".

ASSEMBLYMAN GOLDWATER:

Thank you, Mr. Speaker. George Rudiak was a fine Nevadan. He was a very good friend of my father; a good friend of mine. He represented what's good in all of us. He stood for believing in everyone's ability to succeed. He was a fine lawyer of impeccable character. He fought for labor; people's right to work in safe environments in this state. He was an outstanding civil libertarian. This resolution points out what a contribution he has made to this state. I urge this body to read this resolution; read what George Rudiak stood for. Let us see if we can't absorb some of the things he stood for. I urge this body to adopt Assembly Concurrent Resolution No. 45.

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 45. George Rudiak was an example to every young lawyer who got admitted to the Bar in Southern Nevada. He showed us how to practice law; how to do pro bono work to help people less fortunate than they were; how to be a community activist, to look at your community to make it a better place; and, at the same time, how to look at and be a good business person. George Rudiak was all of these. He was an excellent family man. I knew him and had the honor of working with him. I really feel the loss his wife, Gertrude, must feel at having lost him. My heart goes out to his daughter and granddaughter, Danny Rentchler. We really should adopt this resolution. I urge everyone to vote for it.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. I would like to speak in favor of Assembly Concurrent Resolution No. 45. I knew George Rudiak back in the 1950s when it was alright to be a liberal. We were both liberals. Of course, I still am. George Rudiak was such a good

friend and sponsored everything I believed in. He was a neighbor of my son, and so we kept in touch with him as best as possible. I'm very anxious that you support this resolution.

Resolution adopted unanimously.

STATE OF NEVADA
EXECUTIVE CHAMBER
CAPITOL COMPLEX
CARSON CITY, NEVADA 89710

June 7, 1995

THE HONORABLE JOSEPH DINI and THE HONORABLE LYNN HETTRICK, *Speakers*, Nevada State Assembly, Legislative Building, Carson City, Nevada 89710

DEAR ASSEMBLYMAN DINI and ASSEMBLYMAN HETTRICK:

I am herewith forwarding to you, for filing within the Constitutional time limit, and without my approval, Assembly Bill 214, entitled:

An act relating to administrative regulations; authorizing the legislature to reject proposed administrative regulations under certain circumstances; and providing other matters properly relating thereto.

This bill violates the Constitutional doctrine of separation of powers. *See* Nev. Const. Article 3, Section 1; *Galloway v. Truesdell*, 83 Nev. 13 (1967) [separation of powers];

Roberts v. State of Nevada, 104 Nev. 33 (1988) [legislative veto held unconstitutional by District Court]; *A-VLV Cab Co. v. State*, 108 Nev. 92 (1992) [opinion of individual legislators impermissible to determine legislative intent]. The bill also provides an unwarranted intrusion in the orderly conduct of business of the State.

Sincerely,

BOB MILLER
Governor

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Assemblymen Lambert, Carpenter, Steel, Humke and Perkins.

Assemblyman Krenzer requested that the following remarks be entered in the Journal.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. I stand to ask this body to override the veto of Assembly Bill No. 214. In his veto message, the Governor has said that the bill violated the Constitutional doctrine of separation of powers. It is up to the Judicial Branch to decide, not the Executive Branch. Our counsel said when they drafted this bill, it would withstand a judicial challenge. I would urge you to follow our counsel's advice.

The Governor also said that the bill provides an unwarranted intrusion into the orderly conduct of business of state. This is in the eye of the beholder. One person's unwarranted intrusion is probably another person's view as an action to prevent state bureaucrats from soliciting the authority of the people as represented in the Legislature.

I think the choice we have to deal with is that we have regulations that we have given agencies authority to adopt. If they go beyond the statutory authority granted to them in our view, or if the regulations do not carry out the intent of the Legislature, we should have the ability to prevent those regulations from being filed. Who do the people hold accountable for these regulations when they don't like them? Remember, these regulations have the force and effect of law. Just like the laws we pass here. People hold us accountable when they are upset with regulations. We should be able to prevent the filing of those regulations if we feel the agency has gone beyond the statutory authority or it is violating the intent of this Legislature. I urge that you vote to override this veto and uphold the power of this branch of government. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I also rise to urge this body to override the veto of Assembly Bill No. 214. I believe it is very important to have legislative oversight of administrative regulations. We all saw what happened with the Federal Government. There was very little oversight of the agencies, and now, we are buried in a mass of regulations.

The other night we saw on television, President Clinton and Vice President Gore with a stack of regulations that they have asked now to be overturned. I don't think we want the State of Nevada to get into this situation. Very often, regulations have more impact on people's lives than the laws we pass. I think it is very important that we have that oversight so the regulators do not get carried away. Thank you, Mr. Speaker.

ASSEMBLYMAN STEEL:

Thank you, Mr. Speaker. I, too, rise in support of overriding the veto. I have attended several meetings in different organizations where these regulations are put together. You begin to understand that many times the people who are making these regulations are not the people who have to live by these regulations on a daily basis. It is those people, the people who have to go by these regulations, that look to us to protect them from illegal or unconstitutional regulations on their livelihoods. I would encourage that we should, as a body, look at these regulations; assure the people that the boards have not gone over their authority in the regulations they make or gone beyond their bounds; and preserve confidence in the law for the people of the State of Nevada. Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise to move to override the veto. From the bill itself, paraphrasing, "The authority to adopt regulations derived solely from the power that the legislature delegates to them . . ." Executive Branch agencies is not a power that the Constitution of the State of Nevada grants to the Executive Branch.

The Legislature is free to repeal the statute which authorizes the adoption of any such regulations. This is what the interim committee intended when it requested this bill to be drafted and that is what this Assembly intended when, a short time ago, it did pass this bill. To paraphrase again the comments of other members, "When Executive Branch agencies come up with regulations creating fees, creating duties on our citizens and those regulations become unpopular . . ." I will tell you, especially some of the newer members of this body, those Executive Branch agencies, without exception, blame the legislature! They absolutely blame us when it was their regulation that caused the people of this state to become unhappy. Don't let this happen to you. You should override this veto. Thank you.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. I stand in support of the Governor's veto and ask you to sustain it. This is actually a very simple issue. The previous speakers have spoken to the issue of whether or not these regulations should have legislative oversight. This is not the issue of the veto. It may very well be important to have legislative oversight for administrative regulations. The issue today, however, is can we do that within the rules that we have to live by?

Seven years ago, a substantially similar bill was ruled unconstitutional. I would ask you this, "What has changed in the last seven years to make that different today?" The Constitution is the same in this area now as it was then. This issue is more properly handled in a different vehicle; a vehicle that is working its way through this Legislature, and a joint resolution to amend the Constitution to allow this particular oversight. Without that ability in our Constitution, we are simply not playing within the rules. It is for those reasons, Mr. Speaker, that I stand and ask this body to vote "No" and to sustain the Governor's veto.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

Senate Concurrent Resolution No. 53.

Assemblyman Perkins moved the adoption of the resolution.

Remarks by Assemblyman Perkins.

Assemblyman Krenzer requested that Assemblyman Perkins' remarks be entered in the Journal.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. The Daughters of the Utah Pioneers was founded in 1901 to preserve and gather histories of the pioneers who came to the West before May 10, 1869. The West included parts of Nevada, California, Oregon, Utah, Wyoming, Colorado, Arizona and New Mexico.

They strive to keep their memories alive and to honor them. They publish their stories, erect monuments and markers at historical places. This is now an international society. The Clark County chapter was organized in early 1936 in Las Vegas. It now covers the county with 12 groups containing about 250 members. The Clark County chapter has been dedicated to preserving the old Las Vegas Mormon Fort since they were organized and some of the time have maintained it. We are grateful to the members, past and present, who have fought so diligently to keep this part of history in Las Vegas alive.

I also have another motivation here, Mr. Speaker. If you refer to the last paragraph of the resolution, the person that the Secretary of the Senate is to prepare and transmit a copy to happens to be my mother-in-law. I kind of got roped into this one.

Resolution adopted unanimously.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. I think this is a really good bill and I think everyone should vote for it. Thank you.

Thank you, Mr. Speaker. I didn't think I'd get by that quickly. Assembly Bill No. 594 is commonly referred to as the "Brew Pub Bill" in diplomatic circles and referred to in other ways in other circles. It is probably famous for what it is not, rather than for what it is. Today, I'm going to tell you what it is so you can weed through all the misinformation of what it is not.

Assembly Bill No. 594 simply does two things. It deregulates incrementally the brew pub industry and defines the term, "good cause" which currently exists in the statutes. I think it is really important that people understand why the liquor and beer industry is different than every other industry in the State of Nevada.

To give you a clear picture of this, I think it is pertinent to read from the policy that we have set since 1975, 20 years, which is contained in NRS 598.351, a statement of legislative policy. Let me read from that, "It is the policy of the legislature to insure the orderly distribution and marketing of alcoholic beverages in this state, in order to protect locally owned and operated business enterprises and those residents whose livelihoods and investments are dependent on their freedom to manage their businesses without economic and coercive control by nonresident suppliers of alcoholic beverages." This is the stated policy of this state.

What does this mean? It means we protect the industry. It means we protect it, so we protect those residents whose livelihoods and investments are dependent on this industry; those warehousemen, truck drivers, dock workers and wholesalers, because they exist in a market unlike any other.

A byproduct of NRS 598.351 is the three-tier liquor system. To give you a layman's explanation of this, it works simply by three tiers; the supplier, the wholesaler and the retailer. Some people would argue that it is a four-tier system because, obviously, the fourth tier is the consumer. The supplier is a large manufacturer, such as Anheuser-Busch. The wholesaler is your locally owned wholesaler, which many of you know. They sell to retailers which could be a bar, a restaurant, a convenience store or a supermarket. This is how you get alcohol.

The conditions and thresholds of the three-tier system precludes any person having a license as a supplier, wholesaler or retailer from owning a license in any of the other tiers. It means a wholesaler can't be a supplier; a supplier can't be a retailer and all those combinations that are possible.

This is a hybrid market, very heavily regulated, very heavily protected. I think this has to instigate the discussions of this bill. That is the genesis and essence of all those laws that we have passed in sessions some 20 years ago.

To explain the bill, you must first understand that this bill, Assembly Bill No. 594, does three things. Number one, it allows brew pubs in resort hotels starting July 1, 1995. It also

establishes thresholds that vary from Clark County to Washoe County. It also defines "good cause." Obviously, some people had consternation with good cause. I would like to again read from the statute what we say about "good cause" today.

Bringing your attention to NRS 598.330, "Discrimination between wholesalers as to terms of franchise prohibited; termination of franchise without cause prohibited." In subsection 2, "Notwithstanding the terms, provisions or conditions of any franchise, no supplier shall unilaterally terminate or refuse to continue any franchise with a wholesale dealer or wholesaler or cause a wholesale dealer or wholesaler to resign from such franchise unless the supplier has first established good cause for such termination, noncontinuance or causing of such resignation." This was written in 1973 and that is the law today.

This bill more clearly defines "good cause." It defines it as the supplier, the first tier, who must give the wholesaler the second tier, a 90-day notice that there is a problem with their franchise. If, after that 90 days, there is a problem, the wholesaler has 60 days in which to rectify it. That is what this bill does.

There have been several questions about this bill. I believe it is probably prudent to answer those more frequently asked now. Probably the more frequently asked question is, "Why is 'good cause' language in the same bill as the brew pub?" It is very simple. Notwithstanding the fact that we are in the same exact statute, NRS 598, there are many similarities and congruencies between these two concepts. It defines that the current three-tiered system is a hybrid market by allowing a proliferation of brew pubs, therefore, you are now creating another market. That market is not conditional upon the three-tiered system, meaning that the brew pub is both the manufacturer and the retailer all in one. There is no middle man.

The question is, "Isn't this finally free enterprise?" You may think that initially, but we are not talking about a free enterprise system, we are talking about a hybrid market. A hybrid industry to create a new market that can compete without the same regulations. It would be like throwing two economies competing against one another in which the playing field is not level. That is why "good cause" is in the brew pub bill.

If you take the brew pubs, with the thresholds we are allowing here in the resort hotels, you can brew enough beer to be very competitive with other brands. If that happens, you need to be on a level playing field. This is again the genesis of that section.

There has been another question, "Why are wine and spirits in the bill?" Well, I bring you again to NRS 598.330, which I read before which is "good cause" of subsection 1, "If more than one franchise for the same brand or brands of malt beverages, distilled spirits and wines, or all of them, is granted to different wholesalers in this state, it is a violation of NRS 597.120 to 597.180, inclusive, for any supplier to discriminate between such wholesalers with respect to any of the terms, provisions and conditions of these franchises." What this means is, they are already treated as beer holders. They have been since 1973.

Why do we need to further define "good cause?" It is simple. The two subsections of the statute that I just read from, obviously, have a catalyst of one term which is "good cause" which is not defined. We have no idea as to what "good cause" means. Furthermore, the balancing test which NRS 598.350 is, if there is ever a dispute between the wholesaler and supplier, "In any action brought by a wholesale dealer or wholesaler against a supplier for termination or noncontinuance of, or causing to resign from a franchise in violation of NRS 597.120 to 597.180, inclusive, it is a complete defense for the supplier to prove that such termination, noncontinuance or causing to resign was done in good faith and for good cause." But, we don't define "good cause." If we don't define "good cause," we haven't made good public policy for which the supplier and wholesaler can base their contractual obligations.

Simply and accurately, that is what Assembly Bill No. 594 does and that is what it is. Nothing more. It is a bill of compromise and negotiation and good public policy. I would like to commend the Committee on Commerce and both the chairmen for the hard work they put in on this. I urge you to support Assembly Bill No. 594.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. I rise in opposition of Assembly Bill No. 594. It violates equal treatment and is the epitome of government interferences and over regulation.

During committee hearings, I noted four areas of concern that I had. I attempted to make some motions to do the following: One, to eliminate the reference to alcohol and wine. This failed by one vote. I believe alcohol, this is a brew pub bill, that alcohol and wine have nothing to do with this legislation, nor should have been maintained within this bill. We are now telling an industry that had no need for additional regulation, and did not wish to be part of this proposition, how they have to run their business.

Secondly, I wanted to eliminate the restriction by allowing for open competition and by removing the requirement that pubs could only be located in resort hotels and in historic areas. Unfortunately, that language still remains in there. I think we've created an inequity in that area.

Thirdly, I believe there is an inequity built into the taxation. NRS 369 requires an excise tax to be paid. Unfortunately, this will not apply to the new pubs. I would hope that on the Senate side they will take a look at this issue to make sure everyone is paying at least the same fare for those taxations.

My further concern was in regards to Section 11, which restricts the marketplace regarding the franchise being a wholesaler. I appreciate the intent of this bill, as I support brew pubs. I believe they should be free and open wherever they wish to be. I look at this like my colleague has said, as a Christmas tree. Where many different baubles were hung in order to get individuals to come along and support it. I think, in the long run, it will restrict business and unfairly affect competition.

Senate Concurrent Resolution No. 55.

Assemblyman Dini moved the adoption of the resolution.

Remarks by Assemblymen Dini and Segerblom.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

Thank you, Mr. Speaker, members of the Assembly. It is a great honor to speak on this resolution today. I have known Ken since I first came to the legislature in 1967. He is the father of our modern day Public Employees' Retirement System.

Ken has a long record of public service in various jobs that he did. He was a real fighter for the Public Employees' Retirement System. As I remember, some of our biggest fights were between him and the chairman of Ways and Means at that time, over the Public Employees' Retirement System. I believe it was an ongoing battle for two or three years.

He was a real honorable man. He did a great job. He was a good fiscal man who knew the retirement system well. He served with dignity in state government at all levels. We certainly want to express our sympathy to the family. We are glad to have them here with us.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. I would like to support Senate Concurrent Resolution No. 55. I knew Mr. Buck when he was with the Public Employees' Retirement System. GENERAL FILE AND THIRD READING

Senate Bill No. 271.

Bill read third time.

Remarks by Assemblymen Price, Giunchigliani and Spitler.

Assemblyman Bache requested that the following remarks be entered in the Journal.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to this honorable body. As those of you who were here last session, and those who came this session may remember, there has been a lot of discussion about the prepayment of the insurance premium tax.

The last session passed a bill that would have required the insurance companies, the third largest tax source that we have in our state, the other two being sales and gaming taxes, to begin paying six months in advance. Because of a good economy and various philosophies on prepayment, the Senate had drafted and has now passed, an amended version. It is a bill which would put things back to the way they were, effective today, and not have the prepayment. This was not agreed upon by all parties until late last night.

Due to the work of some of our lobbyists, Senators and interested parties, this morning I personally was advised, as Chairman of Taxation, that the Governor had agreed that he would not object to setting the payment back another two years. They didn't want to repeal the matter, but they would not object to setting it back two years.

Early this morning, one of the business lobbyists, Senator Lowden and the Chairman of the Senate Taxation Committee got together and talked about this and went and got the amendment that I have had placed on your desk. It is a Senate amendment that I personally ran off on one of the Xerox machines. It came out in three colors: yellow, blue and white. I don't know what color that you have on your desk. Anyway, that is an amendment that was just ordered this morning and they actually got it out within an hour. It places a sunset on this bill. It means that for two years the insurance premium tax will be continued to be collected as it always has been. On June 30, 1997, this bill would sunset and the advanced payment would come back in.

The real meaning is that the next session of the Legislature will continue to debate the issue. Everyone thought that this was the best, or agreed that this was an acceptable thing to do. The estimated cost of this is $37,500,000 that will not be coming into the state at this point in time, but as the insurance companies continue to pay quarterly, they will be paying beginning the second half of our biennium. So in 1997, they will be paying in as they always have. I will try to answer any questions you may have.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. When we first created this mess, for lack of a better term, many of us disagreed with this type of policy for prepayment, including myself. However, as usual, we sometimes get held hostage towards the end of the session on how to fund a budget, and that is part of what we did last session. We, in my opinion, made a bad policy decision. I do think that this policy needs to be revisited.

I just wanted to note for the record that although through the surplus that we are realizing this year, and the issue of the rainy day fund, this will now be used to fill the hole that was created. We will have to revisit it in 1997. What it does is, it takes away the issue of the second year hole. I would just like to note for the record that we didn't have a policy to decide. I am being told by members of both houses that because we left a hole in the K-12 budgets, for example, if we were able to plug the second year of the hole, they would be willing to revisit the issue of the proper funding for the base budget.

I would just like to note, for the record, that I hope that consideration and the intent still resides there as a policy decision. That we did not fund another budget correctly and adequately and now that we have set aside the policy of debate, we are going to go ahead and use some of the rainy day fund, and that should open up additional revenue for K-12. I would just hope that this body would remain within its commitment to take a look at that. Thank you, very much.

ASSEMBLYMAN SPITLER:

Thank you, Mr. Speaker. You answered my one question, because I was reading the bill as though the amendment were already in it. However, through you to the Co-Chairman of Taxation, I want to make sure that it is clear in my mind that this does not in any way touch the insurance premium tax in general. That it only deals with the advance payment, and the debate is really on whether they should be prepaid, and would be addressed in 1997.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you to my honorable colleague. The answer is, "Yes." That is the only thing that it does. Unless there was some mistake in here, which I don't believe there is, it is the only thing we are doing. My only question is, "How could we have ordered an amendment at 10:30 a.m., they adopted it and we got a first reprint over here that fast? How did those guys get this done?"

Roll call on Senate Bill No. 271:

YEAS—41.

SIGNING OF BILLS AND RESOLUTIONS

There being no objections, the Speakers and Chief Clerk signed Assembly Bills Nos. 454, 503, 531, 547, 553, 554, 567, 603; Assembly Joint Resolutions Nos. 26, 35, 36; Senate Bill No. 104.

REMARKS FROM THE FLOOR

Assemblyman Price requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. In past sessions, we have noted by a resolution, the anniversary of the Magna Carta. Today is a very special day, as it is the 780th anniversary of the Magna Carta, which is the forerunner of our own Constitution. I would like to read our resolution from previous years for this legislative day.

WHEREAS, On June 15, 1215, King John of England was compelled to accept the Magna Carta at Runnymede Meadow, 20 miles southwest of London; and

WHEREAS, In 1957 the American Bar Association dedicated a memorial at Runnymede, commemorating the site as the source of the Anglo-American tradition of law; and

WHEREAS, In 1965 Queen Elizabeth dedicated a memorial to President John F. Kennedy on 3 acres of land at Runnymede, which she bestowed upon the people of the United States; and

WHEREAS, The governments of the United States and the State of Nevada were founded upon the great charter of English and American liberty; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, THE SENATE CONCURRING, That the Nevada Legislature hereby acknowledges the 780th anniversary of the Magna Carta this 15th day of June 1995.

I've also been furnished with a list from Ambassador Merlin, advising us of a number of people that we know, here in Nevada, who are descendents of signers of the Magna Carta. We have William Mallet and Gilbert de Clare who are descendents of George Flint. Robert Fitzwalter of Reno who is a descendent of Mary Porter. Robert de Vere of Sparks who is a descendent of J. Coats. Former Justice John Mowbray who is a descendent of William de Mowbray. Also, ambassador Merlin who is a descendent of William the Earl of Arundle Castle. There is a Magna Carta society which they all belong to, and we wished to make note of that today. We thank you, Mr. Speaker.

Assemblyman Anderson requested that Assemblyman Humke's remarks be entered in the Journal.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. It is a great pleasure for me today to reintroduce to this esteemed body, Yani Dickens. Yani has been a guest of mine each session since 1985. I have several bullets that I will go through quickly.

Yani has several accomplishments to show in his young life. In 1987, he persuaded Marvin Sedway to engage in a $5.5 million funding for the University of Nevada-Reno Engineering Lab Center with the assistance of several others.

He is a 1995 graduate of McQueen High School in Assembly District No. 29, Assemblywoman Joan Lambert's district.

He is guided by the "Triple A" policy at home: Academics, arts and athletics. In academics, he has a 3.65 GPA, while carrying approximately 5½ excess credits needed to graduate, which 16 credits were in honors. He is an academic letterman.

His mother, who is known to this Assembly, is a seventh generation musician, who has visited each of the last several sessions with the Westergard Honor Chorus at the invitation of Assemblywoman Lambert. Perhaps, you remember that chorus which was here a few weeks ago? This young man plays both the piano and the violin. He has participated in the McQueen Chamber Orchestra every day at the hour of 6:45 a.m. for four years. He is a music letterman.

I could go on to describe the fact he is a McQueen soccer player and has been for four years. In the words of his father, "He plays striker and kicks a ball at speeds that goalies cannot stop." He had a serious knee injury in the fall of 1994 and has established the ACL Knee Injury Club at McQueen High School. Assemblyman Arberry is a honorary member of the ACL Knee Club. Yani also lettered in soccer.

He has also participated in community service. He is the soccer coach for 14 boys, a youth soccer league, which includes his brother, who is achieving great fame. His plans include college. He has turned down $39,000 in scholarships in order to attend the "Honors" program at the University of Nevada-Reno. Yani plans to be an orthopedic surgeon.

Mr. Speaker, this lad has been with me for 10 years now, and to me, he epitomizes a whole host of kids who graduated from high school this spring. I would like to, in my way by pointing to Yani, honor all such kids who have graduated from high school. He is a great kid. His father is Bob Dickens; his mother is Patty Dickens. I love him like a son. I wish you would welcome him today.

Assemblyman Allard moved the adoption of the resolution.

Remarks by Assemblymen Allard, Harrington, Close, Ohrenschall and Price.

Assemblyman Perkins requested that the following remarks be entered in the Journal.

ASSEMBLYMAN ALLARD:

Thank you, Mr. Speaker. It is with great honor that I stand in support of this resolution. Assembly Concurrent Resolution No. 47 commends Mr. Grant Bowler for a lifetime of community service. Few people have ever had the effect on their community as Mr. Bowler has had.

Mr. Bowler is a native of Mesquite, Nevada. He served as the principal of the Moapa Valley High School for 35 years. If you want to know what kind of effect Mr. Bowler has had on the community, you need only ask the many residents of Overton in Moapa Valley. His continued involvement in education, church, the town board and politics have made him a legend in rural Clark County.

While I was campaigning for office, Mr. Bowler was one of the persons I conferred with. While sitting on the front porch of his home, he told me something I will never forget. He said, "Dennis, if you aren't willing to stir things up a bit, you will never change anything." If you know Mr. Bowler, you know that this statement is indicative of him. He has never shrunk from the responsibility of changing things for the betterment of our community. Therefore, I urge your support of this resolution. Thank you.

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. To you and through you to this honorable body. I, too, rise in support of Assembly Concurrent Resolution No. 47. I don't know Grant Bowler person-

ally, but being a fellow BYU graduate and serving as a bishop myself, I know some of the sacrifices this entails. I commend him for doing the other things listed in the resolution. I do appreciate men of his caliber.

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. I rise in support of Assembly Concurrent Resolution No. 47. It has been my pleasure and opportunity to know Mr. Grant Bowler since I returned to Las Vegas from graduate school. Likewise, I've not had the opportunity to be associated with his family for a number of years.

I think Mr. Allard has correctly identified Mr. Bowler in the way he attacks things. He attacks things 110 to 150 percent. The beauty of Mr. Bowler is the fact that you always knew where you stood. He was not shy in telling you what he felt. He always shared that feeling with you.

I think it is very good for this legislature to commend this man because even though he comes from a rural part of Nevada, his influence has gone further than that. It has definitely had an impact in Las Vegas. I urge your support.

ASSEMBLYMAN OHRENSCHALL:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 47. I first came in contact with Grant Bowler in the late 1970s when he was president of the LDS Temple in St. George, Utah.

I didn't know him, but I did know an individual who he had known a long time before who desperately needed his help. I called him up and got through to him immediately. The individual I was calling about was someone who was controversial. Many people would have preferred to claim they didn't know this person, but Grant Bowler said, "I will help, put it in writing." He came forward and assisted the individual. I will never forget that.

Since that time, I've come to make his acquaintance personally during various trips to Logandale and Overton. I greatly admire his energy and courage. I feel he is the quintessential example of the Nevada tradition. I strongly urge that we adopt Assembly Concurrent Resolution No. 47.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Concurrent Resolution No. 47. Grant has been infamous in Southern Nevada since I moved there many years ago. We have met on one or two occasions that he probably wouldn't recall.

I had the pleasure of being next door neighbors with one of his relatives. I can't recall the relationship, but for 13 years they were wonderful neighbors and a great part of Nevada history. It is with great pleasure that I participate in honoring him.

Assembly Bill No. 602.

Bill read third time.

Remarks by Assemblyman Price.

Assemblyman Perkins requested that Assemblyman Price's remarks be entered in the Journal.

Thank you, Mr. Speaker. To you and through you to this honorable body. First, I would like to express my thanks to the Co-Chairmen and members of the Government Affairs Committee for their hard work and cooperation on this bill. Especially to my distinguished colleague from Assembly District No. 4 who worked so hard on this with her subcommittee.

The intent of Assembly Bill No. 602 is to clarify an area in the open meeting law. Back in 1977, I was a co-sponsor along with the Honorable Speaker that is chairing us today. There were some areas that I thought needed to be clarified. Once we started having meetings of the subcommittee on this, with the Attorney General's office and others, it turned out that I was worrying too much because the existing language covered a lot of items. I'm going to mention two or three of them for the legislative record.

One of the phenomena that has occurred since we passed this bill is that Nevada was one of the first to bring about sunshine laws. I was looking at a report from Illinois that rates all the states, and Nevada was listed as the fourth in having the best open meeting laws. Of course, the idea of an open meeting or sunshine law is to let the public know the thinking process and how we collectively come to a decision. These agencies just don't wake up one day and make a decision. It is a process where communication is exchanged and that is the big change that has happened since 1977.

In 1977, when a meeting was held, everyone went into a room. Now, with telecommunications and the computer changes that have come about in the meeting process, the communication that goes back and forth today is done by computers. We did have telephones in 1977, and we used them. But look at what we, ourselves, are doing. We now have here and in Las Vegas, the facilities for telecommunications to make decisions and have meetings.

When you think of the meeting, as you simply read the law, you might think a meeting was all a bunch of people in one room. This is not the case. Think about how we make a roll call. We have legislators at this end and legislators at that end. The very first thing we do is have a roll call, which means we are all present. It doesn't mean we are present in one room. It means we are all present to deliberate and to take action on meetings. These are some of the things that we wanted to get clarified.

I thought it was going to be written down, but I find from attorneys who know things better than I do, that it doesn't have to be word by word in a bill. Legislative intent is important and also recognition that things develop over the years as ours has.

I hope that you will support Assembly Bill No. 602. I'm not sure, over the years, if we've had any opposition to open meetings. Well, I think everyone loves this, they are waving flags at me. With that, I will sit down. Thank you.

Lord, before You stands a most dedicated bunch. Please give these men and women the wisdom to recognize that their differences need not be disabilities and the strength to insure as much. Just as it takes both proton and electron to make life as we know it possible, it also takes both Republican and Democrat to make life as we know it better. We ask that divine intervention not be necessary in this chamber.

We're here on the weekend, Father, because we're trying to wrap things up. Please be with us. But, I especially ask You to be with all our support staff. Please strengthen our aides, pages, researchers, bill drafters, fiscal analysts, front desk and all others as they work toward our conclusion. It's hard on them, Lord. And, in the immortal words of Bartles and James, "We thank You for Your support." AMEN.

Pledge of allegiance to the Flag.

At 9:37 a.m.
Mr. Speaker presiding.
Quorum present.

REMARKS FROM THE FLOOR

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

MR. SPEAKER HETTRICK:

I just wanted to say that you can tell from the reactions and comraderie of this group that we have functioned very well. I truly believe that you should be very proud of yourselves. In my opinion, this hasn't been easy, but it has been done well. I think you owe yourselves a great big hand.

ASSEMBLYMAN DINI:

I'm extremely proud to have worked with every one of you. We've jelled as a pretty darn solid unit. Things that were said we couldn't do, we did. We passed some substantial legislation much easier than we have in other sessions. It is because of the quality and character of the people we have serving here. Congratulations to each and every one of you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I think we have left off something very important. In reality, we couldn't have accomplished any of this without the cooperation and hard work of our two Speakers. They are the ones who really deserve the hand.

MR. SPEAKER HETTRICK:

Thank you. We both thank you, and if Mr. Dini would like to make further remarks, he is surely welcomed to do so. I would tell you it has really been a pleasure to work with Joe. He is great, and clearly, a hard act to follow. I've appreciated the opportunity. He has been very helpful, and we appreciate all of your support as well. I think it is also appropriate to recognize the leadership on both sides of the aisle who have worked diligently and who are a great group. I would ask Mr. Ernaut, Mrs. Stroth, Mr. Allard and Speaker pro Tempore Tiffany to stand up. These people have made a job that would have been impossible, possible. I would like to thank them for their efforts.

On the other side, I would ask Mr. Perkins, Mrs. Kenzer, and Speaker pro Tempore Evans to stand, and I would like to recognize Mr. Price and Mr. Williams who are not here. They are tremendous to work with. I think a great deal of what worked here was due to our two Floor Leaders, Pete Ernaut and Rich Perkins. We really appreciate their efforts.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. This has really been a unique session. Being one of the Floor Leaders for a 21-21 split has really been a learning experience for me. I could not have done the job that some people say, without my colleague, Mr. Perkins.

It started off in fear because he is the only person in this hall that can kick my butt. Rich Perkins has been as fair, level-headed and even-minded a person than anyone I've ever worked with in any profession, let alone politics. I really owe any success in this body to the way this has worked as a split, the way we have refrained from nuclear warfare on the floor, and the way we have dealt with contingencies judicially, pragmatically and professionally to my colleague from Henderson. I just want to give him a round of applause because he has made my life here a whole lot easier.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. Perceptions are reality and he is probably concerned because he hasn't seen me fight. It has been a pleasure working with Pete. There was the same trepidation on my part in this role.

The newspapers, early on, were partially right, the potential for nuclear war, unabated hatred and anger. It was his efforts as well, Mr. Speaker, I couldn't have asked for someone easier to get along with, believe it or not, with the reputation that he sometimes carries. We have worked hard. We've communicated more with each other than with our own caucuses, at times, as a necessity. He has helped me in many cases, and we have worked hard together.

We had but one goal and that was for the two of us, in conjunction with this house, to do the work for the people of the State of Nevada and do it for them, not for us. This has been our goal all along. I would have to provide the same accolades for him as he has provided for me. I truly could not have done that by myself. He deserves the lion's share of the credit having worked probably 50 percent harder than I have this session. I think we owe him a round of applause as well.

SECOND READING AND AMENDMENT

Assembly Bill No. 372.

Bill read second time.

The following amendment was proposed by the Committee on Elections and Procedures:

Amend sec. 7, page 5, line 2, by deleting "30" and inserting "[30] *90*".

Amend sec. 7, page 5, by deleting lines 4 and 5 and inserting: "registered as a member of the ..... Party; that I have not, in violation of the provisions of NRS 293.176, changed the designation of my political party or political party affiliation on an official affidavit of registra-".

Amend sec. 7, page 5, line 41, by deleting "30" and inserting "[30] *90*".

Amend sec. 7, page 6, line 27, by deleting "resides," and inserting: "resides [,] *in accordance with NRS 281.050,*".

Amend sec. 8, page 7, line 15, by deleting "or resides," and inserting: "or resides [,] *in accordance with NRS 281.050,*".

REMARKS FROM THE FLOOR

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

MR. SPEAKER HETTRICK:

I think there is one other thing we have to address. We have a copy of the Senate Daily Journal. I think we should some way address this issue.

It says, "The Senate team was an outstanding example of skill and precision. I will not point out individual efforts." This is Senator McGinness speaking on the floor. "What concerns us now is the Assembly's despicable conduct in stealing and concealing the trophy that is rightfully ours."

Our esteemed Chief Clerk lifted this trophy, which was rightfully ours anyway. She checked with the pastor that was here the day before, and he verified if it was rightfully ours, it was not incorrect to return it to the proper ownership, which she did beautifully. I must read on.

"The trophy has been rightfully ours. It has been ours forever. In this case, I will name names. If I came out with the names of Ernaut, Perkins, Hettrick or Dini, you would probably accept that because that is something those guys would do. The name of Mouryne Landing would be the last one you would come up with. But, Mouryne Landing, a woman who has always been held in high esteem, was witnessed removing the trophy from these chambers. I will have to ask—no, demand—that Mrs. Landing be made to answer for this indiscretion."

They go on to inappropriately maintain they won the game. I just think we owe Mrs. Landing a huge round of applause for returning the trophy to us.

CHIEF CLERK, MOURYNE LANDING:

Do I get legal representation? Is anyone going to help me clear my good name?

ASSEMBLYMAN ERNAUT:

Mr. Speaker. I want to dispel any notion that the Assembly was not victorious. I lodged a formal complaint with the league office. There was not one Senator on the Senate team. I'm not sure if they were waiting for a "Geritol shot" or all the male members played like girls.

If I can make amends, I know that the best player on their team was a woman and appropriately is the intern for the Senate Majority Leader. I think she had the most hits. She definitely had the best arm and tags really hard in the wrong places. But, I think the MVP award, no doubt in this game, goes to my colleague, Mr. Goldwater.

In his duties as third baseman, he happened upon the chance to grab Senator Lowden, pick her up and deposit her in a very large mud hole. He was subsequently injured. Just

for everyone's edification, I think the headline on the sports page in yesterday's *Nevada Appeal* read, "Goldwater makes it to third base with Senator Lowden; pulls groin going for home."

In batting four or five times in the last inning, I can tell you that we did win. There is no doubt. If any contradiction to that came from the scorekeeper, who is the secretary of Senator Washington and was the main person in the Senate for the softball team, I think it is very appropriate, especially in light of last year's score of 35-2, that we do retain the trophy. I'm very happy that we have one "damn sneaky" Chief Clerk.

MR. SPEAKER HETTRICK:

I also want to point out, not only is she sneaky, she is efficient. As soon as she got the trophy, she went out and got the plates engraved, as the Senate left them blank the last couple sessions. But, they are engraved now.

We have one other question to raise now. In light of the dispute, we need a vote from this house on how do we engrave the last plate? There is a claim from their side that they won. Obviously, we know that we won. The question is, "How do we want to engrave the plate?" A suggestion has been presented that perhaps, since there was a dispute, it should read "17-17 tie." By the way, that has been their method of putting up the score, when indeed, we won.

ASSEMBLYMAN CLOSE:

Mr. Speaker, if I could, I would like to relay to this body a conversation that I had last night with a Senator, I'll name the name, Senator Coffin, who accurately described the fact, "They had the umpire in their pocket." I think on that basis, they are disqualified, Mr. Speaker, because they facilitated . . .

(Senate enters . . . Recess . . .)

SENATOR JACOBSEN:

I just wanted to indicate that when the Senate is over here, we are in charge.

ASSEMBLYMAN ERNAUT:

Mr. Speaker. Very appropriately, they try to steal what they can't win on the field.

MR. SPEAKER HETTRICK:

We better be careful with our comments about stealing. This is certainly the most enjoyable "joint" committee meeting that we have ever had with the Senate.

SENATOR MCGINNESS:

Mr. Speaker. The thing that concerns me the most about this is not Mr. Ernaut, Mr. Perkins or the Secretary of State Heller's despicable play, it's my high esteem of Mrs. Landing. When I heard that she was the one that stole it, it was beyond recognition.

MR. SPEAKER HETTRICK:

We want to point out to you that we realize that was a concern after reading the journal remarks from your house. As you know in politics, perception is reality and you had the wrong perception.

SENATOR MCGINNESS:

Mr. Speaker. I might say in view of your efforts today, we have decided that this is the "runner up" trophy and we will buy a bigger one.

MR. SPEAKER HETTRICK:

We thank you, Senators, for coming down and joining us for what has been a pleasurable event.

ASSEMBLYMAN ERNAUT:

Mr. Speaker. Please remind the Senators, it's not the size of the trophy.

ASSEMBLYMAN BENNETT:

Thank you, Mr. Speaker. In light of Thursday night's mud slinging and the frivolity of our game, I think the discussion was on what we should have engraved on the trophy. I would like to suggest for this matter, "The rules were suspended."

ASSEMBLYMAN ERNAUT:

Mr. Speaker. I move that further engraving of the trophy be dispensed with and the Speakers and Chief Clerk be authorized to make any corrections or additions.

MR. SPEAKER HETTRICK:

I have a suggestion. I think it should be engraved to say, "Mouryne Won."

ASSEMBLYMAN ERNAUT:

Mr. Speaker. How about Mouryne One—Senate Zero?

MR. SPEAKER HETTRICK:

I've just been informed that the counsel bureau has been listening and they've called in a suggestion to put "21-21 tie" on the plate.

ASSEMBLYMAN DINI:

Mr. Speaker, I have to make a statement because I really resent the things in their record concerning the Chief Clerk. I can't believe this innocent looking, young lady would do anything to hijack something as important as that trophy. If she was going to steal something good, she'd go for the gusto. Actually, it was ours, and she did the right thing. The record should reflect that she did the honorable thing by bringing it down here, getting it engraved, recruiting help to get the plates back on and hiding it in my bathroom.

ASSEMBLYMAN GOLDWATER:

Thank you, Mr. Speaker. In an effort to clear the good name of our Chief Clerk, I would like to make some clarifications. It was a gray, cloudy, wet day, but there was only one member that scored, and he was a member of the Assembly.

ASSEMBLYMAN PERKINS:

Mr. Speaker. The last thing I remember hearing from this member as he hobbled off the field was, "Dreams do come true in Nevada."

Assembly called to order at 11:27 a.m.

Speaker Dini presiding.

Roll called.

All present.

Prayer by the Chaplain, The Reverend Sam Caldwell.

Almighty God, we are well aware that the hour is early and the time is late. All of us wish we could be home as we begin summer this week. All of us have put in long hours and have been on the receiving end of unwarranted criticism. So, from time to time dear Lord, we need to be reminded that even the greatest statesmen and stateswomen in the history of our state and nation have had to cope with many of the same problems that face us today, sometimes failing more often than succeeding. We pray that You continue to help us face frustrations with confidence, not capitulation; and with determination, not depression. We pray that You will be with us and continue to strengthen us now and always. AMEN.

Pledge of allegiance to the Flag.

Assemblyman Ernaut requested that his remarks be entered in the Journal.

Thank you, Mr. Speaker. My family has known Ray and Grace Capurro for many, many years. Ray was a very simple man and would have wanted only a few things said. As indicated by Grace this morning, I'm going to keep it to what is important.

Ray Capurro was a great husband and father. He was a man who served his country, community and family very well. When all is said and done, that's all that really matters.

This state will miss Ray Capurro. Reno will miss Ray Capurro, and I know I will miss Ray Capurro. Thank you, very much.

Bill read third time.

Remarks by Assemblymen Close, Goldwater, Giunchigliani, Humke, Anderson, Perkins, Williams and Ernaut.

Assemblyman Marvel requested that the following remarks be entered in the Journal.

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. Assembly Bill No. 385 makes various changes relating to criminal gangs in schools. This measure doubles the existing sentence for persons who commit felonies on the property of the school or at an activity sponsored by the school. The bill also provides for the forfeiture of personal property used as an instrument in the commission of a crime by a criminal gang. The existing statutory definition of criminal gang is added to Chapters 213, 388 and 392 of NRS.

The State Board of Education is required to seek the cooperation of the private sector in developing programs that reduce the number of pupils who participate in criminal activity with gangs. Each school district is required to adopt a policy that prohibits criminal gang activity, which would include wearing gang symbols on clothing. This policy must include provisions for the suspension or expulsion of those who violate this policy. Mr. Speaker, I have the support in letter form from the Clark County School District and also the Washoe County School District.

ASSEMBLYMAN GOLDWATER:

Thank you, Mr. Speaker. I voted against this bill in committee. I find the acts of criminal gangs deplorable. I think that every act should be punished severely and appropriately by the court, but this is more than punishing the act. This is punishing the

association of somebody. And that is fine, except innocent people are often caught up in that net, mostly because of the color of their skin, where they live or how much money they make. This bill allows that policy to bleed into the school district and also enhances it in our statutes.

I personally witnessed what happens when good people get caught up in this net. When we are trying so hard to get people out, to raise the water level for everybody, things like this keep the downtrodden, down further, which I cannot support.

I cannot support this policy, but I do, however, commend the assemblyman from the south in his effort to get rid of the acts. But, I ask the members of this body to punish the act and not the association. Thank you.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. To you and through you to the sponsor of the bill. Regarding sec. 6, 1.(a). Is there to be an expansion on the rationale regarding a pupil wearing any clothing or carrying any symbol on school property that denotes membership in or an affiliation with a criminal gang? My question is relative to being a school teacher, especially with the junior high age group.

I've had my own students segregated out and told by the school administrators that they, for example, were not permitted to wear a bandana of a specified color in their hair. It would seem to be only my Hispanic students that had this occur to them. So my question is, would this empower administrators to be able to potentially discriminate against these individuals just because of their race, and basically because someone thinks a bandana may tie them into a gang?

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. To you and through you to my colleague from Assembly District No. 9. Section 6, basically has those criteria involved with it, but if you turn over to the second page, it also includes that it has to have the wearing of an identifying sign along with complying with items b and c listed in that category. So, just wearing the bandana would not do it unless they participate in the other two items.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. Where do we define the identifying signs? In the past, the school board policy has been just simply a bandana would be indicative of a gang.

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. To you and through you to my colleague from Assembly District No. 9. Again, this is not defined in this bill, but we felt it was a combination of the three items that had to be in place for the action of this bill to take place. I would think that this would be left up to the school district to make that definition.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. With that, I will then oppose this legislation. I appreciate the work that was done on this bill, but I have had my own students treated this way, which I have witnessed myself. I would rather we have something tighter with regard to definition because I have seen how kids have gotten caught up, innocently, just because of their race. Thank you.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise to support the bill in terms of the comments from our young colleague on the other side of the room. I do not believe that this bill is aimed at prohibiting certain associations, and that is protection under the United States Constitution. I was satisfied, and I believe the co-chair was satisfied, that this bill did not prohibit freedom of association except as is permissible under existing statute and that ties into the comments of the other speaker regarding the definition of gang and gang activity and paraphernalia. This is a definition that we took from another section of the law, which has been residing in our statutes since 1991, and has not been found to be unconstitutional. It is permissible, and in fact, it is necessary.

I would just like to say that kids have a right to be kids and to do what they wish to do so long as it is lawful and it is relatively positive. Gangs are bad. We don't need gangs or gang activity on our school property. Thank you.

ASSEMBLYMAN ANDERSON:

Thank you, Mr. Speaker. As a school teacher, I also rise in support of a policy. I want to bring up a concern that was raised here, and that is of the requirement that the school district adopt rules which means that they have to go through the formal process in that school district to set up the standards. It also asks for the cooperation of private industry in developing for people of all grades, programs and activities designed to reduce the number of people who are participating in these criminal gangs.

I share in the concern that my colleague from the south has indicated to the bill in terms of the opportunity. Unfortunately, we have often seen in our profession where the administration decides a group or particular group of people might be suspect because of their activities at school and then utilize the gang statutes to reach that particular group. I believe that there is, in part at least, an attempt to codify this in such a way as to give a greater opportunity for the school district to meet the requirements that are not currently there.

ASSEMBLYMAN PERKINS:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 385. The proliferation of gang activity, particularly in our urban areas but not exclusive to them, and their impact on our society and our quality of life is a tragedy. We need to have additional tools to address those problems. There have been, in the past, problems with the enforcement of the laws regarding criminal gangs and the wide-sweeping approach to the use of that particular term. Since then, the courts have tightened up that definition. The definition in this bill has three prongs.

The definition of a criminal gang and the three prongs needed to be satisfied in order for that to stand the muster of our courts are as follows: the person has a common name or identifying symbol; has particular conduct, status and customs indicative of it; and has, as one of its common activities, engaging in criminal activity punishable as a felony. If those prongs are not met, then that person is not deemed by a court to be in a criminal gang or be a criminal gang member.

The criteria, and I can speak to it personally, is very, very difficult to meet in our courts today. So, it is with that particular definition that makes me comfortable with the approach that we are taking. I recognize that we are talking about school policies, but the association portion of that is not near as problematic, at least to me, as it would have been without that particular definition. Thank you, Mr. Speaker.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. Reluctantly, I rise to speak on this bill. But, I do rise in opposition, not in opposition to the intent, but in opposition to the reality of it. In my first session in this body, in 1987, the activity of gangs were at that time pretty exclusive. They were in the urban areas only and having seen some of the activity at that time and understanding what caused some of the activity, I presented to this body a number of legislative proposals to deal with the issue of street gangs.

At that time, those issues were ignored because the activities were exclusive to certain areas. I gave what I think was an appropriate warning that if we do not deal correctly with the problem and not the system, that they would begin to proliferate throughout all parts of our state. I think most of us who represent areas throughout the state can now, in 1995, identify with the fact that proliferation has taken place throughout the state. That proliferation came about because we did what we are about to do today, deal with a kneejerk reaction to symptoms and not the real cause of understanding what is going on in our society.

Many of us who served in 1987 didn't believe that we would see such activities taking place in Douglas County, Carson City and Reno. It is increasing and it is going to continue to increase whether this type of bill passes or not, because we are tackling it in the wrong way.

Those young people who engage in these types of activities are not going to stop by the public library to see which new laws are on the books that deal with punishment and

punitive situations because we are concerned and want to show the public exactly what the problems are and how we are dealing with them as policymakers. My colleague from Assembly District No. 10 is absolutely on target.

I can tell you from the educational standpoint that there is very little information that educators have to actually deal with this and to carry out this piece of legislation if it passes in the correct manner. Even if we wanted to understand more as educators, there is always a move not to allow us or pigeonhole us into not getting this type of information or learning more about these situations. We are geared more toward a pointed view.

This piece of legislation, if passed, will cause the Assembly Ways and Means Committee and Senate Finance Committee to be even more baffled and to dig even deeper to find revenues to build more institutions to incarcerate, not because of those who actually are criminals and who should be placed in our correctional institutions, prisons and jails, but there will be a tremendous amount of young people who will fall victim to the incarceration institutions in our state. If you think our budgets are loony now with more prisons and more prison costs, these types of bills will cause it to gather even more.

I can understand how it was concurrently referred to both Judiciary and Ways and Means. We are taking the wrong approach; a particular conduct which identifies, that is based on one person's objective or subjective point of view. If we place this on the school ground, we are really stepping on some territory that is going to make this situation explode and cause those whom we are pointing fingers at to rebel even more. I would urge my colleagues to take a very serious look at this and oppose it. I think we should, even with the short time that we have left here, consider the fiscal impact that this is going to cause upon our state.

ASSEMBLYMAN CLOSE:

Thank you, Mr. Speaker. To you and through you to those who spoke in opposition to this bill. I appreciate my colleague from Assembly District No. 6 identifying his foresight to deal with the problem of juvenile crime. This bill does not stand alone.

This legislature has taken a position this year of dealing with an area that we feel we have some impact on, and that is juvenile crime. In this bill, it is not my intent to punish those who are not involved in these activities; namely criminal activity. I think that big problems require big decisions. This body needs to make a decision as to what we want to do with an area in which I think we can have some inroads, and that is with our juveniles. By taking the actions called for in Assembly Bill No. 317 and also in this bill, it is my feeling that we will stop, hopefully, the proliferation of our youth going into prisons and increasing our prison population.

We need to take a position in this state that juveniles who commit crimes have to be dealt with in a way that adults who commit similar crimes are dealt with. They have to know that they have implications for the activities in which they participate. I urge your support of this bill. It does not have a fiscal impact or fiscal statement on it. For those of you who say it does have a fiscal impact, I am attempting to do this so that it reduces our fiscal impact to our prisons. I urge your support.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. For a second time, I just wish to say a couple of things. I think the debate has turned to philosophy about how to deal with gangs and gang activity.

I would like to say that I have known some kids who have been involved in gangs and who have gotten out. They were and are good kids. They were good kids when they were in the gang, and that is the point of this bill. These kids, juveniles, need someone to tell them that gang activity is wrong. There is a better replacement for that. The way of doing that is not through some silly federal spending program to prevent that activity, it is through strengthening families and strengthening schools. This bill strengthens our schools. That is the idea. It is a good bill. Please pass it.

Amend the summary of the bill, first line, by deleting "forms for".

Assemblyman Giunchigliani moved the adoption of the amendment.

Remarks by Assemblymen Giunchigliani, Segerblom, Bennett and Ernaut.

Assemblyman Bache requested that the following remarks be entered in the Journal.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. This is a fairly simple piece of legislation; noncontroversial, I'm sure. I will briefly go through about 10 changes that have been made.

It sets the standards for redesigning the forms by requiring that the Secretary of State seek input from a member of the legislature, county commissioner or county clerk as the changes are made to the form. It further defines a committee for political action. It clarifies that the supreme court candidates are capped at $10,000 for contribution. It lowers the candidates campaign threshold from $500 to $100. It requires caucuses and political parties to report contributions received in the amount of $100 or over. It adds further clarification as to how a candidate may spend their contributions. It adds another section as to how candidates can contribute leftover contributions. It changes the dates of withdrawal from office from city elections. It requires notice to be filed for dissolution of a pact. It makes state changes for final contribution forms.

ASSEMBLYMAN SEGERBLOM:

Thank you, Mr. Speaker. This is my simple little bill that all of you signed for changing the form to report campaign expenses and contributions. You know we needed this, as the dates weren't right and the forms weren't correct. This has now turned into a 24-page amendment.

ASSEMBLYMAN BENNETT:

Thank you, Mr. Speaker. To my colleague from Assembly District No. 9, is this retroactive?

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. To you and through you to my colleague. No, but I will expand on the clarification.

What we attempted to do in the Elections and Procedures Committee was to streamline five major bills so only certain sections were contained within a bill. Assemblywoman Segerblom graciously allowed us to be able to take the language from the Secretary of State's bill, and put it into her bill so that we had lined up everything that deals with NRS 294A. Anything that deals with NRS 293 is in another bill that we will amend later. This will not only make it easier for us to debate, but will also make it easier for the Senate to process.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. To you and through you to my colleague from Assembly District No. 9. I would like to know the rationale that the committee used for lowering the threshold from $500 to $100?

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. To you and through you, basically, the testimony given by the Secretary of State was to "open up the doors" as far as campaign reporting goes.

I, personally, support going to zero on all thresholds, as it levels the playing field. I think some of the discussions were that it's proper, in this day and age, to begin to note who is contributing to whom and to hold the same standard for political parties and caucuses.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. With all due respect to my colleague from Assembly District No. 9, I think that may be more of a romantic note than a reality. I think that in the practical political reality of lowering thresholds from $500 to $100, you will ensure that every incumbent in this body out spends their challenger or out races their challenger five-to-one.

It is a very simple rationale. If lobbyists and special interest groups do not want to be on their challenger's reporting list, they will give them $100; whereas, they will still give the

incumbent $500. I think the practical reality of this, is that this is an incumbent's bill. I think it is distorted from what it is supposed to be. I would like to have another answer to that.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. First, I am in a romantic mood, as today is my eighth wedding anniversary. Secondly, I would be happy to entertain a motion to amend this to zero, and therefore, you truly do level the playing field. I do not see lowering the threshold as a pro-incumbency issue. Personally, I think we should have everything open so everybody has "sunshine." However, I don't see this as protection for incumbency. I think it is a step in the right direction, but we just did not go far enough.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. I still have another question for my colleague from Assembly District No. 9. I can understand the rationale of many of these and I can understand the caucuses. The one which I'm having a hard time grasping is, why we would open up the actual political parties?

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. In leveling the playing field, the question and testimony that was brought before the committee dealt with some candidates who at times, the parties will do something for unbeknownst to them. So, we protected that part of the section. If something is done unsolicited by a candidate, on behalf of the party, the party would have to report that. But in many instances, you will have political parties do mailings and brochures with full knowledge by the candidates. That is, therefore, an expenditure and contribution on their behalf and should be reported.

ASSEMBLYMAN ERNAUT:

Thank you, Mr. Speaker. To you and through you to my colleague from Assembly District No. 9. Isn't that, right now, handled within our reporting guides? If you do that, don't you have to report it as in kind or as pass through?

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. No. We have to report, and that part is still contained within this legislation. Basically, the purpose of this section is the expenditure does not include a campaign contribution made to a candidate. I would disclose as a candidate, not the caucus. However, if the caucuses or the political action committee does something on behalf of the candidate then they will report that expenditure.

Assemblyman Ernaut moved that Assembly Bill No. 517 be taken from the Second Reading File and placed on the Chief Clerk's desk.

Motion carried.

(a) A sheet of foam plastic or similar backing material attached to the card;

(b) A punching instrument;

(c) A postage-paid return envelope; and

(d) Instructions regarding the manner of punching and returning the card.

Sec. 43. *Upon receipt of a presidential preference primary election mailing ballot from the county clerk, the registered voter must:*

1. Except as otherwise provided in subsection 2:

(a) Immediately after opening the envelope, mark and fold the ballot;

(b) Place the ballot in the return envelope;

(c) Affix his signature on the back of the envelope; and

(d) Mail or deliver the envelope to the county clerk.

2. In those counties using a mechanical voting system whereby a vote is cast by punching a card:

(a) Immediately after opening the envelope, punch the card;

(b) Place the unfolded card in the return envelope;

(c) Affix his signature on the back of the envelope; and

(d) Mail or deliver the envelope to the county clerk.

Sec. 44. *Each registered voter may vote on the partisan ballot for the presidential preference primary election for one person to be the candidate for nomination for President of the United States for that party.*

Sec. 45. *The county clerk shall, upon request from a registered voter who does not receive a ballot, issue to that voter a certificate of error and allow that voter to vote on election day at the office of the county clerk.*

Sec. 46. *1. When an absent ballot or mailing ballot for the presidential preference primary election is returned to the county clerk, the county clerk shall make a record of the fact that the ballot was returned on the absent ballot record book.*

2. On the day of the presidential preference primary election, the county clerk shall deposit the ballots in the regular ballot box in the following manner:

(a) The name of the voter, as shown on the return envelope, must be called and checked as if the voter were voting in person; and

(b) The signature on the back of the return envelope must be compared with that on the original affidavit of registration.

3. If the county clerk determines that the voter is entitled to cast his ballot, the envelope must be opened, the numbers on the ballot and envelope compared, the number strip or stub detached from the ballot and, if the numbers are the same, the ballot deposited in the regular ballot box.

4. The county clerk shall mark in the pollbook opposite the name of the voter the word "Voted."

5. When all the ballots received by the county clerk have been voted or rejected, the county clerk shall:

(a) Note on each envelope containing a rejected ballot the reason for rejection; and

(b) Sign each envelope containing a rejected ballot.

Sec. 47. *In any county which has more than one congressional district within its boundaries, the county clerk shall make a separate count of the ballots received from the voters in each of the congressional districts in this state.*

Sec. 48. *When the polls are closed, the county clerk shall prepare to count the ballots returned to him. The counting procedure must be public and continue without adjournment until completed. The county clerk shall prepare in the following manner:*

1. The ballot box must be opened and the ballots contained therein counted by the county clerk and opened far enough to ascertain whether each ballot is single. If two or more ballots are found folded together to present the appearance of a single ballot, they must be laid aside until the count of the ballots is completed. If, on comparison of the count with the record books, the county clerk is of the opinion that the ballots folded together were voted by one person, the ballots must be rejected and placed in

an envelope, upon which must be written the reason for their rejection. The envelope must be signed by the county clerk and placed in the ballot box after the count is completed.

2. If the ballots in the box are found to exceed the number of names on the record books, the ballots must be replaced in the box, and the county clerk with his back turned to the box, shall draw out a number of ballots equal to the excess. The excess ballots must be marked on the back thereof with the words "Excess ballots not counted." The ballots when so marked must be immediately sealed in an envelope.

3. When it has been determined that the record books and the number of ballots agree with the number of names of registered voters shown to have voted, the county clerk shall proceed to count. If there is a discrepancy between the number of ballots and the number of voters, a record of the discrepancy must be made.

Sec. 49. *The county clerk in any county in which paper ballots are used shall not begin counting the votes until all ballots which were returned by the voters and all ballots which were not mailed by the county clerk are accounted for.*

Sec. 50. *The basic factor to be considered by a county clerk when determining whether a particular ballot must be rejected is whether any identifying mark appears on the ballot which, in the opinion of the county clerk, constitutes an identifying mark such that there is a reasonable belief entertained in good faith that the ballot has been tampered with and, as a result of the tampering, the outcome of the election would be affected.*

Sec. 51. *When all the votes have been tallied, the county clerk shall enter on the tally lists by the name of each candidate the number of votes he received. The number must be expressed in words and figures.*

Sec. 52. *1. After the tally lists have been completed, the county clerk shall:*

(a) File the voted ballots on a string, enclose and seal them in an envelope marked "Election returns, voted ballots."

(b) File the rejected ballots on a string, enclose and seal them in an envelope marked "Election returns, rejected ballots."

(c) Place one of the tally lists for regular ballots and one of the pollbooks in an envelope marked "Election returns" and seal the envelope.

2. The voted ballots, rejected ballots, tally lists for regular ballots, tally list for rejected ballots, challenge list, stubs of used ballots, spoiled ballots and ballots which were not mailed by the county clerk must be sealed under cover by the county clerk.

Sec. 53. *1. Except as otherwise provided in subsection 2, each county clerk shall post a copy of the voting results in a conspicuous place on the outside of the place where the votes were counted.*

2. When votes are cast on ballots which are mechanically or electronically tabulated in accordance with the provisions of chapter 293B of NRS, the county clerk shall, as soon as possible, post copies of the tabulated voting results in a conspicuous place on the outside of the counting facility.

3. Each copy of the voting results posted in accordance with subsections 1 and 2 must set forth the accumulative total of all the votes cast within the county and must be signed by the county clerk or the computer program and processing accuracy board.

Sec. 54. *1. As soon as the returns from the county have been received by the board of county commissioners, the board shall meet and canvass the returns. The canvass must be completed on or before the fifth working day following the election.*

2. In making its canvass, the board shall:

(a) Note separately any clerical errors discovered; and

(b) Take account of the changes resulting from the discovery, so that the result declared represents the true vote cast.

3. The county clerk shall, as soon as the result is declared, enter upon the records of the board an abstract of the result, which must contain the number of votes cast for each candidate. The board, after making the abstract, shall cause the county clerk to certify the abstract and, by an order made and entered in the minutes of its proceedings, to make:

(a) A copy of the certified abstract; and

(b) A mechanized report of the abstract in compliance with regulations adopted by the secretary of state,

and transmit them to the secretary of state within 5 working days after the day after the election.

4. The secretary of state shall, immediately after the election, compile the returns for all the candidates. He shall make out and file in his office an abstract thereof, and shall certify to the county clerk of each county the name of the candidate whose delegates and alternate delegates will be attending the national party convention for each major political party from each congressional district in this state.

Sec. 55. *1. The voted ballots, rejected ballots, spoiled ballots, ballots which were not mailed by the county clerk, tally lists, pollbooks, challenge lists and stubs of the ballots used, enclosed and sealed, must, after canvass of the votes by the board of county commissioners, be deposited in the vaults of the county clerk, and preserved for at least 22 months. All sealed materials must be destroyed immediately after the preservation period. A notice of the destruction must be published by the county clerk in at least one newspaper of general circulation in the county not less than 2 weeks before the destruction.*

2. The pollbooks containing the signatures of those persons who voted in the election and the tally lists deposited with the board of county commissioners are subject to the inspection of any elector who wishes to examine them at any time after their deposit with the county clerk.

3. A contestant of an election may inspect all of the material regarding that election which is preserved pursuant to subsection 1, except the voted ballots.

4. The voted ballots deposited with the county clerk are not subject to the inspection of any person, except in cases of contested election, and then only

by the judge, body or board before whom the election is being contested, or by the parties to the contest, jointly, pursuant to an order of that judge, body or board.

Sec. 56. *1. The delegates and alternate delegates of the candidate who receives the greatest number of votes in each congressional district in the state will be certified by the secretary of state as the delegates and alternate delegates from this state to the national convention of that party.*

2. If there is no contest for a major political party's nomination for President, the delegates and alternate delegates of the only candidate to file a declaration must be certified as the delegates and alternate delegates from this state to that party's national convention.

3. If there are no declarations of candidacy filed with the secretary of state for a major political party's nomination for President, the state central committee shall designate the party's delegates and alternate delegates to the national convention.

4. The delegates and alternate delegates of the candidate who received the greatest number of votes at the presidential preference primary election must be pledged to that candidate for the first convention ballot unless the candidate releases those delegates and alternate delegates pursuant to subsection 5.

5. At any time after the presidential preference primary election, the candidate who received the greatest number of votes in the election may release his delegates and alternate delegates from their pledge to support him at the national convention. The delegates and alternate delegates of a candidate shall be deemed to be released when the candidate notifies the chairman of the state delegation of his party, in writing, that he wishes to release his delegates and alternate delegates.

6. The candidate who receives the greatest number of votes in a presidential preference primary election may change the names on the list of delegates and alternate delegates who will be pledged to him at the national convention at any time before the national convention is held by notifying the secretary of state, in writing, that he wishes to make a change to his list of delegates and alternate delegates. A delegate or alternate delegate whose name is included on the list after the presidential preference primary election must meet the qualifications for delegates and alternate delegates prescribed in section 36 of this act.

7. A person who is certified by the secretary of state as a delegate or alternate delegate from this state to the national convention of a major political party shall, within 2 weeks after his certification, file with the secretary of state a pledge to act in accordance with the provisions of sections 35 to 58, inclusive, of this act.

Sec. 57. *If a presidential preference primary election is held pursuant to sections 35 to 58, inclusive, of this act, the cost of the election is a charge against the state and must be paid from the reserve for statutory contingency account upon recommendation by the secretary of state and approval by the state board of examiners.*

Sec. 58. *The secretary of state may adopt regulations to carry out the provisions of sections 35 to 58, inclusive, of this act.*

Sec. 59. NRS 353.264 is hereby amended to read as follows:

MOURYNE B. LANDING, *Chief Clerk of the Assembly,* Legislative Building, 401 S. Carson Street, Carson City, Nevada 89710

DEAR MOURYNE:

Words simply cannot express the appreciation and respect I hold for the Nevada State Assembly. I recently received your letter and a copy of Ms. Bond's "Part of the Heartland." The song not only meant a great deal to me, but it also meant the world to 3.4 million other Oklahomans. Your show of support for the State of Oklahoma has truly not gone unnoticed.

On behalf of the Oklahoma State Senate and the extraordinary citizens of our great state, please accept our most sincere appreciation for this timeless show of support. Oklahoma will never forget the manner in which our neighbors have flocked to our side during this time of need. This tragedy has allowed us to become closer as both a state and

a nation. It has been through the labors of many states working together for the good of the whole that Oklahoma has started the healing process. Our wounds are deep and our hearts are sad, but our spirit has not been broken.

Once again, thank you for this meaningful show of support of our state. We are still here America, and through the power of your thoughts and prayers, we will come back even stronger and more unified than we ever could have imagined.

Sincerely,

MESSAGES FROM THE GOVERNOR

STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, NEVADA 89710

June 21, 1995

THE HONORABLE JOSEPH DINI and THE HONORABLE LYNN HETTRICK, *Speakers,* Nevada State Assembly, Carson City, Nevada 89710

DEAR ASSEMBLYMAN DINI and ASSEMBLYMAN HETTRICK:

I am herewith forwarding to you, for filing within the Constitutional time limit, and without my approval, Assembly Bill No. 43, entitled:

> An act relating to the Federal Government; clarifying the authority of an officer or employee of the Federal Government to enforce the provisions of the Statutes of Nevada or Nevada Revised Statutes and to exercise the powers of a peace officer in this state; and providing other matters properly relating thereto.

Numerous state, local and federal officials have expressed their concerns about Assembly Bill No. 43 to me. I am persuaded by their arguments that this bill would seriously undermine the current state of cooperation among the various federal, state and local law enforcement agencies and could potentially endanger the public safety of Nevada's citizens and visitors.

Among the most serious concerns expressed by these officials are:

1) Assembly Bill No. 43 creates unacceptable jurisdictional problems for task forces and federal-local cooperative arrangements that cross county lines. It would eliminate the ability of federal law enforcement officers or employees to enforce laws relating to a number of serious crimes. Under the Assimilative Crimes Act, the United States currently relies on state laws when there is no specific federal prohibition. Assembly Bill No. 43 would tie the hands of these federal employees trying to protect the public on federal lands.

2) Currently, federal rangers and agents routinely help state and local law enforcement efforts with both manpower and equipment. This bill would create potential liability for a federal peace officer who comes to the assistance of a trooper, county officer, brand inspector or a citizen in a remote area of Nevada without an existing cooperative agreement.

3) Under the bill, the state agencies would be prohibited from entering into a cooperative agreement with federal agencies for law enforcement; all the current cooperative agreements would be void. This would result in a lack of public safety coverage.

Assembly Bill No. 43 creates confusion, uncertainty and potential animosity in an arena which needs cooperation and assistance.

Sincerely,

BOB MILLER
Governor

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. To you and through you, I'll explain the bill. Assembly Bill No. 290 is a very simple bill. A common sense bill. It says that teachers, secondary teachers, who have a specialized field such as computers, chemistry, biology, science or some kind of specialization, every five years as they take their required six credit hours of classes, that three of those credit hours or half of those credit hours, should be in their field of specialization such as a computer teacher who teaches computers, over the course of five years, would have to have some updated information dealing with that field. In addition to the fact they need to stay current in their field, it also shows that this person still has an interest in their own field and can have some enthusiasm for what they teach the students.

This bill, because in some fields there may be a need ever so often for a teacher to have an exemption from this requirement, has a built-in waiver that says if the teacher has good cause either to the lack of classes in their particular field or for other special personal needs, can get a waiver from this, by going to the superintendent of their school, and they could continue to get their courses in any field of specialization dealing with education. This concept was presented to the Commission on Professional Standards in Education by Mr. Hanlon, who is on the State Board of Education, and it was put on their agenda, but no action was taken with regard to this, although they did discuss it.

We feel that there is a real need for this because we have figures indicating that up to one-third of teachers do not take classes in their field of specialization. They take it in other fields. We could potentially have a computer teacher, after he graduated, never take a course in computer science which would clearly make him out of date. In addition to that, we have found that in the State of Nevada over 160 teachers are teaching out of their field of specialization. Many of these are in computers, science, math and in particular, where they have a great deal of difficulty getting these teachers. You can have a teacher teaching computers who is not a computer specialist, who has not had any training in computers and who has not taken any computer courses and yet they continue to teach computers for years on end. Same thing with math, science or any of the other fields.

This is just a common sense measure to allow teachers to be current in their field and to stay excited about their field and get the training that they need to be able to give the best quality education to children. It would have been nice if the Commission on Professional Standards in Education would have taken care of this when it was presented to them. Seeing that they failed to do that, we feel it is necessary that we do it in the Legislature. Thank you, very much.

ASSEMBLYMAN DE BRAGA:

Thank you, Mr. Speaker. I rise in opposition to Assembly Bill No. 290. It mandates that teachers complete three hours of credit in the area of specialization for relicensure. Currently, teachers can choose courses such as those needed for an advanced degree, or courses on methodology that would enhance their teaching skills. Teachers can also get credit for continuing education courses given as in service. This bill would take away choices and does not take into account the need of the individual teacher. It would also

create a severe hardship in rural areas for people who do not live near a college or a university and would discriminate against those who have dual licensures. I urge you to defeat this bill.

ASSEMBLYMAN TRIPPLE:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 290. I have been a teacher all of my life and will not go into how many years that is, but a number of those were spent in secondary schools. I can still remember the excitement as I learned new knowledge and as I took that knowledge back into the classroom. That excitement which I had was transferred to the students.

We're so concerned about teachers doing a good job today. I think that the most important thing that they can have toward doing that good job, is having an excitement about what they are teaching. I request your support for Assembly Bill No. 290.

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. To you and through you, as far as the elementary school goes, this bill does not apply. This bill only applies to secondary specialization and would only apply to you as a secondary teacher. You would need to take a class every five years to continue teaching or one that was in your initial field of specialization. Either one, it's your choice and you only need to take one of those classes so that if you continue to have the desire for example, to teach in those fields in which you are specialized, you would every five years need to take one class in that specialization or in your initial specialization if it was a secondary specialization.

You would only have to take the one class in one of the fields of specialization that you chose and you ask for a waiver in anything else and that would be surely granted without any difficulties.

This bill would require that in one of the specializations that you are continuing to teach, that you would have to take three credit hours because you are already required to take six credit hours and you can take three credit hours of anything you want. If you are a dedicated teacher and want to take more, that's great. There is nothing in this bill that would require you to do so.

I feel that if you are going to continue to teach in a specialized field, you stay current in that specialized field. In any specialized field, new knowledge is wonderful so that you can impart it to your students. I feel there is a need to stay current in your specialized field.

ASSEMBLYMAN BENNETT:

Thank you, Mr. Speaker. To you and through you to this distinguished body, I rise in support of Assembly Bill No. 290. The concerns that where brought forth to the committee in the waiver, the availability of special courses, was addressed. It was addressed in this very good amendment and we passed the amendment. Now it's on the floor before us today. In response to my colleague from District No. 31, you simply go to your superintendent or his designee and fill out your waiver and say, "I would prefer to take these and this is why." Show your good cause. A teacher in good standing has no trouble showing cause. This bill is simply what you see is what you get. It is endorsed by the State Board of Education; it is endorsed by the Clark County school system. It is a solid, common sense bill that needs to be passed. We urge your support.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise in support of the bill. As a former teacher, a teacher a long time ago in an earlier life, it appears that there is one word to describe this bill, "reasonable." You know, we serve on certain committees in this Legislature that deal with a number of professions and one thing comes through consistently, the esteem that we have in our state. Statute is that professions do provide for a kind of a social contract with the state. If you practice a profession, you are in a contract with the State of Nevada. There are changes from time to time that this Legislature can make on the governments of those professions. I think this is a reasonable change. Thank you.

ASSEMBLYMAN GIUNCHIGLIANI:

Thank you, Mr. Speaker. First of all, I would like to disclose that I am a public school teacher. So is Mr. Anderson, so is Mr. Bache, so is Mr. Williams, but we are not affected

any differently than anyone else and we will be participating in voting. I will also disclose that Mr. Spitler attended school and graduated along with many of my other peers in this body.

I rise in opposition. I was not planning on speaking on this. I think what happens too often in legislation, from seeing it from the outside, you think something is very simple in how it works. In 1987, we created a board to license teachers, to upgrade our professionalism. So we are in the same standard as many other professions. We have many commissions that license their professional people and this body does not sit there and tell them what they must take or when they must take it.

Now the record to this legislation has been an extreme amount of distorted facts in the press and in the halls of this body. I do not know a single teacher who does not wish to be licensed, certified and upgraded in their area, not only in specialization, but also in skill areas that assist them in becoming a better teacher. And that does not always lend itself based on a course. You cannot mandate enthusiasm.

I'll be damned if I am going to grovel before my superintendent and ask them for permission to take classes I must or must not take. I am a professional. That is what upsets me about this legislation. Good teachers take care of it. There was no testimony brought forth on proof of problems. It was recently stated by my colleagues from the south that 160 individuals out of 13,000 teachers in this state were teaching outside their area.

The State Board of Education is the one who allowed them to teach outside their area, not the Commission on Professional Standards and not the superintendents. And in those areas, many of them are in the rural areas because they do not have access to the courses that they need to take in the first place, and that is some of the individuals that you will be affecting by this legislation.

I will also point out to you that in state regulation in the Nevada Administrative Code, it already requires us to take our courses in our areas of specialization, but allows the flexibility if we have additional endorsements or to teach different grade levels. This legislation is absolutely unnecessary.

ASSEMBLYMAN TIFFANY:

Thank you, Mr. Speaker. I am the sponsor of the bill and I am absolutely in support of this bill. You know, outside of the parent there is probably nobody more important in your children's education than the classroom teacher.

Assembly Bill No. 290 would require secondary teachers to remain simply current and competent in the field that they are teaching. Currently teachers are required to take six semester hours and all that we are asking is that three of those six be utilized to keep them current and competent in their field. Your vote for Assembly Bill No. 290 should not be a partisan vote. Assembly Bill No. 290 was discussed and voted on by the Clark County School District and by the Nevada State Board of Education. In fact, that is where the amendment came from. It is also supported by the secondary school task force, the Chamber of Commerce, the *Review Journal*, the *Las Vegas Sun* newspaper. This clearly is a nonpartisan issue.

Since most teachers are professionals and they take courses in their fields of licensure, this bill wouldn't impact people, like my other colleagues have talked about. It would, however, force teachers who are not professional or prepared to take course work that would benefit the students that they serve. Not themselves; the students. The simple fact of the matter is that there are too many hard-working, dedicated, caring professional teachers who deserve all the respect our state can muster. They have done a great job. They certainly do not deserve to have their reputations sullied by the few who do not choose to remain current and competent in the field of their specialty. This bill has built-in flexibility.

The teachers who are current and competent in their field, who might be better served by taking a course outside their area of specialty can do just that. Teachers in the rurals who do not have the convenient course available can have other options open to them. We addressed this at the time that we had the hearing; a waiver provision for Assembly Bill No. 290 to address such needs to allow teachers to take courses and technology classroom

management and better serve the needs of their students. So, I argue that this bill would impede a teacher's progress in obtaining additional endorsements for licensure. That was brought up as a concern. And, if three credit hours out of five years impedes your progress, it sure leaves a question about the teacher's commitment.

I have heard the argument that regulations already place a mandate that teachers take courses in their fields of endorsement. Well, there is a loophole so large that you could drive a semi through it. The final argument is up to the Professional Standard's Commission, and they should be the ones to adopt such a regulation. This was presented to them and using their own minutes in testimony, they chose not to address this issue.

The council of the chief state school offices reported Nevada's low standards of teacher licensures of all states that were reported. Let's change this statistic by passing Assembly Bill No. 290 and keeping our teachers current and competent in the field in which they teach. I beg you to support Assembly Bill No. 290.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. I rise in opposition to Assembly Bill No. 290 for all the right reasons and I would urge my colleagues to look at the bill. On the first lines of the bill, on lines two and three it deals with the commission. You are talking about the Commission on Professional Standards in Education.

This body, in 1987, created that commission and as far as I can research, as many people as I can talk to, as much as I can read and as much as I can observe, has always had the ideals and the idea that the commission whose ideas and the authority of proper credentials lies most appropriately within their profession. That is why this body, in 1987, created the Commission on Professional Standards in Education.

In 1987, Senate Bill No. 467 of the 64th Session on which Senator Rawson gave the remarks in the Senate, chaired the committee, made the motion on the floor and the bill passed 21-0. The honorable and current floor leader in the Senate, Senator Raggio, moved that all rules by suspended and that Senate Bill No. 467 which created the commission was transmitted to the Assembly where it passed 41-1. At that particular time, educators throughout this state felt that they were now viewed as professionals by this state. Professionals. Here we are, eight years, nine days later trying to tell these teachers who were proud on that particular day that we urge this body through the government to mandate your enthusiasm. But, while we do that we are going to do discriminatory practice to our school teachers, that say, "Look we don't care if you have enthusiasm or not, we are going to mandate that secondary teachers have enthusiasm." Everyone knows that if you are in education or not, you are going to need enthusiastic teachers at the elementary level.

They teach language arts, math and all the core subjects to young people. If we care about teachers being professional, why leave elementary teachers out of this? Let the commission do what they are suppose to do. My colleague and co-chair said the bottom line of this bill is that if it passes all of a sudden teachers will be enthusiastic.

In committee, we asked if there was any information out there that showed that teachers weren't taking the classes that are mandated by law. By listening to the remarks that teachers who are currently in the classrooms don't have a license, some of those in the classrooms haven't met the requirements mandated by statute that they need to take to have a license. All the teachers in the classrooms have licenses.

Luckily we have the advantage of the citizens' legislature so this body contains many of us from various professions. Would you want an engineer to pass judgement on the abilities of a doctor? Ask yourself that question. Would you want a telemarketer to pass judgement on the abilities of a journalist? Would you want to pass such judgement on engineers? Would you want car salesmen to pass judgement on real estate brokers?

Because we have a citizens' legislature, we do have the ability and the value of having those of who have many areas of expertise who serve in this body. We establish commissions to govern standards and abilities and those commissions are put into place by those who are part of that particular profession. Here we are, a whole array of different professions who are going to sit here and micromanage the commission that we set for education and the most important aspect of children's lives. We are going to sit here and

micromanage through this legislation. A legislature that only meets every two years, one of few in the nation. So, if we set this in policy, and something happens, we have to wait two years as a legislature to fix something that we set in commission.

The Commission on Professional Standards in Education indicated to us that there has never been an attempt, except by one individual making a public comment, to place this on an agenda. But, opposing this bill, what we term as coming in the backdoor, it appears to me that if we do not attempt to present this through the commission this Legislature put in place to deal with this. This is a backdoor approach in itself.

Mr. Speaker, I believe the place to start improving education was in 1987, when we created that commission. If we need to build on that or enhance that position, we need to go back to that commission or we will have resolutions coming out of our ears asking for reports from that commission. Why haven't we done that?

The committee and this body recently approved Assembly Bill No. 610 which asked the State Department of Education to look at courses that are no longer needed. Why can't we do the same thing with this? Get those in the education field to collectively look at things that the commission would want to do to correct it. It is not our job to do so. We did the best we could by creating that commission. Most of the problems that are brought to the commission are solved through regulations and through the State Department of Education. They are not addressed by the Legislature.

Again, if we mess up, we are threatening the lives of children. We have to wait until 1997 to try and fix it if we break it today. The amendment again suggests secondary teachers. There are a whole lot of elementary teachers out there and now we are going to pinpoint secondary teachers with a waiver we are going to give to a local superintendent for the license granted to a teacher. Now, we are going to make the local superintendent the one to grant the waiver. The local superintendent is not there when the problem exists. Do these people think that licenses make them a better teacher? Not necessarily so.

Just yesterday, this body passed out a bill that would allow school districts to deal with the gang law. As a teacher, you have children that are coming from areas that are susceptible to gangs, and you have a teacher who knows nothing about gang activities, that teacher may become a better teacher by taking some gang-awareness classes. Teachers can take all the speciality classes they want to in every university in the southwest, and if the kids don't want to sit down and behave, classroom discipline and classroom management may make that person a better teacher. When you pass legislation like this, you deter the professional attitudes of teachers and they tend to go back to the unnecessary and unwarranted sterotypical names that you give them. Let them be professionals, let us not give them any information that would determine they are not professionals.

Finally, Mr. Speaker, I would like to thank the Floor Leader for allowing me to bring this jug of water today. I've been accused of carrying water for these two bills for teachers and for various folks. I can say gladly that I have it here today. The most important thing about carrying this water is nobody asked me to do it. The NSEA didn't ask me to do it; the parents didn't ask me to do it. But if anyone wants to make claim to ownership of it, I'll gladly share it with them because I gladly carry it. I carry it for a number of people. I carry it for the 17,000 teachers of the NSEA, and those who do not belong to NSEA. I carry it for the teachers of the American Federation of Teachers, parents, students and for those teachers from Elko, Yerington and the rural areas, especially for those who can't get to the universities to take those classes in education. Sometimes, it is a 4½ hour drive to UNLV and a nine-hour drive to UNR. I carry it for those year-round teachers who say those classes start when they are teaching. I carry it for all those teachers who taught years ago, like my mother, who taught in a one-room school house. I can tell you that she and I have registered together to take a class at UNLV this summer. I know that this will make me a better teacher. I don't need people who say this body can tell me not to be taking something else. If anybody thinks this is negative, to carry something that is right for children, then accuse me of being guilty of caring. I will continue to care, and I see nothing wrong with that. I urge your support by defeating Assembly Bill No. 290.

Assemblymen Bache, Hettrick and Ernaut moved the previous question. Motion carried.

Assembly Bill No. 291.

Bill read third time.

Remarks by Assemblymen Harrington, de Braga, Stroth, Tripple, Carpenter, Williams and Tiffany.

Assemblyman Bennett requested that the following remarks be entered in the Journal.

ASSEMBLYMAN HARRINGTON:

Thank you, Mr. Speaker. Assembly Bill No. 291 is also a simple bill. What we are trying to accomplish with this bill allows areas of special needs, especially in rural areas, to be satisfied with people who can satisfy those needs.

In order to accomplish that, if there is an area that is identified by the superintendent of schools who is in need of someone to teach physics, chemistry, math or computers, and finds a person who has that special skill, whether he has a Ph.D. in chemistry, physics or works at the Nevada Test Site, and who has special scientific knowledge, and if that need exists and if that person is willing to take six months or 15 credit hours in educational courses to prepare himself to teach, then they may allow that person to teach that particular course, and no other courses.

If he is a computer expert he can only teach computers. If he is a chemist, he can only teach chemistry. If he is willing to do that, they will allow him a conditional secondary license to that course and only that course. He cannot receive a full license unless he completes all the requirements for a teacher's license. He has to do that within five years and his conditional license is not renewable. He has to do that within the five-year period, and if he does comply with all of that, as with any other teacher who has completed all the other requirements for teaching, he can then apply for a full license and become a full-credential teacher.

During that five-year period, he could only teach that speciality for which they have a special need. This is particularly important in areas where they have trouble getting somebody with special training in chemistry, computers and math in areas in which they are lacking.

As I mentioned on the previous bill, we have 160 teachers in this state who are teaching out of their speciality and who don't have the training. But because there is a critical need, they have been teaching out of their speciality. This is another attempt to allow people with that type of expertise to come in and teach.

A point in case is myself. I am an MD. I teach college level paramedics. I teach doctoral students, people going for their MD, and also, I teach post-doctoral people during their residency. Yet, I would not be allowed to come in and teach a health class in a local high school, even if I took 15 hours worth of educational courses. There are schools that can clearly benefit from bringing in people who are experts in the field, particularly in those science fields that are so critical. I do urge your consideration of this and your vote for passage. It is just another common sense bill, but we will see how much common sense prevails.

ASSEMBLYMAN DE BRAGA:

Thank you, Mr. Speaker. I rise in opposition to this bill. The premise of this bill is that some people who have certain skills, or are experts in their fields, would automatically be good teachers. The assumption is that because they possess advanced knowledge they are capable of imparting that knowledge to others. This is not necessarily the case.

The bill establishes a double standard and provides a short cut to the classroom. Would the citizens of Nevada approve this policy change for doctors, lawyers or other professionals? I think not. Knowledge of a subject does not carry with it any teaching skills. I urge you not to weaken the standards for teachers. The expertise of individuals can be utilized through lectures and through other means or such individuals can fulfill the necessary requirements if they are dedicated to wanting to teach in their subject. Thank you.

ASSEMBLYMAN STROTH:

Thank you, Mr. Speaker. To you and through you to this distinguished body, I rise in support of Assembly Bill No. 291. I believe this bill would allow students to have the added advantage of being exposed to professionals who understand the application of the subject matter they teach. I also believe that any professional today who would want to go into junior or senior high classrooms must have a love for children and for imparting knowledge.

Many professional fields today already entail instruction in the day-to-day workplace, and therefore, are already competent instructors. Personally, I graduated from college with 33 hours of math and 18 hours of education. The educational courses that I took rarely helped me or prepared me for the classroom. Courses like the history of education and philosophy of education did nothing to prepare me for a classroom of junior high math, which included 27 boys and 3 girls.

I was sharing this with my neighbor here, and I said that there was no classroom instruction that could have prepared me to teach 27 boys in the seventh grade. He said that maybe sex education would have helped me.

I believe that those with degrees should be allowed to teach. The requirement is for 15 hours, and if those 15 hours were in methods of teaching their course field, I believe that they would be properly trained and I believe that our students would benefit from being exposed to the professional people who have degrees. Particularly, the fields we are talking about are math and science where those teachers are in short supply. I think it would be an advantage to our students to have contact with these people. I urge your support of Assembly Bill No. 291.

ASSEMBLYMAN TRIPPLE:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 291. I think that you have to realize that there are two points of view. We are talking about secondary education now.

We can argue the egg and chicken all day long. Which comes first, your subject matter depth or your understanding of teaching methods? Now you have to have both. If you are a beginning teacher and you come with your subject matter, or if you are 35 or 40 years old and you are real comfortable with that subject matter, you can give 100 percent of your attention to your students and to the learning process. But if you are young and you just memorized that subject matter, I don't care how many education courses you have, you are grasping for the subject matter, you can hardly see the students in the classroom.

I think that we ought to take advantage of these more mature students who already have their subject matter in hand, and have it so well in hand, that they don't have to worry about it. They can concentrate 100 percent on the learning process. Most people who go into teaching will tell you that the more important course is methods and that is required under this plan. Then they will tell you the next important course is student teaching. If the school is willing to have a mentor system, you can take an experienced teacher and a beginning teacher, and you will have a wonderful match.

I have a Master's Degree and a Doctorate in Education, more education courses than you and I would ever want to see. I think they were good courses, but they came after I had been teaching. I started with my subject matter, and I added the education. I am prejudiced but I think it is a wonderful mix. Thank you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 291. It seems to me that it should be a known factor that we should allow people who have experience and knowledge to teach our children. As I read this bill, one has to have 15 credits in learning

how to teach. It seems to me that we should take advantage of the knowledge and experience that is out there. Our students would be much better off with the knowledge that someone could impart to them.

ASSEMBLYMAN WILLIAMS:

Thank you, Mr. Speaker. I stand in opposition of Assembly Bill No. 291. Both these bills are a contradiction to each other. First, we are going to have a teacher that already has a license. We are going to dictate that they have to do more. Now we are going to tell those without a teacher's license, who have never been in a classroom and who have never been supervised by a supervising teacher or who have never done student teaching, that they can walk right in.

If that is the case, it would be to the advantage of people to go to college and get a degree in one area then walk into a classroom and have two professions at once. If that is the case, the student teachers at UNR/UNLV who are currently taking education classes surely have more than 15 hours. They might as well abort what they are doing and go straight into the classroom. They have three years to make that up. Why can't you do that in other professions? Why can't I walk into the emergency room with my colleague from Assembly District No. 2 and start being a doctor?

We heard last week from my colleague from Assembly District No. 13 who is a paramedic, that all one needs is a high school education, and two years of vocational training to be a paramedic. Why can't he just come to my colleague from Assembly District No. 2 and become a doctor? Why can't people that have 15 hours of paralegal come to my colleague from Assembly District No. 8 and start practicing law? In no other profession are we proposing to do this.

Having knowledge of something doesn't mean you can impart that knowledge on young people who need an education. That is what we are trying to do. Secondly, if we pass this bill, what we are doing is removing the responsibility of student teaching from the universities who are graduating our college students in education and placing them at the local school district level. I can tell you if you go around any school district in any state, at the beginning of the school year with so many things going on, the administrators are extremely busy. By law, they have to do a certain number of evaluations of those teachers in the classrooms. By the time the smoke clears at the beginning of the school year, maybe two months have passed before the principal gets a chance to evaluate.

Now if we let one of those backdoor, off the street teachers come in, who is bad, half the school year will be over before we find out that that bright Harvard graduate Ph.D. in engineering was in a classroom with kids and is having a terrible time. There is no method being administered to those kids to ensure they have an education. That is what we are going to allow them to do. It is very apparent that what we were talking about previously on the other bill, is that we want excellence from our teachers and we want enthusiasm.

I know the Clark County School District has applications stacked up from around the country from people who have credentials to teach that have studied to teach. You are going to let folks come in off the farm and walk right through the door and start teaching, because they have 15 credits to do so. That is what we are doing with Assembly Bill No. 291. If we do this again, we are lowering our standards.

The Commission on Professional Standards in Education is in the process at this particular time of working with 35 other states to create a situation where teachers will have the same basic standards. We will have some similarities and parallels. We've done some funny and strange things in this body before. But this is the "looniest tooniest" thing we will ever do, if we pass this bill. I urge its defeat.

ASSEMBLYMAN TIFFANY:

Thank you, Mr. Speaker. I rise in support of Assembly Bill No. 291. Assembly Bill No. 291 will allow professionals with a minimum of a bachelor's degree to teach at a secondary level of education. This is it, in an area as identified by proven need. These professionals will be required to take a minimum of 15 credits of teaching courses even before setting foot in the classroom.

At this point, they would be required to finish all the other course work within a specific period of time. The State of Nevada currently has, and I didn't count them all, three pages

of teachers now teaching under what we call an "emergency license." If we look at past history and the exception report provided by the State Department of Education over the last decade, we are going to see that this is not unusual, it's more like business as usual.

Assembly Bill No. 291 again, should not be a partisan vote. The same people that voted and approved Assembly Bill No. 290 are the same for Assembly Bill No. 291. Teaching on a provisional or emergency license, in case the teacher doesn't have any common sense background, and knowing there is a teacher shortage, is real and documented, particularly in math, science, bilingual and special education. Our students are going to be involved with these teachers that are not competent enough in their content to teach.

In our competing with other industrialized countries, wouldn't you as a parent say, "Don't we want the best for our kids and the best opportunities for them when we look at global competition out there." Just look around at this body, we aren't from the farm; we aren't from the dregs of society; and yet, I've looked up in our book of how many of us have degrees. There is a majority of us with BA and BS degrees, that could do this if this bill passes as an alternative license.

What are we saying? We don't have anything to contribute? We have to stop turning these people away and shutting them out, who have so much to offer. Now we can take advantage of this resource of available, talented people. If you choose not to utilize these people with special knowledge, we will continue to have fewer teachers teaching math and science and the history teachers will be doing the same.

Here we have these people in our classrooms and we think they are knowledgeable and have the understanding of mathematical science. I think this is real suspect. Someone argued that having professionals in our schools, who gain their experience from some other form, might hurt or endanger our children. The fact is, Nevada is only one out of seven states currently that doesn't have alternative licenses. How many does that mean are hurting and damaging our children around the United States?

If we were to investigate the licensure in our state, the occupational education in business and industry allows the local school districts to hire trade people to teach vocational classes, and they don't have any degree. We have a two-tiered system now. For instance, students taking woodworking can achieve a math credit. A framer that teaches a class that grants credits in math can't have a degree, and he isn't taking any classes. Why can't a professional with a degree in math, with classes in teaching, teach that which grants a credit in math.

The shortage has been identified, and most of the other states in the nation, are utilizing the alternative licensing system very successfully. It's time that we did the same. Please vote positively, vote "Yes" for Assembly Bill No. 291. Thank you.

Amend section 1, page 2, by deleting lines 11 through 27 and inserting:

"*3. In determining the value of an interest in or entitlement to a pension or retirement benefit pursuant to this section to which only one party to the divorce has contributed, the court:*

(a) Shall base its determination upon the number of years or portion thereof that the contributing party was employed and received the interest or entitlement, beginning on the date of the marriage and ending on the date on which a decree of legal separation or divorce is entered; and

(b) Shall not base its determination upon any estimated increase in the value of the interest or entitlement resulting from a promotion, raise or any other efforts made by the party who contributed to the interest or entitlement as a result of his continued employment after the date of a decree of legal separation or divorce.

4. If a pension or retirement plan provides for the payment of pension or retirement benefits directly to a party who is not a participant in the plan,

To ensure that the party who is not a participant will receive payment for the benefits, the court may:

The bond must be in a principal sum equal to the amount of the determined interest of the nonparticipating party in the pension or retirement benefits and must be in a form prescribed by the court.

(b) On its own motion or pursuant to an agreement of the parties, require the participating party to purchase a policy of life insurance. The amount payable under the policy must be equal to the determined interest of the nonparticipating party in the pension or retirement benefits. The nonparticipating party must be named as a beneficiary under the policy and must remain a named beneficiary until the participating party retires.

(c) Pursuant to an agreement of the parties, increase the value of the determined interest of the nonparticipating party in the pension or retirement benefit as compensation for the delay in payment of the benefit to that party.

(d) On its own motion or pursuant to an agreement of the parties, allow the participating party to provide, upon written consent of the nonparticipating party, any other form of security which ensures the payment of the determined interest of the nonparticipating party in the pension or retirement benefit.".

By Assemblymen Dini, Price, Marvel, Humke, Arberry, Lambert, Carpenter, Evans, Freeman, Williams, Anderson, Bache, Giunchigliani, Spitler, Chowning, de Braga, Ernaut, Hettrick, Neighbors, Perkins, Schneider, Segerblom, Tiffany, Krenzer, Allard, Batten, Bennett, Braunlin, Brower, Buckley, Close, Fettic, Goldwater, Harrington, Manendo, Monaghan, Nolan, Ohrenschall, Sandoval, Steel, Stroth and Tripple:

Assembly Resolution No. 14—Commending Pat Hatch, former Supervisor of the Secretarial Staff of the Assembly.

WHEREAS, Patricia "Pat" V. Hatch was born in Longmeadow, Massachusetts, the daughter of Ray and Barbara Vaughn; and

WHEREAS, After graduation from Colby Junior College in New Hampshire, Pat married D. Kent Hatch in Longmeadow, Massachusetts, on August 30, 1951; and

WHEREAS, In 1972, Kent and Pat Hatch moved to Reno where they raised their three daughters, Linda Caufield, Barbara Hatch and Kathy Westmoreland and their son, Larry Hatch; and

WHEREAS, In 1977, the Chief Clerk of the Assembly selected Pat Hatch to be the Supervisor of the Secretarial Staff of the Assembly; and

WHEREAS, Over the years, Pat Hatch proved herself to be one of the most interesting and dedicated supervisors ever known to the Assembly; and

WHEREAS, As a supervisor, Pat Hatch was kind, compassionate and understanding, and held meetings every Friday with her secretaries to discuss any problems which may have occurred during the week; and

WHEREAS, After several years of using the heel of her shoe as a gavel at these meetings, Pat's devoted staff presented her with an official gavel in 1991; and

WHEREAS, Pat Hatch experienced many unusual events while employed by the Nevada Assembly, including the trip to the City of Pahrump where she had to take the minutes in shorthand at a meeting at night without any light after an electrical failure during a storm; and

WHEREAS, During that same trip, strong winds caused tremendous turbulence, but the turbulence felt in the aircraft did not compare to the embarrassment Pat suffered while exiting the airplane when a gust of wind blew her dress over her head, and alas, she had forgotten her slip that morning; and

WHEREAS, In honor of that fateful day, the ingenious and artistic secretaries of the Assembly displayed the famous poster of Marilyn Monroe with Pat's picture covering Marilyn's face; and

WHEREAS, Pat Hatch believed strongly in the virtue of punctuality, but because of the manner in which she sped through Washoe Valley on her daily commute to work, her secretarial staff chipped in and purchased Pat a "fuzz buster"; and

WHEREAS, Those same secretaries also pitched in to surprise Pat and Kent with a trip to Las Vegas to see the Siegfried and Roy show and with a little help from "seamstress" Marcia Warne, provided Pat with provocative evening attire; and

WHEREAS, As the 1995 legislative session nears an end, the friends of Pat Hatch reminisce about the fun, laughter and Friday afternoon potlucks that they shared with Pat over the last nine sessions, and wish Pat much happiness as she continues her career working alongside Kent in their new business; now, therefore, be it

RESOLVED BY THE ASSEMBLY OF THE STATE OF NEVADA, That the members of the 68th session of the Nevada Legislature do hereby commend a most gracious lady for her years of devoted service as the Supervisor of the Secretarial Staff of the Assembly; and be it further

RESOLVED, That Pat Hatch will be missed by many and will long be remembered for her sense of responsibility, her loyalty and her contributions to the Nevada Legislature; and be it further

RESOLVED, That the Chief Clerk of the Assembly prepare and transmit a copy of this resolution to Patricia V. Hatch.

Assemblyman Dini moved the adoption of the resolution.

Remarks by Assemblymen Dini, Evans, Lambert, Carpenter, Humke, Freeman, Price and Marvel.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN DINI:

Yes, Mr. Speaker, members of the Assembly. It has been my privilege to know this lady since 1977, when I served my first term as Speaker, and Mrs. Landing selected her to be the supervisor of the secretarial pool. The things that you have heard in the resolution are absolutely true.

The brightest thing when you came in this building every morning was seeing Pat, as she was here before we ever were. She always had a big smile and always laughed a little bit and she kept us all going strong. She had the respect of all of the secretaries whom she had working for her in those years. She must have had many hundreds of different secretaries come and serve all of those sessions and everyone always left with a good feeling, because Pat knew how to take care of her help.

She was hard to replace, although this year we were very fortunate to find a lady to step in with some of the same character. I have many fond memories of my association with Pat. She was a very devoted employee. She was always on the high side. She helped hire good employees, and she kept them informed throughout the session. Pat worked with just about everyone here, including most of the members of the Assembly. We want to congratulate her on her retirement and we hope she is doing well. She looks great, and we want to wish her many years of happiness.

ASSEMBLYMAN EVANS:

Thank you, Mr. Speaker. I rise in support of Assembly Resolution No. 14. I recall in my early years in the Assembly, that the secretarial pool was truly a secretarial pool. There was one big room in the back of the building. We didn't have the little offices that we have now on the third floor, so if you needed something you trotted down the hall and you found Pat and she miraculously took care of all of your secretarial or clerical needs.

There has been quite a change since those times and people don't realize what progress has been made on the third floor. Somehow it all worked, and it worked largely because Pat made it work. I would like to say that, indeed, the information is correct in the resolution. The reference to Pat and the turbulence and the wind and her dress happened in the 1991 session. She was so kind. That was the trip to Pahrump that Marci was suppose to make. Marci was with me during that session, and due to illness she could not go, so Pat went and seemed to have made the ultimate sacrifice.

Finally, Mr. Speaker, I am here to give testimony about Pat's heavy foot. I am a commuter going through Washoe Valley. I cannot tell you the number of days that she just whizzed right past me. That is how she always got here before the rest of us, she was jet-propelled. We miss you, Pat, and those of us who worked with you, you will always have a special place in our hearts. Thank you so much for all that you have done for us.

ASSEMBLYMAN LAMBERT:

Thank you, Mr. Speaker. I rise in support of this resolution. Pat Hatch is truly a wonderful person. I remember when I was a freshman here, she sort of figuratively held my hand and made sure that my letters got typed, copies got made and she pointed me in the right direction. Pat was very, very helpful.

I have to confirm the previous speaker's remarks about having Pat wave and smile as she flew by me on the way to work. If I stayed late enough, sometimes she waved and smiled as she flew by the other way going home! It is wonderful to see Pat here today. I hope that she is enjoying her retirement. We miss you.

ASSEMBLYMAN CARPENTER:

Thank you, Mr. Speaker. I rise in support of Assembly Resolution No. 14. Pat is one of the few people in this world who can read my handwriting. That meant a lot to me during the first couple of sessions that I was here, because I was really wondering how I was going to get those letters written with nobody able to read it. Pat was very able. She is really a great person and I hope that she enjoys her retirement.

ASSEMBLYMAN HUMKE:

Thank you, Mr. Speaker. I rise also in support of Assembly Resolution No. 14 which honors Pat Hatch. I had the great opportunity of knowing her daughter, Linda, and can agree with all the comments that have been made so far.

I especially recall the area of the building which currently are the offices where my co-chair and I are housed. That was a great hall, the secretarial pool. That was back in the days when assemblymen and women were real assemblymen and women. They didn't have all of this staff to fawn over them. They had the secretarial pool and you had to figure out things yourself.

The comment that I wanted to make was that Pat always ruled with a velvet gavel. She had complete control with everyone in that secretarial pool. The work got out in a very timely fashion and everyone liked her. Pat did a great job. To this day, everyone loves you. Congratulations.

ASSEMBLYMAN FREEMAN:

Thank you, Mr. Speaker. I also rise in support of Assembly Resolution No. 14. Two of my classmates, Mr. Carpenter and Mrs. Evans, already spoke to the days eons ago when we did not have any secretarial staff other than the pool. It was wonderful to be there. Pat was always at the door waiting for us. We had our stationery on a book shelf; we didn't keep it in our office, it was down there. She always got our work done for us. Pat, I hope you have a wonderful retirement.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. To you and through you, I also rise in support of Assembly Resolution No. 14. I, too, like Mr. Speaker met Pat in 1977. Back in those days, before we had offices, we all worked out of our desks and Pat and her lovely crew would always be down helping us whenever we needed anything. She was just a joy. I learned to work with her very well. When she told me something to do, I would do it. I have to say every time that I see that famous Marilyn photo, I think of Pat. That was an exciting event in that year's legislative session.

In all seriousness, she is certainly a dear, a wonderful part of our extended family. I'm so happy that we are honoring her as she well deserves today. We are happy that you are here with us today.

I also wanted to say that I never actually saw Pat driving back and forth, I only heard about it. I named my fuzz-buster after Pat. I call it my "Pat Hatch memorial fuzz-buster," and it sits right on the front of my car.

ASSEMBLYMAN MARVEL:

Thank you, Mr. Speaker. I, too, rise in support of Assembly Resolution No. 14. When we were first starting here in 1979, Pat seemed like she was part of the institution and not having her around this year does create a void. We get so used to seeing people that have been so helpful to us, and of course, seeing that charming smile all the time. I don't think that I have ever seen her frown. Pat, we wish you well in your retirement. You are missed.

Assemblyman Ernaut requested that the following remarks be entered in the Journal.

ASSEMBLYMAN STROTH:

Thank you, Mr. Speaker. Current status required at the county treasurer's office is to notify and publish the names of delinquent taxpayers in the newspaper once a week for four consecutive weeks.

Many times the window between the notification and publication is not sufficient to allow the taxpayer time to respond. If the taxpayer is delinquent by oversight, or as in the case of an error in an escrow account through no fault of his own and pays his taxes, there is no mechanism to remove his name from subsequent publications of the delinquent list.

Senate Bill No. 309 will expand the window by several weeks and allow the treasurer to mail a notice of delinquency by first class mail to the delinquent taxpayer, and it requires the delinquent list to be published only once in the newspaper.

ASSEMBLYMAN PRICE:

Thank you, Mr. Speaker. This is one of those excellent bills passed out of taxation, but it did have folks on both sides of the issue. I am rising to speak in opposition to Senate Bill No. 309, although I did vote to have it be placed before this body.

The publications of delinquent taxes is something we started many years ago and in my perspective it has worked well. I have to say, that I always rush to buy the paper when they come out to see if my name is there, and it has been, along with some of my colleagues. It can embarrass you momentarily, but I do think that it is a public service. I will tell you something else and it is probably not a real good argument for this bill, but it certainly does help some of our newspapers around the state, mostly the smaller newspapers.

This requirement that we have is an important part of the economy to our rural areas. We had quite a bit of discussion on this. One of the things that I want to make clear, for the public record and legislative intent, was that there was some discussion as to whether or not the delinquent tax list would be public information. It definitely will be public information at all times. That has always been the legislative intent, to my knowledge, and will remain so.

I will be voting against this, because I think it will be hurting, not only public taxes, but the economy in some of our small areas. Thank you, Mr. Speaker.

(c) Defray further with the proceeds of any such tax the costs of the Board and of officers, agents and employees hired thereby, and of incidentals incurred thereby, of operating and maintaining facilities under the jurisdiction of the Board, including , without limitation , the payment of reasonable expenses pertaining to the promotion of tourism generally, individually and through grants to the chambers of commerce of the incorporated cities of the county or other nonprofit groups or associations, and of improving, extending and bettering any facilities authorized by this act, including , but not limited to , making annual grants to the state, the county and incorporated cities in the county for capital improvements for facilities and of constructing, purchasing or otherwise acquiring any such facilities.

(d) Redeem any general obligation bonds of the Authority issued pursuant to this act, including principal, interest and any prior redemption premium, regardless of whether such taxes are pledged as additional security for their payment.

(e) Make contracts from time to time concerning any such taxes and any such contract may limit the exercise of powers pertaining thereto, including , without limitation , the right of any city, town or the county from time to time to increase, decrease or otherwise modify the tax , [;] but no such change may be made which would prejudicially affect any pledge of tax proceeds as additional security for the payment of bonds issued pursuant to this act, and each other political subdivision assigning or appropriating such taxes pertaining thereto must consent to any such modification.

(f) Make rules and regulations concerning such taxes and provide penalties for the failure to comply therewith.

(g) Pledge the proceeds of such taxes for the payment of any general obligations issued by the Authority for a purpose authorized under this Act. Any proceeds that are pledged pursuant to this paragraph constitute pledged revenues for the purposes of subsection 3 of NRS 350.020.

2. All taxes levied by a city, town or county for use in connection with this act, and collected by any motel, hotel or gaming establishment, is public money from the moment of its collection, and [shall] *must* be held in trust by the person collecting it for the use and benefit of the city, town or county levying such taxes or for the use of the Board where such revenues have been assigned or appropriated to the Board.

3. If the Board determines that any tax assigned to it, or penalty or interest thereon, has been paid more than once or has been erroneously or illegally collected or computed, the Board shall, subject to the conditions specified in this section, refund to the person or corporation

or its successors, administrators, executors or assigns, the excess amount collected or paid. In lieu of a refund, the Board may grant a credit to the taxpayer against future tax payments.

4. A refund or credit may not be allowed unless a claim therefor is filed with the Board within 2 years from the last date that the overpayment was made. Every claim must be in writing and state the specific grounds upon which the claim is founded.

5. Failure to file a claim within the time prescribed constitutes a waiver of any demand against the city or county imposing the tax and against the Board.

6. Within 30 days after disallowing any claim, in whole or in part, the Board shall serve written notice of its action on the claimant.

7. In order to insure the payment of the revenue or general obligation bonds of the Authority, the payment of which is secured or is additionally secured, as the case may be, by a pledge of the revenues of the facilities, or of any other income-producing project and of any taxes, as provided in this act, or of other special obligations so secured or other additionally secured general obligations of the Authority, the Board may establish and maintain, and from time to time revise, a schedule of fees, rates and charges for services, facilities and commodities rendered by or through the facilities, and of any other income-producing project, and a schedule of any taxes, as the case may be, in an amount sufficient for that purpose, and also sufficient to discharge any covenant in the proceedings of the Board authorizing the issuance of any bonds or other securities, including any covenant for the establishment of reasonable reserve funds.

Amend the bill as a whole by renumbering sections 4 through 6 as sections 7 through 9 and adding new sections designated as sections 5 and 6, following sec. 3, to read as follows:

"Sec. 5. *1. A local government in a county whose population is 100,000 or more shall establish a fund for the extraordinary maintenance, repair or improvement of capital projects. The local government shall establish within that fund a separate account for each capital project it undertakes, except a capital project for the construction of public roads or a capital project for the control of floods. The local government shall allocate an amount equal to one-half of 1 percent of the total amount of the bonds sold for each capital project and deposit that amount in the separate account established for that capital project. The proceeds from the sale of those bonds or any other money of the local government may be used to carry out the provisions of this subsection.*

2. Any interest and income earned on the money in an account within the fund in excess of any amount which is reserved for rebate payments to the Federal Government pursuant to 26 U.S.C. § 148, as amended, or is otherwise required to be applied in a specific manner by the Internal Revenue Code of 1986, as amended, must be credited to that account.

3. The money in each account within the fund may be used only for the extraordinary maintenance, repair or improvement of the capital project or a facility which replaces that capital project. The money in each account within the fund at the end of the fiscal year may not revert to any other fund or be a surplus for any purpose other than the purpose specified in this subsection. If the local government sells any capital project for which an account within the fund was established, any balance remaining in that account must be used to reduce the debt of the local government.

4. The annual budget and audit report of the local government prepared pursuant to NRS 354.624 must specifically identify:

(a) Each fund and every account within that fund established pursuant to this section and indicate in detail any extraordinary maintenance, repairs or improvements of the capital project that have been paid for with money from the fund; and

(b) Any planned accumulation of money in each fund and every account within the fund.

The audit report must include a statement by the auditor whether the local government has complied with the provisions of this subsection.

Sec. 6. *1. A local government in a county whose population is less than 100,000 may establish a fund for the extraordinary maintenance, repair or improvement of capital projects. If the local government establishes such a fund, the local government must establish within that fund a separate account for each capital project it undertakes, except a capital project for the construction of public roads or a capital project for the control of floods.*
