Mr. Speaker:

We, your Committee on Elections, beg leave to submit the following report:

At 10:20 a. m. Saturday, January 24, a meeting of the committee was held at the State Building in Reno for the purpose of hearing evidence in the contest case of Carroll v. Hamlin.

Mr. Carroll was present and was represented by Mr. Charles Richards as his attorney.

Mr. Hamlin appeared for himself and was not represented by an attorney.

The papers delivered to the Assembly by the Secretary of State were opened and read aloud to the committee. Both the contestant and the defendant were sworn and examined by various members of the committee and each other.

After hearing all the evidence, we have concluded that the county officials of Mineral County in granting Marshall C. Hamlin his certificate to a seat in the Nevada Assembly were not in error.

From some of the facts presented in evidence it might appear that Marshall C. Hamlin, after being absent for considerable time from the State, returned for the purpose of running for office, but sufficient evidence was offered to establish that such was not the case.

The contestant failed to produce evidence to prove Marshall C. Hamlin has lost his residence in Mineral County, Nevada, and no evidence was presented to prove he has acquired a domicile elsewhere.

In view of the facts presented to us, we recommend that Marshall C. Hamlin retain his seat as Assemblyman from Mineral County.

JAS. L. FINNEY, *Chairman*,

MESSAGES FROM THE GOVERNOR

STATE OF NEVADA,
EXECUTIVE CHAMBER,
CARSON CITY, February 19, 1931.

To the Honorable, the Senate and the Assembly:

In compliance with chapter 45, of the laws of 1919, I respectfully submit the Executive Budget of State Expenditures and Revenues for the period commencing July 1, 1931, and ending June 30, 1933, together with a plan of State finances for the same period beginning July 1, 1931.

On page 38 of the printed budget there appears the appropriations recommended for the period January 1 to June 30, 1931, at which time the State will begin operating upon a fiscal year basis. This statement of appropriations is made necessary by the constitutional amendment adopted at the recent general election providing that "The fiscal year shall commence on the first day of July of each year." It has not been deemed necessary to submit a statement showing the estimated income and the appropriations requested for the ensuing six months.

However, your attention is invited to the amounts recommended to be appropriated for the executive, supervision and deaf, dumb, and blind departments of the Department of Education, which were reported to this office for a three months' period only, and so appear in the Executive Budget on page 38.

The amounts, respectively, recommended therein for these three items should be increased by 100%, viz: For the executive, \$4,475; for deaf, dumb, and blind, \$3,250; and for supervision, \$10,950, and which several amounts are given in the appropriation bill recommended to be passed to cover the period from January 1 to June 30, 1931.

A graphic chart of the statements indicated composing the budgets are here-with presented.

These budgets provide for the carrying forward of appropriate balances, and the utilization of any balances remaining on hand at the beginning of the respective terms.

I trust they may prove of value to you.

Respectfully yours,

F. B. BALZAR,
Governor.

HOUSE IN SESSION

At 11:38 a. m.

Mr. Speaker in the chair.

Quorum present.

Without objection Assembly under Order of Business No. 11.

SECOND READING AND REFERENCE OF BILLS

Assembly Substitute for Assembly Bill No. 129.

Mr. Mulcahy objected to reference of the substitute bill to committee on the ground that Assembly Bill No. 129 was up for third reading and the substitute under Rule 13, page 43, would be deemed and held to be an amendment, and since it has been adopted by the Assembly would take the place of Assembly Bill No. 129.

Mr. Speaker stated that the substitute bill has been read but once and must follow in all respects other bills, and should be read second time and referred. Any rule made by this Assembly does not do away with the constitutional requisite that it shall be read three distinct times, and there is no emergency whereby the constitutional requirements should not be followed and the bill should be read second time and referred to Committee.

Bill read second time and upon motion of Mr. Pearce referred to the Committee on Elections.

Without objection Assembly returned to Order of Business No. 10.

Section 3. Within thirty days after the passage and approval of this Act it shall be the duty of the Governor to appoint a State board consisting of five members, which shall be known as the State Real Estate Board of the State of Nevada, hereinafter called the board. The vocation of each member appointed must have been for a period of at least five years prior to the date of his appointment that of a real estate broker or a real estate salesman. One member shall be appointed for a term of one year; one member shall be appointed for a term of two years; one member for a term of three years, and until their successors are appointed and qualify; thereafter the term of the members of said board shall be for three years and until their successors are appointed and qualify. MESSAGE FROM THE GOVERNOR

To the Honorable the Assembly:

There is returned herewith, without my approval, Assembly Bill No. 74, an Act entitled "An Act providing for the erection of a memorial at the grave of the Honorable J. Poujade, making an appropriation therefore, and other matters relating thereto."

It is with regret that I find myself compelled to veto this Act for the reason that former Lieutenant Governor Poujade is interred in Elks Plot in Mountain View Cemetery, at Reno, Nevada, wherein perpetual care is provided for the graves of all who are laid to rest therein, and the rules of the Cemetery Association provide that graves of deceased members shall be marked by flat markers only, and the erection of other memorials is prohibited.

While it was a laudable act to provide for the erection of a memorial to the

memory of one of Nevada's distinguished citizens, yet, under the circumstances, it would be an impossibility for the Attorney-General, who is named in the Act, to provide for the purchase, inscription and erection of such memorial to comply with the terms thereof.

Respectfully submitted,

F. B. BALZAR,
Governor.

Mr. FitzGerald moved that the vetoed bill be made a special order of business for March 12, at 2 p. m.

SECTION 1. Section 29 of Chapter II of the above-entitled Act is hereby amended to read as follows:

Section 29. The municipal court shall be presided over by a municipal judge who shall be a citizen of the State and resident of the said city for not less than one year and who shall be a qualified elector of said city. The municipal

court shall have such powers and jurisdiction in the city as are now provided by law for Justice of the Peace wherein any person or persons are charged with a breach of violation of the provisions of any ordinance of said city or of this Act, or of a violation of a municipal nature and the said court shall have concurrent jurisdiction with the Justice of the Peace in both civil and criminal matters arising and triable within the limits of said city and be governed by the same rules and receive the same fees as are now, or may be, provided by law; *provided*, that the trial and proceedings in such cases shall be summary and without a jury. The said court shall have jurisdiction to hear, try, and determine all cases, whether civil or criminal, for the breach or violation of any city ordinance or any provision of the charter of a police nature, and shall hear, try, determine, acquit, convict, commit, fine or hold to bail in accordance with the provisions of such ordinances or of this charter. The practice and proceedings of said court shall conform, as nearly as practicable, to the practice and proceedings of the justice courts in similar cases. Fines imposed by the court may be recovered by execution against the property of the defendant, or the payment thereof enforced by imprisonment in the city jail of said city, at the rate of one day for every two dollars of such fine, or said court may, in its discretion, adjudge and enter upon the docket a supplemental order that such offender shall work on the streets or public works of said city, at a rate of two dollars for each day of the sentence, which shall apply on such fine until the same shall be exhausted or otherwise satisfied.

Said court shall have jurisdiction of any action for the collection of taxes or assessments levied for city purposes when the principal sum thereof does not exceed three hundred dollars; also actions to foreclose liens in the name of the city for the nonpayment of such taxes or assessments where the principal sum claimed does not exceed three hundred dollars; also, of any action for the collection of any money payable to the city from any person when the principal sum claimed does not exceed three hundred dollars; also, for the breach of any bond given by any officer or person to or for the use or benefit of the city, and any action for damage in which the city is a party, and upon all forfeited recognizances given to or for the use or benefit of the city, and upon all appeal bonds given on appeals from said court in any of the cases above named, when the principal sum claimed does not exceed three hundred dollars; also, for the recovery of personal property belonging to the city when the value thereof does not exceed three hundred dollars; *provided*, that nothing herein shall be so construed as to give such court jurisdiction to determine any such cause when it shall be made to appear by the pleading or the verified answer that the validity of any tax, assessment or levy shall necessarily be in issue in such cause, in which case the court shall certify such cause to the District Court in like manner and with the same effect as provided for by law for certification of causes by justice courts.

The said court shall have jurisdiction of the following offenses committed within the city which either violate the peace and good order of the city or the peace and quietude of an individual or individuals, or which invade any of the police powers of the city, or endanger the health of the inhabitants thereof, such as breaches of the peace, drunkenness, intoxication, fighting, quarreling, dog fights, cock fights, routs, riots, affrays, violent injury to property, malicious mischief, vagrancy, indecent conduct, lewd or lascivious cohabitation or behavior, and all disorderly, offensive or opprobrious conduct and all offenses under ordinances of the city.

The court shall have power to issue all warrants, writs and process necessary to a complete and effective exercise of the powers and jurisdiction of said court, and may punish for contempt in like manner and with the same effect as is provided by the general law for Justice of the Peace.

The Municipal Judge shall keep a docket in which shall be entered all official business in like manner as in justice courts. He shall render monthly or oftener, as the commissioners may require, an exact and detailed statement in writing, under oath, of the business done and of all fines collected, as well as imposed and uncollected, since his last report, and shall at the same time render

and pay unto the City Clerk all fines collected and moneys received on behalf of the city since his last report.

In all cases in which the Municipal Judge shall by reason of being a party, or being interested, or related to either defendant or plaintiff, or complaining witness, as the case may be, by consanguinity or affinity within the third degree, or in case of his sickness, absence or inability to act, any Justice of the Peace of said county, or any person who is a citizen of the State and a qualified voter and resident of the said city for not less than one year, on the written request of the Mayor, may act in the place and stead of such Municipal Judge, and the Commissioners shall have the power to apportion ratably the salary or compensation of such Municipal Judge to such person so serving, and deduct the sum so apportioned from the salary of such Municipal Judge.

Appeals to the District Court may be taken from any final judgment of said municipal court, in the same manner and with the same effect as in cases of appeal from justice courts in civil or criminal cases, as the case may be.

To the Honorable MORLEY A. GRISWOLD, President of the Senate, and the Honorable DOUG. H. TANDY, Speaker of the Assembly, and Senators and Assemblymen of the Thirty-fifth Session of the Legislature of the State of Nevada:

We, your Committee appointed to investigate conditions at the Nevada Industrial School near Elko, in Elko County, beg to report as follows:

We communicated with the States of California and Utah in regard to reaching an agreement whereby they could take over our boys, thereby saving our State the expense of keeping an institution here. We were informed they could not do this as their institutions were crowded.

The Nevada Industrial School buildings are in good condition with a few exceptions; the boys are well disciplined, well cared for, and are contented. A great deal of praise is due Mr. Morse for his way of handling them. They all respect him.

The water supply is inadequate. At times it is necessary to haul water from the town of Elko. We recommend that a well be drilled, equipped with a new pump and pipe line to a 7,500 gallon storage tank, which we recommend be placed on the hill, approximately 100 feet higher than the buildings. This will insure an adequate supply of water for domestic purposes and also for fire protection. The well complete with casings, pump and motor installed, storage tank, and three-inch pipe line from the well to storage tank, also return line to the main building, will cost approximately \$4,500.

We have before us an engineer's report on this and recommend that contract for this work be let to J. P. Pennington, under supervision of the Nevada Industrial School Board.

We further recommend an additional appropriation of \$2,000.

For new plumbing for the main building, the present system being in bad condition, we recommend this be done by local contractors.

T. T. FAIRCHILD,
A. J. PROCTOR,
THOMAS DOLF,

GEO. G. HUSSMAN,
A. C. FROHLICH,
C. L. NOBLE.

Mr. Hussman moved that the report be printed.

Carried.

SPECIAL ORDER

Special order on report of the Industrial Commission Investigating Committee.

REPORT OF INVESTIGATING COMMITTEE OF NEVADA
INDUSTRIAL COMMISSION

To the HONORABLE MORLEY A. GRISWOLD, President of the Senate, and the HONORABLE DOUG H. TANDY, Speaker of the Assembly, and Senators and Assemblymen of the Thirty-fifth Session of the Legislature of the State of Nevada.

Pursuant to Assembly Concurrent Resolution No. 4 we, the undersigned, your committee appointed, have investigated the office and affairs of the Nevada Industrial Commission. We employed Mrs. Dora Thompson as stenographer, so that the record of our proceedings might be perpetuated, and held hearings and heard witnesses who seemed to have grievances against the Nevada Industrial Commission and who seemed to have any information bearing upon the matter comprehended by the terms of the resolution instituting such investigation. We could not hear, however, those witnesses whose cases are pending before courts of jurisdiction. Your committee discussed the records in these cases and, while it could not render decisions, respectfully submits its findings, with due regard to all the evidence heard, and the unheard cases studied, in this respect as follows:

1. We examined the books and records and method of office procedure of the Nevada Industrial Commission and found them to be in first-class condition and thoroughly and excellently handled.

2. While it would avoid some duplication of work if the Nevada Industrial Commission could clear its disbursements through a bank rather than through the State Treasurer, as done at present, nevertheless the Nevada Industrial Insurance Act makes the State Treasurer custodian of the State Insurance Funds, and we deem it best that it be left that way.

3. There has been criticism directed against the apparent deficit existing in the mining funds. While a deficit appears in Class 1, mining, the mining class is made up of three groups. (See table, page 24, Biennial Report of the Nevada Industrial Commission for the period July 1, 1928, to June 30, 1930.) Ore reduction is a part of the mining group (the mining companies owning the mills), also the Nevada Consolidated Copper Company, so that the actual condition of the total mining group as given in the next to the last column in the above table shows a credit balance of \$33,992.80. The largest actual deficit in the funds is that of the State and County Fund showing a deficit of \$34,158.47.

Rates are based on the experience in each class of the various groups so that on and after April 1, 1931, rates will be adjusted so as to make up deficits in each class.

For instance, mining will be raised to \$5.10 per \$100 of payroll, and ranching will be increased slightly to \$2 per \$100 of payroll. The State and county rate must also be raised to make up the deficit in that class. Rates are based solely on the experience of each class of a group so that one class does not contribute its premiums to the losses of another.

The statutory or catastrophe reserve fund of \$100,000 was created prior to 1920 by setting aside 10% of the premiums. The mining industry contributed \$82,856.77 of the \$100,000 in the fund, so has a large equity in the reserve fund. Ranching came under the provisions of the Industrial Insurance Act after 1919, and did not contribute to the Statutory Reserve Fund. The whole matter is more clearly set forth by an excerpt from the testimony:

By Mr. Sullivan: In reply, Mr. Dixon, to your request for more knowledge concerning the mining rate, so far as the mining rates are concerned, the mining rate after April 1 will be increased 20%; the farming rate about 11%, and many other of the smaller operations will be increased. We have not decided just what—various increases—most of the schedules will have an increase. The general impression that the other contributors are taking care of the miners is so absurd that I have prepared a few figures here:

**SUMMARY OF CONTRIBUTIONS TO AND CONDITION OF THE
STATE INSURANCE FUND AS SHOWN BY OUR REPORT OF
JUNE 30, 1930**

**A COMPARISON OF THE MINING INDUSTRY WITH THAT OF ALL
OTHER CONTRIBUTIONS**

Page 24	Total	Contributed by Mining Industry	By All Other Classes
Catastrophe reserve	\$100,000.00	\$82,856.77	\$17,143.23
Net surplus	126,451.94	33,992.80	92,459.14
Total net surplus and catastrophe reserve	\$226,451.94	\$116,849.57	\$109,602.37
Page 44			
Reserve for pensions.....	829,142.02	648,402.08	180,739.94
Reserve for pending claims.....	198,888.15	128,623.90	70,264.25
Total surplus and reserves.....	\$1,254,482.11	\$893,875.55	\$360,606.56
<i>July 1, 1913—June 30, 1930</i>			
Page 24			
Total net premiums received....	\$5,265,208.20	\$3,976,493.80	\$1,288,714.40
Total compensation cost.....	\$5,052,137.77	\$3,875,728.70	\$1,176,405.07

Almost four million of that came from the mining industry, and the contributions from other classes are so small that they could not cover any mining deficit. We have \$100,000 of a catastrophe reserve that was accumulated prior to 1920 by setting aside 10% of our premiums. Of that \$100,000, \$82,856.77 was contributed by the mining companies; \$17,143.23 was contributed by all other classes, so you see 82% was contributed by the mining companies. That \$100,000—they still have that equity in a catastrophe reserve.

Our net surplus is \$126,451.94, of which only \$35,992.80 belongs to the mining class. The other classes have a bigger surplus. They have \$92,459.14—that is the reason that we are making the raise in the mining to be safe.

Now then, we have set aside for the payment of pensions \$829,142.02. The mining equity in that is \$648,402.08; and all other classes have an equity of \$180,739.94, and we have reserved for current claims like those claimants we have in the hospital when this was made up that amounts to \$198,888.15, of which the mining companies have an equity of \$128,623.90; and all other classes have \$70,264.25, so it should be clearly understood that the smaller contributors could not possibly carry a mining deficit. A mine deficit in the past may differ as much as \$40,000 in three months. An experience of that kind would ruin all other classes put together. They could not stand it. I believe what you have in mind, Mr. Dixon, is that the smaller mining companies are paying a higher rate than the larger companies.

By Mr. Dixon: A suggestion was made along that line. I didn't know about it.

By Senator Cole: In insurance the risk always enters in and the experience is that in a small operation there is more risk and more danger, and that a small operator is really benefited by having a large contributor to the fund in the background than it would be if you segregated each small contributor and fixed his rate according to his own experience.

By Mr. Sullivan: The Nevada Consolidated Mining Company contributes only to the compensation fund. And their rate has always been the same as all other mining companies. The Nevada Consolidated spends more money for medical attention than any other mining contributor in the State.

By Senator Cole: One of the great dangers is, I believe, that the smaller operators could increase the rate to such an extent that the Nevada Consolidated would rather withdraw and carry their own insurance.

4. With regard to the carrying of Boulder or Hoover Dam insurance by the

Nevada Industrial Commission, the matter is best set out by the testimony as follows:

By Mr. Metcalf: Q. In case the Nevada Industrial Commission handles the industrial insurance for the labor in connection with the Boulder Dam, would there be any possibility under the procedure of your Commission that the ranching group would be subjected to the risk of higher premiums to meet any possible deficit in the Boulder Canyon deficits, if any?

A. No, I don't think there is any possibility of Boulder Dam operation increasing the rate of farmers.

By Mr. Black: Q. In what class will Boulder Dam be placed?

A. In Class 7.

By Mr. Cole: Q. You have made a special set of rates for the hazardous work down there?

A. Yes.

By Mr. Metcalf: Q. If you followed your present procedure of using the premiums for the subdivisions in Class 7 interchangeably and you did include the Boulder Dam project in Class 7, and it showed a deficit, the ranching industry would be subject to increased premiums to help meet that deficit, would it not?

A. If we write the Boulder Dam workmen's compensation we will protect the fund by reinsurance, making any loss to the farmers or other industries impossible.

By Mr. Hussman: Q. In the event of a disaster, in case that ten people were killed, what effect would it have on the Commission?

A. We would expect to reinsure that risk.

Q. And the payment would not be made at once—they would be strung out from time to time?

A. Yes.

By Mr. Cole: Q. What effect would handling this Boulder insurance have on your funds as a whole. Please explain just how it would affect them?

A. We hope and expect the premiums from that section to keep up our volume of business, and if it does not, our fund must naturally be reduced. For instance, we sold \$50,000 worth of bonds here yesterday in order to meet the demand from accidents that happened within the last year, and for which the current receipts are now insufficient.

By Senator Molini: Q. If you take the Boulder Dam risk and have a high rate of premium and reinsurance, what objection would there be to having separate class for that project?

A. We would have a separate sub-class showing exclusively the experience of that particular undertaking.

By Senator Molini: Q. In placing the Boulder Dam in Class 7, if some accident would happen down there to wreck the whole thing, all these different classes here or groups that you have in Class 7 would perhaps be wrecked with them?

A. We don't expect to have any wreck. We have a catastrophe fund of \$100,000 that was provided from the revenues prior to 1920, and we expect if we write the Boulder Dam to reinsure that.

By Mr. Black: Q. In presenting the rate to the Boulder Dam people have you considered the cost of reinsurance?

A. Yes.

By Senator Getchell: Q. In assuming that there was not only one bad accident but several on a job of that kind, what would happen?

A. In the first place, if any contractor down there had a bad experience, we would immediately increase the rates, and as I say, would provide protection for any hazardous accident that would cost over \$20,000.

By Mr. Black: Q. Anything over \$20,000 is to be protected by your reinsurance?

A. Yes.

By Senator Cole: Q. Then the cost of that reinsurance is to be charged in the rate to the contractor?

A. Yes.

By Mr. Hussman: Q. Do you know whether or not the contractors themselves will have inspectors to enforce safety regulations on the work?

A. The Government has provisions in their contract for enforcing safety regulations.

By Senator Getchell: Q. There is one bad feature as I see it—part will be on the Nevada side and part on the Arizona side. Would there not be complications providing the worker did live on the Nevada side, but on that particular day or when he was injured, was working just across the middle of the channel on the Arizona side?

A. The laws of both States provide that if a man is hired within a State, and goes outside the State to do some particular work he is covered in the State in which he is hired. Both these States cover that.

5. With respect to the question of the Attorney-General serving as counsel for the Commission we call attention to the fact that former Attorneys-General have ruled that the present law does not specifically provide that the Attorney-General shall act as attorney for the Commission. If it is the will of the Legislature that this shall be done, the law should be made more specific on that point.

6. Your Committee feels that persons aggrieved by the Commission should have the right to have their cases reviewed by a court of jurisdiction, submitting for review by the court the same evidence, and solely the same evidence, that has been previously submitted to the Commission. We would recommend embodying in the Nevada Industrial Insurance Act provisions similar to those contained in section 67 relating to appeal to courts of the Workmen's Compensation Insurance and Safety Laws of the State of California; and further providing that the attorneys' fees be a lien upon the compensation to be paid the claimant, if he desires to have his case reviewed by a court; the Industrial Commission to have the right to set the attorney fees in cases before it, and the court to set the attorney fees in cases before the court.

Evidence in testimony before your Committee shows that in all cases under review where an attorney handled the cases an exorbitant fee was agreed upon with the complaint, sometimes as high as a 50-50 split. Your Committee cannot see how any aggrieved person could be benefited by taking their case to court under such an arrangement.

Your Committee found in all the cases under review that the Industrial Commission was fully justified in its procedure in them, and also that it has acted in all instances in absolute fairness, often stretching points to insure that justice would be done. Your Committee has also heard evidence to show that seemingly aggrieved persons have attempted to defraud the Commission.

In conclusion, your Committee found that affairs of the Nevada Industrial Commission, both financial and otherwise, are in excellent condition. The Industrial Insurance Fund, whose sole function is for the payment of compensation to injured workmen, we find to have been administered in an efficient, fair and honest manner.

Respectfully submitted,

N. H. GETCHELL,
Chairman.
