The Sergeant-at-Arms informed the President of the Senate that the Justices of the Supreme Court were at the bar.

The appointed committee escorted the Justices of the Supreme Court to their chairs.

The President of the Senate welcomed the Governor, and asked him to read his message.

The Governor delivered his message as follows:

To the Honorable, the Senate and Assembly:

Although I fully realize the many problems that now confront the State of Nevada, I deem it a pleasure and a privilege to appear before you today on this important occasion to communicate to you in person some of my ideas and recommendations, looking to improved government. It is my earnest belief that this will be a history-making session and that you have an opportunity to enact legislation that will serve as a basis for the future progress and development of Nevada.

Since the last Legislature adjourned two years ago a gigantic world war has ended and thousands of our young men and women have returned to their homes in Nevada to seek their proper place in civilian life. With the termination of war, many new and intricate problems have arisen—some of them almost insurmountable—to command the attention of all who are interested in good, responsible government.

With the convening of the forty-third session of the Legislature, attention is focused upon this illustrious body as a means of finding solutions to the multiple problems that must be solved if the great State of Nevada is to continue to function in a manner commensurate with responsibilities to its citizens and to its institutions.

Prior to the end of World War II our State Government was not confronted with any major problems for which solutions could not be readily found. But today the situation is entirely different. You, as Legislators, and I, as your Governor, must face the stern facts with cool and sincere determination to do our utmost, under trying circumstances, to cope with existing conditions in order that we may truly meet our obligations to the State.

Why, you may ask, have all of these problems suddenly appeared? The primary reason is because of the effects of war.

As an aftermath of war, many maladjustments in our financial and social structure have occurred, with the result that wages and prices engaged in a leap-frog race that has greatly reduced the buying power of the dollar. With the cost of living boosted to appalling heights, under-paid State employees of the various agencies find their shrunken finances insufficient. While some readjustments have been made, more of necessity will follow.

In order to meet increased costs of various types, practically every State office and agency has greatly increased its budget demands, in the hope that someway, somehow, the Legislature will raise the required funds.

I think you will find that most of the demands, where large sums are needed, are highly meritorious; in fact, vitally necessary. Yet the present revenue of the State falls far short of being ample. Therefore, if the Legislature is to grant these demands it will be forced to find many new sources of revenue. In addition to doing this, it appears certain that the State will have to bond itself for much of the construction costs—unless the Legislature should resort to some other form of taxation that thus far has been viewed with disfavor.

Before I enter into a detailed discussion of some of the major requirements of the State, I desire to point out and stress this fact: That it is vitally essential that the State tax rate be kept about where it is and has been for the past two years—namely 64 cents. I say this because many of the counties are now right up against the $5 per hundred valuation, as provided in the State constitution. If the State tax is materially increased, these counties will be

confronted with eliminating levies in their budgets for improvements and services that must be had. Counties, too, are facing the problems of increasing costs and increasing demands. That this Legislature and the Governor are confronted with a dilemma of the most disturbing nature is apparent. So I respectfully ask you to bear in mind the urgency that attaches to the importance of keeping the State tax rate at or near 64 cents.

We have been priding ourselves on the fact that we are one sound State; that we have no bonded indebtedness; that we have been free from nuisance taxes that exist in most other States. But now when we stop to take stock and to peer into the inner workings of our State Government, we become somewhat disillusioned. We find that some of these things we have been so proud of may have been attained at the expense of our own institutions, which have been gradually deteriorating over a long period of time. While the most glaring example is the State Hospital for Mental Diseases, this condition, to a lesser extent, extends very definitely to some of the others. Thus we are called upon to take care of not only the future but to some extent obligations of the past.

Bonded indebtedness in a reasonable amount does not mean that the State is not financially sound, and it is recognized as a proper method of paying for improvements that will be used and enjoyed in future years. Freedom from nuisance taxes is always gratifying, but it would lose some of its satisfaction if it must be obtained by avoiding the responsibilities of good government.

The Legislature, two years ago, took a forward-looking and constructive step in appropriating $950,000 for buildings to be constructed at the Hospital, the University of Nevada, and the State Prison. But unfortunately, labor and materials were not available and the building program was not carried out. Moreover, construction costs had skyrocketed to a point where the money appropriated by the 1945 Legislature was hopelessly inadequate. It appears at this time that materials are becoming more plentiful and labor is seeking new outlets. Conditions should permit of early construction of these needed facilities.

How, then, are we to meet these problems I have outlined? First, because many of our demands are immediate in nature, I would recommend a thorough study of our present revenue system to see how additional income can be obtained without delay. In keeping with the general economic trend our revenue has been increasing and ways should be found to further increase our income from present sources. I would recommend that you investigate the possibility of increasing the revenue we now receive from gambling and liquor taxes. A cigarette and tobacco tax offers a source of revenue generally utilized throughout the Nation and is not necessarily considered a nuisance tax.

In addition to these sources there is the possibility of utilizing any surplus in the postwar and general funds to meet these immediate needs.

While studying the ways and means of increasing revenue, we should not forget another method equally effective in balancing the budget—that of decreasing expenditures wherever possible. Good old-fashioned economy should not be neglected and we should practice it wherever practical. We should not lose our sense of balance in all this wild scramble for funds to meet increasing demands and assume that it is a foregone conclusion that all costs must go up. There are, undoubtedly, some places where costs can and must be cut and you may be assured of my cooperation in helping you find them.

It is my hope that with such a program as outlined we may find a satisfactory solution to our financial problems.

However, as a second and longer-range part of the program, I would also recommend a study of the potentialities of the sales and income tax and a revision of our present property tax system to provide better equalization.

I believe that most of you share with me a reluctance in departing from our traditional policy of avoiding general sales and income taxes. I would not recommend the use of these taxes unless they become absolutely necessary. However, I do think that it is time for us to stop treating them in a negative way and study these sources, weigh their advantages and disadvantages very carefully, and consider their possibilities. It is possible that some of the more

onerous and burdensome features could be overcome, and some of the necessities of life could be exempted from taxation. Clear and constructive thinking, even in this field, is most desirable and proper.

It is a well-known fact that our present property tax, as it is now set up and administered, is inequitable and it should be given a great deal of study. Because of the nature of this tax and the fact that a period of a year or two elapses before it actually returns any revenue to the State treasury, it must necessarily be a part of the longer-range program. We should bear in mind that such a program should be undertaken with the primary purpose of equalizing the tax burden and adding to our assessment rolls property that is escaping taxation, rather than trying to use it as a solution to all our financial problems and thereby placing too great a burden on the property taxpayer.

I sincerely hope that you will provide for a constructive program of equalization along these lines.

In the final analysis, it is my sincere opinion that the Legislature must first ascertain what amount of revenue will be available and then apportion the money in an equitable manner, giving first consideration to those projects that are most essential and still keeping in mind the welfare of the State as a whole.

PUBLIC SCHOOLS

The present method of financing the public schools of this State is inadequate and certainly is a problem which should receive the careful attention of this Legislature. Not only is this a problem of facing the Nevada Legislature but it is one of national scope.

Under our present system the State of Nevada partially supports elementary schools, but by far the greatest share of support rests upon the various counties and local school districts. Underpaid teaching staffs, rising costs in school maintenance and operation, and the apparent inability of counties and school districts to cope with the problem now comes squarely before the State. Nevada cannot afford to employ teachers without adequate preparation for their profession and qualified teachers are rapidly leaving the teaching profession in this State. I recommend that this Legislature give serious study to the possibilities of greatly increased State aid to education, not only in the elementary schools but in the high schools of the State as well.

It is obvious that increased State support for our public schools cannot come from an increase in the State property tax. I therefore suggest that this Legislature give consideration to finding new or additional sources of revenue in order that the State may bear its just share of the responsibilities of Statewide education.

The State of Nevada has always been proud of its school system. If we are to maintain creditable standards, every effort possible must be made to provide adequate financing of our State school system. Money wisely spent for education of our Nevada youth will mean less money spent in the long run for law enforcement, jails, prisons, and other reform measures.

VETERANS PROGRAM

I recommend that your Honorable Bodies give earnest consideration to the following veteran's program looking to the enactment of legislation that will prove beneficial to the veterans and be sound financially:

1. I consider the laws of the State should be amended, requiring proof of veterans status and of service in the armed services during a time of war, and that heavy penalties be provided for any person falsely attesting to the fact that he is entitled to veteran's exemption.

2. I recommend that the Veterans' Service Commission law be amended so as to permit of extension of the duties of the service and allow for necessary increase of personnel.

3. I recommend the continuation of the appropriation for high school scholarships for orphans of veterans, and that the law be amended to provide scholarships for children of totally disabled veterans.

4. I recommend that you consider some feasible plan that will enable the

veterans to be granted loans for the purchase of homes, farms, and small businesses.

5. I recommend changing the State law to allow minors to act as adults in all cases concerning veterans benefits.

INSTITUTIONS

NEVADA STATE HOSPITAL FOR MENTAL DISEASES

I am pleased to report to you that the desires of the 1945 Legislature, as represented in new laws and in committee reports, pertaining to the Hospital, have been adhered to by the board to the best of its ability under certain adverse circumstances.

Because of the shortage of labor and materials, the construction of the female and male wards has not been commenced. The same is true with regard to the central heating plant. Moreover, the money appropriated for the construction of these buildings proved inadequate because of the very marked increase in costs.

Many improvements have been made at the direction of the board, prominent among them being:

Better psychiatric care and diagnosis.

More complete supervision over patients and segregation of the more difficult ones. This segregation, however, has been handicapped by reason of insufficient wards. This condition will be remedied when the new wards are built.

Most of the wards have been repaired and cleaned; the kitchen and bakery have been renovated.

New boilers have been installed and the heating is much improved.

Three new fire escapes are now in the process of construction.

The preparation and the quality of food has been considerably improved during the past months and a balanced diet has been given special consideration. Menus are posted and adhered to as far as possible, considering the difficulty experienced in obtaining certain types of food in the markets.

Beauty parlors, with experienced operators, have been installed, and this has had a very stimulating effect on the morale of the women patients.

Occupational therapy for women patients, which has been promoted by a public welfare group, has proved very successful as a means of rehabilitating the patients. I am informed that this welfare group feels that this work cannot be continued unless the State provides aid.

I am especially pleased to report to you that the members of the Hospital Board have devoted much of their time and thought to their duties, and in my opinion have accomplished a great deal in the way of improved conditions at the institution. The members of the board have taken their multiple duties very seriously and in no way permitted their private affairs to interfere with their obligation to the State. The board members are striving constantly to bring this institution to a higher standard, and one which will redound to the credit of the State. But with the improvements already made, the board believes this institution compares very favorably with other similar institutions throughout the Nation.

NEVADA STATE PRISON

Due to the fact that the inmate population has greatly increased at our State Penitentiary, it will be necessary to take immediate steps to build a new cell house and to enlarge the present facilities in order to adequately care for and supervise these inmates.

The present cell house, constructed in 1920, consists of one hundred and twenty-eight single cells and was built to house that number of inmates. When the State Board of Paroles and Pardons met on November 13, 1946, the Prison had three hundred and thirty-four inmates. One hundred and seven of them were granted paroles or conditional pardons at this meeting. Notwithstanding the fact that all these men have been released, today there are two hundred and ninety-eight inmates in the prison, and at the present rate of entry it will be necessary to care for approximately three hundred and ninety-three inmates before the Parole Board meets again in May 1947.

The rate of entry of new prisoners is steadily increasing, which makes new

construction mandatory. Plans and specifications for this construction have already been completed and approved by the State Board of Prison Commissioners.

I urge the Prison Committees, as appointed in your Honorable Senate and Assembly, to take immediate steps to enact any needed legislation so that construction, which has been held up by war conditions, may get under way as soon as possible.

STATE PURCHASING AGENT

I request that you give consideration to the advisability of creating a central purchasing agent for Nevada's institutions, such as the Nevada State Hospital for Mental Diseases, Nevada State Prison, Nevada School of Industry and the State Orphans' Home. Considering the fact that one of the most important functions at this time of such a purchasing agent would be to obtain government surplus property, it might be deemed practicable to extend certain phases of his duties to the purchase of surplus property for the State Department of Education, the University of Nevada, and certain other State agencies.

UNIVERSITY OF NEVADA

Sympathetic consideration to the needs of our University should be given. The enrollment of the largest number of students in the history of the institution has presented problems that have taxed the ingenuity of the Regents of the University and has posed a problem for the State to solve in providing financial assistance. While I realize that great sums could be spent profitably at the University to meet its many needs, there are similar needs in other educational fields. All must be given attention. At the University, our notable Mackay School of Mines must not be permitted to lose its standing among the great mining schools of the country; our engineering colleges must be built up and a decision must be reached on the future of the College of Agriculture. These are matters that affect the young men and women of our State.

Consideration must also be given to the physical needs of our University. If we cannot finance the ambitious building program outlined by the University at present we can give consideration to the essentials, including first of all, the construction of a heating plant at a cost of more than three hundred thousand dollars. With the limited financial resources now in sight, the question of the priority of a life science building and an addition to the engineering building must be determined. Then, too, there is the question of repairs and improvements to existing structures, some of which come under the head of immediate necessities.

Adjustments in the salaries paid members of the faculty are necessary, in keeping with present high living costs.

BOULDER DAM POWER

The fact that Nevada is entitled to 18 percent of the total firm electric power produced at Boulder Dam offers an unusual opportunity for the future development of the State. The Colorado River Commission is now, and has been for some months past, negotiating with the City of Los Angeles and the Southern Edison Company, looking to effecting an agreement whereby Nevada can get volume power without building its own generator or generators. In the event that some such agreement is not obtained, then Nevada, through the Colorado River Commission, may consider asking the Legislature for permission to erect a generator for which the State would have to obligate itself to pay approximately $285,000 annually for a period of 20 years in order to amortize the cost of the generator and transformers. Considering the future demand for electrical energy, it is reasonable to believe that Nevada could use or dispose of all the energy developed by a generator. In that case, the State would have no liability or loss. But, as I have stated, it appears that the City of Los Angeles will before long agree to signing a contract that would make it unnecessary for Nevada to assume any financial risk in installing a generator.

Southern Nevada is now enjoying new industrial activity by reason of new interim power secured from the Southern California allottees.

Soon after I took office in July 1945, several chemical industries manifested

a desire to locate at Basic Magnesium Plant at Henderson. To make this possible, it became necessary for these companies to obtain power without giving the usual six months to three years notice as required. The Colorado River Commission immediately directed its energies to getting interim power, and after many months of negotiation with the Southern California companies, an agreement was effected whereby these industries could be served with a total of 35,000 kilowatts at a low rate. At the present time four chemical companies are operating at Henderson under this agreement, using Basic Magnesium plant facilities. These are the Hardesty Chemical Company, Stauffer Chemical Company, Western Electrochemical Company, and the U. S. Vanadium Company. Other companies contemplate moving in with their equipment to take advantage of the first-class government structures and housing, and the low-priced electric power from Boulder Dam. These plants provide much labor employment.

The entry of these varied and diversified electro industries will be of much benefit to the whole State, and insures stable industrial life to the Las Vegas area.

Nevada has also requested priority of use of one generator of 45,000 kilowatt capacity at the Davis Dam, now under construction, to be available in addition to the 18 percent of firm energy produced at Boulder, in order to insure power for expanding uses.

The Colorado River Commission, looking to a long-range development program, is studying possibilities of making Boulder Dam power available throughout the State. While this plan is in the embryonic stage, there is reason to think it is feasible.

Future Legislatures will likely have occasion to act upon this program.

Boulder Dam power is destined to play a major role in the upbuilding and development of our State.

HIGHWAYS

I have traveled over a great many miles of our State Highway System and find that maintenance and reconstruction are both being conducted on the same high standards as in normal prewar years. Maintenance costs have risen because of the excessive use of our road system during the war period without the usual reconstruction of the bad sections with the use of Federal funds. The adoption and extension of a Federal Aid Secondary System has gone forward in a satisfactory manner, and our rural population should, in the next few years, begin to enjoy a reasonably complete system of secondary roads leading into our primary system. Federal funds continue to be available for our use, with a State fund for matching each dollar. No additional State taxation should be necessary to meet Federal requirements. A substantial balance of State funds must be kept intact and available for cooperation with the Federal Government and for the maintenance of our constantly growing Federal Aid System of highways. During the biennium just passed, the personnel of the Department of Highways has been recouped by the return of war personnel. Technical men, for carrying out the Department's activities, are again becoming available, which should make possible an extended program of highway improvements.

AVIATION

Since we are in an expanding air age, I recommend that you give full and detailed study to the creation of an Airport Development Board for this State. Unless such board is provided for by law, Nevada will be unable to participate in Federal aid.

In addition to creating such a board, it will be necessary for you to provide funds for the support of the board and for the construction of landing fields and flight strips. It may be that you will want to explore the possibilities of placing a tax on aviation gasoline used in the State, with the proviso, of course, that any moneys collected will go exclusively to the support of a board and the construction of needed facilities.

In the next few years we will need to have built in our State many small landing fields or strips for the benefit of the itinerant flier, for both safety and convenience. Federal funds are available to Nevada, over a period of six years,

in the amount of $6,507,401 for the construction of such air fields and flight strips on a cooperative basis. Of this amount, there is available approximately $500,000 up to June 30 of this year.

It is recommended that a bill requiring Federal funds for airport construction be channeled through the States as are other Federal aid funds.

I trust you will give this matter your early and careful consideration.

LABOR

The relations of employers and employees during the past biennium have been, on the whole, harmonious. Work stoppages have been of short duration and have yielded to mediation and conciliation. The ending of the war brought adjustments which caused many of the workers to leave, who had come to Nevada for employment in war industries. Adoption of the forty-hour work week with the resulting loss of premium overtime has worked a hardship on many workers in the State by the reduction of "take-home-pay." This, with the rising cost of living, has caused unrest.

The Labor Commissioner's duties have been increased owing to these disturbed conditions, and, at the request of the workers and employers, the State Labor Department has acted as consultant and mediator in most of the labor difficulties. Some are due to conditions other than wages, but most of them stem from the readjustments necessary because of the slowing down of the war effort.

A State mediation law should be enacted which would provide for the appointment by the Governor or Labor Commissioner of three mediators— one from the public, one from the employers, and one from labor—to investigate and report on all labor and management difficulties when called on to act by either party in the controversy. In other words, create a fact-finding committee.

Our present Act for the adjustment of industrial disputes, while it would appear to be adequate, is not in favor with the employer or worker because of its mandatory provisions. The Labor Commissioner has discussed this matter with the representatives of labor and management and they seem to be of the opinion that a board of this sort would tend to lessen labor and management disagreement.

The G. I. Bill providing for subsistence payments in veteran's training has added a load to the State apprenticeship system. This Act has been on our statute books since 1939, and no appropriation has ever been made for its operation. Veterans are entitled to receive training for a trade. However, it is necessary that they be supervised and checked and this requires an appropriation from the Legislature in order that someone may be specifically charged with this duty.

INDUSTRIAL COMMISSION

Considering the fact that living costs have greatly increased during the past several years, I recommend for your consideration legislation designed to increase compensation benefits to injured workmen. The maximum payment set by law ranges between $80 and $90. Obviously even a small family cannot live properly on $90.

Because of the surplus funds over and above the normal reserve, I consider that it is practicable to increase not only compensation to injured workmen, but also to reduce the rates paid by employees. The question of rates, however, is a matter over which the Industrial Commission has jurisdiction. I have recommended that rates be reduced.

PUBLIC HEALTH

We all realize that the welfare of any State must depend directly upon the health of the individuals living within that State. Realizing that, we should expand the scope of life-saving programs such as those for Maternal and Child Health, Rheumatic Fever and Public Health Nursing. I believe consideration should be given to making a study for additional aid to tuberculosis patients.

Recent surveys show that a large percentage of the school children have defective teeth. Therefore aid should be continued for the needy children. In

view of this, I recommend that the dental program, which is sponsored by the American Dental Association, but financed by combined Federal and State funds, should be continued.

Whether the financing of these programs is to be done on a county or State basis will be left to your discretion.

In addition, the licensing of hospitals for the protection of the public; the centralization of marriage and divorce records; the initiation of a Mental and Industrial Hygiene Program; increasing the State's Program of Milk, Water and Sewage Sanitation, together with a Health Education Program, are of equal importance and are worthy of your careful study and thoughtful consideration.

CHILD WELFARE

At present we are taking care of our needy children through county relief only. Under the Mother's Aid Act, 103 children are receiving an average monthly grant of $15.50. I recently requested the Nevada State Welfare Department to make a survey of the needs of the children of the State. That survey shows that 779 children are in need. Of that 779, as I have just stated, only 103 children are receiving assistance through the county programs. This is a condition which should be given consideration by this Legislature.

Recognizing that it is the duty of every State to care for its dependent children, I urge that your Honorable Bodies give earnest consideration to the feasibility of enacting legislation that would to some extent alleviate this condition, keeping in mind that the Federal Government matches State and county funds on approximately a 60 percent basis.

EMPLOYMENT SECURITY DEPARTMENT

The new provision for experience rating, enacted by the 1945 Legislature, has brought about very large savings to the contributing employers of Nevada. Experience rating went into effect in July 1945, and in the third and fourth quarters of 1945, under the benefit ratio formula, $189,177.27 was saved employers. During the first three quarters of 1946, under the reserve ratio formula, employers' contributions were lessened by $506,944.58. The total saving to contributors as a result of experience rating from July 1945 through September 1946 was $696,121.85.

While this saving was made to contributors, the department's Trust Fund increased over one million dollars during the past year.

In addition to this very large saving to contributors and increase in the Trust Fund, maximum benefit payments to the unemployed were increased and dependents' allowances were made possible by liberalizing legislation.

The Executive Director of the Employment Security Department believes that a further substantial reduction in employers' rates will probably be possible this year, without jeopardizing the department's Trust Fund.

RETURN OF THE EMPLOYMENT SERVICE

After continued efforts made by the office of your Governor in cooperation with the Governors of other States, the Nevada State Employment Service was finally returned to the Employment Security Department of this State on November 16, 1946.

However, the Employment Service was returned with additional Federal controls, which I sincerely regret. Continued attempts to Federalize various State departments may develop a trend that will affect our entire national life and economy, and ultimately limit the direct functioning of democracy and the preservation of State rights.

At the present time the Unemployment Compensation Service of the Employment Security Department is under the Social Security Administration, while the other branch of this Department, the Employment Service, is under the control of the United States Employment Service of the Department of Labor. It is my opinion that these two functions of government should be united at the Washington level, just as they are at the State level.

LIVESTOCK AND AGRICULTURE

Cognizant at all times of the fact that agriculture and livestock raising constitute a large and important part of the resources of our State, I strongly

urge your Honorable Bodies to encourage in every possible way the further development of these great industries, which must be kept in the forefront of a progressive movement to advance this State to a new high.

I direct your attention to the stockmen's concern in this State as to the lack of stability in matters such as tenure and charges for grazing use of the publicly owned ranges under the control of the various Federal bureaus. As tenants in range use of these bureaus, they are subject to continual upset in both the numbers of livestock they can graze and seasons of use, as well as in fee charges. This situation detrimentally affects their chances to conduct a sound economic operation of their ranches, the investment, tax and credit values of which depend upon use of the public ranges companion to their ranches.

If and when a situation arises whereby the Legislature can enact laws that will aid the livestock men in carrying out their program to solve these problems, I recommend that you give it your most favorable consideration.

Considerable investigative work has been done by the Nevada Agricultural Experiment Station and the Intermountain Forest and Range Experiment Station to find out which of the many grasses are best adapted to growing under our range conditions, together with the cultural and protective conditions necessary to establish and perpetuate the stand. There is a definite need for the continuance of this work to create additional forage for grazing use. particularly on those areas which have been invaded by cheat-grass and rabbitbrush.

At the present time, the Nevada Agricultural Experiment Station, in cooperation with the Intermountain Forest and Range Experiment Station, have 25 four-acre fenced enclosures located on the range lands of the State. All of the most important grazing types are found within these enclosures. These areas have been, and are now used to determine what may be expected in the improvement of our range lands from natural reseeding in contrast to the more costly and laborious procedure of creating additional forage by an artificial reseeding.

MINING

Mining, one of the two principal industries of the State, has, like all other industry, suffered because of the war. Gold and silver operations, particularly, were almost entirely suspended because, in the opinion of the Federal Government, other industry was more essential to final victory. Precious metal operations have not yet recovered.

Every encouragement should be given to the mining industry, which is so essential to the prosperity and welfare of the State, not only because of the large number of men employed, but indirectly through maintenance of whole communities. It is an historical fact that Nevada has always been one of the predominant metal producing States, and it should continue to maintain that proud position. I am hopeful, therefore, that the successful prosecution of the industry may be stimulated through needful constructive legislation.

I believe thought should be given to the idea of instituting a scientific research program through the Mackay School of Mines. Such a program would be the means of bringing into profitable production vast tonnages of borderline ores. This would add greatly to the wealth and prosperity of our State.

INSURANCE REGULATION

I respectfully call to your attention the urgency of passing at this session an insurance law which will meet all requirements of Public Law No. 15, passed by the U. S. Congress in 1945. Unless such law is enacted, I am informed the State will lose its regulatory insurance rights and the revenue derived therefrom.

STATE PLANNING BOARD

The activities of the State Planning Board were extended and very much increased by the action of our last Legislature. It seems to me that the services of the board should be more fully utilized by both the Legislature and all State departments. Its Six-Year Plan of improvements and its activities on behalf of the various State Institutions have been satisfactory and used extensively by State Agencies. I urge your study of the functions

of this board and the extension of its activities if you deem it to the best interest of the State.

The Six-Year Plan of the State Planning Board is again available for your use, and I ask that you peruse it carefully and give consideration to those buildings, which in your judgment, are needed and can be built within the financial limitations of the State.

STATE PARKS

A detailed study should be made of our State Park possibilities. I do not advocate any extensive extensions at this time, but recommend to you that sufficient funds be allocated to keep intact what we have, and when moneys become available, an extension can be made to the State Park System.

CONCLUSION

In presenting this message to you, I have endeavored to meet the issues and obligations involved to the fullest extent in conformity with constitutional authority and good government. The subject and problems I have discussed and presented for your considered judgment and action are, I believe, sufficiently comprehensive in nature and scope that you, the members of the Nevada State Legislature, may see the picture as a whole of the State's financial status as related to its obligations, and that you can act accordingly with full knowledge of the general circumstances.

You have my very best wishes for a most pleasant and successful session, and you may be assured that I will welcome the opportunity to confer with you on any legislative matters at any time. I earnestly seek your full cooperation and confidence.

Respectfully submitted,

VAIL PITTMAN,
Governor of Nevada.

MOTIONS, RESOLUTIONS, AND NOTICES

By Committee on Rules:

Assembly Resolution No. 3, proposal to amend the standing rules of the Assembly governing the passage of bills.

Resolved by the Assembly of the State of Nevada, That the following standing rules of the Assembly governing the passage of bills be amended so that they will read as follows:

Assembly Standing Rule No. 2, Sections 10 and 11:

10. Introduction, First Reading and Reference of Bills.

11. Second Reading and Amendment of Bills.

Assembly Standing Rule No. 7:

Every bill shall be read on three several days, unless, in case of emergency, two-thirds of the Assembly shall deem it expedient to dispense with this rule. The Speaker shall give notice at each reading of a bill whether it be the first, second, or third reading. No bill shall be committed until once read, nor amended until twice read. The first reading of a bill shall be for information, and if opposition be made to it, the question shall be, "Shall the bill be rejected?" If no opposition be made, or if the question to reject be negatived, the bill shall then take the proper course.

Assembly Standing Rule No. 85:

All bills shall be read the second time in the order in which they are reported by committees. Upon second reading, Assembly bills reported without

amendments shall be engrossed and placed on the general file, and Senate bills reported without amendments shall be placed on the general file. Committee amendments reported with bills shall be considered upon their second reading, and such amendments may be adopted by a majority vote of the members present. Assembly bills so amended shall be reprinted, reengrossed, and placed on the general file, and Senate bills so amended shall be reprinted, reengrossed and placed on the general file.

Assembly Standing Rule No. 86:

Any member may move to amend a bill during its second or third reading and such motion to amend may be adopted by a majority vote of the members present. Bills so amended on second reading shall be treated the same as bills with committee amendments. Any bill so amended upon the general file shall be reprinted and reengrossed.

The reprinting of amended bills may be dispensed with only in accordance with the provisions of law. Unless otherwise ordered by the Assembly, one thousand copies of all amended bills shall be printed.

Mr. Wines moved the adoption of the resolution.

Remarks by Mr. Boak.

Resolution adopted.

By Committee on Rules:

Assembly Resolution No. 4, proposal to amend Assembly Standing Rule No. 82.

Resolved by the Assembly of the State of Nevada, That Assembly Standing Rule No. 82 be amended so that it will read as follows:

All bills, resolutions, or other matter referred to any committee shall be by such committee reported back to the House, together with the action of the committee thereon, as soon as practicable after such reference.

Mr. Wines moved the adoption of the resolution.

Resolution adopted.

By Mr. Carlson:

Assembly Resolution No. 5, providing appropriation allowed each member for periodicals, stamps, and stationery.

Resolved by the Assembly of the State of Nevada, That the sum to be allowed each member of the Assembly for periodicals, stamps, and stationery, as provided by law, be the sum of sixty ($60) dollars, and the same be certified by the Speaker and Chief Clerk to the Controller.

Mr. Carlson moved the adoption of the resolution.

Resolution adopted.

By Committee on Rules:

Assembly Resolution No. 6, proposal to increase the membership of the Assembly Committee on Ways and Means.

WHEREAS, The Ways and Means Committee of the Assembly is to be called upon to consider many, varied, and unusually large appropriations, and other matters pertinent to the State government as a whole; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That the membership of the Ways and Means Committee of the Assembly shall be increased to eleven members.

Mr. Wines moved the adoption of the resolution.

Remarks by Mr. Fairchild.

Resolution adopted.

By Mr. Carlson:

Assembly Resolution No. 7, relating to the appointment of attachés.

Resolved by the Assembly of the State of Nevada, That the following-named persons be, and they are hereby, elected as attachés for the Forty-third Session, to wit:

Billie Hurst, Mrs. J. F. McElroy, Louella Pendergast, Jessie Harris, Margaret Newton, Marlyn Newton, Clara Boerlin, Edward Blake, Mrs. Wenlock Free, Alice Halley, Ruby Simonsen, Pete Colletti, Ethel McElvain, Marion Peyton, Mary Ellen Lowe, Viola McKenzie, Edyth Waters, Bert Forbes, John Brown, and J. E. Springmeyer.

Mr. Carlson moved the adoption of the resolution.

Resolution adopted.

MOTIONS, RESOLUTIONS AND NOTICES

Mr. Speaker ordered the reading of the following notice:

CARSON CITY, NEVADA, January 21, 1947.

To the Honorable Members of the Assembly, Nevada State Legislature, State Capitol, Carson City, Nevada.

VETO MESSAGES OF THE GOVERNOR

Vetoed Assembly Bill No. 65 of the Forty-second Session.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, March 27, 1945.

HON. MALCOLM MCEACHIN, *Secretary of State, Carson City, Nevada.*

DEAR SIR: There is herewith deposited in your office for filing, within the constitutional time limit and without my approval, Assembly Bill No. 65, introduced February 5, 1945, by Mr. Thompson, and entitled "An Act to amend 'An act relating to insurance, defining certain words and terms, defining domestic companies, foreign or alien companies, unauthorized companies, and other companies, individuals, or corporations engaged in the business of insurance in the State of Nevada; providing for the regulation of insurance companies, insurance business, providing the manner in which insurance companies may operate and conduct business in the State of Nevada; designating the insurance commissioner of the State of Nevada, defining his powers and duties in respect to insurance companies and insurance business in the State of Nevada; defining the different forms of insurance, providing for consolidation thereof; providing for the licensing and qualification of agents of insurance companies, defining their powers, duties and limitations; providing for fees, costs, and expenses for the operation of insurance companies and their agents under the provisions of this act; providing penalties for the violation of the provisions of this act, repealing certain acts, and other matters properly connected herewith,' approved March 31, 1941."

I can see no valid reason for imposing upon insurance companies writing accident and health policies in Nevada a condition which is entirely different from the requirements of other States. Particularly, since the information given policy holders by the required endorsement is now readily obtainable from the wording of the policy itself.

For the foregoing reasons, this Act is deposited without my approval.

Respectfully submitted,

E. P. CARVILLE,
Governor.

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

YEAS—None.

NAYS—Messrs. Barr, Beemer, Bisoni, Boak, Capurro, Carlson, Cavanaugh, Chapman, Crawford, Englestead, Fairchild, Folsom, Free, Frey, Fuetsch, Gallagher, Gray, Hall, Higgins, Humphrey, Hussman, Jacobsen, Jepson, MacKenzie, McCuistion, Miller (White Pine), Miller (Humboldt), Monroe, Munk, Norstrom, Ryan, Smith, Starks, Stewart, Swackhamer, Taber, Terrell, Warner, Wines, Whitacre, and Mr. Speaker—41.

Vetoed Assembly Bill No. 122 of the Forty-second Session.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, March 26, 1945.

HON. MALCOLM MCEACHIN, *Secretary of State, Carson City, Nevada.*

DEAR SIR: There is herewith deposited in your office for filing, within the

constitutional time limit, and without my approval, Assembly Bill No. 122, introduced February 19, 1945, by Mr. Thompson, and entitled "An Act to amend 'An act to create a state board of health, defining their duties, prescribing the manner of the appointments of its officers, fixing their compensation, making an appropriation for the support of said board, establishing county boards of health, requiring certain statements to be filed, defining certain misdemeanors and providing penalties therefor and other matters relating thereto,' approved March 27, 1911, 392."

This Act would amend section 5262 N. C. L. 1929, which as it now reads, requires the county boards of health to enforce quarantine measures and directs they shall provide whatever medicines, disinfectants and provisions may be required and arrange for the payment of charges so incurred from any funds available, provided each patient shall, if able, pay for food, medicine, clothes and medical attendance.

The present Act amends that section by striking the proviso that the patient shall, if able, pay for those enumerated items and required medicines, disinfectants and provisions to be provided by the county board and payment therefor to be made out of public funds. I am unable to see any sound reason why the quarantined patient, or those responsible for the payment of the expenses which are attributable to the disease, and not to the quarantine, should be relieved of that liability and that these items be furnished at public expense.

Respectfully submitted,

E. P. CARVILLE,
Governor.

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

YEAS—None.

NAYS—Messrs. Barr, Beemer, Bisoni, Boak, Capurro, Carlson, Cavanaugh, Chapman, Crawford, Englestead, Fairchild, Folsom, Free, Frey, Fuetsch, Gallagher, Gray, Hall, Higgins, Humphrey, Hussman, Jacobsen, Jepson, Mackenzie, McCuistion, Miller (Humboldt), Monroe, Munk, Norstrom, Ryan, Smith, Starks, Stewart, Swackhamer, Taber, Terrell, Warner, Wines, Whitacre, and Mr. Speaker—40.

Not voting—Miller (White Pine).

Vetoed Assembly Bill No. 163 of the Forty-second Session.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, March 26, 1945.

HON. MALCOLM MCEACHIN, *Secretary of State, Carson City, Nevada.*

DEAR SIR: There is herewith deposited in your office for filing, within the constitutional time limit, and without my approval, Assembly Bill No. 163, introduced February 22, 1945, by Mr. Fuetsch, and entitled "An Act to designate the Nevada state board of health a state agency for hospitals, to make a survey of hospitals and health center facilities in the state, to provide for a state advisory council concerned with the operation, construction, and utilization of hospitals, and to provide an appropriation therefor."

The title of this Act expresses its general purpose and the Act authorizes the State Board of Health to cooperate with approved Federal agencies and to accept Federal assistance in what is a purely county or local matter.

I believe the great majority of the people of Nevada feel as I do, that it is to the best interest of the State and its subdivisions that we retain untrammelled control of such purely local matters and that we should not be led by the bait of Federal aid to surrender any part of that control.

I would like to see each community, city, and county of the state handle its

own affairs, as they know best the particular conditions that obtain in their respective localities.

For the foregoing reasons, this Act is deposited without my approval.

Respectfully submitted,

E. P. CARVILLE,
Governor.

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

YEAS—Fuetsch, Miller (White Pine), Wines, and Whitacre—4.

NAYS—Barr, Beemer, Bisoni, Boak, Capurro, Carlson, Cavanaugh, Chapman, Crawford, Englestead, Fairchild, Folsom, Free, Frey, Gallagher, Gray, Hall, Higgins, Humphrey, Hussman, Jacobsen, Jepson, MacKenzie, McCuistion, Miller (Humboldt), Monroe, Munk, Norstrom, Ryan, Smith, Starks, Stewart, Swackhamer, Taber, Terrell, Warner, and Mr. Speaker—37.

Senate Bill No. 142 of the Forty-second Session which became a law without the Governor's signature.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, March 28, 1945.

HON. MALCOLM MCEACHIN, *Secretary of State, Carson City, Nevada.*

DEAR SIR: The constitutional time limit within which I might act with reference to Senate Bill No. 142 having elapsed without my having taken any action thereon and it having thus become a law, I now transmit to you for filing Senate Bill No. 142, introduced by Senators Dressler, Johnson, Cox, Haight, and Robbins, and entitled "An Act to amend the title of and to further amend an act entitled 'An Act concerning slot machines, gambling games, and gambling devices; providing for the operation thereof under license; providing for certain license fees and the use of the money obtained therefrom; prohibiting minors from playing and loitering about such games; designating the penalties for violations of the provisions thereof; and other matters properly relating thereto,' approved March 19, 1931, as amended, by amending the title, by amending certain sections thereof, and by adding new sections thereto to be known as sections 10a, 10b, 10c, 10d, 10e, and 10f."

I am hopeful that my reasons for so handling this bill will interest and possibly be of some aid to the members of the next session of the Nevada Legislature, should this matter come up for review and reconsideration by them, as appears to be likely.

I, therefore, respectfully request that when my veto messages, filed since the adjournment of the recent Legislative Session, are transmitted by you to the Forty-third Session of the Nevada Legislature, you accompany them with this letter.

Senate Bill No. 142 imposes on the gambling business a type of tax which the State of Nevada has avoided in the past as a matter of policy. It has been strenuously argued that the gambling business is in an entirely different category from what we may, for the mere sake of differentiation, term legitimate business.

I feel, however, that with the State making this departure from its fixed, past policy, the effort will be made to extend the imposition of this type of taxation, and that the wiser course would have been to avoid this type of taxation, and obtain a just contribution from the gambling business by imposing a higher license fee.

Approximately two years of operation under Senate Bill No. 142 will make available to the next Legislature most valuable information such as: the amount actually realized by this 1% tax; the workability of this law; the

difficulties, if any, encountered in its enforcement. Present guesses may be supplanted then by definite information, which will enable the Legislature to weigh the situation for taking intelligent action thereon.

It is for these reasons that I have permitted Senate Bill No. 142 to become a law.

Respectfully submitted,

E. P. CARVILLE,
Governor.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker instructed the Chief Clerk to read the following communication:

January 20 1947.

To the Honorable the Assembly in the Legislature of the State of Nevada, Forty-third Session, 1947.

In conformity with the Constitution and Statutes of Nevada the undersigned respectfully transmits to your honorable body and for the attention and action of the Legislature of Nevada the petition and claim of Shell Oil Company for payment out of the State Treasury of $8,206.35, claimed to have been inadvertently overpaid by said company on account of inspection fees for gasoline imported into Nevada.

The undersigned respectfully reports that this claim was examined and considered by this board; that the statements of fact in said claim are evidenced by the verification thereof on the part of claimant, which evidence is annexed to and forms a part of the claim; that no appropriation has been made out of which to pay this claim or any like claim.

The undersigned transmits also herewith without prejudice a form of legislative bill to provide for the payment of said claim.

REPORTS OF COMMITTEES

MEETING OF THE STATE BOARD OF FINANCE

AUGUST 16, 1946

EXPENDITURES FROM POSTWAR FUND $200,000.

APPROVAL OF BUILDING PROGRAM AND HEATING PLANT FOR HOSPITAL FOR MENTAL DISEASES AS PROVIDED IN CHAPTER 266, 1945 STATUTES.

DISCUSSION OF BUILDING PROGRAM FOR UNIVERSITY OF NEVADA AS PROVIDED IN CHAPTER 220, 1945 STATUTES.

TRANSFER OF $2,500 FROM GENERAL FUND TO GENOA FORT AND STOCKADE FUND (CHAPTER 242, 1945 STATUTES).

APPROVAL OF EXPENDITURES FROM SATE BOARD OF FINANCE FUNDS TO COVER TRAVELING EXPENSES OF LEGISLATIVE MEMBERS.

The State Board of Finance met in the office of the Governor at 10 a. m. August 16, 1946. Present at the meeting were the following:

HONORABLE VAIL PITTMAN, Lieutenant and Acting Governor and Chairman.

HONORABLE DAN W. FRANKS, State Treasurer and Member.

HONORABLE M. A. DISKIN, Member.

HONORABLE C. H. JONES, Member.

HONORABLE GRANT L. ROBISON, Secretary.

HONORABLE M. A. FAIRCHILD, Legislative Member.

HONORABLE CLARENCE SOMMER, Legislative Mememberber.

HONORABLE R. A. ALLEN, Chairman State Planning Board.

Absent—HENRY C. SCHMIDT, State Controller and Member.

Governor Pittman called the meeting to order and stated the purpose of the meeting was to discuss the construction of public buildings as provided by chapters 220 and 226 of the 1945 Statutes.

Mr. Allen reviewed the progress which had been made at both the Nevada

State Hospital and the University of Nevada. He stated that preliminary plans were being drawn and that they were in a position to erect the foundation for the classroom at the University of Nevada. He stated that stage construction would not result in increased cost. Considerable discussion took place with respect to the advisability of beginning construction on only the foundation. Some members felt that the money provided by the Legislature should remain intact where it is drawing interest, until all conditions set up by the Legislature could be met. It was finally agreed that Dr. Moseley and Dr. Gorman be invited to attend the afternoon meeting and furnish facts and figures regarding the anticipated registration for the fall term at the University.

Discussion concerning the construction of additional wards at the State Hospital was next taken up. All present were of the opinion that a great emergency existed at the hospital due to a greatly overcrowded condition. Following considerable discussion regarding the matter, Mr. Diskin offered the following motion:

> Insofar as the State Mental Hospital is concerned, it is the consensus of opinion of this board and the board now finds that the facts to be determined under chapter 226 of the 1945 Statutes with reference to the Nevada State Hospital have been found to exist and that pursuant to the Act referred to, the board now authorizes the initiation of a building program at the Nevada State Hospital for Mental Diseases to consist of the construction, equipping, and furnishing of one male ward and one female ward, and for the purchase and installation of a new central heating plant for the hospital, for which purpose there is set aside from the appropriation hereinafter made, the sum of two hundred thousand ($200,000) dollars, and further that the suggestion be made to the State Hospital Board that they investigate and take advantage of any Federal funds which may be made available under the Mead Bill which was recently signed by the President.

Mr. Diskin's motion was seconded by Mr. Jones and carried unanimously.

The secretary advised the board that the Legislature had not provided funds to pay the traveling expenses of the legislative members appointed to meet with the Board of Finance, and it was regularly moved, seconded, and carried that such expenses be paid from the funds of the State Board of Finance.

Under the provisions of chapter 242 of the 1945 Statutes, it was mandatory for the State Board of Finance to authorize the transfer of $2,500 appropriated by the Legislature for the construction of a fort and stockade at the town of Genoa. It was regularly moved, seconded, and carried unanimously that authorization for the transfer of $2,500 from the General Fund to a special fund to be called "Genoa Fort and Stockade Fund" as provided in section 1 of chapter 242 of the 1945 Statutes.

The meeting was then recessed until 11:30 a. m.

AFTERNOON SESSION

The meeting was reconvened at 1:30 p. m. Henry C. Schmidt, State Controller, was present at this session in addition to the members present at the morning session. Dr. Moseley and Dr. Gorman from the University of Nevada were present by special invitation.

Dr. Moseley stated that at the present time they have applications from 688 freshmen for the fall term and that most of the 1,100 students who attended last year were expected to return. When asked if applications from out-of-State students were being accepted to the exclusion of Nevada students, he stated that they were going to make an attempt to take care of every Nevada student who applies for admittance, and that the rules prohibited registering more than one half as many out-of-State students than Nevada students registered for the preceding year. He stated that hundreds of applicants are being refused admittance due to lack of space and other facilities. He made a plea to the board that they do all in their power to provide the University with an additional classroom at the earliest possible moment.

After Dr. Moseley and Dr. Gorman had retired from the room, a general discussion took place regarding the construction of a classroom at the University as provided for under chapter 220 of the 1945 Statutes. Governor Pittman stated that it was a definite responsibility of the people of Nevada to provide adequate educational facilities for our young people. Mr. Diskin made the following motion:

> That the chairman, for the benefit of this board, request the State Planning Board to make a survey to determine (1) the availability of building material and equipment on the basis of quantity and cost, as provided in subsection 2 of section 4 of chapter 220 of the 1945 Statutes, and (2) the condition of the labor market, particularly as to returned veterans as provided in subsection 2 of section 4 of said chapter 220 of the 1945 Statutes, and that the information thus obtained be submitted to this board for further reference within thirty days, so that such data and information thus submitted may be used by the board to consider a date for the beginning of construction as set forth in said chapter 220.

The motion was seconded by Mr. Fairchild and carried unanimously.

No further matters being brought to the attention of the board, the meeting was adjourned subject to the call of the chairman.

APPROVED: VAIL PITTMAN,
Chairman.

DON CRAWFORD, *Chairman.*

Above reported bills and resolutions ordered to third reading.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY
February 3, 1947

To the Honorable, the Senate and Assembly:

In compliance with Chapter 60, 1921 Statutes, I respectfully submit the Executive Budget for the fiscal years 1948 and 1949.

This budget contains financial statements of all departments of the State Government during the past one and one-half years, as well as estimated expenditures for the six months ending June 30, 1947; also, estimated requirements as approved by the Executive for the ensuing two years commencing July 1, 1947, and ending June 30, 1949.

Provisions are also made for carrying forward sufficient balances at the end of the biennium June 30, 1949.

I have studied and analyzed the budgets of the various departments with a sincere desire to hold them to a minimum, consistent with good, sound government. As a result, I have cut out approximately $138,000 from the amounts requested. There are very few departmental budgets that show appreciable increases.

On a comparative expenditure basis the total increase, as reflected in this budget, will be approximately $314,000. Of this amount, approximately $193,000 went to our four institutions that are required to clothe, feed, and house their inmates. This was made necessary because of the marked increase in the cost of living, and also because of the increase in the population of these institutions. Other substantial increases went to those departments

that have responsibility for the care and maintenance of State property. Principles of good business dictate that there is no true economy in allowing state property or institutions to deteriorate.

This budget message is being submitted to you several days in advance of the time provided for by law. I hope that this will facilitate your work in connection with setting up appropriations and will aid you in working out the many intricate problems that are facing you in this session.

No doubt, as your work proceeds, there will be additional information that you desire and I ask that you feel free to call upon me.

Respectfully submitted,

VAIL PITTMAN,
Governor.

By the Committee on Rules:
Assembly Concurrent Resolution No. 3, proposing to amend Joint Standing Rule No. 1.

Resolved by the Assembly of the State of Nevada, the Senate concurring, That Joint Standing Rule No. 1 be amended so that it will read as follows:

In every case of an amendment of a bill, or joint, or concurrent resolution, agreed to in one house, dissented from in the other, and not receded from by the one making the same, such house shall appoint a committee to confer with a like committee to be appointed by the other; and the committee so appointed

shall meet at a convenient hour to be agreed upon by their respective chairmen, and shall confer upon the differences between the two houses as indicated by the amendments made in one and rejected in the other and report as early as convenient the result of their conference to their respective houses. The whole subject matter embraced in the bill or resolution shall be considered by the committee, and it may recommend recession by either house, new amendments, new bills or resolutions, or other changes as it sees fit. New bills or resolutions so reported shall be treated as amendments, unless such bills or resolutions are comprised entirely of original matter, in which case they shall receive the treatment required in the respective houses for original bills, or resolutions, as the case may be.

The report of a conference committee may be adopted by acclamation, and such action may be considered equivalent to the adoption of amendments embodied therein. But such report shall not itself be subject to amendment, and if either house refuse to adopt such report, the conferees may be discharged and other conferees appointed; *provided, however*, that no more than three different conference committees shall be appointed on any one bill. No member who has served on a conference committee shall be appointed a member of another conference committee on the same bill.

Mr. Wines moved the adoption of the resolution.

Resolution adopted.

By the Committee on Rules:

Assembly Resolution No. 17, proposing to amend Assembly Standing Rule No. 57.

Resolved by the Assembly of the State of Nevada, That Assembly Standing Rule No. 57 be amended so that it will read as follows:

All persons appearing, or being, or desiring to appear, or be, at or in the Assembly Chamber, or at or in any committee room of the Assembly for the purpose of advocating the passage or defeat of any bill, resolution, or measure introduced in, pending before, or being considered by the Assembly, or by any committee thereof, or for the purpose of soliciting the vote of any member of the Assembly upon any such bill, resolution, or measure, or upon any anticipated or proposed bill, resolution, or measure, shall register with the Sergeant-at-Arms his name and address, together with a statement of the person or persons, corporation or corporations, or interest represented by or intended to be represented by him, and shall file with the Sergeant-at-Arms his written authority to represent such person, corporation, or interest, and thereupon the Sergeant-at-Arms shall issue to such person a certificate that he has so registered in conformity with this rule, which certificate shall be exhibited to the chairman of a committee upon request. A complete record of all persons so registered, together with their respective addresses, and the persons, corporations, or interest represented by them, shall be kept and preserved by the Sergeant-at-Arms, and shall be open at all times to public inspection.

No person shall appear at or enter the Assembly Chamber, or any committee room of the Assembly, for the purpose of advocating the passage or defeat of any bill, resolution, or measure, without first having registered and secured the certificate as herein provided.

This rule shall not apply to members of either house of the Legislature, officers of the State of Nevada or other public agencies, or citizens of the State of Nevada appearing in their own interest or behalf who are not representing any group, organization, or corporation.

No person engaged in presenting to the Assembly or any of its committees any business, claim, or legislation, shall be permitted to engage in such business in the Assembly Chamber or be permitted on the floor of the Assembly at any time while the Assembly is in session or while the floor is occupied by members of the Assembly. Any person transgressing this rule shall be removed from the floor of the Assembly, and shall be debarred from the privilege of the floor during the remainder of the entire session. The Speaker

and the Speaker pro tempore are charged with the enforcement of this rule, and this rule cannot be suspended except by a two-thirds vote of the elected members of the Assembly.

Persons not engaged in presenting to the Assembly, or any of its committees, any business, claim, or legislation, may be admitted within the bar of the Assembly only by special invitation on the part of a member, and a majority may authorize the Speaker to have the Assembly Chamber cleared of all persons except members and officers of the Assembly; *provided*, that state officers and officers and members of the Senate and Assembly may be admitted without invitation. The Assembly Chamber shall not be used for any but legislative business except by permission given by a two-thirds vote of the members present.

Mr. Wines moved the adoption of the resolution.

Remarks by Messrs. Boak, Ryan, MacKenzie, and Wines.

Mr. Whitacre moved that Mr. Wines' motion be amended and that the resolution be referred to the Committee on Rules.

Mr. Whitacre's motion carried.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker appointed Mr. Swackhamer and Mr. MacKenzie as a committee to invite the Senate to meet in Joint Session with the Assembly for the ceremonies of Boy Scout Day on Thursday, February 13, 1947, at 10 a. m.

REPORT OF INTERIM COMMITTEE ON AVIATION

Pursuant to action taken by the 42d Session of the Legislature in adopted Assembly Concurrent Resolution No. 12, a Joint Interim Committee was appointed for the purpose of making a complete study of the need for legislation referring to aviation and aeronautics. The resolution further stated that the committee shall reduce its findings to writing and shall report such findings, together with any recommendations it sees fit to make, to the Forty-third Session of the Nevada Legislature.

Prior to the 19th of October 1945, Senator Rene Lemaire, Chairman of the Interim Committee, notified all persons in Nevada interested in the aviation industry and in aeronautics, that a public hearing would be held in Las Vegas, Nevada, on the 19th and 20th of October 1945, for the purpose of carrying out the provisions set forth in Concurrent Resolution No. 12.

At the two-day hearing in Las Vegas, the aviation industry was well represented by various individuals and organizations, and a full discussion was held of all phases of the subject matter.

Arguments for and against the creation of a State Aviation Commission were presented and are herewith presented in condensed form:

That aviation should not be hampered by State or trade barriers.

That the industry is not opposed to constructive aviation legislation.

That as far as possible uniform State laws should be enacted, conforming as closely as possible to local conditions.

That State and local police officials should be given authority to enforce State and Federal safety measures pertaining to aviation.

That safety regulations promulgated by the U. S. Civil Aeronautics Authority should not be duplicated with State laws.

That the expense of a State agency or department might outweigh the benefits involved.

That in order to provide proper zoning for airports, provisions must be made by law to give some State agency such authority. That the Public Service Commission should not be given authority to regulate rates or tariffs.

That any revenue derived from special taxes, license, or fees levied against the industry should be expended solely for the support of the industry.

That a State Aviation Commission, if created, should have licensing powers in order to protect responsible fixed base operators against encroachment of transient operators.

That a State Commission should have authority to revoke licenses of aviators in order to protect the public from those nuisance flyers.

The above excerpts of statements given at the hearing are only a few of the many suggestions offered and the general trend of the ideas presented were that the industry wanted the State to set up a commission that would concentrate on an assistance program to the industry rather than a regulatory body. It was very evident that the industry representatives were hesitant about all-out approval of the creation of a State Board for fear that the Board or Commission would have a political complex, and that any special taxes levied for its support would only be an opening wedge for increases in special taxes that would be used for purposes other than support of the aviation industry.

There was general agreement that the State of Nevada should have a State Commission with authority to cooperate with the Federal Government in order for the State to participate in the Federal program of airport construction and maintenance and to encourage and assist local communities and private operators to build small inexpensive fields and landing strips to suit the needs of the communities throughout the State.

After reviewing all of the testimony presented at the hearing as well as the many letters received and information obtained by direct contact, pertaining to this subject, your interim committee presents to the Legislature a four-point conclusion as follows:

1. Airport expansion.
2. Airport zoning.
3. Airport condemnation.
4. State Aeronautics Commission.

(1) Airport expansion in the State of Nevada is as inevitable as the expansion of our State highway program. At the present time Nevada has no organization set up by Statute that has power to cooperate with the Federal Government in the expenditure of Federal funds. We are of the opinion that in the future all Federal funds expended for airport expansion will be on a matching basis, and that the various communities in the State will require the assistance of some State agency in an advisory capacity to bring about a coordinated system of airport expansion.

It is our belief that the State should not enter into the field of financing airport construction or expansion only to the extent of safety strips in remote areas, but should render all possible advisory assistance to its communities and to its citizens in their airport problems. We believe that this program should be kept separate from our highway program and no attempt should be made to saddle the State Highway Department with additional duties such as would be required by a State Commission of Aeronautics.

The Federal Airport Act approved by Congress May 13, 1946, states: "Nothing in this Act shall authorize the submission of a project application by any municipality or other public agency which is subject to the law of any State if the submission of such project application by such municipality or other public agency is prohibited by the law of the State."

The State of Nevada is interested in an adequate system of public airports, intelligently planned, efficiently administered and economically financed, and only through proper supervision of a State agency with Federal cooperation can such a program be accomplished.

(2) Airport zoning is as important a subject as any other phase of airport construction or expansion, and should the Legislature enact legislation creating a State Aeronautics Commission, such legislation should embody regulations granting the commission and/or municipalities authority to provide for proper zoning of municipal or public airports. This authority should provide

the right to administer and enforce airport zoning regulations, limiting the height of structures and objects of natural growth, and otherwise regulating the use of property, in the vicinity of airports, and to acquire, by purchase, grant, or condemnation, air rights and interests in land; to provide penalties and remedies for violations of such an Act or of any ordinance or regulation made under the authority conferred by law.

Any reference to airport zoning in a proposed Act should further provide for State-Federal cooperation.

(3) The Federal Airport Act of May 13, 1946, authorizes an extensive program of Federal-aid airport development which will entail an expenditure by the Federal, State, and local governments of approximately one billion dollars, designed to double the number of airports in the country in the next seven years, and to expand many of the existing airports.

In the case of many of the projects to be undertaken it will be necessary that the State, city, county, or other public agency acquire considerable land, often by condemnation proceedings.

We respectfully suggest that any proposed legislation contain provisions that will permit the political subdivision of the State or a State Commission having authority to establish and operate publically-owned airports, be granted authority to condemn land for airport purposes, and to take possession at an early stage of the proceedings, prior to judicial determination of the amount of the award.

(4) Your Interim Committee recommends that the State of Nevada create a State Aeronautical Commission, with powers sufficient to permit it to promote airport development and expansion in the State and to deal with certain phases of airport safety regulation in harmony with Federal air law and in cooperation with the Federal aeronautical agencies; permit the State and its political subdivisions to participate fully in the new Federal aid program of the Civil Aeronautics Administration, both by making available special tax levies and other assistance to municipalities for airport purposes.

It is our recommendation that such a State board or commission should consist of five members, appointed by the Governor of Nevada. This commission should have as its members only those persons who are interested in the aeronautical industry, and should be separate and apart from any other State agency. One member should represent the private flyers, one the commercial flyers, one the fixed-base operators, one the licensed airplane and engine mechanics, and one member should represent the scheduled airline operators. This five-man board to serve without pay and to receive compensation only for actual expenses while attending meetings of the commission.

This commission should have authority to employ a paid executive director, who would be empowered to carry out the provisions of all rules and regulations laid down by the commission.

The commission should have additional authority, by law, to carry on contractual relations with the State Highway Department for maintenance of airport and construction of roadside safety landing strips in remote areas, said Highway Department to be reimbursed from commission funds for such maintenance and construction work.

In order for the commission to function at an early date we would ask the State Legislature to appropriate the sum of ten thousand dollars from the General Fund, with the proviso that this sum of money is to be returned by the Aeronautical Commission to the State Treasury within a period of one year. Self-financing of this commission by the aeronautical industry is one of the objectives sought by your Interim Committee in order that no request for funds will ever be made upon the State of Nevada by the commission. This can be accomplished by enacting into law a statute that will give the Nevada Tax Commission authority to turn over to the Aeronautical Commission two cents out of each four cents of gasoline tax that is now being remitted to the aviation industry for nonhighway use by the Tax Commission. This two-cent-per-gallon gas tax on aviation fuels should support the Aeronautical Commission in a creditable manner, and give it sufficient funds to be

of material aid to the present needs and future expansion of aviation industry in the State of Nevada.

Your Interim Committee trusts that the enclosed material will be of assistance to the members of the Legislature in accepting or rejecting legislation that will be proposed during the Forty-third Session.

WENLOCK FREE,
Chairman of Assembly Interim Committee.

Mr. Speaker appointed Mr. Wines and Mr. Bisoni to invite the Governor and other State Officials to attend the ceremonies of Boy Scout Day on Thursday, February 13, 1947, at 10 a. m.

Mr. Higgins moved that the report of the Interim Committee on Aviation be accepted.

Remarks by Mr. Boak.

Motion carried.

FRATERNAL ORDER OF EAGLES
CARSON AERIE, No. 1006

CARSON CITY, NEVADA, February 12, 1947.

CHIEF CLERK, *Assembly Chambers, Carson City, Nevada.*

DEAR SIR: As you know, Carson Aerie No. 1006, Fraternal Order of Eagles, will celebrate its 42d anniversary Tuesday evening, February 18th. We start with a free banquet for all members at our hall, at 6:30 p. m. Immediately following the banquet the Aerie meeting will open and a large class of candidates will be initiated, the class to be known as the "Anniversary Class." Following the meeting the hall will be thrown open for card games—poker, solo, etc.

We are anxious to have with us that night the members of both the Assembly and Senate who are members of the Fraternal Order of Eagles. This also applies to any of the attachés who may be Eagles.

Not being in a position to ascertain who are Eagles in the Legislature, I am taking the liberty of writing to you and would respectfully ask if you would pass this information along as best you can in both Houses of the Legislature.

Thanking you for your assistance, we are,

Fraternally yours,

CARSON AERIE 1006, F. O. E.,
OLIVER PRATT,
Secretary.

SECOND READING AND AMENDMENT

Assembly Bill No. 8.

Bill read second time.

The following amendments were proposed by the Committee on Ways and Means:

Amend section 179, page 112, line 29, by striking after the word

"fund" all of lines 29 to 31, inclusive, on page 112, and lines 1 and 2, on page 113, and inserting in lieu thereof the following:

The superintendent of public instruction is hereby empowered to establish uniform rules to be used in calculating the average daily attendance of pupils for all public schools in the state. It shall be the duty of the superintendent of public instruction, immediately after the state controller shall have made his semiannual report, to apportion the state distributive school fund among the several counties of the state in the following manner:

Amend section 179, page 114, line 9, by striking after the word "attendance," all of lines 9 to 14, inclusive, and inserting in lieu thereof the following:

The state board of education may prescribe additional rules and regulations under which pupils may be excused from attendance and may be credited with attendance during the period for which such pupils may have been excused.

Amend section 180, pages 114–118, by striking all of said section 180 and substituting in lieu thereof the following:

SEC. 180. *Further Provision for Apportionment of State Distributive School Fund After Emergency Fund, State School Reserve Fund, and State School Research Fund Are Set Aside — Minimum Salary for Certificated Employees.* It shall be the further duty of the superintendent of public instruction, immediately after the state controller shall have made his semiannual report, to apportion the state distributive school fund among the several counties in the state in the following manner:

1. *Emergency School Fund, State School Reserve Fund, and State School Research Fund.* After setting aside the sum of five thousand ($5,000) dollars as the emergency school fund, and not more than thirty thousand ($30,000) dollars as the state school reserve fund, and not more than seven hundred and fifty ($750) dollars as the state school research fund, in the manner provided in section 183 of this school code, he shall, beginning with July 1, 1947, and semiannually thereafter, apportion the state distributive school fund, subject to apportionment at the time, among the several counties of the state in the following manner:

2. *Apportionment of Balance in State Distributive School Fund.* (a) *Teacher Basis.* After complying with the provisions of paragraph 1 of this section, the superintendent of public instruction shall apportion from the state distributive school fund among the several counties of the state in the following manner: He shall apportion eight hundred eighty-seven dollars and fifty cents ($887.50) for each teacher to which the county is entitled as provided in paragarph 1 of section 179 hereof; *provided,* that failure on the part of the board of trustees of any school district to pay a minimum annual salary of two thousand four hundred ($2,400) dollars to every full-time employee who is required to hold a Nevada teacher's certificate, or failure on the part of any such school board to utilize for the payment of salaries of such

certificated employees the full amount of the apportionment for each teacher as herein provided, shall result in the forfeiture of all of the next semiannual state apportionment for each teacher to which such district may be entitled under the provisions of this act.

(b) *Pupil Basis.* He shall apportion on a per capita basis from the state distributive school fund not more than eight ($8) dollars for each pupil in average daily attendance, as shown by the last preceding annual school report.

3. *Apportionment of State School Reserve Fund.* Whenever the county commissioners of any county shall have levied, for elementary school purposes, exclusive of bond interest and redemption, a county tax of at least thirty-five cents (35¢) on the one hundred ($100) dollars assessed valuation of the taxable property in the county, if such levy does not produce for the county school fund of such county an amount of money sufficient to make the minimum county teacher and pupil apportionments provided for in section 181, paragraph 1, (a) and (b) of this act, the superintendent of public instruction shall apportion to said county from the state school reserve fund such a sum of money as when taken with the amount produced by the said county tax levy of thirty-five cents (35¢) on the one hundred ($100) dollars assessed valuation on said property will be sufficient to make the minimum county teacher and pupil apportionments required by law for such county for elementary school purposes.

4. Newly established school districts which have not been in operation for one (1) year, and therefore have had no average daily attendance during the preceding school year, shall be allowed funds from the state distributive school fund at the time of the regular semiannual apportionment on the basis of the number of resident pupils of school age listed on the verified petition filed by their parents with the county commissioners for the establishment of the district.

5. The legislature shall appropriate out of the moneys in the general fund of the state treasury, for deposit in the state distributive school fund, sufficient funds to carry out the provisions of this chapter.

Amend section 181, pages 118–122, by striking all of said section 181, and substituting in lieu thereof the following:

SEC. 181. *County School Fund Apportionment — Apportioned to District School Fund — Minimum Salary of Certificated Employees — Duties of County Treasurer and Auditor — Duties of County Commissioners—Reversions—Report of Apportionment to Certain Officers.* 1. The superintendent of public instruction shall apportion the county school fund belonging to each county among its several districts as follows:

(a) *Teacher Basis.* He shall apportion to each school district in the several counties of this state three hundred twelve dollars and fifty cents ($312.50) semiannually as such money is available from the county school fund for that county for each teacher to which said district is entitled on the basis provided in section 179, paragraph 1 of this act; *provided*, that failure on the part of the board of trustees of any school district to pay a minimum annual salary of two thousand

four hundred ($2,400) dollars to every full-time school employee who is required to hold a Nevada teacher's certificate, shall result in the forfeiture of all of the next semiannual apportionment to which such district may be entitled under the provisions of this chapter.

(b) *Pupil Basis.* He shall further apportion to each district one ($1) dollar for each pupil in average daily attendance as shown by the attendance reports for the last preceding school year.

(c) *Balance of County School Fund — How Apportioned.* He shall apportion among the school districts in each county the balance remaining in the county school fund of that county on a per capita basis in proportion to the number of pupils in average daily attendance as shown by the last preceding annual school report on file in the office of the superintendent of public instruction.

(d) *Joint School District — Apportionment on Same Basis.* He shall apportion the amounts of money due any joint school district formed of parts of two (2) or more counties in such manner that the counties affected and the state shall each contribute the regular amounts per pupil in average daily attendance as specified in this school code; and the money due such district on the teacher basis shall be apportioned in proportion to the number of pupils in average daily attendance residing in that part of said joint district lying within each of the respective counties.

(e) *District School Fund Defined—Use of.* The moneys apportioned to each school district under the provisions of this school code, together with any moneys raised by special district school tax for school maintenance or derived from any other source, shall be known as the district school fund of such school district, and may be used to purchase sites, build or rent schoolhouses, purchase libraries, pay salaries or contingent expenses, the transportation of pupils to and from school and elsewhere in connection with school activities as provided for in chapter 24 of this school code, and for such other purposes as are authorized by this school code. If such expenditures do not curtail the established school program or make it necessary to shorten the school term, said school board may expend school funds for the establishment and maintenance of school lunch projects for pupils; and each pupil so furnished such lunch whose parent or guardian is financially able so to do shall pay at least the actual cost of such lunch.

(f) *Separate Accounts for Each School District — County Treasurer and County Auditor to Keep in Their Books.* The county treasurer and the county auditor of each county shall keep a separate account of said moneys as a single fund for each school district within their respective counties.

2. *County School Tax Levy — Amount — Board of County Commissioners to Levy.* It shall be the duty of the board of county commissioners of each county not later than the April meeting thereof each year, at the time of levying their county taxes, after considering the needs of the several school districts within its county as shown by the school budgets submitted as required by law, to levy a county school tax sufficient to provide six hundred twenty-five ($625) dollars per

apportionment teacher and not less than two ($2) dollars per pupil in average daily attendance, subject, however, to the provisions of paragraph 3 in section 180 of this school code.

3. *Special District School Tax — When.* Whenever, in the judgment of the school board of any school district, the school moneys regularly provided for such district for the coming school year will not be sufficient to maintain its school properly and for a sufficient number of months, said board shall have the power to direct that a tax of not more than twenty-five cents (25¢) on each one hundred ($100) dollars of the assessed valuation of all taxable property in such district shall be levied, and, upon notification by the clerk of such school board of such district that such action has been taken, the board of county commissioners of the county within which such district shall be located shall levy and cause to be collected such tax upon all the taxable property in such district.

4. *Reversion of Remainder.* On the 30th day of June and the 31st day of December, respectively, of each year, any money remaining in the state school reserve fund shall revert to the state distributive school fund.

5. *Notice of Apportionment by Superintendent of Public Instruction.* The superintendent of public instruction shall by means of a written report, notify the county treasurer and the county auditor of each county of such apportionment in detail.

6. *School Insurance Fund Set Aside.* The county treasurer of each county shall, quarterly, and before notifying the superintendent of public instruction of the amount of the county school fund to be apportioned, set aside from the county school fund an amount equal to one half (½) of one (1%) percent of all salaries paid to all employees of each and every school district of his county during the immediately preceding six (6) months, and credit the same to the school insurance fund, the purpose of said school insurance being to cover industrial insurance.

(a) The amount certified to the superintendent of public instruction for apportionment shall not include the school insurance fund so set aside.

(b) The county auditor shall semiannually, during the months of January and July, draw his warrant in favor of the Nevada Industrial Commission for an amount equal to that mentioned within this paragraph to be paid out of the insurance fund.

7. Newly established school districts which have not been in operation for one (1) year and therefore have had no average daily attendance during the preceding school year shall be allowed funds from the county school fund at the time of the regular quarterly apportionment on the basis of the number of resident pupils of school age listed on the verified petition filed by their parents with the county commissioners for the establishment of the district.

Amend the bill as a whole by adding five new sections to be known as Sec. 181.01, Sec. 181.02, Sec. 181.03, Sec. 181.04, and Sec. 181.05, said sections to read as follows:

SEC. 181.01. *State High School Fund How Constituted — Purpose of.* All moneys derived from special appropriations and from other sources for the purpose of this act, shall be placed in and constitute a fund to be known as the state high school fund, to be apportioned semiannually among the several high schools of the state in the manner provided in this chapter.

SEC. 181.02. *State High School Fund — Duties of State Controller and State Treasurer in Connection Therewith.* The state controller and the state treasurer shall keep a separate and distinct account of the state high school fund, including all moneys derived from special appropriations or otherwise for the state support of high schools.

SEC. 181.03. *Uniform Rules To Be Established for Distribution of State High School Fund.* The superintendent of public instruction is hereby empowered to establish uniform rules to be used in calculating the average daily attendance of pupils for the purpose of distributing the high school fund provided for in this chapter.

1. He shall calculate the number of high school teacher units for each county in the following manner:

(a) In each high school, for the first ten pupils, or major fraction thereof, in average daily attendance, as shown by the attendance report for the last preceding school year, there shall be allowed one high school teacher unit; *provided,* that any county high school having an average daily attendance of ten pupils or more, as shown by the attendance report for such county high school for the last preceding school year, shall be allowed one additional high school teacher unit, if such school has regularly employed two teachers during the last preceding school year or since the last preceding semiannual apportionment of the state high school fund.

(b) In each high school, for each fifteen pupils, or major fraction thereof, of the next ninety pupils in average daily attendance, as shown by the attendance report for the last preceding school year, there shall be allowed one teacher unit.

(c) In each high school, for each twenty pupils, or major fraction thereof, of the next two hundred pupils in average daily attendance, as shown by the attendance report for the last preceding school year, there shall be allowed one teacher unit.

(d) In each high school, for each twenty-five pupils, or major fraction thereof, in excess of three hundred pupils in average daily attendance, as shown by the attendance report for the last preceding school year, there shall be allowed one teacher unit.

2. Any teacher, principal, or superintendent who shall knowingly report, cause to be reported, or permit to be reported, as attending high school, any pupil not in actual attendance, shall forfeit his certificate or subject it to revocation, and the same shall not be restored or a new certificate granted within one year after such forfeiture or revocation; *provided,* that the state board of education may prescribe rules and regulations making exceptions under which pupils may be excused from attendance and may be credited with attendance during such expected period of attendance.

SEC. 181.04. *Apportionment of State High School Fund.* It shall be the duty of the superintendent of public instruction, beginning with July 1, 1947, and semiannually thereafter, to apportion the state high school fund among the several high schools of the state in the following manner:

1. He shall apportion semiannually to each high school in the several counties of this state the sum of three hundred fifty ($350) dollars for each high school teacher unit as herein defined, which said sum shall be the basic apportionment as defined by this act; *provided,* that failure on the part of the board of trustees or the board of education of any high school to pay a minimum annual salary of two thousand four hundred ($2,400) dollars to every full-time employee of such high school who is required to hold a Nevada teacher's certificate, shall result in the forfeiture of all of the next semiannual basic apportionment herein provided for.

2. Whenever the amount that would be realized from a thirty-five (35¢) cent tax, if levied upon each one hundred ($100) dollars of assessed valuation in any county, would be insufficient to produce the sum of one thousand four hundred ($1,400) dollars semiannually, for each high school teacher unit within the county, then and in that event the superintendent of public instruction shall apportion semiannually from the state high school fund to each high school within that county, an equalizing apportionment, the amount of which shall be determined in the following manner:

(a) He shall subtract the amount that would result from a thirty-five (35¢) cent tax, if levied on each one hundred ($100) dollars of assessed valuation in the county, from the amount necessary to provide (exclusive of the basic apportionment provided for in subsection 1 of section 181.04) one thousand four hundred ($1,400) dollars semiannually, for each high school teacher unit in the county, as such unit is defined by this chapter.

(b) He shall divide the difference thus obtained by the total number of high school teacher units in the county, which quotient shall be the equalizing apportionment for each high school teacher unit in the county.

(c) He shall apportion, semiannually, to each high school in any county, eligible for equalizing apportionments, the semiannual equalizing apportionment for each high school teacher unit to which each high school may be entitled at that time, as calculated from the attendance reports for the last preceding school year and as determined in (a) and (b) of paragraph 2 of this section; *provided,* that no high school, in any county shall receive any equalizing apportionment, as defined and provided for herein, unless a total county and/or district tax of thirty-five (35¢) cents has been levied and collected for high school purposes; *provided,* that failure on the part of the board of trustees or the board of education of any high school to pay a minimum annual salary of two thousand four hundred ($2,400) dollars to every full-time employee of such high school who is required to hold a Nevada teacher's certificate, or failure on the part of any such board

to utilize for the payment of salaries of such certificated employees the full amount of the apportionment herein provided, shall result in the forfeiture of all of the next semiannual equalizing apportionment herein provided for.

SEC. 181.05. *Legislature to Appropriate Moneys to State High School Fund.* There shall be appropriated, at each session of the legislature, out of moneys in the general fund of the state treasury to the state high school fund, sufficient funds to carry out the provisions of this chapter.

Amend section 447, page 256, by striking out all of lines 18 and 19, and substituting in lieu thereof the following words: "from the distributive school fund for the period July 1, 1947, to and including June 30, 1949, the sum of fifteen thousand ($15,000) dollars to carry out the."

Mr. Fairchild moved the adoption of the amendments.

SECOND READING AND AMENDMENT

Assembly Bill No. 64.

Bill read second time.

The following amendments were proposed by the Committee on Fish and Game:

Amend section 11, page 9, line 2, by inserting after the word "game" the word "laws."

Amend section 11, page 9, line 14, by adding a new sentence after the period at the end of the line, as follows: "The County Commissioners shall also transfer to the State of Nevada for use by the State Fish and Game Commission any vehicle or vehicles used by county game wardens in the performance of the duties of said wardens, provided that such vehicles were paid for out of the fish and game funds of the respective counties owning such vehicles and that their acceptance is approved by the Fish and Game Commission; *provided, however,* that nothing herein shall be construed to require the transfer of any trucks or vehicles used in conjunction with any county fish hatchery or the planting of fish therefrom."

Amend section 13, page 10, line 10, by adding a period after the word "board," and striking the remaining words in line 10, and all the words in lines 11 to 22, inclusive, up to and including the word "years" in line 23 and substituting therefor the following: "Two of these members shall be appointed for the period expiring December 31, 1948, and one member shall be appointed for the period expiring December 31, 1950. The Boards of County Commissioners in the respective counties shall fill by appointment the positions on the County Game Management Boards at such times as the terms of office of the members shall expire; *provided, however,* that upon the filing of a petition containing the signatures of ten percent (10%) or more of the qualified electors who voted for the office of District Attorney in any county at the last general election within thirty (30) days preceding the last day for filing of declaration of candidacies as in any

general election, requesting that the members of the Game Management board be elected, the County Clerk shall declare an election to fill the vacancies on the board resulting from the expiration of the regular terms of the members on such board, and shall accept nominations of candidacies for these positions and shall place the names of the candidates on the regular general election ballot, doing all things that are necessary and required in such matters under the general election laws. Such duly elected members of the board shall be chosen on a nonpartisan ballot and shall be elected to serve for a term of two years. If on or before July 1 of the year that the terms of the elected board members shall expire, no petition has been filed requesting an election of board members, as heretofore provided, then the Board of County Commissioners shall appoint two members to fill the vacancies on the Game Management Board at the expiration of the terms of the elected members."

Amend section 27, page 16, line 19, by substituting a semicolon for the period at the end of the line and adding the following words: "provided further, that no permit or inspection shall be required to take carp or other coarse fish during any open season on game fish in said waters."

Amend section 36, page 20, lines 7 and 8, by striking the words and figures "or ten (10) channel catfish" as they appear in the two lines.

Amend section 36, page 20, lines 9 and 10, by striking all the words and punctuation in line 9 after the word "number," and all the words in line 10, and substituting therefor the following: "of other game fish provided they shall weigh in the aggregate not to exceed ten (10) pounds. Regardless of weight, at least five (5) trout may be taken."

Amend section 47, page 24, line 28, by inserting after the first word "game" the word "laws."

Amend section 49, page 26, line 12, by inserting the following sentence after the period at the end of the line: "The County Clerk, by and with the approval of the State Commission, is authorized to allow any agent who has been designated by the County Game Management Board to issue licenses, a commission of not to exceed five percent (5%) of the total proceeds collected from issuance of such licenses."

Amend section 51, page 28, line 18, by adding a new sentence after the period at the end of the line, as follows: "Licenses as required in this section shall be in possession, upon the person of the holder thereof at all times while engaged in hunting, fishing, and/or trapping."

Amend section 59, page 30, line 6, by substituting a comma for the period at the end of the line and by adding the following words: "or migratory birds with any shotgun capable of holding more than three (3) shells."

Amend section 63, page 32, line 6, by striking the word and figures "thirty (30)," and substituting therefor the word and figures "sixty (60)."

Amend section 69, page 34, lines 12 and 13, by striking the words and

figures "or any center-fire rifle of caliber .25-20," and substituting in lieu thereof, the words: "or any .22 High Power, .218 Bee, and .219 Zipper rifle."

Amend section 75, pages 35 and 36, by striking all of the words in the section and substituting therefor the following: "SEC. 75. It shall be unlawful for any person to hunt or trap any beaver or otter in the state; *provided,* that when beaver (or otter) are doing actual damage to farms, ranches, or other property in the state, request for removal or control of such beaver (or otter) may be made by the land owner to the State Fish and Game Commission through its designated office for receipt of such requests, and the commissioners or their agent shall immediately after receipt of such request, make a full investigation of the land reported as being damaged and shall file a report showing the conditions with respect to the location and number of beaver (or otter) and the extent of the damage to such property, together with a recommendation for proper control measures, copies of such report to be forwarded to the State Fish and Game Commission at its principal office and to the land owner who has requested relief under this section. If, by such investigation, the Fish and Game Commissioners or their agent shall determine the necessity for trapping any or all of the beaver (or otter) complained against, then the agent of the commission or a State trapper, who may also be the agent, shall proceed to trap such beaver (or otter) as are deemed necessary, and to take their pelts, or otherwise dispose of the animals complained against; *provided,* that nothing in this Act shall prohibit the State Fish and Game Commission, through its agent, from trapping beaver (or otter) and selling the furs therefrom when such removal of these animals will in no way impair the supply of beaver (or otter), even though there may be no complaint of damage filed by a private land owner, as provided herein. Whenever the Fish and Game Commission through its agent shall trap beaver (or otter) from any privately owned land, either on written request of said land owner or by decision of the commission as heretofore provided, and shall sell the furs of such animals, one fourth (1/4) of the gross proceeds received from disposal of the furs shall be paid to the owner of the private lands from which the beaver (or otter) were taken, and the commission shall retain three fourths (3/4) of the proceeds; *provided, however,* that the land owner may elect to take his share of the proceeds in the form of pelts from the beaver (or otter) so trapped, such pelts to be properly marked by the State trapper or agent in compliance with Federal regulations to permit shipment by the holder thereof. Any pelts of beaver (or otter) not so marked and which shall be found in possession of any individual, person, firm, or corporation, shall constitute prima-facie evidence of violation of the prohibitions contained in this section. Nothing in this section shall be construed to prohibit a State trapper or the agent of the Fish and Game Commission from live-trapping and removing from the public domain or from the Federal forest lands within this State as many beaver (or otter) as will not endanger the supply thereof, and removing such

beaver (or otter) to another location within the State."

Amend section 84, page 42, line 6, by striking the words "one or" as they appear in the line.

Amend section 86, page 43, line 8, by striking the word and figures "thirty (30)," and substituting therefor the word and figures "sixty (60)."

Amend section 86, page 44, line 12, by substituting a semicolon for the period at the end of the line and adding the following words: "*provided,* that neither the commission nor its agents shall be held liable in any way for delay or loss in the mails of any application, license, money, draft, or other matter forwarded to the commission or its agents or forwarded by the commission and/or its agents to applicants for licenses or deer tags under the provisions of this Act."

Amend section 86, page 46, by adding a new paragraph at the end of the section to be known as paragraph (j), to read as follows: "(j) When any deer hunter shall kill a deer which he has reason to believe is diseased and unfit for human consumption, he must place his duplicate license tag on the carcass in the manner provided herein, but, upon inspection of such carcass by a duly authorized game warden, such a hunter may be authorized by the warden to obtain another duplicate tag and shall be permitted to kill another deer if the warden shall have found by his inspection that the first deer killed was in fact diseased and unfit for human consumption."

Amend section 87, page 47, line 8, by striking the words "have not to exceed sixty days," and substitute therefor the following: " , within thirty (30) days after close of any season, obtain a permit from the State Fish and Game Commission and then may have not to exceed six (6) months."

Further amend section 87, page 47, by adding after the word "same," in line 9, and before the semicolon the following words: "during which time any State warden shall have authority to examine the fish or game so held."

Further amend section 87, page 47, by substituting a period for the comma at the end of line 16, and striking all the words in lines 17 and 18.

Amend section 90, page 49, line 3, by inserting the word "may" before the word "cause" as it appears in the line.

Amend the bill as a whole by adding a new section after section 87, page 47, to be numbered section 87½, and to read as follows:

"SEC. 87½. (a) Any person who, at any time, captures or destroys any game animal, except fur-bearing animals, of this State, and detaches or removes from the carcass only the head, hide, antlers, horns, tusks, or any or all of the aforesaid parts, shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than fifty ($50) dollars nor more than five hundred ($500) dollars, or by imprisonment in the county jail of the county wherein such unlawful act was committed for a period of not less than twenty-five (25) days nor more than six (6) months, or by both such fine and imprisonment.

(b) Any person who, at any time, leaves through carelessness, neglect, or otherwise, any game bird, game animal, or game fish or an edible portion of same to needlessly go to waste, shall be guilty of a misdemeanor."

Amend the bill as a whole by adding a new section after section 88, page 47, to be known as section 88½, to read as follows:

"Sec. 88½. The State Fish and Game Commission shall be empowered to authorize, under permit, competitive field trials for hunting dogs, and shall prescribe the rules and regulations to be followed by those in charge of such trials insofar as conduct of the field trials has any effect or bearing upon the supply of game and the laws of this State respecting closed and open seasons. For the purpose of permitting such field trials the commission may authorize shooting of upland game birds during any closed season on the species of bird or birds to be hunted, and shall make provisions for the restocking of such game birds by those conducting the field trials."

Amend the bill as a whole by adding a new section after section 89, page 47, to be known as section 89½, to read as follows:

"SEC. 89½. It shall be unlawful to catch or kill the desert tortoise or terrestrial turtle in the State of Nevada."

Amend the bill as a whole by adding a new section after section 101 on page 51 of the printed bill, to be known as section 102, to read as follows:

"SEC. 102. That certain Act of the Legislature of the State of Nevada entitled "An Act to provide for the protection of muskrats, and to license and regulate the trapping thereof," approved March 26, 1929, and all Acts amendatory thereof or supplemental thereto, are hereby repealed."

GENERAL FILE AND THIRD READING

Assembly Bill No. 120.

Bill read third time.

Mr. Jepson moved the adoption of the following amendments:

Amend the bill as a whole on page 2, following line 19, by inserting a new section 3 which shall read as follows: "SEC. 3. The county of Washoe is hereby divided into three Assembly Districts, as follows: All that portion of Washoe County lying north of Reno, and including the voting precinct of Wadsworth, shall be known as Assembly District No. 1, with one Assemblyman to be elected at large. Voting precincts of Sparks, as established by the County Commissioners of Washoe County, shall be known as Assembly District No. 2, with two Assemblymen to be elected at large. All that portion of Washoe County known as the voting precincts of Reno and Verdi, and all that portion of the county of Washoe south of the city of Reno, shall be known as Assembly District No. 3, with seven Assemblymen to be elected at large. At each election held hereafter at which Assemblymen are to be elected, or nominated for election from said county, there shall be elected or nominated by the qualified electors of Assembly District No. 1, one Assemblyman at large; Assembly District No. 2, two Assemblymen at large; Assembly District No. 3, seven Assemblymen at large. The County Commissioners of Washoe County shall,

prior to all elections and as provided by law, establish the polling places within said county in such manner that each and every polling place for all elections at which any Assemblymen are to be elected, or nominated for election, shall be wholly within some one of said Assembly Districts, and any establishment of a polling place for any such election which lies partly in two or more Assembly Districts shall be wholly null and void."

REPORT OF THE SUBCOMMITTEE OF EDUCATION AND THE UNIVERSITY OF NEVADA

This report is the result of many hours spent conferring with various persons connected with, or interested in, the University of Nevada. Among those contacted and questioned were John Moseley, President; Charles Gorman, Vice President; Silas Ross, Chairman of the Board of Regents; Chris Sheerin and John Cahlan, members of the Board of Regents; various members of the faculty; several of the Deans and Department Heads; students from all three colleges; and many of the alumni of the University of Nevada.

The problems were approached from as many angles as possible, considering the limited time and means available. Following is the list of the "sore spots" as they exist today in order of their importance:

1. There should be more cooperation between the Board of Regents and the Legislature. The Regents and Administration have lost the confidence of the legislative bodies. Likewise, the Legislature has lost the confidence of the Regents and the Administration.

The requests for the University and reports of the University should be

made so that the layman can see what will happen in the event that requests are granted, and what will happen in the event that they are rejected.

The Legislature should expect a detailed report on money appropriated for the previous biennium at each session of the Legislature.

2. The College of Agriculture is the "sore thumb" of the University. It is at the bottom of a many year down trend. It has the smallest and most inadequate faculty on the campus. The Dean is Dean in name only, and has nothing to do with the course of study prescribed and the students enrolled. He is allowed to give only a scant 30 percent of his time to the College of Agriculture; 70 percent of his time is given to the Extension Service.

There is no cooperation between the Dean of the College and the Director of Resident Teaching. Further, there is no cooperation between the Director of Resident Teaching and the Superintendent of the University Farms.

The laboratory facilities are the poorest in the University. At one time the University had a class A dairy lab on the campus. The students operated it, made cheese, ice cream, butter, pasteurized milk, etc., and supplied the University dining hall and faculty with milk products. The University had a well-equipped farm and prize-winning livestock.

The Home Economics School needs a model house and more space. Only a small amount of money is necessary to make this a good school.

The University owns two farms in the Reno vicinity and has a Superintendent of Farms. Yet, these farms and the services of Mr. LeGrand Walker, Superintendent, are not available to students of the College. The Agricultural students now enrolled have never used the facilities and livestock on the Ladino farm for laboratory and judging purposes. This is not because they are not available. Mr. Walker is a competent superintendent and has operated farms at other colleges and has also been an instructor in dairying. His services were not included in the report on the College of Agriculture.

These conditions can be corrected by obtaining a new Dean of the College of Agriculture, who shall have had several years' experience teaching agriculture, and is familiar with Nevada conditions and types of farming. His office should be located in the Agriculture Building. He should have an adequate faculty, including the Superintendent of Farms. The College should be operated as a unit, with the Dean as the head and responsible to the President of the University. The Dean of the College should prescribe the courses of study, register, accept, and reject the students, and finally sign the degrees earned by the students.

If the Legislature can be assured by the President and the Board of Regents that these corrections will be made, they should appropriate the necessary money.

Since Agriculture is one of Nevada's leading industries, Nevada should have a first class College of Agriculture.

3. All of the money asked for, for salary raises for the faculty and additions to the faculty is necessary and should be a must on our program. This is also true of equipment. After all, the best college graduate is the result of a good student, plus the best faculty and the best equipment.

4. The additional buildings requested are necessary. The building program as presented is a necessity. We should appropriate or issue bonds for as much of this program as possible.

5. An Act should be passed to enable the Regents to divert the present $350,000 building fund for the purpose of constructing a new heating plant. This should be done before any new buildings are constructed.

6. An enabling Act should be passed that would authorize the University to participate in any Federal Aid that may be offered in the future. At present it seems that the United States Government may subsidize the University to the extent of the difference in cost of construction at present and the cost for the same construction in 1941.

7. It is recommended that more emphasis be placed on the practical side of education; in other words, more emphasis should be placed on concrete

knowledge that can be used in competition with other graduates for jobs and positions in life.

8. Research work and the work of the Experiment Station should all pertain to the State of Nevada, and the results should be made available to the Students of the University of Nevada, and to the people of Nevada.

9. With additions to the faculty and the installation of new equipment, the schools of the College of Engineering should all be accredited schools. Since mining is one of Nevada's greatest industries, emphasis should be placed on the School of Mines.

10. The age limit for Deans and Department Heads should be lowered to 60 years. This would permit younger men, with more ambition, to head the various schools and departments.

This should not be construed as to mean that these men cannot remain a part of the faculty as professors and instructors until the regular retirement age is reached.

11. Looking at the University of Nevada as a whole, and with an eye to the future, it is recommended that no new courses and departments should be created. This does not include departments and courses of study dropped during the war.

Every effort should be made to strengthen and better the present schools and colleges, and to make the University a top-notch institution, with emphasis on mining and agriculture, Nevada's greatest industries.

Contrary to rumors prevalent, the members of the Nevada Legislature desire to make the University of Nevada one of the best Universities in the Nation. They realize that the Board of Regents are elected to form the policies. They also realize that the University is their responsibility, inasmuch as it is a part of the State of Nevada. The Legislature, in appropriating money for the University, asks only that assurance be given that the money will be spent as it was intended to be spent, and that in the end Nevada's young men and women will have access to a college of education that ranks with the best.

HAROLD J. JACOBSEN, *Chairman.*
J. M. HIGGINS.
O. D. JEPSON.

Mr. Higgins moved that the report be accepted by the Assembly.

Motion carried.

Mr. Jacobsen moved that two hundred copies of the Report of the Sub-Committee of Education and the University of Nevada be printed.

Motion carried.

Amend section 23, page 14, line 16, by inserting before the word "shall" the following: "or the petitioner."

Amend section 24, page 15, line 11, by inserting after the word "officer" the following "or any other suitable person."

Amend section 35, page 18, line 20, by striking the words "and probation."

Amend the bill as a whole by inserting on page 12 at the end of article IV and of section 21, a new section 21.1, which shall read as follows:

Section 21.1. The district courts in this state shall have authority to appoint any number of discreet persons of good moral character to serve as probation officers during the pleasure of the court; said probation officers shall receive no compensation from the county treasury except as herein provided. It shall be the duty of the clerk of the court, if practicable, to notify the said probation officer when any child is to be brought before the court; it shall be the duty of such probation officer to make investigation of such case; to be present in the court to represent the interests of the child when the case is heard; to furnish such court such information and assistance as the court or judge may require, and to take charge of any child before and after the trial as may be directed by the court. The number of probation officers to receive compensation from the county, named and designated by the district court, shall be as follows:

The judge of the district court in and for each county, or city and county, of the state, or the judges where there are more than one judge of the said court, may appoint probation officers, in the number and under the conditions as in this act provided, whenever such appointments shall be deemed necessary to care for the dependent and delinquent children of the county; *provided*, such probation officers can be removed from office at any time by the said district judge, or judges. The salary of said probation officers shall be as follows:

In counties having over fifteen thousand population there may be one probation officer receiving a salary. An assistant probation officer

may be appointed, in the discretion of the court, upon the request of the probation officer. The salary of the probation officer shall be fixed by the court appointing him, in any sum not to exceed one hundred and fifty dollars per month; and the salary of the assistant probation officer, where one is appointed, shall likewise be fixed by the court appointing him in any sum not to exceed seventy-five dollars per month. The expenses of such probation officers for probation work shall not exceed seven hundred and fifty dollars per year.

In counties having less than fifteen thousand population it shall be within the discretion of the district judge, or judges, of each of said counties to determine as to the necessity of appointing a probation officer; *provided*, that in counties having eight thousand population and under fifteen thousand there shall be no more than one probation officer receiving a salary, and such salary shall be fixed by the court appointing him, in any sum not to exceed one hundred and twenty-five dollars per month; *provided further*, that in counties of five thousand and under eight thousand there shall be no more than one probation officer receiving a salary, and such salary shall be fixed by the court appointing him, in any sum not to exceed one hundred dollars per month; *and provided further*, that in counties of under five thousand there shall be no more than one probation officer receiving a salary, and such salary shall be fixed by the court appointing him, in any sum not to exceed seventy-five dollars per month.

All probation officers whose expenses are not herein provided shall be allowed such necessary incidental expenses as may be authorized by the judge, or judges, of the district court of said county; *provided*, that the said probation officers can be appointed for any portion or part of a year as the said district judge, or judges, may determine, and can be paid for the time and periods said probation officers serve under such appointment. The salary and expenses of the probation officer shall be paid out of the county funds in the county treasury in monthly installments, in the same manner as other claims against the county.

Any district judge, or judges, appointing such probation officer to receive a salary or other compensation from the county provided for under this act, shall transmit such appointment to the district superintendent of schools of the district of which the county in which said appointment is made is a part, the state superintendent of public instruction, and the governor of this state, who shall constitute a board to investigate the competency of such person so appointed to act as probation officer, and it shall be the duty of a majority of said board to approve or disapprove of such appointee, within thirty days after the submission thereof by the said district court, and a failure to act thereon within such time shall constitute an approval of such appointment. If a majority of such board are of the opinion that such appointee does not possess the qualifications for a probation officer, they shall notify the court of their conclusions within thirty days of such appointment to the respective members thereof, whereupon it shall

be the duty of the district judge, or judges, to withdraw such appointment and appoint some one who shall receive the approval of said board.

Probation officers receiving a salary or other compensation from the county, provided for by this act, are hereby vested with all the power and authority of police or sheriffs to make arrests and perform any other duties ordinarily required by policemen and sheriffs which may be incident to their office or necessary or convenient to the performance of their duties; *provided*, that other probation officers may be vested with like power and authority upon a written certificate from the district judge, or judges, that they are persons of discretion and good character, and that it is the desire of the court to vest them with all the power and authority conferred by law upon probation officers receiving compensation from the county.

The appointment of probation officers and the approval thereof as to the qualifications of such officers by the board herein designated, shall be filed in the office of the clerk of the court. Probation officers shall take an oath such as may be required of other county officers to perform their duties, and file in the office of the clerk of the district court.

The following amendments were proposed by the Committee on Trade and Manufactures:

Amend the bill as a whole, by adding a new section 3 which shall read as follows:

SEC. 3. Section 3 of the above-entitled act, being section 762, N. C. L. 1929, is hereby amended to read as follows:

Section 3. There is hereby created a board consisting of five members at least two of whom shall be from the counties of White Pine, Lincoln or Clark, to be known as the State Barbers' Health and Sanitation Board, and the Governor shall appoint such board within thirty days after this Act takes effect. The appointees shall meet within twenty days after their appointment and organize by electing a president, secretary and treasurer, and adopting reasonable rules and regulations for the transaction of business; *provided*, that no person shall serve as president for more than four consecutive years. The appointees shall consist of the secretary of the State Board of Health, one barber proprietor who employs two or more barbers, one practicing physician and surgeon, and two journeyman barbers; each of the latter shall have been a resident of the State of Nevada for a period of at least two years prior to his appointment. Of the barbers first appointed on this board one shall hold office for one year and one for two years, and thereafter the appointment shall be for a term of two years. Vacancies shall be filled by appointment for the unexpired term. The Governor may remove a board member for cause and the member or members appointed to fill vacancies for any reason shall serve during the unexpired term of their predecessors.

Further amend the bill as a whole on page 4, line 1, by striking the number "3" and inserting in lieu thereof the number "4."

MESSAGES FROM THE GOVERNOR

THE STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, NEVADA, March 15, 1947.

TO THE HONORABLE THE ASSEMBLY, *Carson City, Nevada.*

GENTLEMEN: Herewith there is returned to the Assembly, within the constitutional time limit, without my approval, Assembly Bill No. 46, introduced on the 31st day of January, 1947, by Mr. Humphrey and entitled:

"An Act defining term insurance as applied to policies of health and accident insurance, requiring such policies to be designated as term insurance, and fixing penalties for violation thereof."

The evident purpose of this act was to put the purchaser of so-called "Term" insurance on notice of the fact that such policy, be it health or accident, could be canceled at the discretion of the insurance company by refusal on the part of the company to accept further premiums. As these policies have been heretofore written the purpose sought to be accomplished was a laudable one. However, it has been brought to the attention of this office that on January 1, 1947, the National Association of Insurance Commissioners promulgated and adopted an official guide covering the matter of the filing and approval of an accident and health insurance policy. This guide and the rules and regulations therein set out has been recommended by the National Association of Insurance Commissioners to the respective insurance departments of the various States with the result that some thirty-four or thirty-five States have incorporated such suggestions into their general insurance law by way of regulation.

Several of the rules suggested cover the same subject matter as that of Assembly Bill No. 46, the result being that all health and accident policies containing a cancellable provision must have printed on their face in large type printed words the nature of the policy and the fact that it is subject to cancellation. This, of course, was the sole purpose of Assembly Bill No. 46.

Pursuant to the suggestions of the National Association of Insurance Commissioners, Honorable J. P. Donovan, State Controller and ex officio Insurance Commissioner of the State of Nevada, on the 14th day of March, 1947, adopted the suggested rules and regulations as set out in the official guide of the National Association of Insurance Commissioners, to become effective July 1, 1947.

For the reasons herein set out the need for Assembly Bill No. 46 no longer existing, and in view of the fact that if the said bill was to become a law it would necessitate the printing of a special form of policy to be used only in the State of Nevada, and whereas the notice required to be given by said bill is and will now be required under the rules of the Insurance Commissioner of this State, as hereinabove referred to, I feel compelled to now return the bill to you without my approval.

Respectfully submitted,

VAIL PITTMAN, *Governor.*

PRESENTATION OF PETITIONS

Mr. Speaker ordered the reading of the following communication:

WASHOE TYPOGRAPHICAL UNION
NUMBER SIXTY-FIVE

CARSON CITY, NEVADA, March 17, 1947.

TO THE LEGISLATURE OF THE STATE OF NEVADA.

GENTLEMEN:

WHEREAS, The salary of the Superintendent of State Printing of Nevada, as fixed by the Nevada Statutes, is less than the Union scale for such positions as established by agreement between the employers and the Unions in both the Reno and the Carson City locals; and

WHEREAS, We realize that it is not within the province of the International Typographical Union to establish the salaries of the heads of departments, we do maintain that in the interest of the general welfare of all concerned, that these salaries should be such that the positions could be held by members of the International Typographical Union. The scale for foremen and machinist operators is $82.50 per week or $4,290 per year. Using this figure as a base, we request that the salary of the Superintendent of State Printing should be set at a figure which would fairly compensate for the responsibilities of this position. It is to be noted that the State Printer's salary is established by statute and not by Constitution, so adjustments can be made by the Legislature without changes in the Constitution or recourse to so-called ex officio duties; now, therefore, be it

Resolved by Washoe Typographical Union No. 65, That the Nevada State Legislature be requested to take such action as will be necessary to fix the salary of the State Printer of Nevada at such amount as would be adequate compensation for this position and consistent with the wage scales established and now being paid in the printing industry, generally, throughout the country, and particularly in Reno and Carson City.

MOTIONS, RESOLUTIONS, AND NOTICES

By Messrs. Jacobsen and MacKenzie:

Assembly Concurrent Resolution No. 6—Proposing that the contemplated dam on Clear Creek, in Ormsby and Douglas Counties, be named "Hussman Dam."

WHEREAS, The Forty-third Session of the Legislature of Nevada has enacted legislation looking to the construction of a dam for the impounding of water on Clear Creek in the counties of Ormsby and Douglas; and

WHEREAS, The Honorable George G. Hussman, member of the Assembly from Douglas County, has devoted untiring effort in preliminary negotiations concerning said dam; and without thought of personal gain has brought to fruition the legislation necessary to the construction of the aforesaid dam; and

WHEREAS, It is altogether fitting and proper that Mr. Hussman be honored for his efforts; now, therefore, be it

Resolved by the Assembly of the State of Nevada, the Senate concurring, That the proposed dam on Clear Creek, in Ormsby and Douglas Counties, Nevada, be named "George Hussman Dam" in honor of the member of the Assembly from Douglas County; and be it further

Resolved, That the agent of the State of Nevada for the construction of the aforesaid dam, be advised of this resolution and directed to officially designate said dam in accordance herewith.

March 20, 1947.

HON. H. E. HAZARD, *Speaker of the Assembly, State Legislature, Carson City, Nevada.*

Word has just reached me that the State Legislature has passed Assembly Bill No. 162 which authorizes the State of Nevada through its representative the Colorado River Commission to acquire and take over the Government property at Basic Magnesium, Henderson Nevada. I wish to express my sincere congratulations to the State Legislature of Nevada on this accomplishment. In my judgment this is one of the most progressive and far-sighted pieces of legislation ever enacted by Nevada and will inure to the benefit of the entire State by creating opportunity for employment and setting up taxable property for the welfare of the people of the State. Not only that but it will attract industry from the congested centers of the east to our western country. The installation of a Nevada generator at Boulder Dam will insure electric energy for the development of Nevada's natural resources. This legislation puts Nevada on the way to a great progressive development era.

Kindest personal regards to all.

PAT MCCARRAN,
U. S. Senator from Nevada.

MESSAGES FROM THE SENATE

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day passed Assembly Bill No. 261.

Also, I have the honor to inform your honorable body that the Senate amended, and on this day passed, as amended, Assembly Bills Nos. 205, 224, and 263 and respectfully requests your honorable body to concur in said amendments.

Also, I have the honor to inform your honorable body that the Senate on this day respectfully refused to concur in the Assembly amendments to Senate Bill No. 126.

Also, I have the honor to inform your honorable body that the Senate on this day adopted the report of the Committee on Conference concerning Senate Bill No. 66 and requests a second conference, and appointed Senators Settlemeyer, Johnson, and Duffin as a Committee on Conference to meet with a like committee of the Assembly for the further consideration of Senate Bill No. 66.

F. BUCKINGHAM,
Assistant Secretary of the Senate.

REPORTS OF COMMITTEES

Mr. Speaker:

Your Committee on Ways and Means to which Assembly Bills Nos. 172 and 210 were referred, has had the same under consideration, and begs leave to report the same back with the recommendation that they do pass, as amended.

M. E. MCCUISTION, *Chairman.*

Mr. Speaker:

Your Joint Committee on Judiciary and Banks and Banking to which Senate Bill No. 92 was referred, has had the same under consideration, and begs leave to report the same back with the recommendation that it do pass, as amended.

TAYLOR H. WINES,
MERVIN J. GALLAGHER.

Mr. Speaker:

Your Committee on State Prison and Hospital for Mental Diseases composed of Messrs. Starks (Chairman), Warner, Gallagher, Swackhamer, Munk, Fuetsch and Smith, reports on the State Prison as follows:

The committee members have visited the Nevada State Prison on several

different occasions since the start of the session and have discussed with Warden Richard Sheehy matters of policy. And to conduct an inspection of all the buildings and installations at the prison, also have visited and inspected the prison farm, and interviewed the Superintendent at the farm.

Our inspection and investigation of the institution was complete and thorough, bearing in mind the idea that we might be able to make certain helpful recommendations to the State officials in charge, and our conclusions and recommendations are as follows:

We feel that the personnel at the prison and the farm, both executive and administrative, are very efficient and at all times have the well-being of the institutions at heart.

The inspection of the kitchen, commissary, dining halls, bath rooms, etc., was careful and complete; your committee feels that the executive personnel of the Nevada State Prison has done everything in its power to maintain sanitary conditions for the benefit and protection of the inmates of the prison. Proper segregation of prison inmates is regarded by prison officials as being of prime importance, but this cannot be accomplished when there are more inmates than cells. At present there are two prisoners in each cell, a condition that is frowned upon by prison officials, who point out that single cells are the ideal arrangement but add that for many reasons it would be more desirable to have four men to a cell than two. When the population was at its peak there were 27 inmates sleeping in the prison gymnasium, while the prison farm, where prisoners are "on their own" and virtually unguarded, is housing a record 27 men.

Your committee feels that present executive personnel has put this institution on a sound economic basis with the per diem cost of maintaining the inmates at a lower figure than in most like institutions in the country, but at the same time the inmates are well clothed and well fed.

Despite the record number of inmates, idleness is not prevalent because the prison offers a variety of jobs. All of Nevada's license plates are manufactured at a well-equipped plant in the prison yard, employing all prison personnel. The State provides the steel and the paint, and between 30 and 40 prisoners comprise the crew in the license plate factory. Work on the following year plates usually commences early in July and is completed in about eight weeks, at a cost estimated to be the lowest per plate of any State in the Union. Other inmates are kept busy in the kitchen, hospital, laundry, tailor shop, carpenter and machine shop, and on the grounds and lawns.

A prison store, selling a variety of articles made by the inmates, has been operated successfully for the past several years. The prisoner receives 90 percent of the proceeds from the sale of his product, while the remaining 10 percent goes into a fund which provides the inmates with musical equipment and aids in carrying on the sports programs. Among the most popular articles sold at the store are rawhide and leather goods, costume jewelry, sweaters and rugs. The rawhide work draws buyers from all over the West and the purchases are made directly at the store because Federal laws forbids interstate shipment of goods or products manufactured by prison labor.

The committee compliments Mrs. Richard Sheehy for her attention to the female inmates, of which there are 5 at this time. The female inmates do fancy work and make rugs, but owing to the lack of sunshine in the female quarters, they are taken into the outside yard each day if the weather permits, under the supervision of Mrs. Sheehy.

Every encouragement is given to a well-balanced sports program for the inmates, with baseball and boxing holding the spotlight. The prison baseball team has annexed the championship of the Sagebrush league for two consecutive years and will gain permanent possession of the trophy if it duplicates this year. Last year marked the first time in many years that the prison team played outside of the walls. The prison nine journeyed to Carson where they defeated the town team of the Capitol city.

The spiritual needs of the prisoners are taken care of by four ministers from Carson City, representing Catholic and Protestant churches. Services are held regularly each week, and $520 a year is allowed the clergymen.

The prison boasts of a modern, though small hospital, equipped to handle almost anything but an epidemic. It is estimated that about 3 percent of the prison population is in the hospital all the time, which means that between six and seven men are under treatment. Major operations are performed in the hospital by the prison physician, who works on a part-time basis and is paid by the State. Under the new construction plans, the hospital will be moved to the third floor and the present hospital site will be converted into quarters for additional guards.

Your committee feels that it is necessary for the well being of the inmates that whenever possible they be employed in some necessary task. The license plate department employs a number of men periodically, also there are about 20 men engaged in the stone quarry and in cutting stone to be used in the construction of the new cell block; this number will be increased as soon as work starts.

Your committee feels that if the State can share with the Stewart Indian Service in the construction of the proposed dam on Clear Creek, it will be a great benefit to the prison farm, and will irrigate 300 acres of land, that at present is not under cultivation. This project will give employment to a large number of inmates in construction as well as on the farm.

The committee concludes this report by pointing out that but six of the seven members hereof are signatories hereto, which arises by virtue of the fact that the seventh member of your committee collaborated only in the matter of lunch.

PAUL W. WARNER. FRANCIS R. SMITH.

REPORTS OF COMMITTEES

Mr. Speaker:

Your Committee on Enrollment has carefully compared Assembly Enrolled Bills Nos. 202, 196, 48, 287, 286, 120, 248, 237, 206, 210, 131, 100, 277, 247, 133, 201, 151, 241, 146, 285, 172, 205, 283, and Assembly Enrolled Joint Resolutions Nos. 17 and 25 with the engrossed copies, finds the same correctly enrolled, and has this day delivered the same to the Governor.

WILLIAM D. SWACKHAMER, *Chairman.*

MOTIONS, RESOLUTIONS, AND NOTICES

The following Assembly Joint Resolutions, proposing amendments to the Constitution of the State of Nevada, were passed, enrolled, and delivered to the office of the Secretary of State, and are entered in the Journal of the Assembly in accordance with the provisions of Article XVI, Section 1, of the Constitution:

By the Committee on Ways and Means:

Assembly Joint Resolution No. 10—Proposing an amendment to section 3, article IX, of the constitution of the State of Nevada, and other matters relating thereto.

Resolved by the Assembly and Senate of the State of Nevada, jointly, That

section 3 of article IX of the constitution of the State of Nevada be amended to read as follows:

SEC. 3. The state may contract public debts; but such debts shall never, in the aggregate, exclusive of interest, exceed the sum of three percent of the assessed valuation of the State, as shown by the reports of the county assessors to the state controller, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein; and every such law shall provide for levying an annual tax sufficient to pay the interest semiannually and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or, if hostilities be threatened, provide for the public defense.

The State, notwithstanding the foregoing limitations, may, pursuant to authority of the legislature, make and enter into any and all contracts necessary, expedient, or advisable for the protection and preservation of any of its property or natural resources, or for the purpose of obtaining the benefits thereof, however arising and whether arising by or through any undertaking or project of the United States or by or through any treaty or compact between the states, or otherwise. The legislature may from time to time make such appropriations as may be necessary to carry out the obligations of the state under such contracts, and shall levy such tax as may be necessary to pay the same or carry them into effect.

By Messrs. Smith, Higgins, Norstrom, and Swackhamer:

Assembly Joint Resolution No. 17—Proposing an amendment to section 5, article IV, of the constitution of the State of Nevada.

Resolved by the Assembly and Senate of the State of Nevada, jointly, That section 5 of article IV of the constitution of the State of Nevada, be amended to read as follows:

SEC. 5. Senators and members of the assembly shall be duly qualified electors in the respective counties and districts which they represent, and the number of senators shall not be less than one-third nor more than one-half of that of the members of the assembly.

The senate shall consist of one senator from each county. The members of the assembly shall be apportioned on the basis of population; provided, that each county shall be entitled to at least one assemblyman.

It shall be the mandatory duty of the legislature at its first session after the taking of the decennial census of the United States in the year 1950, and after each subsequent decennial census, to fix by law the number of assemblymen, and apportion them among the several counties of the state, according to the number of inhabitants in them, respectively.
