The following amendment was proposed by the Committee on Commerce and Labor:

Amendment No. 114.

AN ACT relating to public safety; setting forth certain requirements and restrictions concerning foil balloons that are sold, offered for sale or manufactured in this State; prohibiting, with certain exceptions, a person from selling, offering for sale or manufacturing a foil balloon that fails to meet certain requirements; requiring the Public Utilities Commission of Nevada to adopt a standard for the testing and evaluation of the dielectric performance of foil balloons; **providing enhanced penalties in certain circumstances for committing assault or battery upon a utility worker;** prohibiting a person from committing certain acts against the infrastructure of a public utility; providing penalties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Sections 2-10 of this bill set forth certain requirements and restrictions concerning the manufacturing and sale of foil balloons, which **section 5** of this bill defines, in general, to mean a balloon that is constructed of electrically conductive material and that is not a hot air balloon or a balloon used in a governmental or scientific research project.

Section 2 sets forth certain legislative findings and declarations concerning foil balloons.

Section 7 of this bill requires a person who manufactures a foil balloon in this State to include certain markings on the foil balloon. **Section 7** also prohibits a person from selling, offering for sale or distributing a foil balloon that is filled with a gas that is lighter than air unless: (1) an object of sufficient weight is affixed to the balloon or its appurtenance to counter the lift capability of the foil balloon; and (2) no electrically conductive string, tether or streamer or other electrically conductive object is attached to the foil balloon.

Section 9 of this bill requires the Public Utilities Commission of Nevada to adopt a standard for the testing and evaluation of the dielectric performance of foil balloons. **Section 9**: (1) requires that standard to be the P2845 Standard, if the P2845 Standard is deemed final and approved; and (2) sets forth the conditions under which the P2845 Standard is deemed final and approved. **Section 6** of this bill defines "P2845 Standard" to mean, in general, a certain specified standard for the testing and evaluation of the dielectric performance of foil balloons established by the Institute of Electrical and Electronics Engineers.

Section 8 of this bill: (1) requires any foil balloon sold, offered for sale or manufactured in this State to have been tested in accordance with, and meet the performance standards set forth in, the standard adopted by the Commission pursuant to **section 9**; and (2) prohibits a person from selling, offering for sale or manufacturing a foil balloon in this State unless the foil balloon meets those requirements. **Section 8** provides for the gradual implementation of those requirements by setting forth certain deadlines by which certain percentages of the foil balloons sold, offered for sale or manufactured by a person must comply with those requirements. **Section 8** sets forth certain circumstances under which those deadlines may be extended.

Section 10 provides for the imposition of a civil penalty against a person who sells, offers for sale or manufactures a foil balloon in violation of **sections 2-10** not to exceed $50 for each balloon sold, offered for sale or manufactured, not to exceed $2,500 for each day on which a violation occurs. **Section 10** authorizes the Attorney General, a district attorney or a city attorney to: (1) recover the civil penalties in a civil action; and (2) bring an action to enjoin any violation of **sections 2-10**.

Existing law: (1) makes it unlawful to commit certain acts involving theft or damage to property of a public utility; (2) prescribes certain criminal penalties for the commission of such unlawful acts; and (3) provides for a civil action for damages for an injury to or the destruction of the property of a public utility. (NRS 704.800, 704.805) **Section 11** of this bill makes it unlawful for a person, with the intent to interfere or otherwise prevent the performance of the normal function of any infrastructure owned by a public utility, to: (1) commit any trespass upon the infrastructure; or (2) intentionally or recklessly deface, damage or tamper with the infrastructure. **Section 12** of this bill authorizes a public utility to bring a civil action for damages against any person who violates the prohibition created by **section 11**.

Under existing law, if a person commits an assault upon an officer, a provider of health care, a school employee, a taxicab driver or a transit operator who is performing his or her duty and the person knew or should have known that the victim was an officer, a provider of health care, a school employee, a taxicab driver or a transit operator, the person is guilty of: (1) a category B felony if the assault is made with the use of a deadly weapon or the present ability to use a deadly weapon; (2) a category D felony if the person is a probationer, prisoner or parolee; or (3) if neither of those circumstances is present, a gross misdemeanor. (NRS 200.471) Additionally, under existing law, if a person commits a battery upon an officer, a provider of health care, a school employee, a taxicab driver or a transit operator, and the person knew or should have known that the victim was an officer, a provider of health care, a school employee, a taxicab driver or a transit operator, the person is guilty of: (1) a category B felony if the battery causes substantial bodily harm or is committed by strangulation; or (2) if those circumstances are not present and no greater penalty is provided by law, a gross misdemeanor. (NRS 200.481) Sections

10.3 and 10.6 of this bill provide for the imposition of those penalties for an assault or battery committed upon a utility worker.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 597 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 to 10, inclusive, of this act.

Sec. 2. ***The Legislature hereby finds and declares that:***

1. Electric utilities in this State are responsible for delivering safe, reliable energy through large transmission and distribution networks. Equipment failure or damage from weather, animals and human activity can cause power outages.

2. Electric utilities report that foil balloons are among the top causes of outages. Foil balloons are coated with a shiny metallic film that conducts electricity. If a foil balloon contacts power lines, this can create an electrical fault that can damage power lines, cause blackouts and start fires.

3. Because of the risk of power outages and fires caused by foil balloons coming into contact with power lines, other states and jurisdictions have considered bans on foil balloons.

4. Modern technology has advanced to allow for the manufacturing of foil balloons that resist conducting electricity. The Institute of Electrical and Electronics Engineers is developing standards for such balloons.

5. Requiring foil balloons to be tested and to meet performance standards concerning their dielectric performance will minimize the risks of power outages and fires.

Sec. 3. ***As used in sections 2 to 10, inclusive, of this act, unless the context otherwise requires, the words and terms defined in sections 4, 5 and 6 of this act have the meanings ascribed to them in those sections.***

Sec. 4. ***"Commission" means the Public Utilities Commission of Nevada.***

Sec. 5. ***1. "Foil balloon" means a balloon that is constructed of electrically conductive material.***

2. The term does not include a hot air balloon or a balloon used in a governmental or scientific research project.

Sec. 6. ***"P2845 Standard" means the "Standard for Testing and Evaluating the Dielectric Performance of Celebratory Balloons in Contact with Overhead Power Distribution Lines Rated up to 38 kV System Voltage," IEEE P2845, of the Institute of Electrical and Electronics Engineers.***

Sec. 7. ***1. A person who manufactures a foil balloon in this State shall include on the foil balloon a suitable, permanent mark that:***

(a) Identifies the manufacturer of the foil balloon.

(b) If the foil balloon meets the requirements of section 8 of this act, indicates that the foil balloon meets those requirements. If the Commission has adopted the P2845 Standard pursuant to section 9 of this act, any

marking specified in the P2845 Standard shall be deemed to be a suitable mark for the purposes of this subsection.

2. A person shall not sell, offer for sale or distribute a foil balloon that is filled with a gas that is lighter than air in this State unless:

(a) An object of sufficient weight is affixed to the foil balloon or its appurtenance to counter the lift capability of the foil balloon; and

(b) No electrically conductive string, tether or streamer or any other electrically conductive object is attached to the foil balloon.

Sec. 8. ***1. Except as otherwise provided in this section, a person shall not sell, offer to sell or manufacture a foil balloon in this State unless the foil balloon meets the requirements set forth in this section.***

2. Except as otherwise provided in this section, any foil balloon sold, offered for sale or manufactured in this State must be tested in accordance with, and meet the performance standards set forth in, a standard for the testing and evaluation of the dielectric performance of foil balloons adopted by the Commission pursuant to section 9 of this act.

3. Except as otherwise provided in subsections 4 and 5, a person who sells, offers for sale or manufactures foil balloons in this State shall ensure that:

(a) Not less than 25 percent of the foil balloons sold, offered for sale or manufactured by the person comply with the provisions of this section on or before June 30, ~~[2024.]~~ 2027.

(b) Not less than 55 percent of the foil balloons sold, offered for sale or manufactured by the person comply with the provisions of this section on or before June 30, ~~[2025.]~~ 2028.

(c) Not less than 80 percent of the foil balloons sold, offered for sale or manufactured by the person comply with the provisions of this section on or before June 30, ~~[2026.]~~ 2029.

(d) One hundred percent of the foil balloons sold, offered for sale or manufactured by the person comply with the provisions of this section on or before June 30, ~~[2027.]~~ 2030.

4. A period described in subsection 3 must be tolled during any period in which a serious development, manufacturing, production or supply chain issue or event in the nature of force majeure occurs if the issue or event:

(a) Makes it infeasible to develop, manufacture, produce or sell foil balloons in compliance with the requirements of this section; and

(b) Is outside of the control of the person who sells, offers to sell or manufactures a foil balloon in this State.

5. If a period of tolling is required pursuant to subsection 4, the period must be:

(a) Twenty four months; or

(b) Until the serious development, manufacturing, production or supply chain issue or event in the nature of force majeure is resolved,

↪ whichever occurs first.

6. As used in this section, "infeasible" means incapable of being accomplished in a successful manner within a reasonable time, taking into account economic, environmental, legal, social and technological factors.

2. For the purposes of subsection 1, the P2845 Standard shall be deemed to be final and approved if the Institute for Electrical and Electronics Engineers has:

(a) Published an interim version of the P2845 Standard;

(b) Completed a trial of the interim version of the P2845 Standard; and

(c) After any materially substantive adjustments, if any, to the interim version, published a final version of the P2845 Standard.

Sec. 10. *1. A person who sells, offers for sale or manufactures a foil balloon in violation of sections 2 to 10, inclusive, of this act is subject to a civil penalty not to exceed $50 for each such foil balloon sold, offered for sale or manufactured, except that the penalty against the person must not exceed $2,500 for each day on which a violation occurs.*

2. A civil penalty imposed pursuant to subsection 1 must be recovered in a civil action brought by the Attorney General or by the district attorney or city attorney for the jurisdiction in which the violation occurred.

3. Any civil penalty collected pursuant to this section by:

(a) The Attorney General must be paid to the State Treasurer for credit to the State General Fund.

(b) A district attorney or city attorney must deposited in the county or city treasury, as applicable.

~~*[5.]*~~ *4. In determining whether to impose a civil penalty pursuant to subsection 1, the court shall consider:*

(a) The nature, extent and severity of the violation;

(b) If multiple violations occurred, the number of violations;

(c) The economic effect of the civil penalty on the person;

(d) The annual revenue of the person in both sales of foil balloons and total sales;

(e) Whether the person took good faith measures to comply with the requirements of sections 2 to 10, inclusive, of this act and when such measures were taken;

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 321.

AN ACT relating to firearms; prohibiting a person who is less than 21 years of age from possessing certain firearms; making it unlawful to aid or knowingly permit a person who is less than 21 years of age to possess a firearm under certain circumstances; revising provisions relating to the storage of a firearm; revising provisions relating to the handling, possession or control of a firearm by certain children; providing penalties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law prohibits a child under the age of 18 years from handling, possessing or controlling a firearm under certain circumstances. (NRS 202.300) **Section 1** of this bill makes it a gross misdemeanor for a person who is less than 21 years of age to possess or control a: (1) semiautomatic shotgun; or (2) semiautomatic centerfire rifle.

Existing law provides that a person does not aid or knowingly permit a child to handle, possess or control a firearm if the firearm was stored in a securely locked container or at a location which a reasonable person would have believed to be secure. Under existing law, a person who aids or knowingly permits a child to handle, possess or control a firearm is guilty of: (1) for the first offense, a misdemeanor; (2) for a first offense, if the person knows or has reason to know that there is a substantial risk that the child will use the firearm

to commit a violent act, a category C felony; and (3) for a second or any subsequent offense, a category B felony punishable by imprisonment in the state prison for a minimum term of not less than 1 year and a maximum term of not more than 6 years. (NRS 202.300) **Section 1**: (1) provides the same penalties for a person who aids or knowingly permits a person who is less than 21 years of age to handle, possess or control certain firearms; and (2) includes similar provisions concerning the circumstances in which a person does not aid or knowingly permit a person who is less than 21 years of age to handle, possess or control such firearms.

Existing law makes it a misdemeanor for a person to negligently store or leave a firearm at a location under his or her control if the person knows or has reason to know that there is a substantial risk that a child, who is otherwise prohibited from handling, possessing or controlling a firearm, may obtain the firearm. (NRS 202.300) **Section 1** adds a similar provision imposing the same penalty for a person who negligently stores or leaves a firearm at a similar location from which a person who is less than 21 years of age may obtain the firearm.

Existing law authorizes a child who is 14 years of age or older and who, among other requirements, has a valid hunting license, to handle, possess or control a: (1) rifle or shotgun; or (2) firearm capable of being concealed upon the person. However, existing law provides that the rifle or shotgun must not be a fully automatic firearm. (NRS 202.300) **Section 3** of this bill prohibits a child who is 14 years of age or older from handling, possessing or controlling a semiautomatic shotgun or semiautomatic centerfire rifle.

Under certain circumstances, existing law authorizes a child who is 14 years of age or older to handle, possess or control a rifle or shotgun that is not a fully automatic firearm at his or her residence. (NRS 202.300) **Section 3**: (1) provides that the rifle or shotgun must not be a semiautomatic shotgun or semiautomatic centerfire rifle; and (2) requires that the rifle or shotgun, while not in use, must remain unloaded and stored in a securely locked container under the possession of certain persons.

Section 2 of this bill makes a conforming change to indicate the proper placement of **section 1** in the Nevada Revised Statutes.

(NRS 450B.120, 450B.130, 450B.140, 450B.155, 450B.160, 450B.180, 450B.1905, 450B.191, 450B.1915, 450B.195, 450B.197, 450B.1993, 450B.200, 450B.210, 450B.225, 450B.230, 450B.260) **Sections 9, 12, 13 and 19-33** of this bill transfer from the State Board of Health to the Bureau such authority and duties in a county whose population is less than 700,000.

(NRS 450B.077) **Sections 7, 8 and 10** of this bill make conforming changes to amend the definition of "advanced emergency medical technician," "emergency medical technician" and "paramedic" to clarify that the terms mean certain persons certified by the health authority. (NRS 450B.025, 450B.065, 450B.095) **Section 1** of this bill makes a conforming change relating to the transfer of certain powers and duties to a health authority, as set forth in **sections 12, 13 and 19-33**, to create an exception to the provision that the State Board of Health is supreme in all nonadministrative health matters. (NRS 439.150)

Existing law requires the board to establish and promulgate rules, regulations, standards and procedures as it determines are necessary to administer the provisions of the Nevada Revised Statutes relating to emergency medical services. (NRS 450B.120) **Section 11** of this bill grants similar authority to a health authority.

Section 5.5 of this bill requires any regulation adopted by the Bureau or Chief to be approved by the State Board of Health.

Section 14 of this bill transfers from the State Board of Health to the Chief of the Bureau the requirement to establish by regulation: (1) a fee for the issuance or renewal of certain licenses, permits and certificates in a county whose population is less than 700,000; and (2) a schedule of fees for the services and regulatory activities performed by the Bureau. (NRS 439.150, 450B.200)

Existing law provides that certain money received by the Division of Public and Behavioral Health of the Department of Health and Human Services must be accounted for separately, administered by the Administrator of the Division and used only to carry out a training program for emergency medical services personnel who work for a volunteer ambulance service or firefighting agency. (NRS 450B.1505) **Section 14** provides instead that such money must be administered by the Chief of the Bureau.

Existing law creates the Committee on Emergency Medical Services, consisting of nine members appointed by the State Board of Health, which has various duties relating to emergency medical services. (NRS 450B.151, 450B.153) **Section 15** of this bill provides that the Director of the Department of Public Safety appoints the members of the Committee and revises the membership of the Committee. **Section 16** of this bill makes a conforming change to provide that the per diem and travel expenses of members of the Committee are paid by the Bureau rather than the Division of Public and Behavioral Health of the Department of Health and Human Services. (NRS 450B.152) **Section 17** of this bill revises the duties of the Committee to require the Committee to advise the Bureau rather than the Division of Public and Behavioral Health of the Department of Health and Human Services. (NRS 450B.153) **Section 18** of this bill provides that the Bureau, rather than the Division, is required to provide administrative support and assistance to the Committee.

Existing law sets forth certain authority for the health authority related to the issuance of do-not-resuscitate identification. (NRS 450B.400-450B.590) Because of the amendment to the definition of "health authority" in **section 9**, **sections 34-38** of this bill amend these provisions so that such authority remains with the Division of Public and Behavioral Health of the Department of Health and Human Services in a county whose population is less than 700,000, and to the district board of health in a county whose population is 700,000 or more.

Existing law requires the Division of Public and Behavioral Health of the Department of Health and Human Services to: (1) post on an Internet website maintained by the Division certain information about programs to provide peer support counseling to emergency response employees; (2) collect information, under certain circumstances, regarding suicide and attempted suicide among emergency response employees; and (3) report such information to the Chief Medical Officer. (NRS 450B.855) **Section 39** of this bill provides instead that the Bureau shall: (1) post information about programs to provide peer support counseling to emergency response employees; (2) collect information, under certain circumstances, regarding suicide and attempted suicide among emergency response employees; and (3) report such information to the State Fire Marshal.

Existing law authorizes the Division of Public and Behavioral Health of the Department of Health and Human Services to impose an administrative penalty against any person who violates any of the provisions of chapter 450B of NRS. (NRS 450B.900) **Section 40** of this bill authorizes the Bureau to similarly impose an administrative penalty against a person who violates any provision of chapter 450B of NRS that is administered by the Bureau.

Existing law requires the Department of Health and Human Services to provide to the Interagency Council on Veterans Affairs the total number of veterans who have applied for and received certification as an Emergency Medical Technician-B, Advanced Emergency Medical Technician and Paramedic through the State Emergency Medical Systems program. (NRS 417.0194) **Section 41** of this bill requires instead that the Department of Public Safety provide such information to the Council.

Sections 3-5 of this bill define the terms "Bureau," "Chief" and "provider of emergency medical services," respectively. **Section 6** of this bill makes a conforming change to indicate the proper placement of **sections 3-5** in the Nevada Revised Statutes.

Amendment No. 263.

SUMMARY—Revises provisions relating to deceptive trade practices **.** ~~[directed toward elderly persons.]~~ (BDR 52-773)

AN ACT relating to deceptive trade practices; **clarifying the authority of the Attorney General with respect to a deceptive trade practice;** increasing **certain** civil ~~[and criminal]~~ penalties for engaging in a deceptive trade practice **under certain circumstances;** ~~[directed toward an elderly person;]~~ revising the statute of limitations for engaging in a deceptive trade practice; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law defines activities that constitute deceptive trade practices and provides for the imposition of civil and criminal penalties against persons who engage in deceptive trade practices. (Chapter 598 of NRS) **Existing law authorizes the Attorney General to obtain a temporary restraining order, a preliminary or permanent injunction or other appropriate relief by bringing an action in the name of the State against a person the Attorney General has reason to believe has engaged or is engaging in a deceptive trade practice. (NRS 598.0963) Section 1 of this bill clarifies that such other appropriate relief which the Attorney General may obtain includes, without limitation, the recovery of a civil penalty, disgorgement, restitution or the recovery of damages as parens patriae.**

_Existing law authorizes a court or the Director of the Department of Business and Industry or his or her designee, in certain actions and proceedings relating to the enforcement of the provisions prohibiting deceptive trade practices, to impose an additional maximum civil penalty of $12,500 for each violation if the court or the Director or his or her designee finds that a person has engaged in a deceptive trade practice directed toward an elderly person or a person with a disability. (NRS 598.0973) **Section** ~~[1]~~ **1.5** of this bill increases the additional maximum civil penalty to $25,000 if the deceptive trade practice was directed toward an elderly person.

Existing law ~~[establishes a tier of criminal penalties for engaging in a deceptive trade practice that is based on the value of the property or services involved in the offense and which, in general, mirror the criminal penalties for theft. (NRS 205.0835, 598.0999) Section 2 of this bill establishes a tier of criminal penalties for engaging in a deceptive trade practice directed toward an elderly person which are more severe than the criminal penalties applicable for engaging in a deceptive trade practice in general. Under section 2, a person~~

~~who knowingly and willfully engages in a deceptive trade practice directed toward an elderly person is guilty of: (1) a category C felony for an offense involving a loss of property or services valued at $1,200 or more but less than $5,000; (2) a category B felony punishable by imprisonment in the state prison for a minimum term of not less than 1 year and a maximum term of not more than 10 years, and by a fine of not more than $10,000, for an offense involving a loss of property or services valued at $5,000 or more but less than $25,000; (3) a category B felony punishable by imprisonment in the state prison for a minimum term of not less than 3 years and a maximum term of not more than 15 years, and by a fine of not more than $15,000, for an offense involving a loss of property or services valued at $25,000 or more but less than $100,000; (4) a category B felony punishable by imprisonment in the state prison for a minimum term of not less than 5 years and a maximum term of not more than 20 years, and by a fine of not more than $20,000, for an offense involving a loss of property or services valued at $100,000 or more; and (5) a gross misdemeanor for any other offense.]~~ **authorizes the Commissioner of Insurance, the Director of the Department of Business and Industry, the district attorney of any county in this State or the Attorney General to recover a civil penalty not to exceed $5,000 if the court finds that a person has willfully engaged in a deceptive trade practice. (NRS 598.0999) Section 2 of this bill increases the maximum civil penalty for such a willful violation to $15,000.**

Existing law requires an indictment for the offense of engaging in certain trade practices punishable as a felony to be found, or an information or complaint to be filed, within 4 years after the commission of the offense. (NRS 171.085) **Section 3** of this bill imposes that requirement for all offenses involving the commission of any deceptive trade practice that is punishable as a felony. **Section 4** of this bill clarifies that the amendatory provisions of **section 3** apply to an offense committed: (1) before July 1, 2023, if the applicable statute of limitations has commenced but has not yet expired; and (2) on or after July 1, 2023.

To be eligible for such paid family leave, **section 1** provides that an employee must: (1) ~~[be a permanent employee in the classified service of the State; (2)]~~ be employed **by the State** for not less than 12 consecutive months; ~~[(3)]~~ **(2)** have accrued not less than 40 hours of sick leave; and ~~[(4)]~~ **(3)** have used any accrued sick leave in excess of 40 hours before taking paid family leave. **Section 1** further: (1) requires an appointing authority to pay an employee on paid family leave 50 percent of the regular wage the employee would have earned if the employee was not on leave; and (2) prohibits the appointing authority or designee of the appointing authority from denying an eligible employee paid family leave or retaliating or taking any adverse action against an employee for taking paid family leave.

Section 2 of this bill makes a conforming change to provide that an employee may use his or her sick leave for the purposes set forth in **section 1** before taking paid family leave. **Section 3** of this bill makes a conforming change to provide that the provisions authorizing an employee to be granted a leave of absence without pay do not affect the rights of an employee to take paid family leave.

The schedule must provide for the accrual of sick leave at the same rate proportionately as employees who work a 40-hour week accrue sick leave.

~~[8.]~~ ***9.*** The Division may investigate any instance in which it believes that an employee has taken sick or disability leave to which the employee was not entitled. If, after notice to the employee and a hearing, the Commission determines that the employee has taken sick or disability leave to which the employee was not entitled, the Commission may order the forfeiture of all or part of the employee's accrued sick leave.

Sec. 3. NRS 284.360 is hereby amended to read as follows:

284.360 1. Any person holding a permanent position in the classified service may be granted a leave of absence without pay. Leave of absence may be granted to any person holding a position in the classified service to permit acceptance of an appointive position in the unclassified service. Leave of absence must be granted to any person holding a position in the classified service to permit acceptance of a position in the Legislative Branch during a regular or special session of the Legislature, including a reasonable period before and after the session if the entire period of employment in the Legislative Branch is continuous.

2. If a person is granted a leave of absence without pay to permit acceptance of an appointive position in the unclassified service or a position in the Legislative Branch, any benefits earned while the person is in the:

(a) Classified service are retained and must be paid by the employer in the classified service, whether or not the person returns to the classified service.

(b) Unclassified service or employed by the Legislative Branch are retained and must be paid by the appointing authority in the unclassified service or by the Legislative Branch, if the person does not return to the classified service, or by the employer in the classified service, if the person returns to the classified service.

3. Any person in the unclassified service, except members of the academic staff of the Nevada System of Higher Education, may be granted by the appointing authority a leave of absence without pay for a period not to exceed 6 months.

4. Officers and members of the faculty of the Nevada System of Higher Education may be granted leaves of absence without pay as provided by the regulations prescribed pursuant to subsection 2 of NRS 284.345.

5. Except as otherwise provided in subsection 6, a person in the classified or unclassified service who:

(a) Is the natural parent of a child who is less than 6 months old; or

(b) Has recently adopted a child,

➥ must be granted, upon request, a leave of absence without pay for a period not to exceed 12 weeks. Such a request by natural parents must be submitted at least 3 months before the date upon which the requested leave will begin,

unless a shorter notice is approved by the employer. Such a request by adoptive parents must be submitted not fewer than 2 working days after the parents receive notice of the approval of the adoption. This subsection does not affect the rights of an employee set forth in NRS 284.350 ~~[or]~~ 284.355 ~~[.]~~ ***and section 1 of this act.***

6. The provisions of subsection 5 are effective only if the Family and Medical Leave Act of 1993, 29 U.S.C. §§ 2601 et seq., or a subsequent federal law ceases to provide for a parental leave of absence of at least 12 weeks.

Sec. 4. 1. This section becomes effective upon passage and approval.

2. Sections 1, 2 and 3 of this act become effective:

(a) Upon passage and approval for the purpose of adopting any regulations and performing any other preparatory administrative tasks that are necessary to carry out the provisions of this act; and

(b) On January 1, 2024, for all other purposes.

Assembly Bill No. 387.

Bill read second time.

The following amendment was proposed by the Committee on Natural Resources:

Amendment No. 286.

AN ACT relating to water; ~~[revising provisions relating to groundwater basins;]~~ requiring the State Engineer to consider the best available science when rendering decisions; revising provisions relating to the appropriation of underground water; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

~~[Under existing law, upon receipt of a petition signed by not less than 40 percent of the appropriators of record in any particular groundwater basin or portion thereof, the State Engineer is required to designate the basin for administration if the findings of the State Engineer determine that administration would be justified. The State Engineer may also designate a basin where no petition is received if, following a public hearing, the State Engineer determines that administration of the basin is justified. To designate a basin, the State Engineer must enter an official order describing the boundaries of the basin by legal subdivision as nearly as possible. (NRS 534.030) Sections 2 and 8 of this bill define the term "groundwater basin" or "basin" to mean one or more groundwater basins that are designated by the State Engineer and administered as a single source and supply of water for administration in accordance with existing law. Sections 4 and 9 of this bill make conforming changes to indicate the proper placement of sections 2 and 8, respectively, in the Nevada Revised Statutes. Section 7 of this bill makes a conforming change to remove a duplicative definition.]~~

Existing law declares that it is the policy of this State to encourage the State Engineer to consider the best available science in rendering decisions concerning the available surface and underground sources of water in this State. (NRS 533.024) **Sections 3 and 5** of this bill remove this provision from the legislative declaration and instead require the State Engineer to consider the best available science.

Existing law provides that all underground waters within the boundaries or the State, subject to all existing rights to the use thereof, are subject to appropriation for beneficial use under the laws of this State. (NRS 534.020) **Section 10** of this bill provides that the appropriation **or use** of underground waters is subject to all existing rights ~~[regardless of where the points of diversion are located, and]~~ **to the use of the source thereof,** if the State Engineer finds that a ~~[sufficient]~~ hydrologic connection exists ~~[, regardless of whether the points of diversion are located in separate basins.]~~ **that is sufficient to cause a conflict with existing rights.**

Under existing law, the State Engineer is required to determine whether there is unappropriated water in an affected area and may issue permits for a well only if the determination is affirmative. (NRS 534.110) Existing law prohibits the State Engineer from issuing a permit to appropriate water under certain circumstances, including, without limitation, if there is no unappropriated water or where the proposed use or change conflicts with existing rights or with protectable interests or threatens to prove detrimental to the public interest. (NRS 533.370) ~~[Sections]~~ **Section 6** ~~[and 13]~~ of this bill ~~[require]~~ **requires** the State Engineer, in determining whether there is unappropriated water, to consider whether the permit would conflict with ~~[existing rights or threaten to prove detrimental to the public interest.]~~ **any hydrologically connected surface water or groundwater. Section 13 of this bill clarifies that the State Engineer must determine whether there is unappropriated water in an affected area in accordance with existing law governing the issuance of permits to appropriate water. Sections 11 and 12** of this bill make conforming changes to revise certain internal references.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 533 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

Sec. 2. ~~***[“Groundwater basin” or “basin” has the meaning ascribed to it in section 8 of this act.]***~~ **(Deleted by amendment.)**

Sec. 3. ***1. The State Engineer shall consider the best available science in rendering decisions concerning the surface and underground sources of water in this State.***

2. As used in this section, “best available science” means the use of credible information and data that is specific to the decision being made and the time frame available for making such a decision and consistent with professional scientific and engineering standards and practices.

Sec. 4. ~~[NRS 533.005 is hereby amended to read as follows:~~

~~533.005 As used in this chapter, unless the context otherwise requires, the words and terms defined in NRS 533.007 to 533.023, inclusive, *and section 2 of this act* have the meanings ascribed to them in those sections.]~~ **(Deleted by amendment.)**

Sec. 5. NRS 533.024 is hereby amended to read as follows:

533.024 The Legislature declares that:

1. It is the policy of this State:

(a) To encourage and promote the use of effluent, where that use is not contrary to the public health, safety or welfare, and where that use does not interfere with federal obligations to deliver water of the Colorado River.

(b) To recognize the importance of domestic wells as appurtenances to private homes, to create a protectable interest in such wells and to protect their supply of water from unreasonable adverse effects which are caused by municipal, quasi-municipal or industrial uses and which cannot reasonably be mitigated.

(c) ~~[To encourage the State Engineer to consider the best available science in rendering decisions concerning the available surface and underground sources of water in Nevada.~~

~~(d)]~~ To encourage and promote the use of water to prevent or reduce the spread of wildfire or to rehabilitate areas burned by wildfire, including, without limitation, through the establishment of vegetative cover that is resistant to fire.

~~[(e)]~~ ***(d)*** To manage conjunctively the appropriation, use and administration of all waters of this State, regardless of the source of the water.

2. The procedures in this chapter for changing the place of diversion, manner of use or place of use of water, and for confirming a report of conveyance, are not intended to have the effect of quieting title to or changing ownership of a water right and that only a court of competent jurisdiction has the power to determine conflicting claims to ownership of a water right.

Sec. 6. NRS 533.370 is hereby amended to read as follows:

533.370 1. Except as otherwise provided in this section and NRS 533.0241, 533.345, 533.371, 533.372 and 533.503, the State Engineer shall approve an application submitted in proper form which contemplates the application of water to beneficial use if:

(a) The application is accompanied by the prescribed fees;

(b) The proposed use or change, if within an irrigation district, does not adversely affect the cost of water for other holders of water rights in the district or lessen the efficiency of the district in its delivery or use of water; and

(c) The applicant provides proof satisfactory to the State Engineer of the applicant's:

(1) Intention in good faith to construct any work necessary to apply the water to the intended beneficial use with reasonable diligence; and

(2) Financial ability and reasonable expectation actually to construct the work and apply the water to the intended beneficial use with reasonable diligence.

2. Except as otherwise provided in subsection 10, where there is no unappropriated water in the proposed source of supply, where the groundwater that has not been committed for use has been reserved pursuant to NRS 533.0241 or where its proposed use or change conflicts with existing rights **,** ***including, without limitation, ~~[the existing rights of holders of permits, claimants of vested rights or the existing rights associated with]~~ conflicts from any hydrologically connected surface water or groundwater*** or with protectable interests in existing domestic wells as set forth in NRS 533.024, or threatens to prove detrimental to the public interest, the State Engineer shall reject the application and refuse to issue the requested permit. If a previous application for a similar use of water within the same basin has been rejected on those grounds, the new application may be denied without publication.

3. In addition to the criteria set forth in subsections 1 and 2, in determining whether an application for an interbasin transfer of groundwater must be rejected pursuant to this section, the State Engineer shall consider:

(a) Whether the applicant has justified the need to import the water from another basin;

(b) If the State Engineer determines that a plan for conservation of water is advisable for the basin into which the water is to be imported, whether the applicant has demonstrated that such a plan has been adopted and is being effectively carried out;

(c) Whether the proposed action is environmentally sound as it relates to the basin from which the water is exported;

(d) Whether the proposed action is an appropriate long-term use which will not unduly limit the future growth and development in the basin from which the water is exported; and

(e) Any other factor the State Engineer determines to be relevant.

4. Except as otherwise provided in this subsection and subsections 6 and 10 and NRS 533.365, the State Engineer shall approve or reject each application within 2 years after the final date for filing a protest. The State Engineer may postpone action:

(a) Upon written authorization to do so by the applicant.

(b) If an application is protested.

(c) If the purpose for which the application was made is municipal use.

(d) In areas where studies of water supplies have been determined to be necessary by the State Engineer pursuant to NRS 533.368.

(e) Where court actions or adjudications are pending, which may affect the outcome of the application.

(f) In areas in which adjudication of vested water rights is deemed necessary by the State Engineer.

(g) On an application for a permit to change a vested water right in a basin where vested water rights have not been adjudicated.

(h) Where authorized entry to any land needed to use the water for which the application is submitted is required from a governmental agency.

(i) On an application for which the State Engineer has required additional information pursuant to NRS 533.375.

5. If the State Engineer does not act upon an application in accordance with subsections 4 and 6, the application remains active until approved or rejected by the State Engineer.

6. Except as otherwise provided in this subsection and subsection 10, the State Engineer shall approve or reject, within 6 months after the final date for filing a protest, an application filed to change the point of diversion of water already appropriated when the existing and proposed points of diversion are on the same property for which the water has already been appropriated under the existing water right or the proposed point of diversion is on real property that is proven to be owned by the applicant and is contiguous to the place of use of the existing water right. The State Engineer may postpone action on the application pursuant to subsection 4.

7. If the State Engineer has not approved, rejected or held a hearing on an application within 7 years after the final date for filing a protest, the State Engineer shall cause notice of the application to be republished pursuant to NRS 533.360 immediately preceding the time at which the State Engineer is ready to approve or reject the application. The cost of the republication must be paid by the applicant. After such republication, a protest may be filed in accordance with NRS 533.365.

8. If a hearing is held regarding an application, the decision of the State Engineer must be in writing and include findings of fact, conclusions of law and a statement of the underlying facts supporting the findings of fact. The written decision may take the form of a transcription of an oral ruling. The rejection or approval of an application must be endorsed on a copy of the original application, and a record must be made of the endorsement in the records of the State Engineer. The copy of the application so endorsed must be returned to the applicant. Except as otherwise provided in subsection 11, if the application is approved, the applicant may, on receipt thereof, proceed with the construction of the necessary works and take all steps required to apply the water to beneficial use and to perfect the proposed appropriation. If the application is rejected, the applicant may take no steps toward the prosecution of the proposed work or the diversion and use of the public water while the rejection continues in force.

9. If a person is the successor in interest of an owner of a water right or an owner of real property upon which a domestic well is located and if the former owner of the water right or real property on which a domestic well is located had previously filed a written protest against the granting of an application, the successor in interest must be allowed to pursue that protest in the same manner as if the successor in interest were the former owner whose interest he or she succeeded. If the successor in interest wishes to pursue the protest, the

successor in interest must notify the State Engineer in a timely manner on a form provided by the State Engineer.

10. The provisions of subsections 1 to 9, inclusive, do not apply to an application for an environmental permit or a temporary permit issued pursuant to NRS 533.436 or 533.504.

11. The provisions of subsection 8 do not authorize the recipient of an approved application to use any state land administered by the Division of State Lands of the State Department of Conservation and Natural Resources without the appropriate authorization for that use from the State Land Registrar.

12. As used in this section, "domestic well" has the meaning ascribed to it in NRS 534.350.

Sec. 7. **[**~~NRS 533.438 is hereby amended to read as follows:~~

~~533.438 1. Except as otherwise provided in subsection 4, if an appropriation of groundwater pursuant to a permit to appropriate groundwater results in the transfer to and beneficial use of water in a county in this State other than the county in which the water is appropriated or in another state, the county of origin may impose a fee of $10 per acre-foot per year on the transfer.~~

~~2. A county of origin shall not impose a fee pursuant to subsection 1 without the prior approval of the State Engineer. The county of origin shall notify the State Engineer in writing of its intent to impose the fee. The State Engineer shall review the notice of intent to impose the fee to determine:~~

~~(a) Whether the appropriation of groundwater pursuant to the permit specified in subsection 1 results in a transfer to and beneficial use of water in a county in this State other than the county of origin or in another state; and~~

~~(b) The amount of water, if any, that is:~~

~~(1) Subject to the proposed fee because of that transfer and beneficial use; or~~

~~(2) Not subject to the proposed fee pursuant to subsection 4.~~

~~3. Within 30 days after reviewing the notice of intent to impose the fee, the State Engineer shall send a written notice to the county of origin that includes the results of his or her review. If the State Engineer determines that the appropriation of groundwater pursuant to the permit results in a transfer to and beneficial use of water in a county in this State other than the county of origin or in another state, the State Engineer shall include in the notice the amount of water that is subject to the proposed fee. The county may, upon such a determination, impose the fee on the transfer.~~

~~4. A fee may not be imposed pursuant to this section on water that is appropriated and beneficially used pursuant to a permit to appropriate groundwater which is issued for a point of diversion and a place of beneficial use in the county of origin and which, after the water is diverted and beneficially used, is discharged or migrates into a county in this State other than the county of origin or into another state.~~

~~5. All money collected from a fee imposed pursuant to this section must be deposited in a trust fund for the county. The principal and interest of the~~

~~trust fund may be used by the county only for the purposes of economic development, health care and education.~~

~~6. For the purposes of this section, if a basin includes land lying in more than one county, each county any part of whose land is included is a county of origin to the extent of the proportionate amount of water transferred from it. The State Engineer shall determine the respective proportions.~~

~~7. As used in this section [:~~

~~(a) A "basin" is one designated by the State Engineer for the purposes of chapter 534 of NRS.~~

~~(b) "Origin"] , "*origin*" means the place where water is taken from underground.] **(Deleted by amendment.)**~~

Sec. 8. ~~[Chapter 534 of NRS is hereby amended by adding thereto a new section to read as follows:~~

~~"*Groundwater basin" or "basin" means one or more groundwater basins designated by the State Engineer pursuant to NRS 534.030 which are administered as a single source and supply of water by the State Engineer in accordance with the provisions of this chapter and chapter 533 of NRS.]~~ **(Deleted by amendment.)**

Sec. 9. ~~[NRS 534.010 is hereby amended to read as follows:~~

~~534.010 1. As used in this chapter, unless the context otherwise requires, the words and terms defined in NRS 534.0105 to 534.0175, inclusive, *and section 8 of this act* have the meanings ascribed to them in those sections.~~

~~2. As used in this chapter, the terms "underground water" and "groundwater" are synonymous.] **(Deleted by amendment.)**~~

Sec. 10. NRS 534.020 is hereby amended to read as follows:

534.020 1. ***Any appropriation or use of underground waters within the boundaries of this State is subject to all existing rights to the use of the source thereof, [regardless of where the respective points of diversion are located and,] if the State Engineer finds that a [sufficient] hydrologic connection exists [, regardless of whether the respective points of diversion are located in separate basins.] that is sufficient to cause a conflict with existing rights.***

2. All underground waters within the boundaries of the State belong to the public, and, subject to all existing rights to the use thereof ~~[,]~~ ***as set forth in subsection 1,*** are subject to appropriation for beneficial use only under the laws of this State relating to the appropriation and use of water and not otherwise.

~~[2.]~~ ***3.*** It is the intention of the Legislature, by this chapter, to prevent the waste of underground waters and pollution and contamination thereof and provide for the administration of the provisions thereof by the State Engineer, who ~~[is hereby empowered to]~~ ***shall*** make such rules and regulations within the terms of this chapter as may be necessary for the proper execution of the provisions of this chapter.

Sec. 11. NRS 534.037 is hereby amended to read as follows:

534.037 1. In a basin that has been designated as a critical management area by the State Engineer pursuant to subsection ~~[7]~~ ***8*** of NRS 534.110, a

petition for the approval of a groundwater management plan for the basin may be submitted to the State Engineer. The petition must be signed by a majority of the holders of permits or certificates to appropriate water in the basin that are on file in the Office of the State Engineer and must be accompanied by a groundwater management plan which must set forth the necessary steps for removal of the basin's designation as a critical management area.

2. In determining whether to approve a groundwater management plan submitted pursuant to subsection 1, the State Engineer shall consider, without limitation:

(a) The hydrology of the basin;

(b) The physical characteristics of the basin;

(c) The geographic spacing and location of the withdrawals of groundwater in the basin;

(d) The quality of the water in the basin;

(e) The wells located in the basin, including, without limitation, domestic wells;

(f) Whether a groundwater management plan already exists for the basin; and

(g) Any other factor deemed relevant by the State Engineer.

3. Before approving or disapproving a groundwater management plan submitted pursuant to subsection 1, the State Engineer shall hold a public hearing to take testimony on the plan in the county where the basin lies or, if the basin lies in more than one county, within the county where the major portion of the basin lies. The State Engineer shall cause notice of the hearing to be:

(a) Given once each week for 2 consecutive weeks before the hearing in a newspaper of general circulation in the county or counties in which the basin lies.

(b) Posted on the Internet website of the State Engineer for at least 2 consecutive weeks immediately preceding the date of the hearing.

4. The decision of the State Engineer on a groundwater management plan may be reviewed by the district court of the county pursuant to NRS 533.450.

5. An amendment to a groundwater management plan must be proposed and approved in the same manner as an original groundwater management plan is proposed and approved pursuant to this section.

Sec. 12. NRS 534.090 is hereby amended to read as follows:

534.090 1. Except as otherwise provided in this section, failure for 5 successive years after April 15, 1967, on the part of the holder of any right, whether it is an adjudicated right, an unadjudicated right or a right for which a certificate has been issued pursuant to NRS 533.425, and further whether the right is initiated after or before March 25, 1939, to use beneficially all or any part of the underground water for the purpose for which the right is acquired or claimed, works a forfeiture of both undetermined rights and determined rights to the use of that water to the extent of the nonuse.

2. If the records of the State Engineer or any other documents obtained by or provided to the State Engineer indicate 4 or more consecutive years of nonuse of all or any part of a water right which is governed by this chapter:

(a) The State Engineer shall notify the owner of the water right, as determined in the records of the Office of the State Engineer, by registered or certified mail of the nonuse and that the owner has 1 year after the date of the notice of nonuse in which to use the water right beneficially and to provide proof of such use to the State Engineer or apply for relief pursuant to subsection 3 to avoid forfeiting the water right.

(b) If, after 1 year after the date of the notice of nonuse pursuant to paragraph (a), proof of resumption of beneficial use is not filed in the Office of the State Engineer, the State Engineer shall, unless the State Engineer has granted a request to extend the time necessary to work a forfeiture of the water right, send a final notice to the owner of the water right, as determined in the records of the Office of the State Engineer, by registered or certified mail, that the water right is held for forfeiture. If the owner of the water right, within 30 days after the date of such final notice, fails to file the required proof of resumption of beneficial use or an application for an extension of time to prevent forfeiture, the State Engineer shall declare the right, or the portion of the right not returned to beneficial use, forfeited. The State Engineer shall send notice of the declaration of forfeiture, by registered or certified mail, to the owner of record, as determined in the records of the Office of the State Engineer, of the water right that has been declared forfeited.

(c) If, after receipt of a notice of the declaration of forfeiture pursuant to paragraph (b), the owner of record of the water right fails to appeal the ruling in the manner provided for in NRS 533.450, and within the time provided for therein, the forfeiture becomes final. Upon the forfeiture of the water right, the water reverts to the public and is available for further appropriation, subject to existing rights.

3. The State Engineer may, upon the request of the holder of any right described in subsection 1, extend the time necessary to work a forfeiture under subsection 2 if the request is made before the expiration of the time necessary to work a forfeiture. Except as otherwise provided in subsection 4, the State Engineer may grant, upon request and for good cause shown, any number of extensions, but a single extension must not exceed 1 year. In determining whether to grant or deny a request, the State Engineer shall, among other reasons, consider:

(a) Whether the holder has submitted proof and evidence that the holder is proceeding in good faith and with reasonable diligence to resume use of the water beneficially for the purpose for which the holder's right is acquired or claimed;

(b) The number of years during which the water has not been put to the beneficial use for which the right is acquired or claimed;

(c) Any economic conditions or natural disasters which made the holder unable to put the water to that use;

(d) Whether the water right is located in a basin within a county under a declaration of drought by the Governor, United States Secretary of Agriculture or the President of the United States;

(e) Whether the holder has demonstrated efforts to conserve water which have resulted in a reduction in water consumption;

(f) Whether the water right is located in a basin that has been designated as a critical management area by the State Engineer pursuant to subsection ~~[7]~~ ***8*** of NRS 534.110;

(g) The date of priority of the water right as it relates to the potential curtailment of water use in the basin;

(h) The availability of water in the basin, including, without limitation, whether withdrawals of water consistently exceed the perennial yield of the basin; and

(i) Any orders restricting use or appropriation of water in the basin.

➥ The State Engineer shall notify, by registered or certified mail, the owner of the water right, as determined in the records of the Office of the State Engineer, of whether the State Engineer has granted or denied the holder's request for an extension pursuant to this subsection. If the State Engineer grants an extension pursuant to this subsection and, before the expiration of that extension, proof of resumption of beneficial use or another request for an extension is not filed in the Office of the State Engineer, the State Engineer shall send a final notice to the owner of the water right, by registered or certified mail, that the water right will be declared forfeited if the owner of the water right fails to file the required proof of resumption of beneficial use or an application for an extension of time to prevent forfeiture within 30 days after the date of the final notice. If the owner of the water right fails to file the required proof of resumption of beneficial use or an application for an extension of time to prevent forfeiture within 30 days after the date of such final notice, the State Engineer shall declare the water right, or the portion of the right not returned to beneficial use, forfeited.

4. If the State Engineer grants an extension pursuant to subsection 1 in a basin:

(a) Where withdrawals of groundwater consistently exceed the perennial yield of the basin; or

(b) That has been designated as a critical management area by the State Engineer pursuant to subsection ~~[7]~~ ***8*** of NRS 534.110,

➥ a single extension must not exceed 3 years, but any number of extensions may be granted to the holder of such a right.

5. The failure to receive a notice pursuant to subsection 2 or 3 does not nullify the forfeiture or extend the time necessary to work the forfeiture of a water right.

6. A right to use underground water whether it is vested or otherwise may be lost by abandonment. If the State Engineer, in investigating a groundwater source, upon which there has been a prior right, for the purpose of acting upon an application to appropriate water from the same source, is of the belief from

his or her examination that an abandonment has taken place, the State Engineer shall so state in the ruling approving the application. If, upon notice by registered or certified mail to the owner of record who had the prior right, the owner of record of the prior right fails to appeal the ruling in the manner provided for in NRS 533.450, and within the time provided for therein, the alleged abandonment declaration as set forth by the State Engineer becomes final.

Sec. 13. NRS 534.110 is hereby amended to read as follows:

534.110 1. The State Engineer shall administer this chapter and shall prescribe all necessary regulations within the terms of this chapter for its administration.

2. The State Engineer may:

(a) Require periodical statements of water elevations, water used, and acreage on which water was used from all holders of permits and claimants of vested rights.

(b) Upon his or her own initiation, conduct pumping tests to determine if overpumping is indicated, to determine the specific yield of the aquifers and to determine permeability characteristics.

3. ~~[The]~~ ***In accordance with NRS 533.370, the*** State Engineer shall determine whether there is unappropriated water in the area affected and may issue permits only if the determination is affirmative. ~~***[In determining whether there is unappropriated water in the area affected, the State Engineer shall, in accordance with NRS 533.370, consider whether the proposed use will:***~~

~~***(a) Conflict with existing rights, including, without limitation, the existing rights:***~~

~~***(1) Of holders of permits;***~~

~~***(2) Of claimants of vested rights; and***~~

~~***(3) Associated with any hydrologically connected surface water and groundwater; or***~~

~~***(b) Prove detrimental to the public interest in the area affected.]***~~

4. The State Engineer may require each applicant to whom a permit is issued for a well:

(a) For municipal, quasi-municipal or industrial use; and

(b) Whose reasonably expected rate of diversion is one-half cubic foot per second or more,

➥ to report periodically to the State Engineer concerning the effect of that well on other previously existing wells that are located within 2,500 feet of the well.

~~[4.]~~ ***5.*** It is a condition of each appropriation of groundwater acquired under this chapter that the right of the appropriator relates to a specific quantity of water and that the right must allow for a reasonable lowering of the static water level at the appropriator's point of diversion. In determining a reasonable lowering of the static water level in a particular area, the State Engineer shall consider the economics of pumping water for the general type of crops growing and may also consider the effect of using water on the economy of the area in general.

~~[5.]~~ ***6.*** This section does not prevent the granting of permits to applicants later in time on the ground that the diversions under the proposed later appropriations may cause the water level to be lowered at the point of diversion of a prior appropriator, so long as any protectable interests in existing domestic wells as set forth in NRS 533.024 and the rights of holders of existing appropriations can be satisfied under such express conditions. At the time a permit is granted for a well:

(a) For municipal, quasi-municipal or industrial use; and

(b) Whose reasonably expected rate of diversion is one-half cubic foot per second or more,

The following amendment was proposed by the Committee on Commerce and Labor:

Amendment No. 289.

AN ACT relating to property; prohibiting certain deceptive service agreements between an owner of residential property and a service provider; revising provisions governing persons who hold a permit to engage in property management; providing penalties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides that any provision in a written instrument relating to real property that is discriminatory, prohibits the display of the flag of the United States or prohibits or restricts an owner of property from obtaining solar or wind energy on his or her property is void and unenforceable. (NRS 111.237-111.2395) **Section 1** of this bill prohibits, with certain exceptions, a service provider from entering into or recording a service agreement with an owner of residential property that provides for the performance of the agreement more than 1 year from the date of the execution of the agreement if the service agreement: (1) purports to run with the land or bind future owners; (2) allows for the assignment of the right to provide service without requiring notice to and the agreement of the owner; or (3) purports to create a security interest in the residential property. **Section 1** provides that such a service agreement is void and unenforceable. **Section 1** also: (1) provides that a county recorder may refuse to record such an agreement; (2) provides that any person who attempts to record such an agreement is guilty of a misdemeanor; and (3) authorizes persons with an interest in a residential property subject to such a service agreement to bring a civil action for equitable relief, actual damages and actual costs and attorney's fees.

Section 1 further requires a service provider that has entered into a service agreement on or before October 1, 2023, to record a notice of the service agreement with the county ~~[clerk]~~ **recorder** of the county in which the real

property that is subject to the service agreement is located. If the service provider fails to record the notice, **section 1** provides that the service agreement is void and unenforceable.

Existing law defines various activities involving businesses and occupations that constitute deceptive trade practices. (NRS 598.0915-598.0925) If a person knowingly engages in a deceptive trade practice, the person may be subject to restraint by injunction and the imposition of civil and criminal penalties. (NRS 598.0979, 598.0985, 598.0999) **Section 1** provides that a service provider who enters into or records such a service agreement prohibited by **section 1** is engaged in a deceptive trade practice.

Existing law authorizes a person licensed as a real estate broker, real estate broker-salesperson or real estate salesperson to apply to the Real Estate Division of the Department of Business and Industry for a permit to engage in property management. (NRS 645.6052) A real estate broker who holds a permit to engage in property management is prohibited from acting as a property manager unless the broker has first obtained a property management agreement signed by the broker and the client for whom the broker will manage the property. (NRS 645.6056) **Section 2** of this bill sets forth certain duties of a person who acts as a property manager when entering into a property management agreement and performing his or her duties pursuant to such agreement, including, without limitation, requiring the property manager to: (1) make certain disclosures to each party to the property management agreement; (2) exercise reasonable skill and care; (3) provide a form to all parties to the property management agreement disclosing the duties owed by the property manager; (4) seek a rental or lease of real property at the price set forth in the property management agreement; (5) advise the client to seek expert advice when needed; and (6) account for all money and property the property manager receives in which the client may have an interest.

Section 3 of this bill revises the definition of the term "agency" to include a relationship arising out of a property management agreement.

Section 6 of this bill prohibits a property manager from waiving any duty set forth in **section 2**. **Section 7** of this bill authorizes a person who has suffered damages as the proximate result of a property manager's failure to perform any duty set forth in **section 2** to bring an action against the property manager for the recovery of the person's actual damages.

Existing law requires the Division to prepare and distribute a form to persons licensed as real estate brokers, real estate broker-salespersons or real estate salespersons which sets forth the duties owed by a licensee. (NRS 645.193) **Section 4** of this bill also requires the Division to prepare such a form for property managers.

Existing law provides that if a real estate broker assigns different licensees affiliated with his or her brokerage to separate parties to a real estate transaction, the licensees are not required to obtain the written consent of each party to the transaction. (NRS 645.252, 645.253) **Section 5** of this bill provides that property managers affiliated with a brokerage who are assigned to separate

parties to a property management agreement are also not required to obtain such written consent.

Amendment adopted.

Assembly Bill No. 423.

Bill read second time.

The following amendment was proposed by the Committee on Government Affairs:

Amendment No. 336.

AN ACT relating to the boards of trustees of school districts; restricting **, with certain exceptions,** the time of day during which the board of trustees of a school district may take action or corrective action at a regular or special meeting; authorizing, under certain circumstances, the board of trustees to restrict certain public comment at a regular or special meeting; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

The Open Meeting Law requires that a public body such as the board of trustees of a school district give notice of its meetings by: (1) posting an agenda consisting of a list describing the items on which action may be taken by the public body; and (2) clearly denoting that action may be taken on those items by placing the term "for possible action" next to the appropriate item or, under certain circumstances, by placing the term "for possible corrective action" next to the appropriate item. (NRS 241.015, 241.020) Existing law sets forth certain requirements and procedures for meetings of the board of trustees of a school district, including, without limitation: (1) a requirement that the board of trustees hold a regular meeting at least once each month; and (2) the authority for the president of the board of trustees to call special meetings under certain circumstances. (NRS 386.330) **Section 1** of this bill prohibits **, except in an emergency that impacts the school district,** the board of trustees of a school district from taking any action or corrective action at a regular meeting or special meeting on an item that has been posted on its agenda pursuant to the Open Meeting Law after 11:59 p.m. on the day of the meeting. **Section 1** further provides that if the board of trustees has not taken action or corrective action, as applicable, on any item that is on its agenda before 11:59 p.m. on the day of the meeting, the board of trustees must ~~[wait until at least 8 a.m. on the following day to]~~ **not** take any further action or corrective action on any item that is on the meeting agenda ~~.[.]~~ **unless the board of trustees: (1) schedules the delayed agenda item at a future meeting; or (2) waits at least 24 hours after the originally scheduled time of the meeting but not later**

than 3 business days after the originally scheduled date of the meeting to take action or corrective action.

The United States Constitution and the Nevada Constitution protect the freedom of speech but a public body may, under certain circumstances, limit speech at a public meeting. (U.S. Const. Amend. I; Nev. Const. Art. 1, § 9; *Minnesota State Bd. for Community Colleges v. Knight*, 465 U.S. 271, 281-85 (1984); *White v. City of Norwalk*, 900 F.2d 1421, 1425 (9th Cir. 1990)) Under existing case law, a public body may: (1) impose reasonable time, place and manner restrictions that are viewpoint neutral and maintain decorum and order; and (2) limit public comment that is not relevant to or within the authority of the public body. (*Norwalk* at 1425; *Reza v. Pearce*, 806 F.3d 497, 503-04 (9th Cir. 2015); *see also* OMLO 2001-22 (12-17-2002); *Nevada Open Meeting Law Manual*, § 8.05 (11th ed. 2012)) However, existing case law prohibits a public body from restricting public comment that is slanderous or offensive unless such public comment causes an actual disturbance at the meeting. (*Acosta v. City of Costa Mesa*, 718 F.3d 800, 813 (9th Cir. 2013)) Consistent with existing case law, the Open Meeting Law authorizes the removal from a meeting of a public body any person who willfully disrupts a meeting to the extent that its orderly conduct is made impractical. (NRS 241.030) **Section 1** authorizes a board of trustees of a school district, consistent with existing case law, to restrict public comment at a regular meeting or special meeting if the public comment: (1) is a topic that is not relevant to or within the authority of the board of trustees; or (2) is willfully disruptive of the meeting by being slanderous or offensive.

Assembly Bill No. 425.

Bill read second time.

The following amendment was proposed by the Committee on Growth and Infrastructure:

Amendment No. 211.

AN ACT relating to net metering; authorizing the users of a low-income housing shared net metering system to participate in net metering; exempting the owner or operator of a low-income housing shared net metering system from certain provisions of law; requiring the Public Utilities Commission of Nevada to adopt certain regulations; revising provisions governing the administration of net metering; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires each electric utility in this State to offer net metering to customer-generators operating in the service area of the utility. (NRS 704.773) **Section 10 and 11** of this bill authorize the users of a low-income housing shared net metering system to participate in net metering. **Sections 2-7** of this bill define terms related to low-income housing shared net metering systems. **Section 8** of this bill excludes persons who own or operate a low-income housing shared net metering system from the definition of "public utility." **Section 9** of this bill makes a conforming change to ~~[indicate the proper placement of sections 2-7 in the Nevada Revised Statutes.]~~ **make the definitions set forth in sections 2-7 applicable to the law governing net metering.** **Sections 12-14** of this bill revise existing provisions governing net metering to provide for the administration of net metering with respect to low-income housing shared net metering systems, including the measuring of net electricity produced or consumed and the awarding of credit for excess electricity produced by a low-income housing shared net metering system. **Section 12** of this bill requires the Public Utilities Commission of Nevada to adopt regulations prescribing the form and substance for a low-income housing shared net metering tariff **or tariffs** and a standard low-income housing shared net metering contract. **Section 15** of this bill provides that, with certain exceptions, certain provisions governing the rates charged for the provision of electric service by the landlord of a manufactured home park or mobile home park or owner of a company town do not apply to the owner or operator of a low-income housing shared net metering system.

(2) In the case of master-metered buildings, residents receive such financial benefits in the form of additional property amenities or services that are equitably accessible to all residents of the property.

➥ An equitable allocation of the financial benefits of the electricity produced by the low-income housing shared net metering system to the occupants does not preclude any allocation of the generation output to common-area accounts.

(c) The manner in which the owner of a low-income housing shared net metering system may update the utility on the proper allocation of capacity

and its associated production to various customer-generators and the frequency with which the owner may submit such updates, which must be not less than annually.

(e) Provisions governing the interconnection of a low-income housing shared net metering system to the system of the utility without requiring the meters [in] of individual [units] users or owners of the low-income housing shared net metering system to be directly interconnected to the low-income housing shared net metering system, including, without limitation, procedures and timelines that are consistent with the procedures and timelines established for other net metering systems.

(f) Any other provisions the Commission finds necessary to carry out the provisions of NRS 704.766 to 704.776, inclusive, and sections 2 to 7, inclusive, of this act.

Sec. 13. NRS 704.7732 is hereby amended to read as follows:

704.7732 1. If a customer-generator accepts the offer of a utility for net metering on or after June 15, 2017, and the net metering system of the customer-generator has a capacity of not more than 25 kilowatts [.] ***or the customer-generator is [allocated not more than 25 kilowatts from a low-income housing shared net metering system or the customer-generator is using an allocation from] a user or owner of a low-income housing shared net metering system , [to serve common areas of a qualified affordable housing property,]*** the utility must, in accordance with this section, provide to the customer-generator a credit for each kilowatt-hour of excess electricity governed by paragraph (c) of subsection 2 of NRS 704.775 that is generated by the customer-generator [.] ***or which represents the customer-generator's allocation of the excess electricity generated by a low-income housing shared net metering system.***

2. The credit for each kilowatt-hour of excess electricity described in subsection 1 must equal a percentage, as set forth in subsection 3, of the rate the customer-generator would have paid for a kilowatt-hour of electricity supplied by the utility at the time the customer-generator fed the kilowatt-hour of excess electricity back to the utility.

3. The percentage to be used to determine the credit pursuant to subsection 2 for each kilowatt-hour of excess electricity must equal:

(a) Ninety-five percent, if the customer-generator accepts the offer of the utility for net metering:

(1) On or after June 15, 2017; and

(2) Before the date on which the Commission determines and posts on its Internet website its determination that the cumulative installed capacity of all net metering systems in this State with a capacity of not more than 25 kilowatts

for customer-generators who accepted the offer of the utility for net metering on or after June 15, 2017, is equal to 80 megawatts;

(b) Eighty-eight percent, if the customer-generator accepts the offer of the utility for net metering:

(1) On or after the date that the Commission determines that the condition set forth in subparagraph (2) of paragraph (a) has been met; and

(2) Before the date on which the Commission determines and posts on its Internet website its determination that the cumulative installed capacity of all net metering systems in this State with a generating capacity of not more than 25 kilowatts for customer generators who accepted the offer of the utility for net metering on or after the date described in subparagraph (1) is equal to 80 megawatts;

(c) Eighty-one percent, if the customer-generator accepts the offer of the utility for net metering:

(1) On or after the date that the Commission determines that the condition set forth in subparagraph (2) of paragraph (b) has been met; and

(2) Before the date on which the Commission determines and posts on its Internet website its determination that the cumulative installed capacity of all net metering systems in this State with a generating capacity of not more than 25 kilowatts for customer generators who accepted the offer of the utility for net metering on or after the date described in subparagraph (1) is equal to 80 megawatts;

(d) Seventy-five percent, if the customer-generator accepts the offer of the utility for net metering on or after the date that the Commission determines that the condition set forth in subparagraph (2) of paragraph (c) has been met.

4. On or before the 15th day of each calendar month, a utility shall post on its Internet website and report to the Commission the cumulative installed capacity of the net metering systems with a capacity of not more than 25 kilowatts for which a customer-generator has accepted the offer of that utility as of the close of business of the utility on the last business day of the immediately preceding calendar month.

5. Except as otherwise provided in this subsection, for the purposes of this section, a customer-generator shall be deemed to accept the offer of the utility for net metering on the date the customer-generator submits to the utility a complete application to install a net metering system within the service area of the utility. A customer-generator who accepted the offer of the utility for net metering before June 15, 2017, and whose net metering system has a capacity of not more than 25 kilowatts may, but is not required to, submit a request to be treated for all purposes, including, without limitation, for the purposes of subsection 3, as a customer-generator who accepted the offer of the utility for net metering on the date of submitting the request.

Sec. 14. NRS 704.775 is hereby amended to read as follows:

704.775 1. The billing period for net metering must be a monthly period.

2. The net energy measurement must be calculated in the following manner:

(a) The utility shall measure, in kilowatt-hours, the net electricity produced or consumed during the billing period ~~[,]~~ ***:***

(1) For a net metering system ~~***[other than a low-income housing shared net metering system or for a low-income housing shared net metering system]***~~*****~~ ***that serves only one meter,*** in accordance with normal metering practices.

(2) For a low-income housing shared net metering system that serves multiple meters, by measuring the total generation output of the low-income housing shared net metering system using a production meter. The utility shall:

(I) For capacity allocations to individually-metered accounts, calculate the total kilowatt-hour output associated with each user's allocated share of the low-income housing shared net metering system's production and deduct the allocated total kilowatt-hour output from each user's total measured consumption.

(II) For premises that contain more than one master meter, calculate the total kilowatt-hour output associated with each master meter's allocated share of the production of the low-income housing shared net metering system and deduct the allocated total kilowatt-hour output from each master meter's total measured consumption.

(b) If the electricity supplied by the utility exceeds the electricity generated by the customer-generator ***, or the customer-generator's allocated share of the electricity generated by a low-income housing shared net metering system,*** which is fed back to the utility during the billing period, the customer-generator must be billed for the net electricity supplied by the utility.

(c) Except as otherwise provided in NRS 704.7732, if the electricity generated by the customer-generator ***, or the customer-generator's allocated share of the electricity generated by a low-income housing shared net metering system,*** which is fed back to the utility exceeds the electricity supplied by the utility during the billing period:

(1) Neither the utility nor the customer-generator is entitled to compensation for the electricity provided to the other during the billing period.

(2) The excess electricity which is fed back to the utility during the billing period is carried forward to the next billing period as an addition to the kilowatt-hours generated by the customer-generator in that billing period. If the customer-generator is billed for electricity pursuant to a time-of-use rate schedule, the excess electricity carried forward must be added to the same time-of-use period as the time-of-use period in which it was generated unless the subsequent billing period lacks a corresponding time-of-use period. In that case, the excess electricity carried forward must be apportioned evenly among the available time-of-use periods.

(3) Excess electricity may be carried forward to subsequent billing periods indefinitely, but a customer-generator is not entitled to receive compensation for any excess electricity that remains if:

(I) The net metering system ceases to operate or is disconnected from the utility's transmission and distribution facilities;

(II) The customer-generator ceases to be a customer of the utility at the premises served by the net metering system; or

(III) The customer-generator transfers the net metering system to another person.

(4) The value of the excess electricity must not be used to reduce any other fee or charge imposed by the utility.

3. If the cost of purchasing and installing a net metering system was paid for:

(a) In whole or in part by a utility, the electricity generated by the net metering system shall be deemed to be electricity that the utility generated or acquired from a renewable energy system for the purposes of complying with its portfolio standard pursuant to NRS 704.7801 to 704.7828, inclusive.

(b) Entirely by a customer-generator ~~[.]~~ ***, including a customer-generator that is the owner of a low-income housing shared net metering system,*** the Commission shall issue to the customer-generator portfolio energy credits for use within the system of portfolio energy credits adopted by the Commission pursuant to NRS 704.7821 and 704.78213 equal to the electricity generated by the net metering system.

4. A bill for electrical service is due at the time established pursuant to the terms of the contract between the utility and the customer-generator.

Sec. 15. NRS 704.940 is hereby amended to read as follows:

704.940 1. In a manufactured home park, mobile home park or company town where the landlord or owner is billed by a gas or electric utility or an alternative seller and in turn charges the tenants or occupants of the dwellings for the service provided by the utility or alternative seller, and the park or town:

(a) Is equipped with individual meters for each lot, the landlord or owner shall not charge a tenant or occupant for that service at a rate higher than the rate paid by the landlord or owner.

(b) Is not equipped with individual meters for each lot, the landlord or owner shall prorate the cost of the service equally among the tenants of the park or occupants of the dwellings who use the service, but the prorated charges must not exceed in the aggregate the cost of the service to the landlord or owner.

2. In a manufactured home park, mobile home park or company town that:

(a) Is equipped with individual water meters for each lot, the individual meters must be read and billed by the purveyor of the water.

(b) Is not equipped with individual water meters for each lot and the landlord or owner is billed by the purveyor of the water and in turn charges the tenants or occupants of the dwellings for the service provided by the purveyor, the landlord or owner shall prorate the cost of the service equally among the tenants of the park or occupants of the dwellings who use the service, but the prorated charges must not exceed in the aggregate the cost of the service to the landlord or owner.

➥ The landlord or owner of a manufactured home park or mobile home park that converts from a master-metered water system to individual water meters for each mobile home lot shall not charge or receive any fee, surcharge or rent increase to recover from the landlord's or owner's tenants the costs of the conversion. The owner of a company town that is not equipped with individual water meters shall not convert from the master-metered water system to individual water meters.

3. To the extent that the cost of providing a utility service to the common area of a manufactured home park, mobile home park or company town can be identified, the landlord or owner may not recover the cost of the utility service provided to the common area by directly charging a tenant or the occupant of a dwelling for those services.

4. The landlord of a manufactured home park or mobile home park or owner of a company town may assess and collect a charge to reimburse the landlord or owner for the actual cost of the service charge the landlord or owner is required to pay to a water utility serving the park or town. If the landlord or owner collects such a charge, the landlord or owner shall prorate the actual cost of the service charge to the tenants or occupants of dwellings who use the service. The landlord or owner shall not collect more than the aggregate cost of the service to the landlord or owner.

5. The landlord may assess and collect a service charge from the tenants of the park for the provision of gas and electric utility services, but the amount of the charge must not be more than the tenants would be required to pay the utility or alternative seller providing the service. The landlord shall:

(a) Keep the money from the service charges in a separate account and expend it only for federal income taxes which must be paid as a result of the collection of the service charge, for preventive maintenance or for repairing or replacing utility lines or equipment when ordered or granted permission to do so by the Commission; and

(b) Retain for at least 3 years a complete record of all deposits and withdrawals of money from the account and file the record with the Commission on or before March 30 of each year.

6. Money collected by the landlord or owner for service provided by a utility or an alternative seller to the tenants of a manufactured home park or mobile home park or occupants of the dwellings may not be used to maintain, repair or replace utility lines or equipment serving the common area of the manufactured home park, mobile home park or company town.

7. The owner of a company town who provides a utility service directly to the occupants of the town may charge the occupants their pro rata share of the owner's cost of providing that service. Where meters are available, the pro rata share must be based on meter readings. Where meters are not available, the owner shall determine a fair allocation which must be explained in detail to the Commission in the reports required by NRS 704.960. The Commission may modify the allocation in accordance with its regulations if it determines the owner's method not to be fair. The Commission shall adopt regulations

governing the determination of the costs which an owner of a company town may recover for providing a utility service directly to the occupants of that town and the terms and conditions governing the provision of that service.

8. The landlord or owner shall itemize all charges for utility services on all bills for rent or occupancy. The landlord or owner may pass through to the tenant or occupant any increase in a rate for a utility service and shall pass through any decrease in a charge for a utility service as it becomes effective.

9. The landlord or owner shall retain for at least 3 years a copy of all billings for utility services made to the tenants or the occupants of the landlord's or owner's dwellings and shall make these records available upon request to the Commission for verification of charges made for utility services.

10. A landlord whose interest in a manufactured home park or mobile home park terminates for any reason shall transfer to the landlord's successor in interest any balance remaining in the account for service charges for utilities. Evidence of the transfer must be filed with the Commission.

11. The Commission may at any time examine all books and records which relate to the landlord's or owner's purchase of or billing for a service provided by a utility or an alternative seller if the landlord or owner is charging the tenants of the manufactured home park or mobile home park or occupants of the dwellings for that service.

12. The provisions of this section do not apply to the owner or operator of a low-income housing shared net metering system, except that:

(a) If the owner of a low-income housing shared net metering system is the landlord of a qualified multifamily affordable housing property in which the tenant units are equipped with individual meters, the owner of the low-income housing shared net metering system must follow any applicable federal laws or regulations to ensure that the owner of the low-income housing shared net metering system does not charge a tenant or occupant for utility service at a rate that is higher than the rate paid by the owner of the low-income housing shared net metering system.

(b) A landlord who is the owner or operator of a low-income housing shared net metering system shall ensure that the financial benefits of the electricity produced by the low-income housing shared net metering system are allocated among the tenant units in a manner that is equitable as required pursuant to NRS 704.773.

Sec. 16. 1. This section becomes effective upon passage and approval.

2. Sections 1 to 15, inclusive, of this act become effective:

(a) Upon passage and approval for the purpose of adopting any regulations and performing any other preparatory administrative tasks that are necessary to carry out the provisions of this act.

(b) On January 1, 2024, for all other purposes.

Legislative Counsel's Digest:

Existing law: (1) prohibits a person from knowingly selling or possessing for the purpose of selling any contraband tobacco products; and (2) provides that any person who exports, imports, possesses or constructively possesses contraband tobacco products, with certain exceptions, is guilty of a gross misdemeanor. (NRS 370.405, 370.410) Existing law also requires the Department of Taxation and its agents, sheriffs and all other peace officers of this State to seize any counterfeit stamps, contraband tobacco products, machinery used to manufacture contraband tobacco products and cigarette rolling machines used in violation of existing law that are found in this State. (NRS 370.415) This bill authorizes the Department to impose a civil penalty on any person who violates such provisions of existing law resulting in the seizure of counterfeit stamps, contraband tobacco products, machinery or cigarette rolling machines. This bill further requires any civil penalty to be credited to a separate account in the State General Fund to be used to enforce the provisions governing contraband tobacco products.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 370.415 is hereby amended to read as follows:

370.415 1. The Department, its agents, sheriffs within their respective counties and all other peace officers of the State of Nevada shall seize any counterfeit stamps, contraband tobacco products, machinery used to manufacture

The notification must include the reason for the seizure.

3. After consultation with the Department, the sheriff or other peace officer shall transmit the contraband tobacco products to the Department if:

(a) The contraband tobacco products consist of cigarettes and:

(2) The Department approves the transmission of the cigarettes; or

(b) The contraband tobacco products consist of any other tobacco products and the Department approves the transmission of the other tobacco products.

4. Upon the receipt of any:

(a) Cigarettes pursuant to subsection 3, the Department shall dispose of the cigarettes as provided in subsection 4 of NRS 370.270; or

(b) Other tobacco products pursuant to subsection 3, the Department shall:

(1) Sell the other tobacco products to the highest bidder among the licensed wholesale dealers in this State after due notice to all licensed Nevada wholesale dealers has been given by mail to the addresses contained in the Department's records; or

(2) If there is no bidder, or in the opinion of the Department the quantity of the other tobacco products is insufficient, or for any other reason such disposition would be impractical, destroy or dispose of the other tobacco products as the Department may see fit.

➥ The proceeds of all sales pursuant to this paragraph must be classed as revenues derived under the provisions of NRS 370.440 to 370.503, inclusive.

5. The sheriff or other peace officer who seizes any stamps, contraband tobacco products, machinery or cigarette rolling machines pursuant to this section shall:

(a) Destroy the stamps, machinery and cigarette rolling machines; and

(b) If he or she does not transmit the contraband tobacco products to the Department, destroy the contraband tobacco products.

6. In addition to any other penalty provided by law, the Department may impose a civil penalty upon a person who violates NRS 370.405 or 370.410 resulting in the seizure of counterfeit stamps, contraband tobacco products, machinery or cigarette rolling machines pursuant to this section in the amount [determined by the Department which may not exceed the greater] of [$25,000] $10,000 or the total costs incurred by the Department for the transportation, storage and disposal of the counterfeit stamps, contraband tobacco products, machinery or cigarette rolling machines [.] , whichever is greater.

7. All penalties imposed pursuant to subsection 6 must be paid to the Department in the form of remittances payable to the Department and deposited in a separate account in the State General Fund to be used for the enforcement of the provisions of this section.

ASSEMBLYWOMAN ANDERSON:

Assembly Bill 214 requires a regional transportation commission in a county whose population is 100,000 or more but less than 700,000—currently, Washoe County—to establish an advisory committee to provide certain information and advice to the RTC [Regional Transportation Commission] relating to public mass transportation in the county. The bill also makes various changes to the membership of such an advisory committee that already exists in a county whose population is 700,000 or more—currently, Clark County. Among other changes, the RTC in such a county must appoint all members.

The bill further requires an RTC, or any person who contracts with an RTC to operate a public transit system, to maintain any audio or video recording that is used as evidence in certain disciplinary actions or contains an incident on a public transit system that results in an injury to an employee.

Finally, AB 214 allows an RTC to establish fines for passengers who refuse to comply with a regional or statewide health and safety standard or mandate.

Remarks by Assemblymen Backus and Yurek.

ASSEMBLYWOMAN BACKUS:

Assembly Bill 231 enacts certain amendments to the Uniform Commercial Code, which is a set of uniform laws governing commercial transactions. Among other things, this bill revises provisions related to various emerging technologies, including transactions involving controllable electronic records, certain electronic payment rights, chattel paper, and controllable electronic accounts.

ASSEMBLYMAN YUREK:

Changes to the Uniform Commercial Code are typically perfunctory updates that help commerce in our state and country run smoothly. As originally presented, AB 231 was just that—a regular and helpful update to the Uniform Commercial Code—apart from one section that we felt deserved more thought and attention before we passed it.

I would like to start by offering a word of thanks to the bill sponsor, my colleague from District 37, for her willingness to work with us to address the concerns that were identified in the original version of AB 231. As amended, I believe it serves as a great example of how the legislative process should and often does work in Nevada, wherein the various stakeholders and the parties can come together to work through the issues and advance the right policies at the right time.

Today, in its amended form, AB 231 excludes from the definition of "money" any medium of exchange in an electronic form. As a result, the central bank digital currencies, or CBDCs, of any type and issued by any government would not be covered by the rules applicable to money. Because cryptographic currencies, like Bitcoin, would be controllable electronic records, or CERs, all of the CER rules would apply to them, including perfection of security interests by filing or control and protection of qualifying purchasers of CERs against competing property interests.

Again, we are grateful for the opportunity to work with the bill sponsor to identify a workable solution to AB 231 and are pleased to offer our full support today as amended.

Legislative Counsel's Digest:

Existing law creates the crime of organized retail theft, which is defined as committing, either alone or with any other person or persons, a series of thefts of retail merchandise against one or more merchants, either on the premises of a merchant or through the use of an Internet or network site, with the intent to: (1) return the merchandise to the merchant for value; or (2) resell, trade or barter the merchandise for value in any manner. Additionally, existing law provides that it is a crime for a person, in the course of an enterprise or occupation, knowingly and with the intent to defraud, to engage in an act, practice or course of business or employ a device, scheme or artifice which operates or would operate as a fraud or deceit upon a person by means of a false representation or omission of a material fact that: (1) the person knows to be false or omitted; (2) the person intends another to rely on; and (3) results in a loss to any person who relied on the false representation or omission, in at least two transactions that have the same or similar pattern, intents, results, accomplices, victims or methods of commission, or are otherwise interrelated by distinguishing characteristics and are not isolated incidents within 4 years and in which the aggregate loss or intended loss is more than $1,200. (NRS 205.377) **Section 3** of this bill authorizes the Attorney General to investigate and prosecute such a crime and any other crime committed in the course of committing such a crime.

ASSEMBLY PROCEEDINGS 1506

THE SEVENTY-FIFTH DAY

CARSON CITY (Friday), April 21, 2023

Assembly called to order at 11:50 a.m.

Mr. Speaker presiding.

Roll called.

All present except Assemblywomen González and Thomas, who were excused.

Prayer by the Chaplain, Pastor Peggy Locke.

The Bible says in 2 Chronicles 16:9a, "For the eyes of the Lord run to and fro throughout the whole earth, to show Himself strong on behalf of those whose heart is loyal to Him."

You, O Lord, are Most High over all the earth; You are exalted far above all gods. Show Yourself strong and be a refuge and fortress to all who put their trust in You.

We give You thanks for this beautiful day, for our loved ones, for those we work with. We ask for Your divine protection for each one. We also ask for Your continued grace and strength for those serving in harm's way.

You are our Father who art in heaven, Hallowed be thy name. Thy kingdom come, Thy will be done on earth, as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. Lead us not into temptation, but deliver us from evil: For Thine is the kingdom, and the power, and the glory, forever.

AMEN.

ASSEMBLY JOINT RESOLUTION—Urging the Congress of the United States to deschedule marijuana as a schedule I controlled substance.

WHEREAS, Under Nevada law, cannabis and marijuana share an identical meaning; and

WHEREAS, Under the Controlled Substance Act, drugs, substances and certain chemicals used to make drugs are classified into five distinct schedules depending upon the acceptable medical use of the drug and the potential of the drug for abuse; and

WHEREAS, Schedule I drugs, substances or chemicals are defined as drugs with no currently accepted medical use and a high potential for abuse; and

WHEREAS, Cannabis is classified as a schedule I drug, alongside heroin, although marijuana has many well documented medical uses; and

WHEREAS, According to the National Academy of Medicine, modern medical research has confirmed the beneficial uses for marijuana in treating or alleviating the pain, nausea and other symptoms associated with a variety of debilitating medical conditions, including cancer, multiple sclerosis and HIV/AIDS; and

WHEREAS, Marijuana has many currently accepted medical uses in the United States, having been recommended by thousands of licensed physicians to at least 350,000 patients in states with medical marijuana laws; and

WHEREAS, Marijuana's medical utility has been recognized by a wide range of medical and public health organizations, including, without limitation, the American Academy of HIV Medicine, the American College of Physicians, the American Nurses Association, the American Public Health Association and the Leukemia and Lymphoma Society; and

WHEREAS, In 1998 and 2000, Nevada voters approved the *Nevada Medical Marijuana Act*, a referendum initiative intended to amend the Nevada Constitution to legalize marijuana for medical use in Nevada, which passed in two consecutive elections, as is required for a constitutional amendment; and

WHEREAS, The medical value of cannabis was enshrined into Nevada's constitution through the addition of Article 4, Section 38 of the Nevada Constitution, which requires the Nevada Legislature to provide by law for the use by a patient, upon the advice of his physician, of a plant of the genus Cannabis for the treatment or alleviation of cancer, glaucoma, acquired immunodeficiency syndrome, severe, persistent nausea of cachexia resulting from these or other chronic or debilitating medical conditions, epilepsy and other disorders characterized by seizure, multiple sclerosis and other disorders

characterized by muscular spasticity, or other conditions approved pursuant to law for such treatment; and

WHEREAS, In 2016, Nevada voters voted upon and approved the Initiative to Regulate and Tax Marijuana, which legalized possession of marijuana for recreational purposes; and

WHEREAS, A district court in Nevada has already held that cannabis is no longer a schedule I controlled substance in Nevada; and

WHEREAS, There are approximately 5.4 million state-legal patients in the United States and its territories who are unable to receive medical insurance prescription health coverage for medical marijuana, primarily because of marijuana's federal designation as a schedule I controlled substance; and

WHEREAS, In its State of the States 2021 report, the advocacy group Safe Access Now estimated that medical marijuana customers at state dispensaries were likely to pay as much as $350 before they could access and pay for the cost of marijuana; and

WHEREAS, Marijuana is not an eligible health savings account expense because of its current federal designation as a schedule I controlled substance; and

WHEREAS, Because of marijuana's current federal designation as a schedule I controlled substance, tracing money back to a state marijuana operation could result in criminal prosecution for aiding and abetting a federal crime or money laundering, and most financial institutions are therefore unwilling to accept the legal risks associated with offering financial services to the medical marijuana industry, resulting in medical marijuana distributors having limited access to traditional banking and financial services and forcing them to operate using only cash; and

WHEREAS, Operating a business with large amounts of cash on hand is a public safety threat, causing such a business to become a target for crime, thereby putting the safety of staff and patients at risk; and

WHEREAS, Marijuana does not belong in schedule I of the Controlled Substances Act, a classification intended for exceptionally dangerous substances with high potential for abuse and no currently accepted medical use; now, therefore, be it

RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF NEVADA, JOINTLY, That the members of the 82nd Session of the Nevada Legislature hereby urge Congress to support legislation to remove cannabis from schedule I of the Controlled Substances Act; and be it further

RESOLVED, That the Chief Clerk of the Assembly prepare and transmit a copy of this resolution to the Vice President of the United States as the presiding officer of the United States Senate, the Speaker of the United States House of Representatives and each member of the Nevada Congressional Delegation; and be it further

RESOLVED, That this resolution becomes effective upon passage.

Amendment No. 139.

AN ACT relating to education; establishing the right of public school pupils to wear traditional tribal regalia or recognized objects of religious or cultural significance at school graduation ceremonies; **establishing a process for a pupil to appeal a decision that prohibits the wearing of such adornments;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, each pupil of a public school is entitled to express himself or herself in a manner consistent with the rights guaranteed by the First and Fourteenth Amendments to the United States Constitution. Any such expression by pupils must not be disruptive to instruction or used to engage in discrimination based on race or bullying and must not be organized, broadcast or endorsed by a public school. (NRS 388.077) This bill establishes that the pupils of a public school are entitled to wear traditional tribal regalia or recognized objects of religious or cultural significance **as an adornment** at school graduation ceremonies. This bill provides that the board of trustees of a school district, the governing body of a charter school or the governing body of a university school for profoundly gifted pupils may nonetheless prohibit an item that is likely to cause a substantial disruption of, or material interference with, such a ceremony. **This bill authorizes a pupil who is prohibited from wearing such an item to appeal that decision to the Superintendent of Public Instruction, who must consult with certain groups before rendering a decision on such an appeal. This bill further provides that, if the Superintendent of Public Instruction does not render a decision within 5 business days after an appeal is submitted, the appeal is deemed to be decided in favor of the pupil.**

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 388 of NRS is hereby amended by adding thereto a new section to read as follows:

1. A pupil of a public school, including, without limitation, a pupil of a university school for profoundly gifted pupils, is entitled to wear traditional tribal regalia or recognized objects of religious or cultural significance as an adornment at a school graduation ceremony.

2. Nothing in this section shall be construed to prohibit the board of trustees of a school district, the governing body of a charter school or the

governing body of a university school for profoundly gifted pupils from prohibiting an item that is likely to cause a substantial disruption of, or material interference with, such a ceremony.

3. If the board of trustees of a school district, the governing body of a charter school or the governing body of a university school for profoundly gifted pupils prohibits a pupil from wearing an item as an adornment at a school graduation ceremony, the pupil may submit a written appeal to the Superintendent of Public Instruction which includes an explanation of the religious or cultural significance of the item. Before rendering a decision on such an appeal, the Superintendent of Public Instruction shall consult with the Nevada Indian Commission created by NRS 233A.020 and the Nevada Commission on Minority Affairs created by NRS 232.852. If an appeal is decided in favor of the pupil, the board of trustees or governing body shall allow the pupil to wear the item as an adornment at the school graduation ceremony. If the Superintendent of Public Instruction fails to render a decision within 5 business days after the appeal is submitted, the appeal is deemed to be decided in favor of the pupil.

4. As used in this section:

(a) "Adornment" means something attached to, or worn with, but not replacing, the cap and gown customarily worn at school graduation ceremonies.

(b) "Cultural" means recognized practices and traditions of a certain group of people.

(a) There are rebuttable presumptions in NRS 205.0813 and 205.0817 that the tenant does not have lawful occupancy of the dwelling unless the agreement:

(1) Is notarized or is signed by an authorized agent of the landlord who at the time of signing holds a permit to engage in property management pursuant to chapter 645 of NRS; and

(2) Includes the current address and telephone number of the landlord or his or her authorized representative; and

(b) Maintenance and waste removal services are provided without charge to the tenant.

(c) No charges for partial or late payments of rent or for dishonored checks are paid by the tenant.

(d) Other than normal wear, the premises will be returned in the same condition as when the tenancy began.

Sec. 18. ***1. For the purposes of collective bargaining and other mutual aid or protection, every professional employee has the right to:***

Sec. 21. *1. Unless a professional employee has directed a state professional employer not to furnish that employee's personal contact information to an exclusive representative, a state professional employer shall, upon the request of an exclusive representative but not more than once each calendar quarter, furnish to the exclusive representative the following personal contact information, as contained in the records of the state professional employer, for each professional employee who is represented by the exclusive representative:*

2. If applicable, a written authorization provided pursuant to subsection 1 must comply with the provisions of chapter 719 of NRS.

3. Except as otherwise provided in this subsection, a written authorization provided pursuant to subsection 1 is binding for the period specified in the authorization. The professional organization shall process a revocation of an authorization in a timely manner.

4. If the Board designates a professional organization as the exclusive representative of a bargaining unit pursuant to sections 6 to 52, inclusive, of this act, an officer of a state professional employer shall not, pursuant to NRS 281.129, withhold any amount of money from the salary or wages of a professional employee within the bargaining unit to pay dues or similar fees to a professional organization other than the professional organization that is the exclusive representative of the bargaining unit.

Sec. 23. ***1. Except as otherwise provided in this section, a recognized professional organization may represent a professional employee of a state professional employer that has recognized the professional organization with respect to any condition of the employment of the professional employee, including, without limitation, representation in disciplinary proceedings and investigations and proceedings for the adjustment of grievances, regardless of whether the professional employee is a member of the professional organization.***

Sec. 24. ***1. Except as otherwise provided in this section, the recognition of a professional organization or the designation of a professional organization as an exclusive representative does not preclude a professional employee from acting for himself or herself with respect to any condition of his or her employment. Such a professional employee has the right to present grievances to a state professional employer at any time and to have those grievances adjusted.***

2. If a professional employee, acting for himself or herself, presents a grievance to a state professional employer pursuant to subsection 1:

(a) Any action taken in the adjustment of a grievance must be consistent with the terms of an applicable collective bargaining agreement in effect, if any; and

(b) If the professional employee is in a bargaining unit that has an exclusive representative, the exclusive representative must be given an opportunity to be present at any meetings or hearings related to the

adjustment of the grievance and be provided a copy of the adjustment of the grievance.

Sec. 25. ***1. Subject to the conditions imposed by section 23 of this act and any other conditions and limitations as may be set forth in a collective bargaining agreement, a professional employee who is the subject of an internal administrative investigation that could lead to dismissal, involuntary demotion, suspension, reduction of pay, payment of restitution or other similar adverse employment action against the professional employee must be:***

(a) Provided notice in writing of the allegations against the professional employee within 30 calendar days after the date on which the state professional employer becomes aware, or reasonably should have become aware, of the allegations. The notice must be provided before the professional employee is questioned regarding the allegations.

(b) Afforded the right to have a lawyer or other representative of the professional employee's choosing present with the professional employee at any time that the professional employee is questioned regarding the allegations. The professional employee must be given not less than 2 business days to obtain such representation, unless the professional employee waives, in writing, his or her right to be represented.

2. If, during any questioning by a state professional employer, a professional employee who does not have a representative present has a reasonable belief that the questioning could lead to dismissal, involuntary demotion, suspension, reduction of pay, payment of restitution or similar adverse employment action against the professional employee and makes a clear request for representation by a recognized professional organization, the state professional employer must:

(a) Grant the request and delay the questioning by not less than 2 business days to allow a representative of the professional organization to be present and to provide an opportunity for the professional employee to consult with the representative; or

(b) Deny the request and end the questioning immediately.

4. A state professional employer shall annually inform its professional employees of the rights afforded to professional employees under subsection 2.

Sec. 26. ***1. Each state professional employer which has recognized a professional organization shall determine, in consultation with the recognized organization, which group or groups of its professional employees constitute an appropriate bargaining unit or bargaining units. The primary criterion for that determination must be the community of interest among the employees concerned. Without restricting the rights of the parties to make their determination pursuant to this subsection, for the Nevada System of Higher Education, there is a presumption that the contact,***

interests and working conditions of employees within a branch university, college or other branch create a sufficient community of interest.

2. Managerial employees must be excluded from any bargaining unit.

3. Confidential employees must be excluded from any bargaining unit but are entitled to participate in any plan to provide benefits for a group that is administered by the bargaining unit of which they would otherwise be a member.

4. A supervisory employee must not be a member of the same bargaining unit as the professional employees under the supervision of the supervisory employee. Any dispute between the parties as to whether a professional employee is a supervisor must be submitted to the Board. A professional organization which is negotiating on behalf of two or more bargaining units may select members of each unit to negotiate jointly on behalf of each other, even if one of the units consists of supervisory employees and the other unit does not.

5. If any professional organization is aggrieved by the determination of a bargaining unit, it may appeal to the Board. Subject to judicial review, the decision of the Board is binding upon the state professional employer and any professional organization involved. The Board shall apply the same criterion as specified in subsection 1.

Sec. 27. *~~[1.]~~ If no professional organization is designated as the exclusive representative of a bargaining unit and a recognized professional organization files with the Board a showing of interest for the professional organization by more than 50 percent of the professional employees in a bargaining unit which is verified by the Board pursuant to section 29 of this act, the Board shall designate the professional organization as the exclusive representative of the bargaining unit without ordering an election.*

~~[2. Upon the designation of a professional organization as the exclusive representative of a bargaining unit without an election pursuant to subsection 1, the Board shall require the state professional employer to distribute a notice to all professional employees in the bargaining unit advising the professional employees:~~

~~(a) That the professional organization has been designated as the exclusive representative of the bargaining unit; and~~

~~(b) Of the rights afforded to the professional employees under sections 18, 23, 24 and 25 of this act.]~~

Sec. 28. *1. If no professional organization is designated as the exclusive representative of a bargaining unit, the Board shall order an election to be conducted within the bargaining unit if:*

(a) A recognized professional organization files with the Board a written request for an election which includes a showing of interest for the professional organization by at least 30 percent but not more than 50 percent of the professional employees within the bargaining unit which is verified by the Board pursuant to section 29 of this act; and

(b) No other election to choose, change or discontinue exclusive representation has been conducted within the bargaining unit during the immediately preceding 12 months.

2. ~~[Upon ordering an election pursuant to subsection 1, the Board shall require the state professional employer to distribute a notice to all professional employees in the bargaining unit:~~

~~(a) Identifying:~~

~~(1) The bargaining unit for which representation is sought; and~~

~~(2) The professional organization which seeks to be the exclusive representative of the bargaining unit;~~

~~(b) Explaining the election process; and~~

~~(c) Advising the professional employees of the rights afforded to the professional employees under sections 18, 23, 24 and 25 of this act.~~

~~3.]~~ If the Board has designated a professional organization as the exclusive representative of a bargaining unit following an election pursuant to subsection 1 or without an election pursuant to section 27 of this act, the Board shall order an election:

(2) A group of professional employees within the bargaining unit files with the Board a written request for an election which includes a petition or other evidence showing that more than 50 percent of the professional employees within the bargaining unit have requested that an election be conducted to change or discontinue exclusive representation;

(b) If applicable, the written request filed pursuant to paragraph (a) is filed at least 225 calendar days but not more than 270 calendar days before the date on which the current collective bargaining agreement in effect for the bargaining unit expires; and

(c) If no other election to choose, change or discontinue exclusive representation has been conducted within the bargaining unit during the immediately preceding 12 months.

Sec. 29. *1. The Board shall verify each showing of interest filed by a professional organization pursuant to section 27 or 28 of this act and the identity of each professional employee identified in a written request filed by a group of professional employees pursuant to subparagraph (2) of paragraph (a) of subsection ~~[3]~~ 2 of section 28 of this act by comparing the name of a professional employee included in the showing of interest or written request, as applicable, with the employment records of the state professional employer.*

2. A showing of interest filed by a professional organization pursuant to section 27 or 28 of this act or a written request filed by a group of professional employees pursuant to subparagraph (2) of paragraph (a) of

subsection ~~[3]~~ 2 of section 28 of this act is confidential and is not a public record.

3. The Board shall not disclose to any person the identity of any professional employee who has participated in a showing of interest filed by a professional organization pursuant to section 27 or 28 of this act or a written request filed by a group of professional employees pursuant to subparagraph (2) of paragraph (a) of subsection ~~[3]~~ 2 of section 28 of this act.

Sec. 30. *1. If the Board orders an election within a bargaining unit pursuant to section 28 or 31 of this act, the Board shall order that each of the following be placed on the ballot for the election:*

(a) If applicable, a choice for the recognized professional organization that requested the election pursuant to section 28 of this act;

(b) If applicable, a choice for the recognized professional organization that is currently designated as the exclusive representative of the bargaining unit;

(c) A choice for any other recognized professional organization that, on or before the date that is prescribed by the rules adopted by the Board pursuant to NRS 288.110 and section 31 of this act, files with the Board a written request to be placed on the ballot for the election and includes with the written request a showing of interest for that other professional organization by at least 30 percent of the professional employees within the bargaining unit; and

(d) A choice for "no exclusive representation."

2. If a ballot for an election contains more than two choices and none of the choices on the ballot receives a majority of the votes cast at the initial election, the Board shall order a runoff election between the two choices on the ballot that received the highest number of votes at the initial election.

3. If the choice for "no exclusive representation" receives a majority of the votes cast at the initial election or at any runoff election, the Board shall designate the bargaining unit as being without an exclusive representative.

4. If a recognized professional organization receives a majority of the votes cast at the initial election or at any runoff election, the Board shall designate that professional organization as the exclusive representative of the bargaining unit.

Sec. 31. *1. The Board shall preside over all elections that are conducted pursuant to this section or section 28 or 30 of this act and shall determine the eligibility requirements for professional employees to vote in any such election.*

2. An election conducted pursuant to this section or section 28 or 30 of this act must be conducted by secret ballot. The Board may adopt rules prescribing the manner in which voting in such an election may be conducted, which may include, without limitation, voting in person, by mail or by secure electronic means.

3. A professional organization that is placed as a choice on the ballot for an election or any professional employee who is eligible to vote at an election may file with the Board a written objection to the results of the election. The objection must be filed not later than 10 business days after the date on which the notice of the results of the election is given by the Board.

4. In response to a written objection filed pursuant to subsection 3 or upon its own motion, the Board may invalidate the results of an election and order a new election if the Board finds that any conduct or circumstances raise substantial doubt that the results of the election are reliable.

Sec. 32. *1. Each state professional employer that has recognized one or more professional organizations shall, on or before November 30 of each year, file with the Board:*

Amendment No. 369.

ASSEMBLYMEN LA RUE HATCH, GONZÁLEZ; ANDERSON, BROWN-MAY, D'SILVA, GURR, KASAMA **,** ~~[AND]~~ BRITTNEY MILLER **AND THOMAS**

AN ACT relating to education; revising requirements relating to social studies courses in high school; requiring the adoption of certain regulations prescribing the requirements to receive a standard high school diploma; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires each pupil enrolled in a public high school to enroll in at least three units of credit in social studies, including, without limitation: (1) one-half unit of credit in American government; (2) two units of credit in American history, world history or geography; and (3) one-half unit of credit in economics. (NRS 389.018) Beginning in the 2028-2029 school year, this bill: (1) increases the required enrollment in social studies from at least three units of credit to at least four units of credit; and (2) additionally requires the completion of one unit of credit in geography.

Existing regulations of the State Board of Education require a pupil to complete 1 unit of credit in American government and 1 unit of credit in American history in order to receive a standard high school diploma. Existing regulations do not require a pupil to complete credit in economics **, world history or geography** to receive a standard high school diploma. (NAC 390.440) **Section 2** of this bill requires the State Board to adopt regulations as soon as possible to update the requirements to receive a standard high school diploma to reflect the requirements prescribed by existing law. **Section 2** also requires the State Board to adopt regulations on or before July 1, ~~[2028,]~~ **2025,** to update those requirements to reflect the revisions made by **section 1** of this bill, without increasing the total number of credits required to receive a standard high school diploma.

Amendment No. 290.

AN ACT relating to real property; requiring, under certain circumstances, a landlord who collects from a prospective tenant any fee to apply to rent a dwelling unit to return such fees; **prohibiting a landlord from collecting certain application fees for a minor in the household of a prospective tenant;** requiring any written agreement for the use and occupancy of a dwelling unit or premises to contain separate appendices relating to fees and tenant rights; making it unlawful for a landlord or certain other persons to charge a tenant certain fees; ~~[temporarily exempting certain transfers, assignments or conveyances of real property from the real property transfer tax;]~~ temporarily prohibiting a landlord from entering into a rental agreement with certain existing tenants that increases the rent due from the tenant by more than a certain amount; and providing other matters properly relating thereto.

incurred by the tenant, and, for each fee that is fixed or provided by a third-party vendor, the tenant pays the current amount of the fee; and (3) makes it unlawful for a landlord or other person authorized to enter into a rental agreement on his or her behalf to charge a tenant a fee in an amount or for any purpose that is not set forth in such an appendix. **Section 2** further requires such a rental agreement to include a separate appendix that contains a clear and concise explanation of the rights of the tenant pursuant to federal and state law and local ordinances.

Section 1 of this bill requires a landlord who collects from a prospective tenant any fee to apply to rent a dwelling unit to refund the fee if the landlord: (1) rents the dwelling unit to a different prospective tenant; and (2) does not conduct the activity for which the fee was collected.

~~[Section 3 of this bill exempts from the real property transfer tax between July 1, 2023, and December 31, 2024, a transfer, assignment or other conveyance of real property to a bona fide resident who attests, under penalty of perjury, that he or she will use the real property as his or her primary residence.]~~ **Section 1 further prohibits a landlord from collecting an application fee, a fee to obtain a credit report or a fee to obtain a background check for a minor who is a member of the household of the prospective tenant.**

Assembly Bill No. 313.

Bill read second time.

The following amendment was proposed by the Committee on Natural Resources:

Amendment No. 283.

AN ACT relating to mining; ~~[requiring an operator of a mining operation to submit a revised plan for reclamation under certain circumstances;]~~ revising provisions relating to the reclamation of exploration projects and mining operations; revising requirements relating to a plan for reclamation; **requiring certain state agencies to prepare reports relating to certain impacts of pit lakes and mining;** providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires a person who applies for a permit for a mining operation to file a plan for reclamation with the Division of Environmental Protection of the State Department of Conservation and Natural Resources. (NRS 519A.210) ~~[Section 3 of this bill requires an operator of a mining operation to submit a revised plan for reclamation if: (1) the operator is renewing a permit for the control of water pollution or requesting a major modification to a permit to engage in a mining operation; and (2) the renewal or modification will impact the plan for reclamation or, at the time of the~~

~~renewal or modification, the plan is not consistent with the requirements for a plan for reclamation.]~~

Section 4 of this bill requires that if an open pit will be excavated below the premining water table, a plan for reclamation must, with certain exceptions, provide for the backfilling of the open pit to a level where no pit lake will form and no seasonal or permanent wetland will exist. **Section 2** of this bill defines "pit lake." **Section 4** also provides that an operator may apply to the Division for an exception from this requirement.

Section 6 of this bill makes a conforming change to indicate the proper placement of **section 2** in the Nevada Revised Statutes.

Sections 14 and 15 of this bill make conforming changes to indicate that certain provisions governing violations and penalties relating to a plan for reclamation are applicable to the provisions of **sections 2 ~~[, 3]~~ and 4**.

Under existing law, a person who submits an application to engage in an exploration project or mining operation must agree to assume responsibility for the reclamation of any surface area or land, respectively, damaged as a result of the exploration project or mining operation. (NRS 519A.190, 519A.210) **Sections 9 and 10** of this bill require such a person to also agree to assume responsibility for the reclamation of any surface water and groundwater affected as a result of the exploration project or mining operation. **Section 12** of this bill requires a plan for reclamation to provide for the reclamation and restoration of affected surface water and groundwater.

Section 7 of this bill revises the definition of the term "affected" to include surface water and groundwater that is or will be used or disturbed by mining. **Section 8** of this bill revises the definition of the term "reclamation" to include actions performed during or after an exploration project or mining operation relating to surface water and groundwater.

Existing law requires the Division to develop a checklist to be completed by applicants for a permit to engage in a mining operation, which must include certain information relating to the plan for reclamation. (NRS 519A.220) **Section 11** of this bill requires the information relating to the plan for reclamation on the checklist to include: (1) the proposed subsequent use of any pit lake after the mining operation is completed; and (2) the monitoring and restoration of affected surface water and groundwater that will be performed by the operator.

Existing law authorizes an operator of a mining operation to request that the Division grant an exception from reclamation requirements for open pits and rock faces which may not be feasible to reclaim. (NRS 519A.230) **Section 12** provides that an operator may request an exception for open pits and rock faces only if no pit lake is anticipated to result from the mining operation.

~~[Under existing law, with certain exceptions, if a pit lake will have a predicted filled surface area of more than 200 acres, the plan for reclamation must provide for at least one point of public nonmotorized access to the water level of the pit lake when the pit in which the pit lake is located reaches at least 90 percent of its predicted maximum capacity. (NRS 519A.230) Section 12~~

~~instead provides that the plan for reclamation must provide for such public access if a pit lake will have a predicted filled surface area of more than 85 acres.]~~

Existing law requires each operator of a mining operation or exploration project to submit an annual report to the Administrator of the Division relating to the status and production of all mining operations and exploration projects in which the operator has engaged and identifying each acre of land affected and land reclaimed by that mining operation or exploration project through the preceding calendar year. (NRS 519A.260) **Section 13** of this bill requires an operator to map each such acre and include in the map all disturbances by such mining operations and exploration projects to: (1) the water balance; and (2) the quality and quantity of the surface water and groundwater.

Consistent with the changes of **sections 2-13** of this bill pertaining to reclamation of surface water and groundwater, **section 5** of this bill makes a conforming change to revise the legislative declaration to provide that proper reclamation is necessary to prevent undesirable land, surface water and groundwater conditions.

Section 16 of this bill requires, on or before August 1, 2025, a written report to be submitted to the Joint Interim Standing Committee on Natural Resources by: (1) the Division of Minerals of the Commission on Mineral Resources in coordination with the Division of Environmental Protection regarding certain impacts of pit lakes; and (2) the Department of Wildlife regarding the impacts of mining on wildlife and habitats in this State.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 519A of NRS is hereby amended by adding thereto the provisions set forth as sections 2 ~~[, 3]~~ and 4 of this act.

The following amendment was proposed by the Committee on Government Affairs:

Amendment No. 333.

~~[CONTAINS UNFUNDED MANDATE (§ 1)~~

~~(NOT REQUESTED BY AFFECTED LOCAL GOVERNMENT)]~~

AN ACT relating to housing; requiring, under certain circumstances, a housing authority to perform an inspection of and have certain repairs made to ~~[the]~~ **certain** dwelling units ~~[of certain residents;]~~ **; eliminating the applicability of the Local Government Budget and Finance Act to a regional housing authority and the commissioners of a regional housing authority;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law creates local housing authorities and the Nevada Rural Housing Authority to operate housing projects for persons of low income in this State. (NRS 315.320, 315.440, 315.977, 315.988) Existing law also authorizes two or more housing authorities in a county whose population is 700,000 or more (currently only Clark County) to form a regional housing authority for such purposes. (NRS 315.7805) **Section 1** of this bill requires each housing authority in this State to ~~[contact a person who is 60 years of age or older and has lived in any public housing or housing project that is operated or managed by the housing authority to offer to perform]~~ **conduct** an inspection of ~~[the]~~ **each** dwelling unit ~~[at least every 5 years. If the resident wants the inspection performed, section 1 requires the housing authority to conduct such inspection on a day and time that is convenient for the tenant.]~~ **that is owned or managed by the housing authority and any dwelling unit leased pursuant to certain federal law. (42 U.S.C. § 1437f) Section 1** further requires: (1) ~~[such an inspection be conducted to determine whether the dwelling unit of the person is in a decent, safe and sanitary condition, including, without limitation, that the fixtures, appliances and plumbing are in good working order;]~~ **the housing authority to obtain the handwritten or electronic signature of the tenant after performing the inspection to confirm that the inspection was conducted;** and (2) the housing authority **, or the housing authority in coordination with the owner of certain privately owned dwelling units,** to ensure that all necessary repairs are made as soon as practicable after the inspection to ensure that the dwelling unit is in a decent, safe and sanitary condition.

The Local Government Budget and Finance Act sets forth various requirements, procedures and limitations relating to the financial

administration of local governments. (NRS 354.470-354.626) For the purposes of the Act, a regional housing authority is a local government. (NRS 354.474, 354.536) Sections 3 and 4 of this bill eliminate a regional housing authority and the commissioners of a regional housing authority, respectively, from the definitions of "local government" and "governing body" so that the Act no longer applies to a regional housing authority or its commissioners.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 315 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Each housing authority in this State shall ~~[contact a person who is 60 years of age or older and has lived in any public housing or housing project that is operated or managed by the housing authority to offer to perform]~~ conduct an inspection of ~~[the]~~ each dwelling unit ~~[of the person at least every 5 years. If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of subsection 1, those provisions do not apply insofar as their application would preclude or reduce federal assistance.

3. Nothing in this section shall be construed to authorize a contractor on a public work to pay any worker on the public work less than the applicable prevailing wage required pursuant to NRS 338.020 to 338.090, inclusive.

~~(a) At least 50 percent of the workers employed on the public work, including, without limitation, any employees of the contractor, applicant or design-build team and of any subcontractor engaged on the public work, will hold a valid driver's license or identification card issued by the Department of Motor Vehicles of the State of Nevada;~~

~~(b) All vehicles used primarily for the public work will be:~~

~~(1) Registered and partially apportioned to Nevada pursuant to the International Registration Plan, as adopted by the Department of Motor Vehicles pursuant to NRS 706.826; or~~

~~(c) If applying to receive a preference in bidding pursuant to subsection 3 of NRS 338.1727 or subsection 2 of NRS 408.3886, at least 50 percent of the design professionals working on the public work, including, without limitation, employees of the design-build team and of any subcontractor or consultant engaged in the design of the public work, will have a valid driver's license or identification card issued by the Department of Motor Vehicles of the State of Nevada; and~~

~~(d) The contractor, applicant or design-build team and any subcontractor engaged on the public work will maintain and make available for inspection~~

~~within this State his or her records concerning payroll relating to the public work.~~

~~— 2. Any contract for a public work that is awarded to a contractor, applicant or design-build team who submits the affidavit described in subsection 1 as a result of the contractor, applicant or design-build team receiving a preference in bidding described in subsection 1 must:~~

A person who submitted a bid on the public work or an entity who believes that a contractor, applicant or design-build team has obtained a preference in bidding as described in subsection 1 but has failed to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 may file, before the substantial completion of the public work, a written objection with the public body for which the contractor, applicant or design-build team is performing the public work. If the public body determines that the objection is not accompanied by the required proof or substantiating evidence, the public body shall dismiss the objection. If the public body determines that the objection is accompanied by the required proof or substantiating evidence or if the public body determines on its own initiative that proof or substantiating evidence of a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 exists, the public body shall determine whether the contractor, applicant or design-build team has failed to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 and the public body or its authorized representative may proceed to award the contract accordingly or, if the contract has already been awarded, seek the remedy authorized in subsection 5.~~

~~— 5. In addition to any other remedy or penalty provided by law, a public body may recover, by civil action against the party responsible for a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1, a penalty as described in subsection 6 for a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1. A written objection authorized pursuant to this subsection must:~~

~~(b) Evaluating and assigning a score to each of the proposals received by the public body based on the factors and relative weight assigned to each factor that the public body specified in the request for proposals.~~

~~3. When ranking the proposals, the panel appointed pursuant to subsection 1 shall assign a relative weight of 5 percent to the applicant's possession of a certificate of eligibility to receive a preference in bidding on public works if the applicant submits a signed affidavit that meets the requirements of subsection 1 of NRS 338.0117~~ ~~**[.]** ***or subsection 1 of section 1 of this act, as applicable.*** ~~If any federal statute or regulation precludes the granting of federal~~

After the panel appointed pursuant to subsection 1 ranks the proposals, the public body or its authorized representative shall, except as otherwise provided in subsection 8, select at least the two but not more than the five applicants whose proposals received the highest scores for interviews.~~

~~5. The public body or its authorized representative may appoint a separate panel to interview and rank the applicants selected pursuant to subsection 4. If a separate panel is appointed pursuant to this subsection, the panel must consist of at least three but not more than seven members, a majority of whom must have experience in the construction industry.~~

~~6. During the interview process, the panel conducting the interview may require the applicants to submit a preliminary proposed amount of compensation for managing the preconstruction and construction of the public work, including, without limitation, the cost of general overhead and profit, but in no event shall the proposed amount of compensation be less than 5 percent or more than 20 percent of the scoring for the selection of the most qualified applicant. All presentations made at any interview conducted pursuant to this subsection or subsection 5 may be made only by key personnel employed by the applicant, as determined by the applicant, and the employees of the applicant who will be directly responsible for managing the preconstruction and construction of the public work.~~

~~7. After conducting such interviews, the panel that conducted the interviews shall rank the applicants by using a ranking process that is separate from the process used to rank the applicants pursuant to subsection 2 and is based only on information submitted during the interview process. The score to be given for the proposed amount of compensation, if any, must be calculated by dividing the lowest of all the proposed amounts of compensation by the applicant's proposed amount of compensation multiplied by the total possible points available to each applicant. When ranking the applicants, the panel that conducted the interviews shall assign a relative weight of 5 percent to the applicant's possession of a certificate of eligibility to receive a preference in bidding on public works if the applicant submits a signed affidavit that meets the requirements of subsection 1 of NRS 338.0117~~ ***[.] or subsection 1 of section 1 of this act, as applicable.*** ~~If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of this subsection, those provisions of this subsection do not apply insofar as their application would preclude or reduce federal assistance for that work.~~

~~9. Upon receipt of the final rankings of the applicants from the panel that conducted the interviews, the public body or its authorized representative shall~~

~~enter into negotiations with the most qualified applicant determined pursuant to the provisions of this section for a contract for preconstruction services, unless the public body required the submission of a proposed amount of compensation, in which case the proposed amount of compensation submitted by the applicant must be the amount offered for the contract. The public body or its authorized representative may then undertake negotiations with the next most qualified applicant in sequence until an agreement is reached and, if the negotiation is undertaken by an authorized representative of the public body, approved by the public body or until a determination is made by the public body to reject all applicants.~~

~~10. The public body or its authorized representative shall:~~

~~(a) Make available to all applicants and the public the following information, as determined by the panel appointed pursuant to subsection 1 and the panel that conducted the interviews, as applicable:~~

~~(1) The final rankings of the applicants;~~

~~(2) The score assigned to each proposal received by the public body; and~~

~~4. A final proposal submitted by a design-build team pursuant to this section must be prepared thoroughly and be responsive to the criteria that the public body will use to select a design-build team to design and construct the public work described in subsection 1. If the public body or its authorized representative is unable to negotiate with the most qualified applicant a contract that is determined by the parties to be fair and reasonable, the public body may terminate negotiations with that applicant. The public body or its authorized representative may then undertake negotiations with the next most qualified applicant in sequence until an agreement is reached and, if the negotiation is undertaken by an authorized representative of the public body, approved by the public body or until a determination is made by the public body to reject all applicants.~~

~~(2) An amount that is the maximum amount that the public body will pay for the performance of the professional services required by the contract; and~~

~~(3) A date by which performance of the work required by the contract must be completed.~~

~~(c) May set forth the terms by which the design-build team agrees to name the public body, at the cost of the public body, as an additional insured in an insurance policy held by the design-build team.~~

~~(d) Except as otherwise provided in paragraph (c), must not require the design professional to defend, indemnify or hold harmless the public body or the employees, officers or agents of that public body from any liability, damage, loss, claim, action or proceeding caused by the negligence, errors, omissions, recklessness or intentional misconduct of the employees, officers and agents of the public body.~~

Assembly Bill No. 7.

Bill read second time.

The following amendment was proposed by the Committee on Health and Human Services:

Amendment No. 265.

CONTAINS UNFUNDED MANDATE (§**§1.3,** 2)

(NOT REQUESTED BY AFFECTED LOCAL GOVERNMENT)

AN ACT relating to health care; **authorizing the Director of the Department of Health and Human Services to contract with multiple health information exchanges to perform certain functions; requiring the Director to prescribe certain standards governing the maintenance and exchange of electronic health records;** expanding immunity from certain liability for health care providers who use a health information exchange; requiring ~~[certain health care records to be created, authenticated and stored on a computer system that meets certain requirements;]~~ **medical facilities and providers of health care to store, transmit and exchange health records electronically; making an appropriation;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the Director of the Department of Health and Human Services to contract with not more than one health information exchange to be responsible for compiling statewide master indexes of patients, health care providers and payers. (NRS 439.587) Section 1 of this bill authorizes the Director to contract with multiple health information exchanges to perform those functions. Section 1 also removes a requirement that the Director encourage the use of health information exchanges and prohibits the Director from requiring any person to use a health information exchange.

Existing law provides that a health care provider who with reasonable care relies upon an apparently genuine electronic health record accessed from a health information exchange to make a decision concerning the provision of health care to a patient is immune from civil or criminal liability for the decision if: (1) the electronic health record is inaccurate; (2) the inaccuracy was not caused by the health care provider; (3) the inaccuracy resulted in an inappropriate health care decision; and (4) the health care decision was appropriate based upon the information contained in the inaccurate electronic

health record. (NRS 439.593) **Section ~~[1]~~ 1.1** of this bill expands this immunity from liability to also apply to any health care provider who ~~[: (1) submits an apparently genuine electronic health record to a health information exchange; (2) accesses an apparently genuine electronic health record from a health information exchange; or (3) utilizes or discloses an apparently genuine electronic health record accessed from a health information exchange.~~

~~Existing law authorizes the creation, authentication and storage of health care records on a computer system that is part of a health information exchange. (NRS 629.051) Beginning on January 1, 2028, sections 2 and 4 of this bill require, with certain exceptions, the creation, authentication and storage of health care records on a computer system that is part of a health information exchange and allows patients to access and forward their health care records electronically.]~~ **transmits, accesses, utilizes, discloses, relies upon or provides to the patient any apparently genuine electronic health record in accordance with applicable law and regulations. Section 1.2 of this bill provides that transmitting, accessing, utilizing or disclosing an electronic health record is not an unfair trade practice.**

Existing law: (1) provides for the regulation of medical facilities; and (2) establishes requirements governing the maintenance of the health records of providers of health care. (Chapter 449 of NRS; NRS 629.051-629.069) Beginning on January 1, 2028, sections 1.3 and 2 of this bill require such facilities and providers of health care to maintain, transmit and exchange health records electronically in a manner that: (1) allows patients to electronically access their health records directly from the facility or custodian of the records and forward such records electronically to other persons and entities; and (2) allows for the interoperability of health records with the electronic health records and systems of other facilities and providers of health care.

Section 2.5 of this bill makes an appropriation to the Department to award grants to certain small facilities and providers of health care who work in small business settings to assist in compliance with the requirements of sections 1.3 and 2. Section 1 of this bill requires the Director to prescribe standards for the electronic maintenance and exchange of such records. Sections 1.4-1.9 of this bill make conforming changes to indicate the proper placement of and provide for the enforcement of section 1.3.

Amendment No. 152.

SUMMARY— ~~Exempts~~ **Revises** certain ~~offers or sales of securities from registration~~ requirements ~~for~~ **relating to** securities. (BDR 7-145)

AN ACT relating to securities; defining "Nevada certified investor"; authorizing the Administrator of the Securities Division of the Office of the Secretary of State, who is the Deputy of Securities, to adopt certain regulations in consultation with the Office of Economic Development; **revising the information that must be included in a registration statement for a security that may be registered by qualification; exempting a person who files a registration statement for a security that may be registered by qualification from paying any fees associated with that filing;** providing for an exemption from certain requirements concerning the registration of securities for certain transactions involving an offer to sell or sale of a security by certain issuers who are residents of this State to a Nevada certified investor; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing federal law, with certain exceptions, prohibits a person from engaging in certain activities relating to offering to sell or selling a security unless the security is registered with the Securities and Exchange Commission. (15 U.S.C. § 77e) Existing federal law creates an exemption from this requirement for a security which is part of an issue offered or sold only to persons who are residents of the same state of which the issuer is also a resident and doing business within or, if the issuer is a corporation, incorporated by and doing business within. (15 U.S.C. § 77c(a)(11)) Existing federal regulations set forth: (1) requirements that an issuer must meet to be deemed to be a resident of and doing business within a state where the issuer offers and sells securities; and (2) various other requirements for transactions involving intrastate offers or sales of securities for the transaction to qualify for the exemption from the federal registration requirements. (17 C.F.R. §§ 230.147, 230.147A)

Existing state law prohibits a person from offering to sell or selling any security in this State unless the security meets certain registration requirements or the security transaction is exempt from the registration requirements. (NRS

90.460) **Section 5** of this bill creates an exemption from those state registration requirements for certain transactions involving an offer to sell or sale of a security to a Nevada certified investor. **Section 2** of this bill defines "Nevada certified investor" to mean, in general, a natural person who is, or a married couple who each are, a resident of this State and who meets certain financial qualifications. Under **section 5**, a transaction involving an offer to sell or sale of a security to a Nevada certified investor is exempt from the registration requirements provided under existing state law if: (1) the transaction meets the requirements for the federal exemption for intrastate offers and sales of securities; (2) the transaction meets any other requirements established by regulations adopted by the Administrator of the Securities Division of the Office of the Secretary of State, who is the Deputy of Securities, pursuant to **section 3** of this bill; ~~[and]~~ (3) the transaction involves certain types of Nevada certified investors, the total amount paid by the Nevada certified investor for all of the securities involved in the transaction does not exceed 10 percent of the net worth of the investor, subject to certain requirements concerning the net worth of the investor~~.~~ **;** ~~[.]~~ **; (4) the transaction is part of an issue in which not more than 75 purchasers are Nevada certified investors; and (5) the person offering to sell or selling the security first undergoes a criminal background check.**

Section 3 authorizes the Administrator, in consultation with the Office of Economic Development within the Office of the Governor, to adopt regulations establishing additional requirements for transactions involving an offer to sell or sale of a security to a Nevada certified investor to qualify for an exemption from the registration requirements pursuant to **section 5**.

Section 4 of this bill makes a conforming change to indicate the proper placement of **section 2** in the Nevada Revised Statutes.

Existing law authorizes the registration of a security by qualification and requires the registration statement for such a security to contain certain information relating to the issuer and certain other persons. (NRS 90.490) Section 4.5 of this bill revises the information which is required to be included in the registration statement.

Existing law sets forth certain fees associated with the filing of a registration statement or an amendment to a registration statement. (NRS 90.500) Section 4.7 of this bill exempts a person who files a registration statement to register a security by qualification or an amendment to such a registration statement from paying any fees associated with such filings. Sections 4.1-4.9 and 5.5 make conforming changes to revise certain internal references.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Such regulations may include, without limitation, provisions establishing minimum qualifications for an issuer who engages in such a transaction.***

Sec. 4. NRS 90.211 is hereby amended to read as follows:

3. If the information and records required to be filed by subsection 2 have been on file with the Administrator for at least 5 business days, or any shorter period the Administrator allows by regulation or order, and the applicable registration fee has been paid before the effectiveness of the federal registration statement, a registration statement under this section automatically becomes effective concurrently with the effectiveness of the federal registration statement. If the federal statement becomes effective before the conditions in this section are satisfied and they are not waived, the registration statement becomes effective when the conditions are satisfied. The registrant shall promptly notify the Administrator by telephone or telegram of the date and time when the federal registration statement became effective and the content of the price amendment, if any, and shall file promptly a posteffective amendment containing the information and records in the price amendment. The Administrator shall promptly acknowledge receipt of notification and effectiveness of the registration statement as of the date and time the registration statement became effective with the Securities and Exchange Commission.

Sec. 4.3. **NRS 90.480 is hereby amended to read as follows:**

90.480 1. Securities for which a registration statement has been filed under the Securities Act of 1933 in connection with the offering of the securities may be registered by coordination.

2. A registration statement under this section must contain the following information and be accompanied by the following records in addition to the information specified in subsection ~~[4]~~ ***5*** of NRS 90.500 and the consent to service of process required by NRS 90.770:

(a) One copy of the latest form of prospectus filed under the Securities Act of 1933;

(b) If the Administrator by regulation or order requires:

(1) A copy of the articles of incorporation and bylaws, or their substantial equivalents, currently in effect;

(2) A copy of any agreement with or among underwriters;

(3) A copy of any indenture or other instrument governing the issuance of the security to be registered; and

(4) A copy, specimen or description of the security;

(c) If the Administrator requests and subject to the provisions of NRS 90.730, any other information or copies of any other records filed under the Securities Act of 1933; and

(d) An undertaking to forward promptly and in any event not later than the first business day after the day they are forwarded to or filed with the Securities and Exchange Commission, all future amendments to the federal prospectus, other than an amendment that delays the effective date of the registration statement, whichever occurs first.

3. A registration statement under this section becomes effective when the federal registration statement becomes effective and all the following conditions are satisfied:

(a) No order is in effect, and no proceeding is pending, under NRS 90.510;

(b) The registration statement has been on file with the Administrator for at least 10 days, but if the registration statement is not filed with the Administrator within 5 days after the initial filing under the Securities Act of 1933, the registration statement must have been on file with the Administrator for 30 days or any shorter period as the Administrator by regulation or order specifies; and

(c) A statement of the maximum and minimum proposed offering prices and the maximum underwriting discounts and commissions has been on file for 2 full business days or any shorter period the Administrator permits and the offering is made within those limitations.

4. The registrant shall promptly notify the Administrator of the date and time when the federal registration statement became effective and the content of the price amendment, if any, and shall promptly file a posteffective amendment containing the information and records in the price amendment.

5. Upon failure to receive the required notification and posteffective amendment with respect to the price amendment, the Administrator may enter an order, retroactively denying effectiveness to the registration statement or suspending its effectiveness until the registrant complies with subsection 4. The Administrator shall promptly notify the registrant of the issuance of the order. If the registrant proves compliance with the requirements of subsection 4 as to notice and posteffective amendment, the order is void as of its entry.

6. The Administrator by regulation or order may waive either or both of the conditions specified in paragraphs (b) and (c) of subsection 3.

7. If the federal registration statement becomes effective before all the conditions in subsection 3 are satisfied and they are not waived, the registration statement automatically becomes effective when all the conditions are satisfied. If the registrant advises the Administrator of the date when the

federal registration statement is expected to become effective, the Administrator shall promptly advise the registrant, at the registrant's expense, whether all conditions are satisfied and whether the Administrator then contemplates the institution of a proceeding under NRS 90.510, but the advice by the Administrator does not preclude the institution of a proceeding for an order suspending the effectiveness of the registration statement. An order issued under this subsection is not retroactive.

8. The Administrator by regulation or order may waive or modify the application of a requirement of this section if a provision or an amendment, repeal or other alteration of the provisions of the Securities Act of 1933 for the registration of securities or of the regulations adopted under that act renders the waiver or modification appropriate for further coordination of state and federal registration.

Sec. 4.7. **NRS 90.500 is hereby amended to read as follows:**

90.500 1. A registration statement may be filed by the issuer, any other person on whose behalf the offering is to be made, or a broker-dealer licensed under this chapter.

2. Except as otherwise provided in subsection 3 ~~[,]~~ ***or 4,*** a person filing a registration statement shall pay a filing fee of 0.2 percent of the maximum aggregate offering price at which the registered securities are to be offered in this State, but not less than $700 or more than $5,000. If a registration statement is withdrawn before the effective date or a pre-effective order is entered under NRS 90.510, the Administrator shall retain the fee.

3. An open-end management company, a face-amount certificate company or a unit investment trust, as defined in the Investment Company Act of 1940, may register an indefinite amount of securities under a registration statement. The registrant shall pay:

(a) A fee of $1,000 at the time of filing; and

(b) Within 60 days after the registrant's fiscal year during which its statement is effective, a fee of $4,000, or file a report on a form the Administrator adopts, specifying its sale of securities to persons in this State during the fiscal year and pay a fee of 0.2 percent of the aggregate sales price of the securities sold to persons in this State, but the latter fee must not be less than $700 or more than $5,000.

4. ***A person filing a registration statement pursuant to NRS 90.490 is exempt from paying any fee to file the registration statement.***

5. Except as otherwise permitted by subsection 3, a statement must specify:

(a) The amount of securities to be offered in this State and the states in which a statement or similar record in connection with the offering has been or is to be filed; and

(b) Any adverse order, judgment or decree entered by a securities agency or administrator in any state or by a court or the Securities and Exchange Commission in connection with the offering.

~~[5.]~~ ***6.*** A record filed under this chapter as now or previously in effect, within 5 years before the filing of a registration statement, may be incorporated by reference in the registration statement if the record is currently accurate.

~~[6.]~~ ***7.*** The Administrator by regulation or order may permit the omission of an item of information or record from a statement.

~~[7.]~~ ***8.*** In the case of a nonissuer offering, the Administrator may not require information under subsection ~~[13]~~ ***14*** or NRS 90.510 unless it is known to the person filing the registration statement or to the person on whose behalf the offering is to be made, or can be furnished by one of them without unreasonable effort or expense.

~~[8.]~~ ***9.*** In the case of a registration under NRS 90.480 or 90.490 by an issuer who has no public market for its shares and no significant earnings from continuing operations during the last 5 years or any shorter period of its existence, the Administrator by regulation or order may require as a condition of registration that the following securities be deposited in escrow for not more than 3 years:

(a) A security issued to a promoter within the 3 years immediately before the offering or to be issued to a promoter for a consideration substantially less than the offering price; and

(b) A security issued to a promoter for a consideration other than cash, unless the registrant demonstrates that the value of the noncash consideration received in exchange for the security is substantially equal to the offering price for the security.

➥ The Administrator by regulation may determine the conditions of an escrow required under this subsection, but the Administrator may not reject a depository solely because of location in another state.

~~[9.]~~ ***10.*** The Administrator by regulation may require as a condition of registration under NRS 90.480 or 90.490 that the proceeds from the sale of the registered security in this State must be impounded until the issuer receives a specified amount from the sale of the security. The Administrator by regulation or order may determine the conditions of an impounding arrangement required under this subsection, but the Administrator may not reject a depository solely because of its location in another state.

~~[10.]~~ ***11.*** If a security is registered pursuant to NRS 90.470 or 90.480, the prospectus filed under the Securities Act of 1933 must be delivered to each purchaser in accordance with the requirements of that act for the delivery of a prospectus.

~~[11.]~~ ***12.*** If a security is registered pursuant to NRS 90.490, an offering record containing information the Administrator by regulation or order designates must be delivered to each purchaser with or before the earliest of:

(a) The first written offer made to the purchaser by or for the account of the issuer or another person on whose behalf the offering is being made or by an underwriter or broker-dealer who is offering part of an unsold allotment or subscription taken by it as a participant in the distribution;

(b) Confirmation of a sale made by or for the account of a person named in paragraph (a);

(c) Payment pursuant to a sale; or

(d) Delivery pursuant to a sale.

~~[12.]~~ ***13.*** Except for a registration statement under which an indefinite amount of securities are registered as provided in subsection 3, a statement remains effective for 1 year after its effective date unless the Administrator by regulation extends the period of effectiveness. A registration statement under which an indefinite amount of securities are registered remains effective until 60 days after the beginning of the registrant's next fiscal year following the date the statement was filed. All outstanding securities of the same class as a registered security are considered to be registered for the purpose of a nonissuer transaction while the registration statement is effective, unless the Administrator by regulation or order provides otherwise. A registration statement may not be withdrawn after its effective date if any of the securities registered have been sold in this State, unless the Administrator by regulation or order provides otherwise. No registration statement is effective while an order is in effect under subsection 1 of NRS 90.510.

~~[13.]~~ ***14.*** During the period that an offering is being made pursuant to an effective registration statement, the Administrator by regulation or order may require the person who filed the registration statement to file reports, not more often than quarterly, to keep reasonably current the information contained in the registration statement and to disclose the progress of the offering.

~~[14.]~~ ***15.*** A registration statement filed under NRS 90.470 or 90.480 may be amended after its effective date to increase the securities specified to be offered and sold. The amendment becomes effective upon filing of the amendment and payment of an additional filing fee of 3 times the fee otherwise payable, calculated in the manner specified in subsection 2, with respect to the additional securities to be offered and sold. The effectiveness of the amendment relates back to the date or dates of sale of the additional securities being registered.

~~[15.]~~ ***16.*** A registration statement filed under NRS 90.490 may be amended after its effective date to increase the securities specified to be offered and sold, if the public offering price and underwriters' discounts and commissions are not changed from the respective amounts which the Administrator was informed. The amendment becomes effective when the Administrator so orders and relates back to the date of sale of the additional securities being registered. ~~[A person filing an amendment shall pay an~~

~~additional filing fee of 3 times the fee otherwise payable, calculated in the manner specified in subsection 2, with respect to the additional securities to be offered and sold.]~~

Sec. 4.9. **NRS 90.510 is hereby amended to read as follows:**

90.510 1. The Administrator may issue an order denying effectiveness to, or suspending or revoking the effectiveness of, a registration statement if the Administrator finds that the order is in the public interest and that:

(a) The registration statement as of its effective date or as of the proposed effective date in the case of an order denying effectiveness, an amendment under subsection ~~[14]~~ ***15*** or ~~[15]~~ ***16*** of NRS 90.500, as of its effective date, or a report under subsection ~~[13]~~ ***14*** of NRS 90.500, is incomplete in any material respect or contains a statement that, in the light of the circumstances under which it was made, was false or misleading with respect to a material fact;

(b) This chapter, or a regulation, order or condition lawfully imposed under this chapter, has been willfully violated in connection with the offering by:

(1) The person filing the registration statement;

(2) The issuer, a partner, officer or director of the issuer, a person occupying similar status or performing similar functions, or a person directly or indirectly controlling or controlled by the issuer, but only if the person filing the registration statement is directly or indirectly controlled by or acting for the issuer; or

(3) An underwriter;

(c) The security registered or sought to be registered is the subject of a permanent or temporary injunction of a court of competent jurisdiction or an administrative order similar to an order under this section entered under any other federal or state law applicable to the offering, except that the Administrator may not:

The following amendment was proposed by the Committee on Health and Human Services:

Amendment No. 174.

CONTAINS UNFUNDED MANDATE ~~[(§§ 8, 9)]~~ **(§ 3.5)**

(NOT REQUESTED BY AFFECTED LOCAL GOVERNMENT)

AN ACT relating to substance use disorders; **providing for the separate accounting of certain money for the purchase of opioid antagonists;** establishing the order in which a provider or program is required to prioritize persons for participation in certain publicly funded programs for the treatment of alcohol or other substance use disorders; ~~[~~prescribing certain requirements

~~to ensure the access of offenders or prisoners who have been diagnosed with an opioid use disorder to medication-assisted treatment and the continuation of such treatment upon the release or transfer of such offenders or prisoners; prohibiting certain discrimination regarding such treatment;]~~ **authorizing a pharmacist to prescribe and dispense drugs for medication-assisted treatment of opioid use disorder and perform certain assessments under certain conditions; requiring certain health plans to include coverage for such drugs and assessments;** prescribing certain requirements concerning the diagnosis and treatment of a patient with an opioid use disorder; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires all gifts or grants of money for a program for alcohol or other substance use disorders which the Division of Public and Behavioral Health of the Department of Health and Human Services is authorized to accept to be deposited in the State Treasury for credit to the State Grant and Gift Account for Alcohol or Other Substance Use Disorders. (NRS 458.100) Sections 1 and 1.3 of this bill authorize the Division to accept and deposit into a separate account gifts, grants, donations, bequests or money from any other source for the purpose of funding the bulk purchase of opioid antagonists. Section 1 provides that such money is not subject to provisions of law governing budgeting by agencies of the State Government. Section 1 requires the Division to use the money in the account to fund the bulk purchase of opioid antagonists and the distribution of those opioid antagonists.

Existing federal regulations require programs funded by certain federal grants for injection drug users to prioritize persons for participation in such programs in the following order: (1) pregnant injecting drug users; (2) pregnant persons with a substance use disorder; (3) other injecting drug users; and (4) all others. (45 C.F.R. § 96.131) **Section ~~[1]~~ 1.7** of this bill requires any treatment provider, provider of health care or program for the treatment of alcohol or other substance use disorders to prioritize persons to receive services for the treatment of alcohol or other substance use disorders funded in whole or in part by federal or state money in that order, except that **section ~~[1]~~ 1.7** authorizes the State Board of Health to adopt regulations prioritizing additional categories of people for such services.

Existing law ~~[requires the Director of the Department of Corrections to establish one or more programs of treatment for offenders with substance use or co-occurring disorders who have been sentenced to imprisonment in the state prison. (NRS 209.4236, 209.425) Existing law additionally provides that treatment of a prisoner in a local jail or detention facility who has a substance use disorder may include medication-assisted treatment. (NRS 211.140) Sections 2 and 7-9 of this bill require a public or private penal institution or facility and the sheriff, chief of police or town marshal responsible for a local jail or detention center to take reasonable measures to ensure: (1) the availability of medication-assisted treatment for an offender or prisoner who~~

~~has been diagnosed with an opioid use disorder to the same extent and under the same conditions as other medical care for offenders or prisoners; and (2) the continuation of such treatment when such an offender or prisoner is released or transferred. Sections 2, 8 and 9 also prohibit such an institution, facility, local jail or detention facility from discriminating against such treatment or an offender or prisoner who is receiving such treatment. Sections 2 and 7-9 require the Department of Corrections, an official who is responsible for local jail or detention facility or the Department of Health and Human Services, depending on the circumstances, to take reasonable measures to ensure the continuation of such treatment for an offender or prisoner who is released or transferred. Sections 3 and 6 of this bill require a program of treatment for offenders with substance use or co-occurring disorders who have been sentenced to imprisonment in the state prison to include medication-assisted treatment where required by section 2. Sections 4 and 5 of this bill clarify that certain provisions concerning the eligibility of an offender to participate in a program of treatment for offenders with substance use or co-occurring disorders and the removal of an offender from such a program do not affect the ability of an offender who has been diagnosed with an opioid use disorder to receive medication-assisted treatment.]~~ **defines the term "practice of pharmacy" for the purpose of determining which activities require a person to be registered and regulated by the State Board of Pharmacy as a pharmacist. (NRS 639.0124) Section 12.3 of this bill requires the Board to prescribe a protocol to allow a pharmacist who registers with the Board to: (1) assess a patient to determine whether the patient has an opioid use disorder and medication-assisted treatment would be appropriate for the patient; and (2) prescribe and dispense a drug for medication-assisted treatment without a prescription from a practitioner. Section 12.6 of this bill provides that the practice of pharmacy includes actions authorized by the protocol established in section 12.3. Section 16.05 of this bill makes a conforming change to account for the provisions of section 12.3 authorizing a pharmacist to dispense a drug that has not been prescribed by a practitioner. The Board would be authorized to suspend or revoke the registration of a pharmacist who orders or assesses a patient or prescribes or dispenses drugs under the protocol established pursuant to section 12.3 without complying with the provisions of the protocol. (NRS 639.210)**

Sections 3.5-5.8, 16.1, 16.3, 16.4, 16.48-16.75 and 16.9 of this bill require public and private health plans, including Medicaid and health plans for state and local government employees, to: (1) cover drugs approved by the Food and Drug Administration for medication-assisted treatment; and (2) reimburse assessment, prescribing and dispensing by a pharmacist in accordance with section 12.3 at a rate equal to that provided to a physician, physician assistant or advanced practice registered nurse for similar services. Sections 2.5 and 16.2 of this bill make conforming changes to indicate the proper placement of sections 5.5 and 16.1,

respectively, of this bill in the Nevada Revised Statutes. Sections 6.5, 16.13, 16.16, 16.43 and 16.45 of this bill make conforming changes to indicate that the coverage required by sections 16.1, 16.3 and 16.4 is in addition to certain coverage for the treatment of substance use disorder that certain insurers are required by existing law to provide. Section 16.8 of this bill authorizes the Commissioner of Insurance to suspend or revoke the certificate of a health maintenance organization that fails to comply with the requirements of section 16.7 of this bill. The Commissioner would also be authorized to take such action against other health insurers who fail to comply with the requirements of sections 16.1, 16.3, 16.48-16.6 or 16.9 of this bill. (NRS 680A.200)

Existing law authorizes a physician, physician assistant or advanced practice registered nurse to prescribe controlled substances if he or she is registered with the State Board of Pharmacy. (NRS 453.126, 453.231, 630.271, 632.237, 633.432) Existing federal law requires a physician, physician assistant or advanced practice registered nurse who prescribes or dispenses narcotic drugs for the treatment of opioid use disorder to register with the Drug Enforcement Administration of the United States Department of Justice for the specific purpose of dispensing such drugs. (21 U.S.C. § 822(a)) **Sections ~~[~~10-16~~]~~ 10-12 and 13-16** of this bill require a physician, physician assistant, advanced practice registered nurse, osteopathic physician or certain providers of behavioral health care who diagnose a patient with an opioid use disorder to counsel and provide information to the patient concerning evidence-based treatment for opioid use disorder, including medication-assisted treatment. Existing law requires the Director of the Department of Corrections to establish one or more programs of treatment for offenders with substance use or co-occurring disorders who have been sentenced to imprisonment in the state prison. (NRS 209.4236, 209.425) Existing law additionally provides that the treatment of a prisoner in a local jail or detention facility who has a substance use disorder may include medication-assisted treatment. (NRS 211.140) Section 17.5 of this bill requires the Department of Corrections, in collaboration with the Department of Health and Human Services, and each county, city or town that maintains a jail or detention facility to study during the 2023-2024 interim certain issues relating to the provision of medication-assisted treatment to incarcerated persons.

Amendment No. 115.

AN ACT relating to insurance; repealing, reenacting, reorganizing and revising various provisions relating to travel insurance; authorizing the Commissioner of Insurance to adopt regulations relating to travel insurance; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the Commissioner of Insurance to license producers of limited lines travel insurance to sell, solicit or negotiate travel insurance. (NRS 683A.265) Existing law sets forth various requirements and restrictions relating to producers of limited lines travel insurance and travel retailers who offer and disseminate travel insurance on behalf of a producer of limited lines travel insurance. (NRS 683A.193-683A.199, 683A.242, 683A.368-683A.3695) **Section 49** of this bill repeals the provisions of existing law governing producers of limited lines travel insurance and travel retailers. **Sections 2-36** of this bill reenact, reorganize and revise those provisions into a new chapter of the Nevada Revised Statutes governing travel insurance for the purpose of conforming more closely to the Travel Insurance Model Act adopted by the National Association of Insurance Commissioners. **Sections 3-19** define words and terms for the purposes of this bill. **Section 20** sets forth the applicability of this bill.

Section 21 authorizes the Commissioner to issue a license as a producer of limited lines travel insurance to a person who ~~[holds a license as a producer of insurance or managing general agent or a certificate of registration as an administrator.]~~ **has filed an application with the Commissioner.**

With certain exceptions, existing law prohibits a person from selling, soliciting or negotiating insurance for any class of insurance unless the person is licensed for that class of insurance. (NRS 683A.201) Existing law prohibits a producer of insurance from acting as an agent unless he or she is appointed as an agent by the insurer. (NRS 683A.321) **Section 29** authorizes a producer of insurance licensed for life insurance, accident and health insurance, property insurance, casualty insurance, variable annuities and variable life insurance or personal lines to **act as a producer of limited lines travel insurance and** sell, solicit or negotiate travel insurance. **Sections 29 and 41** of this bill provide that a producer of insurance who is licensed for property insurance and casualty insurance is not required to be appointed by an insurer to **act as a producer of limited lines travel insurance and** sell, solicit or negotiate travel insurance.

Section 22 authorizes a travel retailer to offer and disseminate travel insurance under the license of a producer of limited lines travel insurance under certain conditions. **Section 23** requires a producer of limited lines travel insurance to establish and maintain a register of each travel retailer that offers and disseminates travel insurance on behalf of the producer of limited lines travel insurance. **Section 24** requires a travel retailer to make available to each prospective purchaser of travel insurance certain written materials. **Section 25** prohibits a travel retailer from engaging in certain activities. **Sections 26 and**

42 of this bill authorize a travel retailer to receive compensation relating to his or her activities authorized by the provisions of this bill. **Section 28** makes a producer of limited lines travel insurance responsible for the acts of a travel retailer who offers and disseminates travel insurance under the license of the producer of limited lines travel insurance. **Section 27** makes a producer of limited lines travel insurance and a travel retailer subject to: (1) disciplinary action in the same manner as a producer of insurance; and (2) the provisions of existing law governing insurance trade practices and fraud.

Section 18 defines "travel protection plan" to mean a product that provides: (1) travel insurance; (2) travel assistance services; (3) a cancellation fee waiver; or (4) any combination of those items. **Section 30**: (1) authorizes a travel protection plan to be offered for one price for the combined items of the plan if certain conditions are met; and (2) provides that a purchaser of a travel protection plan who cancels the plan is entitled to a full refund under certain circumstances.

Section 31 requires: (1) all documents provided to a prospective purchaser of travel insurance to be consistent with the policy of travel insurance itself; and (2) certain information to be provided to a purchaser or prospective purchaser of travel insurance. **Sections 32 and 33** set forth certain authorized and prohibited practices in the sale and marketing of travel insurance.

Section 15 defines "travel administrator" as a person who directly or indirectly underwrites, collects charges, collateral or premiums from or adjusts or settles claims of residents of this State in connection with travel insurance. **Section 34** prohibits a person from acting as a travel administrator unless the person holds: (1) a license as a producer of insurance for a property insurance or casualty insurance line of authority; (2) a license as a managing general agent; or (3) a certificate of registration as an administrator. **Section 43** of this bill excludes a travel administrator and the employees of a travel administrator from the definition of "adjuster," thereby exempting those persons from the licensing requirements applicable to an adjuster.

Under existing law, authorized insurers and certain rate service organizations are required to file with the Commissioner all rates and proposed increases thereto, as well as the forms of policies to which the rates apply, certain supplementary rate information and any changes or amendments to the rates. (NRS 686B.070) Existing regulations require an insurer to annually submit to a statistical agent designated by the Commissioner certain information concerning certain lines of insurance, including, among others, an inland marine line of insurance. (NAC 686B.365) **Section 35** provides that, for the purposes of such filings, with certain exceptions, travel insurance is required to be classified and filed as an inland marine line of insurance. **Section 35** also authorizes an insurer to establish and use certain eligibility and underwriting standards. **Section 36** authorizes the Commissioner to adopt regulations to carry out the provisions of this bill.

Existing law requires an insurer to pay a tax upon his or her direct premiums and net direct considerations at the rate of 3.5 percent. (NRS 680B.027)

Section 37 of this bill specifies the premiums concerning travel insurance to which the tax applies. **Sections 38 and 39** of this bill make conforming changes to indicate the proper placement of **section 37** in the Nevada Revised Statutes.

Section 40 of this bill makes a conforming change to account for the repeal of the definition of "travel insurance" in **section 49** and the reenactment of a revised definition of "travel insurance" in **section 17**.

Existing law prohibits a person from engaging in any practice that is an unfair method of competition or an unfair or deceptive act or practice in the business of insurance. (NRS 686A.020) **Section 44** of this bill provides that it is an unfair method of competition or an unfair or deceptive act or practice in the business of insurance to: (1) offer or sell a policy that could never result in payment of any claims; or (2) market blanket travel insurance as free. **Sections 45-47** of this bill make conforming changes to indicate the proper placement of **section 44** in the Nevada Revised Statutes.

4. As used in this section, "policy of travel insurance" includes, without limitation, any form, endorsement, policy, rate filing and certificate of insurance associated with a policy of travel insurance.

Sec. 32. ***A person shall not sell, solicit or negotiate travel insurance or a travel protection plan on an individual or group basis using a negative option or opt out process that requires a person who purchases a trip to take an affirmative action to refuse travel insurance coverage, including, without limitation, unchecking a box on an electronic form.***

2. Money accepted by a life insurer pursuant to an agreement which provides for an accumulation of money to purchase annuities at future dates may be considered as "total income derived from direct premiums written" either upon receipt or upon the actual application of the money to the purchase of annuities, but any interest credited to money accumulated while under the latter alternative must also be included in "total income derived from direct premiums written," and any money taxed upon receipt, including any interest later credited thereto, is not subject to taxation upon the purchase of annuities. A producer of insurance may qualify for a license in one or more of the lines of authority permitted by statute or regulation, including:

4. Except as otherwise provided in subsection 7, a license as a producer of insurance expires if the Commissioner does not receive from the producer of insurance a request for renewal of the license pursuant to subsection 2 or 3, as applicable, on or before the date which is 30 days after the renewal date.

5. A fee paid pursuant to subsection 2, 3 or 6 is nonrefundable.

The mailing of a letter by certified mail, return receipt requested, addressed to the licensee at his or her last mailing address appearing on the records of the Division, and the return of the letter undelivered, constitutes a diligent effort by the Commissioner.

10. As used in this section, "renewal date" means:

(a) For the first renewal of the license, the last day of the month which is 3 years after the month in which the Commissioner originally issued the license.

(b) For each renewal after the first renewal of the license, the last day of the month which is 3 years after the month in which the license was last due to be renewed.

The sole relationship between an insurer and a broker who is appointed as an agent by the insurer as to any transactions arising during the period in which the broker is appointed as an agent is that of insurer and agent, and not insurer and broker.

Amendment No. 251.

AN ACT relating to governmental administration; requiring ~~[, under certain circumstances,]~~ a public body to ~~[have an additional period]~~ **hold certain periods** devoted to public comment when **the agenda for** a public meeting ~~[is continued to another day; prohibiting, with certain exceptions, a public body from considering any item that is not set forth on the original agenda for the~~

~~meeting if a meeting is continued to a day other than the date set forth on the agenda for the meeting;~~ **authorizes the continuation of the meeting to one or more other calendar days;** requiring, under certain circumstances, a public body to post a copy of the notice of a meeting at the building in which the meeting is to be held; requiring, under certain circumstances, a meeting agenda to include clear and complete instructions for a member of the general public to call in to a meeting to provide public comment; ~~[requiring a member of a public body to attend a certain number of meetings of the public body in person at a physical location;]~~ requiring, under certain circumstances, instructions for a member of the general public to call in to a meeting to provide public comment to be read verbally ~~[verbatim]~~ before ~~[each]~~ **the first** period **of the day** devoted to public comment begins; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

The Open Meeting Law requires a public body to have periods devoted to comments by the general public, if any, and discussion of those comments at a meeting. Specifically, the public body must take public comments: (1) at the beginning of the meeting before any items on which action may be taken are heard and again before the adjournment of the meeting; or (2) after each agenda item on which action may be taken is discussed by the public body, but before the public body takes action on the item. Further, a public body may have additional public comment periods in addition to the minimum requirements and the public body must allow the general public to comment on any matter that is not specifically included on the agenda as an action item at some point before the adjournment of the meeting. (NRS 241.020) **Section 1** of this bill reorganizes the existing requirements for public comment periods into a new section of the Open Meeting Law. **Section 1** further provides that if ~~[a]~~ **the agenda for a** meeting ~~[is continued by]~~ **authorizes the continuation of the meeting of** a public body ~~[to: over more than 1 day]~~ **to one or more other calendar days, public comment must be held:** (1) ~~[the next business day, the public body may have a public comment period that is in addition to the public comment periods set forth on the agenda; and]~~ **at the beginning of each day that the meeting is held before any item on which action may be taken is heard by the public body and again before the meeting recesses for the day or adjourns; or** (2) ~~[a day other than the next business day, in addition to the existing public comment requirements, the public body must have at least one more public comment period on the day on which the meeting reconvenes. Section 1 also provides that if a public body continues a meeting to a day other than the date set forth on the agenda for the meeting, the public body is prohibited from considering any item that is not set forth on the original agenda unless the public body provides the same written notice that is generally required for any meeting of a public body.]~~ **after each item on the agenda on which action may be taken is discussed by the public body but before the public body takes action on the item.**

The Open Meeting Law requires that written notice of all meetings of a public body be given at least 3 working days before the meeting. The notice must include an agenda consisting of, in relevant part, certain information related to periods devoted to public comment. (NRS 241.020) **Section 2** of this bill requires that, if a meeting is being held using a remote technology system and does not have a physical location designated for the meeting where members of the general public are permitted to attend and participate, the agenda must also include clear and complete instructions for a member of the general public to be able to call in to the meeting to provide public comment, including, without limitation, a telephone number and any necessary identification number of the meeting or other access code. ~~[Section 3 of this bill requires such instructions to be read verbally verbatim at the meeting before each period devoted to public comment.]~~

The Open Meeting Law provides that minimum public notice of a meeting of a public body includes posting a copy of the notice at the principal office of the public body. (NRS 241.020) **Section 2** ~~[requires that]~~ **instead provides that a copy of the notice must be posted at the principal office of the public body, or,** if the meeting has a physical location, ~~[the public body must also post a copy of the notice]~~ at the building in which the meeting is to be held.

The Open Meeting Law authorizes, under certain circumstances, a public body to conduct a meeting by means of a remote technology system. (NRS 241.023) **Section 3 of this bill** provides that notwithstanding such authority to conduct a meeting by means of a remote technology system, ~~[each member of]~~ a public body ~~[must attend at least 25 percent of the meetings of the public body each year in person at]~~ **may not hold certain meetings relating to contested cases and regulations by means of a remote technology system without** a physical location designated for the meeting where members of the general public are permitted to attend and participate. **Section 3 further requires clear and complete instructions for a member of the general public to be able to call in to the meeting to provide public comment, including, without limitation, a telephone number and any necessary identification number of the meeting or other access code, to be made verbally before the first period of the day devoted to public comment.**

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 241 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Except as otherwise provided in this section, comments by the general public must be taken by a public body:

(a) At the beginning of the meeting before any items on which action may be taken are heard by the public body and again before the adjournment of the meeting; or

(b) After each item on the agenda on which action may be taken is discussed by the public body, but before the public body takes action on the item.

2. Regardless of whether a public body takes comments from the general public pursuant to paragraph (a) or (b) of subsection 1, the public body must allow the general public to comment on any matter that is not specifically included on the agenda as an action item at some time before adjournment of the meeting. No action may be taken upon a matter raised during a period devoted to comments by the general public until the matter itself has been specifically included on an agenda as an item upon which action may be taken pursuant to subparagraph (2) of paragraph (d) of subsection 3 of NRS 241.020.

3. The provisions of subsections 1 and 2 do not prohibit a public body from taking comments by the general public in addition to what is required pursuant to subsection 1 or 2.

4. If ~~[a]~~ the agenda for a meeting ~~[is continued by]~~ authorizes the continuation of the meeting of a public body ~~[to:

(a) The next business day, the public body may have one or more periods devoted to comments by the general public that are in addition to the periods set forth on the agenda for the meeting pursuant to NRS 241.020.

(b) A day other than the next business day, the public body must have at least one more period devoted to comments by the general public on the day on which the meeting reconvenes that is in addition to the periods set forth on the agenda for the meeting pursuant to NRS 241.020.

5. If a public body continues a meeting to a day other than the date set forth on the agenda for the meeting that was posted pursuant to NRS 241.020, the public body shall not consider any item that is not set forth on the original agenda for the meeting unless the public body provides notice pursuant to NRS 241.020.] ***to one or more other calendar days, the public body must have a period devoted to comments by the general public:***

(a) At the beginning of each day that the meeting is held before any item on which action may be taken is heard by the public body and again before the meeting recesses for the day or the adjournment of the meeting; or

(b) After each item on the agenda on which action may be taken is discussed by the public body, but before the public body takes action on the item.

Sec. 2. NRS 241.020 is hereby amended to read as follows:

241.020 1. Except as otherwise provided by specific statute, all meetings of public bodies must be open and public, and all persons must be permitted to attend any meeting of these public bodies at a physical location or by means of a remote technology system. A meeting that is closed pursuant to a specific statute may only be closed to the extent specified in the statute allowing the meeting to be closed. All other portions of the meeting must be open and public, and the public body must comply with all other provisions of this chapter to the extent not specifically precluded by the specific statute. Public

officers and employees responsible for these meetings shall make reasonable efforts to assist and accommodate persons with physical disabilities desiring to attend.

2. If any portion of a meeting is open to the public, the public officers and employees responsible for the meeting must make reasonable efforts to ensure the facilities for the meeting are large enough to accommodate the anticipated number of attendees. No violation of this chapter occurs if a member of the public is not permitted to attend a public meeting because the facilities for the meeting have reached maximum capacity if reasonable efforts were taken to accommodate the anticipated number of attendees. Nothing in this subsection requires a public body to incur any costs to secure a facility outside the control or jurisdiction of the public body or to upgrade, improve or otherwise modify an existing facility to accommodate the anticipated number of attendees.

3. Except in an emergency, written notice of all meetings must be given at least 3 working days before the meeting. The notice must include:

(a) The time, place and location of the meeting. If the meeting is held using a remote technology system pursuant to NRS 241.023 and has no physical location, the notice must include information on how a member of the public may:

(1) Use the remote technology system to hear and observe the meeting;

(2) Participate in the meeting by telephone; and

(3) Provide live public comment during the meeting and, if authorized by the public body, provide prerecorded public comment.

(b) A list of the locations where the notice has been posted.

(c) The name, contact information and business address for the person designated by the public body from whom a member of the public may request the supporting material for the meeting described in subsection 7 and:

(1) A list of the locations where the supporting material is available to the public; or

(2) Information about how the supporting material may be found on the Internet website of the public body.

(d) An agenda consisting of:

(1) A clear and complete statement of the topics scheduled to be considered during the meeting.

(2) A list describing the items on which action may be taken and clearly denoting that action may be taken on those items by placing the term "for possible action" next to the appropriate item or, if the item is placed on the agenda pursuant to NRS 241.0365, by placing the term "for possible corrective action" next to the appropriate item.

(3) Periods devoted to comments by the general public, if any, and discussion of those comments. ~~[Comments by the general public must be taken:~~

~~(I) At the beginning of the meeting before any items on which action may be taken are heard by the public body and again before the adjournment of the meeting; or~~

~~(II) After each item on the agenda on which action may be taken is discussed by the public body, but before the public body takes action on the item.~~

~~➥ The provisions of this subparagraph do not prohibit a public body from taking comments by the general public in addition to what is required pursuant to sub-subparagraph (I) or (II). Regardless of whether a public body takes comments from the general public pursuant to sub-subparagraph (I) or (II), the public body must allow the general public to comment on any matter that is not specifically included on the agenda as an action item at some time before adjournment of the meeting. No action may be taken upon a matter raised during a period devoted to comments by the general public until the matter itself has been specifically included on an agenda as an item upon which action may be taken pursuant to subparagraph (2).~~**]**

(4) If any portion of the meeting will be closed to consider the character, alleged misconduct or professional competence of a person, the name of the person whose character, alleged misconduct or professional competence will be considered.

(5) If, during any portion of the meeting, the public body will consider whether to take administrative action regarding a person, the name of that person.

(6) Notification that:

(I) Items on the agenda may be taken out of order;

(II) The public body may combine two or more agenda items for consideration; and

(III) The public body may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

(7) Any restrictions on comments by the general public. Any such restrictions must be reasonable and may restrict the time, place and manner of the comments, but may not restrict comments based upon viewpoint.

(8) If the meeting is being held using a remote technology system pursuant to NRS 241.023 and does not have a physical location designated for the meeting where members of the general public are permitted to attend and participate, clear and complete instructions for a member of the general public to be able to call in to the meeting to provide public comment, including, without limitation, a telephone number and any necessary identification number of the meeting or other access code.

4. Minimum public notice is:

(a) Posting a copy of the notice at the principal office of the public body ~~[.~~ ~~*and,]*~~ ***or, if the meeting has a physical location, at the building in which the meeting is to be held.*** If the meeting is held using a remote technology system pursuant to NRS 241.023 and has no physical location, the public body must also post the notice to the Internet website of the public body not later than 9 a.m. of the third working day before the meeting is to be held unless the public body is unable to do so because of technical problems relating to the operation or maintenance of the Internet website of the public body.

(b) Posting the notice on the official website of the State pursuant to NRS 232.2175 not later than 9 a.m. of the third working day before the meeting is to be held, unless the public body is unable to do so because of technical problems relating to the operation or maintenance of the official website of the State.

(c) Providing a copy of the notice to any person who has requested notice of the meetings of the public body. A request for notice lapses 6 months after it is made. The public body shall inform the requester of this fact by enclosure with, notation upon or text included within the first notice sent. The notice must be:

(1) Delivered to the postal service used by the public body not later than 9 a.m. of the third working day before the meeting for transmittal to the requester by regular mail; or

(2) Transmitted to the requester by electronic mail sent not later than 9 a.m. of the third working day before the meeting.

5. For each of its meetings, a public body shall document in writing that the public body complied with the minimum public notice required by paragraph (a) of subsection 4. The documentation must be prepared by every person who posted a copy of the public notice and include, without limitation:

(a) The date and time when the person posted the copy of the public notice;

(b) The address of the location where the person posted the copy of the public notice; and

(c) The name, title and signature of the person who posted the copy of the notice.

6. Except as otherwise provided in paragraph (a) of subsection 4, if a public body maintains a website on the Internet or its successor, the public body shall post notice of each of its meetings on its website unless the public body is unable to do so because of technical problems relating to the operation or maintenance of its website. Notice posted pursuant to this subsection is supplemental to and is not a substitute for the minimum public notice required pursuant to subsection 4. The inability of a public body to post notice of a meeting pursuant to this subsection as a result of technical problems with its website shall not be deemed to be a violation of the provisions of this chapter.

7. Upon any request, a public body shall provide, at no charge, at least one copy of:

(a) An agenda for a public meeting;

(b) A proposed ordinance or regulation which will be discussed at the public meeting; and

(c) Subject to the provisions of subsection 8 or 9, as applicable, any other supporting material provided to the members of the public body for an item on the agenda, except materials:

(1) Submitted to the public body pursuant to a nondisclosure or confidentiality agreement which relates to proprietary information;

(2) Pertaining to the closed portion of such a meeting of the public body; or

(3) Declared confidential by law, unless otherwise agreed to by each person whose interest is being protected under the order of confidentiality.

➥ The public body shall make at least one copy of the documents described in paragraphs (a), (b) and (c) available to the public at the meeting to which the documents pertain. As used in this subsection, "proprietary information" has the meaning ascribed to it in NRS 332.025.

8. Unless it must be made available at an earlier time pursuant to NRS 288.153, a copy of supporting material required to be provided upon request pursuant to paragraph (c) of subsection 7 must be:

(a) If the supporting material is provided to the members of the public body before the meeting, made available to the requester at the time the material is provided to the members of the public body; or

(b) If the supporting material is provided to the members of the public body at the meeting, made available at the meeting to the requester at the same time the material is provided to the members of the public body.

➥ If the requester has agreed to receive the information and material set forth in subsection 7 by electronic mail, the public body shall, if feasible, provide the information and material by electronic mail.

9. Unless the supporting material must be posted at an earlier time pursuant to NRS 288.153, and except as otherwise provided in subsection 11, the governing body of a county or city whose population is 45,000 or more shall post the supporting material described in paragraph (c) of subsection 7 to its website not later than the time the material is provided to the members of the governing body or, if the supporting material is provided to the members of the governing body at a meeting, not later than 24 hours after the conclusion of the meeting. Such posting is supplemental to the right of the public to request the supporting material pursuant to subsection 7. The inability of the governing body, as a result of technical problems with its website, to post supporting material pursuant to this subsection shall not be deemed to be a violation of the provisions of this chapter.

10. Except as otherwise provided in subsection 11, a public body may provide the public notice, information or supporting material required by this section by electronic mail. Except as otherwise provided in this subsection, if a public body makes such notice, information or supporting material available by electronic mail, the public body shall inquire of a person who requests the notice, information or supporting material if the person will accept receipt by electronic mail. If a public body is required to post the public notice, information or supporting material on its website pursuant to this section, the public body shall inquire of a person who requests the notice, information or supporting material if the person will accept by electronic mail a link to the posting on the website when the documents are made available. The inability of a public body, as a result of technical problems with its electronic mail system, to provide a public notice, information or supporting material or a link to a website required by this section to a person who has agreed to receive such

notice, information, supporting material or link by electronic mail shall not be deemed to be a violation of the provisions of this chapter.

11. If a public body holds a meeting using a remote technology system pursuant to NRS 241.023 and has no physical location for the meeting, the public body must:

(a) Have an Internet website; and

(b) Post to its Internet website:

(1) The public notice required by this section; and

(2) Supporting material not later than the time the material is provided to the members of the governing body or, if the supporting material is provided to the members of the governing body at a meeting, not later than 24 hours after the conclusion of the meeting.

➥ The inability of the governing body, as a result of technical problems with its Internet website, to post supporting material pursuant to this subsection shall not be deemed to be a violation of the provisions of this chapter.

12. As used in this section, "emergency" means an unforeseen circumstance which requires immediate action and includes, but is not limited to:

(a) Disasters caused by fire, flood, earthquake or other natural causes; or

(b) Any impairment of the health and safety of the public.

Sec. 3. NRS 241.023 is hereby amended to read as follows:

241.023 1. Except as otherwise provided in subsection 2, a public body may conduct a meeting by means of a remote technology system if:

(a) A quorum is actually or collectively present, whether in person, by using the remote technology system or by means of electronic communication.

(b) Members of the public are permitted to:

(1) Attend and participate at a physical location designated for the meeting where members of the public are permitted to attend and participate; or

(2) Hear and observe the meeting, participate in the meeting by telephone and provide live public comment during the meeting using the remote technology system. A public body may also allow public comment by means of prerecorded messages.

(c) The public body reasonably ensures that any person who is not a member of the public body or a member of the public but is otherwise required or allowed to participate in the meeting is able to participate in the portion of the meeting that pertains to the person using the remote technology system. The public body shall be deemed to have complied with the requirements of this paragraph if the public body provides the person with a web-based link and a telephone number, in case of technical difficulties, that allows the person in real time to attend and participate in the meeting. Nothing in this paragraph requires a public body to provide a person with technical support to address the person's individual hardware, software or other technical issues.

2. If all members of a public body:

(a) Are required to be elected officials, the public body shall not conduct a meeting by means of a remote technology system without a physical location designated for the meeting where members of the public are permitted to attend and participate.

(b) Are not required to be elected officials, the public body shall not conduct a meeting by means of a remote technology system without a physical location designated for the meeting where members of the public are permitted to attend and participate unless the public body complies with the provisions of subsection 11 of NRS 241.020.

3. If any member of a public body attends a meeting by means of a remote technology system, the chair of the public body, or his or her designee, must make reasonable efforts to ensure that:

(a) Members of the public body and members of the public present at the physical location of the meeting can hear or observe each member attending by a remote technology system; and

(b) Each member of the public body in attendance can participate in the meeting.

4. Notwithstanding the provisions of subsections 1, 2 and 3, ~~[each member of]~~ a public body ~~[must attend at least 25 percent of the meetings of the public body each year in person at a physical location designated]~~ may not hold a meeting to consider a contested case, as defined in NRS 233B.032 or a regulation as defined in NRS 233B.038 by means of a remote technology system unless there is a physical location for the meeting where members of the general public are permitted to attend and participate.

5. If a meeting is conducted pursuant to this section using a remote technology system , ~~[and does not have a physical location designated for the meeting where members of the public are permitted to attend and participate,]~~ before ~~[each]~~ the first period of the day devoted to public comment, the clear and complete instructions ~~[set forth on the agenda pursuant to NRS 241.020]~~ for a member of the general public to be able to call in to the meeting to provide public comment , including, without limitation, a telephone number or any necessary identification number of the meeting or other access code, must be read verbally . ~~[verbatim.]~~

Legislative Counsel's Digest:

Under existing law, a district board of health may adopt regulations to control the use of a residential individual system for disposal of sewage in the district. (NRS 444.650) Existing law also authorizes a district board of health, upon approval of the State Board of Health, to adopt regulations to regulate sanitation and the sanitary protection of water and food supplies. (NRS 439.366, 439.410) **Section 1** of this bill requires a district board of health in a county whose population is 700,000 or more (currently only Clark County) to: (1) require all property owners with an existing septic system ~~[that is within 400 feet of a community sewerage disposal]~~ **whose property is served by a municipal water** system to connect to the community sewerage disposal system ~~[by]~~ **not later than** January 1, 2054; ~~[(2) review existing permits for individual septic systems every 5 years to determine if the property is within 400 feet of a community sewerage disposal system, notify such owners that each owner must connect to the community sewerage disposal system and revoke the permit for the septic system after 365 days; (3) upon review of any building or development permit, deny a request for an individual septic system if the property is within 400 feet of a community sewerage disposal system;]~~

and ~~[(4)]~~ **(2) enter into an agreement with a water authority to** establish a program to pay not less than ~~[50]~~ **85** percent of the cost for property owners to abandon an existing individual septic system and ~~[require such owners to]~~ connect to the community sewerage disposal system. **Section 1** also authorizes such a district board of health to, upon an affirmative vote of two-thirds of the members of the board, impose a fee on owners of such septic systems to carry out such requirements. **Section 2** of this bill makes a conforming change to indicate the proper placement of **section 1** in the Nevada Revised Statutes.

Under existing law, a permit to operate a water system may not be issued by the Division of Environmental Protection of the State Department of Conservation and Natural Resources or certain district boards of health unless certain conditions are met, including, without limitation, that: (1) the local governing body assumes responsibility in case of default and assumes the duty of assessing the lands served; (2) the applicant furnishes the local governing body sufficient surety; (3) the owners of the lands to be served by the water system agree to be assessed by the local governing body for the cost of the water system if there is a default; and (4) the owners agree that if the Division determines that water provided by a public utility or a municipality or other public entity is reasonably available, all users may be required to connect to the water system provided by the public utility, municipality or other public entity and be assessed the costs for the connection. (NRS 445A.895) **Section 4** of this bill ~~[removes the first three conditions for issuing a permit to operate a water system. Section 4]~~ revises ~~[the last condition]~~ **these conditions** to **: (1)** provide that **, with certain exceptions, the sole and exclusive obligation of the local governing body is to use the surety in the event of a default to contract and pay the operator responsible for the continued operation and maintenance of the water system; (2) require the owners of property served by the water system to also provide a surety to the local governing body; and (2) provide that** if the Division determines that water provided by a public utility or a municipality or other public entity ~~[may be accessed within 400 feet of any lot or parcel served by the water system,]~~ **is reasonably available,** all users of the water system in certain counties are required to connect. **Section ~~[5]~~ 4** of this bill makes conforming changes to ~~[remove]~~ **revise** certain provisions relating to **the responsibility of** a local governing body ~~[assuming responsibility of]~~ **for** a public water system ~~[.]~~ **in the event of a default. Section 3** of this bill ~~[make a conforming change to eliminate]~~ **revises** a reference to ~~[section 5 relating to the Division making]~~ certain findings.

Under existing law, a board of county commissioners of a county whose population is 700,000 or more (currently only Clark County) is authorized to prohibit certain persons, associations and corporations from using, constructing, acquiring or cause or permit the use, construction or acquisition of any type of private sewage system and to provide for the disconnection of any plumbing facilities from a private sewage system. (NRS 244.366) **Section 8** of this bill also authorizes such a board of county commissioners to

require any building or other structure that uses or is served by any type of private sewage system to connect to a public sewage system if the **building or other structure is served by a municipal water system and is within 400 feet of the service lines and appurtenances of a** public sewage system **.** ~~[is within 400 feet of the building or other structure.]~~

Under existing law, if the State Environmental Commission determines that, in relevant part, water provided by a public utility or a municipality or other public entity is reasonably available to users of a water system, the board of county commissioners of that county may require all users of the system to connect into the available water system provided by a public utility or a municipality or other public entity. (NRS 244.3655) **Section** ~~[6]~~ **7** of this bill provides instead that if the Commission determines that water provided by a public utility or a municipality or other public entity may be accessed within ~~[400]~~ **1,250** feet of any lot or parcel served by the water system, the board of county commissioners shall, in a county whose population is 700,000 or more (currently only Clark County), and may, in all other counties, require all users of the system to connect into the available water system provided by a public utility or a municipality or other public entity.

Under existing law, if the State Environmental Commission or the governing body of certain cities determines certain water systems or package plants for sewage treatment within the city limits are not serving the needs of its users and water or sewerage provided by a public utility, the city or another municipality or public entity is reasonably available to those users, the governing body may require all users of the system or plant to connect into the available water system or sewers and assess each lot or parcel for its share of the cost. (NRS 268.4102, 268.4105) ~~[Sections]~~ **Section 10** ~~[and 11]~~ of this bill ~~[provide]~~ **provides** instead that if the water system or sewerage may be accessed within ~~[400]~~ **1,250** feet of the property of such users, the governing body **of a county whose population is 700,000 or more (currently only Clark County)** shall require all users to connect. **Section 11 of this bill provides that if the property served by a package plant for sewage treatment receives water from a municipal water system, the governing body of a county whose population is 700,000 or more shall require all users of the plant to connect. Sections 10 and 11 also provide that all other governing bodies of a county may require all users to connect in such circumstances.**

Section 9 of this bill provides that if the governing body of a city in a county whose population is 700,000 or more determines that a private septic system or any package plant for sewage treatment is located within the city and ~~[sewerage provided by a public utility, the city, another municipality or any other public entity may be accessed within 400 feet of the property served by]~~ **a user of** the private septic system or package plant for sewage treatment ~~[,]~~ **receives water from a municipal water system,** the governing body must require all users of the septic system or package plant for sewage treatment to

connect to the public sewers and may assess each lot or parcel for its share of the cost for the connection.

Existing law sets forth an approval process for the subdivision of land that requires: (1) a subdivider of land to submit a tentative map to the planning commission or the governing body of a county or city, as applicable; and (2) the planning commission or governing body to forward a copy of the tentative map to certain other state and local agencies for review and comment. (NRS 278.330-278.460) **Sections 13 and 16** of this bill require that if a proposed subdivision will be served by a public water system **[,] : (1) in a county whose population is 700,000 or more,** the planning commission or the governing body, as applicable, must file the tentative map with the supplier of water for review and comment **;** and **[,] (2)** if the subdivision is located in a general improvement district, **the planning commission or the governing body must file the tentative map** with the supplier of water in the district. **Section 17** of this bill provides that **[**the**]** **such a** governing body of a county or city may not approve a tentative map, unless the supplier of water determines that there is available water which meets applicable health standards and is sufficient in quantity for the reasonably foreseeable needs of the subdivision.

Under existing law, a final map presented for filing must include certificates and acknowledgements from certain entities. (NRS 278.374-278.378) **Section 14** of this bill requires that if a subdivision **in a county whose population is 700,000 or more or in a general improvement district** will be served by a public water system, the final map presented for filing must include a certificate of approval from the supplier of water.

Section 15 of this bill makes conforming changes to indicate the proper placement of **sections 13 and 14** in the Nevada Revised Statutes. **Section 18** of this bill makes a conforming change to require the certificate of approval required by **section 14** to appear on the final map. **Sections 19 and 21** of this bill make conforming changes to also require a map of reversion and a final map for a planned development to have such a certificate of approval, if applicable.

Existing law establishes certain minimum standards for plumbing fixtures in new construction, expansions and renovations in residential, commercial, industrial or manufactured structures, public buildings, manufactured homes and mobile homes and requires the use of certain plumbing fixtures that have been certified under the WaterSense program established by the United States Environmental Protection Agency if a final product specification has been developed by the WaterSense program. (NRS 278.582, 338.193, 461.175, 489.706) **Sections 6, 20, 22 and 24** of this bill requires that, with certain exceptions, if the WaterSense program has established a final product specification for an irrigation controller or spray sprinkler body, any new construction, expansions and renovations on such structures, buildings and homes must install irrigation controllers and spray sprinkler bodies that have been certified under the WaterSense program.

Existing law establishes a program to provide grants of money for water conservation and capital improvements to certain water systems, including grants to an eligible recipient to pay certain costs associated with connecting a well to a municipal water system under certain circumstances. (NRS 349.981) **Section ~~[22]~~ 23** of this bill provides instead for grants of money to pay certain costs associated with plugging and abandoning a well and connecting the property formerly served by the well to a municipal water system under certain circumstances.

~~[Under existing law, the State Engineer: (1) may order that withdrawals of groundwater be restricted to conform to priority rights if the State Engineer finds that the average annual replenishment to the groundwater supply may not be adequate for the needs of all permittees and all vested-right claimants; and (2) is required, with certain exceptions, to order that withdrawals of groundwater be restricted to conform to priority rights in a basin that has been designated as a critical management area for at least 10 consecutive years. (NRS 534.110) Section 25 of this bill revises these provisions to require the State Engineer to order that withdrawals be restricted to conform to priority rights: (1) if the State Engineer finds that the average annual replenishment may not be adequate; and (2) in any basin that has been designated as a critical management area for 10 consecutive years.]~~

Existing law exempts, under certain circumstances, the de minimus collection of precipitation from the requirements of the Nevada Revised Statutes relating to the appropriation of water. (NRS 533.027) Section 24.5 of this bill also exempts the use of water by public agencies or volunteer fire departments to extinguish fires in an emergency.

Under existing law, the State Engineer may issue temporary permits to appropriate groundwater in certain designated areas which may be revoked if the property served by the permit is within 180 feet of water furnished by an entity such as a water district or a municipality and the well needs to be redrilled or have certain repairs made. (NRS 534.120) **Section 26** of this bill instead ~~[requires]~~ **provides that** the State Engineer ~~[to revoke]~~ **: (1) may only issue** a temporary permit if **water cannot be furnished by a public entity that furnishes water; and (2) authorizes the State Engineer to revoke such a temporary permit if** the property served by the temporary permit is within 1,250 feet of water furnished by ~~[an]~~ **a public** entity such as a water district or a municipality. **Section 26** also requires the State Engineer to ~~[adopt regulations relating to such temporary permits by June 30, 2025.~~

~~Under existing law, the State Engineer is authorized in certain designated areas to deny applications to appropriate groundwater if water can be furnished by certain entities, limit the depth of domestic wells, prohibit the drilling of wells for domestic use and require a dedication of a right to appropriate water under certain conditions. (NRS 534.120) Section 26 requires, rather than authorizes, the State Engineer to take such actions.]~~ **, in an area in which such temporary permits have been issued: (1) deny applications to appropriate groundwater if a public entity that furnishes water serves the area; (2)**

limit the depth of domestic wells; and (3) prohibit the drilling of wells for domestic use.

Under existing law, the State Engineer may require the plugging of certain domestic wells drilled in a basin in which such wells must be registered if water can be furnished by certain entities, but only if the charge for connecting to the furnished water is less than $200. (NRS 534.180) **Section 27** of this bill **: (1)** removes the requirement that the charge for connecting be less than $200 ~~.~~ **; and (2) requires plugging of a well if the well is within 1,250 feet of a municipal water system.**

Existing law requires that applications for the appropriation of water or to change the place of diversion, manner of use or place of use of certain waters must be made to the Colorado River Commission. (NRS 538.171) Section 27.5 of this bill also requires that applications to change the holder of the entitlement to appropriate certain waters be submitted to the Colorado River Commission.

The Conservation of Colorado River Water Act prohibits, with certain exceptions, the waters of the Colorado River that are distributed by the Southern Nevada Water Authority or one of the member agencies of the Authority from being used to irrigate nonfunctional turf on any property that is not zoned exclusively for a single-family residence on and after January 1, 2027. (Section 39 of chapter 364, Statutes of Nevada 2021, at page 2180) **Section 31** of this bill prohibits the use of such waters of the Colorado River for irrigating nonfunctional turf on any parcel of property that is not used exclusively as a single-family residence.

Section 28 of this bill defines "General Manager" for the purposes of the Conservation of Colorado River Water Act. **Section ~~[27]~~ 29** of this bill authorizes the Board of Directors of the Authority to restrict the use of water by a single-family residence to not more than 0.5 acre-feet of water during any year in which a shortage on the Colorado River has been declared by the Federal Government. **Section 29** also prohibits, with certain exceptions, the installation of new turf on any parcel of property that uses such waters of the Colorado River for irrigation beginning on the effective date of this bill and ending on December 31, 2023. Any new turf installed on and after January 1, 2024, must meet the requirements established by the Board of Directors, unless the General Manager approves a waiver.

Section 29 further: (1) prohibits the installation of a new septic system on any parcel of property that uses such waters of the Colorado River; and (2) requires any parcel of property which uses such waters of the Colorado River to discontinue the use of the septic system and connect to a public sewer system if ~~[such a system may be accessed within 400 feet of]~~ the property served by the existing septic system ~~[.]~~ **is connected to a municipal water system.**

Section 30 of this bill requires certain parcels of property which use such waters of the Colorado River to participate in an irrigation water efficiency monitoring program if the property: (1) is not used exclusively as a single-

family residence; and (2) consists of 20,000 square feet or more of turf. **Section 30** also: (1) requires the Board of Directors to develop and establish policies, guidelines and deadlines for participation in such an irrigation water efficiency monitoring program; and (2) authorizes the General Manager to approve an extension or waiver from the irrigation water efficiency monitoring program.

The Southern Nevada Water Authority Act authorizes the Authority, in consultation with the Advisory Committee for the Management of Groundwater in the Las Vegas Valley Groundwater Basin, to operate a project for the recharge and recovery or underground storage and recovery of groundwater for the benefit of owners of wells in the Las Vegas Valley Groundwater Basin. (Section 14.5 of chapter 572, Statutes of Nevada 1997, as added by section 1 of chapter 468, Statutes of Nevada 1999, at page 2387) The Act also authorizes the Authority to assess certain fees on users of groundwater and owners of domestic wells, including a fee if the Authority operates such a project. (Section 13 of chapter 572, Statutes of Nevada 1997, as amended by chapter 468, Statutes of Nevada 1999, at page 2387) **Section 33** of this bill also authorizes the Authority, in consultation with the Advisory Committee, to operate a program to convert any property served by a septic system to a municipal sewer system. **Section ~~[29]~~ 32** of this bill authorizes the Authority to assess a fee on users of groundwater and owners of domestic wells for the program to convert septic systems.

The Southern Nevada Water System Act of 1995 establishes certain powers and duties of the Authority. (Section 2 of chapter 393, Statutes of Nevada 1995, at page 963) **Section 34** of this bill authorizes the ~~[~~General Manager~~]~~ **Board of Directors** of the Authority **, by resolution, to authorize the General Manager of the Authority** to restrict water usage during certain water emergencies and shortages and provides that the Board of Directors ~~[~~may modify~~]~~ **must ratify** any such restrictions imposed by the General Manager.

533.027 1. The provisions of this chapter do not apply to ~~[the]~~ **:**

(a) The use of water in emergency situations to extinguish fires by a public agency or a volunteer fire department; or

(b) The de minimus collection of precipitation:

~~[(a)]~~ ***(1)*** From the rooftop of a single-family dwelling for nonpotable domestic use; or

~~[(b)]~~ ***(2)*** If the collection does not conflict with any existing water rights as determined by the State Engineer, in a guzzler to provide water for use by wildlife. The guzzler must:

~~[(1)]~~ ***(I)*** Have a capacity of 20,000 gallons or less;

~~[(2)]~~ ***(II)*** Have a capture area of 1 acre or less;

~~[(3)]~~ ***(III)*** Have a pipe length of 1/4 mile or less;

~~[(4)]~~ ***(IV)*** Be developed by a state or federal agency responsible for wildlife management or by any other person in consultation with the Department of Wildlife; and

~~[(5)]~~ ***(V)*** Be approved for use by the Department of Wildlife.

2. As used in this section:

(a) "Domestic use" has the meaning ascribed to it in NRS 534.013 ***.*** ~~[; and]~~

(b) "Guzzler" has the meaning ascribed to it in NRS 501.121.

(c) "Public agency" means an agency, bureau, board, commission, department or division of this State or a political subdivision of this State.

Sec. 25. ~~[NRS 534.110 is hereby amended to read as follows:~~

~~534.110 1. The State Engineer shall administer this chapter and shall prescribe all necessary regulations within the terms of this chapter for its administration.~~

~~2. The State Engineer may:~~

~~(a) Require periodical statements of water elevations, water used, and acreage on which water was used from all holders of permits and claimants of vested rights.~~

~~(b) Upon his or her own initiation, conduct pumping tests to determine if overpumping is indicated, to determine the specific yield of the aquifers and to determine permeability characteristics.~~

~~3. The State Engineer shall determine whether there is unappropriated water in the area affected and may issue permits only if the determination is affirmative. The State Engineer may require each applicant to whom a permit is issued for a well:~~

~~(a) For municipal, quasi-municipal or industrial use; and~~

~~(b) Whose reasonably expected rate of diversion is one-half cubic foot per second or more,~~

~~" to report periodically to the State Engineer concerning the effect of that well on other previously existing wells that are located within 2,500 feet of the well.~~

~~4. It is a condition of each appropriation of groundwater acquired under this chapter that the right of the appropriator relates to a specific quantity of water and that the right must allow for a reasonable lowering of the static water level at the appropriator's point of diversion. In determining a reasonable lowering of the static water level in a particular area, the State Engineer shall consider the economics of pumping water for the general type of crops growing and may also consider the effect of using water on the economy of the area in general.~~

~~5. This section does not prevent the granting of permits to applicants later in time on the ground that the diversions under the proposed later~~

~~appropriations may cause the water level to be lowered at the point of diversion of a prior appropriator, so long as any protectable interests in existing domestic wells as set forth in NRS 533.024 and the rights of holders of existing appropriations can be satisfied under such express conditions. At the time a permit is granted for a well:~~

~~(a) For municipal, quasi-municipal or industrial use; and~~

~~(b) Whose reasonably expected rate of diversion is one-half cubic foot per second or more,~~

~~➥ the State Engineer shall include as a condition of the permit that pumping water pursuant to the permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well, unless the holder of the permit and the owner of the domestic well have agreed to alternative measures that mitigate those adverse effects.~~

~~6. Except as otherwise provided in subsection 7, the State Engineer shall conduct investigations in any basin or portion thereof where it appears that the average annual replenishment to the groundwater supply may not be adequate for the needs of all permittees and all vested-right claimants, and if the findings of the State Engineer so indicate, except as otherwise provided in subsection 9, the State Engineer~~ **[**may**]** ***shall*** ~~order that withdrawals, including, without limitation, withdrawals from domestic wells, be restricted to conform to priority rights.~~

~~7. The State Engineer:~~

~~(a) May designate as a critical management area any basin in which withdrawals of groundwater consistently exceed the perennial yield of the basin.~~

~~(b) Shall designate as a critical management area any basin in which withdrawals of groundwater consistently exceed the perennial yield of the basin upon receipt of a petition for such a designation which is signed by a majority of the holders of certificates or permits to appropriate water in the basin that are on file in the Office of the State Engineer.~~

~~➥ The designation of a basin as a critical management area pursuant to this subsection may be appealed pursuant to NRS 533.450. If a basin has been designated as a critical management area for~~ **[**at least**]** ~~10 consecutive years, except as otherwise provided in subsection 9, the State Engineer shall order that withdrawals, including, without limitation, withdrawals from domestic wells, be restricted in that basin to conform to priority rights, unless a groundwater management plan has been approved for the basin pursuant to NRS 534.037.~~

~~8. In any basin or portion thereof in the State designated by the State Engineer, the State Engineer may restrict drilling of wells in any portion thereof if the State Engineer determines that additional wells would cause an undue interference with existing wells. Any order or decision of the State Engineer so restricting drilling of such wells may be reviewed by the district court of the county pursuant to NRS 533.450.~~

~~9. If a court of competent jurisdiction orders the State Engineer to restrict withdrawals to conform to priority rights or if pursuant to subsection 6 or 7 the State Engineer orders that withdrawals be restricted to conform to priority rights, the State Engineer must limit the restriction of withdrawals from a domestic well to allow a domestic well to continue to withdraw 0.5 acre-feet of water per year, which must be recorded by a water meter.~~ **(Deleted by amendment.)**

Sec. 26. NRS 534.120 is hereby amended to read as follows:

534.120 1. Within an area that has been designated by the State Engineer, as provided for in this chapter, where, in the judgment of the State Engineer, the groundwater basin is being depleted, the State Engineer in his or her administrative capacity may make such rules, regulations and orders as are deemed essential for the welfare of the area involved.

2. In the interest of public welfare, the State Engineer is authorized and directed to designate preferred uses of water within the respective areas so designated by the State Engineer and from which the groundwater is being depleted, and in acting on applications to appropriate groundwater, the State Engineer may designate such preferred uses in different categories with respect to the particular areas involved within the following limits:

(a) Domestic, municipal, quasi-municipal, industrial, irrigation, mining and stock-watering uses; and

(b) Any uses for which a county, city, town, public water district or public water company furnishes the water.

3. ~~[~~Except as otherwise provided in subsection 5, the~~]~~ ***The*** State Engineer may ~~[~~:

➥ The holder of a temporary permit that is revoked pursuant to this subsection must be given 730 days from the date of revocation to connect to the public entity furnishing water.

~~[~~(e)~~]~~ ***(d)*** In connection with the approval of a parcel map in which any parcel is proposed to be served by a domestic well, require the dedication to a city or county or a designee of a city or county, or require a relinquishment to the State Engineer, of any right to appropriate water required by the State Engineer to ensure a sufficient supply of water for each of those parcels, unless the dedication of the right to appropriate water is required by a local ordinance.

~~[4. The State Engineer may revoke a temporary permit issued pursuant to subsection 3 for residential use, and require a person to whom groundwater was appropriated pursuant to the permit to obtain water from an entity such as a water district or a municipality engaged in furnishing water to the inhabitants of the designated area, only if:~~

~~(a) The distance from the property line of any parcel served by a well pursuant to a temporary permit to the pipes and other appurtenances of the proposed source of water to which the property will be connected is not more than 180 feet; and~~

~~(b) The well providing water pursuant to the temporary permit needs to be redrilled or have repairs made which require the use of a well-drilling rig.~~]

5. ~~[~~The State Engineer may, in~~]~~ ***In*** an area in which have been issued temporary permits pursuant to subsection 3, ~~[~~limit~~]~~ ***the State Engineer:***

(3) Prohibit the drilling of wells for domestic use in areas where water can be furnished by a public entity such as a water district or a municipality presently engaged in furnishing water to the inhabitants; and

(b) May prohibit repairs from being made to a well, and may require the person proposing to deepen or repair the well to obtain water from ~~[~~an~~]~~ ***a public*** entity such as a water district or a municipality engaged in furnishing water to the inhabitants of the designated area, only if:

~~[~~(a)~~]~~ ***(1)*** The distance from the property line of any parcel served by the well to the pipes and other appurtenances of the proposed source of water to which the property will be connected is not more than 180 feet; and

~~[~~(b)~~]~~ ***(2)*** The deepening or repair of the well would require the use of a well-drilling rig.

6. For good and sufficient reasons, the State Engineer may exempt the provisions of this section with respect to public housing authorities.

7. ~~[~~***6.***~~]~~ The provisions of this section do not prohibit the State Engineer from revoking a temporary permit issued pursuant to this section if any parcel

served by a well pursuant to the temporary permit is currently obtaining water from ~~[an]~~ ***a public*** entity such as a water district or a municipality engaged in furnishing water to the inhabitants of the area.

~~***[7. Not later than June 30, 2025, the State Engineer shall adopt regulations setting forth the requirements for the issuance, use and revocation of temporary permits pursuant to this section.]***~~

534.180 1. Except as otherwise provided in subsection 2 and as to the furnishing of any information required by the State Engineer, this chapter does not apply in the matter of obtaining permits for the development and use of underground water from a well for domestic purposes where the draught does not exceed 2 acre-feet per year.

2. The State Engineer may designate any groundwater basin or portion thereof as a basin in which the registration of a well is required if the well is drilled for the development and use of underground water for domestic purposes. A driller who drills such a well shall register the information required by the State Engineer within 10 days after the completion of the well. The State Engineer shall make available forms for the registration of such wells and shall maintain a register of those wells.

3. The State Engineer may require the plugging of such a well which is drilled on or after July 1, 1981, at any time not sooner than 1 year after water can be furnished to the site by:

(a) A political subdivision of this State; or

(b) A public utility whose rates and service are regulated by the Public Utilities Commission of Nevada ~~***[)***~~ .

➥ but only if ~~[the charge for making the connection to the service is less than $200.]~~ ***such a well is within 1,250 feet of a municipal water system.***

4. If the development and use of underground water from a well for an accessory dwelling unit of a single-family dwelling, as defined in an applicable local ordinance, qualifies as a domestic use or domestic purpose:

(a) The owner of the well shall:

(1) Obtain approval for that use or purpose from the local governing body or planning commission in whose jurisdiction the well is located;

(2) Install a water meter capable of measuring the total withdrawal of water from the well; and

(3) Ensure the total withdrawal of water from the well does not exceed 2 acre-feet per year;

(b) The local governing body or planning commission shall report the approval of the accessory dwelling unit on a form provided by the State Engineer;

(c) The State Engineer shall monitor the annual withdrawal of water from the well; and

(d) The date of priority for the use of the domestic well to supply water to the accessory dwelling unit is the date of approval of the accessory dwelling unit by the local governing body or planning commission.

Sec. 27.5. **NRS 538.171 is hereby amended to read as follows:**

538.171 1. The Commission shall receive, protect and safeguard and hold in trust for the State of Nevada all water and water rights, and all other rights, interests or benefits in and to the waters described in NRS 538.041 to 538.251, inclusive, and to the power generated thereon, held by or which may accrue to the State of Nevada under and by virtue of any Act of the Congress of the United States or any agreements, compacts or treaties to which the State of Nevada may become a party, or otherwise.

2. Except as otherwise provided in this subsection, applications for the original appropriation of such waters, or to change the ***holder of the entitlement to appropriate water,*** place of diversion, manner of use or place of use of water covered by the original appropriation, must be made to the Commission in accordance with the regulations of the Commission. In considering such an application, the Commission shall use the criteria set forth in ~~[subsection 3 of]~~ NRS 533.370. The Commission's action on the application constitutes the recommendation of the State of Nevada to the United States for the purposes of any federal action on the matter required by law. Amendment No. 176.

SUMMARY—Makes revisions relating to **~~[~~Medicaid.~~]~~ health care.** (BDR 38-328)

AN ACT relating to **~~[~~**~~Medicaid; establishing the Alternative Billing Resource Office in the Division of Health Care Financing and Policy of the Department of Health and Human Services for the purpose of providing certain assistance relating to participation in Medicaid as a provider;~~]~~ **health care; requiring the Director of the Department of Health and Human Services to take certain measures to facilitate the provision of health services to pupils who are recipients of Medicaid;** requiring a Medicaid managed care program to negotiate in good faith with each school-based health center for the provision of health care services to recipients of Medicaid; **~~[~~**~~providing for a study of the requirements applicable to school-based health centers that~~

~~provide health care services to recipients of~~] **requiring a private insurer to provide certain reimbursement for certain services provided by a school health services program; providing for the increase of certain rates of reimbursement under** Medicaid; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Department of Health and Human Services, through the Division of Health Care Financing and Policy of the Department, to administer Medicaid. (NRS 422.2357, 422.270) **Section 2** of this bill defines "school-based health center" to mean a health center located or based on, in or near school grounds, property, buildings or any other school district facilities for the purpose of rendering care or services to any person. ~~[Section 3 of this bill establishes the Alternative Billing Resource Office within the Division for the purpose of assisting school-based health centers and other providers of services under the State Plan for Medicaid and persons and entities who wish to provide such services to evaluate and utilize different methods of participating in and billing Medicaid.]~~ **Section 3.5 of this bill requires the Director of the Department to establish a means to facilitate the sharing of data concerning a child who is a recipient of Medicaid between: (1) educational agencies; and (2) school-based health centers and other qualified providers of services covered by Medicaid. Section 3.5 also requires the Director to: (1) take any action necessary to ensure that local and state educational agencies are able to receive reimbursement for health services covered by Medicaid when provided on the premises of a school; and (2) establish incentives for certain providers to enter into an agreement with a school district or charter school or the Department of Education to provide health services to pupils.** **Sections 4 and 6** of this bill make conforming changes to indicate the proper placement of **sections 2 and** ~~[3]~~ **3.5** in the Nevada Revised Statutes. ~~[Section 7 of this bill requires the Division and the Department of Education to: (1) conduct a study of the requirements applicable to school-based health centers that provide health care services to recipients of Medicaid; and (2) report to the Joint Interim Standing Committee on Health and Human Services concerning the results of the study.]~~

Existing law requires a health maintenance organization with which the Department of Health and Human Services contracts for the provision of services through a Medicaid managed care program to negotiate in good faith with federally-qualified health centers, the University Medical Center of Southern Nevada and the University of Nevada School of Medicine to provide services to recipients of Medicaid. (NRS 422.273) **Section 5** of this bill similarly requires such a health maintenance organization to negotiate in good faith with each school-based health center in this State to provide services to recipients of Medicaid. **Section 7.5 of this bill requires the Director to apply for any necessary federal authority to increase by at least 5 percent the rates of reimbursement for services covered by Medicaid when provided**

on the premises of a school by an employee or independent contractor of: (1) a school district or charter school; or (2) the Department of Education.

Sections 6.1, 6.2-6.6 and 6.8 of this bill require private health insurers to reimburse a school health services program for certain health services provided to an insured who is a pupil enrolled in a public school in this State at certain rates. Section 6.75 of this bill authorizes the Commissioner of Insurance to suspend or revoke the certificate of a health maintenance organization that fails to comply with the requirements of section 6.6 of this bill. The Commissioner would also be authorized to take such action against other health insurers who fail to comply with the requirements of sections 6.1, 6.2-6.5 and 6.8. (NRS 680A.200)

Bill read second time.

The following amendment was proposed by the Committee on Legislative Operations and Elections:

Amendment No. 383.

AN ACT relating to elections; revising provisions relating to the authorized methods of voting in an election under certain circumstances; revising provisions relating to accommodations for certain voters who are elderly or have a disability; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides that voting at any election conducted under title 24 of NRS must be on printed ballots or by any other system approved by the Secretary of State or specifically authorized by law. (NRS 293.270) Existing law also provides that mechanical voting systems may be used to cast, register, record and count ballots or votes in all statewide, county, city and district elections of any kind held in this State. (NRS 293B.050) **Sections 5, 9 and 15** of this bill prohibit the ~~[use]~~ **marking** of paper ballots **by hand** when voting in person at the polls at an election in this State and instead require that all votes cast in person at a polling place be cast using a mechanical voting system. **Sections 2, 4, 7, 11, 14, 16, 18, 21, 25, 27, 29, 31, 33, 35, 37, 39, 40, 42, 44 and 46** of this bill make conforming changes to remove references to paper ballots and printing on paper ballots. **Sections 1, 3, 10, 12, 13, 20, 22-24, 26, 28, 30, 32, 34, 36, 38, 41, 43, 45 and 47** of this bill make conforming changes to require the use of a mechanical voting system when voting in person.

Section 49 of this bill makes conforming changes to repeal certain provisions relating to paper ballots and the discretionary use of mechanical voting systems. **Section 8.5 of this bill revises the term "mechanical voting system" to include marking a mail ballot which is subsequently counted on an electronic tabulator.**

Existing law requires that, with certain exceptions, each polling place must have at least one voting booth that is specifically designed, designated and equipped for voters who are elderly or voters with a disability. (NRS 293.2955, 293C.281) **Sections 6 and 17** of this bill instead require, with certain exceptions, that each polling place must have at least two such voting booths and additional voting booths if determined necessary by the county clerk or city clerk. **Sections 6 and 17** further require each county clerk, city clerk and all election board officers to complete training in the use of the voting booths and specially equipped voting devices in order to assist such voters. **Sections 8 and 19** of this bill make conforming changes to revise existing internal references relating to **sections 6 and 17**.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 318.

AN ACT relating to health care; establishing the substantive rights of a person compelled to submit to a mental or physical examination under certain circumstances; authorizing a person who has been aggrieved by the violation of certain rights to institute an action for injunctive and other appropriate relief; repealing provisions relating to a mental or physical examination required of certain persons in a civil action; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes an observer to be present at a mental or physical examination ordered by a court for the purpose of discovery in a civil action. The observer may: (1) be an attorney for the person undergoing the examination; and (2) make an audio or stenographic recording of the examination. (NRS 52.380) In 2021, the Nevada Supreme Court held that such a statute is unconstitutional because it: (1) is a procedural statute that does not create a substantive right; and (2) attempts to abrogate an existing rule of procedure that the court "prescribed under its inherent authority to regulate the judicial process." (*Lyft, Inc. v. Eighth Jud. Dist. Court*, 137 Nev. Adv. Op. 86, 501 P.3d 994, 1002 (2021); N.R.C.P. 35) **Section 2** of this bill repeals this statute.

Section 1 of this bill provides that **, with certain exceptions,** a person compelled to submit to a mental or physical examination pursuant to a court order, a contractual obligation or any other type of obligation has the right to: (1) receive notice of the examination at least 21 days before the date of the examination; (2) have an interpreter and certain observers present throughout the examination; (3) take notes or appoint an observer to take notes during the examination; and (4) after providing notice to the person conducting the examination, make certain recordings of the examination. **Section 1** further provides that the testimony or reports of the person conducting the examination are not privileged communications. **Section 1** authorizes a person

compelled to submit to a mental or physical examination to bring an action against a person who has violated the rights established by **section 1** and to obtain certain remedies in that action, including: (1) attorney's fees; (2) actual damages or a fine of $1,500, whichever is greater; (3) injunctive and protective relief; and (4) an order prohibiting the use of any information gathered during the examination in any judicial or administrative proceeding.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 629 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Notwithstanding any other provision of law ~~[,]~~ and except as otherwise provided in this section, a person compelled to submit to a mental or physical examination pursuant to a court order, a contractual obligation or any other type of obligation retains the right to:

(a) Unless otherwise specified or agreed upon by both parties, receive notice of the requesting party's intention to compel the person to submit to a mental or physical examination at least 21 days before the date of the examination;

(b) Have any observer of choice present throughout the examination, including, without limitation, the person's attorney, provider of health care or any other person hired by or on behalf of the person;

(c) Have an interpreter present if the person believes that an interpreter is necessary to facilitate communication with the examiner;

(d) Take notes or appoint an observer to take notes during the examination; and

(e) After providing notice to the person conducting the examination, make an audio, stenographic or video recording of the examination or appoint an observer to make such a recording.

2. The testimony or reports of a person who conducts an examination of a person compelled to submit to a mental or physical examination described in subsection 1 are not privileged communications.

3. A person compelled to submit to a mental or physical examination may bring an action in a court of competent jurisdiction for a violation of this section to seek any or all of the following relief:

(a) Attorney's fees;

(b) Actual damages or a fine of $1,500, whichever is greater;

(c) Injunctive relief;

(d) Protective relief; or

(e) An order prohibiting the use of any information gathered at the examination in any judicial or administrative proceeding.

4. The provisions of subsection 1 do not apply to a person compelled to submit to a mental or physical examination pursuant to titles 5, 14 and 15 of NRS and chapter 432B of NRS.

5. As used in this section, "mental or physical examination" does not include any evaluation made with respect to a child custody proceeding, as defined in NRS 125A.055.

Sec. 1.5. **1. The amendatory provisions of this act do not apply to a mental or physical examination conducted before October 1, 2023.**

2. As used in this section, "mental or physical examination" has the meaning ascribed to it in section 1 of this act.

Sec. 2. NRS 52.380 is hereby repealed.

TEXT OF REPEALED SECTION

52.380 Attendance by observer.

2. The observer attending the examination pursuant to subsection 1 may be:

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 393.

AN ACT relating to cannabis; providing for the licensure and regulation by the Cannabis Compliance Board of certain events at which the sale and consumption of cannabis or cannabis products is allowed; setting forth certain requirements for the issuance of a ~~[cannabis event organizer license,]~~ temporary cannabis event permit and portable cannabis vendor license; setting forth certain requirements concerning the operation of a temporary cannabis event; imposing various requirements on ~~[cannabis event organizers and]~~ portable cannabis vendors; revising provisions relating to social equity applicants; requiring the Board to adopt regulations establishing certain fees; revising provisions relating to the consumption of cannabis in a public place; revising provisions relating to the excise tax on retail sales of cannabis and cannabis products; exempting a ~~[cannabis event organizer]~~ **portable cannabis vendor** who holds a temporary cannabis event from certain provisions prohibiting a person from maintaining a place for the purpose of unlawfully selling, giving away or using any controlled substance; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides for the licensure and regulation of persons and establishments involved in the cannabis industry in this State by the Cannabis Compliance Board. (Title 56 of NRS) This bill provides for the licensure and regulation of events at which the sale of cannabis or cannabis products and the consumption of cannabis or cannabis products by persons 21 years of age or older is allowed. **Section 6** of this bill designates such events as "temporary cannabis events."

Section 14 of this bill prohibits a person from holding a temporary cannabis event unless: (1) the person has been licensed by the Board as a **portable** cannabis ~~[event organizer;]~~ **vendor;** and (2) the Board has issued a temporary cannabis event permit for the event. **Section 4 of this bill defines "portable cannabis vendor" to mean, in general, a business that: (1) is licensed by the Board; (2) holds temporary cannabis events; and (3) purchases cannabis or cannabis products from an adult-use cannabis retail store and sells such cannabis or cannabis products at temporary cannabis events held by the business. Section ~~[13]~~ 18** of this bill establishes requirements for licensure as a ~~[cannabis event organizer.]~~ **portable cannabis vendor. Section 14** sets forth certain requirements for a ~~[cannabis event organizer]~~ **portable cannabis vendor** to obtain a temporary cannabis event permit. **Section 14.5 of this bill: (1) deems a temporary cannabis event permit conditional until the portable cannabis vendor has obtained the necessary**

approvals from the local government having jurisdiction over the location where the temporary cannabis event will be located; (2) requires the Board to adopt regulations requiring the surrender of a conditional temporary cannabis event permit for the failure to obtain such approvals within a certain period of time; and (3) requires a portable cannabis vendor who is issued a temporary cannabis event permit to comply with all local ordinances and rules.

Section 15 of this bill prohibits a person other than ~~[a participating adult-use cannabis retail store or]~~ **the** portable cannabis vendor **to whom the temporary cannabis event permit was issued** from selling cannabis or cannabis products at a temporary cannabis event and sets forth certain requirements for such sales. ~~[Sections]~~ **Section 16** ~~[and 17]~~ of this bill ~~[impose]~~ **imposes** certain requirements and restrictions on a ~~[cannabis event organizer]~~ **portable cannabis vendor** relating to the operation of a temporary cannabis event.

~~[Section 18 of this bill establishes requirements for licensure as a "portable cannabis vendor," which is defined by section 4 of this bill to mean a business that: (1) is licensed by the Board; and (2) purchases cannabis or cannabis products from an adult-use cannabis retail store and sells such cannabis or cannabis products at a temporary cannabis event.]~~

Section 19 of this bill requires a portable cannabis vendor who ~~[participates in]~~ **holds** a temporary cannabis event to purchase all cannabis or cannabis products for resale at a temporary cannabis event from an adult-use cannabis retail store.

Existing law defines "social equity applicant" to mean, in general, an applicant for the issuance or renewal of an adult-use cannabis establishment license for an independent cannabis consumption lounge who has been adversely affected by previous laws which criminalized activity relating to cannabis. (NRS 678B.065) Existing law requires the Board to adopt regulations establishing criteria for determining whether an applicant qualifies as a social equity applicant. (NRS 678B.323) **Section 24** of this bill expands the definition of "social equity applicant" to include an applicant for the issuance or renewal of a ~~[cannabis event organizer license or]~~ portable cannabis vendor license who has been adversely affected by previous laws which criminalized activity relating to cannabis. **Section 27** of this bill requires the Board to adopt regulations establishing criteria for determining whether such an applicant qualifies as a social equity applicant. **Section 21** of this bill requires the Board to ~~[give priority]~~ **issue the first portable cannabis vendor license** to a social equity applicant ~~[in: (1) processing applications for a cannabis event organizer license or]~~ **and the second** portable cannabis vendor license ~~[; and (2) the issuance of such a license.]~~ **to an applicant who is not a social equity applicant. After the issuance of the first two portable cannabis vendor licenses, section 21 requires the Board to issue portable cannabis vendor licenses by alternately issuing such a license to a social equity applicant and an applicant who is not a social equity applicant.**

Section 22 of this bill sets forth certain requirements for the issuance of ~~[cannabis event organizer licenses and]~~ **a** portable cannabis vendor ~~[licenses in a local governmental jurisdiction that limits the number of business licenses issued to cannabis event organizers and portable cannabis vendors, which include, among other requirements, a requirement that a certain number of those licenses be issued to social equity applicants.]~~ **license under circumstances in which more than one qualified applicant has applied for a license. Section 22 requires the Board to revoke the license of a portable cannabis vendor who has not held a temporary cannabis event in the immediately preceding 18 months and provides for the reissuance of such a revoked license.**

Existing law imposes an excise tax on each retail sale of cannabis or cannabis products by an adult-use cannabis retail store or cannabis consumption lounge. (NRS 372A.290) **Section 39** of this bill applies this excise tax to retail sales of cannabis or cannabis products by a portable cannabis vendor. **Sections 36 and 38** of this bill make conforming changes to reflect the imposition of the excise tax on retail sales of cannabis or cannabis products by a portable cannabis vendor.

Section 20 of this bill authorizes a local government to charge a ~~[cannabis event organizer]~~ **portable cannabis vendor** a fee for holding a temporary cannabis event. **Section 29** of this bill requires the Board to adopt regulations establishing fees associated with a ~~[cannabis event organizer license, temporary cannabis event permit and]~~ portable cannabis vendor license. Existing law authorizes the Board to establish reduced fees for the initial issuance and renewal of an adult-use cannabis establishment license for an independent cannabis consumption lounge for social equity applicants. (NRS 678B.390) **Section 29** similarly authorizes the Board to establish reduced fees for the initial issuance or renewal of a ~~[cannabis event organizer license and]~~ portable cannabis vendor license for social equity applicants.

Section 9 of this bill includes a ~~[cannabis event organizer and]~~ portable cannabis vendor within the definition of "cannabis establishment" provided in existing law, thereby subjecting such businesses to the requirements of existing law applicable to cannabis establishments. (NRS 678A.095) Similarly, **section 10** of this bill includes a ~~[cannabis event organizer license,]~~ a temporary cannabis event permit and a portable cannabis vendor license within the definition of "license" provided in existing law, thereby subjecting the holders of such licenses to the provisions of existing law applicable to holders of other licenses issued by the Board. (NRS 678A.160) **Section 11** of this bill authorizes the Board to adopt regulations providing policies and procedures under which the Board is authorized to waive any requirement applicable to a cannabis establishment that the Board determines is not appropriate for a ~~[cannabis event organizer or]~~ portable cannabis vendor. **Section 31** of this bill requires the Board to adopt regulations concerning the safe and healthful operation of temporary cannabis events.

Section 23 of this bill provides that a **portable cannabis vendor** license or **temporary cannabis event** permit issued by the Board pursuant to the provisions of this bill is a revocable privilege. **Sections 25 and 26** of this bill prohibit the issuance of a medical cannabis establishment license or an adult-use cannabis establishment license, respectively, if any of the persons proposed to be owners, officers or board members of the establishment have previously served in such a position for a cannabis establishment that has had a **portable cannabis vendor** license or **temporary cannabis event** permit issued by the Board ~~[pursuant to the provisions of this bill]~~ revoked.

Existing law requires the Board to adopt regulations setting forth procedures and requirements for the transfer of a license. (NRS 678B.380) **Section 28** of this bill specifies that such regulations must set forth procedures and requirements for the transfer of a ~~[cannabis event organizer license or]~~ portable cannabis vendor license that is held by a social equity applicant.

Section 30 of this bill revises provisions of existing law that prohibit a person from selling or advertising the sale of cannabis or cannabis products for the purpose of authorizing the holder of a portable cannabis vendor license to engage in such activities. (NRS 678B.530) Existing law exempts, in general, persons who hold certain licenses issued by the Board from state prosecution for certain offenses relating to cannabis. (NRS 678D.200) **Section 33** of this bill expands this exemption to include the holder of a ~~[cannabis event organizer license or]~~ portable cannabis vendor license.

Existing law prohibits, with certain exceptions, the consumption of cannabis or cannabis products in a public place. (NRS 678C.300, 678D.300, 678D.310) **Sections 32, 34 and 35** of this bill revise these provisions for the purposes of authorizing a person to consume cannabis or cannabis products in an area designated for that activity at a temporary cannabis event.

Existing law prohibits a person from opening or maintaining a place for the purpose of unlawfully selling, giving away or using any controlled substance. (NRS 453.316) **Section 41** of this bill exempts a ~~[cannabis event organizer]~~ **portable cannabis vendor** whose activities are confined to those authorized under the provisions of this bill from the application of this provision.

Sections ~~[2-7]~~ 4-7 of this bill define words and terms applicable to the provisions of this bill. **Sections 8 and 37** of this bill make conforming changes to indicate the proper placement of new provisions in the Nevada Revised Statutes. **Section 40** of this bill makes a conforming change to reflect the addition of the provisions of **section 29**.

Remarks by Assemblywoman Brittney Miller.

Amendment adopted.

Bill ordered reprinted, engrossed and to third reading.

Assembly Bill No. 369.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 396.

AN ACT relating to the judiciary; revising provisions relating to certain fines, administrative assessments and fees; revising provisions relating to community service performed in lieu of certain **fines,** administrative assessments or fees; prohibiting a person from threatening or intimidating a tribal judge under certain circumstances; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides for the imposition of certain fines, administrative assessments and fees against a defendant. (Chapter 176 of NRS) Existing law
~~~~

establishes the circumstances in which a person who commits a minor traffic offense is presumed to be indigent and prohibits a court from taking certain actions against an indigent person. (NRS 176.0643, 176.075) **Section 7** of this bill: (1) expands the circumstances in which a person is presumed to be indigent; and (2) makes the presumption of indigence applicable to a person who commits an offense punishable as a misdemeanor.

Under certain circumstances, existing law authorizes a judge or justice or his or her successor to reduce a fine imposed against a defendant. (NRS 176.085) **Section 4** of this bill requires: (1) the court to inform a defendant who commits a minor traffic offense or an offense punishable as a misdemeanor that the defendant may be eligible for a waiver or reduction of the fine, administrative assessment or fee if the defendant is presumed indigent; and (2) a defendant who wishes to have a fine, administrative assessment or fee waived or reduced to file an ability to pay assessment. **Section 5** of this bill requires the court to calculate the household income limit of a defendant who is presumed indigent pursuant to **section 7**. Using the guidelines prescribed by the HOME Investment Partnerships Act and the household income limit of the defendant, **section 5** requires the court to: (1) waive any fee assessed against a defendant if the household income limit of the defendant is less than ~~[400]~~ **200** percent of the very low income limit for a family of equal size to the defendant; and (2) waive or reduce any administrative assessment or fine imposed against the defendant based upon the household income limit of the defendant. **Section 3** of this bill defines the term "HOME Investment Partnerships Act" for the purposes of **sections 5 and 7**. **Sections 2 and 6** of this bill make conforming changes related to the definition prescribed by **section 3**.

Existing law provides that any delinquent fine, administrative assessment or fee owed by a defendant for the commission of a minor traffic offense is deemed to be uncollectible if after 10 years it remains impossible or impracticable to collect the delinquent amount. (NRS 176.0647) **Section 8** of this bill: (1) reduces that period to 5 years; and (2) deems any delinquent fine, administrative assessment or fee owed by a defendant who commits an offense punishable as a misdemeanor uncollectible under the same circumstances.

Under certain circumstances, existing law authorizes a judge or justice or his or her successor to direct that a fine be paid in installments. (NRS 176.085) **Section 9** of this bill instead authorizes the court to direct a defendant to pay a fine**,** ~~[or]~~ administrative assessment **or fee** in installments. If the court directs a defendant to pay a fine**,** ~~[or]~~ administrative assessment **or fee** in installments, **section 9** provides that the amount of each installment must not exceed 2 percent of the annual income of the defendant.

Existing law authorizes a court to order a convicted person or a person who commits a minor traffic offense to perform supervised community service in lieu of all or part of certain fines, administrative assessments or fees. **Existing law additionally requires a court to provide a credit of $10 or the amount of the state minimum wage if health insurance is not offered, whichever is**

greater, for each hour of community service. (NRS 176.087, 484A.7045) **Sections 10 and 12** of this bill define "community service" for the purpose of any such order to include public service, work on public projects, supervised work for the benefit of the community and participation in certain programs and counseling. **Sections 10 and 12** also prohibit a court from ordering a person who commits an offense punishable as a misdemeanor or a person who commits a minor traffic offense to perform more than 100 hours of community service. **Sections 10 and 12** also revise certain requirements relating to a supervising authority. **Sections 10 and 12 additionally remove the ability of a court to require a convicted person to deposit a reasonable sum of money to pay for the cost of certain insurance relating to community service. Sections 10 and 12 also increase the credit that a court provides for community service from $10 or the amount of the state minimum wage if health insurance is not offered, whichever is greater, to not less than $20. Sections 10 and 12 additionally clarify that such credit is to be counted toward the payment of any fine, administrative assessment or fee.**

Existing law establishes various crimes against public justice. (Chapter 199 of NRS) One such crime prohibits a person from threatening or intimidating a public officer, public employee or certain other persons authorized to hear or determine a controversy or matter with the intent to induce the officer, employee or person to act in a manner contrary to his or her duties with regard to the controversy or matter. (NRS 199.300) **Section 11** of this bill makes this prohibition applicable to a person who threatens or intimidates a tribal judge with such intent. Under existing law, a person who violates this prohibition is guilty of: (1) a category B or C felony, if physical force or the immediate threat of physical force is used; and (2) a gross misdemeanor, if no physical force or immediate threat of physical force is used. (NRS 199.300) **Section 11** thereby makes a person who violates this prohibition by threatening or intimidating a tribal judge guilty of a category B or C felony or a gross misdemeanor, depending on the circumstances.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 176 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 to 5, inclusive, of this act.

Assembly Bill No. 381.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 338.

AN ACT relating to guardianship; revising various provisions relating to certain petitions regarding guardianships; revising various provisions relating to a guardian ad litem; authorizing a protected person or proposed protected person to object to certain petitions; revising provisions relating to the termination or modification of a guardianship; revising provisions relating to the rights of a protected person; making various other changes relating to guardianships; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law: (1) authorizes a proposed protected person, a governmental agency, a nonprofit organization or any interested person to petition the court for the appointment of a guardian; and (2) requires a petition for the appointment of a guardian to include certain information. (NRS 159.044) **Section 1** of this bill requires a petition for the appointment of a guardian to contain certain additional information, including the telephone number and electronic mail address of certain persons. ~~[Section 1 also makes a technical change to reorganize certain requirements relating to the information and documentation that must be filed with a petition.]~~

Existing law authorizes a court to appoint a person to represent a protected person or proposed protected person as a guardian ad litem if the court believes that the protected person or proposed protected person will benefit from the appointment and the services of the guardian ad litem will be beneficial in

determining the best interests of the protected person or proposed protected person. Existing law requires the guardian ad litem to represent the protected person or proposed protected person until relieved of that duty by court order. Existing law further authorizes a court to appoint a person who is not an attorney as a guardian ad litem to represent a protected person or proposed protected person if a court-approved volunteer advocate program for guardians ad litem has been established in the judicial district. (NRS 159.0455)

Section 2 of this bill: (1) requires a court to set forth with specificity in the order of appointment the scope and the duties of the guardian ad litem; (2) authorizes the protected person or proposed protected person to object to the appointment and to have a hearing on the objection before the guardian ad litem commences performing services; (3) ~~[requires, rather than authorizes, a court to appoint a person who is not an attorney as a guardian ad litem to represent a protected person or proposed protected person if a court-approved volunteer advocate program for guardians ad litem has been established in the judicial district; (4)]~~ clarifies that the appointment of a guardian ad litem does not relieve the court of its obligation to appoint counsel to represent the protected person or proposed protected person; ~~[(5)]~~ **(4)** requires the court, in the order of appointment, to set the hourly rate of compensation for the guardian ad litem ~~[;]~~ and **, unless the guardian ad litem is a volunteer;** ~~[(6)]~~ **(5)** provides that if the guardian ad litem is an attorney, the hourly rate of compensation set by the court must not exceed the customary hourly rate of compensation for a guardian ad litem who is not an attorney.

Existing law: (1) authorizes a petitioner to request that the court appoint a temporary guardian for a proposed protected person; and (2) requires the petitioner to support such a request with documentation that shows the proposed protected person faces a substantial and immediate risk of physical harm or needs immediate medical attention and lacks capacity to respond to the risk of harm or obtain the necessary medical attention. (NRS 159.0523) **Section 3** of this bill: (1) requires the petitioner to set forth in the petition and present under oath a detailed explanation of the substantial and immediate risk of physical harm the proposed protected person faces or the immediate medical attention the proposed protected person needs ~~[but]~~ **and** lacks capacity to respond to the risk of harm or obtain the necessary medical attention; and (2) provides that if the court appoints a temporary guardian, the court must limit the authority of the temporary guardian to that which is necessary to respond to a specific risk of harm or to a specific need for immediate medical attention identified in the petition.

Existing law authorizes a petitioner to request that the court appoint a temporary guardian for a protected person who is unable to respond to a substantial and immediate risk of financial loss. (NRS 159.0525) **Section 4** of this bill provides that any court order for the appointment of a temporary guardian or to extend a temporary guardianship must state the specific substantial and immediate risk of financial loss, the powers of the temporary guardian and the reasons that the powers of the temporary guardian are

necessary to address the specific substantial and immediate risk of financial loss.

Existing law requires the court to: (1) dismiss a petition for the appointment of a guardian if the court finds that the proposed protected person is not incapacitated and is not in need of a guardian; and (2) appoint a guardian if the court finds that appointment of a guardian is required. (NRS 159.054) **Section 5** of this bill requires the court to: (1) dismiss a petition if the court finds that either the proposed protected person is not incapacitated and is not in need of a guardian or that there are less restrictive alternatives to guardianship available to the proposed protected person; and (2) appoint a guardian if the court finds that there are no less restrictive alternatives to guardianship available to the proposed protected person and the proposed protected person is in need of a guardian.

Existing law requires the court to include certain information in an order appointing a guardian. (NRS 159.055) **Section 6** of this bill requires that an order of appointment must state that there are no less restrictive alternatives to guardianship available to the proposed protected person and that the proposed protected person is in need of a guardian.

Existing law provides that subject to the discretion and approval of the court, a guardian must be allowed reasonable compensation for his or her services and reasonable expenses incurred in retaining accountants, attorneys, appraisers or other professional services. Existing law authorizes the court to consider certain factors in determining whether the compensation is reasonable. (NRS 159.183) **Section 7** of this bill: (1) provides that a guardian is not allowed reasonable expenses incurred for retaining attorneys to represent a petitioner or guardian in the guardianship proceeding; and (2) requires, rather than authorizes, the court to consider certain factors in determining whether the compensation is reasonable.

Existing law authorizes a protected person, the guardian or another person to petition the court for the termination or modification of a guardianship. Existing law provides that for such a petition to be granted, the petitioner has the burden of proof to show by clear and convincing evidence that the termination or modification of the guardianship is in the best interests of the protected person. (NRS 159.1905) **Section 8** of this bill instead requires: (1) the petitioner to present prima facie evidence showing that the guardianship is no longer necessary or in the best interests of the protected person and should be terminated or that the needs of the protected person have changed such that the powers of the guardian should be modified; and (2) the court to terminate the guardianship if it is shown by clear and convincing evidence that the guardianship is no longer necessary or in the best interests of the protected person or to modify the guardianship if it is shown by clear and convincing evidence that the needs of the protected person have changed such that the powers of the guardian should be modified. If the petitioner meets the burden of proof, **section 8** requires the court to enter an order: (1) terminating the guardianship unless it is proven by clear and convincing evidence that

continuation of the guardianship is in the best interests of the protected person; or (2) modifying the guardianship unless it is shown that the needs of the protected person have changed such that the powers of the guardian should be modified. **Section 8** additionally requires the court, in ruling on a petition to terminate a guardianship, to consider whether less restrictive alternatives to a guardianship are available to the protected person. Finally, **section 8** authorizes **[: (1)]** the protected person to seek reasonable attorney's fees from any person who opposed the petition **[**~~if the protected person prevails on a petition for termination or modification; and (2) the court to impose sanctions on the objector in an amount sufficient to reimburse the estate of the protected person for expenses and any other losses incurred as the result of the objection.~~**]** **under certain circumstances.**

Existing law establishes the Protected Persons' Bill of Rights, which sets forth certain specific rights of each protected person. (NRS 159.327, 159.328) Existing law authorizes, for good cause, a guardian to petition a court to issue an order restricting the ability of a relative or person of natural affection to communicate, visit or interact with the protected person. (NRS 159.333) **Section 9** of this bill: (1) clarifies that the right of a protected person to communicate, visit and interact with other persons includes, without limitation, the right to have regular contact through telephone calls and personal mail and have visitors, unless his or her guardian and the court determine the particular communications or interactions or a particular visitor will cause harm to the protected person; and (2) adds the right to deny communication, visitation or interaction with another person. **Section 10** of this bill: (1) prohibits a court, under any circumstances, from issuing an order requiring a protected person to communicate, visit or interact with a **relative or a** person **[,] of natural affection;** and (2) requires the court to appoint an attorney for a protected person after a petition is filed by a guardian to restrict communication, unless an attorney has already been appointed for the protected person or the protected person has already retained an attorney. **Section 11** of this bill places the burden of proof on the guardian if he or she opposes a petition filed by the protected person to modify or restrict an order restricting communication, visitation or interaction between a protected person and a relative or person of natural affection.

Existing law authorizes a person who is liable for attorney's fees and costs incurred for retaining an attorney to represent a party in a guardianship proceeding to petition the court for an order authorizing payment for such fees and costs from the estate of a protected person. Existing law sets forth a list of factors that the court may consider in determining whether attorney's fees are just, reasonable and necessary. (NRS 159.344) **Section 12** of this bill: (1) requires, rather than authorizes, the court to consider the list of factors; (2) **[**~~prohibits the court from awarding compensation for time spent performing tasks that could be performed by a different type of professional; (3) clarifies certain provisions in the list of factors; (4)~~**]** requires the court, regardless of whether or not the court orders the payment of attorney's fees, to include in its

order written findings on the list of factors; ~~[and (5)]~~ **(3)** provides that a guardian is not allowed attorney's fees for services incurred by the guardian as a result of a petition to have him or her removed as guardian if the court removes the guardian ~~[.]~~ **; and (4) prohibits the award of attorney's fees if the person who petitions the court for attorney's fees failed to file the required written notice.**

Existing law lists certain court orders that may be appealed. (NRS 159.375) **Section 13** of this bill adds to that list an order: (1) restricting communication, visitation or interaction between a protected person and a relative or person of natural affection; (2) ordering or authorizing a guardian to move a protected person from this State to another state; or (3) ordering or authorizing a guardian to consent to experimental medical, biomedical or behavioral treatment of a protected person, the participation of a protected person in any biomedical or behavioral experiment or the sterilization of a protected person.

Legislative Counsel's Digest:

Existing law creates the Board of Dispensing Opticians to regulate the practice of ophthalmic dispensing and requires the Governor to appoint the members to the Board. (NRS 637.030) **Section 17** of this bill authorizes a member of the Board to continue in office until his or her successor is appointed. **Sections 18, 20, 21 and 33** of this bill revise and reorganize certain provisions governing the powers, duties and operations of the Board. **Section 18** prescribes requirements for determining whether a quorum is present at a meeting of the Board. **Section 20** authorizes the Board to employ an Executive Director. **Sections 21 and 30** of this bill expand the purposes for which the Board is authorized to accept gifts, grants, donations and contributions. **Section 19** of this bill clarifies certain language relating to the compensation and travel expenses of members and employees of the Board. **Section 6** of this bill provides that the Board and any of its members, staff and employees are immune from civil liability for any act performed in good faith and without malicious intent or gross negligence in the execution of any duty of the Board. **Section 2** of this bill sets forth certain legislative declarations concerning the regulation of the practice of ophthalmic dispensing.

Existing law authorizes the Board to issue a license as a dispensing optician, a limited license as a dispensing optician and a license as an apprentice dispensing optician. (NRS 637.120, 637.121, 637.123) Existing law establishes requirements concerning the expiration and renewal of such licenses and, for a license or limited license as a dispensing optician, the placement of such a license on inactive status and the reactivation of such a license. (NRS 637.121, 637.123, 637.140) **Section 33** repeals various requirements relating to the expiration and renewal of a license, the placement of a license on inactive status and the reactivation of a license. **Section 8** of this bill authorizes the Board to adopt regulations prescribing such requirements, as well as various other requirements relating to licensure.

Existing law: (1) authorizes the Board to adopt regulations necessary to carry out the provisions of existing law governing ophthalmic dispensing; and (2) requires the Board to adopt regulations setting forth minimum standards of optical and ophthalmic devices. (NRS 637.070, 637.073) **Sections 22, 28 and 33** of this bill: (1) reorganize certain provisions authorizing the Board to adopt regulations; (2) authorize, rather than require, the Board to adopt standards for optical and ophthalmic devices; and (3) authorize the Board to adopt certain other regulations.

Existing law provides that, in order to be eligible to hold a limited license as a dispensing optician, a person must have held such a license on February 1, 2004. Existing law: (1) authorizes the holder of such a license to practice ophthalmic dispensing; and (2) prohibits the holder of such a license from selling, furnishing or fitting contact lenses. (NRS 637.121) **Section 27** of this bill clarifies that, in order to be eligible for a limited license as a dispensing optician, a person must have held such a license since February 1, 2004. **Section 27** also: (1) requires a limited license to be displayed at the holder's place of practice; and (2) prohibits a limited license from being placed on inactive status on or after January 31, 2023. **Section 32.5 of this bill sets forth the procedure by which a limited license as a dispensing optician that has been transferred to an inactive list on or before January 31, 2023, may be reactivated.**

Existing law authorizes the Board to take certain actions and impose certain penalties against an applicant for or the holder of a license or an unlicensed person who commits certain violations of the provisions of existing law governing ophthalmic dispensing. (NRS 637.150, 637.181, 637.183, 637.185) **Section 10** of this bill authorizes a person to file a complaint with the Board if the person reasonably believes a violation is occurring or about to occur. **Section 11** of this bill authorizes the Board to issue or authorize the issuance of an administrative citation against a person who the Board believes, based on a preponderance of the evidence, has committed a violation. **Section 12** of the bill sets forth procedures by which a person may contest a citation. **Sections 29 and 31** revise and reorganize provisions authorizing the Board to take: (1) certain disciplinary actions against the holder of a license under certain circumstances; and (2) certain actions against a person who commits, or employs a person who commits, certain violations. **Section 30** of this bill revises and reorganizes certain provisions relating to subpoenas issued by the Board and certain hearings and investigations conducted by the Board.

Existing law sets forth certain unlawful acts relating to ophthalmic dispensing, including filling a prescription for a contact lens in violation of the expiration date or the number of refills specified by the prescription. (NRS 637.200) **Sections 32 and 33** of this bill: (1) set forth certain additional unlawful acts relating to ophthalmic dispensing; and (2) reorganize certain provisions defining when a prescription expires.

Existing law establishes qualifications for examination and licensing as a dispensing optician. (NRS 637.100) **Section 25** of this bill revises the requirements for an applicant to be eligible for a license as a dispensing optician and authorizes the Board to waive certain requirements for a person who provides proof that he or she: (1) is a graduate of a foreign school and has acquired education and experience that is equivalent to or greater than those required for licensure in this State; (2) is an active member of, or the spouse of an active member of, the Armed Forces of the United States who is on active duty; (3) has at least 5 consecutive years of work experience in the practice of ophthalmic dispensing in the District of Columbia or any other state or territory

of the United States that has requirements for licensure which are equal to or greater than the requirements in this State; or (4) holds a valid and unrestricted license to engage in ophthalmic dispensing in the District of Columbia or any other state or territory in the United States.

Existing law requires the Board to issue a special license as a dispensing optician to certain applicants who meet certain requirements and who: (1) have an active license as a dispensing optician issued by the District of Columbia or any state or territory of the United States; or (2) have not less than 5 years of experience as a dispensing optician. (NRS 637.127) **Section 33** of this bill eliminates that type of license.

Existing law requires the Board to maintain records pertaining to applicants to whom licenses have been issued or denied. (NRS 637.115) **Section 26** of this bill revises the type of information concerning applicants the Board is required to maintain. **Section 26** also requires the Board to maintain certain information concerning holders of a license and disclose certain information concerning applicants for and holders of licenses upon request. **Section 23** of this bill revises provisions relating to the confidentiality of certain information maintained by the Board.

Existing law prohibits a person from managing a business engaged in ophthalmic dispensing without a valid license issued by the Board. (NRS 637.090) **Section 24** of this bill revises that prohibition to instead prohibit a person from managing an optical establishment, as defined in **section 5** of this bill, without a valid license issued by the Board. **Section 24 also requires an optical establishment to post a sign notifying the public when a licensed dispensing optician is not physically present in the optical establishment.**

Existing law authorizes an apprentice dispensing optician to perform the services of a dispensing optician under the direct supervision of a dispensing optician, licensed ophthalmologist or licensed optometrist. (NRS 637.125) **Section 7** of this bill prescribes criteria for eligibility for a license as an apprentice dispensing optician. **Section 3** of this bill defines the term "direct supervision." **Section 28** of this bill revises the circumstances under which an apprentice dispensing optician may engage in ophthalmic dispensing.

Existing law establishes maximum fees relating to licenses issued by the Board, which the Board sets by regulation. (NRS 637.110, 637.120, 637.121, 637.123, 637.140) **Sections 27 and 33** of this bill remove provisions setting forth those maximum fees. Instead, **section 9** of this bill requires the Board to establish a schedule of various fees relating to licensure and sets forth the maximum amount of those fees.

Section 4 of this bill defines "license" to mean a license issued by the Board. **Section 13** of this bill makes a conforming change to ~~[indicate the proper placement of]~~ **make the definitions set forth in sections 3-5** ~~[in the Nevada Revised Statutes.]~~ **applicable to the statutes governing opthalmic dispensing. Section 14 of this bill revises the definition of "dispensing optician." Section 15** of this bill revises the definition of "ophthalmic dispensing" to: (1) include the issuing of a final authorization to deliver lenses,

frames or other specially fabricated devices to the intended wearer and the making of certain recommendations relating to a prescription; and (2) exclude certain other activities. **Section 16** of this bill makes a conforming change to account for the revised definition of ophthalmic dispensing.

Amendment No. 210.

SUMMARY—Revises provisions governing special event advertising. (BDR ~~[35-975)]~~ **43-975)**

AN ACT relating to public highways; exempting special events on or near certain highways ~~[and structures]~~ from certain restrictions on commercial advertising; ~~[exempting such advertising from being classified as a public nuisance; exempting such advertising from certain restrictions on outdoor advertisements in or near a right of way; exempting such an advertisement from certain fees;]~~ and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law restricts the placement of commercial advertising on or near certain highways **,** ~~[, rights-of-way, bridges or structures,]~~ with certain exceptions for: (1) benches and shelters for passengers of mass transit and monorail stations; and (2) touchdown structures, as authorized by a public authority. (NRS 405.110, 410.320, 484B.313) **Section** ~~[4]~~ **5** of this bill creates an exception for **any sign, signal, marking or street banner bearing** commercial advertising erected before, during or after a special event that is located ~~[: (1)]~~ on or over any highway **.** ~~[, (2) on any bridge or structure thereon; or (3) on a temporary structure or barrier erected on a highway.]~~ For such an exception to be granted, **section** ~~[4]~~ **5** requires: (1) the organizer of the special event to receive authorization from a public authority concerning the use and location of such advertising and the placement and maintenance of such advertising; (2) the organizer to enter into a written agreement with the public authority on terms and conditions acceptable to the public authority; (3) such advertising to not constitute a hazard or prevent the safe use of the highway by the public; and (4) such advertising to be placed and maintained for not more than 14 days. **Section** ~~[4]~~ **5** also defines the term "special event" to mean a sporting event, concert, festival or other similar event which: (1) will provide an anticipated economic impact of at least $250,000,000; and (2) is issued a permit as a special event by the public authority with jurisdiction over a highway. ~~[Section 5 of this bill establishes similar provisions for any sign, signal, marking or street banner bearing special event advertising that is located on or over a highway.~~

~~Existing law deems certain forms of outdoor advertisement a public nuisance and requires certain officials to remove, efface or destroy such advertisements. (NRS 405.020) Section 1 of this bill exempts the special event advertising permitted pursuant to section 4 from being deemed a public nuisance.~~

~~Existing law prohibits the placement of various forms of outdoor advertisements: (1) within any right of way of any state highway or road; (2) within 20 feet of the main traveled way of any unimproved highway; or (3) on the property of another within view of such a highway, if placed without the consent of the owner of such property. (NRS 405.030) Existing law exempts from such a prohibition: (1) advertisements placed on benches and shelters for passengers of mass transit and monorail stations; (2) political signs placed in the right of way of a state highway or road if it is located in the lot of a tenant of a mobile home park; (3) advertisements within the limits of a city or town through which the highway runs; and (4) certain street banners. (NRS 277A.310, 405.030) Section 2 of this bill additionally exempts the special event advertising permitted pursuant to sections 4 and 5.~~

~~Existing law requires a person, firm, association or corporation seeking to place a billboard, sign or other form of advertising outside the city limits of a city or town to pay a fee in the sum of $5 to receive a permit to undertake such an action. (NRS 405.040) Section 3 of this bill exempts from the fee requirement any billboard, sign or advertisement for a special event permitted pursuant to sections 4 and 5.~~**]**

~~(NOT REQUESTED BY AFFECTED LOCAL GOVERNMENT)]~~

AN ACT relating to railroads; ~~[prohibiting the operation in this State of certain trains that are more than 7,500 feet long on certain railroad tracks; establishing provisions governing the duty hours of yardmasters; requiring a local authority or the Department of Transportation to install traffic control devices and automated traffic enforcement systems at certain railroad grade crossings; providing civil penalties; establishing provisions governing the~~

~~issuance of a civil infraction citation based on evidence detected by an automated traffic enforcement system;~~] **establishing requirements for the installation and operation of wayside detector systems; requiring a stopped train or other equipment to be cut, separated or moved to clear a railroad grade crossing upon the approach of an emergency vehicle; providing a civil penalty;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes provisions governing the operation of railroads in this State. (Chapter 705 of NRS) ~~[Section 1 of this bill: (1) prohibits a railroad doing business in this State from running or allowing to be run on certain railroad tracks a work or freight train that exceeds 7,500 feet in length; and (2) provides that a person who violates this prohibition is liable to the Public Utilities Commission of Nevada for a civil penalty.~~

~~Existing law limits the total hours and consecutive hours that certain railroad employees are permitted to be on duty in any 24-hour period. (NRS 705.210) Section 2 of this bill restricts the duty hours which a yardmaster may be required or permitted to work and prohibits a yardmaster from being required or permitted to remain on duty or go on duty if he or she has not had a certain number of consecutive hours off duty.~~

~~Existing law prohibits a governmental entity or its agent from using photographic, video or digital equipment to gather evidence in order to issue a traffic citation or civil infraction citation, unless that equipment is: (1) a portable camera or event recording device worn or held by a peace officer; (2) installed within a vehicle or facility of a law enforcement agency; or (3) privately owned by a nongovernmental entity. (NRS 484A.600) Section 5 of this bill provides for an exception to this prohibition, and section 4 of this bill requires a local authority or the Department of Transportation to install and maintain at certain railroad grade crossings where there has been an impact between a motor vehicle and a train or other on-track equipment or a near-miss incident: (1) an official traffic-control device; and (2) an automated traffic enforcement system to enforce the laws governing obedience to such a traffic control device. Section 4 requires a peace officer of a traffic enforcement agency with jurisdiction over the location of the automated traffic enforcement system to review the evidence of a violation detected by an automatic traffic enforcement system before a citation is issued. Section 4 establishes requirements for the contents and delivery of a civil infraction citation issued based upon evidence collected by an automated traffic enforcement system. Section 4 creates a rebuttable presumption that the registered owner of a vehicle is the driver of the vehicle at the time of a violation detected by an automated traffic enforcement system and provides a method for rebutting this presumption. Section 4 provides that a violation detected by an automated traffic enforcement system is not a moving traffic violation. Sections 3, 6 and 7 of this bill make conforming changes to: (1) exclude traffic violations detected by an automated traffic enforcement system from the assessment of~~

~~demerit points; and (2) provide for the issuance of civil infraction citations for violations detected by an automated traffic enforcement system.]~~ **Section 1.18 of this bill prohibits a person from installing a wayside detector system in this State unless the wayside detector system has certain features. Section 1.18 requires a person who installs a wayside detector system alongside or on a railroad to ensure such systems are located within a certain distance of each other and requires the operator of any train, rolling stock or on-track equipment to take certain actions when passing wayside detector systems which are not located in this manner. Section 1.2 of this bill establishes requirements for the alarm on a wayside detector system. Section 1.22 of this bill requires the operator of any train, rolling stock or on-track equipment to take certain action when notified by a wayside detector system of a defect or that the number of axles on a train is more or less than the reported number. Sections 1.1-1.16 of this bill define terms related to wayside detector systems. Section 1.24 of this bill requires a railroad company to ensure the employees of the company are aware of and understand the provisions of sections 1.1-1.22 of this bill and imposes a penalty for the knowing violation of those provisions.**

Section 1.26 of this bill requires, except in the case of a mechanical failure, a train, rolling stock or other on-track equipment which has come to a complete stop and is blocking a railroad grade crossing to be cut, separated or moved upon the approach of an authorized emergency vehicle.

(d) An audible alarm that operates in accordance with section 1.22 of this act.

2. Except as otherwise provided in this subsection, any person responsible for the installation of a wayside detector system alongside or on a railroad shall ensure that each wayside detector system location is not more than 10 miles from the adjacent wayside detector system location. If the natural terrain does not allow for the placement of the next adjacent wayside detector system location within 10 miles from the prior wayside detector system location, the next adjacent wayside detector system location shall be installed not more than 15 miles from the prior wayside detector system location.

3. If the wayside detector systems installed on or alongside a railroad do not comply with the requirements of subsection 2 and are further than 15 miles apart, the operator of any train, rolling stock or on-track equipment passing between the noncompliant wayside detector systems shall reduce speed to not more than 10 miles per hour until the train, rolling stock or on-track equipment passes the next available wayside detector system and is issued a "no defects" message from the wayside detector system.

Sec. 1.2. ***1. No person shall install or operate a wayside detector system in this State unless the audible alarm for the system:***

(a) Is assigned to the "AAR Frequency" that is assigned to the specific territory in which the wayside detector system is located; and

(b) In the event of a defect, sounds over the assigned radio channel or frequency not less than three consecutive times with each audible signal lasting not less than 5 seconds and with not less than 5 seconds of silence between each audible alarm.

2. No person shall install or operate a wayside detector system in this State unless:

(a) The inspection results generated by the wayside detector system provide an audible message, delivered over the applicable radio channel or frequency that contains the following information delivered to the operator of the train, rolling stock or on-track equipment:

(1) The wayside detector system location milepost and name;

(2) The track number, if applicable;

(3) The total number of axles on the train, including, without limitation, motive power;

(4) If a defect is found, the location of the defect within the train, rolling stock or on-track equipment or the component parts or equipment of the train, rolling stock or on-track equipment; and

(5) If no defect is found, the speed of the train, rolling stock or on-track equipment and a message that no defects were found.

(b) If a defect is found by the wayside detector system, in addition to the audible alarm signal required pursuant to paragraph (b) of subsection 1, the audible message required to be provided pursuant to paragraph (a) is repeated not less than three times over the applicable radio channel or frequency with 20 seconds of silence between each iteration of the audible message.

Sec. 1.22. 1. If the operator of a train, rolling stock or other on-track equipment receives a message pursuant to section 1.2 of this act indicating that a defect was found, the operator shall:

(a) Stop the train, rolling stock or other on-track equipment in accordance with the safety procedures issued by the managing railroad company;

(b) Inspect the location of the defect from a position on the ground;

(c) Note and present all inspection results to the appropriate officer of the railroad company, a local dispatcher or another qualified person based on company protocol; and

(d) Based on the inspection results:

(1) If the operator believes it is safe to do so, proceed along the route at a speed not exceeding 10 miles per hour if carrying hazardous materials or 30 miles per hour if not carrying hazardous materials; and

(2) If the operator believes continued operation is not safe, have the train, rolling stock or on-track equipment, or the applicable component or equipment of the train, rolling stock or on-track equipment, fully inspected by a qualified person to make a determination of whether it is safe to proceed.

2. If the operator of a train, rolling stock or other on-track equipment receives a message from a wayside detector system pursuant to section 1.2 of

this act indicating that a defect was found and that defect was previously detected by a prior wayside detector system, the operator shall:

(a) Stop the train, rolling stock or on-track equipment in accordance with the safety procedures issued by the managing railroad company;

(b) Have the train, rolling stock or on-track equipment, or the applicable component or equipment of the train, rolling stock or on-track equipment, fully inspected by a qualified person to make a determination of whether it is safe to proceed; and

(c) Not allow the train, rolling stock or on-track equipment to proceed unless and until a qualified person has thoroughly inspected the defect, made any necessary repairs and declared it safe to proceed.

3. All inspections performed pursuant to this section must be performed on the ground. A person must not perform any inspection pursuant to this section from within or on a vehicle or any other mode of transportation.

4. If the operator of a train receives a message pursuant to section 1.2 of this act indicating that the number of axles on a train is less than the reported number of axles for that train, the operator shall report the discrepancy to the proper railroad authority.

5. If the operator of a train receives a message pursuant to section 1.2 of this act indicating that the number of axles on a train is more than the reported number of axles for that train, the operator shall report the discrepancy to the proper railroad authority. If the discrepancy is not resolved within 5 miles of receiving the message pursuant to section 1.22 of this act the operator shall stop the train. The operator shall not proceed until the discrepancy is resolved, all extra equipment or cars are identified and any necessary documentation is issued.

Sec. 1.24. 1. Any railroad company doing business in this State shall ensure that its employees are aware of and understand the requirements of sections 1.1 to 1.24, inclusive, of this act.

2. Any person who knowingly violates a provision of sections 1.1 to 1.24, inclusive, of this act is liable for a civil penalty of not more than $25,000 for each violation.

Sec. 1.26. 1. Except for a train, rolling stock or other on-track equipment that is stopped due to mechanical failure where separation or movement is not possible, any train, rolling stock or other on-track equipment that has come to a complete stop and is blocking a railroad grade crossing must be cut, separated or moved to clear the crossing upon the approach of an authorized emergency vehicle.

Assembly Bill 126 is an omnibus measure that revises various provisions governing Nevada business entities. Among other things, the bill authorizes certain business entities to correct an erroneously filed record with the Office of the Secretary of State; clarifies the content of the affidavit required to be submitted with a demand to inspect certain private corporation records; authorizes a publicly traded corporation, with the approval of certain stockholders, to decrease the number of issued and outstanding shares of a class or series; revises provisions governing permissible restrictions on the transfer of shares of a corporation by clarifying the manner in which a transferee may be presumed to have knowledge of the restriction; and repeals, reenacts, and reorganizes the definitions of "advance notice statement" and "statement of intent" for the purposes of certain provisions relating to dissenters' rights.

The bill also authorizes the board of directors to require a confidentiality agreement with a stockholder or other person who submits a demand to inspect the books of account or financial statements of the corporation and to change the name of a corporation without the approval of the stockholders, unless the articles of incorporation require such approval. Finally, the bill clarifies the actions available to a board of directors with respect to the adoption or signing of plans, arrangements, or instruments and protecting the interests of the corporation and its stockholders.

Remarks by Assemblymen Jauregui and Yurek.

ASSEMBLYWOMAN JAUREGUI:

Assembly Bill 355 provides that a person who is less than 21 years of age is prohibited from handling, having possession of, or controlling any semiautomatic shotgun or a semiautomatic centerfire rifle. The bill provides an exception for a person who is under 21 years of age and who is a member, or an honorably discharged member, of the Armed Forces of the United States, the National Guard, a reserve component, or a law enforcement officer.

Today in Nevada, we are passing landmark legislation. As many of you know, I have been a strong advocate for gun violence prevention legislation since I entered public service, but particularly after the 1 October massacre, the worst mass shooting in our nation's history. Since then, I have helped lead the charge to pass Assembly Bill 291 of the 80th Session—which banned bump stocks, the type of accessory used in the massacre that mimics a fully automatic firearm—as well as implement several other gun safety laws that improve public safety, such as red flag laws, child-safe storage laws, and a ban on ghost guns. These measures are necessary because gun violence is an inescapable epidemic across the country.

In the last five years, six of the nine deadliest mass shootings have been committed by individuals under the age of 21. Right now, guns are the number one killer of our children—from schools in Texas and Tennessee, to the front porches of Arkansas, to countless other unreported tragedies across this nation. Our children are dying, and our communities are mourning.

Well, I believe we can protect second-graders and the Second Amendment at the same time. Raising the age requirement to purchase an assault weapon to 21 is a commonsense gun safety measure that will make everyday Nevadans safer and more secure in their community. I urge this body to support this piece of legislation to keep our communities safe.

ASSEMBLYMAN YUREK:

Today, I stand in opposition to Assembly Bill 355. As I do, I hope we can all agree on three things. Number one: Currently, the *United States Constitution* and our *Nevada Constitution* protect the rights of our citizens to both keep and bear arms. Number two: Every individual involved in the legislation before us today has good intentions and a strong desire to protect Nevadans. Number three: We need to do something about the increasing incidence of gun violence against innocent Americans and, more specifically, Nevadans. However, the issue on which we do not agree is how to protect Nevadans and safeguard their constitutional rights.

I believe AB 355 was drafted with good intentions. However, to quote Ninth Circuit Court Judge Kenneth K. Lee who, when his court struck down a similar law in California this past year, stated, "We cannot allow good intentions to trump an enumerated and 'fundamental right' deeply rooted in the history and tradition of this country." The question this legislation asks is whether 18-, 19-, and 20-year-old individuals are mature enough to safely and wisely handle firearms, suggesting that this demographic is largely responsible for the gun violence epidemic in our country. But this assumption is factually untrue. Of the 142 mass shootings that have taken place over the past 40 years, only 6 percent were committed by an 18-, 19-, or 20-year-old individual who bought a gun legally. This is less than 1 percent of the guns purchased in Nevada, and not one of those incidents took place in Nevada.

Recent events as well as our own tragedy on October 1 have left us sensitive to this issue. But this legislation would affect less than 1 percent of the mass shootings that have taken place over the past 40 years. The more appropriate and relevant question is this: How do we prevent an individual with the intent to harm themselves or others from using a firearm to that end? Removing guns from the hands of individuals because of their age does not solve the problem, nor

does it address the real issue. Additionally, we are creating an age discrimination issue that inarguably violates the *Nevada Constitution*.

By shifting our focus away from gun control and instead focusing on gun safety, we may be able to find a more effective solution that resolves all our concerns. The RAND Corporation reminds us, "Good gun policies require consideration of many factors, including the law and constitutional rights, the interests of various stakeholder groups, and information about the likely effects of different laws or policies on a range of outcomes." We know that background checks and safe storage laws have proven track records of reducing firearm injuries among children and youth. But laws regulating the type of firearms people have access to have made little impact on the rate of firearm-related homicides. Additionally, the minimum age of 21 required to purchase handguns has little effect on reducing firearm suicides among youth.

We do need a solution, but AB 355 is not it. I respectfully request that you vote no on AB 355. Let us try together to find gun safety solutions that both protect Nevadans and safeguard our constitutional rights.

The following amendment was proposed by the Committee on Health and Human Services:

Amendment No. 266.

SUMMARY— ~~[Prohibits certain]~~ **Revising provisions governing** hospitals**.** ~~[from employing a physician.]~~ (BDR 40-382)

AN ACT relating to health care; prohibiting a hospital or psychiatric hospital from employing a physician under certain circumstances; providing penalties for a violation of such prohibition; **prohibiting a hospital from taking measures to restrict certain activity of a provider of health care who is employed by or serves as an independent contractor of the hospital;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law prescribes certain requirements governing the staffing of hospitals, psychiatric hospitals and certain other health care facilities. (NRS 449.241-449.2428) In 2010, the Attorney General issued an opinion explaining that, while it is the longstanding practice in Nevada that a physician generally works as a contractor for, rather than an employee of, a hospital, there is no provision of law prohibiting a hospital from employing a physician. (Att'y Gen. Op. 2010-04 (March 5, 2010)) **Section 1** of this bill expressly prohibits a hospital or psychiatric hospital from employing a physician for the purpose of practicing medicine, homeopathic medicine or osteopathic medicine except where expressly authorized by law.

Existing law authorizes a county hospital or hospital district, a private nonprofit medical school **,** ~~[or]~~ a nonprofit medical research institution **or certain mental health facilities operated by divisions of the Department of Health and Human Services** to employ a physician under certain circumstances. (NRS **433.264, 433B.150,** 450.180, 450.640, 630.365) **Section 1** additionally authorizes a hospital or psychiatric hospital to employ a physician **: (1)** who is participating in certain graduate programs ~~[.]~~ **; or (2) if the hospital or psychiatric hospital is owned or operated by the State Government.**

Existing law exempts a medical facility from certain requirements of existing law relating to the licensing and regulation of medical facilities if the facility: (1) is conducted by and for the adherents of any church or religious denomination for the purpose of providing care and treatment in accordance with the practices of the religion of the church or denomination; or (2) is operated and maintained by the United States Government or an agency thereof. (NRS 449.0301) **Section 2** of this bill exempts these facilities from the provisions of **section 1**.

Existing law authorizes certain penalties to be imposed against certain medical facilities that violate certain laws and regulations governing the operation of such medical facilities. (NRS 449.160, 449.163, 449.220, 449.240) **Sections 3 and 4** of this bill apply these same penalties to a hospital or psychiatric hospital that violates **section 1**. Specifically: (1) **section 3** of this bill authorizes the Division of Public and Behavioral Health of the Department of Health and Human Services to suspend or revoke the license of a hospital or psychiatric hospital that violates **section 1**; and (2) **section 4** authorizes the Division to impose certain other penalties on a hospital or psychiatric hospital that violates **section 1**, including, without limitation, the imposition of an administrative penalty of not more than $5,000 per day for each violation, together with interest at a rate not to exceed 10 percent per year.

Sections ~~[5-8]~~ **5-7 and 8** of this bill make conforming changes to indicate the proper placement of **section 1** in the Nevada Revised Statutes.

Existing law makes it an unlawful employment practice to discriminate against any employee because the employee has inquired about, discussed or voluntarily disclosed his or her wages or the wages of another employee. (NRS 613.330) Section 7.3 of this bill prohibits a hospital from including in a contract with a provider of health care any provision prohibiting the provider from discussing with other persons his or her wages or salary or other information relating to working conditions. Section 7.3 also prohibits a hospital from taking any action to prevent a provider of health care from: (1) discussing such topics; or (2) working for another medical facility or office.

Existing law provides that a noncompetition covenant is void unless the covenant: (1) is supported by valuable consideration; (2) does not impose any restraint that is greater than is required for the protection for the employer; (3) does not impose an undue hardship on the employee; and (4) imposes restrictions that are appropriately related to the consideration for the covenant. (NRS 613.195) Section 7.8 of this bill prohibits a hospital from entering into a noncompetition covenant with a provider of health care that prohibits the provider from providing medical services at another medical facility or office during or after the term of the employment or contract, as applicable. Section 7.8 provides that any provision of a noncompetition covenant that violates that prohibition is void. Additionally, the provisions of sections 7.3 and 7.8 would be subject

to administrative enforcement by the Labor Commissioner. (NRS 607.160)

Section 8.5 of this bill requires the Joint Interim Standing Committee on Health and Human Services to conduct a study on the employment of physicians by corporations. Section 8.5 authorizes the Standing Committee to request the drafting of 1 legislative measure to amend or repeal section 1 or make other changes relating to the study at the 83rd Session of the Legislature.

Section 10 of this bill makes this bill effective upon the passage of the bill by the Legislature and approval of the bill by the Governor. **Section 9** of this bill provides that **section 1** does not apply to any contract existing on the date on which this bill becomes effective . ~~[but does apply to any renewal of such a contract.]~~

4. The State Engineer shall consider the protest, and may, in his or her discretion, hold hearings and require the filing of such evidence as the State Engineer may deem necessary to a full understanding of the rights involved. The State Engineer shall give notice of the hearing by certified mail to both the applicant and the protestant. The notice must state the time and place at which the hearing is to be held and must be mailed at least 15 days before the date set for the hearing.

5. Each applicant and each protestant shall, in accordance with a schedule established by the State Engineer, provide to the State Engineer and to each protestant and each applicant information required by the State Engineer relating to the application or protest.

shall approve an application submitted in proper form which contemplates the application of water to beneficial use if:

(a) The application is accompanied by the prescribed fees;

(b) The proposed use or change, if within an irrigation district, does not adversely affect the cost of water for other holders of water rights in the district or lessen the efficiency of the district in its delivery or use of water; and

(c) The applicant provides proof satisfactory to the State Engineer of the applicant's:

(1) Intention in good faith to construct any work necessary to apply the water to the intended beneficial use with reasonable diligence; and

(2) Financial ability and reasonable expectation actually to construct the work and apply the water to the intended beneficial use with reasonable diligence.

2. Except as otherwise provided in subsection 10, where there is no unappropriated water in the proposed source of supply, where the groundwater that has not been committed for use has been reserved pursuant to NRS 533.0241 or where its proposed use or change conflicts with existing rights or with protectable interests in existing domestic wells as set forth in NRS 533.024, or threatens to prove detrimental to the public interest, the State Engineer shall reject the application and refuse to issue the requested permit. If a previous application for a similar use of water within the same basin has been rejected on those grounds, the new application may be denied without publication.

3. In addition to the criteria set forth in subsections 1 and 2, in determining whether an application for an interbasin transfer of groundwater must be rejected pursuant to this section, the State Engineer shall consider:

(a) Whether the applicant has justified the need to import the water from another basin;

(b) If the State Engineer determines that a plan for conservation of water is advisable for the basin into which the water is to be imported, whether the applicant has demonstrated that such a plan has been adopted and is being effectively carried out;

(c) Whether the proposed action is environmentally sound as it relates to the basin from which the water is exported;

(d) Whether the proposed action is an appropriate long-term use which will not unduly limit the future growth and development in the basin from which the water is exported; and

(e) Any other factor the State Engineer determines to be relevant.

4. Except as otherwise provided in this subsection and subsections 6 and 10 and NRS 533.365, the State Engineer shall approve or reject each application within 2 years after the final date for filing a protest. The State Engineer may postpone action:

(a) Upon written authorization to do so by the applicant.

(d) In areas where studies of water supplies have been determined to be necessary by the State Engineer pursuant to NRS 533.368.

(e) Where court actions or adjudications are pending, which may affect the outcome of the application.

(f) In areas in which adjudication of vested water rights is deemed necessary by the State Engineer.

(g) On an application for a permit to change a vested water right in a basin where vested water rights have not been adjudicated.

(h) Where authorized entry to any land needed to use the water for which the application is submitted is required from a governmental agency.

(i) On an application for which the State Engineer has required additional information pursuant to NRS 533.375.

5. If the State Engineer does not act upon an application in accordance with subsections 4 and 6, the application remains active until approved or rejected by the State Engineer.

6. Except as otherwise provided in this subsection and subsection 10, the State Engineer shall approve or reject, within 6 months after the final date for filing a protest, an application filed to change the point of diversion of water already appropriated when the existing and proposed points of diversion are on the same property for which the water has already been appropriated under the existing water right or the proposed point of diversion is on real property that is proven to be owned by the applicant and is contiguous to the place of use of the existing water right. The State Engineer may postpone action on the application pursuant to subsection 4.

7. If the State Engineer has not approved, rejected or held a hearing on an application within 7 years after the final date for filing a protest, the State Engineer shall cause ~~***[submit]***~~ notice of the application to be republished ***and*** ~~***[remail the notice of the application to be publicly posted]***~~ ***reposted*** pursuant to NRS 533.360 immediately preceding the time at which the State Engineer is ready to approve or reject the application. The cost of the republication must be paid by the applicant. ~~***[The cost of the remailing must be paid by the State Engineer.]***~~ After such republication, ~~***[renotification,]***~~ ***and reposting,*** a protest may be filed in accordance with NRS 533.365.

8. If a hearing is held regarding an application, the decision of the State Engineer must be in writing and include findings of fact, conclusions of law and a statement of the underlying facts supporting the findings of fact. The written decision may take the form of a transcription of an oral ruling. The rejection or approval of an application must be endorsed on a copy of the original application, and a record must be made of the endorsement in the records of the State Engineer. The copy of the application so endorsed must be returned to the applicant. Except as otherwise provided in subsection 11, if the application is approved, the applicant may, on receipt thereof, proceed with the construction of the necessary works and take all steps required to apply the water to beneficial use and to perfect the proposed appropriation. If the application is rejected, the applicant may take no steps toward the prosecution

of the proposed work or the diversion and use of the public water while the rejection continues in force.

9. If a person is the successor in interest of an owner of a water right or an owner of real property upon which a domestic well is located and if the former owner of the water right or real property on which a domestic well is located had previously filed a written protest against the granting of an application, the successor in interest must be allowed to pursue that protest in the same manner as if the successor in interest were the former owner whose interest he or she succeeded. If the successor in interest wishes to pursue the protest, the successor in interest must notify the State Engineer in a timely manner on a form provided by the State Engineer.

10. The provisions of subsections 1 to 9, inclusive, do not apply to an application for an environmental permit or a temporary permit issued pursuant to NRS 533.436 or 533.504.

11. The provisions of subsection 8 do not authorize the recipient of an approved application to use any state land administered by the Division of State Lands of the State Department of Conservation and Natural Resources without the appropriate authorization for that use from the State Land Registrar.

12. As used in this section, "domestic well" has the meaning ascribed to it in NRS 534.350.

Sec. 10. NRS 533.405 is hereby amended to read as follows:

533.405 1. The State Engineer may, in his or her discretion, request that the statement required by NRS 533.400 be accompanied by a map on ~~[tracing linen on]~~ a scale of not less than 1,000 feet to the inch, which shall show with substantial accuracy the following:

(a) The point of diversion by legal subdivisions or by metes and bounds from some corner, when possible, from the source of supply.

(b) The traverse of the ditch or other conduit, together with cross sections of the same.

(c) The legal subdivisions of the land embraced in the application for the permit and the outline by metes and bounds of the irrigated area, with the amount thereof.

(d) The average grade and the difference in elevation of the termini of the conduit, and the carrying capacity of the same.

(e) The actual quantity of water flowing in the canal or conduit during the time the survey was being made.

2. The map must bear the affidavit of the surveyor or engineer making such survey and map. If the survey and map are made by different persons the affidavit of each must be on the map, showing that the map as compiled agrees with the survey.

3. The map shall conform with such rules and regulations as the State Engineer shall make, which rules shall not be in conflict herewith.
