The provisions of NRS 338.013 to 338.018, inclusive, apply to any contract for construction work of the Nevada System of Higher Education for which the estimated cost exceeds $100,000 even if the construction work does not qualify as a public work, as defined in subsection 17 of NRS 338.010.

Assemblywoman Kirkpatrick moved the adoption of the amendment.
Remarks by Assemblywoman Kirkpatrick.

ASSEMBLYWOMAN KIRKPATRICK:

This amendment to Assembly Bill 332 prohibits any public body—including the state, its local governments, school districts, and any public agency that sponsors or finances a public work—from entering into a contract, express or implied, for a public work that provides that any construction materials or goods to be used on the public work be purchased or otherwise supplied by the public body, a contractor who is a constituent part of the public body, or a contractor who is not a constituent part of the public body acting on behalf of the public body. A public body may, however, enter into such a contract for a public work provided that the contract requires the payment of any state or local taxes that would otherwise have been due for the purchase and use of such construction materials or goods if they had been purchased and used by an entity not exempted from the payment of such taxes.

The bill also exempts certain purchases related to emergencies, items needed on a reoccurring basis to protect health and safety, and specialized project-specific components. The bill exempts a building of the Nevada System of Higher Education from certain provisions requiring that a public body use the services of the State Public Works Division if less than 25 percent of the costs of the building are paid from money appropriated by this state or federal money.

The reason that I wanted to be sure to read the entire floor statement into the record is because in the past, there have been some things that were not so clear. This basically says that for all purposes, you are subject to the sales tax when you participate in a public works project for construction. I want to clarify that it is for construction. This goes a long way back in our state as a problem, and this helps to clarify it so we know where we are in the future.

Assembly Bill No. 388.
Bill read third time.
Remarks by Assemblyman Paul Anderson.

ASSEMBLYMAN PAUL ANDERSON:

Assembly Bill 388 is a trailer bill from a bill that I passed last session in order to do some good, but it opened up a bit of a can of worms. I am putting those worms back in the can here. For the record, I will read the floor statement.

Assembly Bill 388, as amended, changes the period which a public officer or employee is eligible to take the specified number of days of leave of absence for military duties each year from a calendar year to a 12-month period selected by the officer's or employee's public employer and requires the Personnel Commission to prescribe this 12-month period by regulation for each state agency and for each political subdivision to prescribe this 12-month period for its agencies.

In addition, Assembly Bill 388 limits the compensation for a state officer or employee whose work schedule includes a Saturday or Sunday for those additional 24 working days of leave as follows, for each hour during any such period of leave: (1) If the officer's or employee's military pay exceeds his or her regular pay, the officer or employee receives only his or her military pay and not his or her regular compensation; or (2) If the officer's or employee's pay does not exceed his or her regular compensation, the officer or employee receives his or her military pay and his or her regular compensation is reduced by an amount equal to his or her military pay.

Finally, Assembly Bill 388 clarifies the term "work schedule" and "working day" and specifies other types of compensation and leave an officer or employee is not entitled to while on military leave. Assembly Bill 388, as amended, becomes effective upon passage and approval for the purposes of adopting regulations and performing any other preparatory administrative tasks that are necessary to carry out the provisions of this act, and on July 1, 2015, for all other purposes.

Senate Bill No. 276.

Bill read third time.

Remarks by Assemblymen Dickman, Jones, and Ohrenschall.

Potential conflict of interest declared by Assemblyman Ohrenschall.

ASSEMBLYWOMAN DICKMAN:

Senate Bill 276, as amended, requires the Division of Public and Behavioral Health [DPBH] to reallocate medical marijuana establishment certificates between counties under certain circumstances. Senate Bill 276 also allows for the DPBH to relocate medical marijuana establishment certificates from one location to another under the same local government under certain circumstances.

Additionally, S.B. 276 authorizes the transfer of ownership of a medical marijuana establishment to another party after complying with certain requirements of the DPBH. Finally, S.B. 276 requires DPBH to ensure its regulations do not conflict with the location, land use, appearance, or signage of a medical marijuana establishment.

ASSEMBLYMAN JONES:

I rise in support of Senate Bill 276. This bill will solve many of the issues between the state and counties regarding the licensing of these new businesses. The bill will also allow business owners the flexibility to transfer their ownership interests to other qualified persons that have been approved by the state.

As one who always encourages efficient markets, I urge your support for this bill.

ASSEMBLYMAN OHRENSCHALL:

Because we are considering Senate Bill 276, which makes changes relating to marijuana and marijuana establishments, I would like to advise this body that my wife lobbies on behalf of marijuana dispensary owners and associations of those. Although Senate Bill 276 does not affect her clients any differently than any other dispensary owners, I am making this disclosure pursuant to Assembly Standing Rule No. 23 and am abstaining from voting on Senate Bill 276 out of an abundance of caution.

Senate Bill No. 302.

Bill read third time.

Remarks by Assemblymen Edwards, Elliot Anderson, Joiner, Swank, Hickey, Jones, Nelson, Oscarson, Gardner, Dickman, Carlton, Hansen, Thompson, Wheeler, and Spiegel.

ASSEMBLYMAN EDWARDS:

Senate Bill 302 authorizes the parent of a student to enter into an agreement with the State Treasurer under which the student will receive a grant equal to 90 percent of the statewide average basic support per pupil—or 100 percent for students with disabilities or those whose family income is less than 185 percent of the federal poverty level—to be used to pay the cost of enrollment in a private school or to contract for private educational services. Only students who attended a public school, including a charter school, for at least 100 school days are eligible, and

a proportionally smaller grant may be provided for part-time private education enrollment. Each grant agreement is valid for one school year and may be renewed or reinstated in a future year at the option of the parent.

Grant funds for each student must be deposited into an education savings account opened by a parent, and the funds must only be used for specific education expenses. The Treasurer may deduct up to 3 percent from the grant to cover administrative costs, which include annual audits of random education savings accounts. The Treasurer must establish reasonable fees for the education savings accounts and may qualify one or more private financial firms to manage those accounts.

Participating entities eligible to receive funding from the education savings account must meet certain requirements and maintain ongoing compliance. The Treasurer will publish a list of such entities, other than any participating parents. Participating students must complete standardized tests in math and English. Their results will be shared with the Department of Education, which will aggregate the results and report on the general progress of grant recipients. Students choosing to return to public school must do so at the end of a school funding period. Funds in an education savings account roll over from year to year and must revert to the State General Fund once the student graduates from high school.

I urge your support on this very important bill.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in opposition to Senate Bill 302. I think the world of the bill's sponsor, but I do not think the world of this bill. There are a number of really big problems with this.

Number one: It is blatantly unconstitutional. The schools that can be given these funds include religious schools. Under NRS [*Nevada Revised Statutes*] 394.211, that is a blatant violation of Article 11, Section 10 of the *Nevada Constitution*, which prohibits any money going for sectarian purposes. It is going to be ruled unconstitutional.

Number two: It is also a bit reckless in the way it allows money to be disbursed. Part of a participating entity can include a parent. Although the bill says a child cannot be wholly homeschooled, it does say that if they are at least partially involved in some sort of public school, which could be a distance education course, and they are partially homeschooled, then they could receive money. A parent is included in the definition of a participating entity in section 11 of the bill. That is a problem because what expertise does a parent have in spending the DSA [Distributive School Account] dollars on curriculum? Are parents trained in ordering curriculum? Do they know whether curriculum is research-based or not? That is a problem. Someone could say, Here is my curriculum. Here are my textbooks. Buy it. We are opening the door for games with our taxpayer dollars, and we are depriving public education of much-needed revenue.

I strongly urge this body to consider defeating this measure because when it comes down to it, the Treasurer is the one managing this. They are the ones ensuring that the funds are being spent correctly on the correct education materials. Does anyone know what the Treasurer knows about education? I sure have not figured that out. This is a big, big problem. If you believe in accountability for taxpayer dollars, you cannot vote for this bill.

ASSEMBLYWOMAN JOINER:

I also rise in opposition to Senate Bill 302. Unfortunately, I rise in opposition to this measure because I think it flies in the face of everything that many of us have been fighting for this whole session, which is to adequately fund and support our public school system. This bill actually syphons money away from our public school system and gives it to private schools at a time when our schools can least afford it. What we are trying to do is support them more than we have before. The way that this bill is funded, it takes 90 percent—or 100 percent in certain students' cases—of the funding that goes to the public schools and gives it to the private schools. We asked in the hearing yesterday how that was arrived at, and really what it ends up doing is taking far more money away from the public schools than that student is actually costing. A true calculation should look at the margin of that student, not the total amount.

More importantly, I understand that parents think choice is important. I am a parent, and I think that choice sounds like a good idea, but it is an illusion under this bill. This bill allows the funds to go to private schools that will continue to choose their students. They will continue to interview students; your student will still have to pass the interview process. They can still discriminate

against your student for any reason, and they do not have to give a reason. It could be for ability, it could be for appearance, or it could be for a lack of fit with their particular school. That is not the type of school that we want to be spending our public funds on.

Again, it cuts a check to the families that can already afford private school. The students and their families who are currently in the private schools are wealthy and can afford it, and this will be giving them additional funds. They do not need that money; our public schools do. More importantly, for those people who think that this will give funds to poor families or working-class families to get their kids into a private school, even if they can get through the interview process and get into that school, this will not fund the full amount of the tuition. Please do not be deluded into thinking that this will make up the entire difference of the tuition. Our poor families still will not be able to send their kids there.

Finally, the vast majority of our students go to public schools. So when I vote against S.B. 302 today, my vote will be in favor of our public school students, teachers, and administration. I believe that we should be supporting them, not diverting our money to private schools.

ASSEMBLYWOMAN SWANK:

I rise in opposition to Senate Bill 302. We have been talking a lot this session about school choice. We have been talking about how this is good for our students. The one thing we really have not considered is how difficult it is for parents to choose a school. We know that when you look at schools—I hear a lot of my friends who are in the process of finding that right kindergarten, finding that right first grade for their child—there is a lot to consider. You have to consider your child's needs. You have to look at all the different curricula that exist across different schools.

My big concern with this bill is that if we are going to be expanding school choice, we need to provide support for these parents in making those choices. This bill does not create a position that would provide assistance and support to the parents in making these decisions. I think we are overburdening our already busy parents, and it really demonstrates how this kind of voucher scheme is not fully worked out to show how it would actually function. We need to be sure that we are providing the support that our parents need if we are going to expand choice in our state. I feel at this point, this bill is not ready to go forward on those grounds. I urge that you vote against it.

ASSEMBLYMAN HICKEY:

I rise in support of Senate Bill 302. I am sympathetic to the arguments from a couple of our colleagues about this body's and this state's commitment to, and investment in, our public school system. I think this session will be historic in the degree of investment and commitment that we make to the public school system. I think there are many instances in the larger school districts, especially in Clark and Washoe, where school choice is something that is already being incorporated into their plans. Whether it be magnet schools or choice within districts, I think choice has been good.

To the point of my colleague from southern Nevada that parents may need more help in making wise decisions, I think parents are very capable of making decisions for their children.

To the point that was made that minority students might be unfairly affected by this, this particular piece of legislation is based on choice programs in Florida where over two-thirds of their students who have taken advantage of choice are, in fact, minority students. Their assigned public schools tend to be among the lowest-performing public schools there. That program, in a state where it has been going on longer, now has 70,000 students, and the diversity of the private schools has expanded and had no impact on the racial makeup of public schools.

For that and any number of reasons, I think this is a sensible movement within education that I think will make all of our schools better and our education system better as a result. I urge your support.

ASSEMBLYMAN JONES:

I rise in strong support of Senate Bill 302. First, I would like to say to my colleague from the north that this session is not just about bettering public education. It is about improving education for all students. That includes students who go to charter and private schools.

What I would like to point out is, what is great about this country of ours, the greatest country that has ever existed on the face of the planet, is that we are 50 incubators of states where people can try new things. By and large, when school choice has been enacted, the overall performance

in both public and private schools has gone up. It is a good thing for both the public and the private schools. In New Orleans when it was taken out by Katrina, it was required that they go to charter schools. The disadvantaged, the impoverished, the poor, the minority students—all of them improved dramatically in their education. So school choice has been proven over and over and over in the different states to be successful. It is very good, and it will definitely help improve our children's education.

ASSEMBLYMAN NELSON:

I rise in support of Senate Bill 302. In response to my colleague from the south regarding the constitutionality of this bill, as he said, the *Nevada Constitution*, Article 11, Section 10 states, "No public funds of any kind or character whatever, State, County or Municipal, shall be used for sectarian purpose." It does not say anything about education. If this law is unconstitutional because some of the money ends up in private schools that may have a religious orientation, then all of the Medicaid and Medicare funds are also unconstitutional because some of those funds end up in religious hospitals. The money is not going for a "sectarian purpose." It is going to purchase something and what it is going to purchase is an education. It is just like Medicaid funds. If they go into Rose de Lima Hospital in Clark County, that does not mean they are going for a religious purpose. They are going to a hospital which is chartered by a religious organization to purchase medical attention and medical services. I think that the argument that this is unconstitutional is misguided.

I would like to commend our colleague from the Senate who proposed this bill. I think this is probably one of the most significant bills we will pass this session in improving education in our state, and I urge my colleagues to vote for it.

ASSEMBLYMAN OSCARSON:

I believe Senate Bill 302 sets a new top standard for school choice in our country. Empowering parents to choose the best education for their children is the best thing we can do for our students. I urge my colleagues' support.

ASSEMBLYMAN GARDNER:

I rise in support of Senate Bill 302. It is constitutional. The U.S. Supreme Court has already upheld programs just like this as constitutional. My colleague from the south notes the Blaine Amendment, which was put into our *Nevada Constitution* in 1880. It was an anti-Catholic amendment, done with hatred toward the Catholics. It is still in our *Nevada Constitution*, which I believe is probably unconstitutional under the *U.S. Constitution*. I do not think that is a good reason to try and deny this. States that have Blaine Amendments like ours—in Arizona, for example, their Supreme Court upheld this. So I think legally it is on a very solid foundation. The courts that have looked at this have upheld it as constitutional.

I somewhat disagree with some of my colleagues who say that parents are not smart enough to help their kids with education. That is what we do. I have four kids. I can tell you that when I look at their schools, I look at a lot. I do a lot of research, and I think most parents do. It is a very important thing. We all know that education is the great equalizer.

This funding is only a portion of the amount that we spend on our students. The DSA is what we are giving to them. That does not include all the local funds; that does not include all the federal funds. Those are still remaining in the schools. So the schools are actually getting fewer students for more money. They actually get more money on a per-pupil basis.

Some people were talking about how you cannot get into these private schools. I have talked to these private schools. These private schools are saying that in a lot of those cases where they cannot make up the entire cost, we give scholarships for that. Saying that just because you do not have all the money does not mean they will not be able to get into those schools. I have talked to those people.

The whole point about this idea is that we are giving parents the right. We are not forcing them to go to these other schools. If our public schools were not so terrible, guess what? No one would choose this option. Right now, we are condemning parents to be in terrible schools that have not gotten better in over 40 years; they have actually gotten worse. This gives them the option. This is one of the best bills in the country for school choice. I wholeheartedly support it, and I ask that you support it, too.

ASSEMBLYWOMAN DICKMAN:

I, too, rise in strong support of Senate Bill 302. For me, this is probably the most important reform that we will implement in this session to improve our schools. First, it is going to give our less fortunate students an opportunity to attend better schools and, secondly, I think the competition is what is really going to change our public schools. It is the only thing that is going to force them to become better schools because they are going to be losing students if they do not. I would appreciate it if everyone here would fully support this bill.

ASSEMBLYWOMAN CARLTON:

I rise in opposition to Senate Bill 302. I am sorry, I call them like I see them. This is a voucher, and I am opposed to vouchers. I do not think that is a surprise to anyone. But the thing that keeps going through my mind is, we spent hours this morning in Ways and Means going over the New Nevada Plan, how we were going to address each child's needs in the future, and how it was going to take us a good ten years to get where we are going. There is the ELL [English language learners] component, there are social issues, there is poverty—there are all types of things.

Ultimately, when we come back to the accountability of this and the schools want the money to put into these savings accounts, how are we going to figure out what amount we are supposed to give the kids? How are we going to hold the schools truly accountable and figure out what matrix we need? We are talking about different portions of weighted averages for all different types of students. No kid is like any other kid—to try to come up with a blanket way of figuring out how much each child's education is going to be worth. Then they are going to come back and say, Well, these children need this. I cannot see any way that we are going to be able to legitimately take the number and really figure out what it is going to do.

I have concerns about where this is located and the accountability within the Treasurer's section. The testing is on an aggregated basis. As far as homeschooling goes, they do not have the same requirements in testing that other children do. I have some real issues, and I think there are some real holes in this. I understand people want to send their kids to parochial school. I went to parochial school. My parents paid for it every Sunday in the envelope they put in the basket. I wore the uniform, and I went to school. That is the way you pay for parochial school.

ASSEMBLYMAN HANSEN:

I rise in support of Senate Bill 302. I have been doing a lot of research on education spending in Nevada. We are currently spending $4.2 billion a year. That is $8.4 billion in the biennium. Our entire General Fund for the state is $6.5 billion. So the idea that we are underfunding education—in fact, in the last 30 years we have doubled per-pupil spending in this state. Doubled it. And the result is that we are still fiftieth.

The idea that taxpayers are being gypped somehow in this—last time I checked, parents are, in fact, taxpayers. So the idea that a parent who wants to make a choice like that is somehow cheating the tax system makes absolutely no sense whatsoever.

The reality is, we are fiftieth in the nation. This is my third session, and every single session we have talked about money, money, money as the answer to educational woes. We have dramatically expanded the amount of spending on public education, and the results have been minimal. All the people I talk to desperately want some accountability for the money we have already invested. We keep pouring more and more money into the public schools, yet show me the evaluations of these programs and where we have actually blocked some programs, because after years and years of funding them, they have been shown to do nothing of value.

I would strongly urge my colleagues to support this, because if we have learned anything it is that competition is good and healthy and to allow these parents to have different options for their children will improve public education. Most importantly, it will allow the students themselves to have dramatically improved academic performances. Homeschoolers, for example, have been shown to do substantially better on academic tests than the public school kids. I think we need to have more confidence in our parents and give them those kinds of options to do that. This is a great bill. This is a great day for Nevada, and I would strongly urge my colleagues to support Senate Bill 302.

ASSEMBLYMAN THOMPSON:

I rise in strong opposition to Senate Bill 302. First of all, I want to say that I have the utmost respect for the bill's sponsor. However, I am a native Nevadan. I am a product of the Clark County School District. I must say that my biggest concern if we pass this is the trending that is going to occur. We are going to continue to create the haves and the have-nots.

Since I went to school, there are so many specialized schools in the public school system. There are many magnet schools in the public education system. We have quality programs in our schools. I feel like we are going in the wrong direction if we pass this. I urge our body to oppose Senate Bill 302.

ASSEMBLYMAN WHEELER:

My colleague from District 14 said something that I think was absolutely right on: Every child is different. I believe that as well. But because every child is different, I believe they learn at different levels, they take different amounts of education, and they take different amounts of teaching. I believe this bill not only gives us that option, but I also believe this bill actually helps with parental involvement, something that we cannot legislate in this room. No legislature can put parental involvement out there. But when you add something like this and you give parents a choice, you do help with parental involvement. Therefore, I am strongly in agreement with this bill, and I urge my colleagues to vote for this bill.

ASSEMBLYWOMAN SPIEGEL:

I, too, rise in opposition to Senate Bill 302. When my colleague from Assembly District 32 was speaking before, he was talking about the level of spending on education. I think most of you know that I am not a native Nevadan. I grew up in New York in a fairly small town that is known year after year for having one of the top 100 school districts in the country. I was fortunate. I was fortunate to go to a school that was properly funded, that had small class sizes, that had parents who were involved. We had a world of opportunity opened to us because we had schools that were appropriately funded. Some of you may know this, some of you may not. I had one classmate who dropped out of high school. One. Evan dropped out after tenth grade to go to MIT [Massachusetts Institute of Technology] because the school could not provide sufficient resources for him. Our high school dropout has a PhD [doctor of philosophy] and has done very well for himself.

I know what it is like to go to a school that is properly funded. When I go visit schools in my district and I see that the schools do not have enough resources, when I see there are not books or desks for all the kids, when I see an elementary school in my district with more students in portables than I had in my entire high school class, my heart breaks. This bill pulls money out of the public school system and gives it elsewhere. I am not denying the need for quality education for students who go to private schools or who are homeschooled. I think that our first obligation is to the public and to the public schools. Pulling money out of our schools that are so desperate for appropriate funding is something I feel is wrong, and I urge you all to please oppose this bill.

Senate Bill No. 374.

Bill read third time.

Remarks by Assemblymen Nelson and Kirkpatrick.

ASSEMBLYMAN NELSON:

Senate Bill 374 prohibits the Director of the Office of Energy and a governing body of a local government from adopting a standard mandating requirement for air changes per hour that is outside certain ranges. The adoption of certain energy conservation standards by the Office of Energy and a governing body is not deemed to prohibit the Director or governing body from approving and implementing certain energy efficiency programs related to new residential construction.

Additionally, S.B. 374 requires a utility to offer net metering to customers until the cumulative capacity of all net metering systems for which all utilities in this state have accepted or approved completed applications for net metering is equal to 235 megawatts. After the requirement is met, the utility is required to offer net metering in accordance with a tariff filed by the utility and approved by the Public Utilities Commission of Nevada. A utility must submit the proposed tariff to the Commission not later than July 31, 2015, and the Commission must review and either approve or disapprove each proposed tariff not later than December 31, 2015. An approved tariff cannot take effect until after the date on which the cumulative capacity requirement is met. If the Commission does not approve the required net metering tariff by December 31, 2015, beginning on January 1, 2016, the utility is required to offer net metering to customers in the manner consistent with current law.

Furthermore, the measure allows the Commission to determine if the tariff approved under this bill should apply to customer-generators who have accepted an offer of net metering before the cumulative capacity is met. The bill also allows the Commission to charge net metering customers time-of-use rates. Finally, it requires a utility to include in an integrated resource plan an analysis of the effects of net metering on the reliability of the distribution system and the costs to the utility to provide electric service to all customers.

This bill has been highly negotiated. I would like to commend the Chair of Commerce and Labor for getting all the stakeholders in his office on numerous occasions and working out something that none of them really love but they can all live with.

ASSEMBLYWOMAN KIRKPATRICK:

I rise in support of Senate Bill 374. In all of the legislative sessions that I have been here for, I have worked to help promote this industry to ensure that we had opportunities and we could try new things within our state. Many folks before me did that as well.

I brought a consumer protection bill because we are letting an industry grow that we do not know for the long term. I have been accused of everything under the sun, as late as today, and really it is about the consumer. When we are creating a new industry and it is growing by leaps and bounds, I would hope that in the future this body would bring back some type of consumer protection to make sure that your residents and your consumers that participate in this new fast-growing industry have all the protections they are paying for and that we as legislators are expected to ensure they have. I urge your support on this piece of the puzzle, and I hope someone will finish my puzzle next session.

Legislative Counsel's Digest:

Existing law regulates the formation and powers of district boards of agriculture. (Chapter 547 of NRS) Existing law provides that the eight members of the district boards must be divided into different classes to provide for staggered terms. (NRS 547.040) **Sections 1 and 3** of this bill delete those provisions. Existing law requires the district boards of agriculture to organize annual fairs or exhibitions of the industries in their districts, and that counties may appropriate not more than $1,500 from their general funds to aid in this effort. (NRS 547.110, 547.120, 547.140) **Sections 4-6** of this bill make these fairs optional and increase the allowable county appropriation to not more than $150,000 in any 1 year. Existing law requires that an annual mineral industries exhibition be held in Ely, Nevada. (NRS 551.010) **Section 9** of this bill renames this exhibition, makes it optional and removes the requirement that it be held in Ely. **Section 8** of this bill authorizes the State Department of Agriculture to hold a state fair once a year. **Sections 10-12** of this bill place the control of the apiary industry under the Director of the Department. **Sections 13-21** of this bill revise punitive provisions relating to quarantines of agricultural products, increasing penalties and providing for civil penalties. **Sections 22 and 40** of this bill revise the definitions of "pest" and "pesticide" as those definitions relate to the control of pests and weeds. **Section 23** of this bill authorizes the Director to adopt a program certifying certain agricultural products as being free of noxious weeds. **Sections 30-35** of this bill replace references to the eradication, removal or destruction of weeds with the term "control." **Sections 36, 39 and 43** of this bill replace criminal penalties relating to the control of weeds with civil penalties. ~~[Section 102 of this bill increases the maximum amount of the tax on sheep from 18 cents per head to $1.50 per head.]~~ **Sections 103-105** of this bill place the proceeds of those taxes solely under the control of the State Controller and adjust the amount of the proceeds that may be spent on advancing the interests of the sheep industry. **Sections 108-113** of this bill revise provisions for the licensing of persons operating public livestock auctions to increase the amounts of surety bonds and available credit, provide for financial audits and increase fines for violations. **Section 125** of this bill requires sellers of certain farm products to register as produce vendors. **Sections 127 and 128** of this bill remove requirements for agricultural brokers, dealers, commission merchants and agents to disclose arrests and civil suits during the application process and to show good character. **Section 136** of this bill requires the State Sealer of Consumer Equitability to conduct random inspections of point-of-sale systems and cash registers and to adopt regulations establishing a schedule of civil penalties concerning point-of-sale systems and cash registers that are not in compliance with certain requirements. Existing law prohibits the sale of spoiled or diseased

meat, fish, produce and poultry in any city or town. (NRS 583.010, 583.060, 583.070) **Sections 142, 149 and 150** of this bill expand this prohibition to include any location in the State. **Sections 145, 151, 157, 159, 165 and 166** of this bill replace references to the Department of Health and Human Services with the State Department of Agriculture. **Sections 144, 147, 151, 152, 161, 163 and 164** of this bill revise the punitive provisions governing the regulation of meat, fish, produce, poultry and eggs. **Sections 191 and 193** of this bill replace the criminal provisions governing pesticides with civil penalties. **Sections 68-94** of this bill reenact in chapter 445C of NRS, without substantive change, provisions currently in chapter 590 of NRS which relate to the cleanup of discharged petroleum and which are repealed by **section 210** of this bill. **Section 96.5** of this bill reenacts in chapter 446 of NRS, without substantive change, a provision currently in chapter 583 of NRS which relates to the sale of diseased animal flesh or a container containing shellfish which has not been stamped as approved and which is repealed by **section 210** of this bill. The purpose of repealing and reenacting these provisions is to move the provisions, without substantive change, from one chapter in NRS to another chapter in NRS. **Section 210** of this bill also repeals provisions dealing with mineral content in fertilizer. **Section 194** of this bill authorizes the Director to adopt certain national standards concerning fertilizer. **Section 198** of this bill revises punitive provisions governing fertilizer. Existing law requires used and recycled oil to be clearly labelled on the package. (NRS 590.060) **Section 201** of this bill requires bulk deliveries of used or recycled oil to be clearly identified on the receipt. **Section 202** of this bill revises the testing procedures for motor oil viscosity. **Section 204** of this bill removes the requirement for the State Sealer of Consumer Equitability to inspect antifreeze before the antifreeze is sold, but requires the State Sealer of Consumer Equitability to issue a license authorizing its sale if it is in compliance with certain standards.

(c) Ten percent of the money in the account to the Department for use in counties that have a population of less than 100,000.

Sec. 67. Chapter 445C of NRS is hereby amended by adding thereto the provisions set forth as sections 68 to 94, inclusive of this act.

Sec. 68. ***As used in sections 68 to 94, inclusive of this act, unless the context otherwise requires, the words and terms defined in sections 68 to 81, inclusive, of this act have the meanings ascribed to them in those sections.***

Sec. 70. ***"Department" means the Department of Motor Vehicles.***

Sec. 71. ***"Diesel fuel of grade number 1" means a distillate from fuel oil which is of high volatility and used in high-speed diesel engines generally operated under variations in speed and load. The term includes diesel fuel of the type "C-B," generally used in buses and similar operations.***

Sec. 72. ***"Diesel fuel of grade number 2" means a distillate from gas oil which is of low volatility and used in high-speed diesel engines generally operated under uniform speed and load. The term includes diesel fuel of the type "R-R," generally used in railroad locomotives, and type "T-T," generally used in trucks with diesel engines.***

Sec. 81. *"Storage tank" means any tank used to store petroleum, except petroleum for use in a chemical process.*

Sec. 82. *The Legislature finds that:*

1. Protection of this State's environment, particularly its supplies of water, requires the prompt cleaning up of any discharge of petroleum from a storage tank.

2. Federal law and regulations require each operator of a storage tank to show financial responsibility for this purpose, but the capital of smaller operators is too little to meet these requirements and insurance to cover this liability is prohibitively costly for these smaller operators.

3. Free competitive access to the business of distributing petroleum therefore requires a system of funding this liability in which all engaged in the business must participate equitably.

4. The fee imposed by section 86 of this act is not an excise tax but a fee for engaging in the refining or importation of motor vehicle fuel, diesel fuel of grade number 1, diesel fuel of grade number 2 and heating oil.

Sec. 83. *1. The Board to Review Claims is hereby created in the Division. The Board consists of:*

(a) The Administrator of the Division;

(b) The Director of the Department;

(c) The State Fire Marshal;

(d) A representative of refiners of petroleum;

(e) A representative of independent dealers in petroleum;

(f) A representative of independent retailers of petroleum; and

(g) A representative of the general public.

2. An officer designated as a member of the Board may designate a substitute. The Governor shall appoint the respective representatives designated as members of the Board. Each representative of a field of enterprise must be appointed from a list of three persons nominated by persons engaged in that field in this State, through their trade association if one exists.

3. The Board shall select its Chair. The Administrator of the Division shall provide administrative assistance to the Board as required.

4. Each member who is appointed by the Governor is entitled to receive a salary of not more than $80, as fixed by the Board, for each day's attendance at a meeting of the Board.

5. While engaged in the business of the Board, each member of the Board is entitled to receive the per diem allowance and travel expenses provided for state officers and employees generally.

Sec. 84. *1. The Fund for Cleaning Up Discharges of Petroleum is hereby created as a special revenue fund in the State Treasury. The Division shall administer the Fund for the purposes prescribed in sections 68 to 94, inclusive, of this act, and the Board shall adopt appropriate regulations for the investigation and payment of claims against the Fund. The Board shall*

review each claim presented and authorize payment to the extent warranted by the facts of the case.

2. The expenses incurred by the Division in performing its duties pursuant to sections 68 to 94, inclusive, of this act are a charge against the Fund. The interest earned on money in the Fund must be credited to the Fund.

3. The Board shall transmit a copy of any resolution that the Board has adopted in carrying out its duties pursuant to this section to the Legislative Counsel within 5 working days after the adoption of the resolution for inclusion in the register of administrative regulations published pursuant to NRS 233B.0653.

Sec. 85. *Notwithstanding any provision of sections 68 to 94, inclusive, of this act to the contrary, and except as otherwise provided in this section:*

1. The Division may expend not more than $250,000 from the Fund per year as reimbursement for necessary costs incurred by the Division in the response to and cleanup of any discharge involving petroleum, including discharges from a storage tank and discharges from a mobile tank that occur during the transportation of petroleum on roads and highways. If the discharge involving petroleum also involves the discharge of another hazardous material, the Division may expend money pursuant to this section in the cleanup of the discharge of petroleum and the other hazardous material. The Division shall not expend money from the Fund pursuant to this section to clean up discharges involving petroleum from pipelines.

2. Except as otherwise provided in this subsection, money from the Fund expended by the Division pursuant to this section must be used to augment, and must not be used to replace or supplant, any money available from other sources for the cleanup of discharges of petroleum, including, without limitation, reimbursements by operators required to be made to the Division pursuant to sections 87 and 89 of this act. If no money is available from those other sources, the Division may expend money from the Fund pursuant to this section to reimburse the Division for any costs specified in subsection 1.

3. If the Division expends money pursuant to this section to clean up a discharge involving petroleum, the operator of the tank shall reimburse the Division for the operator's share of the costs for cleaning up the discharge. The Division shall, upon being reimbursed by the operator of the tank pursuant to this subsection, deposit that money in the Fund.

4. As used in this section:

(a) "Discharge" means any release, leaking or spilling from a tank into water or soil, unless the discharge is authorized by state or federal law.

(b) "Operator" means a person who owns, controls or is responsible for the operation of a tank.

(c) "Tank" means a storage tank or a mobile tank used to transport petroleum received for sale or use in this State.

Sec. 86. *1. Except as otherwise provided in subsection 2, the Department shall collect for deposit in the Fund a fee of 0.75 cent for each*

gallon of motor vehicle fuel, diesel fuel of grade number 1, diesel fuel of grade number 2 and heating oil imported into this State in one of those forms or refined in this State. The fee imposed by this section is in addition to the taxes imposed by chapters 365 and 366 of NRS.

2. The fee imposed by subsection 1 does not apply to motor vehicle fuel, diesel fuel of grade number 1, diesel fuel of grade number 2 or heating oil that is:

(a) Imported or refined by the United States, its unincorporated agencies and instrumentalities, or any incorporated agency or instrumentality of the United States wholly owned by the United States or by a corporation wholly owned by the United States;

(b) Exported from this State;

(c) Imported or refined by railroad companies for use in locomotive engines;

(d) Being transported through this State in interstate commerce; or

(e) Used as fuel for jet or turbine-powered aircraft.

3. The fee is payable on or before the last day of each calendar month for those products subject to the fee that are handled during the preceding calendar month. The Department shall prescribe by regulation the manner of payment of the fee and for this purpose may reasonably classify the persons liable for payment. The Department may, in collecting the fee, employ any administrative power conferred upon it by chapter 360A or 365 of NRS.

4. The expenses incurred by the Department in performing its duties under sections 68 to 94, inclusive, of this act are a charge against the Fund.

Sec. 87. *1. Except as otherwise provided in subsection 2, the Division shall collect for deposit in the Fund an annual fee not to exceed $100, set by the Board, for the registration of each storage tank.*

2. No fee is to be collected, and no registration is required, with respect to a storage tank used to store heating oil for consumption on the same premises where the oil is stored, or a storage tank operated by a person not required to pay the fee for petroleum produced in or imported into this State.

3. The operator of a storage tank required to be registered pursuant to this section who fails to register that tank or to pay the annual fee when required shall reimburse the Division for any expense incurred by the Division in cleaning up a discharge from that storage tank and for any discharge of liability to a third person. If, in cleaning up the discharge from that storage tank, the Division expends money from the Fund in accordance with section 85 of this act, the Division shall, upon being reimbursed by the operator of the storage tank pursuant to this subsection, deposit that money in the Fund.

Sec. 88. *If the balance in the Fund for Cleaning Up Discharges of Petroleum at the end of any fiscal year is estimated at $7,500,000 or more, the Department shall transfer to the account created pursuant to*

NRS 408.242 the balance in the Fund for Cleaning Up Discharges of Petroleum which exceeds $7,500,000.

Sec. 89. *1. The operator of every storage tank, and every person who for compensation puts petroleum into a storage tank, shall report to the Division every discharge from that tank of which the operator or other person is aware or has reason to believe has occurred. The Division shall undertake or contract for cleaning up the discharge unless the operator or another person is already acting properly to clean it up. If the Division cleans up the discharge, the operator shall reimburse the Division for the operator's share of the costs. If, in cleaning up the discharge, the Division expends money from the Fund in accordance with section 85 of this act, the Division shall, upon being reimbursed by the operator of the storage tank pursuant to this subsection, deposit that money in the Fund.*

2. Each operator who is required or who chooses to register a tank must, unless the tank has been tested for tightness under the federal standards embodied in 40 C.F.R. § 280.43c since July 1, 1988, test the tank pursuant to those standards before it is eligible for the coverage provided by sections 90 and 91 of this act.

Sec. 90. *The costs resulting from a discharge from a storage tank which has a capacity of 1,100 gallons or less and is used to store heating oil for consumption on the same premises where the oil is stored must be paid as follows, to the extent applicable:*

1. The first $250 for cleaning up and the first $250 of liability for damages to a person other than this State or the operator of the tank, or both amounts, by the operator.

2. If necessary to protect the environment or the public health and safety, the next $250,000 for cleaning up and the next $250,000 for damages to a person other than this State or the operator of the tank, or both amounts, from the Fund. These limits apply to any one discharge and to the total for discharges from storage tanks controlled by any one operator in any fiscal year. For the purpose of this limitation, a group of operators more than 50 percent of whose net worth is beneficially owned by the same person or persons constitutes one operator.

3. Any further cost for cleaning up or for damages, by the operator.

Sec. 91. *If the costs resulting from a discharge from any other storage tank exceed $5,000, the costs must be paid as follows, to the extent applicable:*

1. By an operator which is an agency, department, division or political subdivision of the State, 10 percent or $10,000, whichever is less, of the first $1,000,000 for cleaning up each tank and of the first $1,000,000 of liability for damages from each tank to any person other than this State or the operator of the tank, or both amounts. The balance of the first $1,000,000 for cleaning up each tank or for damages from each tank must be paid from the Fund, but the total amount paid from the Fund pursuant to this subsection in any one fiscal year for discharges from two or more storage

tanks under the control of any one operator must not exceed $1,980,000 for cleaning up and $1,980,000 for damages.

2. By an operator which is a small business, 10 percent of the first $1,000,000 for cleaning up each tank and of the first $1,000,000 of liability for damages from each tank to a person other than this State or the operator of the tank, or both amounts. The total amount paid by an operator pursuant to this subsection must not exceed $50,000 for cleaning up and $50,000 for damages regardless of the number of storage tanks involved. The balance of the first $1,000,000 for cleaning up each tank or for damages from each tank must be paid from the Fund, but the total amount paid from the Fund pursuant to this subsection in any one fiscal year for discharges from two or more storage tanks under the control of any one operator must not exceed $1,900,000 for cleaning up and $1,900,000 for damages. For the purpose of this limitation, a group of operators more than 50 percent of whose net worth is beneficially owned by the same person or persons constitutes one operator.

3. By all other operators:

(a) Ten percent of the first $1,000,000 for cleaning up each tank and of the first $1,000,000 of liability for damages from each tank to a person other than this State or the operator of the tank, or both amounts.

(b) Ninety percent of the first $1,000,000 for cleaning up each tank or for damages from each tank must be paid from the Fund.

➥ The total amount paid from the Fund pursuant to paragraph (b) in any one fiscal year for discharges from two or more storage tanks under the control of any one operator must not exceed $1,800,000 for cleaning up and $1,800,000 for damages. For the purpose of this limitation, a group of operators more than 50 percent of whose net worth is beneficially owned by the same person or persons constitutes one operator.

4. Any further cost for cleaning up or for damages which is in excess of the amounts paid pursuant to subsections 1, 2 and 3 must be paid by the operator.

5. A political subdivision of the State that receives money from the Fund pursuant to subsection 1 to pay for the costs of cleaning up shall hold one public hearing upon initiation of the cleanup and one public hearing every 3 months thereafter until the cleanup is completed to ensure that the cleanup complies with any requirements of the Division concerning the cost-effectiveness of cleaning up. The costs incurred by the political subdivision for the hearing must not be attributed to the political subdivision as part of the costs paid by the political subdivision pursuant to subsection 1.

6. For the purposes of this section, a small business is a business which receives less than $500,000 in gross annual receipts from the site where the tank is located.

Sec. 92. *1. Any person who, through willful or wanton misconduct, through gross negligence or through violation of any applicable statute or regulation, including specifically any state or federal standard pertaining to the preparation or maintenance of sites for storage tanks, proximately*

causes a discharge is liable to the Division for any cost in cleaning up the discharge or paying for it to be cleaned up.

2. If a discharge occurs, the site of the tank and any other premises affected by the discharge must be brought into compliance with any applicable standard as described in subsection 1.

Sec. 93. ***If the balance in the Fund is insufficient to pay in full all amounts payable from it under sections 68 to 94, inclusive, of this act, these amounts must be reduced pro rata and the amounts so withheld must be paid pro rata as additional money becomes available in the Fund.***

Sec. 94. ***1. Except as otherwise specifically provided in section 85 of this act, the provisions of sections 87 to 93, inclusive, of this act do not apply to any tank which:***

(a) Contains petroleum being transported through this State in interstate commerce, but do apply to a tank being used to store petroleum received for sale or use in this State;

(b) Contains fuel for jet or turbine-powered aircraft, or is above ground and has a capacity of 30,000 gallons or less, unless in either case the operator complies with subsection 2; or

(c) Is above ground and has a capacity of more than 30,000 gallons.

2. The operator of a tank exempted by paragraph (b) of subsection 1 may obtain the coverage provided by sections 90 and 91 of this act by applying to the Board, paying the fee set pursuant to section 87 of this act for its registration, and, if the tank is used to store fuel for jet or turbine-powered aircraft, reporting monthly the number of gallons of fuel put into the tank and paying the fee required by section 86 of this act. Coverage pursuant to this subsection begins 6 months after the tank is registered and the required fee first paid.

4. This section does not prohibit a person or entity from:

SECOND READING AND AMENDMENT

Senate Bill No. 296.

Bill read second time.

The following amendment was proposed by the Committee on Judiciary:

Amendment No. 1006.

AN ACT relating to damages; prohibiting the assertion of claims for punitive or exemplary damages in certain pleadings in civil actions; revising provisions relating to exemplary or punitive damages in certain civil actions; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Section 1 of this bill prohibits a party from including a claim for punitive or exemplary damages in certain pleadings at the commencement of a civil action and establishes a process by which a party may request leave to amend its pleadings to include such a claim.

Existing law establishes certain limitations on the amount of exemplary or punitive damages that may be assessed against a defendant in certain actions. Existing law further exempts certain persons, including manufacturers, distributors and sellers of a defective product, from those limitations. (NRS 42.005) **Section 3** of this bill sets forth circumstances under which a manufacturer, distributor or seller of a product is not liable for exemplary or punitive damages.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 42 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Upon commencement of any civil action, a complaint or answer or other responsive pleading may not include a claim for exemplary or punitive damages.

2. The party commencing the action may conduct discovery of facts supporting a claim of fraud, malice or oppression. The discovery must comply with the provisions of the Nevada Rules of Civil Procedure. After the parties to an action have conducted discovery, a party may move the court for leave to amend the party's pleadings to claim exemplary or punitive damages. Such a motion must:

(a) Comply with the requirements and limitations of NRS 42.005; and

(b) Be supported with admissible evidence.

3. A party opposing a motion filed pursuant to subsection 2 may respond to the motion with affidavits, testimony taken by deposition or other admissible evidence.

4. If the court determines that there is prima facie evidence supporting a claim for punitive or exemplary damages, the court shall grant the moving party leave to amend the party's pleadings to include such a claim.

5. A party may not conduct discovery on issues of financial condition for the purposes of subsection 4 of NRS 42.005 before the party has filed with the court and served on all parties pleadings that have been amended with leave of the court pursuant to subsection 4.

6. As used in this section, "prima facie evidence" means evidence to permit a court to find that a party has acted with oppression, fraud or malice, express or implied.

Sec. 2. (Deleted by amendment.)

Sec. 3. NRS 42.005 is hereby amended to read as follows:

42.005 1. Except as otherwise provided in NRS 42.007, in an action for the breach of an obligation not arising from contract, where it is proven by clear and convincing evidence that the defendant has been guilty of oppression, fraud or malice, express or implied, the plaintiff, in addition to the compensatory damages, may recover damages for the sake of example and by way of punishing the defendant. Except as otherwise provided in this section or by specific statute, an award of exemplary or punitive damages made pursuant to this section may not exceed:

(a) Three times the amount of compensatory damages awarded to the plaintiff if the amount of compensatory damages is $100,000 or more; or

(b) Three hundred thousand dollars if the amount of compensatory damages awarded to the plaintiff is less than $100,000.

2. The limitations on the amount of an award of exemplary or punitive damages prescribed in subsection 1 do not apply to an action brought against:

(a) A manufacturer, distributor or seller of a defective product ~~[:]~~ ***if:***

(1) The manufacturer, distributor or seller sold the product after the effective date of a governmental agency's final order to:

(I) Remove the product from the market;

(II) Withdraw the governmental agency's approval of the product; or

(III) Substantially alter the governmental agency's terms of approval of the product in a manner that would have avoided the plaintiff's alleged injury and the product did not meet the agency's altered terms of approval when sold;

(2) A governmental agency or court determined that the manufacturer, distributor or seller made an unlawful payment to an official or employee of a governmental agency for the purpose of securing or maintaining approval of the product;

(3) The manufacturer, distributor or seller intentionally, and in violation of any applicable laws or regulations, as determined by the responsible governmental agency, withheld from or misrepresented to a governmental agency information material to the approval of the product and that information is material and relevant to the harm that the plaintiff allegedly suffered; or

(4) After the product was sold, a governmental agency found that the manufacturer, distributor or seller knowingly violated any applicable laws or regulations by failing ~~[timely]~~ to report risks of harm to that governmental

agency and the information which was not reported was material and relevant to the harm that the plaintiff allegedly suffered;

(b) An insurer who acts in bad faith regarding its obligations to provide insurance coverage;

(c) A person for violating a state or federal law prohibiting discriminatory housing practices, if the law provides for a remedy of exemplary or punitive damages in excess of the limitations prescribed in subsection 1;

(d) A person for damages or an injury caused by the emission, disposal or spilling of a toxic, radioactive or hazardous material or waste; or

(e) A person for defamation.

3. If punitive damages are claimed pursuant to this section, the trier of fact shall make a finding of whether such damages will be assessed. If such damages are to be assessed, a subsequent proceeding must be conducted before the same trier of fact to determine the amount of such damages to be assessed. The trier of fact shall make a finding of the amount to be assessed according to the provisions of this section. The findings required by this section, if made by a jury, must be made by special verdict along with any other required findings. The jury must not be instructed, or otherwise advised, of the limitations on the amount of an award of punitive damages prescribed in subsection 1.

4. Evidence of the financial condition of the defendant is not admissible for the purpose of determining the amount of punitive damages to be assessed until the commencement of the subsequent proceeding to determine the amount of exemplary or punitive damages to be assessed.

5. For the purposes of an action brought against an insurer who acts in bad faith regarding its obligations to provide insurance coverage, the definitions set forth in NRS 42.001 are not applicable and the corresponding provisions of the common law apply.

Assemblyman Hansen moved the adoption of the amendment.

Remarks by Assemblyman Hansen.

ASSEMBLYMAN HANSEN:

Amendment 1006 says that limits in the amount of an award do not apply if a responsible government agency determines that the manufacturer, distributor, or seller intentionally and in violation of any applicable laws or regulations withheld or misrepresented information material to the approval of the product. A manufacturer, distributor, or seller of a product is liable for exemplary or punitive damages if a government agency found that after the product was sold, the manufacturer, distributor, or seller knowingly violated any applicable laws or regulations by failing to report risks of harm.

Amendment adopted.

Bill ordered reprinted, reengrossed and to third reading.

Senate Bill No. 421.

Bill read second time.

The following amendment was proposed by the Committee on Legislative Operations and Elections:

Amendment No. 1012.

SUMMARY—Makes various changes relating to ~~[statewide]~~ **political parties and presidential preference** primary elections. (BDR 24-1148)

AN ACT relating to elections; **making various changes relating to political parties and presidential preference primary elections; revising provisions governing the organization and operation of major political parties;** providing in certain circumstances for a presidential preference primary election to be held ~~[in conjunction with the statewide primary election; revising the date of the statewide primary election to the last Tuesday in February of each even-numbered year; making corresponding changes to various pre-election deadlines;]~~ **for each major political party;** establishing **certain** requirements **and procedures** for ~~[participation by major political parties and candidates in]~~ **conducting** a presidential preference primary election; **requiring delegates to a national party convention to vote according to the results of the state party's presidential preference process in certain circumstances; providing penalties;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, a major political party must: (1) hold precinct meetings in each county; (2) select delegates to the county, state and national party conventions; (3) provide certain types of notice regarding its meetings and conventions; and (4) follow certain procedural requirements when conducting its affairs. (NRS 293.130-293.163) Sections 3.5-6 of this bill revise various aspects of the organization and operation of major political parties.

Sections 3.5 and 4 authorize major political parties to adopt rules for providing notice of meetings and conventions through an Internet website or other social media. Section 4 also provides that precinct meetings may be consolidated or held for the county at large. Section 5 allows delegates to be selected through a nomination process instead of being selected at precinct meetings and permits the county central committee to provide for forms to be prepared and delivered electronically. Section 6 provides that until the end of the first ballot at the national party convention, the state party's delegates are bound to vote at each stage of the presidential nomination process according to the results of the state party's presidential preference process.

Sections ~~[1, 2, 18-21 and 32-38]~~ **1-2.5, 31.1-38 and 42** of this bill provide **, with certain exceptions,** for a statewide presidential preference primary election to be held ~~[in conjunction with the statewide primary election]~~ **for each major political party on the last Tuesday** in February of a presidential election year. **Section 32** provides that a presidential preference primary election is generally governed by the same statutory provisions applicable to the existing statewide primary ~~[.]~~ **, except that the specific provisions of sections 31.1-38 and any regulations adopted by the Secretary of State to carry out those provisions take precedence and control if there is any conflict.** Pursuant to **section 33**, **a major political party may opt out of** a presidential preference primary election **. Such an election** must be held for a major political party if: (1) the chair of the national committee of that party ~~[fails]~~ **does not** timely ~~[to]~~ notify the Secretary of State that the party ~~[does not desire]~~ **wants** to ~~[participate in]~~ **opt out of** the election; and (2) two or more ~~[presidential]~~ **qualified** candidates of that party timely file declarations of candidacy **for the election** with the Secretary of State.

~~[Under existing law, the election of delegates at precinct meetings scheduled by the state central committee of each major political party, commonly known as "party caucuses," may be a part of expressing preferences for candidates for the party's nomination for President of the United States. (NRS 293.137) In any year in which a presidential preference primary election is held for the party, section 4 of this bill requires that the precinct meetings not be held until after the presidential preference primary election has been conducted and the results of the election have been certified by the Secretary of State. Sections 5 and 6 of this bill further require that any rule of a party governing the election of delegates at a precinct meeting, the selection of delegates and alternates to~~

~~a national party convention, or the voting of delegates at the national convention, must reasonably reflect the results of the presidential preference primary election, if one has been held for the party.~~

~~— Section 7 of this bill changes the date of the statewide primary election from the second Tuesday in June of each even-numbered year to the last Tuesday in February of each even-numbered year. To provide an example, if the provisions of this bill had been in effect in 2014, the primary election would have been held on February 25, 2014, instead of June 10, 2014. As a result of changing the date of the statewide primary election, sections 3, 8-13, 17, 22 and 23 of this bill amend various other dates relating to elections, such as the date for filing a declaration of candidacy.~~

~~— Sections 16 and 24 of this bill delete certain existing but obsolete statutory references to the presidential preference primary election.~~]

Sections 35-38 establish certain requirements and procedures for conducting a presidential preference primary election. In particular, section 35 specifies which registered voters are entitled to cast a ballot at the election, and section 36 states that local election officials: (1) shall not distribute sample ballots or conduct early voting for the election; (2) shall permit voting by absent ballot and military-overseas ballot for the election; and (3) shall establish polling places for the election that must be open from 7 a.m. until 7 p.m. on the day of the election. Section 36 also provides that a registered voter in the county who is entitled to cast a ballot at the election may do so at any polling place in the county on the day of the election. Finally, sections 37 and 42 ~~[of this bill]~~ provide that the cost of any presidential preference primary election is a charge against the State and must be paid from the Reserve for Statutory Contingency Account in the State General Fund.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 293 of NRS is hereby amended by adding thereto a new section to read as follows:

"Presidential preference primary election" means an election held in a presidential election ~~[years]~~ ***year pursuant to sections*** ~~[32]~~ ***31.1 to 38, inclusive, of this act*** ~~[.]~~ ***to determine the preferences of the registered voters of a major political party regarding the party's nominee for President of the United States.***

Sec. 2. NRS 293.010 is hereby amended to read as follows:

293.010 As used in this title, unless the context otherwise requires, the words and terms defined in NRS 293.013 to 293.121, inclusive, ***and section 1 of this act*** have the meanings ascribed to them in those sections.

Sec. 2.5. **NRS 293.080 is hereby amended to read as follows:**

Assemblyman Stewart moved the adoption of the amendment.

Remarks by Assemblyman Stewart.

ASSEMBLYMAN STEWART:

The amendment does several things. It has procedures for a presidential preference primary election in February of a presidential election year. The chair of the national committee must notify the Secretary of State if a major party does not wish to participate in a primary election. The cost of the presidential preference primary is a charge to the state. County clerks shall not provide sample ballots or early voting sites. County clerks shall establish voting centers and shall

provide absent ballots and military-overseas ballots. The Secretary of State shall compile the returns and notify the state central committee and the national committee, pursuant to its rules. Revisions are made to county conventions and precinct meetings. Delegates to national conventions are bound to vote in accordance with the preference results until the end of the first ballot. Finally, and most important to me, provisions moving the statewide primary election from June to February are deleted from the bill.

Amendment adopted.

Bill ordered reprinted, reengrossed and to third reading.

GENERAL FILE AND THIRD READING

Senate Bill No. 128.

Bill read third time.

Remarks by Assemblyman Gardner.

ASSEMBLYMAN GARDNER:

Senate Bill 128 increases from 6 to 9 the number of credit hours in which a Millennium scholar must enroll if attending a community college. The bill also increases from 12 to 15 the number of semester credit hours that may be funded on behalf of a Millennium scholar enrolled in a community college.

Senate Bill No. 432.

Bill read third time.

Remarks by Assemblymen Diaz and Jones.

ASSEMBLYWOMAN DIAZ:

Senate Bill 432 provides for the distribution of funding for the 2015-2017 Biennium from the Account for Programs for Innovation and the Prevention of Remediation to public schools annually designated as Victory schools because they have a high percentage of students living in poverty and they are underperforming academically.

Designated schools are required to conduct a needs assessment and submit a comprehensive plan or letter of intent and comprehensive plan for approval by the Department of Education. A school district board of trustees or charter school governing body is required to submit a report concerning the programs and services provided by a Victory school.

The bill further outlines the instruction, programs, and services that shall or may be provided by a Victory school and requires the Department to contract with an independent evaluator to evaluate the effectiveness of programs and services provided pursuant to this bill. The State Board of Education must also require a Victory school demonstrating unsatisfactory student achievement and school performance to take corrective action and direct the Department to withhold funding if such performance continues.

The Legislative Committee on Education shall consider the Victory school reports and the evaluations of the independent auditor and advise the State Board regarding any action the Committee determines appropriate. The Committee shall also make any recommendations it deems appropriate concerning Victory schools to the next regular session of the Legislature. This bill is effective upon passage and approval.

This appropriation in the bill is also included in the Governor's *Executive Budget*. Victory schools essentially function like Zoom schools for low-income children by bringing targeted instructional resources and wraparound supports to the lowest-performing, lowest-income schools. Income levels will be determined using federal poverty level, not free and reduced-price lunch participation. It is estimated there will be approximately 35 Victory schools statewide: 26 elementary schools, 5 middle schools, and 4 high schools. All will be one- or two-star-rated, and they are expected to be located in Clark, Elko, Humboldt, Nye, and Washoe Counties.

ASSEMBLYMAN JONES:

Unfortunately, I must rise again in opposition to this bill in that we are approving spending prior to us determining the exact amount we will have available for our budget. It is unfortunate because I believe this would be a good program. I think we are putting the cart before the horse when we are approving spending prior to actually knowing how much we can spend.

ASSEMBLYWOMAN TITUS:

Assembly Bill 77, as amended, makes various changes related to the Department of Agriculture. Specifically, the bill revises provisions governing the composition of members for district boards of agriculture; authorizes the Department of Agriculture to operate a state fair or regional fair in the state; renames the Nevada Fair of Mineral Industries as the Nevada Mineral Exhibition and eliminates the requirement that this exhibition be held in Ely; authorizes the Department of Agriculture to control all matters pertaining to the apiary industry in the state; requires sellers of certain farm products to register as produce vendors with the Department of Agriculture; authorizes the State Sealer of Consumer Equitability to conduct random tests of point-of-sale systems and cash registers to determine the accuracy of prices without charging and collecting a fee; transfers provisions governing the cleanup of discharged petroleum from Chapter 590 to Chapter 445C of the *Nevada Revised Statutes* without substantive changes; authorizes the Department of Agriculture to issue licenses for the sale of antifreeze in the state; and replaces criminal penalties related to the control of weeds and use of pesticides with civil penalties. The bill is effective upon passage and approval.

ASSEMBLYWOMAN SPIEGEL:

I have a question on this bill. In several places in the bill, it speaks about unwholesome food and unwholesome poultry. For example, section 150 says, "No person shall bring, expose or offer for sale, or sell within this state for human food any unsound, diseased or unwholesome poultry." My question relates to the word "unwholesome." I looked it up in *Black's Law Dictionary*, and it seemed to indicate any food that could be dangerous for humans. My question is, as it becomes apparent that poultry that is fed GMOs [genetically modified organisms] or food that has hormones in it could be unsafe for humans, would that then ban the sale of poultry that was fed that feed?

ASSEMBLYWOMAN TITUS:

Thank you for the question, my noble Assemblywoman from the south. I appreciate that. "Unwholesome," at this point, as you have already described the definition, will be left up to what the Department of Agriculture determines. Whether or not there are hormones—I do not think there have been any national studies that will absolutely say what the FDA [Food and Drug

Administration] will call out on those products. I think they will follow the role of what the FDA gives them.

ASSEMBLYWOMAN CARLTON:

I do rise in support of Assembly Bill 77. I want to share the same concerns that I shared with my committee members. The original version of this bill did have fees in it. They were asked for by the industry. They needed the money to do predator control. Because of a vocal minority, the fees were removed. We are not truly addressing the issues that this industry has because of crossing the line on fees.

I support this industry. You have a girl from the south supporting the Department of Agriculture. That has to tell you something. I find it disingenuous that we are maneuvering legislation and policy to get around this. If the industry wanted this and they need it, what are they going to do in the next 18 months? They are going to have to figure out a way around this. This is a rural issue; this is not a southern Nevada issue. There are not too many sheep in my neighborhood, but I drive by them every day up here.

I just want to put on the record that I am going to support this. But if there comes a time when the industry needs something, we need to have the guts to vote for it because they need it.

Assembly Bill 332 prohibits any public body, including the state, its local governments, school districts, or any public agency that sponsors or finances a public work, from entering into a contract, expressed or implied, for a public work that provides that any construction materials or goods to be used on the public work be purchased or otherwise supplied by the public body, a contractor who is a constituent part of the public body, or a contractor who is not a constituent part of the public body acting on behalf of the public body. A public body may, however, enter

into such a contract for a public work provided that the contract requires the payment of any state or local taxes that would otherwise have been due for the purchase and use of such construction materials or goods if they had been purchased and used by an entity not exempted from the payment of such taxes.

The bill also exempts certain purchases related to emergencies, items needed on a reoccurring basis to protect health and safety, and specialized project-specific components. The bill exempts a building of the Nevada System of Higher Education from certain provisions requiring that a public body use the services of the State Public Works Division if less than 25 percent of the costs of the building are paid from money appropriated by this state or federal money.

I want to clarify that this only applies to construction projects.

ASSEMBLYMAN HICKEY:

I am rising in support of Senate Bill 69. Existing law requires at least a six-month retirement period after the effective date of the retirement of a justice or judge for which he or she may accept reemployment. Senate Bill 69, as amended, reduces the minimum required period before the acceptance of employment from six months to 90 days after the effective date of the retirement of the justice or judge. Currently, a justice or judge who accepts employment as a justice or judge in the Nevada court system forfeits all retirement allowances for the duration of that employment. Senate Bill 69 exempts a retired employee who accepts employment or an independent contract as a senior justice, senior judge, senior justice of the peace, or senior municipal judge from the disqualification of receiving retirement allowances under certain circumstances.

Additionally, S.B. 69 removes a sunset provision for a retired justice or judge who is reemployed and commissioned as a senior justice, senior judge, senior justice of the peace, or senior municipal court judge to receive a retirement allowance in addition to compensation for his or her service and is entitled to receive additional service credit for actual time served if he or she is reenrolled in a retirement plan and makes the provision permanent.

ASSEMBLYMAN HICKEY:

Senate Bill 103 changes the definition of "financial institution," for the purposes of the modified business tax on financial institutions pursuant to Chapter 363A of *Nevada Revised Statutes* [NRS], by excluding from that definition a person who is primarily engaged in the sale, solicitation, or negotiation of insurance, therefore making such a person subject to the modified business tax [MBT] applicable to general businesses or nonfinancial institutions pursuant to Chapter 363B of NRS.

This bill represents the work of many members and constituents of all of ours that we heard from who were unfairly paying the MBT. This eliminates that misinterpretation and allows them to operate as insurance agents and not members of a financial institution. They will certainly appreciate our vote on this one.

Senate Bill No. 292.

Bill read third time.

Remarks by Assemblyman O'Neill.

ASSEMBLYMAN O'NEILL:

Senate Bill 292 revises the statutory definition of the term "professional negligence" to include medical malpractice and dental malpractice. The bill also revises the definition of "provider of health care" to include a broader range of practitioners. The bill provides that the total noneconomic damages that can be awarded to the injured plaintiff in a civil action brought against a provider of health care claiming injury or death for professional negligence is $350,000, regardless of the number of plaintiffs, defendants, or theories upon which liability may be based.

Two items are added to the list of elements in an affidavit, the absence of which will require a district court to dismiss without prejudice an action for professional negligence. First, the supporting affidavit must identify by name or describe by conduct each provider of health care who is alleged to be negligent. Second, the affidavit must set forth in concise and direct terms the specific act or acts of alleged negligence committed by each defendant. The bill provides that a rebuttable presumption of professional negligence does not apply in an action where the plaintiff submits an affidavit or otherwise provides for an expert witness or expert testimony to establish the claim of negligence.

Finally, S.B. 292 provides to a school board of trustees or governing body of a charter school immunity from a civil action arising from an alleged act or omission committed by an employee or volunteer of a school-based health center.

Remarks by Assemblymen O'Neill and Oscarson.

ASSEMBLYMAN O'NEILL:

Senate Bill 324 prohibits a person from discharging a pollutant onto any state highway, right-of-way, or drainage unless the person has a valid permit. In the event of unpermitted discharge, the person must, upon receipt of an order of compliance, either abate, remove, or remediate the discharge in a timely manner. If a person fails to comply, Senate Bill 324 provides various enforcement powers to the Director of Nevada's Department of Transportation [NDOT]. Specifically, the Director may enter and inspect premises to investigate the source of a discharge, issue orders for compliance to enforce discharge laws, seek injunctive relief to remedy unpermitted discharge, impose administrative and civil penalties, and request criminal prosecution by the Attorney General for violations.

Senate Bill 324 also authorizes the Director to appoint a third Deputy Director to implement, oversee, and enforce NDOT's environmental programs. The Deputy Director must coordinate the implementation of the storm water program with appropriate personnel at the State Department of Conservation and Natural Resources [DCNR]. The bill also removes provisions requiring the Director of NDOT to be a licensed professional engineer in the state of Nevada.

Finally, Senate Bill 324 creates the Advisory Committee on Transportational Storm Water Management to work with the Division of Environmental Protection and DCNR regarding the implementation of the storm water program. The Committee must report at least quarterly to NDOT regarding its activities, and NDOT must report at least quarterly to the Interim Finance Committee on the status of the implementation of the storm water program.

ASSEMBLYMAN OSCARSON:

I rise in support of Senate Bill 324. This bill will grant the Nevada Department of Transportation the necessary authority to implement key components of their storm water program; permit NDOT to remediate any illegal discharges or dumping of pollutants onto its rights-of-way; and allow NDOT to recoup any costs of cleanup where a polluter fails or refuses to take corrective action.

Under the federal Clean Water Act, the EPA [Environmental Protection Agency] issues every state a National Pollution Discharge and Elimination System [NPDES] permit. The purpose of the permit is to improve water quality by requiring every department of transportation to administer a storm water program to reduce the discharge of pollutants associated with storm water runoff into drainage systems that serve highways and transportation-related properties, facilities, and activities. The pollutants found in storm water runoff can eventually find their way into our rivers and lakes and compromise our water quality. The United States EPA also requires that every state department of transportation have the authority to enforce the terms of its NPDES permit. This bill will enable NDOT to comply with that requirement and to be more proactive in managing its storm water program.

By granting NDOT the statutory authority to enforce the terms and conditions of its NPDES permit as well as any encroachment permits, this bill will allow NDOT to address and remediate any illegal or unpermitted dumping onto its highways and transportation facilities. In addition, this bill will give NDOT the ability to recoup the cost of any cleanup where a polluter either fails or refuses to stop their illegal dumping activities.

Each one of us needs to take seriously the responsibility for improving our water quality. This bill will play an important role in achieving that goal. For that reason, I support this bill.

ASSEMBLYWOMAN SWANK:

Senate Bill 338 requires the establishment of the Safe-to-Tell Program within the Office for a Safe and Respectful Learning Environment in Nevada's Department of Education. The program must enable any person to anonymously report dangerous, violent, or unlawful activity being conducted or threatened at a school, a school activity, or on a school bus. This bill provides that any information received by the program is confidential and requires program procedures to ensure information received is promptly reported to the appropriate entities and that the identity of a person reporting information is not disclosed.

The bill also creates the Safe-to-Tell Program Advisory Committee within the Office for a Safe and Respectful Learning Environment. The Director of the Office for a Safe and Respectful Learning Environment is required to provide training to school officials and individuals involved with the program, post program information on the Internet, and provide educational materials to public schools.

Confidential information received by the program, excluding the identity of anyone providing the information, may be disclosed in response to a motion filed by a defendant in a criminal action if the information could be exculpatory for the defendant or used to impeach the testimony of a witness. Any person knowingly disclosing program information, other than as authorized, is guilty of a misdemeanor.

The bill also permits a county or an incorporated city whose application for a grant or loan from the Catalyst Account was approved before the effective date of this bill to surrender the grant or loan, or any portion thereof, in exchange for the issuance of transferable tax credits upon such terms and conditions as agreed to by the Executive Director and the parties to any contracts involving the grant or loan.

ASSEMBLYMAN HICKEY:

Assembly Bill 484, as amended, revises Chapter 482 of the *Nevada Revised Statutes* [NRS] to require the Department of Motor Vehicles [DMV] to reissue a license plate or plates issued by the Department every eight years. Assembly Bill 484, as amended, allows for the reissuance of a license plate for a trailer with a three-year registration period at the first renewal of registration that occurs after the existing license plate has been issued for eight years. Assembly Bill 484, as amended, also requires the Department of Motor Vehicles, at the time when a license plate or plates are to be reissued, to include with the notification of registration renewal the amount of any fee to be charged for the reissuance of the license plate or plates.

ASSEMBLYWOMAN FIORE:

I rise in opposition to Assembly Bill 484. There are a lot of us who keep our cars and plates intact and in good condition and I do not think it is fair to force us to get new plates every eight years and on our trailers every three years. We defeated this bill. It is a violation of the pledge and now we are bringing it back to see who switched over. I do not think it is okay. I do not think it is fair. I urge everyone who voted no the first time around to vote no the second time around.

ASSEMBLYMAN WHEELER:

We voted on this bill yesterday and of course it failed. It failed for a reason. It does not make sense to me, especially as the Chair of the Transportation Committee, to force people to turn in a perfectly good plate and have the revenue for that come from the state or have the cost to the plate owner. We already have a program in effect where if something happens to your plate, it can be reissued. There is no reason to force people to do it. As I said yesterday, and I will reiterate, had this come to my committee, I do not think you ever would have seen it on the floor.

ASSEMBLYMAN PAUL ANDERSON:

I rise in support of Assembly Bill 484. I can think of nothing else I would rather do on my Saturday than debate license plates. However, I stand in support and just want to clarify a couple pieces of it.

There are federal regulations which regulate reflectivity on license plates. The parts that we use and the reflectivity that we use now is guaranteed for five years. Every plate that goes to that eight-year period is generally out of warranty and begins to degrade. This is also part of implementing new license plates. They are going to change the way we do license plates to try and get extra years out of those, so we can get to that eight-year mark. Initially, this effects about 25 percent of the plates out there and will take many, many years before we will get to the point where anyone will be affected. It is a minimal fee. You can do it by mail and get it done very easily. I would urge support of A.B. 484.

ASSEMBLYWOMAN SHELTON:

I used to own a DMV business where we did this probably eight or ten years ago and everybody had to change plates. I will tell you that if we pass this, the general public is not going to be in favor of this because they did not like it when we did it before and they are not going to like it now.

I do have one quick question in regard to the bill. I know before when it was done, if you did not change your plates and you were caught with the old-style plate, there was a fine a person could be penalized with. I did not see that addressed in this bill, so I do not know how that would affect these plates being issued at this point.

ASSEMBLYMAN PAUL ANDERSON:

Thank you for the question. I would imagine that the same NRS that would be related there would apply here as well, but I do not have an answer for you directly. I apologize.

ASSEMBLYMAN JONES:

I also rise in opposition to Assembly Bill 484, which was defeated yesterday. This is another indirect tax on our people. Our economy is still struggling and to continue to burden our public and our businesses with more fees and regulations is excessive. We need to get regulation out of

our lives so we can have a full recovery and get our state back to proper levels of productivity. This is just another burden that is going to be put on us, so I urge you to please not vote for this.

MOTIONS, RESOLUTIONS AND NOTICES

Assemblyman Paul Anderson moved that Senate Bill No. 185, just reported out of committee, be placed on the Second Reading file.

Motion carried.

SECOND READING AND AMENDMENT

Senate Bill No. 185.

Bill read second time.

The following amendment was proposed by the Committee on Government Affairs:

Amendment No. 1025.

AN ACT relating to suppression of fires; temporarily requiring the entity that is responsible for the closest emergency fire-fighting vehicle to respond to and suppress certain fires in certain counties; **exempting an airport authority located in certain counties from this requirement; requiring certain entities to negotiate an automatic aid agreement concerning certain matters;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the municipalities of this State to provide fire protection services. (NRS 268.730) Existing law also authorizes the creation of districts for a fire department by boards of county commissioners and the creation of fire protection districts and county fire protection districts. (NRS 244.2961, 473.034, 474.110, 474.460) **Section 1** of this bill requires, in a county whose population is 100,000 or more but less than 700,000 (currently Washoe County), the entity that is responsible for the emergency fire-fighting vehicle located closest to a structure or brush fire to respond to and take all actions necessary to suppress the fire regardless of whether the location of the fire falls within the territory served by the entity. **Section 1 exempts an airport authority in such a county and any vehicle or firefighter of such an airport authority from this requirement. Section 1 additionally: (1) requires each entity, other than an airport authority which maintains an emergency fire-fighting vehicle in such a county, to negotiate an automatic aid agreement with each other such entity which addresses the reimbursement of costs, geographic areas of coverage or any other relevant issue or any combination thereof; and (2) provides that a failure to reach an automatic aid agreement does not exempt an entity from complying with the requirement to respond to a fire if it is responsible for the emergency fire-fighting vehicle located closest to the fire. Section 2** of this bill provides that the provisions of **section 1** expire by limitation on June 30, 2017.

WHEREAS, The provision of fire protection and related emergency services is fundamental to what the people of this State expect from their local governments; and

WHEREAS, Providing such services in a timely, effective and efficient manner is critical to the protection of life and property; and

WHEREAS, The infighting that has continuously occurred for several years between the entities that provide fire protection and related emergency services in Washoe County threatens the lives and property of the people of this State who reside in that county; and

WHEREAS, The failure of the local governments in Washoe County to resolve this dispute in a timely manner now requires the Nevada Legislature to intervene and ensure that the lives and property of the people of this State who reside in Washoe County are no longer put at risk by the reluctance of these entities to find an agreement that protects their residents; now, therefore,

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 475 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Notwithstanding any provision of law to the contrary, in a county whose population is 100,000 or more but less than 700,000, the entity that is

responsible for the emergency fire-fighting vehicle located closest to a structure or brush fire , unless that entity is described in subsection 4, shall respond to and take all actions necessary to suppress the fire regardless of whether the fire occurs within the territory served by the entity.

2. Each entity, other than an airport authority which maintains an emergency fire-fighting vehicle in a county whose population is 100,000 or more but less than 700,000, shall negotiate an automatic aid agreement with each other such entity to address:

(a) The reimbursement of costs for actions to suppress fires pursuant to subsection 1;

(b) Geographic areas to be covered by each entity, except that any such geographic areas must be established so that, at a minimum, the entity responsible for the emergency fire-fighting vehicle located closest to a structure or brush fire is required to respond to the fire as described in subsection 1; or

(c) Any other issues relating to the requirements of subsection 1 identified by the entities.

3. The failure of an entity to enter into an automatic aid agreement pursuant to subsection 2 does not exempt the entity from the requirements imposed by subsection 1.

4. The provisions of subsection 1 do not apply to an airport authority or to any emergency fire-fighting vehicle or firefighter of an airport authority.

Sec. 2. This act expires by limitation on June 30, 2017.

Assemblyman Ellison moved the adoption of the amendment.

Remarks by Assemblyman Ellison.

ASSEMBLYMAN ELLISON:

Amendment 1025 to Senate Bill 185 requires each entity to negotiate an automatic aid agreement with each other addressing reimbursement costs and coverage areas. The coverage areas must be established so that, at a minimum, the entity closest to a structure or brush fire is required to respond to the fire. Finally, the provisions of this bill do not apply to any emergency fire-fighting vehicle or firefighter of an airport authority.

Amendment adopted.

Bill ordered reprinted, reengrossed and to third reading.

Assemblyman Paul Anderson moved that the Assembly resolve itself into a Committee of the Whole for the purpose of considering a proposed amendment to the Nevada Revenue Plan.

Motion carried.

Mr. Speaker designated Assemblyman Armstrong to chair the Committee of the Whole.

IN COMMITTEE OF THE WHOLE

At 12:47 p.m.

Chairman Armstrong presiding.

Quorum present.

Proposed Nevada Revenue Plan considered.

CHAIR ARMSTRONG:

The Committee will come to order. We will now consider the proposed amendment to the Nevada Revenue Plan.

Before we start, I want to set some of the ground rules for how the Committee will be conducted. This hearing will last three hours. The time now is 12:50 p.m., so this will last until 3:50 p.m. The body does not have possession of the actual bill, Assembly Bill 464. It is still in Ways and Means. We will not be accepting any amendments, and there will be no action taken on the plan. This hearing is limited to the Nevada Revenue Plan and the proposed amendment. The presentation by the presenters will last about 30 minutes, followed by a period for questions and answers by the body. We will take a short break, then we will move to testimony.

With that, Mr. Aguero and Mr. Willden, whenever you are ready.

MIKE WILLDEN, CHIEF OF STAFF, OFFICE OF THE GOVERNOR:

For the record, I am Mike Willden. I serve as the Chief of Staff to Governor Sandoval, here today to present the Nevada Revenue Plan. I would like to start first by thanking the leadership of the Assembly—Mr. Anderson, Ms. Kirkpatrick, and Mr. Armstrong—for continuing to work with us to improve this plan. I also would like to thank members of the Assembly for the significant amount of input and critique we have received over the last several weeks and months. I would also like to express our appreciation to your LCB [Legislative Counsel Bureau] fiscal and legal staff for helping us through and along this process.

For those of you who have not been in the money committees and have not heard the two or three hearings we have had on the revenue plan, I would like to indicate that our general desire in this process is to fundamentally restructure taxes that we receive, primarily to support the education initiative; develop a plan that works in harmony with one another; broaden the base of taxpayers; ensure it is a stable plan that can grow with our economy; and ensure that it is fair. Finally, I would also note that one of the legs of the stool helps in capturing out-of-state companies who do business directly or indirectly in Nevada.

I would note as we move through the plan that this is part of the overall picture of revenue. Largely, the budgets are closed. I think you will be seeing your appropriations and authorizations acts soon. I believe the authorization act is already out. The revenue plan is three pieces: those numbers that we received from the Economic Forum in the first week of May; the sunset bill that is still being heard and debated, which also includes the cigarette tax; and this new revenue plan is the third leg.

Mr. Chairman, I will briefly run through, for the members and the audience, what the plan is, then Mr. Aguero will go through some of the most recent changes.

ASSEMBLYMAN HANSEN:
Mr. Chairman, just a quick question: Are we talking about proposed Amendment 7779 [Appendix A] to Assembly Bill 464?

CHAIR ARMSTRONG:
Mr. Hansen, that is correct.

MIKE WILLDEN:
The Nevada Revenue Plan includes five basic pieces that I will run through. The first piece in the Nevada Revenue Plan is the business license fee component. In the first version of the business license fee, the proposal was that we would increase the existing $200 license fee to $300 for noncorporations and to $500 for corporations. Today, we are proposing an amendment that should be posted—Amendment 7773 [Appendix B] versus Amendment 7779—so that the business license fee component change from what I just said, $300 for the noncorporations and $500 for the corporations, back to $200 for noncorporation filers and continue with the $500 for the corporations. It also incorporates a new component of the business license fee where there would be a $25 increase in the cost of the annual listings. That component, Mr. Chairman, is designed to generate about $40 million or $41 million in annual yield.

The second component of the Nevada Revenue Plan is the modified business tax [MBT] component. In this area, the modified business tax would be increased from the current 1.17 percent up to either 1.475 percent or 2 percent, depending on the type of business. The 1.475 percent would apply to nonfinancial institutions and also to those businesses that are not part of the net proceeds on minerals or mining component. Again, it is 1.475 percent for general business and a 2 percent tax rate for financial and mining businesses.

The modified business tax would also change the amount of the exemption. The exemption is currently $85,000 per quarter or $340,000 per year, and that would change to $50,000 per quarter or $200,000 per year. In the MBT component, we would continue to allow a health care deduction. Finally, we would allow a 50 percent credit to the MBT for any commerce tax paid in the previous year.

That leads me to the third component, the commerce tax. We are proposing a commerce tax that would be based on a business's revenue. The first $4 million of Nevada revenue would be exempt from the tax, so this is targeted toward large business. We have designed the plan to exempt most small businesses. Again, the exemption would be at $4 million. The commerce tax would be paid on revenue of the business minus the $4 million. We still are talking the use of NAICS [North American Industry Classification System] code categories that businesses now use through their Department of Employment, Training and Rehabilitation business and other entities. They would look up their NAICS code in their chart and, based on their taxable revenue, would pay the tax based on the scheduled tax rate. As I said earlier, 50 percent of the paid commerce tax can be allowed as a modified business tax deduction.

Mr. Chairman, one of the last two things I will talk about before turning the time over to Mr. Aguero is that included in this bill is what we call the MBT buydown. How the buydown basically works is that we calculate the revenue generated from both the MBT and the commerce tax and add those together. If they perform better than 4 percent higher than what the Economic Forum numbers were for those two taxes for the year, then that excess over the 104 percent would be used to reduce, or buy down, the MBT rate for both nonfinancial businesses and the financial/mining businesses. There would be a buydown not to go below the 1.17 percent current tax rate. The buydown would not be effective until FY [Fiscal Year] 2018, so during the next biennium, FY 2016 and FY 2017, we are basically looking at first-year revenue and making a decision in the first half of the second year of the biennium as to whether there is overperformance, underperformance, or performance right on target. If there is overperformance over the 4 percent trigger, then the buydown would be effective on July 1 of the next biennium.

The last thing I will highlight as part of the plan is that we had talked in earlier versions that we included in the sunset bill the general services tax coming to the General Fund. In earlier versions of the Nevada Revenue Plan, we were making a decision to send the general services tax [GST] back to either the Highway Fund or as a reduction to the taxpayer who pays his vehicle registration. We are now proposing that the appreciation portion of the GST continue to come to the General Fund in FY 2016. That is about a $63 million or $64 million revenue stream, and then

we stop that process of the general services tax coming to the General Fund. In FY 2017 and beyond, it would go back to the Highway Fund.

Mr. Chairman, I will stop there and turn it over to Mr. Aguero, who will go through some more of the details of the changes we have made in the proposed amendment and then stand for questions.

JEREMY AGUERO, PRINCIPAL ANALYST, APPLIED ANALYSIS:

I am also thankful for the opportunity to be before this body today. I was asked by Mr. Willden and the Governor's staff to walk through some of the general policy underpinnings that underlie the Nevada Revenue Plan and then talk about some of the technical changes that have been made recently. Of course, the original plan that was drafted from the Governor's Office took the form of Senate Bill 252, sometimes referred to as the Governor's BLF [business license fee]. There are certainly components of that, but as was the instruction, we listened to what was provided in the various hearings—information from both the public sector, the private sector, this body, and businesses that provided additional information—and then tried to build upon the ideas that had been provided. I will try to walk through how we have done that in all three of the elements that Mr. Willden just laid out.

First and foremost is the business license fee itself. The business license fee is widely regarded as the broadest of the taxes that we have in the state of Nevada. The business license fee applies currently to an excess of 330,000 entities in the state of Nevada, having more taxpayers than any other business that we have. There have been a number of alternatives, but I think most of the major revenue plans that have come forward have utilized the business license fee in one way or another, largely due to the fact that it has a relatively broad base upon which we can apply. Generally speaking, when we are thinking about things like stability, equity, and those types of things, we certainly like the idea of having the broadest base possible, which brings us to that specific revenue source.

In the plan as it was originally proposed, there were different rates, and some of the other plans also have had different rates. Nonetheless, the one that is brought forward to you today would increase the rate on corporations from the existing level of $200 to $300 and would leave noncorporate filers at the same $200 that they are at today. Again, the goal is to try and broaden it and at the same time generate some revenue from the corporate filers, which have the tendency to be somewhat larger businesses.

The second component part is our payroll tax, which is technically referred to as the modified business tax in the state of Nevada. As Mr. Willden alluded to, that tax is currently imposed at 1.175 percent of taxable payroll in excess of about $340,000 per year. By lowering that standard exemption from $340,000 to $200,000, we bring more businesses into that fold. There has been some criticism in the past relative to how many businesses that are there. Holding that to the side for a moment, those 5,000 to 6,000 businesses will expand the base of our payroll tax today by somewhere between 40 percent and 50 percent. It is a material expansion to the number of taxpayers included under our existing payroll tax.

That component part also has a second element to it. Financial institutions today pay a similar tax at a rate of 2 percent. The proposal is that mining companies that are subject to the net proceeds tax would also pay that 2 percent. There is a reason for that. I am going to talk for a moment about the commerce tax, how it works, and how it is structured, but there are specific reasons why companies that are subject to the net proceeds tax in the state of Nevada and financial institutions will pay substantially less than other businesses under the commerce tax. Principally, mines have a constitutional limitation relative to how they can be taxed. As such, the commerce tax will apply to them in a very limited way. In the same general thinking, most interest earned by financial institutions is exempt from the commerce tax. Of course, financial institutions generate a substantial amount of their revenue from interest earnings and would therefore have very limited commerce tax, which is why those two industries bear a higher payroll tax under the plan that we are here to discuss today.

There is also a credit mechanism that is applied against a taxpayer's MBT, or payroll tax. That is a 50 percent credit for paid commerce tax, and I will talk more about that in just a moment.

The third component part is the commerce tax. This is a commerce tax that is based on total Nevada revenue of a business. Very broadly defined, it includes almost all business types. We can

certainly talk about some of those definitions and what is included in that. All of that being what it is, there are industry-specific rates that are applied to that Nevada-based revenue, generating roughly $119 million or $120 million a year for the state of Nevada. There has been some discussion about the rates, how the rates got set, why we have multiple rates, and those types of things, so I would like to take one moment and talk about the policy discussion that went into having multiple rates for different industries.

When we first had a conversation about implementing a tax like the commerce tax, there was some discussion about having a single rate. If you applied a single rate to every industry in the state of Nevada, the challenge would be that there are some entities that have very high volumes and very low margins and, frankly, not every industry is constructed in the same way. Because those industries are not always constructed in the same way, there was some desire to recognize the different structure of different businesses. There are really two ways we could do that. One is the way that is used in the state of Texas today and essentially says that you are going to take all of your revenue and then we are going to allow you to deduct some of the revenue from your total. We will either allow you to deduct your cost of goods sold, your cost of labor, or some type of standard deduction. We will allow you to do one of those things to ultimately get to a margined revenue. That is one way you could go about doing this.

The other way, and the way that we chose, was to essentially build those different structures into the rates. The reason some rates are lower than others is because the industries in those sectors have a tendency to have higher or lower costs of goods sold, costs of labor, or would have a different standard deduction. The way the mathematics works is relatively straightforward. We went to the state of Texas where they had information at the industry level. We looked at each industry as to whether or not it took the cost of goods sold, the cost of labor, or the standard deduction and then we essentially created margin-adjusted rates for each and every industry, upon which we applied Nevada's gross productivity, or total Nevada sales if you want to think about it that way.

All of that having been said, once that piece is constructed, it allows us to do something that the other two pieces do not. As Mr. Willden alluded to, one of the important components of the commerce tax as it currently exists is that it starts with a standard exemption of $4 million. Now, what does that mean? There has been a lot of talk, both prior to this session and during this session, about the concept of a fiscal cliff or many cliffs, as they sometimes have been referred to in discussion. A $4 million standard exemption takes away any of the problems that were created before in terms of a fiscal cliff. Every business has the opportunity to subtract their first $4 million worth of revenue. Every single one. In doing that, they only pay on anything in excess of that $4 million. Why? Why did we go through that exercise? Because in almost every hearing that I have been involved in and had the opportunity to listen to, there was a lot of concern about protecting small businesses. There was a great deal of concern about that. Having heard that concern and trying to build that in, the $4 million standard exemption exempts the vast majority of businesses in the state of Nevada. In doing so, it does not prevent us from capturing those businesses that the commerce tax was originally designed to capture. Those are businesses that benefit substantially from Nevada's economy by selling goods in our state, by trucking goods into our state, by taking advantage of our court system and other things, but who have very few employees in the state of Nevada. Because the way we choose to tax businesses today is largely through whether or not they have payroll here, those businesses today, in an absence of the commerce tax as currently constructed, would essentially be able to escape taxation. Importantly, businesses in the state of Nevada will bear a higher relative tax because businesses that have a relatively small presence here will pay less. That was something we wanted to avoid.

The last thing I wanted to mention, relative to the general structure of what is provided in the plan in all three of its parts, is the idea of the credit. Essentially what the credit says is that if a company pays the commerce tax, it can take 50 percent of that and use it against its payroll tax liability. Now, why would we do that? The reason is that the payroll tax, as it currently exists, is probably going to generate on the order of about $500 million a year. It is substantial in the state of Nevada. As Mr. Willden alluded to, it is our primary source of business tax today. The commerce tax, however, will generate only about $120 million a year. That means that labor-intensive firms in the state of Nevada will still bear a higher proportionate burden of the taxes than a capital-intensive firm that would be captured more so under the commerce tax. In doing that,

the credit provides some effort to balance the burden currently imposed and imposed in the future on a capital-intensive firm versus a labor-intensive firm.

Mr. Willden alluded to the buydowns. I will not talk through that again. We can certainly talk about some of the distributions relative to how our tax system will be shifted, and I am happy to go through those. But, Mr. Chairman, what I would like to do is talk through a few of the technical changes that are also included in the amendment from the last time it was discussed. I do so offering thanks to the legislators who offered some very meaningful changes from a technical standpoint. I would also like to extend my thanks to the Nevada Taxpayers Association. Ms. Vilardo submitted a number of questions and comments that have been reflected and, I think, add to the quality of the legislation. I would also like to extend my thanks to the Nevada Bankers Association, who spent a substantial amount of time providing some additional provisions as well. With that, I will walk through these and point them out because they are different than what was included previously.

In section 4, something that was left out previously was the concept of a limited liability partnership and a limited liability company under the definition of a business. This is one that clearly should have been included; it has now been included. In addition to that, there was previously the inclusion of an entity referred to as a combined group. This was an error. That has been removed from this draft and I think makes it much easier to administer and understand.

There are a few other sections that are here. I can walk through these in more specificity, but one of the things that the folks both from the Nevada Taxpayers Association and some of the technical folks from banking walked through was a need to provide some additional definitions in the bill. So we do define what a credit sale is; we define specifically what a loan is; we define what a pass-through entity is; we define what securities are. Some of these are technical definitions, but all of them merely solidify the intent as it was originally drafted.

Section 8 of the bill does make some notable changes. Section 8 of the bill specifically defines gross revenue. It talks about amounts realized. What is revenue that we are going to use for the state of Nevada? Some clarifications were provided relative to some things that could have been considered revenue but were never intended to be—things like giving money to a charity and getting a tax credit for that; reducing an expense and having to take something; doing a 1031 like-kind property exchange; or some other type of revenue that was not specifically considered revenue by generally accepted accounting procedures. The language has been added to section 8 to ensure that none of that indirect revenue would be included.

Section 14, which includes this concept of a passive entity, includes a limited liability company. In section 14, subsection 1, paragraph (b), we are talking about passive revenue. The concept of a limited liability company has been added to this definition. That is there. Of course, Mr. Willden talked about sections 20 and 23 through 48. In every one of those sections, the standard exemption has been increased from $3.5 million to $4 million.

There was some conversation in the last meeting we had regarding section 21, subsection 1, paragraph (e). It was brought up relative to carving out revenue that was subject to the liquor tax in the state of Nevada. That language has also been changed. It was pointed out that my understanding of what was being requested versus what was actually showing up in the bill was incorrect; therefore, it has been changed so that all that is being subtracted now is the actual amount paid in that liquor tax. Thus, instead of saying a company has $100 million in revenue and essentially all of that is exempt because they pay liquor tax on that, this now says that if the company generates $100 million worth of liquor sales and pays $10 million worth of liquor tax, they would then pay the tax on the $90 million. This is a material increase in what is included overall.

Section 21, subsection 1, paragraph (p) further defines—again, this is a purely technical revision—how dividends are handled and clarifies some of the questions relative to what is and what is not received revenue. Thank you to the bankers for providing that level of clarification.

Section 22 provides the definitions relative to how Nevada revenue is defined. How is it situsted in Nevada? There was some additional language that was offered to clarify that definition to simply say that if it is in Nevada, or the proportion of the service that is provided is in Nevada, it will be considered Nevada revenue. None of that changed the intent of what was provided, but I think it does provide clarity.

One of the bigger questions that came up as part of our discussion was section 50 of the bill. Section 50 of the bill essentially determines what type or form of accounting a taxpayer would use. There was some discussion early on that this should allow maximum flexibility to the taxpayer. They should be able to choose whatever form of accounting they wanted to reasonably choose—whatever made it easier on the taxpayer. Some of the discussion that came up was, that is fine, but realistically speaking, a taxpayer should be using whatever form of accounting they are using for their federal income tax purposes. If they are using the accrual method for federal income tax, they should be using that for tax payments in the state of Nevada. If they are using the cash basis, they should use that for the state of Nevada. Instead of allowing a taxpayer to appeal to the Department of Taxation for a change once every three years, they should only be able to make a change in the state of Nevada if they have made a similar change for their tax payments to the federal government.

Section 62—the buydown for overpayment in the event that we generate more revenue than we expect, as Mr. Willden alluded to—was changed such that it would include not only a buydown of the payroll tax as it is applied to all businesses generally, but also the payroll tax that is paid by financial institutions and is proposed to be paid by mines subject to the net proceeds tax.

Sections 71 and 73 are relatively straightforward in that they simply change the tax, as it is imposed through the business license fee, to the $500 and $200 that we talked about before. Then there are a number of new sections, 72.5 going all the way to 73.8, that merely make the adjustment for the annual filing fees that Mr. Willden talked about previously.

Those are the changes that are physically included in the document. I did commit to Ms. Vilardo to make a couple of clarifications on the record. I certainly do not speak for the Nevada Taxpayers Association or Ms. Vilardo, but just following up on my commitment, we agreed that the language was accurate but that clarification on the record would be helpful. The first one was a question about a foreign entity that had no activities in Nevada but had a managing member here. That is to say, they had a managing member that was perhaps providing some services but was providing those services to a business in Singapore, Toronto, or Mexico City, for that matter. Two things: number one, if the business had no activities and they were merely a presence here, they would have no tax liability as a result of the fact that they were not doing anything physically and they were not actively engaged. Secondly, if there is a service that is provided to someone outside of the state of Nevada, it would not be included as Nevada revenue anyway. I want to ensure that that is clear on the record.

In section 14, subsection 3, paragraph (a), subparagraph (1), there was a question about if a person were to perform management services but did not do anything else other than provide some type of management function for a company, would they be subject to the commerce tax? The brief answer to that question is yes. If they are in the business of providing that management service and they are generating more than $4 million a year from doing that, then they would be thought of as being in the business of providing that type of management service and therefore would be subject to the tax. However, one of the clarifications that we talked about and we thought was important to be made on the record is that section 14, subsection 3, paragraph (d) specifically notes that simply being on a board of directors does not constitute an active trade or business. Someone actually has to be in the business of doing those management services in order for that to arise.

With that, I would summarize by saying the Nevada Revenue Plan as it is brought before you was designed to provide the revenue necessary to fund the budget as it has been outlined and discussed and, in doing so, to provide a broader tax base for the state of Nevada, to provide increased equity among all taxpayers, and to bring in entities that might not otherwise be bearing a proportionate share relative to the economic opportunity that they have in the state of Nevada. I am very thankful both to the Legislature and to the number of businesses that have reached out in an effort to try and improve what was first proposed. I am very thankful to the legislators who brought forward plans of their own and for their thought and input as well. With that, Mr. Chairman, I am appreciative for the opportunity to be here, and I am happy to answer any questions that the Committee may have.

CHAIR ARMSTRONG:

Thank you, Mr. Aguero. At this point, we are going to open it up to the members for questions. I would ask the members to press their speak buttons and then I will call on them in the order in which I receive those. I would also remind the members that we are talking about the proposed amendment. I will give some latitude, but if you stray too far away from the amendment, then I will ask you to rephrase your question.

ASSEMBLYMAN HICKEY:

My questions would be to Mr. Aguero. I have two. I was quite uncomfortable with the commerce portion of the bill and the proposed tax but was pleased with the $4 million ceiling because that does protect a number of our small businesses like mine and, of course, many others in the state. My first question is, Approximately what percentage of existing businesses in this state do you think are below that $4 million ceiling?

JEREMY AGUERO:

The brief answer to your question is that it is in excess of 90 percent of the businesses that will fall under that threshold. I want to make sure that I am clear about this. There are two types of businesses in the state of Nevada, and this has created some concern as we have had this conversation. I think it is important that we are clear. There are businesses that are employer businesses; these are businesses that have employees and they pay wages, salaries, and those types of things. We also have about 200,000 businesses in the state of Nevada that are not employer-based businesses. If we think about it in the totality, really, I would estimate that in excess of 90 percent of employer and non-employer businesses would be under that $4 million standard exemption threshold.

ASSEMBLYMAN HICKEY:

The MBT [modified business tax] such as we are paying now is a fairly simple tax for employers to pay and to calculate. I have heard that one of the reasons we have had to move beyond that is because it is employee-based. Looking forward, why does that present a particular challenge to the economy that we enjoy now and the one that we are growing into? What is the rationale that brought us to the conclusion that the MBT simply cannot be enough of a vehicle to fund our needs for schools and other things in Nevada?

JEREMY AGUERO:

That is an excellent question. The modified business tax is stable and has been a consistent form of revenue for us in the state of Nevada. The challenge that we deal with in regard to the payroll tax is largely, as I think you alluded to in your question, by its very nature, it disparately impacts an industry that employs and sells labor while it does not do that for an industry that employs and sells capital. I want to be clear: The plan as it is in front of you does not eliminate that and does not get rid of the fact that it has been stable for us and is a good starting point relative to our revenue. What it does is recognize that it is probably not the whole package. In addition to that, if we think about major companies that are selling goods into the state of Nevada—shipping them across our roads and selling those things here—but do not have employees here, we are essentially disadvantaging Nevada-based companies that have chosen to put their employees in our state and, therefore, have wages and salaries.

In addition to that, the only other thing I would offer is that we are rapidly becoming an economy that is striving to diversify. Part of that diversification means that we are going to get into more and more entities that deploy technology and deploy capital and those types of things, which means that as that evolution occurs, we are going to want to have a tax base that is, frankly, as broad as possible. We have a very broad tax base among businesses that have employees or sell labor. It is much narrower on the other side. This allows us to bring in businesses that either avoid the tax as it is currently structured or do not pay it at all because they are simply selling their goods into our state.

ASSEMBLYMAN WHEELER:

I have two concerns I would like to address. I believe Mr. Aguero or Mr. Willden could answer these. On the commerce tax portion of it, I was very interested in Mr. Aguero's opening statements when he compared it against the margin tax in Texas. When I see this, and I have listened to most

of the hearings here, is the commerce tax not still a margin tax? Is it not based on the margins that authors of this have chosen for each type of business and the deductions that the authors have decided are acceptable and not acceptable, and then the tax is based on that particular margin afterwards? Then I do have a follow-up question.

JEREMY AGUERO:

In my opening statement, I alluded to the various forms of calculation in terms of trying to reflect that different businesses look differently and may need to have some adjustment relative to how we are going to include them. I do not want to leave this body or this Legislature with the impression that my reference to the state of Texas would suggest that this is the same thing as what currently exists in Texas as the Texas franchise tax. As a matter of fact, I recall a meeting we had early on, in October or November, where the charge was provided by the Governor's Office to look at all the different alternatives that were out there. You will notice that while there are elements from the Texas franchise tax, there are also elements from the state of Ohio's activity tax. There are also elements from the state of Washington. Frankly, there are elements that are simply unique to the state of Nevada. As was instructed, we have done everything we can to try and take the lessons learned from those states and apply them here in a construction that will work uniquely for the state of Nevada.

With that, the more specific question was, Did we, as the authors, work to simply construct something that is almost the same thing as the margin tax as it exists in Texas or—and I may be reading too much into your question—Question 3 that was defeated last November? I want to be clear in terms of my response here. In terms of Question 3, the tax rate is different; the tax base is different; the process in which we apply the tax is different; the yield is about a fourth of what it was under that tax; and in almost every meaningful way, it is different. The challenge that I commonly get when I give that answer is, Your starting point is the gross revenue line; therefore, it must be the same thing. My response to that is if I were to take total revenue and I were to deduct everything, every expense the business has, that would be a net income tax. I started with total revenue just like we do on our federal tax returns, and I subtract everything out of that. That is a net income tax. If I took gross revenue, the top line, my total Nevada revenue, and I did not subtract anything from it at all, I just left it alone, I just applied a single rate across the board to that, that would be a traditional gross receipts tax. We can point to other states that have something very similar to what was proposed by the Governor's Task Force on Tax Policy in Nevada back in 2003. If we start with that top line, that total revenue, and we subtract some of the things, we get what is referred to as a margin tax. The idea that all margin taxes are created equal is just—it is important to understand that everything from the definition to the process to the rates matters.

With regard to the question about whether or not the rates themselves were sort of chosen in terms of what would or would not be included in costs of goods sold, what would or would not be included in the cost of labor—again, we borrowed from the experience of the state of Texas who has gone through hurdles, legislative sessions, and lawsuits trying to better define what is cost of goods sold, what is cost of labor. Our understanding from talking to tax folks in that state and in other states is that this was a source of angst, a source of challenge, a source that made it very difficult for taxpayers to comply, having to go through the exercise of being able to always account and make sure they had it right. Exactly what is the cost of goods sold? We benefited from the state of Texas having information on various industries, and by industries I mean manufacturing, retail, wholesale, health care. Every single industry had an accounting for how much it had in revenue and how much it had subtracted in cost of goods sold or cost of labor or the standard exemption.

ASSEMBLYMAN HANSEN:

Mr. Chairman, I object. We all want to ask questions. There are 42 of us, and so far it has taken almost 15 minutes to answer the very first question. I would like to request that Mr. Aguero focus the answers to what our questions are actually trying to get to.

CHAIR ARMSTRONG:

Mr. Aguero, if you could be more concise with your answers, then we will get through more questions.

JEREMY AGUERO:

My apologies to the group and to you, Mr. Chairman. I will be more concise.

The immediate answer to the crux of the question is that we utilized information from other states in order to develop a set of margined rates that were based on knowledge of how individual industries had margins themselves.

ASSEMBLYMAN WHEELER:

You mentioned in your answer about federal tax returns. One of the things we have been talking about a lot in this session, especially on the education side of things, is data collection. As I look at sections 16 through 20 of this amendment, I see all the data collection that is going to be required. We could go through it, but I am sure everyone has a lot of questions so I will just ask you a yes or no. Will this be the largest data collection for business ever in the history of Nevada?

JEREMY AGUERO:

I do not know that I can answer that question in terms of whether it will be the greatest in the state of Nevada. I will be brief in my response in only saying that the revisions that have been brought to you today are designed such that whatever the standard records are that a business would normally keep for federal tax reporting purposes or any other is what we would request them to have here. If your question is more along the lines of whether we are asking all taxpayers to essentially submit a tax return, yes, that would be significant. I do expect that it will be relatively similar in terms of size and magnitude, in terms of number of filers, as we have under the business license fee today.

MIKE WILLDEN:

I would note that we can have taxation folks come forward if we need to. I understand those sections, 16 and 17, are standard language in other tax collection processes.

ASSEMBLYMAN THOMPSON:

Mr. Aguero, could you clarify section 15 for us? I want to be clear. Is it basically saying that if you have multiple businesses with various business categories that are specified in sections 24 through 49, only the top gross revenue-generating business pays the hybrid of taxes? Explain that better so that I am not misunderstanding it.

JEREMY AGUERO:

I think it is close to what you just said, just a little bit different. If I have a business and within my business I have multiple lines of that business that fall into various categories, the rate that I am going to choose in order to pay is going to be whichever category generates the most Nevada revenue.

ASSEMBLYMAN THOMPSON:

On accounting practices in section 17, subsection 1, paragraph (b), where you talk about preserving those records for four years, is that a standard accounting practice? Should we be holding on to those records longer than that before we purge them in the event that we need future audits?

JEREMY AGUERO:

It is my understanding, sir, that that is the standard language that is used most often in our tax statutes, so we are trying to be consistent with that.

ASSEMBLYWOMAN TITUS:

I am curious. It is no secret in this building that I am vehemently opposed to abatements because I think it creates winners and losers here in our state. Earlier this week, Steve Hill testified on S.B. 507 that providing subsidies to companies through the Catalyst Account was the most effective economic development tool Nevada had. So why does Nevada need to give subsidies to some businesses to get them to come here but somehow raising taxes on the rest of the companies in the state is not a problem?

JEREMY AGUERO:

I do not know that I have a response to that other than to say that at least as we have designed the proposal that is in front of you, I think that it aligns with our economic development goals without requiring additional abatements. I think your broader question is one along the lines of why we are raising taxes on one side only to give them away on the other. I wish I had a better answer for you other than to say I do not have an answer.

ASSEMBLYMAN OHRENSCHALL:

Section 71 of the amendment is the increase in the filing fee for foreign corporations. If this passes, I wonder how that is going to put us in comparison to our competitors like South Dakota, Wyoming, and Delaware. What do you forecast as the loss in corporations that we are going to suffer versus the gain in revenue?

JEREMY AGUERO:

We have attempted to take that into account based on some of the information that was provided by the Nevada Registered Agent Association. They were nice enough to give me a copy of the report, and I tried to review that. I also ran our estimates past your fiscal staff, and we tried to come up with an estimate. Right now, we are expecting a reduction in overall filings of about 12.5 percent in order to reflect that difference in terms of that increase.

ASSEMBLYMAN JONES:

Section 18 sets up the ability to basically audit a company—to go in and review their records. My colleague from the north talked about record keeping. Of course, we have to keep IRS [Internal Revenue Service] records, but is this in essence going to be creating our own mini IRS for the state of Nevada? In order to audit these records, what is the budget going to be for this new entity and group of auditors, and how many auditors do you anticipate it will take to go into our Nevada businesses and shuffle through their records?

MIKE WILLDEN:

The fiscal note that is currently prepared to attach with the Nevada Revenue Plan is approximately $2.2 million a year, $4.4 million over the next biennium. Most of that is start-up and IT [information technology] costs in the first biennium. It is my understanding that that cost would grow into the second biennium, so $4.4 million in the first biennium and it would grow to approximately $4.9 million in the second biennium. There are 23, I believe, staff associated in that fiscal note for this piece. I do not think that is a mini IRS. I would also note that according to previous testimony by the Director of Taxation and Mr. Nielsen, who was the previous Director of Taxation, the Department of Taxation already has auditors deployed throughout the nation and we would leverage that. There will be some additional staff, but we still believe that is a small administrative cost based on the revenue stream it will generate.

ASSEMBLYMAN SILBERKRAUS:

A concern I have is that health care providers, particularly doctors and hospitals, are concerned about low reimbursement rates for Medicaid and Medicare. Additional tax burdens may cause more difficulty in providing services to those individuals. Is there more that we can do to help providers meet their costs associated with providing services to low-income individuals?

MIKE WILLDEN:

Our suggestion is that there is a tax rate for the health care services, and we could have discussion about lowering that tax rate or trying to help that industry. There is some help for health care institutions in the commerce tax as proposed: 50 percent of their Medicaid/Medicare revenue is not counted in the revenue stream, and for other health care providers, all of their Medicaid/Medicare revenue is not counted in that revenue stream.

More to the point, we believe if there is additional investment needed, we should invest in rate increases to providers. If you followed the closing of the Medicaid budgets over the last months, there were rate increases to a number of providers such as laboratories and radiology. We did increase primary care physicians two years ago, and we will continue that rate increase. The budget was closed at a 2.5 percent increase going forward for hospitals in the two coming years. If you are going to invest money to help health care, we believe we should invest it where we can

leverage federal participation in that system. What I mean by that is there is a thing we call FMAP [Federal Medicaid Assistance Percentage]. Every Nevada General Fund dollar you invest to help a health care provider, you get roughly three or four federal dollars in match. So if you invest $5 million or $10 million, you can either turn that into $20 million or $40 million, and we think that is a better use of the dollars than reducing the tax load on that industry. It basically quadruples the effect of the dollar.

ASSEMBLYMAN HANSEN:
When the business license fee first came about in 1991, it was $25 and it was a one-time fee. Now we are up to $500, and I heard Mr. Aguero testify in the Senate on Senate Bill 252 that it was all the way up into the millions of dollars. While we are talking now about that $4 million exemption, when you look at the policy that has been conducted over time, we see that these have evolved to where more and more smaller businesses are quickly enveloped into these types of tax systems. I am wondering, while I understand why it is a good selling point right now, why should we not anticipate this commerce tax to follow the trend that the business license fee has followed where more and more businesses are incorporated into the payment of those things? Then I have a follow-up question.

JEREMY AGUERO:
First and foremost, I would certainly agree with your position. Over time, any tax system is going to evolve. The only specific response that I would have relative to the protection of the taxpayers is the buydown provisions that are included. To the extent that the revenue has come in more than 104 percent over expectations, that is not excess revenue but rather gets put back into the business tax and would buy down the existing payroll tax rate. I am not familiar with that being in any other provisions that I have worked on in the state of Nevada, and I think it does provide some degree of protection from your concern to the taxpayer. On a go-forward basis, this tax, like any other, will be part of the discussion we have. It is merely another tool in our toolbox.

ASSEMBLYMAN HANSEN:
The *Constitution* clearly says, "The Legislature shall provide by law for a uniform and equal rate of assessment and taxation . . ." yet this tax has 27 different rates in it currently. How does that jibe with our constitutional mandate?

JEREMY AGUERO:
With regard to the *Constitution* as it exists, I am certainly not going to substitute my judgement for your legal counsel's judgment relative to what Section 1 [Article 10, Section 1 of the *Nevada Constitution*] applies to. I would only point out that the provision of uniform and equal, at least in my mind, traditionally goes toward property taxes. We have different property tax rates even at that level almost everywhere in the entire state. If you live on one side of a border versus another side of the border, you pay a different property tax rate. We have different sales tax rates in this state. We currently have different MBT [modified business tax] and LET [live entertainment tax] rates. The idea of uniform and equal application of the tax in terms of property is what that is going to. But there are all kinds of examples where rates may be different to achieve a certain purpose. I would argue here that what we are actually doing in the different rates is not to create a disparate impact; it is to create more of an equitable impact between industries.

ASSEMBLYMAN HANSEN:
In section 9—I want to make sure I have this straight—it says, "'Nevada gross revenue' means the gross revenue of a business entity . . . ." So this is a gross revenue tax. It does not matter what your profit margin is. If you have $10 million in gross revenue and you have $10,100,000 in actual costs, you still pay on the gross revenue. Is that correct?

MIKE WILLDEN:
Yes, sir.

ASSEMBLYWOMAN SEAMAN:
I want to know if this commerce tax creates tax pyramiding issues.

JEREMY AGUERO:

Like all taxes, there is going to be some degree of pyramiding, not unlike our payroll tax today, the business license fee, sales tax, or property taxes. Those taxes are going to be built in at every layer of production, distribution, and retail sales in the state of Nevada. There will be some of that with regard to the commerce tax, just like there would be with any other business. We have, in the bill as it is currently constructed, taken a number of steps to try and avoid as much of the pyramiding as possible. If, for example, a retailer sells $100 worth of goods and collects $108 because they have to impose the sales tax, that sales tax is not included as Nevada revenue. It is not as though you are going to pay a tax on a tax on a tax.

In addition to that, there has been specific language to think about the relationship between a general contractor and associated contractors to make sure that we are not double counting revenue. There have been provisions in there to make sure that a broker or a real estate agent, for example, is not a double counting of revenue. There is also a concept of an affiliated group so that a company that owns multiple companies and provides services to them is also not double counted. While we are always concerned about pyramiding in our tax system, I think we have taken steps to limit it to the degree possible.

ASSEMBLYMAN EDWARDS:

I would like you to address two aspects of the tax, one being the discussion about it being broad-based. It has been stated that you want to broaden the base of the taxes; however, you also indicated that by putting the $4 million floor into the commerce tax, you eliminate over 90 percent of the businesses from paying. The logical consequence of that seems to be that you would have to lower that floor piece by piece until you are down to perhaps a million dollars in order to broaden that base. That, sir, puts us back at a margin tax, which the voters just rejected by almost 80 to 20. That is one of my major concerns because every precinct in my district voted almost 80 to 20 against the margin tax.

The other issue I would like you to address is the stability. You said that the MBT had proven to be a very stable source of income and that it has worked for us for years. However, in the committee meeting, you also talked about some of the risks involved in the commerce tax. In particular, the fact that we only collect it once a year means there are 12 months of not collecting any tax. If you add to that the MBT buydown, we could end up in a situation where you exceed the 104 percent of growth of the revenues, you therefore buy down the MBT rate, which will reduce your revenues for the following two years. If a recession were to hit a month or two after that buydown, we then have 22 months of reduced resources of revenues coupled with the fact that businesses will go out of business and not pay it. So we could end up with a huge budget hole. I would like to know how would you possibly address that and all the risks that would be involved?

JEREMY AGUERO:

With regard to the first portion of the question in terms of it being broad-based, the $4 million standard exemption, and the number of businesses that are paying—perhaps I was not clear in my original overview. I will try to provide some degree of clarity here.

If we take each one of the elements of the Nevada Revenue Plan by itself, we just look at them as though they are stand-alone, there are going to be shortcomings with each one of them. If we think about them as a broad structure, a strategy in order to deploy a tax in Nevada, I think that is where we get the stability. Each one of those component parts plays an important role. The business license fee allows us to hit a broad base of businesses, but it has the disadvantage of hitting all businesses evenly. The MBT is a payroll tax, so it disparately impacts labor-intensive businesses, but we are expanding it by lowering the base and bringing more folks in. Importantly, with regard to that MBT, I believe there was also testimony from the Legislative Counsel Bureau that something like 60 percent of the revenue is paid by only a fraction of the businesses—1 or 2 percent, something along those lines. This brings me to the commerce tax. The commerce tax is not designed currently to hit every business. It is designed to be part of a business revenue package that hits businesses that are not subject to the tax today and therefore will broaden our tax base by allowing us to have access to some base that we do not have today, either under the BLF [business license fee] as it currently exists or under the payroll tax as it currently exists. Combined, I think it stabilizes and increases the equity of our tax base.

With regard to the second portion of your question, which is more focused on the question of stability and the risks associated with that, my comments to this Legislature will focus on the concerns that were brought up by legislators. To your question, the concern is not that a tax that is like the commerce tax, that is essentially as broad as the economy can be, is in any way going to be unstable. As a matter of fact, we would believe that the tax with the broadest possible base and the lowest possible rate would have a tendency to be among the most stable. I will argue that should this go forward, it will likely be the most stable source of revenue we would have in the state of Nevada. In addition to that, the reason that we put on the credit between the commerce tax and the payroll tax was, in part, to ensure that we had some insulation against that specific risk. That is to say, if the commerce tax generates no revenue—I missed it altogether—there would be no credit against the payroll tax. It allows us to only have one be lower if the other one generates more money.

With regard to the timing issue, you are right, I do have some concerns about making it an annual tax, but what we heard overwhelmingly from both taxpayers and legislators is that we needed to lower the administrative burden on the Department of Taxation and the compliance burden on the taxpayer. Having it be paid only once each year as opposed to having it be paid four times a year goes directly to that. Essentially, we have lowered the number of taxpayers, or the tax that would need to be processed by the Department of Taxation, by 75 percent, I would argue, in going through that exercise.

The final portion of your question I believe was, Okay, I understand what happens if revenues come in over expectations, but what happens if we buy down that rate and then all of a sudden revenues come in under expectations? Again, the idea that the commerce tax is going to somehow lead to increased instability in our tax system is contrary to the structure of the option that is being considered here. That is to say, if we think about it in terms of hitting the broadest possible base in terms of business activity, it is much like that 1 percent of taxpayers that are paying 60 percent of the MBT. These are the right taxpayers that will generate substantial amounts of revenue and are likely to weather an economic downturn much more so than the smaller businesses that would otherwise be affected by a different option.

ASSEMBLYMAN EDWARDS:

I understand the desire to collect the additional tax and so on, but we are currently talking about netting about $60 million a year, which is, I believe, less than 1 percent of the overall budget. I do not understand how we could possibly leverage stability on 1 percent of the budget. I do not understand how that really creates the kind of stability of revenue that you say we are seeking. I think the MBT also offers you a much better opportunity to have a broader base simply by lowering the floor $5,000 or $10,000 rather than lowering the commerce tax from $4 million to $2 million to $1 million, and then we end up with our people saying, Well, it is nothing but a margin tax, which we have rejected. I do not understand how that $60 million is going to be leveraged so well.

JEREMY AGUERO:

Sure. In terms of response, your concerns are fair. Again, I think the reason why I would argue that it will stabilize our tax base and help increase the equity of our tax base is that we look at it as a plan in its totality—the business license fee, the payroll tax, and the commerce tax working together to provide us a broader and more stable tax base. You and I may disagree. You are correct from the standpoint that the net new revenue that comes between the two is going to be roughly $60 million, but the other side of that coin, of course, is that the commerce tax itself will generate $120 million. The reason for the net is that we are buying down existing payroll tax liability and in buying down that payroll tax liability, we are accomplishing the task of creating the equity.

With regard to the question of if the threshold were to be reduced from $4 million down to $1 million, would this relegate it to exactly the type of margin tax that was considered and rejected by the voters in November 2014, I would submit to you that the bases are different, the rates are different, and the yields are different. Yes, while it may have a gross element as some portion of the calculation, these are very different revenue-generating mechanisms.

ASSEMBLYWOMAN FIORE:

As a small-business person, and as I look at Amendment 7779 [Appendix A], I basically see S.B. 252 being put into A.B. 464. With all due respect to the both of you sitting at that table, as you are asking the small business communities to write bigger checks to MBT and pay bigger licensing fees—one of the reasons I got involved with politics is because I was kind of tired of politicians that do not sign the front of the checks making these laws that affect people like myself. So I am wondering if either one of you, with all due respect, sign the front of checks for MBTs or business licensing or everything you are asking the small business communities to do. Do either one of you that are trying to sell me this program—

CHAIR ARMSTRONG:

I am going to stop you because I do not think that is an appropriate question for the amendment. I think that is a statement. If you would like to rephrase it as a question to the amendment, then I will allow it.

ASSEMBLYWOMAN FIORE:

Okay. I will rephrase the question. As you are proposing this to the body, do either one of you personally understand the effects of what it will do to a small business?

JEREMY AGUERO:

Yes. With your permission, Mr. Chairman, I would be more than happy to answer the first portion of the question. I am a small-business owner. I have been a small-business owner for 17 years here in the state of Nevada, and this tax will affect me and my business in the same way that it will any other business that is in the same category.

ASSEMBLYWOMAN FIORE:

Could you be a little bit more specific because I am not really fond of these broad things?

JEREMY AGUERO:

Sure. I have a company in the state of Nevada called Applied Analysis. We are a professional services firm. As a professional services firm, we will bear the increase of a business license fee. We also pay payroll taxes and because we are a relatively small business, we will be disparately impacted by the increase going down from $340,000 to $200,000. So, yes, we will bear the increase. In addition, the rate increase on general businesses overall going from 1.17 percent to 1.475 percent will mean a 26 percent increase in our payroll tax as a company.

ASSEMBLYMAN ELLISON:

I have a couple of small questions. I am trying to go through this as much as I can. I am hoping that both of you gentlemen will be available for questions as we go because trying to read all this and trying to get it all soaked in is very complicated.

I am looking through here and you talked about the 2 percent of the net proceeds of mines. How is that formula going to come off? Is that going to come off as a total of the net proceeds? Because how the net proceeds of mining works is, a portion goes to the counties and a portion goes to the state. Could you hit on that? That is number one.

The other question, if you could, is in regard to the LLC [limited liability company] versus corporation, which you do have in here. I do not know if that is in section 25, by the way, on the net proceeds. Under section 4 when you talk about LLCs, are the LLCs going to be the same as corporations in your formulas? I think that is important because an LLC is a small business. Corporations are usually larger. So could you answer those two questions, please?

JEREMY AGUERO:

Thank you for the questions. With regard to the mining portion first, forgive me if I was not clear before. I will try to clarify now. This is not an increase on the net proceeds or the gross receipts of a mine like we have today under the net proceeds. The 2 percent is an increase in the payroll tax portion where mining companies are currently paying 1.17 percent. Instead of paying 1.17 percent and going to 1.475 percent like businesses generally, they will go from 1.17 percent to 2 percent, putting them essentially on the same level as financial institutions are today. So it is completely separate from that other piece.

With regard to LLCs and corporations—with regard to the business license fee, corporations are treated differently than any other business entity and by that I mean partnerships or LLCs. There are, of course, many of those corporate forms that exist out there. Corporations will see their annual business license fee increase from $200 to $500, as you alluded to. Some of the discussion that went on was that those have a tendency to be bigger businesses overall. With regard to the LLCs or the partnerships and even some of the sole proprietorships, their business license fees will be unchanged. They are at $200.

The second portion of your question was big businesses versus small businesses, so let us imagine a corporation or an LLC that has payroll in excess of $200,000. That would be a bigger business as opposed to something like a non-employer business—a real estate agent or something along those lines. You would have a larger business that would then become subject to the payroll tax to the extent they had taxable payroll in excess of $200,000 a year at a maximum. In that case, any corporate form—whether it is a corporation, an LLC, or anything else—is captured by that payroll tax so long as they actually have payroll.

The third piece would be the commerce tax. It does not matter if it is a corporation, an LLC, or some type of partnership formation. If they have more than $4 million, as a very large business they would be subject to that level. The distinction really between a corporation and a noncorporate entity only happens on that business license fee level.

ASSEMBLYMAN ELLISON:

Thank you, and I think you answered them very well. If you have a corporation or an LLC or partnership that is under $4 million, would they still be subject to audit?

JEREMY AGUERO:

I will defer to the Department of Taxation relative to audit questions. I understand that they would be subject to audit just like any other business would be, both in terms of the payroll tax—maybe your question is more specific to the commerce tax. Certainly, one of the reasons we want businesses to report is to have a sense of where they fall in the revenue stream. If they are just under the $4 million or just over the $4 million, we would want to know whether they are either in or out.

ASSEMBLYMAN STEWART:

In regard to the commerce tax and those entities from out of state that are paying little or no tax at the present time, do you have any idea how many of those would come under this? How much revenue would be raised from those who are not paying any or very little tax at the present time?

JEREMY AGUERO:

Unfortunately, I do not. When we see total demand for services and total economic activity in the state, it is all blended together. The ability to be able to specifically carve out a business that is out of the state and shipping goods in versus one that is physically located here and is selling those goods to people inside the state of Nevada—from the data that we have, it is almost impossible to distinguish.

The second half of your question is very difficult to answer because it is not as though it is a bright line. It is not as though companies have no employees or have all of their employees here. There could be companies that are shipping substantial amounts of goods into the state of Nevada and only maybe have one or two employees here. They may only have 30 or 40 employees here, somewhere along that spectrum, as opposed to the same company that is actually based in Nevada having 200 or 300 employees here. The second half of your question is equally difficult to answer because of that spectrum nature of how businesses are allocated.

ASSEMBLYMAN GARDNER:

You were talking about capital-intensive businesses being the ones that would be brought under this tax. Could you give us some examples of those? That was the first question.

The second question is, I want to find out all the effects this bill will have on small businesses. I know that they are kind of taken out with that $4 million, but is there going to be reporting or something like that they will have to do? What prevents a business from changing their NAICS [North American Industry Classification System] number? As far as I know, that is just something you tell the IRS. As far as I know, the state is not involved in that process.

The final thing is, in my understanding, the whole point of all these taxes is that we are trying to fix our educational system. What happens if that does not happen? What if we do these taxes and our educational system is not fixed?

JEREMY AGUERO:
Would you mind restating the first question? I got the other three. I could not hear you very well on the first one.

ASSEMBLYMAN GARDNER:
For the first one, which businesses would be brought under the commerce tax? I know they are going to be the capital-intensive ones, but are there examples of what kind of capital-intensive businesses we are talking about? Can you give us some examples, please?

JEREMY AGUERO:
When we think about a capital-intensive business versus a labor-intensive business and we think about larger enterprises, what are the largest capital-intensive businesses that we have in the state of Nevada? Things like wholesale trade, retail trade, transportation, real estate-related activities where essentially they are deploying some degree of capital. In addition to that, if you want to think about it in terms of out-of-state companies, as I have said in other hearings, I would certainly refer you to the Fortune 500 to look at all of the businesses that are out there. Let us look at pharmaceutical companies like Novartis and Pfizer that are selling goods in this state. Let us look at food companies that are shipping substantial food products into the state of Nevada and auto manufacturers that are shipping substantial amounts into the state of Nevada. Let us look at telecommunications companies that are generating substantial revenue from service fees from people in the state of Nevada and may only have a relatively small footprint. I do not want to leave you with the impression that there is only one kind of business because I can tell you that some of the most significant taxpayers in the state of Nevada are also going to be some of the service-related companies, but I do not want to leave you with the impression that there has not been some effort to try and create that equity. There absolutely is, and that is why I pointed out the ones that I did.

With regard to the second portion of your question, you asked the question about all the potential effects on small business. Of course, that is a very difficult question to answer as we like to think about things in terms of direct and indirect and induce the facts. But if we are thinking about it just in terms of businesses generally, under the business license fee, if a small business—and we can probably debate the definition of that—is a corporation, they are going to see a higher business license fee. If they are an LLC, a partnership, or something along those lines, they will not be affected by that.

Under the payroll tax, if that small business had payroll between $200,000 and $340,000, they are now going to be brought into the payroll tax base, so there will be an effect on them. They would pay essentially the 1.475 percent on that portion of their payroll, which they are not today because that threshold is higher.

Under the commerce tax, I have had people bring me examples of a partnership that generates $20 million a year because they sell some very expensive goods or something along those lines. I would have a tendency of saying that any business that generates more than $4 million a year probably is not that small. There are probably some businesses that will fall into that category that are maybe small in the nature that they do not have a lot of employees. I guess some of them will be captured, but the entire intent of the commerce tax and that standard exemption is to take out some of those businesses.

ASSEMBLYMAN GARDNER:
I am wondering about the companies that are under the $4 million and under the $200,000 in payroll. Obviously, they would have the state business license fee increase. I am wondering mostly about reporting or other things we may not have gone over. I apologize for not being more clear. I am just wondering, what about those businesses? I want to make sure that they do not have a huge reporting burden on them or something that is not being fully vetted here.

JEREMY AGUERO:
I apologize for answering the wrong question. With regard to the business license fee, they will do nothing different than they do with the business license fee today. Under the payroll tax, they will do nothing different than they do today. Remember that even some of those businesses that are employer businesses still have to report their payroll tax even if their amount of the payment is zero. Under the commerce tax, yes, they will have to file a commerce tax return once a year with their revenue and what rate they would be and essentially show that they have no revenue. You had a fourth question.

CHAIR ARMSTRONG:
Mr. Aguero, I will answer the fourth part because I think that is an important part of the equation that is not part of this amendment. A lot of the education spending that we are doing is categorical spending, so when that money is spent and they come back and they have to approve of those metrics or we approve as a body that those metrics are working and those programs are working, then we can decide whether or not to continue those programs.

ASSEMBLYMAN GARDNER:
What prevents a company from changing their NAICS code? As far as I know, the state is not involved in that decision.

JEREMY AGUERO:
I missed that question. I should have answered it. With regard to the NAICS codes, a taxpayer will have the ability, upon their initial filing, to identify the NAICS code that they think most closely associates their business. That should be relatively straightforward and alleviate some of the concern that has come up that somehow the Department of Taxation or someone else was going to assign it for them.

Of course, one of our concerns—and it has come up many times—is the potential for NAICS code shopping. They change or they just decide there is a lower rate over here, so I want to be that. The primary way we are going to avoid that is, number one, companies report that on things like their federal income tax returns. Importantly, the Nevada Department of Employment, Training and Rehabilitation already has NAICS codes assigned to the vast majority of major employer businesses in the state of Nevada. I believe it is a database in excess of 70,000 businesses. Again, all of the larger ones that have employees are included in there. This will give us an excellent basis to at least start to make sure that businesses are not rate shopping, if you will.

ASSEMBLYMAN O'NEILL:
I have two questions that I think will be fairly short. We have been talking about small businesses and big businesses in relationship to the business license fee. What is the definition of a big business and what are the percentages of the overall of big versus small within the BLF?

JEREMY AGUERO:
The definition of what is big versus what is small depends on where you look. The Small Business Administration provides some definition for that, but it really depends on which industry you are in. They will classify you differently. If we think about it in terms of the business license fee itself and if we think about the total number of employer businesses that there are in the state of Nevada, let us say there are about 70,000 of them. Again, not all of those are big and not all of those are small, but they are all going to be captured by that. There are roughly 180,000 non-employer businesses in the state of Nevada that should, at least theoretically, also be captured by that. The problem is that there is also a third category of business, and that is one that is essentially a paper company that is filing and has a business license fee with the state of Nevada. If we add up all three of those categories, they come to more than 330,000. Being able to gauge it exactly, relative to how many of those are small, is pretty tough to do, but I would certainly guess it is roughly half of them that would be in that small business category.

ASSEMBLYMAN O'NEILL:
Do you have any idea how many of those will be under the $500 business license fee and the percentage changes that you are proposing?

JEREMY AGUERO:
Do we know how many small businesses would fall under the corporation—

ASSEMBLYMAN O'NEILL:
Small and big. How many of the businesses now—

CHAIR ARMSTRONG:
Mr. Aguero, I will step in because this was one of the parts to A.B. 464 in its original form. When I was coming up with that consideration, I was trying to make a distinction between sole proprietors, partnerships, LLCs, and S corporations versus C corporations because, in my opinion, C corporations were generally larger corporations. Now under this, with the distinction between corporations and noncorporations, there is some overlap for S corporations because some start as LLCs and file S elections with the IRS. They would be treated under this plan at $200 for their annual fee. Some C corporations that file an S election would be treated at $500 as an annual fee under this plan. So the distinction between big and small was really a difference between C corporations and every other business entity.

ASSEMBLYMAN HANSEN:
Mr. Chairman, I have a quick question. We started at ten to one, and we are at the halfway point. I am hoping that we will have equal time for the opponents of the bill.

CHAIR ARMSTRONG:
We will. We will be taking a break in about ten minutes.

ASSEMBLYMAN O'NEILL:
I was looking at the rates. Help me understand—if I see the trucking industry has a very low profit in their businesses, but they are one of the highest taxed and would suffer a very high impact on their commerce tax, could you explain how that comes about? Why trucking, which has a very low profitability, is paying a much higher percentage?

JEREMY AGUERO:
With regard to the first portion of your question as it relates to profitability, every tax that we have in the state of Nevada—whether it is property taxes, payroll taxes, or sales taxes—is paid by businesses irrespective of profitability. The commerce tax operates the same way. With regard to why the rate is higher, much like real estate, the trucking industry and some others are going to be somewhat capital-intensive. That is to say, they deploy capital as an asset. They have an asset and then they generate revenue from it. They are going to have less cost of goods sold as a result of that. They are also going to have relatively modest labor because of the mix of how their business works. That is also why they pay a little bit less under the payroll tax that we have today. The reason that the rate is a little bit higher is solely determined by the fact that the cost of goods sold, that cost of labor, that standard deduction is just simply smaller in that particular industry than it would be in another.

ASSEMBLYMAN NELSON:
I have about ten questions, but I will limit it to two. My first one is, under the business license fee, as I understand it, LLCs will pay $200 per year and corporations will pay $500. Have you considered the fact that under *Nevada Revised Statutes* 92A.105, corporations can easily convert into LLCs and some may be doing this to escape their $500 tax? I understand that for a C corporation, that would be really difficult because they would have to sell their assets and things like that, but for a subchapter S corporation, that would be pretty simple. Have you factored that into your calculations?

JEREMY AGUERO:
No, sir, we have not.

ASSEMBLYMAN NELSON:
Okay. My second question is, I have heard varying opinions as to how this will affect economic development. Some have said this will be bad for economic development because it is higher taxes. Others have said it will be wonderful because it will provide more stability and also

strengthen our education system and the overall budget. If either one of you would like to address that, I would appreciate it.

MIKE WILLDEN:

I will repeat what I heard at previous hearings from the economic development folks, specifically Steve Hill from the Governor's Office of Economic Development, and I think EDAWN [Economic Development Authority of Western Nevada] was the other one testifying. They believe that there would be very little impact with this tax plan. They testified that what they hear most from businesses wanting to relocate here was that the problem with locating here was not tax-related; it was the poor education system that caused them not to come. So the testimony from those folks was that our efforts should be in improving our education system primarily.

ASSEMBLYMAN CARRILLO:

My question is regarding section 20. I want to find out how the $4 million was determined to be the amount versus a higher or lower number. Is it just an arbitrary number?

JEREMY AGUERO:

I certainly would not call it arbitrary. At the end of the day, there was a revenue target that we needed to hit. We wanted to balance the interest of trying to eliminate small businesses while at the same time generating the revenue that was necessary to fund the budget.

ASSEMBLYMAN CARRILLO:

In the same section, it talks about the businesses. My example would be that there are multiple Starbucks and multiple Walmarts—none of them are franchised, so they would be a conglomerate. Would they be all taxed as one, or would they be considered individual stores?

JEREMY AGUERO:

This is an excellent question. We ran into that exact problem as the business license fee exists today, and the brief answer to your question is that a business will have the ability to report in whichever way it currently operates as its corporate form. That is to say that if it operates as a number of units that rolls up to a single entity, of course we are eliminating that affiliated revenue associated with that, or if it just reports as a set of single outlets, we are only taxing that revenue one time. The goal was to try and structure it such that we are not asking a business to restructure how they currently exist today in the state of Nevada.

ASSEMBLYWOMAN SHELTON:

I wanted to get some clarification on the commerce tax. Let us hypothetically say that I own a hotel-casino. From your testimony before, it sounded like you were saying I would be able to pick what my tax rate is going to be for the lodging and what my tax rate is going to be for retail. How is that going to play out?

JEREMY AGUERO:

The way that it would work for a hotel-casino would be the same way that it would work for any other business. I guess it is a little different because they would be able to exempt their gaming revenue, which I want to be clear on. They would then be classified under the accommodations business category. The vast majority of them, I would assume, would fall under that particular category because that is where their revenue is, that is how they are classified by the Nevada Department of Employment, Training and Rehabilitation. I think your question is, Gosh, they do a lot of different things, right? They have restaurants. They have entertainment. They have all of those things, but they are going to report as a single taxpayer. Wherever they get the majority of their revenue, that is what they are going to be required to report as for the purposes of the commerce tax, not 26 different categories for that single business. It will be one category for each business based on where the majority of its Nevada revenue comes from.

ASSEMBLYWOMAN SHELTON:

So do they get to pick which tax? You lump that all together and then you get to pick which tax rate you want?

JEREMY AGUERO:
The brief answer to your question is yes, but I would only object to the word "pick." They will have to utilize whichever tax rate is consistent with where they generate the most revenue. You do not get to say, Well, I do these seven things; this one only represents 1 percent of my business but it has a lower rate, therefore I am just going to apply it. Whatever brings in the most revenue becomes what you are for purposes of commerce tax reporting.

ASSEMBLYWOMAN CARLTON:
Within our hotel-casino industry, we have a lot of subcontracted restaurants. So for those restaurants—or entities in a mall or whatever—even though they are associated with the hotel, they would still pay their own because they are not in with the hotel. That was my original understanding.

JEREMY AGUERO:
That is exactly right.

ASSEMBLYWOMAN CARLTON:
One of the things that came up in some of the discussions is that we have a lot of employee and citizen training programs out there. Some of them are nonprofits, so they are not going to be included. Some of them are small. Then we do have some for-profit educational opportunities out there for our citizens, and those will be taxed wherever their NAICS code falls. I do not know if it has come up in the Committee on Taxation or anyplace else, but it seems as though we are going to be taxing an educational opportunity to help pay for the state and education. I am not sure how many of those fall above the $4 million threshold, but I would be interested if anybody would know where those folks fall and what the impact on that would be because that will be borne by students. I would hate to limit opportunities. I do not think it will, but I think it is something we should look at.

JEREMY AGUERO:
Unfortunately, I do not have that level of specificity where I could tell you how many for-profit education enterprises would be in excess of $4 million. My intuition and yours, I think, would be the same, that there would be a limited amount. But I am sure that there will be some that are large and will fall above that threshold and they would be subject.

ASSEMBLYWOMAN DICKMAN:
Mr. Aguero, you seem somewhat unclear as to whether a business can be audited even if they fall under the $4 million cap. Yet section 18, subsection 1 says, "To verify the accuracy of any return filed or, if no return is filed by a business entity, to determine the amount of the commerce tax required to be paid pursuant to this chapter, the Department, or any person authorized in writing by the Department, may examine the books, papers and records of any person who may be liable for the commerce tax." Is that not an audit? Who determines whether they may be liable?

JEREMY AGUERO:
Thank you for the question. In order to clarify, my intent was to say early on that I would defer to the Department of Taxation relative to questions as they relate to audit. I will continue to do that, as they are the professionals who do that. The only thing I would tell you is that is the standard language that exists for our tax statutes in Nevada. As I attempted to say in my answer to the other question, perhaps not as clearly as I should have, that would be no different for all of the taxpayers that would be subject to the commerce tax.

ASSEMBLYWOMAN DICKMAN:
Basically, if you are a very small business, you probably will not be subject to the tax but you will be subject to the filing burden. Correct?

JEREMY AGUERO:
Yes.

CHAIR ARMSTRONG:

With that, the time is 2:32 p.m. We are going to take a five-minute break and then open it up for testimony after that. I am going to divide up the testimony. The time will be restricted for those who want to speak in support, opposition, or neutral. The time limit will be three minutes, and I would ask the speakers to be concise and make sure that it is in reference to the amendment itself. Thank you very much, Mr. Aguero and Mr. Willden.

Without objection, the Committee of the Whole recessed at 2:32 p.m.

IN COMMITTEE OF THE WHOLE

At 2:38 p.m.
Chair Armstrong presiding.
Quorum present.

CHAIR ARMSTRONG:

We are going to start. I want to explain how the testimony is going to work. We have 70 minutes. I only have two people signed in for neutral. I have a timer at my desk, so I will be timing three minutes for each person. We are going to do 30 minutes of support, 30 minutes of opposition, and then 10 minutes of neutral. The Sergeant at Arms will bring three people down at a time to testify at the table, and then each person will be allotted their time.

At this point, we are going to open it up for those who want to testify in support of the amendment. Would anyone like to come forward to speak in support of the amendment? [There was no one.] We will move to opposition. If anyone would like to speak in opposition to the amendment, please come forward.

RAY BACON, REPRESENTING NEVADA MANUFACTURERS ASSOCIATION:

For the record, Ray Bacon, Nevada Manufacturers Association. I think I will start by giving some clarity on some of the issues that impact the manufacturing sector a little bit and some of the complexity that we see as far as complying with this as it is written.

First of all, as a nation it has been fairly common that we are moving from a goods-based economy to a service-based economy. That has been widely touted in the press now for probably 20 years. A large portion of our goods economy has a tendency to be imported goods. At this stage of the game, I know of no mechanism where the state of Nevada could impose taxes on the companies that are under a free trade agreement. Our largest two trading partners in this country, and large trading partners in this state, are both Canada and Mexico. The North American Free Trade Agreement would not allow those corporations to be charged the tax, as I see it. We also have a free trade agreement with Korea; we will probably have one with Japan before this comes in place. What this effectively is doing, regardless of where the goods come from, is shifting that tax to U.S.-based companies. That is a point that I think is not addressed in this in any way, shape, or form.

Mr. Aguero talked about the pyramiding issue. In this country, as a general rule in the manufacturing sector, raw materials are not taxed for sales tax purposes or any other general basis, but then the finished good is subject to tax. That has been the common practice. That does not eliminate pyramiding, but it drastically reduces that. This will violate that principle. The way we do that in the face of residential housing and most construction is, we tax the materials and then we do not have a sales tax or any direct tax on the sale of the house. That was a change that we actually made in this state back in the 1950s. We started off with sales tax applying to the sale of homes, as well, and we took one look and said, That does not feel good, because all of a sudden that sales tax price, even at 2 percent, was a dramatic number. There will be pyramiding in this thing, and there is no way around that.

Assemblyman Edwards' point on the $60 million leverage number, if you take a look—and Mr. Aguero in previous testimony implied that the long-term goal is to increase the commerce tax and decrease the MBT [modified business tax]—if you do that, that $60 million roughly through the $600 million that we are going to be bringing in, means you would have to take this commerce tax, which right now is [allotted time was exceeded].

VICTOR JOECKS, EXECUTIVE VICE PRESIDENT, NEVADA POLICY RESEARCH INSTITUTE:

Thank you, Mr. Chairman. For the record, Victor Joecks with the Nevada Policy Research Institute, opposed to Assembly Bill 464. Regardless of how much the gross receipts tax brings in, there are inherent structural problems with that type of tax. First, it raises taxes on businesses that are losing money, which may put many of them out of business. As Mr. Bacon said, it creates tax pyramiding problems. These are some of the reasons that Texas has moved, just this week actually, to cut its margin tax by 25 percent. As Jeremy Aguero has noted, the commerce tax rates are based on the Texas margin tax. These were some of the same problems voters had with the recently defeated margin tax.

We have heard a lot of discussion today on the 27 different tax rates under the commerce tax and how and why each of those rates was selected. That discussion highlights why the commerce tax, as currently structured, flies in the face of Article 10, Section 1 of the *Nevada Constitution*, which says, "The Legislature shall provide by law for a uniform and equal rate of assessment and taxation . . . ." Now, it is important to point out, as has been noted, that the commerce tax will collect just $60 million in the next biennium, which will make it the twelfth-largest tax source behind the sales tax, sales tax commission, MBT on nonfinancial institutions, insurance premium tax, real property transfer tax, live entertainment tax, business license fee, cigarette tax, liquor tax, Secretary of State revenues, and short-term car rental fees.

Assemblyman Edwards made an excellent point. Unless you intend to increase the commerce tax in future biennia, how does a revenue source that is less than 1 percent of the budget create stability? It does not. I think what you are voting on with this bill is not just a $60 million tax, but knowing there are folks who want to expand it in the future.

Lastly, I think it is important to discuss the motivation for this tax increase. We have heard talk about the need to fund Governor Sandoval's education plans. There has been discussion about how this time there will be accountability for the education funding. In the last 30 years, according to LCB, we have nearly doubled inflation-adjusted per-pupil spending. So before we trust that there will be accountability for future spending, where is the accountability for the spending that we have already had? If you go back and look at the last big tax increase in 2003, then you look at what Governor Guinn said after the tax increase, he promised that he would create a commission to ensure accountability for the additional education dollars. Yet here we are, 12 years later, having the exact same discussions with the promises that this time there will be accountability. I think there has been this idea that somehow this will be the fix or this will be what is necessary to improve it. But if you look at Senate Bill 508, which is currently in Ways and Means, the Legislature is looking at spending an additional $1.5 billion in educational funding, and that is what they say will finally be the improvement. Of the $700 million in new spending this time, only $25 million is going toward [allotted time was exceeded].

PAUL J. ENOS, CHIEF EXECUTIVE OFFICER, NEVADA TRUCKING ASSOCIATION:

Good afternoon, Mr. Chairman, members of the Committee. For the record, I am Paul Enos. I am the CEO [Chief Executive Officer] of the Nevada Trucking Association. We are here today to support two-thirds of the revenue package. I think we made some good changes to the BLF [business license fee]. We do support an increase in the modified business tax; however, we do oppose the amendment that includes the commerce tax. The trucking industry, which in the state of Nevada moves 94 percent of the freight, would have a rate of 0.202 percent. Now, when you take a look at that, you go, That is not bad; that is going to hit the big trucking companies. When you look at the situs—I heard Mr. Aguero talking today about wanting to get those out-of-state guys that are not paying when they come in here and use roads. One thing I can tell you is that every truck—does not matter where it is plated, does not matter where it is buying its fuel—is paying registration and fuel tax in the state of Nevada if it is a commercial motor vehicle. The way that this amendment would treat the trucking industry would mean that all of our intrastate movements are exempted. That is the situs portion that is in section 22, subsection 1, paragraph (e) of the bill. It says we are only going to tax those movements that have an origin and a destination in the state of Nevada. So our big companies that are doing interstate movement, that are going outside the state—and most of our movement is interstate in Nevada. We do not make a lot here. We do not move a lot here. What we do move—we move ore, we move agriculture, we move food from distribution centers and warehouses into our casinos and restaurants, and we

move construction equipment. Those are the guys that we are going to be hitting here. With an average profit margin of 1.65 percent for our industry, a rate of 0.202 would give us an effective income tax rate of 12.24 percent. That is 27.8 times higher than the income tax rate in the state of California. So we can talk about economic diversification. We can say that this is okay for business. For the trucking business, this puts us at a rate 27.8 percent higher than California. We do have problems with pyramiding. We do think that is an issue.

I just want to say one quick thing. We are absolutely a capital-intensive business. Those trucks cost a lot of money. We are also a labor-intensive business. We need drivers to move those trucks. We are subjected to volatile prices in commodities that we need, such as fuel, that are traded on world markets that really do have an impact on our profitability. That is one of the reasons why our profitability is down. That is one of the number one reasons why we are here opposing that commerce tax, because even our companies that are losing money would have to pay it. We are opposed to the commerce tax. I would ask you not to do this, not to hurt these businesses. Thank you very much.

BRYAN WACHTER, SENIOR VICE PRESIDENT, RETAIL ASSOCIATION OF NEVADA:

Thank you, Mr. Chairman of the Assembly Committee of the Whole. My name is Bryan Wachter. I serve as the Senior Vice President of the Retail Association of Nevada. We are the second-largest industry in Nevada in terms of employment, representing roughly over $23.5 billion in state economic spending. We were a large partner in the fight against Question 3 in November. I want to clarify some points or provide a different perspective.

Mr. Aguero walked through a couple of reasons why he felt that the margin tax on the ballot was different than the question before you. The rate certainly is different, but the rate in this case is not elective as it was in the margin tax. This rate is based on a year's worth of data comparing the Texas economy to the Nevada economy, and Mr. Aguero has chosen what your profit margin will be for you. There are massive pyramiding problems when you tax at every rate of production. You are going to increase product prices at every single level.

Lastly, profitability—you heard testimony earlier from Mr. Aguero saying that profitability applies to all taxes. Well, with my property tax, I at least have an asset that I am able to utilize against that property tax. My modified business tax—it is very unlikely as a business that I will be losing money and will continue to be able to afford employees. After my revenue, my income, has fallen, I will be forced to let go of employees so it is unlikely that I will still have employees and still be paying the modified business tax. What is likely is after the July through June fiscal cycle of this particular tax, I will owe money and it will be more than what I was projecting in profits throughout the year. That is a bad reason to tax. Bad taxes are those that force you to make an economic decision you otherwise would not have made, and that seems to be the definition of this tax.

We were told during the hearing that there is a 25 percent chance that this revenue will not be realized. The modified business tax is your most stable, predictable tax that we have. The Economic Forum spent two minutes predicting it on May 1. We need to rely on the taxes that we know are going to produce and can produce, especially when they are funding important things—education, mental health, IT [information technology], pre-K. We have to go with what we know works. A net $60 million additional tax that attempts to tax people that are not here in the state, that we do not know if we can actually get, is the wrong message and it is the wrong way to stabilize our revenue system. Thank you, Mr. Chairman.

JOHN EPPOLITO, PRIVATE CITIZEN, INCLINE VILLAGE, NEVADA:

My name is John Eppolito. I am a former K-12 teacher. I am a parent with four kids in the public schools. I am not a paid lobbyist. My comments will not take three minutes. However, I did just email all the Assembly members my full comments, which would probably take you about two or three minutes to read. I am going to go with the shorter version right now.

I do agree that Nevada spends way too little on public education, but I am opposed to A.B. 464 because of what the money will be spent on. One thing it will be spent on is to implement Common Core. It has already failed in other states; it will fail here, too. It is just a matter of time and how many children get harmed before we stop it. Two, the inappropriate and harmful SBAC [Smarter Balanced Assessment Consortium] testing and teacher punishment related to the same. Third, the most insidious aspect of all—and over $9 million in the budget and nine new positions at the

Nevada Department of Education—is to collect, store, and share personal information on our children with almost anyone who asks. This is a bad bill. We need to discuss what the money is going to be spent on. Thank you very much.

WAYNE FREDIANI, EXECUTIVE DIRECTOR, NEVADA FRANCHISE AUTO DEALERS ASSOCIATION:

For the record, Wayne Frediani, Executive Director of the Nevada Franchise Auto Dealers Association. I represent 106 franchised new car and truck dealers that employ about 11,000 people. We have been in support of the education reform initially. We have no problem with the business license fee. We have no problem with the modified business tax. But we have a problem with the commerce tax.

We are an industry whose operating margin is very similar to the trucking industry—about 1.8 to 2.4 percent. Our numbers are big. They are large. But our costs of goods sold are large as well. From a net profitability standpoint, it affects dealers. I have a dealer who has run this number—and granted, it is a large operation. He will pay $802,000 under this formula. He is not going to pay $802,000 out of his bottom line. He is going to lay some people off to be able to cover that. That is the bottom line.

We are not anti-education. I do not like the policy. I think there were some better ideas that could have happened. I know for a fact that this will be harmful to economic development. In September of this year, the Governor asked me if we would support a modification of the franchise act to allow Tesla to come into Nevada because of economic development. We gave up dealer rights to do that because we felt it was important. Tesla's business model is very questionable whether they will even make it. Will the battery plant make it? Yes, I think the battery plant will make it. But we gave up some rights there for economic development. I just have a really hard time understanding how this is not going to impact economic development if this is passed. I would urge you not to pass the commerce tax as part of this bill. Thank you.

CHAIR ARMSTRONG:

Thank you, Mr. Frediani. Would anyone else like to come down and speak in opposition to this amendment? While those people come down, I believe we have someone down south in Las Vegas who was signed in for opposition. If that person is there, we can take his testimony while these people are coming up. Please state your name for the record. You have three minutes.

ED UEHLING, PRIVATE CITIZEN, LAS VEGAS, NEVADA:

My name is Ed Uehling, from here in Las Vegas. When this session started back in February, you had the choice of either doing things that would stimulate economic development or would discourage economic development and destroy the economy. Everything you do does one of these two things. Economic development means creating jobs, creating higher incomes, creating wealth, having fewer controls over people, having fewer taxes, and having a more efficient government. You have decided not to look at the actions of the government and rather to go to the public because you have decided that the government budgets are more important than our budgets—than our household budgets, than our business budgets, than the budgets in the private sector. You have decided to tax. There are two ways of getting taxes. You can either enlarge the pie that we have or you can impose higher rates and create new tax categories.

CHAIR ARMSTRONG:

Mr. Uehling, do you have comments to the amendment?

ED UEHLING:

Yes, I oppose it. I am against this amendment and these new tax categories because they are going to discourage economic development in this state. It was stated in the answer to one of the questions, What will happen if the education system continues to decline? And the answer given was, We will look at the metrics and we will do something about it. That is totally false. The Legislature, the government of the state of Nevada, none of the county agencies, none of the cities—governments do not look at metrics. They do not look at the outputs that they are giving. They are only interested in the inputs. I have had a couple of unique experiences. I moved here with my family in 1943 at the age of three, and I moved into a society that had very low taxes and actually functioned, to a large degree, better than the government does today. For example, the

output of the schools was better when I graduated in 1958 than it is today and yet we spend a lot more money today [allotted time was exceeded].

CHAIR ARMSTRONG:
Mr. Uehling, thank you. Your time is up. We will come back up to Carson.

BRIAN REEDER, GOVERNMENT AFFAIRS COORDINATOR, NEVADA CHAPTER, ASSOCIATED GENERAL CONTRACTORS:
Thank you, Mr. Chairman. For the record, Brian Reeder with the Nevada Chapter of the Associated General Contractors of America. We are opposed to Assembly Bill 464 with Amendment 7779 [Appendix A] because it implements a commerce tax. The construction industry is the backbone of a growing economy, and we all know that construction was hit very hard during the recession. Two out of every three construction workers lost their jobs, so we have seen what a recession can do. It is recovering right now, we are happy to say. But that recovery is still fragile, and the commerce tax makes the construction industry very, very nervous.

Briefly to the issue with pyramiding, it appears that the language we have here in this amendment is the same as Senate Bill 252. I know the proponents, the drafters, attempted to address pyramiding, but we think that there are still some problems. Specifically, if you are a contractor and a supplier, you will, with construction materials, pay the tax based on the same revenue. Another problem with the materials is, if I am a general contractor and my subcontractor payments can be pass-through revenue, why would I ever buy my own materials again if the materials are not pass-through revenue? We think that is a problem.

For those reasons, the AGC [Associated General Contractors] does not support the bill with this amendment. Thank you.

TERRY GRAVES, REPRESENTING NEVADA COGENERATION ASSOCIATES; AND SCRAP METAL PROCESSING GROUP:
For the record, Terry Graves, representing Nevada Cogeneration Associates and Scrap Metal Processing Group. I love Mr. Aguero and I appreciate his ability to present this third plan and make it sound like a different plan, but our problem is, you cannot fix our objection to the plan in that it is a gross receipts tax plan. It is basically the same conceptual plan that was presented in Senate Bill 252. I will not repeat the technical problems we see with it; they have already been stated by previous folks who opposed it. I would just like to point out that my scrap metal processing folks, who are barometers of the economy, are not enjoying a good economy right now. One of them has laid off a third of his crew in the last six months. There is simply not much scrap metal being produced. The scrap metal comes from construction, it comes from renovation, it comes from personal residences replacing appliances, and so on. That is just not happening now because the economy really is not in a full-bore recovery.

I want to make that point to the Committee of the Whole here, Mr. Chairman. I appreciate the opportunity, and I appreciate the Committee considering these comments from both myself and the others who were in opposition.

CHAIR ARMSTRONG:
Thank you, Mr. Graves. Would anyone else like to speak in opposition to the amendment? Seeing none, we will go back around to those in support. If you are in support, we will take you three at a time. Just a reminder that testimony is limited to three minutes.

SAMUEL P. MCMULLEN, REPRESENTING NEVADA BANKERS ASSOCIATION:
For the record, my name is Samuel P. McMullen. I am here representing the Nevada Bankers Association in support of this amendment. The Bankers Association, of course, had to review this like anybody else does as a business and, frankly, decided that they were going to pay their fair share in whatever way you guys decided, even to the extent that there is a 2 percent MBT for financial institutions included in this. They are going to basically step over that. They may try to do something about it in future sessions, but they believe that this actually works. It works for them, so they wanted us to be in support of it, and we are today.

We also wanted to thank you for considering in this amendment some of the amendments that we proposed that were of a technical and correcting nature. I would say, Mr. Chairman, to you and through you to the members of the body because I know some of them will ask, there is

nothing in these amendments that reduces the tax burden on banking. We did not ask for any of that and, frankly, I want that to be said. We clearly support this and wanted you to know that. Thank you very much.

STEPHANIE TYLER, NEVADA STATE PRESIDENT, AT&T; AND REPRESENTING CTIA – THE WIRELESS ASSOCIATION; AND ECONOMIC DEVELOPMENT AUTHORITY OF WESTERN NEVADA:

Thank you, Mr. Chairman. For the record, Stephanie Tyler, representing AT&T. I am actually wearing a couple of different hats today. First of all, on behalf of CTIA – The Wireless Association, made up of the four major wireless companies; we are all very fierce competitors, and this is a very competitive marketplace. We invest more in infrastructure and advertising than I think just about any industry in the United States today. We do not agree on a lot of things, but our four companies did come together, looked at this tax proposal, and considered it. After a number of our concerns were addressed, we are here in support of this measure.

Now I would like to shift to my AT&T hat. On behalf of our over 1,000 employees in this state, as well as our millions of customers, we believe that the tax structure is way beyond its time for being broadened in terms of spreading the load as far across the board as we can. As a major taxpayer under this proposal, we are here in support of this because of the need to address the educational system as we see it today.

Lastly, as a member of the EDAWN [Economic Development Authority of Western Nevada] Board of Directors, Mike Kazmierski was here during the original hearing and testified in favor. He was unable to be here today, but I would like to convey, on behalf of the Economic Development Authority of Western Nevada, their support for this measure as well.

JOHN GRIFFIN, REPRESENTING SPRINT, DIRECTV, AND DISH:

Mr. Chairman and members of the Committee, John Griffin here today on behalf of three companies: Sprint, DIRECTV, and DISH. Collectively, the three companies provide services to over half a million Nevadans. All three companies would pay all three aspects of this plan; they would pay MBT, business license fee, and the commerce tax. For all three companies—Sprint, DIRECTV, and DISH—this plan before you today represents a tax increase to their operations, and they are here in support of it. Thank you.

JIM WADHAMS, REPRESENTING LAS VEGAS METRO CHAMBER OF COMMERCE:

For the record, my name is Jim Wadhams. I apologize in advance if my voice is a little raspy. I think I have the cold that seems to be going around the room. I am here today on behalf of the Las Vegas Metro Chamber of Commerce. We appeared in support of the amendment that the Governor offered to Assembly Bill 464 and are appearing today again in support of the refinements that were offered today in Amendment 7779 [Appendix A]. We think this is an important element of moving this state forward.

The Chamber, as many of you know, has supported several of the major components of education improvement and reform. As always, when we need to make improvements, we have to pay for them. You have heard from the questions and answers that there are problems with all forms of taxation. These are no different. We feel like this is a good compromise and highly recommend that the state continue to monitor, go forward with, and support this amendment. Thank you.

DANA BENNETT, PRESIDENT, NEVADA MINING ASSOCIATION:

For the record, I am Dana Bennett. I am President of the Nevada Mining Association. The Nevada Mining Association represents Nevada's statewide mining industry in every aspect, from exploration and construction to operation and vendors. We are here today in support of the amendment that you are reviewing. We have been encouraged by the educational reforms that have been considered. We are Nevada's oldest and most enduring STEM [science, technology, engineering, and mathematics] industry, and we are the first ones who are affected when we cannot find graduates who are skilled in science, technology, engineering, and math. We believe that Nevada's educational system should be the most excellent system, and we think that this is an important way to get there.

The Nevada Mining Association has consistently supported the development and application of a broad-based business tax, and we think that this amendment provides that compromise.

Nevada's economy is becoming more diversified—it is more diversified—and it is time for our tax system to be more diversified. Thank you.

BILLY VASSILIADIS, REPRESENTING NEVADA RESORT ASSOCIATION:

Thank you, Mr. Chairman. Billy Vassiliadis, representing the Nevada Resort Association. First, let me say that my friend and colleague Paul Enos is in favor of two-thirds of the bill and we are in favor of one-third of the bill, so together we have a compromise that I think you can pass.

We appreciate the concerns of our business colleagues, as we have concerns about the MBT. As the largest employer having the largest payroll, it is a concern to us. However, we also know that the education system in this state is sorely in need of support and of being fixed. I have heard a lot about economic development and the good or bad that this will do for economic development. We have represented economic development agencies around the country. When we look at the surveys done of relocation managers, the top two things that come out are a trained workforce and a quality of life. Not taxes, but a trained workforce and a quality of life. I would say that this is the first step toward achieving those two goals.

Lastly, I would like to say—and I said this in committee several times—we need to continue this discussion. I do not know that this is a perfect tax bill. I do not know that there is a perfect tax bill. I think sometimes bills are better when everybody is a little bit upset, as we all are now. But at the end of the day, the discussion needs to continue. Looking at the broadening of the sales tax, looking at some stabilization of our property taxes, there are a lot of avenues that we need to look at to create as broad and stable of a tax base as we can and one that does not unfairly burden any one sector of our economy. Thank you, Mr. Chairman.

JOSH GRIFFIN, REPRESENTING BARRICK GOLD OF NORTH AMERICA; MGM RESORTS INTERNATIONAL AND NEVADA SUBCONTRACTORS ASSOCIATION:

Josh Griffin, here on behalf of three pretty different companies. First, I am here to support the bill and the amendment presented here for Barrick Gold of North America, which is the largest gold mining company in the state. I am also here to testify on behalf of MGM Resorts, the largest employer and the largest taxpayer in the state. Then, finally in support is the Nevada Subcontractors Association, which is an association of small businesses that are part of the residential construction industry. These are three very different companies who agree with a lot of the testimony that has been given. It is not perfect, but it is good. I know there is an expression, Let us not make the perfect the enemy of the good. I just appreciate being able to be in front of you today to support this important piece of legislation.

BILL WELCH, PRESIDENT, NEVADA HOSPITAL ASSOCIATION:

For the record, Bill Welch with the Nevada Hospital Association, representing 95 percent of all hospital beds in the state of Nevada, regardless of the type of hospital. We have analyzed the various tax proposals that have come through, and each of them has impacted our industry in a different manner. This proposal impacts us probably to the greatest extent of the tax proposals that were out there. Having said that, we have looked at the options, we understand that we are in the last two and a half days of the legislative process, and we also understand the importance of adequately funding our essential services. Education and the health care services of this state need this package passed. We are here today to support the proposed amendment as it has been presented to you today, and we encourage your support. Thank you.

BILL NOONAN, SENIOR VICE PRESIDENT, BOYD GAMING CORPORATION:

I apologize up front. I got Jim Wadhams' cold. I am Bill Noonan, Senior Vice President of Boyd Gaming Corporation, based in Las Vegas. I am here on behalf of our 10,000 southern Nevada employees who feel that the education system is in need of definite improvements. The improvements outlined in the Governor's plan, we believe, address a lot of the concerns that we have heard from our workforce.

Boyd Gaming, as most of you know, is a Nevada-based and Nevada-born company. We are proud of our heritage and our roots in southern Nevada. We are here because we believe in the decency of this tax package. While there is no perfect tax package, we believe this one comes closer to meeting the needs of the education reforms that were outlined by the Governor. So, on behalf of Boyd Gaming, we totally endorse the amendment and the bill as drafted. Thank you.

KARLOS LASANE, REGIONAL VICE PRESIDENT, CAESARS ENTERTAINMENT:

My name is Karlos LaSane. I am the Regional Vice President of Caesars Entertainment. On behalf of Caesars Entertainment, the third-largest taxpayer in the state, and on behalf of our 33,000-plus employees, Caesars supports this amendment wholeheartedly. It is time to make sacrifices, lawmakers. It is the time right now to dig down—we are all making sacrifices. I would appreciate your support on this bill. Thank you.

SEAN T. HIGGINS, REPRESENTING GOLDEN GAMING, INC.:

Sean Higgins, here representing Golden Gaming. Much like Mr. Noonan said, Golden Gaming is a homegrown company. The owner of the company is a proud product of Nevada education, K through 12 and UNLV [University of Nevada, Las Vegas]. When the Governor came out with his education plan, Mr. Sartini came out in full support of that plan. He is also in support of the amendment to Assembly Bill 464. Golden Gaming is both a capital- and employee-intensive business. This is a tax that will have a direct and significant effect on Golden Gaming. However, as a Nevada company, we felt it incumbent to support the Governor and this tax plan, and we fully support the amendment to Assembly Bill 464.

STEVE HILL, EXECUTIVE DIRECTOR, OFFICE OF ECONOMIC DEVELOPMENT, OFFICE OF THE GOVERNOR:

My name is Steve Hill. I am the Executive Director of the Governor's Office of Economic Development. It is a pleasure to be before you again. As you have heard, I am here on behalf of our office as well as economic development entities across the state, including the Las Vegas Global Economic Alliance, EDAWN here in northern Nevada, and the Northern Nevada Development Authority.

I would first like to put to rest the idea that this compromise proposal before you today as amended will have a negative impact on economic development. That is not the case. As a point to exhibit that, and in particular with the commerce tax portion of this amendment and compromise tax program, there will not be abatements that will be necessary for that commerce tax. I think that is an important point to make. The policy that this body has made over the years to provide the opportunity for abatements is to mitigate the negative economic development consequences that come with standard tax policy. In this particular case, because of the alignment the commerce tax has with economic development, those abatements will not be necessary.

The other important point that I need to make is that the commerce tax portion allows the distribution of tax revenue to be generated not only from Nevada employers but from out-of-state employers. It is the only component in our tax system that does that. That means that current and future Nevada employers who are competing for business in our state with companies from out of state will be on a level playing field and will pay less taxes as a result of that. An estimate has been made that about 25 percent of the commerce tax will be paid by companies that have operations out of state and do business in this state. That is a significant savings for Nevada employers, and it is one of the reasons that this will be in alignment with economic development.

CHAIR ARMSTRONG:

Thank you, Mr. Hill. Would anyone else like to speak in support of this amendment? [There was no one.] Seeing no one, we will move to neutral. Would anyone like to speak neutral to this amendment?

SCOTT ANDERSON, CHIEF DEPUTY SECRETARY, OFFICE OF THE SECRETARY OF STATE:

For the record, Scott Anderson, Chief Deputy Secretary of State on behalf of Secretary of State Barbara Cegavske. The reason that we are here in neutral is that we are just addressing the amendment and the parts affecting our office and our ability to maintain and attract businesses to our state. We appreciate and support the reduction of the business license fee on LLCs [limited liability companies] and other entities to $200, but we cannot support the $500 increase on corporations. We have to realize that corporations include large corporations, small corporations, S corporations, mom-and-pop corporations—every size corporation. This fee will apply to all of them, regardless of their size and regardless of their revenue stream. We are concerned because of the flight that this could cause. The majority of the entities that file with our office have no

nexus in our state; they can go to other states, they can stay in their home jurisdiction, and they do not have to come here. So we are very concerned. There is a significant risk of flight.

I apologize because I know we are short on time here. We also have a concern because of the fact that we are uncertain that we could implement this. We are already past the time of implementation. We sent out our renewals for July last month, and August will go out on Monday. Those companies can pay their business license fees 90 days in advance. Additionally, it will take us a while to ramp up and get our systems changed so that we can effectively have any change in business licensing.

With that, I urge this Committee to adopt a flat business license. Keep it at the $200 and consider having perhaps a modest increase in the annual list fees. We think that would help fill that void in changing from the $200 to the $500. We would be happy to work with all parties involved to come up with a resolution and a solution to this. I am aways open to questions.

MATTHEW TAYLOR, PRESIDENT, NEVADA REGISTERED AGENTS ASSOCIATION:

For the record, my name is Matthew Taylor. I am the President of the Nevada Registered Agents Association. We are here in neutral but specifically to address one concern we have regarding the even application of this $300 increase that is applied only to corporations. Currently, there are 307,000 entities on file with the Secretary of State's Office. Forty-six percent of those, or 140,000 businesses, are corporations. Small Business Administration statistics show that 99 percent of all businesses are classified as small businesses. Corporations are not bigger than LLCs, S corporations, small businesses. There are a number of reasons people choose corporations; size is not the main factor for that. We are concerned that this penalizes those same small businesses that we are trying to protect by reducing LLC fees. By applying this fee only to corporations, we are affecting those same businesses that happen to choose corporation as a structure.

Again, we would also urge this body to maintain a level business license of $200 and would agree with the suggestion that a modest increase in the list fees is probably a more effective and more acceptable plan for us. We look forward to working with this body and the Secretary of State's Office to find a solution to this concern.

MARCUS CONKLIN, REPRESENTING UNIVERSITY OF PHOENIX:

My name is Marcus Conklin, here today representing University of Phoenix and testifying in the neutral position on Amendment 7779 [Appendix A] to Assembly Bill 464. I testified earlier on A.B. 464 regarding the specific impact the proposed tax structure would have on the private education community. As you make your final determinations on the specifics of this bill, I hope you will keep in mind the importance and value of these nonpublic schools to our education system and to our continued economic recovery. In this classification, we find not only private universities like the one I represent but also trade schools, such as beauty and cosmetology schools, schools training students for jobs in the gaming and hospitality industry, schools in car repair and mechanical skills, and even some private K through 12 schools.

Not every student has the ability to attend a public college or university. These institutions fulfill a real need in our state: online courses, coursework offered in the evenings, education that accommodates those students who work a full-time or part-time job or perhaps have child care responsibilities they have to work around. These schools are also important to the students who live in areas not readily served by public colleges or universities. These education opportunities are particularly critical in our still recovering economy where we have so many workers needing to retrain because they have lost their jobs or there are simply no jobs available in their previous line of work. It is because these education institutions are so critically important to so many students who want to continue their education that I believe we need to ensure their continued availability and success.

I hope you will seriously consider reclassifying these schools, not to erase but to mitigate their future tax burden and potential cost to students. Mr. Chairman, when appropriate, I hope you would consider reclassifying nonpublic education institutions. This is easily done by deleting section 43 of the bill. In effect, this would move providers of education services from one of the highest tax sections to the unclassified business section in section 49. Thank you, and I would be happy to answer any questions.

CHAIR ARMSTRONG:

Thank you, Mr. Conklin. Would anyone else like to come up in neutral to this amendment? Welcome, Ms. Vilardo. I am sorry I have to use a timer. Whenever you are ready.

CAROLE VILARDO, PRESIDENT, NEVADA TAXPAYERS ASSOCIATION:

For the record, Carole Vilardo, Nevada Taxpayers Association. I will be very brief. I came up not as much in neutral but to thank Jeremy Aguero and the Governor's staff because I know I drove them crazy relative to getting amendments and putting forth the issues that we had. I do appreciate that they tried to accommodate as much as possible everything that was there. I did forget one thing, and I spoke to Mr. Aguero about it and I have spoken to Ms. Kirkpatrick about it, and that was to put a provision in that we had put in Senate Bill 252. It is section 161. What it does is, unless there is a willful mischaracterization of revenue, if there is an audit the first year, there are no penalties and interest attached unless it is a willful violation of the statute. There is going to be a learning curve on this.

I would like to echo that there will be unintended consequences. It happens with every tax. I think we tried as much as possible, whether you like this bill or you do not, to get the issues resolved that could be identified at this time. One was just mentioned by the Secretary of State's Office, and that is the fact on the subchapter S corporations. So you see that this is going to be ongoing. You will be back next year if you pass this. As good as it might be when you pass it, as many unintended consequences as you think you have captured, I hate to tell you, that is impossible with a tax bill. But I thank everybody for their courtesy to me and listening to what my objections were and trying to resolve them. Thank you.

ANGIE SULLIVAN, PRIVATE CITIZEN, LAS VEGAS, NEVADA:

My name is Angie Sullivan, and I am a Clark County School District teacher. I want to testify in neutral because the need for this money is great. I appreciate all the people that I have seen say very frankly that this is going to affect us and we have decided to step up because it is something our community and the state of Nevada needs. There is a realization that education is in crisis, and I understand no one wants to pay. I saw some very bold moves by some leadership today. Thank you for your leadership, for doing what the kids in this state have waited for for a long time. The teachers try hard, the kids try hard, but the bottom line is that we have to have the things we need to be able to make progress.

So I wanted to testify in neutral. I have been watching the hearing and making notes of who is for kids and who is not. Thank you for all those people who are courageous in doing this work because I know it has been a heavy lift and might come at great personal cost or maybe at the cost of your business. But the truth of the matter is, the kids who cannot speak at this microphone are the people who will benefit from this and from the work of your hands. Thank you very much.

CHAIR ARMSTRONG:

Is there anyone else down in Vegas? [There was no one.]

ASSEMBLYMAN STEWART:

Can I make a comment to end the public comment? This might be the last time that Carole Vilardo has to share her wisdom with us. I personally, and I am sure the rest of the body, would like to express our appreciation for her years of sharing wisdom and knowledge of the tax program in Nevada.

CHAIR ARMSTRONG:

Thank you, Mr. Stewart, and I hope that even though she is retiring, we see her in this body for many years to come. With that, the Chairman will accept a motion.

ASSEMBLYMAN PAUL ANDERSON:

Thank you, Mr. Chairman, and I congratulate you on a well-run committee today. Mr. Chairman, I move that the Committee rise and report back to the Assembly.

On motion of Assemblyman Paul Anderson, the committee did rise and report back to the Assembly.

Legislative Counsel's Digest:

Existing law imposes an excise tax on certain financial institutions at a rate of 2 percent of the total wages paid by the financial institution each calendar quarter. (NRS 363A.130) **Sections 1 and 2** of this bill require businesses that are subject to the tax on the net proceeds of mining to pay the tax on the wages paid by the business at the same rate as the rate paid by financial institutions under existing law. **Section 17 of this bill expires this increased rate on June 30, 2017.**

Existing law imposes an excise tax on certain businesses other than financial institutions at the rate of 1.17 percent of the total wages paid by the business each calendar quarter that exceed $85,000. (NRS 363B.110) On July 1, 2015, this rate is scheduled to change to 0.63 percent of the total wages paid by the business each calendar quarter. (Chapter 476, Statutes of Nevada 2011, pp. 2891, 2898, as last amended by chapter 518, Statutes of Nevada 2013, p. 3427; chapter 518, Statutes of Nevada 2013, p. 3424) **Sections 10 and 12-14** of this bill ~~[remove]~~ **delay** this scheduled rate change **until June 30, 2017,** and ~~[permanently]~~ **thus** provide for the imposition of the tax at the rate of 1.17 percent of the total wages paid by the business each calendar quarter in excess of $85,000 ~~[.]~~ **until that date.**

Existing law imposes an excise tax on the purchase, possession or use of cigarettes at the rate of 80 cents per pack of 20 cigarettes. (NRS 370.165, 370.350) Under existing law, the Department of Taxation must remit 70 cents

of the tax on each pack of 20 cigarettes, less the costs of collecting the tax, to the State Treasurer for deposit in the Account for the Tax on Cigarettes in the State General Fund, and the remaining amount of the tax must be deposited in the Local Government Tax Distribution Account for distribution to local governments. (NRS 370.260) **Sections 3-5** of this bill increase the excise tax on cigarettes to $1.80 per pack of 20 cigarettes and require the additional amount of tax to be deposited in the Account in the State General Fund. **Section 17 of this bill expires the increased amount of the tax on June 30, 2017. Section 16** of this bill requires a wholesale dealer who purchases a revenue stamp evidencing payment of the tax before July 1, 2015, but who has not affixed that stamp to a pack of cigarettes before that date to pay the additional tax on the stamp.

Existing law requires, until June 30, 2015, the advance payment of the tax on the net proceeds of minerals based upon the estimated net proceeds and royalties of a mining operation for the current calendar year. (Chapter 4, Statutes of Nevada 2008, 25th Special Session, p. 14, as last amended by chapter 518, Statutes of Nevada 2013, p. 3425) **Section 6** of this bill delays the expiration of this requirement for advance payment until June 30, ~~[2016,]~~ **2017,** and **section 11** of this bill makes conforming changes to related transitory provisions governing the duties of the Department of Taxation in ~~[2017]~~ **2018** and the appropriation and apportionment of money to counties and other local governments during that year.

Existing law provides that effective January 1, 2016, in computing the net proceeds from certain mining operations conducted in this State, a person may deduct certain amounts expended for health care for employees actually engaged in mining operations in this State. (Chapter 449, Statutes of Nevada 2011, p. 2690, as amended by chapter 518, Statutes of Nevada 2013, p. 3426) **Section 9** of this bill extends to January 1, ~~[2017,]~~ **2018,** the effective date of this deduction. **Section 8** of this bill makes conforming changes to transitory provisions governing the computation of the proceeds from certain mining operations for calendar years ~~[2016]~~ **2017** and ~~[2017]~~ **2018** and all subsequent calendar years.

Existing law requires, until June 30, 2015, an increase in the rate of the Local School Support Tax of 0.35 percent. (Chapter 395, Statutes of Nevada 2009, pp. 2191-93, as last amended by chapter 518, Statutes of Nevada 2013, p. 3426) **Section 7** of this bill ~~[removes]~~ **delays** the expiration date of this ~~[rate thereby requiring the payment of this rate indefinitely.]~~ **increase until June 30, 2017.**

The State of Nevada imposes a governmental services tax for the privilege of operating any vehicle upon the public highways of this State. (NRS 371.030) The annual amount of the basic governmental services tax is 4 cents on each $1 of valuation of the vehicle, as determined by the Department of Motor Vehicles. (NRS 371.040) Existing law sets forth depreciation schedules for determining the amount of the basic governmental services tax due each year for used vehicles and establishes a minimum tax. (NRS 371.060)

In 2009, the amount of the basic governmental services tax due annually was increased for used vehicles by reducing the amount of depreciation allowed and increasing the minimum tax. The revenue from these increases in the basic governmental services tax were allocated to the State General Fund until June 30, 2015, and then were required to be deposited in the State Highway Fund thereafter. (Chapter 395, Statutes of Nevada 2009, p. 2188, as last amended by chapter 518, Statutes of Nevada 2013, p. 3426) **Section 7** of this bill extends for an additional 2 years the period during which the increases in the basic governmental services tax are allocated to the State General Fund. Therefore, those increases will be deposited in the State Highway Fund commencing on July 1, 2017.

~~[Section 14.5 of this bill requires a person who, on or after October 1, 2015, and before October 1, 2016, applies for the issuance or renewal of a state business license to include in the application certain information concerning the revenue earned by that person from the sale of services used in this State.]~~

Assemblyman Hansen moved the adoption of the amendment.

Remarks by Assemblyman Hansen.

ASSEMBLYMAN HANSEN:

In 2009, at the time our state was in its worst financial crisis, Senator Raggio set up a series of tax changes that we have called the sunset taxes. They involve changes to the modified business tax and the business license fee. They required the mining industry to pay in advance on its taxation. There are other similar taxes in it, including a 0.35 percent sales tax that went to the Distributive School Account and today totals $376 million. Our state has not recovered anywhere close to making these things permanent. What this amendment does is extend the sunsets on these as was promised to the voters of the state of Nevada back in 2009.

We are still number one in the number of homes that are upside down on their mortgages. We are number two in the nation in foreclosure. Being a member of the small business community, I can assure this body that small businesses are still struggling financially. The idea that we are now going to make these taxes permanent is wrong in light of the original intent of Senator Raggio and the Legislature back in 2009. My amendment proposes to extend those sunsets for another two years, and if the economy of the state of Nevada substantially recovers, then we can revisit those. In light of the fact that our economy is still just barely getting going, this is the right thing for this body to do.

I should also point out that since the 2009 change, the number of business licenses that have come to Nevada for nonresident corporations has dropped off substantially. We have seen a loss of revenue that this state has relied on in the range of tens to hundreds of millions of dollars as those nonresident corporations are moving to Wyoming and other states we are no longer competitive against. Something as simple as changing the business license fee from $100 to $200 has hurt the nonresident efforts to come to this state. Right here in Carson City, there are a large

number of these resident agent businesses that are struggling now. We will be discussing further the other aspects of Senate Bill 483, including an even greater enhancement of the business license fee and how that will drive even more businesses out of Nevada. As most of you know who have studied the business license fee, that is basically free money. There are no children going to school from those. There are no increases in uses of our highways. It is one of the very best and most stable sources we have had for years.

I would urge this body to adopt my amendment to extend those sunsets, do the right thing for the economy, and keep these as temporary taxes with the expectation that our state's economy will improv and then we can revisit those in two years if that happens. I would urge the adoption of Amendment 1017 to Senate Bill 483.

Legislative Counsel's Digest:

~~[Existing law imposes an excise tax on certain financial institutions at a rate of 2 percent of the total wages paid by the financial institution each calendar~~

~~quarter. (NRS 363A.130) Sections 1 and 2 of this bill require businesses that are subject to the tax on the net proceeds of mining to pay the tax on the wages paid by the business at the same rate as the rate paid by financial institutions under existing law.]~~

Section 20 of this bill imposes an annual commerce tax on each business entity engaged in business in this State whose Nevada gross revenue in a fiscal year exceed $4,000,000 at a rate that is based on the industry in which the business entity is primarily engaged. In accordance with section 9 of this bill, the Nevada gross revenue of a business entity is determined by taking the amount of its gross revenue, as defined in section 8 of this bill, making various adjustments to that amount under section 21 of this bill, and then situsing that adjusted amount to this State pursuant to section 22 of this bill. Sections 24-49 of this bill set forth the rate of the commerce tax for the industry in which a business entity is primarily engaged. Sections 2-66 of this bill further provide for the administration, collection and enforcement of the commerce tax by the Department of Taxation in a manner similar to other state taxes. Sections 77, 79, 83, 85, 86, 89, 90, 93-95, 97 and 100 of this bill authorize the imposition of various types of disciplinary action against certain business entities who fail to pay the tax by the agencies responsible for their supervision and licensing. Sections 78, 80-82, 84, 87, 88, 91 and 92 of this bill authorize the Department to obtain certain records and information from certain agencies to assist the Department in its administration of the tax. Sections 96, 98, 99, 101 and 102 of this bill amend various provisions of existing law, including, without limitation, various provisions of the Nevada Insurance Code to specifically provide that entities regulated under that Code are required to comply with the provisions of the commerce tax.

Existing law imposes an excise tax on certain businesses other than financial institutions at the rate of 1.17 percent of the total wages paid by the business each calendar quarter that exceed $85,000. (NRS 363B.110) On July 1, 2015, this rate is scheduled to change to 0.63 percent of the total wages paid by the business each calendar quarter. Sec. 66. **NRS 360.510 is hereby amended to read as follows:**

360.510 1. If any person is delinquent in the payment of any tax or fee administered by the Department or if a determination has been made against the person which remains unpaid, the Department may:

6. If the notice of the delinquency seeks to prevent the transfer or other disposition of a deposit in a bank or credit union or other credits or personal property in the possession or under the control of a bank, credit union or other depository institution, the notice must be delivered or mailed to any branch or office of the bank, credit union or other depository institution at which the deposit is carried or at which the credits or personal property is held.

Sec. 101. **NRS 694C.450 is hereby amended to read as follows:**

694C.450 1. Except as otherwise provided in this section, a captive insurer shall pay to the Division, not later than March 1 of each year, a tax at the rate of:

(a) Two-fifths of 1 percent on the first $20,000,000 of its net direct premiums;

(b) One-fifth of 1 percent on the next $20,000,000 of its net direct premiums; and

(c) Seventy-five thousandths of 1 percent on each additional dollar of its net direct premiums.

2. Except as otherwise provided in this section, a captive insurer shall pay to the Division, not later than March 1 of each year, a tax at a rate of:

(a) Two hundred twenty-five thousandths of 1 percent on the first $20,000,000 of revenue from assumed reinsurance premiums;

(b) One hundred fifty thousandths of 1 percent on the next $20,000,000 of revenue from assumed reinsurance premiums; and

(c) Twenty-five thousandths of 1 percent on each additional dollar of revenue from assumed reinsurance premiums.

➥ The tax on reinsurance premiums pursuant to this subsection must not be levied on premiums for risks or portions of risks which are subject to taxation on a direct basis pursuant to subsection 1. A captive insurer is not required to pay any reinsurance premium tax pursuant to this subsection on revenue related to the receipt of assets by the captive insurer in exchange for the assumption of loss reserves and other liabilities of another insurer that is under common ownership and control with the captive insurer, if the transaction is part of a plan to discontinue the operation of the other insurer and the intent of the parties to the transaction is to renew or maintain such business with the captive insurer.

3. If the sum of the taxes to be paid by a captive insurer calculated pursuant to subsections 1 and 2 is less than $5,000 in any given year, the captive insurer shall pay a tax of $5,000 for that year. The maximum aggregate tax for any year must not exceed $175,000. The maximum aggregate tax to be paid by a

sponsored captive insurer applies only to each protected cell and does not apply to the sponsored captive insurer as a whole.

4. Two or more captive insurers under common ownership and control must be taxed as if they were a single captive insurer.

5. Notwithstanding any specific statute to the contrary and except as otherwise provided in this subsection, the tax provided for by this section constitutes all the taxes collectible pursuant to the laws of this State from a captive insurer, and no occupation tax or other taxes may be levied or collected from a captive insurer by this State or by any county, city or municipality within this State, except for taxes imposed pursuant to chapter 363A or 363B of NRS ***or sections 2 to 61, inclusive, of this act*** and ad valorem taxes on real or personal property located in this State used in the production of income by the captive insurer.

6. Twenty-five percent of the revenues collected from the tax imposed pursuant to this section must be deposited with the State Treasurer for credit to the Account for the Regulation and Supervision of Captive Insurers created pursuant to NRS 694C.460. The remaining 75 percent of the revenues collected must be deposited with the State Treasurer for credit to the State General Fund.

7. A captive insurer that is issued a license pursuant to this chapter after July 1, 2003, is entitled to receive a nonrefundable credit of $5,000 applied against the aggregate taxes owed by the captive insurer for the first year in which the captive insurer incurs any liability for the payment of taxes pursuant to this section. A captive insurer is entitled to a nonrefundable credit pursuant to this section not more than once after the captive insurer is initially licensed pursuant to this chapter.

8. As used in this section, unless the context otherwise requires:

(a) "Common ownership and control" means:

(1) In the case of a stock insurer, the direct or indirect ownership of 80 percent or more of the outstanding voting stock of two or more corporations by the same member or members.

(2) In the case of a mutual insurer, the direct or indirect ownership of 80 percent or more of the surplus and the voting power of two or more corporations by the same member or members.

(b) "Net direct premiums" means the direct premiums collected or contracted for on policies or contracts of insurance written by a captive insurer during the preceding calendar year, less the amounts paid to policyholders as return premiums, including dividends on unabsorbed premiums or premium deposits returned or credited to policyholders.

Sec. 102. **NRS 695A.550 is hereby amended to read as follows:**

695A.550 Every society organized or licensed under this chapter is hereby declared to be a charitable and benevolent institution, and is exempt from every state, county, district, municipal and school tax other than ***the commerce tax imposed pursuant to sections 2 to 61, inclusive, of this act and*** taxes on real property and office equipment.

Assemblyman Armstrong moved the adoption of the amendment.

Remarks by Assemblymen Armstrong, Hansen, Fiore, Titus, Wheeler, and Kirkpatrick.

ASSEMBLYMAN ARMSTRONG:

Amendment 1039 to Senate Bill 483 makes the following changes to the bill.

Effective July 1, 2016, 50 percent of the proceeds from the 10 percent increase in the depreciation schedule from the governmental services tax are deposited in the State Highway Fund and 50 percent of the proceeds are deposited in the State General Fund.

The structure of the modified business tax upon nonfinancial institutions is changed to include an exemption for the first $50,000 in taxable wages per quarter and the rate of 1.475 percent on all taxable wages over $50,000 per quarter.

The business license fee for certain corporations is changed to $500 per year and the $200 fee for other business entities that was scheduled to sunset on July 30, 2015, is made permanent.

The Nevada commerce tax, which is to be paid by certain businesses that have at least $4 million in Nevada gross revenue during a taxable year based on their industry-specific rate, is created. Provisions allowing a business to credit 50 percent of its commerce tax liability in the previous year against the business's modified business tax liability in the current year are created.

Provisions requiring businesses to submit additional information relating to revenues in conjunction with the application of the state business license between October 1, 2015, and September 30, 2016, are removed.

ASSEMBLYMAN HANSEN:

I rise in opposition to Amendment 1039 to Senate Bill 483. My opposition is based primarily on this thick amendment that was just dropped into our lap less than an hour and a half ago. We have not had a caucus meeting on it. We have not had an opportunity to discuss it. While I realize it is probably, for the most part, rolling Assembly Bill 464 into Senate Bill 483, I think it is wrong for this body to vote on what, by my mathematics, is almost a $1.5 billion tax increase which is included in this amendment and the original bills. I urge my colleagues to vote no until tomorrow.

Roll this until tomorrow so at least we have an opportunity to read the specifics of the bill and have an opportunity to discuss it, not only among ourselves but with people in our own districts who may be very concerned over a billion and a half dollars' worth of tax increases.

ASSEMBLYWOMAN FIORE:

I rise in opposition to this amendment. I am going to ditto my colleague from the north. I believe the 77 pages of an amendment into a bill should be considered diligently and not sneakily in this Chamber.

ASSEMBLYMAN ARMSTRONG:

I rise in support of the amendment. I would remind my colleague from District 32 that this body as a whole has undertaken this tax policy that this amendment covers over the past 119 days. We have had numerous hearings in the Senate and in the Assembly. Yesterday, we had a Committee of the Whole that went over most of this amendment. I rise in support, and I would encourage everyone to adopt this amendment.

ASSEMBLYWOMAN FIORE:

I rise in opposition to the statement of the Assemblyman from District 21. Yesterday as we, as a whole body, listened to this amendment, I instant messaged him several times to ask questions. He refused. I have screenshots of those IMs [instant messages], which will be public. I urge everyone to vote no on this. I was denied several times to ask questions of this body yesterday.

ASSEMBLYMAN HANSEN:

I, too, rise to challenge what my colleague from District 21 said. While it is true that we had a Committee of the Whole, we were not allowed to ask questions. We did not have a caucus meeting. We have not had an opportunity for all 25 of us to actually discuss and decide what the policy should be on this. So the idea that we are being unreasonable in asking such a simple request for a meeting and an opportunity to read and thoroughly digest this amendment and then discuss it among our own members is really a stretch.

Again, I would urge my colleagues to vote no. What I would prefer, Mr. Speaker, is to have it rolled to General File for tomorrow. That would be an opportunity to still vote on it, but it would at least give us an opportunity, which is completely reasonable, to read it, digest it, and question all the elements in it. Again, this is a $1.5 billion package.

ASSEMBLYWOMAN TITUS:

I, too, rise in opposition to Amendment 1039 and would like to clarify that the Committee of the Whole heard an amendment to A.B. 464. Now we have an amendment to Senate Bill 483. We have not had time as a caucus to vet this and I, too, object that this is now being slipped in at the ninth hour.

ASSEMBLYMAN WHEELER:

I, too, rise in opposition to this amendment, not so much because of the amendment itself, but because I really do not know what is in it. We have only had it about an hour. I have heard what is in it; I have been told what is in it. But I have not had an opportunity personally to read it, except about half of it. I want to make sure of the things we did in the Committee of the Whole. I want to make sure that the vetting that was done on other bills in Ways and Means, where I was able to watch the videos of those—I want to make sure that that is exactly what is in the bill and there have not been any changes that I am unaware of. At this point, I am not yet satisfied that I am fully aware of everything that is in this amendment because of the time constraint, and I would request that we vote no on this and bring it back tomorrow.

ASSEMBLYWOMAN KIRKPATRICK:

I rise in support of Amendment 1039. I am always one that has talked about making sure we have time to read amendments. People from Ways and Means would remember that I said this morning there are many things that are coming so people should know this is the end of session. To those people who say they have not been able to read it, I have been in this Chamber since 5:30 this evening. It was on my desk. I did go through it. When an amendment comes out,

typically we only look at the green language because that is what has changed since yesterday. It is very clear in the bill which sections have changed.

Assemblymen Hansen, Shelton, and Wheeler requested a roll call vote on the motion.

ASSEMBLY IN SESSION

At 6:58 p.m.

Mr. Speaker presiding.

Quorum present.

MOTIONS, RESOLUTIONS AND NOTICES

Assemblyman Paul Anderson moved that Senate Bill No. 483 be taken from its position on the General File and placed at the top of the General File.

Motion carried.

GENERAL FILE AND THIRD READING

Senate Bill No. 483.

Bill read third time.

Remarks by Assemblymen Armstrong, Dickman, Hickey, Fiore, Titus, Hansen, Edwards, Nelson, Woodbury, Benitez-Thompson, Shelton, Kirkpatrick, Carrillo, Jones, Ellison, Stewart, Diaz, Paul Anderson, Neal, Elliot Anderson, Joiner, O'Neill, Wheeler, Carlton, Silberkraus, Spiegel, Munford, and Trowbridge.

ASSEMBLYMAN ARMSTRONG:

I rise in support of Senate Bill 483. When this session began, it was supposed to be all about education. We have certainly debated many other contentious issues on this floor. When you look at our final results, it really has been all about our kids. There is no silver bullet for fixing an education system lagging as far behind as it is in Nevada, and this vote alone will not fix that. I am confident with this vote because we are no longer throwing more money at the problem but truly making an investment into programs that have had such great success in other states. We have passed education savings accounts, empowering parents like never before. We have created the Achievement School District. No longer accepting failing schools, kids will not be promoted to fourth grade until they can read. We are increasing spending in a targeted way with more accountability than ever before.

We have looked at every possible tax option to get to the Governor's budget, and this is the final vote making it to our floor. I promised the voters in District 21 I would not raise taxes to fund business as usual in Carson City. I feel with this vote I am keeping that promise. No bill, especially a tax, is perfect, but a yes vote today is better for the people of Nevada. I urge your support.

ASSEMBLYWOMAN DICKMAN:

I rise in strong opposition to this bill. As I was running for office, I talked with thousands and thousands of voters, and the number one concern they had was to defeat the margin tax. The margin tax was soundly defeated. As a candidate, I told voters I was opposed to the margin tax and every single Republican candidate that I know of was opposed to it as well. That is why I am amazed that we are about to vote on the largest tax increase in state history that includes a modified version of the margin tax. As a freshman legislator, there are lots of things I have no control over. One thing I can control is this. I will keep my word to my constituents, and I will be opposing this tax bill.

ASSEMBLYMAN HICKEY:

I rise in support of Senate Bill 483. Many of us, veterans or young at the time, stood in this body and took a gamble during the 30th Special Session in October on new opportunities for the state of Nevada in the form of Tesla and other things that we are seeing grow within our fine state. Along with those opportunities came the responsibility and a challenge to fund and develop a workforce that has grown out of our schools and out of our population to be successful in meeting that challenge.

We all sat here together, new and old alike, on January 15 and heard the State of the State from the state's Chief Executive, who also took a gamble as a member of his party in suggesting that we do something bold and ambitious—that is, to tackle the challenge of education in ways that we never have heretofore in Nevada. I am here tonight in support of this bill because I think this legislation—and all of the categories, programs, and assessments—has gotten us to a point where I feel confident in taking that gamble on our future. I think this is a risk, but it is one with great rewards which come along with a commitment and a challenge and certain risk to us as elected folks. Frankly, that is what we got sent here to do. I personally am proud to make this vote as a member of my party and as a proud Nevadan. I urge my colleagues to do so as well.

ASSEMBLYWOMAN FIORE:

I rise in strong opposition to S.B. 483. Many of us here in this body ran on promises that we are about to break. Our integrity and character are on the line. I urge my colleagues to vote no on this bill. The taxpayers, the voters, the constituents—80 percent voted down Question 3, I might remind all of you. This yes vote tonight is basically telling our voters and constituents that they do not know what they are talking about and we know better. It is quite condescending if we pass this out of this body. I urge every one of you to vote your conscience because your integrity and character are on the line with this one vote.

ASSEMBLYWOMAN TITUS:

I rise in strong opposition to S.B. 483. I find it a complete insult to the taxpayers and small businesses of the state of Nevada. Many of us made promises to them when we ran. I, too, made them a promise that I was going to come to this great legislative body and this building and represent my district and the citizens of Nevada as honestly and as true as I could. To see so many who also made those promises go back on that is heartbreaking for me. I also say that this bill is a complete insult to those who voted against the margins tax, as many have said, and I am going to say again. The fact that we have offered so many abatements to new companies that come to this state that have no investment in this state yet we are throwing this kind of tax at those companies and citizens who have stayed, made their payroll, and survived the Great Recession. It is overwhelmingly disappointing to me, so I will be a no on this vote. I would encourage those who still have some integrity to vote no also.

ASSEMBLYMAN HANSEN:

I rise in opposition to Senate Bill 483. It is hard to know where to start, Mr. Speaker. We have been calling this a commerce tax, but in fact it is a gross income tax on businesses. I think we need to call it what it really is. Last session, we had 15 Republicans in this. Today, we have 25, and it has to do directly with Question 3. Four hundred and twenty-nine thousand Nevadans said no. That is four out of every five, and I would bet almost five out of five of the members in my party said no to that. The Governor himself aggressively said no way are we going to have a margins tax, yet this is exactly what it is.

The education question needs to be addressed because there is a certain sense of déjà vu. If you go back to 2005 in this very Chamber, you heard Governor Guinn stand right there and he said these very words: "The Governor's Commission on Excellence in Education will oversee this unprecedented influx of funding for public education." In 2003, they passed an $800 million tax increase, which was exclusively for education, and the Governor said, "I will mandate a system of checks and balances to ensure that this funding produces results for our children." I challenge anyone to find those results. Once again, we are going to raise taxes and spend it on education. Where are the performance and accountability metrics, the checks and balances, from the last $800 million tax increase that we had in this very body? I would challenge us to say that before we go and spend more of the taxpayers' money on these programs, we find out what happened to the money that we have already spent, which is consistently what everybody in the state of Nevada has requested. They do not have a problem spending more money.

By the way, our current budget for total K-12 is $4.2 billion per year. So, while we heard some members from the south suggesting that we do not have books in our classrooms, I would certainly ask, Why do we not have books in our classrooms when we are spending $4.2 billion? I would suggest the first thing we should do is start with finding out what we did with the money previously. There are some excellent programs, and I would agree that the Read by 3 program is certainly something we should look at. I am not suggesting that the entire education package—there are 17 components to it, by the way, Mr. Speaker. Some of those are excellent; those are the kinds of things we should discuss and then vote on item by item rather than throwing more money at it and thinking it is going to work.

The most critical portion of this whole tax is this commerce tax, which has 27 different components in it, 27 different things for the business community. Now, every single business in Nevada will have to open their books whether or not they qualify for that $4 million floor. As my colleague from the south correctly pointed out, it is a safe prediction it will consistently drop over the next few years. Every business in Nevada basically has to be audited, or face the threat of audit, by some new agency within the Department of Taxation. Call it what you will, but it is some form of an IRS [Internal Revenue Service] arrangement.

This building really is a bubble. When we were all running for office, the voters were so smart, and we went to every door asking them to support us. Once we get into this place where we have hardly any contact with those people, suddenly those same 429,000 voters are not nearly as intelligent as these dozens of very well paid, high-dollar lobbyists who come in here and tell us how those 429,000 people were wrong. I would suggest we pierce that bubble. One thing that I have learned as a small-business man—do you know how many lobbyists out there represent the small-business man? Just about none. None. So while we sit here and listen to these experts and we have the entire Governor's staff busy lobbying all the members of this body on those swing votes consistently for a week and a half now—virtually every day the entire staff is standing at the entrance to the Chamber. I think we should ask ourselves if those are the people that we promised we would support if we got elected. No, they are not.

What I am going to reiterate is that we were elected, every one of us, by the 65,000 people in our districts. Do you really think that the 80 percent of those 65,000 that said no to a margins tax are too stupid now and that we are somehow so much smarter than them? We, in our infinite wisdom, are going to reject them. In my entire life—and I have been involved in Nevada politics since I was 4 years old sitting on my dad's shoulders watching Barry Goldwater at the Reno airport—I have never seen a mandate like this. Eighty percent of the voters said no and now we are going to sit here and say we are smarter than you. We are going to reject what you did in that election cycle. We are going to ramrod down your throats this new so-called commerce tax. I think it is disgraceful.

In winding up, we have not even covered the BLF [business license fee], but I did a little bit on the earlier amendment. It is also going to bump those numbers way up, and we are going to see even more of those nonresident corporations driven out of the state if this bill passes as it is.

One other thing I want to cover quickly, Mr. Speaker—a lot of people are asking why I am not supporting the Governor. Well, I tell you, I do support the Governor. I support the Governor that we thought we elected when we elected him. For example, here is his handout: Stop job-killing tax increases. Brian Sandoval opposes a corporate income tax that will kill Nevada jobs and weaken our ability to compete for new business. That is the Governor I am supporting.

One last thought on class size reduction—we are budgeting $400 million for class size reduction. The Department of Education was audited by our own LCB [Legislative Counsel Bureau] audit staff, and they found that they had spent $381 million on class size reduction and they did not follow any of the procedures laid out by statute. Basically, they spent all that money and nobody knows exactly what they did. By the way, $381 million would buy an awful lot of books. So before we spend any more money, I would encourage this body to insist—what happened to all that audit stuff from Kenny Guinn's days? Ten years have gone by, and here we are again. Let us dump more money into education. Let us sap all that money out of the private sector. Let us force all those small businesses that are still struggling in this economy to pay more and more tax dollars in spite of the fact that our economy is still lousy. Have them pay in when we have not even accounted for the $800 million tax increase from 2005.

I would urge this body to vote no on S.B. 483 and acknowledge what the voters told us to do here. I think that the voters were very wise, and I think that we need to recognize that 429,000 of them probably have, collectively, more wisdom than the 42 of us do in spite of being aggressively lobbied by the best lobbyists that you can buy as well as the Governor's entire staff. I would suggest that you think very carefully about this vote because out of all the votes you have taken this entire session, this is the one. This is the one that you are going to be held accountable for when you go to your district and your constituents say, "What are you doing? All your campaign literature said you were going to vote no, yet you voted yes on it." Well, you know what, Mr. Voter? We are smarter than you. We know better than you. You did not get to talk to the experts like we did. I would encourage all my colleagues to acknowledge what the voters told us to do and vote no on Senate Bill 483

ASSEMBLYMAN EDWARDS:

Tonight, I rise in opposition to Senate Bill 483. When I was running for office, I did not run on a campaign to give people a tax break, I did not run on a campaign to give people a tax hike, and I did not tell them I would keep them all even. What I told my voters is that I was going to do my best to get the lowest tax burden for individuals, families, and our businesses. I think that is a very reasonable approach.

Having worked in Ways and Means these past several months, I saw the impact of the $700 million our budget was cut by several years ago. Our state employees have been working like dogs with pay cuts, furloughs, diminishments of everything. They have been faithful and true to us, and we need to be faithful and true to them. I am absolutely willing to vote for revenues that would restore the pay they have lost, to make sure they do not have to take the furloughs, and to make sure that they get longevity pay and the COLAs [cost-of-living adjustments] that we talked about. I voted for such things, and I would support such things.

When it comes to our infrastructure, we have talked about how we have been diminished. We have had to put off fixes, repairs, and maintenance. I have voted in favor of providing the funding for all those things, as we should. I supported it, and I would more than happily fund it.

What I have also done is gone through the different budgets to find ways that we could save money and cut programs down to a size that would be more reasonable and better at this time. I have voted to eliminate some programs because I did not think that we could afford them or that we had to do them right now. I have also offered a multitude of options for how to reduce our costs, how to cut our budgets, how to save money. Thankfully, some of them have been taken, and I am grateful that they have been. Unfortunately, the bulk of them have not even been tried.

Funding what we have to do and funding what we need to do is also part of our job. I fully support a revenue program that would fund these programs in a good fashion for the individual Nevadan, our families, and our businesses. I believe that this Assembly put forth such a program under the original version of A.B. 464. I believe that the Chairman of the Committee on Taxation put forth a great set of ideas for how to get us there and not hurt our businesses. Tragically, A.B. 464 has been morphed by amendments and by the inclusion of additional amendments tonight. Sadly, I cannot support the new program because of what it has morphed into, including what we will all soon call the poison pill: this commerce tax.

As the witnesses spoke to us yesterday right here in our midst, we know that the $4 million floor is going to be brought down lower and lower because the requirement to broaden the tax base cannot be met at the current rate. So in order to broaden it, that rate must fall. When it falls,

it will become nothing short of a margins tax. Like most of you, my voters were absolutely opposed to the margins tax. We all know that businesses spent millions of dollars to defeat it. I believe, like most of you, I knocked on the doors and asked people what they thought about it, and four out of five times, sometimes more, they said do not do it. I told them that I would not. Knowing what this will become, I have to be true to my people. I have to live up to my word to not allow this to happen. It may not happen in this biennium, but by the admission of the Governor's representatives themselves, it is sure to happen in the future.

We also talked about having more stability for our education system. By the admission of the Governor's representatives, there is instability and risk involved in this kind of a program. Funding this program of hundreds of millions of dollars cannot be done by a tax of only $60 million. Surely this will change and not for the better. We also do not know what the burden on businesses will be. We have been told that this is not going to be a mini IRS, that not everybody will be audited, but having worked in and around government long enough, I believe that it will. I also believe that it does not have to be that way.

Tonight, we have a choice. We can make the choice to say no to Senate Bill 483 and replace it with something that would work. By the Governor's own admission, other plans can work. Assembly Bill 464 in its original form would work better for my families, for my businesses, and my people in my district, and I would gladly have supported Assembly Bill 464. We are going to have to make a choice. My choice tonight has to be no. In order to be true to my people in my district, I must say no, and I must also urge you to say no as well.

ASSEMBLYMAN NELSON:

I rise in support of Senate Bill 483. First, I need to address my colleagues from my own party who know a lot about the *U.S. Constitution*. I love the *U.S. Constitution*. I even love to read *The Federalist Papers* and think about constitutional law. It is different on the state level. We are not the United States Congress; we are the state of Nevada. The founding fathers wanted limited government, but they were talking about the federal government. They always wanted a very vigorous state and local government. That is what they fought for.

As you know, in the *U.S. Constitution* we have Article I, Section 8, which limits what the federal government should do. It is a list of things the federal government should do. I would be the first one to argue that the federal government is operating way outside the scope of Article I, Section 8. I would vote against tax increases at the federal level, but it is different in the state of Nevada.

All of us took an oath the very first day to support the *Nevada Constitution* as well as the *U.S. Constitution*, and I wonder how many of us have read the *Nevada Constitution*. Let me quote something for you. Here is Article 11, Section 6, Subsection 2: "During a regular session of the Legislature, before any other appropriation is enacted to fund a portion of the state budget for the next ensuing biennium, the Legislature shall enact one or more appropriations to provide the money the Legislature deems to be sufficient, when combined with the local money reasonably available for this purpose, to fund the operation of the public schools in the State for kindergarten through grade 12 for the next ensuing biennium for the population reasonably estimated for that biennium." That is a lot of legal language. Basically, it says we have to fund education first. If you keep reading that section, the same applies to special sessions.

I know everyone in here likes to live up to their oaths and their campaign promises. It is easy to sit at home and spout the party line—I did it based on my limited knowledge of our state's archaic tax system and significant challenges in public education. I initially opposed the proposed budget and new tax plan, again, based on my limited knowledge at the time. But in the last few weeks, I have spent many hours talking to legislators and lobbyists, both in favor of and opposed to the budget and tax plan; studying proposed plans; analyzing the budget cuts over the past few sessions; questioning the architects of the competing tax plans; and just thinking. I gradually changed my mind and now honestly feel that Governor Sandoval's plan for education reform, budget, and new tax plan is right for our state.

The revenue plan is not perfect, but it is elegant in that it balances taxation more appropriately over a broader scope of businesses and better reflects the changing economy of the state of Nevada. What finally convinced me was hearing from the heads of economic development throughout the state that they want this bill because many companies have refused to come to Nevada, not because

of taxes but because of our poor education system. They want their employees to be able to send their children to good schools, and they want employees they can hire who are ready to work.

We owe this to the rising generation. This building has been here before any of us here started to serve, and it will be here long after we leave. It is a sacred trust we have here and a great privilege to serve here. I know you all feel that way. We may disagree on how to get there, but I honestly feel that every member of this body, in good faith, wants to do what is best for our citizens and for our constituents. And if we disagree on how to get there, we should not lower ourselves to personal attacks and questioning each other's integrity. We have to do what we think is right after doing our due diligence. That is the word we use in corporate law, and I think you all know what that means. I have done months of due diligence, as all of you have. Maybe it is because I am almost 60, but I am not too afraid to say I was uninformed. I made a mistake. I sat and spouted the party line of no new taxes no matter what. I dare say, there are some philosophies that even if ISIS [Islamic State of Iraq and Syria] were storming our building to kill us all, we would not raise a penny in taxes, and I do not think that is appropriate.

This is a representative body. I had an interesting chat with my beloved wife last night and had another with her this morning. She supports me, but I had to explain to her that you need to give us the benefit of the doubt. I have sat through hours and hours and hours of hearings, like you have. I have sat down with the architect of this tax plan, the proponents of the tax plan, the opponents, and everybody in between. I have come to the conclusion that this is best. I know that I have offended a number of my very best friends, both in this Assembly and in my home. A number of my constituents are calling me. They are even calling my wife saying, What is your husband doing? It is funny. Before I came here, I was a right-wing extremist; now, I am a RINO [Republican in name only]. Fine, call me what you will. I have thought about this. I have fasted. I have prayed. I think this is the right thing to do. I think you can come to a different conclusion based on your personal experience.

I have had some lobbyists who were, I thought, my best friends until two days ago. Now all of a sudden, according to them I have no integrity, I am not doing what I really think is in my heart, and I have been cajoled and threatened by the Governor's Office. Someone even suggested I have been promised things from the Governor's Office. So I took the bait and said, Yes, that is true. I was promised a judgeship. Someone said, Really? And I said no. And for the record: Governor Sandoval has been a perfect gentleman to me through this whole thing. He has never pressured me. He has answered my questions. He has never threatened me, and he has never promised me anything. The same with his staff. I resent any insinuations to the contrary.

This is not Question 3. This is a different tax. It has been modified a lot. It reflects our growing and changing economy. When 70 percent of our economy is services, we cannot continue to tax 30 percent and build what I think is a shack, keep adding chimneys and new floors, and hope it will not fall down. We have to broaden the base, and this tax does that. It also will reach companies making millions of dollars in Nevada but because they do not have any employees, they do not pay a cent in tax.

I had a very good conversation with someone the other day who told me that his company just purchased millions and millions of dollars from an out-of-state computer company. I am not going to say the name, but you would all recognize it. It is a Fortune 100 company. All the state of Nevada got out of that was a small use tax, just because that company is not here. This new commerce tax will reach some of those things. The $4 million floor, hopefully, will never be lowered. Of course, we cannot bind future legislatures but, hopefully, it will not.

When I ran, the first thing I said was that I am promoting economic development. The second thing I said was that I want to keep a stable tax base. I think with this bill, I can do both of those things. The third thing I said was, let the sunset sunset, and I am going to have to break that promise. But, with Mr. Hansen's amendment, it is only for two more years. Hopefully, the economy will continue to grow and we can reevaluate that. Oh, wait. Did that fail? I apologize. Never mind. I am going off my notes and I have not slept too much in the last three days.

To wind up: As I said, I have changed my mind. I hope my colleagues will support this bill.

ASSEMBLYWOMAN WOODBURY:

I rise in support of Senate Bill 483. Many of my colleagues know that my students in Henderson are afforded the luxury of a five-star school. Far too many of Nevada's students are

trapped in failing schools and are falling through the cracks. It is bad for our economy. It is a cost on social services and creates a cycle of poverty that we can no longer accept. I am supporting this bill because we have enacted so many bold education initiatives that target underperforming schools and provide a real choice for our parents like nowhere else in the country. I hope education is no longer viewed as an expense in this state, but as an investment. I urge my colleagues to join me in supporting this bill.

ASSEMBLYWOMAN BENITEZ-THOMPSON:

I rise in support of Senate Bill 483. I stand proud to rise in support of this bill as we put Nevada on a new path and a new trajectory forward. It is something that we have talked about a lot as policymakers in this building, but it has eluded us. As our children prepare to get out of school in the next two weeks, we are going to be starting their future. Over the last two days, some of you might have noticed that I have had my daughter with me. I have her with me for a very important reason. She was serving as my compass during these last couple days when debate ramped up, when it looked like all hope for a change in the way that we conduct business in this state might be lost.

My daughter attends a two-star Title I school, and I have to be able to look into the eyes of the rest of the children at her school. I also have to be able to go home and answer to my own children about how I fought for them in this building. I cannot serve as a legislator and not make a difference that impacts their lives. I want for them a future in which high-paying jobs are available to them and a future in which they are qualified for those high-paying jobs because of the stellar, outstanding education they have received in this state.

We need to stop importing highly gifted and smart folks with high educations from outside our state to take these jobs. We need to be growing our own leadership and growing our own future. I will vote for Senate Bill 483 not only because of what it does for education but because of what it is doing for our social safety net. As a social worker in a hospice program, I spend my days with impoverished seniors who have outlived family members. They might be widowed. They might not ever have had children. They are alone, and so many of them have been on a waiting list to receive support services from the state. I can list the names of so many folks who have died waiting for services so that they could be safe in their home. This will change that.

This bill will make a meaningful impact in people's lives, in our constituents' lives. I know that when I was first elected and sent here by my constituents, I had to make hundreds of millions of dollars in cuts to education and hundreds of millions of dollars in cuts to health and human services. In the space of two hours, more than $40 million was cut out of mental health, and we saw that did not serve us well. This is the real change that my constituents have been looking for. For the first time since I was elected, I know that I get to push a button that is really going to be changing the way that we conduct business in Nevada and the way that we are growing this state. I am proud to support Senate Bill 483.

ASSEMBLYWOMAN SHELTON:

I have been getting tons and tons of emails from people saying to vote no on this. I agree with my colleagues that the voters voted no to the margins tax back in November. Some might argue that this is not a margins tax. I would say to those people: If this is not a margins tax, why am I still getting people sending me emails and making phone calls to tell me to vote no on this bill? I am getting texts as I sit here from constituents telling me to vote no. The people of Nevada do not want this, and I implore my colleagues to vote no.

ASSEMBLYWOMAN KIRKPATRICK:

I would like to remind this body about a couple of things. I was one of those 429,000 that voted against Question 3. I am going to tell you why. It was not the right policy. There were a lot of flaws in it, but I took it upon myself to come to this building and to do what was right for the tax structure of the state. Anyone who comes into this building with their mind made up and says that they cannot make a decision because they have already made it before they have even heard the facts—that is unfortunate because it takes you out of the game.

Whether or not all of these lobbyists in this building tell you something, if you sit on the committees and pay attention, we do many things. There are things that I do not always agree with in this building, but I make sure that my colleagues in the rurals have schools that they can

go to, I make sure that they have roads that they can use, and I make sure that they have jobs. For my folks that live in the north, I make sure that they have the economic opportunities that they want. I make sure that those kids also go to school. Down in the south, I make sure that the kids do not have to have 50 students in a third grade classroom because I work hard to support things such as class size reduction.

I would also like to remind everybody that we represent our state. We represent constituents, and it is our job to come here with an open mind and to think about what we have to do that is in their best interest. Many people forget that we walked into a shortfall. I am sure none of you knew that when you were out campaigning because about six of us knew that. I did not ask any of my constituents what I should do about the shortfall. I told them. I spoke to well over 180 businesses within a six-month timeframe and not one time did I say I am scared to vote for taxes because I might get unelected. Not one time. What I said was, I am going to go there with an open mind.

We have to be serious, folks. We have to talk about a revenue package that works for everybody. We have to talk about a revenue package that is stable for the state. We have to talk about a revenue package that helps our small businesses work, and this revenue package does. To say that small businesses are going to be hurt by this—I do not know that I consider a $4 million company a small business. It is only going to pay $200 for a business license. I think the myths that are out there are incorrect. Do I think that a modified business tax has been a very stable piece of our legislation? This is not a new idea. We have been talking about this for years. No one has ever had the courage to actually do it. I have been on this side. I have been on that side. I will tell you that it is hard to get to 28, and for once I believe that 28 of us have the courage to do what is right for Nevada's future.

It is not just about education. Education is super important. I am tired of hearing from businesses that they will not come to our state because we do not have a great education system. We do. I am tired of hearing from businesses that we do not have the traffic and the transportation systems in our state. This will help us get there. I am tired of hearing people say that the reason they do not come to our state is because we do not have anything to do. Not once did they ever tell me they do not come to our state because of taxes.

Virginia is one of the most conservative states in the United States. Virginia has the highest tax that is out there, but they also have the very best education system, not just in the higher education sector. They have it from pre-K all the way up, so those kids start out on the right foot. We have never ever invested.

Want to talk about the tax from 2003? It was a great idea. It was a great tax, but we never actually kept that money. You know why? Because we gave it back in 2005, the $300 million that was left over. We gave it back because we said it was too much. However, in 2009, we cut $1.2 billion out of our budget. So to say that we had the highest tax increase in 2003, I would say it has never really surfaced because we gave it all back. Every single time we have not been able to do it.

This session is my last session, and it is very unfortunate some people feel that this is personal. This is not personal among your colleagues. At the end of the day, I do not begrudge any one of my colleagues for not voting for this. I am going to go home and sleep well. I do not check kids' voter registration when they register for kindergarten. I educate them, and I make sure that they have the tools to do that. Each and every one of us has a responsibility to the state of Nevada and to the children of Nevada who are our future. That is why we support things such as career and technology. That is why we support things such as our community college. That is why we support great job opportunities so people can build roads.

I find it unfortunate on the night before *sine die* that we have made this a personal issue. I like each and every one of you in this building. Everyone has something unique about them that they bring to this building, and that is what makes Nevada so great as a citizen legislature. I got probably 4,000 emails on a solar issue and two of the senders lived in my district. That is exactly what happens with mass robocalls, and that is exactly what happens with mass emails. I implore them to give me their address because I want to write back to them, and I want to contact them.

I would urge my colleagues to please build a new Nevada, start something new. You will be back next session. You will have the opportunity. There is not one perfect tax. Remember I said that in 2003 we passed a tax? I was not here in 2003, but in 2005 we fixed it. In 2007, we passed

a tax called a property tax and we are still fixing that. There is no perfect tax in any state in the country, but let us be like some of those more conservative states who invest in their infrastructure. The infrastructure I see in the state that is most important is our children. If our children do not like to go out hunting, that will go away. If our children do not like to go out and ride bikes, that too will go away. If our children do not have the educational opportunities that they deserve, to be on the cutting edge, to compete globally, then we might as well just stop right here.

You should think twice about why you are in this building. This building is not easy. In this building there is a lot of pressure from a lot of folks but at some point, you have to stand up and take a stand. I have sat in the Ways and Means Committee. I have watched people vote for things and thought it was interesting. I am a little bit more conservative than them. I have watched people vote down things that I thought were really important to their district. Why would they do that? So I would say this is not personal. This is not who you are inside. This is not about your integrity, for heaven's sake. I have been in this building a long time. My integrity is super important, and if you are telling me that by supporting something that is going to benefit the children of Nevada, the infrastructure of Nevada, the IT [information technology] needs of Nevada, the mental health that we have never agreed to do anything about—we talk about it. In our state, we are really good about talking about stuff, but we never do it—and if that means that I have no integrity, I am ashamed to be a Nevadan.

I came here with integrity. I came here with hope. I came here with the ability to sit down with everybody and to work. I have worked on taxes long before many of you in this building. Our tax structure is antiquated. We need a new revenue structure to work. We need to protect our smaller businesses, as we did. Two hundred dollars for a business license fee is a pretty good gig because you know what? In Virginia, it is not $200. We said $4 million and then you have to participate in this. This gets some of the bigger people that have not invested.

If you want to talk about the poor resident agents, let me just tell you all something. We did help them. We did address some of their needs, not all of them, but they benefit from Nevada's legal community and laws all the time. That is why they are here. That is why we have 120,000 of them, so I would implore all of you not to think about this as a mark on your integrity because it is not. It is a mark on being a Nevadan, standing up for what is right, and investing in our state for the long term. Please support Senate Bill 483.

I will say one last thing: It is easy to vote no. It is easy to fill the budget and expand it, but it is very hard to push this button and go home. I have done this once before, and if you explain it to your constituents, they will understand. My husband is my number one constituent, and he reminds me all the time. When that road does not work on Rancho, he says, What is the state doing about it? Then I get on the phone and ask about what we are doing about all those potholes. As a state, we fund that. We take care of that. So if you can go home and explain your actions today, good or bad, then you have won. You have proven to the folks that you were here for all the right reasons. I will just say when leaving this building, I hope that integrity is not questioned on a daily basis because we all work really hard. When we go out door to door, my constituents are all about supporting this and making sure that every single kid gets the opportunity for all-day kindergarten after 22 years of fighting for it. But if you cannot go home and explain it, then you probably should vote no. I guarantee that there are plenty of you that can go home and justify why you do this.

Thank you, Mr. Speaker, and I encourage people to vote in support of Senate Bill 483 for a new Nevada.

ASSEMBLYMAN CARRILLO:

I rise in support of Senate Bill 483. It is imperative that we pass this bill in order to fund the bills and services that we have already voted on during this session. We have a duty to the citizens of this state to ensure that the services that they have expressed overwhelming support and need for are supported, including those services related to mental health, social services, and education. All these kids who we have talked about during the session regarding education belong to all of us—everyone in this room, gallery, everywhere. These kids deserve more, and we need to make sure that they are educated, employable, and able to carry the torch for all of us in the future. These businesses that we keep talking about have clearly indicated that they need an educated

workforce, and we have the responsibility to give them just that. I urge the body to support S.B. 483.

ASSEMBLYMAN JONES:

I rise in strong opposition to Senate Bill 483. I just want to point out that I agree wholeheartedly with the many statistics shared by my colleagues that are also in opposition. I do not want to go through all of them again, but I do want to point out a couple. We always come back to this issue of funding our education; our education is underfunded. As my colleagues have pointed out, that is not the true case. In fact, in our state our teachers are paid above the national average. Also, class size reduction is an issue. On average, our class size is just a little over 20, which is lower than Utah and Arizona.

The biggest thing is this: Since 1972, education spending with inflation adjusted has been tracked as has performance. We are spending now over 100 percent more than we were back in 1972, yet our performance has gone down a little bit. So throwing more money at it is not the solution. The solution is education reform, and we are doing a $1.5 billion tax increase mostly for new education programs. What is great about our country is that we have 50 states that can try different things and then find out what works and what does not work. Many of the programs that we are throwing millions and hundreds of millions of dollars at have proven not to work in other states.

Just before this election cycle started, Wisconsin was another state in a similar situation with over a $3.6 billion deficit. Scott Walker, in a Democratic state, was able to get his legislature together and they went in another direction, which is a shining star of what we could be doing right now. We are choosing to go the other way, which has failed time and time again—just throwing more money at the problem.

What this reminds me of is one simple thing. We ushered in a Republican majority because the people spoke loud and clear. They do not want more taxes, and they want better accountability and less government in their lives. Ronald Reagan proved that less government creates prosperity, and with prosperity all ships rise. So with prosperity and educational reforms, we could be making a true difference, as has been established in other states and has been proven to work. What this comes down to for me is one simple statement. This simple statement means different things to different people, and I am sure that everybody in here has integrity, but it comes down to this. The people ushered us in. When I say "us," I mean the Republican Party, with their idea of what they expected us to do. With this vote, what we are going to be doing is a betrayal after trust. We are going to betray the very people who ushered us in, and they spoke very loudly.

What this reminds me of is a scene out of my favorite movie. My favorite movie is *Braveheart*, and for those of you who know *Braveheart*, Mel Gibson played Sir William Wallace fighting for independence for the state of Scotland. He was going against Longshanks, the evil English king. The scene that this reminds me of is the second major battle against the English army. Sir William Wallace already had defeated the English army and sacked York. Now, Longshanks had come up with his entire force to take on Sir William Wallace. Prior to the fight, he agreed with the major Scottish king, who was Robert the Bruce. He had agreed with Robert the Bruce that at the pivotal point in the battle, Robert the Bruce would come over from behind a hillside and help him defeat the English. He went into battle. They were doing quite well and when that pivotal point came, you know what happened? Robert the Bruce was nowhere to be found because you know where Robert the Bruce was? He was on the English side with Longshanks wearing a helmet to disguise who he was.

At the end of the battle, Sir William Wallace, in defeat, lying bloody on the ground, sees the king and his entourage. He gets on his horse and rides after them. He gets in a fight with Mr. Bruce, who has a helmet on and he cannot see. How did he feel after that fight? When the helmet came off Robert Bruce, he felt betrayal after trust. His heart sank to a low level. That is how I feel. When we Republicans were ushered in for this point, our hearts are going to be sinking to a new level because we are betraying the very constituents that put us in office.

Thank you, and I urge you to vote no against S.B. 483.

ASSEMBLYMAN ELLISON:

I stand in opposition to Senate Bill 483. To give a little good news on this, I promise I will not go as long as my colleagues from District 32 or 19, even though I agree with them, or my colleague

from District 5. As of this morning, small businesses and past legislators have called me and reminded me that these seats that we sit in belong to the people of the state of Nevada. They reminded me that they did vote strongly against Question 3, and that is what we are doing here today.

Mr. Speaker, I came here this year with an open mind, knowing that we were going to have to make some changes in what we are going to do for the finances of the state of Nevada. I knew we were going to have to make some changes. This body supported new schools. This body has made changes in prevailing wages. We have done all kinds of things to make this state better. Mr. Speaker, when we get done with this vote, tomorrow morning I am going to get up and wipe my pants off just like I do every day. I am going to look up in the sky.

Mr. Speaker, what we have to do, whatever these decisions are, we cannot look back. We have to go forward for what is good for Nevada; we have to go forward for what is good for the state as a whole. I know that there has been a lot of heartache between individuals here, but you never look back. You always look forward at what is good. Do not live in the past. Even though I am in opposition, no matter what this vote comes out to be, tomorrow I will look forward for the betterment of this state. I am hoping that everybody in this body will do the same because that is what we are. We are Nevadans and Americans.

ASSEMBLYMAN STEWART:

It is always hard to follow my colleague from Elko. Mr. Speaker, I stand in support of Senate Bill 483. It has been so long I almost forgot the number.

Unlike my colleague from District 5, I am not approaching my 60th year. I am well past it, in fact. As I look around here, I think I have probably lived in Nevada longer than anybody in this Assembly and probably anybody in this building. I have thought long and hard about this bill. When the Governor first came out with his plan, I talked with him and told him the things I did not like about it. He has made many corrections. My colleague who is the chair of Taxation has done a great job. We have blended together some plans. I do not think we have come up with a perfect plan by any means. There are still some things in it I would like to change, but I think it is the best plan for Nevada at this time. So I am going to follow the Governor as he leads us on the path to a new and a better Nevada.

In this plan, we have a medical school beginning at UNLV [University of Nevada, Las Vegas] for future medical students. In this plan, we have a veterans' home in northern Nevada to match the one in southern Nevada to take care of our veterans. In this plan, we have some great education reforms with accountability so our children can go forward. In this plan, we have developed probably the best school choice program in the United States.

Mr. Speaker and my colleagues, I am voting for this because I think it is best for my grandchildren, for your children and grandchildren, and for the future of Nevada.

ASSEMBLYWOMAN DIAZ:

I rise in strong support of Senate Bill 483. Mr. Speaker and colleagues, we truly are at a watershed moment in our state. Many of us have been dreaming of this for many sessions. Many of those have already departed and are no longer among us, but the time has come for us to ensure that we start to construct and to build a new Nevada.

As stateswomen and statesmen, we need to do what is right for the future of our state and its citizenry. Efforts to diversify our state's economic development need to continue. We need to support it in order to move our state forward and ensure we continue to grow the middle class in our state. This investment in our children is key to this economic development. Time and time again, we hear from companies wanting to come here that they do not come because they feel that we do not have a workforce that is educated. They feel that if they come, they do not have the people, the citizens, who are adequately prepared to work for their companies or that they want to bring their children to our educational system. I want to praise the Governor for his education reform plan and for having the vision that many of us have had for this state for a long time.

As we strive to ensure that all Nevadans are moved forward and no one is left behind, we need to think about the choice that is before us today. I agree with my colleagues that have spoken before me in opposition to this measure. We do have a choice. We can break the cycle of poverty by educating our future citizens. We can also eliminate this pipeline that we have created that

goes straight to prison. Let us educate and not incarcerate our future Nevadans. This vote is for you, Peggy Pierce.

ASSEMBLYMAN PAUL ANDERSON:

I rise in support of Senate Bill 483. Just for the record, the sky is not falling. The end of the world is not nigh. Taxes are never easy and raising taxes is difficult, especially for someone like me. I am a business owner. I pay these taxes. My tax burden will go up under this proposal, but I am convinced that Nevada's education system needs it.

By combining new investment with major reform, we are improving our education system in many ways that folks believed were impossible. Rather than being critical, disappointed, or ashamed of the way we educate our kids, we will be able to hold our heads high. We are giving Nevada's families the resources and choices that they demanded. The easy way out is to maintain the status quo, but I cannot do that. I cannot accept what we have today and keep pushing it forward into the same problems that we have now, being at the bottom of all the good lists and the top of all the bad lists.

It is time that we put status quo in the rearview mirror. Together, legislators, the Chief Executive, Democrats, and Republicans are revolutionizing Nevada. I am proud to stand with you today. I am proud to stand with Nevada's children, and I am proud to stand in support of Senate Bill 483 and Nevada's future.

ASSEMBLYWOMAN NEAL:

I rise in support of Senate Bill 483. Public policy does not come without sacrifice. I did not start out as an advocate for this tax plan, but it is said that the moral test of government is how it treats those that are in the greatest need in this state. When I first entered this body as a freshman, I thought we were a body who could not see beyond the allegory of a cave. I thought we were imprisoned by our own selfish needs and that we could not see the greatest needs of this state. But that changed. This legislative session, I saw us come together and fight for this legislative institution as it came under attack. There were days when I thought that the truest values of our government, which are to serve the collective, were going to be sacrificed. I watched us come together and hold strong to the principles of this government. We made a decision to serve the people of this state. We made a decision that we were not here to serve our selfish interests but to seek to serve the greatest needs of our people and that is the educational needs of our children. We battled over this tax policy and after many amendments, we found a way to support education. We found a way to create a new revenue stream to support this state. It was not easy, but we found a way to set a new course for the state of Nevada and a place to build from. We found a stable place, although not perfect, but one which we can leap from and one in which we can claim a greater future to plan for our state. I urge your support of S.B. 483 for the educational needs of our children, which is supported in the *Nevada Constitution*.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in support of Senate Bill 483. One point that has not been mentioned so far is a substantial improvement to the stability of Nevada's revenue structure with S.B. 483. During 2009, we had a 37 percent structural deficit. Unlike other states, we have revenue streams that vary wildly. Our deficits in 2009, structurally and on a percentage basis, were larger than California's. The commerce tax element of this measure will help us stop those wild swings in revenue and give government, business, and policymakers some much-needed certainty. We will no longer invest in great programs just to cut them after they get off the ground. Really, what is the point of spending anything if you have to cut it immediately when the economy tanks?

Additionally, it will allow us to provide much-needed funding for education programs. For two sessions, the Legislature has invested in smart and research-based policies. We have already seen results from Zoom schools, for example. We know these policies work. We know we are investing smartly. My colleague from District 32, I would note that we voted for A.B. 278, which places tighter controls and reporting requirements on class size reduction funds in the future.

Mr. Speaker, I do not recall many saying during the Question 3 debate that we do not need education spending—it was how. For good reason, you would not expect Marines to take a hill if you did not give them ammo, and you should not expect teachers to produce results without funding. In the past, too many legislators have said that we should spend more on education, but

then they get weak-kneed when it comes to raising the revenue to fund it. I would note to my colleague from District 35 that if you really want freedom, you need an educated populace. The first thing that tyrants do is restrict access to education. Our founding fathers were some of the most educated people of their day, and that is the reason we have democracy and that is why we are here having this debate tonight.

Now is the time for all of us to have the courage to stand up for the new Nevada. In the end, it does not matter if any of us lose an election. The only thing that matters is what we do while we are here. Mr. Speaker, I can look at myself in the mirror, and I urge the body to have the courage to fund the new Nevada. We can make people proud of the Nevada Legislature tonight by learning from the past

ASSEMBLYWOMAN JOINER:

I rise in support of Senate Bill 483. This bill tonight presents us with an historic opportunity. I am confident that when I push that green button and vote in favor of this measure, I will be on the right side of history. I am confident of that because this is a well-balanced tax program that diversifies our state's tax base, something that we have been desperately needing and looking for for decades. It is also a balanced approach to providing the necessary revenue to fund our essential services. It protects our middle-class folks while at the same time ensuring that those corporations that can afford it pay their fair share.

There has been a lot of talk about constituents tonight. I listen to my constituents constantly. I actually made a list of all the things my constituents have asked me for this session. Most of the things on this list are related to this bill. In order, my constituents most consistently have asked me to fund K-12 education. They want to see our education improve in this state. Having UNR [University of Nevada, Reno] in my district, they consistently ask me to fund higher education so that our university can continue to be competitive for economic development reasons when corporations want to come into Nevada and have a legitimate workforce. Having been a state employee myself, I have state workers begging me to end the furloughs, to vote for things that help to improve their salaries, and to restore some of their cost-of-living raises. Finally, I hear from folks every day who need a little bit of help, either through Medicaid or social services. They need the help, and we need to provide it.

Those are four key areas that my constituents consistently ask me for, and this is the bill that gives the opportunity to fund these services for our constituents. So it is for these reasons that I am proud to vote for this measure tonight. I think it is the perfect long-term solution for funding the services that we need for our citizens.

ASSEMBLYMAN O'NEILL:

I rise in support of Senate Bill 483. First—and I will try to make this quick—I want to commend everybody for their passion no matter which side of this argument they are on. I particularly commend my colleague from Assembly District 5 and his most eloquent presentation. I stand with him. I commend my colleague from Assembly District 21 and the work that he and his Taxation Committee and all those members on Ways and Means have done to find a reasonable solution to some of the biggest problems facing our state.

I represent the best Assembly district in this great state, I believe. Our economy has seen some hard times over the last few years, and many of my constituents who work in state government have shared the sacrifice with many of their friends in the private sector. Restoring the cuts made to them should be a part of our recovery. There is a balance to ending furloughs and restoring COLAs [cost-of-living adjustments] without slowing down our economy. This will also restore bridge funding to our Western Nevada College and some of the community colleges that play an integral role in workforce development for northern Nevada and our expanding future. They provide the workers that are so desperately needed.

When I was walking and talking to my constituents, knocking on doors, I said several things. One of the things that seems to be forgotten often, and that I have regularly said, is what I bring to the Legislature that I feel is unique, which is 40 years in law enforcement and the greater majority of that in investigations, investigating some of the most serious crimes. What I did in that job was collect information, talk to people, collect data and evidence, test it, research it, and draw conclusions. Conclusions and actions not based upon what was popular, not based upon what was the simplest and easiest thing to do, but based upon what is the right thing to do. I believe

as I hit that green button tonight, I will be fulfilling that pledge I gave to my constituents, and I am proud to do that. I feel confident this compromise is the best way to move forward, and I thank you very much.

ASSEMBLYMAN WHEELER:

Mr. Speaker, we have heard a lot of passion tonight. We have heard about different parties and what our constituents want. We have even heard a great movie reference. As a matter of fact, my colleague from Elko made a reference that I am not even sure about. My colleague from District 1 tells me something almost every time we go out to our little smokers' caucus, and she says it is about the policy. When we walk through that door, the party politics should stop and it is about the policy. She is right. With the respect I have for her, I am going to say I am glad she is right because this is about the policy. That is exactly what this bill is about.

I am a very lucky Assemblyman, Mr. Speaker, because I represent the best Assembly district. It includes all of Douglas County, part of Lyon County, and all of Storey County. In Storey County, we have a little thing called the Tahoe Reno Industrial Center where we just saw two absolutely major corporations move, followed by nine to ten other smaller corporations coming in. I have had the opportunity to talk to these people and sit down and say, Why did you come here? We keep hearing over and over and over again that businesses will not come here because of our education system. Yet I go out in my district and I see the exact opposite thing happening. It is not because of our roads. It is not because of our education system. No, they all have the same answer: You are a low-tax state. Every single one of them. Let us take a look at that for a minute. What have we done so far in this session? We have stopped counties from tax breaks they have gotten for years. We have taxed taxis and cabs; we have taxed taxies to the tune of about $100 million. We are contemplating a new tax on live entertainment, and now we are going to tax our businesses with a gross receipts tax. I do not care what you call it, that is what it is. So what are we doing in this session, ladies and gentlemen? I think we will be known as the tax session, I am sorry to say. That is not a policy that I am willing to live with, and I know that is not a policy that the business community is willing to live with.

Ladies and gentlemen, I urge you very much to vote no on this and not just for that reason. There is another reason when you go to push this button that you might want to push the red one. If you push the green button on this particular bill, S.B. 483 that is now an omnibus bill with every tax we can think of, you are saying that you love every single bit of it because you will not be able to change anything again. You will not have any more negotiations. It will stop right here with this vote. So tell me again that you think this a perfect tax, because that is what it is going to say when you hit this green button. You are not going to be able to change a thing. There are no more negotiations.

ASSEMBLYWOMAN CARLTON:

First, I would like to thank you for giving the body the latitude to have this very serious discussion. I do appreciate that, and I appreciate the Majority Leader's comments and all the comments of my colleagues, especially my colleague from the double deuce. He is a native Nevadan and knows a lot more about Nevada than I do. I am a Nevadan by choice. I came here with my husband looking for a better life, looking for a better education for my children. We got it. I have represented four different groups, four different districts in this state, since I was elected in 1999: two different Senate districts and two different Assembly districts. So when you talk about representing a lot of folks, I have talked to a lot of folks on the east side of the valley in Las Vegas. Taxes very rarely come up. It is all about education and what is going on in their neighborhoods; it is about public safety; and it is about providing the services that their families need, whether they have a child with special needs, a child with autism, or a mother or father that needs services. When I get those calls, that is who I am trying to help out.

This is not about party. This is not about caucuses. This is about being a Nevadan, and because I chose to be here, I chose this responsibility. We heard earlier, where is the accountability? How are we going to be sure this money is spent well? What have we done with the money since 2003? Well, I voted on that tax in 2003, and I am still here. I have held myself accountable, and I have watched the budgets. I have paid attention. I was honored to chair Ways and Means last session, and I respect the work that our current chair of Ways and Means has done. We have had 134 meetings, some of them two and three hours long. We have vetted this budget down to the

nickel. We know what is in it. We know that we are going to be held accountable for it, and it is the right budget. It is not a great budget. Lord knows there is more that I would like to have in it, but I know at this time and this place this is what we need to do.

In getting away from the bill for just a second, Mr. Speaker, with your permission, look at the things that we are going to fund. We are funding the medical school, which we heard about. We are funding unmanned aerial vehicles. In 2011 when we were doing the cuts, we never even thought that something like that would come to our state, but because we are investing, that industry is now here in this state. There is a senior property tax abatement in there that I had to vote to take away from my seniors and now I get to vote to give it back to them. I am very happy to do that. The autism funding is going to be one of my proudest moments because we are going to take care of these kids. That is why I came here and that is why I support S.B. 483.

Thank you again for allowing us to have this debate.

ASSEMBLYMAN SILBERKRAUS:

I rise in support of Senate Bill 483. We have worked all session to build a better system of education for our children and for those that will come after. It is easy to say we support these programs. It is easy to say that we support these changes, but today comes the hard part. This is where the rubber meets the road. Today, actions speak louder than words. Today, I vote to fund a better future for my son and for all the children of Nevada. Mr. Speaker, today we build the new Nevada.

ASSEMBLYWOMAN FIORE:

As we wrap this up, I am just going to remind everyone as we make promises to our children and deliver on that, I think we need to stick to our promises to our constituents and deliver on those. I urge this body to vote no on this atrocious bill.

ASSEMBLYWOMAN SPIEGEL:

I rise in support of Senate Bill 483. You know, one thing that is always difficult for us is to make the challenging decisions. I do not think there is a member of this body who takes this decision lightly. I think that we have all taken the time to weigh the policy, to weigh the implications of this bill, and to look at the benefits that we have come across with. As long as I have lived in Nevada, I have heard people say things like, Now is not the time raise taxes, it does not matter if the economy is doing well. People say, The economy is doing well, now is not the time to raise taxes because that could scare our businesses. When the economy is doing poorly, people say, Now is not the time to raise taxes, our businesses are doing poorly. When is the right time to raise taxes? It is not an easy decision.

Like my colleague from District 13, I am also a business owner. This bill will increase the tax burden on me and my company as well, but in looking at the decision and looking at the decision for Nevadans, I have done a couple of things. First of all, earlier this session, I went home one Saturday and I spent the day visiting businesses in my district. I spoke to small business owners about their tax burdens. I spoke to them about what they wanted for Nevada. One of the things that I am really proud of in this bill is that our small businesses, those with revenues under $4 million, will not have their tax burden increase that much. Those whose payroll is under $200,000 a year, our smallest businesses and growing businesses, will not have their modified business taxes affected at all. Yet it offers us so much. It offers us as a state the ability to provide the services that we need, to build the infrastructure that we need, to protect our middle-class families, and to grow.

We have ceased being competitive with our nearby states, and this bill enables us to regain our competitive nature to provide the services and amenities that the people of Nevada want without really harming our businesses. We had the largest employers in our state coming out and testifying at the hearing yesterday urging us to support this bill. For once, I think they are right. When the business community comes to us and says that now is the time to raise taxes and this is the package to do it with, I think we need to take their words seriously and heed them. Thank you.

ASSEMBLYMAN MUNFORD:

When I walked into this Chamber this evening and I took my seat, I basically had my mind made up about how I was going to vote. Right now, in that this is my last session in this Chamber,

as I am going to be termed out, I would say this is the most difficult bill that I have had to vote on. I stand here right now, to some degree, a little confused because I listened to both of the arguments. The opposition and those in support both had merit. They made a lot of sense. I was listening to all my colleagues talk. I still stand here a little concerned. I think about the business side of it, the businessman. I know they are the job creators, so we need them. We look at the education side. We need improvement in our education system. I taught school for many, many years, but even in my district, District 6, they need a lot of support in terms of the economic area and helping to improve schools. So I can say both sides have so much strong merit, and I am going to take my seat and vote, but I still think this is very, very hard for me. I just do not know what to say right now.

ASSEMBLYMAN TROWBRIDGE:

I stand in support of Senate Bill 483. I voted to support the proposed amendment by my colleague from Assembly District 32, which would have provided a temporary extension to the sunset taxes, and I look forward to those days when these taxes are no longer needed. I hate to disappoint my colleague from District 5 because when I was sworn into office, I did get a job as a judge. Along with every legislator, I am expected to make judgments concerning our highest priority, which is supporting our schools. Our schools are tasked with the ever-growing population and unprecedented challenges with complex issues that require innovative approaches to help move our student performance in the right direction. Sure, we need far more accountability; no one can deny that. We need accountability for the funding that the schools currently have as well as any new funding that they are going to get, but we cannot let past failures to instill adequate accountability prohibit us from doing the right thing.

Let there be no misunderstanding: We demand changes and improvements. Empty demands are not adequate. We need to fund our demands and expectations. I did not come here to raise taxes. I did not come here to protect those who do not want to pay any more, because I am certainly one of them, but I am here to do the right thing. We cannot have expectations and demands without funding them. Admittedly, this bill is not perfect, although I dare someone to show me a bill in this house that is perfect. However, please support Senate Bill 483.

Remarks by Assemblywomen Carlton and Fiore.

ASSEMBLYWOMAN CARLTON:

Assembly Bill 478 increases certain developer application and renewal fees and establishes expedited filing fees and late penalty fees. The bill also establishes time share exchange company registration and abbreviated conversion fees and increases the fee for sales agent association changes or license location changes. As amended, the bill clarifies where the developer and time share fees collected by the Real Estate Division outlined in the bill are deposited. The bill becomes effective on July 1, 2015.

ASSEMBLYWOMAN FIORE:

I rise in opposition to Assembly Bill 478. Assembly Bill 478 almost doubles the fees on a number of individuals, and I think after just passing along $1.5 billion in tax, maybe we can give them a break and vote no on this one.

ASSEMBLYWOMAN CARLTON:

This bill was heard. There was just a bit of opposition. The opposition was addressed. This is an industry bill. This takes care of an issue that they would like to have taken care of, so we actually listened to the people who were in front of us who said we need to get this fixed.

Legislative Counsel's Digest:

Existing law authorizes the Labor Commissioner to impose an administrative penalty against a person who violates certain provisions related to contracts for public works in this State. (NRS 338.015) A person against whom such an administrative penalty is imposed may not be awarded a contract for a public work for a period of 3 years, and upon a second or subsequent offense, for a period of 5 years. Existing law authorizes each board of county commissioners, by a majority vote of all the members of the board to set the members' annual salary within

certain statutory limitations. (NRS 245.043) This bill: (1) eliminates this authority; and (2) sets forth the salaries for members for Fiscal Years 2015-2016, 2016-2017, 2017-2018 and 2018-2019. The salaries are increased by 3 percent in each fiscal year, unless the board of county commissioners determines that sufficient financial resources are not available to pay the increased salaries.

This bill also authorizes an elected officer, including a county commissioner, to elect not to receive any part of the salary to which he or she is entitled.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Assemblyman Ellison moved that the Assembly adopt the report of the Conference Committee concerning Senate Bill No. 482.

Motion carried by a constitutional majority.

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 71.

The following Senate amendment was read:

Amendment No. 1021.

AN ACT relating to taxation; **allowing a person who qualifies as both a military veteran and the surviving spouse of a veteran to claim both of the veterans' exemptions from property taxes and governmental services taxes;** revising the calculation of the inflation adjustment to certain exemptions from property taxes and governmental services taxes for certain veterans; providing a deduction from the payroll tax for wages paid to newly hired full-time employees who are veterans; providing an exemption from certain sales and use taxes for certain relatives of a member of the Nevada National Guard who is called into active service and is killed while performing his or her duties as a member of the Nevada National Guard; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

~~[Under existing law, a person who has incurred a permanent service-connected disability and has been honorably discharged from the Armed Forces of the United States is entitled to an exemption from property taxes and the governmental services tax.]~~ **Existing law provides an exemption from property taxes for a military veteran who served on active duty under certain circumstances. (NRS 361.090) Existing law also provides an exemption from property taxes for a veteran with a permanent service-connected disability, or the surviving spouse of such a veteran, and prohibits a person who claims this exemption from obtaining the other property tax exemption otherwise allowable for such a person. (NRS 361.091) Section 1 of this bill provides that a person who qualifies as both a veteran and the surviving spouse of a veteran with a permanent service-connected disability may claim both of the veterans' exemptions from property taxes.**

Existing law provides similar exemptions from governmental services taxes for military veterans and, under certain circumstances, authorizes a veteran to transfer the exemption to his or her current spouse. (NRS 371.103, 371.104) Section 2 of this bill provides that a person who qualifies as both a veteran and the surviving spouse of a veteran with a

permanent service-connected disability may claim both of these exemptions from governmental services taxes.

Each fiscal year, the amount of ~~[exemption]~~ **the exemptions allowable for military veterans** is adjusted for inflation based on the percentage increase in the Consumer Price Index (All Items) for a certain period. (NRS 361.091, 371.104) **Sections 1 and 4** of this bill **also** revise provisions governing these inflation adjustments to provide that: (1) the adjustments are based on the percentage increase in the Consumer Price Index for All Urban Consumers, West Region (All Items), as published by the United States Department of Labor, or the successor index that most closely resembles that index as determined by the Department of Taxation; and (2) the percentage increase in that index is measured for the same period for the purposes of both adjustments.

Existing law requires employers to pay a payroll tax on the wages paid to their employees during each calendar quarter. The tax is imposed on financial institutions at the rate of 2 percent per calendar quarter and, effective July 1, 2015, on other employers at the rate of 0.63 percent per calendar quarter. (NRS 363A.130, 363B.110) **Sections 2 and 3** of this bill authorize financial institutions and other employers to deduct from the total amount of wages reported and upon which the payroll tax is imposed any wages paid to a newly hired full-time employee during the first 4 full calendar quarters next following the hiring of the employee, and 50 percent of all wages paid to the employee during the 5th through 12th full calendar quarters next following the hiring of the employee, if: (1) the employee is a veteran of certain specified military service; (2) at the time of hiring the employee has been unemployed for a continuous period of not less than 3 months; and (3) certain other conditions are satisfied. The deduction does not apply with respect to any employee hired after June 30, 2019.

Existing law provides an exemption from certain sales and use taxes for members of the Nevada National Guard called into active service and for certain relatives of such members of the Nevada National Guard. (NRS 372.7281, 374.7285) **Sections 5-8** of this bill provide for eligibility for a 3-year exemption from such taxes for certain relatives of members of the Nevada National Guard who are killed while performing duties as a member of the Nevada National Guard while on active service.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 361.091 is hereby amended to read as follows:

361.091 1. A bona fide resident of the State of Nevada who has incurred a permanent service-connected disability and has been honorably discharged from the Armed Forces of the United States, or his or her surviving spouse, is entitled to an exemption.

2. The amount of exemption is based on the total percentage of permanent service-connected disability. The maximum allowable exemption for total

permanent disability is the first $20,000 assessed valuation. A person with a permanent service-connected disability of:

(a) Eighty to 99 percent, inclusive, is entitled to an exemption of $15,000 assessed value.

(b) Sixty to 79 percent, inclusive, is entitled to an exemption of $10,000 assessed value.

➥ For the purposes of this section, any property in which an applicant has any interest is deemed to be the property of the applicant.

3. The exemption may be allowed only to a claimant who has filed an affidavit with his or her claim for exemption on real property pursuant to NRS 361.155. The affidavit may be made at any time by a person claiming an exemption from taxation on personal property.

4. The affidavit must be made before the county assessor or a notary public and be filed with the county assessor. It must state that the affiant is a bona fide resident of the State of Nevada, that the affiant meets all the other requirements of subsection 1 and that the exemption is not claimed in any other county within this State. After the filing of the original affidavit, the county assessor shall, except as otherwise provided in this subsection, mail a form for:

(a) The renewal of the exemption; and

(b) The designation of any amount to be credited to the Gift Account for the Veterans Home in Southern Nevada or the Gift Account for the Veterans Home in Northern Nevada established pursuant to NRS 417.145,

➥ to the person each year following a year in which the exemption was allowed for that person. The form must be designed to facilitate its return by mail by the person claiming the exemption. If so requested by the person claiming the exemption, the county assessor may provide the form to the person by electronic means in lieu of by mail. The county assessor may authorize the return of the form by electronic means in accordance with the provisions of chapter 719 of NRS.

5. Before allowing any exemption pursuant to the provisions of this section, the county assessor shall require proof of the applicant's status, and for that purpose shall require the applicant to produce an original or certified copy of:

(a) An honorable discharge or other document of honorable separation from the Armed Forces of the United States which indicates the total percentage of his or her permanent service-connected disability;

(b) A certificate of satisfactory service which indicates the total percentage of his or her permanent service-connected disability; or

(c) A certificate from the United States Department of Veterans Affairs or any other military document which shows that he or she has incurred a permanent service-connected disability and which indicates the total percentage of that disability, together with a certificate of honorable discharge or satisfactory service.

6. A surviving spouse claiming an exemption pursuant to this section must file with the county assessor an affidavit declaring that:

(a) The surviving spouse was married to and living with the veteran who incurred a permanent service-connected disability for the 5 years preceding his or her death;

(b) The veteran was eligible for the exemption at the time of his or her death or would have been eligible if the veteran had been a resident of the State of Nevada;

(c) The surviving spouse has not remarried; and

(d) The surviving spouse is a bona fide resident of the State of Nevada.

➥ The affidavit required by this subsection is in addition to the certification required pursuant to subsections 4 and 5. After the filing of the original affidavit required by this subsection, the county assessor shall, except as otherwise provided in this subsection, mail a form for renewal of the exemption to the person each year following a year in which the exemption was allowed for that person. The form must be designed to facilitate its return by mail by the person claiming the exemption. If so requested by the person claiming the exemption, the county assessor may provide the form to the person by electronic means in lieu of by mail. The county assessor may authorize the return of the form by electronic means in accordance with the provisions of chapter 719 of NRS.

7. If a veteran or the surviving spouse of a veteran submits, as proof of disability, documentation that indicates a percentage of permanent service-connected disability for more than one permanent service-connected disability, the amount of the exemption must be based on the total of those combined percentages, not to exceed 100 percent.

8. If a tax exemption is allowed under this section ~~[, the claimant]~~ ***to a person who qualifies for the exemption:***

(a) As a veteran with a permanent service-connected disability, that person is not entitled to an exemption under NRS 361.090.

(b) Solely as the surviving spouse of a veteran with a permanent service-connected disability, the allowance of a tax exemption under this section does not affect the eligibility of that person for an exemption under NRS 361.090.

9. If any person files a false affidavit or produces false proof to the county assessor or a notary public and, as a result of the false affidavit or false proof, the person is allowed a tax exemption to which the person is not entitled, the person is guilty of a gross misdemeanor.

10. Beginning with the 2005-2006 Fiscal Year, the monetary amounts in subsection 2 must be adjusted for each fiscal year by adding to the amount the product of the amount multiplied by the percentage increase in the ~~[Consumer Price Index (All Items)]~~ ***consumer price inflation index*** from July 2003 to the July preceding the fiscal year for which the adjustment is calculated. The Department shall provide to each county assessor the adjusted amount, in writing, on or before September 30 of each year.

11. For the purposes of this section, "consumer price inflation index" means the Consumer Price Index for All Urban Consumers, West Region

(All Items), as published by the United States Department of Labor or, if that index ceases to be published by the United States Department of Labor, the published index that most closely resembles that index, as determined by the Department.

Sec. 2. Chapter 363A of NRS is hereby amended by adding thereto a new section to read as follows:

1. An employer may deduct from the total amount of wages reported and upon which the excise tax is imposed pursuant to NRS 363A.130 all wages paid by the employer to an employee during the first 4 full calendar quarters next following the hiring of the employee, and 50 percent of all wages paid by the employer to the employee during the 5th through 12th full calendar quarters next following the hiring of the employee, if:

(a) The employee is a veteran as defined in NRS 417.005;

(b) The employee is first hired by the employer on or after July 1, 2015, and on or before June 30, 2019;

(c) The employee has been:

(1) Unemployed for a continuous period of not less than 3 months immediately preceding the date of hire; and

(2) Receiving unemployment compensation continuously for that entire period;

(d) The employee is employed in a full-time position throughout the entire calendar quarter for which the deduction is claimed;

(e) The employee provides to the employer documentation to verify that the employee meets the requirements of paragraph (c); and

(f) The employer submits to the Department an affidavit, signed under penalty of perjury by the employer or an authorized agent of the employer, stating that:

(1) The employee meets the requirements specified in paragraphs (a), (b) and (c);

(2) The employee meets all qualifications for the position of employment for which he or she is hired; and

(3) The employee was not hired to replace another employee or, if so, the replaced employee left voluntarily or was terminated for cause.

2. An employer claiming the deduction allowed pursuant to this section shall, upon the request of the Department, provide the Department with such documentation as the Department deems appropriate to substantiate that claim.

Sec. 3. Chapter 363B of NRS is hereby amended by adding thereto a new section to read as follows:

1. An employer may deduct from the total amount of wages reported and upon which the excise tax is imposed pursuant to NRS 363B.110 all wages paid by the employer to an employee during the first 4 full calendar quarters next following the hiring of the employee, and 50 percent of all wages paid by the employer to the employee during the 5th through 12th full calendar quarters next following the hiring of the employee, if:

(a) The employee is a veteran as defined in NRS 417.005;

(b) The employee is first hired by the employer on or after July 1, 2015, and on or before June 30, 2019;

(c) The employee has been:

(1) Unemployed for a continuous period of not less than 3 months immediately preceding the date of hire; and

(2) Receiving unemployment compensation continuously for that entire period;

(d) The employee is employed in a full-time position throughout the entire calendar quarter for which the deduction is claimed;

(e) The employee provides to the employer documentation to verify that the employee meets the requirements of paragraph (c); and

(f) The employer submits to the Department an affidavit, signed under penalty of perjury by the employer or an authorized agent of the employer, stating that:

(1) The employee meets the requirements specified in paragraphs (a), (b) and (c); and

(2) The employee meets all qualifications for the position of employment for which he or she is hired; and

(3) The employee was not hired to replace another employee or, if so, the replaced employee left voluntarily or was terminated for cause.

2. An employer claiming the deduction allowed pursuant to this section shall, upon the request of the Department, provide the Department with such documentation as the Department deems appropriate to substantiate that claim.

Sec. 4. NRS 371.104 is hereby amended to read as follows:

371.104 1. A bona fide resident of the State of Nevada who has incurred a permanent service-connected disability and has been honorably discharged from the Armed Forces of the United States, or his or her surviving spouse, is entitled to a veteran's exemption from the payment of governmental services taxes on vehicles of the following determined valuations:

(a) If he or she has a disability of 100 percent, the first $20,000 of determined valuation.

(b) If he or she has a disability of 80 to 99 percent, inclusive, the first $15,000 of determined valuation.

(c) If he or she has a disability of 60 to 79 percent, inclusive, the first $10,000 of determined valuation.

2. In lieu of claiming the exemption from taxation set forth in subsection 1 in his or her name, a veteran may transfer the exemption to his or her current spouse. To transfer the exemption, the veteran must file an affidavit of transfer with the Department in the county where the exemption would otherwise have been claimed. The affidavit of transfer must be made before an authorized employee of the Department or a notary public. If a veteran makes such a transfer:

(a) The spouse of the veteran is entitled to the exemption in the same manner as if the spouse were the veteran;

(b) The veteran is not entitled to the exemption for the duration of the transfer;

(c) The transfer expires upon the earlier of:

(1) The termination of the marriage;

(2) The death of the veteran; or

(3) The revocation of the transfer by the veteran as described in paragraph (d); and

(d) The veteran may, at any time, revoke the transfer of the exemption by filing with the Department in the county where the exemption is claimed an affidavit made before an authorized employee of the Department or a notary public.

3. For the purpose of this section, the first $20,000 of determined valuation of vehicles in which a person described in subsection 1 or 2 has any interest shall be deemed to belong entirely to that person.

4. A person claiming the exemption shall file annually with the Department in the county where the exemption is claimed an affidavit declaring that he or she is a bona fide resident of the State of Nevada who meets all the other requirements of subsection 1 or 2, as applicable, and that the exemption is claimed in no other county within this State. After the filing of the original affidavit of exemption and after the transfer of the exemption, if any, pursuant to subsection 2, the county assessor shall, except as otherwise provided in this subsection, mail a form for:

(a) The renewal of the exemption; and

(b) The designation of any amount to be credited to the Gift Account for the Veterans Home in Southern Nevada or the Gift Account for the Veterans Home in Northern Nevada established pursuant to NRS 417.145,

➥ to the person who claimed the exemption each year following a year in which the exemption was allowed for that person. The form must be designed to facilitate its return by mail by the person claiming the exemption. If so requested by the person claiming the exemption, the county assessor may provide the form to the person by electronic means in lieu of by mail.

5. Before allowing any exemption pursuant to the provisions of this section, the Department shall require proof of the veteran's status, and for that purpose shall require production of:

(a) A certificate from the Department of Veterans Affairs that the veteran has incurred a permanent service-connected disability, which shows the percentage of that disability; and

(b) Any one of the following:

(1) An honorable discharge;

(2) A certificate of satisfactory service; or

(3) A certified copy of either of these documents.

6. A surviving spouse claiming an exemption pursuant to this section must file with the Department in the county where the exemption is claimed an affidavit declaring that:

(a) The surviving spouse was married to and living with the veteran with a disability for the 5 years preceding his or her death;

(b) The veteran with a disability was eligible for the exemption at the time of his or her death or, if not for a transfer of the exemption pursuant to subsection 2, would have been eligible for the exemption at the time of his or her death; and

(c) The surviving spouse has not remarried.

➥ The affidavit required by this subsection is in addition to the certification required pursuant to subsections 4 and 5. After the filing of the original affidavit required by this subsection, the county assessor shall, except as otherwise provided in this subsection, mail a form for renewal of the exemption to the person each year following a year in which the exemption was allowed for that person. The form must be designed to facilitate its return by mail by the person claiming the exemption. If so requested by the person claiming the exemption, the county assessor may provide the form to the person by electronic means in lieu of by mail.

7. If a tax exemption is allowed under this section ~~[, the]~~ ***to a person who qualifies for the tax exemption:***

(a) As a veteran ~~[and his]~~ or ~~[her]~~ ***as the*** current spouse ~~[are]~~ ***of a veteran who receives a transfer of an exemption pursuant to subsection 2, that person is*** not entitled to an exemption under NRS 371.103.

(b) Solely as the surviving spouse of a veteran with a permanent service-connected disability, the allowance of a tax exemption under this section does not affect the eligibility of that person for an exemption under NRS 371.103.

8. If any person makes a false affidavit or produces false proof to the Department, and as a result of the false affidavit or false proof the person is allowed a tax exemption to which he or she is not entitled, the person is guilty of a gross misdemeanor.

9. Beginning with the 2005-2006 Fiscal Year, the monetary amounts in subsections 1 and 3 must be adjusted for each fiscal year by adding to each amount the product of the amount multiplied by the percentage increase in the ~~[Consumer Price Index (All Items)]~~ ***consumer price inflation index*** from ~~[December]~~ ***July*** 2003 to the ~~[December]~~ ***July*** preceding the fiscal year for which the adjustment is calculated.

10. For the purposes of this section, "consumer price inflation index" means the Consumer Price Index for All Urban Consumers, West Region (All Items), as published by the United States Department of Labor or, if that index ceases to be published by the United States Department of Labor, the published index selected by the Department of Taxation pursuant to subsection 11 of NRS 361.091.

Sec. 5. NRS 372.7281 is hereby amended to read as follows:

372.7281 In administering the provisions of NRS 372.325, the Department shall apply the exemption for the sale of tangible personal property to the State of Nevada, its unincorporated agencies and instrumentalities to include all tangible personal property that is sold to:

1. A member of the Nevada National Guard who is engaged in full-time National Guard duty, as defined in 10 U.S.C. § 101(d)(5) **,** and has been called into active service.

2. A relative of a member of the Nevada National Guard eligible for the exemption pursuant to subsection 1 who:

(a) Resides in the same home or dwelling in this State as the member; and

ASSEMBLYMAN KIRNER:

Assembly Bill 481, as amended, temporarily establishes the Consumer Affairs Unit within the Department of Business and Industry through June 30, 2017, to perform certain duties previously assigned to the Consumer Affairs Division, including the authority to impose administrative sanctions for deceptive trade practices. The bill requires the Director of the Department of Business and Industry or his or her designee to administer the revolving account and deposit grants received by the Division in the revolving account to defray the costs of investigation and prosecution of deceptive trade practices.

Assembly Bill 481, as amended, authorizes the Director of Business and Industry or his or her designee to assess an administrative fine for violating the law regarding deceptive trade and requires any such fine received by the Division be deposited to the State General Fund.

Remarks by Assemblywoman Joiner.

ASSEMBLYWOMAN JOINER:

Senate Bill 185 requires that in Washoe County the entity that is responsible for the emergency fire-fighting vehicle located closest to a structure or brush fire respond to and take all actions necessary to suppress the fire regardless of whether the location of the fire falls within the territory served by the entity. The bill requires each entity to negotiate an automatic aid agreement with each other such entity addressing reimbursement costs and coverage areas. The coverage areas

must be established so that, at a minimum, the entity closest to a structure or brush fire is required to respond to the fire. Finally, the provisions of this bill do not apply to any emergency fire-fighting vehicle or firefighter of an airport authority.

This bill, in its amended form, is the result of hard work and a lot of compromise among the entities involved as well as the bill's sponsor. I know I am personally very grateful that they were able to come to this compromise. Currently, the affected local governments, such as the City of Reno and Washoe County, have come together and are discussing a comprehensive and regional solution to fire protection services for our residents. They have pledged to continue that dialogue, and I am confident with this measure in place that conversation will continue moving forward and that we will find the best way to serve our residents in Washoe County and Reno.

Amendment No. 1042.

SUMMARY—~~[Revises provisions governing]~~ **Provides for a study relating to emissions from** motor ~~[vehicle licensing.]~~ **vehicles.** (BDR ~~[40-15)]~~ **S-15)**

AN ACT relating to air pollution; ~~[revising provisions governing the required inspections of the emissions of certain motor vehicles;]~~ **requiring the Advisory Committee on the Control of Emissions From Motor Vehicles to conduct a study concerning the inspection and testing of motor vehicles and systems for the control of emissions from motor vehicles in this State;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Environmental Commission, in cooperation with the Department of Motor Vehicles **,** to adopt regulations to prescribe standards for emissions from motor vehicles. (NRS 445B.760) ~~[:~~

~~— Section 2.3 of this bill requires the Commission to exempt from those standards any motor vehicle manufactured before 1996.~~

~~— Existing law requires the Department of Motor Vehicles to charge a fee for the forms distributed to certify emission control compliance in the amount of $6 per form and $150 per set of forms. (NRS 445B.830) Section 2 of this bill raises the fees to $12 per form and $300 per set of forms so that the change in the required frequency of emissions inspections from every year to every other year prescribed by section 1 does not affect the funding of the Pollution Control Account.~~

~~— However, existing law also requires the Department of Motor Vehicles, for the initial issuance of license plates for certain "Old Timer" antique vehicles,~~

~~"Street Rods," "Classic Rods" and "Classic Vehicles," to charge an additional fee that is equal in amount to the fee charged for a form distributed to certify emission control compliance if the vehicle for which such a license plate is issued is exempted from emissions testing. (NRS 482.381, 482.3812, 482.3814, 482.3816) Sections 3-6 of this bill remove the requirement for the fee as to vehicles with those certain license plates. Section 2.5 of this bill requires the Department to charge a fee that is equal to the amount of the fee for a form certifying emission control compliance at the initial issuance of license plates for any motor vehicle which is exempt from emissions testing by section 2.3. Section 2.5 also requires that the fees must be accounted for in the Pollution Control Account, to reduce the effect on the Account of the new exemption provided in section 2.3.~~

~~Section 6.3 of this bill clarifies that if the owner of a motor vehicle that was registered with "Old Timer," "Street Rod," "Classic Rod" or "Classic Vehicle" plates before July 1, 2015, has already, in connection with that vehicle, paid the special fee that is equal to the amount of the fee for a form certifying emission control compliance, such a person is not required to pay that same fee again for the same vehicle pursuant to section 2.5.]~~ **Existing law also requires the Commission, in cooperation with the Department and any local air pollution control agency, to adopt regulations for the control of emissions from motor vehicles in any county whose population is 100,000 or more (currently Clark and Washoe Counties). In any county whose population is less than 100,000 (currently all counties other than Clark and Washoe Counties), the Commission is required to adopt such regulations if the Commission makes certain determinations, including that it is feasible and practicable to carry out a program of inspecting and testing motor vehicles and systems for the control of emissions from motor vehicles. (NRS 445B.770)**

This bill requires the Advisory Committee on the Control of Emissions From Motor Vehicles, which has been created by the Department, to conduct a study concerning the inspection and testing of motor vehicles and systems for the control of emissions from motor vehicles in this State. This bill also requires the Committee to submit, on or before June 30, 2016, a report of the results of the study and a proposal for an updated and modernized plan for such inspection and testing to the Director of the Legislative Counsel Bureau for transmittal to the Chairs of the Senate and Assembly Standing Committees on Transportation.

The following amendment was proposed by the Committee on Ways and Means:

Amendment No. 1041.

AN ACT relating to motor vehicle registration; revising provisions relating to the requirements for certain special license plates; ~~[revising the depreciation schedule used for calculating the governmental services tax imposed on certain vehicles upon registration;]~~ **prohibiting the Department of Motor Vehicles from issuing certain special license plates for a certain period;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, a resident of Nevada may obtain from the Department of Motor Vehicles a special license plate ~~[for any passenger car or light commercial vehicle]~~ inscribed with the words **"Old Timer," "STREET ROD," "CLASSIC ROD" or** "CLASSIC VEHICLE" if the vehicle ~~[: (1) has a manufacturer's rated carrying capacity of 1 ton or less; (2) was manufactured~~

~~at least 25 years before the application for the special license plate is submitted, and (3) contains only the original parts which were used to manufacture the vehicle or replacement parts that duplicate those original parts.~~] **for which any such special license plate is issued satisfies the requirements for the specific license plate.** (NRS **482.381, 482.3812, 482.3814,** 482.3816) ~~[Section 1 of this bill revises those requirements, allowing the issuance of such special license plates for a passenger car or light commercial vehicle manufactured before 1996.]~~ Existing law provides that a vehicle for which **any** such ~~[a]~~ special license plate has been issued is exempt from standards for exhaust emissions, fuel evaporative emissions and visible emissions of smoke if the owner of the vehicle certifies to the Department that the vehicle was not driven more than 5,000 miles during the immediately preceding year. (NRS 445B.760)

~~[Existing law sets forth depreciation schedules for determining the amount of governmental services taxes due each year for used vehicles and establishes a minimum tax of $16. (NRS 371.060) Section 2 of this bill reduces the amount of governmental services taxes due annually for used vehicles by increasing the amount of depreciation allowed and decreases the minimum tax to $6.]~~

Under existing law, a vehicle with a model year of 1996 or newer is not eligible for the issuance of a special license plate inscribed with the words "STREET ROD," as a vehicle must have been manufactured not later than 1948 to be eligible for the issuance of that special license plate. (NRS 482.3812) Sections 1, 1.3 and 1.7 of this bill revise the requirements for the issuance of a special license plate inscribed with the words "Old Timer," "CLASSIC ROD" or "CLASSIC VEHICLE," respectively, and provide that a vehicle with a model year of 1996 or newer is not eligible for the issuance of any such special license plate.

Section 3.5 of this bill prohibits the Department from issuing a special license plate inscribed with the words "Old Timer," "STREET ROD," "CLASSIC ROD" or "CLASSIC VEHICLE" on or after July 1, 2015, and before July 1, 2017.

Assembly Bill No. 445.

Bill read third time.

The following amendment was proposed by the Committee on Ways and Means:

Amendment No. 1037.

AN ACT relating to redevelopment; requiring a portion of the revenues from taxes imposed on property in certain redevelopment areas to be set aside and used for public educational facilities; revising provisions relating to the extension of certain redevelopment plans; revising provisions relating to the recalculation of the total assessed value of taxable property in certain redevelopment areas; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, a redevelopment plan, and any amendments to the plan, adopted by the redevelopment agency of a city or county on or after January 1, 1991, terminates not later than 30 years after the date on which the original redevelopment plan was adopted. (NRS 279.439) **Section 3** of this bill extends to a maximum of 45 years the date of termination of such a redevelopment plan, and any amendments to the plan, adopted by a city **whose population is 220,000 or more but less than 500,000** located in a county whose population is 700,000 or more (currently ~~[Clark County)]~~ **the City of Henderson)** if the city council adopts the extension of the plan by ordinance. If such an ordinance is adopted, **section 1** of this bill requires that 18 percent of the revenues received from taxes on the taxable property located in the redevelopment area affected by the ordinance on or after the effective date of the ordinance be set aside to improve and preserve existing public educational facilities which are located within the redevelopment area or which serve pupils who reside within the redevelopment area. **Section 1** also provides that the obligation to set aside such revenues is subordinate to any existing obligations of the agency.

Under existing law, the date of termination of a redevelopment plan and any amendments to the plan adopted before January 1, 1991, by a redevelopment agency of a city whose population is 500,000 or more (currently the City of Las Vegas) is authorized to be extended by ordinance adopted by the city council of that city from a maximum of 45 years to 60 years if the following conditions exist on the date on which the extension is adopted: (1) the assessed value of each redevelopment project in the redevelopment area is not less than the assessed value of the redevelopment project in the year in which the redevelopment plan was adopted; (2) the assessed value of the redevelopment area is not less than 75 percent of the assessed value of the redevelopment area in the year in which the redevelopment plan was adopted; and (3) the agency has $100 million or more in total outstanding indebtedness represented by bonds and other securities. (NRS 279.438) **Section 2** of this bill changes the assessed value requirement in the first condition from the basis of each individual redevelopment project to the aggregate of redevelopment projects in the redevelopment area and eliminates the third condition.

Under existing law, a redevelopment agency in a city located in a county whose population is 700,000 or more (currently Clark County) is authorized to adopt, in certain circumstances, an ordinance which provides for the recalculation of the total assessed value of the taxable property in a redevelopment area for certain purposes. If such a redevelopment agency adopts such an ordinance and receives certain revenue from taxes, existing law requires that 18 percent of the revenue received on or after the effective date of the ordinance be set aside to improve and preserve existing public educational facilities which are located within the redevelopment area or which serve pupils who reside within the redevelopment area. (NRS 279.676) **Section 3.5** of this bill revises the application of the recalculated assessed value in the tax distribution formula for the redevelopment area and specifies that the revenue received by the agency is from taxes on the taxable property located in the redevelopment area affected by the ordinance that is adopted.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 279 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Except as otherwise provided in this section, an agency of a city whose population is 220,000 or more but less than 500,000 located in a county whose population is 700,000 or more that adopts an ordinance pursuant to subsection 3 of NRS 279.439 and which receives revenue pursuant to paragraph (b) of subsection 1 of NRS 279.676 from taxes on the taxable property located in the redevelopment area affected by the ordinance shall set aside not less than 18 percent of such revenue received on or after the effective date of the ordinance to improve and preserve existing public educational facilities which are located within the redevelopment area or which serve pupils who reside within the redevelopment area. The provisions of this subsection do not apply if such an agency is required pursuant to subsection 6 of NRS 279.676 to set aside not less than 18 percent of revenue received pursuant to paragraph (b) of subsection 1 of NRS 279.676 from taxes on the taxable property located in the redevelopment area affected by the ordinance adopted by the agency pursuant to subsection 5 of NRS 279.676 on or after the effective date of that ordinance to improve and preserve existing public educational facilities which are located within the redevelopment area or which serve pupils who reside within the redevelopment area. For each fiscal year, the agency shall prepare a written report concerning the amount of money expended for the purposes set forth in this subsection and shall, on or before November 30 of each year, submit a copy of the report to the Director of the Legislative Counsel Bureau for transmittal to the Legislative Commission, if the report is received during an odd-numbered year, or to the next session of the Legislature, if the report is received during an even-numbered year.

2. The obligation of an agency pursuant to subsection 1 to set aside not less than 18 percent of the revenue allocated to and received by the agency pursuant to paragraph (b) of subsection 1 of NRS 279.676 from taxes on the taxable property located in the redevelopment area affected by the ordinance adopted by the agency pursuant to subsection 3 of NRS 279.439 is subordinate to any existing obligations of the agency. As used in this subsection, "existing obligations" means the principal and interest, when due, on any bonds, notes or other indebtedness whether funded, refunded, assumed or otherwise incurred by the agency before the effective date of the ordinance adopted by the agency pursuant to subsection 3 of NRS 279.439, to finance or refinance in whole or in part, the redevelopment of a redevelopment area. For the purposes of this subsection, obligations incurred by an agency on or after the effective date of the ordinance adopted by the agency pursuant to subsection 3 of NRS 279.439 shall be deemed existing obligations if the net proceeds are used to refinance existing obligations of the agency.

Sec. 2. NRS 279.438 is hereby amended to read as follows:

279.438 1. A redevelopment plan adopted before January 1, 1991, and any amendments to the plan must terminate at the end of the fiscal year in which the principal and interest of the last maturing of the securities issued before that date concerning the redevelopment area are fully paid or:

(b) With respect to any other redevelopment plan, including a redevelopment plan adopted by an agency of a city whose population is 500,000 or more, if the requirements set forth in subsection 2 are not met, 45 years after the date on which the original redevelopment plan was adopted, whichever is later.

2. A redevelopment plan adopted by an agency of a city whose population is 500,000 or more may terminate on the date prescribed by paragraph (a) of subsection 1 only if the legislative body adopts an extension of the redevelopment plan by ordinance and, on the date on which the extension is adopted:

(a) The assessed value of ~~[each]~~ ***the aggregate number of*** redevelopment ~~[project]~~ ***projects*** in the redevelopment area is not less than the assessed value of the ***aggregate number of*** redevelopment ~~[project]~~ ***projects*** in the year in which the redevelopment plan was adopted; ***and***

1. Except as otherwise provided in subsections 2 and 3, a redevelopment plan adopted on or after January 1, 1991, and any amendments to the plan must terminate not later than 30 years after the date on which the original redevelopment plan is adopted.

2. A redevelopment plan, and any amendments to the plan, adopted on or after January 1, 1991, by an agency of a city whose population is 220,000 or more but less than 500,000 located in a county whose population is 700,000 or more that meets the requirement of subsection 3 must terminate not later than 45 years after the date on which the original redevelopment plan is adopted.

3. A redevelopment plan, and any amendments to the plan, may terminate on the date prescribed by subsection 2 only if the legislative body adopts an extension of the redevelopment plan by ordinance.

Sec. 3.5. NRS 279.676 is hereby amended to read as follows:

279.676 1. Any redevelopment plan may contain a provision that taxes, if any, levied upon taxable property in the redevelopment area each year by or for the benefit of the State, any city, county, district or other public corporation, after the effective date of the ordinance approving the redevelopment plan, must be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of the taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment area as shown upon the assessment roll used in connection with the taxation of the property by the taxing agency, last equalized before the effective date of the ordinance, must be allocated to and when collected must be paid into the funds of the respective taxing agencies as taxes by or for such taxing agencies on all other property are paid. To allocate taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment area on the effective date of the ordinance but to which the territory has been annexed or otherwise included after the effective date, the assessment roll of the county last equalized on the effective date of the ordinance must be used in determining the assessed valuation of the taxable property in the redevelopment area on the effective date. If property which was shown on the assessment roll used to determine the amount of taxes allocated to the taxing agencies is transferred to the State and becomes exempt from taxation, the assessed valuation of the exempt property as shown on the assessment roll last equalized before the date on which the property was transferred to the State must be subtracted from the assessed valuation used to determine the amount of revenue allocated to the taxing agencies.

(b) Except as otherwise provided in paragraphs (c) and (d) and NRS 540A.265, that portion of the levied taxes each year in excess of the amount set forth in paragraph (a) must be allocated to and when collected must be paid into a special fund of the redevelopment agency to pay the costs of redevelopment and to pay the principal of and interest on loans, money

advanced to, or indebtedness, whether funded, refunded, assumed, or otherwise, incurred by the redevelopment agency to finance or refinance, in whole or in part, redevelopment. Unless the total assessed valuation of the taxable property in a redevelopment area exceeds the total assessed value of the taxable property in the redevelopment area as shown by:

(1) The assessment roll last equalized before the effective date of the ordinance approving the redevelopment plan; or

(2) The assessment roll last equalized before the effective date of an ordinance adopted pursuant to subsection 5,

➥ whichever occurs later, less the assessed valuation of any exempt property subtracted pursuant to paragraph (a), all of the taxes levied and collected upon the taxable property in the redevelopment area must be paid into the funds of the respective taxing agencies. When the redevelopment plan is terminated pursuant to the provisions of NRS 279.438 and 279.439 and all loans, advances and indebtedness, if any, and interest thereon, have been paid, all money thereafter received from taxes upon the taxable property in the redevelopment area must be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

(c) That portion of the taxes in excess of the amount set forth in paragraph (a) that is attributable to a tax rate levied by a taxing agency to produce revenues in an amount sufficient to make annual repayments of the principal of, and the interest on, any bonded indebtedness that was approved by the voters of the taxing agency on or after November 5, 1996, must be allocated to and when collected must be paid into the debt service fund of that taxing agency.

(d) That portion of the taxes in excess of the amount set forth in paragraph (a) that is attributable to a new or increased tax rate levied by a taxing agency and was approved by the voters of the taxing agency on or after November 5, 1996, must be allocated to and when collected must be paid into the appropriate fund of the taxing agency.

2. Except as otherwise provided in subsection 3, in any fiscal year, the total revenue paid to a redevelopment agency must not exceed:

(a) In a county whose population is 100,000 or more or a city whose population is 150,000 or more, an amount equal to the combined tax rates of the taxing agencies for that fiscal year multiplied by 10 percent of the total assessed valuation of the municipality.

(b) In a county whose population is 30,000 or more but less than 100,000 or a city whose population is 25,000 or more but less than 150,000, an amount equal to the combined tax rates of the taxing agencies for that fiscal year multiplied by 15 percent of the total assessed valuation of the municipality.

(c) In a county whose population is less than 30,000 or a city whose population is less than 25,000, an amount equal to the combined tax rates of the taxing agencies for that fiscal year multiplied by 20 percent of the total assessed valuation of the municipality.

➥ If the revenue paid to a redevelopment agency must be limited pursuant to paragraph (a), (b) or (c) and the redevelopment agency has more than one redevelopment area, the redevelopment agency shall determine the allocation to each area. Any revenue which would be allocated to a redevelopment agency but for the provisions of this section must be paid into the funds of the respective taxing agencies.

3. The taxing agencies shall continue to pay to a redevelopment agency any amount which was being paid before July 1, 1987, and in anticipation of which the agency became obligated before July 1, 1987, to repay any bond, loan, money advanced or any other indebtedness, whether funded, refunded, assumed or otherwise incurred.

4. For the purposes of this section, the assessment roll last equalized before the effective date of the ordinance approving the redevelopment plan is the assessment roll in existence on March 15 immediately preceding the effective date of the ordinance.

5. If in any year the assessed value of the taxable property in a redevelopment area located in a city in a county whose population is 700,000 or more as shown by the assessment roll most recently equalized has decreased by 10 percent or more from the assessed value of the taxable property in the redevelopment area as shown by the assessment roll last equalized before the effective date of the ordinance approving the redevelopment plan, the redevelopment agency may adopt an ordinance which provides that the total assessed value of the taxable property in the redevelopment area for the purposes of ~~[paragraph]~~ ***paragraphs (a) and*** (b) of subsection 1 is the total assessed value of the taxable property in the redevelopment area as shown by the assessment roll last equalized before the effective date of the ordinance adopted pursuant to this subsection. A redevelopment agency may adopt an ordinance pursuant to this subsection only once, and the election to adopt such an ordinance is irrevocable.

6. An agency which adopts an ordinance pursuant to subsection 5 and which receives revenue ~~[from taxes]~~ pursuant to paragraph (b) of subsection 1 ***from taxes on the taxable property located in the redevelopment area affected by the ordinance*** shall set aside not less than 18 percent of that revenue received on and after the effective date of the ordinance to improve and preserve existing public educational facilities which are located within the redevelopment area or which serve pupils who reside within the redevelopment area. For each fiscal year, the agency shall prepare a written report concerning the amount of money expended for the purposes set forth in this subsection and shall, on or before November 30 of each year, submit a copy of the report to the Director of the Legislative Counsel Bureau for transmittal to the Legislative Commission, if the report is received during an odd-numbered year, or to the next session of the Legislature, if the report is received during an even-numbered year.

7. The obligation of an agency pursuant to subsection 6 to set aside not less than 18 percent of the revenue ~~[from taxes]~~ allocated to and received by

the agency pursuant to paragraph (b) of subsection 1 ***from taxes on the taxable property located in the redevelopment area affected by the ordinance adopted by the agency pursuant to subsection 5*** is subordinate to any existing obligations of the agency. As used in this subsection, "existing obligations" means the principal and interest, when due, on any bonds, notes or other indebtedness whether funded, refunded, assumed or otherwise incurred by an agency before the effective date of an ordinance adopted by the agency pursuant to subsection 5, to finance or refinance in whole or in part, the redevelopment of a redevelopment area. For the purposes of this subsection, obligations incurred by an agency on or after the effective date of an ordinance adopted by the agency pursuant to subsection 5 shall be deemed existing obligations if the net proceeds are used to refinance existing obligations of the agency.

Sec. 4. NRS 279.680 is hereby amended to read as follows:

279.680 Except as otherwise provided in NRS 279.685 ~~[,]~~ ***and section 1 of this act,*** in any redevelopment plan, or in the proceedings for the advance of money, or the making of loans, or the incurring of any indebtedness, whether funded, refunded, assumed or otherwise, by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes mentioned in paragraph (b) of subsection 1 of NRS 279.676 may be irrevocably pledged for the payment of the principal of and interest on those loans, advances or indebtedness.

Sec. 5. NRS 279.687 is hereby amended to read as follows:

279.687 A school district shall not use any money received pursuant to subparagraph (2) of paragraph (b) of subsection 1 of NRS 279.685 ***,*** ~~[or]~~ paragraph (c) of subsection 1 of NRS 279.685 ***or section 1 of this act*** to reduce or supplant the amount of any money which the school district would otherwise expend for the purposes described in subparagraph (2) of paragraph (b) of subsection 1 of NRS 279.685 ***,*** ~~[and]~~ paragraph (c) of subsection 1 of NRS 279.685 ~~[,]~~ ***and section 1 of this act,*** respectively.

Sec. 6. The provisions of subsection 1 of NRS 218D.380 do not apply to the reporting requirements of section 1 of this act.

Sec. 7. This act becomes effective on July 1, 2015.

Assemblywoman Kirkpatrick moved the adoption of the amendment.

Assembly Bill 485, as amended, revises the duties of the Director of the Office of Science, Innovation and Technology to include coordinating activities in the state related to broadband services, providing support to the Advisory Council on Science, Technology, Engineering and Mathematics, and administering grants provided by legislative appropriation.

In addition, Assembly Bill 485, as amended, transfers the Advisory Council on Science, Technology, Engineering and Mathematics from the Department of Education to the Office of Science, Innovation and Technology and eliminates the expiration date of the Council, making it permanent. Assembly Bill 485, as amended, also requires the Council to establish events in both southern and northern Nevada to recognize pupils who demonstrate exemplary achievement in the fields of science, technology, engineering, and mathematics.

There are several other things here, but I think it is a good bill.

GENERAL FILE AND THIRD READING

Assembly Bill No. 490.

Bill read third time.

Remarks by Assemblymen Hickey, Carlton, Fiore, and Elliot Anderson.

ASSEMBLYMAN HICKEY:

Assembly Bill 490 authorizes expenditures of agencies of the state government for the 2015-2017 biennium. The Authorized Expenditures Act, together with the General Appropriations Act, the school funding bill, the unclassified pay bill, and the capital improvement program bill, constitute the major budget bills for the ongoing operation of state government for the next two fiscal years and reflect the culmination of a considerable amount of work by the Senate Committee on Finance and the Assembly Committee on Ways and Means.

Assembly Bill 490 represents authority for agencies to collect and expend monies, including federal funds, gifts, grants, interagency transfers, service fees, and other funds, which total $11.7 billion over the 2015-2017 biennium. Additionally, due to specific statutory language for these agencies, Assembly Bill 490 includes authority for the Gaming Control Board and the Nevada Gaming Commission to expend $61.4 million from the General Fund over the 2015-2017 biennium. Similarly, the bill includes authority for the Nevada Department of Transportation to expend $644.4 million from the Highway Fund over the 2015-2017 biennium.

ASSEMBLYWOMAN CARLTON:

I rise in support of Assembly Bill 490. I had committed to some of my colleagues that when this bill came, I would give them a snapshot in time of what we were looking at in the 2011-2012 fiscal year, what we are looking at now, and some of the changes. At that time, we had eliminated the senior citizen property tax abatement. In section 60 of the bill, you will find that abatement replaced. In FY 2011-2012, the Division of Museums and History was appropriated at $137,000 and $184,000. In this bill, they are at $207,000 and $208,000. So we are coming back. The UNLV [University of Nevada, Las Vegas] law school had an increase, and Nevada State College went from $4,404,000 to $14 million. So we are really making a difference in the state budget with this bill. Fire suppression—$3,162,000 of each year, now we are funding it at over $6 million. Unfortunately, state parks have not fared as well. They are still behind, but our Equal Rights Commission is working forward and doing much better to deal with the issues that face them. So just for the body's edification, when you question why you are voting for something, just ask me. I will tell you.

ASSEMBLYWOMAN FIORE:

I work really hard on making sure that I vet all bills before I vote on them. I do not like voting on a bill that we have not caucused on or talked about. This particular bill, A.B. 490—I am madly looking through my notes. I am sorry, I am not going to vote on this bill since I have not read it.

My name is Michele Fiore, not Nancy Pelosi. I urge any of my other colleagues who have not read this bill to be a no vote.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in support of Assembly Bill 490. I cannot help but stand up as a student on this floor today and talk about how good this bill is for students. Unlike past sessions where we have not been able to fund the university system to the level it needed to be, this session we are really doing our higher education system a great deal of good. This will help students not to have to take out as many loans. For all you parents and grandparents, this is a great deal for students. I am proud to be here to vote on this measure.

ASSEMBLYMAN KIRNER:

Assembly Bill 491 provides for the implementation of the 2015 Capital Improvement Program as approved by the money committees. The bill includes funding in the amount of $215.3 million for the Capital Improvement Program. The bill includes the following major funding sources to support the program: $121.5 million in general obligation bonds; $43.6 million in federal funds for the Office of the Military and the Department of Veterans Services projects; $28.2 million in agency and donor funds for Nevada System of Higher Education, Department of Veterans Services, and Department of Administration projects; $6.4 million in General Fund appropriations; $5.6 million in excess funding reallocated from projects approved in prior capital improvement programs; $5.2 million in State Highway Funds for Department of Motor Vehicles and Department of Public Safety projects; and $5 million from the Special Higher Education Capital Construction Fund.

Assembly Bill 491 provides $134.2 million to support nine construction projects in the 2015 Capital Improvement Program. Notable construction includes $23 million to construct the new 38,500-square-foot Department of Motor Vehicles service office at the East Sahara complex in Las Vegas; $48.2 million to construct the new 102,000-square-foot Northern Nevada State Veterans Home in Sparks to provide long-term nursing care for veterans and their spouses in northern Nevada; and $48.8 million to construct the new 93,500-square-foot hotel college academic building at the University of Nevada, Las Vegas.

In addition, this bill provides maintenance, planning, and other statewide projects. At the same time, the bill includes a 15.45-cent property tax levy for debt service in each year of the 2015-2017 biennium for general obligation bonds issued to finance the Capital Improvement Program. The bill includes an additional 1.55-cent levy that must be used exclusively for repayment of bonded indebtedness issued as a result of the approval by the voters of Question 1 on the November 2002 ballot. The approval of Question 1 by the voters authorized the issuance of bonds not to exceed $200 million to protect, preserve, and obtain the benefits of the property and natural resources of the state. The total property tax levy of 17 cents remains unchanged from the levies approved for the 2013-2015 biennium. The levies above the historic 15-cent levy, 2 cents, are not subject to the $3.64 local government property tax cap.

ASSEMBLYWOMAN FIORE:

Hi, Mr. Speaker. I am sorry. It is late and I am once again frantically going through all my notes. I am hearing millions going here and millions going there and A.B. 491 is not on my list of approved bills. I will be voting no again.

ASSEMBLYWOMAN KIRKPATRICK:

I want to clarify for my colleagues what is going on here because I am shocked that so many people voted against capital improvement projects just now. These projects are going to be in everybody's districts across the state. These are things that matter in the rurals, things that matter in the north, things that matter in the south. We just voted against jobs, first and foremost. I said to my colleagues this morning in Ways and Means that we are at a deadline where all of these bills are going to come out. Please share the information with your colleagues. I do not care whose colleague it is—remember, I like everybody in the Chamber. I try to get along with everybody. I try to help everybody regardless of party. There were twelve bills that came out of Ways and Means that are crucial to funding our budget. It is somewhat bothersome to me that we voted against jobs because we are trying so hard to ensure that folks in Winnemucca, folks in Wendover, folks in Douglas County, folks in Reno, and folks in Las Vegas have those opportunities. I apologize to those folks who did not know what the bills were, but I did ask your colleagues, on both sides of the aisle, to reach out to each other. On Ways and Means, there are nine Republicans and there are six Democrats. That is one-third of this body. There were 12 bills that came out of Ways and Means, and we have about 7 of them left to vote on. So in order for this building to shut down logistically, we have to vote out all the Assembly bills tonight whether you like it or not, or they do not even have a fair shot on the other side. They still have to go through the entire process and hope to heaven's sake that they do not amend them, because then they are probably lost. That is not helpful to the overall situation.

I wanted to share with my colleagues why we do things, how we do things. I understand there are a lot of new faces, but it is important that we actually follow the procedure and the policy to ensure that, if all of you want to go home at midnight tomorrow, we can make that happen. We did the hard lift today. Whether you agree or disagree, if you do not bring the gravy for the mashed potatoes that we just passed, we are going to sit here and do them at about 1:30 Tuesday morning. Not all of us are going to suffer, but those people on the front desk are going to suffer, our broadcasting folks are going to suffer, our Legislative Police are going to suffer, and most importantly our legal folks are going to suffer. I thought I was helping by telling everybody to share the information with your colleagues. I am happy to share plenty with my colleagues.

ASSEMBLYMAN HANSEN:

I appreciate her comments very much. The only reason I voted no is that while your caucus has been highly functional in that you guys have discussed these bills in depth for days, I have not had a chance to review these. It is not because I am inept or because I have somehow failed to do my job. You expect us to vote for millions and millions of dollars, and I have no problem with that unless I have not been informed in the slightest degree about these bills. It is not because of some lack of diligence on my part. With all due respect, I certainly want jobs, but there is a big difference in how we functioned in this building.

ASSEMBLYWOMAN FIORE:

I have to stand here before this body and give kudos to the former Speaker of this body because they do have it together and we do not. Unfortunately, because we have not had your leadership this session, we do not know these bills, we were not informed, and I will not vote on something I have not read. I respect you highly, Assemblywoman from District 1, and sometimes I wish I were in your caucus.

ASSEMBLYMAN OSCARSON:

I have stayed silent as long as I can. There are some members of our caucus who are dysfunctional. Not all of them. Indeed, these documents have been on the desk for two days. Those who have not read them, I challenge them to start reading their literature. I am tired of the rhetoric and the innuendos.

ASSEMBLYMAN WHEELER:

Let us get back to the policy. I have actually read these bills; they were on my desk for a couple of days. In response to my colleague from District 1, I would like to say that I did not vote for the new revenue and therefore I do not think I should be voting for the expenditures.

The following amendment was proposed by Assemblyman Hansen:

Amendment No. 1048.

AN ACT relating to administrative regulations; **making the provisions governing administrative rulemaking applicable to certain written policies, interpretations, processes or procedures of certain agencies; limiting the scope of the exclusions to the rulemaking provisions;** revising provisions governing statements relating to the effect of a regulation on small business submitted with adopted permanent regulations; clarifying the time by which proposed regulations must be returned to state agencies; **providing that any permanent regulation adopted or implemented by an agency on or after July 1, 1995, that was not approved by the Legislative Commission or the Subcommittee to Review Regulations is null and void;** revising provisions relating to the review of regulations by the Legislative Committee on Health Care; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

The Nevada Administrative Procedure Act establishes the procedures for the adoption of administrative regulations by agencies of the Executive Department of the State Government that are not exempt from the requirements of the Act. (Chapter 233B of NRS) Section 1 of this bill makes the requirements of the Act applicable to such an agency's written policies, interpretations, processes or procedures to determine whether a person is in compliance with a federal or state statute or regulation which is enforceable by the agency. Section 1 also provides that the exclusions from the rulemaking provisions must be construed narrowly by their express terms and no other exclusion may be implied.

Existing law requires an agency which is proposing to adopt a regulation to make a concerted effort to determine whether the proposed regulation is likely to impose a direct and significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business. If so, the agency is required to take certain actions and prepare a small business impact statement. (NRS 233B.0608, 233B.0609) In addition, such an agency is required to prepare a statement which identifies the methods used by the

agency in determining the impact of a proposed regulation on a small business and the reasons for the conclusions of the agency. A copy of the statement and the small business impact statement are required to be submitted to the Legislative Counsel with each adopted regulation. (NRS 233B.0608) **Section ~~[2]~~ 3** of this bill instead requires an agency to submit only one statement or the other. **Section ~~[2]~~ 3** also provides that a small business impact statement will only be required when the agency concludes that the regulation is likely to impose a direct and significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business. **Sections ~~[1, 4 and 6]~~ 2, 6 and 8** of this bill make conforming changes.

Existing law prescribes a procedure for the review of adopted permanent regulations by the Legislative Commission or the Subcommittee to Review Regulations, which requires the Commission or Subcommittee to either affirmatively approve or object to a regulation. (NRS 233B.067, 233B.0675, 233B.0681) If the Commission or Subcommittee approves a permanent regulation, the regulation, with certain exceptions, becomes effective upon its filing by the Legislative Counsel with the Secretary of State. (NRS 233B.070) Section 4 of this bill provides that any permanent regulation adopted or implemented by an agency on or after July 1, 1995, that was not approved by the Commission or Subcommittee is null and void.

Existing law requires a state agency that intends to adopt, amend or repeal a permanent regulation to submit its proposed regulation to the Legislative Counsel. The Legislative Counsel is required to examine and, if appropriate, revise the language submitted. If the proposed regulation is submitted between July 1 of an odd-numbered year and July 1 of the succeeding even-numbered year, the Legislative Counsel is required to return the proposed regulation within 30 days. (NRS 233B.063) **Section ~~[3]~~ 5** of this bill clarifies that if the proposed regulation is submitted during any other period, the Legislative Counsel may accept the regulation but is not required to comply with the 30-day deadline.

Existing law requires the Legislative Committee on Health Care to consider certain regulations relating to the licensing of health care professionals. (NRS 439B.225) **Section ~~[7]~~ 9** of this bill instead authorizes the Legislative Committee on Health Care to consider any regulation that is proposed or adopted which relates to health care, thereby allowing the Committee to determine which regulations the Committee wishes to consider and to consider a broader range of topics that may relate to health care which are addressed in administrative regulations. **Sections ~~[3 and]~~ 5 and 7** of this bill make conforming changes.

~~[Sec. 8.]~~ ***Sec. 10.*** This act becomes effective upon passage and approval.

Assemblyman Hansen moved the adoption of the amendment.
Remarks by Assemblymen Hansen and Kirkpatrick.

ASSEMBLYMAN HANSEN:

This is a fairly brief amendment. It is an enhancement of some of the work that the Minority Leader and I have done on the amendment process and especially NRS [*Nevada Revised Statutes*] Chapter 233B. It deals primarily with permanent regulations and when they are going to be considered permanent.

ASSEMBLYWOMAN KIRKPATRICK:

I rise in support of Amendment 1048. My colleague from Assembly District 32 and I have spent three sessions working very hard to change NRS Chapter 233B along with many others to ensure that the Legislative Commission can make an educated vote when it comes to the regulations that are interpreting the legislative intent of each of our colleagues. I hope that everyone will support the amendment because it just makes this bill that much better.

Amendment adopted.
Bill ordered reprinted, engrossed and to third reading.

Senate Bill No. 99.
Bill read third time.
Remarks by Assemblymen Fiore and Elliot Anderson.

ASSEMBLYWOMAN FIORE:

Senate Bill 99 revises statutes governing registration and community notification concerning sex offenders and persons guilty of certain crimes against children. It also revises provisions concerning certain juvenile sex offenders. The bill makes technical corrections to procedures concerning sex offender registration and petitions to reduce the time during which an offender must register and be subject to community notification requirements. It also revises provisions governing information that is to be included in the record of an offender's registration and revises provisions governing a registered offender's duty to update information.

In addition to other requirements, this bill provides that a sex offender or an offender convicted of a crime against a child must update his or her registration within 48 hours upon a change in his or her driver's license, identification card, or the description of a vehicle registered to, or frequently driven by, the offender. The measure also sets forth revised registration and community notification processes regarding a child who is 14 years of age or older at the time of an alleged offense who is adjudicated delinquent for the offenses. Procedures concerning the termination of registration and community notification requirements of such juveniles are also provided.

Senate Bill 99 is very important. It is just the beginning. When we come back next session, we are going to have some more work to do on it, but at least it is a start. I urge all of my colleagues to please support this bill. It is very important.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in support of Senate Bill 99. I want to compliment the Assemblywoman from District 4 for her and her co-sponsor's work on this. They have both done a really good job working this bill. It is not perfect, but it does a lot of good for kids in our state. We have talked a lot in this session about how kids have not developed as far as adults and their brains are not as developed. This is really important so that we are not sending them to prison for the rest of their lives and getting them down the wrong track. I urge your support.

Senate Bill No. 227.

Bill read third time.

Remarks by Assemblywomen Swank and Fiore.

ASSEMBLYWOMAN SWANK:

Senate Bill 227, as amended, creates the Silver State Opportunity Grant Program and requires the Board of Regents to award grants for educational expenses to eligible students enrolled in a state or community college within the Nevada System of Higher Education. The bill requires the Board of Regents to adopt regulations prescribing the procedures and standards for determining eligibility, the methodology for calculating the financial need of a student, and the process by which a student may meet the 15-credit enrollment requirement and any other regulations necessary to carry out the program.

Additionally, the bill requires the Board of Regents to calculate the maximum grant a student is eligible to receive, net of other funding sources, and determine the actual amount of the grant to be awarded. The bill requires the Board of Regents to submit a biennial program report to the Legislature. Finally, the bill authorizes the Board to accept gifts, grants, bequests, and donations to fund program grants.

ASSEMBLYWOMAN FIORE:

I rise in support of this bill since it does not appropriate any funds.

ASSEMBLYWOMAN CARLTON:

I rise in support of Assembly Bill 146. As you may recall, in the recent past we amended this bill. It calls to conduct a study concerning the inspection and testing of motor vehicles and systems for the control of emissions from motor vehicles in this state. The results are to be forwarded to the Legislative Counsel Bureau to be forwarded to the Chairs of the Senate and Assembly Committees on Transportation on or before June 30, 2016.

I have a two-page floor statement, but I am going to summarize it this way. Two years ago, the Governor put the Women Veterans Advisory Committee together through an executive order. Remarks by Assemblymen Dickman and Carrillo.

ASSEMBLYMAN DICKMAN:

Assembly Bill 326, as amended, revises Chapter 482 of *Nevada Revised Statutes* and prohibits the Department of Motor Vehicles from issuing an Old Timer license plate for any motor vehicle with a model year of 1996 or newer. Assembly Bill 326, as amended, authorizes the Department

of Motor Vehicles to issue Classic Rod and Classic Vehicle license plates for vehicles with a model year of 1995 or older. The bill prohibits the Department of Motor Vehicles from issuing any Old Timer, Street Rod, Classic Rod, and Classic Vehicle license plates on or after July 1, 2015, and before July 1, 2017, at which time the results of the study set forth in the companion bill, Assembly Bill 146, will have been completed.

ASSEMBLYMAN CARRILLO:

The premise of A.B. 326 originally was to help Nevadans lower the registration costs on their vehicles from where it was in 2009. Unfortunately, that was written out of the bill. At this point, we are looking at protecting the classic car community by putting a moratorium on the plate. This is a good bill, and I urge the body's support.

ASSEMBLYMAN BUSTAMANTE ADAMS:

Assembly Bill 399, as amended, requires the Office of Economic Development, in consultation with the College of Southern Nevada and other parties, to develop, create, and oversee the NV Grow Program as a pilot program designed to stimulate Nevada's economy. The program is to be designed to provide assistance to businesses that are already located and operating in Nevada, rather than to recruit businesses from other states to relocate to Nevada.

Assembly Bill 399 also requires the appropriation of $150,000 from the State General Fund to the College of Southern Nevada to allow for the purchase of software for a geographic information system, hire a person to operate the system, and provide other services as are necessary to carry out the pilot program in Clark County.

ASSEMBLYWOMAN FIORE:

As we go through these bills, I am racing through my notes and my note is basically telling me no. It is a pilot program with an appropriation of fees. I think we just spent a lot of money tonight, and I think it is time to stop spending.

ASSEMBLYWOMAN KIRKPATRICK:

Assembly Bill 445 extends the redevelopment plan to 45 years. I can explain this bill more easily than trying to read a floor statement. In sections 1 and 3, it clarifies that the extension of the redevelopment plan applies to a city of 200,000 to 500,000. In section 2 of the bill, it makes some technical changes so that when redevelopment comes about, there will be clarity. Lastly, this bill clarifies that it is extending it to a 45-day period.

I urge everybody to support it, which is a big deal because I hardly ever support redevelopment, but this is actually a good fix for the state.

ASSEMBLYMAN OSCARSON:

Assembly Bill 485, as amended, revises the duties of the Director of the Office of Science, Innovation and Technology to include coordinating activities in the state related to broadband services; providing support to the Advisory Council on Science, Technology, Engineering and Mathematics; and administering grants provided by legislative appropriation.

In addition, Assembly Bill 485, as amended, transfers the Advisory Council on Science, Technology, Engineering and Mathematics from the Department of Education to the Office of Science, Innovation and Technology and eliminates the expiration date of the Council, making it permanent. Assembly Bill 485, as amended, also requires the Council to establish events in both southern and northern Nevada to recognize pupils who demonstrate exemplary achievement in the fields of science, technology, engineering, and mathematics.

Assembly Bill 485, as amended, also reduces the membership of the Council, appointed by the Majority Leader of the Senate and the Speaker of the Assembly, from four members each to two members each, and increases the number of members appointed by the Minority Leaders of the Senate and Assembly from one member each to two members each.

ASSEMBLYWOMAN FIORE:

I am sorry. I have to rise in opposition to this bill. This is one that we have not vetted, and I will not vote on something that has not been vetted.

ASSEMBLYWOMAN CARLTON:

Unfortunately, I rise in opposition also. I was opposed in committee. I was opposed when it was in the budget, which was a couple of weeks ago. I was opposed when we did the bill in committee a couple of days ago. This bill has been out there. It has been talked about. It has been worked on. It has made its way around the building a couple of times, and I am still a no. I just wanted to let people know that I am a no because I actually know what it does.

ASSEMBLYMAN WHEELER:

Assembly Bill 492 requires a public agency, when proposing a regulation, to submit either a small business impact statement or a statement identifying the agency's conclusions and methods used in determining the impact on a small business. The bill also provides that a small business impact statement be prepared if the regulation is likely to impose a direct or significant economic burden upon a small business or directly restrict the formation, operation, or expansion of a small business.

The bill provides that exclusions from the rulemaking provisions of the Administrative Procedure Act must be construed narrowly and by their express terms and no other exclusion may be implied. Finally, the bill provides that any pertinent regulation adopted or implemented by an agency on or after July 1, 1995, that was not approved by the Legislative Commission or the Subcommittee to Review Regulations is null and void.

MESSAGES FROM THE SENATE

SENATE CHAMBER, Carson City, May 31, 2015

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate on this day passed, as amended, Senate Bill No. 512.

SHERRY RODRIGUEZ
Assistant Secretary of the Senate

INTRODUCTION, FIRST READING AND REFERENCE

Senate Bill No. 512.

Assemblyman Paul Anderson moved that the bill be referred to the Committee on Judiciary.

Motion carried.

GENERAL FILE AND THIRD READING

Assembly Bill No. 476.

Bill read third time.

The following amendment was proposed by the Committee on Ways and Means:

Amendment No. 1044.

AN ACT relating to unarmed combat; **requiring the Nevada Athletic Commission to perform drug testing of amateur and professional unarmed combatants;** requiring the Governor to designate a member of the ~~[Nevada Athletic]~~ Commission as Chair of the Commission; increasing the percentage of the total gross receipts from admission fees to a live contest or exhibition of unarmed combat required to be paid by a promoter as part of a license fee; requiring a portion of such percentage to be deposited with the State Treasurer for credit to the Athletic Commission's Agency Account; **eliminating certain license fees; granting certain authority to the Chair of the Commission; revising provisions concerning disciplinary action taken by the Commission;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the members of the Nevada Athletic Commission to elect a member as Chair of the Commission. (NRS 467.030) **Section ~~[1]~~ 1.5** of this bill instead: (1) requires the Governor to designate a member of the Commission as Chair of the Commission; and (2) provides that the designation as Chair lasts for 2 years, unless revoked by the Governor. **Section 3.3 of this bill grants certain authority to the Chair, including the authority to issue subpoenas and administer oaths.**

Existing law requires a person who charges and receives an admission fee for exhibiting any live contest or exhibition of unarmed combat on a closed-circuit telecast or motion picture to pay a license fee of 4 cents for each $1 or fraction thereof received for admission, based on the face value of all tickets sold and complimentary tickets issued. (NRS 467.104) Section 2.5 of this bill provides that complimentary tickets are not included in the calculation of the license fee.

Existing law also requires every promoter, which is a person who produces or stages any professional contest or exhibition of unarmed combat, to pay a license fee. Part of the license fee is calculated as 6 percent of the total gross receipts from admission fees to a live contest or exhibition of unarmed combat, exclusive of any tax. (NRS 467.107) **Section 3** of this bill increases this percentage of the total gross receipts from admission fees for purposes of

calculating the license fee to 8 percent. **Section 3 provides that complimentary tickets and tickets given to charitable organizations are not included in the total gross receipts from admission fees used to calculate such a license fee under certain circumstances.** **Section 3** also requires that one-fourth of that 8 percent be deposited with the State Treasurer for credit to the Athletic Commission's Agency Account. **Additionally, section 3 provides that a promoter is entitled to receive a credit against the license fee in an amount equal to the amount paid by the promoter to the Commission or to an organization sanctioned by the Commission to administer a drug testing program for unarmed combatants. Finally, section 3 eliminates the requirement to pay a fee based upon the gross receipts from the sale, lease or other exploitation of broadcasting, television and motion picture rights, and section 3.9 of this bill accordingly repeals the requirement to file copies of all contracts relating to television rights for a contest or exhibition of unarmed combat.**

Existing law authorizes the Commission to take disciplinary action and impose penalties against persons for violating the provisions of chapter 467 of NRS. (NRS 467.110, 467.117, 467.157, 467.158) Section 3.5 of this bill authorizes the Commission, in addition to any other disciplinary action taken against a person, to impose a ban from participation in unarmed combat in this State for a certain period, including a lifetime ban from participation in unarmed combat in this State. Section 3.5 also provides that the authority of the Commission to take disciplinary action against a person must not be construed to be limited to those persons who are licensed by the Commission. Such authority extends to any person involved in or associated with unarmed combat in this State who violates any provision of chapter 467 of NRS.

Additionally, existing law requires the Commission to use certain money collected from promoters for certain specified purposes. (NRS 467.108) Section 1 of this bill requires the Commission to perform drug testing of amateur and professional unarmed combatants, and section 3.1 of this bill provides that one of the purposes for which such money must be used is to perform such drug testing.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

TEXT OF REPEALED SECTION

467.137 1. A promoter and a broadcasting network for television shall each, at least 72 hours before a contest or exhibition of unarmed combat, or combination of those events is to be held, file with the Commission's Executive Director a copy of all contracts entered into for the sale, lease or other exploitation of television rights for the contest or exhibition.

2. The promoter shall keep detailed records of the accounts and other documents related to the promoter's receipts from the sale, lease or other exploitation on the television rights for a contest or exhibition. The Commission, at any time, may inspect these accounts and documents to determine the amount of the total gross receipts received by the promoter from the television rights.

3. If a promoter or a network fails to comply with the requirements of this section, the Commission may determine the amount of the total gross receipts from the sale, lease or other exploitation of television rights for

the contest or exhibition and assess the appropriate license fee pursuant to paragraph (b) of subsection 1 of NRS 467.107.

4. Each contract filed with the Commission pursuant to this section is confidential and is not a public record.

Assemblywoman Bustamante Adams moved the adoption of the amendment.

Remarks by Assemblywoman Bustamante Adams.

ASSEMBLYWOMAN BUSTAMANTE ADAMS:

The Amendment clarifies that the license fees required to be paid by a promoter be raised from 6 percent to 8 percent. It also allows the Athletic Commission to become a self-funded entity.

Amendment adopted.

Bill ordered reprinted, engrossed and to third reading.

Assembly Bill No. 476.

Bill read third time.

Remarks by Assemblymen Bustamante Adams, Fiore, Jones and Trowbridge.

Potential conflict of interest declared by Assemblymen Jones and Trowbridge.

ASSEMBLYWOMAN BUSTAMANTE ADAMS:

Assembly Bill 476, as amended, requires the Athletic Commission to perform drug testing of amateur and professional unarmed combatants at any time, including and without limitation, during any period of training. The legislation increases the license fee percentage of the total gross receipts from admission fees to a live contest or exhibition of unarmed combat required to be paid by a promoter from 6 percent to 8 percent. It also provides for a promoter to receive a credit against license fees for administering a drug testing program for unarmed combatants. The bill, as amended, requires one-fourth of the 8 percent license fees collected to be deposited with the State Treasurer for credit to the Athletic Commission's budget, which supports the Governor's recommendation and approval of the money committees that the Athletic Commission become self-funded.

Assembly Bill 476, as amended, requires the Commission to adopt regulations governing the treatment of complimentary tickets excluding charitable organizations from gross receipts and including complimentary tickets excluding 8 percent of the seats in the house in the calculation of the license fee. The bill requires the Governor to designate a member of the Nevada Athletic Commission as Chair of the Commission for a two-year period unless revoked by the Governor. Lastly, the legislation allows the Commission to impose a ban from participation in unarmed combat in this state for a certain period, including a lifetime ban in addition to any other disciplinary actions pursuant to NRS [*Nevada Revised Statutes*] 467.158.

ASSEMBLYWOMAN FIORE:

I rise in opposition to Assembly Bill 476. Kudos to my southern colleagues from Districts 14 and 1 in knowing what bills are coming up and what bills are not coming up. The majority of us in our caucus are not aware of this. So again, Assembly Bill 476 is a no. We have to vet these bills out. Vote diligently. I am glad my colleague from District 14 gets to read them and know what she is doing because her caucus is more together.

ASSEMBLYMAN JONES:

I am a licensed promoter under the Athletic Commission, and I do not know how this bill would affect me. I do not think it would affect me any differently than anyone else, but I do not know what is in it. I think that I should be excused from voting on this bill since I am a licensed promoter

under the Athletic Commission. As my colleague to the left says: Out of an abundance of caution, I think I have a conflict so I do not think I should vote.

ASSEMBLYMAN TROWBRIDGE:
I am afraid I am going to have to stand and excuse myself also for reasons that I work as an independent contractor with the Athletic Commission on many events.

Roll call on Assembly Bill No. 476:

Prayer by the Chaplain, Pastor Albert Tilstra.

Lord, we are ashamed that money and position speak to us more loudly than does the simple compassion of the human heart. Help us to care, as You care, for the little people who have no lobbyists, for the minority groups who sorely need justice. May it be the glory of our government that not only the strong are heard, but also the weak; not only the powerful, but the helpless; not only those with influence, but also who have nothing but a case and an appeal.

May we put our hearts into our work, that our work may get into our hearts.

AMEN.

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 5.

The following Senate amendment was read:

Amendment No. 1024.

AN ACT relating to public welfare; requiring the Aging and Disability Services Division of the Department of Health and Human Services to enter into an agreement with the Rehabilitation Division of the Department of Employment, Training and Rehabilitation to provide long-term support to persons with intellectual disabilities and persons with related conditions; **authorizing the Administrator of the Aging and Disability Services Division to adopt regulations governing the provision of services to certain persons with intellectual disabilities and persons with related conditions;** requiring the Aging and Disability Services Division to provide preferences for potential providers of jobs and day training services in issuing certificates authorizing the provision of such services and in entering into agreements concerning the provision of such services; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Rehabilitation Division of the Department of Employment, Training and Rehabilitation to administer certain programs concerning employment and independent living for persons with disabilities. (NRS 232.945) Existing law also requires the Aging and Disability Services Division of the Department of Health and Human Services to regulate the

provision of jobs and day training services and supported living arrangement services to persons with **intellectual** disabilities and persons with related conditions. (NRS 435.130-435.339) **Section 1** of this bill requires the Aging and Disability Services Division to enter into a cooperative agreement with the Rehabilitation Division to provide long-term support to persons with intellectual disabilities and persons with related conditions. **Section 1 also authorizes the Administrator of the Aging and Disability Services Division to adopt regulations governing the provision of services to persons with intellectual disabilities and persons with related conditions who are unable or unwilling to be employed.**

Existing law requires a natural person and certain entities to obtain a certificate from the Aging and Disability Services Division before providing jobs and day training services in this State, which are services provided to persons with intellectual disabilities or persons with related conditions to enhance self-sufficiency and success in employment. Sections 1.5 and 2 of this bill require the Aging and Disability Services Division to give preference to potential providers of jobs and day training services who will provide persons with intellectual disabilities or persons with related conditions with training and experience leading to employment that: (1) is comparable to employment for persons without intellectual disabilities and persons without related conditions; and (2) pays at or above the state minimum wage. The Aging and Disability Services Division is required to give such a preference when: (1) issuing certificates which authorize the provisions of jobs and day training services; and (2) entering into agreements with public and private agencies for the provision of jobs and day training services. **Sections 1.5 and 2** also require each application for the issuance or renewal of such a certificate and each such agreement to include a provision that employment is the primary service option for all adults of working age.

Assembly Bill No. 159.

The following Senate amendment was read:

Amendment No. 835.

AN ACT relating to public works; revising provisions concerning contracts with a public body for a public work and contracts by the awardee of certain grants, tax abatements, tax credits or tax exemptions from a public body; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law imposes various employment requirements on contracts for a public work. (NRS 338.125-338.135) **Section 3** of this bill provides that a public body, in any solicitation, contract or other document related to a contract for a public work, shall not: (1) require or prohibit a bidder or contractor from entering into or adhering to any agreement with one or more labor organizations in regard to the public work; or (2) discriminate against a bidder or contractor for entering or not entering into, or adhering or refusing to adhere to, any agreement with one or more labor organizations in regard to the public work. **Section 3** further prohibits a public body from awarding a grant, tax abatement, tax credit or tax exemption that is conditioned upon a requirement that the awardee include in a contract for a project that is the subject of the grant, tax abatement, tax credit or tax exemption a term that: (1) requires or prohibits a bidder or contractor from entering into or adhering to

any agreement with one or more labor organizations in regard to the project; or (2) discriminates against a bidder or contractor for entering or not entering into, or adhering or refusing to adhere to, any agreement with one or more labor organizations in regard to the project. **Section 3** also allows a public body to exempt a particular public work or a grant, tax abatement, tax credit or tax exemption from those restrictions if the public body makes a finding, after notice and a hearing, that **: (1)** special circumstances require such an exemption to avert an imminent threat to public health or safety **[.] ; or (2) the public work or construction, improvement, maintenance or renovation to real property that is the subject of the grant, tax abatement, tax credit or tax exemption, as applicable, is a part of critical infrastructure for an airport or a water system.** Such a finding of special circumstances must not be based on the possibility or presence of certain labor disputes.

Section 2 of this bill provides that the Legislature finds and declares that the provisions of **section 3** are intended to provide fair and open competition and more economical, nondiscriminatory, neutral and efficient contracts for public works by this State and public bodies in this State as market participants, and that the provisions of **section 3** are the best method for effectuating that intent.

Section 4 of this bill provides that the provisions of this bill do not affect any contract for a public work or for any project that is funded in whole or in part by a grant, tax abatement, tax credit or tax exemption from a public body that was entered into before July 1, 2015.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 338 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

Sec. 2. ***The Legislature hereby finds and declares that the provisions of section 3 of this act prohibiting requirements for certain terms in contracts entered into by a public body for a public work or entered into by the awardee of a grant, tax abatement, tax credit or tax exemption from a public body are:***

1. Intended to provide:

(a) More economical, nondiscriminatory, neutral and efficient contracts for public works by public bodies in this State as market participants; and

(b) Fair and open competition in awarding contracts, grants, tax abatements, tax credits and tax exemptions.

2. The best method for effectuating the intent of subsection 1.

Sec. 3. ***1. Except as otherwise provided in subsection 4 [,] or 5, a public body, in any advertisement, solicitation, specification, contract or any other document related to a contract for a public work, shall not:***

(a) Require or prohibit an eligible bidder, contractor or subcontractor from entering into or adhering to an agreement with one or more labor

organizations in regard to the public work or any construction project integrated into the public work.

(b) Discriminate against an eligible bidder, contractor or subcontractor for becoming or remaining or refusing to become or remain a signatory to, or for adhering or refusing to adhere to, an agreement with one or more labor organizations in regard to the public work or any construction project integrated into the public work.

2. Except as otherwise provided in subsection 4 ~~1~~ or 5, a public body shall not award a grant, tax abatement, tax credit or tax exemption that is conditioned upon a requirement that the awardee include a term described in paragraph (a) or (b) of subsection 1 in a contract for any construction, improvement, maintenance or renovation to real property that is the subject of the grant, tax abatement, tax credit or tax exemption.

3. The provisions of subsections 1 and 2 do not:

(a) Prohibit a public body from awarding a contract for a public work or a grant, tax abatement, tax credit or tax exemption to an owner who is not a public body, an eligible bidder, a contractor or a subcontractor who enters into, who is a party to or who adheres to an agreement with a labor organization if:

(1) Entering into, being or becoming a party to or adhering to an agreement with a labor organization is not a condition for awarding the contract, grant, tax abatement, tax credit or tax exemption; and

(2) The public body does not discriminate against an owner who is not a public body, an eligible bidder, a contractor or a subcontractor in the awarding of the contract, grant, tax abatement, tax credit or tax exemption based upon the status of entering into, being or becoming a party to or adhering to an agreement with a labor organization;

(b) Prohibit an eligible bidder, contractor or subcontractor from voluntarily entering into or complying with an agreement entered into with one or more labor organizations in regard to a contract:

(1) With a public body for a public work; or

(2) Funded in whole or in part by a grant, tax abatement, tax credit or tax exemption from a public body;

(c) Prohibit employers or other parties from entering into agreements or engaging in any other activity protected by the Labor Management Relations Act of 1947, 29 U.S.C. §§ 151 et seq.;

(d) Interfere with labor relations of parties that are left unregulated by the Labor Management Relations Act of 1947, 29 U.S.C. §§ 151 et seq.; or

(e) Affect any provision of NRS 338.020 to 338.090, inclusive.

4. A public body may exempt a particular public work or a grant, tax abatement, tax credit or tax exemption from the provisions of subsection 1 if the public body makes a finding, after notice and a hearing, that a special circumstance requires such an exemption to avert an imminent threat to the public health or safety. A finding of a special circumstance pursuant to this

subsection must not be based on the possibility or presence of a labor dispute concerning:

(a) The use of a contractor or subcontractor who is not a signatory to or does not adhere to an agreement with one or more labor organizations; or

(b) Employees on the public work who are not members of or affiliated with a labor organization.

5. A public body may exempt a particular public work or a grant, tax abatement, tax credit or tax exemption from the provisions of subsection 1 if the public body makes a finding, after notice and a hearing, that the public work or construction, improvement, maintenance or renovation to real property that is the subject of the grant, tax abatement, tax credit or tax exemption, as applicable, is a part of critical infrastructure for:

(a) An airport, including, without limitation, a runway, taxiway, air traffic control tower or project to improve airport security; or

(b) A water system.

6. As used in this section, "labor organization" means any organization of any kind, or any agency or employee representation committee or plan, in which employees participate and which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment or conditions of work.

Sec. 4. 1. The amendatory provisions of this act do not apply to any contract entered into before July 1, 2015, by:

(a) A public body for a public work; or

(b) The awardee of a grant, tax abatement, tax credit or tax exemption from a public body for a project funded in whole or in part by such grant, tax abatement, tax credit or tax exemption.

2. As used in this section:

(a) "Public body" has the meaning ascribed to it in NRS 338.010.

(b) "Public work" has the meaning ascribed to it in NRS 338.010.

Sec. 5. This act becomes effective on July 1, 2015.

Assemblyman Ellison moved that the Assembly concur in the Senate Amendment No. 835 to Assembly Bill No. 159.

Remarks by Assemblyman Ellison.

ASSEMBLYMAN ELLISON:

The amendment allows a public body to exempt certain public works projects that are part of critical infrastructure for the airports and the water systems from the provisions of this bill. This has become the yo-yo bill of the Assembly. It is in, it is out, it is in. We tried to negotiate in every way we can, and I am hoping today we send this out. I think at the end of the day, we worked hard with the two bodies that were affected: the Southern Nevada Water Authority and the airport.

Remarks by Assemblyman Hickey.

ASSEMBLYMAN HICKEY:

Senate Bill 515 ensures sufficient funding for K-12 public education for the upcoming 2015-2017 biennium. Colleagues, this is the education funding package and bill that we must constitutionally pass before all others. Senate Bill 515 appropriates $1.94 billion in the first year and $1.102 billion in the second year of the biennium from the State General Fund to the Distributive School Account. In addition, there are $318.3 million and $330.1 million of other revenues authorized to be received and expended for the state support of K-12 public education in FY [Fiscal Year] 2016 and FY 2017, respectively. These other revenues include an annual excise tax on slot machines, sales tax collected on out-of-state sales, interest earned on the permanent school fund, revenue from mineral leases on federal land, room tax revenues from the legislatively approved 2009 initiative petition called I.P. [Initiative Petition] 1, and medical marijuana excise taxes.

The statewide average basic support per pupil increases over the upcoming biennium from $5,676 in the current year to $5,710 in FY 2016 and $5,774 in FY 2017. Enrollment is projected to increase by 1.44 percent from a weighted enrollment of 443,124 pupils in FY 2015 to 449,505 in FY 2016 and increase by 1.25 percent to the 555,124 pupils expected in FY 2017.

Assembly Bill No. 493.

Remarks by Assemblymen Stewart, Kirkpatrick, Benitez-Thompson, and Ellison.

ASSEMBLYMAN STEWART:

Assembly Bill 497 provides that the governing body of an incorporated city is authorized, with certain exceptions, to exercise all powers necessary or proper to address matters of local concern for the effective operation of city government whether or not the powers are expressly granted to the city government. Matters of local concern include any matter that primarily affects or impacts the local city area or persons who work, reside, or visit the city. The powers remain subject to all federal and state constitutional, statutory, and regulatory provisions. The bill also provides a list of powers that the governing body of the incorporated city cannot exercise without having authority expressly authorized by law.

ASSEMBLYWOMAN KIRKPATRICK:

I rise in opposition to Assembly Bill 493. I feel a little bit perplexed because this is the same bill that did not make first house passage and it is now back. My concern is that all local governments on the city level have charters. They have charters which allow them, and allow their constituents, to have some say on what things they would like to see their cities do. It makes me nervous that they think they do not have enough power to do things. Each charter is designed to be unique for the entity that is impacted by it. At the bottom of each charter, it always says that it is assumed that you can do whatever the Legislature has not expressly said that you cannot do. Looking at the definition of local concerns, I do not understand what they think may be different based on what they are trying to do.

The reason that local government works is because we, the Legislature, allow them to have powers to protect public safety, health, and welfare for the constituents they represent. This session, I supported another bill that helped counties that had absolutely no local government powers and were stuck coming to the Legislature. We gave them a little bit. Cities have always been unique. They do not provide services such as UMC [University Medical Center], which is the county health entity; they do not provide services for child welfare; they do not provide services on judicial pieces, so why in the world do we need to give them more ability to do things when the charter currently says they can already do what the Legislature does not expressly say they cannot do? That is at the bottom of every single charter. That is within our statute, and I have no idea why local concern is different than all of that. It says local concern "does not include any matter that is within the exclusive jurisdiction of another governmental entity" or a state interest, the regulation of business activities, or other federal and state interests. Between them not doing those things and all of the things that we as a Legislature have allowed them to do, I do not understand.

We have let local government do things before and things have always come back to the Legislature to fix. Let us talk about NRS [*Nevada Revised Statutes*] Chapter 288. That is a form of home rule we have been giving to local government for many years. That has been the topic of this legislative session, and it has been the topic of the last five legislative sessions. So I do not understand why cities believe they need more. If cities would like to be counties, then maybe they should become a county. But I live in a city that I do not want to have any more power because, my goodness, they need to get focused on what is right to begin with. I urge my colleagues to vote no on Assembly Bill 493.

ASSEMBLYWOMAN BENITEZ-THOMPSON:

I stand in opposition to Assembly Bill 493. Much of this opposition comes from experiences garnered in my short tenure as Chair of Government Affairs. You end up mediating so many different types of conversations and so many different types of concerns. What I learned is that cities and counties are like brothers and sisters. They love each other but, man, can they fight. Speaking specifically to the bill, on page 3, subsection 6(a), it talks about addressing the matters of local concern. A really good example would be up here in northern Nevada. We just had a bill presented by a member of the other body to resolve a fight between the city and the county over fire issues. If the state does not have the ability to intervene, then we have no backstop, we have no moderator for when we have these types of arguments between our two different branches of local government that cannot be resolved. We have no way for the Legislature to say, For the greater good of all of the citizens, we are going to intervene and we are going to look at this for a state solution. I can think of fire in the north as an issue—I could probably list five or six different examples from Clark County and Las Vegas because some of those fights are historic and epic. You really need the state as a backstop in order to be able to come in and mediate some of these big issues.

Going to page 4, section 6, subsection 2, we talk about how the "term includes, without limitation, any of the following matters of local concern" and you have a list there. Different things come to mind—paragraph (b) specifically references redevelopment. Those who were in Government Affairs last year will remember the two separate hearings we held for a total of five hours regarding redevelopment and one of the cities in southern Nevada. We know that, once again, we needed the state as a backstop to come in and take a holistic look at what that policy should be. Lots of that issue was about whether or not we granted an extended redevelopment

authority for bonding issues, and while the language in the back says that the cities cannot impose a new tax, there is nothing in this language that says specifically they could not extend a tax or they could not revise that tax or they could not take anything with a tax that people in here worry about and go and do it. Other parts of the bill say that if we do not specifically tell them they cannot do it, then they can do it and we are granting them permission to do that. Nuisances and graffiti—the cities have these powers. That is, once again, the perfect example of why you do not want them to be too broad and why you want the state as a backstop.

I put a bill in the drawer last year because cities came to me and said, We want to be able to tow cars off of private property. Private property. So if you have an old junker sitting on your land, do you want the city to be able to come in and tow that car without notifying you? Tow that car without any type of repercussions? No. As much as someone tried to tell me this is just about giving them the power to beautify parks, be cautious. Think twice. There is a lot more to this, and you absolutely want the power as a legislator to serve as a bigger sounding board to protect constituents in your district.

ASSEMBLYMAN ELLISON:

I stand in strong support of Assembly Bill 493. This body in the last couple of weeks supported Senate Bill 29. In this body alone, there were 32 yeas, 9 nays, and 1 excused. Why do we want to do this? In this same body this year, we had bills with the City of Reno that was having problems with parks. That should have been something they could have done in their own district. I stand strongly in support of this and ask my colleagues, for once, to take a stand and stand up and support this bill. Give the rights back to the people where they need to be, not in this building. Give them a day-to-day fight. Stand up and do what is right.

I urge support.

ASSEMBLYWOMAN FIORE:

I rise in opposition to Assembly Bill 436. The following amendment was proposed by the Committee on Ways and Means:

Amendment No. 1060.

AN ACT relating to taxation; revising provisions governing the total amount of transferable tax credits which may be approved by the Office of Economic Development pursuant to applications submitted to the Office by a producer

that produces a film, television or other media production in this State; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Senate Bill No. 165 of the 77th Session of the Legislature (2013) established provisions authorizing a producer that produces a film, television or other media production in this State to apply, on or before December 31, 2017, to the Office of Economic Development for a certificate of transferable tax credits and provided that the Office could not approve transferable tax credits in an amount that exceeded $20,000,000 during any fiscal year. (NRS 360.759, 360.7594) The provisions of Senate Bill No. 1 of the 28th Special Session of the Legislature (2014) reduced the total amount of the transferable tax credits available for film and other productions from $20,000,000 during any fiscal year to a total amount of not more than $10,000,000. This bill ~~[restores]~~ **increases** the total amount of transferable tax credits available to a producer that produces a film, television or other media production to ~~[the amount originally authorized by Senate Bill No. 165.]~~ **$15,000,000.**

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 360.7594 is hereby amended to read as follows:

360.7594 1. Except as otherwise provided in this subsection, the Office of Economic Development shall not approve any application for transferable tax credits submitted pursuant to NRS 360.759:

(a) If approval of the application would cause the total amount of transferable tax credits approved pursuant to NRS 360.759 ~~*[for the current fiscal year]*~~ to exceed ~~[~~$10,000,000. ~~*$20,000,000. If the Office does not approve $20,000,000 of transferable tax credits pursuant to NRS 360.759 during any fiscal year, the remaining amount of transferable tax credits must be carried forward and made available for approval during the immediately following 2 fiscal years.]*~~ ***$15,000,000.***

(b) Received on or after January 1, 2018.

2. The transferable tax credits issued to any producer for any qualified production pursuant to NRS 360.759:

(a) Must not exceed a total amount of $6,000,000; and

(b) Expire 4 years after the date on which the transferable tax credits are issued to the producer.

3. For the purposes of calculating qualified expenditures and production costs:

(a) The compensation payable to all producers who are Nevada residents must not exceed 10 percent of the portion of the total budget of the qualified production that was expended in or attributable to any expenses incurred in this State.

(b) The compensation payable to all producers who are not Nevada residents must not exceed 5 percent of the portion of the total budget of the

qualified production that was expended in or attributable to any expenses incurred in this State.

(c) The compensation payable to any employee, independent contractor or any other person paid a wage or salary as compensation for providing labor services on the production of the qualified production must not exceed $750,000.

Sec. 2. This act becomes effective on July 1, 2015, and expires by limitation on June 30, 2023.

Assemblywoman Carlton moved the adoption of the amendment.

Remarks by Assemblywomen Carlton, Titus, and Fiore.

ASSEMBLYWOMAN CARLTON:

This adjusts the amount of the ask that had been used for another purpose. Instead of a $20 million ask, it is now a $5 million ask on top of the $10 million that has already been given.

ASSEMBLYWOMAN TITUS:

Once again, I have to rise against a bill that has been created because we have a very unfair tax system in the state of Nevada. We pick winners and losers. Transferrable credits and tax abatements are all picking winners and losers, and I urge my colleagues to vote against this bill to send the statement that we just passed the largest tax in the history of this state. Now we have to start transferring credits, we have to pass abatements, we have to now shift the tax burdens.

ASSEMBLYWOMAN FIORE:

I have to follow the lead of my colleague from Assembly District 1 and give you a little history on this bill. Assembly Bill 147 came before this body last session, and we actually granted $80 million to get a film initiative business here in the state of Nevada. Then Tesla came along. We took the money we promised away from them, and we left them with $10 million instead of $80 million. This session, they came back and asked for $20 million, and they are now amending it to $5 million. I am rising in support of this simply because—our tax system is not okay. As you know, I voted against our taxes. But this particular bill has been very unfairly played to that industry, and I rise in support of it because they went from $80 million and if this passes, they might be at $15 million.

Amendment adopted.

Bill ordered reprinted, engrossed and to third reading.

ASSEMBLYMAN OHRENSCHALL:

Assembly Bill 495 revises provisions governing the submission of a request for the drafting of a legislative measure. Details for drafting the measure must be submitted to the Legislative Counsel along with a request to have the measure drafted. The Legislative Counsel shall not assign a bill draft request number until sufficient detail has been received. The bill also eliminates subsequent statutory deadlines by which legislators and legislative committees must submit sufficient details to allow complete drafting of those measures. The bill moves the deadline for prefiling measures requested on behalf of nonlegislative requesters from December 20 preceding a regular legislative session to the third Wednesday in November preceding the session.

ASSEMBLYMAN ELLIOT ANDERSON:

Assembly Bill 496 provides for certain powers and duties of the Legislative Commission that apply to legislative studies established by concurrent resolution also apply to studies established by statute. Certain requirements and restrictions imposed on the staff of the Legislative Counsel Bureau [LCB] also apply to investigations. The bill clarifies protections provided for the work

product of the officers and employees of LCB apply to any matter or work in any form including oral, written, audio, visual, digital, or electronic format.

The bill provides that the doctrines of separation of powers and legislative privilege and immunity apply to any actions taken or performed within legitimate legislative activity whether or not the Legislature is in a regular or special legislative session. The bill also provides that these doctrines also protect any other person who takes action or performs any legitimate legislative activity that would be protected if taken or performed by a legislator. The provisions of the bill apply to any cases pending on the bill's effective date even if those cases were commenced before the effective date.

This bill largely clarifies and codifies existing case law on legislative immunity from the Executive and Judicial Branches and for this body. There are many people who can probably take advantage of that.

The following amendment was proposed by the Committee on Education:

Amendment No. 1018.

AN ACT relating to education; revising provisions relating to the employees and duties of the State Public Charter School Authority; authorizing and requiring certain sponsors of charter schools to make certain agreements with the Authority and other sponsors of charter schools; revising provisions governing applications to form a charter school; authorizing a charter management organization to apply for a waiver of requirements concerning the composition of the governing body of a charter school; revising provisions governing amendments to a written charter or charter contract; authorizing the consolidation of the operations of multiple charter schools under certain circumstances; revising the circumstances under which the sponsor of a charter school is authorized or required to revoke a written charter or terminate a charter contract; authorizing a sponsor to reconstitute the governing body of a charter school in ~~[such]~~ **certain** circumstances; authorizing the sponsor of a charter school whose written charter has been revoked or whose charter contract has been terminated to take certain measures to attempt to replace the charter school; **exempting certain high-performing charter schools from the requirement that certain teachers be licensed; establishing alternative qualifications for such teachers;** revising certain other provisions governing the operation of a charter school; authorizing a charter school to receive certain money; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes the State Public Charter School Authority, requires the Authority to appoint a Director and authorizes the Authority to sponsor charter schools. (NRS 386.490-386.515) **Sections 10, 12-14 and 18** of this bill change the title of the Director of the Authority to "Executive Director," and **section 13** authorizes the Executive Director to pursue other businesses and hold other offices with the approval of the Authority. **Section 11** of this bill requires the Authority to consist of persons who are experts on authorizing, developing and operating charter schools. **Sections 15 and 16** of this bill revise provisions governing the staff of the Authority. **Section 18** of this bill prohibits

the Executive Director and the Authority from accepting any gift or donation from a charter management organization, a committee to form a charter school or the governing body of a charter school. **Sections 32 and 33** of this bill require the Authority to adopt regulations that prescribe: (1) the process to apply to the Authority to form a charter school, renew a charter contract or amend a written charter or charter contract; (2) the contents of such applications; and (3) the procedure by which such applications will be evaluated. **Sections 35, 45 and 46** of this bill revise certain other duties of the Authority.

In addition to the Authority, existing law also authorizes the board of trustees of a school district or a college or university within the Nevada System of Higher Education to sponsor a charter school with the approval of the Department of Education. (NRS 386.515) **Sections 17, 19 and 20** of this bill provide for a board of trustees of a school district or college or university within the System that sponsors a charter school to enter into certain agreements with the Authority. **Sections 19 and 20** also revise the duties of the sponsor of a charter school, including the requirements of the policies and practices that a sponsor is required to adopt.

Existing law requires an application to form a charter school to be submitted by a committee to form a charter school. (NRS 386.520, 386.525) **Sections 21 and 22** of this bill authorize a charter management organization to apply to form a charter school. **Section 2** of this bill defines the term "charter management organization" to mean a nonprofit organization that operates multiple charter schools. **Section 21** also revises the required contents of an application to form a charter school. **Sections 21 and 36** of this bill authorize a charter management organization to request a waiver of requirements concerning the composition of a governing body. **Section 22** revises the manner in which a sponsor is authorized to solicit and review applications to form a charter school.

Existing law authorizes the sponsor of a charter school to amend a written charter or charter contract upon the request of the governing body of a charter school. (NRS 386.527) **Sections 4 and 53** of this bill require the sponsor of a charter school to hold a public hearing concerning requests to amend a written charter or charter contract to: (1) expand the grade levels served by the charter school; (2) significantly increase or decrease enrollment; (3) acquire additional facilities to expand the enrollment of the charter school; or (4) consolidate the operations of multiple charter schools. Such an amendment may not be made unless approved by the governing board of the sponsor. **Sections 5 and 54** of this bill prescribe the circumstances under which the operations of multiple charter schools can be consolidated.

For any charter school approved before June 11, 2013, existing law requires the sponsor of the charter school to grant a written charter to the governing body. For any charter school approved on or after that date, existing law requires the sponsor to enter into a charter contract with the governing body. Because all written charters and charter contracts must be for terms of 6 years,

all written charters will expire by June 11, 2019. (NRS 386.527) **Sections 23 and 24** of this bill authorize a sponsor to require, as a condition of granting a request for an amendment, the replacement of a written charter with a charter contract for the period during which written charters may still be effective.

Existing law requires each charter contract to include a performance framework for the charter school. (NRS 386.528) **Section 25** of this bill: (1) requires each sponsor to adopt a performance framework and incorporate it in the charter contract; (2) allows a sponsor to aggregate and disaggregate data for reporting and accountability purposes; and (3) authorizes the State Board of Education to adopt regulations requiring a sponsor to aggregate or disaggregate data. **Section 26** of this bill revises the contents of an annual report submitted by a sponsor to a governing body.

Existing law authorizes a sponsor to revoke a written charter or terminate a charter contract under certain conditions and requires a sponsor to take such action if the charter school demonstrates persistent underachievement. (NRS 386.535, 386.5351) **Sections 5 and 27-29** of this bill: (1) authorize a sponsor to reconstitute **, under certain circumstances,** the governing body of a charter school in such situations; and (2) revise the conditions under which such action is authorized or required. **Sections 6, 30 and 31** of this bill authorize the sponsor of a charter school whose written charter has been revoked or whose charter contract has been terminated to recruit a governing body of another charter school to replace the closed charter school with another campus of the other charter school. **Sections 6 and 55** of this bill require a pupil who attended a charter school whose written charter has been revoked or whose charter contract has been terminated to be given priority in admission to the replacement charter school under such circumstances. **Sections 6 and 56** provide that: (1) if the governing body of a charter school is reconstituted, the new governing body may terminate the employment of any employees of the charter school; and (2) if a written charter is revoked or a charter contract is terminated and a charter school is replaced, the governing body of the replacement charter school is not required to employ any employee of the previous charter school. **Sections 52 and 56** of this bill exclude the rights of a governing body to terminate the employment of or refuse to reemploy employees at such schools from the scope of collective bargaining.

Sections 34 and 39 of this bill revise requirements concerning services, including transportation, provided by the board of trustees of a school district to pupils at a charter school.

Existing law: (1) prohibits a person who has been convicted of a felony relating to serving on the governing body of a charter school or any offense involving moral turpitude from serving on the governing body of a charter school; and (2) requires a member of a governing body to read and understand certain materials. (NRS 386.549) **Section 7** of this bill requires a newly appointed member of a governing body to undergo a criminal background check and prohibits a person who has been convicted of a felony or an offense involving moral turpitude from serving as a member of a governing body.

Sections 36 and 37 of this bill require a member of a governing body to receive training under certain circumstances.

Sections 40 and 41 of this bill prohibit a contract between a governing body and a person who assists with the operation, management and provision of educational services at a charter school from containing certain provisions. **Section 45** of this bill authorizes a charter school to use higher standards for graduation than those required by the State or a school district in which the charter school is located. **Section 46** of this bill requires a charter school to notify the parent of a pupil who is under the age of 18 years before the pupil is suspended or expelled. ~~[Section 47 of this bill]~~ **Existing law** requires **:** ~~[every teacher at a charter school, except for a vocational charter school, to possess certain qualifications, and section]~~ **(1) a certain percentage of teachers at a charter school to be licensed; and (2) teachers who teach certain subjects at a charter school to be licensed. (NRS 386.580) Section 47 of this bill instead requires a certain percentage of teachers at a charter school and teachers who teach such subjects at a charter school to be highly qualified. Section 47 provides that: (1) a teacher at a high performing charter school is highly qualified if he or she meets certain requirements specified in federal law; and (2) a teacher at any other charter school is highly qualified if the teacher meets those federal requirements and is licensed. Section 47 also requires a teacher who is employed by a charter school to teach special education or English as a second language to be licensed to teach that subject. Finally, section 47 requires a high achieving charter school that employs unlicensed teachers to offer an alternative route to licensure for those teachers. Section 51** of this bill makes a conforming change.

Section 48 of this bill requires the Commission on Educational Technology to consider plans adopted by charter schools for the use of educational technology when establishing the plan for the use of educational technology in the public schools of this State. **Sections 49 and 50** of this bill authorize a charter school to receive money from the Trust Fund for Educational Technology.

2. If the reports on the criminal history of the member indicate that the member has not been convicted of a felony or an offense involving moral turpitude, the member may continue to serve on the governing body.

Except as otherwise provided in this subsection ***,*** ~~[and]~~ subsection 2 ~~[,]~~ ***and section 6 of this act,*** a charter school shall enroll pupils who are eligible for enrollment in the order in which the applications are received. If the board of trustees of the school district in which the charter school is located has established zones of attendance pursuant to NRS 388.040, the charter school shall, if practicable, ensure that the racial composition of pupils enrolled in the charter school does not differ by more than 10 percent from the racial composition of pupils who attend public schools in the zone in which the charter school is located. If a charter school is sponsored by the board of trustees of a school district located in a county whose population is 100,000 or more, except for a program of distance education provided by the charter school, the charter school shall enroll pupils who are eligible for enrollment who reside in the school district in which the charter school is located before enrolling pupils who reside outside the school district. Except as otherwise provided in subsection 2, if more pupils who are eligible for enrollment apply for enrollment in the charter school than the number of spaces which are available, the charter school shall determine which applicants to enroll pursuant to this subsection on the basis of a lottery system.

2. Before a charter school enrolls pupils who are eligible for enrollment, a charter school may enroll a child who:

➥ If more pupils described in this subsection who are eligible apply for enrollment than the number of spaces available, the charter school shall determine which applicants to enroll pursuant to this subsection on the basis of a lottery system.

3. Except as otherwise provided in subsection 8, a charter school shall not accept applications for enrollment in the charter school or otherwise discriminate based on the:

(a) Race;

(b) Gender;

4. If the governing body of a charter school determines that the charter school is unable to provide an appropriate special education program and related services for a particular disability of a pupil who is enrolled in the charter school, the governing body may request that the board of trustees of the school district of the county in which the pupil resides transfer that pupil to an appropriate school.

5. Except as otherwise provided in this subsection, upon the request of a parent or legal guardian of a child who is enrolled in a public school of a school district or a private school, or a parent or legal guardian of a homeschooled child, the governing body of the charter school shall authorize the child to participate in a class that is not otherwise available to the child at his or her school or homeschool or participate in an extracurricular activity at the charter school if:

If the governing body so revokes its approval, neither the governing body nor the charter school is liable for any damages relating to the denial of services to the child.

7. The governing body of a charter school may, before authorizing a homeschooled child to participate in a class or extracurricular activity pursuant to subsection 5, require proof of the identity of the child, including, without limitation, the birth certificate of the child or other documentation sufficient to establish the identity of the child.

If a charter school requires its pupils to satisfy requirements for graduation from high school that meet or exceed the requirements of the school district in which the charter school is located, the

charter school may issue a high school diploma of the school district or a high school diploma of the charter school.

(b) Require a charter school that imposes requirements for graduation from high school that are more stringent than the requirements of applicable state statutes and regulations and more stringent than the requirements of the school district in which the charter school is located to issue a high school diploma to a pupil who has not met the requirements for graduation from the charter school even if the pupil has met the requirements of applicable state statutes and regulations or the requirements of the school district in which the charter school is located.

Assemblywoman Woodbury moved the adoption of the amendment.

Remarks by Assemblywoman Woodbury.

ASSEMBLYWOMAN WOODBURY:

Amendment 1018 makes several changes to the bill. First, the amendment clarifies that an administrator other than the principal may review personal matters specified in the bill and consult with the new governing body of a reconstituted charter school.

Second, the amendment adds the local school district and other active charter school sponsors to those entities with whom a charter school sponsor must coordinate to evaluate the academic needs of students in the geographic area of the proposed school.

Third, it specifies an application to form a charter school contain any additional information the sponsor determines is necessary to make a good faith judgement of the applicant's ability to adequately serve its students.

Fourth, it clarifies the charter school sponsor must ensure compliance with FERPA [Family Educational Rights and Privacy Act] and other state data privacy statutes.

Fifth, it specifies the Charter School Authority is authorized to adopt regulations concerning its reporting of data concerning school performance and student achievement.

Sixth, it requires the review of state statutes affecting charter schools be done in consultation with the Department of Education and other charter sponsors. The amendment also specifies that a sponsor may only reconstitute the governing body one time for those schools with a one-star school rating for five consecutive school years, and it exempts the 2015-2016 school year for this purpose due to revisions to the state school accountability system.

Finally, the amendment clarifies the definition of "highly qualified teacher" to comply with the federal definition and provides for the federal exception for teacher licensure for charter schools as long as teachers in certain subjects are highly qualified, except for those teachers licensed to teach special education or English as a second language. Charter schools scoring at or above the three-star level for two or more consecutive years may hire either licensed teachers or highly qualified teachers; such charter schools must provide for an alternative route to licensure for its unlicensed teachers within three years. Vocational charter schools must assure that to the extent practicable, at least 70 percent of its teachers are highly qualified, but it may not have less than 52 percent highly qualified teachers.

Amendment adopted.

The following amendment was proposed by Assemblywoman Woodbury:

Legislative Counsel's Digest:

Existing law establishes the State Public Charter School Authority, requires the Authority to appoint a Director and authorizes the Authority to sponsor charter schools. (NRS 386.490-386.515) **Sections 10, 12-14 and 18** of this bill change the title of the Director of the Authority to "Executive Director," and **section 13** authorizes the Executive Director to pursue other businesses and hold other offices with the approval of the Authority. **Section 11** of this bill requires the Authority to consist of persons who are experts on authorizing, developing and operating charter schools. **Sections 15 and 16** of this bill revise provisions governing the staff of the Authority. **Section 18** of this bill prohibits the Executive Director and the Authority from accepting any gift or donation from a charter management organization, a committee to form a charter school or the governing body of a charter school. **Sections 32 and 33** of this bill require the Authority to adopt regulations that prescribe: (1) the process to apply to the Authority to form a charter school, renew a charter contract or amend a written charter or charter contract; (2) the contents of such applications; and (3) the procedure by which such applications will be evaluated. **Sections 35, 45 and 46** of this bill revise certain other duties of the Authority.

In addition to the Authority, existing law also authorizes the board of trustees of a school district or a college or university within the Nevada System of Higher Education to sponsor a charter school with the approval of the Department of Education. (NRS 386.515) **Sections 17, 19 and 20** of this bill provide for a board of trustees of a school district or college or university within the System that sponsors a charter school to enter into certain agreements with the Authority. **Sections 19 and 20** also revise the duties of

the sponsor of a charter school, including the requirements of the policies and practices that a sponsor is required to adopt.

Existing law requires an application to form a charter school to be submitted by a committee to form a charter school. (NRS 386.520, 386.525) **Sections 21 and 22** of this bill authorize a charter management organization to apply to form a charter school. **Section 2** of this bill defines the term "charter management organization" to mean a nonprofit organization that operates multiple charter schools. **Section 21** also revises the required contents of an application to form a charter school. **Sections 21 and 36** of this bill authorize a charter management organization to request a waiver of requirements concerning the composition of a governing body. **Section 22** revises the manner in which a sponsor is authorized to solicit and review applications to form a charter school.

Existing law authorizes the sponsor of a charter school to amend a written charter or charter contract upon the request of the governing body of a charter school. (NRS 386.527) **Sections 4 and 53** of this bill require the sponsor of a charter school to hold a public hearing concerning requests to amend a written charter or charter contract to: (1) expand the grade levels served by the charter school; (2) significantly increase or decrease enrollment; (3) acquire additional facilities to expand the enrollment of the charter school; or (4) consolidate the operations of multiple charter schools. Such an amendment may not be made unless approved by the governing board of the sponsor. **Sections 5 and 54** of this bill prescribe the circumstances under which the operations of multiple charter schools can be consolidated.

For any charter school approved before June 11, 2013, existing law requires the sponsor of the charter school to grant a written charter to the governing body. For any charter school approved on or after that date, existing law requires the sponsor to enter into a charter contract with the governing body. Because all written charters and charter contracts must be for terms of 6 years, all written charters will expire by June 11, 2019. (NRS 386.527) **Sections 23 and 24** of this bill authorize a sponsor to require, as a condition of granting a request for an amendment, the replacement of a written charter with a charter contract for the period during which written charters may still be effective.

Existing law requires each charter contract to include a performance framework for the charter school. (NRS 386.528) **Section 25** of this bill: (1) requires each sponsor to adopt a performance framework and incorporate it in the charter contract; (2) allows a sponsor to aggregate and disaggregate data for reporting and accountability purposes; and (3) authorizes the State Board of Education to adopt regulations requiring a sponsor to aggregate or disaggregate data. **Section 26** of this bill revises the contents of an annual report submitted by a sponsor to a governing body.

Existing law authorizes a sponsor to revoke a written charter or terminate a charter contract under certain conditions and requires a sponsor to take such action if the charter school demonstrates persistent underachievement. (NRS 386.535, 386.5351) **Sections 5 and 27-29** of this bill: (1) authorize a

sponsor to reconstitute the governing body of a charter school in such situations; and (2) revise the conditions under which such action is authorized or required. **Sections 6, 30 and 31** of this bill authorize the sponsor of a charter school whose written charter has been revoked or whose charter contract has been terminated to recruit a governing body of another charter school to replace the closed charter school with another campus of the other charter school. **Sections 6 and 55** of this bill require a pupil who attended a charter school whose written charter has been revoked or whose charter contract has been terminated to be given priority in admission to the replacement charter school under such circumstances. **Sections 6 and ~~[56]~~ 57** provide that: (1) if the governing body of a charter school is reconstituted, the new governing body may terminate the employment of any employees of the charter school; and (2) if a written charter is revoked or a charter contract is terminated and a charter school is replaced, the governing body of the replacement charter school is not required to employ any employee of the previous charter school. **Sections 52 and ~~[56]~~ 57** of this bill exclude the rights of a governing body to terminate the employment of or refuse to reemploy employees at such schools from the scope of collective bargaining.

Sections 34 and 39 of this bill revise requirements concerning services, including transportation, provided by the board of trustees of a school district to pupils at a charter school.

Existing law: (1) prohibits a person who has been convicted of a felony relating to serving on the governing body of a charter school or any offense involving moral turpitude from serving on the governing body of a charter school; and (2) requires a member of a governing body to read and understand certain materials. (NRS 386.549) **Section 7** of this bill requires a newly appointed member of a governing body to undergo a criminal background check and prohibits a person who has been convicted of a felony or an offense involving moral turpitude from serving as a member of a governing body. **Sections 36 and 37** of this bill require a member of a governing body to receive training under certain circumstances.

Sections 40 and 41 of this bill prohibit a contract between a governing body and a person who assists with the operation, management and provision of educational services at a charter school from containing certain provisions. **Section 45** of this bill authorizes a charter school to use higher standards for graduation than those required by the State or a school district in which the charter school is located. **Section 46** of this bill requires a charter school to notify the parent of a pupil who is under the age of 18 years before the pupil is suspended or expelled. **Section 47** of this bill requires every teacher at a charter school, except for a vocational charter school, to possess certain qualifications, and **section 51** of this bill makes a conforming change. **Section 48** of this bill requires the Commission on Educational Technology to consider plans adopted by charter schools for the use of educational technology when establishing the plan for the use of educational technology in the public schools

of this State. **Sections 49 and 50** of this bill authorize a charter school to receive money from the Trust Fund for Educational Technology.

Assembly Bill No. 448 of this session establishes the Achievement School District within the Department of Education and requires the Executive Director of the Achievement School District to evaluate pupil achievement and school performance of an achievement charter school during the sixth year that a school operates as an achievement charter school. Assembly Bill No. 448 of this session also provides that if this evaluation indicates that an achievement charter school has not made adequate improvement in pupil achievement and school performance, the achievement charter school is required to continue to operate as an achievement charter school for at least 6 more years. (Section 33 of Assembly Bill No. 448 of this session) Section 56 of this bill requires the Department of Education, rather than the Executive Director of the Achievement School District, to conduct such an evaluation and, if the evaluation indicates that an achievement charter school has not made adequate improvement in pupil achievement and school performance, determine whether to continue to keep the school as an achievement charter school or return the school to become a public school within the school district. If such a school continues as an achievement charter school, the Executive Director is required to: (1) terminate the contract with the charter management organization, educational management organization or other person that operated the achievement charter school; (2) enter into a contract with a different charter management organization, educational management organization or other person to operate the achievement charter school; (3) require the charter management organization, educational management organization or other person with whom the Executive Director enters into a contract to operate an achievement charter school to appoint a new governing body of the achievement charter school; and (4) evaluate the pupil achievement and school performance of the school every 3 years. Section 56 also requires the Executive Director to provide certain notice to the parent or legal guardian of each pupil enrolled in an achievement charter school that has not made adequate improvement in pupil achievement and school performance regarding other educational choices that are available to the pupil.

Remarks by Assemblywoman Woodbury.

ASSEMBLYWOMAN WOODBURY:

Amendment 1023 amends Section 33 of Assembly Bill 448 to require the Department of Education to evaluate pupil achievement and school performance of an achievement charter school during the sixth year of operation. The Executive Director of the Achievement School District is required to provide the Department with the information necessary to evaluate pupil achievement and school performance of the school. If the achievement charter school has not made adequate improvement in pupil achievement and school performance, the amendment requires notice to the parent or legal guardian of each pupil enrolled in the school. The notice must include information regarding public schools the pupil may be eligible to attend; the opportunity for the parent to establish an Education Savings Account as provided for in S.B. 302; any other alternatives for education of the pupil that are available in this state; the actions about the school that may be considered by the Department and the manner in which the parent or legal guardian may participate in the hearings about the school.

If the achievement charter school has not made adequate progress in pupil achievement and school performance, the Department must hold a hearing to decide whether to convert the school to a public school under the governance of the board of trustees of the school district in which the school is located or continue to operate the school as an achievement charter school for at least six more years. If the Department decides to continue to operate the school as an achievement charter school, the Executive Director must terminate the contract with the charter management organization or educational management organization that operated the school, enter into a contract with a different operator, and require the operator to appoint a new governing body. No more than 40 percent of the members of the previous governing body may be reappointed.

Senate Joint Resolution No. 13.

Resolution read third time.

The following amendment was proposed by the Committee on Taxation:

Amendment No. 1057.

SENATE JOINT RESOLUTION—Proposing to amend the Nevada Constitution to limit the total amount of certain property taxes that may be levied on real property.

Legislative Counsel's Digest:

This resolution proposes to amend the Nevada Constitution to limit the amount of certain property taxes which may be cumulatively levied per year on real property to ~~1~~ **1.25** percent of the base value of the property. Additionally, this resolution provides that: (1) if one-half or more of the ownership interest in certain real property is transferred, the base value of the property becomes the cash value of the property on the date the ownership interest is transferred; (2) an improvement to real property increases the base value of the property by the cash value of the improvement, unless the improvement replaces certain improvements which were destroyed, protects the safety of the occupants or improves accessibility to persons with disabilities; (3) the base value of real property cannot increase or decrease from year to year by more than 3 percent, except as otherwise set forth in this resolution; (4) an owner domiciled in Nevada who has attained the age of 62 years may transfer the base value of his or her principal residence to a new

residence of comparable value; and (5) an owner whose real property is taken by the exercise of eminent domain may transfer the base value of the condemned property to a new property of comparable value. **This resolution further provides that, for the purposes of recalculating the base value of real property subsequent to the material enhancement of an improvement to the property, an improvement to real property is not materially enhanced if the enhancement to the improvement does not increase the area of the improvement, as measured in square feet, by more than 15 percent.**

RESOLVED BY THE SENATE AND ASSEMBLY OF THE STATE OF NEVADA, JOINTLY, That a new section, designated Section 7, be added to Article 10 of the Nevada Constitution to read as follows:

Sec. 7. 1. The maximum amount of tax ad valorem that may be cumulatively levied per year on real property is ~~[1]~~ 1.25 percent of the base value of the property. This limit does not apply to taxes ad valorem levied to pay the interest and principal of any bonded indebtedness or to pay any obligation under a contract made in connection with such bonded indebtedness.

2. Except as otherwise provided in subsections 3 to 7, inclusive, the base value of real property is the property's taxable value from which the assessed value for the Fiscal Year 2017-2018 was calculated.

3. Except as otherwise provided in this subsection and subsection 7, if one-half or more of an ownership interest in real property is transferred, the base value of the property becomes the cash value of the property as of the date of transfer of the ownership interest. The provisions of this subsection do not apply if the transfer of ownership interest is to the spouse, child or grandchild of the transferor, or if the transfer of ownership interest is to or from a separate legal entity of which the transferor is the beneficial owner.

4. Except as otherwise provided in subsection 7:

(a) If existing improvements to real property are materially enhanced or new improvements are constructed, except if constructed to replace existing improvements destroyed by natural disaster or other casualty, the base value of the property must be increased by the cash value of the enhancement or improvement, respectively. For the purposes of this paragraph, an improvement to real property is not materially enhanced if the enhancement to the improvement does not increase the area of the improvement, as measured in square feet, by more than 15 percent.

(b) If real property is converted to another use, the base value of the property must be redetermined after the conversion by appraisal at its cash value in accordance with the new use of the property.

5. Except as otherwise provided in subsections 3, 4 and 7, the base value of real property must not be increased from year to year by any amount greater than the lesser of the increase caused by inflation, if

any, or 3 percent. The base value of real property must be decreased from year to year:

(a) To reflect any substantial damage to or destruction of the property; and

(b) By an amount, not to exceed 3 percent, equal to any decrease in the value of the property caused by deflation or other economic or market conditions.

6. For the purposes of subsection 5, inflation and deflation must be measured by the Consumer Price Index for All Urban Consumers compiled by the United States Bureau of Labor Statistics for the preceding calendar year. If the Index specified in this subsection ceases to be compiled, the Legislature shall provide by law for another appropriate method of measuring inflation and deflation.

7. Notwithstanding any provision of this section to the contrary:

(a) An owner domiciled in this State who has attained the age of 62 years may replace his or her principal residence with another of comparable value and transfer to the new residence the base value of the old residence for the purpose of limiting the ad valorem tax on the new residence. If the cash value of the new residence exceeds the cash value of the old residence by more than 10 percent, the base value of the new residence must equal the base value of the old residence plus the amount by which the cash value of the new residence exceeds the cash value of the old residence.

(b) An improvement may be constructed or materially enhanced without changing the base value of real property if the construction or enhancement is necessary to protect the safety of the occupants or improve accessibility to persons with disabilities.

(c) An owner whose real property is taken by the exercise of eminent domain may replace the condemned property with property of comparable value and transfer to the new property the base value of the condemned property for the purpose of limiting the ad valorem tax on the property. If the cash value of the new property exceeds the cash value of the condemned property by more than 10 percent, the base value of the new property must equal the base value of the condemned property plus the amount by which the cash value of the new property exceeds the cash value of the condemned property.

8. The Legislature shall provide by law for:

(a) A uniform and just valuation of the base value of real property; and

(b) Any other measure necessary to implement this section.

9. If any provision of this section or the application thereof to any person, thing or circumstance is held invalid, the invalidity does not affect the provisions or application of this section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

10. As used in this section:

(a) "Cash value" means the most probable price which property would bring in a competitive and open market under all conditions requisite to a fair sale.

(b) "Comparable value" means either a lower cash value or up to 10 percent more in cash value.

(c) "Condemned property" means property taken by the exercise of eminent domain.

And be it further

RESOLVED, That Section 1 of Article 10 of the Nevada Constitution be amended to read as follows:

Section 1. 1. ~~[The]~~ ***Except as otherwise provided in Section 7 of this Article, the*** Legislature shall provide by law for a uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for taxation of all property, real, personal and possessory, except mines and mining claims, which shall be assessed and taxed only as provided in Section 5 of this Article.

2. Shares of stock, bonds, mortgages, notes, bank deposits, book accounts and credits, and securities and choses in action of like character are deemed to represent interest in property already assessed and taxed, either in Nevada or elsewhere, and shall be exempt.

3. The Legislature may constitute agricultural and open-space real property having a greater value for another use than that for which it is being used, as a separate class for taxation purposes and may provide a separate uniform plan for appraisal and valuation of such property for assessment purposes. If such plan is provided, the Legislature shall also provide for retroactive assessment for a period of not less than 7 years when agricultural and open-space real property is converted to a higher use conforming to the use for which other nearby property is used.

4. Personal property which is moving in interstate commerce through or over the territory of the State of Nevada, or which was consigned to a warehouse, public or private, within the State of Nevada from outside the State of Nevada for storage in transit to a final destination outside the State of Nevada, whether specified when transportation begins or afterward, shall be deemed to have acquired no situs in Nevada for purposes of taxation and shall be exempt from taxation. Such property shall not be deprived of such exemption because while in the warehouse the property is assembled, bound, joined, processed, disassembled, divided, cut, broken in bulk, relabeled or repackaged.

5. The Legislature may exempt motor vehicles from the provisions of the tax required by this Section, and in lieu thereof, if such exemption is granted, shall provide for a uniform and equal rate of assessment and taxation of motor vehicles, which rate shall not exceed five cents on one dollar of assessed valuation.

6. The Legislature shall provide by law for a progressive reduction in the tax upon business inventories by 20 percent in each year following the adoption of this provision, and after the expiration of the 4th year such inventories are exempt from taxation. The Legislature may exempt any other personal property, including livestock.

7. No inheritance tax shall ever be levied.

8. The Legislature may exempt by law property used for municipal, educational, literary, scientific or other charitable purposes, or to encourage the conservation of energy or the substitution of other sources for fossil sources of energy.

Assemblyman Armstrong moved the adoption of the amendment.
Remarks by Assemblymen Armstrong and Hansen.

ASSEMBLYMAN ARMSTRONG:
Amendment 1057 increases the maximum rate that may be imposed from 1 percent of the base value of the property to 1.25 percent of the base value. A clarification is added specifying that, for the purposes of determining whether the base value of the property must be increased as a result of material enhancements to the property, an improvement to real property is not materially enhanced if the enhancement to the improvement does not increase the area of the improvement, as measured in square feet, by more than 15 percent.

ASSEMBLYMAN HANSEN:
Is there any cap on the 15 percent? If you have a million-square-foot building and you added 15 percent, it is a pretty substantial improvement. I was wondering if there is any kind of an upper limit on that.

ASSEMBLYMAN ARMSTRONG:
Thank you for that question. My answer to that is, I am not sure how many homes are a million square feet.

ASSEMBLYMAN HANSEN:
Is this limited to residential?

ASSEMBLYMAN ARMSTRONG:
Yes.

Amendment adopted.
Resolution ordered reprinted, reengrossed and to third reading.

Senate Bill No. 296.
Bill read third time.
Remarks by Assemblymen Gardner and Diaz.

ASSEMBLYMAN GARDNER:

Senate Bill 296 prohibits a party from including a claim for exemplary or punitive damages in certain pleadings at the commencement of a civil action and establishes a process by which a party may amend its pleadings to include such a claim, at a later date, after discovery.

The bill also sets forth conditions under which limits on exemplary or punitive damages do not apply to a manufacturer, distributor, or seller of a defective product, including the failure to take appropriate action after a governmental agency's final order altering the conditions of or prohibiting the sale of a given product; a finding by a governmental agency or court that the entity in question has made an unlawful payment to an official or employee of a governmental agency to secure or maintain product approval; the illegal withholding or misrepresentation from a governmental agency of information material to approval of the product and material to the harm suffered by the plaintiff; and a finding by a governmental agency that the entity, after the product was sold, knowingly violated applicable laws or regulations by failing to report risks of harm that are material and relevant to the harm alleged by the plaintiff.

This bill is a bill that will fix punitives. It puts products under the 3-to-1 cap, which is what we have a lot of other areas of law under. That is pretty much close to what the constitutional limit is already. The U.S. Supreme Court has already said it is a little bit fishy as to whether it is constitutional to impose 4-to-1 punitive damages or higher. I think it is a good bill. I think it protects companies but gives plaintiffs a fair shot. I urge your support.

ASSEMBLYWOMAN DIAZ:

I rise in opposition to Senate Bill 296. This bill, as amended, would have harmful effects on those injured by defective products. There are numerous instances across the country where individuals have been harmed by a consumer product, many of which have been approved and vetted by the appropriate governmental agencies. For instance, there was the superbug outbreak at a college campus in California late this year involving defective scopes. In the superbug outbreak, Olympus, the maker of the scopes, knew of outbreaks in Florida dating back to 2008 and an outbreak in Seattle dating back to 2012. Those earlier outbreaks involved the same scopes; however, the company failed to tell the FDA [Food and Drug Administration]. Should this bill pass, punitive damages will now be capped at 3 to 1 because the FDA has taken no action on the company's failure to report prior incidents.

Likewise in another example, GM [General Motors] has now recalled 24.6 million cars in the U.S. because of a faulty ignition switch that forces a car to turn off and prevents the airbags from deploying. GM engineers knew about the problem for a decade yet did not report it to the National Highway Traffic Safety Administration [NSTSA]. Despite all of the injuries, deaths, and recalls attributed to the issue, there has been no action to date by the NSTSA.

We, as elected officials, have a responsibility to our constituents and the residents of Nevada to ensure safety from harmful products that slip through the cracks of governmental regulation. Passing this legislation breaks that promise and denies our constituents the opportunity to feel assured that they will be made whole in a situation when they are harmed, injured, or even killed because a large corporation was negligent and the federal governmental entity failed to act.

Senate Bill No. 460.
Bill read third time.
Remarks by Assemblyman Gardner.

ASSEMBLYMAN GARDNER:
Senate Bill 460 makes various changes concerning the statewide system of accountability for public schools. Specifically, the bill requires the State Board of Education to adopt regulations prescribing an alternative performance framework to evaluate schools serving certain at-risk populations and the manner in which such schools will be included in the statewide system of accountability. It prescribes the eligibility criteria and application process for a public school to be rated using the alternative performance framework. It changes the automatic closure provisions for persistently underperforming charter schools to include those schools receiving the lowest possible annual rating for any three years in a five-year period. It also adds school restart as an alternative to school closure for persistently underperforming charter schools and requires the Department of Education to prescribe related regulations and, for purposes of accountability, prohibits the Department from considering a school's annual performance for the 2014-2015 school year.

Senate Bill 79, in its first reprint, revises the definition of "other tobacco products" to specify that the term does not include an alternative nicotine product or a vapor product as those terms are defined pursuant to the bill.

The bill establishes that a vapor product is not taxable as an other tobacco product regardless of whether or not the nicotine in the product is derived from tobacco. The bill further establishes than an alternative nicotine product that is made or derived from tobacco is considered to be an other tobacco product and is subject to regulation and taxation in a manner consistent with other tobacco products.

Additionally, the bill clarifies that any alternative nicotine product or vapor product that is regulated by the United States Food and Drug Administration, under certain provisions, are excluded from the definitions of those terms.

ASSEMBLYMAN EDWARDS:

In the interest of time, I will try to summarize this two-page write-up. Senate Bill 92 provides procedures for the designation as a turnaround school, a public school determined by the Department of Education to be underperforming. It requires the State Board of Education to establish by regulation the criteria for designating a school as underperforming and provides for the transfer of ineffective or minimally effective personnel from an underperforming school. It creates incentives for employees working in an underperforming school, requires the evaluation of a teacher or administrator at an underperforming school not be adversely impacted by student achievement data for two years after the school has been so designated, and prescribes a process for principals or school boards to reassign staff to or from an underperforming school.

Finally, it requires that reduction-in-workforce decisions be based upon employee performance and that further reductions consider other factors before seniority unless a teacher works in a subject area for which there is a shortage of teachers.

This is fantastic bill that has come to us today. I encourage everyone in this Assembly to vote for it because this will really help the kids.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in opposition to Senate Bill 92. We have a huge teacher shortage problem, and we have to start thinking not only in terms of capital but in human capital. We have so many teachers that we are struggling to retain, and this is a bill that makes a lot of people who are in the profession want to leave. They feel like they are being attacked, and we ought to consider that when we cannot hire enough teachers in Clark County. I think this is a good-intentioned bill at the wrong time for our state, so I urge this body's opposition to it.

ASSEMBLYWOMAN DICKMAN:

I rise in support of Senate Bill 92. I think these are exactly the kinds of reforms and accountability in education that we have been trying to achieve all session. I encourage everyone to please vote for this bill.

ASSEMBLYMAN EDWARDS:

I did leave off that the CCSD [Clark County School District] actually does support this. If anyone is looking for teachers, it is CCSD and they are absolutely in support of this measure. I hope you will be as well.

Senate Bill 111, as amended, requires each uniformed peace officer employed by the Nevada Highway Patrol Division of the Department of Public Safety who routinely interacts with the public to wear a portable event recording device while on duty. "Portable event recording device" is defined as a device to be worn on the peace officer's body "which records both audio and visual events during an encounter with a member of the public while performing his or her duties as a peace officer."

Senate Bill 111, as amended, requires the Nevada Highway Patrol Division of the Department of Public Safety to adopt policies and procedures governing the use of portable event recording devices on or before July 1, 2016.

Senate Bill 111, as amended, appropriates State Highway Funds to the Nevada Highway Patrol Division of the Department of Public Safety in the amount of $785,002 in FY [Fiscal Year] 2016 and $475,104 in FY 2017.

Senate Bill 111, as amended, is effective upon passage and approval for the purposes of adopting policies and procedures. The following amendment was proposed by the Committee on Taxation:

Amendment No. 1055.

AN ACT relating to taxation; revising provisions relating to the rate, imposition and calculation of the tax on live entertainment; revising provisions governing the exemptions and exclusions from the tax on live entertainment; revising provisions governing the distribution of certain proceeds of the tax on live entertainment; revising various provisions relating to the tax on live entertainment; revising provisions governing investigations and the initiation of complaints by the State Gaming Control Board for violations relating to the tax on live entertainment; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law imposes an excise tax on admission to certain facilities where live entertainment is provided. (Chapter 368A of NRS) Under existing law, if live entertainment is provided at an establishment that is not a licensed gaming establishment or certain smaller licensed gaming establishments, the tax is imposed only if consideration is collected for admission to the area or premises where live entertainment is provided. However, if live entertainment is provided at certain larger licensed gaming establishments, the tax is imposed whenever live entertainment is provided, regardless of whether consideration is collected for admission to the area or premises where the live entertainment is provided. (NRS 368A.060) **Section 1.5** of this bill revises these provisions

to provide that, regardless of whether live entertainment is provided at a gaming establishment, the tax is imposed only if consideration is collected for admission to the area or premises where live entertainment is provided.

Under existing law, the rate and imposition of the tax depends upon the size of the facility in which the live entertainment is provided. If the live entertainment is provided at a facility with a maximum occupancy of less than 7,500 persons, the rate of the tax is 10 percent of the admission charge to the facility plus 10 percent of any amounts paid for food, refreshments and merchandise purchased at the facility. If the live entertainment is provided at a facility with a maximum occupancy of at least 7,500 persons, the rate of the tax is 5 percent of the admission charge to the facility. (NRS 368A.200) **Section 3** of this bill revises the rate of the tax to provide that: (1) the rate of the tax is 9 percent of the admission charge to a facility where live entertainment is provided; and (2) the tax is not imposed on amounts paid for food, refreshments and merchandise. **Sections 1.03, 1.07, 1.5, 2, 2.1, 3 and 3.2** of this bill provide that the tax applies to escorts and escort services and that the rate of the tax is 9 percent of the total amount of consideration paid for the escort or escort service.

Under existing law, the "admission charge" on which the tax is based is defined as the total amount of consideration paid for the right or privilege to enter, or have access to, a facility where live entertainment is provided. (NRS 368A.010) **Section 1.4** of this bill revises this definition to specifically include in the tax membership fees, certain service charges and any other charge that is required to be paid in connection with admission to a facility where live entertainment is provided. **Section 1.4** also excludes from the tax: (1) the value of certain admissions provided to a patron on a complimentary basis; (2) a charge for access to a table, seat or lounge or for food, beverages or merchandise that are in addition to the charge for admission to the facility; and (3) certain license and rental fees for luxury suites, boxes or other similar products at a facility with a maximum occupancy of more than 7,500 persons.

Existing law excludes certain activities from the tax on admission to facilities where live entertainment is provided. (NRS 368A.090, 368A.200) **Sections 2 and 3** of this bill remove certain exclusions and, thus, pursuant to **section 1.5**, these activities would be subject to the tax on live entertainment if they constitute live entertainment and consideration is collected for admission to the facility where the activity is provided. **Sections 2 and 3** also add provisions that exclude the following from the tax: (1) certain uncompensated, spontaneous performances; (2) activities that do not constitute a performance, including, without limitation, go-go dancing; (3) certain marketing or promotional activities that are associated with the serving of food and beverages; (4) live entertainment provided by the Nevada Interscholastic Activities Association or by certain schools if only pupils or faculty provide the entertainment; (5) athletic events provided by institutions of the Nevada System of Higher Education, if students of such an institution are contestants in the event; and (6) an athletic event conducted by a professional team based

in this State if that team is a participant in the event. Finally, under **section 3**, the exclusion from the tax for race events at a race track in this State as a part of the National Association for Stock Car Racing (NASCAR) Sprint Cup Series is modified to apply only if two NASCAR races are held at the race track.

Section 2.5 of this bill sets forth a procedure by which the Nevada Gaming Commission and the Nevada Tax Commission, as applicable, may determine the amount upon which the tax on live entertainment is based under certain circumstances when that amount is not capable of reasonable determination.

Under existing law, live entertainment provided by certain nonprofit organizations is exempt from the tax on live entertainment. (NRS 368A.200) **Section 3** provides that this exemption applies only if the number of tickets to the live entertainment provided by the nonprofit organization which are offered for sale or other distribution to patrons is less than 7,500. Thus, under **section 3**, the tax on live entertainment applies to any live entertainment provided by a nonprofit organization for which 7,500 or more tickets are offered for sale or other distribution to patrons.

Existing law requires the State Gaming Control Board and the Department of Taxation to deposit all taxes, interest and penalties they receive from the tax on live entertainment in the State Treasury for credit to the State General Fund. (NRS 368A.240) **Section 3.1** of this bill requires the Department of Taxation, on or before October 1 of each year, to deposit $150,000 from the taxes, interest and penalties it receives from the tax on live entertainment, for credit to the Nevada Arts Council which is a division of the Department of Tourism and Cultural Affairs. Under **section 3.1**, this money is authorized for expenditure by the Nevada Arts Council as a continuing appropriation.

Existing law requires the State Gaming Control Board to make investigations and to initiate a hearing by filing a complaint with the Nevada Gaming Commission if the Board is satisfied that a person or entity which is licensed, registered, found suitable or found preliminarily suitable or which previously obtained approval for an activity for which Commission approval was required or permitted should be limited, conditioned, suspended, revoked or fined. (NRS 463.310) **Section 5** of this bill similarly requires the Board to make investigations and to initiate a hearing by filing a complaint with the Commission if the Board is satisfied that such a person or entity has violated certain provisions relating to the tax on live entertainment.

Existing law also: (1) requires a licensed gaming establishment to maintain records relating to, report, pay and truthfully account for the tax on live entertainment; and (2) prohibits certain practices relating to falsifying information or books, records or accounts relating to the tax on live entertainment. (NRS 368A.160, 368A.350, 368A.360) **Section 4** of this bill provides that a violation of such provisions by a licensed gaming establishment **, with the intent to avoid a payment of the tax which is known to be due,** is an unsuitable method of operation and is subject to investigation and disciplinary proceedings by the Board and the Commission.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

3. Sections 1 to 3, inclusive, and 3.2 to 6.5, inclusive, become effective on October 1, 2015, for all other purposes.

Assemblyman Armstrong moved the adoption of the amendment.

Remarks by Assemblymen Armstrong and Kirkpatrick.

ASSEMBLYMAN ARMSTRONG:

The amendment specifies that a violation of the provisions of the live entertainment tax by a licensed gaming establishment is considered to be an unsuitable method of operation and subject to investigative proceedings by the Gaming Commission only if the violation occurs with the intent to avoid taxes known to be due

ASSEMBLYWOMAN KIRKPATRICK:

I want to put something in the record on the same point that Mr. Armstrong has. It reads, "with the intent to avoid a payment of the tax imposed by NRS 368A.200 which is known to be due."

Amendment adopted.

Bill ordered reprinted, reengrossed and to third reading.

Senate Bill No. 509.

Bill read third time.

Remarks by Assemblymen Shelton and Elliot Anderson.

ASSEMBLYWOMAN SHELTON:

Senate Bill 509 revises provisions related to the employees and duties of the State Public Charter School Authority. The bill makes various changes to the governance and staff structure of the Authority. It authorizes the Authority to adopt regulations related to the application and approval to form a charter school and to enter into agreements with school districts and higher education institutions related to charter school sponsorship. It requires the charter school sponsor to ensure compliance with the Family Educational Rights and Privacy Act [FERPA] and other state data privacy statutes, and the Charter School Authority is authorized to adopt regulations concerning its reporting of data concerning school performance and student achievement. It revises procedures related to the application for forming a charter school and authorizes an application to be submitted by a nonprofit charter management organization.

The bill exempts certain high-performing charter schools from the requirement that certain teachers be licensed, establishing alternative qualification for such teachers. It revises actions that may be taken when a charter school persistently underperforms and includes other provisions related to the Authority and the sponsorship and operation of charter schools, including that a sponsor may only reconstitute the governing body one time for those schools with a one-star school rating for five consecutive school years. It provides that a school's annual rating for any school year before the 2015-2016 school year not be included in the count of annual ratings for this purpose.

This bill also amends Assembly Bill 448 of this legislative session to require the Department of Education to evaluate pupil achievement and school performance of an achievement charter school during the sixth year of operation. The Executive Director of the Achievement School District is required to provide the Department with the information necessary to evaluate pupil achievement and school performance of the school. The Department is required to notify parents and legal guardians of pupils in an achievement charter school if adequate progress in pupil achievement has not been met. The notice must include information regarding public schools, educational savings accounts, and any other alternatives for education of the pupil that are available in this state.

Finally, if adequate progress is not being made in pupil achievement and school performance, the Department is required to hold a hearing to decide whether or not to convert the school to a public school under the governance of the board of trustees of the local school district or to continue to operate the school as an achievement charter school for at least six more years. If the school continues to operate in this manner, the Executive Director must terminate the contract with the charter management organization or educational management organization.

ASSEMBLYMAN ELLIOT ANDERSON:

I want to thank the Department of Education and the State Charter School Authority for working with a few of us on amendments. I am really grateful that they did that, and I will be happy to vote for this.

Senate Bill No. 488.

Bill read third time.

Remarks by Assemblymen Edwards and Fiore.

ASSEMBLYMAN EDWARDS:

Senate Bill 488 authorizes the State Department of Agriculture to establish a program to implement federal requirements concerning certain animal remedy, veterinary biologic, and veterinary pharmaceutical products. The bill, as amended, also requires a person who manufactures, distributes, or acts as a guarantor of commercial animal feed to purchase a license and authorizes the Department of Agriculture to perform certain inspections related to commercial animal feed.

ASSEMBLYWOMAN FIORE:

I rise in opposition to Senate Bill 488. This enacts new regulations for labeling animal feed. I mean, there are some good parts, there are some bad parts, but for me, the bad parts overrule the good parts. It requires a license to sell animal feed. It requires certain regulations for animal feed. It overregulates the manufacturing and selling of animal feed. I am a no because it increase fees and regulations.

GENERAL FILE AND THIRD READING

Senate Bill No. 266.

Bill read third time.

Remarks by Assemblymen Kirkpatrick, Fiore, Hansen, Hickey, Ellison, Titus, Dickman, Armstrong, and Wheeler.

ASSEMBLYWOMAN KIRKPATRICK:

I rise in support of Senate Bill 266. This bill, in its third reprint, restructures the live entertainment tax to establish that the tax, with certain exemptions, is based on the admission charge being paid for the right or privilege to enter or have access to either indoor or outdoor facilities where live entertainment is provided. The bill establishes provisions regarding a live entertainment tax to be imposed on escort services, certain nude dancing, performances by disc

jockeys, and certain live entertainment provided at a facility with a maximum occupancy of 15,000 or more. The current live entertainment rate of 10 percent or 5 percent based on a 7,500-seat threshold are deleted and are replaced by a single rate of 9 percent. Provisions of the current law regarding the tax being imposed on food, refreshments, and merchandise are also deleted. The bill also specifies that the tax does not apply to any facility with a maximum occupancy of less than 200; live entertainment provided by certain nonprofit organizations only if the number of tickets offered for sale or distribution to the live entertainment is less than 7,500; or live entertainment that is governed by Nevada Interscholastic Activities Association or sponsored by elementary, junior high, middle, or high school if students or faculty provide the live entertainment. I could go on a little bit more, but I wanted to get the main things. One of the things I left off was that the bill provides an annual appropriation of $150,000 to the Nevada Arts Council.

This is a bill that is revenue neutral. It was structured to ensure that we have one tax rate as opposed to a bifurcated tax rate. This bill changes the threshold, so this is a tax decrease for many because it is one rate. Before, if you were in a facility of less than 7,500, you had to pay 10 percent plus the sales tax. Now you are only paying 9 percent. This is what we talked about with tax structure: broaden the base, lower the rate, and try to capture more folks. I would hope that my colleagues would welcome this. It has been a long time coming. DJs, outdoor concerts—a lot of folks should have always been paying, in my opinion, but if this passes tonight, then it is clear who should be paying.

ASSEMBLYWOMAN FIORE:

This is not a new speech. I am standing in opposition to S.B. 266. I think after what we did yesterday, I am not going to stand in support of more taxes for the people who come to our state. I stand in strong opposition.

ASSEMBLYMAN HANSEN:

This is probably one of the few taxes I want to stand and urge my colleagues to support. I rise in favor of Senate Bill 266. I want to commend our Minority Leader, who has worked diligently for all the sessions I have been here, trying to clean up the very convoluted and confusing tax situation with the live entertainment tax. That is a substantial contributive tax revenue to the General Fund. I want to congratulate her on that and urge the body to support this tax.

ASSEMBLYMAN HICKEY:

I rise in support of Senate Bill 266. Like my colleague from Sparks, I would like to commend the Minority Leader and former Speaker of this body for her work on this bill. We have heard, by way of sponsorship, that this is Senator Lipparelli's bill, but the truth be known, the Minority Leader is behind this effort to stabilize, broaden and, frankly, make fair a very, very complicated tax. She has done the yeoman's work. Later this evening, I know we are going to honor a couple of our prominent members who will be leaving this body, including the person just referenced. This is a testimony and a legacy of that work that will help Nevada make our tax system fairer and make it such that it will support our services and activities. For that, I rise in support and urge my colleagues to as well.

ASSEMBLYMAN ELLISON:

I rise in support of Senate Bill 266. Last session, we vetted this thing out and it did not pass. But from the work that has been done on this, it has been a very good job. Nevada Taxpayers Association was in support. Las Vegas Chamber of Commerce and the Nevada Resort Association were in support. It goes to show you that because of all the hard work, those individuals have come out to support this bill. I ask my colleagues to please support Senate Bill 266.

ASSEMBLYWOMAN TITUS:

I rise in support of Senate Bill 266. You have heard me harp on the fact that we need a fair tax system in this state. We do have to support our schools. We do have to pay for our infrastructure. We do have to fix things. I understand that. Fixing systems that are broken, broadening the bases, and including more are all part of a fair tax system. So I thank you, and I truly support this.

ASSEMBLYWOMAN KIRKPATRICK:

Thank you to all my colleagues, but I will tell you this: I talked yesterday about people working together and getting things done. I know my colleague from the Senate was over here. This is really about him spending the last 120 days to help me look good. When we work together in a bipartisan fashion, Nevada wins. I am very excited and thankful to Senator Lipparelli.

ASSEMBLYWOMAN DICKMAN:

I, too, rise in support of Senate Bill 266. I have to admit that when this bill passed two years ago, I was very opposed to it. But this is to make it better, to make it more fair, and to address some of the issues with it. So I hope you will support this bill.

ASSEMBLYWOMAN FIORE:

I am going to stand with my team and rise in support of S.B. 266. I have to defer to my team, and I am going to support this bill. Thank you, Assemblywoman from District 1.

ASSEMBLYMAN ARMSTRONG:

I rise in support of Senate Bill 266. I know the Assemblywoman from District 1 has worked on this for many, many years. Senator Lipparelli's experience on the Gaming Control Board really contributed to this coming to fruition. I want to thank both of them for taking this on and making this a lot better.

ASSEMBLYMAN WHEELER:

I rise in very, very, very reluctant opposition to this bill. I know that the Minority Leader and the sponsor from the other side have worked very diligently making this tax come together and cleaning things up, and I thank them greatly for that. But what I see, and just in my own principles, when we are going to the hand that feeds us with the entertainment in this state where we live off tourism and we start taxing a little more and a little more—I understand that most of this is not a little more, but there are some spots where we will be adding a little more. I have to say no.

Amendment No. 1062.

SUMMARY—Creates an advisory committee and a technical committee to develop a plan to reorganize the Clark County School District **[.] and revises certain provisions related to collective bargaining.** (BDR ~~[S-900]~~ **22-900)**

Legislative Counsel's Digest:

~~[This]~~ **Existing law requires each local government employer to engage in collective bargaining with the recognized employee organization, if any,**

for each appropriate bargaining unit among its employees. (NRS 288.150) For these purposes, effective upon implementation of the plan for the reorganization of the Clark County School District into local school precincts pursuant to sections 21-29 of this bill, section 20.7 of this bill provides that the District remains a local government employer with respect to employees engaged in any centralized services or functions provided or performed by the District, while each local school precinct becomes the local government employer of employees engaged in the services or functions of the local school precinct. Existing law establishes a process for the resolution of impasses in bargaining involving a school district and an employee organization representing teachers or educational support personnel. (NRS 288.217) Section 20.9 of this bill revises these provisions to make them applicable also to a local school precinct.

Existing law creates county school districts, the boundaries of which are coterminous with the boundaries of the counties of this State. (NRS 386.010) Sections 20.1 and 20.2 of this bill **authorize two or more boards of trustees of contiguous school districts to consolidate the respective school districts by interlocal agreement.**

Section 25 of this bill provides for the creation of an advisory committee ~~[and a technical advisory committee]~~ for the purpose of developing a plan to reorganize the Clark County School District into ~~[not less than five]~~ local school precincts ~~[. Section 25 of this bill creates the advisory committee for the purpose of developing the plan, and section]~~ **and to study the distribution of federal, state and local funds and the impact of local school precincts on public school financing. Section 26** of this bill creates ~~[the]~~ **a** technical advisory committee for the purpose of assisting the advisory committee. **Sections 25 and 26 also** provide for the membership, compensation and duties of the respective committees. **Section 27** of this bill requires the advisory committee, in consultation with the technical advisory committee, to contract with a consultant for the purposes of conducting a study with respect to developing the plan ~~[and to establish certain benchmarks to ensure that the plan may be implemented before the 2017-2018 school year.]~~ **and with the study of the distribution of federal, state and local funds and the impact of the precincts on public school financing. Section 27** authorizes the advisory committee to request from the Interim Finance Committee an allocation of money to conduct the study. **Section 27** prescribes the subject matter which must be contemplated by the advisory committee in developing the plan. **Section 28** of this bill requires the Board of County Commissioners of Clark County to conduct certain public meetings within the County for the purpose of receiving public comment and input with respect to a proposed plan. **Section 28** requires the advisory committee to file the plan with the **State Board of Education, the** Board of Trustees of the Clark County School District ~~[and provides for the immediate implementation of the plan upon filing.]~~ **and the Director of the Legislative Counsel Bureau for transmittal**

to the 79th Session of the Nevada Legislature. Section 28 also requires the State Board to adopt regulations necessary and appropriate to effectuate the implementation of the plan not later than the 2018-2019 school year. The plan must not be implemented until the regulations are adopted and effective.

WHEREAS, The system of public education in Nevada is organized by county school districts, the boundaries of which are coterminous with the boundaries of this State; and

WHEREAS, Recent statistics indicate that the Clark County School District is ranked as the fifth school district in the nation with the highest enrollment of pupils and the seventh largest by area in the continental United States, covering over 8,000 square miles; and

WHEREAS, The Clark County School District, with a pupil enrollment of approximately 315,000 pupils, accounts for 70 percent of the pupils who are enrolled in the public schools of this State; and

WHEREAS, The unique geography of this State has resulted in the concentration of some schools and pupils at locations that are considerably distant and remote from the centralized administrative offices of the various school districts; and

WHEREAS, Allowing smaller school districts to consolidate services, functions and personnel could result in cost effective savings and provide more accessibility for pupils and parents who reside in remote areas of this State; and

WHEREAS, Reconfiguring the structure of the Clark County School District into local school precincts will offer an educational system that is responsive to the needs and concerns of the residents of that school district; and

WHEREAS, The plan to develop local school precincts will take a considerable amount of time and study to ensure the plan is designed in a manner that benefits the residents of the Clark County School District, now, therefore,
