2. Partitions included in a design must:

- (a) Except if required by subsection 3, exclude a life-safety system; and
- (b) Comply with the practice of the industry and all applicable codes.

3. All [doors and door frames] door assemblies included in a design must [comply] :

- (a) Comply with all applicable building codes [.] ; and
- (b) Be limited to doors and door frames for which the required fire-protection rating does not exceed 20 minutes.

4. All ceilings included in a design must be preengineered ceiling systems and the supporting documentation from the manufacturer of the ceiling must be attached to the design.
