3. At the hearing, each party may cross-examine an opposing witness in accordance with NRS 233B.123. After cross-examination of the witness, redirect examination of the witness is limited to matters raised during cross-examination. 3. If there is more than one applicant, petitioner or complainant, the witnesses of all applicants, petitioners or complainants may present direct testimony on an issue before any of these witnesses may be cross-examined on that issue, unless otherwise ordered by the presiding officer.

4. If two or more matters are set for hearing at the same time and place, the matter having the lowest docket number will be heard first, unless the presiding officer directs a different order for the convenience of the parties.

Sec. 22. NAC 703.702 is hereby amended to read as follows:

NAC 703.702 1. All evidence offered in a proceeding, including, without limitation, the testimony of a witness, must be relevant.

2. For the purposes of this section, evidence is “relevant” only if the evidence:

- b) is directly related to the subject matter of the proceeding.*

Sec. 23. NAC 703.785 is hereby amended to read as follows:

NAC 703.785 1. If the Commission determines that any matter or proceeding would be best handled by the issuance of a proposed order, the Commission will issue such an order and the parties will be so notified.

2. Any party of record to the proceeding may file a petition requesting that a proposed order be issued by the Commission. The petition must be filed with the Commission and served upon all parties of record and must set forth the reasons for issuing such a proposed order and state that it will promote the administration of justice and will not cause unreasonable delay in the final determination of the proceeding. Objections to the petition may be served and filed by other parties of record within 5 days after service of the petition.

3. Upon receipt of a proposed order, any party of record may file exceptions to it within ~~20~~ **10** days after the date of service unless a greater or lesser time is designated by the Commission at the time of issuance of the proposed order. 5. A party may answer an exception within ~~10~~5 days after service of it upon him. An answer to an exception must be filed with the Commission and served upon all parties of records.

6. After full consideration of the proposed order, the exceptions, answers and briefs, the Commission will affirm its proposed order by service of an order of affirmance upon the parties or if it deems the exceptions well taken, will revise the proposed order and issue a final order differing from the proposed order.

7. The proposed order is not a final or official order of the Commission subject to appeal unless it becomes an official order of the Commission by affirmance, in which event the date of the order of affirmance becomes the date of the issuance of the order.

8. A certified order of the Commission will be served by the Secretary by mailing a copy of the order to the parties of record or by personal service on them. If a party desires additional copies of the order, the Commission must be notified of the number of copies desired.

3. A petition for reconsideration or rehearing of an order must be filed with the Commission and served upon all parties of record within ~~15~~ *10 business* days after the effective date of the order.

4. An answer to a petition for reconsideration or rehearing may be filed with the Commission by any party of record in the proceeding within ~~15~~ *10 business* days after the filing of the petition. The answer must be confined to the issues contained in the petition. The answer must be served upon all parties of record. Proof of service must be attached to the answer.

5. The Commission will grant or deny a petition for reconsideration or rehearing within 40 days after the date of its filing. If no action is taken by the Commission within this time, the petition shall be deemed denied.

6. Unless otherwise ordered by the Commission, the filing of a petition for reconsideration or rehearing or the granting of such a petition does not excuse compliance with, or suspend the effectiveness of the challenged order.

7. If the Commission grants a petition for reconsideration, it will reexamine the record and order with regard to the issues on which reconsideration was granted and issue a modified final order or reaffirm its original order.

8. If the Commission grants a petition for rehearing, it will, within 20 days thereafter, conduct a hearing to allow the parties to present additional evidence and will issue a modified final order or reaffirm its original order.

9. A modified final order of the Commission issued upon reconsideration or rehearing will incorporate those portions of the original order which are not changed or modified by the modified final order. A modified final order is the final decision of the Commission.

Proceedings concerning investigation into and development of proposed revisions to NAC 703 and 704 regarding changes to the Public Utilities Commission's ("Commission's") regulations regarding practice and procedure before the Commission in Commission Docket No. 04-5030 were noticed on three occasions. A Notice of Workshop was issued on June 25, 2004. A Combined Notice of Intent to Amend/Adopt/Repeal Regulations, Notice of Workshop, and Notice of Hearing was issued on September 14, 2004. A Notice of Workshop was issued on December 29, 2004. The foregoing notices were published in the Elko Daily Free Press, Ely Daily Times, Humboldt Sun, Las Vegas Review Journal, Mineral County Independent, Nevada Appeal, Reno Gazette Journal, and Tonopah Times-Bonanza. Additionally, the notices were mailed to county clerks, county libraries and all persons who requested inclusion on the Commission's service list. The Commission also sought public comment in the form of a Request for Comments issued on June 25, 2004. The Commission also sought comment on the proposed regulations in the form of the Combined Notice of Intent to Amend/Adopt/Repeal Regulations, Notice of Workshop, and Notice of Hearing mentioned above. The Request for Comments was published in the Elko Daily Free Press, Ely Daily Times, Humboldt Sun, Las Vegas Review Journal, Mineral County Independent, Nevada Appeal, Reno Gazette Journal, and Tonopah Times-Bonanza.

In addition to the public response from affected businesses discussed in #3 below, the following represents a summary of the public responses that were made to the Commission at the duly-noticed workshop held on August 3, 2004: Rural Telephone Company and the Nevada Telecommunications Association ("NTA") urged the Commission to adopt regulations limiting the number of data requests in matters involving small utility companies due to the limited resources of such utilities. Central Telephone Company – Nevada, d/b/a Sprint of Nevada ("Sprint") commented on its desire to see the Commission implement an electronic filing system. Sprint also requested clarification of the process for judicial review of Commission decisions. Nevada Bell Telephone Company, d/b/a SBC Nevada ("SBC") also urged the Commission to limit the number of data requests for certain dockets, implement the use of hearing officers as discovery arbiters, and implement an electronic filing system. Sierra Pacific Power Company ("SPPC") and Nevada Power Company ("NPC") proposed a standard procedural schedule process for certain types of cases – general rate, deferred energy, and purchased gas adjustment cases. SPPC and NPC also supported a limitation on data requests, and the implementation of an electronic filing system. SPPC and NPC also urged the Commission to ensure that parties utilize

Master Data Requests to avoid duplicative discovery. The Attorney General's Bureau of Consumer Protection ("BCP") expressed concern with the possibility of limiting data requests and supported Staff's proposed elimination of informal consumer sessions in small water utility rate cases. Southwest Gas Corporation ("SWG") commented that it supported the notion of standard procedural schedules for certain cases before the Commission, the use of Master Data Requests, and urged the implementation of an electronic filing system. Newmont Mining Corporation ("Newmont") expressed concern about any numerical limitations data requests, supported the idea of standard procedural schedules, and urged the implementation of electronic filing. The Regulatory Operations Staff of the Commission ("Staff") urged regulations be adopted to make the discovery process more efficient, but had reservations about limiting the number of data requests available to Staff. Staff also urged a revision of the Commission's noticing process.

In addition to the public response from affected businesses discussed in #3 below, the following represents a summary of the public responses that were made to the Commission at the duly-noticed workshop held on October 26, 2004: SWG commented that it desired a retention of a short timeline for approval of routine tariff filings, believed that all parties should be allowed to respond to all motions, and preferred business days be used for certain deadlines in the proposed regulations. Sprint expressed concern that the proposed regulations appeared to limit the types of cases a hearings officer is able to preside over. Sprint also agreed with SWG that all parties should be allowed to respond to motions, and that if certain deadlines are shortened, that business days be used for those deadlines. Verizon California, Inc., d/b/a Verizon Nevada ("Verizon") proposed that data request limits be applied to all cases, with a larger quantity available in cases involving larger cases and larger companies. NTA expressed support for the proposed limitations on data requests. SBC stated that it felt that shortening deadlines was unnecessary, but urged business days is such deadlines are shortened. SBC also supported data request limitations and expressed concern about shortening deadlines. SPPC and NPC supported the proposed language limiting who may respond to motions and the proposed shortening of deadlines. Expedius Communications, LLC; Pac-West Telecomm, Inc.; and U.S. Telepacific Corp., d/b/a Telepacific Communications expressed concern about the shortening of procedural deadlines, revisions to the procedure of removing a hearings officer, limitations on interventions, and limitations on admissible evidence and witnesses. BCP expressed opposition to data request limitations. Staff concurred with BCP and also suggested that references to out-dated or non-existent standard forms be deleted from the Commission's regulations.

In addition to the public response from affected businesses discussed in #3 below, the following represents a summary of the public responses that were made to the Commission at the duly-noticed hearing held on November 15, 2004: SWG inquired whether a reference to "days" in a section of the proposed regulations referred to business or calendar days. Sprint expressed concern about a provision of the proposed regulation setting forth an expedited schedule for motions filed within fourteen days of a proceeding. SBC requested that the proposed limit on data requests be extended to cases involving large telecommunications carriers. SPPC and NPC requested clarification as to whether the limitation on witnesses in the proposed regulation applied to fact and expert witnesses. Newmont suggested that the deviation regulations in NAC 703 and 704 be conformed. BCP expressed a number of concerns with the proposed regulations including: the ability of parties to respond to all motions, limits on data request, service of data

requests, and witness qualifications. Staff suggested language modifications to the section of the proposed regulations detailing the processing of tariff filings to allow for expedited treatment of routine tariff filings.

In addition to the public response from affected businesses discussed in #3 below, the following represents a summary of the public responses that were made to the Commission at the duly-noticed workshop held on January 20, 2005: Sprint asked for clarification on the types of cases a hearings officer would be able to preside over. Sprint also expressed concern about the procedure for motions filed within fourteen days of a proceeding and the shortened deadline for filing petitions for reconsideration. SBC commented that it still desired a data request limitation for cases involving large telecommunications carriers. Staff proposed modifications to the sections of the proposed regulations concerning the format of tariff filings and the procedure for filing tariff filings. General discussion on Staff's proposed changes followed.

A copy of the summary may be obtained by calling the Commission at (775) 687-6001 or (702) 486-2600, or by writing to the Commission at 1150 East William Street, Carson City, Nevada 89701 or 101 Convention Center Drive, Suite 250, Las Vegas, Nevada 89109.

The comments generally included the following issues of concern: electronic filing of documents; improvement of discovery procedures; procedural deadlines; motion practice; procedures for cases presided over by hearings officers; interventions; tariff filings procedures; and noticing procedures.

4. If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.

Multiple changes were made to the September 14, 2004, noticed regulation after the October 26, 2004, and January 20, 2005, Workshops, and before it was adopted by the Commission at duly noticed agenda meetings on February 9 and 23, 2005.

5. The estimated economic effect of the adopted regulation on the business which it is to regulate and on the public. These must be stated separately, and in each case must include:

- (a) Both adverse and beneficial effects; and**
- (b) Both intermediate and long-term effects.**

The Commission completed a small business impact statement pursuant to NRS 233B.0608. Staff found that the proposed regulations do not impose a direct and significant economic burden upon small businesses nor do they directly restrict the formation, operation, or expansion of a small business.

The Commission cannot estimate the specific economic effect in dollars of the entire regulation upon the public or businesses at this time.

The regulations generally revise practice and procedure before the Commission. The regulations shorten timelines for certain filings by parties to proceedings before the Commission, provide an opportunity to request limitations on data requests, and make other minor changes. The regulations are generally envisioned to make proceedings before the Commission more efficient.

6. The estimated cost to the agency for enforcement of the adopted regulation.

At this time, the Commission cannot quantify what, if any, estimated cost it will incur to enforce the adopted regulation.

7. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.

The Commission is not aware of any overlap or duplication by this regulation of any regulation of any other local, state or federal government agencies.

8. If the regulation includes provisions that are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.

The Commission is not aware of any provision in this regulation that is more stringent than a federal regulation which regulates the same activity.

9. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

The Commission is not aware of any provision in this regulation that provides for a new fee, or increases an existing fee.
