The Commission completed a small business impact statement pursuant to Nevada Revised Statute ("NRS") 233B.0608. On January 27, 2006, the Presiding Officer issued a Procedural Order instructing Staff to conduct an investigation into whether the Proposed Regulation is likely to: (i) impose a direct and significant economic burden upon a small business; or (ii) directly restrict the formation, operation or expansion of a small business. Staff was required to present a report on the investigation to the Commission. At the March 15, 2006, general session of the Commission, Staff presented its report. The Commission voted at that general session to accept Staff's recommendation that the Proposed Regulations do not impose a direct and significant burden on small businesses in Nevada or restrict the formation, operation or expansion of small businesses in Nevada.

The adopted regulations will ensure that Nevada complies with the federal pipeline safety regulations as soon as they become effective.
