INFORMATIONAL STATEMENT

1. A description of how public comment was solicited, a summary of public response, and an explanation how other interested persons may obtain a copy of the summary.

On January 20, 2006 a workshop was conducted at the Office of the Attorney General in Las Vegas and simultaneously via video-conferencing in Carson City, Nevada. This workshop was noticed to all licensees in the form of a mailer sent in December 2005 to their residential addresses of record. Notices were also sent to all persons/businesses that are on the Board's mailing list for agendas. The workshop was also noticed on the Board's website.

On February 23, 2006 a workshop was conducted at the Office of the Attorney General in Las Vegas and simultaneously via video-conferencing in Carson City, Nevada. This workshop was noticed to all persons/businesses that are on the Board's mailing list for agendas. The workshop was also noticed on the Board's website.

On July 20, 2006 a Notice of Intent to Act Upon a Regulation was conducted at the Office of the Board in Las Vegas and simultaneously via tele-conferencing in Reno, Nevada. This was noticed to all persons/businesses that are on the Board's mailing list for agendas. The notice was also posted on the Board's website.

Public response focused on the course-review fee and the use of technicians. The Board provided information to the public as to the cost of operating the Advisory Committee on Continuing Education, conducting the meetings, staff time, office supplies and postage. The public was provided information as to the fees charged by other licensing bodies for the review of courses.

In regards to the use of technicians in the practice of physical therapy, discussion focused on the misuse of technicians in the practice of physical therapy. It was discussed that some physical therapists are allowing technicians to treat patients outside their scope. It was also discussed that some physical therapists are utilizing too many technicians at one time, in violation of the Practice Act.

2. **The number of persons who:**
 - (a) **Attended each hearing:** 21
 - (b) **Testified at each hearing:** 12
 - (c) **Submitted to the agency written comments:** Comments were submitted by 12 persons (9 licensees, 2 continuing education providers and the American Physical Therapy Association). Of the 9 licensees who submitted comments, 7 were in attendance at one of more of the noticed meetings.
3. **A description of how comment was solicited from affected business, a summary of their responses, and an explanation how other interested persons may obtain a copy of the summary.**

On January 25, 2006, all approved providers of continuing education were contacted via mail. History: During the last legislative session, the Board was granted approval to charge for the review of continuing education courses. The Board solicited comments from these providers to learn of any hardships and/or difficulties that may arise from the Board charging such a fee. Out of 127 letters sent, only three providers responded. The responses were: "I don't believe you should go over \$50" and "We do have one or two physical therapists a year who attends our classes. An annual fee of \$150 would be challenging". The American Physical Therapy Association was against the Board charging a fee, although the Board is aware they pay course review fees to many jurisdictions already. The APTA is a national organization. One source of their income is offering continuing education. A copy of the comments may be obtained by calling the Nevada State Board of Physical Therapy at (702) 876-5535.

4. **If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

The regulation was adopted **with** changes to the proposed regulation. This was based on public comment. The changes were to the section which outlined what duties a physical therapist's technician (an unlicensed person) could not perform. It was unanimously determined by the Board, based on public comment, that listing such exclusions may infer that all other treatments/activities would be appropriate for the technician to perform. The Board believes that such language must be removed to ensure public protection.

In addition, one other change was made to NAC 640.592(1)(d). The current language provides that the physical therapist "shall provide the required treatment and reevaluate the patient not less than every sixth day of treatment....". Based on public comment, and confirmed by two Board members who work in in-patient facilities, the Board learned that many patients are forced to skip a day of treatment because of the need for a physical therapist to be involved in care every sixth day. By increasing the amount by one day, the physical therapist can see such patients every week on a regular schedule. This will ensure uninterrupted care of the patients, which is necessary for public protection.

The Advisory Committee on Continuing Education meetings, legal costs, office supplies, staff time and postage cost the Board about \$17,000 - \$20,000 annually.
