NAC 424.100 Purpose of licensing foster homes. The purpose for licensing foster homes is to ensure a living environment where children who are in need of substitute care can be supported in their physical, mental and emotional development and to protect children from abuse, neglect, exploitation or other mistreatment. The licensing process determines whether the foster home is safe for children and that the foster parents or staff can provide suitable care for children.

NAC 424.105 Effect of licensing. (NRS 424.020) The licensing of a foster home by the licensing authority does not obligate the agency which provides child welfare services to support the foster home financially nor obligate the agency which provides child welfare services to place any certain number of children in the foster home. The licensing of a foster home means only that the licensing authority has evaluated the family, physical plant and services, and has determined that the foster home is in compliance with licensing requirements.

NAC 424.110 is hereby amended to read as follows:

NAC 424.110 Application for license. (NRS 424.020, 424.045)

The director or operator of the foster home is responsible for interviewing each prospective employee and submitting a copy of each employment application and résumé to the licensing authority upon request.

3. *No more than one license of a given type may be issued per family foster home.*

4. Intentional misrepresentation or omission of information on a foster home application is cause for the immediate denial of the application or revocation of the license. Such a denial or revocation is not subject to appeal.

NAC 424.115 Withdrawal of application; reapplication. An applicant may withdraw the application for a license at any time. The request to withdraw should be made or confirmed in writing. Reapplication for a license after a withdrawal may be made at any time without penalty.

Chapter 424 of NAC is hereby amended by adding thereto the provisions as set forth below.

NAC 424.120 Investigation of applicant; visits by licensing authority representative; reports. (NRS 424.020, 424.040)

1. A licensing authority representative shall conduct a fair and impartial investigation of each foster home after receipt of an application for the licensing of the home, and shall investigate the home to determine whether the licensing requirements are met and the maximum capacity and range of ages of children for which the home may be licensed. The licensing authority representative shall gather direct and collateral data to complete the licensing study. A licensing authority representative may visit the foster home at any time, announced or unannounced, to determine compliance with licensing requirements and must be available for consultation as appropriate. The licensing authority representative shall visit each foster home at least once ~~[during the annual licensing period]~~ **annually**. That visit may be conducted as part of the initial issuance of a license ~~[or the renewal of a license]~~ **and annually thereafter**.

2. The director or operator of each foster home shall submit such reports as the agency which provides child welfare services requires.

3. The licensing authority may require each group foster home to be inspected upon its application for a license by the local building inspector and any local or state health inspector. A subsequent building inspection may be required if any structural remodeling is done. Any such remodeling must adhere to any applicable requirements relating to building set forth in an ordinance of the local government having jurisdiction.

4. The licensing authority may require all foster homes to be inspected annually by a health authority if individual well water or a septic tank is used.

5. If a foster home is not located on a city water system, the licensing authority may require the analysis of a water sample and the issuance of a report of approval by the appropriate governmental authority. The licensing authority may require foster homes that obtain their water from an individual well to have an annual water inspection to ensure that the water is safe for drinking. Bottled water may be required if the water from the individual well is unsafe.

6. All group foster homes must be inspected as single-family dwellings, as defined in the current codes for those dwellings adopted by the state fire marshal.

NAC 424.135 Inspections: Safety from fire. (NRS 424.020)

1. Fire safety inspections must be conducted by a licensing authority representative or the local fire inspector based on the home's total occupancy, including the number of foster children for whom the home is to be licensed. If the home will accept or is currently occupied by a nonambulatory or severely ~~[handicapped,]~~ disabled ~~[or mentally-retarded]~~ person, each such person must be counted twice when determining total occupancy.

2. If the total occupancy is:

(a) Less than 10, the licensing authority representative shall, except as otherwise provided in this paragraph, inspect the home to ensure the requirements of subsection 3 are met. The licensing authority representative is not required to inspect a home pursuant to this paragraph if the state or local fire inspector has inspected the home in conjunction with a current application.

(b) Ten or more, the state fire marshal or his designee shall inspect the home. The state fire marshal may, based upon information he receives regarding the home, designate the licensing authority representative to conduct the inspection.

3. Requirements for safety from fire must be met as established by the state fire marshal considering the number of occupants and their ability to exit in case of a fire.

NAC 424.140 is hereby repealed

~~[NAC 424.140 Applicability of special licensing procedures. (NRS 424.020) If any person desires to operate more than one foster home, the following special licensing procedures apply:~~
