Adopted Regulation R050-15
Assembly Bill No. 115 of the 78th Legislative Session combined the Board of Hearing Aid Specialists with the Board of Examiners for Audiology and Speech Pathology to create the Speech-Language Pathology, Audiology and Hearing Aid Dispensing Board. (NRS 637B.100, as amended by section 44 of Assembly Bill No. 115, chapter 404, Statutes of Nevada 2015, at page 2303; section 72 of Assembly Bill No. 115, chapter 404, Statutes of Nevada 2015, at page 2322) Section 4 of this regulation updates the definition of “Board” to reflect this change. Sections 5, 6 and 11-13 of this regulation make conforming changes.

Existing law requires the Speech-Language Pathology, Audiology and Hearing Aid Dispensing Board to evaluate the qualifications and determine the eligibility of an applicant for a license to engage in the practice of audiology, speech-language pathology or fitting and dispensing hearing aids. (Section 17 of Assembly Bill No. 115, chapter 404, Statutes of Nevada 2015, at page 2296) Existing law also requires the Board to adopt regulations prescribing the manner in which such a license must be renewed. Existing law authorizes the Board to: (1) adopt regulations providing for the late renewal of a license or the reinstatement of an expired license; and (2) place a license on inactive status if the holder of the license does not engage in, or represent that he or she is engaged in, the practice of the profession for which he or she is licensed and satisfies certain continuing education requirements. (Section 18 of Assembly Bill No. 115, chapter 404, Statutes of Nevada 2015, at page 2296) Section 7 of this regulation requires any person desiring licensure by the Board or desiring to renew, reinstate or convert the status of a license issued by the Board to submit a completed application and the appropriate fee to the Board. Section 7 also removes certain provisions concerning the method that must be used to pay an application fee and the recovery of money by the Board if a personal check is returned to the Board as the result of insufficient money or a stop payment order. Section 8 of this regulation: (1) requires an applicant for the issuance, renewal, reinstatement or change of status of a license to submit proof that he or she has met certain requirements, if applicable, with his or her application; and (2) authorizes the Board to request additional information or an oral interview of an applicant.

Section 3 of this regulation prescribes the manner in which: (1) a standard license may be converted to inactive status; (2) a standard license that has been converted to inactive status may be renewed; and (3) a standard license that is on inactive status may be converted to active status. Section 3 also requires a licensee who holds a license that is on inactive status to comply with the requirements for continuing education that would apply if the license were on active status.

Existing law requires the Board to adopt regulations prescribing: (1) the period for which a license is valid; and (2) the manner in which a license must be renewed. (Section 18 of Assembly Bill No. 115, chapter 404, Statutes of Nevada 2015, at page 2296) Section 9 of this regulation provides that each standard and provisional license expires 1 year after the date on which the license was issued. Section 9 also requires an application to renew a license to be submitted within 30 days after the date on which the license expired. Finally, section 9 requires an application to renew the provisional license of a hearing aid specialist for a second time to include proof that the licensee has applied to take the National Competency Examination administered by the National Board for Certification in Hearing Instrument Sciences, or its successor organization, or another comparable examination approved by the Board.
Section 10 of this regulation authorizes the holder of an expired license to apply for the reinstatement of the license within 3 years after the date on which the license expired. Existing regulations require an applicant to reinstate a license to include in the application proof that the applicant has completed at least 15 hours of continuing education approved by the Board for each year or portion of a year for which the license has been expired. (NAC 637B.0365) Section 10 removes this requirement and instead requires the applicant to include in the application proof that the applicant: (1) has complied with the requirements for continuing education that would apply if the license were active for the year immediately preceding the date of the application; and (2) is certified as a speech-language pathologist, audiologist or hearing aid specialist, as applicable, by certain organizations that certify such professionals.

Existing regulations adopt by reference the “Code of Ethics” of the American Speech-Language-Hearing Association as the standards for ethical conduct of licensed audiologists and speech pathologists. (NAC 637B.040) Section 14 of this regulation repeals this provision.

Section 1. Chapter 637B of NAC is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this regulation.
