Sec. 29. 1. *Except as otherwise provided in this section, the Division will issue provisional medical marijuana establishment registration certificates in accordance with subsection 3 of NRS 453A.326 and section 31 of this regulation to the highest ranked*

applicants until the Division has issued the number of medical marijuana establishment registration certificates designated by the Division.

2. If two or more applicants have the same total number of points for the last application being awarded a provisional medical marijuana establishment registration certificate, the Division will select the applicant which has scored the highest number of points as it relates to the proposed organizational structure of the proposed medical marijuana establishment and the information concerning each owner, officer and board member of the proposed medical marijuana establishment, including, without limitation, the information provided pursuant to subsections 5 and 6 of section 26 of this regulation.

↪ and the Division determines that the application is complete and in compliance with this chapter and chapter 453A of NRS, the Division will issue a provisional medical marijuana establishment registration certificate to that applicant in accordance with subsection 3 of NRS 453A.326 and section 31 of this regulation.

Sec. 31. *1. Except as otherwise provided in subsection 2, the issuance of a medical marijuana establishment registration certificate by the Division is provisional and not an approval to begin operations as a medical marijuana establishment until such time as:*

(b) The local government has issued a business license, or otherwise approved the applicant, for the operation of the medical marijuana establishment.

2. If the local government for a jurisdiction in which a medical marijuana establishment is located does not issue business licenses and does not approve or disapprove medical marijuana establishments in its jurisdiction, a medical marijuana establishment registration certificate becomes an approval to begin operations as a medical marijuana establishment when the medical marijuana establishment is in compliance with all applicable local governmental ordinances and rules.

Sec. 32. If the Division does not issue a medical marijuana establishment registration certificate to an applicant to operate a medical marijuana establishment, the Division must provide written notice to the applicant stating that the Division did not issue a medical marijuana establishment registration certificate to the applicant as a result of the provisions of sections 28 and 29 of this regulation.

Sec. 33. 1. The Division may, at any time it determines an inspection is needed, conduct an investigation into the premises, facilities, qualifications of personnel, methods of operation, policies and purposes of any medical marijuana establishment and of any person proposing to engage in the operation of a medical marijuana establishment. An inspection of a facility may include, without limitation, investigation of standards for safety from fire on behalf of the Division by the local fire protection agency. If a local fire protection agency is not available, the State Fire Marshal may conduct the inspection after the medical marijuana establishment pays the appropriate fee to the State Fire Marshal for such inspection.

2. The Division will not issue a medical marijuana establishment registration certificate until the Division completes an inspection of the medical marijuana establishment. Such an inspection may require more than one visit to the medical marijuana establishment.

3. In addition to complying with the provisions of chapter 372A of NRS and chapter 372A of NAC governing the imposition of an excise tax on medical marijuana establishments, a medical marijuana establishment may not operate until it has been issued a medical marijuana establishment registration certificate from the Division.

4. The Division will not issue a medical marijuana establishment registration certificate until it has received a satisfactory report of full compliance with and completion of all applicable public safety inspections required by state and local jurisdictions, including, without limitation, fire, building, health and air quality inspections, except as otherwise provided in subsection 3 of section 63 of this regulation.

Sec. 34. *1. If a medical marijuana establishment is not fully operational within 18 months after the date on which the Division issued the medical marijuana establishment registration certificate, the Division may revoke the medical marijuana establishment registration certificate. If the Division revokes a medical marijuana establishment registration certificate pursuant to this subsection, the applicable annual renewal fee paid by the establishment is not refundable.*

2. If the Division revokes the medical marijuana establishment registration certificate of a medical marijuana establishment pursuant to subsection 1, the medical marijuana establishment may not reapply for a medical marijuana establishment registration certificate until at least 12 months after the date on which the previous medical marijuana establishment registration certificate was revoked.

Sec. 35. 1. and

(b) The Division determines that the written justification is sufficient to justify the change in location.

3. A medical marijuana establishment may change the location of the medical marijuana establishment to a new location if the local government in which the medical marijuana establishment is located enacts zoning restrictions which prohibit the location of the medical

marijuana establishment after the Division has issued a medical marijuana establishment registration certificate to the medical marijuana establishment.

4. If a medical marijuana establishment is closing, the manager of the medical marijuana establishment must notify the Division of the closing at least 15 days before the medical marijuana establishment is closed and the medical marijuana establishment must surrender its medical marijuana establishment registration certificate to the Division immediately upon closing.

5. If, after investigation, the Division determines that there is cause to believe that a medical marijuana establishment has made changes in ownership or other changes to circumvent the provisions of NRS 453A.334 which prevent the transfer of a medical marijuana establishment registration certificate, the Division will take action to revoke the medical marijuana establishment registration certificate of that medical marijuana establishment.

6. A medical marijuana establishment is responsible to the Division for all costs incurred by the Division to determine whether any changes in ownership or other changes were made to circumvent the provisions of NRS 453A.334 which prevent the transfer of a medical marijuana establishment registration certificate.

3. A report of an audit by an independent certified public accountant of the annual financial statement submitted pursuant to subsection 2.

Sec. 37. *1. 4. The Division will enter and inspect at least annually, with or without notice, each building or the premises of a medical marijuana establishment to ensure compliance with the standards for health and sanitation.

5. The Division will enter and inspect, with or without notice, any building or premises operated by a medical marijuana establishment within 72 hours after the Division is notified that the medical marijuana establishment is operating without a medical marijuana establishment registration certificate.

Sec. 38. 1. If the Division determines that there are any deficiencies in the operation of a medical marijuana establishment or in the provision of services by a medical marijuana establishment, the Division may suspend its medical marijuana establishment registration certificate and request a written plan of correction from the medical marijuana establishment.

2. A medical marijuana establishment whose medical marijuana establishment registration certificate has been suspended pursuant to subsection 1 shall develop a plan of correction for each deficiency and submit the plan to the Division for approval within 10 business days after receipt of the statement of deficiencies. The plan of correction must

include specific requirements for corrective action, which must include times within which the deficiencies are to be corrected.

3. If the plan submitted pursuant to subsection 2 is not acceptable to the Division, the Division may direct the medical marijuana establishment to resubmit a plan of correction or the Division may develop a directed plan of correction with which the medical marijuana establishment must comply.

3. From the time that a batch has been homogenized for sample testing and eventual packaging and sale to a medical marijuana dispensary, facility for the production of edible marijuana products or marijuana-infused products or, if applicable, another cultivation facility until the independent testing laboratory provides the results from its tests and analysis, the facility which provided the sample shall segregate and withhold from use the entire batch, except the samples that have been removed for testing. During this period of segregation, the facility which provided the sample shall maintain the batch in a secure, cool and dry location so as to prevent the marijuana from becoming contaminated or losing its efficacy. Under no

circumstances shall the facility which provided the sample sell the marijuana or edible marijuana products or marijuana-infused products, as applicable, to a medical marijuana dispensary, facility for the production of edible marijuana products or marijuana-infused products or, if applicable, another cultivation facility before the time that the independent testing laboratory has completed its testing and analysis and provided those results, in writing, to the facility which provided the sample.

4. An independent testing laboratory shall immediately return or dispose of any sample received pursuant to this section upon the completion of any testing, use or research. If an independent testing laboratory disposes of a sample received pursuant to this section, the laboratory shall document the disposal of the sample using its inventory control system pursuant to NRS 453A.356 and section 57 of this regulation.

5. Except as otherwise provided in section 127 of this regulation, if a sample provided to an independent testing laboratory pursuant to this section does not pass the microbial, mycotoxin, heavy metal, pesticide chemical residue or residual solvents levels test based on the standards of the Division, the facility which provided the sample shall dispose of the entire batch from which the sample was taken and document the disposal of the sample using its inventory control system pursuant to NRS 453A.356 and section 57 of this regulation.

6. For the purposes of the microbial test, a sample provided to an independent testing laboratory pursuant to this section shall be deemed to have passed if it satisfies the standards set forth in Table 9 of the Cannabis Inflorescence: Standards of Identity, Analysis, and Quality Control monograph adopted by reference pursuant to section 117 of this regulation.

7. For the purposes of the mycotoxin test, a sample provided to an independent testing laboratory pursuant to this section shall be deemed to have passed if it meets the following standards:

<u>Test</u>	<u>Specification</u>
The total of aflatoxin B1, aflatoxin B2, aflatoxin G1 and aflatoxin G2	<20 uG/KG of Substance
Ochratoxin A	<20 uG/KG of Substance

8. For the purposes of the heavy metal test, a sample of marijuana shall be deemed to have passed if it meets the following standards:

<u>Metal</u>	<u>Natural Health Products</u> <u>Acceptable limits uG/KG</u>
Arsenic	<0.14
Cadmium.....	<0.09
Lead.....	<0.29
Mercury.....	<0.29

9. The Independent Laboratory Advisory Committee established pursuant to section 124 of this regulation shall establish the list of pesticides approved for use in the cultivation and production of marijuana, edible marijuana products and marijuana-infused products to be

sold or used in this State. For the purposes of the pesticide chemical residue test, a sample provided to an independent testing laboratory pursuant to this section shall be deemed to have passed if it satisfies the most stringent acceptable standard for an approved pesticide chemical residue in any food item as set forth in Subpart C of 40 C.F.R. Part 180.

10. If a sample provided to an independent testing laboratory pursuant to this section passes the microbial, mycotoxin, heavy metal, pesticide chemical residue and residual solvents levels tests, the independent testing laboratory shall release the entire batch for immediate manufacturing, packaging and labeling for sale to a medical marijuana dispensary, a facility for the production of edible marijuana products or marijuana-infused products or, if applicable, another cultivation facility.

11. An independent testing laboratory shall file with the Division an electronic copy of each laboratory test result for any batch that does not pass the microbial, mycotoxin, heavy metal, pesticide chemical residue or residual solvents levels test at the same time that it transmits those results to the facility which provided the sample. In addition, the independent testing laboratory shall maintain the laboratory test results and make them available to the Division upon request.

12. The Division will take immediate disciplinary action against any medical marijuana establishment which fails to comply with the provisions of this section or falsifies records related to this section, including, without limitation, revoking the medical marijuana establishment registration certificate of the medical marijuana establishment.

Sec. 121. 1. *The Division will establish a proficiency testing program for independent testing laboratories.*

- 2. Each independent testing laboratory must participate in the proficiency testing program established pursuant to this section.*
- 3. If required by the Division as part of being issued or renewing a medical marijuana establishment registration certificate, the independent testing laboratory must have successfully participated in the proficiency testing program within the preceding 12 months.*
- 4. To maintain continued registration as an independent testing laboratory, a laboratory must participate in the designated proficiency testing program with continued satisfactory performance as determined by the Division.*
- 5. An independent testing laboratory must analyze proficiency test samples using the same procedures with the same number of replicate analyses, standards, testing analysts and equipment as used for product testing.*
- 6. The scientific director of the independent testing laboratory and all testing analysts that participated in a proficiency test must sign corresponding attestation statements.*
- 7. The scientific director of the independent testing laboratory must review and evaluate all proficiency test results.*
- 8. An independent testing laboratory must take and document remedial action when a score of less than 100 percent is achieved during a proficiency test. Documentation of remedial action must include, without limitation, a review of samples tested and results reported since the last successful proficiency test.*
- 9. Successful participation is the positive identification of 80 percent of the target analytes that the independent testing laboratory reports to include quantitative results when applicable. Any false positive results reported will be considered an unsatisfactory score for the proficiency test.*

10. Unsuccessful participation in a proficiency test may result in limitation, suspension or revocation of the medical marijuana establishment registration certificate of the independent testing laboratory.

Sec. 122. *Each independent testing laboratory must establish policies for an adequate chain of custody and requirements for samples of products provided to the laboratory for testing or research purposes, including, without limitation, policies and requirements for:*

- 1. Issuing instructions for the minimum sample and storage requirements;*
- 2. Documenting the condition of the external package and integrity seals utilized to prevent contamination of, or tampering with, the sample;*
- 3. Documenting the condition and amount of the sample provided at the time of receipt;*
- 4. Documenting all persons handling the original samples, aliquots and extracts;*
- 5. Documenting all transfers of samples, aliquots and extracts referred to another independent testing laboratory for additional testing or whenever requested by a client;*
- 6. Maintaining a current list of authorized medical marijuana establishment agents and restricting entry to the laboratory to only those authorized;*
- 7. Securing the laboratory during nonworking hours;*
- 8. Securing short- and long-term storage areas when not in use;*
- 9. Utilizing a secured area to log-in and aliquot samples;*
- 10. Ensuring samples are stored appropriately; and*
- 11. Documenting the disposal of samples, aliquots and extracts.*

Sec. 123. *1. Each independent testing laboratory that claims to be accredited must provide the Division with copies of each annual inspection report from the accrediting*

organization, including, without limitation, any deficiencies identified in and any corrections made in response to the report.

2. An independent testing laboratory may not claim to be accredited unless it is accredited by an accrediting organization that is nationally recognized and approved by the Division.

3. Inspection by an accrediting organization is not a substitute for inspection by the Division.

Sec. 124. *1. The Division will establish an Independent Laboratory Advisory Committee comprised of members which ensure that the membership of the Advisory Committee is representative of the independent testing laboratories and other medical marijuana establishments in this State.*

2. The Advisory Committee shall:

(a) Provide recommendations to the Division regarding the testing of medical marijuana;
(b) Make recommendations to the Division for any changes to this chapter relating to the testing of medical marijuana; and

(c) Assist the Division in creating and updating a policy manual to be used by the Division to guide the testing of edible marijuana products and marijuana-infused products by independent testing laboratories.

Sec. 125. *1. Upon the request of the Division, a cultivation facility and a facility for the production of edible marijuana products or marijuana-infused products must provide an independent testing laboratory designated by the Division with a sample of marijuana or a marijuana product in the amount listed in section 118 of this regulation for random quality assurance compliance checks in a secure manner such that the laboratory can confirm that it has received and is testing the correct sample.*

2. The independent testing laboratory that receives a sample pursuant to subsection 1 shall, as directed by the Division:

- (a) Screen the sample for pesticides, chemical residues and unsafe levels of metals;*
- (b) Perform any other quality assurance test deemed necessary by the Division; and*
- (c) Report its results to the Division.*

3. The cultivation facility or facility for the production of edible marijuana products or marijuana-infused products is responsible for all costs involved in screening or testing performed pursuant to this section.

Sec. 126. An independent testing laboratory is not limited in the amount of usable marijuana and marijuana products it may have on the premises of the laboratory at any given time, but the laboratory must maintain records to prove that all usable marijuana and marijuana products on the premises are there for testing purposes only.

Sec. 127. 1. If a lot of usable marijuana fails a quality assurance test, any marijuana plant trim, leaf and other usable material from the same plants automatically fails the quality assurance test. Upon approval of the Division, a lot of marijuana that fails a quality assurance test may be used to make a CO₂ or solvent-based extract. After processing, the CO₂ or solvent-based extract must pass all required quality assurance tests.

2. At the request of a cultivation facility or a facility for the production of edible marijuana products or marijuana-infused products, the Division may, on a case-by-case basis, authorize a retest to validate the results of a failed test. The cultivation facility or facility for the production of edible marijuana products or marijuana-infused products is responsible for all costs involved in a retest performed pursuant to this section.

Sec. 128. *No employee of this State who is responsible for implementing or enforcing the provisions of this chapter or chapter 453A of NRS may have a direct or indirect financial interest in a medical marijuana establishment or be employed by or volunteer at a medical marijuana establishment.*

Sec. 129. *1. The Division will, at least annually, consider:*

(a) The maximum fees set forth in NRS 453A.344 and section 49 of this regulation;

(b) The revenue received from such fees; and

(c) The gifts and grants received by the Division pursuant to NRS 453A.720.

2. Based on its evaluation conducted pursuant to subsection 1, the Division may reduce the fees set forth in section 49 of this regulation at such times as, in its judgment, the Division considers a reduction equitable in relation to ensuring that the fees are revenue neutral and reflecting the gifts and grants received by the Division pursuant to NRS 453A.720.

Sec. 130. *For the purposes of subparagraph (3) of paragraph (b) of subsection 3 of NRS 453A.200, the maximum allowable quantity of edible marijuana products and marijuana-infused products is an amount that is equivalent to 2 1/2 ounces of usable marijuana.*

Sec. 131. *The Division may, upon findings made following a public hearing that the public interest will be supported by limiting the cultivation of medical marijuana in this State, limit the amount of marijuana in production within this State.*

Sec. 132. *1. A medical marijuana establishment:*

(a) May only promote marijuana or a marijuana product through marketing the laboratory results on the label of the marijuana or marijuana product; and

(b) Must not use an independent testing laboratory or other laboratory to promote any other attributes of marijuana or a marijuana product.

2. The provisions of this chapter governing labeling and testing of marijuana and marijuana products apply to all marijuana and marijuana products, including, without limitation, pre-rolls.

Sec. 133. *1. The Division may charge and collect a fee from any medical marijuana establishment that is involved in a complaint submitted to the Division by a consumer to recover the costs of investigating the complaint after the investigation is completed if the complaint is substantiated. The fee will be based upon the hourly rate established for each investigator of medical marijuana establishments as determined by the budget of the Division.*

2. As used in this section, “substantiated” means supported or established by evidence or proof.

Sec. 134. *Except as otherwise provided in NRS 239.0115, any information received by the Division related to the security of a medical marijuana establishment is confidential and must not be disclosed by the Division.*

Sec. 135. *1. Except as otherwise provided in this section and NRS 239.0115, the Division will and any designee of the Division shall maintain the confidentiality of and shall not disclose the name or any other identifying information of any person who facilitates or delivers services pursuant to this chapter or chapter 453A of NRS. Except as otherwise provided in NRS 239.0115, the name and any other identifying information of any person who facilitates or delivers services pursuant to this chapter or chapter 453A of NRS are confidential, not subject to subpoena or discovery and not subject to inspection by the general public.*

2. Notwithstanding the provisions of subsection 1, the Division or its designee may release the name and other identifying information of a person who facilitates or delivers services pursuant to this chapter or chapter 453A of NRS to:

(a) Authorized employees of the Division or its designee as necessary to perform official duties of the Division; and

(b) Authorized employees of state and local law enforcement agencies only as necessary to verify that a person is lawfully facilitating or delivering services pursuant to this chapter or chapter 453A of NRS.

3. Nothing in this section prohibits the Division from providing a local government with a copy of all information and documentation provided as part of an application to operate a medical marijuana establishment upon the request of the local government.

Sec. 136. *1. The Division will register and track each attending physician who advises a patient that the medical use of marijuana may mitigate the symptoms or effects of the patient's medical condition. To the extent possible, the Division will maintain a confidential record of:*

(a) The number of patients whom the physician advises that the medical use of marijuana may mitigate the symptoms or effects of the patients' medical conditions;

(b) The chronic or debilitating medical conditions of such patients;

(c) The number of times the physician advises each patient that the medical use of marijuana may mitigate the symptoms or effects of the patient's medical condition;

(d) The number of different chronic or debilitating medical conditions for which the physician advises each patient that the medical use of marijuana may mitigate the symptoms or effects of the patient's medical conditions; and

(e) How frequently the physician advises each patient that the medical use of marijuana may mitigate the symptoms or effects of the patient's medical condition.

2. Based on its evaluation of the records maintained pursuant to subsection 1, if the Division determines that an attending physician is advising patients that the medical use of marijuana may mitigate the symptoms or effects of the patients' medical conditions at a rate that appears unreasonably high, the Division will notify the Board of Medical Examiners or the State Board of Osteopathic Medicine in writing so that the appropriate board may investigate the notification as a complaint against the physician pursuant to chapter 630 or 633 of NRS, as applicable.

3. The Division will, for each calendar year, submit to the Board of Medical Examiners and the State Board of Osteopathic Medicine for each physician licensed by that board the information the Division maintains pursuant to subsection 1.

4. If the Division has reason to believe that the public health, safety or welfare imperatively requires action, the Division may refer, in writing, a case involving an alleged violation by a physician of any provision of this chapter or chapter 453A of NRS related to the medical use of marijuana to the Board of Medical Examiners or the State Board of Osteopathic Medicine so that the appropriate board may investigate the referral as a complaint against the physician pursuant to chapter 630 or 633 of NRS, as applicable.

Sec. 137. 1. *The Division will maintain a log of each person who is authorized to cultivate, grow or produce marijuana pursuant to subsection 6 of NRS 453A.200.*

2. The log must indicate, for each person:

(a) Whether the person is authorized to cultivate, grow or produce marijuana and whether the person is authorized to engage in two or more of those activities; and

(b) Whether the person is authorized to do so because:

(1) The person who holds the registry identification card or his or her designated primary caregiver, if any, was cultivating, growing or producing marijuana in accordance with chapter 453A of NRS on or before July 1, 2013;

(2) All the medical marijuana dispensaries in the county of residence of the person who holds the registry identification card or his or her designated primary caregiver, if any, closed or were unable to supply the quantity or strain of marijuana necessary for the medical use of the person to treat his or her specific medical condition;

(3) As a result of illness or lack of transportation, the person who holds the registry identification card and his or her designated primary caregiver, if any, are unable reasonably to travel to a medical marijuana dispensary; or

(4) No medical marijuana dispensary was operating within 25 miles of the residence of the person who holds the registry identification card at the time the person first applied for his or her registry identification card.

3. The Division will ensure that the contents of the log are available for verification by law enforcement personnel 24 hours a day.

Sec. 138. *If a patient who holds a valid registry identification card or his or her designated primary caregiver, if any, selects one medical marijuana dispensary to serve as the designated medical marijuana dispensary of the patient pursuant to NRS 453A.366, the Division will communicate the designation to the designated medical marijuana dispensary.*
